Chapter 61: An Unexpected Situation

Northwind Mountain, the end of the outer peaks.

The cold northern wind was like a knife, cutting Lu Benwei's skin. Chu Yan's little face was also red from the scratches.

Chu Yan let out a breath and asked, "Annoying fellow, how did you level up so quickly?"

Lu Benwei had leveled up three times since he started hunting monsters. He was originally at level 19, but after a period of hunting, Lu Benwei's level was now the same as Chu Yan's.

Lu Benwei did not answer directly but asked, "How far away are you from level 23?"

Chu Yan pondered for a while and replied, "I'll probably be able to level up after killing two more level-25 monsters or one more level-30 monster."

The monsters in this area of Northwind Mountain were all around level 20. There were very few level-25 monsters.

Killing only level-20 monsters would not increase their levels much.

"We can't go on like this," Lu Benwei said, "Let's go to the central area."

Chu Yan nodded and followed Lu Benwei.

...

In Northwind Mountain, in the base camp of the Zhejiang Hunter University, a group of people came from another camp. They were still young, but no one dared to look down on them.

"It's been really lively these few days."

"There was Hai Yue's team before, and today, the elites of the new Hunter Special Combat Class of the Zhejiang Hunter University are here too."

"The monsters in the vicinity will have to rest in peace for a while."

"I still remember yesterday, there was a new student from Zhejiang Hunter University who formed a team in this base."

"He's so young, yet he's already forming a team. His future achievements will be extraordinary!"

There were seven people from the Hunter Special Combat Class here. Mo Tianyu and Gao Renchao were among them.

Hearing everyone's discussion, they looked at each other.

"Boss, I'll go ask them," Mo Tianyu said. Mo Tianyu walked to the front of the crowd.

"Guys, is the new student of Zhejiang Hunter University called Lu Benwei? " Mo Tianyu asked indifferently.

"I think that's his name," someone replied quickly, "There's a very beautiful girl beside him."

Mo Tianyu's eyes flashed with a cold light. After thanking him, he immediately returned to Gao Renchao's side.

"Boss, I've confirmed it."

"It's Lu Benwei and Chu Yan," Mo Tianyu said coldly.

Gao Renchao smiled noncommittally and then snorted coldly.

"Liu Qingfeng will protect you in school. I ran into you here. Let's see how you're going to run this time."

Gao Renchao's eyes flashed with a cold light.

"If it wasn't for the fact that I was on a mission in Northwind Mountain, and the fact that the date of the freshmen tournament was changed at the last minute, would the first and second place of the freshmen tournament be the two of you?" he muttered to himself coldly.

"A magician wants to trample on a hunter? In your dreams!"

When Gao Renchao said that, the people around him could feel the killing intent from his body.

Someone accidentally met his gaze and immediately felt as if they had fallen into an ice cellar.

“How did this Lu Benwei provoke this expert?” Many people were confused.

In previous years, the top three of the Jiangsu and Zhejiang Hunter University freshmen tournament belonged to the Hunter Special Combat Class.

This year, Lu Benwei and Chu Yan suddenly appeared and won first and second place in the freshmen tournament. Compared to Chu Yan, who won first place, Gao Renchao was more dissatisfied with Lu Benwei.

During the competition, Lu Benwei not only gained points at an insane speed, but he also stole the limelight from the Hunter Special Combat Class. In the final stage of the elimination round, he had even defeated Mo Tianyu in an instant.

What was more difficult to say was that Lu Benwei was a magician. It was the most useless class among all combat-related classes.

They had no combat power and their leveling speed was the last among all the classes. It was not even as good as a lifestyle class.

However, this magician, whom everyone looked down on, had stepped on the head of the Hunter Special Combat Class and advanced to the finals.

At the same time, Lu Benwei was given high hopes by the school.

As the strongest person in the Hunter Special Combat Class, Gao Renchao could not take this lying down.

Gao Renchao patted Mo Tianyu’s shoulder and said, “I’ll go again and find out which direction Lu Benwei and Chu Yan went.”

Mo Tianyu nodded and left without another word.

...

On the other side, Lu Benwei had already entered the central area of Northwind Mountain. Unlike the howling cold wind outside, the central area was covered in a thick layer of fog.

Lu Benwei did not dare to be careless. He focused and slowly explored forward.

“Hu!”

A light gasp of hot water hit the back of Lu Benwei’s neck.

Lu Benwei did not even turn his head and said patiently, “Don’t mess around!”

A sinister and strange laugh was heard. This laughter did not belong to Chu Yan! It was right behind him.

Lu Benwei suddenly woke up and jumped forward with big steps. He pulled a great distance away from the strange figure behind him.

Eye of Insight was instantly activated.

[Mist Woman]

[Level: 29]

[Able to use fog to confuse enemies. Skills include Ice Poison, Water Impact, etc!]

Lu Benwei touched the back of his neck and found a pool of blue-green liquid.

“Ice Poison?” Lu Benwei sneered.

“What a pity, my venomous Viper Set can already resist 90 percent of poison attacks!”

Lu Benwei finished off Mist Woman with three punches.

The mist then dissipated by more than half.

Lu Benwei’s pupils shrank. The ground was littered with corpses.

“This definitely couldn’t have been killed by a Mist Woman,” Lu Benwei exclaimed.

The corpses on the ground were numerous and tragic. Some of them were frozen into pieces, while some of them were bitten, and a large part of their bodies was missing.

There were even some that were unrecognizable, looking like a pile of mud. Their blood had long dried up and was stuck to the trees on the ground.

Lu Benwei took a deep breath and made a bold guess.

The time of death for this group of people was the same, but they were not killed by the claws and teeth of the same monster.

At this moment, a familiar shout could be heard. “Annoying fellow, where are you?”

It was Chu Yan. Lu Benwei went over.

On the other side, some clues were found in many bases.

Since yesterday, all the teleportation arrays had been broken. At the same time, any message could not be sent out. Even the bases could not communicate with each other.

At first, they did not pay much attention to it, thinking that it was caused by the harsh environment. After a while, it would be fine.

However, they soon realized that very few people who went hunting for monsters in the base had returned.

He finally noticed something. The outer base was shrouded in the legendary demonic qi.

The person in charge of Zhejiang Hunter University made a quick decision.

“Attention all staff members! Do everything you can to recall all the students!”

Chapter 62: Demonic Monsters

Lu Benwei finally found Chu Yan.

“Annoying fellow, are you alright?” Chu Yan saw Lu Benwei and immediately asked with concern.

“I’m fine. What about you? What happened?” Lu Benwei immediately replied.

Chu Yan shook her head and pointed in a direction. “Look over there first.”

Lu Benwei looked in the direction she was pointing. As expected, Chu Yan’s situation was the same as his.

Corpses were strewn all over the ground in front of them, and it was a tragic sight.

Lu Benwei also realized that he could not contact the outside world. He frowned and fell into deep thought.

Looking at the equipment of this group of people, they were all above level 25 when they were alive.

“This is the central area. It’s not to the point where everyone will die,” Lu Benwei said while thinking.

Chu Yan’s expression was calm as if she had seen through everything.

“Do you know what’s going on?” Lu Benwei asked.

“I’m guessing it’s a demonic monster,” Chu Yan said, her hand supporting her chin.

Demonic monster?! Lu Benwei was shocked. Then, he realized that this was the only explanation.

Demonic monsters were not ordinary monsters. They were the most powerful of all ferocious monsters and posed the greatest threat to humans.

It was rumored that it was because of their arrival that the catacombs of other dimensions were brought to the world. That was why humans were forced to enter an era where everyone changed their occupations.

In reality, humans were no match for monsters at the same level. However, the demonic monsters should be living deep within the secret realm, so why would they suddenly appear to kill humans?

After heaving a sigh of relief, Lu Benwei said in a deep voice, "Chu Yan, we can't stay here for long. I think we should return to the camp as soon as possible."

Chu Yan nodded. "Yes. No matter what, this group of monsters isn't only large in number, but their levels are also high. They may be far above level 30!"

The two of them agreed and left. After walking for about four or five miles, Lu Benwei suddenly stopped.

"What's wrong?" Chu Yan asked.

"Pay attention, there seems to be the sound of battle." Lu Benwei made a gesture to keep quiet.

