Chapter 311: Specialty - Blood Honey

Zhou Zhou walked into Dark Night Town and realized that the buildings here had indeed restored the architectural Effect of their original blueprint buildings.

A smile appeared on his face.

There were at least tens of thousands of buildings in Dark Night Town.

There was no lack of Silver and Yellow Gold-Tier Life Profession buildings.

For example, a blacksmith shop, tailor shop, jewelry workshop...

So many lifestyle structures could accommodate a large number of Lifestyle Professionals Subjects to live and develop here, allowing them to show their strengths.

Originally, the number of Life Professional buildings in his territory could no longer satisfy the needs of all the Lifestyle Professionals Subjects because of the increasing number of Lifestyle Professionals Subjects.

Now that Dark Night Town has returned to normal, this problem could be resolved.

"Even Yellow Gold-Tier Dark Night Town is so good."

"I wonder what the White Platinum-Tier East Demon City looks like?"

Zhou Zhou was filled with anticipation.

At this moment, he thought of the two Yellow Gold-Tier Territory Tokens needed to upgrade his territory.

"Then I'll obtain the two Yellow Gold-Tier Territory Tokens from the Yellow Gold-Tier territory of a non-Kingdom."

"Otherwise, it would be a pity to give up two cities for two Yellow Gold-Tier Territory Tokens."

Zhou Zhou pondered.

Now, he already had the strength to protect the territory.

Naturally, he did not have to give up on this place like before.

Of course, there was another important reason.

Regional territories needed cities to guard them.

This way, he could also mine the resources of the territory through the city.

For example, basic resources, meat resources, water sources...

There were even some rare minerals and treasures.

Precious mineral resources like adamantine, mithril, and Elemental Gems.

They could all be mined from regional territories.

The higher the level of the regional territory, the higher the probability of various resources and treasures being born.

Otherwise, they occupied regional territories but did not use them by building cities.

That would be a waste.

It was no different from not occupying it.

He didn't think too much about it.

There were specialties in every field.

He would leave this matter to Elder Zheng when he returned.

He did not need to waste his brain.

Then, he came to the Lord Manor and chose to occupy Dark Night Town in front of the territory stone tablet.

This was because there was a new Territory Token inside.

Therefore, he needed to occupy it again.

After that, Zhou Zhou did not stay any longer. He led the army onto the Black Ghost again and conquered the other territories of the Tahan Kingdom.

He planned to occupy the two Green Bronze-Tier Scarlet Lord Territories and the White Silver-Tier Scarlet Lord Territory first.

As for East Demon City and Red Wasp Town, he planned to save them for the final solution.

More than an hour later.

The three regional territories were all conquered by Zhou Zhou's two armies.

Then, he planned to head to the Red Wasp Town closest to his current location.

At this moment, a Scout suddenly came to report that he had seen a team of about 500 Wasp Empress soldiers rushing towards them.

They were not far away now.

"It seems that the Red Wasp Town already knows about the Lord."

"This group of soldiers from the Wasp Empress soldiers are probably here to gather information about the Lord."

Ruoji guessed.

Everyone nodded in agreement.

Zhou Zhou had the same guess.

After that, he ordered Ruoji to lead the Monster Army to destroy this group of Wasp Empress soldiers and ask them for information.

Ruoji received the order and left.

After a while.

It returned to Zhou Zhou.

"Reporting to my Lord."

"I've already eliminated that team of Wasp Empress soldiers and interrogated them for some information."

"The Lord of East Demon City and the Lord of Red Wasp Town do know about us."

"They have already sent out some teams to find the location of our army."

"I just destroyed one of them."

"However, they don't intend to look for us directly. Instead, they plan to guard the city and wait for us to take the initiative to go over."

Ruoji said respectfully.

Zhou Zhou raised his eyebrows

A White Platinum-Tier Regional Scarlet Lord and a Yellow Gold-Tier Regional Scarlet Lord did not take the initiative to look for him, a human Lord who had only developed for more than 10 days.

They were either cautious or they were very sure that he would take the initiative to look for them.

He had to admit...

They were right.

Zhou Zhou would indeed take the initiative to look for them.

With the Greedy Wolf Avatar in his hands, in addition to the two dragons, four heroes, and one Divine Kingdom soldier type,

He was naturally not afraid of attacking a city.

Not to mention that he still had 50 Mist Energy Cannons specially used to attack.

"To Red Wasp Town!"

Zhou Zhou immediately made a decision.

"Yes!"

Bai Yun, Wu Xin, and the others immediately obeyed. Then, they immediately led the two armies onto the Black Ghost and headed for Red Wasp Town.

Five minutes later.

Red Wasp Town.

There was a huge red beehive building here.

It was two to three thousand meters tall and more than 5,000 meters long and wide. It was densely covered in hexagonal nests of all sizes, looking like a wonder.

When Zhou Zhou and the others first saw this building, they were shocked.

They did not expect Red Wasp Town to be built in such a special method.

Only Ruoji's expression was normal. It was obvious that he had long known what Red Wasp Town looked like.

At this moment, a buzzing sound sounded from the huge blood-colored beehive.

It was still very weak at first.

However, as time passed, the buzzing became even louder and noisier.

At the same time...

Red-eyed blood bees with a pair of huge red compound eyes and a three to four-meter-long black poisonous needle at the end flew out of the huge red beehive.

In the end.

More than 50,000 Red-Eyed Blood Wasps flew out.

They were all members of the Red Wasp Town's Wasp Empress!

At this moment, these Wasp Empress members all looked up at the Black Ghost in the sky.

An extremely obvious malice seeped out of their compound eyes.

Zhou Zhou looked at them.

His gaze casually landed on a Green Bronze-Tier Intermediate Grade Red-Eyed Blood Wasp.

A monster notification appeared.

[Monster Name: Red-Eyed Blood Wasp]

[Strength Level: Green Bronze-Tier Intermediate Grade]

[Monster Description: Fog Subject of the Tahan Kingdom's Red Wasp Town. They are famous in the Tahan Kingdom for being able to produce specialties—Blood Honey. They have the extremely poisonous Red Blood Poison Spike as their attack method. In addition to their flying ability and living habits as a group, even the powerful Fog Monster Lord doesn't dare to provoke them casually.]

[Loots Drop Rate: Four Green Bronze-Tier Mist Cores (Drop Rate: 100%), one kilogram of Green Bronze-Tier Intermediate Grade Blood Honey (Drop Rate: 20%), one Green Bronze-Tier Intermediate Grade

equipment, Red Blood Poison Spike (Drop Rate: 10%), one Shallow Faith-Tier Scarlet Crystals (Drop Rate: 1%)]

"Specialty?"

Zhou Zhou raised his eyebrows

Until now, he had only come into contact with one specialty other than the Blood Honey in front of him.

That was the Jade Sun Tree seed.

It not only has the function of a wind breaker and sand fixation, but also of reversing desert soil and water and ecological environment.

Moreover, the Jade Sun Fruit it produced could replenish vitality and recover from injuries.

There were many benefits.

Ever since he knew the benefits of the Jade Sun Fruit,

He really hoped to obtain other useful specialties.

However, he had never encountered it again.

He did not expect there to be new specialties in the Tahan Kingdom.

He had come to the right place.

Zhou Zhou thought.

Chapter 312: Killing The Red-Eyed Blood Wasp King! Bee Nest Core!

Zhou Zhou looked at the other Red-Eyed Blood Wasps.

He realized that the loots of the Black Iron-Tier and Bronze-Tier Red-Eyed Blood Wasps were similar.

However, the Red-Eyed Blood Wasps above the White Silver-Tier would drop a dessert and recipe called Blood Honey Sweet Cake.

It was obvious that this was a dish made from Blood Honey.

Zhou Zhou clicked his tongue in wonder.

He had also dropped recipes before.

However, this was the first time he had seen a special recipe with specialties as ingredients.

What does it smell like?

Zhou Zhou thought.

At this moment, a dignified and low hum sounded from the huge red beehive.

Then, a huge Red-Eyed Blood Wasp that was more than 50 meters tall flew out of the beehive.

"My Lord, this is the Lord of Red Wasp Town."

"Red-Eyed Blood Wasp King—Mize."

Ruoji said.

Zhou Zhou acknowledged.

He looked at the Red-Eyed Blood Wasp King.

Monster information appeared.

[Monster Name: Red-Eyed Blood Wasp King—Mize (Regional Scarlet Lord)]

[Strength Level: White Platinum-Tier Intermediate Grade]

[Monster Description: Tahan Kingdom—Lord of Red Wasp Town. He controls the entire territory of Red Wasp Town and is famous in the Tahan Kingdom for the specialties that his territory can produce—Blood Honey. The poisonous needle at the end has an extremely poisonous red blood poison. His personality is xenophobic. He doesn't have a good relationship with the officialdom of the Tahan Kingdom, but he is extremely loyal to the King of the Tahan Kingdom.]

[Loots Drop Rate: 60 White Platinum-Tier Mist Cores (Drop Rate: 100%), 100 Origin Crystals (Drop Rate: 100%), 100kg White Platinum-Tier Intermediate Grade Blood Honey King (Drop Rate: 20%), One kg White Platinum-Tier Intermediate Grade Blood Honey King Cake (Drop Rate: 6%), One White Platinum-Tier Intermediate Grade "Blood Honey King Cake" Recipe (Drop Rate: 5%), One White Platinum-Tier Intermediate Grade Wasp King Blood Stinger Equipment (Drop Rate: 3%), One White Platinum-Tier Intermediate Grade Special Architectural Blueprint "Red-Eyed Blood Bee Hive" (Drop Rate: 2%), One Bee Nest Core (White Platinum-Tier Intermediate Grade) (Drop Rate: 1%), One Fanatic believer Scarlet Crystals (Drop Rate: 1%), Nine Black Iron-Tier Lord Talent Crystal Fragments (Drop Rate: 0%)]

"Lower the spaceship."

