Chapter 301: Nurturing The Sacred Blood Flower! Wu Tu's Map!

After the consumption just now, he still had 154 White Platinum-Tier Advance Grade Vampire Baron Bloodlines and 1,932 Diamond-Tier Elementary Grade Wood Elves Bloodlines.

He looked a little hesitant before he quickly became determined.

The vampire bloodline would be suppressed by the level of a high-level vampire!

The Wood Elves' bloodline would also be affected by the Divine Will of the Tree of Life.

Even though the latter was not very restrictive, it was still a small flaw.

It would also be fatal at certain times.

Since these two bloodlines had their own flaws, he would water them for the Sacred Blood Fruit.

At least with the hint of the Supreme Will, the Sacred Blood Fruit was safe.

Thinking of this, Zhou Zhou immediately took out 100 sets of White Platinum-Tier Advance Grade Vampire Baron bloodline and fused them with a Diamond-Tier Advance Grade Vampire Viscount bloodline.

Then, he watered it with the Sacred Blood Flower.

After the Sacred Blood Fruit was watered again, it quickly emitted a faint golden-red light.

A moment later.

The light dissipated.

A Diamond-Tier Advance Grade Sacred Blood Fruit appeared as the Sacred Blood Flower bloomed.

Zhou Zhou's expression did not change when he saw this. He took out another 100 sets of Wood Elves bloodline and fused them into a high-level Wood Elves bloodline before watering the Sacred Blood Fruit.

The Sacred Blood Fruit quickly advanced to Extraordinary-Tier Elementary Grade!

Seeing this, Zhou Zhou continued to take out 1,000 sets of Wood Elves bloodline and fused them into 10 sets of high-level Wood Elves bloodline. Then, he watered them all for the Sacred Blood Fruit.

Under Zhou Zhou's expectant gaze, the Sacred Blood Fruit's upgrade to the Epic-Tier Intermediate Grade stopped abruptly.

He frowned slightly.

After so many bloodlines, he had only raised the Sacred Blood Fruit to the Epic-Tier Intermediate Grade?

One had to know that any of these bloodlines could be snatched by countless Lords on the Marketplace!

And he had just inserted 1,200 bloodlines!

The price of nurturing the Sacred Blood Flower was actually so high...

Zhou Zhou wanted to retreat.

He understood that it was impossible for him to water a Sacred Blood Fruit that could increase the purity of Nezario's bloodline.

Unless he could obtain a large number of high-level bloodlines in the future.

The high-level here referred to at least the bloodline of a Low-Tier Deity!

Or even higher!

Otherwise, it would probably be very difficult to nurture a True God-Tier Advance Grade Sacred Blood Fruit.

However, he was a little unwilling to give up after paying so much.

Zhou Zhou thought for a moment and fused six more portions of high-level Wood Elves bloodline. Through watering them, he upgraded the Sacred Blood Fruit to an Epic-Tier Advance Grade.

Then, he called Wu Xin over.

After asking Wu Xin for his opinion, not surprisingly, this old general who had fought for the human race for many years was naturally unwilling to abandon his human bloodline.

However, he was still very willing to increase his Golden Dragon Bloodline slightly without affecting his human bloodline.

After Zhou Zhou found out about this situation, he handed the Epic-Tier Advance Grade Sacred Blood Fruit to the other party.

After Wu Xin ate it, he only opened his eyes after two hours.

"My Lord, my injuries seem to have recovered a little."

"Moreover, it's still slowly recovering under the influence of the Golden Dragon Bloodline."

"My strength has already recovered to White Platinum-Tier Advance Grade."

Wu Xin was very surprised.

Zhou Zhou was also a little surprised.

This old general's strength at his peak was at the Diamond-Tier Advance Grade!

It was only because he had become older and his old injuries had relapsed that he had fallen to the Yellow Gold-Tier Elementary Grade.

Later on, he received treatment in The Shelter of the Goddess of Life and slowly recovered to White Platinum-Tier Elementary Grade.

Now, not only had his injuries recovered a little because of the purification of the Golden Dragon Bloodline, but his strength had also returned to the White Platinum-Tier Advance Grade.

This was a White Platinum-Tier Advance Grade hero!

With his strength and hero Fate Level slot, he could probably defeat even a Diamond-Tier Scarlet Lord!

Zhou Zhou was even more satisfied.

The Restoration of Elder Wu's injuries and the increase in his strength was a pleasant surprise to him!

He liked such an unexpected surprise!

Then, Zhou Zhou looked at his bloodline column.

As expected, the Golden Dragon Bloodline had already increased to 25%, while the human bloodline had reached 75%.

He looked at the other party's potential column again and realized that Wu Xin's potential had already increased from the original Extraordinary-Tier Advance Grade to Epic-Tier Advance Grade!

Zhou Zhou clicked his tongue in wonder.

It had actually increased by an entire level!

As expected of the dragon bloodline.

After that, he did not plan to stay any longer.

Zhou Zhou looked at Ling'er.

"Ling'er, I'll leave this Sacred Blood Fruit to you."

"We must send someone to protect it."

Zhou Zhou instructed seriously.

"Okay, Big Brother!"

Ling'er nodded seriously.

Zhou Zhou smiled and stroked her hair. Then, he left the divine medicinal gardens and returned to Blazing Sun City through the Spatial Teleportation Array.

When he returned to the Lord's Manor, he suddenly saw a familiar young man standing there.

The other party also saw Zhou Zhou.

"Greetings my Lord!"

Wu Tu said respectfully.

"Let's go in first."

Zhou Zhou smiled.

Wu Tu smiled and nodded.

Then, the two of them walked into the Lord Manor one after another.

In the meeting hall.

Zhou Zhou and Wu Tu chatted for a while before Wu Tu reported the situation of his map drawing.

"My Lord, please take a look."

"This is the summary of the maps drawn by the Heavenly Army during this period of time."

Wu Tu solemnly took out a black booklet and handed it to Zhou Zhou respectfully with both hands.

Zhou Zhou took it and flipped through it.

The first thing he saw was a large map.

This large map not only included the situation of all the ownerless territories around Blazing Sun City.

Moreover, it included the situation in the kingdom outside the ownerless area.

This included the Aurora Kingdom that occupied the west, northwest, and north, the Nether Bark Kingdom that occupied the east, and the Tahan Kingdom that occupied the south!

What surprised Zhou Zhou the most was...

This map actually contained a complete map of the territory distribution of the Tahan Kingdom!

In the past, Zhou Zhou did not know the regional distribution of the Tahan Kingdom.

Therefore, when he attacked Dark Night Town today, he did not dare to be too careless because he was worried that something unexpected would happen.

Therefore, in the end, he did not occupy Dark Night Town. He only destroyed it and left.

Now that he saw this map of the Tahan Kingdom's territory distribution, even though he knew that the Tahan Kingdom was very powerful, he felt calm.

Zhou Zhou looked at the regional map of the Tahan Kingdom.

The more he looked, the more surprised he was about the strength of the Tahan Kingdom.

Normally speaking, he only needed 30 regional territories to build a kingdom to satisfy the requirements of the number of territories.

However, the Tahan Kingdom actually had a total of 54 regional territories!

Among them, there was one Extraordinary-Tier Regional Territory, three Diamond-Tier Regional Territory, 11 White Platinum-Tier Regional Territory, 22 Yellow Gold-Tier Regional Territory, and 17 Green Bronze-Tier Regional Territory!

There was not a single Black Iron-Tier region.

Zhou Zhou thought for a moment and had a guess.

He had probably fused them all like him.

Previously, he also had many Black Iron-Tier territories and had already fused them all.

"No wonder the Aurora Kingdom, which has fighting power, asked me for help."

Zhou Zhou sighed.

Then, he began to observe the distribution of the territory near Dark Night Town.

Then he raised his eyebrows.

This was because Zhou Zhou realized:

The main territory of the Tahan Kingdom was to the west of the Aurora Kingdom, an entire kingdom away from the territory where Blazing Sun City was!

The area where Dark Night Town was located was surprisingly in a "small-tailed" area of the Tahan Kingdom.

There were not many powerful territories nearby!

At most, there was only one White Platinum-Tier Scarlet Lord territory.

With Zhou Zhou's current strength, it was not impossible to fight against such a Scarlet Lord's territory!

After all, with Nezario's current strength and Hero Fate Level slot, as long as the Tahan Kingdom did not mobilize its heroes.

The possibility of them losing was extremely small!

According to his understanding, the heroes of the Tahan Kingdom were currently confronting the heroes of the Aurora Kingdom on the battlefield thousands of kilometers away.

There was no way to worry about him.

"Then I can continue to expand along Dark Night Town."

Zhou Zhou immediately thought with excitement.

[**Global Lord: 100% Drop Rate**](#)

Chapter 302: Zhou Zhou's Decision! Monster Ranch Gains!

Zhou Zhou thought for a moment and quickly made a decision.

Since there were no powerful helpers near Dark Night Town,

Then continue fighting along Dark Night Town!

Even if the last thing they wanted to see happened—the Extraordinary-Tier Hero of the Tahan Kingdom came to them.

Then they could also retreat strategically with the help of the Sandstorm Forbidden Land and Black Ghost!

In short...

It was not very dangerous.

He could definitely give it a try!

"Then we'll continue to attack the territory of the Tahan Kingdom along Dark Night Town tomorrow."

Zhou Zhou thought.

It would be best if he could obtain two Yellow Gold-Tier Territory Tokens.

Then, he could also upgrade his territory again.