The two of them calmed their hearts and listened carefully.

"Captain, you should leave quickly!"

"As many as we can!"

His voice was very low, but Lu Benwei and Chu Yan could hear the anxiety and despair in his tone.

After identifying the location, Lu Benwei hurriedly said, "Over there, let's go." They immediately strode in that direction. When the two of them got closer, they saw that the man was very close to them.

They discovered that the people who were surrounded were Hai Yue's team.

Hai Yue's team was facing two lizard-like humanoid monsters that were less than 1.5 meters tall.

In the team, only Miss Hai Yue and three other members were left.

Eye of Insight activated!

The information about the two monsters was instantly ready.

[Monster: Demonic lizard]

[Level: 25]

[Lizard-type monster, powerful, attack and defense in one. Its only weakness is fire!]

At this moment, one of the demonic lizards was entangled with Hai Yue. It had the upper hand and was gradually forcing Hai Yue into a corner.

The other one was stepping on a pretty healer of the team, sticking out its long tongue that was covered in saliva and licking her face.

The remaining two members were both heavily injured, and they looked at the lizard-like monster with fiery red eyes.

Lu Benwei saw this and immediately held the Ancient Sword of Clarity. He wanted to use the Divine Sword of Destruction.

Thinking that the powerful force could definitely hurt the healer, Lu Benwei kept away the Ancient Sword of Clarity.

Myriad Light Fist exploded!

The white fists that covered the sky and the earth converged into one and blasted toward the demonic lizard. The demonic lizard gently flicked its tail.

Myriad Light Fist was scattered like smoke. Taking advantage of this gap, the healer of Hai Yue's team pulled away from the demonic lizard.

Hai Yue noticed the movement and was slightly surprised.

"Lu Benwei?"

"Chu Yan?"

Lu Benwei and Chu Yan were only freshmen at Zhejiang Hunter University, but they were able to make it here. It was unbelievable.

"Lu Benwei, be careful. These two are level-25 monsters close to gold."

Apart from the normal classification of levels, monsters also had another system of classification of strength.

Level 10 was bronze, level 20 was silver, level 30 was gold, level 40 was diamond, and level 50 was monster king.

Compared to demonic monsters of the same level, silver demonic monsters were more powerful, comparable to hunters of level 30! Furthermore, some silver monsters were not weaker than level-40 hunters!

Hai Yue was at level 32, and she was barely able to keep one of them busy. However, the strength of the remaining members could not compete with the monster at all.

“Lu Benwei, hurry up and go!”

Thinking that Lu Benwei might only be around level 20, Hai Yue felt that he was a burden.

“You’re no match for these two monsters!” Hai Yue said with a serious expression.

Lu Benwei directly used a healing skill on her. In an instant, Hai Yue was enveloped by a warm and soft light. A warm current spread through her entire skin, and her blood volume returned to its peak state.

In the next second, Hai Yue instantly pulled away from the demonic lizard.

“What a terrifying healing skill!” Hai Yue exclaimed.

“A healing skill recovered all of my strength. This must have cost you a lot, right?” Not only did Hai Yue not show any gratitude, but she also rebuked him.

In her understanding, a magician in his early twenties with a skill that could recover an astonishing amount of health must have its backlash.

Even if Lu Benwei’s talent was high in her eyes, it was impossible for him to not have a backlash.

To these two powerful monsters, the only difference was whether they died faster or later.

In her eyes, Lu Benwei had completely become a burden. However, this powerful healing skill was only Lu Benwei’s Minor Healing.

After letting out a heavy sigh, Hai Yue said sadly, “Xiaoyan, you guys take them and leave first.”

“As far as I can go,” she said after a pause. Xiaoyan was the healer that Lu Benwei had just saved, and her status in Hai Yue’s team was not low.

“But what about you?” she asked.

“I’ll stall them. You’ll know if they’re dead or alive when you get out.” Hai Yue’s voice carried a hint of despair.

At this moment, two strange and unrestrained laughter could be heard.

“Don’t waste your energy. You’re all my good food.”

“Stop struggling, little beauties, and obediently serve our lord!”

The two demonic lizards spoke in the human language and stared at all the women in the crowd with greedy eyes. They raised their hands in front of their chests and kept rubbing in the air.

“Hehe, Big Brother, now that there’s another beauty, how do you think we should split her?” The demonic lizard who looked shorter laughed pervertedly.

The big brother of the demonic lizard stretched out its long tongue with thick saliva and licked his lips lustfully as if it was tasting a delicious meal.

“We’ll take one each of those two pretty ones. The remaining one will be our slave and serve us.” After saying that, it laughed out loud.

“Good idea!” the demonic lizard underling replied and continued, “But let’s make this clear first. I want that beautiful woman who came later.”

After it finished speaking, it looked at Chu Yan with a lustful gaze and swept its gaze over her body.

Chu Yan shuddered and almost vomited the meal she had the night before.

At this time, Lu Benwei decided to make a move.

Chapter 63: The Monster Tide

He had just taken a step forward. Lu Benwei’s movements were noticed by the two demonic lizards.

“You’re the one who hit me, aren’t you?” the younger demonic lizard demon asked in a frivolous tone.

“It seems that the woman who came later has a good relationship with you. Hehe!”

After a series of perverted laughter, the demonic lizard continued, "Kid, I'll give you a chance to keep your corpse intact. Clean up the little girls that came later, take off their clothes, tie them up, and bring them to me. Then, I'll leave your corpse intact."

Lu Benwei frowned slightly, and his stomach churned. Such a disgusting monster could not be left alive!

At this moment, Lu Benwei felt an extremely hot wave of heat on his back. He instantly reacted and made way for the angry Chu Yan.

The moment he dodged, a fire dragon was shot toward the demonic lizard. The temperature was extremely hot, roasting this part of the world.

Everyone felt the temperature rise suddenly.

Then, the fire dragon that could destroy space instantly wrapped around the demonic lizard. The extremely high temperature instantly evaporated all the water in its body. The next second, a burning flame burned every inch of its skin.

Lu Benwei blinked his eyes. The demonic lizard had already turned into a piece of charcoal.

Everyone was stunned. What kind of powerful magic was this that it could instantly kill a monster that was close to gold rank?

Then, Chu Yan's eyes narrowed and were filled with death as she looked at the remaining demonic lizard. After it saw Chu Yan's power, large beads of sweat fell like rain and its body trembled.

If she could instantly kill its younger brother, she could naturally instantly kill it as well!

"Plop!"

The demonic lizard knelt. "Great one, please spare me. We have eyes but failed to recognize such an expert."

Lu Benwei wanted to find out the reason from him. However, just as he took a step forward, he heard a cold and clear voice.

"Combustion!"

"Boom!"

The demonic lizard that was kneeling on the ground instantly became a roasted lizard. The duration was less than a second and it was completely turned into a charred corpse.

The air was filled with a thick burning smell.

“A general concept magic?”

Everyone on Hai Yue’s team had their mouths wide open. Their eyes were wide open as they spoke in disbelief.

Lu Benwei’s eyes narrowed. This was the first time he had heard of concept magic.

“What’s a concept magic?” Lu Benwei asked.

When Hai Yue heard this, she looked at him with a complicated expression. “You don’t even know the concept magic? ”

Lu Benwei shook his head.

At this time, Chu Yan looked a little weak. She was leaning against a tree and gasping for air. Her proud chest heaved up and down violently with her heavy breathing.

Lu Benwei glanced at her and then turned to look at Hai Yue. He replied, “I really don’t know.”

Hai Yue’s expression was a little surprised.

“Concept magic is a powerful type of magic,” she said after a sigh. “For example, Chu Yan’s burning... As long as the target’s strength is weaker than our own, we can burn them to ashes, even if they’re an army! Rather than a concept, it’s more like an order!” After saying that, Hai Yue had a guess in her heart.

Lu Benwei was only able to get here because of Chu Yan, who was not very strong.

After Lu Benwei heard Hai Yue’s description, he gasped. “What a terrifying spell!”

He turned his head again and looked at Chu Yan. Her condition had improved a little, but her pretty little face was still a little pale.

Chu Yan raised her head and saw Lu Benwei looking at her. She could not help but say proudly, “What are you looking at? Haven’t you seen me before?”

