#### Chapter 391: Sharing Talents!

After thinking for a while, Zhou Zhou returned to the notification of the Master-Servant Territory Contract in front of him.

Now that he had already signed the Master-Servant Territory Contract with the Green Phoenix Lord, the other party was basically half one of his own. Then, he should consider what Lord Talent he should share with the other party.

He thought for a while and did not make a decision immediately. Instead, he wanted to ask the other party a question first.

[Lord of The Blazing Sun: You can be considered a top Lord among the Lords of Cerulean Planet. Why do you suddenly want to become my subordinate territory?]

He could understand why other Lords were willing to become Lords of his subordinate territory because they were weak and could not deal with the dangers caused by the test issued by reality or the Supreme Will.

As the owner of the Epic-Tier Lord Talent— Green Phoenix Immortal Body, the Green Phoenix Lord could be said to have a bright future. Why was the Green Phoenix Lord suddenly willing to submit to him and become the Lord of his subsidiary territory?

[Green Phoenix Lord: Hehe, I thought my Lord would ask before signing the Master-Servant Territory Contract. How is it? Now that I suddenly think of this, do you think I might have a bad motive for being willing to become your subordinate territory? Aren't you a little flustered?]

When Zhou Zhou saw the other party's reply, he narrowed his eyes and did not reply immediately.

Flustered?

I have the Peace And Prosperity Lord Talent. Even if you're the world's largest traitor, you have to be loyal to me if you stayed for more than 10 days. Why should I be flustered?

On the other side.

Seeing that the Lord of The Blazing Sun did not reply, the Green Phoenix Lord stopped teasing him and told him the real reason why she had joined him.

It was also because her heart was no longer developing in the territory. Instead, she wanted to devote herself to increasing her strength and evolve her Green Phoenix Immortal Body into a complete body.

[... That's why I was thinking of following closely behind heavy-laden wagons. With my Lord around, even if I don't care about the territory, the Subjects of the territory shouldn't have much of a problem.]

[This way, I can focus on increasing my strength and the awakening of my Green Phoenix Immortal Body's bloodline.]

The Green Phoenix Lord said.

Zhou Zhou: "..."

Good God!

I've been a hands-off boss for so long, but this is the first time that someone wants to use me as a hands-off boss!

However, he was not angry.

This was not a bad thing for him after all. Instead, he had obtained a top-notch combat strength for nothing!

This also indirectly proved his influence among the Lords of Cerulean Planet.

Otherwise, if other Lords wanted to be left to the Green Phoenix Lord, the Green Phoenix Lord would not fancy them.

[Lord of The Blazing Sun: What can you do to increase the development speed of your Green Phoenix Immortal Body?]

Zhou Zhou thought for a moment and asked.

[Green Phoenix Lord: As long as I constantly increase my strength level, the degree of bloodline awakening of my Green Phoenix Immortal Body will naturally increase. Other than that, some natural treasures that are beneficial to developing my bloodline can also speed up the awakening of my bloodline.]

Zhou Zhou nodded.

Then he understood.

He directly shared the Yellow Gold-Tier Blessing of the Ten Gods— The Blessing of the War God—with her.

As for the complete White Platinum-Tier bodies, they could not be shared.

The Lord Talent shared with the subordinate territory could not be higher than or equivalent to the Lord Talent of the main territory.

...

On the other side.

The Green Phoenix Lord was also curious about what Lord Talent the Lord of The Blazing Sun would share with her.

The Lords of Cerulean Planet had been very curious about the Lord Talent of The Blazing Sun since a long, long time ago.

Was he finally going to reveal this secret today?

The Green Phoenix Lord was quite expectant and excited.

At this moment, the text notification she had been waiting for appeared in front of her.

[Your Lord of the Main Territory has shared with you a Yellow Gold-Tier Lord Talent - Blessing of the Ten Gods - Blessing of the War God!]

[You can check the specific information of this Lord Talent.]

The Green Phoenix Lord was stunned.

Blessing of the Ten Gods Lord talent?

Some Lords had already made a rough statistic on the Lord Talent of the Cerulean Planet on the World Channel. Therefore, a Lord Talent summary list appeared.

This summary list recorded many Lord Talents.

The Green Phoenix Lord had also seen this summary list. With her extremely strong memory, she naturally had an impression of this famous Blessing of the Ten Gods Lord Talent.

He actually had this Lord Talent?

She did not care about it being Yellow-Gold Tier.

She naturally knew that the Lord of the main territory could control Crowd Control to share the level of the Lord Talent.

However, she had only just joined the territory of the Lord of The Blazing Sun. What did she do to earn the right for him to give her the highest-level shared talent?

Because of her beauty?

It was true that she was beautiful, but she believed that the Lord of The Blazing Sun was not a shallow person.

She stopped thinking about it and looked at the shared Lord Talent.

When she finished reading, her eyes widened.

"... After you and your combat-type Professionals kill the enemy, you will obtain an additional 1,000% promotional energy..."

"10 times promotional energy..."

The Green Phoenix Lord was dumbfounded.

This is a f\*cking Yellow Gold-Tier Lord Talent?

Such a ridiculous Yellow Gold-Tier Lord Talent?

Which meant...

The development speed of the territory of whoever had this Lord Talent would increase by 10 times!

Ridiculous!

This was the only thought in the Green Phoenix Lord's mind.

Then, she was overjoyed.

Nothing else.

This Lord Talent was simply too suitable for her!

Her strength would definitely increase quickly in the future with this Lord Talent that accelerated his strength growth. Moreover, the awakening of the Green Phoenix Immortal Body's bloodline would definitely increase quickly.

The choice of joining the Lord of The Blazing Sun and becoming his subordinate territory was really going for her!

The Green Phoenix Lord felt that this was the wisest decision she had ever made!

At this moment, the Lord of The Blazing Sun sent a message.

[Lord of The Blazing Sun: Are you satisfied with the shared Lord Talent?]

[Green Phoenix Lord: Satisfied! I can't be any more satisfied!]

[Lord of The Blazing Sun: I still have to remind you that as Lords, the main way for us to increase our strength is still to rely on the Subjects. Have you really thought it through carefully giving up your territory's Subjects like this?]

[Green Phoenix Lord: I've already thought it through very clearly. Moreover, my Lord, you might not know the situation in my territory very well. There are very few Professionals Subjects with combat strength in my territory. Until now, there are less than 500 combat-type Professionals among the Subjects in my territory.]

[Green Phoenix Lord: So far, I'm the one who resolved almost all the dangers I've encountered along the way single-handedly. Even the novice Lord test and the Myriad Races Lord Battlefield activities were mostly done by me alone.]

[Green Phoenix Lord: Therefore, it's better for me to enjoy it alone than to rely on their promotional energy to increase my strength.]

Zhou Zhou could not help but fall silent when he saw the other party's words.

As a top-notch Lord, the Green Phoenix Lord actually had less than 500 Professionals Subjects under her command?

He seemed to have reached this number on the third day he came to the High Continent, right?

This way, it was no wonder that the other party did not believe that her Subjects could help her level up and only believed in her strength.

He would only believe in his own strength if it was him who experienced such a situation.

But then again, the fact that the Green Phoenix Lord's territory could thrive with her abilities alone showed how powerful the Green Phoenix Immortal Body was.

[Global Lord: 100% Drop Rate](#)

**Chapter 392: The Star Alliance!**

[Lord of The Blazing Sun: I understand. Then what are your plans next?]

[Green Phoenix Lord: I naturally followed you to the Lord Battlefield and fought in it.]

This Green Phoenix Lord's thoughts changed very quickly. She had just become the Lord of his subordinate territory and had already called him Lord several times.

[Lord of The Blazing Sun: Then come over now. Just come through the Spatial Teleportation Array.]

[Green Phoenix Lord: Alright!]

[Green Phoenix Lord: Um... My Lord, can I ask what the Effect of the Blessing of the War Master God-Tier in your territory is?]

Zhou Zhou naturally would not fool her. He directly said that he would obtain 2,000% additional promotion energy.

When the Green Phoenix Lord heard this, her eyes lit up with envy.

An additional 2,000% promotion energy!

If she could also enjoy it, her growth speed would directly increase by 20 times!

Unfortunately...

She had yet to completely master the Green Phoenix Immortal Body. Otherwise, she would definitely give up her status as a Lord and directly join the Lord of The Blazing Sun.

On the other side.

After chatting with the Green Phoenix Lord,

Zhou Zhou sent a message to Ling'er and asked her to return to Blazing Sun City to see her second 'colleague'.

Then, he looked at Nong Chenglin.

The other party was still busy accepting friends and adding them one by one.

After Zhou Zhou told the other party what had happened, he gave the other party a Shadowless Wings and flew back to the Blazing Sun Territory with him and Black Thunder.

...

Blazing Sun Territory.

When Zhou Zhou and the others returned, they saw that Ling'er was already chatting with the Green Phoenix Lord.

