

## Global Lord 171

### [Global Lord: 100% Drop Rate](#)

#### Chapter 171: Peace And Prosperity Achievement Achievement Accomplished! Lord Talent That Can Advance!

Bai Yuejing looked at Zhang Li, who was already in a daze after he reached an agreement with Zhou Zhou.

"Don't panic."

"A great doctor just told me how to heal your teacher."

"Your teacher should be fine if we just follow the treatment." Bai Yuejing smiled.

When Zhang Li heard this, her expression immediately turned from sorrow to joy as she looked at Bai Yuejing excitedly.

"Really?"

She asked in disbelief.

Bai Yuejing nodded.

"If the effect is good, your teacher might even retain her Extraordinary-Tier tailoring skills."

Zhang Li and Bao Xiu'er were pleasantly surprised.

"Thank you, Divine Doctor, for saving her life!"

"Thank you, Elder Bai!"

The two of them said excitedly.

"Don't thank me."

"If you want to thank someone, thank the Lord and that great doctor."

"Especially the Lord. The Lord gave up a bottle of Extraordinary-Tier Potential Advancement Potion in order to treat your teacher." Bai Yuejing shook his head.

An Extraordinary-Tier Potential Advancement Potion!

One could imagine how precious such a potion was to humans with potential!

He was only testing his Lord just now, he did not expect his Lord to really agree.

He sighed in his heart.

Only a great Lord like his Lord could give up such a precious treasure without hesitation for someone he had never even spoken to.

Thinking of this, he felt even more acutely that joining Blazing Sun City and becoming a Subject under the Lord was the right choice.

At the same time...

A line of golden text appeared in front of Zhou Zhou.

[Your Subject Bai Yuejing's loyalty has increased to 100. He has become your dead loyal subject!]

He winced.

Then, he smiled.

"Thank you, my Lord, for saving my Teacher's life!"

"From now on, Zhang Li's life belongs to the Lord!"

When Zhang Li heard Bai Yuejing's words, she was both shocked and touched.

She came in front of Zhou Zhou and said without hesitation.

As soon as he finished speaking.

A new text notification appeared in front of Zhou Zhou.

[Prompt: Zhang Li (White Platinum-Tier Elementary Grade Tailor) has volunteered to become your official Subject!]

[Your Subject Zhang Li's loyalty has increased to 100. She has become your dead loyal subject!]

[Peace And Prosperity Lord Talent Notification: There are already 1,000 Subjects with 90 loyalty points and above in your territory!]

[Prompt: There are changes to Your Lord Talent, Peace And Prosperity (Diamond-Tier Lord Talent). Please check in time!]

Zhou Zhou was stunned.

Changes to Peace And Prosperity?

He immediately opened the Lord Talent information of Peace And Prosperity.

[Lord Talent: Peace And Prosperity (Diamond-Tier)]

[Peace And Prosperity: Same as before.]

[Specific Talent Effect One: Same as before.]

[Specific Talent Effect Two: Same as before.]

[Specific Talent Effect Three: Same as before.]

[Specific Talent Effect Four: Your territory is famous. Many life forms know that your territory is a territory of Peace And Prosperity, slightly increasing the probability of foreign life forms coming to seek refuge.]

[Specific Talent Effect Five: When the number of Subjects with loyalty of 90 points and above in the territory reaches one million, Peace And Prosperity will advance to the Extraordinary-Tier Lord Talent, Peaceful Times! (Current number of people: 1,000/1,000,000)]

Zhou Zhou looked at its new talent information in surprise.

The current Peace And Prosperity had given his territory a good reputation, it had also slightly increased the probability of foreign life forms coming to join him.

Moreover, it could actually advance!

This was the first time Zhou Zhou had seen a Lord Talent that could advance on its own without the need for the Lord Talent Origin Divine Crystal.

However, the requirements for advancement were ridiculously high.

It was actually a requirement for the loyalty of a million Subjects!

Zhou Zhou estimated that his total number of Subjects had already reached tens of millions or even hundreds of millions if he really met this requirement.

Thinking of this, he decided not to think anymore about it.

This advancement requirement was not something he should be worried about for the time being.

He could take things slowly, it would be achieved sooner or later, as long as he, the Lord, was still alive.

At that time, he would directly obtain an Extraordinary-Tier Lord Talent!

"Teacher Zhang, you're too kind."

After Zhou Zhou came back to his senses, he helped Zhang Li up and smiled.

Every dead loyal Subject. were all people he could nurture.

They were his real working team in Zhou Zhou's eyes!

"Elder Bai. Can we bring Teacher Li Huiyue back to the territory safely with her current conditions?" Zhou Zhou asked.

Bai Yuejing immediately understood what Zhou Zhou meant.

He could only in the territory treat and nourish Li Huiyue's body every day.

At the same time, he could obtain the medicinal herbs needed for treatment at any time.

"Sure!"

"I'll nourish her body now and stabilize the situation in her body. Then, I can bring her back to the territory for treatment."

Bai Yuejing said.

Zhou Zhou acknowledged.

Then, he looked at Zhang Li.

"Teacher Zhang, please pack up too."

"Then come back to Blazing Sun City with us later."

"This will also make it easier to treat your teacher."

He said.

"Yes, my Lord!"

Li Huiyue immediately agreed respectfully.

After that, Zhou Zhou asked Bao Xiu'er to stay to help while he and Wu Xin walked out of the New Wind Tailor Shop and walked towards the Adventurer Association.

Today, he received news from the Adventurer Association, Harus, telling him that the advanced Conqueror's Blast Furnace had been sent over.

Since they had already arrived at Fish Spring Town, they could go over and take a look.

A moment later.

In the warehouse of the Adventurer Association.

"Lord of the Blazing Sun."

"This is the Gold-Tier Advance Grade Conqueror's Blast Furnace that Harus specially bought from the capital through the connections of the Adventurer Association's higher-ups."

"This is already the highest-level Conqueror's Blast Furnace that our Adventurer Association can buy."

"It can extract 10,000 corpses per hour at full power!"

"I hope it can satisfy your needs, my Lord."

"Also..."

"The Adventurer Association's higher-ups greet the esteemed Lord of The Blazing Sun."

Harus said respectfully.

"You're too kind."

"In the future, I will definitely visit the higher-ups of the adventurers and thank them in person for their help."

Zhou Zhou acknowledged.

Then, he looked at the Conqueror's Blast Furnace in front of him.

This was a Conqueror's Blast Furnace that was 15 to 16 meters tall.

There were a total of six ladders around it, and six Loots assembly lines at the bottom, specially used to give out Loots.

[Alchemy Technology Product: Conqueror's Blast Furnace]

[Grade: Yellow Gold-Tier Advance Grade]

[Product Effect: Put a Yellow Gold-Tier Mist Core in the energy slot and activate it with the energy in your body. The Conqueror's Blast Furnace can begin to retrieve the Loots by burning them. Duration: 24 hours.]

[Product Description: An Alchemy Technology product from the Gnome Kingdom. It is extremely useful when dealing with large numbers of monster corpses.]

Zhou Zhou nodded in satisfaction.

This Yellow Gold-Tier Advance Grade Conqueror's Blast Furnace not only greatly increased the efficiency of extracting Loots every hour, but one Yellow Gold-Tier Mist Core could provide a full 24 hours of work!

It was simply incomparable to the previous Green Bronze-Tier Elementary Grade Conqueror's Blast Furnace.

In the future, his army would be able to save a lot of time when extracting Loots.

"I'll buy it!"

"How many Mist Cores for one? How many do you have in total?"

Zhou Zhou asked.

"The price of a Yellow Gold-Tier Advance Grade Conqueror's Blast Furnace is about 10 Yellow Gold-Tier Mist Cores."

"I brought a total of 10 Yellow Gold-Tier Advance Grade Conqueror's Blast Furnaces from the capital this time."

"Lord of the Blazing Sun, how many do you want?"

Harus asked respectfully.

"I want them all!"

Zhou Zhou said directly.

He took out 100 Yellow Gold-Tier Mist Cores from his Spatial Ring and handed them to the other party.

Harus clicked his tongue and took the Yellow Gold-Tier Mist Cores with a smile. Then, he eagerly went to take the remaining nine Yellow Gold-Tier Advance Grade Conqueror's Blast Furnaces.

A moment later.

Zhou Zhou obtained 10 Yellow Gold-Tier Advance Grade Conqueror's Blast Furnaces.

Zhou Zhou and Wu Xin did not stay any longer after telling Harus to pay attention to more high-level Conqueror's Blast Furnaces for him in the future. They left the Adventurer Association hearing Harus' respectful voice.

When the two of them returned to the New Wind Tailor Shop, they realized that Elder Bai had stabilized Li Huiyue's situation while Zhang Li had also packed up.

Seeing this, Zhou Zhou did not waste any time.

He led everyone out of Fish Spring Town and boarded Nezario's back in the suburbs before returning to Blazing Sun City.

They had just returned when Zhou Zhou saw an unexpected person.

They were Lu Ruyi and the others from the Starfire Mercenary Team!

At this moment, their strength had already increased greatly, and their equipment had already been changed to be moving on up.

Everyone was in high spirits. They were no longer the novice adventurers they had when they first met.

"Greetings, my Lord!"

After seeing Zhou Zhou return, Lu Ruyi and the others immediately came over and said respectfully.

"Why are you suddenly back?"

Zhou Zhou nodded and asked.

"Reporting to my Lord, we just found some information about the Sandstorm Forbidden Land, so we specially came to report to you."

Lu Ruyi said respectfully.

"Let's go back to my residence."

Zhou Zhou immediately said.

"Yes!"

Lu Ruyi and company nodded and followed Zhou Zhou towards the Lord's residence.

[\*\*Global Lord: 100% Drop Rate\*\*](#)

**Chapter 172: Mysterious Force Of The Sandstorm Forbidden Land! Maid Sisters!**

In the living room of the Lord's residence.

Zhou Zhou, Lu Ruyi, and Zhang Lansheng were seated.

As for the other members of the Starfire Mercenary Team, they were temporarily assigned to other rooms because there were too many of them.

"Tell me about the information you obtained about the Sandstorm Forbidden Land."

Zhou Zhou went straight to the point with Lu Ruyi.

"Yes, my Lord!"

Lu Ruyi said respectfully.

"We started investigating immediately when we got back."

"At first, we didn't find anything."

"Later on, we specially issued a bounty quest to investigate the Sandstorm Forbidden Land in the Adventurer Association. Only then did we know some internal information."

"The person who provided the information is the nephew of the Vice President of our Adventurer Association. He's also a White Silver-Tier Elementary Grade adventurer now."

"According to him:"

"The Sandstorm Forbidden Land is not a restricted area."

