Chapter 431: Final Items—The Compass Of The Soul Of Vengeance!

Zhou Zhou shook his head.

He could tell the make up of these three Skills at a glance with the Legendary-Tier Dragon Race's secret inheritance.

Among them, the Dragon-Light Sacred Fire was equivalent to a weakened version of the Holy Flame Dragon Breath.

The Light Sacred Body and Special Light Element Control were equivalent to a greatly weakened version of the Light Sacred Dragon Bloodline.

Zhou Zhou was now the owner of the Light Sacred Dragon Bloodline and could be said to be a humanoid Light Sacred Dragon. Naturally, he was not interested in these "inferior products" since they could not be stacked at all.

Thinking of this, Zhou Zhou stored them into his Spatial Ring.

He could take them out and reward them to his subordinates in the future, if they made any great contributions and he did not know what to reward them with.

As for the last Racial Talent Sphere (Enhanceable—Unique), Zhou Zhou opened it and realized that it was the Light Sacred Dragon's Holy Dragon Might talent.

Zhou Zhou was naturally not interested and put it into his Spatial Ring.

...

A moment later, the Loots were extracted from the corpses of the other 24 Light Spirit Dragons.

That included the corpse of the Light Spirit Dragon he had extracted previously.

Zhou Zhou obtained a total of 25 Light Spirit Dragon eggs and 25 Light Spirit Dragon Bloodlines. There was naturally the same amount of skill books and the Racial Skill books.

Zhou Zhou was not too interested in these skill books and Racial skill books.

However, he was quite interested in these 25 Light Spirit Dragon eggs and 25 Light Spirit Dragon Bloodlines.

If he used them all effectively, he would immediately have 25 more Light Spirit Dragon cubs and 25 subordinates with boundless prospects with the bloodline of the Light Spirit Dragon!

Zhou Zhou was filled with anticipation just thinking about it.

With these pets and subordinates, the strength of his subordinates would clearly increase again!

However, while hatching the Light Spirit Dragon was easy, he had to think carefully about who to give the Light Spirit Dragon Bloodline to.

This was clearly not a place to think quietly, so Zhou Zhou prepared to wait until he returned to the territory at night.

After putting away all the Loots, he went to the City Lord's residence and took away a Yellow Gold-Tier Territory Token and other supplies. Zhou Zhou suddenly felt something just as he was about to leave.

"Wait for me here."

"I'll be back in a while."

Zhou Zhou said to Bai Yun behind him.

Bai Yun hesitated for a moment before nodding.

They had already cleared all the enemies and traps here. If the Lord wanted to walk around alone, there shouldn't be any danger... right?

Bai Yun thought hesitantly.

However, one can never be too careful.

She prepared to follow not far behind the Lord. This way, if the Lord really encountered any danger that they did not notice, she could save him immediately.

...

On the other side.

Not long after Zhou Zhou left, he felt Bai Yun protecting him not far behind him.

He didn't mind.

One of the reasons why he dared to leave the team and take a walk alone was because he had just obtained his personal talent, Danger Prediction.

It was precisely because of Xiao Xuan's talent that Zhou Zhou could feel that the danger here had been completely cleared by Bai Yun and the others. That was why he dared to come out alone to experience the joy of exploring treasures alone.

That's right.

It is to search for treasures!

Just now, one of his Lord Talents that he had almost forgotten had been triggered.

It was the Green Bronze-Tier Lord Talent—Scavenger that he had obtained previously!

This Lord Talent could allow Zhou Zhou to have an almost innate intuition towards the treasures within a thousand square meters of him. He could acutely sense the location of the treasures.

It could also extend the duration or Endurance of treasures by two times.

As for increasing the drop rate by 5%, it was useless.

He suddenly felt that a treasure not far to the southeast of him seemed to be calling out to him.

This feeling was very strange, making Zhou Zhou excited and expectant.

Zhou Zhou had already seen many treasures.

However, most of them were dropped by him with the help of the King of Loots.

This was the first time Zhou Zhou had encountered a treasure that appeared around him in such a way.

Therefore, he was looking forward to what this treasure was.

A moment later.

He walked out of the City Lord Manor and came to a corner of the city ruin.

Then, he saw the corpse of a monster.

This monster had three heads, and each head belonged to a different race. Moreover, its body structure was also strange, as if it was a monster formed from the bodies of living beings of different races.

However, this was not important.

The important thing was... The call of the treasure that Zhou Zhou felt came from it.

He frowned and used the Object Control Technique to control the monster corpse to fly in the air. Then, he began to check various parts of its body.

Zhou Zhou saw a Blood Crystal covered in blood in its stomach in no time.

"It's indeed a treasure!"

Zhou Zhou was delighted.

At the same time, he felt a little happy.

This feeling of freeloading was really good.

Then, he gave a drop of blood on the Blood Crystal of Destiny. It slowly melted and finally turned into a blood-colored compass.

Zhou Zhou looked over...

[Final Items: Compass of the Soul of Vengeance]

[Effect: There is a great Soul of Vengeance residing in the compass. Tell "Him" the true name or title of the person you want to take revenge on. Picture the other party's appearance in your heart. The great Soul of Vengeance will guide you to the location of your enemy.]

[Current number of times guided by the Soul of Vengeance: 2/5]

[Prompt: With the enhancement of your Scavenger Talent, the number of times the Soul of Vendetta has been guided has increased to: 4/5]

"This Final Item..."

Zhou Zhou looked at the Final Items and thought about how to use them.

Vengeance?

He did not seem to have any enemies.

Should he look for the Dragon Lady Lord and the Undead Lord?