The Green Phoenix Lord was slender and tall. Her facial features were exquisite, and her skin was as fair as snow. Her entire body emitted a faint fluorescent light that was filled with vitality.

She was wearing a gorgeous green dress and looked natural and unrestrained. Her temperament was also immortal. She looked like a fairy that had descended to the mortal world.

Zhou Zhou was also stunned for a moment when he first saw her. However, he was not a pig who could not walk away just because he saw a woman. His expression quickly returned to normal and he walked over with a smile.

When Zhou Zhou walked over, the Green Phoenix Lord's sharp perception immediately discovered his existence.

However, when she looked over, she was stunned.

This...

There was actually such a handsome man in the world?!

The more she looked at Zhou Zhou, the more engrossed she became. Her eyes were about to turn red. The Green Phoenix Immortal Robe woven from the power of the Green Phoenix on her body fluttered, as if she was alarmed by Zhou Zhou's handsome appearance.

When Zhou Zhou saw the other party's reaction, his footsteps subconsciously slowed down. Then, he realized that the other party must have been stunned by his Celestial Appearance.

He looked at the progress of his Celestial Appearance talent.

[Current Adjustment Progress: 50%]

It was only 50% and he already had such a reaction?

Zhou Zhou muttered in his heart.

Then, he walked towards the other party without thinking too much.

"I am the Lord of The Blazing Sun."

Zhou Zhou reached out his hand to her.

The Green Phoenix Lord subconsciously reached out and held it... And did not let go.

Zhou Zhou: "..."

Girl, restrain yourself!

Fortunately, the Green Phoenix Lord quickly came back to her senses. Her face turned red and she pretended to retract her hand casually.

"I won't waste my breath."

"Since you're here, I'll bring you to our temporary base in The Final Battlefield later."

"We've already figured out the strongholds of some Lords and Scarlet Lords. Go with them when the time comes."

"As for your Green Phoenix City, you're still the Lord there, but I'll send people over to help you manage those things you're unwilling to divert your attention to."

Zhou Zhou said.

Since the other party wanted to increase his strength, he would give her a chance. In any case, the other party was very strong. After joining her Blazing Sun Army, he could increase his strength.

At the same time, he could freeload on a territory.

"Thank you, my Lord!"

The Green Phoenix Lord immediately looked forward to it.

He could finally focus on increasing his strength.

Zhou Zhou nodded and asked, "How's your current strength?"

"I'm now at the White-Silver Tier Advance Grade and not far from the Yellow Gold-Tier Elementary Grade. What about you, my Lord?"

The Green Phoenix Lord said proudly before asking curiously.

"I'm at the Yellow Gold-Tier Intermediate Grade. I'm not far from the Yellow Gold-Tier Advance Grade."

Zhou Zhou said.

The Green Phoenix Lord was stunned.

Her strength was already considered top-notch among the Lords of all races. After all, all races knew the difficulty of Lords wanting to increase their strength.

She did not expect the Lord she had just acknowledged to be so much stronger than her.

As expected of the number one Lord of the Cerulean Planet!

She clicked her tongue inwardly.

Once again she felt that submitting to the Lord of The Blazing Sun was the right choice.

"By the way, what's your real name? My real name is Zhou Zhou."

Zhou Zhou said.

Since they were already on the same side, he had to know the other party's name.

However, to his surprise, the other party's body suddenly stiffened when he asked this question.

Then, she said unnaturally, "My name is Li Qingluan."

Zhou Zhou frowned. "... This isn't your real name, right?"

Why was she unwilling to even tell her his name? Was it because her loyalty was not enough?

Zhou Zhou looked at her loyalty.

88 points!

Zhou Zhou was shocked.

This initial loyalty was almost comparable to half of the dead loyal subjects.

Then what was wrong with her?

The air was silent for a while.

Zhou Zhou did not intend to ask further seeing that the other party had no intention of saying anything.

It didn't matter as long as she was trustworthy.

Just as he was about to change the topic, he saw the Green Phoenix Lord opposite him turn red and grit her teeth. Then, her voice suddenly appeared in Zhou Zhou's heart.

"My real name is... Li Qing!"

Zhou Zhou's expression was strange for a moment, but it disappeared in an instant and returned to normal.

However, even this instant change was discovered by the other party.

"Boohoo, that's why I'm unwilling to say it!"

"This is the name my mother gave me after reading 'White Snake Love'. It was pretty good at first."

"Later on, a certain popular game suddenly had a character with the same name. It made me very embarrassed!"

"That's why I changed my name to Li Qingluan!"

Li Qing... No, Li Qingluan said gloomily.

"It's fine. I think your real name sounds pretty good."

Zhou Zhou also used Mental Communication. "But if you want me to call you Li Qingluan, I'll respect your thoughts."

"Let's call you Li Qingluan!"

Li Qingluan was very determined.

"Okay!"

Zhou Zhou agreed.

"Big Brother, Big Sister Green Phoenix told me that she has some natural treasures. I want to see if I can nurture them with the Divine Herb Garden."

At this moment,

Ling'er suddenly said.

"Sure, give it a try."

Zhou Zhou felt that there was no problem.

Ling'er and Li Qingluan's eyes immediately lit up.

After that, Zhou Zhou let the three of them introduce themselves. Zhou Zhou brought the Green Phoenix Lord to The Final Battlefield to follow his army and clean up the surrounding enemy forces.

The only unexpected thing was that the Green Phoenix Lord had used the World Channel's photo taking function to take photos of Zhou Zhou before setting off.

Zhou Zhou did not mind and let her be.

After arranging the matter of the Green Phoenix Lord, he returned to the Back Blazing Sun Territory again and found the busy Nong Chenglin.

"How's it going on your side?"

Zhou Zhou asked.

"14 Lords with Life Profession Lord Talents have applied to join our Lord Alliance."

"One of them even has a White Platinum-Tier Lord Talent as a Life Profession Lord."

"However, my Lord."

"Many people are asking what the name of our Lord Alliance is. How should I answer?"

Nong Chenglin asked curiously.

Zhou Zhou already had a plan for this. He said in a low voice,

"Our Lord Alliance is called..."

"Star Alliance!"

[\*\*Global Lord: 100% Drop Rate\*\*](#)

**Chapter 393: The Brave Should Be Rewarded!**

"Star Alliance?"

Nong Chenglin nodded and praised, "This name is imposing!"

Zhou Zhou nodded.

His territory was the Blazing Sun Territory. The Blazing Sun corresponded to the sun.

When people looked up at the sky, if they could see the starry sky of the universe, they could naturally see that what followed behind the sun were the stars of the heavens!

This was where the Star Alliance came from!

In the time that followed, Zhou Zhou did not return to The Final Battlefield. Instead, he checked on these Lords who wanted to join the Star Alliance with Nong Chenglin.

Two hours later.

Under Zhou Zhou and Nong Chenglin's elimination method, 295 Cerulean Planet Lords with Green Bronze-Tier Territory and 14 Cerulean Planet Lords with White Silver-Tier Territory were officially chosen by them.

They would be the first batch of Lords of the Star Alliance to become members of Zhou Zhou's Star Alliance and the Lord of a subsidiary territory!

As for why he did not choose more Lords to join the Star Alliance, it was not because Zhou Zhou was unwilling, but because there were not enough Master-Servant Territory Contracts.

Now, he had completely consumed the Green Bronze-Tier Master-Servant Territory Contract. He still had 42 White Silver-Tier Territory Contracts left.

As for the other Master-Servant Territory Contracts, none of them were useful.

Among them, the Black Iron-Tier Master-Servant Territory Contract was because there were basically no more Black Iron-Tier Lords among the Cerulean Planet Lords still alive. This also made it impossible for them to recruit Black Iron-Tier Lords.

White Silver-Tier and above Cerulean Planet Lords were already considered relatively strong Lords. Zhou Zhou and the others had only recruited 14 of them.

Stronger Lords simply did not come to their Star Alliance.

If nothing went wrong, the condition of becoming a subordinate territory should have stopped them.

Zhou Zhou did not mind.

To him, these 309 Lords were enough now.

He would take it slow in the future. There was no need to be too anxious.

During the recruitment process, Zhou Zhou also knew why these Life Profession Lords said that no Lord Alliance would recruit Life Profession Lords like them.

Did the other Lords not know the value of Life Profession Lords?

Of course not.

Everyone knew that developing Life Profession Subjects would be extremely beneficial to the future development of their territory.

However...

This was the High Continent. They were just weak Lords who had just descended into the High Continent.

Compared to developing a Life Profession Subject,

Recruiting Combat Professionals Subjects with all their might was the most obvious benefit for Lords like them. Moreover, Combat Professional Subjects could also play a huge role in the later stages of the Lord of All Races Competition.

In short, it was definitely not a loss!

The cycle required to develop Life Profession Subjects was too long!