"It's said that the danger of the Sandstorm Forbidden Land was not so great when the Sandstorm Forbidden Land first appeared a long time ago."

"The experts of the Adventurer Association and the kingdom once organized a powerful team and entered the Sandstorm Forbidden Land."

"The average strength of this team is above the Yellow Gold-Tier."

"At that time, their strength was already the best in the vicinity."

"In the beginning, this team could still maintain communication with the outside world after entering the Sandstorm Forbidden Land."

"However, the communication of this team completely disappeared after only a day and night."

"Only two days later did a member of the Adventurer Association escape from the Sandstorm Forbidden Land."

"This member of the Adventurer Association is the vice president of the Adventurer Association that I mentioned just now."

"He told the people at that time that the Sandstorm Forbidden Land was not a no man's land."

"In the deepest part of this place is a kingdom of the undead formed by hatred and loneliness."

"That place is xenophobic and refuses any life form from the outside world to come to them."

"The others were killed by the undead army there."

"He only barely survived with the special treasures he brought from the Adventurer Association."

"Later on, it was said that the people of the kingdom specially sent a stronger team to explore the Sandstorm Forbidden Land after they found out about this. There was even a hero in the team."

"However, they realized that there was only an endless sandstorm in the Sandstorm Forbidden Land when they arrived. They didn't see the other entrances and undead at all."

"In the end, this matter could only be left unsettled."

"It also became one of the unsolved mysteries of the Aurora Kingdom."

Lu Ruyi said.

Zhou Zhou frowned slightly.

A Kingdom of the Undead filled with resentment and loneliness?

My territory actually borders such a mysterious force?

"Is the information reliable?"

Zhou Zhou asked.

"It should be reliable."

"There are still missions to retrieve the bones and relics of the ancestors of the Sandstorm Forbidden Land in the Adventurer Association until now."

"Such missions are classified as Extraordinary-Tier Advance Grade Quests among all the Adventurer Association missions."

"Even though no adventurer has completed it yet."

"But it's still there."

"It should be because the relatives and friends of the deceased are unwilling, or because the other factions are unwilling to give up the secrets of the Sandstorm Forbidden Land."

Zhou Zhou nodded in satisfaction.

He thought for a while and suddenly had an idea.

If this faction really existed and no one else could enter.

Then could the mysterious caravan with the Supreme Blessing—Unlimited Right of Passage enter?

Zhou Zhou thought about it and felt that he could give it a try!

With Zheng Fugui and the others' capabilities, even if they really could not enter, it would definitely not be a problem for them to protect themselves.

He came back to his senses and looked at Lu Ruyi.

"You guys did well this time."

"Go and get your military merits from Elder Zheng tomorrow."

"In addition, I'll give you some rewards as development resources for your Starfire Mercenary Team as your Lord."

Zhou Zhou waved his right hand.

500 White Silver-Tier Mist Cores, 500 soldier type Class Change Certificates, and 500 Sand Corpse Summoner Class Change Certificates appeared in front of the two of them.

"Take these rewards and develop yourselves and the Starfire Mercenary Team well."

"In the future, if you encounter any valuable information, you can send it to Blazing Sun City. I'll personally take a look at the important information."

"I will give you more rewards if I think the information is good."

"You have to increase your strength yourself."

"Otherwise, I won't be able to give you any good rewards."

Zhou Zhou said.

Most of Lu Ruyi and the others were only at the Green Bronze-Tier.

Giving them the Silver-Tier Mist Core was already the limit. Otherwise, it would be wasting something on them that they could not use.

It was not bad for them to advance to the Green Bronze-Tier in such a short period of time, but Zhou Zhou naturally hoped that they would become stronger.

When Lu Ruyi and Zhang Lansheng heard that, they were immediately ashamed and excited.

They obtained 500 White Silver-Tier Mist Cores and a total of 1,000 precious Class Change Certificates with a wave!

Zhou Zhou felt restricted when giving them rewards because their strength was too low.

How rich must he be to say such a thing?

When they heard Zhou Zhou's words, they even felt that he was worried because he did not know how to spend the Mist Cores in his hand.

Zhou Zhou was indeed worried.

He had too many Mist Cores in his hands now. Selling a portion of the gains from the Monster Ranches every day in his territory could bring him tens of millions of Black Iron-Tier Mist Cores!

It made him even richer when coupled with the loots and other gains from the daily battles, under the influence of the Perfect Loots.

Therefore, he wanted to spend some Mist Core to try everything he saw.

Otherwise, he wouldn't be able to do anything with the Mist Cores in his hands.

Then why would he keep them?

Spending them was the key.

However, even though he had a lot of Mist Cores, he would not spend them recklessly.

Being rich and being stupid were two different concepts.

After that, Zhou Zhou chatted with the two of them for a while more before asking them to leave. Before he left, he asked the two of them to call Zheng Fugui over.

He had already seen the Mysterious Caravan's carriage return when he returned.

Zheng Fugui and the others should have completed today's transaction and returned.

A moment later.

Zheng Fugui came in front of Zhou Zhou.

"Greetings, my Lord!" He said respectfully.

"How was your business today?" Zhou Zhou asked casually.

"Everything went well."

Zheng Fugui said with a smile.

Zhou Zhou acknowledged.

That made sense.

Who dared to stand in the way of the Mysterious Caravan?

After that, he told Zheng Fugui everything that Lu Ruyi said.

"I'll bring the caravan to the Sandstorm Forbidden Land to explore tomorrow."

Zheng Fugui immediately said respectfully.

Zhou Zhou nodded slightly.

"Oh yes."

"The commercial trade in Sand Gold City is already on the right track."

"In the future, you can also try to collect some information as your transaction content other than normal transactions." He said.

"Yes, my Lord." Zheng Fugui said respectfully.

He did feel that there were fewer and fewer people looking for them to carry goods for trade in the past two days.

On one hand, it was because of the rise of Sand Gold City and the appearance of the business path.

On the other hand, it was also because other caravans had appeared in the territory and were snatching business from them.

These new caravans were formed spontaneously by the Subjects of Blazing Sun City and Sand Gold City when they saw the hidden business opportunities on the business path.

Zheng Fugui and the others did not care about such a small business to begin with.

Now that someone was doing it for them and the Lord had new instructions, they were naturally willing to give up this small cake to them to eat.

Zhou Zhou was deep in thought.

He now had a total of three channels of information.

The first was naturally Wu Tu's reconnaissance team.

The second was Lu Ruyi's Starfire Mercenary Team.

The third was the Mysterious Caravan led by Zheng Fugui.

Wu Tu was in charge of the basic map information, Lu Ruyi was in charge of the network information, and Zheng Fugui and the others were in charge of obtaining high-end information!

The three of them each had their own intelligence field and would almost never clash with each other.

Instead, they could complement each other.

"Now, I've built my basic intelligence network."

"But it's still in its infancy."

"It can supplement development in the future."

Zhou Zhou thought.

After that, Zheng Fugui left the Lord's residence.

After a while.

"Reporting to my Lord."

"Aliya and Atley request an audience."

The voices of the catgirl sisters came from outside.

"Come in."

Zhou Zhou was stunned before saying.

Soon, the catgirl sisters arrived in front of Zhou Zhou.

"Reporting to my Lord."

"We're here to serve you."

Aliya said seriously.

Zhou Zhou: "..."

Their choice of words is very normal, but why did it sound so wrong to me?

Could it be that I'm not healthy anymore?

"There are guest rooms in the mansion."

"You two find your own rooms."

He came back to his senses and said.

"Yes, my Lord."

The catgirl sisters said respectfully.

Aliya was still relatively calm while Atley was clearly more excited.

The two of them went out for a while and returned quickly.

"My Lord."

"We've tidied up our room!"

Atley said excitedly.

Zhou Zhou nodded and took a sip of water. He looked up at the two of them and almost vomited the water he had just drunk.

"What's wrong with your clothes?!"

He looked at their clothes and was dumbfounded.

At this moment, the catgirl sisters were actually wearing black and white maid clothes.

They wore white headdresses and trembling cat ears and an apron decorated with flounces and a white-collared plain dress.

Under the dress were white stockings, coupled with their young and lively appearance and unique Catman Race characteristics, they looked cute, delicate, and sexy.

Their eyes were blank.

"This outfit... is normal maid work attire."

"Since we're here to be the Lord's maidservant."

"Of course we have to wear formal work clothes to look professional."

"This is what Legion Commander Bai told us."

"Legion Commander Bai even said that..."

"We have to do our best to satisfy you if you have any other special needs." Aliya said seriously.

Atley also looked at Zhou Zhou curiously.

"Does my Lord have any special needs?" She asked expectantly.

Zhou Zhou: "..."

Bai Yun, what kind of ideas are you instilling in them?!

"Well... not at the moment."

"Take a seat first."

Zhou Zhou was silent for a moment, not knowing what to ask the two of them to do.

The two of them sat beside Zhou Zhou.

Then, Zhou Zhou felt even more uncomfortable.

D\*mnnit.

Is this how my evil Lord life is going to begin?

"Reporting to my Lord, Wu Tu requests an audience!"

Wu Tu's voice came from outside at this moment.

"Let him in." Zhou Zhou immediately said.

"Yes!" Aliya nodded and walked out of the room.

Soon, she brought Wu Tu to Zhou Zhou.

The young man looked at the Aliya sisters in a daze. Then, he looked at Zhou Zhou in admiration and relief.

Zhou Zhou: "..."

Don't misunderstand me! I'm innocent!

"My Lord, I brought new map information."

Wu Tu's expression quickly returned back to normal.

In his impression, it was normal for a big shot like the Lord to have maids serving him.

It was already a little late for him to have maids to take care of him.

However, it was no big deal.

Then, he took out a large map and several small maps from his pocket and handed them to Zhou Zhou respectfully.

Zhou Zhou took it and looked at it.

[\*\*Global Lord: 100% Drop Rate\*\*](#)

**Chapter 173: Heavenly Army! Ling'er's Anticipation!**

Zhou Zhou looked at Wu Tu's large map first.

This large map was not much different from the original.

However, in the east of the Blackrock Desert and the Silent Wasteland, he had discovered three more White Silver-Tier regional territories.

The remaining map areas were all under the Aurora Kingdom's territory.

Zhou Zhou was naturally not interested in that place.

"Currently, only one Black Iron-Tier regional territory and two Green Bronze-Tier regional territories around the Sandstorm Forbidden Land are left."

"However, these three regional territories are all bordered by a natural disaster forbidden area like the Sandstorm Forbidden Land."

"It's hard to conquer them."

"Unless Zheng Fugui and the others can investigate the background of the Sandstorm Forbidden Land."

Zhou Zhou frowned slightly.

Then, he looked at the map for a few seconds.