Even though the Dragon Lady Lord and the others were not directly involved in the attack by the other Cerulean Planet Lords in the early stages, many Cerulean Planet Lords were rumored to be secretly supporting them.

But...

Zhou Zhou thought for a moment and quickly rejected this idea.

The current him no longer treated people like the Dragon Lady Lord as his opponents. His true opponent was the true top Lord of all races who stood at the peak of all races.

Moreover...

Why use a sledgehammer to kill a chicken?

Zhou Zhou had many ways to deal with the Dragon Lady Lord and the others. Zhou Zhou felt that it was a waste to use such a top-grade tool on them.

Then, he looked at the Final Battlefield in front of him and suddenly thought of something. His eyes lit up.

"I can use this tool on the top Lords among the Lords of all races!"

"They are all worth billions or even tens of billions of basic ranking points."

"As long as I kill one."

"My ranking can instantly increase. It's even possible for me to directly reach first place!"

Zhou Zhou felt that this application method was the most suitable for him at the moment.

However, those top Lords of all races were not easy to deal with.

The virtual Lord Battlefield was completely different from the real The Final Battlefield after all.

Zhou Zhou pondered deeply.

He had to think carefully about which top-notch Lord of all races he could look for using this tool. Only then could he be safe and reap high benefits.

[**Global Lord: 100% Drop Rate**](#)

Chapter 432: Terrifying Xu An!

He did not think for long.

Bai Yun had already cleaned up the battlefield and came in front of Zhou Zhou.

"My Lord, should we continue on our way?"

She could tell that her Lord seemed to be thinking about something, so she asked.

"Let's go."

"Continue to find the strongest Lord faction in the surroundings to attack."

Zhou Zhou came back to his senses and said.

He had an idea now.

The Compass of the Soul of Vengeance had three conditions for use:

They were the true name and title of the enemy, and the appearance of the enemy.

Which meant that he could find the location of any Lord he had fought on the battlefield of the Lords of All Races through the Compass of the Soul of Vengeance.

However, he would likely not be able to find the location of the True Lord of the Original Spirit Race or the Great One Lord of the Chaos God Race since he had never come into contact with them.

However, the other Lords such as the Heaven Chasing Lord of the Shepherd Race, the Machina race's Lord Father, and the Extreme Venerable Lord of the Extreme Dragon Race...

These top-notch Lords could become his hunting target.

Zhou Zhou set his goals thinking of this.

He would first deal with the strongest group of Lords among the 100,000-odd Lord factions. Then, he would test the effect of the Compass of the Soul of Vengeance.

After that, he stopped thinking about it. After the Light Sacred Dragon, Ingesol, finished eating its eggshell, they returned to the Starry Night and advanced towards the next Lord faction.

...

Time passed quickly.

Under Wen Ya's precise positioning, the Lord forces were found by Zhou Zhou and the others. Then, they were easily defeated and conquered.

Of course, they also missed them numerous times.

It was impossible for those Lords of all races to stay in one place forever.

But even so.

With a huge base of more than 100,000 and the astonishing speed of the Starry Night, Zhou Zhou and the others' efficiency in killing the Lord factions of all races was still very shocking.

As it turned out.

Zhou Zhou was right.

It was very difficult for a Lord like Zhou Zhou, who could fight for the position of the strongest Lord of all races, to encounter a Lord faction that was evenly matched with him because of the sheer size of The Final Battlefield.

In most cases.

The Lord factions he had encountered were all below the Extraordinary-Tier. They were all Lord factions that could be easily crushed by his two armies.

At first, Zhou Zhou was still interested in going out with the soldiers and watching them fight.

Later on, he gradually lost interest and hid in the Starry Night to watch the live broadcast.

In the end, he did not even want to watch the live broadcast anymore and asked Wen Ya to show him the situation on Xu An's side.

A virtual screen appeared in front of Zhou Zhou.

It showed a thin figure holding a blood sword and walking towards a temporary stronghold of the Lords of all races not far away.

It was Xu An!

At this moment, he suddenly felt something and turned to look behind him.

He saw a virtual screen aimed at him, showing Xu An's figure.

"Greetings, my Lord."

Xu An bowed respectfully and asked curiously,

"Can my Lord meet me in such a way even though I'm not in the spaceship?"

"Even though you're not in the spaceship, you're within the range of the Starry Night's signal. That's why I can communicate with you in this way."

Zhou Zhou said with a smile on the virtual screen.

There was a small satellite stored in each of the dozen odd Starry Nights. This small satellite contained extremely advanced mixed reality virtual imaging technology and could control the energy in the air to form such a virtual scene.

It was said that their mixed reality virtual imaging technology had already been applied to an extremely common level among the highly developed mechanical race of technological civilization.

He could even achieve all kinds of mixed reality virtual imaging without energy and only needed to control the signal.

Their racial territory could even turn into all kinds of virtual worlds with a thought through such technology. It was not an exaggeration to say that it could change the world at will.

The virtual video screen in front of Xu An was just the most basic technology application.

Xu An nodded blankly.

The Night Empire he had lived in previously was an extremely pure Martial Artist country. Technology of this level was almost non-existence in his life, so he did not understand what Zhou Zhou was saying at all.

However, Xu An did not have the mood to ask further.

He was an assassin, he just had to do what he had to do.

"Are you going to assassinate the other party's Lord?"

"Yes, my Lord."

"Don't you need other soldiers?"

"I've already asked the soldiers to pick me up when I return. I myself am enough for the assassination attempt."

Xu An said calmly.

"Then be busy. I won't disturb you. I just want to see how you assassinate."

Zhou Zhou was also quite curious about the methods of assassins like them.

"Sure."

Xu An naturally did not object.