Then, he looked at the Nether Bark Kingdom in the east.

This kingdom did not have a complete map of the regional territories. It only drew some maps of the peripheral territories.

On its right side, there was some information about its kingdom.

[Nether Bark Kingdom: A kingdom established by the kobolds. It is a religious country. All the kobolds in the kingdom believe in Thanatos, the God of Death, and have built a large number of temples. Their Pope is also a king. They have a total of 3 Extraordinary-Tier Regional Territories, Six Diamond-Tier Regional Territories... A total of 86 Regional Territories...]

Zhou Zhou raised his eyebrows

So this Nether Bark Kingdom was a religious country that believed in Thanatos, the God of Death.

Moreover, it was created by the Kobolds.

He could not help but think of the Kobold Tribe he had once destroyed.

It was also from that place that he obtained the Holy Spirit-Tier Faith Divine Crystal and used it to exchange for the Death Immunity Scroll that saved his life.

It was also from that place that he obtained the Holy Spirit-Tier Faith Divine Crystal and used it to exchange for the Death Immunity Scroll that saved his life.

Zhou Zhou felt that it was very likely.

What surprised him was:

Not only did the Nether Bark Kingdom have 86 regional territories, but there were also three Extraordinary-Tier regional territories, which was more than the powerful Tahan Kingdom.

"This Nether Bark Kingdom is probably even stronger than the Tahan Kingdom."

Zhou Zhou thought.

Then, he continued to read the information about this kingdom and realized that it was also fighting against the Aurora Kingdom. Moreover, the reason was shockingly 'to spread faith by force'!

"What kind of luck does the Aurora Kingdom have..."

The corners of Zhou Zhou's mouth twitched.

In the north was the Titan Kingdom, in the east was the Nether Bark Kingdom, and in the west was the Tahan Kingdom!

He was actually sandwiched by three kingdoms.

It was not easy to survive until now.

No wonder Li Ya was so worried every day.

However, he realized that his situation was not too good.

As people who were close to the Aurora Kingdom,

once the Aurora Kingdom could not withstand the pincer attack of the three countries,

Then he would probably become their next target.

When Zhou Zhou thought of this, he became determined to attack the area near Dark Night Town again.

It would be best if he could join forces with the Aurora Kingdom to deal with the Tahan Kingdom first.

This way, the Aurora Kingdom's pressure would be greatly reduced, and they would be able to deal with the Titan Kingdom and the Underworld Bark Kingdom more easily.

He could also increase the strength of his territory during this process and gradually gather the conditions to establish a kingdom.

After he built his kingdom,

With his Lord Talent, it would definitely be easy to deal with the Titan Kingdom and the Nether Bark Kingdom!

"Well done."

"I'm very satisfied with this map."

Zhou Zhou's gaze shifted from the map to Wu Tu's face. He looked at this young face and nodded in satisfaction.

"This is my duty!"

"As long as my Lord is satisfied!"

Wu Tu knelt on one knee and said respectfully.

However, even so,

However, Zhou Zhou could still see an excited smile on his face.

Zhou Zhou smiled.

"Go get your military merits from Elder Zheng."

"If you can bring me better map information next time..."

"I'll reward you handsomely!"

He said.

As for what the reward was.

Zhou Zhou already had an idea.

There was also an Extraordinary-Tier Hero Inheritance that could be inherited from the Knight Temple.

Originally, he was not sure of the candidate.

But now, looking at Wu Tu,

Zhou Zhou suddenly realized that he had forgotten about this person who had made many contributions behind his back.

Without Wu Tu's map along the way, even though his development would not be much different, he would definitely not be able to reach his current level.

Wu Tu's contribution was definitely worth an Extraordinary-Tier Hero's inheritance!

"Yes, my Lord!"

"I promise I won't disappoint you, my Lord!"

When Wu Tu heard Zhou Zhou's words, he could not help but look forward to it.

After chatting for a while, Wu Tu bade farewell and left.

After he left, Zhou Zhou dealt with some territory matters before returning to his room to rest.

The next day.

Early in the morning.

In the bedroom.

After Zhou Zhou woke up, he washed up briefly and walked out of the Lord Manor to the Gate of Summoning.

A text notification appeared.

[Prompt: Do you want to summon immediately?]

"Yes!"

Zhou Zhou looked at the Gate of Summoning.

The next second.

The Gate of Summoning suddenly lit up with a bright white light. Then, a large number of subjects walked out.

After more than half an hour.

Only then did 725 new subjects walk out of the Gate of Summoning.

"Greetings, my Lord!" x725

The 725 new subjects said respectfully.

"Welcome to Blazing Sun City."

Zhou Zhou acknowledged.

Then, he asked all the professionals to stand up and realized that he had summoned a total of 32 professionals.

Zhou Zhou nodded slightly.

Normally speaking,

He should summon 24 Professionals.

This time, he actually summoned 32 people.

Which meant...

He had freeloaded six professionals.

I like to freeload!

He thought.

Then, Zhou Zhou began to check their attribute information.

A moment later.

The inspection was completed.

Among the 32 professionals, there was a Yellow Gold-Tier Intermediate Grade Blacksmith, a Yellow Gold-Tier Intermediate Grade Tailor, a Yellow Gold-Tier Intermediate Grade Martial Artist, and a Yellow Gold-Tier Intermediate Grade Adventurer!

There were also two Yellow Gold-Tier Elementary Grade Sword Shield Soldiers, two Yellow Gold-Tier Elementary Grade Wind Cavalrymen, and three Yellow Gold-Tier Elementary Grade Sentinels.

The rest were Green Bronze and Black Iron-Tier life professionals and combat professionals.

"I actually summoned an adventurer."

Zhou Zhou was a little surprised.

Then, he did not think too much about it.

He handed them all to Elder Zheng and let him make the arrangements. Zhou Zhou went to the Golem Lair and summoned the 126 golems today. He also asked them to join the monster army.

After that, Zhou Zhou led the soldiers to sweep through the Time Ruins and brought all the legionaries to the monster ranch.

After Mu Gu and Zhao Changshou built it overnight, there was already a new monster ranch of the Violent Storm Demon Spirits here. The total number of monster ranches came to 11.

A monster ranch had 3,500 ranch monsters!

10 monster ranches were a total of 38,500 ranch monsters!

"Today, the total number of my soldiers will exceed the 100,000 mark!"

Zhou Zhou thought expectantly.

Then he ordered 90,596 soldiers to start cleaning up the 38,500 ranch monsters.

In less than half an hour, all the ranch monsters were wiped out.

The soldiers then spent another half an hour extracting the loot from 10 Conqueror's Blast Furnaces.

With the effect of the Perfect Loots and his titles:

Other than the +1 Quality monster flesh, skill books, potion formulas, equipment, materials, Fire Demon Fog Wolf outfits, vitality potion, Jade Sun Tree Seed, and other items,

Zhou Zhou didn't look at other loots, but directly looked at the number of recruitment books in it.

He calculated in his mind, and then a smile appeared on the corner of his mouth.

42,850 Recruitment books!

As long as they are all summoned from the Summoning Gate, his number of soldiers will reach 134,446!

That was indeed the case.

No upgrade of the Monster Ranch has ever disappointed him!

[Global Lord: 100% Drop Rate](#)

Chapter 303: White Platinum-Tier Elementary Grade Soldier! Feng Luo With A Great Change In Disposition!

Zhou Zhou called Wu Xin and brought the 42,850 recruitment books to the Gate of Summoning. Then, he began to summon new recruits.

Then, he did not care much and let Wu Xin gather the new recruits here. He opened the Marketplace and threw in 80,000 Basic Military Profession Change Certificates, as well as excess materials, skill books, equipment, and other items. Then, he directly announced the transaction.

In less than a moment, this transaction was ranked first on the transaction viewership rankings.

Zhou Zhou closed the Marketplace interface and quietly waited for the recruitment to end.

Half an hour later.

42,850 soldiers walked out of the Gate of Summoning and joined the Blazing Sun Army.

Coupled with the 12 Elemental Archers recruited from the Time Ruins and the 126 golems in the Golem Lair,

At this point!

The total number of soldiers under Zhou Zhou had officially reached 134,584!

"Now I have an army of 100,000!"

"The number of soldiers under my command can exceed 200,000 by the day after tomorrow!"

His eyes lit up.

At this rate of development...

In less than a month.

He could have a million troops!

When the time comes...

He would have the ability to declare war on a kingdom!

After a while.

Bai Yun walked quickly to him from afar.

"I've something to report, my Lord!"

"I just finished counting the soldiers' breakthroughs."

"A total of 81,600 soldiers have broken through this time!"

"21,617 have advanced to Black Iron-Tier Intermediate Grade and Black Iron-Tier Advance Grade amongst them!"

"33,500 people will advance from Black Iron-Tier to Green Bronze-Tier!"

"23,437 people have advanced to the White Silver-Tier!"

"2,882 people have advanced to Yellow Gold-Tier!"

"164 people broke through to the White Platinum-Tier Elementary Grade!"

"Our army has a total of 40,370 Black Iron-rank soldiers!"

"51,913 Bronze soldiers!"

"White Silver-Tier, 37,644!"

"4,355 Yellow Gold-Tiers!"

"164 White Platinum-Tier Elementary Grade!"

"In addition, I just broke through to the White Platinum-Tier Elementary Grade!"

"Maris has also broken through to the Yellow Gold-Tier Intermediate Grade!"

Bai Yun said respectfully.