Finally, his gaze landed on the three White Silver-Tier regional territories that he had just discovered.

"It's time to try conquering the White Silver-Tier regional territory."

"Coincidentally, my territory hasn't been upgraded in a long time."

Zhou Zhou thought.

He looked at the remaining three small maps.

These three small maps were the specific areas of the three White Silver-Tier regions that had just been explored.

Zhou Zhou took a look.

The Scarlet Lords who discovered these three White Silver-Tier territories were all Yellow Gold-Tier Scarlet Lords.

"Now, Nezario is already a White-Silver Tier Advance Grade."

"It shouldn't be a problem to deal with a Yellow Gold-Tier Scarlet Lord."

He thought.

As for the monster Subjects under the Scarlet Lord, he would recruit some soldiers through the Monster Ranches the next day. He should be able to deal with them by then.

Thinking of this, Zhou Zhou felt a little relieved.

He had yet to really face the monsters of a White Silver-Tier regional territory, but now, in comparison, the difference in strength did not seem to be too great.

Thinking of this, Zhou Zhou put away the maps.

Then, he looked at Wu Tu.

He thought for a few seconds and said to him,

"Wu Tu."

"You've been with me for a while."

"I'm prepared to expand the reconnaissance team under your command."

"Expand the reconnaissance team to the Heavenly Painting Army!"

"It's in charge of exploring unknown territory on the High Continent!"

"At the same time, I'll be the vanguard for the army of Blazing Sun City!"

He said.

Wu Tu's eyes lit up.

"I won't let you down, my Lord!"

He said excitedly and respectfully.

Zhou Zhou acknowledged.

"Tomorrow, go find Bai Yun and ask her to approve 450 soldiers for you. Including your original 50 reconnaissance team, form 500 soldiers of the Heavenly Tu Army as the first batch of soldiers!"

"In the future."

"We need to explore the scope of the conquest. The scale of your Heavenly Tu Army will also increase!"

"Yes!"

"One more thing."

"In the next two days, the territory will produce White Silver-Tier Elementary Grade Mechanostriders."

"These Mechanostriders will be provided to the Heavenly Army first."

"Remember to update in time."

Zhou Zhou said.

"Thank you, Lord!"

Wu Tu became even more excited.

The Mechanostrider had always been an important tool for them to explore the map.

If it could be upgraded.

Then the efficiency of their Heavenly Tu Army's exploration of regional territories would definitely increase greatly in the future!

This was naturally important to them.

"I wonder what a White Silver-Tier Elementary Grade Mechanostrider will look like?"

He was filled with anticipation.

Zhou Zhou could tell what Wu Tu was thinking at a glance.

He could not help but smile.

He wondered what expression he would have when he saw the flying mechanorider.

After that, he chatted with Wu Tu for a while more before Wu Tu bade farewell and left.

Seeing this, Zhou Zhou opened the Marketplace to check on the purchase of materials for the Mechanical Flying Claw, Mechanorider, and Biological Prosthesis.

In the end, he realized that he had bought a total of 4,540 sets of materials for the Black Iron-Tier Advance Grade Mechanical Flying Claw, 2,101 sets of materials for the White-Silver Tier Advance Grade Mechanorider, and 1,520 sets of materials for the White Silver-Tier Intermediate Grade Biological Prosthesis!

A total of 45,400 Black Iron-Tier Mist Cores and 22,665 White Silver-Tier Mist Cores were spent!

After Zhou Zhou received the materials, he went straight to the Gnome Alchemy Workshop and handed them to Ivan Rowley and the other two Alchemy Technicians.

"I'll leave the task of creating these Alchemy Technologies to you in the future."

"If you don't have enough manpower, you can hire some assistants or directly take in some disciples."

Zhou Zhou said.

"Yes, my Lord!"

Ivan Rowley and the other two said respectfully.

Zhou Zhou acknowledged.

Then, he returned to the Lord's residence.

In the residence.

Zhou Zhou thought for a moment and took out three Territory Rebirth Tokens.

These three were automatically sent to each Lord by the Supreme Will when the Lord Battlefield first opened.

Because he had won all three battles and directly reached the Green Bronze-Tier Elementary Grade Lord rank, these three Territory Rebirth Tokens were not used at all.

"Hmm?"

Zhou Zhou had just taken out the three Black Iron-Tier Territory Rebirth Tokens.

A text notification immediately appeared.

[You have been promoted to the Green Bronze-Tier Elementary Grade Lord. You have the chance to upgrade the unused Black Iron-Tier Territory Rebirth Token to the Green Bronze-Tier Territory Rebirth Token for free. Do you want to upgrade it immediately?]

"Can it even do that?"

Zhou Zhou raised his eyebrows.

He thought that these three Black Iron-Tier Territory Rebirth Tokens were useless.

It turned out that he could upgrade them for free.

"Then when I advance to the White Silver-Tier Lord Rank or even the Yellow Gold-Tier Lord Rank."

"Will these low-level Territory Rebirth Tokens also advance?"

Zhou Zhou asked tentatively.

As soon as he finished speaking.

The text notification appeared again.

[Lord Battlefield Hint: Every time a Lord's Lord Battlefield level increases, the low-level Territory Rebirth Token and Resurrection Token that were not used before will have a chance to be upgraded for free.]

Zhou Zhou was deep in thought.

If he won more battles than he lost, wouldn't he be able to freeload a batch of high-level Territory Rebirth Tokens and Territory Resurrection Tokens in the end?

"In that case..."

"When I have extra Territory Tokens, I can use them to exchange for these Territory Rebirth Tokens and Resurrection Tokens."

"Then keep them for free upgrades."

Zhou Zhou thought.

Then, he put away the Territory Resurrection Tokens.

"Is there anything I haven't done?"

Zhou Zhou began to think.

Soon.

He remembered.

Zhou Zhou opened his Friend List and opened Ling'er's chat. Then, he sent the treasure information of the Master-Servant Territory Contract and finally began to type:

[Lord of The Blazing Sun: Ling'er, are you willing to sign this Master-Servant Territory Contract with me?]

...

Spiritual Medicine City.

Ling'er looked at the information of the Master-Servant Territory Contract and her gaze quickly landed on the content of the Treasure Effect Two.

"A spatial teleportation array will appear in both territories?!"

"Then I will be able to look for my brother!"

Ling'er's eyes lit up.

When she saw Zhou Zhou's question, she agreed without hesitation.

As for the master and servant...

Ling'er did not care at all.

She had never had the heart to fight for supremacy.

Naturally, she did not care about this arrangement.

This could be seen from the fact that she had the Legendary-Tier Lord Talent but only wanted to provide Zhou Zhou with herbs.

...

In the Blazing Sun City.

Zhou Zhou could not help but smile when he saw Ling'er's answer.

**[Global Lord: 100% Drop Rate](#)**

**Chapter 174: Signing The Master-Servant Contract! Conditions To Build A Kingdom!**

Zhou Zhou sighed.

Ling'er agreed so quickly that it was beyond his expectations.

But it had to be said...

He liked the feeling of being trusted and entrusted.

[Lord of The Blazing Sun: What level is your territory at now?]

[Spiritual Medicine Lord: Black Iron-Tier Advance Grade. Originally, I planned to advance to a Green Bronze-Tier Elementary Grade Territory after collecting enough Territory Tokens. Now, it seems like it's just right. Hehe.]

[Lord of The Blazing Sun: Okay, I'll use the contract later.]

[Spiritual Medicine Lord: Big Brother, if the spatial teleportation array appears, can I look for you tomorrow?]

[Lord of The Blazing Sun: Sure, you're my little sister. You can come over anytime, even now.]

[Spiritual Medicine Lord: Yes, yes!]

[Spiritual Medicine Lord: It's a little late today. I'll disturb your rest if I go.]

[Lord of The Blazing Sun: It's alright.]

The two of them chatted for a while.

Then, Zhou Zhou took out the Master-Servant Territory Contract contract.

A text notification appeared.

[Do you want to use it?]

"Yes."

Zhou Zhou said in a low voice.

[Please choose the Lord you want to sign the Master-Servant Territory Contract with!]

"Spiritual Medicine City's Spiritual Medicine Lord."

[Request has been sent to the Spiritual Medicine City-Spiritual Medicine Lord to sign the Master-Servant Territory Contract. Please wait patiently.]

Zhou Zhou waited.

Soon.

The text notification appeared again.

[Spiritual Medicine City - The Spiritual Medicine Lord has agreed to your Master-Servant Territory Contract request and has officially become your subordinate territory!]

[You have activated the special territory information column - Subordinate Territory column!]

[A new subordinate territory has been added to your Subordinate Territory column—Spiritual Medicine City!]

[You have the sovereignty of Spiritual Medicine City. The Lord of Spiritual Medicine City and her subjects cannot go against your orders as the Lord of the main territory. At the same time, as the Lord of the main territory, you have to bear the responsibility of protecting your subordinate territory!]

[Your territory has added a special building— Spatial Teleportation Array (White Silver-Tier Elementary Grade)!]

[You can choose to share the effect of your Lord Talent with your subordinate territory!]

Zhou Zhou nodded in satisfaction.

At this moment, Ling'er sent another message.

[Spiritual Medicine Lord: Brother, I'll get someone to find the Spatial Teleportation Array now. I'll go see you tomorrow.]

[Lord of The Blazing Sun: Alright.]

Then, the two of them chatted for a while more. After agreeing to the timing tomorrow, they bade each other goodnight and went offline.

After that, Zhou Zhou asked Aliya to get someone to find the location of the Spatial Teleportation Array in the territory.

A moment later.

"My Lord."

"I found the Spatial Teleportation Array."

Aliya said respectfully when she returned.

"Let's go take a look."

Zhou Zhou stood up and said.

Aliya nodded respectfully and led Zhou Zhou out of the Lord's residence.

After walking for more than ten minutes.

They arrived near the city gate.

They had just arrived when Zhou Zhou saw a white array that emitted a distorted space covering the ground.

This array was a total of 30,000 to 40,000 square meters.

It was about the size of a football field.

It was engraved with a large number of complicated and strange patterns.

Beside it were some patrolling guards.

They were the ones who had found this spatial teleportation array.

"My Lord."

"This should be the spatial teleportation array you mentioned."

Aliya said.

Zhou Zhou acknowledged.

Then, he walked over.

"Greetings, my Lord."

Seeing Zhou Zhou come over,

These soldiers who were in charge of guarding the spatial teleportation array and not letting others approach immediately said respectfully.

"Good work."

Zhou Zhou acknowledged.

Then, he looked at the array.

Soon.

Its detailed information appeared in front of him.

[Formation Name: Spatial Teleportation Array (Master)]

[Formation Level: White Silver-Tier Elementary Grade]

[Formation Effect One: Put 10 White Silver-Tier Mist Cores on the spatial teleportation and you can teleport up to 1,000 living units and 1,000 units of supplies to the other Lords who have signed the Master-Servant Territory Contract.]