In the past, when he was carrying out assassin Quests in the Night Empire, there would occasionally be nobles or high-level Bosses of organizations from the Night Empire who wanted to see his performance. He was not used to it at first, but he got used to it over time.

These assassin skills were also one of the few retained memories in his mind.

For the rest of the journey, Zhou Zhou did as he said. He did not disturb Xu An at all and quietly followed not far behind him. On the one hand, he watched him carry out the assassination, and on the other hand, he did not want him to be exposed because of him.

Just as Xu An was about to reach the sentry post arranged by the other party, Xu An's walking body suddenly began to rapidly become shallow and become silent until it completely disappeared.

Talent—Strong Concealment!

Talent—Breathless Walking!

Zhou Zhou's eyes widened.

Even if his perception was extremely strong, it was useless at this moment through this virtual video, so he could not see Xu An's location.

But soon, an illusory human frame appeared on the virtual screen.

"How did you find out?"

Zhou Zhou was stunned and asked.

"I placed a signal source on Xu An with his agreement. This way, I can know Xu An's location at all times so that it's easier to receive him. On the other hand, it's for this moment."

Wen Ya's voice sounded.

Zhou Zhou acknowledged.

Wen Ya had thought it through.

With Wen Ya's methods, Zhou Zhou watched as Xu An walked into the faction's stronghold step by step.

The strength of this Lord of All Races was a Lord of the Abyss Race called the One-Eyed Demon Race.

According to the Index of All Races, not only was this One-Eyed Demon extremely good at Spirit spells and enslavement spells, its single eye was also extremely good at breaking illusions, seeing through invisibility, and so on.

However, when facing a top-notch assassin, Xu An, even an Abyss Lord who was good at seeing through invisibility seemed to be blind. They did not realize that a peerless assassin with a sharp blade had already walked into their territory step by step and began to search for their Lord.

[Global Lord: 100% Drop Rate](#)

Chapter 433: Using The Compass of the Soul of Vengeance!

They were busy with their own matters as if no one was around. Xu An also looked for their Lord calmly as if no one was around.

It was like choosing the goods he wanted.

Zhou Zhou could not help but feel excited when he saw this contrasting scene.

Was this the charm of a top-notch assassin?

Xu An found the One-Eyed Demon Lord in no time.

He followed behind the other party. After waiting for a long time, he finally found a chance for the other party to be alone.

This One-Eyed Demon Lord brought its Spatial Ring as if it wanted to return to its temporary residence to check the loot it had just obtained.

However, just as it walked into its room and closed the door with its mental strength, a faint blood light flashed. Then, its huge eye was split into two from the middle and fell to the ground weakly.

Its corpse disappeared into thin air before it landed on the ground.

This One-Eyed Demon Lord's eyes were still filled with excitement about the upcoming inspection of the Loots even until its death.

As for Xu An, who had killed the target, he was still invisible.

He looked calmly at the corpse of the One-Eyed Demon Lord in its Spatial Ring and walked out of the door, out of the temporary stronghold of the One-Eyed Demon Race. Then, he removed his invisibility and returned to the Starry Night with the respectful support of the soldiers.

"Let's go to the next Lord faction."

"Find the strongest one."

Xu An said calmly.

Killing a White Silver-Tier Intermediate Grade One-Eyed Demon Lord was similar to blinking for him.

"Yes! Lord Xu An!"

The intelligent life form of the Starry Night replied. Then, it quickly left and flew to the next stronghold of the Lord of All Races.

At this moment,

A virtual screen appeared in front of Xu An again. It was Zhou Zhou's video call.

"Simple and straightforward."

"As expected of a top-notch assassin."

Zhou Zhou was not stingy with his praise.

"It's because the opponent is too weak."

Xu An shook his head.

Zhou Zhou nodded.

The difference between an Epic-Tier Elementary Grade and a White Silver-Tier Intermediate Grade Lord was indeed a little huge.

At the same time, he felt that it was a pity.

Originally, he wanted to see the powerful abilities in Xu An's Skill List. He did not expect the other party to be too weak and could not force Xu An to that extent.

But he didn't care since there was still a long time in the future, he would be able to see them sooner or later.

In the following period of time, Zhou Zhou watched Bai Yun, Wu Xin, and the others conquer the Lord factions of all races while watching Xu An's assassination.

It was not boring.

More than seven hours passed.

The members of the Star Alliance had yet to return.

Zhou Zhou did not disturb their Incite Defection operation. He called Bai Yun, Wu Xin, Xu An, and the others back to tally their results.

In the end, he realized that in the past seven hours, they had killed a total of 2,134 Lords of all races.

Among these Lords, Xu An alone had killed 1,056 Lords!

This result immediately conquered Bai Yun, Wu Xin, Feng Luo, and the others.

One had to know that even though they were leading the soldiers to conquer the entire Lord faction of the myriad races, they were not like Xu An, who only killed the Lord's main body before leaving.

Even so, Xu An's efficiency was too terrifying!

Was this a top-notch Epic-Tier Elementary Grade assassin?

Everyone exclaimed in their hearts.

Zhou Zhou looked at Xu An with satisfaction.

He had personally seen Xu An hunt down Lords of all races like a ghost.

Therefore, he knew best how terrifying Xu An's killing efficiency was.

"Before The Final Battlefield began, the other Cerulean Planet Lords said that a profession similar to an assassin would shine on the Final Battlefield after knowing the rules here."

"From the looks of it, it's true."

Zhou Zhou thought to himself.

Xu An alone was almost equivalent to the efficiency of their entire army.

This was something he had never expected.

However, reality was so ridiculous.

