#### **Chapter 341: The Shocking Effect of the Triumphal Arch!**

Thinking of this, Zhou Zhou immediately rushed to the location of the spatial teleportation array.

Soon.

He arrived at the location.

At this moment, Bai Yun, Wu Xin, and the others were managing the soldiers. Groups of soldiers landed from the Black Ghost above the Spatial Teleportation Array and took the initiative to arrange their formation.

100,000-odd soldiers of the Blazing Sun Army and the Monster Army had already lined up neatly in no time.

"Greetings, my Lord."

Bai Yun and Wu Xin walked over and said respectfully.

Zhou Zhou nodded slightly and looked at Wu Xin. A smile quickly appeared on his face.

At this moment, Wu Xin's hair was pitch-black, his eyes were black and white, and he was bright and energetic. There were no wrinkles on his face at all. He was full of energy, how could one say that he looked old at all?

He was clearly a young man!

Moreover, his body was filled with aura. Clearly, his previous injuries had mostly healed and his strength had recovered.

Zhou Zhou looked at Wu Xin's strength.

As expected, he realized that his strength had already recovered to Diamond-Tier Advance Grade!

This strength.

It was Wu Xin at his peak!

Zhou Zhou was quite satisfied.

A Diamond-Tier Advance Grade hero!

This strength was already enough to fight and even kill Extraordinary-Tier Normal experts head-on!

"Looks like I have to call Elder Wu Brother Wu in the future."

Zhou Zhou said deliberately to Wu Xin.

"My Lord, if you want to call me that."

Wu Xin laughed heartily.

Then, he cupped his fists and said respectfully.

"Thank you, my Lord, for the Blood Honey Royal Cake."

"That pastry is really magical."

"Not only is it delicious, but it can also make an old man like me return to my youngest peak."

Wu Xin sighed with emotion.

Originally, when he first came to Blazing Sun City, he only wanted to use this place as a retirement place.

He did not expect to recover his youth.

With this kindness, he naturally could not still harbor the thoughts of retirement he had in the past.

Otherwise, he would feel that he had let his Lord down.

Zhou Zhou nodded and asked,

"Brother Wu, how are your injuries?"

Since Wu Xin himself agreed, Zhou Zhou would really call him Brother Wu.

Moreover, it would be a little awkward for him to address a young man as Elder Wu.

"It's basically healed."

"I should completely recover after eating the medicine left behind by the divine medicine doctor, Lu Cai'er."

"When the time comes."

"I can obtain promotion energy normally and advance my strength."

Wu Xin sighed.

Previously, he could not even obtain promotion energy to advance by killing fog monsters because of the injuries in his body.

Now, after his injuries completely recovered,

He could continue to advance again.

Zhou Zhou acknowledged.

He was looking forward to it.

Wu Xin was now at Diamond-Tier Advance Grade.

Once he advanced again, he would have the standard combat strength of an Extraordinary-Tier Hero!

In other words, it was a top-notch Kingdom-level combat power!

When the time comes...

Even if the Tahan Kingdom sent Extraordinary-Tier heroes over,

Wu Xin could also rely on his own strength to fight it alone!

"How's the situation in Kingdom Beginning City? Did the Tahan Kingdom send troops over?"

"Not yet."

Bai Yun shook her head.

"Don't let your guard down."

"Kingdom Beginning City was once one of the important territories of the Tahan Kingdom. The Tahan Kingdom won't give it up so easily."

Zhou Zhou said.

"Yes!"

Bai Yun and Wu Xin said respectfully.

Zhou Zhou acknowledged.

"You just got back and don't know yet."

"Elder Zhao has already built the Triumphal Arch."

He turned around and smiled.

The two of their eyes lit up.

The two of them had long heard about the Triumphal Arch from Zhou Zhou. They knew the effect of the Triumphal Arch and had been thinking about when it would be built.

Now, it was finally built.

"Bring the soldiers and follow me through the Triumphal Arch outside the city gate!"

Zhou Zhou said in a low voice.

"Yes!"

Bai Yun and Wu Xin were filled with anticipation. Then, they immediately led the soldiers out of Blazing Sun City and arrived in front of the Triumphal Arch.

Everyone looked up at this building of the Race and praised its majesty in their hearts.

Zhou Zhou was no exception.

Even though he had already seen it yesterday.

However, it was nighttime at that time. The night more or less affected the feeling it gave off.

The sunlight during the day shone on the surface of this building, making the Triumphal Arch look like a god or a saint, making it look even more eye-catching.

As the Lord of Blazing Sun City, Zhou Zhou was the first to walk into the Triumphal Arch.

Unfortunately, perhaps because he had just advanced to the Yellow Gold-Tier Elementary Grade and the promotion energy in his body had yet to accumulate to 80%, he did not trigger the 50% chance of directly obtaining the promotion energy that was lacking and directly obtaining the strength to break through.

However, Zhou Zhou did not mind.

He turned around and looked at the more than 100,000 soldiers behind him, asking them to start walking into the Triumphal Arch.

The time limit for the Triumphal Arch was one month.

Which meant...

As long as he and his Military Professionals Subjects passed through the Triumphal Arch within a month after returning victorious from the battle, there was a chance of triggering the construction Effect of the Triumphal Arch.

If more than a month passed...

There was no way to trigger it.

It was less than 24 hours since he took down Kingdom Beginning City and the other regional territories yesterday. He could naturally trigger the Triumphal Arch.

Soon.

The first 1,000 soldiers walked in front of the Triumphal Arch and walked past it with anticipation and nervousness.

Just as they passed the Triumphal Arch.

auras continuously erupted from these soldiers immediately.

These soldiers felt their strength and realm slightly and were immediately overjoyed.

"I've broken through to the Green Bronze-Tier Intermediate Grade!"

"I'm already a Yellow Gold-Tier Advance Grade!"

"My strength has also broken through to the White Silver-Tier Elementary Grade!"

"I... I'm White Platinum-Tier Elementary Grade!!!"

...

Many of the soldiers cheered.

However, they were very disciplined. Even though they were happy about the breakthrough, they did not do anything overboard. They obediently passed through the Triumphal Arch and stood neatly in the distance, waiting for the other brothers to trigger the Triumphal Arch.

Teams of 1,000 soldiers passed through the Triumphal Arch, accompanied by more soldiers breaking through.

Half an hour later.

All the soldiers walked through the Triumphal Arch.

Even Auguste, Maris, Wu Xin, and Bai Yun made a trip.

In the end, only Nezario did not pass through the Triumphal Arch.

Zhou Zhou and the others looked over.

Nezario slowly flew to the Triumphal Arch and flew over without hesitation.

The next second.

An invisible airwave erupted from its body and swept in all directions.

Then, surging and scorching fire elemental energy spewed out of its body.

In the blink of an eye.

The world turned fiery red.

Everyone could vaguely see that there seemed to be an illusory reflection in the sky.

In the illusory reflection, a Fire Mountain Range appeared.

In the middle of the Fire Mountain Range was an extremely tall active volcano.

The hot and sticky magma flowed inside and outside the volcano, revealing a bright red color.

In the center of the active volcano, there was also Nezario bathing in magma.

At this moment, changes happened again.

Hundreds of fire elemental rivers that looked like large rivers were born out of thin air.

Then, they surged into Nezario's body like rivers returning to the sea.

During this process, Nezario's aura became more and more astonishing, and its body was rapidly growing.

200 meters... 300 meters... 400 meters... 500 meters...

In the end, Nezario's body grew from more than 120 meters to more than 570 meters before stopping!

It threw its head backwards and roared towards the sky, as if announcing to the world that it had become stronger again.

**Chapter 342: Nezario's Advancement! Proof of Legion!**

A text notification appeared in front of Zhou Zhou.

[Congratulations, your pet, Dragon King Of Volcano and Destruction, has broken through to the White Platinum-Tier Elementary Grade!]

[The Dragon King Of Volcano and Destruction's Magma Dragon Breath has been strengthened!]

[The Dragon Might of the Dragon King Of Volcano and Destruction has been strengthened!]

[The Dragon King Of Volcano and Destruction has comprehended the growth-type Draconic Spell, Extraordinary-Tier Fire Elemental Control, from Draconic Magic Mastery!]

[The Dragon King Of Volcano and Destruction has comprehended the growth-type Draconic Spell, Meteorite Descent, from Draconic Magic Mastery!]

[The Dragon King Of Volcano and Destruction has awakened 'Summoning Magma Dragon Slave' from the Inheritance of the Dragons!]

[The Dragon King Of Volcano and Destruction has awakened the Volcano Territory from the Inheritance of the Dragons.]

[The Dragon King Of Volcano and Destruction's Epic-Tier Elemental Immunity and Epic-Tier Physical Immunity Awakening Rate has increased from 30% to 50%!]

"Nezario has also advanced."

Zhou Zhou could not hide the joy on his face.

Nezario had always been the strongest combatant under his command, and he was also a hero with a Low-Tier Deity Level Hero Fate Level slot.

It had broken through to the White Platinum-Tier Elementary Grade!

Its combat strength was probably comparable to or even surpassed those Normal Race heroes at the Extraordinary-Tier.

At this moment.

Nezario flew over and expressed its intimacy and excitement to Zhou Zhou.

The surrounding people looked at this 500-meter-tall behemoth with surprise in their eyes.

Many people could not help but feel fear in their eyes.

No choice.

It was too big!

A 'mountain' suddenly landed beside them with a bang. Who wouldn't be afraid?

Fortunately, they all knew that Nezario was one of them, so even though they were a little afraid, they did not flee in all directions.