Lu Benwei smiled and asked, “Chu Yan, are you okay?”

Hearing Lu Benwei’s concern, Chu Yan was so happy that she revealed her teeth. She patted her proud chest and said, “I’m fine. Dealing with two little monsters is nothing!

“That’s good!” Lu Benwei sighed and asked Hai Yue, “Miss Hai Yue, did you only encounter these two monsters along the way?”

Hai Yue shook her head and replied, "The monsters we encountered weren't just these two."

After a short pause, a pained expression appeared on Hai Yue's face, and she remained silent.

At this time, Xiaoyan interrupted. "We encountered a diamond-rank monster."

Lu Benwei's pupils shrank. A diamond-rank monster that was as powerful as a level-50 hunter!

"That diamond-rank monster only used one move," Xiaoyan said painfully, "It killed all of our companions except us. Fortunately, when the diamond-rank monster used its second attack, it seemed to have received some order and suddenly stopped. That's how we survived. After that, I met these two demonic lizards."

Lu Benwei sighed after hearing this. No wonder the star team of the Northwind Mountain would be forced into such a state by these two pervert monsters.

"Alright, don't say anymore." Hai Yue interrupted Xiaoyan's story with a gloomy face and asked Lu Benwei, "What about you? Did you encounter any powerful monsters along the way?"

Lu Benwei shook his head. "No, I just found a pile of dead bodies. I had a bad feeling about it. Also, the contact with the base has been cut off. I thought that no matter what, it would be better to return to the base first. But I ran into you guys."

After listening to Lu Benwei's story, Hai Yue's face became serious.

"It seems that the development of the situation has far exceeded our imagination. There may be more powerful monsters coming in the future. Lu Benwei, I hope that your team can cooperate with Hai Yue's team. Right now, the most important thing is to return to the camp as soon as possible."

Lu Benwei also had the same idea and nodded in agreement.

It was at this moment that the sky suddenly turned gloomy and dark clouds fell like lead. Everyone's nerves immediately tensed up.

"Boom!"

"Rumble!"

In the distance, smoke and dust rose, and the sound was like ten thousand horses galloping. It was so powerful that it seemed like it could devour the world.

“Members of Hai Yue’s team, be on guard!” Hai Yue shouted in a clear voice.

The remaining three members immediately got into formation.

Lu Benwei also knew. This was going to be a powerful monster attack. The Ancient Sword of Clarity appeared in his hand.

Eye of Insight was activated. The next second, the information about the monsters entered Lu Benwei’s brain.

The number and variety were as numerous as the hair on an ox.

Everyone sucked in a breath of cold air, their nerves stretched to the limit!

Chapter 64: Rain

Lu Benwei’s cold eyes swept across the monsters in front of him. Some of them were 30 feet tall and their bodies were as sturdy as mountains. Some crawled on the ground, with the heads of bulls and the bodies of snakes, their steel-like scales opening and closing.

They could all speak the human language.

“I’m thirsty.”

“It’s been a long time since I’ve seen such a beautiful human woman. How should I taste her?”

Hai Yue’s face was as white as snow when she faced so many monsters. Even though she had been on the battlefield for a long time, she could not help but feel a trace of fear.

“What do we do?” Xiaoyan of Hai Yue’s team asked with a trembling voice.

“Everyone, don’t panic. The highest level of these monsters is diamond rank!

Lu Benwei activated the Eye of Insight. He had to grasp the information about this group of monsters at the first possible moment.

Just as she said, the highest level of these monsters was no more than level 40. He could still fight them! Everyone heaved a sigh of relief.

“Since that’s the case, let’s retreat while we fight!” Hai Yue’s team said.

Everyone nodded and got into their respective positions.

Lu Benwei no longer had any concerns. He held the Ancient Sword of Clarity in his right hand and Holy Light Shield in his left hand, ready to use his three skills.

On the side, Hai Yue was holding a long spear and a large shield that was as hard as a rock. She was wearing armor and looked valiant and heroic. Hai Yue was a knight, and she had both offensive and defensive capabilities.

Everyone's expressions were tense, like arrows on a taut string.

Strange howls sounded one after another, and the monsters swarmed forward.

Lu Benwei took the lead and released three enhancement skills!

“Boom!”

A mighty force descended from the sky and landed on his body.

The huge shadow of the heavenly dog appeared. It had a terrifying expression and was imposing without being angry. It scared some monsters and stunned them for a moment.

Divine Sword of Destruction. The powerful sword light covered the sky and the earth, instantly killing the group of monsters.

After exhaling, Lu Benwei tilted his head. He wanted to check on the others, but he realized that everyone was looking up at the sky.

A shadow that covered the sky and the earth instantly covered the ground. Extremely high temperatures descended from the sky, roasting the earth.

Lu Benwei looked up at the sky. Chu Yan once again summoned a huge fireball from the netherworld.

It was burning with a blazing flame that seemed to be able to burn everything.

“Boom!”

The fireball crashed heavily into the ground, causing heat waves and dust to rise. Countless monsters were turned into ashes.

“Is this something a level-20 elemental can do?” The corners of Hai Yue's mouth twitched, and her face was filled with disbelief. She was once again amazed by Chu Yan's strength.

At the same time, she was even more certain that Lu Benwei was just a magician who knew how to suck up to people. After secretly glancing at Lu Benwei, Hai Yue began to throw herself into a new round of battle.

On the side of the monsters.

Chu Yan's powerful magic shocked all of them!

The leader of the monster had bloodshot eyes, and it was gritting its teeth so hard that they made cracking sounds.

"Disdainful of humans!"

It was so angry that its body trembled violently. Losing more than half of its monster compatriots in an instant, anger had overwhelmed their rationality.

"Attack! I want to capture that elementalist alive! And that human male, his sword light also killed a large number of our comrades!" the leader roared.

As if they had received an order, the monsters roared and attacked Chu Yan and Lu Benwei!

Lu Benwei sneered in his heart. The duration of his three great enhancement skills was still there, and this group of monsters was nothing to him!

The bird-type monsters were very fast. They flapped their powerful wings and arrived in front of Lu Benwei in the blink of an eye.

Lu Benwei's mouth curved up, and he released Lightning Speed! The wind blew under his feet as he shrunk the ground into inches as if he had mastered the law of speed.

Lu Benwei thought to himself, 'This wave of monsters seems to be coming for me and Chu Yan. If we allow them to attack, we'll only become more and more passive.'

As a result, he advanced instead of retreating, and with a whoosh, he burrowed into the center of a group of monsters.

"Human, you're seeking death!"

One of them looked like a goblin and was over ten feet tall. It held a club made of human bones.

"Die!"

The club made of human bones smashed toward Lu Benwei. It was powerful and heavy, and countless people had been turned into a pool of blood by it!

Lu Benwei's eyes were as calm as an ancient well. The Ancient Sword of Clarity in his hand buzzed loudly and golden light bloomed. The power of the Divine Sword of Destruction was shocking.

The moment it was released, its power turned the goblin demon into ashes. As the sword light swept across, countless monsters were killed or injured!

...

As Chu Yan had used a powerful spell, the backlash was quite serious. At this time, her face was pale, and her breath was unstable.

"Don't be afraid, I'll protect you!" Hai Yue stood in front of Chu Yan.

After witnessing Chu Yan's power, Hai Yue knew that she was the key to breaking the situation.

As for Lu Benwei, Hai Yue had just seen him enter a group of monsters.

She wanted to stop him but then she thought about it. If he entered so rashly, he would most likely lose his life. After sighing, Hai Yue focused on protecting Chu Yan.

"Knight's Judgement!" Hai Yue's long spear burst out with holy light.

A bull-type monster was decapitated, and its blood splattered all over the ground. Even her face was stained with some blood, making her look extraordinarily beautiful.

"Hmph, you're only at this level?" Hai Yue said proudly. She raised her spear and beheaded a group of monsters.

Just as she was feeling smug, a ball of pitch-black demonic qi shot over.

Demonic qi devoured people.

Hai Yue's beautiful face turned pale, and her strength dropped at an alarming rate.

The situation of the other members of the team was not optimistic either. The demonic qi was devouring their life force at a terrifying speed.

Hai Yue was shocked and frantically used her defensive and recovery skills. However, it was to no avail. None of their skills could stop their life force from being drained.