"If I had a few more top-notch assassins like Xu An, wouldn't I be able to obtain Lord Talent Crystal Fragments easily?"

Zhou Zhou thought ruefully.

Unfortunately, an expert like Xu An could only be chanced upon by luck.

Then, he stopped thinking about it and told the soldiers that they would deal with a difficult opponent next. He asked everyone to leave the meeting room temporarily and took out the Compass of the Soul of Vengeance.

He looked at the blood-colored compass with a solemn expression.

There was the soul of Vengeance, which was called a great existence by the item information.

This was the first time Zhou Zhou had seen such a title. Therefore, even though he knew that the Final Items could be used safely, he was still a little cautious.

After a long time.

He took a deep breath and said slowly:

"The Great Soul of Vengeance."

"I want to take revenge on someone."

"Can you give me guidance so that I know its location?"

The Compass of the Soul of Vengeance lay quietly in Zhou Zhou's hand, as if it was just an ordinary old compass.

Zhou Zhou did not relax at all and looked at the compass carefully.

One second, two seconds, three seconds...

Whoosh...

The compass moved slightly, and then a large amount of blood-colored fog dissipated from the compass.

The entire conference room was enveloped by the blood-colored fog, making Zhou Zhou feel like he had arrived in a strange world.

Honestly.

He still felt a little cowardly when he saw the scene in front of him even though he was mentally prepared.

However, he did not reveal anything on the surface.

At this moment, a pair of blood-colored eyes slowly appeared from the blood fog.

These eyes looked at Zhou Zhou calmly.

"Chaos Human."

"Tell me, who is the enemy you want to take revenge on?"

The Soul of Vengeance's voice rumbled.

"The enemy I want to take revenge on is..."

"Extreme Dragon Race Lord— Extreme Venerable Lord!"

Zhou Zhou said in a low voice.

This goal was the choice he made after thinking for a long time.

The most important reasons for choosing were naturally the Light Sacred Dragon Bloodline and Light Sacred Dragon Ingesol that he had just obtained.

As a Legendary-Tier dragon, its bloodline and main body could definitely suppress the Extreme Venerable Lord.

This alone was enough for Zhou Zhou to occupy a huge advantage in his battle with it.

Not to mention that he was no longer the same person who first saw the Extreme Venerable Lord.

The current him was very confident in defeating the other party even if he did not use the Light Sacred Dragon.

Now that he had the enhancement of the Light Sacred Dragon, Zhou Zhou would definitely not waste these two huge advantages.

Actually, he was also considered Lord Father of the Machina race.

However, after thinking about it, he gave up.

Technology civilization had endless methods. Even though his strength was far stronger than before, he did not want to destroy Lord Father without knowing if he had unlocked higher-tech products.

After all, one can never be too careful.

On the other hand, the dragon race's bloodline was revered. As long as their bloodline and strength crushed each other, they did not have to worry too much about accidents.

At this moment, the Soul of Vengeance spoke.

"I have given guidance."

"Go on."

With that, the pair of blood-colored eyes slowly disappeared into the blood fog. Then, the blood fog quickly retracted into the compass. The entire conference room returned to its previous appearance, as if nothing had happened.

Zhou Zhou's gaze landed on the compass in his hand.

The blood-colored needle on the compass suddenly began to slowly spin and finally pointed to the west.

[Global Lord: 100% Drop Rate](#)

Chapter 434: The Big Battle Begins!

Zhou Zhou looked in the direction pointed by the compass needle and a message appeared in his mind.

The Extreme Venerable Lord was 8,142 kilometers to the west!

Zhou Zhou calculated in his heart.

With the speed of the Starry Night, they could reach the location of the Extreme Venerable Lord in about an hour.

The remaining time should be enough to deal with the Extreme Venerable Lord.

Even if the Extreme Venerable Lord obtained any powerful trump cards during this period of time, he did not have to worry too much. He had obtained many Final Items in the past two days, including some that could allow him to escape safely.

...

More than an hour later, Zhou Zhou and the others came to attack the temporary stronghold of the Extreme Venerable Lord.

A silver-white dragon more than 2,000 meters tall was soaring in the sky!

It was the Extreme Venerable Lord!

36 smaller Extreme Dragon Race members and nearly 400,000 living beings of various races were moving things around the city ruins below.

Among them, the Extreme Dragon Race was in charge of supervising the work, and the 400,000 life forms of various races played the role of coolies.

Zhou Zhou was not surprised to see this.

He could use the Lord Talent Incite Defection to make many people of foreign races and even monster subordinates become his Subjects.

As a pure-blooded dragon, the Extreme Dragon Race's bloodline was much higher than the Lava Dragon and the Spectral Dragon. It could almost be said to be one of the top pure-blooded dragons below the Legendary-Tier Dragon Race.

With their reputation, they could subdue a large number of subordinates even with the simplest deterrence method.

It was not a problem to find a large number of 'workers' with a little effort.

It was just that their loyalty might not be very high.

However, Zhou Zhou's attention was not on the slaves of the people of foreign races, but on a tower.

It was a towering tower that was more than 10,000 meters tall!

This tower had a total of 10 floors and was simple. The surface of the tower was carved with all kinds of dragon murals.

Elven Dragon, Bone Dragon, Lava Dragon, Jade Dragon, Spectral Dragon, Mountain Dragon, Blood Dragon, Three-Headed Demon Dragon...

All kinds of dragon carvings gathered on the surface of the towering and ancient tower.

It emitted an extremely strong Dragon Might and dragon blood aura.

Not only did the 400,000 slaves of the people of foreign races not dare to look at it directly, but even the 36 Extreme Dragons were afraid of this tower.

"Dragon Sacrifice Holy Tower..."

