### [Global Lord: 100% Drop Rate](#)

#### Chapter 381: Bloodseeker Archmage—Guise! The Final Blood Crystal?

Zhou Zhou thought for a while before his gaze landed on the description beside the red dot.

In the end, he realized that this fog monster faction was actually a Scarlet Lord with the strength of a Scarlet Lord. Moreover, it had a Yellow Gold-Tier regional territory and controlled more than 80,000 fog monster subordinates.

Seeing this, Zhou Zhou did not hesitate and asked Wen Ya to fly towards the Scarlet Lord's territory.

It was just the territory of a Yellow Gold-Tier Scarlet Lord.

With his current strength, he would have the guts to slowly attack a Kingdom-level Scarlet Lord faction.

Not to mention a Scarlet Lord faction of this level.

...

Yellow Gold-Tier regional territory—Crimson River City.

When Zhou Zhou and the others arrived, they saw a city surrounded by a blood-colored moat standing there.

In the city.

Fog monsters wearing scarlet cloaks were floating here.

If one did not look at the Scarlet Fog aura emitted from their bodies, this scene looked quite harmonious.

However, when the Starry Night appeared in their vision, they suddenly looked at it in unison like mad dogs that had smelled meat. Every monster's face revealed a manic and crazy killing intent.

"It's the smell of life forms."

"Those Lords are here!"

"They actually dare to appear in our territory. They're really tired of living!"

...

The Lord faction of the Supreme Will and the fog faction were natural mortal enemies.

They had lived here for countless years, however, when Zhou Zhou and the others appeared, they immediately awakened the hostility from the depths of their bodies.

They spontaneously flew out of the city.

Soon.

More than 80,000 fog monsters flew into the sky.

This scene was quite spectacular.

Among them, the weakest was at the Green Bronze-Tier, and the strongest was already at the Diamond-Tier.

They took out their Staffs and chanted softly as they aimed at the Starry Night.

Blood condensed from the air, forming spears, arrows, daggers, blood bullets, and so on in front of them.

The next second.

These blood weapons shot towards the Starry Night.

Once such a large number of attacks landed on the Starry Night, it would probably be damaged or even completely destroyed.

At this moment,

"ROAR!"

A dragon roar sounded.

Then, Nezario flew out of the Starry Night.

It looked at the rain of blood soldiers released by the 80,000 fog monsters, and flames flashed in its dragon eyes.

All Things Burn!

The next second.

A third of the densely packed 80,000 blood weapons suddenly combusted and exploded on the way.

This explosion implicated the other 20,000 blood weapons and directly obliterated them in midair.

Right on the heels of that.

Two Greedy Wolf Avatars also appeared in the light released by the Starry Night.

They descended from the sky and landed on the ground with a bang, causing the ground to tremble.

These two Greedy Wolf Avatars were each formed by 150,000 soldiers.

Even though it did not reach the maximum value of the soldiers that the Greedy Wolf Avatar could accommodate, they had also reached the Extraordinary-Tier limit because the soldiers were very strong!

One of these two Greedy Wolf Avatars was controlled by Bai Yun, who controlled the Greedy Wolf Avatar.

The other Greedy Wolf Avatar was completely created by Wu Xin with his understanding of military formations.

After the two Greedy Wolf Avatars landed on the ground, they opened their bloody mouths and condensed a blood-red Army Extermination Light Ball that shot at the fog monsters.

There was a loud bang.

4,000 to 5,000 fog monsters were killed by the explosion of the two Army Extermination Light Balls.

After they were attacked, they immediately glared at the two Greedy Wolf Avatars.

Then, they changed their targets and released spells again to attack the two Greedy Wolf Avatars.

The Starry Night in the sky had naturally flown elsewhere to dodge the remaining spell attacks.

Nezario flew beside the spaceship and was in charge of protecting it.

It was also because of this scene.

These fog monsters knew that the speed of this spaceship was extraordinary and that it was protected by experts.

It was almost impossible for them to hurt this spaceship.

In addition, this spaceship did not look threatening.

Since that was the case...

It was better to deal with these two seemingly strong enemies first.

...

In the Starry Night.

Zhou Zhou looked at the fog monsters fighting the two Greedy Wolf Avatars.

He scanned for a long time before his gaze finally landed on a monster.

Monster information appeared.

[Monster Name: Bloodseeker Archmage—Guise (Regional Scarlet Lord)]

[Strength Level: Diamond-Tier Advance Grade]

[Monster Description: The Final Battlefield—The Lord of Crimson River City. He is good at controlling his blood to turn into all kinds of weapons to attack the enemy. He is violent by nature and is extremely greedy and hateful of the aura of life forms!]

[Loots Drop Rate: 20 Diamond-Tier Mist Cores (Drop Rate: 100%), 80 Origin Crystals (Drop Rate: 100%), One Diamond-Tier Advance Grade Blood Magic Staff (Drop Rate: 20%), One Diamond-Tier Advance Grade Skill Book, Blood Soldier Technique (Drop Rate: 20%), One Diamond-Tier Advance Grade Skill Book, Bloodseeker Clone (Drop Rate: 10%), One Gradeless Blood Mage Blood Magic Experience (Drop Rate: 8%), One True Faith-Tier Scarlet Crystals (Drop Rate: 1%), Six Black Iron-Tier Lord Talents

"It's the City Lord of this Crimson River City."

"The Final Blood Crystal? What's this?"

Zhou Zhou's gaze landed on the Final Blood Crystal in the Loots and he could not help but raise his eyebrows.

Was it a special Loot from The Final Battlefield?

He thought for a while and stopped thinking about it.

He would naturally know everything after taking down this territory.

...

At this moment, the war was still ongoing.

Even though Zhou Zhou only had two Greedy Wolf Avatars on his side and more than 70,000 Blood Mages opposite him, the attacks of these Blood Mages were completely ineffective against the Greedy Wolf Avatar.

Even though the Greedy Wolf Avatar was seven to eight hundred meters tall,

However, this did not mean that their flexibility was low.

On the contrary.

Their agility was also quite shocking given their huge size.

Facing the sea of blood weapons released by these 70,000 fog monsters, the two Greedy Wolf Avatars only dodged slightly and left a series of afterimages in the air. From there, they easily dodged the range of their spell rain.

After landing, the two Greedy Wolf Avatars immediately began to counterattack while the other party was casting spells.

Army Extermination Light Balls shot out of their mouths one after another and easily pierced through the place where they were gathered. Each Army Extermination Light Ball could easily take away 2,000 to 3,000 fog monsters.

Every time the two Greedy Wolf Avatars counterattacked, they could easily take the lives of more than 10,000 Blood Mages.

Soon, as the two Army Extermination Light Balls landed on the Bloodseeker Archmage—Guise.

The other party could not dodge in time and exploded with a scream.

[Your Subject Blood Fire Arrow Elf—Bai Yun, Dragon-Horse Spear General—Wu Xin used the Greedy Wolf Howling Moon Array to kill the Diamond-Tier Advance Grade Bloodseeker Archmage—Guise (Regional Scarlet Lord). Obtained promotion energy +800,000! Loots condensed!]

[Blessing of the War God: Your Subject, Blood Fire Arrow Elf—Bai Yun, Dragon-Horse Spear General—Wu Xin, and all the members of the Greedy Wolf Howling Moon Array who set up the array have obtained an additional 16 million promotion energy!]

**[Global Lord: 100% Drop Rate](#)**

**Chapter 382: Comprehension Of Skills! The Source Of The Final Item!**

A moment later.

The battlefield fell silent.

Incomplete Blood Mage corpses were scattered on the battlefield, all of them looking tragic.

The Greedy Wolf Avatar controlled by Bai Yun and Wu Xin had already disbanded the array. These soldiers who had just formed the Greedy Wolf Avatar even had abundant stamina to clean up the battlefield.

It could be seen how easy the battle just now was for them.

...

On the Starry Night.

Zhou Zhou looked at the corpse of the Bloodseeker Archmage—Guise—that Bai Yun had sent over.

The other party's corpse was already incomplete and looked quite miserable.

Zhou Zhou was used to this.

He placed his hand on it and began to retrieve the Loots.

[Lord Talent Notification: Your loots have been enhanced by the 'King of Loots—Perfect Loots'. Grade +1!]

[Title Hint: Your loots have been affected by the title of 'Strongest Lord'. The number of Loots has increased by 20%!]