Zhou Zhou was pleasantly surprised.

He remembered that after clearing the Monster Ranch yesterday, only 28,000 people had broken through, and none of them had broken through to the White Platinum-Tier.

More than 81,000 people had broken through today.

The number was nearly three times more than yesterday!

Moreover, 164 people had broken through to the White Platinum-Tier Elementary Grade!

White Platinum-Tier Military Professionals!

This was already within the strength of a Legendary-Tier talent!

Which meant...

Even if he no longer obtained the Reputation Rating, at least a hundred soldiers would break through to the White Platinum-Tier just by clearing the Monster Ranch every day!

It might even be higher in the future!

The most important thing was naturally the Lord Talent that had been upgraded to the White Platinum-Tier level: Blessing of the Ten Gods—Blessing of the War God.

Yesterday, this Lord Talent would only give the combat-type Professionals under him an additional 400% promotion energy.

Now, he would directly obtain an additional 2,000% promotion energy!

It could be said that he had improved tremendously!

Otherwise, he would definitely not have been able to obtain such an improvement today.

"I'm about to break through to Yellow Gold-Tier Elementary Grade."

Zhou Zhou sensed the promotional energy in his body and realized that it was about to break through.

He estimated that he would be able to successfully break through after killing a few hundred more monsters.

At this moment, the exchange sent out a notification.

Zhou Zhou took a look.

He realized that he had just completed the transaction.

He looked at the transaction results.

[Trade Result: 289,637,136 Black Iron-Tier Mist Cores!]

There were nearly 300 million Black Iron-Tier Mist Cores!

Zhou Zhou nodded slightly.

This number was within his expectations.

The amount of things he sold today was almost twice as much as yesterday after all.

After that, Zhou Zhou did not enter the Lord Battlefield to begin his ranking. Instead, he came to the Knight Temple and fought in front of the Heroic Spirit Hall.

"Greetings, Lord Guardian of the Hidden Sea."

Zhou Zhou said respectfully.

"There's no hurry."

"That kid should be out soon."

Hidden Sea thought highly of Zhou Zhou and chuckled. He did not have the airs of an expert at all.

Zhou Zhou smiled and nodded.

Then, the two of them started chatting.

A moment later.

Rumble...

The door of the Heroic Spirit Hall slowly opened.

Then, a mighty man wearing black general armor and holding a tall saber walked out of the door.

It was none other than Feng Luo!

The current him was completely different from when he first arrived.

Feng Luo, who had just arrived in the territory, looked like a downtrodden young man who had been through many wars and had been searching for his dream of peace.

Even though he was a Sword Shield Soldier,

he had extremely powerful strength and exquisite saber techniques,

This made him look less like a Sword Shield Soldier and more like a machete man who wanted to change the world.

And now, Feng Luo's ambition remains unchanged.

However, his aura had already changed.

Not only was his gaze more determined and steady than before, but he also had the aura of a great general and the unparalleled chivalry of a Martial Artist.

If one had to use one word to summarize it.

That is:

Hero!

"Subordinate Feng Luo."

"Greetings my Lord!"

Feng Luo came up to Zhou Zhou and knelt on one knee.

"Looks like you've grown a lot."

Zhou Zhou lamented.

She helped him up.

"Thank you, my Lord, for giving me the chance to accept Senior Zun Wu's Hero Inheritance!"

"Otherwise, I wouldn't be where I am today."

Feng Luo stood up and said gratefully.

Zhou Zhou smiled.

He didn't say anything.

"How alike."

"It's just that he lacks the aura of the Martial Dao Supreme that Zun Wu had back then."

"However, he is him and you are you."

"There's nothing wrong with that."

The Lord Guardian of the Hidden Sea laughed.

"Thank you, Senior."

Feng Luo cupped his fists.

Zhou Zhou nodded.

The two of them felt that the Lord Guardian of the Hidden Sea was right.

Zun Wu was Zun Wu, and Feng Luo was Feng Luo.

If Feng Luo only wanted to imitate Zun Wu and walk down his old path, he would only be at a disadvantage.

In the end, he might not even be able to reach Zun Wu's height back then.

If Feng Luo could persevere and walk his own path, he might even reach Zun Wu's level or even surpass him!

"I might have completely accepted Senior Zun Wu's inheritance but I still feel that the saber path I've grasped so far has not reached the end of the saber path."

"If there's a chance in the future..."

"I might really use the saber and Shield combination technique to test the heroes of the world."

Feng Luo smiled.

Naturally, he was not imitating.

Instead, he was walking his own path.

It was just that it coincidentally had the same thoughts as Zun Wu back then.

"What's so hard about that?"

The Lord Guardian of the Hidden Sea pointed at Zhou Zhou and said, "Your Lord's ambition is to be at the peak of the Lords of the myriad races. In the future, follow your Lord well and fight for him in the supreme continent. At that time, the heroes of the supreme continent will naturally become your whetstone."

"Zun Wu's martial arts conference back then was only an Empire-level martial arts conference."

"If you can conquer an Empire or even a Divine Kingdom for your Lord!"

"What would be so difficult about surpassing Zun Wu and reaching the end of the saber path!?"

[Global Lord: 100% Drop Rate](#)

Chapter 304: Ten-Directional Martial Emperor—Feng Luo! Lord Father!

"Thank you, Senior."

"That's exactly what I was thinking!"

Feng Luo said seriously.

"I'm willing to fight for the Lord until the last drop of my blood!"

He said respectfully and firmly to Zhou Zhou.

Zhou Zhou smiled and nodded.

Then, he opened his personal information.

Zhou Zhou clicked his tongue in wonder.

Not bad.

His foundation was not much weaker than Bai Yun and Wu Xin.

Then, he looked at the other party's three hero skills.

Hero Skill—Ten-Directional Martial Arts: Feng Luo had grasped a vast number of martial arts inheritances. Any seemingly perfect attack was flawed in his eyes. Moreover, he could calculate a way to crack the other party's attack at any time.

This skill could be said to be a 1v1 divine skill.

The longer Feng Luo fought an opponent of the same level, the more he would understand his opponent's fighting style and countermeasures. The less likely his opponent's chances of winning would be, and he would almost certainly lose in the end.

If he wanted to defeat Feng Luo, he could only rely on real strength or realm suppression to prevent Feng Luo from exerting his advantage in technique.

Hero Skill— One Blade Ultimate: A single-target attack-type hero skill. Any swing would contain all of Feng Luo's martial arts comprehension. It would also be Feng Luo's most powerful slash. Its power could be strengthened as Feng Luo's understanding of the saber path deepened.

Hero Skill — Martial Suppression of Ten Directions: Battlefield-type Hero Skill. When Feng Luo is on the battlefield, the more enemies surrounded him, the more he would be stimulated by the pressure he felt. He would constantly obtain enhancements in defense, offensive ability, and long-term combat ability.

This skill could give Feng Luo a huge advantage in group battles, but it was also a hero skill that danced on the edge of a knife.

If he survived, he would be able to attain Legendary-Tier!

However, there was a high chance that he would die in an army of ten thousand if he was not careful!

It was a hero skill that allowed one to fight to the death.

However, the battlefield was not a solo battle after all.

It was not very dangerous to use it with the army providing support at the back.

After that, Zhou Zhou and Feng Luo bade farewell to Hidden Sea and left the Knight Temple.

After leaving.

Zhou Zhou let Feng Luo return to the Blazing Sun Army before he went to the Imperial Ancestral Temple.

In front of the Ancestral Altar.

Zhou Zhou looked at the altar and realized that the upper limit of the offerings on the altar had become [50 offerings below the value of Yellow Gold-Tier Mist Cores].

He placed 50 Yellow Gold-Tier Mist Cores without hesitation.

Soon.

The altar lit up slightly.

Then, the 50 Yellow Gold-Tier Mist Cores on it disappeared.

A text notification appeared.

[You have obtained an Ancestral Blessing: Fight To The Death (Special War Enhancement)!]

[Fight To The Death (Special War Enhancement): After the Subjects under the Lord enter combat state, they can ignore the fear of death in their hearts and fight the enemy to the death. Duration: Six hours.]

Zhou Zhou's eyes lit up.

Fight To The Death?!

A new Ancestral Blessing?!

Moreover, this Ancestral Blessing looked quite effective.

Everyone had the fear of death.

Zhou Zhou, who had mastered many Lord Talents, was no exception.

What more his soldiers.

On the battlefield.

When he first arrived in the High Continent, he often saw some soldiers who were so afraid that they could not fight and even turned around to escape.

Towards such soldiers fleeing on the battlefield,

Zhou Zhou only got someone to carry out relatively harsh physical punishments

but he did not kill them directly.

At that time, they were all recruits after all.

He still had a lot of tolerance for the performance of the recruits.

But fortunately...

With the appearance of the Lord Talent of Peace And Prosperity, the Subjects became more and more loyal to him, indirectly causing fewer and fewer soldiers to escape on the battlefield.

Later on, he won every battle. In addition to the appearance of heroes like Bai Yun and Wu Xin, the morale and military appearance of the soldiers were gradually nurtured, and there were even fewer soldiers escaping.

He rarely saw soldiers escaping on the battlefield now.

"Thank you, Ancestors!"

Zhou Zhou offered incense to the three ancestors respectfully before leaving the Imperial Ancestral Temple.

He came to the army base and saw that all the soldiers were ready to fight. He did not hesitate and told them to prepare to enter the Lord Battlefield. Then, he opened the Lord Battlefield option and began to match.