"Destroy them!"

Zhou Zhou retracted his gaze and ordered.

"Yes, my Lord!"

Everyone said respectfully.

Then, the Black Ghost quickly descended and quickly landed more than 100 meters above the ground.

Just as they were about to fly down the spaceship,

The Red-Eyed Blood Wasp King in the distance suddenly let out an urgent buzzing sound.

Right on the heels of that.

The more than 50,000 Red-Eyed Blood Wasps flew towards the Black Ghost as if they had received an order.

The distance between the two closed in the blink of an eye.

At this moment, Nezario flew out of the Black Ghost first.

It looked at the more than 50,000 Red-Eyed Blood Wasps flying over and the Red-Eyed Blood Wasp King flying at the front. There was no fear in its scarlet dragon eyes as it only looked at them coldly.

Seeing that these Red-Eyed Blood Wasps were about to reach its,

Nezario willed.

A wall of magma more than 500 meters tall appeared between the two sides out of thin air, isolating these Red-Eyed Blood Wasps, Black Ghost, and Nezario.

The Red-Eyed Blood Wasp King—Mize reacted extremely quickly and immediately changed from charging forward to flying into the sky, narrowly avoiding the magma wall.

However, the Red-Eyed Blood Wasps that followed it in its rapid charge were unlucky.

The sudden appearance of the magma wall made it impossible for them to dodge.

Pu, pu, pu, pu, pu...

It was like a stone falling into the water.

In the blink of an eye.

3,000 to 4,000 Red-Eyed Blood Wasps rushed into the magma wall and were quickly burned to charcoal, finally becoming a part of the magma.

The air suddenly filled with the fragrance of honey.

Nezario and the soldiers who were gradually landing in the spaceship behind it could not help but swallow.

At this moment.

The Red-Eyed Blood Wasp King—Mize also saw the tragic state of his Subjects.

It buzzed angrily. Then, the remaining Red-Eyed Blood Wasps circled around the wall of magma and attacked Nezario and the soldiers behind it.

"ROAR!"

"ROAR!"

Two dragon roars sounded.

It was Nezario and Auguste, who had just come out, who released their Dragon Might at the same time.

An overwhelming Dragon Might poured out of the two pure-blooded dragons and landed on these Red-Eyed Blood Wasps in the blink of an eye.

The Might was so strong!

Even the Red-Eyed Blood Wasp King froze and looked at the two pure-blooded dragons in fear with its red compound eyes.

Seeing this, Nezario and Auguste flew into the Red-Eyed Blood Wasps with ferocious gazes and began to slaughter them.

The soldiers behind them had also summoned their Greedy Wolf Avatars under Wu Xin's orders and began to slaughter these Red-Eyed Blood Wasp Kings.

Half an hour later.

More than 50,000 Red-Eyed Blood Wasps were all eliminated.

Even though the Red-Eyed Blood Wasp King had the strength of a White Platinum-Tier Intermediate Grade, it still died at the hands of Nezario, who only had the strength of a Yellow Gold-Tier Advance Grade.

[Your pet, Dragon King Of Volcano and Destruction—Nezario has killed the Red-Eyed Blood Wasp King—Mize (Regional Scarlet Lord). Promotion energy +40,000! Loots condensed!]

[Blessing of the War God: Your pet Nezario has obtained an additional 800,000 promotion energy!]

[The territory of the Scarlet Lord has become ownerless. You can plunder or occupy it!]

[Red Wasp Town has become an ownerless area. After you obtain the Regional Token, you can become the Regional Lord of this area!]

Zhou Zhou looked at the 800,000 promotion energy points in the notification and smiled.

It felt good to use 2,000% of the additional promotion energy obtained.

A moment later.

Bai Yun came in front of Zhou Zhou.

"Reporting to my Lord."

"I just brought people into the huge red beehive and realized that there are still some Red-Eyed Blood Wasp cubs that have yet to hatch."

"Should we get rid of them too?"

Bai Yun asked.

"How many are there? How's the incubation state?"

Zhou Zhou pondered for a few seconds and asked.

"About 11,000 of them."

"More than 3,000 of them are in a half-hatched state, and the rest are unhatched."

Bai Yun was already prepared.

"Get rid of the dangerous ones first."

"Let's not worry about the rest for now."

Zhou Zhou thought for a moment and said.

He thought of the Bee Nest Cores in the Loots of the Red-Eyed Blood Wasp King.

The young Red-Eyed Blood Wasps might be useful.

"Yes, my Lord!"

Bai Yun received the order and left.

Seeing this, Zhou Zhou looked at the corpse of the Red-Eyed Blood Wasp King that had just been sent over.

He walked over and placed his hand on its red transparent wings.

A text notification appeared.

[Lord Talent Notification: Your loots have been enhanced by the 'King of Loots—Perfect Loots'. Grade +1!]

[Title Hint: Your loots have been affected by the title of 'Strongest Lord'. The number of Loots has increased by 20%!]

[Lord Talent Notification: You have obtained Perfect Loots— 72 Diamond-Tier Mist Cores (Drop Rate: 100%), 120 Origin Crystals (Drop Rate: 100%), 120 kg of Diamond-Tier Intermediate Grade Blood Honey Royal Jelly (Drop Rate: 20%), One kg of Diamond-Tier Intermediate Grade Blood Honey Royal Cake (Drop Rate: 6%), One Diamond-Tier Intermediate Grade Blood Honey Royal Cake Recipe (Drop Rate: 5%), One Diamond-Tier Intermediate Grade Wasp King Blood Stinger (Drop Rate: 3%), One Diamond-Tier Intermediate Grade Special Architectural Blueprint "Red-Eyed Blood Bee Hive" (Drop Rate: 2%), One Bee Nest Core (Diamond-Tier Intermediate Grade) (Drop Rate: 1%), One Fanatic believer Scarlet Crystal (Drop Rate: 1%), 11 Green Bronze-Tier Lord Talent Crystal Fragments (Drop Rate: 0%)!]

Zhou Zhou began to check the Loots one by one.

[Global Lord: 100% Drop Rate](#)

Chapter 313: Blood Honey Royal Jelly! Blood Honey Royal Cake!

He ignored the usual Mist CoreS, Origin Crystals, Scarlet Crystals, Scarlet Lord Talent Sphere, and Lord Talent Crystal Fragment and looked directly at the Blood Honey Royal Jelly.

[Specialty Name: Blood Honey Royal Jelly]

[Specialty Level: Diamond-Tier Intermediate Grade]

[Specialty Effect One: After consumption, it can greatly replenish your blood and Qi, allowing your physical state and appearance to gradually return to their youngest peak.]

[Specialty Effect Two: Every kilogram of Blood Honey Royal Jelly consumed can restore the user's basic lifespan by five years.]

[Specialty Description: A special honey that can only be produced by the Blood Jade Wasp Emperor. It has a magical Effect that can allow life forms to recover to a young state and restore a small portion of their lifespan that has been consumed.]

[Note: The amount of basic lifespan increased by consuming the Blood Honey Royal Jelly cannot exceed the total basic lifespan consumed by the user.]

...

Zhou Zhou raised his eyebrows

He was a little surprised.

This Blood Honey Royal Jelly actually had the effect of restoring youth and extending lifespan!

This effect was useless to him, who was still young.

However, to those living beings who were already on the verge of death, it was definitely a treasure that could be said to be a treasure!

If he took it out to exchange with those life forms, he would definitely be able to obtain huge benefits!

Then, he thought of Elder Wu.

Even though Elder Wu was gradually recovering his strength, his old age and body that had already entered his later years were ultimately obstacles to his strength growth.

If he could give this Blood Honey Royal Jelly to Elder Wu to consume and let him return to his youth, perhaps it could speed up Elder Wu's recovery and even allow him to take another step forward.

"I'll find an opportunity to give it to Elder Wu." Zhou Zhou thought.

He had always been generous towards people who were dead loyal to him, especially those who had made many contributions.

As for the upper limit of the lifespan increased by the Blood Honey Royal Jelly, it was actually not a big flaw.

After all, for those who were about to die, even if they could only obtain a year of lifespan or even a day of lifespan, it was enough to make them go crazy for the Blood Honey Royal Jelly.

He looked at the introduction of the specialties.

His gaze landed on the name Blood Jade Wasp Emperor.

"Blood Jade Wasp Emperor..."

"Is it a fog monster with a higher-level bloodline than the Red-Eyed Blood Wasp?"

Zhou Zhou pondered.

Suddenly, he looked at the huge Red-Eyed Blood Bee Hive in the distance and thought of the uses of the young Red-Eyed Blood Bees living inside.

"I can nurture the Red-Eyed Blood Wasp in the Monster Ranch."

"The Blood Honey and Blood Honey Sweet Cake produced by the Red-Eyed Blood Wasps shouldn't be much different from the Blood Honey Royal Jelly and Blood Honey Royal Cake, right?"

"If it's really not much different, this specialty is simply a huge treasure!"

Zhou Zhou thought.

Then, he immediately called over a soldier and asked him to bring over the corpse of a White Silver-Tier Intermediate Grade Red-Eyed Blood Wasp Boss.

He extracted it and successfully obtained a Yellow Gold-Tier Intermediate Grade Blood Honey and a Yellow Gold-Tier Intermediate Grade Blood Honey Sweet Cake recipe blueprint.

Zhou Zhou looked over.

[Specialty Name: Blood Honey]

[Specialty Level: Yellow Gold-Tier Intermediate Grade]

[Specialty Effect: Consuming it for a long time can replenish a portion of your blood and Qi, allowing your appearance to slowly recover to its youngest peak.]