[Lord Talent Notification: You have obtained Perfect Loots—24 Mist Cores (Extraordinary-Tier), 96 Origin Crystals, one Blood Wand (Extraordinary-Tier Advance Grade), one skill book, Blood Soldier Technique (Extraordinary-Tier Advance Grade), one skill book, Multiple Bloodseeker Clones (Extraordinary-Tier Advance Grade), one Blood Mage Blood Magic Experience (Gradeless), one Final Blood Crystal, one Scarlet Crystals (Pious-Tier), seven Lord Talent Crystal Fragments (Green Bronze-Tier Green Bronze-Tier).]

Whoosh.

This corpse instantly turned into a large number of loots and dropped on the ground.

Zhou Zhou began to inspect the Loots.

Among them, he naturally put away the Mist Cores, Origin Crystals, Scarlet Crystals, and Lord Talent Crystal Fragments without even looking at them.

As for the Blood Wand, Blood Soldier Technique, and Multiple Bloodseeker Clones, these three Loots were all Extraordinary-Tier Advance Grade and he could not use them for the time being.

However, he could use it when he was strong enough in the future or hand it over to the subordinates of the Extraordinary-Tier Advance Grade in the territory to increase their strength.

Finally, his gaze landed on the Blood Mage's Blood Magic insights (Extraordinary-Tier Advance Grade) and the two Loots, the Blood Crystal of Destiny.

They were a book with a blood-colored cover that depicted a Blood Mage's book and a crystal that looked like a blood diamond.

He looked at the book first.

[Treasure Name: Blood Magic Experiences of the Blood Mage]

[Treasure Grade: Gradeless]

[Treasure Effect: After learning it, you will automatically master the lifelong experience and theory of an Extraordinary-Tier Advance Grade Blood Mage!]

[Treasure Description: It records the magical inheritance books of an Extraordinary-Tier Advance Grade Blood Mage. It can instantly turn an ordinary life form into a Blood Magic Theory and Operation Master.]

"Inheritance-type treasure?"

"It's a little similar to the saber technique inheritance of the Dark Bone King I obtained previously."

Zhou Zhou thought.

Then, he chose to learn without hesitation.

Even though he was not a Blood Mage, there was an optimized Vampire Viscount bloodline in his Chaos Human bloodline!

In terms of talent in Blood Magic!

He was definitely top-notch.

Therefore, this Extraordinary-Tier Advance Grade Blood Mage Inheritance could be said to be quite suitable for him.

Soon, this book that recorded the inheritance of the Blood Mage turned into red light spots and fused into Zhou Zhou's glabella.

He closed his eyes and silently accepted this inheritance of the Blood Mage.

A moment later.

He re-opened his eyes again after some time.

"What a profound blood magic inheritance."

"This Extraordinary-Tier Advance Grade Blood Mage has studied blood magic for at least a thousand years."

Zhou Zhou sighed inwardly.

Then, he looked at the blood-colored ground under his feet and willed.

The next second.

Blood energy suddenly erupted from the ground. The blood energy rose and finally floated in front of Zhou Zhou, condensing into a pool of scarlet blood.

Under his control, the pool of scarlet blood began to change its shape.

Sometimes it turned into a blood saber, sometimes into a blood spear, sometimes into a blood Mace...

All kinds of weapons could be changed at will in his hands.

Moreover, the change time was extremely short.

It could change from a weapon to a completely different weapon in less than a tenth of a second.

If a low-level Blood Mage was here and saw such astonishing control, he would probably immediately address Zhou Zhou as a Blood Magic Master in admiration.

However, even without the Blood Mage, the surrounding people could not help but be attracted by Zhou Zhou's exquisite technique when they saw him controlling the blood.

After a while.

Just as Zhou Zhou was playing happily, a line of text suddenly appeared.

[Prompt: You have comprehended the Yellow Gold-Tier Intermediate Grade Enhanceable Skill—Blood Soldier Technique!]

Zhou Zhou smiled.

He was not too surprised.

After all, he had also created the Enhanceable Skill, Chaotic Blade Qi, when he obtained the Dark Bone King's saber technique inheritance.

Now, he had only replicated it again.

He looked at the skill information of this skill.

[Skill Name: Blood Soldier Technique]

[Skill Quality: Yellow Gold-Tier Intermediate Grade - Enhanceable]

[Skill Description: An Enhanceable Skill created by the Lord of The Blazing Sun. It can create a blood weapon by shaping and modifying the blood. A blood weapon can have a grade and quality comparable to a real weapon according to the amount of energy injected. At the same time, it can also be shaped into a blood weapon or a permanent blood weapon. The former can only exist for a certain period of time before self-destructing. The latter can exist forever until it is forcefully destroyed.]

It was a good skill.

However, it was not of much use to him.

After all, he had the King of Loots. He did not lack weapons and equipment at all.

Unless he encountered a special situation, he would probably not be able to use this skill.

Zhou Zhou did not stop and continued to create Skills.

He could feel that blood magic could obtain a huge enhancement, perhaps because of the environment here.

Since that was the case...

He would create more.

On the one hand, it would give him more methods. On the other hand, it would be used as a backup.

Time passed slowly.

...

[Prompt: You have comprehended the Yellow Gold-Tier Intermediate Grade Enhanceable Skill—Flesh Modification Technique!]

...

[Prompt: You have comprehended Advanced Blood Magic Mastery!]

...

[Prompt: You have comprehended the Yellow Gold-Tier Intermediate Grade Enhanceable Skill—Blood Explosion!]

...

[Prompt: You have comprehended the Yellow Gold-Tier Intermediate Grade Enhanceable Skill—Blood Plague!]

...

[Prompt: You have comprehended the Yellow Gold-Tier Intermediate Grade Enhanceable Skill—Create Bloodseeker!]

...

[Prompt: You have comprehended the Yellow Gold-Tier Intermediate Grade Enhanceable Skill—Summon Malefice!]

...

Half an hour later.

Zhou Zhou, who had comprehended more than 20 Enhanceable Blood Magic in a row, stopped reluctantly.

He could feel it.

He could comprehend more Skills from the inheritance of the Extraordinary-Tier Advance Grade Blood Mage that he had accepted.

However, he stopped because he was worried that this was a battlefield after all.

In the future, he could continue to comprehend skills when the surroundings were safe.

These newly comprehended skills should be enough for now.

He stopped thinking and looked at the Final Blood Crystal.

[Treasure Name: Final Blood Crystal]

[Treasure Grade: Special]

[Treasure Effect: After dripping your blood on it, you can take out an unknown Item of Destiny!]

[Treasure Description: A mysterious creation of The Final Battlefield. No life form knows its origin yet.]

"There really is a Final Item?!"

"So the Item of Destiny is produced from something like the Blood Crystal of Destiny."

A smile appeared on Zhou Zhou's face.

[\*\*Global Lord: 100% Drop Rate\*\*](#)

### **Chapter 383: The Final Item: The Protection Of The Blood Demon God!**

Zhou Zhou extended his right hand and willed.

A blood that emitted a faint golden light automatically condensed on the surface of his index finger. Then, under the control of his Telekinesis, it landed on the Blood Crystal.

His current physique could be said to be inhuman.

Naturally, there was no need for him to bite his finger to obtain blood.

The next second.

The Blood Crystal slowly melted and morphed, finally turning into a Blood Demon statue.

Zhou Zhou looked over,

[The Final Item: Protection of the Blood Demon God]

[Effect: Bring it with you and it can increase the power of your own blood magic by 50%. When competing with the enemy in blood magic, this effect will increase by 500 times. This enhancement effect is only effective on life forms below the Low-Tier Deity-level.]

[Item Description: The final item made by the Bloodseeker God for his spawns. It has always been regarded as a treasure by its owner.]

"What kind of Blood Mage Treasure is this?!"

Zhou Zhou clicked his tongue in wonder.

However, other than internal strife, this tool was also quite useful in The Final Battlefield.

In a place filled with blood energy, there would definitely be many enemies who were good at using blood-type abilities. It would definitely be very useful.

Zhou Zhou was a Master in Blood Magic, so the protection of the Blood Demon God would definitely be of the greatest use to him. Therefore, he put it into his Spatial Ring without hesitation.

A moment later.

The battlefield was cleaned up.

Zhou Zhou and the soldiers entered Crimson River City with all their loot.

Then, they realized that the various buildings in Crimson River City were quite complete. Furthermore, there were many buildings. They were not inferior to the cities in the High Continent at all. In fact, they were superior.

If this was the High Continent, Zhou Zhou would probably occupy it without hesitation.

However, the opening time of the Final Battlefield was only three days after all. Once the Final Battlefield closed, they would have to go back.