[Matching with your queuing opponent...]

[Match successful!]

[Entering the battlefield!]

After the world changed.

Zhou Zhou looked at the world in front of him.

This was a vast snow plain.

Heavy snowfall fell from the sky. Under the sharp cold wind, it landed on people's faces like a cold stone.

He looked into the distance.

A technological mechanical barrier stood there.

Floating silver-white robots and silver-white technological weapons were quietly arranged there.

"An acquaintance?"

Zhou Zhou was surprised.

At this moment, a text notification appeared.

[You have entered the Mythical-Tier Advance Grade battlefield!]

[You and your opponent have been randomly assigned to the Mythical-Tier Advance Grade battlefield—Snow God Plains!]

[Your opponent is: Lord of the Machina race—Lord Father!]

[Condition to defeat the enemy: Kill all the enemy forces within 24 hours!]

[If you exceed the time limit, both sides will be judged to have negative battle results. Ranking -1!]

[You have 10 minutes to deploy your forces!]

[Countdown: 9 minutes: 59 seconds]

"What a pity."

"It's not the Black Radium Lord from back then."

Zhou Zhou muttered to himself.

He had rarely lost on the Lord Battlefield.

The Black Radium Lord of the Machina race was one of the battles he lost.

At that time, he wanted to see if he could quickly increase his ranking with his Dragon Slayer Lord Talent.

The first half of the battle was pretty good.

He smoothly scored.

In the end, he quickly encountered a Machina race Lord without any bloodline. The Dragon Slayer advantage could not be used at all and was defeated.

Even though the Machina race Lord in front of him was not the Black Radium Lord, it was a stronger Machina race Lord.

It was ranked sixth on the Myriad Races Lord Battlefield and was the strongest Lord among the Lords of the Machina race.

Moreover, it was the strongest Lord with a Mythical-Tier Lord Talent!

"It's a tough battle!"

"But..."

"I will still win!"

Zhou Zhou's expression was calm.

Things are different now.

He was no longer the Lord who had relied on the Dragon Slayer Lord Talent.

[**Global Lord: 100% Drop Rate**](#)

Chapter 305: Lord Father's Mythical-Tier Talent!

Zhou Zhou did not think too much about it and began to recruit people.

He first recruited Bai Yun, Wu Xin, Feng Luo, Nezario, Auguste, Maris, and the others.

Then, he recruited another 100,000 soldiers.

As for the remaining soldiers, they stayed in reality to protect Blazing Sun City.

After all the soldiers appeared, Bai Yun, Wu Xin, and the others began to calmly arrange their positions.

Zhou Zhou looked at Lord Father City in the distance.

At this moment, the Lord Father had already summoned his Machina race Subject.

More than 60,000 Machina race Subjects were lined up neatly, looking like cold machines.

When the Lord Father saw his Subjects, he nodded slightly.

The 60,000 Machina race Subjects were all combat-type Mechanical Race.

Among them, there were 30,000 Black Iron-Tier Machina race members!

There were 20,000 Green Bronze-Tier Machina race members!

There were 9,500 White Silver-Tier Machina race members and 500 Yellow Gold-Tier Machina race members!

As a Lord Father type intelligent lifeform, it had even reached the White Platinum-Tier Advance Grade!

There were two ways for the Machina race to advance.

Firstly, he could increase his energy core level by hunting fog monsters and absorbing promotion energy. When the energy core level was upgraded, he could officially advance to the next level.

As for the second method, it was to directly use a large amount of mechanical materials and energy cores to create and increase the level of the mechanostriders.

There was no need to mention the mechanical materials.

The energy core was the modified Mist Core.

It could be said that...

As long as there were enough materials and energy cores.

The Machina race could continuously create Machina people.

More than 50,000 of the 60,000 Machina race people in front of Lord Father were made by consuming a large amount of mechanical materials and energy cores.

Especially the Yellow Gold-Tier Machina race!

All of them were created by him.

Otherwise, it would already be good enough to advance to the White Silver-Tier at this time by absorbing promotion energy to increase his strength level.

As for why he could reach the White Platinum-Tier Advance Grade, it was a mechanical invention he created through his Mythical-Tier Unique Lord Talent, the Ultimate Algorithm. He controlled the computational power of all the Machina race.

This mechanical invention could allow him to put the intelligent core of his Subjects under his own program and turn them into his 'mechanical clone'.

This way, the promotion energy they obtained when destroying the fog monsters would all be circulated to Lord Father.

Lord Father used this method to gather the promotion energy of some Mechanical Subjects to quickly increase his strength until he reached the White Platinum-Tier Advance Grade.

[Start launching the Apocalypse Satellite!]

Lord Father ordered.

[Executing the order!]

...

[The Elemental Energy Sail Board is normal! The core program environment is normal!]

...

[Prepare to launch the Apocalypse Satellite...]

...

[10,9,8...6,5...1!]

[Launch successfully!]

...

Program information gathered from all directions and was accepted by his intelligent core.

At the same time...

A huge silver-white satellite also shot into the sky, turning into a silver light spot before disappearing.

Lord Father looked at this scene calmly.

The Apocalypse Satellite was another mechanical invention he had created with the Ultimate Algorithm.

It had a high-altitude attack ability and had an extremely wide range. It was extremely powerful. Even the Yellow Gold-Tier Regional Scarlet Lord had once died to the Apocalypse Laser.

It could climb all the way to the Mythical-Tier Advance Grade on the Lord Battlefield.

The Apocalypse Satellite had contributed greatly!

Then, he turned to look at Blazing Sun City in the distance.

Looking at it this way...

He immediately frowned.

"The human Lord... is the Lord of The Blazing Sun."

"Why does he have so many Subjects?"

"Is it an opportunity he saw in reality or a Lord Talent Effect?"

"The other party has high-energy creatures."

"And there's more than one!"

"So many high-energy creatures!"

Lord Father was shocked.

As a super intelligent lifeform, it naturally had something similar to emotions.

However, it was different from life's interpretation of emotions.

The Machina race believed that emotions were a high-precision calculation reaction that had been super compressed.

After a long evolution, life condenses this computational response into instant or lasting emotions.

The Machina race worshiped the evolution of such life forms and called it a 'computational miracle'.

This was also why the Machina race had always wanted to transform into a mechanical lifeform.

To the Machina race, life was the end of machina evolution.

10 minutes later.

[Deployment time has ended!]

[The Battle has begun!]

...

Zhou Zhou looked at Lord Father City in the distance.

He knew that the Machina race was planning to fight a positional battle seeing that the other party had no intention of leaving the city.

He was not afraid at all.

Just as he was about to send troops out to fight,

A white Laser descended from the sky and shot straight at Zhou Zhou's head.

Zhou Zhou reacted immediately.

However, before he could defend,

The next second.

Feng Luo, who was standing beside him, had already jumped high into the air.

He flew in the air, his eyes calm. He held the saber with both hands and suddenly slashed down at the white Laser.

Emperor Heavenly Saber Qi!

A golden saber energy shot out and collided with the laser a thousand meters away in the blink of an eye.

Right on the heels of that.

The laser was crushed by the Emperor Heavenly Saber Qi without any suspense. Then, it shot in the direction of the satellite and finally disappeared into the sky.

Zhou Zhou looked up at this scene.

His Six Senses was astonishing. He could clearly see that the Emperor Heavenly Saber Qi could not continue forward after flying more than 7,000 meters because its energy was exhausted and it collapsed in the air.

The height of the Apocalypse Satellite was 15,000 meters.

Feng Luo also saw this scene.

"That thing is like a sword hanging in the sky."

"We can't let them live!"

He looked at the Apocalypse Satellite, and a sharp golden saber light appeared in his eyes.

Then, his entire body turned into a huge golden saber.

The huge golden saber appeared in midair and suddenly shot into the sky.

Heavenly Saber Shield Technique!

Lord Father seemed to have sensed something and his expression changed slightly. He immediately asked the Apocalypse Satellite to move its position while letting it shoot 40 to 50 Apocalypse Lasers at the golden saber.

Facing these Apocalypse Lasers,

The golden saber did not even dodge and rushed straight towards the Apocalypse Satellite.

The 40 to 50 Apocalyptic Lasers quickly landed on the surface of the golden saber.

However, what made Lord Father's expression change was that

this huge golden saber actually seemed to be invincible.

These Apocalyptic Lasers could not even break through its defense. They were shattered by the saber energy on the surface of the golden saber and disappeared into the air.

The next second.

Rumble!

After the golden saber approached the Apocalypse Satellite, it immediately restored to Feng Luo's appearance.

Heavenly Saber Thirteen Slash!

He slashed 13 more slashes that were even sharper and more domineering dark golden saber qi that landed on the Apocalypse Satellite.

There was a loud bang.

The Apocalypse Satellite immediately exploded into countless fragments and fell to the ground.

Feng Luo casually waved a few saber qi and crushed these fragments into powder. Then, as if he had done something insignificant, he flew down calmly and landed beside Zhou Zhou.

"My Lord."

"The threat from the sky is resolved."

Feng Luo said respectfully.

[Global Lord: 100% Drop Rate](#)

Chapter 306: Terrifying Greedy Wolf Avatar!

"Well done."

Zhou Zhou was not stingy with his praise at all.

Then, he looked in the direction of Lord Father City with a cold gaze.

"Bai Yun, Wu Xin."

"I'm here!"

"Lead our troops to attack and capture Lord Father City!"

"Yes!!!"

The two of them said in unison.