[Formation Effect Two: As the spatial teleportation array of the main territory, you can unilaterally open and close this spatial teleportation array (Master). You can also control the opening and closing of the spatial teleportation array in the subordinate territory from afar.]

[Formation Upgrade Requirement: Upgrade as the territory upgrades.]

[Formation Description: An exclusive formation created by the Master-Servant Territory Contract. It can only be used in the two territories that have signed the Master-Servant Territory Contract.]

Zhou Zhou nodded slightly.

This array formation was not bad.

This way, if anything happened to Ling'er in the future, he could rush over to help immediately.

At the same time, Ling'er would not have to personally handle the medicinal herbs she sent him in the future. She could just hand them over to the professionals in both territories and do it face to face through the spatial teleportation array.

After that, Zhou Zhou did not stay any longer and returned to the Lord's residence to rest.

As for sharing the Lord's talent, he would wait for Ling'er to come.

Zhou Zhou was naturally not stingy in this aspect.

He and Ling'er had already signed a master-slave territory contract after all.

From a certain perspective, Ling'er's Legendary-Tier Lord Talent, the Divine Herb Garden, already belonged to him.

The next morning.

Zhou Zhou woke up early.

Then, two rows of text immediately appeared in front of him.

[You have automatically obtained 1 ranking! (Automatically increases by 1 every day)]

[Current Remaining Rankings: 22!]

Zhou Zhou took a look and retracted his gaze.

He opened the World Channel and took a look.

Many Lords were also chatting.

[I can finally rank again.]

[God bless me, let me return to Black Iron-Tier from negative 1.]

[Is anyone willing to form a team? I have many doctors in my territory and need a strong brother.]

[There are many beauties in this pretty girl's territory. I guarantee that you won't be disappointed as long as you're strong.]

[Can I watch? (Shy)]

[I have more long-range soldiers in my territory. A Lord with strong offensive, let's form a team!]

[Professional Substitute Levelling! You will definitely be able to win! Are you still worried about not being able to rank? Are you still anxious about your future as a Lord? We are not asking for 1,998 or 998, just 500 Black Iron-Tier Mist Cores, and you can bring home the Lord rank +1! You can even get a 20% discount if you buy it many times.]

...

The corners of Zhou Zhou's mouth twitched.

It had only been two days.

Why did even substitute leveling appear?

It could also be seen that no one was willing to fight alone now.

Teaming up had become the choice of many Lords.

"I wonder how points are counted if you team up during the ranking competitions?"

Zhou Zhou was a little curious.

However, he did not think too much about it.

He would know when he and Ling'er teamed up.

After that, he got up. Just as he walked out of the room, he saw the Aliya sisters holding a set of clean clothes.

"Good morning, my Lord!" x2

Aliya said respectfully.

Atley was more excited.

After the two of them finished speaking, they carried the clothes to him.

"My Lord, we've already prepared your toiletries and clothes."

"Let us change the Lord's clothes first."

They were about to move.

Zhou Zhou hurriedly stopped them.

"No need, no need."

"I'd better do this myself."

He said.

"My Lord, I know you might not be used to such a life."

"But it's okay."

"Just take it slow."

"Big shots are like that."

Aliya said seriously.

"How am I a big shot?"

Zhou Zhou muttered.

He was only a Lord who had just left the novice village. What kind of big shot was he?

Aliya and the others did not think so.

Then, under their insistence, Zhou Zhou had no choice but to put on his clothes and wash up with their help.

"What an evil Lord's life!"

After walking out of the Lord's residence, he looked at the inseparable catgirl maids behind him.

Zhou Zhou sighed again.

Then, he was about to walk towards the Gate of Summoning and prepare to summon his subjects today when he saw Li Ya and her maid, Yu Qiao, standing not far away and smiling at him.

"Good morning, my Lord."

Li Ya smiled.

"Good morning."

Zhou Zhou was a little embarrassed. Then, he went to a serious topic.

He looked at the two of them and said, "Are the two of you returning to the Aurora Kingdom?"

"Mhm."

"The Diamond-Tier Elementary Aurora Tower is very important. I have to go back and report it to my father as soon as possible."

"However, we'll go and return quickly through the Spatial Teleportation Array this time. Perhaps we'll be able to meet the Lord again tonight."

Li Ya smiled.

Zhou Zhou acknowledged.

He was not surprised that the other party also had a Spatial Teleportation Array.

It would be strange if a dignified kingdom did not even master the technology to build Spatial Teleportation Arrays.

At this moment, Li Ya walked over, within a few steps away from Zhou Zhou.

"My Lord."

"Do you know how a Lord builds a Kingdom?"

She asked seriously.

[\*\*Global Lord: 100% Drop Rate\*\*](#)

**Chapter 175: Three Conditions! White Silver-Tier Elementary Grade Archaeologist!**

"I don't know."

Zhou Zhou was stunned for a moment before shaking his head.

"There are three conditions to build a kingdom."

"And you can only build a kingdom after all three conditions are met."

Li Ya raised her finger.

"The first and most important condition is to have an Extraordinary-Tier Advance Grade Treasure [Kingdom Token]!"

"The Kingdom Token is an indispensable item for building a kingdom."

"It's like a Territory Token to a Territory."

"It's the most important foundation of a kingdom!"

"The second condition is: The Lord has at least 30 regional territories, and at least one of them has to be an Extraordinary-Tier regional territory to be the capital of the Kingdom!"

"The third condition is for there to be at least three heroes in the Kingdom who can protect the kingdom. Not only does the minimum requirement for these three heroes be Extraordinary-Tier Heroes, but there must be at least one hero among them who belongs to the Lord's own race."

"As long as the Lord fulfills these three conditions you can build your own kingdom."

Li Ya said solemnly.

Zhou Zhou's body trembled.

He suddenly felt enlightened.

Li Ya's words directly pointed out the direction of his future Lord path.

Then, he frowned.

He could not fulfill any of these three requests now.

He had never heard of the Extraordinary-Tier Advance Grade Treasure [Kingdom Token].

To have 30 regional territories and for one of which was an Extraordinary-Tier regional territory...

He was even further on this front.

He only had three Black Iron-Tier regional territories and two Green Bronze-Tier regional territories in total.

He was already feeling the difficulty of conquering a White Silver-Tier regional territory.

Not to mention an Extraordinary-Tier one.

He was the closest to fulfilling the third condition currently.

Three heroes with the lowest fate level of Extraordinary-Tier Heroes!

Moreover, there was at least one hero from the same race as the Lord.

Zhou Zhou now had Bai Yi and Wu Xin.

Of these two, one of them had an Epic-Tier Hero's Fate Level while the other had an Extraordinary-Tier Hero's Fate Level!

Moreover, they were all humans!

He could satisfy the third condition as long as he could have another Extraordinary-Tier Hero.

"It's still a little faraway , but at least there's a direction to work towards."

Zhou Zhou's eyes lit up.

Then, he looked at Li Ya.

"Thank you, Your Highness, for telling me the conditions for establishing the kingdom."

"These things are important to me."

Zhou Zhou said seriously.

"It's not a big secret."

"My Lord will find out sooner or later with your ability."

Li Ya smiled.

Zhou Zhou smiled and said nothing.

After that, the two of them chatted for a while before Li Ya suggested that they set off.

When Zhou Zhou heard this, he sent him to the city gate.

"My Lord, send them here."

"I'll see you soon."

Li Ya said.

Zhou Zhou acknowledged.

Li Ya nodded and left with her maid, Yu Qiao.

After walking for a while.

"Your Highness."

"Not far ahead is the one-time Spatial Teleportation Array we just set up."

"You can directly go to the capital through that spatial teleportation array or return at any time."

"Don't worry, we'll protect this spatial teleportation array."

A low voice suddenly sounded in Li Ya's ear.

Li Ya did not say anything and only nodded lightly.

An invisible might spread out as she exuded the noble aura of a Princess at that moment.

"Your Highness."

"Is it good to tell him the conditions to build a kingdom so early? Wouldn't it make him bite off more than he can chew?"

Yu Qiao could not help but ask.

"When a person's vision is limited to a small territory, his future achievements will only be limited to a small territory."

"When a person sets his sights on the entire world, his future achievements won't be too small even if he can't dominate the entire world."

"It's fine to give this Lord some ambitious goals."

"Maybe he'll surprise us in the future?"

Li Ya smiled.

While she knew that the goal she had set for the other party was a little too far.

however, when she thought of Zhou Zhou's ordinary actions and the achievements he already had,

Li Ya had a feeling.

This person would eventually become extraordinary in the future.

She shook her head and stopped thinking about it.

Li Ya and the maid, Yu Qiao, quickly arrived at the spatial teleportation array. Then, they disappeared in a spatial fluctuation.

The surroundings fell silent.

Gazes from the dark would shoot over and observe their surroundings vigilantly from time to time. Then, they calmed down.

...

In Blazing Sun City.

After Zhou Zhou returned, he went straight to the Gate of Summoning.

A text notification appeared.

[Prompt: Do you want to summon immediately?]

"Yes!"

Zhou Zhou said.

The next second.

The Gate of Summoning suddenly lit up with a bright white light, and new subjects walked out one after another.

A moment later.

All 189 new subjects walked out of the Gate of Summoning.

"Greetings, my Lord!" x189

The 189 new subjects said respectfully.

"From today onwards, you are the subjects of Blazing Sun City."

Zhou Zhou said.

Then, he asked all the Professionals to stand up and realized that he had summoned a total of 18 Military Professionals this time.

Zhou Zhou checked their interface information.

A moment later.

The inspection was completed.

Among these 18 Military Professionals, there was a White Silver-Tier Elementary Grade Chef, a White Silver-Tier Elementary Grade Archeologist, and a White Silver-Tier Elementary Grade Archer!

In addition, there was one Green Bronze-Tier Advance Grade farmer, two Green Bronze-Tier Intermediate Grade carpenters, two Green Bronze-Tier Elementary Grade doctors, two Black Iron-Tier Advance Grade pharmacists, three Black Iron-Tier Intermediate Grade Sword Shield Soldiers, three Black Iron-Tier Elementary Grade Cartographers, and five Black Iron-Tier Elementary Grade Chefs.

"Archaeologist?"

Zhou Zhou's eyebrows twitched.

This was the first time he got to know about this profession.

He looked at him.

The other party was an old man in his seventies or eighties.

His hair and beard were all white, but he was hale and hearty. His eyes were bright, and he did not look like an old man at all.

Zhou Zhou curiously opened the other party's attribute panel.