Zhou Zhou immediately felt bored about occupying this place at the thought of this.

They went all the way to the City Lord Residence and found the Territory Stone Tablet.

After Bai Yun broke the Territory Stone Tablet, Zhou Zhou successfully obtained a Yellow Gold-Tier Intermediate Grade Territory Token.

"I still need two more Yellow Gold-Tier Territory Tokens to upgrade my territory to Yellow Gold-Tier Advance Grade."

Zhou Zhou looked at the Yellow Gold-Tier Territory Token and nodded in satisfaction.

"Speaking of which, I haven't upgraded my territory because I didn't want to waste the blueprints and buildings in Scarlet City previously. That's because I couldn't bear to take their territory tokens."

"We can't delay any longer."

"If I delay any longer, my Glory of the Pioneer IV might be snatched away by others."

Zhou Zhou started to think.

This couldn't go on. He had to focus on upgrading his territory.

He should not be too reluctant to part with those intact Scarlet cities.

At most, he would send people to use the protection of the Scarlet City that had obtained the Territory Tokens after obtaining the Territory Tokens and Region Tokens. When he obtained more Territory Tokens in the future, he would put the Territory Tokens back into the city and let the city buildings restore their blueprint effects.

In any case, after the territory leveled up, the low-level Territory Tokens that he obtained would not be of much use other than buying goods from the Lord Shop.

Since that was the case...

It was better to use it to resurrect the cities!

It could also give the additional territory tokens a new use.

This would be killing two birds with one stone!

At the thought of this, Zhou Zhou immediately felt that his idea was not bad.

...

A moment later.

In the meeting hall.

Zhou Zhou was discussing military matters with the generals of his Blazing Sun Army and the monster army.

The generals under him were naturally not the same as before.

Ever since the Blazing Sun Army and the Monster Army were established,

Under Bai Yun and Wu Xin's review and selection, the generals in charge of various functions rushed out of the army.

Currently, there were more than 20 middle and high-ranking generals standing here discussing military matters with Zhou Zhou.

Not to mention the low-level generals who were not qualified to come here.

It could be said that...

Apart from the fact that Zhou Zhou's two armies were not Kingdom-level territories, the other aspects of his two armies could be considered regular Kingdom-level armies.

After discussing it for more than fifteen minutes, a general asked, "What should we do next?"

Everyone looked at Zhou Zhou, Bai Yun, and Wu Xin.

Zhou Zhou said nothing.

Wu Xin looked at Bai Yun.

Bai Yun said calmly, "I took a look around now that we've occupied this Crimson River City. The defense facilities of this city wall are quite complete, even surpassing our Blazing Sun City. Coupled with our manpower and the Mist Energy Cannons we brought, it's enough to control this city."

"My idea is to station in this city first and then send the Heavenly Army to patrol the surroundings to see if there are any suitable Lords, Scarlet Lords, or other enemies to be our 'prey'."

"Once we encounter a suitable prey, we have to immediately attack and defeat the other party."

"Then, we will continuously advance our exploration range. After finding a suitable new base, we will settle in the new base. Then, we will use this to advance step by step and expand our results."

"This way, our soldiers will have a stable stronghold where they can rest. Once we encounter an enemy attack, we can also rely on the city defense facilities to counterattack. If the enemy suddenly becomes too strong to resist, with this city around, we can also calmly stall for time and return to the real world."

All the generals nodded.

This was indeed the most stable method at the moment.

Zhou Zhou and Wu Xin also nodded.

Especially Zhou Zhou.

The results of The Final Battlefield were indeed very important to him.

However, it was not to the extent of risking one's life.

As long as he was still alive, there would eventually be a chance. If he died, everything would be gone.

Hence, Bai Yun's idea coincided with his.

However, Zhou Zhou still had something to add.

He looked at Xiao Xuan, who was seated at the edge.

"Little Xiao Xuan."

"Are you willing to explore around with the Heavenly Army?"

"I can allow you to command the direction of the Heavenly Army's exploration."

Zhou Zhou smiled.

Everyone could not help but look at Xiao Xuan when they heard this.

His Lord doted on this child too much.

He actually gave such power to him?

Could this child be the Lord's illegitimate child?

Some generals could not help but guess.

Xiao Xuan did not care about everyone's gazes. After hearing Zhou Zhou's words, he immediately jumped down from his stool excitedly and straightened his back. "My Lord, leave it to me!"

Zhou Zhou smiled and nodded.

"Wu Xin and three Extraordinary-Tier monster generals will go with the Heavenly Army."

"We must ensure the safety of the Heavenly Army and Xiao Xuan."

He turned to Wu Xin and said.

"Yes, my Lord!"

Wu Xin and the monster generals said in unison.

Zhou Zhou acknowledged.

Half an hour later.

The generals finish their discussion and disperse.

"It'll all depend on little Xiao Xuan's performance now."

A smile appeared on Zhou Zhou's face as he watched Xiao Xuan skip away.

...

[Global Lord: 100% Drop Rate](#)

**Chapter 384: Xiao Xuan: I'll Choose Whoever I Point!**

On the other side.

After Xiao Xuan left the Lord's residence, he immediately headed to the Heavenly Army's encampment excitedly and found Wu Tu.

Wu Tu did not attend this military meeting because he was drawing a map.

When he found out that Little Xiao Xuan was here to join him and had even been ordered by the Lord to command them, he was immediately stunned.

Then, he thought of something and suddenly laughed.

The scene before him was so similar to his situation back then.

Back when he first came to the Blazing Sun Territory, the other Subjects also thought that he was still a child and could not take on important positions.

However, the Lord did not hesitate to trust him and let him lead his troops to draw the map.

Now, another child has arrived.

Moreover, he was younger than him.

His Lordship is still the same...

Wu Tu sighed in his heart.

He immediately accepted Xiao Xuan.

Xiao Xuan was stunned when he saw that the other party had accepted him so quickly.

Even though he was young, he knew how others would feel when they found out about this.

However, the general of the Heavenly Tu Army in front of him did not even mention anything and directly let him take over the command.

Xiao Xuan was very surprised by this.

He also had a good impression of the other party.

However, he did not think too much about it.

"This is very important, so General Wu and the other three Extraordinary-Tier Monster Army experts will be back soon. Let's wait for a while."

Xiao Xuan said.

"Sure."

Wu Tu smiled and nodded.

"Brother Wu Tu, you don't look much older than me. How did you become the Great General of the Heavenly Army?"

Xiao Xuan asked curiously.

"You're so young. Can't you also command the Heavenly Army?"

Wu Tu said.

Xiao Xuan was stunned for a moment before he gradually understood. A smile appeared on his face.

A moment later.

Wu Xin and three Extraordinary-Tier Monster Army experts came over.

Then, everyone left Crimson River City without saying anything else.

...

Outside Crimson River City.

Wu Tu, Xiao Xuan, Wu Xin, three experts from the Monster Army, and 5,000 soldiers from the Heavenly Army were gathered here.

"Xiao Xuan, how many groups should we split into? Which direction should we explore?"

Wu Tu asked, looking at Xiao Xuan.

In the past, he had personally arranged this job.

However, since the Feudal Lord had said that the other party would be in charge today, Wu Tu wanted to see what this little brother was capable of.

"How did Brother Wu Tu arrange it in the past?"

This was also Xiao Xuan's first time doing such a thing. He humbly asked.

"In the past, I divided the Heavenly Army into ten teams. Each team would send three to five experienced Cartographers and several experts to lead the team. Then, they would explore the unknown area and complete the mapping Quests."

"This is also the most efficient way of distribution."

Wu Tu said.

"Then I'll do it this way too."

Xiao Xuan immediately felt guilty.

Wu Tu was somewhat gratified when he saw this.

This little brother did not seem to be the kind of person who was proud of his talents.

He thought that the other party would not ask anything and would rashly make arrangements.

"I have some ideas on the direction of exploration..."

Wu Tu took out his map and prepared to share his opinions, hoping that his younger brother would take fewer detours.

Unexpectedly, this time, he did not even look at the map in Wu Tu's hand and directly took out another map.

This map was none other than the one he had given to Zhou Zhou after drawing it.

He did not expect his Lord to pass it to Xiao Xuan directly.

How much trust did His Lord have in him...

Wu Tu clicked his tongue.

Then, Xiao Xuan's actions stunned Wu Tu and the surrounding people.

The other party casually tapped his index finger on the map. Then, he closed his eyes and began to tap randomly. As he tapped, he said excitedly, "Point, point. I'll choose whoever I point at!"