However, the monsters were still pouncing upward. The situation was critical.

A beam of holy light suddenly descended from the sky and bathed the entire place. In an instant, everyone felt full of vitality.

“What is this?” the members of Hai Yue’s team exclaimed as they felt the holy light.

“A health regeneration skill?” Hai Yue was especially shocked.

She checked her strength. She had recovered to full health in an instant!

Hai Yue was even more shocked, and her face was filled with disbelief.

It was a health recovery skill that could restore a person to full health. The effect was too terrifying. Even a legendary-grade recovery skill might not be able to do it!

“Did an expert come to save you?”

Due to this holy light, Chu Yan recovered and said happily, “It’s the annoying fellow!”

Lu Benwei? Hai Yue was especially shocked. How was this possible? How could a magician who was only a little over level 20 master such a legendary recovery skill?

It was also at this moment that a loud noise came from behind everyone.

She looked back.

Lu Benwei bathed in the holy light of Rain and killed countless monsters with the Divine Sword of Destruction, looking like a god of war!

Chapter 65: Terrifying Fluctuations

Everyone on Hai Yue’s team was dumbfounded.

Such a powerful damage skill! A recovery skill with such remarkable effects!

It was caused by a magician!

Shocking! It was unbelievable!

Lu Benwei was bathed in the holy light of Rain.

With the One-Click Skill Support, Rain’s proficiency had already reached S grade! The duration of the skill had reached a terrifying five minutes!

As for the recovery of his qi and blood every second, it reached 999 points per second!

The most annoying thing was that this was a group recovery skill!

Holding the Ancient Sword of Clarity, the monsters seemed to be made of mud under his feet.

Lu Benwei raised his hand and swung his blade. The sword light with soaring power pierced through the sky and the earth, killing and injuring countless monsters.

He was covered in blood.

All the members of Hai Yue's team were scared witless. "It's too terrifying."

Hai Yue stared at Lu Benwei, her eyes empty. At this moment, she could no longer tell who the monster was.

However, she quickly recovered from her shock and continued to fight alongside Lu Benwei.

Chu Yan was bathed in the holy light of Rain.

Powerful magic spells were thrown at the monsters as if they were free.

For a time, the monsters in this world let out agonizing cries, and the monster army was forced to retreat! It did not take long for this group of monsters to be completely eliminated.

It was a pity that he did not manage to leave behind a single monster to gather information.

"Phew, killing is so satisfying!" Chu Yan raised her arms and shouted. Her delicate face was covered with blood, and she had turned into a little devil.

Lu Benwei's face was still a bit solemn. "Don't be happy too early. This group of monsters isn't of a high grade, and they've just caused such a huge commotion. I'm afraid that even more powerful monsters will be attracted here."

Just as he finished speaking, a terrifying energy wave suddenly came from the main peak of Northwind Mountain, attracting everyone's attention.

A purple light pillar that reached the heavens and the earth shone from the peak of the main peak into the sky. Then, a mass of death qi swept over.

Wherever it went, flowers, grass, and trees withered and rotted. Some low-level monsters were so frightened by this terrifying death energy that their livers and galls ruptured.

The aura of death swept through Lu Benwei and the others, causing a sense of discomfort.

"What a powerful light wave."

Chu Yan supported her forehead with one hand and looked at the main peak.

“I really want to go and see,” Chu Yan said heartlessly, “Maybe it’s a great demonic monster. When the time comes, we’ll hit the back of its head with a brick. His treasures will all be ours.”

“It’s a moment of life and death. We can’t be careless,” Lu Benwei said seriously.

“Lu Benwei is right.” Hai Yue continued, “We should think of a way to leave Northwind Mountain.”

Chu Yan laughed in embarrassment.

Just as he opened his mouth to speak, he was interrupted by a hurried rustling sound. Immediately after, a large number of footsteps came from the forest behind him.

Everyone was on high alert as they looked into the forest. However, one after another, the hunters revealed themselves.

Some of them were seriously injured and were being supported by others. Some of them had dull expressions and their hearts were like dead ashes as if they had encountered a major change.

This group of people saw Lu Benwei and the others and then looked at the corpses of the monsters on the ground. They asked in surprise, “You guys dealt with so many monsters?”

Chu Yan was about to answer yes, but Lu Benwei beat her to it. “No, we heard the commotion here and were attracted here.”

Everyone looked at Lu Benwei and the others, who did not look like they had fought, and chose to believe his words.

At this time, a mocking voice was heard.

“Tsk, I’ve really overestimated you.” The person who spoke was Gao Renchao.

“I thought you were the one who killed all the monsters on the ground. It’s no wonder. When a magician encounters a monster, he can only flee in panic!

At the same time, Mo Tianyu and the other students from the Hunter Special Combat Class were also beside him.

Their bodies were in a sorry state. Even Gao Renchao’s face was blackened by the smoke.

Chu Yan heard Gao Renchao's cold sneer and said, "Gao Renchao, you've been beaten so badly by the monsters. How can you still have the face to talk about us?"

Hearing this, the veins on Gao Renchao's face bulged.

"Chu Yan, don't think that I won't dare to fight you just because you're a girl!" Mo Tianyu said.

"Chu Yan, on the day of the freshmen tournament, you injured so many of my classmates. I haven't even settled the score with you yet."

Chu Yan looked at Mo Tianyu in disdain.

Chu Yan sighed and said, "On the day of the freshmen tournament, your classmates teamed up to fight against me. You were defeated by my magic, yet you still don't know how to keep your tail between your legs. How do you still have the face to settle scores with me?"

After saying that, Mo Tianyu and the other members of the Hunter Special Combat Class had veins popping out on their faces, and they were red from head to neck.

To Chu Yan, it was because they were not as good as her.

At this moment, Lu Benwei stood up. "Gao Renchao, I have no grudges against you. Why are you always targeting me?"

Hearing this, Gao Renchao sneered. "Indeed, there's no enmity between us. As long as you promise me one thing, I promise I won't cause you any more trouble in the future."

"What is it?" Lu Benwei asked patiently.

Gao Renchao sneered again and said, "As long as you and Chu Yan announce it, the real first and second place will be us from the Hunter Special Combat Class. You guys were just lucky enough to get first and second place. Naturally, I won't find trouble with you guys."

Lu Benwei laughed noncommittally as if he had heard the biggest joke.

"The freshmen tournament's results are obvious to all, how can you change it as you please? Moreover, everyone knows that Mo Tianyu was defeated by me because he wasn't as good as me. Don't you feel ashamed to say that you're the second place?"

Hearing this, Mo Tianyu flew into a rage and rushed to Lu Benwei.

"You were just lucky. I'll show you my true strength!"

Lu Benwei did not even blink as he kicked Mo Tianyu's ribs like he was a dead dog.

At this time, he still had not put away the venomous Viper Set. With Mad Demon +10, Lu Benwei's strength was increased to 300 percent. His kick was like a heavy hammer!

Mo Tianyu's ribs were broken on the spot, and his internal organs were pierced. He spat out a mouthful of blood and was sent flying.

"Lu Benwei, do you want to fight?" Gao Renchao was furious and shouted, "It's a serious crime to attack your own kind in the land of monsters!"

Gao Renchao's voice instantly attracted the attention of many people. They were full of anger and looked at Lu Benwei indignantly.

According to the Alliance's law, if you attack your own kind in the land of monsters, you can be captured on the spot!

Furthermore, at this critical moment of life and death, to attack his own kind...

"Are you guys blind?" Lu Benwei coldly asked, "He was the one who attacked me first. I was only defending myself."

At this time, many people also calmed down and became onlookers.

The two of them looked at each other with fiery red eyes. The atmosphere was like a barrel of explosives that caught fire at the slightest spark.

Hai Yue could not hold it in any longer.

"Alright, stop quarreling. The most important thing now is to leave Northwind Mountain."

Chapter 66: Can You Give Me A Scroll That Enhances My Skills?

"Boom!"

As soon as Hai Yue's voice fell, a thunderous sound exploded. Many people were so frightened that they suddenly quivered.

Then, everyone turned to look at the source of the voice, and their expressions changed.

At the point where the sky and the ground met, a storm of sand stirred up, covering the sky like dark clouds.