Zhou Zhou could not help but smile when he saw how excited Nezario was.

He flew up and came in front of Nezario, touching its forehead.

"You'll be even stronger in the future."

Zhou Zhou smiled.

Nezario growled in agreement.

...

After a while.

Bai Yun walked over with a list.

"My Lord."

"This is the specific data of this soldier's breakthrough."

"Please take a look."

She handed the list to Zhou Zhou.

Zhou Zhou took it and looked at it.

This trip to the Triumphal Arch.

Other than Nezario's breakthrough, there were also 21,345 people who had advanced to the Black Iron-Tier Intermediate Grade and Black Iron-Tier Advance Grade!

32,341 people advanced from Black Iron-Tier to Green Bronze-Tier!

23,659 people advanced to White Silver-Tier!

10,023 people advanced to Yellow Gold-Tier!

1,196 people had broken through to White Platinum-Tier!

He now had a total of 143,256 soldiers under his command.

Among them, there were 35,061 Black Iron-Tier soldiers!

There were 43,464 Bronze-Tier soldiers!

38,672 White Silver-Tier soldiers!

24,739 Yellow Gold-Tier soldiers!

and 4,008 White Platinum-Tier soldiers!

Zhou Zhou nodded in satisfaction.

The Effect of this Triumphal Arch was really not bad.

It was almost comparable to the effect of the Monster Ranch.

Then, he led his men to clean up the Time Ruins, went to the Golem Lair to recruit 126 golems for the day, and finally led his men to farm the Monster Ranch.

After spending half an hour using 10 Conqueror's Blast Furnaces to retrieve the Loots,

With the effect of the Perfect Loots and his titles:

Other than the +1 Quality monster flesh, skill books, potion formulas, equipment, materials, Fire Demon Fog Wolf outfits, vitality potion, Jade Sun Tree Seed, and other items,

He obtained a total of 226,479 Green Bronze-Tier Mist Cores, 91,233 White Silver-Tier Mist Cores, 57,326 Yellow Gold-Tier Mist Cores, and 18,369 White Platinum-Tier Mist Cores!

102,312 soldier type Class Change Certificates!

4,013 Sword Shield Soldier Recruitment Books!

4,112 Pudaos Soldiers Recruitment books!

4,321 Poison Crossbow Soldier Recruitment books!

384 Elemental Archer Recruitment Books!

13,169 Aurora Cavalry Recruitment books!

17,500 Violent Storm Spirit Recruitment Books!

17,500 Violent Storm Spirit Class Change Certificates!

23,800 Wind Element gems! 23,800 Thunder Elemental gems!

30 Proof of Legion fragments!

60,983kg of Light Drawing Crystals!

3,500 Tree Core Gems! (Green Bronze-Tier, White Silver-Tier, Yellow Gold-Tier, White Platinum-Tier)

21,301 True Faith-Tier Scarlet Crystals! 10,963 Pious-Tier Scarlet Crystals! 7,912 Fanatic-Tier Scarlet Crystals!

Six White Platinum-Tier and Yellow Gold-Tier mount contracts!

In addition, the soldiers had already used the Triumphal Arch to break through.

Therefore, there were not many things that allowed his strength to break through again after cleaning up the Monster Ranch.

Even so, 30,000 to 40,000 people had also been promoted.

Even though they were all Black Iron, Green Bronze, and White Silver-Tier soldiers, it was already very good.

Zhou Zhou's gaze landed on the recruitment books and he could not help but nod in satisfaction.

Another 43,499 recruitment books were thrown into the Gate of Summoning and he obtained 43,499 new recruits!

Just one more day before the soldiers under him would officially break through to 200,000!

No.

Perhaps he would not need to wait until tomorrow.

Zhou Zhou thought of his agreement with Li Ya.

He would be going to the main battlefield of the Tahan Kingdom and the Aurora Kingdom with Li Ya.

At that time, as long as he found an opportunity to use Incite Defection on the main battlefield once and instigate 10,000 to 20,000 fog monsters,

the soldiers under him would be able to break through to 200,000!

Thinking of this, Zhou Zhou wished he could look for Li Ya immediately.

However, he quickly calmed down.

"I'm not done with the territory yet."

He thought.

Then, Zhou Zhou called Bai Yun over and handed the 43,499 recruitment books to her, asking her to bring people to recruit new soldiers.

He took out the 102 Proof of Legion fragments he had accumulated in the past three days.

He looked at the fragments.

A text notification appeared.

[Do you want to fuse?]

"Fuse!"

Zhou Zhou said without hesitation.

The next second.

The 100 fragments of the Proof of Legion suddenly emitted a faint white light, enveloping all the fragments.

After a long time.

The white light dissipated.

A red certificate and two fragments of the Proof of Legion appeared in Zhou Zhou's hand.

Zhou Zhou looked at the red certificate.

[Treasure Name: Proof of Legion]

[Treasure Grade: Extraordinary-Tier Advance Grade]

[Treasure Effect: Certificate to establish an official army. You can use this to create an official Kingdom-level army formation and activate the Enhanceable army buff effect!]

[Treasure Description: Certificate to establish an official Kingdom-level army. In the High Continent, only kingdoms with official Kingdom-level armies are qualified to establish themselves among many Kingdom-level forces and compete for supremacy.]

[Do you want to use the Proof of Legion?]

Zhou Zhou took a few more curious glances and said,

"Use."

The next second.

The Proof of Legion in his hand instantly disintegrated into countless light spots and condensed a line of red words in front of him.

[Please confirm the Name of your Kingdom-level army:]

"Blazing Sun Army."

Zhou Zhou thought for a moment and said.

As for the Monster Army, he would think about it the next time he saved up a second Proof of Legion.

[The army Name, Blazing Sun Army, has been confirmed.]

[Please confirm the Legion Commander, Deputy Commander, Logistics Chief, Machinery Chief...]

More than 20 military positions appeared in front of Zhou Zhou.

However, Zhou Zhou did not panic.

As a Lord, he naturally knew the basic information of his army.

He calmly filled in the gaps one by one.

After confirming, a text notification appeared.

[You have created your Black Iron-Tier army!]

[Lord—The army function has been officially activated!]

[Black Iron-Tier Army Enhancement 'Braveness' has been activated!]

[You can increase the level of your army by collecting Battle Points, thereby obtaining higher-level army buffs and other army benefits!]

[\*\*Global Lord: 100% Drop Rate\*\*](#)

**Chapter 343: Function Of A Kingdom-Level Army! Zhou Zhou's Surprise!**

"Army function? Legion Enhancement?"

Zhou Zhou was curious.

He searched and quickly found the army function panel beside the Lord Battlefield icon.

Zhou Zhou opened it.

Soon, an army green interface appeared in front of him.

It showed many functions.

This included the basic information function of the army, the military merit system function, the army warehouse function, the army buff function, the army battle point function, and more than 10 other functions.

Zhou Zhou looked at the basic information panel and realized that it was exactly the same as the basic army information he had just set. Other than that, he could also search for the specific information of any member of the Blazing Sun Army on this panel. He no longer needed to find this person before he could see his information.

This was undoubtedly much more convenient for him.

Then, he looked at the military merit system.

In the end, he was pleasantly surprised to discover that this military merit system was actually similar to the military merit exchange system currently implemented in his territory.

All members of the Blazing Sun Army could record their military merits through this military merit system. They could even record in real time how many enemies they had killed on the battlefield and how many military merits they had obtained.

He could even specially issue military merit quests to a certain unit or a specific soldier of the army through the military merit system. As long as he completed the mission, he could distribute military merits in real time.

As for how to use the military merits, it was very simple.

Soldiers could apply to increase their army titles by consuming military merits. They could even directly exchange for military merit items.

As for where the items came from?

That would involve the function of the army warehouse.

The higher-ups of the army could store items in the army warehouse.

Then, the soldiers could spend military merits to exchange for the items in the army warehouse.

This was also much more than the items needed by the soldiers to look for military officials and then go to the warehouse to exchange for soldiers.

Then, Zhou Zhou looked at the army buff.

At this moment, there was only a lone Black Iron-Tier army inside.

The other buffs were still in an inactive state and could only be activated by increasing the level of the army.

Zhou Zhou looked at the buff.

[Army Enhancement: Courage]

[Buff Level: Black Iron-Tier]

[Buff Effect: Your legionaries will be even braver when fighting on the battlefield. At the same time, your overall strength will receive a 10% enhancement.]

Zhou Zhou clicked his tongue.

Let's not talk about whether he was brave or not for now.

It was already very strong for his overall strength to obtain a 10% enhancement.

It involved an entire army's group buff after all.

Most importantly, this was only the Black Iron-Tier Courage Enhancement.

What happened next?

When the Blazing Sun Army became a Green Bronze-Tier, White Silver-Tier, and even a Mythical-Tier army, this enhancement would probably increase to a terrifying level.

Zhou Zhou opened the army's battle point function panel as he thought.

He looked at the words displayed at the top.

[Blazing Sun Army (Black Iron-Tier Army)]

[Current maximum number of soldiers accommodated: 167,886/1 million]

[Current Battle Points: 0/100]

[Prompt: You can obtain the corresponding battle points by completing the battle. When there are enough battle points, you can increase the level of the army and unlock more army functions.]

Zhou Zhou was deep in thought.

Did he have to complete a specific battle to obtain Battle Points?

That was easy.

After the Lord Battlefield event was over, he could send the Blazing Sun Army to conquer other ownerless territories to give it a try.

He just did not know how the specific battle points were distributed.

He did not think too much about it and continued to look at the other branch functions of the function of the army.

Zhou Zhou was quite satisfied after reading them all in detail.