"And it looks like the top-notch Dragon Sacrifice Holy Tower."

"I didn't expect the Extreme Venerable Lord to get this thing out so quickly?"

Zhou Zhou had the inheritance of the Legendary-Tier Dragon Race in his mind, so he naturally could tell the origin of this towering tower at a glance.

His gaze became serious.

This Dragon Sacrifice Holy Tower was one of the fruits of civilization developed by the Dragon Race over countless years.

It was finally completed after 30,000 to 40,000 years and 14 generations of Dragon Gods!

Its function was very simple, but it was also very practical.

That was, when the younger generation of the Dragon Race was not strong enough and needed help, they could use their bloodline as a catalyst to offer sacrifice in the Dragon Sacrifice Holy Tower. They could summon the projection of their bloodline ancestors to fight for the younger generation.

The Dragon Race was filled with treasures, but the Dragon Sacrifice Holy Tower had contributed greatly to their survival until now.

Zhou Zhou could not help but think of what the Extreme Venerable Lord had said to him back then.

"The racial civilization foundation of the Lords of the various top races has already begun to appear."

"This Dragon Sacrifice Holy Tower is only the beginning."

Zhou Zhou thought to himself.

However, he was not afraid. Instead, he was a little eager to try.

With his current strength, he could say that he was lonely facing 99% of the Lords of all races.

He was excited to see the power of this Dragon Sacrifice Holy Tower.

If he could not defeat him, he would use the Final Items to escape. In any case, he would not lose out.

He immediately ordered to begin attacking the temporary stronghold of the Extreme Venerable Lord thinking of that.

At the same time...

The Extreme Venerable Lord, which was cultivating in the sky, slowly opened its dragon eyes and his gaze landed on the Starry Night, which was continuously sending troops to the ground.

A look of surprise flashed across its eyes.

This was the first time it had seen a Lord faction of all races that dared to attack them after coming to the Final Battlefield.

Moreover, it looked like it had the strength of a weak human Lord.

It narrowed its eyes slightly and quickly sensed a familiar aura from these human soldiers.

"The Lord of The Blazing Sun..."

"So it's him."

The Extreme Venerable Lord looked at the seven Starry Nights with a pair of cold and deep silver-white dragon eyes.

The last time, it took the initiative to admit defeat to the Lord of The Blazing Sun because it knew that its strength was inferior to the Lord of The Blazing Sun.

It had always regarded that incident as its greatest humiliation.

And now, this human Lord actually dared to take the initiative to look for it again.

Did he really think it was still the Extreme Venerable Lord from back then?

With the Dragon Sacrifice Holy Tower under it, it would even dare to take the initiative to attack even if the True Lord of the Original Spirit Race appeared in front of it.

This Lord of The Blazing Sun actually dared to appear in front of it again. He simply had a death wish!

Then, it thought of something and its silver-white dragon eyes suddenly lit up.

This Lord of The Blazing Sun had more than ten billion ranking points.

If it killed the other party and took away the ranking points on him, wouldn't it immediately be ranked first among the Lords of all races?

Its heart suddenly burned.

"Good timing! Hahaha..."

"All Extreme Dragon Race and slaves, listen up!"

"Destroy all these humans who dare to invade our territory!"

The Extreme Venerable Lord's voice was cold and ferocious, shaking the world.

"ROAR!"

"Roar!"

"Coo coo!!"

"Howl!"

"&*&*&..."

Language from the Extreme Dragon and various Races sounded one after another. Then, they rushed towards Zhou Zhou's army.

"Howl!" x2

Seeing this scene,

In the blink of an eye.

Bai Yun and Wu Xin also gathered an army of 200,000. They immediately summoned the Greedy Wolf Avatar that was nearly 3,000 meters tall and charged at the enemies of the Extreme Dragon Race and the people of foreign races.

Nezario, Auguste, Feng Luo, Xu An, Soul Reaper Maris, and other experts followed closely behind.

The remaining 300,000 troops were all long-range archers and Mages. They did not need to join the Greedy Wolf Avatar and could attack these enemies from afar.

"ROAR!"

Extreme Dragon Race descended from the sky one after another and pounced on the two Greedy Wolf Avatars, Nezario, Auguste, Feng Luo, Xu An, and the others with ferocious expressions.

However, they were not afraid at all.

The strength of the two Greedy Wolf Avatars was at the limit of the Extraordinary-Tier. The strongest among these Extreme Dragon Race and people of foreign race life forms was only at the Yellow Gold-Tier. Even if the Extreme Dragon Race was a top-notch pure-blooded dragon and the Yellow Gold-Tier Extreme Dragon Race was enough to defeat a Diamond-Tier expert, an Army Extermination Light Ball could send a Yellow Gold-Tier Extreme Dragon Race flying thousands of meters away in front of the Greedy Wolf Avatar.

Nezario and Auguste were both White Platinum-Tier pure-blooded dragons. They could naturally easily crush these Extreme Dragon Race members who were not even White Platinum-Tier. Nezario was not at a disadvantage at all in a one-on-five battle!

The Diamond-Tier Intermediate Grade Feng Luo was a Ten-Directional Martial Emperor and had even mastered the Unparalleled Ghost God hero skill of the Ghost God General. He was best at fighting against many!

Therefore, he did not choose to fight the Extreme Dragon Race. Instead, he chose to charge into the 400,000 life forms of the people of foreign races with Xu An and Soul Reaper Maris. He transformed into a Ghost God Martial Emperor. As he waved his saber, countless Emperor Heavenly Saber Qi burst out wantonly. Every move and move could kill dozens or hundreds of life forms of the people of foreign races. He was simply like a peerless fierce general playing a mowing game.