Everyone's faces changed and turned pale.

“Rumble!”

Before everyone could catch their breath, another thunderous sound rang out behind them. The sky was filled with sand and dust again, rolling like dark clouds covering the earth.

Two waves of monsters, as numerous as the hair on a cow, gathered toward them like lightning.

The surging aura of monsters hit him in the face. Lu Benwei and the others were caught in the middle.

“What do we do?”

Some people were so scared that they fell to the ground, their faces pale.

“So many monsters! So terrifying!”

“Mommy, I want to go home...”

The despairing will to die shrouded everyone’s head.

However, at this moment, the two waves of monster armies suddenly stopped advancing. Everyone was confused.

Some people tried to break out of the encirclement, but before they could get close, their lives were taken by a ball of demonic qi.

Everyone was shocked and began to guess.

“What are they doing?”

“They’re not attacking us, and they’re not letting us out either. What the hell is the monster army doing?”

Lu Benwei narrowed his eyes and fell into deep thought.

“I’m guessing they’re waiting,” he said as he had an idea.

“Why are they waiting?” Everyone gathered around.

Lu Benwei continued, “Most of the monsters will become stronger at night. To kill us in one fell swoop, they would wait until night to attack. That’s their best choice. The longer we wait here, the more desperate we feel. When they attack, we’ll be like a pile of loose sand.”

Everyone's faces turned serious when they heard this.

"Little Brother, what do you think we should do?"

"We're like a plate of loose sand, each with his own thoughts," Lu Benwei said in a deep voice, "Now that the monster army is right in front of us, we'll die if we act on our own. We can only survive if we work together and break out of the encirclement."

Lu Benwei paused and glanced at Gao Renchao and the people from the Hunter Special Combat Class.

"Gao Renchao, I have no intention of fighting with you. This is a matter of life and death. I hope you can let go of your prejudice against me."

Then, Lu Benwei cast a Minor Healing on Mo Tianyu. His injuries recovered instantly.

The others also tried to persuade him. "Yeah, you two are classmates. What's there to feel bad about?"

"And this little brother has also cured your friend's injury. Everyone should be united now."

The corners of Gao Renchao's mouth twitched, and he clenched his teeth so hard that they made cracking sounds. With so many people watching, he really could not find trouble with Lu Benwei.

Gao Renchao snorted coldly and crossed his arms in front of his chest. "Alright, we'll do as you say. We'll break out of this encirclement together."

Seeing that Gao Renchao had temporarily reconciled with Lu Benwei, everyone heaved a sigh of relief.

Soon, someone among them suggested, "Everyone, if we break out of the encirclement by force, I'm afraid we'll suffer heavy casualties. We should think of a way to minimize our losses."

After that, everyone fell into deep thought.

Someone suggested, "Why don't you tell us your class, talent, and combat power first? This way, we can better discuss our tactics."

"I'll tell you first. My name is Zhang Wu, and I'm a warrior. I'm level 34!"

"I'm Song San. I'm a wizard, level 31!"

...

“Super expert, Earth Shaker, level 29!” Gao Renchao said coldly.

When everyone heard this, they immediately exclaimed, “It’s a level-29 Earth Shaker. No wonder he came from the Hunter Special Combat Class of Zhejiang Hunter University.”

“You’re so young and promising. With the help of such a powerful person, we have a higher chance of breaking through the siege.”

Gao Renchao listened to everyone’s exclamations and looked at Lu Benwei with a mocking expression.

Lu Benwei turned a blind eye and said indifferently, “I’m Lu Benwei, magician, level 23. If you all have a scroll that can increase your abilities, I might be able to lead the team to break out of this encirclement.”

Lu Benwei knew that this sentence was not appropriate, but the situation was critical.

More than half of the people had already finished introducing their classes. Lu Benwei found a serious problem. That was that the team was lacking supporters! There were about 50 to 60 of them, but only four to five of them were supporters.

Even though Lu Benwei had the system, which was a heaven-defying existence to protect him, he was still a little overwhelmed when he faced the monster army. After weighing the pros and cons, he forced himself to beg for a skill scroll that could increase his abilities.

It was just as he had expected. Everyone’s expression changed when they heard his request.

“You? magician? You want a skill scroll that can increase your abilities?”

Some of them bit their lips so hard that they turned purple, trying their best to hold back their laughter.

“I had a good impression of you at first, but I didn’t expect you to be a magician.”

“Let’s not talk about whether or not everyone has a skill scroll that increases your ability. But you’re a magician, a waste that was born to learn skills. How can you comprehend a skill in such a short time?”

Lu Benwei listened to everyone’s banter and said patiently, “Please believe me.”

“I might as well believe that the monster army will retreat on their own,” someone continued to mock.

More and more people looked at Lu Benwei in disdain.

At this moment, Gao Renchao suddenly walked over.

“Lu Benwei, I’m willing to give you a skill scroll to increase your abilities as a thank you gift for curing Mo Tianyu’s injuries.”

He took out a skill scroll and handed it to Lu Benwei.

Lu Benwei was slightly surprised, thinking, ‘How did Gao Renchao suddenly turn over a new leaf?’

Out of courtesy, Lu Benwei stretched out his hand and said, “Thank you.”

Before he could finish, he heard a “pa” sound. The skill scroll fell to the ground.

Gao Renchao’s expression suddenly turned into one of mockery. He said pretentiously, “How could you be so careless?”

“Gao Renchao, what’s the point of doing this?” Lu Benwei frowned.

“What? I’ve let bygones be bygones and give you a skill scroll, but you don’t like it?” Gao Renchao suddenly raised his voice.

It immediately attracted the attention of many people.

Gao Renchao continued to shout, “Lu Benwei, I’m kind enough to give you a scroll to increase your skill. We’re classmates. It’ll give you more protection when you break out of the encirclement. It’s fine if you don’t like it, but why did you throw it on the ground?”

The people around also started to blame Lu Benwei.

“You magician, how can you not know what’s good for you?”

“This is a skill scroll given to you by an Earth Shaker. How can it be bad?”

“You just said that you wanted a skill scroll. Now, this little brother is giving it to you, but you embarrass him in public.”

All the people who did not know the truth pointed their fingers at Lu Benwei.

At the same time, his words were filled with flattery toward an expert.

Chapter 67: The King of Slaughter

Lu Benwei looked at Gao Renchao coldly.

At this moment, Gao Renchao had an innocent look on his face, but a cunning smile was hidden at the corner of his mouth.

“Gao Renchao, do you think I’m a fool?” Lu Benwei sneered.

After saying that, he bent down and picked up the skill scroll, spreading it out in front of everyone.

“Open your eyes and take a good look. What skill is this?”

When everyone heard this, they were stunned. Someone released their divine telekinesis and checked the skill scroll.

“Is this an exclusive skill scroll for Earth Shaker?” the man said in an embarrassed tone.

“Gao Renchao, why is this your exclusive skill?” Lu Benwei asked coldly.

“Did you take the wrong one?”

The expert looked embarrassed and did not say anything.

“How did Lu Benwei know that this skill scroll is my exclusive skill?” Gao Renchao muttered to himself.

The other people who had just taught Lu Benwei a lesson were now ashen-faced and their cheeks were burning.

“You’re bullying the weak,” Lu Benwei said in a deep voice, “Just because you have the hidden class of Earth Shaker, you slandered me first and still won’t apologize?”

Someone sneered when he heard that.

“Little Brother, don’t go too far with your words.”

“You’re a magician, and he’s an Earth Shaker. It’ll be clear who’s more important to us when we break out of the encirclement later.”

The others also began to blame Lu Benwei.

“That’s right. You’re a magician. You’ll still have to rely on us to save your life after we break out of the encirclement. Who gave you the courage to speak to us like that?”

“I really don’t know how you got in here, kid.”

Gao Renchao saw that everyone was still speaking up for him, so he looked at Lu Benwei in disdain and whispered, "Lu Benwei, see, this is the difference between the two of us. I'm blatantly humiliating you, so what?"

His arrogant attitude was full of disdain for Lu Benwei.

Lu Benwei sneered in his heart. Just as he was about to open his mouth to retort, he was stopped by Hai Yue.

"Lu Benwei, this is for you!" Hai Yue held a skill scroll in her hand.