Not many Lords had the energy to develop Life Profession Lords at a time like this.

They could not wait that long!

Moreover, they could snatch them!

With this path, why waste those resources to slowly develop?

Therefore, even the Military Industry Lord's Military Industry Alliance only recruited people with experience in the military technology industry in his previous life.

As for the Life Professionals in the High Continent, even though it would definitely help their technology development, it would not be so helpful.

Therefore, they did not recruit so vigorously.

Until the Lord of The Blazing Sun appeared!

Until now!

Only the Lord of The Blazing Sun had clearly said that he mainly recruited Life Profession Lords to join his Lord Alliance. That was why these Life Profession Lords were so excited.

Everything was compared.

This comparison revealed the Lord of The Blazing Sun's savior-like behavior towards Life Profession Lords.

This was also why there were more than two million Life Profession Lords coming to invest even though there were harsh conditions like signing the Master-Servant Territory Contract.

A moment later.

After Zhou Zhou sent all the Master-Servant Territory Contracts to them and officially signed them, he set up a private chat group exclusive to the Star Alliance on the World Channel. Then, he asked Nong Chenglin and the others to pull in the 309 Lords, Ling'er, and the Green Phoenix Lord.

As soon as they entered the chat group, these people began to become active.

[First!!!]

[Newbies are popping up!]

[Newcomer +1!]

[Brothers and sisters, find newbie pictures here!]

[Is there a female Lord? I'm a high-quality Uncle Lord. I've been single for 30 years and yearn for blind dates!]

[Big Boss Blazing Sun, I'm here!]

[Green Phoenix Lord: Tsk tsk, so many newbies!]

[F\*ck! It's Big Boss Green Phoenix! Has Big Boss Green Phoenix also joined the Star Alliance?]

[Big Boss Green Phoenix is also the Lord of the Alliance Master's subordinate territory, right?]

[F\*ck, a top-notch Lord is willing to join Big Boss Blazing Sun and become a Lord of a subordinate territory. If it's true, it will be big news!]

[Could it be that the Green Phoenix Lord only joined the Star Alliance and did not become a Lord of a subordinate territory?]

[Green Phoenix Lord: Don't guess. I joined as a Lord of a subordinate territory.]

[Green Phoenix Lord: Come, you like to show photos, right? I'll show you something explosive! This is what our leader looks like!]

[Green Phoenix Lord: Lord of The Blazing Sun.jpg]

[Green Phoenix Lord: Isn't our Lord handsome?! I'll be honest. I was stunned at first glance. I've seen many handsome men, but the President's appearance simply surpasses theirs by a few dimensions! (heart) (heart) (heart)]

[??? F\*ck, f\*ck, f\*ck, f\*ck! Is this our Lord??? I'm in love!]

[Let's not talk about how handsome he is!]

[This temperament... is the perfect Prince Charming temperament in my dream!]

[Can I woo my Lord?!]

[Why is this world so unfair? It's fine if the territory is developing well, but even its appearance is so good-looking...]

[Only novels talk about logic. Reality is sometimes unreasonable.]

[Green Phoenix Lord: It's nothing. As a novel author, the President's appearance is slightly inferior to my readers.]

...

Zhou Zhou was speechless.

Even though he did not care what the Green Phoenix Lord did with his photo, this method was too sudden.

He looked at it for a moment, then typed:

[Lord of The Blazing Sun: Welcome to the Star Alliance!]

[My idol is here!!]

[I've never... never come into such close contact with Big Boss Blazing Sun!]

[What should we call Big Boss? Prince Charming! President!]

[Hello, Prince Charming! I'm the Lord of Caiyin!]

[Hello, President. My name is Haoxuan!]

[President, do we have an event in the alliance?]

[Lord of The Blazing Sun: Does The Final Battlefield count?]

[Of course! But President, are you really going to bring us to The Final Battlefield to fight? We're not afraid of death, but... we're Lords who specialize in Life Profession after all. I'm afraid we won't be able to help much on the battlefield.]

The other Life Profession Lords had the same thoughts.

Zhou Zhou smiled and typed.

[Lord of The Blazing Sun: Don't worry. Since I want to bring you to The Final Battlefield, I naturally have the confidence to bring you there.]

[Lord of The Blazing Sun: Come over through the Spatial Teleportation Array first. You will understand why I dare to bring you to The Final Battlefield.]

The Lords were a little surprised.

Even the Green Phoenix Lord was the same.

The Yellow Gold-Tier Blessing of the War God was indeed very strong.

However, it shouldn't be to the extent that a Lord who had always specialized in Life Professions could immediately fight on the Battlefield of The Final Battle, right?

Could it be that their Lord of The Blazing Sun really had a way to make them useful on the Final Battlefield?

The other Lord members thought to themselves.

Some Lords were still worried. Would the Lord do something bad to them if he asked them to go over?

Zhou Zhou saw that there were suddenly fewer messages in the chat group and knew that they were definitely thinking about this.

He watched this scene calmly.

This could be considered a test for them.

If they dared to accept his request and come over to let him test them, he would naturally give them greater benefits.

If they did not dare to come over, don't blame him for discriminating.

While they would become Subjects loyal to him sooner or later with Peace And Prosperity around, but the brave should be rewarded!

### [Global Lord: 100% Drop Rate](#)

#### **Chapter 394: Small Benefits For Joining The Alliance! Sharing Talents!**

At this moment, the Green Phoenix Lord sent him a message.

[Green Phoenix Lord: My Lord, will you blame me if I post your photo? Boohoo, I just saw my Lord's face and felt that I shouldn't be the only one who knows, so I sent it.]

[Lord of The Blazing Sun: ... It's fine. They'll see it later anyway.]

[Green Phoenix Lord: Hehe.]

She dared to post the photo because she knew that these Alliance members would know the Lord's appearance sooner or later.

[Green Phoenix Lord: My Lord, Ling'er and I also want to come back and take a look. Can we?]

[Lord of The Blazing Sun: Sure. You can get to know your future colleagues.]

[Green Phoenix Lord: We're coming back now!]

Zhou Zhou said no more.

He and Nong Chenglin came to the Spatial Teleportation Array and quietly waited for the members of the Alliance to arrive.

During this period.

Zhou Zhou looked at the specific information of the 309 Lords again.

Lords that could be screened by him and Lord Nong Chenglin from more than two million Life Profession Lords were naturally not ordinary people!

Firstly, among these 309 Lords, there were a total of 215 Lords with Life Profession Lord Talents!

The other 94 Lords either had special Life Profession buildings or Life Profession tools in their territory.

There were rare types of Life Professionals in the territory, such as Treasure Masters, Appraisers, Ridge Diggers, and Soul Calming Warlocks.

Or there were Yellow Gold-Tier and above Life Professionals in the territory!

It was precisely because of this that all of them could be considered elites among Life Profession Lords!

It was just that the territory's combat strength was too weak, so its development was quite difficult.

Regarding this, Zhou Zhou already had a brilliant way to deal with it.

Soon.

The first Lord walked out of the Spatial Teleportation Array.

The other party was a young girl wearing a long white dress. Her facial features were young and beautiful, and her eyes were lively. She had a strange temperament.

She glanced around and quickly saw Zhou Zhou and Nong Chenglin.

Her eyes lit up and she immediately jogged over.

"Big Boss Blazing Sun!"

"I'm the Paper Immortal Lord."

"I've finally seen you in person!"

She looked at Zhou Zhou with shining eyes and could not help but open her mouth.

"Wow, you look even more handsome than the person in the photo!"

"You're cute too."

Zhou Zhou smiled.

At the same time, the other party's information flashed through his mind.

Paper Immortal Lord!

Her real name was Zhang Tian.

Paper Immortal with White Platinum-Tier Lord Talent.

She was one of the two White Platinum-Tier Lords recruited this time!

She was good at making all kinds of paper-type tools, but most of them were supportive. Therefore, the territory's combat strength was not very strong. Currently, the territory has only developed to the Green Bronze-Tier Elementary Grade.

"Wait a moment."

"The other Lords are coming soon."

Zhou Zhou smiled.

"Okay!"

Zhang Tian smiled sweetly. She did not leave immediately. Instead, she took out a puppy made of black paper.

"Prince Charming... No, my Lord, this is a gift from me to you."

Zhang Tian said expectantly.

Zhou Zhou was stunned.

He looked at the paper dog.

[Item Name: Little Dog]

[Item Grade: Green Bronze-Tier Elementary Grade]

[Item Effect: Carry it around with you. When a life form with malicious intentions appears within 100 meters of the carrier, the little barking dog will let out a warning bark in the carrier's heart to remind the carrier and lock onto the location of the malicious life form.]

[Item Description: A special tool created by the Paper Immortal with a lot of effort. It can warn against malice.]

Zhou Zhou raised his eyebrows.

Good God!

Near-range danger perception?

"This tool is not bad. It must have cost you a lot of effort, right? Are you sure you want to give it to me?"