[Subject: Gu Bo]

[Territory: Blazing Sun City]

[Life Profession: Archaeologist]

[Profession Class: White Silver-Tier Elementary Grade]

[Ability Overview: Dr. Gu Bo, who grew up listening to the wild history of the Gods from the Chaos Era, had long determined to devote himself to the archeology industry. After growing up and learning many archeological skills, he mastered a lot of archeology knowledge. He once joined the Time Society, but later on, he automatically resigned from the Time Society because he was old and weak.]

[Skills: Talent - Eye of Time, White Silver-Tier Elementary Grade Mysterious History, White Silver-Tier Elementary Grade Netherworld History, White Silver-Tier Elementary Grade Heaven Realm History, Secrets Beyond the White Silver-Tier Elementary Grade World, White Silver-Tier Elementary Grade Mysterious Event History, White Silver-Tier Elementary Grade Archaeological Practice, White Silver-Tier Elementary Grade Ancient Netherworld Empire Language, White Silver-Tier Elementary Grade Original Elf Language, White Silver-Tier Elementary Grade Sand Emperor Language...]

[Loyalty: 85]

[Potential: White Platinum-Tier Advance Grade]

Zhou Zhou raised his eyebrows.

He opened all of the other party's skills column.

In the end, he realized that there were more than 200 skills.

They were all archeological-related.

Zhou Zhou clicked his tongue.

This old man's skill panel was so luxurious.

It was even more ridiculous than Bai Yi, Wu Xin, and Zhao Changshou's skill reserves.

Is this really a subject that the Gate of Summoning could summon?

If one did not look at his professional class, Zhou Zhou would have even suspected that this was a talent attracted by the Reputation Rating.

[Global Lord: 100% Drop Rate](#)

### **Chapter 176: Talent - Eye of Time! Soldier Advancement!**

Zhou Zhou looked at his skill list.

"Talent - Eye of Time? What talent is this?"

Zhou Zhou opened the specific information of this talent curiously.

[Talent - Eye of Time: Creatures with this talent have a special ability given to them by the River of Time. There is a certain chance of seeing some traces of time left on ancient things when observing them.]

"My good Lord..."

"This can no longer be called Talent."

"This must be a superpower, right?!"

Zhou Zhou clicked his tongue.

He had many talented subjects under his command.

For example, Wu Tu's photographic memories, Carter Kim's metal affinity...

These innate abilities were at least within the range of common sense that normal people could understand.

However, just looking at the contents of Gu Bo's talent was unbelievable.

He felt that his talent was at least a few levels higher than the others.

In the end, Zhou Zhou could only sigh. The world was so big that there were all kinds of strange things.

Then, he looked at the other skills.

In the end, he unexpectedly saw the skill [White Platinum-Tier Elementary Grade Sand Emperor Language].

"Dr. Gu, what's the relationship between the Sand Emperor and the Emperor of Sand?"

Zhou Zhou was stunned for a moment before immediately asking.

Gu Bo was stunned. Then, he explained, "The Sand Emperor Language is the official language of the Sand Empire. The Emperor of Sand was the only emperor of the Sand Empire."

"Can you tell me about the Sand Empire and the Emperor of Sand later?"

Zhou Zhou said in surprise.

He had finally found someone who knew about the Emperor of Sand!

"My Lord, you don't have to be so polite."

"Of course you can."

"It's my honor to serve my Lord." Gu Bo smiled.

Zhou Zhou acknowledged.

Then, he called Zheng Yuanqi over and asked him to arrange where these people would go. After which, he walked to the side with Gu Bo and began to listen to him.

"The Emperor of Sand existed more than 8,000 years ago."

"In that era, it led the Sandman Tribe and rose from the weak within a very short period of time. In less than 800 years, it developed into a famous empire on the High Continent."

"Unfortunately, it only existed for a very short period of time. In less than 300 years, the Sand Empire was destroyed because it seemed like it had angered the gods."

"Otherwise, perhaps the land under our feet will still be the territory of the Sand Empire."

"After the fall of the Sand Empire, our land experienced four more kingdoms."

"The last kingdom is the Aurora Kingdom, which is now bordering the Lord's territory."

Zhou Zhou was deep in thought.

According to what he understood from the Emperor of Sand's spatial ring,

The Emperor of Sand fell with its empire because he wanted to replace the sun.

It was in line with what Dr. Gu had said from the looks of it.

He suddenly felt tempted.

Did that mean that the inheritance of the Emperor of Sand that he had always wanted was actually the inheritance of an empire's monarch?

Moreover, he already had some clues?

"I must continue searching for this inheritance of the Emperor of Sand."

Zhou Zhou immediately thought with excitement.

This was the inheritance of the emperor of an empire!

It was not inferior to a Legendary-Tier Lord Talent!

He naturally would not let it go so easily!

After that, he called all the soldiers and spent more than half an hour cleaning up the Time Ruins and the monster ranch.

Then, he took out the Yellow Gold-Tier Advance Grade Conqueror Blast Furnace he had obtained yesterday and placed a Yellow Gold-Tier Mist Core on the energy slot. Finally, he used the energy in his body to activate this alchemy technology product.

Then, the soldiers began to transport the corpses to the Conqueror's Blast Furnace and retrieve the loot.

Half an hour later.

All the loots had been extracted.

Under the effect of the Perfect Loots:

Other than the +1 Quality monster flesh, skill books, potion formulas, poison sacs, Black Scorpion Poison Crossbow, Flame Demon Fog Wolf Set, and other items,

He obtained a total of 41,251 Green Bronze-Tier Mist Cores, 14,275 White Silver-Tier Mist Cores, and 1,614 Yellow Gold-Tier Mist Cores!

6,388 Class Change Certificates! 2,145 Sand Corpse Summoner Class Change Certificates!

1,128 Sword Shield Soldier Recruitment Books!

1,002 Pudao Soldiers Recruitment books!

958 Poison Crossbow Soldier Recruitment Books!

384 Elemental Archer Recruitment Books!

5,021kg of Light Drawing Crystal!

Zhou Zhou asked Aliya to call Zhao Changshou over and handed the Light Drawing Crystal to Zhao Changshou and the others.

"Elder Zhao."

"Starting today."

"The city wall of Blazing Sun City has to be expanded every time the territory upgrades!"

"We're fighting the foreign race lords every day now."

"The city walls are the most important part of the city's defense."

"It must be strengthened in time!"

Zhou Zhou said.

He had yet to encounter a foreign race lord who could attack his city wall, but there was no harm in making early preparations.

"Yes! From today onwards, I will recruit people and begin to expand the city wall!"

"However, my Lord."

"Recently, we have been a little lacking in the basic materials in the city."

"We need to replenish."

Zhao Changshou said respectfully.

"Leave it to me."

Zhou Zhou acknowledged.

He had indeed not bought basic materials in the exchange for a long time.

During this period of time, the basic materials used were all from the previous stock, be it for building buildings or other matters in his territory.

It was indeed time to buy another batch of basic materials.

Actually, he could also send people to buy basic materials in reality instead of buying them in the exchange.

However, the price of basic materials in reality was higher than the exchange.

Secondly, it was inconvenient to buy them. Moreover, they had to transport them back and forth and waste time.

Therefore, Zhou Zhou had never thought of doing so.

After that, he opened the exchange and looked at the price of the basic materials.

He realized that one Black Iron-Tier Mist Core could be exchanged for 50 units of basic materials.

"The price is acceptable."

"Then I'll buy more at once."

Zhou Zhou thought for a moment.

The basic materials needed to build the city wall were quite large.

If he brought more, he would not need to buy it again in a short period of time.

Then, he began to set up a deal.

[Trade Name: Deal with the Blazing Sun Lord]

[Trade Goods: Eight million Black Iron-Tier Mist Cores]

[Trade Requirement: Trade one Black Iron-Tier Mist Core for every 50 units of basic materials.]

The setup was completed and he published the transaction.

Then, he set up a new transaction. He threw in all the soldier class change certificates he had just obtained, as well as excess materials, skill books, equipment, and other items. Then, he directly announced the transaction.

A moment later.

The purchase of materials was completed first.

Zhou Zhou looked at the transaction results.

[Trade Results: 100 million units of stone, 100 million units of wood, 100 million units of metal, 100 million units of fine sand]

Zhou Zhou nodded.

Then, he brought Zhao Changshou to an empty space and took out all 400 million units of basic materials and piled them into four small mountains of basic materials that were more than 20 meters tall.

"These basic materials should be enough for the time being, right?"

Zhou Zhou smiled.

"It's indeed enough."

Zhao Changshou clicked his tongue as he looked at the four small mountains.

He had seen the same scene before when he was in the Aurora Kingdom.

However, he had not seen many scenes like the Lord's where he could wave his hand and create four small mountains of basic materials.

At this moment, Bai Yun walked over after counting the number of soldiers who had advanced.

"I've something to report, my Lord!"

"A total of 5,132 people advanced just now!"

"3,125 of them have been promoted to Black Iron-Tier Intermediate Grade and Black Iron-Tier Advance Grade!"

"1,941 people advanced from Black Iron-Tier to Green Bronze-Tier!"

"Another 72 people have advanced to the White Silver-Tier Elementary Grade!"

"There are a total of 12,122 Black Iron-Tier soldiers in our army!"

"2,583 Green Bronze-Tier soldiers!"

"98 White Silver-Tier!"

"In addition, I've already broken through to the White Silver-Tier Advance Grade!"

"Maris has also broken through to Green Bronze-Tier Advance Grade!" Bai Yun said respectfully.

Zhou Zhou could not help but click his tongue.

[Global Lord: 100% Drop Rate](#)

### **Chapter 177: Divine Herb Garden! Sharing Talents!**

Zhou Zhou sighed.

Yesterday, only 1,164 people had broken through!

Today, it directly increased to 5,132 breakthroughs!

While this was because the number of Military Professionals had increased by more than 3,000, the credit for this was naturally mainly because of the Blessing of the Ten Gods—the Blessing of the War God had advanced from Green Bronze-Tier to White Silver-Tier!

This talent directly increased the promotion energy obtained by the soldiers by five times when they killed each monster after all!

Then, he sensed Nezario's situation and realized that it was not far from the Yellow Gold-Tier Elementary Grade.

It would probably be able to break through after killing another 12,000 monsters.

As for himself, he was about to break through to the White Silver-Tier Intermediate Grade.

"I have to upgrade this Lord Talent in the future!"

Zhou Zhou was even more certain of his choice.

As for Incite Defection?

I'm sorry, I'm afraid that the Blessing of the War God will misunderstand.

At this moment, a line of text appeared in front of him, telling him that his deal was complete.

Zhou Zhou opened the Marketplace and looked at the transaction results.

[Trade Result: 18,649,982 Black Iron-Tier Mist Cores!]