This army interface was indeed a function that could become a fixed Lord option.

It was indeed powerful to increase the combat strength and efficiency of the soldiers under the Lord!

Not to mention anything else.

The military merit function alone could greatly increase the efficiency of their army and the combat strength of the soldiers.

It could be said that...

An army without an official army was completely different from an army with an official army.

At this moment,

Bai Yun and Wu Xin quickly walked over.

"My Lord, we just..."

Bai Yun was about to speak when she saw Zhou Zhou smile.

"Did you discover that you have your own army interface?"

"Yes! The Supreme Will Notification said that I'm now the Legion Commander of the Blazing Sun Army."

"And Teacher is the Deputy Commander of the Blazing Sun Army."

"In addition, we also asked the other soldiers of the Blazing Sun Army and realized that they also have their own army interface."

Bai Yun was slightly excited.

Wu Xin, who was beside him, was no exception.

Both of them were smart.

He naturally knew that the appearance of this army interface was extremely beneficial to the development and future potential of the Blazing Sun Army.

"I have just obtained an official Kingdom-Level army structure for our Blazing Sun Army through a treasure called the Proof of Legion."

"In the future, our Blazing Sun Army will be an official Kingdom-level army recognized by the Supreme Will."

Zhou Zhou smiled.

"Proof of Legion?"

Bai Yun was still a little surprised that there was actually a magical treasure like the Proof of Legion.

Wu Xin was already exclaiming.

He looked at Zhou Zhou with a complicated expression.

Then, he smiled bitterly and said.

"Sometimes, I really feel that my Lord is protected by the Supreme Will."

"In the past, when I was working in the Aurora Kingdom, His Majesty the King at that time always wanted to form an official Kingdom-level army for his army."

"But he couldn't achieve it."

"Therefore, when I was in office, I never knew what an official Kingdom-level army was. I only heard the Diplomacy envoys of other countries mention it."

"I didn't expect the Lord to do something that the Aurora Kingdom's dozen Kings haven't been able to do for hundreds of years in just half a month."

Zhou Zhou was a little surprised.

The Aurora Kingdom actually didn't even have an official Kingdom-level army?

Really?

He thought for a moment and understood.

Well, to obtain something like the Proof of Legion.

Not only did he need a designated monster that would drop the fragment of the Proof of Legion, but he also needed an excellent drop rate.

He had a Mythical-Tier Lord Talent like the King of Loots. It took him three days to barely collect 100 fragments of the Proof of Legion and fuse them into an official Kingdom-level Proof of Legion.

It was naturally very difficult for the Aurora Kingdom to have a Proof of Legion and establish an official Kingdom-level army of its own when they had nothing.

He didn't say anything else on the matter and said.

"We have an official army at the moment."

"Bai Yun, Wu Xin."

"Make the best use of your time to send people to record our military merit system into the army's functions. Then, exchange military merits for items to fill the army's warehouse."

"Let's strive to let the soldiers enjoy the benefits of the Legion panel as soon as possible."

Zhou Zhou said.

"Yes, my Lord!"

The two of them said excitedly.

At this moment, they were looking forward to what the Blazing Sun Army would become in the future.

"By the way, my Lord."

"I've just recruited all the new recruits."

"There are a total of 186,893 soldiers in the Blazing Sun Army and in the Monster Army!"

Bai Yi reported.

Zhou Zhou acknowledged.

With another 13,000 soldiers, his soldiers would officially exceed 200,000.

Thinking of this, he immediately looked forward to it.

[Global Lord: 100% Drop Rate](#)

**Chapter 344: 2.2 Billion Black Iron-Tier Mist Cores!**

Then, the three of them chatted about the development of the army for a while before Bai Yun and Wu Xin left to prepare for the Lord Battlefield event later.

Zhou Zhou opened the Marketplace and set up a transaction after they left. He then took out 100,000 soldier type Class Change Certificates and excess materials, skill books, equipment, and other items from the loots he had obtained from the Monster Ranch before he directly announced the transaction.

Then, he looked at the other two transactions.

The first transaction was the one Zhou Zhou had set up to collect building materials to build the Blood Jade Wasp Emperor Beehive.

Zhou Zhou took a look and smiled.

After spending more than a day, the collection was finally completed.

All the corresponding building materials cost a total of 81 Extraordinary-Tier Mist Cores!

Zhou Zhou nodded slightly.

Then, he felt his balls ache.

The materials were not very expensive.

However, the key was that he still needed another 10,000 Diamond-Tier Mist Cores.

That was a total of 10,000 Diamond-Tier Mist Cores!

It was already equivalent to 10 Legendary-Tier Mist Cores.

It was not even enough to empty Zhou Zhou's pockets if he wanted to build it.

However, he really wanted to build the Blood Jade Wasp Emperor beehive.

This special building could steadily produce rare dessert resources like the Blood Honey Royal Jelly and the Blood Honey Royal Cake that could restore one's youth after all.

Many Professionals in his territory were already old but talented.

They really needed a treasure like the Blood Honey Royal Cake.

Therefore, if the Blood Honey Royal Cake could be produced steadily, it would be very important to the talents in Zhou Zhou's territory.

As for using the Monster Ranch to nurture the Red-Eyed Blood Wasps and produce the Blood Honey Royal Cake, it was temporarily impossible.

This was because the Monster Ranch was only at the Yellow Gold-Tier Intermediate Grade.

If he wanted to produce Blood Honey Emperor Cake that could only be produced by the Diamond-Tier Intermediate Grade Blood Jade Wasp Emperor, he had to at least reach the White Platinum-Tier Intermediate Grade in Monster Ranch.

This would definitely not be achieved in a short period of time.

Therefore, he still had to pin his hopes on the Blood Jade Wasp Emperor Beehive.

Thinking of this, Zhou Zhou placed his hopes on the second deal.

This transaction was also set up by him yesterday.

At that time, he had placed a total of 500,000 skill books and 500,000 pieces of equipment in this transaction.

After more than a day of selling, Zhou Zhou had yet to see the specific transaction results even though the items had been sold out.

Thinking of this, he looked at the transaction results expectantly.

[2,221,208,550 Black Iron-Tier Mist Cores!]

His eyes widened.

Oh my god?!

More than 2.2 billion Black Iron-Tier Mist Cores?!

Wasn't that equivalent to 22 Legendary-Tier Mist Cores?

This was the most he had ever made on a single transaction.

The Blood Jade Wasp Emperor Beehive?

Construct!

Just construct it!

Zhou Zhou was pleasantly surprised.

The 500,000 skill books and 50 equipment did not disappoint him.

Zhou Zhou immediately went to the warehouse and threw all the building materials he had bought from the Marketplace into it.

Then, he spent 1.1 billion Black Iron-Tier Mist Cores to create 11,000 Diamond-Tier Mist Cores through the Heavenly Mist Treasure Bag.

Then, he sent Zhao Changshou over and prepared to tell him the supplies in the warehouse. Then, he would hand the Blood Jade Wasp Emperor beehive blueprint to him and let him do whatever he wanted.

Even though this Blood Jade Wasp Emperor Beehive Blueprint was a special Diamond-Tier Intermediate Grade building blueprint,

Zhao Changshou had already become a Diamond-Tier Advance Grade architect.

It could naturally be built.

Soon.

Zhao Changshou came over.

Having already consumed the Blood Honey King Cake, his physical state and face had already returned to their youngest peak state.

At this moment, his eyes were bright and he was full of energy.

It was as if he had really returned to his former young self.

After Zhou Zhou told him what had happened, Zhao Changshou immediately looked pleasantly surprised.

He was just worried about how to break through to the Extraordinary-Tier Elementary Grade Architect bottleneck.

I didn't expect the Lord to give me a Diamond-Tier Intermediate Grade special building construction Quests.

Even though the Blood Jade Wasp Emperor Beehive was only a Diamond-Tier Intermediate Grade special building, be it the uniqueness of the special building or its nature as a building of the people of foreign race, it could allow Zhao Changshou to draw parallels and find the key to breaking through to become an Extraordinary-Tier Elementary Grade architect.

To Zhao Changshou, wasn't this giving him a pillow as soon as he fell asleep?

He looked at Zhou Zhou with shining eyes.

At this moment, there was only one thought in his mind.

The Lord was indeed a benefactor in his life!

"My Lord, leave it to me."

"I'll definitely complete this mission."

Zhao Changshou said respectfully.

"I believe in Elder Zhao."

Zhou Zhou said seriously.

Zhao Changshou had made many contributions to the development of his territory.

Many buildings in the territory, including the Imperial Ancestral Temple, were built by him.

In addition, the other party was his dead loyal subject.

He was naturally willing to believe him.

Zhao Changshou was even more touched.

To be able to hand such a huge project and resources to him without reservation.

It could be seen how much trust the Lord had in him.

He could not let down the Lord's trust in him.

Zhao Changshou said firmly to himself.

The two of them chatted for a while.

After Zhao Changshou left, Zhou Zhou happened to realize that the deal he had just announced about the Loots from the Monster Ranch had been completed.

That was fast.

He was slightly surprised.

Then, he looked at the transaction results.

[Results: 350,212,961 Black Iron-Tier Mist Cores!]

Zhou Zhou nodded in satisfaction.

He obtained another 3.5 Legendary-Tier Mist Cores.

He extracted all the Mist Cores from the Marketplace and placed them in the Heavenly Mist Treasure Bag.

Then, he checked the Heavenly Mist Treasure Bag and calculated how many Mist Cores he had now.

In the end, he realized that if all of them were converted into Legendary-Tier Mist Cores, he still had about 32 of them!