[Specialty Description: A special honey that can only be produced by Red-Eyed Blood Wasps. It has a special Effect that can slowly allow life forms to recover their young appearance.]

Zhou Zhou frowned.

This effect was actually so much inferior to the Blood Honey Royal Jelly?

Not only did he need to take it for a long time to slowly recover to his youthful appearance, moreover, it did not restore the physical state of the user.

Which meant...

Only when his appearance could recover to its youngest peak while he body essentially remained that of an old person.

Most importantly, the Blood Honey actually did not have the effect of increasing the lifespan of the Blood Honey Royal Jelly.

Then its value would be greatly reduced.

Zhou Zhou frowned and thought for a few seconds. Then, he looked at the recipe for the Blood Honey Sweet Cake.

[Recipe Name: Blood Honey Sweet Cake]

[Recipe Grade: Yellow Gold-Tier Intermediate Grade]

[Dishes Effect One: The Blood Honey Sweet Cake has a sweet but not greasy edible Effect. Most people who eat it will like this sweet delicious food.]

[Dishes Effect Two: Eating the Blood Honey Royal Cake can greatly replenish your blood and Qi, allowing your physical state and appearance to gradually return to their youngest peak.]

[Recipe Recipe: Five kg of Blood Honey (Yellow Gold-Tier Intermediate Grade), One kg of Red-Eyed Blood Wasp Blood (Yellow Gold-Tier Intermediate Grade), One Spring Return Flower (Yellow Gold-Tier Intermediate Grade), One Withered Flower (Yellow Gold-Tier Intermediate Grade)...]

[Dishes Description: A delicious dessert created with the blood honey produced by the Red-Eyed Blood Wasps as the main ingredient. High-level Blood Honey Sweet Cake is often given to the King of the Tahan Kingdom as a gift by the Red-Eyed Blood Wasp King—Mize. It is one of the favorite gifts of the King of the Tahan Kingdom.]

[Learning Requirement: Only chefs can learn.]

Zhou Zhou's expression was calm.

This Blood Honey Sweet Cake could only replenish more blood qi than the Blood Honey.

While it could not increase his lifespan, its value was higher than the Blood Honey, but not much higher.

However, it could be sold publicly on the High Continent or in the Marketplace precisely because it was not very valuable.

As for the Blood Honey Royal Jelly that could increase one's lifespan, this thing was too valuable.

It was easy to attract the covetous eyes of true experts.

Zhou Zhou did not dare to sell it yet.

It could be circulated internally, sold or given to his close friends.

Then, he looked at the Blood Honey Royal Cake.

[Recipe Name: Blood Honey Royal Cake]

[Recipe Grade: Diamond-Tier Intermediate Grade]

[Dishes Effect One: The Blood Honey Royal Cake is extremely delicious, surpassing most delicacies in the world. Most life forms will never forget it as long as they eat it once.]

[Dishes Effect Two: Eat a portion of Blood Honey Royal Cake and your physical state and appearance can immediately recover to your youngest peak.]

[Dishes Effect Three: Every serving of Blood Honey Emperor is high enough to increase the consumer's basic lifespan by 20 years and 10 additional years.]

[Recipe Recipe: Five kg of Blood Honey Royal Jelly (Diamond-Tier Intermediate Grade), One kg of Blood Jade Wasp Emperor Blood (Diamond-Tier Intermediate Grade), One Unaging Flower (Diamond-Tier Intermediate Grade), One Withered Branch (Diamond-Tier Intermediate Grade)...]

[Dishes Description: A super delicious dessert created with the Blood Honey Royal Jelly produced by the Blood Jade Wasp Emperor as the main ingredient. Not only can it immediately restore a life form to its youngest peak state, but it can also increase a life form's lifespan.]

[Note One: The number of basic lifespan restored by consuming the Blood Honey Royal Cake cannot exceed the number of basic lifespan that the user has consumed.]

[Learning Requirement: Only chefs can learn.]

Zhou Zhou's eyes widened when he saw the effect of the Blood Honey Royal Cake.

A portion of Blood Honey Royal Cake could actually immediately restore a life form to its youngest peak state.

Moreover, he could live for another 30 years???

"This is a true treasure!"

Zhou Zhou took a deep breath.

However, he thought of something and frowned slightly.

He remembered that there did not seem to be a Diamond-Tier Intermediate Grade chef in his territory.

The highest seemed to be a Yellow Gold-Tier Chef.

A chef of this level could not learn a recipe of this level.

But soon, Zhou Zhou relaxed his eyebrows.

Even though he did not have a Diamond-Tier Intermediate Grade chef yet, this Red-Eyed Blood Wasp King dropped a portion of Blood Honey Royal Cake.

This could be used directly.

He sent someone to call Wu Xin over without hesitation.

[**Global Lord: 100% Drop Rate**](#)

Chapter 314: Blood Jade Wasp Emperor Bee Nest! Bee Nest Core!

"Greetings my Lord!"

Wu Xin soon came in front of Zhou Zhou and said respectfully.

"Elder Wu, you've worked hard."

Zhou Zhou acknowledged.

"We won the battle, and no soldier under our command was injured or sacrificed."

"I don't feel tired at all."

Elder Wu chuckled.

He felt a little happy.

He achieved zero casualties while taking down a Yellow Gold-Tier regional territory!

Even when he was at the peak of his service in the Aurora Kingdom, he had never achieved such results.

Today, he could be considered to have established his new record.

Thinking of this, he was even more grateful to the Lord for giving him the Greedy Wolf Totem.

This Greedy Wolf Totem not only improved his ability to command, but it also made him rarely see the lives of his soldiers.

Moreover, he had vaguely unearthed a new direction in military formations.

Wu Xin was a Master of military formations to begin with.

He also had a unique hero skill like Desired Military Morale that controlled the morale of the army.

He had a faint feeling.

If he could comprehend more of the mysteries of the Greedy Wolf Howling Moon Array,

Perhaps he could set it up with his own ability even if he did not use the Greedy Wolf Howling Moon Array in the future.

However, he only had some clues about this matter and had yet to achieve any concrete results. Therefore, Wu Xin did not plan to tell his Lord for the time being.

It would not be too late to tell the Lord when he could bring out the true results.

He thought.

At this moment, Wu Xin saw his Lord flip his right hand and take out a palm-sized golden box.

As soon as he took it out.

An extremely alluring fragrance of honey emitted from the box.

Wu Xin's nose could not help but twitch.

However, he actually felt that his body had some youthful vitality after taking two breaths.

Wu Xin was shocked.

He immediately realized that there was probably some important treasure in this box.

Then, he saw his Lord hand the box to him.

"Elder Wu."

"This is for you."

"This thing is called the Blood Honey Royal Cake."

"After eating the entire portion, not only can you immediately restore your appearance and physical state to your most youthful state,

"Moreover, it can restore 20 years of your basic lifespan and increase your lifespan by an additional 10 years."

"I'll bring it back to eat tonight."

"Don't tell anyone and don't spread this Blood Honey Royal Cake."

Zhou Zhou said.

Wu Xin's eyes widened.

He looked at the box in his hand in disbelief. He did not expect there to be such a treasure in this box.

Restoration of youth and increasing one's lifespan...

This was something that only God Spirits could do in some myths and legends.

He did not expect his Lord to have such a method.

Wu Xin looked a little hesitant before saying reluctantly,

"My Lord."

"This treasure is too precious."

"I've already taken the Hero Inheritance given to me by my Lord. How can I be so greedy to take such a treasure again?"

"Moreover, as a general, even though I'm already old, my body is still quite strong."

"If my Lord doesn't need such a treasure, it's more suitable to give it to Zheng Yuanqi, Bai Yuejing, and the others."

"Of course, this is just a small suggestion."

"I'll leave everything to you, my Lord."

"Elder Wu, just accept it."

"You've been fighting with me for a long time and have made many contributions."

"The Hero Inheritance is nothing."

"That only represents the reward for the contribution you established some time ago."

"There will naturally be new rewards for the new contributions during this period of time."

"This Blood Honey Royal Cake is like this."

"As for Elder Zheng and the others, Elder Wu, you don't have to worry."

"In the future, none of them will lack this."

Zhou Zhou smiled.

He already planned to put the Red-Eyed Blood Wasps into the Monster Ranch to nurture.

In the future, when the level of the Monster Ranch increased and the level of the Red-Eyed Blood Wasps increased, they would naturally be able to produce treasures like the Blood Honey King and even the Blood Honey Royal Jelly and the Blood Honey Royal Cake.

When the time comes...

Zheng Yuanqi, Bai Yuejing, Qian Jiangsheng, and the other elders could naturally recover to their youngest states.

It was even possible for him to live forever!

Wu Xin was speechless.

"Thank you for the reward, my Lord!"

"I'm willing to die for my Lord!" He knelt on the ground and said fanatically.

He knelt on one knee and cupped his fists.

If everyone could really have such a treasure in the future, there was nothing for him to be shy about.

Zhou Zhou smiled and helped him up.

Then, the two of them chatted for a while before Wu Xin left.

After Wu Xin left, Zhou Zhou continued to look at the other Loots.

It was a blood-red spike with a grip at the end. The overall style looked a little like the Western Sword on the Cerulean Planet.

[Equipment Name: Wasp King Blood Stinger]

[Equipment Grade: Diamond-Tier Intermediate Grade]

[Equipment Effect One: Bee Emperor Blood Poison—The Wasp King Blood Stinger contains the highly toxic venom of the Blood Jade Wasp Emperor. Flesh life forms injured by it will immediately be poisoned by the Blood Jade Wasp Emperor Blood Poison. Flesh life forms below the Diamond-Tier will die immediately if they come into contact with it. Flesh life forms above the Diamond-Tier will also lose some of their lifespan after being scratched.]