[Global Lord: 100% Drop Rate](#)

Chapter 435: Extreme Venerable Lord's Foreign Aid! The Appearance Of The Extreme World Honored Dragon!

On the other side.

The 300,000-strong army at the back of the battlefield was unwilling to fall behind.

Especially the Army Extermination Knights and the Violent Storm Spirits!

The former was an Empire-level soldier type. After they entered the 400,000 people of foreign race soldiers, even though they could not look down on them like Feng Luo, they were still enough to kill everyone in the 400,000 people of foreign race soldiers.

Among the 300,000 soldiers, there were more than 100,000 Kingdom-level Combat Class—Violent Storm Spirits!

They released a Death Violent Storm together. A round of attacks was enough to kill more than 50,000 of the 400,000 people of foreign races!

When the Extreme Dragon saw this scene, it immediately pounced on these weak Violent Storm Mages, wanting to deal with them.

However, facing these Yellow Gold-Tier and the Extreme Dragon Race that was not even Yellow Gold-Tier, these Violent Storm Spirits that had already given birth to White Platinum-Tier and even Diamond-Tier Violent Storm Spirits repelled the dozen or so Extreme Dragon Race that dared to approach with tens of thousands of storm spells.

Even though Zhou Zhou's firepower was very strong,

However, as a top pure-blooded dragon race that was relatively close to the Legendary-Tier dragon lineage, the Extreme Dragon Race did not perform very badly.

As top-notch pure-blooded dragons, the Extreme Dragon Race's strength compared to other pure-blooded dragons was that they had two extreme Stats!

That was their dragon bodies and strength!

The Extreme Dragon Race had the strongest dragon body and dragon strength among the pure-blooded dragons!

This was the source of the word 'Extreme' in the Extreme Dragon Race.

Of course, this was under the exclusion of the Legendary-Tier dragons.

But even so, the powerful dragon body and strength of the Extreme Dragon Race was quite obvious in front of the other pure-blooded dragons who were not Legendary-Tier dragons.

Facing the attacks of the Greedy Wolf Avatar, Nezario, Auguste, Xu An, Feng Luo, the Army Extermination Knight, the Violent Storm Spirit, and other experts of the Blazing Sun Territory,

Even though these 36 Extreme Dragon Race were constantly injured, not a single one of them died.

This surprised Zhou Zhou.

"As expected, Lords of all races are not simple."

Zhou Zhou sighed in his heart. Then, he looked at the handsome dragon more than 20 meters tall behind him.

It was the Light Sacred Dragon, Ingesol!

"Come with me."

"Meet your kind."

Zhou Zhou smiled at it.

Ingesol let out a howl, its bright pale golden dragon eyes filled with curiosity and anticipation.

Then, the two of them did not say anything else. After flying out of Starry Night, they looked down at the battlefield below.

The next second.

A terrifying bloodline pressure suddenly erupted from the human and dragon.

The Might of the Holy Dragon!

Under the care of Zhou Zhou and Ingesol, the Blazing Sun Territory naturally did not feel anything.

However, the Extreme Dragon Race and the 400,000 life forms of the people of foreign races suddenly felt the unfathomable heavenly might descend on them. They almost instantly lost their ability to fight and all of them trembled as they landed on the ground or lay on the ground, as if they were waiting for judgment.

Even the Extreme Venerable Lord could not persist flying in the air after Zhou Zhou and Ingesol released the Might of the Holy Dragon at the same time and was forced to land on the ground. It looked at Zhou Zhou and Ingesol in shock.

"Light Sacred Dragon Crown!!!"

The Extreme Venerable Lord cried out.

The warning from the depths of its bloodline had already told it the origin of this bloodline pressure.

Therefore, its heart was filled with disbelief.

The Extreme Venerable Lord never expected that he, a newborn of the Extreme Dragon Race, would actually encounter a Legendary dragon that even the Dragon God might not be able to see in its life.

If the dragons had a lottery event, the Extreme Venerable Lord would want to go draw the lottery now.

"Surrender..."

"Or die!"

Zhou Zhou used the oldest dragon language and said to the 37 Extreme Dragon Race members like the Extreme Venerable Lord. His voice sounded in the ears of every Extreme Dragon.

The Extreme Dragon Race had noble bloodlines and naturally could understand the ancient dragon language.

Therefore, they immediately hesitated.

Races that respected bloodline and strength were like this.

Once a bloodline and strength suppressed them, very few dragons dared to resist.

However, the Extreme Venerable Lord was an exception.

It bit its silver dragon tooth and looked at the Lord of The Blazing Sun beside Ingesol with hatred.

"Despicable Chaos Human!"

"You actually dared to order the Legendary Dragon Race of our dragon race around. Moreover, you've exposed the Legendary Dragon Race of our dragon race to these life forms of the people of foreign races when it is still so weak!"

Its eyes erupted with intense killing intent.

This human Lord and his subordinates had to die!

Moreover, not a single one of the less than 400,000 people of foreign race life forms could survive!

In fact, all living beings within a radius of 5,000 kilometers who sensed the existence of the Light Sacred Dragon could not be left alive!

Otherwise, once the news of the Light Sacred Dragon's reality spread, the gods might personally descend to kill the Legendary Dragons of their dragon race!

However, it had its own agenda too.

If it could welcome this Legendary dragon into its camp, its strength would definitely increase greatly. It might even be able to use it to obtain the support of the local dragons in the future. Perhaps it might even be able to obtain the position of the Dragon God!

If it could become the Dragon God, its success rate in fighting for the Lord of All Races would increase by at least 20%!