"What's this?" Lu Benwei asked in surprise.

"This is a skill scroll that can increase my abilities that I obtained by chance. There's no one in my team who's suitable for it. The situation is urgent and there's not much time left. You should hurry and study it!"

Hai Yue knew that Lu Benwei was not a simple magician.

Just that group skill with an astonishing amount of recovery was enough to surpass many magicians. It was no wonder that Chu Yan, who had abnormal talent and strength, was not the team leader.

However, he was not confident that he could comprehend a skill in such a short time.

The people around him also tried to persuade him.

"It'll be good enough if he can finish learning the skills by tomorrow."

"Even if he's lucky and comprehended a skill in an instant, can a magician take control of the transformation? "

"That's right, Miss Hai Yue. What kind of battle can a magician control?"

Gao Renchao sneered coldly. "Miss Hai Yue, aren't you afraid that you'll lose everything by doing this?"

Hai Yue's pretty face was cold as she said in a deep voice, "You don't need to care about what I do."

Then, she looked at Lu Benwei with a worried expression. At this time, Lu Benwei sat cross-legged and began to study the skill.

A trace of regret suddenly rose in her heart. Shrugging her shoulders, she let him be.

Chu Yan stood beside Lu Benwei to prevent people from disturbing him. She was the only one who believed in Lu Benwei from beginning to end.

An hour had passed.

A drawn-out war drumbeat made everyone's expression tense.

The hunters in charge of scouting ahead reported that the monster army was about to attack!

Everyone was shocked. "Didn't we agree to attack at night?"

This caused their plan to fall into a passive state.

"What do we do now?" someone asked.

"Should we care about that magician?"

Everyone's expression changed slightly.

That magician should still be studying the skill.

Magicians were burdens to begin with, and now that they were comprehending skills, their movements were limited, and they were a burden among burdens.

"I've finished learning the skill. Don't worry."

Lu Benwei's voice made everyone's expression change again.

"You're done?" everyone exclaimed in disbelief.

Lu Benwei walked over and nodded solemnly.

"How is that possible?"

"It's only been an hour. How could a magician finish learning a skill?"

Everyone's faces were filled with disbelief. Even Hai Yue could not believe it.

"Lu Benwei, I know you're very talented, but it's almost impossible for a magician to learn a skill in such a short time."

At this time, Gao Renchao's mocking voice was heard.

"Lu Benwei, don't be pretentious. Everyone is waiting for you to lead the team to break out of the encirclement!"

The moment Lu Benwei got the skill, he had already triggered the system and successfully comprehended it. To avoid being too shocking, he chose not to attract people's attention.

Lu Benwei ignored everyone's ridicule and silently closed his eyes. Everyone's facial features began to twist as they prepared to sneer at this person.

Suddenly, a black ring rose from under their feet.

[Boost skill: Killing aura]

[Effect: Increase the target's attack speed by 20 percent and attack by 30 percent]

The eyes of everyone who had this ring of light under their feet instantly turned blood red, and a violent killing intent rose in their hearts.

Everyone felt the effects of the skill, and their expressions became subtle. The effect of this skill was comparable to an epic skill scroll.

However, Lu Benwei finished it within an hour.

The veins on Gao Renchao's face bulged slightly, and his mouth was bitter as if he had just eaten a mouthful of sh*t.

"So what if he has finished learning the skill?" he said with a cold face, "Can he change the situation?"

After Lu Benwei heard this, he sneered in his heart and his eyes narrowed.

A black ring of light rose from beneath everyone's feet. It was not over.

[Sharp Blade Peak]

[Heavenly Dog's Wrath]

[Heavenly Dog's Blade]

Lu Benwei released three major enhancement skills, and everyone's combat power increased exponentially.

Some of them watched helplessly as their attributes shot up like a rocket. Just the attack power alone had increased by at least three times!

After taking in a deep breath of cold air, everyone exclaimed in unison, "What kind of terrifying amplification ability is this?!"

“Rumble, rumble!”

In the distance, the monster army had sent out an advance party. There were as many as a hundred of them, and every one of them was above silver rank.

After receiving such a huge attribute boost, some of them took the lead in gaining more information.

“Shattering Impact!”

A magician who was skilled in using ice attribute skills shot a fragile ice ball at the team of monsters.

“Boom!”

The ice ball was amazingly fast and hit the center of the team in an instant. Then, it shattered. Each shard of ice was as sharp as a knife, spreading rapidly in all directions.

“Whoosh, whoosh, whoosh!”

Each of the ice blades sliced through the tough skin of the monsters, causing a huge amount of damage!

The ice magician was overjoyed. “The damage of my skills has increased by at least three times!”

When the others saw this, they were so shocked that their mouths were wide open.

Then, they used their skills on the team of monsters to experience it themselves!

Chapter 68: Young Master

Inside a cave on the main peak of Northwind Mountain.

If there was a purgatory in the world, it would definitely be here.

Human tendons hung between the cracks of the mountain rocks like willow branches, and human flesh had turned into a carpet, spread on the ground.

A mountain of corpses and a sea of blood, the stench was unbearable.

The scarlet blood flowed along the ground and into the center of the cave, where it was swallowed by a magic circle.

The light emitted by the formation was becoming brighter and brighter at a speed visible to the naked eye.

At this time, a strong wind suddenly blew outside the cave, and heavy snow fell from the sky with ice shards.

The bird-type demonic monster from earlier had descended from somewhere and transformed into a human-faced man with a bird's body and a pair of wings. He was a few feet tall and quite handsome.

The moment the Birdman stepped into the cave, the temperature in the cave immediately dropped by a few degrees, and blood flowed into the cave.

At this time, a lazy voice came from the depths of the cave.

"Xue Peng, how many times have I told you? Your presence will delay the completion of the array."

The Birdman strode forward, its claws like an elephant's palm, splashing blood everywhere.

After walking into the depths of the cave, the monster beast knelt.

"Young master, please calm down. I have something to report," the Birdman said respectfully.

In front of him was a throne made of human bones. The white skeletons reflected a scarlet blood light. On top of it sat a man with horns. He had a majestic appearance, and every breath he took exuded a terrifying aura.

The young master opened his ink-black eyes and nodded slightly, signaling the Birdman to report the situation.

"Right now, the human hunters from the outside world are all approaching this place."

Hearing this, the young master changed his posture and asked again, "It's fine. As long as we wipe out this trace, we can complete the array!"

After saying that, the young master of the monster pointed his finger. A pitch-black container filled with clear water appeared between the two of them.

Then, the water's surface immediately reflected the scene of the battlefield in front.

"Echo Strike!"

A hunter warrior slammed the ground with a heavy hammer.

The phantom of the heavenly dog attached itself to his body, providing him with powerful attributes.

At the same time, the hammer in his hand shone with the cold light of Sharp Blade Peak!

“Boom!”

The ground cracked open, and a shock wave that passed through the ground attacked a group of monsters.

In an instant, the sound of bones cracking followed.

The strength of this team of monsters was decreasing at a speed that could be seen with the naked eye.

“Lu Benwei, this kid is really f*cking awesome!”

“I never dreamed that I would be so fierce one day!”

As they all had Lu Benwei’s extremely powerful skills, everyone felt like they had god’s help.

After the wave of monsters was repelled, everyone began to praise Lu Benwei.

“The key is that he can increase our level and heal. As expected of a magician!”

“In the future, I’ll never look down on magicians again!”

Lu Benwei listened to everyone’s praise and said, “Now isn’t the time to be careless. It’s been half an hour, but there’s still no movement from the monsters. I think the next wave of monsters will be even more violent.”

When everyone heard this, they did not seem to care.

“It’s okay. Lu Benwei, you can increase your strength and heal. We’ll kill as many as they come.”

Someone even suggested, “I think we should all fight around Lu Benwei. This will minimize our losses.”

“Good idea.”

Everyone raised their arms and completely regarded Lu Benwei as their backbone.

Lu Benwei sighed and turned to look at the pillar of light on the main peak of Northwind Mountain.

He frowned slightly. With so many different monsters, they could form a huge army. There must be a powerful monster behind this, controlling everything.

However, there were no clues yet, so Lu Benwei could only take one step at a time.