Then, they immediately led an army of 80,000 out of Blazing Sun City, leaving only 20,000 Poison Crossbow soldiers in charge of guarding the city.

Zhou Zhou was not idle either.

He took out the Emperor of Sand's Glory Scepter and used half of the energy in his body to summon 50 White Silver-Tier Advance Grade Sand Cavalrymen!

Then, under the Desert Protection Effect of the scepter, these 50 White Silver-Tier Advance Grade Sand Cavalrymen were all upgraded to Yellow Gold-Tier Elementary Grade.

Then, he used a quarter of his energy to summon a White Silver-Tier Advance Grade Chaos Tree Demon Boss.

Zhou Zhou looked at the Chaos Tree Demon Boss.

This Chaos Tree Demon Boss was more than a hundred meters tall.

It was completely grayish-black and was surrounded by chaotic fog.

A pair of blood-red eyes appeared and disappeared in the Chaotic Fog, looking quite terrifying.

However, Zhou Zhou could feel that

when the other party's gaze landed on it, its eyes were immediately filled with extremely pure loyalty.

He nodded slightly in his heart.

Then, when he felt the energy contained in the other party's body, he was immediately shocked.

The feeling that the other party gave him was not inferior to a White Silver-Tier Advance Grade Regional Scarlet Lord.

It had clearly far exceeded it!

According to Zhou Zhou's experience,

This Chaos Tree Demon Boss was probably not inferior to a Yellow Gold-Tier Regional Scarlet Lord.

"Go on."

"Follow my army and destroy the enemies in front!"

Zhou Zhou did not think too much about it and ordered the Chaos Tree Demon Boss and 50 Sand Cavalrymen.

They silently accepted the order and left Blazing Sun City, following the army towards Lord Father City.

Just as they were about to approach Lord Father City,

Wu Xin, who was riding on the Blinding Light and standing at the front of the soldiers, suddenly took out a Blood Wolf Totem.

It was the Greedy Wolf Totem!

He looked at the Greedy Wolf Painting.

After two days of practice,

he could use it freely.

"Activate the array!"

"Greedy Wolf Moon Howling Array!"

Wu Xin immediately ordered.

Under the influence of the hero skill, Desired Military Morale, the soldiers began to change their formation rapidly after receiving the order.

In the blink of an eye.

80,000 soldiers arranged themselves in a vivid Greedy Wolf posture on the snow.

"Up!"

Wu Xin shouted.

Blood-colored military formation murderous auras formed by essence, qi, and spirit flew out of the bodies of the 80,000 soldiers.

The murderous aura of the blood-colored military formation gathered in the sky and finally formed a blood-colored Divine Wolf.

It was three to four hundred meters tall. Its entire body was blood-red and there were blood-colored stars flickering faintly in its body.

It was wearing blood-red ferocious armor, and its eyes were actually dark silver, revealing a high and mighty feeling of ignoring life forms.

It was the Greedy Wolf Avatar!

Moreover, because the soldiers forming it were all extraordinary and the number of soldiers had reached 80,000, its strength had shockingly reached the limit of the Extraordinary-Tier Intermediate Grade!

Extraordinary-Tier Intermediate Grade was the upper limit of the strength that the Greedy Wolf Totem could reach.

Otherwise, with the strength of these 80,000 soldiers, they could form an Extraordinary-Tier Advance Grade Greedy Wolf Avatar!

However, it was no longer important.

Even if it could only reach the Extraordinary-Tier Intermediate Grade, it was also enough to make it impossible for the Yellow Gold-Tier Advance Grade Nezario and the Yellow Gold-Tier Elementary Grade Auguste to resist.

Not to mention Lord Father.

However, this Lord Father did not give up easily.

He did not want to fall from his ranking so easily.

[All Machina race soldiers!]

[All of you, leave the city and kill the enemy!]

[Prepare to fire the Four Phases Origin Cannon!]

[Divine Armament Energy Shield activated!]

He quickly conveyed his orders to his 60,000 Machina race Subjects.

Rumble...

The door of Lord Father City automatically opened.

60,000 Machina race soldiers walked out of the city in an orderly manner and rushed towards Greedy Wolf Avatar.

While charging,

all kinds of high-tech Arms appeared on their bodies and they shot at the Greedy Wolf Avatar.

Countless high-energy bullets and cannonballs tore through the sky towards the Greedy Wolf Avatar.

However, it floated and stopped a few meters away from Greedy Wolf Avatar.

The Greedy Wolf Avatar did not even need to spend any effort to defend.

The invisible and qualitative pressure on its body alone was enough to isolate these attacks below White Platinum-Tier.

The next second.

On the city wall of Lord Father City.

A hundred-meter-tall silver-white cannon slowly raised the barrel. Then, it began to condense yellowish-brown, aqua-blue, sky-blue, and scarlet energy at the mouth of the cannon.

It was the Four Phases Origin Cannon!

This was also an invention created by Lord Father through the Ultimate Algorithm.

Even though it was only a White Platinum-Tier Advance Grade cannon,

it could crush any life form below the Extraordinary-Tier level.

Three seconds later.

These four energies gathered into a four-colored ball of light.

With a buzzing sound,

the four-colored ball of light shot towards Greedy Wolf Avatar.

In just an instant.

It flew in front of the Greedy Wolf Avatar.

The Greedy Wolf Avatar opened its bloody mouth calmly and swallowed the four-colored ball of light under Lord Father's shocked gaze.

It smacked its lips and opened its mouth again.

A ball of blood-red Army Extermination Light Ball condensed in its mouth and shot towards Lord Father City.

In the blink of an eye, it hit the Supreme Barrier of Father City and quickly broke it. Right on the heels of that, it hit the Divine Armament Energy Barrier again.

This was also a city defense invention created by Lord Father with the Ultimate Algorithm.

It could withstand Diamond-Tier energy attacks at most.

However, it only lasted for a second before shattering with a bang and crashing into Lord Father City against this blood-red Army Extermination Light Ball.

Rumble...

It was as if lightning had destroyed the world, and light and darkness alternated.

The ground shook violently.

Lord Father was obliterated in the terrifying military explosion before he could even react.

When the Machina race soldiers who had just left the city looked back,

Blood-red ruins were already everywhere.

'Hm?'

'Where's my home?'

'Where's my f*cking big Lord Father City?'

All the Machina race soldiers were stunned.

Zhou Zhou was also stunned.

F*ck!

This Greedy Wolf Totem was actually so powerful???

This was a top Lord of all races ranked number sixth after all!

His home was actually destroyed by the Greedy Wolf Avatar cannon?

Ridiculous!

Only then did Zhou Zhou realize.

What kind of shocking treasure did he exchange for from the King of Eternal Silence and his wife?

At the same time...

Even though Bai Yun, Wu Xin, and the others were also shocked by the combat strength of the Greedy Wolf Avatar, they quickly came back to their senses and immediately controlled Greedy Wolf Avatar to sweep through the Machina race soldiers wantonly.

Its casual strike could kill dozens or hundreds of Machina race soldiers.

Occasionally, a large amount of Violent Storm would spew out of its mouth, causing the Machina race soldiers to suffer heavy losses.

In addition, Nezario, Auguste, Maris, and the others were killed at the side.

In less than half an hour, all the remaining Machina race soldiers fell on the battlefield.

During this slaughter,

Zhou Zhou had also successfully broken through to the Yellow Gold-Tier Elementary Grade!

A text notification appeared.

Chapter 307: The Warning From The Extreme Venerable Lord

"That's it?"

Zhou Zhou looked at the battlefield in front of him and the Greedy Wolf Avatar standing proudly in the sky with surprise in the depths of his eyes.

Then, a smile appeared on his face.

This Greedy Wolf Avatar gave him too much of a surprise!

Originally, he thought that his greatest trump cards were the Yellow Gold-Tier Advance Grade Nezario and the two growing armies other than the Dragon Slayer Will.

He did not expect the Greedy Wolf Avatar to have such power.

This strength had already far exceeded Nezario's power!

Other than the Lord Talent of the Dragon Slaying Hometown that could not be used, the Greedy Wolf Avatar could already be considered the strongest method he had mastered and could be used normally.

At this moment.

Bai Yun walked over and reported the situation to him.

Then, Zhou Zhou was pleasantly surprised to know that no one had died in this battle.

Not a single person was injured!

The soldiers were at most a little tired.

Then, Bai Yun told Zhou Zhou the reason.

This was because when the soldiers used the Greedy Wolf Moon Howling Array and when the Greedy Wolf Avatar appeared, the soldiers who set up the array would be protected by it. The damage from the outside world could not hurt the soldiers in the Greedy Wolf Avatar at all.

The only way to hurt the soldiers who set up the array was to break the Greedy Wolf Avatar!

Once the Greedy Wolf Avatar was broken, as the provider and foundation of the Greedy Wolf Avatar, the soldiers' Spirit and body would be injured at the same time.

As for the size of the injuries, it depended on the strength and number of soldiers.

The stronger the soldiers were, the fewer injuries they would suffer and vice versa.

A Greedy Wolf Totem could accommodate up to 200,000 soldiers to form the foundation of an array.

Even though he only used 80,000 soldiers to reach the strongest strength of the Greedy Wolf Avatar, another 120,000 people could also increase the duration of the Greedy Wolf Avatar's battle.

"This Greedy Wolf Totem... If only there were a few more."

Zhou Zhou could not help but think after hearing Bai Yun's report.

This military formation that could use a large number of soldiers was simply too suitable for a Lord like him, who could increase the number of soldiers every day.