Its gaze landed on the Dragon Sacrifice Holy Tower not far away.

A look of determination flashed across the Extreme Venerable Lord's eyes. Then, it forced its body to straighten and spat out a mouthful of silver-white blood at the Dragon Sacrifice Holy Tower.

As soon as it spat out this mouthful of blood, the Extreme Venerable Lord, which was originally a Yellow Gold-Tier Advance Grade, fell to the Yellow Gold-Tier Elementary Grade. Moreover, its aura had also decreased greatly and it fell into an Enfeeble state.

"Extreme Dragon Race—Extreme Venerable, please protect me!"

Its voice was hoarse as it roared. Then, more blood flowed out of the corner of its mouth.

However, it did not care about this at all. Its gaze landed on the distant Dragon Sacrifice Holy Tower.

Zhou Zhou and the Light Sacred Dragon, Ingesol, also looked at the Dragon Sacrifice Holy Tower.

The Dragon Sacrifice Holy Tower that was 10,000 meters tall suddenly shook faintly.

At the same time...

The dragon carvings on its surface also appeared one after another. An astonishing scene appeared, winding and circling, as if it was about to fly out of the murals.

The next second.

A terrifying polar dragon with a silver crown on its head and a dragon beard that snaked for 10,000 meters alone, as if it could lift the sky and step on the ground, jumped out of the Dragon Sacrifice Holy Tower and looked down at all the living beings present.

All the life forms present were terrified when they saw the terrifying Extreme Dragon.

Even pure-blooded dragons like Nezario were no exception.

Of all the life forms present, only the Light Sacred Dragon, Ingesol, and Zhou Zhou dared to look at this huge creature directly.

The two of them looked at this terrifying Extreme Dragon as if they could see complete dragon scale worlds reflecting trillions of life forms from the silver-white dragon scales on its body.

"This is like seeing thousands of worlds."

"A legendary dragon of the Extreme Dragon Race."

"Extreme World Honored Dragon."

Zhou Zhou said softly.

Then, he pretended to put his hand behind his back and rubbed a blood-colored token that appeared out of thin air in his palm.

[Final Item: War Halt Token]

[Effect: A product of the will condensed by the endless Undead on the Battlefield of The Final Battlefield. It contains a large amount of sorrow. After using it, it can forcefully stop any level of battle or war currently underway and transfer the user and the person they want to protect to an absolutely safe location.]

[Current Usage Time: 1]

[Prompt: With the enhancement of your Scavenger Talent, the current number of uses has increased to: 2]

...

This item was one of the Final Items he had obtained on the Final Battlefield in the past two days. It was also Zhou Zhou's favorite Final Item.

Should he use it now?

Zhou Zhou narrowed his eyes.

He really could not defeat this Extreme World Honored Dragon after all...

Even if it was only a projection.

Chapter 436: The Decision Of The Extreme World Honored Dragon

Zhou Zhou thought about the origins of this Extreme World Honored Dragon as he pondered.

The Extreme World Honored Dragon was the oldest Extreme Dragon Race in the Extreme Dragon Race. There were even rumors that the Extreme World Honored Dragon was the first Extreme Dragon of the Extreme Dragon Race!

This was indeed the case in his Legendary-Tier Dragon Race secret inheritance.

Moreover, the most legendary thing about this First Extreme Dragon was that it was not born as a Legendary dragon.

In the beginning, it was only a pure-blooded Extreme Dragon.

This number one Extreme Dragon had already reached the limit of the world a long time ago. It was not an exaggeration to say that it was the strongest Extreme Dragon in the Endless Heavens.

Later on, it was dissatisfied with this and wanted to break through the limit and become the pinnacle of the God-Tier—the Supreme God Realm!

However, how difficult was it to become a Supreme God Realm?

Even the number one Extreme Dragon had not reached this level after spending countless years.

However, later on, it discussed the method to become stronger with a few Legendary-Tier dragons. In the end, with the help of the two mysterious Legendary-Tier dragons, it opened up a physical world with its powerful dragon body as the foundation to increase its strength level!

Even though it had not broken through to the Supreme God Realm, it had jumped from a top pure-blooded dragon to a Legendary-Tier dragon!

His strength could also be considered a top expert among the Master God-Tier, second only to the 10 Master God-Tiers and the legendary Supreme God Realm.

Zhou Zhou regretted it secretly.

He never expected that a junior of the Extreme Dragon Race who was not even at the White Platinum-Tier would actually summon this top big shot.

Was this a big shot that low-level Lords like them could see at this stage?

This was cheating!

On the other side.

The Extreme Venerable Lord was first stunned when it saw that it had actually summoned the ancestor of their Extreme Dragon Race. Then, it was pleasantly surprised.

It never expected to summon this legendary ancestor.

In his imagination, it would be good enough if he could summon an Epic-Tier and Legendary-Tier Extreme Dragon.

He was really lucky to be able to summon this big shot through the Dragon Sacrifice Holy Tower.

He was also a little puzzled. How did he summon this ancestor?

Could it be that it was because he had admired this ancestor since he was young that he could not forget her?

The Extreme Venerable Lord guessed.

It indeed admired this ancestor very much.

Otherwise, it would not have given the title of Extreme Venerable Lord when it gave it the title of Lord.

"Greetings, Ancestor!"

"This Junior Haris requests the Ancestor to destroy that human Lord and bring back the Light Sacred Dragon Crown of our race!"

The Extreme Venerable Lord said excitedly.

As for Haris, it was its real name.

Unexpectedly, its ancestor only glanced at him before its gaze landed on the Light Sacred Dragon, Ingesol, and Zhou Zhou.

"The bloodline of the Light Sacred Dragon and the Light Sacred Dragon."