Zhou Zhou asked.

Zhang Tian nodded.

Zhou Zhou smiled and accepted it.

Then, he handed her 10 Violent Storm Spirit Class Change Certificates.

"I don't have anything else on me. You should need this."

Zhou Zhou smiled.

Zhang Tian took it curiously. When she saw the message, her mouth immediately fell open in shock.

Kingdom-level Combat Class Class Certificate?!

This, this, this...

Wasn't this too wilful?

She only gave him a Green Bronze-Tier Elementary Grade item.

Even though she had indeed spent a lot of effort making this tool, it was only a low-level tool after all. It was worlds apart from the value of this Kingdom-level Class Change Certificate!

However, the Lord was actually willing to give her such a precious thing.

"Thank... Thank you, my Lord."

Zhang Tian, who was originally a little carefree, suddenly became restrained.

"It's okay."

Zhou Zhou patted the other party's shoulder, not minding such a thing.

He could obtain 17,500 Violent Storm Spirit Class Change Certificates every day.

Giving away a mere 10 of them was not even a drop in the bucket for him.

Moreover, he could befriend a high-level Lord Talent holder like Zhang Tian.

It was not a loss at all.

A moment later.

The second Lord member came over.

Then, third, fourth, fifth...

Half an hour later.

There were five to six hundred people gathered around the huge Spatial Teleportation Array.

Among them, 313 were Lords, including Zhou Zhou, the Green Phoenix Lord, Ling'er, Nong Chenglin, and Zhang Tian. The rest were followers brought by these Lords.

Zhou Zhou was quite satisfied seeing that everyone was here.

At least there were no Lords who did not dare to come.

He coughed lightly.

"Everyone, please be quiet."

"Everyone, look at me."

Zhou Zhou's voice appeared in everyone's hearts.

Everyone looked at Zhou Zhou in surprise.

"This is just a simple Mental Communication ability. Everyone, don't worry."

Zhou Zhou said.

Simple...?

The Lords clicked their tongues.

Only their leader, the number one Lord of the Cerulean Planet, was qualified to say that he did not need to care about a top-grade ability like Mental Communication, right?

Zhou Zhou looked at everyone.

With his high-level Mental Communication ability, he could clearly hear what everyone was thinking.

He even heard some special thoughts, causing his gaze to involuntarily land on some of the Lords.

When these Lords saw Zhou Zhou's gaze, they immediately avoided it guiltily.

Zhou Zhou smiled and did not say anything.

"I won't say anything else."

"Since we've all joined the Star Alliance, we're family from now on."

"As the Alliance Master, I won't mistreat my own people."

"In a while, all Lord members can go to the quartermaster and collect 500 Basic Military Profession Change Certificates."

"This is my small benefit for everyone to join the alliance."

Everyone was stunned for a moment before they immediately cheered.

500 Basic Military Profession Change Certificates!

This meant 500 Basic Military Professionals!

Only my Lord would be so generous, right?

Everyone clicked their tongues in their hearts as they believed even more that joining the Star Alliance was the right choice.

"Apart from that."

"I will share a Lord Talent with you."

"With this Lord Talent, I believe everyone will have the courage to follow me into The Final Battlefield."

After saying that, Zhou Zhou immediately opened his Lord Talent interface. Then, he clicked on one of the 16 Lord Talents without hesitation and shared it with all the Lords present.

It was the weakened White Silver-Tier Lord Talent— Incite Defection!

[Global Lord: 100% Drop Rate](#)

**Chapter 395: Gold Merchant Lord!**

This was the source of Zhou Zhou's confidence.

With this shared White Silver-Tier Lord Talent— Incite Defection, each of these lords would have an opportunity to instigate an Incite Defection every day.

You said that your territory lacks combat power and can't protect itself? You don't have the strength to enter The Final Battlefield to fight?

Then, as long as you find an enemy faction and carry out Incite Defection, you can obtain 8% of the other party's military strength!

If they were lucky and found an enemy faction with a large number of soldiers, they might even be able to instigate an Incite Defection with a maximum of 100,000 soldiers!

To these Lords, 100 thousand soldiers was enough for them to reach the heavens in a single step!

Not only would they have the confidence to protect their territories, they would also be able to expand outside!

The reactions of these Lords also verified Zhou Zhou's thoughts.

All these Lords looked shocked and ecstatic.

The Lords who had survived until now were not fools. They naturally knew how shocking the effect of this Lord Talent was.

With this Lord Talent, even if they developed step by step in the future, as long as nothing unexpected happened, they would be able to grow to a very high level without having to worry about the threat of external enemies!

At this moment, they also realized why their Lord was so confident that he could bring them to The Final Battlefield.

With this Incite Defection, as long as they choose the right opponents, The Final Battlefield would not be a dangerous place, but a base for soldiers that they could take advantage of!

Furthermore, the survival and development of the territory would not be a problem in the future!

Thinking of this, their gazes towards Zhou Zhou instantly became fervent.

This was not their Lord!

This was clearly the benefactor who had given them a new life!

On the other side.

The Green Phoenix Lord also knew what their shared Lord Talent was from their exclamations and low voices.

A look of surprise flashed across her face.

Why was it different from the Lord Talent she shared?

Could it be...

He was a Lord with multiple Lord Talents?

The Green Phoenix Lord was not a fool and quickly thought of this reason.

Thinking of this, she nodded to herself.

As expected, his Lord Talent was indeed not that simple.

No wonder he could sit firmly on the throne of the number one Lord of Cerulean Planet and even fight against the Lords of all races!

As for the multiple Lord Talents, she was not that surprised.

There were all kinds of Lord Talents in the world. There were probably hundreds of millions of them.

Among the many Lords, there was no lack of Lords with multiple Lord Talents.

For example, among the Lords of Cerulean Planet, there was a Lord with the title of Gemini Lord.

The other party was an extremely rare conjoined human on the Cerulean Planet. The two brothers shared a body, and they even had two heads. There were no additional limbs or other body parts.

Even though his appearance looked a little strange, he had automatically obtained an Extraordinary-Tier Lord Talent—Gemini after Relocation!

The talent effect was also very simple.

The two brothers would each awaken a Lord Talent. In fact, these two Lord Talents could even be used together.

Even though the level of the two Lord Talents was not high, it was enough for the other party to become one of the top Lords on the Cerulean Planet.

This was not the most exaggerated thing.

It was said that when a Lord of Cerulean Planet was ranked in the Myriad Races Lord Battlefield, he had once met a Lord with the title of Nine-Headed Demon God.

The other party's race was the Nine-Headed Snake Race. This was a race with a bloodline level. They were born with nine heads with different Stats and nine wills with different personalities. After coming to the supreme continent, they directly awakened the Legendary-Tier Lord Talent— Nine-Headed Demon God!

Lord Talent Effect: Each of the nine heads has a Diamond Lord Talent.

Moreover, they were all Elemental Control talents.

This meant that it was almost equivalent to an Elemental Demon God that could control the power of nine elements to bombard wantonly on the battlefield. The dominance of the battlefield was extremely terrifying!

It was said that the other party had already become the strongest Lord of the Nine-Headed Snakes!

Its status was comparable to that of the Lord of The Blazing Sun on Cerulean Planet!

Other than that.

There were even more Lords with multiple Lord Talents.

This was why the Green Phoenix Lord felt that it was not strange to have multiple Lord Talents when compared with so many Lords.

However, she would probably re-evaluate if she knew that Zhou Zhou had as many as 16 Lord Talents and two Mythical-Tier and Unique Lord Talents.

On the other side.

After the commotion caused by Incite Defection talent in the beginning,

and some people let their imagination run wild, they quickly thought of something and raised their hands to ask questions.

"Um, Alliance Master, I have something to ask."

The other party was a shifty-looking middle-aged man in his forties.

He was one of the only two Lords among the 309 Lords who had the White Platinum-Tier Lord Talent.

His name was Gold Merchant Lord. His White Platinum-Tier Lord Talent was: Instant Rewards!

This Lord Talent could allow the other party to obtain a different number of Mist Core rewards after every successful transaction!

The larger the scale of the transaction, the more Instant Rewards Mist Cores there would be.

The lowest was 1%, and the highest was 5% Instant Rewards of Mist Core.

This was also a top-notch Lord Talent.

If he did it well, he could quickly accumulate wealth!

When the other party was on the Cerulean Planet, it was said that he was a big entrepreneur who could earn a few small goals every year.

It was naturally not a problem to control this talent.

Hence, in Zhou Zhou's heart, this was also an outstanding talent.

Zhou Zhou planned to let him manage the business development of the Blazing Sun Territory when his loyalty reached 90 points.

With the funds of the entire Blazing Sun Territory as the backing, he could completely develop the Lord Talent of Instant Rewards to the maximum!

There was another interesting thing.

The other party also knew the value of his Lord Talent, so he had recommended himself to other top-notch lords.