Zhou Zhou nodded slightly, finally feeling confident again.

Money emboldens people!

Our ancestors did not lie to me.

Then, he walked towards the Lord Shop.

...

In front of the Lord Shop.

"Old Zhou."

"I'm here to buy something."

Zhou Zhou said to Old Zhou, who was reading the newspaper.

He felt a little strange.

Yesterday, Old Zhou was still doing his needlework. Today, he began to read the newspaper that had the aura of the Cerulean Planet...

He shook his head.

Forget about the strange feeling in his heart.

There was also a film hall and a game hall in his Lord Manor.

Especially in the gaming hall, where even a game like Super Mario could be played.

Compared to that, reading the newspaper was nothing.

"You're here."

Old Zhou put down the newspaper and walked over slowly.

He went to the counter and took out four black boxes from under it.

Zhou Zhou knew that in one of the boxes was the Blazing Explosion that he had not bought last time.

Zhou Zhou did not know what was in the other three boxes for the time being.

Old Zhou did not hesitate and opened the three boxes, revealing the goods inside.

The first box contained a golden card that displayed a faceless life form.

There was a purple jade in the second box.

Zhou Zhou was very familiar with this purple jade.

It was a commodity that officially represented talent.

Zhou Zhou had even used it to awaken the top talent, the Celestial Appearance, yesterday.

He did not know what talent today's Talent Goods was.

There was still a skill book in the third box.

Zhou Zhou looked at the specific information of the three goods.

**[Global Lord: 100% Drop Rate](#)**

**Chapter 345: Talent - Eye of Time! Elementary Grade Kingdom And Intermediate Grade Kingdom!**

Zhou Zhou first looked at the faceless life form's golden card.

[Treasure Name: Specified Subject Commodity Card]

[Treasure Grade: Special-Tier]

[Treasure Effect: After using it, you can specify an ability, talent, bloodline, equipment, and other things owned by a Subject to appear in the Lord Shop the next day as a commodity!]

[Treasure Description: A special item from the Mythical-Tier— Unique Lord Talent—Lord Shop. It has the mystical ability to obtain the goods of a designated Subject.]

Zhou Zhou's heart skipped a beat when he saw this product.

This designated Subject Commodity Card was very useful.

The first thing he thought of was the five top-notch talents that Xiao Xuan had.

Talent - Nine Apertures Heavenly Heart! Talent - Celestial Appearance! Talent - Immortal Martial Sacred Body! Talent - Blessing of the God of Fortune! Talent - Danger Prediction!

He had already obtained the talent—Celestial Appearance and had already experienced its effect.

It had to be said...

Even though it did not look very useful, the personal experience was really good.

If he could obtain Xiao Xuan's other four talents, it could be said that he was not inferior to obtaining a Legendary-Tier Lord Talent.

Thinking of this, Zhou Zhou immediately made a decision.

No matter how expensive this designated Subject Commodity Card was...

He had to buy it!

However, even though he thought so, he did not buy it immediately. Instead, he looked at the Talent Crystal.

[Talent - Eye of Time]

[Talent Effect: Creatures with this talent have a special ability given to them by the River of Time. When observing ancient things, there is a certain chance of seeing some traces of time left on their bodies.]

"It's actually this talent?"

Zhou Zhou raised his eyebrows

Wasn't this a talent that Archaeologist Gu Bo had?

The last time he went to the Kingdom of Eternal Silence, the scene of Gu Bo using this talent left a deep impression on him.

At some special moments, this talent might actually have an unexpected effect.

He could also buy this.

Zhou Zhou nodded to himself.

Then, he looked at the last skill book.

[Skill Name: Flesh Preservation]

[Skill Quality: Gradeless]

[Skill Description: It can keep the flesh of a life form fresh for a long time. It can also prevent the corpse from turning into fog and dissipating for seven days.]

Zhou Zhou: "..."

Sh\*t.

Zhou Zhou cursed in his heart.

Wasn't everyone under his command good with this Skill?!

Why did he give him such a trash Skill?

However, thinking of what Old Zhou had said yesterday, Zhou Zhou gradually calmed down.

Yesterday, Old Zhou said that at least one good that was useful to the Lord would appear out of the two to three goods that would be refreshed every day.

Two of the three goods were useful to him now. It could be said to be very good.

He shook his head and stopped thinking about it. He looked up and asked,

"Old Zhou, how much are these two goods worth?"

He pointed at the cards and Talent Crystals.

"The designated Subject Commodity Card is worth 10 Legendary-Tier Mist Cores and one Legendary-Tier Territory Token."

"The Talent Crystal is worth five Epic-Tier Mist Cores and two Epic-Tier Territory Tokens."

Zhou Chengmin looked at the two goods and chuckled.

The corners of Zhou Zhou's mouth could not help but twitch.

It was really f\*cking expensive.

However, he still did not hesitate and took out 11 Legendary-Tier Mist Cores and seven Epic-Tier Mist Cores and handed them to the other party.

"Thank you for your care."

Zhou Chengmin took them with a smile and handed the two goods to Zhou Zhou.

Zhou Zhou did not say anything else after taking it. He turned around and left.

"Come visit often when you're free!"

Zhou Chengmin's voice sounded from behind.

"Let's talk about it with the Mist Core."

Zhou Zhou's face twitched.

This transaction directly shrunk his assets by another third.

This Lord Shop was indeed a huge source of spending.

He returned to his Lord Manor and took out these two goods.

Then, he first looked at the designated Subject Commodity Card.

A text notification appeared.

[Do you want to use it?]

"Use."

Zhou Zhou thought to himself.

[Please choose the Subject goods you want to specify:]

Zhou Zhou entered [Xiao Xuan] [Talent - Danger Prediction].

After entering it, he heaved a sigh of relief.

He naturally wanted all four of Xiao Xuan's other talents.

However, there was only one Subject Commodity Card. He had to choose from these four talents.

Talent—Immortal Martial Sacred Body and Talent—Blessing of the God of Fortune. Zhou Zhou, as a Lord, would not often take action personally, so he was temporarily not of much use.

Even though the latter looked good, Zhou Zhou had the Lord Talent, King of Loots. The effect more or less overlapped with the Blessing of the God of Fortune.

Therefore, there was no need to buy it for the time being.

Talent—The Nine Apertures Heavenly Heart could allow life forms' comprehension to reach the extreme. They could easily master any knowledge and ability. They could even draw inferences and master more knowledge and abilities.

Zhou Zhou was very tempted.

However, it was slightly inferior to the talent—Danger Prediction.

No matter what, Zhou Zhou's need for life-saving abilities was his number one priority.

Therefore, he chose Xiao Xuan's talent without much hesitation.

At this moment.

A text notification appeared.

[You have chosen Subject—Xiao Xuan's talent— Danger Prediction.]

[This talent will appear in the Lord Shop tomorrow as a commodity. Please buy it in time.]

Zhou Zhou nodded slightly.

He looked at the Talent Crystal of the Heart of Time, picked it up, and used it directly.

The next second.

The purple jade turned into wisps of hazy purple mist and fused into his glabella.

Right on the heels of that.

Zhou Zhou felt that his perception seemed to have suddenly become more subtle. He seemed to be able to see something deeper from them.

However, this observation ability was not of much use when looking at some Normal items.

This was because there was no ancient history on these Normal items.

Only when he observed some ancient items did his Eye of Time have a chance of seeing some traces of time left on their surface.

Zhou Zhou thought for a moment and took out a Diamond-Tier territory fusion certificate from his Spatial Ring.

This territory fusion certificate had been preserved in the Aurora Kingdom for hundreds of years. The Eye of Time should be able to see some traces of time.

After observing carefully for a while.

Suddenly, an illusory image appeared from the territory fusion certificate.

It was an old human Elder One.

At this moment, he was wearing a golden royal robe and looking at the Diamond-Tier territory fusion certificate in his hand.

At this moment, a young voice sounded.

"Father, what are you looking at?"

A little boy in a royal robe ran over and hugged the Elder One's thigh. He looked at him curiously.

"Yuangan is here."

"Father is looking at this Diamond-Tier territory fusion certificate."

"With this Diamond-Tier territory fusion certificate, our kingdom might be able to fuse two more Extraordinary-Tier regional territories in the future."

"At that time, our kingdom will be able to advance from a Beginner Kingdom to an Intermediate Grade Kingdom."

Towards the end.

The old man's eyes were filled with anticipation and ambition.

Even though he was old, the fire of ambition remained ignited within him.

The little boy nodded in confusion.

After that, the two of them started chatting again.

However, Zhou Zhou could no longer hear what they were saying. At the same time, the image began to gradually fade before completely disappearing.

"Yuangan?"

"Isn't that the name of Li Ya's father, the current King of the Aurora Kingdom?"

"This is actually the scene of Li Yuangan's time when he was young."

"In addition, it seems that the ability of the Eye of Time is also limited."

"I can't keep watching."

"That's true."

"If I can really keep looking, it won't be called the Eye of Time. It can be called the Divine Eye of Time."

Zhou Zhou thought.

Then, he put away the Diamond-Tier territory fusion certificate while deep in thought.

Then, he put away the Diamond-Tier territory fusion certificate while deep in thought.

"It seems that after advancing to a kingdom, advancing to an Empire can't be done overnight. Instead, it has to be done step by step."

"The number of Extraordinary-Tier territories should be one of the important conditions to increase the level of the kingdom."

Zhou Zhou summarized his gains and losses.

This time, he had gained something from using the Eye of Time.

Then, he took out some items that might have an ancient aura from his Spatial Ring.