If he had eight to ten Greedy Wolf Totems, he would not have to worry about the arrangements of the recruited soldiers for a long time.

Unfortunately, there was only one.

Then, he opened the rankings and looked at his ranking.

[Cerulean Planet Human Race - Lord of The Blazing Sun - Rank: Mythical-Tier Advance Grade (45 points) - Battlefield Ranking: 7th!]

This ranking had already surpassed Lord Father, who was now in eighth place.

The ninth was still the Extreme Venerable Lord of the Extreme Dragon Race.

As for the person ranked in front of him, it was a Great Dream Lord from the Void Race.

Zhou Zhou was quite satisfied.

After all, it had directly increased by two ranks.

After that, he led the soldiers out of the Snow God Plains and rested for half an hour. After letting the soldiers recover their Spirit, he continued to rank.

However, he waited for about an hour.

The second ranking took a long time.

[You have entered the Mythical-Tier Advance Grade battlefield!]

[You and your opponent have been randomly assigned to the Mythical-Tier Advance Grade battlefield—Sun Furnace!]

[Your opponent is: Extreme Dragon Race Lord—Extreme Venerable Lord!]

[Condition to defeat the enemy: Kill all the enemy forces within 24 hours!]

[If you exceed the time limit, both sides will be judged to have negative battle results. Ranking score -20. Those with insufficient ranking score, rank -1!]

[You have 10 minutes to deploy your forces!]

[Countdown: 9 minutes: 59 seconds]

Zhou Zhou looked at the world in front of him.

This was a huge black-red space.

The air flickered with flames that could barely illuminate the place.

An extremely intense heat spread throughout the surroundings. Even the soldiers under his command, who were soldier type Professionals, could not help but sweat.

He looked above his head.

The more it looked, the more

The more he thought about it, the more it felt like a black and red lid.

Coupled with the name of this Lord Battlefield,

Zhou Zhou suddenly had a bold guess.

[Could this be inside a place called the Sun Furnace?]

He looked into the distance.

A silver-white dragon nest that was three to four thousand meters tall stood there.

A silver dragon more than 1,500 meters tall flew in the air and looked at Zhou Zhou calmly.

Zhou Zhou also looked at him.

[Human Race.]

[You must be the Lord of The Blazing Sun.]

The Extreme Venerable Lord said telepathically.

[Yes.]

Zhou Zhou was not surprised that the other party knew Mental Communication.

Such a high-level bloodline existence.

He was not surprised by any abilities.

[It's rare for a low-level Race to reach the Mythical-Tier Advance Grade.]

[Your excellence is enough to attract the attention of all races. Even I'm not surprised.]

Zhou Zhou initially thought that the other party was praising him.

However, its next words let Zhou Zhou know that he was wrong.

[I can remind you on account that there are members of my dragon race among your subjects.]

[I think you're probably able to reach this position because of your Mythical-Tier Unique Lord Talent.]

[Your Lord Talent should be quite outstanding among the many Mythical-Tier Lord Talents.]

[But... it's useless.]

[The Lord Talent you rely on is actually nothing to us top Lords of all races.]

[For example, our Extreme Dragon Race is the top pure-blooded dragon race among the dragons. The many dragon civilization inheritances that we awaken as our strength increases. Any core inheritance we take out is comparable to the Mythical-Tier Lord Talent of some low-level Races.]

[Our bloodline alone is comparable to the top bloodline of the Mythical-Tier Unique Lord Talent.]

[Another example is the Original Spirit Race. They were born with a small world that could constantly grow. It could be said that they were born with the resources of an entire small world. As long as they reached adulthood, they could become a World Lord, which was the True God-Tier level of the High Continent.]

[Another example is the Chaos Gods Race. From the moment they were born, their sea of consciousness had nurtured a Chaos Godhead. The foundation to become a God had long been established. As long as they grew step by step, they could break through to the True God-Tier without any suspense.]

[Even the Machina race Lord you just defeated—Lord Father. His life core also has the inheritance of a super technology civilization that has developed for hundreds of thousands of years. As long as he satisfies the requirements to activate the level authority, he will be able to use the technology inside at will. He can completely recreate the Machina race's super technology civilization in the High Continent in a short period of time. This far exceeds the so-called Mythical-Tier Unique Lord Talent.]

...

The Extreme Dragon Race had a rather profound inheritance of the Dragon Race civilization and could casually tell the secrets of many top Lords of the myriad races.

Or rather, it was a semi-open fact among the top Lords.

Just as he said.

As Lords of a top Race, the inheritance and foundation they had were not something that a simple Mythical-Tier Lord Talent could compare to.

Zhou Zhou listened quietly.

Even though he was unwilling to admit it,

but he had to admit that these top-notch Lords were indeed much stronger than him.

However, his expression did not change at all.

Seeing him like this, the Extreme Venerable Lord thought that he still could not recognize the situation. He shook his head and said calmly,

[You might be able to lead them by a few points now.]

[But as time passed.]

[What will you do when the top Lords of all races gradually master the civilization power of their respective races again?]

[In the end, you can only dominate within your race.]

[You might even die at the hands of the Lords of other races halfway.]

[Recognize the situation, Human Lord.]

The Extreme Venerable Lord looked down at him and said.

[Global Lord: 100% Drop Rate](#)

Chapter 308: The Divine Dragon Will Eventually Bloodbath! An Ant Can Turn The Sky!

Zhou Zhou looked at him quietly and suppressed the restlessness of the Dragon Slayer King's Will in his mind. He suddenly smiled.

"So what?"

He said calmly.

The Extreme Venerable Lord was stunned.

"I know that in the eyes of you high-level Races,

"We, life forms of the Normal Race, might really be like ants."

"But what does that mean to me?"

"Whether we are a low-level Race or a high-level Race like you."

"Our fate has been destined ever since we stepped onto this battlefield."

"We have to kill each other on this Lord Battlefield until the final Lord of All Races is decided."

"This is the only choice between you, me, and the other Lords."

"We have no way out."

"You, Extreme Venerable Lord, are the same as me."

Zhou Zhou said calmly.

"The same?"

"Do you think you can fight for the Lord of All Races?"

The Extreme Venerable Lord smiled disdainfully.

"Then do you think it's possible for you?"

Zhou Zhou asked.

The Extreme Venerable Lord's expression darkened and he stopped talking.

He had fought the top three Lords of all races.

However, it was precisely because they had fought before that he understood how terrifying they were.

He looked at Zhou Zhou while using the extremely terrifying Dragon Might of the Extreme Dragon Race instantly pressed down on him.

Zhou Zhou looked at it calmly as if he did not feel anything.

"Look, you and I are the same."

"Still."

"The divine dragon will eventually bleed."

"Even ants can overturn the sky."

"If you can take the position of Lord of All Races."

"I, the Lord of The Blazing Sun, can also sit on it!"

"Lastly, thank you for your reminder."

"Leave."

"Lord Father is not my match."

"You won't be either."

Zhou Zhou said.

The Extreme Venerable Lord looked at him quietly.

A moment later.

The Extreme Venerable City behind him gradually disappeared from the Lord Battlefield along with him.

[Extreme Dragon Race Lord—Extreme Venerable Lord has surrendered!]

[You have defeated the Extreme Dragon Race Lord—Extreme Venerable Lord (Mythical-Tier Advance Grade Lord). You have won this ranking competition!]

[Congratulations, you have obtained 100,000 battlefield points!]

[Congratulations, you have obtained 20 ranking points!]

[Ranking System Notification: Your current ranking score is '65'. Please continue ranking and obtain a ranking score to increase your ranking!]

[You need to participate in at least one ranking competition every three days. Otherwise, your rank will - 1!]

[Your Battlefield Shop has been updated!]

Zhou Zhou's expression was calm.

He did not feel happy.

He might have easily won this ranking, but the other party's words did cause a huge wave in his heart.

Over the past few days, he had continuously won and his rank had increased. Even though he did not show anything on the surface, he still felt a little proud.

This was also inevitable.

However, the words of the Extreme Venerable Lord made the pride in his heart disappear. He valued these top Lords again.

"A temporary lead is nothing."

"To be able to lead to the end and become the Lord of All Races is a true winner."

"I still have to continue becoming stronger."

"Even if these top Lords of all races completely master the civilization power of their race in the later stages, I have to be able to resist them or even surpass them!"

Zhou Zhou thought to himself.

After that, he left the Lord Battlefield with the soldiers and looked at his ranking.

After the Extreme Venerable Lord surrendered without fighting, his ranking increased again to sixth place.

Zhou Zhou did not hesitate and continued to rank.

Taking advantage of the ranking period.

Zhou Zhou opened the Battlefield Shop and spent 300,000 battlefield points to exchange for the Mythical-Tier Master-Servant Territory Contract and the Index of All Races (Book 10).

At this point, he had exchanged for all the most valuable treasures in the Battlefield Shop.

The remaining goods were nothing more than some Territory Rebirth Tokens and Resurrection Tokens.

He could slowly exchange for these things in the future.

After that, he took out the Index of All Races from the first to the tenth volume.

A text notification appeared.

[Do you want to fuse it into the complete Index of All Races (Copy)?]

"Copy?"

Zhou Zhou pondered.

When he first obtained the Index of All Races (Copy), he remembered that it said that only the first Lord to collect all 10 volumes could obtain the complete Mythical-Tier treasure, the Index of All Races.

From the looks of it, the original should have been redeemed.