For example, Dragon Blood Alliance, Overlord Association, Undead Alliance, Overlord Association...

However, after the other party found out about his Lord Talent, they were only willing to befriend him and were unwilling to let him control a large amount of funds even though they knew that he was a talent.

They did not have Zhou Zhou's Peace And Prosperity talent, so they could not increase his loyalty to them after all.

And how could a person whose loyalty could not reach an extremely high level make them feel at ease handing over the authority to the other party?

After Zhou Zhou found out about this, he readily agreed that as long as the other party joined his territory, he could hand over most of the Mist Cores in his territory to the other party within a month.

When the time comes...

The other party's loyalty must have reached 90 points, or even higher.

Naturally, Zhou Zhou would leave it to him.

Then, there would be some "suppression" methods on the surface so that the other Subjects wouldn't say anything.

"Gold Merchant Lord, what's your question?"

Zhou Zhou said.

As soon as he said this, the surrounding Lords looked at him. Clearly, they all knew this person.

The Gold Merchant Lord asked expectantly, "My Lord, can this Incite Defection talent be used by multiple Lords against an enemy faction?"

[Global Lord: 100% Drop Rate](#)

**Chapter 396: Zhou Zhou's Request!**

A portion of the Lords revealed strange expressions hearing this.

The other Lords were stunned for a moment before they reacted.

F\*ck!

If that was really the case, as long as more than ten Lords of the Star Alliance came and used them against an enemy faction, wouldn't the enemy rebel in the blink of an eye?

What was there to fight!

They would be able to directly subdued the enemy without fighting!

"No."

However, Zhou Zhou shook his head at this question.

The others could think of it naturally, he could think of that too.

He directly asked the Supreme Will without trying it out. The Supreme Will also readily answered the question about the Lord Talent that he had given out.

No way!

Incite Defection could only be used on the same enemy faction once a day!

On the other hand, enemies who had been affected by the Incite Defection and had not been instigated by it would be equivalent to having the effect of 'Resistance' if they were instigated by other Lords again. They would be directly immune to the second Incite Defection and more times.

It could only be used again the next day.

Therefore, the way to maximize the benefits of using Incite Defection was for the Lords who had the talent to face a top-notch enemy faction alone and use Incite Defection.

This way, he could maximize Incite Defection and increase his combat strength.

When everyone heard Zhou Zhou's words, pity appeared in their eyes.

If they could really instigate Incite Defection multiple times, their Star Alliance would be invincible.

The world would become full of his traitors wherever he went!

But even so, this Incite Defection talent was also a super top-notch Lord Talent.

"Everyone."

"I've already shown my sincerity. Now, it's time to talk about obligations."

Zhou Zhou looked at everyone and said.

He did not create the Star Alliance to hold a relief party.

The main goal was to develop himself. The second goal was to help these Lords develop.

When the Lords heard this, they quietened down and focused on listening to their Lord Alliance Master.

They were already mentally prepared for obligations.

Anyone who joined the Lord Alliance would have an obligation.

Otherwise, why would the Lord Alliance protect you for nothing?

They thought of the soldier type Class Change Certificates and the Incite Defection Lord Talent he shared, and most importantly, the protection from the Lord of The Blazing Sun.

They were already prepared to pay a huge price.

Compared to surviving in this chaotic world, what was the point of paying some benefits?

Zhou Zhou looked at everyone.

"You only need to have three obligations to join our Alliance."

"First: When I ask you to bring your troops to fight with me or support the Alliance's Lord members, unless it's really a special situation, bring your troops to me unconditionally!"

"Sure."

"Of course."

"No problem."

...

They all nodded.

This was the most basic requirement to join the Lord Alliance.

Moreover, they could support the members of the Lord Alliance.

Members of Lords like them all had the Incite Defection Lord Talent.

As long as they developed for a period of time, they would definitely be able to reach the point of having sufficient troops.

It might even reach hundreds of thousands or even millions.

When the time came for the Alliance members to support each other, they were actually looking forward to it.

"Secondly, you have to give me 20% of your territory's profits. You can keep the remaining 80%."

Seeing that no one objected, Zhou Zhou continued.

20%?

The Lords were stunned.

It was not that it was too much.

On the contrary... It was too little.

Previously, they had thought that it would at least be a 30-70 split.

A 20-80 split?!

Joy appeared on the Lords' faces.

No matter what.

This was a good thing for them.

"Okay!"

"Lord Alliance Master is merciful. I can completely accept 20%."

"I have no problem with 20%."

...

All the Lords agreed.

Under such circumstances, even if some of these Lords wanted to reduce the number, they were quickly drowned out by the voices of the other Lords.

Zhou Zhou nodded inwardly when he saw this.

20% was what he decided on after thinking for a long time.

Actually, he had also thought of a 30-70 split.

This ratio should be acceptable to everyone.

Most of the other Lord Alliances had the same ratio.

However, the Star Alliance was different from the other Lord Alliances.

With Peace And Prosperity in Zhou Zhou's Star Alliance, these people who joined the Alliance were destined to become one of his own after developing for a period of time!

Therefore, there was not much point in arguing about how much to split with his own people.

After all, when the time came, he would raise his arms and shout. Even if he asked them to give everything they had, they, who had high loyalty, would give it without hesitation.

Since that was the case...

It was better to save more funds and let them develop. That way, they could repay him better in the future.

Coupled with the situation of these lifestyle Lords, it was not good compared to fighting Lords.

At this stage, letting them save more funds could also make their situation better.

"I can only think of these two points for the time being. When we develop in the future, I will work with the Lords to perfect our Star Alliance!"

"In addition to the Alliance, I have another request and a bottom line to tell everyone."

"My small request is that the Lord Talent that I share with everyone not be leaked."

Even though the fact that he had many Lord Talents would be known sooner or later as the alliance was established, Zhou Zhou still wanted to try his best to prolong this matter.

"As for the bottom line, it's that there can't be internal strife among the members of the Alliance, whether it is openly or secretly."

"If there's really an irreconcilable conflict, we have to resolve it. In this situation, you can either withdraw from the Alliance and resolve it yourselves, or hold an internal meeting of the Alliance and hold a public trial."

"I hope we can build our Star Alliance to be even better!"

The rest of the time was free time.

Zhou Zhou did not say much. He just let the Lords of the Star Alliance communicate freely with each other.

He walked over and chatted with the Lord members to improve their friendship.

They were all life-type Lords and had just met, so they were not as hostile as the combat-type Lords. It was a happy and harmonious scene.

Most of the Life Lords were discussing the collaboration.

For example, Blacksmith Lords would look for Lords who needed to forge equipment, Physician Lords would look for Lords who lacked Physicians in their territories, Lords who had many patients and injuries, Architect Lords would look for Lords who urgently needed to build buildings in their territories...

Among them, the Gold Merchant Lord and other vendor Lords were especially active.

The 300-odd Lords in front of them were their future suppliers!

They had to serve them well!

After Zhou Zhou walked into the crowd of Lords, he naturally received the support of everyone.

Many Lords ran over and communicated with the Alliance Master enthusiastically, afraid that they would be left behind.

This was the Alliance Master who would protect them in the future!

No one was stupid. Other than a few Lords who were not good at communication, most of them knew how to build relationships.

Zhou Zhou did not refuse. He chatted with them with a smile and looted their Lord Talent Crystal Fragments by the way.

### [Global Lord: 100% Drop Rate](#)

#### **Chapter 397: Collecting Lord Talent Crystal Fragments!**

Among the 309 Lords, 215 of them had Lord Talents!

The Lord Talent Crystal Fragment was enough for him to make a killing.

Half an hour later, Zhou Zhou ended the conversation and returned to his seat. He could not help but heave a sigh of relief.

It was not easy to touch each of these 215 people.

He muttered in his heart.

However, what made him feel good was that the number of Lord Talent Crystal Fragments provided by the 215 Lords was quite abundant.

With the help of the Master Thief's Robbery Gloves, he obtained a total of 678 Black Iron-Tier Lord Talent Crystal Fragments, 456 Green Bronze-Tier Lord Talent Crystal Fragments, 126 White Silver-Tier Lord Talent Crystal Fragments, 18 Yellow Gold-Tier Lord Talent Crystal Fragments, five White Platinum-Tier Lord Talent Crystal Fragments, and four Epic-Tier Lord Talent Crystal Fragments!

In his hands were 752 Black Iron-Tier Lord Talent Crystal Fragments, 520 Green Bronze-Tier Lord Talent Crystal Fragments, 133 White Silver-Tier Lord Talent Crystal Fragments, 21 Yellow Gold-Tier Lord Talent Crystal Fragments, Nine White Platinum-Tier Lord Talent Crystal Fragments, 10 Extraordinary-Tier Lord Talent Crystal Fragments, Four Epic-Tier Lord Talent Crystal Fragments, Two Legendary-Tier Lord Talent Crystal Fragments and one Mythical-Tier Unique Lord Talent Crystal Fragment!