[Global Lord: 100% Drop Rate](#)

**Chapter 346: Talent With Reputation Rating— Lu Sheng! Aurora Kingdom Artillery!**

Some of these items could trigger the Eye of Time, while others could not.

But in general, Zhou Zhou still felt good using this new talent.

After this curiosity passed, he stopped using the Eye of Time reluctantly.

He could not play anymore.

He still had business to do.

Zhou Zhou reminded himself.

He first found Xiao Xuan, then brought him to Zheng Yuanqi and told him about Xiao Xuan's problem. He hoped that he could take some time out every day to teach Xiao Xuan and let him understand more about how to do things.

Towards this, Zheng Yuanqi had always liked Xiao Xuan, a child with Celestial Appearance. He immediately agreed with a smile.

Seeing that Zheng Yuanqi had agreed, Zhou Zhou also took out his school fees.

They were two portions of Blood Honey King Cake!

After Zheng Yuanqi consumed it, not only could he recover his youth, but he could also increase his basic lifespan by 10 years and four additional years.

After Zheng Yuanqi found out, he immediately felt that this thing was too precious and was unwilling to accept it.

After declining many times.

Zheng Yuanqi only accepted this gift seeing that his Lord was determined.

"In the future, I'll leave this kid to you, Elder Zheng."

Zhou Zhou smiled.

"Just leave it to me."

"I promise I won't disappoint you, my Lord."

Zheng Yuanqi nodded seriously.

Zhou Zhou smiled and looked down at Xiao Xuan.

"Learn from Elder Zheng."

"Don't be naughty with Elder Zheng."

"No!"

Xiao Xuan immediately swore.

Zhou Zhou nodded slightly.

After that, he left without staying any longer.

"His Lordship is so good to you."

"You have to repay my Lord well in the future."

Zheng Yuanqi turned to Xiao Xuan and said seriously after the Lord left.

"I was born without parents. Why don't I acknowledge my Lord as my father?"

"I'll be called Zhou Xuan from now on."

Xiao Xuan had an idea.

Zheng Yuanqi was caught between laughter and tears.

However, there was also a trace of love in his gaze when he looked at Xiao Xuan.

An orphan eh...

What a pitiful child.

Thinking of this, he immediately felt that he had to teach this child well.

...

On the other side.

Zhou Zhou had just found Bai Yun and the others and was about to carry out Lord Battlefield activities when a soldier suddenly came to report that an artilleryman who claimed to be from the Aurora Kingdom wanted to join the Blazing Sun Territory.

Artilleryman of the Aurora Kingdom?

Could it be that the talent attracted by my Reputation Rating is here?

Zhou Zhou thought.

He asked the soldier to bring the person over.

Soon.

A dark-skinned but bright-eyed young man was brought over.

"I'm Lu Sheng."

"Greetings my Lord!"

He bowed respectfully.

"Get up."

"Welcome to Blazing Sun City."

Zhou Zhou smiled.

"Thank you, my Lord!"

Lu Sheng said.

Zhou Zhou acknowledged.

Then, he checked his personal information.

[Subject: Lu Sheng]

[Territory: Blazing Sun City]

[Soldier type Class Name: Aurora Kingdom Artillery]

[Class: White Platinum-Tier Advance Grade]

[Ability Overview: Lu Sheng has lived at the border of the Aurora Kingdom since he was young and has always suffered from the war. At the same time, he has also seen the powerful power of the Aurora Cannon during his chaotic life. When he grew up, he joined the Aurora Kingdom and finally became the King of Cannons. Lu Sheng firmly believes that caliber is justice, and range is the truth. His dream is to use justice and truth to blast out true peace.]

[Skills: White Platinum-Tier Advance Grade Master Gunner, White Platinum-Tier Advance Grade Artificial Stabilization, White Platinum-Tier Advance Grade Aurora Kingdom Cannon Theory, White Platinum-Tier Advance Grade Aurora Kingdom Cannon Repair Technique, White Platinum-Tier Advance Grade Aurora Kingdom Energy Replenishment Technique, White Platinum-Tier Advance Grade Deadly Strike, White Platinum-Tier Advance Grade Aurora Kingdom Artillery Training.]

[Loyalty: 90]

[Potential: Extraordinary-Tier Advance Grade]

Zhou Zhou raised his eyebrows

He was actually a professional Aurora Kingdom gunner in charge of using the Aurora Kingdom Cannon.

He looked at the other party's skill. When he saw the last Skill, White Platinum-Tier Advance Grade Aurora Kingdom Artillery Training, his eyes lit up.

There were more and more Aurora Cannons in his territory.

This morning, there were already two Diamond-Tier Elementary Grade Aurora Cannons.

However, the professional gunners did not.

It had always been soldiers taught by Elder Zhao who came to control the Aurora Cannon at the last minute.

Even though it could barely be used.

However, it was hard to say how accurate it was.

Everything would be fine now.

With this former Cannon King here and the other party having mastered the method to train the Aurora Kingdom's artillerymen, as long as the other party trained a batch of Aurora Kingdom artillerymen, wouldn't the Aurora Cannons in his territory be used by specialized people?

This could definitely greatly increase the combat strength of his territory!

"There are many Aurora Cannons in my territory."

"Since you used to be the King of Cannons..."

"Then join my Blazing Sun Army and be in charge of training the Aurora Kingdom's artillerymen."

Zhou Zhou immediately made arrangements.

"Yes, my Lord!"

Lu Sheng naturally had no objections.

This was what he relied on to make a living.

"Oh yes."

"Since you were the King of Cannon previously, you should be treated very well, right?"

"Why did you suddenly think of joining my Blazing Sun Territory?"

Zhou Zhou asked curiously.

A bitter smile appeared on Lu Sheng's face.

He raised his right arm and rolled up his sleeve. A silver mechanical arm appeared on his arm.

Zhou Zhou's eyes widened slightly when he saw the arm.

F\*ck!

Cyber Prosthesis?!

"Two days ago, when I was fighting the enemy of the Tahan Army on the battlefield, it was accidentally cut off by a Demon Blade Soldier who rushed into the artillery camp."

"Even though the people of the kingdom saved me immediately and installed this mechanical prosthetic limb from the Machina race..."

"I know that my skills are no longer comparable to before I lost my right arm."

"So I took the initiative to retire."

"My superior didn't ask me to stay back then, so after I left, I suddenly thought of the recent news about the Diamond-Tier Elementary Grade Aurora Kingdom Tower."

"I came here to make myself useful." Lu Sheng said.

Then, he hurriedly added on,

"But don't worry, my Lord."

"Even though my gunnery skills are not as good as before, I'm still confident in training the artillery."

Zhou Zhou acknowledged.

He came to a realization.

The key to the other party's matter was probably the words 'my boss didn't ask me to stay, right?'

Tsk tsk.

He was a Cannon King after all. Even if his skills were not as good as before after losing his right arm, he was still training the artillery. Was he going to let him leave without hesitation?

At least give a few hypocritical words of advice.

It seemed that even though the other party was once the King of Cannons, their relationship in the palace did not seem to be so good.

He didn't think too much about it and smiled at him.

"Your broken limb is fine."

"Our Blazing Sun Territory has the technical ability to use Limb Restoration."

"As long as you make enough military merits, you can just go straight to Limb Restoration."

"Really?"

Lu Sheng's eyes lit up.

Their expressions were faintly excited.

"Of course it's true."

Zhou Zhou acknowledged.

"I will definitely serve you wholeheartedly, my Lord!"

Lu Sheng knelt on one knee without hesitation.

Zhou Zhou smiled and reached out to help him up.

After that, the two of them chatted for a while. Then, Zhou Zhou brought him to the Blazing Sun Army's base and began to rank.

[Global Lord: 100% Drop Rate](#)

**Chapter 347: Lord of The Blazing Sun VS Heaven Chasing Lord**

[Matching with your queuing opponent...]

Zhou Zhou looked at the line of words and did not care much. He headed straight for the Imperial Ancestral Temple.

According to his past experience, he would definitely have to wait for a period of time after starting the ranking before he could successfully match up with his opponent.

There were only a few top-notch Mythical-Tier Advance Grade Lords after all.

It was impossible to rank on the Lord Battlefield at all times.

Since that was the case...

He would use this time to go to the Imperial Ancestral Temple and ask for a War Enhancement.

...

Imperial Ancestral Temple.

Zhou Zhou looked at the four shrines in front of him.

Three of the shrines had already been occupied by the Ancestor Statue.

They were Sun Simiao (Yellow Gold-Tier), Lu Ban (Green Bronze-Tier), and Liu Bei (Yellow Gold-Tier).

Only the fourth one was still empty.

He did not think too much about it and placed 50 Yellow Gold-Tier Mist Cores on the altar in front of the shrine.

Soon...

The altar lit up slightly.

Then, the 50 Yellow Gold-Tier Mist Cores on it disappeared and a text notification appeared.

[You have obtained an Ancestral Blessing: Arms Firepower (Yellow Gold-Tier War Enhancement)!]

[Arms Firepower (Yellow Gold-Tier War Enhancement): The destructive power and lethality of weapons controlled by a Lord increases by 100%. Duration: Four hours.]

Zhou Zhou's eyes lit up when he saw the Ancestral Blessing.

The lethality of the weapons increased by 100%?!

Then his Diamond-Tier Elementary Grade Aurora Kingdom Tower could already cause damage to Extraordinary-Tier experts.

It increased its power by another 100%.

Wouldn't that be able to cause damage to Extraordinary-Tier heroes?

"Good War Enhancement."

"It's just a little too short."

Zhou Zhou smacked his lips.