"More and more Mist Cores are being spent." Zhou Zhou sighed.

After that, he went to the Golem Lair as usual and summoned 126 golems and then, he went to the Gate of Summoning and threw in all the recruitment books he had just obtained.

Soon, recruits walked out of the Gate of Summoning one after another and stood neatly behind him.

A moment later, 1,128 Sword Shield Soldiers, 1,002 Pudaos Soldiers, 958 Poison Crossbow Soldiers, 384 Elemental Archers, and 12 Elemental Bowmen appeared behind him.

"I have a total of 20,864 soldiers under my command now including the newly recruited golems."

Zhou Zhou was very satisfied.

He had finally had 20,000 Military Professionals!

Then, he let the soldiers rest for a while and prepare for the upcoming Lord Battlefield battle.

A moment later.

A new message appeared in his Friend List.

Zhou Zhou opened it.

It was Ling'er.

[Spiritual Medicine Lord: Big Brother, can I come over now?]

[Lord of The Blazing Sun: Come over.]

[Spiritual Medicine Lord: Okay!]

Seeing this, Zhou Zhou walked towards the Spatial Teleportation Array with Bai Yi and the Aliya cat girl sisters.

He saw a little girl in a white dress and a female Military Professional standing together when they arrived at the Spatial Teleportation Array,

"Ling'er?"

Zhou Zhou came in front of her and smiled.

"Big Brother!"

Ling'er looked at Zhou Zhou, and her eyes lit up.

"Big Brother, you're so handsome."

Her eyes lit up.

"And this is?"

Zhou Zhou smiled and looked at the female soldier beside her.

"Her name is Feng Xiaoyue. She's the most powerful person in our Spiritual Medicine City. She currently commands all the Military Professionals in our Spiritual Medicine City."

"Sister Feng didn't walk out of the Gate of Summoning. She escaped from the war elsewhere and joined my territory because she encountered it." Ling'er giggled.

Clearly, she was very proud to be able to receive a Subject like Feng Xiaoyue.

"Greetings, my Lord." Feng Xiaoyue said respectfully.

She was secretly shocked.

The three people beside this Lord gave her a very powerful feeling no matter who they were.

Especially the female general in red armor with a blood-red bow on her back. It gave her a sense of oppression as if she was meeting an Extraordinary-Tier creature.

Who is she?! Why do I feel so much pressure?

She thought in shock.

Originally, she thought that she was already very powerful at this age.

However, she suddenly lost all her arrogance now that she looked at the female general in front of her.

Zhou Zhou acknowledged.

He also looked at her interface information.

As the other party was a Subject of his subordinate territory, he, the Lord of the main territory, could also see her interface information directly.

Then he saw that she was actually an White Silver-Tier Elementary Grade Spearman.

Zhou Zhou was a little surprised.

With Ling'er's territory level, she was indeed quite lucky to be able to recruit such a Military Professional.

"Big Brother, are we going to rank now?"

"I've already asked the soldiers to prepare in the territory. They can enter the ranked competition at any time." Ling'er said.

"There's no hurry. I want to take a look at your Divine Herb Garden first. I've been curious about it for a long time." Zhou Zhou smiled.

"Okay. Then should we go take a look now?" Ling'er asked.

Zhou Zhou acknowledged.

Ling'er did not say anything else when she saw this. Then, everyone arrived at the Spatial Teleportation Array.

Then, Zhou Zhou filled 10 White Silver-Tier Mist Cores into the medium-sized slot of the array formation.

With a thought...

A text notification appeared.

[Do you want to consume 0.3% of the array's energy to head to the subordinate territory—Spiritual Medicine City?]

"Yes."

Zhou Zhou thought to himself.

The next second.

A spatial fluctuation visible to the naked eye appeared on the array.

Then, everyone's bodies twisted for a second before they disappeared collectively.

As for the 10 White Silver-Tier Mist Cores, they only dimmed slightly.

...

Spiritual Medicine City.

Spatial Teleportation Array.

A spatial distortion appeared.

Then, Zhou Zhou, Ling'er, and the others appeared out of thin air on the array formation.

"Big Brother, we've arrived at the Spiritual Medicine City."

Ling'er said.

Zhou Zhou acknowledged.

He looked around.

The buildings here were similar to his Blazing Sun City.

However, it was much smaller in terms of scale and quantity.

Especially the Wall.

The Wall of the Spiritual Medicine City was only seven to eight meters tall.

It was far inferior to the Light Elemental City Wall of Blazing Sun City.

In the future, he had to let Ling'er pay more attention to the construction of the city defense.

Zhou Zhou thought.

However, he had to say this in private.

It would save Ling'er from losing face in front of her subordinates.

Then, he did not say anything and followed Ling'er to where her soldiers were.

There were already more than 1,500 Military Professionals in the Spiritual Medicine City.

It was far inferior to the number of Military Professionals in Zhou Zhou's territory, but it was already not bad among the human Lords of the Cerulean Planet.

In the end, they came to the Divine Herb Garden.

"Big Brother."

"This is the Divine Herb Garden."

Ling'er introduced the building in front of her.

Zhou Zhou nodded slightly as he looked at the building in front of him.

This was a building that looked very much like a church.

It was completely holy white, and the surface of the building was engraved with a large number of statues of God Spirits.

Right above them was a black sun.

"A black sun?"

Zhou Zhou was stunned.

"It seems to be a divine symbol that gives the Divine Herb Garden special abilities. I'm not too sure either. The Lord Talent didn't introduce this."

Ling'er did not understand either.

Zhou Zhou clicked his tongue in wonder.

The one who gave the medicine life is actually the God Spirit of the Black Sun?

He didn't think too much about it.

Then, he followed Ling'er into the Divine Herb Garden.

Zhou Zhou could smell the strong fragrance of medicinal herbs and some special smells as soon as he entered.

These smells seemed to be the source of life. After taking a breath or two, Zhou Zhou felt his spirit rejuvenate, as if he had endless energy to vent.

Then, he saw all kinds of medicinal herbs planted in the medicinal field.

There were so many of them and had no end to it at a glance.

There were medicinal herbs to make the Life Potion, energy potion, Blood Eye Potion, and Potential Advancement Potion...

There were all kinds of familiar medicinal herbs.

Zhou Zhou was very familiar with most of the herbs.

This was because he had asked Ling'er to nurture them.

Zhou Zhou had never seen the remaining medicinal herbs before. They should have been nurtured by Ling'er.

"How big is this Divine Herb Garden?"

Zhou Zhou asked curiously.

"It was only 50 acres at first."

"After my territory was upgraded to Black Iron-Tier Advance Grade."

"It's 200 acres now."

Ling'er said obediently.

Zhou Zhou clicked his tongue.

The area could be expanded?

It had an area of 200 acres when it's only at Black Iron-Tier Advance Grade?

Then what would happen in the future?

As expected of a Legendary-Tier Lord Talent.

In the past, he had thought that even though Ling'er's Legendary-Tier Divine Herb Garden was very strong, it should not be comparable to his 100% drop rate.

However, looking at the increase in the area, Zhou Zhou suddenly felt that it was really not certain whose Lord Talent was stronger when these two talents were put together.

It was naturally incomparable now.

After all, his Lord Talent had already advanced to the Mythical-Tier!

Zhou Zhou was both surprised and happy upon seeing it.

In the future, his territory could also directly enjoy the Legendary-Tier Lord Talent of the Divine Herb Garden.

While this talent still belonged to Ling'er, it was no different from being his.

Then, Zhou Zhou looked at Ling'er and thought about which Lord Talent he should share with her.

This was because he could only share one Lord Talent.

So he had to think carefully about it.

A moment later.

Zhou Zhou decided to share the White Silver-Tier Blessing of the Ten Gods—the Blessing of the War God—with Ling'er.

This Lord Talent was relatively low-level, but it was the talent that could directly increase the strength of the territory.

With it, Ling'er would also have the strength to protect her Divine Herb Garden and could also walk further on the path of a Lord.

Zhou Zhou could also send people to protect her and her territory, but it was better to teach someone to fish than to give them the fishes.

Zhou Zhou still felt that it was better to let Ling'er grow up on her own.

Moreover, he would continue to upgrade this talent in the future.

Therefore, he did not think he was treating Ling'er badly.

On the other side.

Ling'er was still immersed in the joy of being with Zhou Zhou.

She still felt like she was in a dream.

At this moment,

A line of golden text appeared in front of her.

[The Lord of the Main Territory has shared a White Silver-Tier Lord Talent—Blessing of the Ten Gods—Blessing of the War God with you!]

[You can check the specific information of this Lord Talent.]

Ling'er was immediately stunned.

[\*\*Global Lord: 100% Drop Rate\*\*](#)

**Chapter 178: Begin Formation! Old Opponent!**

"We can actually... Share Lord Talents?"

Ling'er's mouth widened slightly.

Her mouth opened even wider when she opened the shared Lord Talent and saw the specific ability of the Lord Talent.

The first thought that immediately appeared in her mind.

What a powerful Lord Talent!

Her second thought was:

Is this why my Big Brother is so strong?

"Do you see the shared Lord Talent?"

Zhou Zhou asked when he saw her expression.

"Yes, yes, I saw it."

"Big Brother."

"What a coincidence!"

"This Lord Talent is what my territory needs the most!"

Ling'er said happily.

She might be young, but it did not mean that she did not understand the development of the territory.

Ling'er knew very well that even though she had a huge advantage in accelerating the cultivation of medicinal herbs, at the same time her territory's shortcoming in combat strength was also very obvious.

Her territory's strength was already considered not bad among the many human Lords of the Cerulean Planet since she had been recruiting refugees from other places, coupled with the soldier type Class Change Certificate she obtained from Zhou Zhou.

However, this was not enough to protect her Legendary-Tier Lord Talent.

A slightly stronger Lord might be able to take down her territory.

Her territory's combat strength would develop rapidly in the future with the Lord Talent shared by Zhou Zhou!

While it could not compare to Lord Talents with top-notch combat strength, it was enough to protect her territory at least, as long as she did not take the initiative to provoke them.

Therefore, she was very surprised.

"This is nothing compared to your Legendary-Tier Lord Talent."

"But don't worry."

"This Lord Talent will become stronger in the future."

Zhou Zhou smiled mysteriously.

Ling'er blinked.

She did not quite understand what Zhou Zhou meant.

Why would the Lord Talent become stronger?

However, she obediently did not ask further seeing that Zhou Zhou did not seem to want to explain.

After that, Zhou Zhou and Ling'er returned to Blazing Sun City. Then, he invited Ling'er to start ranking together.

Just as he clicked on the ranking.

A line of text appeared.

[Lord Battlefield Hint:]

[Due to the current stage, the level of the Lord's Territory is generally low, so you can't obtain higher-level Territory Tokens.]