[Equipment Effect Two: Wasp King Blood Stinger—Hold the Wasp King Blood Stinger and inject energy into it to condense the Wasp Emperor Poison Spike. From there, release it and kill the enemy from afar.]

[Equipment Effect Three: Poison Gathering— Stab the Bee Emperor Blood Poison into something poisonous. It can absorb venom at the Diamond-Tier Intermediate Grade and below to increase the toxicity of the blood poison in the Bee Emperor Blood Poison Spike. It can increase the toxicity to the Extraordinary-Tier Elementary Grade at most!]

"Good equipment."

Zhou Zhou looked at the equipment and praised it.

Unfortunately, the grade was too high and he could not use it.

This was also a blissful distress on Zhou Zhou.

If other Lords obtained a treasure that exceeded their current level, they would not be vexed even if they could not use it. Instead, they would treasure it and put it away. They would use it when their strength increased in the future.

However, Zhou Zhou had already seen too many treasures that exceeded his current level through the Mythical-Tier Lord Talent, the King of Loots.

Therefore, he was more troubled than excited.

Fortunately, he had an abnormal Lord Talent like the Blessing of the War God.

The strength of Zhou Zhou and his subordinates was rapidly increasing.

Treasures or equipment that he had obtained but could not use in the past.

It could gradually be used now.

He did not have to worry about not using it.

He put away the equipment.

Then, he looked at the special building blueprint and Bee Nest Core of the Blood Jade Wasp Emperor.

[Construction Blueprint Name: Blood Jade Wasp Emperor Beehive]

[Blueprint Quality: Special - Diamond-Tier Intermediate Grade]

[Construction Effect: After learning it, you can build a Diamond-Tier Intermediate Grade special building—Blood Jade Wasp Emperor Beehive. After completion, you can obtain 10kg of Blood Honey Royal Jelly every day and one serving of Blood Honey Royal Cake every 10 days.]

[Construction materials: 100 million units of wood, 100 million units of fine sand, 100 million units of metal, 100 million units of stone, one million units of forged stainless steel, one million units of light silver, one million units of adamantine, one million units of mithril, 10,000 units of each of the four basic Elemental Gemstones, 10,000 Diamond-Tier Mist Cores]

[Building Description: The nest of the Blood Jade Wasp Emperor. It can produce rare specialties, Blood Honey Royal Jelly and Blood Honey Royal Cake.]

[Learning Requirement: Only architects can learn it.]

...

[Treasure Name: Bee Nest Core]

[Treasure Grade: Diamond-Tier Intermediate Grade]

[Treasure Effect: Place it at the core of the beehive below the Diamond-Tier Intermediate Grade. You can become the Lord of the beehive and completely control all the life forms and resources in the beehive.]

[Treasure Description: From the Red-Eyed Blood Wasp King—Mize's beehive core.]

"I was right."

"This Bee Nest Core can indeed be used to control the beehive."

Zhou Zhou thought.

However, this was indeed not difficult to guess.

He could roughly guess a thing or two from the name Bee Nest Core.

[Global Lord: 100% Drop Rate](#)

Chapter 315: Using The Bee Nest Core! Red-Eyed Blood Bee Hive!

Then, Zhou Zhou's gaze landed on the Blood Jade Wasp Emperor beehive.

He looked at the building materials of this special building and frowned slightly.

So many materials were actually needed?

Moreover, there was no lack of high-level materials like adamantine, mithril, and Elemental Gems.

However, Zhou Zhou immediately understood when he thought about how this building was a special Diamond-Tier Intermediate Grade building.

It was normal for a Diamond-Tier Intermediate Grade special building to require so many building materials to be built.

Not to mention that after it was built, it could regularly provide treasures like the Blood Honey Royal Jelly and the Blood Honey Royal Cake.

"I do have the basic materials and the Mist Core."

"But there's not enough forged stainless steel, light silver, adamantine, mithril, and Elemental Gems."

Zhou Zhou thought for a moment and opened the Marketplace to set up a transaction to buy materials other than the basic materials.

He had previously understood the price of materials like forged stainless steel, light silver, adamantine, mithril, and Elemental Gems from the Marketplace.

Therefore, the price set was relatively reasonable.

Among them, forged stainless steel and light silver could be bought according to Green Bronze-Tier materials.

One Green Bronze-Tier Mist Core could buy 10 units of forged stainless steel or 10 units of light silver!

Mithril and adamantine were bought according to White Silver-Tier materials.

One White Silver-Tier Mist Core could buy 10 units of forged stainless steel or 10 units of light silver!

As for the price of Elemental Gems, they were bought according to Yellow Gold-Tier materials.

One Yellow Gold-Tier Mist Core to buy 10 units of Basic Elemental Gems!

The setup was completed and the transaction was announced.

Then, he ignored it.

This time, he had bought a lot of materials.

Moreover, it involved Yellow Gold-Tier Elemental Gems.

Only top-notch Lords could come into contact with materials of this level in the early stages.

It would probably take at least a day or two to gather them all.

After that, he called Bai Yun over and followed her into the Red-Eyed Blood Bee Hive.

Then, he took many turns and arrived at its core hive.

This hive was a hundred meters long and its interior was blood-red. After walking in, Zhou Zhou immediately smelled a rich fragrance of blood honey.

This was the residence of the Red-Eyed Blood Wasp King—Mize.

He took a rough look and quickly discovered a territory stone tablet and a blood-red rectangular object that looked like an altar in the center of the hive.

Zhou Zhou walked closer and first walked to the territory stone tablet.

After he asked Bai Yun to shatter the Territory Token, he only took the Regional Token inside and did not take the Territory Token. Then, he chose to occupy Red Wasp Town.

Before long, this Territory Token would naturally return to its original state and wrap around the Territory Token again.

At this point.

The Red-Eyed Blood Bee Hive in front of him and its regional territory belonged to Zhou Zhou.

Then, he walked to an altar-like thing at the side.

Then, he saw a hexagonal groove identical to the shape of the Bee Nest Core on the "altar".

Seeing this, Zhou Zhou took out the Bee Nest Core he had just obtained and placed it in the groove.

There was a click.

The Bee Nest Core was perfectly embedded in the groove.

The next second.

Rumble...

The entire hive shook slightly.

Bai Yun's expression immediately changed.

The expressions of the surrounding soldiers in charge of guarding also changed.

"Don't panic."

"I did it."

At this moment,

His Lord's voice sounded.

His calm tone made everyone relax even though he was a little surprised.

At the same time...

Two rows of golden words appeared in front of Zhou Zhou.

[Prompt: You have used the Bee Nest Core (Diamond-Tier Intermediate Grade) and successfully mastered a Red-Eyed Blood Bee Hive (White Platinum-Tier Intermediate Grade).]

[Prompt: You can check the related building information of this special building.]

When Zhou Zhou saw this, he immediately chanted to retrieve the building information of the Red-Eyed Blood Bee Hive.

The next second.

A building panel appeared in front of Zhou Zhou.

[Building Name: Red-Eyed Blood Bee Hive]

[Building Level: Special - White Platinum-Tier Intermediate Grade]

[Building Function One: You can obtain 100 kg of Blood Honey and five servings of Blood Honey Sweet Cake every day.]

[Building Function Two: It can be used to nurture Red-Eyed Blood Wasps and store Blood Honey and Blood Sweet Cake.]

[Current number of Red-Eyed Blood Wasps: 8,136 (Incomplete Hatching) (Maximum number to be breed: 100,000.)]

[Current amount of Blood Honey: 10,234kg (Maximum storage: 1 million kg)]

[Current number of Blood Honey Sweet Cakes: 112 servings (Maximum number of stockpiles: 100,000)]

[Construction Upgrade: Lacks a Red-Eyed Blood Wasp King above the White Platinum-Tier Intermediate Grade. Unable to upgrade.]

[Building Description: The beehive of the Red-Eyed Blood Wasps. It can produce specialty Blood Honey and Blood Honey Cake.]

Zhou Zhou nodded in his heart.

Even though it could only provide Blood Honey and Sweet Cake,

but it was not the Blood Honey Royal Jelly and Blood Honey Royal Cake.

However, what was given for free was better than nothing.

Zhou Zhou did not care about the Diamond-Tier Intermediate Grade Bee Nest Cores consumed for this.

There was no point in keeping that thing. After all, he did not know which higher-level beehives could be occupied by the Bee Nest Cores.

Since that was the case...

He might as well use it directly.

If he encountered a beehive below the Diamond-Tier Intermediate Grade in the future, he would tear it down again at most.

Half an hour later.

All the Red-Eyed Blood Wasp corpses had their Loots extracted by the 10 Yellow Gold-Tier Advance Grade Conqueror's Blast Furnaces.

After that, Zhou Zhou left 2,000 Monster Army soldiers here and led the others onto the Black Ghost again, heading straight for the East Demon City.

A moment later.

In the sky above East Demon City.

In the Black Ghost.

Zhou Zhou and the others looked at the virtual screen in front of them. It displayed the city face of East Demon City.

The cities in East Demon City were much more normal compared to the Red-Eyed Blood Bee Hive.

Not only that it was also three to four times larger than the previous Dark Night Town.

Even though the architectural style still did not match the aesthetic standards of the human race, at least it could still be used.

Moreover, all kinds of buildings were available, and there was no lack of Yellow Gold-Tier and White Platinum-Tier Life Profession buildings.

Zhou Zhou's eyes lit up when he saw these White Platinum-Tier buildings.

There were also some White Platinum-Tier Lifestyle Professionals in his territory.

However, because there were not many White Platinum-Tier architects in the territory, many of these White Platinum-Tier Lifestyle Professionals did not have their own workplace.

Everything would be fine now.

He could capture East Demon City; at that time, the White Platinum-Tier Professionals in the territory would have an official workplace.

Zhou Zhou continued to observe the buildings in the city.