The Duration was only four hours. It could only fight two Lord Battlefields at most.

None of them could work in the subsequent battles.

Then, he shook his head.

Why would he complain about free Ancestral Enhancement?

After that, he offered incense and bowed to the three ancestors before leaving.

Just as he had expected.

From the time he obtained the Ancestral Blessing until he returned to the base of the Blazing Sun Army and the Monster Army, this ranking system had yet to give him a match.

In his boredom, Zhou Zhou opened the Lord Battlefield function and looked at his ranking.

In the end, he realized that his ranking had decreased from sixth to seventh.

As for the Extreme Dragon Race Lord—Extreme Venerable—who had previously surrendered to him without fighting, quietly climbed to sixth place.

Lord Father came in fifth place.

The ranking points of the other Lords had more or less increased by dozens of points.

The corners of Zhou Zhou's mouth twitched.

Were they really so bored?

All of them were actually secretly scoring points behind his back?

Especially Lord Father and Extreme Venerable.

Could it be that he was ranked the entire day yesterday while he was out fighting?

Zhou Zhou was helpless.

It seemed that as the Myriad Races Lord Battlefield approached the later stages, all the top Lords of the myriad races began to work hard to score.

He had to continue increasing his ranking too.

He had nothing to regret.

If he had also split them all yesterday, the two possessors of top-grade talents, Lord Shop and Fighting God Full-time Master II, might have died in East Demon City after all.

He would have missed these two top-grade talents.

He didn't think too much about it.

After Zhou Zhou closed the [Myriad Races Lord Battlefield Ranking], his gaze landed on the gray icon [The Final Battlefield].

"Today is the seventh day."

Zhou Zhou frowned slightly.

The function [The Final Battlefield] had existed since the opening of the Myriad Races Lord Battlefield event.

It showed that the [The Final Battlefield] would only open seven days later.

Today was the seventh day.

Which meant...

The Final Battlefield function would officially be activated the next day!

"What exactly is the Final Battlefield?"

Zhou Zhou muttered.

His Six Senses were astonishing. He vaguely felt an ominous aura from this name.

Just as he was thinking.

Suddenly, a text notification appeared.

[Match successful!]

[Entering the battlefield!]

Zhou Zhou's body suddenly became illusory before quickly disappearing.

The next second.

The world in front of him suddenly changed and he arrived at a city in the sky.

The city in the Sky floated in the sky.

It was hundreds of thousands of square kilometers in size.

The surrounding blue sky was clear and cloudless.

The ground of the city was paved with jade, looking extremely extravagant and gorgeous.

On both sides of the Sky City stood two cities.

One of them was Blazing Sun City under Zhou Zhou's feet.

On the other side was a golden castle that looked like a god or a saint.

A living being in a white robe that emitted golden light floated above the castle and was looking at him from afar.

Even though it did not move, the golden light on its body was filled with a pressure that was like the might of the world.

Zhou Zhou frowned slightly as he looked at the golden light on its body and the obvious pressure.

He had felt this feeling in The Shelter of the Goddess of Life.

That was the power of the Laws!

At this moment, a text notification appeared.

Zhou Zhou forcefully suppressed the restless Dragon Slayer King Will in his body and looked over.

[You have entered the Mythical-Tier Advance Grade battlefield!]

[You and your opponent have been randomly assigned to the Mythical-Tier Advance Grade battlefield—Nameless Ancient City!]

[Your opponent is: Shepherds God Race Lord—Heaven Chasing Lord!]

[Condition to defeat the enemy: Kill all the enemy forces within 24 hours!]

[If you exceed the time limit, both sides will be judged to have negative battle results. Ranking score -20. Those with insufficient ranking score, rank -1!]

[You have 10 minutes to deploy your forces!]

[Countdown: 9 minutes: 59 seconds]

Zhou Zhou's pupils constricted.

His gaze landed on his opponent's name.

Shepherds God Race Lord—Heaven Chasing Lord?!

The top Lord of all races ranked third on the rankings of the Myriad Races Lord Battlefield?!

He actually encountered it!

Zhou Zhou's expression was calm and there was no fear in his eyes.

Just as well.

He could test the methods of the top three Lords before The Final Battlefield began.

Then, he did not immediately deploy. Instead, he used the Void Detection Technique to look at the other party's attribute information. In the end, he did not see any Obscure information other than normal information.

Then, he took out the Index of All Races (Copy) and looked at the other party's racial information.

[Shepherds God Race: A peak race from the Divine Court Universe. The Shepherds God Race innately contains 108 Divine Court Realm Apertures that can store the power of laws. As the Shepherds God Race grows, these Divine Court Realm Apertures can gradually accommodate the power of laws, allowing the Shepherds God Race to control the power of laws in advance and unleash the strength of a near God Spirit even if they have not become a God. After the Shepherds God Race completely grows up, the 108 Divine Court Realm Apertures in their bodies will grow into a small Divine World. Moreover, each small Divine World will produce a small God Spirit to rule the small Divine World and respect the Shepherds God Race. The Shepherds God Race will use this name and use it to become a God.]

Zhou Zhou frowned slightly.

Another terrifying race like the Original Spirit Race and the Chaos Gods Race. As long as they fully matured, they would definitely become a God.

No wonder it could compare to the two abnormal Lords, the True Lord and the Great One.

He did not think too much about it and began to deploy his subordinates.

At the same time...

In Heaven Chasing City.

The Heaven Chasing Lord watched from afar as the other party calmly began to recruit subordinates and was slightly surprised.

This was because most Mythical-Tier Advance Grade Lords knew that they would lose when they encountered a top-notch Lord like him who could occupy the top three of the Myriad Races Lord Battlefield Ranking. Therefore, they would directly admit defeat and surrender to avoid wasting time so that they could start the next round early.

It had been a long time since he had encountered a Lord who recruited subordinates so calmly like Zhou Zhou.

"He should be the Lord of The Blazing Sun who suddenly rose recently."

"Interesting."

"A mere human Lord can actually ascend to the Mythical-Tier Advance Grade and compete with us."

"Looks like you're quite capable."

"But to me, you're just free points."

The Lords also began to deploy calmly.

[Global Lord: 100% Drop Rate](#)

**Chapter 348: Rare Shepherds God Race People! Law - Gravity!**

As one of the top three Lords, Heaven Chasing Lord's strength was almost the same as the True Lord and the Great One Lord.

They were almost two completely different strengths from the fourth and the Lords after that.

Therefore, it was extremely proud.

To him, the Blazing Sun Territory was just a rising star with some characteristics.

It did not think that it would lose at all.

10 minutes later.

The deployment of both sides was completed.

A text notification appeared in front of the two Lords.

[Deployment time has ended!]

[The Battle has begun!]

On Blazing Sun City.

Zhou Zhou looked at Heaven Chasing City in the distance and raised his eyebrows slightly.

Bai Yun, Wu Xin, and the other generals behind him were also using alchemy binoculars to look at the situation in the distance.

This Alchemy telescope was made from a Gradeless Alchemy Technology blueprint he happened to obtain when he conquered regional territories not under the jurisdiction of the kingdom.

Its effect was to observe the scene in the distance by injecting energy.

He could observe the scene 30,000 meters away.

This observation distance was already quite good for a Gradeless Alchemy Technology product.

At the moment, it was already produced and used through the Gnome Alchemy Workshop.

The alchemy telescope in Bai Yun and the others' hands was the first batch of products.

"Is the other party planning to rely on the advantage of the city wall to wait for them to exhaust themselves?"

Bai Yun put down the alchemy telescope and said in surprise.

At this moment, Zhou Zhou had already told them the information of the Shepherd Race.

Even though everyone was amazed at how terrifying the Shepherds God Race was, they were not afraid of the upcoming battle.

However, Bai Yun was a little surprised that the other party had such a powerful background but did not take the initiative to attack them.

"I'm afraid the other party disdains to take the initiative to attack."

"It wants us to take the initiative to attack and see what despair is."

Wu Xin also put down the alchemy telescope and smiled.

"How confident."

Feng Luo sighed.

He did not say that the other party was arrogant.

The other party's strength, Race Talent, and unknown Lord Talent indeed gave him confidence.

"Since the other party has already taken the initiative to signal."

"Then let's attack."

Zhou Zhou said calmly.

The other party was confident.

Wasn't he the same?

He was no longer the same person as yesterday.

"Yes!"

Everyone accepted the order.

Then, Bai Yun and Wu Xin left 50,000 Poison Crossbow Soldiers and Elemental Archers to defend the city. Then, they led the other 100,000 soldiers to form the Greedy Wolf Howling Moon Array. They summoned their Greedy Wolf Avatar and ran towards Heaven Chasing City.

Nezario, Auguste, Feng Luo, and Maris followed on both sides of the Greedy Wolf Avatar.

When the Heaven Chasing Lord saw this scene, he could not help but raise his eyebrows. His expression immediately became serious.

His gaze landed on the Greedy Wolf Avatar and Nezario, who was flying beside him.

"An array spirit with Extraordinary-Tier extreme strength..."

"There are also pure-blooded dragons with White Platinum-Tier Elementary Grade strength."

"How did this guy do it?"

The Heaven Chasing Lord knew very well how difficult it was for high-level bloodline life forms like them to increase their strength level.

Take him for example.

As the strongest Lord of the Shepherd God Race,

Even with the help of the Shepherds God Race he had summoned, he had only just reached the White Silver-Tier Elementary Grade.

However, this strength was not bad for the True Lord and the Great One Lord.

As for the pure-blooded dragons under the human race, they would not be much weaker even if they were weaker in terms of bloodline.

In addition, he had to give a portion of the promotion energy to his Lord.