When Xiao Xuan opened his eyes and saw the spot he had blindly chosen, he immediately took out a pen and marked it.

Then, he continued to choose blindly.

After blindly choosing ten points.

Xiao Xuan took the map and looked at the ten punctuation points on the map. He nodded in satisfaction and handed it to Wu Tu.

"Brother Wu Tu, let our ten teams from the Heavenly Army explore according to the location I marked!"

He said confidently.

The surrounding people fell silent when they saw this scene.

Even the three experts of the monster army who had just joined widened their eyes at this scene.

"Xiao Xuan, are you serious?"

Wu Tu could not help but say.

He was able to become the general of the Heavenly Army because of his young age because he had rich and comprehensive Cartographer knowledge.

And what was this little brother doing just now?

Was he pointing blindly?

He had been a Cartographer for so long, but this was the first time he had seen such an absurd method of determining the location.

"Brother Wu Tu, don't you trust me?"

Xiao Xuan pretended to be dissatisfied.

Actually, his heart was beating like a drum.

However, this was how he made decisions in the past. Moreover, there was a high chance that it would bring him unexpected benefits.

He wasn't a professional Cartographer. Without professional knowledge, he could only use this method to give his "Command" to the greatest extent.

Wu Tu and the others fell silent and nodded.

They believed in their Lord's choice!

His Lordship must have made the right choice!

Everyone present and the monster general believed in these two words.

Wu Tu did not say anything else, he started to arrange the teams, and then began to explore separately according to the location on the map that Wu Tu had marked.

Xiao Xuan followed Wu Tu and Wu Xin's team.

A moment later.

500 Mechanostriders descended from the sky and slowly landed on a blood-colored land that they had never seen before.

This was a dense forest, but the trees had already withered. There was no green at all.

Perhaps it was because the soil that nurtured them was blood soil, but even the trunks of these withered trees were blood-red.

Wu Tu ordered the soldiers to split up and explore this place.

After a long time.

The Heavenly Army that had been sent out to explore returned one after another to report to Wu Tu.

Unfortunately...

This was a wasteland.

Not to mention the Lords of the ten thousand races.

He couldn't even see a wandering fog monster.

"Brother Xiao, are you sure there's something good here?"

Wu Tu looked at him.

"That's impossible. I feel that something good will happen in this direction. Could there really be an accident..."

Xiao Xuan muttered.

It wasn't like this hadn't happened before.

After all, his talent was only the Blessing of the God of Fortune, not the arrival of the God of Fortune.

There would always be situations where nothing good happened.

When Wu Tu and Wu Xin heard this, they sighed and did not say anything. Instead, they specially headed to other marked places to explore.

At this moment,

Xiao Xuan suddenly let out a soft exclamation before raising his leg to look at his feet.

He was stunned. Then, he pulled out a snow-white arm bone from the blood soil under his feet. There was a blood-colored crystal on the arm bone.

"Why does this blood-colored crystal look familiar?"

Xiao Xuan frowned.

On the other side.

When Xiao Xuan grabbed the arm bone and discovered the blood-colored crystal on it, Wu Tu and Xiao Xuan, who had also seen it, immediately quietened down and looked at the blood-colored crystal in a daze.

Wasn't this...

Did the Feudal Lord specially remind them to pay attention to the Blood Crystal of the End during the meeting just now?

This little guy dug it out from under his feet just like that?

Ah!?

...

Two hours after the Heavenly Army went out to explore.

Crimson River City.

In a military tent.

Zhou Zhou and Bai Yun were discussing today's arrangements.

At this moment,

A soldier hurried over.

"My Lord!"

"Deputy Commander Wu and the others are back."

He said respectfully.

"Let them in."

Zhou Zhou said.

"Yes!"

The soldier said respectfully.

Then, he left the tent.

Soon.

Wu Tu, Wu Xin, and Xiao Xuan entered the tent and came to Zhou Zhou.

"Greetings, my Lord!" x3

The three of them said respectfully.

However, their expressions were a little strange.

Among them, Wu Tu and Wu Xin looked like they were doubting their lives. Only Xiao Xuan was acting smug.

Zhou Zhou didn't think too much about it and directly asked,

"How did the exploration go?"

"...Reporting to my Lord, we've explored a total of 5,000 kilometers in this exploration. In this range, we've discovered a total of 32 Scarlet Lord territories, 16 Lord positions, two Final Blood Crystals, an Epic-Tier Skill Scroll, and a card with unknown abilities."

Wu Tu replied with a dazed expression.

Zhou Zhou nodded.

Then, he suddenly realized something.

Zhou Zhou: ???

[\*\*Global Lord: 100% Drop Rate\*\*](#)

**Chapter 385: Final Item: Medium Sized Basic Elemental Gem Mine!**

At this moment.

Zhou Zhou even wondered if he had heard wrongly.

However, looking at Wu Tu and Wu Xin's expressions, he knew that he had not heard wrongly.

"This package contains the results of our exploration."

"This is the map we completed after our exploration."

Wu Tu also came back to his senses and handed over a package and a map.

Zhou Zhou took it and did not immediately look at the contents of the package. Instead, he looked at Wu Tu.

"How did you do it?"

Even though Zhou Zhou asked that,  
he already had a vague guess in his heart.

As expected,

Wu Tu said with a bitter smile,

"This is all thanks to little brother Xiao Xuan."

"We only followed little brother Xiao Xuan's instructions and discovered so much."

Then, Wu Tu told him about Xiao Xuan's "casual punctuation" on the map.

With a complicated tone, he told her what had happened.

Previously, he had thought that Xiao Xuan's punctuation on the map was just a reckless act.

But after experiencing what happened just now, he realized that the clown was actually himself.

Compared to the other party's ability,

The Cartographer ability that he was so proud of was nothing!

Zhou Zhou clicked his tongue in wonder when he heard that.

How could he not know?

It was all thanks to his two talents—Danger Prediction and Blessing of the God of Fortune!

The former allowed him to sense the location of the fog monster faction and the Lord of All Races.

The latter could allow the other party to vaguely touch the location of treasures like the Blood Crystal of the End.

That was why he did such an incomprehensible thing in front of Wu Tu, Wu Xin, and the others.

He had made the right decision to bring the other party to The Final Battlefield.

Zhou Zhou thought to himself.

Then, he looked at the map.

After he opened the map and looked at it carefully for a while, he raised his eyebrows.

The position of Lord of All Races was not too surprising.

They were all Lords who could not defeat him.

He still did not know how big The Final Battlefield was after all.

However, the battlefield that could accommodate billions of Lords was definitely not small.

Under such circumstances, as a top-notch Lord, the probability of Zhou Zhou meeting other Lords who were comparable to or even stronger than him was very small.

At the current stage of the Final Battlefield.

As long as he was careful and did not provoke those powerful enemies.

It was not an exaggeration to say that he could run amok.

It was precisely because of this that it was naturally the forces of the fog monsters that caused him to frown in surprise.

He realized that there were actually two Extraordinary-Tier Scarlet Lord Territories among the 32 Scarlet Lord Territories on the map!

There was even an Epic-Tier Scarlet Lord territory adjacent to the two Extraordinary-Tier Scarlet Lord territories.

Epic-Tier Scarlet Lord's territory!

The Scarlet Lords who had such territories were at least at the Epic-Tier. There might even be Epic-Tier heroes in their territories.

Zhou Zhou knew that the current upper limit of his territory should be around the Extraordinary-Tier limit.

If he encountered a beginner kingdom,

like the Aurora Kingdom and Tahan Kingdom.

He might be able to try a dozen.

However, he was probably out of his capabilities against other Epic-Tier Scarlet Lord territories.

"I definitely can't touch this Epic-Tier Scarlet Lord's territory!"

"I can't even touch these two Extraordinary-Tier Scarlet Lord territories!"

Zhou Zhou thought to himself.

He wanted to take down two Extraordinary-Tier Scarlet Lords' territories.

Zhou Zhou had to use all his strength.

In the environment of The Final Battlefield,

It was definitely impossible to use all his strength without holding back.

Steady!

It was Zhou Zhou's most important goal in the Final Battlefield!

Thinking of this, he looked at Bai Yun and Wu Xin.

"Now that we know the enemy's location..."

"Then send troops out to deal with them."

"If we encounter a human Lord, let's see if we can make him surrender and join our Blazing Sun Territory. If he insists on not surrendering, it won't be too late to destroy him."

"If you encounter a Lord that you can't deal with, avoid him first."