Occasionally, he nodded slightly, and sometimes, he frowned and said nothing.

The reason for his frown was:

Many Sickle Fog Mantis were walking around in the buildings of this East Demon City.

At a glance.

There were probably no less than 200,000 of them.

Of course.

According to Ruoji, among so many Sickle Fog Mantises, only 150,000 were members of the East Demon Army.

The rest were only the Sickle Fog Mantis Subjects under the East Demon City Lord.

These Sickle Fog Mantises were extremely weak.

Compared to the members of the East Demon Army's Sickle Fog Mantis,

It was basically equivalent to the difference between Professionals and normal Subjects.

After observing for a while.

Zhou Zhou ordered Wen Ya to lower the spaceship.

Soon, the spaceship landed more than 100 meters above the ground and began to release the soldiers.

In less than a moment.

Bai Yun, Wu Xin, Nezario, Auguste, and the members of the two armies all alighted from the spaceship.

At the same time...

On the city wall of the East Demon City.

The Sickle Fog Mantis guards in charge of patrolling also discovered Zhou Zhou and the others.

"I'll report it to Lord East Demon."

"If the other party has any new movements, immediately send someone over to inform us."

The captain of the patrolling guards said.

Then, he immediately ran down the city wall and rushed towards the City Lord Manor.

[**Global Lord: 100% Drop Rate**](#)

Chapter 316: Incite Defection Again!

In the City Lord Manor.

The Sickle Fog Mantis Lord—East Demon was swallowing and spitting Scarlet Fog to cultivate.

It was wearing a red cloak and had a calm expression. Just by looking at its expression, it looked like a monk who had comprehended the Zen.

However, if anyone saw the six silver-gray sharp arm blades exposed and the faint black murderous aura on its body, they probably would not think so.

At this moment, a Yellow Gold-Tier Elementary Grade Sickle Fog Mantis Boss rushed in.

"Reporting to Lord East Demon."

"A guard just reported."

"That human Lord is already here."

"It's outside the city."

It reported respectfully.

"It's finally here..."

The Sickle Fog Mantis Lord—East Demon slowly opened its blood-red eyes.

The next second.

Its body suddenly disappeared.

On the city wall of the East Demon City.

The Sickle Fog Mantis Lord suddenly appeared here.

"Greetings, Lord East Demon!"

When the surrounding Sickle Fog Mantis saw this scene, they were not surprised. Clearly, they were already used to this scene.

Who in the entire East Demon City did not know that their Lord had the ability to teleport anywhere?

Lord East Demon nodded.

Then, he looked into the distance.

It immediately saw Zhou Zhou and the others.

After observing for a while.

Its expression gradually became serious.

This was because it could actually sense no less than 200 White Platinum-Tier auras from the other party's army!

"But..."

How was this possible?

Didn't the information say that the other party was only a Lord of all races who had just arrived in the High Continent? How could there be so many White Platinum-Tier experts in such a short period of time?

He owned the entire East Demon City and only had more than 20 White Platinum-Tier Sickle Fog Mantis subordinates under him.

Even so.

It was considered one of the top five Lords among the 11 White Platinum-Tier regional territories in the Tahan Kingdom.

The Sickle Fog Mantis Lord suddenly had an idea that he was unwilling to believe.

It might not be able to defeat this human Lord.

East Demon was silent for a few seconds before a determined and ruthless expression appeared in his eyes.

"We can't give up just like that."

"I don't have any reinforcements behind me, and I have no other way out."

"If we escape from here, we'll die faster."

"Moreover, victory on the battlefield is not determined by the difference in strength between the two sides."

"If I fight to the death, I might really be able to survive."

He thought for a moment and called over an Elite White Silver-Tier Elementary Grade Sickle Fog Mantis.

"I need you to do two things."

"The first thing is to quickly write a new letter to His Majesty and tell him the situation here and the strength of the human Lord opposite. Tell him that we need reinforcements."

"Secondly, call for all Subjects in East Demon City to fight this human Lord together later."

"Tell the Subjects that we have to do our best to obtain victory in this battle."

"Otherwise, none of us can survive at the hands of that human Lord if we can't win."

He said.

"Yes, my Lord! I'll do it now!"

After the Sickle Fog Mantis Lord heard this, it hurriedly agreed while secretly shocked.

The other party was actually so strong?

It did not dare to waste any time and immediately turned around to do it.

At this moment,

It suddenly saw that after the humans set up a mysterious array, they actually released a military formation murderous aura above its head. Then, they condensed into a blood-colored Divine Wolf that was more than 400 meters tall.

He felt an aura from the Blood-colored Divine Wolf that made him tremble.

East Demon gritted his teeth.

"Everyone in the East Demon Army, listen up!"

"Everyone, attack!"

"Kill that enemy!"

He realized.

At this moment, guarding the city was probably useless.

The other party might be able to easily deal with the defense of his city.

Since that was the case...

It was better to send all their forces out of the city to deal with the other party.

This way, he could unleash his military advantage.

Perhaps their chances of winning would be higher.

"Yes, my Lord!"

The Legion Commander of the East Demon Army, Yan Zhuo, immediately accepted the order. Then, he immediately ordered all the members of the army to rush out of the East Demon City and attack the Greedy Wolf Avatar that was also running towards the East Demon City in the distance.

At the same time...

A large number of Sickle Fog Mantis Subjects also rushed out of East Demon City with the East Demon Army and charged at the Greedy Wolf Avatar.

Even though they were very weak,

they had no way out now. They could only use their lives and ruthlessness to fight for a chance to survive.

...

Behind the battlefield.

Zhou Zhou was slightly surprised when he saw the Sickle Fog Mantis surging out of the city gate in the distance and charging towards them like a tide.

The other party was going all out.

However, his expression quickly calmed down again.

At this moment, even though they were at a disadvantage in terms of numbers,

the number of experts on their side far exceeded the other party's. In addition, with the Greedy Wolf Avatar, Nezario, Auguste, Feng Luo, Soul Reaper Maris, and other subordinates were also helping the Greedy Wolf Avatar.

Therefore, he was not worried about losing at all.

Moreover...

The more troops the other party mobilized, the better it would be for him...

Zhou Zhou extended his right hand calmly and aimed his palm at them.

White Silver-Tier Lord Talent: Incite Defection—

Activate!

BOOM!

An invisible fluctuation instantly covered the 200,000 Sickle Fog Mantises.

The next second.

More than 17,000 Sickle Fog Mantises froze. Then, the expression in their eyes changed. They turned around and attacked their companions from the East Demon Army beside them without hesitation.

At this moment.

The East Demon Army, which was originally attacking unanimously, suddenly fell into chaos.

The Greedy Wolf Avatar, Nezario, and the others naturally would not let go of such a good opportunity.

He immediately increased the speed of his charge and rushed in front of the East Demon Army in the blink of an eye.

The Greedy Wolf Avatar charged into the East Demon Army without hesitation. It began to wantonly destroy the Sickle Fog Mantises that were hitting it as if it had entered an uninhabited place.

Nezario and Auguste also released their Dragon Might at the same time. Then, they used their own methods to quickly kill these Sickle Fog Mantises.

Feng Luo also rushed into the East Demon Army and used his exquisite saber techniques and escape techniques to kill wantonly among the Sickle Fog Mantis.

At this moment.

Zhou Zhou's side clearly had the least number of people.

However, they were the ones who occupied the initiative and advantage on the battlefield.

...

On the other side.

After Zhou Zhou activated Incite Defection, he looked at the Lord Talent Hint.

[Prompt: You have activated your Lord exclusive talent, Incite Defection!]

[Incite Defection has taken effect!]

[Lord Talent Notification: A total of 8,239 Black Iron-Tier Sickle Fog Mantises, 5,639 Green Bronze-Tier Elite Sickle Fog Mantises, 2,662 White Silver-Tier Elite Sickle Fog Mantises, 1,057 Yellow Gold-Tier Sickle Fog Mantis Bosses, and four Sickle Fog Mantis Bosses have betrayed their Lord faction and become your loyal subordinates!]

...

A smile appeared on Zhou Zhou's face.

One Incite Defection.

He directly obtained more than 17,000 subordinates.

Even though it could not compare to the Monster Ranch,

it could also become his second source of subordinates other than the Monster Ranches.

At this moment, he suddenly thought of the Tahan Kingdom, which was fighting the Aurora Kingdom on the main battlefield.

"Li Ya once invited me to go with her to see the war between them and the Tahan Kingdom."

"There will definitely be more soldiers from the Tahan Kingdom on the main battlefield."

"If I use Incite Defection on the main battlefield, won't I be able to recruit more fog monsters subordinates with more experts?"

Zhou Zhou suddenly thought of this possibility.

[Global Lord: 100% Drop Rate](#)

Chapter 317: Sickle Fog Mantis Lord—East Demon! Spatial Lock Blade Seal!

Zhou Zhou was looking forward to it as he pondered.

If he really had a chance to be brought to the main battlefield of the Aurora Kingdom and the Tahan Kingdom by Li Ya, he might really be able to give it a try.

At the same time...

East Demon was also stunned when he saw the Sickle Fog Mantis soldiers and his subjects suddenly fighting among themselves.

Why are they fighting?

Then, he quickly reacted and looked gloomily at the Greedy Wolf Avatar that was more than 400 meters tall in the distance and the black spaceship in the sky.

It must be the doing of this Lord of all races!

It was not a strange skill, probably some special Lord Talent or tool.

As he pondered, his gaze wandered between the Greedy Wolf Avatar and the black spaceship. Finally, his gaze locked onto the black spaceship.

[That black spaceship is standing quietly in the air. The life form inside must be an important figure of the Lord of All Races. Perhaps it's the Lord himself.]

[If I can kill my way in, capture or kill him, I might be able to resolve this dangerous situation...]

East Demon quickly thought.