[In order to facilitate the completion of the basic objective of the event, exchange for goods from a higher-level Battlefield Shop:]

[All Lords above the Green Bronze-Tier do not need to use the Territory Token to exchange for goods in the Battlefield Shop. Instead, they can use battlefield points to exchange for them.]

[Battlefield Points can be obtained by selling any level of Territory Token or defeating your opponent in the Ranking of the Lords.]

[Your Battlefield Shop has been updated!]

Zhou Zhou was stunned.

Then, he understood and nodded slightly.

This could indeed help them exchange for goods from the Advanced Battlefield Shop easier.

He opened the Battlefield Shop and looked at it.

[1: 100 designated Black Iron-Tier Elementary Grade Military Professionals (Remaining Purchases: 10) - Price: Five Battlefield Points]

[2: 10 designated Green Bronze-Tier Basic Lifestyle Professionals (Remaining Purchases: 10) - Price: Five Battlefield Points]

[3: Green Bronze-Tier Resurrection Token (Exclusive to the Lord Battlefield) (Remaining Purchases: 10) - Price: Five Battlefield Points]

[4: Green Bronze-Tier Territory Rebirth Token (Exclusive to the Lord Battlefield) (Remaining Purchases: 10) - Price: 15 Battlefield Points]

[5: Bronze-Tier +1 (Remaining Purchases: 1) - Price: 25 Battlefield Points]

[6: Gate of Summoning Reset Card (Remaining Purchases: 10) - Price: One Battlefield Point]

...

Seeing this, Zhou Zhou exchanged the remaining two Green Bronze-Tier Territory Tokens and three Black Iron-Tier Territory Tokens with his battlefield points.

One Black Iron-Tier Territory Token gave him one battlefield point, and one Green Bronze-Tier Territory Token could obtain five battlefield points.

After selling them all, he obtained a total of 13 battlefield points.

Then, he clicked on the match and began to rank.

A text notification appeared.

[Matching with your ranking opponent...]

[Match successful!]

[Entering the battlefield!]

The next second.

Zhou Zhou and Ling'er's bodies suddenly turned illusory before quickly disappearing.

They found themselves on an ancient battlefield when they could see their surroundings clearly again.

There were many corpses from various races on this battlefield.

They seemed to have been dead for a long time.

Even though there were many corpses on the battlefield, there was only a faint smell of decay.

At this moment, Zhou Zhou was standing on the city wall and looking into the distance.

He saw two almost identical blood-colored castles to the east and southeast of him.

However, one occupied a larger area while the other was smaller.

At this moment, a text notification appeared.

[You have entered the Green Bronze-Tier Elementary Grade battlefield!]

[You and your opponent have been randomly assigned to the Green Bronze-Tier Elementary Grade battlefield—Plains of Death!]

[Your opponents are: 1. Vampire Lord - Lord Anderson (Green Bronze-Tier Elementary Grade)! 2. Vampire Lord - Lord Turner (Black Iron-Tier Intermediate Grade)!]

[Condition to defeat the enemy: Kill all the enemy forces within 24 hours!]

[If you exceed the time limit, both sides will be judged to have negative battle results. Ranking -1!]

[You have 10 minutes to deploy your forces!]

[Countdown: 9 minutes: 59 seconds]

[Special Hint One: Since you have chosen to party up, you have been assigned a Lord team that has the same number of people as your team.]

[Special Hint Two: You will obtain as many battlefield points as you kill the enemy Lord in a Party up.]

[Special Hint Three: You and your Lord teammates can communicate telepathically on the Lord Battlefield regardless of distance.]

Vampire Lords?

Old rivals.

Zhou Zhou was a little surprised.

Then, he could not help but raise his eyebrows when he saw Special Hint Two.

Wouldn't that mean that he could obtain more battlefield points than in a solo match?

Then he and Ling'er were really the right team.

No, there should be another person, since a group could at most rank three people together.

In a 3v3 ranking, each of them could obtain more battlefield points as long as they won.

He thought for a moment but he did not expect anyone to join in.

Suddenly...

[Big Brother, can you hear me?]

Ling'er's uneasy voice sounded in his mind.

[I can hear you.]

Zhou Zhou immediately replied in his mind.

[Big Brother, it's good that you're here.]

Ling'er's tone instantly relaxed hearing Zhou Zhou's reply.

Zhou Zhou looked around.

Soon, he saw the Spiritual Medicine City in the distance on the left.

[Big Brother, the other party is a Vampire Lord. What should we do next? Big Brother, tell me. I'll listen to you.] Ling'er said.

She had already thought about it before coming.

Her main purpose for this ranking was to listen to Zhou Zhou's command the entire time and not cause trouble.

[Leave the troops guarding the city and deploy the remaining military professionals.]

[After the battle begins, just get your military professionals to follow behind my Blazing Sun Army and kill them.]

Zhou Zhou thought for a moment and said.

Since he chose to rank Ling'er with him he had never thought of letting her lead him to winning.

He told her to stand at the back and not cause trouble. She could just wait for him to lead the victory.

[Okay!]

Ling'er agreed immediately and began to deploy her troops.

Zhou Zhou also began to deploy his troops seeing this.

He left 5,864 Military Professionals in the territory to defend the city. Then, he summoned the remaining 15,000 Military Professionals as well as Bai Yun, Wu Xin, Nezario, Maris, and other high-end combatants.

Then, these people began to set up defenses on the city wall.

During this period, Zhou Zhou saw many Blood Bats fly out of the enemy's territory, circling above the Blazing Sun City and Spiritual Medicine City.

Zhou Zhou knew that the other party was using the Blood Bat Form to investigate them.

"Hmph!"

"Get lost!"

He looked at these Blood Bats who were observing them fearlessly and suddenly snorted.

The next second, the pressure from the Vampire Viscount Bloodline instantly erupted from his body and landed on the Blood Bats in the blink of an eye.

Fear immediately appeared in their eyes when these Blood Bats felt the pressure from this bloodline.

They wanted to escape.

However, under the suppression of the higher-level vampire bloodline, they could not even escape. They directly exploded into large balls of blood mist in midair.

At the same time...

In the territory of Lord Anderson and Lord Turner.

At this moment, the two Vampire Lords were using the low-level vampires they had created and using the Blood Bat Form to observe the situation in the other party's human Lord territory.

At this moment, these low-level vampires suddenly revealed fear in their eyes.

Right on the heels of that.

Their bodies instantly exploded into countless blood mists accompanied by a bang.

This scene immediately stunned Lord Anderson and Lord Turner.

[\*\*Global Lord: 100% Drop Rate\*\*](#)

**Chapter 179: Rapid Promotion! White Silver-Tier Intermediate Grade!**

"What... What's going on?"

"Did the other party use some curse spell?"

Lord Turner said stupidly.

He was the Black Iron-Tier Intermediate Grade Lord who brought Lord Anderson here.

Their situation was similar to Zhou Zhou and Ling'er's.

They both brought one more Lord with them, allowing the other party to advance more easily.

However, these two Vampires were in an employer-employee relationship.

Lord Turner had spent a lot of money to hire Anderson, a Green Bronze-Tier Elementary Grade Lord, to help him advance.

"Can't you tell?"

"This is caused by the level suppression between our vampire bloodlines!"

"That human Lord is not simple."

"There should be a Vampire Viscount like me."

Anderson's expression was a little gloomy.

He had thought that it would not be a problem to pass the Lord Battlefield with a Black Iron-Tier Intermediate Grade Lord but did not expect to encounter such a tough opponent.

"Then what should we do?" Turner asked in a panic.

"Don't worry."

"Am I not still a Vampire Viscount just because he is?"

"I'll use the pressure of my viscount bloodline to fight him so that he won't have time to deal with you when the battle starts later and he uses his viscount bloodline to suppress our low-level vampires."

"At that time, use your Blood Bat Form to fly past the city walls of these two human Lords and enter their city."

"Come back and help me after you break through the other party's territory in the city." Anderson said.

He also had the bloodline of a vampire viscount, so he was not afraid of Zhou Zhou's bloodline pressure.

As for Turner, he was an ordinary Vampire Baron.

Turner immediately nodded.

A moment later.

Not long after both sides deployed their forces.

A text notification appeared.

[Deployment time has ended!]

[The Lord War has begun!]

The next second.

Zhou Zhou saw more than 20,000 Blood Bats flying out of the other party's territory.

They were like blood clouds that covered the sky.

It flew towards Blazing Sun City and Spiritual Medicine City with an astonishing aura and pressure.

Zhou Zhou took a rough look.

With the ability of the Vampire Viscount bloodline, he realized that most of the 20,000 Blood Bats were formed by low-level vampires.

Only a small number of them were transformed by the Vampire Baron after using the Blood Bat Form.

Seeing this, he was about to use the bloodline pressure of the Vampire Viscount to attack these Blood Bats.

At this moment, he suddenly felt the same vampire viscount bloodline appear out of thin air and block the pressure of his bloodline.

Zhou Zhou raised his eyebrows.

He likes to resist pressure?

With a thought...

At this moment, Nezario, who was resting with its eyes closed in the territory, suddenly opened its eyes.

"Roar!!!"

A dragon roar sounded.

Accompanied by the extremely terrifying dragon might,

Anderson, who was releasing the pressure of the Vampire Viscount's bloodline, rolled his eyes and fainted.

"My Lord?!"

"My Lord, what's wrong?!"

When the other vampire subordinates saw their Lord faint, they immediately surrounded him in panic.

...

"All long-range soldiers, kill these Blood Bats with all your might!"

"Maris."

"It's your turn!"

Bai Yun ordered.

As soon as she finished speaking, more than 7,000 archers, crossbowmen, poison crossbowmen, and elemental archers drew their bows and shot at the Blood Bats.

Maris' soul also emerged from its body. It held the God of Death Scythe and charged at the Blood Bats.

It was already at Green Bronze-Tier Advance Grade.

This meant that he could instantly kill all living beings below the White Silver-Tier!

Even if it was a White Silver-Tier Blood Bat, it was very likely to kill it as long as it attacked a few more times.

More than 95% of these 20,000 Blood Bats were below the White Silver-Tier.

Which meant...

If Maris was given enough time, it could even deal with all 20,000 Blood Bats without being injured by itself.

Moreover, while another soldier type, might not be able to tell which of these Blood Bats hid the true souls of the vampires, Maris, as a Divine Kingdom-level soldier type— the Soul Reaper, it was naturally extremely sensitive to souls and could easily sense the location of the souls in these Blood Bats.

Therefore, it began to kill these Blood Bats and was able to deliver accurate kills which was extremely efficient!

In less than a moment, under the joint battle of Maris and all the ranged soldiers, all the Blood Bats were killed.