"Especially this Epic-Tier Scarlet Territory faction!"

"Don't touch the other two Extraordinary-Tier Scarlet Lord territories for the time being."

"We still have a lot of time. We're not at the stage where we have to fight the enemy to the death."

"As for the remaining fog monster factions, Lord factions of the myriad races, or other types of hostile factions,

"Once you discover that you can destroy it, you can take the initiative to destroy it!"

Zhou Zhou ordered.

The Final Battlefield was a dark forest.

Between the Lords of the myriad races, between the Lords of the myriad races and the forces of the fog monsters, there was only the relationship between Hunter and prey.

Once they met, unless he couldn't win, otherwise, he could just attack!

As for himself, there was no need for him to join the battle.

He would wait for the Lord's corpse to be sent over and collect the Loots himself.

"Yes, my Lord!"

Bai Yun and Wu Xin said solemnly.

Then, the two of them left.

When Zhou Zhou saw this, his gaze landed on Wu Tu and Xiao Xuan.

"Rest for a while and continue to lead the Heavenly Army to explore the surroundings."

"During the exploration, there must be Extraordinary-Tier experts following and protecting you."

"This is the battlefield of the Lords of all races. We have to be careful."

Zhou Zhou reminded the two youths seriously.

These two people.

One was the best Cartographer in his territory. He was mature and steady.

The other was the only True God-Tier talent in his territory!

In addition, the two of them were relatively young.

When Zhou Zhou looked at them, he more or less had the thoughts of an elder regarding a junior he admired.

That was why he cared so much about their safety.

"Yes, my Lord!"

Seeing that their lord valued them so much, the two of them were immediately touched and replied.

Zhou Zhou acknowledged.

After that, the three of them chatted for a while before Zhou Zhou returned to his temporary residence in the City Lord Manor. Wu Tu and Xiao Xuan also returned to the Heavenly Army to prepare for the next exploration.

...

In the City Lord Manor.

In a study room.

Zhou Zhou took out the package that Wu Tu had given him and took out the things inside.

Among them were two Final Blood Crystals, an Epic-Tier scroll, and a silver card.

Zhou Zhou first looked at the silver card.

It depicted a mountain of ores that emitted colorful lights.

[Final Item: Medium Sized Basic Elemental Gem Mine]

[Effect: After integrating this card into the territory stone tablet, the territory will have a medium-sized Elemental Gem Mine with a resource reserve of five million units.]

[Item Description: The ultimate resource item. It can allow large amounts of mineral resources to appear in the territory out of thin air.]

"I can actually directly obtain a medium-sized basic Elemental Gem Mine worth five million tons?"

"The amount of minerals..."

Zhou Zhou was stunned.

[\*\*Global Lord: 100% Drop Rate\*\*](#)

**Chapter 386: Small Shelter Talisman and Flesh Location Token!**

Basic Elemental Gems were currently the highest-level mineral resources he had come into contact with.

Previously, he had spent a large amount of Mist Cores to collect 40,000 basic Elemental Gems in order to build the special Diamond-Tier Intermediate Grade building, the Blood Jade Wasp Emperor Beehive.

And this card could actually directly give him five million units of basic gem resources.

Coupled with the corresponding construction resources and enough Blood Jade Wasp Emperor hive blueprints, he could even directly build 125 Blood Jade Wasp Emperor hives!

Thinking of this, Zhou Zhou could not help but take a deep breath.

The Final Battlefield was indeed a place filled with danger and opportunities.

He had just arrived here not long ago, but he had already obtained such a huge sum of wealth!

In this way...

Even if he did not obtain the position of the strongest Lord of the myriad races in the end, just this trip to The Final Battlefield was already a huge profit.

He calmed himself down and looked at the Epic-Tier scroll.

[Magic Scroll Name: Death Hurricane]

[Magic Grade: Epic-Tier Advance Grade]

[Magic Effect: Input energy into the scroll and summon a Death Hurricane that blots out the sky. The Death Hurricane will cause indiscriminate and crazy Devour to everything within a kilometer. It can cause huge damage to flesh and blood life forms below the Legendary-Tier. It will wander according to the user's wishes until the energy in the Death Hurricane is exhausted.]

Treasure Description: Created by a Legendary-Tier Mage. Later on, after an accident happened to the other party, the spatial bag was shattered by the other party before he died. The treasures and items inside drifted everywhere with the spatial turbulence. A small number of treasures entered the real world after a long time, but most of them were still floating in the endless darkness of the void.

"It actually records an Epic-Tier Advance Grade spell."

Zhou Zhou looked at the magic scroll in surprise.

However, after he finished reading it, he frowned.

It was actually a magic that attacked indiscriminately.

Then this magic was a double-edged sword.

If he used it well, he might be able to create shocking results for himself.

However, if he used it badly, perhaps even he would be destroyed.

After thinking for a long time, he put the scroll away solemnly.

'I'll worry about that later.'

In the end, his gaze landed on the two blood crystals.

He controlled the two drops of golden blood and placed them on each of them.

Then, the two blood crystals slowly melted and morphed, finally turning into a golden amulet and a blood-colored token.

Zhou Zhou looked at the golden amulet first.

[Final Item: Small Protection Talisman]

[Effect: When a living being with a Small Protection Talisman dies in The Final Battlefield, the life form will immediately revive.]

[Item Description: An extremely rare resurrection item on The Final Battlefield. It is desired by countless creatures on The Final Battlefield.]

[Note: This item can only be used on The Final Battlefield. After leaving The Final Battlefield, this item will temporarily lose its item Effect.]

"Good stuff!"

Zhou Zhou nodded slightly.

Even though he had Carol Moeli and other clerics who had mastered the Small Resurrection Spell and the Great Resurrection Spell, who would complain about having too many methods in this aspect?

Even if he didn't need it, he could use it to trade or give it to his friends.

In addition, he had another idea.

The Lord Talent was born because of the Lord.

Therefore, when the Lord died, his Lord Talent would also disappear.

Zhou Zhou could not guarantee it.

If he was suddenly assassinated one day, would Carol Moeli and the other clergymen of The Shelter of the Goddess of Life disappear at the same time?

After all, he had never tried it before and did not dare to try.

But if that really happened...

This small protective talisman was very important.

Moreover, he had to pay attention to finding other resurrection methods in the future to prevent any accidents.

For example, items like the Death Immunity Scroll.

Then, he looked at the last item.

[Final Item: Flesh Location Order]

[Effect: Using the flesh and blood of a life form as a medium, you can find the current location of that life form. Even if it's billions of miles away, you can still use this tool to find its existence.]

[Item Description: A tracking tool with outstanding Effects. How useful it can be depends on the user's imagination and strength.]

"It's good stuff, too."

Zhou Zhou looked at the last introduction thoughtfully.

He did not think too much about it and put it away.

This thing might be very useful in the future.

Then, he opened his Friend List, found Ling'er, and sent a message.

[Lord of The Blazing Sun: Are you in The Final Battlefield now? Did you encounter any danger?]

Soon.

Ling'er replied to the message.

[Spiritual Medicine Lord: Big Brother, I entered The Final Battlefield in seconds. Hehe, I haven't encountered any danger yet. I'm currently marching alone.]

[Spiritual Medicine Lord: Don't worry, Big Brother. Ling'er is no longer the Ling'er of the past. As long as I don't encounter a powerful Lord, I can handle the situation.]

Zhou Zhou nodded and relaxed a little.

Well, he could have given the Violent Storm Spirit the Class Change Certificate previously.

Ling'er also used this opportunity to nurture a thousand-man Violent Storm Spirit army. She even used the Violent Storm Spirit army to fight her way up to the White Platinum-Tier on the Lord Battlefield.

This level was already considered a very powerful Lord among the Lords of the myriad races!

Unless Ling'er's luck was really bad and she encountered a very strong Lord, there wouldn't be any problems in a short period of time.

Just as Ling'er had said.

She was no longer the little girl who only knew how to sell medicinal herbs.

With Ling'er's current strength, it was not a problem for her to crush 80% of the Human Lords on Cerulean Planet.

At this moment, Zhou Zhou suddenly thought of something.

He thought about it.

He typed to the other party.

[Lord of The Blazing Sun: Bring your men and retreat from The Final Battlefield. Then, come to my territory to meet me. I have something to verify.]

[Spiritual Medicine Lord: Okay.]

Ling'er agreed without hesitation and didn't even ask.

[Lord of The Blazing Sun: Okay.]