He had also wondered if there were important figures in the Greedy Wolf Avatar.

But so what if there was?

The Greedy Wolf Avatar in front of him was a complete Extraordinary-Tier existence.

Moreover, from the aura emitted by the other party, it even had the aura of a hero.

Which meant...

There was a high chance that there were heroes among the humans who summoned this Greedy Wolf Avatar.

Under such circumstances, even if they called their Tahan Kingdom's Extraordinary-Tier Scarlet Hero over, it would probably be on par with the Greedy Wolf Avatar.

As a Diamond-Tier Elementary Grade Regional Scarlet Lord, if he dared to take the initiative to approach it, it would be no different from taking the initiative to have a death wish.

He naturally would not do such a stupid thing.

East Demon did not hesitate.

Its body flashed and disappeared from the spot, heading straight for the Black Ghost.

At the same time...

Feng Luo suddenly sensed something.

Emperor Heavenly Saber Qi!

He turned around and swung his saber without hesitation. A golden saber energy nearly a thousand meters long suddenly cut across the sky and slashed into the air.

BOOM!

The space trembled slightly.

A figure appeared out of thin air without warning.

It was Lord East Demon!

It looked at Feng Luo in shock.

He did not expect his teleportation to be forcefully used by the other party.

At this moment, Zhou Zhou, who was on the Black Ghost, also saw this guy.

"It actually knows a method similar to teleportation?"

"You want to deal with me directly?"

"Good idea."

Zhou Zhou's expression was calm.

He was not worried.

This was because the Black Ghost was a spaceship that contained space technology.

The space technology included not only folding space technology, but also spatial lockdown technology.

Spatial lockdown technology was science and technology that specialized in restraining spatial mobility.

The interior of the Black Ghost was constantly maintaining a spatial lockdown.

It was to prevent an existence like East Demon from teleporting directly into the spaceship to assassinate the captain.

In addition, it was fine even if the other party could teleport in front of Zhou Zhou.

He had not learned the Skills for nothing after all.

Not to mention that he still had the Death Immunity Scroll he had just obtained from the God of Death.

All kinds of methods.

It was enough to ensure his safety.

Zhou Zhou looked at the Sickle Fog Mantis Lord.

A monster notification appeared.

[Monster Name: Sickle Fog Mantis Lord—East Demon (Regional Scarlet Lord)]

[Strength Level: Diamond-Tier Elementary Grade]

[Monster Description: Tahan Kingdom—Lord of East Demon City. He controls the entire territory of East Demon City and is also one of the Bosses of the Sickle Fog Mantis Race. The Sickle Fog Mantis Race has six extremely sharp saber arms. They are born a saber expert. East Demon is even the best among them who has experienced thousands of battles. Its close combat suppression is extremely famous in the entire Tahan Kingdom.]

[Loots Drop Rate: 50 Diamond-Tier Mist Cores (Drop Rate: 100%), 300 Origin Crystals (Drop Rate: 100%), One Diamond-Tier Elementary Grade Skill Book, Thousand Saber Annihilation Slash (Drop Rate: 20%), One Special Equipment, Six-Armed Scythe (Drop Rate: 10%), One Special Equipment, Shadowless Wings (Drop Rate: 6%), One Special Equipment, Spatial Teleportation (Drop Rate: 2%), One Frenzy-Tier Scarlet Crystals (Drop Rate: 1%), Four Black Iron-Tier Lord Talent Crystal Fragments (Drop Rate: 0%)]

"Fanatic believer Scarlet Crystals?"

"Then wouldn't it be another Faith Divine Crystal after killing it?"

Zhou Zhou looked at the other Loots calmly.

However, his eyes immediately lit up when he saw the fanatic believer Scarlet Crystals.

This thing could only be chanced upon by luck.

Previously, he had used it to exchange for a Death Immunity Scroll at the God of Death Temple.

He thought that it might be a long time before he obtained another Holy Spirit-Tier Faith Divine Crystal.

He did not expect to encounter it again after so long.

Zhou Zhou immediately thought of the Heroic Spirit Hall.

As long as he obtained this fanatic believer Scarlet Crystals, he could also revive one of the heroes in the Heroic Spirit Hall.

At that time, he would exchange benefits with the Knight Temple.

With the reputation and class of the Knight Temple,

That benefit was most likely not much inferior to the Death Immunity Scroll.

What was going on?

He should be able to exchange for another Hero Inheritance, right?

...

In midair.

Feng Luo flew in front of East Demon with a saber in one hand and a Shield in the other and looked at him coldly.

East Demon narrowed his eyes slightly. His expression did not change, but he was a little surprised.

This was because he could feel that the other party's strength was only at the White Platinum-Tier Advance Grade.

A White Platinum-Tier Advance Grade human could actually fight a Diamond-Tier Elementary Grade Regional Scarlet Lord out of space?

He was in disbelief.

But soon, he sensed the faint pressure of a high slot from the other party.

This made him even more shocked and he understood.

So the other party was a hero.

That made sense.

Other than high-level bloodline existences and other special life forms,

Perhaps only a hero, a high-level existence recognized by the Supreme Resistance, could easily fight it above his level.

However, even so, the East Demon did not give up on his idea.

He narrowed his eyes slightly and used teleportation to disappear into the air again.

Feng Luo shook his head.

He picked up the treasure saber that the Lord had given him and drew a golden cross in the air.

The golden cross quickly fused into space and disappeared.

After the golden cross fused into the space,

The next second.

East Demon actually bounced out of space again.

"This is the Spatial Lock Blade Seal I recently comprehended."

"Specially used to deal with enemies like you who can hide in space."

"How's it going?"

"The effect is not bad, right?"

Feng Luo smiled.

After he accepted Zun Wu's Ten-Directional Martial Emperor Hero Inheritance, the vast martial arts manuals that Zun Wu had once mastered appeared in his mind.

He had just developed this move after two days of focused research.

He did not expect it to come in handy today.

He could only say that this Sickle Fog Mantis Lord was not very lucky.

He might not be able to stop East Demon if he did not study martial arts moves to deal with enemies who were good at escaping.

[**Global Lord: 100% Drop Rate**](#)

Chapter 318: Feng Luo's Breakthrough! Special Equipment And Special Skills!

"You made me do this!"

When East Demon saw this, he also realized that if he did not deal with the human hero in front of him, it was absolutely impossible for him to hurt the 'big shot' in the spaceship behind him.

With a ferocious expression, he flapped his wings and flew towards Feng Luo at high speed.

The distance between the two disappeared in an instant.

After East Demon arrived in front of Feng Luo, the six sickle-shaped sabers on its body immediately slashed out countless silver-gray saber lights that enveloped Feng Luo like a violent storm.

Feng Luo was not afraid at all.

He calmly used the Extreme Saber and Shield Combination Technique. As he defended against the other party's attack, he found an opportunity to counterattack.

The more East Demon fought, the more shocked he became.

To be able to become a Lord of a White Platinum-Tier regional territory, he was naturally someone who had experienced thousands of battles. In addition, his race could control six main body arm sabers at the same time. Therefore, his suppression in close combat was very famous even in the entire Tahan Kingdom.

However, he, who was good at close combat, actually felt that the other party's defense was too perfect when facing this human hero's defense. He could not find a chance to win in one strike.

Not only that, he also felt that the other party was gradually familiarizing itself with his attack tempo.

If he completely grasped the rhythm of his offensive, he would not be far from death.

He had encountered an expert!

East Demon thought to himself.

He gritted his teeth and suddenly slashed the other party away. Then, he instantly retreated more than 100 meters.

Right on the heels of that.

All six of its arm blades were aimed at Feng Luo. Then, it waved them repeatedly, releasing hundreds or thousands of silver-gray saber qi.

These thousands of silver-gray saber qi covered Feng Luo like a rain of saber qi in the blink of an eye.

Rumble!!!

A violent explosion sounded.

Feng Luo was already drowned in the explosion caused by more than a thousand saber energies accompanied by scorching light and heat/

"Huar... Huar..."

East Demon panted as he looked at the explosion in the distance.

A few seconds later.

His expression gradually relaxed.

"He should be dead, right?"

"Even though he's a hero of the human race, his strength is only at the White Platinum-Tier Advance Grade after all. He shouldn't be able to withstand my full-strength strike."

It looked coldly at the center of the explosion and flew towards the Black Ghost.

The spatial lockdown was not over yet.

He could not use teleportation yet.

"Where are you going?"

At this moment, Feng Luo's voice sounded.

The next second.

An extremely fast golden saber beam suddenly shot out from the center of the explosion. In the blink of an eye, it passed through East Demon's body and arrived behind him.

When the light dissipated, Feng Luo's figure appeared.

East Demon's eyes widened. Then, he lowered his head trembling and looked at the bloody hole the size of a washbasin in his chest.

"I—"

He seemed to want to say something.

However, before he could say another word, his head was beheaded by Feng Luo.

Sickle Fog Mantis Lord—East Demon!

Die!

The next second.

Feng Luo suddenly felt an extremely astonishing promotion energy surge out of the other party's body and rushed into his body.

BOOM!

An invisible air wave instantly shot out from his body, even sweeping away the clouds within a five-kilometer radius.

The terrifying pressure of a hero slot was released from Feng Luo's body.

Feng Luo was stunned.

He realized something.

He seemed to...

Have broken through?!

"I've broken through to Diamond-Tier Elementary Grade?!"

His eyes gradually lit up as he felt the even more astonishing strength and physical fitness in his body.

Then, Feng Luo recalled the majestic promotional energy that had surged from East Demon's body when he had just killed him. He could not help but click his tongue.

"How much promotion energy did I absorb just now..."

"My Lord's Lord Talent is really too abnormal."

He sighed.