With these Lord Talent Fragments, some low-level Lord Talents could be upgraded.

However, the Lord Talent that he mainly wanted to upgrade was naturally the Yellow Gold-Tier Lord Talent: Incite Defection and the White Platinum-Tier Lord Talent: Blessing of the Ten Gods—the Blessing of the War Master God.

Zhou Zhou still did not have enough Lord Talent Crystal Fragments to upgrade the two of them.

Therefore, Zhou Zhou still wanted to save them for the time being. When he had enough, he would fuse them together to level up or use them in case of emergencies.

Then, he withdrew his gaze from the Lord Talent Crystal Fragment and called Nong Chenglin over.

"Old Nong, go to the warehouse later and get some Violent Storm Spirit Class Change Certificates. Then, distribute it to all the lords with Lord Talents."

"Give out 10 Violent Storm Spirit Class Change Certificates to those with Black Iron-Tier Lord Talents, 50 Violent Storm Spirit Class Change Certificates to those with Green Bronze-Tier Lord Talents, 100 Violent Storm Spirit Class Change Certificates to those with Yellow Gold-Tier Lord Talents, 2,000 Violent Storm Spirit Class Change Certificates to those with White Platinum-Tier Lord Talents. As for the Green Phoenix Lord, give her 10,000 Violent Storm Spirit Class Change Certificates directly and finally send Ling'er 20,000 of them. You can also send them an appropriate number if they require more in the future."

"Also, tell the other members of the Alliance that as long as they contribute to the Alliance in the future, they have a chance to exchange for the Violent Storm Spirit Class Change Certificate."

Zhou Zhou said.

This was a reward for these Lords with Lord Talents. It could also be considered as him making up to them for taking away the Lord Talent Crystal Fragments in their bodies.

"Yes, my Lord!"

Nong Chenglin said enviously.

However, he did not have any thoughts of being treated unfairly.

After all, people with special talents should have special rewards for joining the territory. Otherwise, he wouldn't have been able to obtain the agricultural land in the current Blazing Sun Region.

"By the way, do you want to exchange your Lord Talent for Incite Defection?"

Zhou Zhou asked.

The Lord Talent that he had shared with Nong Chenglin previously was the Blessing of the War God. Today, when he saw that Nong Chenglin knew about the Incite Defection, he was quite tempted and asked casually.

"Thank you, my Lord!"

Nong Chenglin was delighted and said hurriedly.

Zhou Zhou nodded and changed the Lord Talent he shared with the other party to Incite Defection.

Nong Chenglin was overjoyed.

"There's one more thing I need you to do."

Zhou Zhou said.

Then, he whispered into Nong Chenglin's ear.

After talking for a while.

Nong Chenglin nodded and left.

A moment later.

Zhou Zhou looked at everyone.

At this moment, everyone was almost done chatting. He said, "Everyone, then let's return to our respective territories now and bring your subordinates over if you are done. In half an hour, we'll set off and enter The Final Battlefield!"

"Yes, Alliance Master!"

"Alright, we'll go now."

"I'm still a little nervous even though I have Incite Defection..."

"With the Lord around, what's there to be afraid of?"

...

Everyone said and bade farewell. Then, they returned to their respective territories through the Spatial Teleportation Array to call their troops over.

Only 22 Lords looked at each other and avoided each other's gaze guiltily. Then, under Nong Chenglin's invitation, they came to a meeting room in the Administrative Hall.

This Administrative Hall was originally an exclusive building blueprint for the territory after the territory was upgraded to the White Silver-Tier Elementary Grade.

When it was built, it was only a White Silver-Tier Elementary Grade building.

Now that the territory had leveled up, it had automatically advanced to Yellow Gold-Tier Intermediate Grade building.

Not only did the area increase by more than three to four times, but the various internal buildings were also much more complete.

...

In the conference room.

After Nong Chenglin brought the 22 Lords here, they did not speak.

They sat uneasily in their seats and looked in the direction of the door from time to time. As time passed, they saw that the Lord of The Blazing Sun had yet to come. The amount of thoughts in their mind gradually increased and their foreheads were gradually covered in cold sweat.

Some of the Lords were under too much pressure. Their faces turned pale and their bodies trembled.

Some Lords secretly opened their Friend List and wanted to send a message to the outside world. However, they were shocked to discover that they could not communicate with the outside world at this moment. The reason was that their good friend communication function was forbidden by their Lord!

Master-slave territories could actually do such a thing?

They were dumbfounded.

This was also their first time becoming the Lord of someone else's subordinate territory. They had no idea that the Lord of the main territory had such authority.

It was too late to escape now.

Which meant...

Their fates had completely fallen into the hands of their Alliance Master.

Thinking of this, their expressions became even more terrified.

At the same time...

Nong Chenglin, who was standing at the side, did not know why the Lord brought these Lords over at first. However, he was not stupid when he saw their guilty expressions. He thought about it and thought of something. His expression gradually turned cold.

Traitors!

Great! How long has it been since their Star Alliance was established? There were already so many traitors?!

When he thought of the rewards, talents, and Alliance policies that the Lord had given to these Lords, he became even angrier!

My Lord treats us with sincerity. Is this how these people repay him?

He had really fed his kindness to ingrates!

Just as everyone in the conference room was having their own thoughts.

Tap, tap, tap...

Steady and calm footsteps sounded from the corridor outside.

As the footsteps got closer and closer, a handsome man walked into the meeting room.

It was none other than Zhou Zhou!

[\*\*Global Lord: 100% Drop Rate\*\*](#)

**Chapter 398: Change Of The Heart!**

When everyone saw their leader enter, other than Nong Chenglin, the 22 Lords couldn't help but tremble.

"Alliance Master, you're here..."

"May I know why the Alliance Master has brought us here? If you have any instructions, I, Ma Chenglong, will definitely not refuse!"

"My Lord, don't we have to bring our troops over?"

...

Some brave Lords stood up and said with a smile.

As for the remaining Lords, they could not take it anymore. They sat on the chairs, their bodies trembling slightly. They did not even dare to look at Zhou Zhou.

Zhou Zhou smiled.

"I called you here for something, naturally."

With that, he arrived in front of the Lord named Ma Chenglong.

He looked at her.

This was a Lord with a Green Bronze-Tier Lord Talent. He was quite active during his free time just now. Moreover, he did not reveal much of a flaw when facing him. Everything was quite natural.

"How has Dragon Lady Lord been recently?"

Zhou Zhou suddenly asked.

Panic flashed across Ma Chenglong's face, but it disappeared in the blink of an eye.

He looked a little lost and asked in confusion, "Lord Alliance Master, what are you talking about? Why don't I understand? I've heard of the Dragon Lady Lord, but I've never interacted with such a big shot. How would I know if she's good or not?"

"Oh? You've never interacted with her before? Weren't you a fanatical fan of the Dragon Lady Lord when you were on Cerulean Planet? After the Dragon Lady Lord established the Dragon Blood Alliance, you immediately joined her. Furthermore, you were highly valued by her because of your Lord Talent."

"It's just that the Dragon Lady Lord cares more about a Lord Talent who has a combat-type Lord Talent. You're dissatisfied, but you don't dare to say anything. You can only develop silently in the Alliance, thinking that you have to rely on your own efforts to become her trusted aide or even someone closer to her in the future."

"Today, when I wanted to establish the Star Alliance, the Dragon Lady Lord found you immediately after she found out about this and asked you to secretly join my Lord Alliance to provide them with information."

"For this, the Dragon Lady Lord even provided you with 10 Yellow Gold-Tier Life Profession talents. Together with the Lord Talent, they will be used as proof of loyalty to join my Star Alliance."

"Until now."

"Isn't that so? Ma Cheng."

After hearing Zhou Zhou's words, Ma Chenglong, or rather, Ma Cheng, immediately looked at Zhou Zhou as if he was looking at a demon.

How could this be...

How could this be?!

How did he know everything!?

He even knew about the 10 Yellow Gold-Tier Lifestyle Professionals?!

They were clearly handed over to him by the Dragon Lady Lord today.

How did the other party know so much so quickly?

"Dragon Lady Lord plants a mole in my Star Alliance. Why wouldn't I plant a mole in her Dragon Blood Alliance?"

Zhou Zhou suddenly said softly.

Ma Cheng froze on the spot as if he had been struck by lightning.

Zhou Zhou smiled.

He was naturally lying.

What mole?

It was just that his advanced telepathy ability could sense what the other party was thinking.

It had to be said...

This ability was really terrifying.

Ma Cheng's thoughts were clearly exposed to him when he faced Zhou Zhou just now.

This might also be because the other party's mental strength was not very strong and could not resist his advanced telepathy. However, the terrifying aspect of advanced telepathy could be seen.

Zhou Zhou said that there was a mole because he did not want to spread the news that he could see through people's hearts.