"The first Lord to collect all 10 volumes should be the Original Spirit Race's True Lord who has occupied the first place in the Lord Battlefield of All Races."

Zhou Zhou shook his head.

Even though he felt that it was a pity, he could not change anything.

That party was the first to collect the complete 10 volumes after all.

He stopped thinking and chose to fuse the 10 volumes.

The next second.

The 10 volumes of the Index of All Races in front of Zhou Zhou fused together, forming a thick black-gold book.

Zhou Zhou looked over.

[Treasure Name: Index of All Races (copy)]

[Treasure Grade: Mythical-Tier]

[Treasure Effect: A copy of the Mythical-Tier treasure, Index of All Races. It records the detailed information of the Races that are born and destroyed at all times in the myriad worlds. It can be used to search for the Race information you want to know!]

[Treasure Description: It was copied from the Index of All Races by the Supreme Will. There is only slightly less detailed information about the Race than before!]

Zhou Zhou nodded slightly.

Even though it was only a copy, it was at least a Mythical-Tier treasure.

Even though there might be less detailed information about the Race recorded than the original, it was not unacceptable.

He put away the Index of All Races (copy).

At the same time...

The news of the Lord of The Blazing Sun increasing his ranking on the Lord Battlefield of All Races spread on the World Channel again.

Other than Lords who were hostile to the Blazing Sun, most of the Lords were excited and expectant.

They really wanted to know what rank the Lord of The Blazing Sun from the Cerulean Planet would eventually advance to.

They did not dare to think about getting first place.

But what about the top three?

All the Lords were guessing. Someone even specially placed a bet for this.

The World Channel became quite lively because of this matter.

...

Two hours later.

Zhou Zhou looked at the ranking that had yet to begin and could not help but feel speechless.

What were the other top Lords of all races doing?

He still wanted to encounter the top three Lords.

Zhou Zhou looked at the sky.

It was almost noon.

Seeing this, he gave up on continuing to rank.

Let's queue tomorrow.

In any case, it was only the fifth day today. There were still five days before the end of the Myriad Races Lord Battlefield event.

It was enough for him to continue increasing his ranking.

Then, Zhou Zhou came to The Shelter of the Goddess of Life and converted the Holy Spirit-Tier Scarlet Crystals in his hand into a Holy Spirit-Tier Faith Divine Crystal.

Then, he took the Faith Divine Crystal and left Blazing Sun City with all his soldiers. Then, he headed straight to the original territory of Thorn Dune.

The territory where the original Thorn Dune was.

It was now a part of the Blazing Sun Desert.

After Zhou Zhou brought his men here, he immediately arrived at the God of Death Temple.

In front of the statue of the God of Death, Thanatos.

Zhou Zhou placed the Holy Spirit-Tier Faith Divine Crystal on the Altar of the God of Death.

"Lord God of Death."

"I abided by our agreement and brought this Holy Spirit-Tier Faith Divine Crystal."

"Lord God of Death, please accept it."

He said respectfully.

Chapter 309: The Reward Of The God of Death

The temple was still quiet after a long time.

Zhou Zhou's expression did not change as he continued to wait quietly.

At this moment, a deep and familiar voice sounded in Zhou Zhou's mind.

"You're not bad."

"Two Holy Spirit-Tier Faith Divine Crystals, and the faith inside is actually so pure."

"It's been a long time since I've seen a Holy Spirit-Tier Faith Divine Crystal of this quality."

The God of Death, Thanatos, sighed.

"Greetings, God of Death."

"I'm happy as long as the God of Death is satisfied with the Faith Divine Crystal I offer."

Zhou Zhou said respectfully.

"Very good."

"What reward do you want?"

The God of Death, Thanatos, said.

Zhou Zhou's expression did not change.

He was a little surprised.

Previously, when he offered the Holy Spirit-Tier Faith Divine Crystal, the other party had no intention of communicating at all. He threw down the Death Immunity Scroll and left.

He did not expect him to be willing to talk to him this time.

It seemed that he had indeed satisfied the other party by giving him two Holy Spirit-Tier Faith Divine Crystals in a row.

"I would like to have another Death Immunity Scroll."

He stopped thinking about it and said his needs.

"Easy."

The God of Death, Thanatos, said lightly.

The next second.

A black scroll with Thanatos' figure engraved on the surface appeared on the altar out of thin air.

It was the Death Immunity Scroll!

"I'll give you another small gift."

After the God of Death Thanatos finished speaking, two points of black light lit up in the eyes of the God of Death statue.

Then, they turned into two black lights and shot out, shooting straight at Soul Reaper Maris, who was outside the temple.

Maris stiffened.

However, he did not dare to act rashly.

As time passed.

The aura on his body became even more mysterious and dignified.

Moreover, the God of Death Scythe in his arms also emitted a pitch-black luster.

A moment later.

Maris' aura gradually dissipated, and the light emitted by the God of Death Scythe in his arms was also retracted.

"Thank you for your gift, Your Excellency!"

He suddenly knelt down to the God of Death, Thanatos.

"Thank your Lord."

The God of Death, Thanatos, said calmly.

Then, he said to Zhou Zhou.

"A small Lord under the Supreme Will."

"The fact that you have a member of my Soul Reaper Army among your subordinates means that there's still some fate between us."

"Are you willing to believe in me and become the candidate Holy Son of my God of Death Church?"

"As long as you're willing to become a candidate Holy Son of my God of Death Church, you can mobilize the resources of countless God of Death Churches in the High Continent and even the myriad worlds."

"When the time comes."

"You will have a chance to really compete with the top Lords of all races. You might even be able to fight for the position of the Lord of All Races."

"You're only a human Lord after all. The foundation of the Race civilization is still too shallow compared to those top Lords of all races."

"I'm sure you've felt the difference during this period of time."

"If you're willing to believe in me and become my candidate Holy Son."

"You don't have to worry about foundation."

The God of Death, Thanatos, said.

Zhou Zhou could not help but fall silent.

He did not expect the God of Death to make such a condition.

He only wanted to come over and exchange for a Death Immunity Scroll, okay?

However, it had to be said that the conditions offered by this Master God-Tier made him quite tempted.

In terms of the foundation of the Race civilization, he was indeed inferior to those Races that had developed for tens of thousands of years, hundreds of thousands of years, hundreds of thousands of years, or even longer.

These top-notch Races could probably carry out interstellar wars in the starry sky.

Before he came to the High Continent, the Cerulean Planet could not even emigrate to a planet in outer space to live.

The difference was ordinary.

He was silent for a long time before finally saying,

"Faith can't be achieved overnight."

"Otherwise, it will be a false belief. That will be an insult to Your Excellency."

"Your Excellency, please let me consider it seriously."

"Okay."

Zhou Zhou said.

All the gifts given by fate had been priced early on.

He did not believe that such a good thing would come without a price.

Moreover, Zhou Zhou did not want to believe in any God Spirits for the time being.

Even he wanted to be a God Spirit.

Therefore, it was better not to become a believer in this Excellency.

"Fine."

"Let's not talk about faith for the time being."

"Remember to send more fanatic believer or God-Tier Faith Divine Crystals in the future."

The God of Death, Thanatos, said.

"Yes!"

Zhou Zhou nodded seriously.

He could not take out the Holy Spirit-Tier Faith Divine Crystal again.

However, he still had a lot of fanatic believer Faith Divine Crystals.

However, he had just given him a Holy Spirit-Tier Faith Divine Crystal. If he were to turn around and say that he still had the fanatic believers' Faith Divine Crystal, it seemed like he was being secretive.

He would give it to him the next time he needed it.

The God of Death, Thanatos, nodded and did not say anything else.

A moment later.

After confirming that the will of the God of Death, Thanatos, had left, Zhou Zhou walked forward and put away the Death Immunity Scroll on the altar.

Then, he bowed to the God of Death and walked out of the temple to Maris.

"Greetings, my Lord."

Maris said respectfully.

"Does it feel different?"

Zhou Zhou asked.

"His Excellency the God of Death has upgraded my potential from Yellow Gold-Tier Advance Grade to Diamond-Tier Advance Grade."

"There's nothing else."

Maris said.

Zhou Zhou's eyes lit up.

Being upgraded to Diamond-Tier Advance Grade did not seem to be a lot since many of the experts under him had reached the Extraordinary-Tier, Epic-Tier, and even the Legendary-Tier and Mythical-Tier after all.

However, Maris was a Divine Kingdom soldier type—Soul Reaper!

As long as he reached a certain level of strength, he could instantly kill an expert of a certain level!

This was because Maris had such a soul-killing method.

Therefore, its efficiency in killing enemies was astonishingly high on the battlefield!

Zhou Zhou had long taken the Extraordinary-Tier Potential Advancement Potion, wanting to try to increase the other party's potential level.

In the end, it reminded him that Maris' soul and soldier type were special. The Potential Advancement Potion could not increase his potential at all.

For this reason, Zhou Zhou even specially asked the Supreme Will what to do, but the Supreme Will did not give him any hints.

He did not expect that coming over to give the God of Death a Holy Spirit-Tier Faith Divine Crystal would actually give him such a pleasant surprise.

Zhou Zhou acknowledged.

He was quite satisfied with his gains this time.

He did not stay any longer. He boarded the Black Ghost with the two armies and left.

After they left.

In the God of Death Temple.

The Holy Spirit-Tier Faith Divine Crystal that Zhou Zhou had just handed over appeared out of thin air in front of the God of Death statue.

"Triste's aura..."

"I miss it."

The God of Death, Thanatos, sighed.