Then, he retracted his Sword Shield and waved his hands to freeze the corpses of East Demon that were about to fall to the ground. Then, he controlled them to fly back into his hand and fly towards the spaceship.

...

[Your Subject, Ten-Directional Martial Emperor—Feng Luo, has killed the Diamond-Tier Elementary Grade Sickle Fog Mantis Lord—East Demon (Regional Scarlet Lord). Promotion energy +200,000! Loots condensed!]

[Blessing of the War God: Your Subject, Ten-Directional Martial Emperor—Feng Luo, has obtained an additional 4,000,000 promotion energy!]

[The territory of the Scarlet Lord has become ownerless. You can plunder or occupy it!]

[East Demon City has become an ownerless area. After you obtain the Regional Token, you can become the Regional Lord of this area!]

Zhou Zhou looked at Feng Luo, who had broken through to the Diamond-Tier Elementary Grade, flying towards the Black Ghost and looked at the kill notification in front of him. He could not help but sigh.

"This guy killed a Diamond-Tier Elementary Grade Sickle Fog Mantis Lord. It's equivalent to killing 21 similar monsters and obtaining 4.2 million promotion energy."

"It's ridiculous."

"Fortunately, this Lord Talent belongs to me."

"Otherwise, I'm afraid I would already have a strong opponent if it landed in the hands of others."

After a while.

Feng Luo came in front of Zhou Zhou and gently placed East Demon's corpse on the ground.

"My Lord."

"This guy is the Lord of East Demon City and intends to assassinate you."

"I've already dealt with it."

He said respectfully.

Feng Luo also knew that his Lord liked to personally retrieve his Lord's loots, so he specially sent East Demon's corpse over.

"I've already seen it."

"Well done."

Zhou Zhou smiled and nodded.

"This is my duty."

Feng Luo said respectfully.

Zhou Zhou acknowledged.

Then, the two of them did not say anything else. Feng Luo left to continue the Black Ghost and joined the battlefield again to continue destroying the other Sickle Fog Mantises.

The Sickle Fog Mantis Lord was dead, but there were many Sickle Fog Mantis left, they had many group attacks on their side, so it was naturally not difficult to deal with them.

It could be said that victory was set.

Zhou Zhou's gaze landed on the specific corpse in front of him after Feng Luo left.

He walked forward and placed it on the surface of the other party's corpse to retrieve the other party's loot.

[Lord Talent Notification: Your loots have been enhanced by the 'King of Loots—Perfect Loots'. Grade +1!]

[Title Hint: Your loots have been affected by the title of 'Strongest Lord'. The number of Loots has increased by 20%!]

[Lord Talent Notification: You have obtained Perfect Loots— 60 Extraordinary-Tier Mist Cores (Drop Rate: 100%), 360 Origin Crystals (Drop Rate: 100%), one Extraordinary-Tier Elementary Grade Skill Book, Thousand Blade Annihilation (Drop Rate: 20%), one special skill book, Spatial Teleportation (Drop Rate: 5%), one special equipment, Six-Armed Scythe (Drop Rate: 3%), one special equipment, Shadowless Wings (Drop Rate: 3%), one Holy Spirit-Tier Scarlet Crystals (Drop Rate: 1%), five Green Bronze-Tier Lord Talent Crystal Fragments (Drop Rate: 0%)]

Whoosh.

The corpse of the Sickle Fog Mantis Lord instantly turned into ownerless Loots.

Zhou Zhou first looked at the 60 Mist Cores emitting blue light.

It was the Extraordinary-Tier Mist Core!

Zhou Zhou picked it up and looked at it.

He had synthesized this Extraordinary-Tier Mist Core through the Heavenly Mist Treasure Bag before.

However, this was the first time he had obtained it by destroying the fog monsters in reality.

Zhou Zhou did not take another look and put away the 60 Extraordinary-Tier Mist Cores, Origin Crystals, Holy Spirit Scarlet Crystals, and Green Bronze-Tier Lord Talent Crystal Fragments.

Then, he looked at the other items.

Among them, there was no need to look at the Thousand Blade Annihilation. It was the ability used by the Sickie Fog Mantis Lord just now.

His moves looked quite gorgeous, but they didn't seem to be of much use against Feng Luo but it was at least a good ability to attack in groups.

He could reward Feng Luo or other saber experts later. In the future, they could learn it when they reached the Extraordinary-Tier.

Or he could keep it for himself.

After all, he had previously inherited the Dark Bone King's saber technique inheritance, so there was naturally no problem with using the saber.

Then, Zhou Zhou looked at the other two special equipment and the special Skill.

His eyes were filled with curiosity and anticipation.

Loots with the word special were rare.

[**Global Lord: 100% Drop Rate**](#)

Chapter 319: Six-Armed Scythe! Shadowless Wings! Spatial Teleportation!

Zhou Zhou first looked at the half-body armor with six bright silver saber arms.

It looked a little like the East Demon Lord's Six-Armed Scythe, but he could clearly feel that it was much higher-level than the arm blade.

This should also be the effect of the +1 Loots.

Even though it was a special grade loot, the quality had still increased greatly.

[Equipment Name: Six-Armed Scythe]

[Equipment Grade: Special]

[Equipment Effect One: After wearing this equipment, the user can automatically master the skill of controlling the Six-Armed Scythe on the equipment.]

[Equipment Effect Two: Thousand Saber Annihilation Slash—After wearing this equipment, the user can accumulate Destruction Saber Qi inside the equipment or release Thousand Saber Annihilation Slash through it. The specific power depends on the user's strength level. It can release at least 10 Destruction Saber Qi at the same time and 10,000 Destruction Saber Qi at the same time. Every level of Destruction Saber Qi is equivalent to the user's full-strength attack. The total power cannot exceed the Epic-Tier.]

"This Ten Thousand Blades Destruction Slash is interesting."

"But... Accumulation?"

"How do I accumulate them?"

Zhou Zhou was a little curious.

Then, he tried it and understood the true usage of this thing.

It turned out that after wearing this half-armor, he could inject energy into its six arm blades every day to form and accumulate the Destruction Saber Qi.

It could create up to 10,000 destructive saber energy by injecting energy.

The total power would not reach or exceed the Epic-Tier.

Which meant...

It could release an attack at the Extraordinary-Tier limit at most!

However, it could only be used once.

After using it, he would have to inject energy into it again if he wanted to release the Ten Thousand Blades Destruction Slash again.

"Good stuff!"

Zhou Zhou's eyes lit up.

To others, this was a treasure that could be used to fight above their level.

But to him, it was also a life-saving treasure that he could counterattack when he encountered an enemy's sudden attack.

For things that could save his life,

Zhou Zhou had always liked it very much.

He looked at the six bright silver arm blades behind him.

Under the support of the six bright silver arm sabers, his body even floated in the air.

Moreover, these six bright silver arm sabers were also quite sharp. The sharpness of each arm saber was not inferior to an Extraordinary-Tier Saber Arms.

Then, Zhou Zhou tried to use a few of the Dark Bone King's saber techniques through it. In the end, he realized that it was also very smooth. There was no jerky feeling from the first time he used it.

Just as its equipment description said.

He could use the Six-Armed Scythe as long as he wore it.

In the time that followed...

Zhou Zhou kept familiarizing himself with its control method.

The more he used it, the more he clicked his tongue.

"The name Six-Armed Scythe sounds quite easy."

"But it's extremely practical for sabermen."

"For a saber master like me..."

"With this Six-Armed Scythe, I can completely use it and my pair of arms to use eight saber techniques at the same time when facing the enemy!"

"When the time comes."

"Who can defeat me at the same level?"

"Even if it's Feng Luo, I'm confident that I can exchange a hundred moves with him."

Zhou Zhou thought.

As for defeating Feng Luo, it was impossible.

Zun Wu, the hero he had inherited, could comprehend the existence of the hero slot from the vast martial arts.

The title of Martial Emperor lived up to its name!

Zhou Zhou naturally did not feel that he could defeat Feng Luo just because he had obtained the saber technique inheritance and the Six-Armed Scythe.

"It usually affects wearing this Six-Armed Scythe..."

Zhou Zhou thought.

With a thought...

The next second.

The six bright silver arm blades around him immediately shrunk to palm-sized mini tools and stuck to the belt at his lower back.

Zhou Zhou had a feeling.

As long as he wanted to use the concept of the Six-Armed Scythe.

This Six-Armed Scythe would immediately be activated, allowing him to become a super saberman who could use eight saber techniques at the same time!

Zhou Zhou nodded in his heart.

Then, he looked at the next special equipment—Shadowless Wings.

It was a bright silver spinal-shaped item.

The equipment information appeared.

[Equipment Name: Shadowless Wings]

[Equipment Grade: Special]

[Equipment Effect One: After wearing this equipment, the user can fly by using it. Moreover, it can erupt with the maximum flying speed of an Extraordinary-Tier!]

[Equipment Effect Two: Shadowless Wings—When the user uses this equipment to fly, they will be able to hide in space. In this concealment state, only living beings who can sense the space can discover the user.]

Zhou Zhou's eyes lit up.

This special equipment was also a top-grade item.

The former could give him flying speed comparable to the limit of the Extraordinary-Tier!

The latter could allow him to fly invisibly.

"This is simply invincible when used to escape."

Zhou Zhou lamented.

Then, he placed it on his waist without hesitation and began to use it.

The next second.

His entire body floated up and quickly disappeared into the air.

The door of the Black Ghost suddenly opened extremely abruptly and closed again.

A minute later.

The Black Ghost opened and closed the door again.

Zhou Zhou's figure appeared and landed on the ground.

He flipped his right hand, and a Regional Token appeared in his hand.

It was the Regional Token of East Demon City!

There was a smile on his face.

He had just used the flying speed of the Shadowless Wings to quickly walk around East Demon City in front of him and found the territory stone tablet in a short period of time.