After that, Zhou Zhou did not return immediately. Instead, he spent a few minutes arranging the matters here and got the soldiers to camp here to wait for his return.

Then, he opened the Lord Battlefield—The Final Battlefield function and clicked on Back. Then, he chose to return alone.

A line of text appeared.

[Back in progress: 60, 59, 58...]

Zhou Zhou suddenly disappeared when the countdown reached.

...

Army Base, Blazing Sun City.

Zhou Zhou suddenly appeared.

When the soldiers in charge of patrolling saw their Lord suddenly appear, they were shocked and hurriedly bowed.

Zhou Zhou did not say anything when he saw this. Instead, he went straight to the Spatial Teleportation Array.

This Spatial Teleportation Array was the exclusive Spatial Teleportation Array that appeared out of thin air after he established a master-subordinate relationship with Ling'er's Spiritual Medicine City.

When Zhou Zhou arrived, he saw Ling'er and the 50,000 soldiers behind her appear from the Spatial Teleportation Array.

"Big Brother!"

Upon seeing Zhou Zhou, Ling'er immediately ran over to him and hugged his waist with a smile. She looked up at Zhou Zhou.

"Big Brother, I miss you so much!"

Zhou Zhou smiled and nodded.

After chatting for a while, Zhou Zhou told her the reason why he asked her to come back.

"I want to see if the Lords and Subjects of the subordinate territory can follow the army of the lord's territory to The Final Battlefield."

If that was the case, he might have to put the establishment of his Lord Alliance on the agenda as soon as possible.

[Global Lord: 100% Drop Rate](#)

**Chapter 388: The Excited Nong Chenglin!**

The originally lifeless territory of the Withered Forest Plains was actually planted with dense golden fruit trees.

At a glance.

There were hundreds of thousands of them!

They were none other than the Jade Sun Tree!

Zhou Zhou had obtained the Jade Sun Tree from the spoils of war of the Withered Tree Demon Lord.

As a specialty.

It could produce a Jade Sun Fruit similar to the Effect of the Life Potion.

Not only was the taste excellent, but the treatment effect was also excellent.

Moreover, as a specialty of the territory, it also brought astonishing fame and income to the Sun Region.

Even the Blazing Sun Rice created by Nong Chenglin was far inferior to the Jade Sun Fruit in terms of income!

In the various income channels that supported 500,000 soldiers, the income from selling the Jade Sun Fruit accounted for nearly 80%!

This was also why even though Zhou Zhou had left Mist Core behind to buy goods from the Lord Shop, Zheng Yuanqi still did not tell him about the financial constraints of the territory.

Nothing else.

The Jade Sun Fruit was too profitable.

Zheng Yuanqi often joked that the Blazing Sun Army was also known as the Jade Sun Army.

It could be seen how much his 500,000 soldiers relied on the income of the Jade Sun Fruit.

And this was not what Zhou Zhou valued the most.

What Zhou Zhou valued the most was that the Jade Sun Tree had the ability to resist the wind and solidify the sand, improve or even reverse the desert's soil, water, and environment.

Along the way, he had planted a large number of Jade Sun Fruits in any territory he saw.

With the help of the vast amount of Jade Sun Fruits, the territory of the Blazing Sun Territory had already undergone a tremendous change.

One of the most notable changes was that the desert ecological environment had decreased significantly, and more and more green vegetation had appeared on the land of the blazing sun.

At the same time.

The land in the scorching sun territory was also becoming more and more suitable for farming.

For example, the scene that Zhou Zhou was watching now.

At this moment, Nong Chenglin was farming on the land with more than 20 farmers.

Even though the number of farmers was small,

However, they were enough to farm the entire Withered Forest Plains.

This was because they were all using an alchemy technology product called an alchemy multi-purpose farm machine.

This kind of Alchemy Technology product was somewhat similar to the farming machines on the Cerulean Planet.

However, it was not created with Cerulean Planet's technology as the theoretical foundation, but with Alchemy Technology as the theoretical foundation.

It has many functions such as sowing, weeding, deworming, harvesting, and nursing.

Not only could it be used to grow food, but it could also be used to grow fruit trees, flowers, or other agricultural uses.

With such an alchemical multipurpose farming machine, farmers like Nong Chenglin could easily manage hundreds of acres of agricultural land a day.

Now that the Blazing Sun Region could plant so many Jade Sun Trees, this alchemy multipurpose farming machine had contributed greatly.

Nong Chenglin bought this Alchemy Technology from the Gnome City on his side.

Even though it was slightly expensive, it was still within Nong Chenglin's tolerance.

In addition, now that Nong Chenglin had joined the Sun Region, he was even more generous. Therefore, every farmer under him had an alchemy multipurpose farming machine.

With the enhancement of the Agricultural Expert Lord Talent, their Farmer Professionals level and strength could be said to be increasing at every moment.

At this thought, Zhou Zhou's heart skipped a beat.

The alchemy technology of this multi-purpose agricultural machine was not high. He could get one and let Wen Ya analyze it.

As long as they could analyze it successfully and replicate it, they could produce their own alchemy multipurpose farm machinery in the future.

It was impossible to sell them. He could only produce them and digest them internally.

The Gnomes and Dwarfs who controlled Alchemy Technology were not blind after all.

It was said that there was one or even several Empire-level factions protecting their interests behind them.

If they knew that their products had been pirated and profitable, they might have a large number of powerful enemies out of thin air.

That would not be worth it.

After watching for a while, Zhou Zhou and Hei Lei flew down and landed in front of Nong Chenglin.

"Greetings my Lord!"

Nong Chenglin was originally driving the farming machine leisurely. As he worked, he felt the increasing promotion energy in his body.

He liked this leisurely life very much.

When he saw Zhou Zhou and Black Thunder appear, he was shocked. Then, he hurriedly stopped the farming machine and came to Zhou Zhou.

Zhou Zhou did not say anything. Instead, he looked at the other party's farmer level.

Yellow Gold-Tier Elementary Grade farmer!

Zhou Zhou raised his eyebrows.

The last time he looked at the other party's agricultural level, it was only Green Bronze-Tier Intermediate Grade.

Good God!

It had only been a few days, but he had actually directly surpassed White-Silver Tier and advanced to Yellow Gold-Tier Elementary Grade.

It was even more exaggerated than the increase in his strength.

Zhou Zhou did not hide his doubts and asked directly.

Nong Chenglin immediately replied excitedly.

"This is all thanks to the Jade Sun Tree seed that our Lord provided us previously."

"I have the Lord Talent of an Agricultural Expert. I can obtain promotion energy by doing agricultural activities normally."

"After obtaining the Lord's Jade Sun Fruit, we went through farming and discovered that planting this specialty-level crop provided us with more than ten times the promotion energy provided by ordinary crops!"

"After we discovered it, we spent every day planting Jade Sun Fruits and Blazing Sun Rice. That's why my farming level increased so much."

Zhou Zhou was a little surprised.

Local specialties that are effective on farmers?

He didn't think too much about it and changed the topic.

"Is the Lord going to establish the Lord Alliance?"

When Nong Chenglin heard this, he immediately trembled with excitement!

Before he became Zhou Zhou's subordinate territory, he, like many other Lords of Cerulean Planet, had thought of these two problems.

When would the Lord of The Blazing Sun establish his own Lord Alliance? He wouldn't be a lone Lord for the rest of his life, right?

Back then, he had watched this matter with the mentality of watching a show.

It was naturally different now.

Because he was the Lord of The Blazing Sun's subordinate!

It was one of their own!

Once the Lord of The Blazing Sun announced that he was going to establish the Lord Alliance, with his unparalleled influence, he would definitely have countless Lords following him!

When the time comes...

Dragon Blood Alliance, Undead Alliance, Overlord Association, Cerulean Planet Military Industry Alliance...

In front of the Lord of The Blazing Sun's Lord Alliance, they had to call him daddy!

At that time.

As the second Lord to become the Lord of The Blazing Sun's subordinate territory, he might even get a high position in the Lord of The Blazing Sun's Lord Alliance!

A Life Profession Lord becoming a high-level member of the Alliance of the Strongest Lords on Cerulean Planet?

Nong Chenglin was excited just thinking about it.

Zhou Zhou looked at him speechlessly.

With his high-level telepathy, he could clearly sense what the other party was thinking.

However, if his Lord Alliance was really established, he would really give the other party and Ling'er two high-level positions.

After all, the other party was loyal enough and could be considered diligent in doing things. He had made a huge contribution to the improvement of the ecological environment of his territory.