Logically speaking,

At this stage.

It was definitely impossible to upgrade it to the White Platinum-Tier Elementary Grade.

However, the strength of the pure-blooded dragon in front of him could not be faked in his eyes.

The key was probably the reason why this human Lord could reach the Mythical-Tier Advance Grade.

The Heaven Chasing Lord did not think too much about it and immediately ordered all the soldiers in the territory to attack and fight these enemies.

The door of Heaven Chasing City was opened with a rumbling sound.

Then, soldiers of all kinds of Races rushed out of the city and rushed towards the Greedy Wolf Avatar fearlessly.

There were a total of more than 200,000 soldiers of various races. They were subordinates that the Heaven Chasing Lord had subdued from the Lords of other races.

As for the Shepherds God Race members, they did not have time to manage the trivial matters of the territory because there were relatively few of them.

Therefore, the Heaven Chasing Lord let these Subjects of the people of foreign race deal with the trivial matters of the territory's development.

After seeing these Subjects rush out, the Heaven Chasing Lord turned to look at the four Shepherds God Race people in red robes behind him.

These four Shepherds God Race people were all the Shepherds God Race Subjects that it had summoned through the Gate of Summoning in the past 16 days.

It was different from the Human Lord where Zhou Zhou was.

The Human Lord could summon many Human Subjects from the Gate of Summoning every day.

However, as the Shepherds God Race's bloodline was too noble and there were too few of them, even the Gate of Summoning could not summon many Shepherds God Race people in a day.

In the beginning, the Heaven Chasing Lord could only summon one Shepherds God Race member every five days.

Later on, after the Heaven Chasing Lord continuously upgraded the Gate of Summoning, he could only summon one Shepherds God Race member every four days.

Therefore, even if the Shepherds God Race under its command had never suffered any losses,

Until now, it only had four Shepherds God Race members under its command.

However, even though there were only four people, their potential had reached the Low-Tier Deity Level at the very least.

In addition, they could control the power of laws in advance.

It could be said that the Shepherds God Race was rather terrifying in terms of potential and strength.

"Zhe En."

"Come and help the Subject soldiers deal with this human Lord."

The Heaven Chasing Lord said calmly.

"Yes, my Lord."

The Shepherds God Race member called Zhe En nodded calmly and came to the city wall.

It looked at the battlefield.

At this moment, more than 200,000 Subjects from Heaven Chasing City had already surrounded the Greedy Wolf Avatar.

Subjects attacked the Greedy Wolf Avatar one after another. Then, they were easily killed by the Greedy Wolf Avatar, and more Subjects rushed up.

This scene seemed to be the Subjects of Heaven Chasing City consuming the power of the Greedy Wolf Avatar.

However, anyone with discerning eyes could tell.

The Greedy Wolf Avatar was completely at ease dealing with these Heaven Chasing City Subjects. It did not seem worried that its energy would be exhausted at all.

In addition, there were experts like Nezario, Auguste, and Feng Luo helping the Greedy Wolf Avatar deal with these Heaven Chasing City Subjects.

It was completely impossible to rely on these Subjects to defeat this Greedy Wolf Avatar and the other experts of Blazing Sun City.

Zhe En shook his head.

He could tell that more than 90% of the Human Lord's subordinates were Professionals.

Most of the Subjects who rushed out were not Professionals.

Therefore, even if they could suppress the other party in numbers, it was far inferior in quality.

Under such circumstances, it was almost impossible to defeat them with these Subjects.

Thinking of this, it raised its right hand, and a large amount of energy began to be consumed. At the same time, wisps of illusory strange energy condensed in its hand, affecting the surroundings of the Greedy Wolf Avatar, Nezario, Auguste, Feng Luo, and the other experts of Blazing Sun City.

"Rule— Gravity!"

Zhe En said softly.

At this moment.

In the distance, the Greedy Wolf Avatar, Nezario, Auguste, Feng Luo, and the other experts of Blazing Sun City suddenly felt their bodies become at least a hundred times heavier.

Their expressions changed.

**Chapter 349: Power Of Law VS Golden Dragon Break!**

On the battlefield.

The Greedy Wolf Avatar froze on the spot, as if it could not move at all.

The eyes of the surrounding Heaven Chasing City Subject soldiers lit up when they saw this scene. Then, they used all kinds of attacks or Skills to attack the Greedy Wolf Avatar.

Even though most of them were not Professionals, they had also embarked on the path of Extraordinary-Tier and more or less grasped some Extraordinary-Tier power.

It was just that they did not have professional Skills like Professionals.

They were still very strong to Normal life forms.

However, even though they had grasped Extraordinary-Tier power, when their attacks landed on the Greedy Wolf Avatar, they realized that their attacks could not even break the defense of the creature in front of them. They could only cause a small ripple on its body at most.

However, they did not care about this anymore.

They only wanted to use their own methods to exhaust the other party's energy.

The other party's energy was limited.

As long as they could continuously attack, they would be able to exhaust the other party's strength sooner or later. At that time, they would naturally be able to easily defeat this Greedy Wolf Avatar.

Heaven Chasing City.

Zhe En's expression did not change at all when he saw that his nomological attack was effective.

Laws were higher-level attacks.

The two were equivalent to water and rocks.

Even if they were of the same size, water could not break rocks.

Therefore, in its eyes, it was only natural that its Law—Gravity could suppress the other party.

Next, as long as the Subjects of the people of foreign race consumed all their energy,

When the time comes...

The other party would naturally be defeated.

Victory would be at his fingertips.

Thinking of this,

it was about to turn around and return to behind the Heaven Chasing Lord.

At this moment,

"Howl!!!"

A Divine Wolf roar that seemed to come from the stars sounded.

Zhe En suddenly turned around.

Then, he was stunned to see that the Greedy Wolf Avatar, which was originally suppressed by him in the distance, had actually broken free from its nomological—gravity suppression and began to slaughter the people of foreign race Subject soldiers around him again.

"The energy level of this array spirit has reached the limit of the Extraordinary-Tier."

"Moreover, there are more than 4,000 White Platinum-Tier human soldiers supporting its incarnation."

"There are also many Yellow Gold-Tier Silver-Tier human soldiers."

"You can't suppress it by relying on your own Law of Gravity."

The Heaven Chasing Lord's voice sounded.

At this moment, it was staring at the Greedy Wolf Avatar in the distance. Its eyes emitted a seven-colored divine light. It could actually see through the number and strength of the soldiers inside the Greedy Wolf Avatar at a glance.

The power of the Laws was indeed strong.

However, they were still weak after all. The energy in their bodies could not unleash the true power of the Law.

Just as stones were indeed much harder than water.

However, if a huge wave of the sea slapped over, the reef would also break.

"More than 4,000 White Platinum-Tier soldiers?"

Zhe En and the other three Shepherds God Race members revealed looks of shock.

Even if this human's advancement did not require too much promotion energy like them,

However, at this stage, wasn't it too ridiculous to have more than 4,000 White Platinum-Tier soldiers?

The Heaven Chasing Lord also saw their expressions.

"Maybe it's this human's Lord Talent."

"Otherwise, he wouldn't have reached our level."

"Don't underestimate the other party. Attack together!"

It said.

"Okay!"

"I'll do it."

...

The other three Shepherds God Race members also walked up and stood side by side with Zhe En.

They raised their hands, and the power of all kinds of laws surged.

Law—Fire!

Law—Arrow!

Rule—Sharpness!

In an instant.

The world changed color.

Fire swept through the world.

A transparent arrow condensed in the air.

At the same time, an invisible Sharp Law adhered to the surroundings of the arrow, increasing the power of the Arrow Law again!

The next second.

Fire adhered to the surface of the Greedy Wolf Avatar!

When the surrounding Subject soldiers of the people of foreign race saw this scene, they were so afraid that they did not dare to approach, leaving a large empty space around the Greedy Wolf Avatar.

The transparent arrow also shot towards the head of the Greedy Wolf Avatar!

The transparent arrow arrived at the glabella of the Greedy Wolf Avatar in the blink of an eye. Then, it paused slightly and pierced through with the enhancement of the sharp laws.

When Zhou Zhou, who was in the distance, saw this scene, he was shocked.

Logically speaking,

The Greedy Wolf Avatar was built from the essence, qi, and spirit of his 100,000 soldiers.

As long as his 100,000 soldiers' essence, energy, and spirit were not exhausted, there would definitely not be any flaws in the Greedy Wolf Avatar's body. It was definitely impossible for arrows to pierce the body.

However, the scene in front of him told Zhou Zhou that he could do it.

"Is this the power of the Law?"

"It can actually allow four Green Bronze-Tier Advance Grade Shepherds God Race members to pierce through my Greedy Wolf Avatar with Extraordinary-Tier limit strength?"

Zhou Zhou frowned.

'That's right.'

He had already seen the strength of the four Shepherds God Race members. They only had the strength of a Green Bronze-Tier Advance Grade.

And a Shepherds God Race member with such strength could actually cause damage to his Greedy Wolf Avatar. This made him feel that it was unbelievable.

As expected of the top race that could compare to the Original Spirit Race and the Chaos Gods Race.

It was indeed unbelievably strong.

His gaze landed on the 200,000 people of foreign race Subjects around him.

He was not surprised that the Heaven Chasing Lord had these people of foreign race Subjects.

With the Shepherds God Race's strength, they would be able to snatch so many Subjects by force after all even without talents or items like Incite Defection or recruitment books.

Moreover, the human Lords of the Cerulean Planet could gather thousands of Lords by establishing the Lord Alliance and obtain a large number of troops.