Suddenly, Lu Benwei felt an extremely cold gaze. His eyes narrowed as he scanned the crowd.

Among the crowd, only Gao Renchao's facial muscles were tense, and he was staring at him with blood-red eyes.

Lu Benwei once again stole his limelight.

"Damn it, Lu Benwei stole our limelight again! Damn it!" Gao Renchao gritted his teeth in anger. "Being stepped on by a magician, the Hunter Special Combat Class has lost all their face!"

"But we can only watch," Mo Tianyu said helplessly. "We all need Lu Benwei's ability."

After letting out a heavy sigh, Gao Renchao swallowed the anger in his heart.

...

"Boom!"

From the entrance of the main peak of Northwind Mountain, a terrifying aura fluctuation came out.

The young master of the monster clan laughed coldly. "To be able to detect my divine will, this human magician is quite interesting."

Lu Benwei's face was reflected on the black container in front of him.

After a pause, the young master of the monster said sternly, "Xue Peng, you'll personally lead the elites and kill that magician at all costs."

The Birdman was puzzled. He frowned and said, "It's just a magician. Judging from his aura, he's only level 23. Can't we just send a warrior instead?"

"Are you questioning my orders?" the young master retorted coldly.

The temperature in the cave suddenly rose by 80 percent.

His blood was boiling, and blood-colored water vapor shrouded him.

“Your subordinate wouldn’t dare.” Xue Peng’s expression changed greatly. “I’ll immediately lead the troops and kill that magician!”

“Birdman, I hope you’ll remember that our plan can’t be messed up,” said the young master.

“I really like an old human saying, a dam of a thousand miles is destroyed by an ant nest. Sometimes, an unremarkable little person can ruin our plans.”

“You are right, young master,” Xue Peng said with a humble expression. Then, he turned around and left the cave.

Soon after, the magical beast army blew the horn to signal their attack.

“Wuwuwu ...”

The drawn-out sound of the drum reinvigorated the human side.

“Haha, I can’t wait any longer!”

A group of hunters outside the defensive line was overjoyed.

With Lu Benwei’s divine power, they had nothing to fear.

“Heavenly Dog’s Wrath!”

In the distance, Lu Benwei, who was in the middle of the defense line, cast an enhancement skill on his comrades.

One after another, the images of the heavenly dog appeared in the air. It was a spectacular and terrifying scene.

Just as everyone was rubbing their fists and preparing to start a massacre, a strange howl suddenly came from the magical beast army.

All the monsters’ eyes turned blood-red as they tried to protect themselves.

Everyone was stunned. After a few moments, they recovered and used their skills.

However, what puzzled people was the vanguard of the monster army seemed to be in no mood to continue fighting with them. After avoiding the first wave of attacks from the humans, they headed straight for the center of the battlefield.

After the first line of defense was broken through by some monsters, the hunters at the second line of defense showed their might and took care of many monsters.

Although there were some that escaped, they were enough for the hunters at the fourth line of defense to take care of.

“Are the monsters stupid? They’re using a suicide attack,” they asked in confusion.

Chapter 69: A Hunting Feast

When three to four monsters broke through the third line of defense, everyone immediately reacted.

The monsters flashed their sharp claws and aimed at Lu Benwei’s neck.

“Not good!” Everyone was shocked.

There was only one outcome for all the supports when they were closed in. Die!

However, it was too late. The second wave of demonic monsters had already arrived.

Everyone wanted to help, but they were held back by the demonic monsters and could not split themselves.

Lu Benwei looked at the monster that was attacking him and smiled evilly.

“It’s just as I expected!”

After saying that, his body emitted a green light. The green light dazzled the crowd, and the monsters could not open their eyes.

After the light dissipated, Lu Benwei was wearing the Viper Set and exuded a terrifying aura.

The demonic monster that was close to him was stunned for a moment before it sneered. “Human, are you trying to kill me with laughter?”

“Boom!”

Before the demonic monster could finish its sentence, Lu Benwei threw a punch at it.

“Pfft!”

Blood and flesh scattered in all directions, and the body of the demonic monster turned into a pool of mud.

Everyone was shocked.

“He has such terrifying power!”

“One punch to kill a monster. Even a high-level warrior can’t do this, right?”

The monsters were also stunned.

The scene of Lu Benwei killing their companion with a single punch was too shocking, and they hesitated.

It was also at this moment that another strange howl came from the direction of the army in the distance. All the demonic monsters trembled violently, and their eyes turned red as they stared at Lu Benwei.

“Human magician, die!”

“You’re the ones who should die!” Lu Benwei snorted.

“Lightning Speed!”

Lu Benwei instantly appeared between the two monsters.

“Boom, boom!”

He punched out with his left and right fists, and the heads of the two demonic monsters exploded. White brain matter and blood splattered everywhere.

“Hiss!” The crowd gasped again.

However, before this breath of cold air could finish, two more monsters fell to the ground. Everyone was dumbfounded.

The monsters were also stunned.

“This is a magician?”

“Are you sure it’s not a killing machine?”

The same thought appeared in the minds of both humans and monsters.

After an unknown amount of time, Lu Benwei’s eyes were red.

One after another, demonic monsters were smashed into pieces by his fist.

Ruthless!

Cruel!

Terrifying!

He was awakened by the sight!

This part of the world was dyed by the color of blood.

After Lu Benwei finished dealing with countless demonic monsters, the strange howl came again. Compared to the past, there was a hint of anger in his voice.

A strong wind suddenly blew, and heavy snow fell from the sky.

Lu Benwei's expression froze and he activated Eye of Insight.

His divine will spread out like a net.

With himself as the center, the information of all the living creatures within a radius of a thousand feet was captured in one fell swoop.

In the distance.

A large, snow-white roc was rapidly flying over.

[Demonic monster: Northwind Snow Roc King]

[Level: Diamond]

[One of the demonic monster kings of Northwind Mountains. Its ability is to control the ice element]

The snow roc's original body was huge, and its wingspan could reach several meters. Its feathers were snow-white, like a snow mountain flying in the sky.

'Is this diamond rank demonic monster the mastermind behind this massacre?' Lu Benwei frowned and thought. 'Obviously not. This is only one of the leaders of the monster army!'

The snow roc transformed into a bird with a human face. It flapped its wings and floated in the air.

Lu Benwei raised his head and looked at him coldly.

Xue Peng's eyes were fiery red. He had just commanded three waves of attacks. Every monster that got close to Lu Benwei was like mud in his hands.

Xue Peng had to come in person.

"Human magician, why aren't you kneeling before me?" the Snow Roc King said coldly.

Lu Benwei sneered, "If I kneel, can you retreat or do nothing?"

"Naturally, I'm going to leave your corpses intact."

"Then what the f*ck are you talking about? I'll kill you with one punch!" Lu Benwei sneered.

"You're looking for death!"

The Snow Roc King was furious. He folded his wings and raised his fist, aiming at Lu Benwei.

Lu Benwei was also furious and used all kinds of enhancement skills on himself, increasing his strength unprecedentedly as if he had mastered the law of strength.

"Boom!"

One man and one monster, two fists collided, each punch hitting the flesh.

However, Lu Benwei's strength was terrifying!

Four skills with the highest proficiency, plus the +10 Viper Set. In addition the 300 percent increase in strength from Mad Demon!

Lu Benwei's strength was comparable to a level-50 hunter!

The Snow Roc King frowned. The hand that had attacked him went numb from his palm to his shoulder.

"What powerful physical strength!"

The Snow Roc King had a bad feeling. He was not good at close combat. However, he was diamond rank and had a monster body, so he was much stronger than Lu Benwei.

After all, Lu Benwei was only a human magician.

However, he was too careless.

Lu Benwei's physical strength was beyond his imagination.

Suddenly, Lu Benwei quickly retracted his strength, causing the Snow Roc King to stagger.

Then, Lu Benwei's next punch followed.

"Boom!"

With a punch, the Snow Roc King' was sent flying.

The Snow Roc King was furious. After letting out a roar, he took advantage of the situation to distance himself from Lu Benwei.

Everyone was stunned. Anyone with eyes could see that this bird-type demonic monster had profound strength, but it could not gain any advantage against Lu Benwei.

However, the overall situation was not optimistic. Without Lu Benwei's blessing, the human hunters were already showing signs of fatigue.