After using the Destruction Saber Qi to shatter the stone tablet, Zhou Zhou took out the East Demon City Regional Token inside.

Zhou Zhou naturally would not take the White Platinum-Tier Intermediate Grade Territory Token. Instead, he chose to occupy it.

The war outside was not over yet but the East Demon City was actually already his.

"The New Wind Ceremony can be retired with these Shadowless Wings."

Zhou Zhou looked at this special outfit and thought.

Zhang Li had personally knitted this New Wind Ceremony and given it to him a long time ago.

However, as his strength increased, this shirt gradually could not catch up to the speed at which his strength increased.

Even though he could look for Zhang Li and ask her to upgrade his clothes, Zhou Zhou had been busy, so he had forgotten about this.

Now that he had this Shadowless Wings, he did not have to think about the New Wind Ceremony anymore.

The Shadowless Wings was much faster than the New Wind Ceremony.

Then, Zhou Zhou looked at the Regional Token in his hand.

A text notification appeared.

[Treasure Name: Regional Token]

[Regional Name: East Demon City (Changeable)]

[Regional Grade: White Platinum-Tier]

[Area area: About 35,146 square kilometers]

[Treasure Description: The Regional Token of the East Demon City. A Lord who possesses the Regional Token and fuses it with the Territory Stone Tablet can become the Regional Lord of the East Demon City and obtain an exclusive Regional Treasure Chest!]

Zhou Zhou clicked his tongue in wonder.

As expected of a White Platinum-Tier area.

It occupied more than 30,000 square kilometers alone!

This area was already comparable to the size of some provincial cities in China.

He put away the Regional Token and took out the Spatial Teleportation skill book.

[Skill Name: Spatial Teleportation]

[Skill Quality: Special]

[Skill Description: After learning it, the user can first sense the existence of the Spatial Elemental and can control it to teleport within a certain distance. The exact distance depends on the user's strength and understanding of the Spatial Elemental.]

Zhou Zhou raised his eyebrows and his eyes lit up again.

[**Global Lord: 100% Drop Rate**](#)

Chapter 320: Zhou Zhou's Ambition

Previously, he had thought that Spatial Teleportation was only a normal displacement skill.

He did not expect this skill to be able to help people sense the existence of the Spatial Elemental.

This meant that once he mastered this skill, not only could he perform spatial displacement, he could also learn to master the mysteries of the Spatial Elements.

As long as his understanding and application of Spatial Elementals gradually deepened in the future,

Not only could he gradually teleport further away, moreover, he might be able to naturally master spatial abilities like spatial sealing, spatial stagnation, and opening space in the future without the need for the corresponding skill books.

Thinking of this, Zhou Zhou immediately learned this skill.

The skill book in his hand turned into silver light and surged into his glabella.

Soon, Zhou Zhou sensed the existence of the Spatial Elementals.

It was different from Elementals like Earth, Water, Wind, and Fire.

Professionals with some talent in spellcasting could sense these basic Elementals.

However, the Spatial Elemental was completely different.

Its existence among the many Elementals was extremely obscure. Moreover, because of the characteristics of the Spatial Elementals, these spatial Elementals would sometimes even appear in strange phenomena.

It was as if...

The Spatial Elemental was teleportation!

Even though Zhou Zhou could sense the existence of the spatial power, he still needed to focus to discover them teleporting frequently.

He sensed for a while before withdrawing from this focused state of observing Spatial Elementals.

"If you have nothing to do in the future, observe the movement patterns of these Spatial Elementals."

"My understanding of spatial Elementals should be able to gradually deepen by observing their movements."

Zhou Zhou pondered.

Then, he did not say anything else.

He sat down first and asked Wen Ya to bring him a drink. Then, he drank it while watching the live broadcast of the battle.

...

Half an hour later.

The battlefield returned to calm.

All the enemies of the Sickle Fog Mantis were eliminated.

The soldiers began to clean up the battlefield and sent the corpses to the Conqueror's Blast Furnaces to retrieve the Loots.

Zhou Zhou alighted from the spaceship.

He had just alighted from the spaceship.

He saw a large group of Sickle Fog Mantis walking towards him.

Soon, a White Platinum-Tier Advance Grade Sickle Fog Mantis Boss walked in front of him and crossed his two arm blades on his chest. He said respectfully.

"Subordinate Feng En greets my Lord."

"How many companions do you have left? How strong are you?"

Zhou Zhou looked at the Sickle Fog Mantis behind him and realized that there were at least a third fewer of them than when he had Incite Defection.

His heart sank slightly, but he asked calmly on the surface.

"After this battle, a total of 11,396 companions survived, including me."

"Among them are 4,179 Black Iron-Tier Sickle Fog Mantis, 4,796 Green Bronze-Tier Elite Sickle Fog Mantis, 1,536 White Silver-Tier Elite Sickle Fog Mantis, 881 Yellow Gold-Tier Sickle Fog Mantis Bosses, and four White Platinum-Tier Sickle Fog Mantis Bosses!"

"In addition, 8,672 Sickle Fog Mantis are all combat members of the original East Demon Army."

"The remaining 2,724 are all Professionals Subjects in East Demon City."

Feng En was already prepared for this. He immediately reported respectfully.

Zhou Zhou heaved a sigh of relief.

Fortunately, most of the people who died were Black Iron-Tier Sickle Fog Mantis.

Most of the Bronze-Tier and above Sickle Fog Mantis survived.

In particular, the four White Platinum-Tier Sickle Fog Mantis Bosses of Incite Defection had all survived.

Not bad!

"Take all the Sickle Fog Mantis combat members behind you to look for Ruoji. From now on, join the Monster Army and serve me."

"As for the Lifestyle Profession Sickle Fog Mantis, let them go back to their homes."

Zhou Zhou made arrangements.

Zhou Zhou had no intention of bringing these Sickle Fog Mantises that were originally from the East Demon City to Blazing Sun City. After all, their home was here. There was no benefit in moving back and forth. Instead, it was quite troublesome.

Since that was the case...

Let them stay here and serve him.

"Thank you, my Lord!"

Feng En was delighted and said gratefully.

Zhou Zhou acknowledged.

Soon.

All the Sickle Fog Mantis looked at Zhou Zhou gratefully as his order spread.

Zhou Zhou looked at this scene as usual.

Even though they were still enemies with each other previously,

However, he was used to this after using Incite Defection too many times.

He looked at the Sickle Fog Mantises behind Feng En and was very satisfied.

With the addition of these 11,396 Sickle Fog Mantis combat members, the total number of soldiers under his two armies had broken through again, reaching 143,256!

They were not far from the 200,000-strong army.

A moment later.

Zhou Zhou, Wu Xin, Bai Yun, and the others stood on the city wall of the East Demon City.

They looked at the dense buildings in the city wall and thought about the number of buildings in Blazing Sun City. They could not help but sigh.

Blazing Sun City was already developing very quickly.

However, it was still far inferior to an old city like the East Demon City that had been established for hundreds of years.

"If all the buildings in this city can be used, they can accommodate at least a million citizens!"

Wu Xin sighed.

Zhou Zhou and Bai Yi nodded in agreement.

"My Lord, what do you plan to do with this city? What do we need to do?"

Bai Yun asked curiously.

"This city will naturally be occupied as planned."

"However, it won't be long before the Tahan Kingdom finds out that we've occupied their East Demon City."

"It's a White Platinum-Tier city after all. Even if they have a big business, they definitely won't suffer such a loss. They'll probably send troops over soon."

"They might even send Scarlet Heroes over."

"We have to be prepared to face these incoming enemies!"

Zhou Zhou said calmly.

With his current strength, it was already enough for him to calmly face the attack of a kingdom.

After hearing Zhou Zhou's words, while Bai Yun's expression was solemn, she was not afraid at all. Instead, she was eager to give it a try.

When Wu Xin heard that the Scarlet Hero would appear, he subconsciously touched his wound.

But soon, his expression became determined.

"If a Scarlet Hero comes, I hope it's the one who injured me back then."

"I really want to fight that guy again and see who wins this time!"

He said calmly.

Zhou Zhou and Bai Yi could not help but look at Wu Xin.

In their hearts, Wu Xin was rarely moved by external matters.

To be able to say those words just now, it could be seen how much damage the Scarlet Hero had done to Wu Xin back then.

Zhou Zhou sighed inwardly.

As Wu Xin's disciple, Bai Yun understood very well why Teacher Wu Xin said these words.

After all, if not for the injuries that the Scarlet Hero had caused Wu Xin back then,

He might still be the Great General in the Aurora Kingdom.

It was not an exaggeration to say that the Scarlet Hero had shattered the future that Wu Xin had thought of back then.

The three of them chatted about East Demon City for a while. Then, Zhou Zhou thought for a moment and called Feng Luo over.

"Feng Luo."

"Return to Blazing Sun City through Auguste and bring Jing Hongzi over."

He said.

Jing Hongzi!

He was the White Platinum-Tier Advance Grade Array Master he had recruited with the Array Master Recruitment Book.

This Elder Zhang from the Immortal World's Little Sky Formation Sect had been building Spatial Teleportation Arrays for Blazing Sun City and various territories ever since he arrived.

Currently, four teleportation arrays have been built.

Among them, one was built in Blazing Sun City, one in Sand Gold City, and one beside Fish Spring Town. In addition, another was built in Zelar City, the Boss of the Ox Demons, Ah Tu.

Now that Zhou Zhou had called him over, he wanted him to build a Spatial Teleportation Array in East Demon City to transport troops and supplies so that it would be easier to fight a long battle with the Tahan Kingdom and prepare for the future attack on the Tahan Kingdom.

From now on, the East Demon City would be his springboard to attack the entire Tahan Kingdom in the future!

He would use this as an official starting point to build his own kingdom on this foreign land!