He did not believe that these high-level Bloodline Lords would not think of it.

However, compared to them, the soldiers under his command had two huge advantages.

One was naturally a Professionals with a ratio of more than 90%!

Other than the Monster Army, the remaining soldiers of the Blazing Sun Army were all Professionals!

The second was naturally loyalty.

His soldiers were all absolutely loyal to him.

As for these soldiers of the Heaven Chasing Lord, he had already seen many deserters in the battle just now.

Loyal soldiers would never run away from a battle.

His gaze landed on the Greedy Wolf Avatar again.

In his perception, even though the phantom of the Arrow Law shot into the Greedy Wolf Avatar, it did not cause much damage to it.

...

Back to when the transparent arrow had just shot into the head of the Greedy Wolf Avatar.

As the core of the Greedy Wolf Howling Moon Array, Wu Xin's location was at the core of the Greedy Wolf Avatar's head.

Therefore, Wu Xin happened to have to face it when the Law of Arrow and the Law of Sharpness shot in.

Facing the invisible arrow condensed from the dual laws,

A warning bell immediately sounded in Wu Xin's heart.

The next second.

A dragon roar suddenly sounded.

In the blink of an eye, Wu Xin turned into a half-dragon.

At the same time...

A golden wave of air spread in all directions with him as the center and enveloped the 4,008 White Platinum-Tier soldiers in the Greedy Wolf Avatar. Finally, it formed a real golden dragon body.

It was Wu Xin's hero skill—Golden Dragon Break!

Then, the golden dragon charged towards the invisible arrow with an unstoppable momentum.

### **Chapter 350: [3,000 Divine Kings] And [Rule—World]**

Rumble...

The two collided in the blink of an eye.

Then, the Golden Dragon Body shattered the invisible arrow without stopping and rushed out of the bloody mouth of the Greedy Wolf Avatar and ran towards Heaven Chasing City.

Zhe En and the others' expressions changed slightly when they saw this.

They knew that their Supreme Barrier would probably not be able to stop this golden dragon just by looking at the power.

They naturally would not sit back and watch the golden dragon land in Heaven Chasing City. Therefore, they controlled the power of laws again without hesitation and formed an arrow surrounded by flames. At the same time, it was imbued with the laws of sharpness and arrows before shooting at the golden dragon.

However, it was useless.

This time, the invisible arrow formed by the three laws only stopped the golden dragon for a few seconds, causing its body to fade a little before shattering again.

When the three Shepherds God Race members saw this, they condensed another nomological arrow to stop it...

This cycle repeated three to four times before the golden dragon was completely defeated.

When they saw this, they panted heavily as they looked at the Greedy Wolf Avatar in shock.

One of the Shepherds God Race members clicked his tongue and said, "This is the first time I've encountered such a strong Lord of all races. I only have 20 to 30% of the power of the Arrow Law left in my Divine Aperture."

"Me too."

"I still have 10% of the power of laws."

The others said one after another.

There was not much power of laws left in their bodies in order to stop Wu Xin's Golden Dragon Break.

"That's a hero skill released by a Diamond-Tier Advance Grade human hero."

"It's normal for it to be so powerful."

The Heaven Chasing Lord said.

However, even though it said that it was normal, there was still an obvious tremor in its eyes.

A Diamond-Tier Advance Grade hero!

Its strength was already comparable to an Extraordinary-Tier Normal Race life form.

It was normal for such an existence to appear in the later stages of the Lord of All Races Competition.

However, it was just the beginning of the Lord of All Races Competition. It was really unbelievable for such an existence to appear.

When the other Shepherds God Race members heard this, their expressions immediately trembled.

This human Lord actually had a Diamond-Tier Advance Grade human hero?

No wonder he was so strong.

They could not help but look at Zhe En.

Because Zhe En was the only hero among them.

Zhe En subconsciously avoided their gazes.

It was only at the Green Bronze-Tier Advance Grade. Even if it could control the power of laws, it was definitely not comparable to a Diamond-Tier Advance Grade hero, right?

At this moment, on the Lord Battlefield.

Nezario, Auguste, Feng Luo, Maris, and the other experts of Blazing Sun City were cleaning up the Subject soldiers of the people of foreign races around the Greedy Wolf Avatar.

The Greedy Wolf Avatar opened its bloody mouth and a blood-red Army Extermination Light Ball condensed. Then, it shot towards the Shepherds God Race in Heaven Chasing City.

The pupils of the Heaven Chasing Lord and the others constricted.

This was because they realized that the attack power used by the other party was even stronger than the Golden Dragon Break just now.

Zhe En and the others gritted their teeth and were about to join forces to stop the Army Extermination Light Ball again.

At this moment.

The figure of the Heaven Chasing Lord suddenly appeared in front of them.

"Let me help you."

The Heaven Chasing Lord said.

Then, it raised its hands.

Buzz!

A tangible fluctuation quickly spread in all directions with its hands as the center and quickly covered the entire Lord Battlefield.

The world suddenly changed.

When both sides reacted, all the living beings suddenly realized that the world they were in was no longer the Lord Battlefield—the Nameless Ancient City. Instead, it was an unfamiliar white world.

There was nothing in this white world. It looked extremely desolate.

"[Law—World]"

"I didn't expect this human Lord to actually force the Lord's trump card out."

"His Lordship's World Law is only used when facing the True Lord and the Great One Lord."

A Shepherd God Race member whispered.

The other members of the Shepherds God Race did not say anything. They only lowered their heads in shame.

Why would their Lord be forced to use such a trump card if not for the fact that they were useless?

On the other side.

Zhou Zhou suddenly felt an extreme pressure suppressing him from all directions.

At the same time...

He realized that his strength had been suppressed from Yellow Gold-Tier Elementary Grade to White Silver-Tier Elementary Grade.

"How did this happen?"

Zhou Zhou was shocked.

As soon as he finished speaking.

A line of text appeared.

[Supreme Will Notification: It is an effect caused by the suppression of the World slot of the power of the World Law. It can reduce the strength of the Heaven Chasing Lord's enemies by a large level, while the strength of the Shepherds God Race will increase by a large level.]

Zhou Zhou could not help but curse.

Wasn't this increase too ridiculous?

One suppressed and one increased, directly widening the difference of two major realms between him and the enemy?

This was even stronger than the Dragon Slaying Will.

The Dragon Slaying Will was only targeted at high-level life forms of the Race after all.

However, the other party's world slot suppression could be used on any enemy.

Still...

Zhou Zhou felt the Dragon Slayer King's Will and Chaos Bloodline in his body.

He could feel that no matter whether it was the Dragon Slaying King's Will or the Chaos Intimidation of the Chaos Bloodline, it could make him and the people with the Dragon Slaying Will immune to the suppression of the other party's world slot.

At that time, he would increase his strength through the Dragon Slayer King's Will. Then, the difference in strength and realm between him and the other party would increase again.

He thought for a while and looked at the battlefield.

...

On the battlefield.

All the soldiers inside the Greedy Wolf Avatar, including Bai Yun and Wu Xin, felt that their strength had decreased by a major realm.

At the same time, they could also sense that their Dragon Slaying Will was immune to this world slot suppression and that their strength would increase by two major levels at the same time.

However, they had always remembered their Lord's instructions not to easily reveal their Dragon Slaying Will, so they did not use this ability.

However, even without using the Dragon Slaying Will,

The Greedy Wolf Avatar formed by their essence, qi, and spirit still maintained the strength of the Extraordinary-Tier limit.

The soldiers who formed the Greedy Wolf Avatar were on average too strong after all.

It was enough to support the actions of the strongest Greedy Wolf Avatar even though their strength was suppressed by an entire level.

At most, the time he could maintain the Greedy Wolf Avatar would be shortened for a while.

When the Heaven Chasing Lord of Heaven Chasing City saw this scene, he immediately frowned.

It realized that it had underestimated this human Lord.

He had used the [Nomological World] created by his Mythical-Tier— Unique Lord Talent—[3,000 Divine Kings], but he still could not suppress the other party's strength.

It thought for a moment before its gaze landed on the four Shepherds God Race members beside it.

"Do it again." It said.

"Yes, my Lord!"

The four of them said in unison.

Then, he activated the power of his Laws again and condensed an invisible sharp arrow surrounded by the Law of Fire and the Law of Gravity.

At this moment, the strength of the four Shepherds God Race members had already increased from Green Bronze-Tier Advance Grade to White-Silver Tier Advance Grade from the world slot.

Therefore, the power of the laws used had increased by more than 10 times!

However, when they saw that the arrow they had created with all their might was actually shattered by the human hero's Golden Dragon Break three times, they immediately fell silent.

For the first time, they realized the importance of the strength realm.

In the past, when they faced Lords of other peak Races, they could easily destroy them and obtain victory with their talent in controlling laws.

This made them gradually ignore the importance of strength and realm.

However, when the human hero whose strength had been suppressed to the White Platinum-Tier Advance Grade easily broke through the attack they had jointly created, they suddenly realized how important strength and realm would be at a critical moment.

At this moment, the Greedy Wolf Avatar condensed another blood-red Army Extermination Light Ball and shot towards Heaven Chasing City.

The Heaven Chasing Lord watched the ball of light descend quietly.

It did not choose to surrender even if death was imminent.

As proud as it was, even if it had to endure the pain of death, it would not surrender to an ordinary Race.

In any case, they would all revive later on.

Before it died, the Heaven Chasing Lord looked deeply at Zhou Zhou, who was standing on Blazing Sun City in the distance.

"We'll meet again."

It said softly.

Then, in the blood-red explosion, it turned into dust with Heaven Chasing City.