Zhou Zhou was not someone who would kick someone to the curb when they've outlived their usefulness. Naturally, he was willing to return the favor.

"My Lord! I'll contact the Lords I know who specialize in Life Professions."

"Among other things."

"I should be able to recruit eight to ten Lords with the Life Type Lord Talent."

Nong Chenglin patted his chest and said confidently.

Ever since the Lords on the World Channel found out that he had become the Lord of The Blazing Sun's subordinate territory, a large number of Lords contacted him in private every day to ask him all sorts of questions.

Nong Chenglin naturally knew his limits. He would say what he should say and not reveal anything he shouldn't say.

Among the Lords who were looking for him, most of them were Lords who specialized in Life Professions like him.

Therefore, what he said was really not bragging.

Zhou Zhou looked at him in surprise and nodded.

"There's no hurry."

"I'll tell the world channel that I'm going to establish the Lord Alliance."

With that...

He opened the World Channel and started typing.

[\*\*Global Lord: 100% Drop Rate\*\*](#)

**Chapter 389: Excited Lords Of The Cerulean Planet!**

Zhou Zhou opened the message. The content was naturally about how he needed to recruit Lords who specialized in Life Profession to establish the Lord Alliance.

However, he suddenly thought of something and fell into deep thought halfway through.

It was very easy to recruit Lords who specialized in Life Professions.

With Nong Chenglin around, it was not a problem to recruit 10 to 80 Lord Talents with Life Profession.

But what should he do after that?

Could it be that he had to take the initiative to be a firefighter once they needed help in a Difficult situation?

In that case, it would be fine if there were few subordinate Lords in the Lord Alliance. He had many soldiers and should be able to deal with them.

But what if there were thousands of them?

He could not be a firefighter every day. Then would he be able to develop?

He could be a firefighter.

But he had to pay attention to the method.

He thought for a while and suddenly thought of an idea.

Then, he typed again and sent it directly to the world channel.

[Lord of The Blazing Sun (Glory of the Pioneer III) (Strongest Novice Lord): Lords of Cerulean Planet, now that The Final Battlefield has been activated, I'm prepared to establish a Lord Alliance and conquer this battlefield together. Currently, I'm only recruiting Lords who specialize in Life Professions. Lords who are good at this can sign up with my subordinate territory, the Fertile Land Lord.]

[Lord of The Blazing Sun (Glory of the Pioneer III) (Strongest Novice Lord): I would like to remind you that if you want to join my Lord Alliance, you have to sign the Master-Servant Territory Contract and become my subsidiary territory. This way, it will be easier for us to support each other. Secondly, it can also be used as insurance. I don't want to protect an ingrate after all.]

[Lord of The Blazing Sun (Glory of the Pioneer III) (Strongest Novice Lord): This condition might be a little harsh, so please consider it carefully.]

[Lord of The Blazing Sun (Glory of the Pioneer III) (Strongest Novice Lord): In addition, when signing up, try your best to tell us your advantages in Life Professions, such as what kind of Life Profession Lord Talent you have, or what outstanding Life Profession Subjects or other advantages you have. You can sign up as long as you meet our requirements.]

[Lord of The Blazing Sun (Glory of the Pioneer III) (Strongest Novice Lord): If there are too many registrations, I might not have enough Master-Servant Territory Contracts in my hands, so we might choose the best from them and enter them. Therefore, please don't try your best to hide your advantage.]

Zhou Zhou was also worried that some outstanding Lords liked to develop in a low-profile manner and were unwilling to show themselves. They might be missed by him, so he specially mentioned it at the end.

However, his worries were clearly unnecessary.

Most of the Lords on the World Channel were billions of miles apart, so they were not worried that they would be killed by the other Cerulean Planet Lords from billions of miles away after their secret was exposed.

In addition, the person who recruited the Lords this time to establish the Lord Alliance was the number one Lord on Cerulean Planet—the Lord of The Blazing Sun!

To Life Profession Lords, the Lord of The Blazing Sun was already at the top.

He could even fight with top Lords for the position of the strongest Lord of all races!

How could an existence of this level take a fancy to the secret of the other smaller Lords?

Therefore, when Zhou Zhou posted these three paragraphs on the World Channel, the Lords on the World Channel instantly went crazy.

[F\*ck, f\*ck, f\*ck, f\*ck! Big Boss Blazing Sun is actually going to establish a Lord Alliance! Big Boss!!! I want to join! (Screaming at the top of my lungs)]

[I'm shocked. I thought that the Lord of The Blazing Sun would always be a loner Lord. I didn't expect him to suddenly establish a Lord Alliance at this time! Join +1!]

[Big Boss Blazing Sun, even though I'm not a Life Profession Lord, I'm willing to change the direction of my territory's development for you!]

[Boohoo, someone is finally willing to take in a Life Profession Lord! Big Boss, I want to join!]

[As a Life Profession Lord, I've finally seen someone willing to recruit a Life Profession Lord today. I'm touched. I want to join too.]

[Why must I sign the Master-Servant Territory Contract? Can't I be a peripheral member of the Alliance...]

[The more people there are, the more things there will be. It's the same for our surroundings. Just like how I'm staying in this Lord Alliance now. To be honest, there are quite a lot of people and they look quite scary, but it's chaotic internally. The Alliance Master doesn't have much dignity either. He's also dawdling about supporting each other. I don't even want to say it, so I can quite understand Big Boss's thoughts.]

[Since the initial goal of establishing the Lord Alliance is to fight in The Final Battlefield, why don't you recruit Lords who specialize in combat?]

[Previous poster, use your smart brain to think. With Big Boss Blazing Sun's strength, do you need someone to help him when he fights? It's already good enough if he doesn't help. I reckon that Big Boss Blazing Sun is recruiting Lords who specialize in Life Profession because he lacks Life Profession products. He might even want to form his own logistics organization.]

[It's a pity that the Lord Alliance I wanted to join the most back then was the Lord Alliance of The Blazing Sun. It's a pity that the Lord of The Blazing Sun never established the Lord Alliance. I joined the Dragon Blood Alliance after that... Is it too late to withdraw from the Alliance now?]

[Leave the alliance +1!]

[Leave the alliance +1!]

[Leave the alliance +1!]

...

The higher-ups of the Lord Alliance, who were also watching the show, immediately panicked when they saw this scene.

F\*ck, he only mentioned that he wanted to establish the Lord Alliance. This hasn't even begun and you're already withdrawing from the alliance. Wouldn't you suffer a double loss if you weren't chosen in the end?

Are you guys stupid!

There was no need to be so proactive even if you wanted to be a dog!

Some of the higher-ups of the Lord Alliance cursed in their hearts as they shouted for someone to see if anyone in their Lord Alliance had withdrawn.

When they realized that someone had really left the alliance, they cursed even more fiercely in their hearts.

They did not dare to scold them on the World Channel.

Even though the Lords had recently realized that the Lord of The Blazing Sun might have reduced the frequency of blacklisting Lords because he was busy, no one wanted the candidate to blacklist them next time.

No choice.

The goods sold by the Lord Alliance every day were too fragrant.

They didn't want to bid farewell to the Lord of The Blazing Sun forever just because of some squabbles.

At the same time...

The Lord of The Blazing Sun also saw the question raised by the Lord on the World Channel.

However, he smiled and did not choose to explain.

He naturally had the idea of modifying the Life Profession Lords he recruited into his logistics organization.

However, other than that, he did want to bring these Life Profession Lords into the Myriad Races Lord Battlefield.

In the future, when they encountered danger, Zhou Zhou was confident that they would rely on his strength to protect him and not call for help.

As for the reason...

He would naturally know why he had such confidence after those Life Profession Lords joined.

When the time comes...

It was guaranteed to surprise them.

Then, he hung up a free transaction on the Marketplace with the content he had just posted on the World Channel.

This way, even if the comments on the World Channel were farmed, the comments here would be seen permanently.

Perhaps it was because the fact that the Lord of The Blazing Sun wanted to establish the Lord Alliance was too shocking; the free transaction he posted reached the top of the Marketplace in less than a minute.

More and more Lords knew about this, and the impact of this matter was increasing.

The Overlord Lord's territory.

Xiang Xueba could not help but frown when he saw Zhou Zhou's free transaction.

"This guy... is also establishing his own Lord Alliance?"

He muttered to himself.

Ever since the Lord of The Blazing Sun reached the third place on the Lord of All Races Ranking, no matter how proud he was and how much he thought that he could become the top Lord of All Races with his Lord Talent, he had to admit that there was a huge difference between him and the Lord of The Blazing Sun.