After all, even if they were dead loyal citizens, they still had their privacy. They would also have many scruples facing a Lord who could see through people's hearts at any time.

Zhou Zhou naturally did not want to see such a scene.

Then, he patted Ma Cheng's shoulder and pressed him back to his seat. Then, he came to the next Lord.

"Mountain Lord Zhang Han, if you have time, you can send my regards to the Overlord Lord. I've been looking forward to meeting the Overlord Lord for a long time."

"Lord Flying Snow Chen Mo, is the Blood Deity Association also interested in my Star Alliance? I'll definitely visit you another day when I have time."

"Sky Silkworm Lord Yaru, it's said that the Myriad Beast Palace behind you controls an Advanced Profession called Beast Tamers, so they like to collect all kinds of precious birds and ferocious beasts. Why? Have you taken a fancy to the two pure-blooded dragons in my territory?"

...

Zhou Zhou walked past the 22 Lords one by one and easily saw through their inner thoughts, revealing their backgrounds and goals.

After he walked past them once, the entire meeting room fell silent.

These 22 Lords were pale and terrified. They were afraid of what punishment they would face next.

Zhou Zhou looked at the 22 Lords and clicked his tongue in wonder.

These 22 Lords were naturally outstanding for him and Nong Chenglin to be able to pick from the two million Lords.

They either had good Lord Talents or had the advantage of other Life Professions.

However, such talents were actually sent as spies to join his Star Alliance. It could be seen that the people behind them really valued his sudden creation of the Lord Alliance.

However, they did not know that they had the Lord Talent, Peace And Prosperity. Therefore, these people were destined to become loyal subordinates loyal to him after a while!

The actions of those behind the scenes were destined to not achieve their goals.

It might even backfire on them.

Thinking of this, Zhou Zhou sat in the main seat and looked at these people.

"I've already taken back the Lord Talent that you shared. At the same time, I've also turned off your communication methods."

"I won't let you return before your loyalty reaches 85."

"As for your territory, don't worry. I'll send someone to take over. I guarantee that nothing will happen."

"There are only two options before you."

"First option: Continue to be your meaningless spies and be executed by me today!"

"Second option: you will be imprisoned in my territory until your loyalty reaches more than 85 points. At that time, I will still treat you equally and even let you contact the people behind you."

"But what you're going to do is going to change."

"You have to pass false information to the people behind the scenes. At the same time, collect information from them and hand it to us."

"If you do well, I'll even reward you."

"Think about it carefully."

After Zhou Zhou finished speaking.

Someone immediately raised his hand and hurriedly said, "I'm willing to stay here until my loyalty reaches more than 85 points."

"Me too!"

"Alliance Master, actually, I was also forced. Now that Alliance Master is willing to give me a chance, I've decided to abandon the dark and join the light. I'm sincerely working for the Lord!"

"Me too!"

...

With the first one, there would be a second one. In less than a moment, the 22 Lords announced that they wanted to rely on Zhou Zhou.

When Nong Chenglin saw this scene, he looked down on them. He felt that these people had no backbone at all. They did not even hesitate.

Zhou Zhou had already expected this.

After all, with the help of Peace And Prosperity, the initial loyalty of these people was 71 points.

This loyalty was already one step away from the threshold of their faction.

With a little persuasion, they would be able to find a reason to convince themselves and become true allies.

He wasn't lying.

He directly restored the Incite Defection talent of Lords whose loyalty had reached 85 and above. He even allowed them to return to their respective territories and bring their troops to The Final Battlefield later.

Seeing this scene, the remaining Lords also wavered and officially surrendered to him.

In less than an hour or two.

The loyalty of these 22 Lords had all reached 85 points and above.

This gave Zhou Zhou some insight.

The changes in the human heart might not be slow at times. Under the pressure of life and death, some people's mentality might change rapidly in a short period of time.

This situation was a great example.

He did not waste any more time. After all the Lord's soldiers arrived, he brought them into The Final Battlefield.

[Global Lord: 100% Drop Rate](#)

**Chapter 399: Trying Out Incite Defection! The Lords' Reaction!**

The Final Battlefield.

In a White Platinum-Tier Scarlet Lord's territory.

This place was ruled by the White Platinum-Tier Scarlet Lord. It had 200,000 Blood Flame Tiger subordinates and was a very powerful Scarlet Lord faction.

Originally, this place had been very peaceful.

However, when Zhou Zhou and the others appeared, the Blood Flame Lord and his subordinates took the initiative to fight them.

Bai Yun and Wu Xin were naturally not afraid at all. They directly controlled the soldiers to form the Greedy Wolf Howling Moon Array and created two Greedy Wolf Avatars to attack.

Both sides fought with the determination to finish off the other, so the battle reached its climax from the beginning.

...

Behind the battlefield.

Zhou Zhou looked at Ling'er beside him.

At this moment, Ling'er extended her hand in anticipation.

Invisible fluctuations instantly spread to the entire battlefield with her palm as the center.

In the blink of an eye.

The expressions in the eyes of more than 16,000 Blood Flame Tigers changed. They immediately betrayed their side and bit their former companions.

The battlefield became chaotic.

When the two Greedy Wolf Avatars saw this, they slaughtered the Blood Flame Tigers even more easily.

The Blood Flame Lord, who had the strength of a Diamond-Tier Elementary Grade, could only watch this scene in exasperation, but it could not do anything to counterattack.

It did not even know why its subordinates, who it had always been united with, suddenly had internal strife when such a powerful enemy attacked.

It must be the doing of that Lord with the blessing of the Supreme Will!

The Blood Flame Lord thought angrily.

It knew that it could not escape even though it was furious. It simply abandoned its fear of experts and jumped off the city wall to attack the two Greedy Wolf Avatars. Then, it was easily ravaged by the two Greedy Wolf Avatars. It looked rather miserable.

At this moment...

Screech!

A divine bird's cry that seemed to be able to reverberate through the nine heavens sounded.

Then, a green bird flew over from the back of the battlefield and flew towards the Blood Flame Tiger army.

It was the Green Phoenix Lord!

At this moment, after seeing that Ling'er had used up her Incite Defection, she no longer had any qualms and directly activated her True Body to eliminate these Blood Flame Tigers.

She opened her mouth and spat out a green flame with a calm and clean aura. In an instant, it landed on the Blood Flame Tiger army below and began to burn their essence, vital energy, and primordial spirit.

Soon.

More than 10,000 Blood Flame Tigers were destroyed by this divine fire!

It was one of the divine power methods grasped by the Green Phoenix Immortal Body—Samadhi Divine Fire!

However, it could be seen that the Green Phoenix Lord could not use this divine fire too many times, so after using it once, it turned to other small spells to continue fighting.

Nonetheless, these spells were still far superior to some normal skills. Therefore, these Blood Flame Tigers began to decrease at a visible speed under her attacks.

Nonetheless, they were still far superior to some Normal Skills. Therefore, these Blood Flame Tigers began to decrease at a visible speed under her attacks.

There was an additional ten times the promotion energy bonus!

Killing 10,000 fog monsters was equivalent to killing 110,000 fog monsters!

She, the Green Phoenix Lord, had never fought such a rich battle!

Awesome!

Previously, when she found out about the Incite Defection, she was still a little conflicted. Should she ask the Lord to change her Blessing of the War God to the Incite Defection?

However, she had once again become a determined member of the 'Talent Party of the God of War'!

Behind the battlefield.

When Zhou Zhou saw this scene, he could not help but smile.

This Green Phoenix Lord's Green Phoenix Immortal Body was indeed extraordinary. Her group attack ability was not inferior to Nezario at the same level!

In some aspects, it even exceeded his expectations!

With this Green Phoenix Lord, in the future, other than himself, the Star Alliance would also have a second combat power big shot!

In addition, he was also a little emotional about this scene.

The White Platinum-Tier Lord faction that he had been cautious of not long ago could now be easily dealt with by him.

The speed at which his strength increased was not bad.

He just did not know how his development speed would be compared to the True Lord and the Great One Lord.

"Big Brother! Big Brother! I... I now have more than 16,000 Blood Flame Tigers as my subordinates!"

At this moment, Ling'er's excited voice sounded.

"This is much more useful than the Blessing of the War God, right?"

Zhou Zhou looked at her and smiled.

"It's useful, but as a human Lord, it feels strange to suddenly have so many monster subordinates."

Ling'er thought for a moment and said with a strange expression.

There was still a smile on her face even though she said that. It could be seen that although she felt that this talent was a little strange to use, she was very satisfied with its effect.

"This is just the beginning."

"Get used to it."

Zhou Zhou lamented.

In the beginning, the number of monsters under him was far inferior to the number of human soldiers because of the Monster Ranch.

However, as the level of his Incite Defection increased and the level of the enemy monster Lords he came into contact with increased, every time he used the Incite Defection, he instigated a large number of monster subordinates.