The Snow Roc King looked at the situation on the battlefield and relaxed.

"Human magician, do you still think you have a chance of winning?" The Snow Roc King sneered.

"As long as I can hold you back, you can only watch as your companions are torn to pieces by us. You'll also be torn to pieces by my ice magic!"

He flew and floated in the air, defending against Lu Benwei's support.

"You motherf*cker! Come down if you dare!" Lu Benwei cursed.

The Snow Roc King laughed instead of getting angry.

"Human, obediently offer your soul! Extreme Frost!"

Heavy snow fell from the sky.

The Snow Roc King's hands were covered in ice and snow as if he had mastered the power of ice and snow. He waved his hands in the air, and ice balls with high damage were thrown at Lu Benwei.

Seeing this, Lu Benwei cursed! "F*ck, come down if you have the guts."

At the same time, he dodged the ice balls that were coming at him. With Lightning Speed, how could Lu Benwei be hit by these ice balls? Even so, it still made him feel very aggrieved.

The Snow Roc King was in the air, so Lu Benwei could not do anything to him.

"You motherf*cker! I said that I'll kill you with my fists today, so I'll do it! When the time comes, I'll pluck all your feathers and make you into chicken soup."

The Snow Roc King laughed and mocked, "Human, can you hit my knee if you jump?"

“F*ck your mother!”

Seeing Lu Benwei’s exasperated look, the Snow Roc King laughed so hard that he covered his stomach.

“Yo, what are you laughing at? You’re so happy.”

A faint voice was heard.

The Snow Roc King laughed and said, “Of course I’m laughing at that Lu Benwei. He’s so funny when he’s jumping around...”

His voice stopped abruptly. The Snow Roc King’s pupils shrank.

“It’s you? How did you come up?”

Chapter 70: Magician Heart

[One-Click Speed Support]

[Effect: Increases the host’s speed by ten times. After activation, the host can master the law of speed, pass through walls, become invisible, and fly through the sky and burrow into the ground.]

Under normal circumstances, only after the second class change could one fly.

To attract attention, Lu Benwei deliberately kept a distance from the crowd and activated One-Click Speed Support.

At this moment, he was looking at Snow Roc King with an evil smile. He was so frightened that he cried out like a chicken. He had personally experienced Lu Benwei’s physical strength. If he got close to him, he would die!

“Boom!”

Lu Benwei punched out with great force!

The Snow Roc King was sent flying like a cannonball before crashing into the ground. Before he could take a breath, Lu Benwei suddenly appeared in front of him from mid-air.

One-Click Speed Support Flash!

The Snow Roc King was shocked, and his feathers were pulled back. A cold breath of air went from his tailbone to his head.

“What a fast speed! What great strength! Are you even human?!” The Snow Roc King’s voice trembled in fear.

Lu Benwei did not care and blew on his fist. All the enhancement skills were stacked on his fist.

“Little chicken, I said I’ll use my fists to strip off all your feathers. I mean what I say!”

“Boom!”

It was another powerful and heavy punch, mixed with strength path laws.

The Snow Roc King flew backward and rolled a few times on the ground before coming to a stop. He was covered in injuries and had lost a few feathers.

The Snow Roc King’s mouth was filled with blood and he was in a sorry state. “Human, I’m the king of Northwind Mountain, the Northwind Snow Roc King. You will not have a good ending if you offend me!”

“Come on!”

Lu Benwei’s expression was full of ridicule as he stepped on the Snow Roc King’s chest.

“With such a useless performance, are you still the king of the Northwind Mountain? Tell me, who’s the mastermind behind you? What’s his purpose?”

“It’s no use.” The Snow Roc King sneered. “It doesn’t matter even if you don’t have the souls of humans. The formation is almost complete. None of you will survive!”

Lu Benwei suddenly understood.

“What’s the formation?” he asked, “Is it the one on the main peak of the Northwind Mountain?”

The Snow Roc King replied, “Hehe.”

Seeing this, Lu Benwei exerted force on his feet. However, the Snow Roc King still did not move. He was not even breathing.

Just in case, Lu Benwei activated Eye of Insight.

“He actually committed suicide.” Lu Benwei shrugged and sighed in relief.

Then, the holy light of Minor Healing and Rain appeared on his body.

“That was close. If the Snow Roc King wasn’t so careless and I didn’t get close to him, I’m afraid I would be the one who died here.”

No matter what, the Northwind Snow Roc King was still a diamond rank demonic monster.

Lu Benwei was more than ten levels lower than him. In addition, the Snow Roc King was not good at close combat, so Lu Benwei was lucky enough to get close to him and win.

Even so, Lu Benwei’s blood was almost empty.

“Luckily, I have Barbaric Bloodline. I won’t dare to play so big in the future.”

As soon as he finished speaking, Lu Benwei heard a rustling sound behind him. There were also sounds of running. After feeling the other party’s aura, Lu Benwei was not on guard.

“Annoying fellow!” Chu Yan Ran over first.

After seeing that Lu Benwei was fine, Chu Yan said, “It’s a pity that you’re not injured.”

Lu Benwei’s mouth twitched.

At this moment, people came over one after another.

“The monster army has retreated?” Lu Benwei asked.

“Just a moment ago, the monsters seemed to have received an order. Not only did the vanguards retreat, but even the army retreated.” The crowd nodded.

“No matter what, we’ve won!” Hai Yue heaved a sigh of relief.

Everyone cheered in unison.

“I won. I can finally go home.”

“When I get back, I’m going to take a good bath and sleep for three days and three nights.”

At this time, someone asked, “Brother Lu Benwei, you’re the hero for repelling the demonic monsters. When we were cleaning up the battlefield, we picked up a lot of treasures. You can choose first.”

At this moment, Lu Benwei was staring at the light pillar on the main peak. His expression was very serious, and everyone was puzzled.

Only Chu Yan pointed in the direction of the main peak. "Hey, annoying fellow, don't tell me you're going to the main peak?"

Lu Benwei nodded.

"That's right. That's the only way we can figure out why all the demonic monsters in Northwind Mountain are out to kill us humans."

Someone was very puzzled. "Hey, didn't we just defeat the demonic monsters? Leave the rest to the military to investigate and deal with."

"No, it's an emergency. We might not be able to wait for the military to investigate," Lu Benwei said seriously.

"Then I'll go with you!" Chu Yan jumped out and said to Lu Benwei and everyone else.

"I'll go with Lu Benwei," Hai Yue said, "After all, he saved us. With your support skills, even if the demonic monsters regrouped, we'll still be able to defeat them."

With Hai Yue's influence, many people immediately chose to follow Lu Benwei.

Lu Benwei looked at them gratefully. "Thank you, everyone. I'll definitely ensure everyone's safety."

However, he was surprised. Gao Renchao and Mo Tianyu were also on the team.

Soon, Lu Benwei led his team to the main peak. The group found a cave that was several meters tall and several meters wide. A terrifying energy fluctuation came from the cave.

Everyone speculated that this was the source of the pillar of light. To be on the safe side, they elected a few people to enter the cave first.

Lu Benwei, Chu Yan, Hai Yue, Gao Renchao, and more than a dozen other people.

After entering the cave, everyone was shocked by the hellish scene in the cave. The skeletons were piled up into a mountain, and the bones were as dense as a forest. Hair was made into a carpet, human skin was turned into mud, and human tendons were like willow branches hanging above the cave.

The black blood formed a small river and flowed toward the formation. A mountain of corpses and a sea of blood, the stench was unbearable.

Chu Yan, who was usually carefree, was so scared that she curled up behind Lu Benwei.

Lu Benwei's scalp went numb. After a long while, everyone came back to their senses. After a discussion, everyone decided to go in.

Lu Benwei pinched his nose and stepped on the blood river that was not even as deep as his knees. He and the others came to the edge of the array.

At this moment, only then did they see a huge glowing rock suspended in the middle of the array. A strange look flashed across everyone's faces as they felt the light from the huge rock.

"This light is incomparably holy!" someone exclaimed.

Everyone nodded in agreement. It was a wonderful feeling.

The cave they were in was clearly a purgatory, but the giant rock in the center was emitting a holy light.

Lu Benwei felt something was wrong and immediately activated Eye of Insight.