Then, the temple fell silent again.

...

After Zhou Zhou led the two armies onto the Black Ghost, he did not go to Dark Night Town immediately. Instead, he began to conquer the non-kingdom territories around the Blazing Sun Desert.

These non-Kingdom regional territories were controlled by the Scarlet Lord.

Among them were seven Black Iron-Tier regional territories, five Green Bronze-Tier regional territories, and two White Silver-Tier regional territories!

There was not a single regional territory above Yellow Gold-Tier.

With the help of the Black Ghost, Zhou Zhou and the others quickly marched proudly through the regional territories of the various non-Kingdoms.

In the end, they only used less than three hours to capture and occupy all 14 regional territories.

At this point, there were no other ownerless territories around Zhou Zhou's territory other than the regional territories controlled by the kingdom.

After that, he did not stay any longer and headed straight for Dark Night Town.

Chapter 310: Taking Back Dark Night Town

In the Black Ghost.

Zhou Zhou looked at the map in his hand.

This map was drawn by Wu Tu's Heavenly Army. It recorded in detail the distribution of all the regions and territories in the entire Tahan Kingdom.

Zhou Zhou's gaze landed on the territory near Dark Night Town.

There were five regional territories closest to Dark Night Town.

Other than the White Platinum-Tier Scarlet Lord's territory East Demon City and the Yellow Gold-Tier Scarlet Lord's territory Red Wasp Town that Ruoji mentioned.

There were also two Green Bronze-Tier Scarlet Lord Territories and one White Silver-Tier Scarlet Lord Territory.

"Let's deal with these three Bronze and Silver Scarlet Lord territories first."

"It saves them from sending reinforcements when they attack East Demon City and Red Wasp Town."

Zhou Zhou thought.

Soon.

They arrived at the old site of Dark Night Town.

In the Black Ghost.

Zhou Zhou, Bai Yun, Wu Xin, and the other higher-ups of the army were looking at the virtual screen in front of them.

The virtual screen displayed the scene of Dark Night Town.

Dark Night Town, which had already been captured and destroyed by them, actually gathered a large number of fog monsters again.

These fog monsters were mainly divided into two types.

One was a black-gray mantis-shaped monster.

The other was a huge scarlet bee-shaped monster.

In addition, there were some fog monsters of other races that were being driven by them to build city walls.

It looked like it was about to be completed.

"It's the Sickie Fog Mantis of the East Demon City and the Red-Eyed Blood Wasps of Red Wasp Town."

"Are they taking over Dark Night Town?"

Ruoji, the current leader of the Monster Army, said in surprise when he saw the two fog monsters.

It suddenly thought of something and immediately understood. Then, it nodded thoughtfully.

"That's true."

"Dark Night Town is a Yellow Gold-Tier regional territory after all. The District is vast. The Scarlet Lords of East Demon City and Red Wasp Town will definitely not leave it alone."

"If we can use this place, we can produce a large number of fog monsters every day to increase their strength after all."

Zhou Zhou and the others listened to him and agreed.

As a Lord under the Crimson Overlord, the Scarlet Lord naturally had needs for the territory.

They naturally would not leave such a huge piece of "fat meat" like Dark Night Town alone.

Even though the Regional Token here had been taken away.

However, Zhou Zhou had not sent an army to guard this place after all, so they naturally thought that this place could be "used".

Zhou Zhou's gaze landed on the virtual screen again.

He narrowed his eyes slightly, which seemed a little cold.

He had indeed not sent troops to guard this place yesterday, but since he had taken the Regional Token here, he had already treated this place as his territory.

He was naturally not too happy to see this place being occupied.

"Wen Ya."

"Lower the spaceship."

"Bai Yun, Elder Wu, Feng Luo."

"Destroy these enemies who occupy Dark Night Town."

"Not everything can touch my territory."

Zhou Zhou said calmly.

"Yes, my Lord!"

Everyone said in unison.

Their expressions did not change at all.

There were only about 20,000 fog monsters in the city of Dark Night Town after all, and their strength was very ordinary.

On their side, they had an army of 100,000 and many experts!

It was naturally easy to defeat these fog monsters and take back Dark Night Town.

"Don't destroy too many buildings in Dark Night Town."

"I'm going to occupy this place."

"Dark Night Town will be our city in the future. Our Subjects will have to live here in the future."

Zhou Zhou thought for a moment and said.

If it was yesterday, he might not have made this decision.

At that time, he did not feel that he had the strength to occupy a Scarlet Lord city for a long time after all.

However, after witnessing the power of the Greedy Wolf Avatar in the Lord Battlefield this morning, Zhou Zhou's thoughts changed.

With this Greedy Wolf Avatar with Extraordinary-Tier Intermediate Grade strength,

He already had the strength to fight an Extraordinary-Tier Scarlet Hero head-on!

The strongest force in the Tahan Kingdom was only an Extraordinary-Tier Scarlet Hero.

In addition, the Tahan Kingdom and the Aurora Kingdom were fighting on the main battlefield, so they could not send too many forces to deal with him.

Under such circumstances, he was already invincible as long as the Tahan Kingdom did not have any overly powerful trump cards.

Since that was the case...

He could completely occupy Dark Night Town.

Not only could he occupy Dark Night Town,

Even Red Wasp Town, which was also the territory of the Yellow Gold-Tier Scarlet Lord, or even the even more prosperous White Platinum-Tier Scarlet Lord's territory, East Demon City.

He could also occupy it!

It was time to show his fangs to the true national forces on this continent!

Zhou Zhou thought.

His emotions surged.

Previously, he had always been very cautious about the Tahan Kingdom.

This was a Kingdom-level faction that could suppress the Aurora Kingdom after all!

Now, he could finally let go of himself a little.

"Don't be arrogant."

"Even though we can officially attack the Tahan Kingdom."

"But we have to be careful."

"Who knows what trump cards this Tahan Kingdom has?"

Zhou Zhou felt his thoughts were a little inflated and immediately reminded himself silently.

"Yes, my Lord!"

On the other side.

When everyone heard Zhou Zhou's order, they did not say anything and carried out the order even though they were a little surprised.

Bai Yun and the other human generals arranged for the soldiers to alight from the spaceship with anticipation in their eyes.

Even though Blazing Sun City and Sand Gold City were also developing quite well and had all kinds of buildings,

it had only developed for a short period of time and was far inferior to Dark Night Town in terms of the scale of the city.

If they completely occupied Dark Night Town, their power and foundation would definitely increase greatly.

Not to mention anything else.

At the very least, he could immigrate a portion of his increasing subjects in the territory here.

Soon.

The Black Ghost landed on the ground.

Right on the heels of that.

Bai Yun, Wu Xin, Feng Luo, and the others led a 100,000-strong army and surged out. Right on the heels of that, Wu Xin activated the Greedy Wolf Howling Moon Array and summoned his Greedy Wolf Avatar to attack Dark Night Town.

Nezario and Auguste flew above both sides of the Greedy Wolf Avatar.

Maris followed the Greedy Wolf Avatar towards Dark Night Town.

The defenders of Dark Night Town only realized that an enemy was attacking when the Greedy Wolf Avatar, which was more than 400 meters tall, appeared and advanced towards Dark Night Town.

They immediately put down their work and gathered together, preparing to rely on the newly built city wall to resist the attack of the Greedy Wolf Avatar.

When the Greedy Wolf Avatar saw this scene, disdain flashed across its eyes.

Among the 20,000 fog monsters, the strongest was only a White Platinum-Tier Advance Grade Sickle Fog Mantis and a White Platinum-Tier Elementary Grade Red-Eyed Blood Wasp.

The other fog monsters were all below the Yellow Gold-Tier.

With this strength, they could easily capture this place without activating the Greedy Wolf Howling Moon Array if not for the fact that they wanted to maintain zero casualties.

It opened its bloody mouth and a blood-red Army Extermination Light Ball condensed in it.

The next second.

This Army Extermination Light Ball instantly shot out and rushed to the city wall of Dark Night Town in the blink of an eye, instantly obliterating more than a thousand fog monsters.

Moreover, under the precise control of the Greedy Wolf Avatar, it did not even destroy the city wall under their feet.

Soul Reaper Maris also left the Body and flew out with the God of Death Scythe in his hand. Soon, he arrived at Dark Night Town and began to silently harvest the lives of the fog monsters guarding Dark Night Town.

Maris, whose potential had increased greatly, had already reached the Yellow Gold-Tier Intermediate Grade.

He could easily deal with any fog monster below the Yellow Gold-Tier Intermediate Grade.

On the city wall of Dark Night Town.

In the blink of an eye.

A large number of fog monsters fell to the ground lifelessly under the terrified gazes of the other fog monsters.

Their souls had already been taken away by Maris, leaving behind only a soulless corpse.

Nezario and Auguste also began to release their Dragon Might. Then, they began to slaughter the fog with their own methods.

They were completely destroyed in less than 15 minutes.

Bai Yun led the army and quickly took control of the city again.

Then, she brought good news to Zhou Zhou.

"My Lord!"

"Dark Night Town was installed with a Yellow Gold-Tier Advance Grade Territory Token by the fog monster garrison."

"Now, all the buildings in Dark Night Town have been restored to their original functions!"

Bai Yun reported excitedly.

The smile on Zhou Zhou's face became even more obvious.

What a good person!

Zhou Zhou sighed.

Not only was it to build the city wall, but it was also to give a Yellow Gold-Tier Territory Token to revive Dark Night Town.

Where else could he find such a good person?