Now, he had more than 500,000 soldiers under his command!

Among them were more than 360,000 subordinates of the monster alone. It had already exceeded the number of human soldiers.

In the beginning, Zhou Zhou also felt strange about this.

But he had figured it out now.

So what if he had more monster subordinates? It was fine as long as his combat strength was strong.

Moreover, in this era where the Lords of all races fought and fused, it was actually a little inappropriate to focus on developing pure human armies.

When Ling'er heard Zhou Zhou's words, she nodded obediently.

The Lord Talent that she had shared previously was also the Blessing of the War God. Later on, her Big Brother took the initiative to look for her today and asked if she needed to change the Lord Talent, Incite Defection.

At first, she was a little hesitant.

In her eyes, the Lord Talent of the Master God-Tier was actually quite high-quality.

Hence, for a moment, she was conflicted about whether to exchange it for this Blessing.

In the end, she decided to change.

This was because she had also understood that compared to the Blessing of the War God, Incite Defection was indeed a top-notch Lord Talent that could quickly increase the power and scale of the territory in the early, middle, and late stages.

At the thought of this, she envied her brother even more.

His brother had both the Blessing of the War God and the Incite Defection. With these two top-notch talents, it was no wonder that his brother could suppress the Lords of the Cerulean Planet and even the Lords of the myriad races and become the top Lords!

On the other side.

When Zhou Zhou saw Ling'er's happy expression, he first smiled before turning to look at the 309 Lords behind him.

They all looked at Ling'er with envy and passion.

Zhou Zhou's heart skipped a beat as his invisible psychic power spread out. Soon, he heard their inner thoughts.

[That's great. If only I could replace her and use Incite Defection here!]

[I'm envious! When will it be my turn to instigate Incite Defection? I also want to have a group of extremely powerful subordinates so quickly!]

[This Incite Defection is simply heaven-defying. With a wave of his little hand, he obtained thousands of subordinates. It's like the domineering aura in novels where a group of underlings come to vote. Eh, it rhymes quite well...]

[It feels so good to be with Big Boss Blazing Sun. I was actually hesitating before? Damn, I almost missed this huge opportunity!]

**Chapter 400: Green Bronze-Tier Lord Talent—Scavenger!**

The Lords had many thoughts, but most of them wanted to personally test the specific use of this Incite Defection talent to satisfy themselves.

Zhou Zhou smiled.

"Everyone."

His voice rang in the ears of every Lord.

"Ling'er is just showcasing the ability for you guys."

"My soldiers will be bringing you to the territories of the Scarlet Lords or the temporary strongholds of the Lords of the myriad races on the Final Battlefield."

"Over there, you can use your Incite Defection talent to your heart's content and recruit your subordinates!"

"However, today is the first day of the opening of The Final Battlefield. My subordinates haven't explored too many hostile factions."

"But you don't have to worry about that."

"We can't find any enemies on the Final Battlefield for the time being, but would we have to worry about not being able to find any enemies when we return to the High Continent and the surroundings of your territories?"

"At this point, you must have many enemies that you want to deal with urgently, right?"

"Then use Incite Defection on them!"

"But I have two requests!"

At this point, Zhou Zhou's tone suddenly became serious.

"First: You can use Incite Defection, but you're not allowed to use it to commit crimes. You're already members of the Star Alliance now. Every move you make outside represents not only yourself, but also our Star Alliance. I don't want to hear that one day, a member will use Incite Defection and cause unhappiness and even make enemies for our Alliance!"

"Moreover, everyone has to know that we have just arrived in the High Continent after all. Our strength is far from powerful, and it's far from the time to use Incite Defection wantonly. Otherwise, if we provoke some undefeatable enemies, even if you have Incite Defection in your hands, you will only be destroyed in an instant. You might even implicate the other members of our Alliance!"

"Therefore, I will immediately establish an Alliance Supervisory Council to specially supervise this and other matters. If anyone ignores this rule, not only will I expel you from the Star Alliance and withdraw your shared Incite Defection talent, but I will also personally send someone to take care of you!"

Zhou Zhou looked at everyone solemnly.

The talent of Incite Defection was indeed a little ridiculous. It could easily arouse the desire in the hearts of life forms.

As a sharer of talents, he had to take precautions in advance in order to prevent powerful enemies from coming knocking on his door one day because of this matter.

On the other side.

When everyone heard Zhou Zhou's words, they were shocked. Some of the arrogant thoughts in their hearts seemed to have been extinguished by a basin of cold water, and they instantly turned cold.

These people came to their senses.

Yes! The Alliance Master was right.

They were far from reaching the level where they could use Incite Defection at will.

On the contrary.

It was precisely because of the Incite Defection that they needed to lie low and use it for a long time. Only then would they have a chance to become a truly powerful Lord in the future.

They did not want to use Incite Defection unscrupulously and provoke a powerful enemy one day. In the end, they would be destroyed by a powerful enemy who rushed over!

Zhou Zhou heard everyone's thoughts and nodded slightly in his heart.

These people were all Lords who specialized in Life Professions. Their desire for war was not that strong, so they were still willing to listen.

"As for the second request, it's very simple."

"I want you to send 10% of the Incite Defection's troops to my territory every day."

Zhou Zhou said.

Everyone looked at each other and said readily,

"No problem!"

"It's just 10% of the army. What's the big deal? The Alliance Master asked and we agreed."

"The Incite Defection talent was originally shared by the Lord. Even if you want 50% or 100% , it won't be a problem, what more 10%? Anyway, when we encounter danger, the Lord will save us, right? Hehe!"

...

Everyone agreed.

When Zhou Zhou saw this, he did not show it on his face, but he was happy in his heart.

These were 309 Lords who had grasped Incite Defection. If he included Ling'er and Nong Chenglin, it would be 311 Lords!

Even if each of them could only instigate Incite Defection's 1,000 subordinates a day, adding up to 10% of their troops, they could still reach tens of thousands of people!

When their strength increased in the future, the level of the enemies they faced would also increase. At that time, the troops they brought to him could reach a million or even more in a day!

With these additional troops, the military strength of his territory would increase exponentially again!

Zhou Zhou could not help but look forward to the future.

A moment later.

The battlefield gradually quietened down.

All the Blood Flame Tigers and the Blood Flame Lord were destroyed on the battlefield.

The soldiers began to use the Conqueror's Blast Furnaces to retrieve the Loots with ease.

These Lords knew about the Conqueror's Blast Furnaces, however, all the Lords were stunned when a large number of Loots were sent out from the Conqueror's Blast Furnace.

The expressions on their faces were even more shocked than when they saw the Incite Defection Effect.

Zhou Zhou did not explain.

Actually, according to the rules, the 100% drop rate of the King of Loots talent could also be shared.

However, Zhou Zhou realized that it wouldn't work when he tried to share it.

This was because the King of Loots was a Mythical-Tier Unique Lord Talent!

The main point was this 'unique'.

Because it was the only one, it could not be shared, even if it was just a low-level version.

Seeing this, Zhou Zhou gave up on the idea.

It seemed that he could only enjoy the Mythical-Tier Unique Lord Talent alone in the future.

A moment later.

Zhou Zhou looked at the corpse of the Blood Flame Lord in front of him and frowned.

This was because he realized that there was no Blood Crystal or any other item in this Blood Flame Lord's corpse.

"Don't all Scarlet Lord territories have Final Items?"

Zhou Zhou guessed.

However, it was useless to guess. He had to look at other examples.

Thinking of this, Zhou Zhou took the White Platinum-Tier Territory Token and left for the Scarlet Lord's territory.

In the following period of time.

Just as he had said, Zhou Zhou led the Alliance members and began to use Incite Defection to attack the territory of the Scarlet Lords or the Lords of the myriad races they had encountered along the way.

In just over two hours.

Eight Scarlet Lord territories and three Lord factions of the myriad races were taken care of by them.

The Lords felt good using Incite Defection.

Zhou Zhou was a little depressed.

This was because he did not obtain a single Final Item after dealing with the Scarlet Lords and the Lord of All Races.

Only then did he realize what "extremely rare" meant in the introduction to The Final Battlefield.

This was really rare!

Even with the King of Loots and his Blessing of the God of Fortune talent, he could not obtain many Final Items.

However, even though he didn't obtain any more Final Items, it wasn't like he didn't gain anything.

Among the three factions that he had dealt with, he had obtained a Green Bronze-Tier Lord Talent Sphere from one of them.

[Treasure Name: Lord Talent Sphere—Scavenger]

[Treasure Grade: Green Bronze-Tier]

[Treasure Effect: After absorbing it, the Lord will possess Green Bronze-Tier Lord Talent - Scavenger!]

[Treasure Description: A Lord Talent Sphere purified by the Supreme Will. After absorbing it, you can obtain a Green Bronze-Tier Lord Talent.]

Zhou Zhou did not use it immediately. It would not be too late to see what this talent was when he returned to the territory.