This difference could not even be made up for in a short period of time.

And now, the Lord of The Blazing Sun was going to establish his own Lord Alliance. Once he succeeded, there was no doubt that the other party would definitely widen the gap between them.

Thinking of this, Xiang Xueba's expression was a little gloomy. He clenched his fists tightly and made cracking sounds.

"Original Spirit Race... Chaos Gods Race... Shepherds God Race..."

"If only I could eat one from each race."

"With my Gluttonous Demon Body, I might be able to obtain their racial talent. At that time, I can soar into the sky."

"At that time, even the Lord of The Blazing Sun wouldn't be able to stop my rise."

Xiang Xueba narrowed his eyes and took a deep breath.

[\*\*Global Lord: 100% Drop Rate\*\*](#)

**Chapter 390: Top-Tier Lords Joining!**

Talk was cheap.

He did not even know where the Lords of these three Races were.

Even if he knew...

He did not dare to look for the other party rashly.

After all, with the strength of their top Race, they might easily destroy him when they saw an unfamiliar Lord approach.

"I can only wait for an opportunity that belongs to me."

"And then..."

"Leap into the sky."

Xiang Xueba muttered to himself.

He was not a stupid Lord who dared to go out and fool around just because he had a little strength.

He also knew how to be like the Lord of The Blazing Sun, who had the heart of an overlord and lived in seclusion.

As for the difference between him and the Lord of The Blazing Sun...

He could only force himself not to think about it.

Otherwise, it would easily damage his confidence.

...

The Military Industry Lord's territory.

"The Lord of The Blazing Sun has finally established his own Lord Alliance."

The Military Industry Lord sighed.

Even though he had not interacted much with the Lord of The Blazing Sun, he knew from these rare interactions that he was definitely a smart person.

Smart people would never fight alone.

Therefore, he had expected this.

"The Lord of The Blazing Sun became the number one Lord on Cerulean Planet without the help of a Lord Alliance."

"What level will he reach with the help of the Lord Alliance?"

"The thought of becoming enemies with such people in the future... is so annoying!"

"I really want to join in."

The Military Industry Lord smiled bitterly.

...

The Green Phoenix Lord's territory.

A divine bird more than 300 meters tall with wings as green as the sky was standing on a tall building and looking at the World Channel.

She was the Green Phoenix Lord who had once fought alongside Zhou Zhou on the Lord Battlefield.

At this moment, she had manifested her Green Phoenix Immortal Body. Countless citizens were worshiping her from below, their eyes filled with reverence.

After the Green Phoenix Lord occasionally showed her divinity like this, she realized that her Subjects would increase their loyalty to her. Seeing this, she often manifested her immortal body.

However, the Subjects gradually became used to it as the frequency increased.

However, she was not tired of it.

This was because she realized that this could allow her to gradually awaken more of the Green Phoenix Race's Race inheritance in her bloodline.

She gradually began to enjoy the feeling of becoming stronger. Later on, she did not care too much about increasing the loyalty of the Subjects.

"The Lord of The Blazing Sun is finally going to establish his own Lord Alliance."

"My previous prediction was indeed right."

The Green Phoenix Lord thought to herself when she saw the Lord of The Blazing Sun's statement on the World Channel.

Just like the Military Industry Lord, she felt that the Lord of The Blazing Sun would establish his own Lord Alliance in the future.

She was even a little excited that she saw that it was indeed as she had thought.

It was like winning a bag of washing powder from the lottery ticket she bought.

Unlike most other Lords, when the other Lords saw that the Lord of The Blazing Sun was constantly becoming stronger, they would more or less be worried that he would be too strong and come knocking on their door one day even if they felt that he was far away and wouldn't be able to hurt them in a short period of time.

However, the Green Phoenix Lord did not think so at all.

This was because she was infatuated with the feeling of increasing her strength and awakening the ability of the Green Phoenix Immortal Body.

She felt that she was simply like the legendary immortal cultivation.

This was indeed the case.

Her Green Phoenix Immortal Body originally came from the Immortal World.

When she grew to the extreme, she could completely return to the Immortal World with a thought. It would not be a problem for her to become an immortal and an Ancestor.

At that time, even True Immortals would have to call her Fellow Daoist.

It was precisely because of this dream that gradually, she did not care much about the Lord's status anymore. She only cared about how to increase her strength and bloodline level faster.

Sometimes, she even felt that her status as a Lord was a burden on her path to immortality.

That was because she had a faint feeling that if she could develop this delicate body to the extreme, the power of the Green Phoenix Immortal Body would completely escape the comfort of the Territory Token and truly belong to her.

When the time comes...

She would still have the Green Phoenix Immortal Body even if she lost her status as a Lord.

In her current state, she naturally did not care if the Lord of The Blazing Sun was strong.

At this moment, she thought of what the Lord of The Blazing Sun had just said and suddenly had an idea.

"Maybe"

"I can try to become their subsidiary territory..."

She began to seriously consider the possibility of this.

...

On the other side.

After Zhou Zhou announced this free transaction at the Marketplace, he went to look at the number of Master-Servant Territory Contracts he currently had.

He realized that he had a total of 21,531 Black Iron-Tier Master-Servant Territory Contracts, 295 Green Bronze-Tier Master-Servant Territory Contracts, 56 White Silver-Tier Master-Servant Territory Contracts, eight Yellow Gold-Tier Master-Servant Territory Contracts, and one White Platinum-Tier Master-Servant Territory Contract!

Among them, Black Iron-Tier Master-Servant Territory Contracts were the most common. After reaching the Green Bronze-Tier Master-Servant Territory Contract, the number suddenly decreased.

The reason was...

Firstly, it was because as long as the Lords advanced to the Green Bronze-Tier Elementary Grade, they would have completed the basic goal of this Myriad Races Lord Battlefield event.

Therefore, many Lords did not have the motivation and courage to continue climbing the rankings after reaching the Green Bronze-Tier. This created a huge difference in the number of the two.

Secondly, the ranking points at the lower end were precious after all, and there were many good things to exchange for. Therefore, very few people would choose to buy useless items like the Master-Servant Territory Contract that could not increase their strength in a short period of time.

Thirdly, the other top-notch Lords had also collected Master-Servant Territory Contracts to build their own Lord Alliance.

Therefore, this created billions of human Lords. Zhou Zhou only received so many Master-Servant Territory Contracts.

Moreover...

"Most of the surviving Lords have probably already reached the Green Bronze-Tier or even White Silver-Tier."

"This Black Iron-Tier Master-Servant Territory Contract is probably useless to the Lords of all races."

"However, it can also be used on the local Lords of the High Continent."

Zhou Zhou thought.

Countless new Lords would appear in the High Continent every day.

He was not worried that this thing would be useless.

At this moment,

He suddenly realized that the Fertile Land Lord beside him was flushed with excitement.

"My Lord!"

"More than two million Lords want to join the Lord Alliance you want to establish!"

"Oh my god, this number! If we absorb them all, we can definitely surpass the Dragon Blood Alliance, the Overlord Association, and the Military Merit Alliance

and become the Strongest Cerulean Planet Lord Alliance there is today!"

He was extremely excited.

Zhou Zhou raised his eyebrows, feeling a little surprised.

Were so many Lords willing to be Lords of subordinate territory?

He thought that Lords were all unruly people.

At this moment, he suddenly realized that his Friend List was flashing.

He opened it and saw a message from the Green Phoenix Lord.

[Green Phoenix Lord: Big Boss Blazing Sun, can I join your Lord Alliance? I'm also a Lord who specializes in Life Professions.]

Zhou Zhou: "..."

[Lord of The Blazing Sun: Guess if I believe you?]

[Green Phoenix Lord: Really. I just announced that my territory will develop in the direction of specializing in Life Professions in the future. It's very reasonable for me to call myself a Lord who specializes in Life Professions now, right?]

Zhou Zhou: "..."

Then, the two of them chatted for a while. After Zhou Zhou confirmed that the other party was not joking and really wanted to join, he directly asked the other party's territory level and happily sent her a White Silver-Tier Master-Servant Territory Contract.

He might have previously said that he wanted to recruit Lords who specialized in Life Professions, however, he could naturally make an exception for a top-notch Lord like the Green Phoenix Lord.

A smile appeared on Zhou Zhou's face after the two of them officially signed the Master-Servant Territory Contract.

He did not expect to have such a surprise as soon as he established the Lord Alliance.

He wondered what the final results would be like today?

Zhou Zhou thought expectantly.