More than 8,000 Sword Shield Soldiers and other melee professions broke into the cities of the two vampire Lords and killed the two vampire Lords and the remaining vampires.

A text notification appeared.

[You and your teammates have defeated the Vampire Lord - Anderson (Green Bronze-Tier Elementary Grade) and the Vampire Lord - Turner (Black Iron-Tier Intermediate Grade). You have won this ranking competition!]

[You have obtained 6 battlefield points!]

[Congratulations, you have advanced to Green Bronze-Tier Intermediate Grade in the Lord Battlefield of All Races!]

[You need to participate in at least one ranking competition every three days. Otherwise, your rank will - 1!]

[Your Battlefield Shop has been updated!]

[You can return to your territory!]

Zhou Zhou nodded slightly.

While the opponents this time were much stronger than his previous opponents, they were not much stronger.

On the other hand, Ling'er felt like she was dreaming.

How can my big brother deal with such a strong vampire Lord with such ease?!

Wasn't this win too easy?

She had not forgotten the spectacular scene of more than 20,000 Blood Bats flying out.

It looked so scary yet they were killed by my brother like paper?

Ling'er clicked her tongue.

My big brother seems to be too ridiculously strong.

At this moment.

[Do you still have ranking tries left?]

Zhou Zhou's voice sounded in her mind.

[Yes, there are three more times. My territory just took down the regional territory of my area last night.]

Ling'er hurriedly said.

[Alright.]

[Get your soldiers to rest for a while.]

[Let's continue ranking later.]

Zhou Zhou said.

"Mmm-hmm."

A moment later.

Zhou Zhou and Ling'er activated the ranking competition again.

...

Two hours later.

After ending the last ranking and returning to the territory, Zhou Zhou opened the Lord Battlefield and looked at the Lord rank displayed in the upper left corner.

[Title: Lord of The Blazing Sun]

[Rank: White Silver-Tier Intermediate Grade]

[Number of Rankings: 18]

[Battlefield Points: 89]

As for Ling'er's Lord rank, it had also increased from Black Iron-Tier Intermediate Grade to Green Bronze-Tier Advance Grade!

"Big Brother."

"I don't have any more ranking tries." Ling'er was a little embarrassed.

"Then attack some more Scarlet Lord's territories or foreign race Lord's territories."

"Let's rank together again when you have more." Zhou Zhou said.

Ling'er immediately agreed.

With the blessing of the Ten Gods— The Blessing of the War God, she also had a higher passion for going out to fight.

After Ling'er left.

Zhou Zhou was not in a hurry to find someone else to rank. Instead, he opened the battlefield shop and checked the new goods.

[\*\*Global Lord: 100% Drop Rate\*\*](#)

**Chapter 180: Title Upgrade! Fashion Upgrade!**

Zhou Zhou looked at the White Silver-Tier Intermediate Grade Lord Shop.

[1: Cerulean Planet Human Race Building - Triumphal Arch Architecture Blueprint Fragment (2/7)  
(Remaining Purchases: 1) - Price: 50 Battlefield Points]

[2: Index of All Races (Book Two) (Remaining Purchases: 1) - Price: Five battlefield points]

[3: Index of All Races (Book Three) (Remaining Purchases: 1) - Price: 25 Battlefield Points]

[4: 100 designated White Silver-Tier Elementary Grade Military Professionals (Remaining Purchases: 10) - Price: 25 Battlefield Points]

[5: 10 designated White Silver-Tier Basic Lifestyle Professionals (Remaining Purchases: 10) - Price: 25 Battlefield Points]

[6: White Silver-Tier Resurrection Token (Exclusive to the Lord Battlefield) (Remaining Purchases: 10) - Price: 25 Battlefield Points]

[7: White Silver-Tier Territory Rebirth Token (Exclusive to the Lord Battlefield) (Remaining Purchases: 10) - Price: 25 Battlefield Points]

[8: White Silver-Tier+1 (Remaining Purchases: 1) - Price: 500 Battlefield Points]

[9: One Green Bronze-Tier Master-Servant Territory Contract (Remaining Purchases: 1) - Price: 20 Battlefield Points]

[10: Gate of Summoning Reset Card (Remaining Purchases: 10) - Price: One Battlefield Point]

...

Zhou Zhou's eyes lit up.

The goods in this White Silver-Tier Battlefield Shop were already enough for him to take seriously.

For example, the 100 White Silver-Tier Elementary Grade Military Professionals.

It made him quite envious.

There were only 98 White Silver-Tier Military Professionals left in his Blazing Sun Army other than Bai Yun and the other high-end combatants even though he had developed so much.

And now, he only needed 25 battlefield points to exchange for a total of 100 powerful White Silver-Tier combatants in the Battlefield Shop.

How could he not be tempted?

However, Zhou Zhou finally suppressed the urge to buy it immediately after looking at it for a while.

Instead, he first bought the second building blueprint fragment of the Triumphal Arch and Book Two and Three of the Index of All Races.

Purchasing these three items alone cost him 80 battlefield points, leaving him with only 9 battlefield points.

"My points are still not enough..."

Zhou Zhou looked at the Green Bronze-Tier Master-Servant Territory Contract that was worth 20 Battlefield Points. In the end, he closed the Battlefield Shop interface because he was short of money.

"I still have to continue ranking or attacking other territories to obtain battlefield points."

"It's easier to obtain battlefield points through ranking now."

Zhou Zhou was deep in thought.

In the Lord Battlefield.

Defeating a Black Iron-Tier Lord would give him one battlefield point.

Defeating a Black Iron-Tier Lord would give him one battlefield point.

Defeating a White Silver-Tier Lord would give him 25 battlefield points.

This was only White Silver-Tier.

It could be expected that:

They would be able to obtain more battlefield points as long as they could win and the ranking opponent's ranking increased!

This was much more convenient than bringing tens of thousands of soldiers around to search for enemies and conquer territories before obtaining Territory Tokens to exchange for battlefield points.

"But where can I find teammates?"

Zhou Zhou thought.

Among the Lords of the Cerulean Planet...

He had only chatted with the Military Industry Lord once other than Ling'er's deeper relationship with him.

However, they were not very familiar with each other.

It felt a little strange to rashly go up and ask if they wanted to rank together.

At this moment, a line of golden text suddenly appeared, as if it had heard him mutter to himself.

[Lord Battlefield Hint: Do you want to activate the recruitment ranking mode? (Through randomly recruiting Lord teammates whose ranks are not more than one level higher within the same race or all races to form a Party?)]

"I can do that?"

Zhou Zhou was stunned.

Then, he thought for a moment and nodded slowly.

"That works too."

"This way, I won't have to spend time looking for suitable teammates."

He did not immediately start the recruitment ranking. Instead, he checked his Lord title and the fashion of the battlefield recruits.

When Zhou Zhou advanced to the White Silver-Tier Elementary Grade Lord Rank, both of them had also advanced to White Silver-Tier.

Among them, the Bronze-Tier Lord title was upgraded to the White Silver-Tier Lord title!

Even though the name [Event Limited Fashion: Battlefield Recruit] had not changed.

However, his Stats had also increased.

[Title Name: White Silver-Tier Lord]

[Title Quality: White Silver-Tier - Enhanceable]

[Title Effect One: When fighting against the enemy forces of the Scarlet Fog, both you and your Subjects will obtain an additional 10% increase in strength.]

[Title Effect Two: When fighting the Lords of All races, you and your Subjects will receive an additional 10% increase in strength when the other party's Lord Battlefield rank is lower than your Lord Battlefield rank.]

[Title Effect Three: Same as before.]

[Title Description: Same as before]

...

[Fashion Outfit Name: Battlefield Recruit (Event Limited Fashion)]

[Fashion Grade: White Silver-Tier - Enhanceable]

[Fashion Feature One: Reduces 20% of the damage sustained by White Silver-Tier and below!]

[Fashion Feature Two: Leave the battlefield—In the White Silver-Tier Lord Battlefield Ranking, when your side is at a disadvantage, if you have the White Silver-Tier Territory Rebirth Token, the Lord has the right to choose to admit defeat and automatically withdraw from the Lord Battlefield Ranking.]

[Fashion Feature Three: Same as before]

[Fashion Feature Four: Comfort +5]

[Current Fashion Outfit Completeness: 5/5]

[Introduction: Same as before]

...

Zhou Zhou looked at their improvement in surprise.

Especially the [White Silver-Tier Lord] title Effect increase by 1!

After this title was upgraded to the White Silver-Tier, not only did it retain and increase the original title Effect, it could actually obtain an increase in strength when facing Lord of All Races below its level.

"The title of Lord can actually affect reality?!"

Zhou Zhou immediately realized the importance of this matter.

With this factor, many Lords would probably work hard to break through on the Lord Battlefield in the future.

As for the characteristics 1, 2, and 4 of the battlefield recruit's fashion, they had also been greatly improved.

After that, Zhou Zhou put on the battlefield recruit clothes and activated the recruitment ranking mode within his own race.

As for randomly recruiting Lord teammates from the people of foreign races?

Zhou Zhou did not have that thought for the time being.

Those who are not of our race will definitely have different intentions!

He would not cooperate with the people of foreign races easily.

[Matching with your ranking opponent...]

[Match successful!]

[Entering the battlefield!]

The next second.

His vision darkened before he quickly regained his vision.

Then, Zhou Zhou immediately observed his surroundings.

He realized that he had appeared in an ancient, dilapidated, and incomparably vast arena.

However, there was no one else in the arena other than Lords like them.

On the left and right sides of his city stood a city that was much smaller than Blazing Sun City.

Under the powerful vision of the Chaos Human bloodline,

He could see two human Lords standing on the city wall and observing him and his surroundings.

At this moment, a text notification appeared.

[You have entered the White Silver-Tier Intermediate Grade battlefield!]

[You and your opponent have been randomly assigned to the White Silver-Tier Intermediate Grade battlefield—Hundred City Arena!]

[Your teammates are: 1. Cerulean Planet Human Lord— Heaven Summer Lord (White Silver-Tier Intermediate Grade)! 2. Cerulean Planet Human Lord—White Night Lord (White Silver-Tier Intermediate Grade)!]

[Your opponents are: 1. Ice Spirit Lord - Black Ice Lord (White Silver-Tier Intermediate Grade)! 2. Ice Spirit Lord - Snow Orchid Lord (White Silver-Tier Intermediate Grade)! 3. Ice Spirit Lord - Frost Startling Lord (White Silver-Tier Intermediate Grade)!]

[Condition to defeat the enemy: Kill all the enemy forces within 24 hours!]

[If you exceed the time limit, both sides will be judged to have negative battle results. Ranking -1!]

[You have 10 minutes to deploy your forces!]

[Countdown: 9 minutes: 59 seconds]