"The methods of the Lord Supreme Will are indeed unbelievable."

A quiet middle-aged dragon's voice sounded in Zhou Zhou and Ingesol's minds.

"Greetings, Extreme World Honored Dragon."

Zhou Zhou said politely.

"Hello..."

Ingesol also knew that this was its senior and said obediently.

The Extreme World Honored Dragon smiled. It looked at Ingesol twice before its gaze landed on Zhou Zhou.

"Don't worry."

"I don't have any ill intentions. I'm just borrowing the Dragon Sacrifice Holy Tower of my race's junior to send this projection down to take a look at this new Legendary dragon."

"The birth of the Light Sacred Dragon is inseparable from you. I can't thank you enough. Why would I harm you?"

The Extreme World Honored Dragon was in an extremely good mood and specially explained to him.

Zhou Zhou smiled and heaved a sigh of relief.

'I knew it.'

No matter how talented this Extreme Venerable Lord was, it shouldn't be able to summon a big shot of this level.

So it was here to see Ingesol.

His gaze landed on the Extreme Venerable Lord which was still extremely excited not far away and he shook his head secretly.

This fellow still thought that the 'ancestor' in front of it was here to help it.

He wondered how it would react when it found out the truth later.

"Are you taking Ingesol away?"

Zhou Zhou's gaze landed on the Legendary dragon again and he could not help but ask.

With the secret inheritance of the Legendary Dragon Race, he naturally knew how much the Dragon Race valued the Legendary Dragon Race, especially the young.

He would not be surprised if the Legendary dragon in front of him wanted to take the Legendary dragon away.

Moreover, with its identity and personality, it would probably give Ingesol a lot of benefits even if it took Ingesol away.

In addition, Ingesol's identity was too sensitive and dangerous after all. Even though Zhou Zhou would be a little reluctant to give it away, this was actually beneficial to both sides.

Zhou Zhou was safe.

Ingesol would also obtain a safer and more comfortable survival environment.

However, the Extreme World Honored Dragon shook its head when it heard Zhou Zhou's words.

"It's your companion. I naturally won't bring it back with me."

"And—"

"There's an Agreement with the Supreme Will."

"It might be safer with you than with us."

"You're special too."

"Ingesol might grow faster by your side."

The Extreme World Honored Dragon looked at Zhou Zhou with its silver-white dragon eyes, as if it could see through everything.

Zhou Zhou was stunned. While he heaved a sigh of relief, he nodded on the surface.

"My projection incarnation can't stay in the High Continent for long, so I won't say much. I hope you can treat it well in the future."

The Extreme World Honored Dragon said.

"Of course!"

Zhou Zhou promised.

The Extreme World Honored Dragon nodded.

"It" had long seen Nezario and Auguste.

After seeing the growth of these two dragon descendants, "It" was still willing to believe Zhou Zhou's promise.

At the same time...

The Extreme Venerable Lord was also looking at its ancestor in a daze.

It did not know why its ancestor did not reply to it. It was actually fine if it did not reply to him. It was its ancestor after all.

But why did the Old Ancestor not make any move?

At this moment, the voice of the Extreme World Honored Dragon sounded in his mind.

"I'll get him to give you a chance to fight this human Lord fairly. During this period, that Lord and the Light Sacred Dragon won't attack."

"In this duel..."

"If you lose, give up your status as a Lord and be loyal to this human Lord to protect that Light Sacred Dragon."

"If you win, I can guarantee you even the position of the Dragon God."

"I won't help you in the process."

"Are you willing?"

The Extreme Venerable Lord was stunned.

Why did the Old Ancestor not help it but let it fight the enemy fairly?

Its mind raced.

It could not think of a reason.

In the end, it could only start to think of its ancestor's suggestion.

If not for the pressure of the Light Sacred Dragon Bloodline in that Lord's body and the joint suppression of the Light Sacred Dragon beside him, would it have a chance of winning?

It looked at the other party's strong soldiers and generals, its heart beating like a drum.

However, in the end, it still gritted its teeth and nodded vigorously.

There was no possibility of refusing now no matter if it had a chance of winning or not after all. It might as well give it a try!

When the Extreme World Honored Dragon saw this, it finally felt some admiration for its descendant.

At the very least, it did not retreat just because it was weaker than the other party!

[Global Lord: 100% Drop Rate](#)

Chapter 437: What Level Are You To Be Using A Similar Title To Me?

Then, it told Zhou Zhou about this.

"Actually, I can make it submit to you directly."

"However, this junior of mine is arrogant."

"If you don't subdue it, I'm afraid it won't sincerely submit to you."

The Extreme World Honored Dragon said.

Zhou Zhou thought for a moment and did not say anything about an abnormal Lord Talent like Peace And Prosperity. After all, this Lord Talent that could silently change people's hearts was too easy to fear.

Therefore, he agreed immediately.

With his current strength, he could steadily defeat this Extreme World Honored Dragon even without the suppression of the Light Sacred Dragon's bloodline.

It was just that there might be some casualties.

However, with Carol Moeli and the clergymen who had mastered the Small Resurrection Spell, he could directly heal and revive them.

Zhou Zhou naturally had no worries with such methods.

Then, Zhou Zhou and the Extreme Venerable Lord continued the previous battle under the gaze of the Extreme World Honored Dragon.

Half an hour later.

No matter how thick the skin and flesh of the Extreme Venerable Lord and his Extreme Dragon Race were, or how the Extreme Venerable Lord used his hero skill, it was still severely injured by Zhou Zhou's side.

As for the 400,000 life forms of the people of foreign races, they were all killed by Bai Yun, Wu Xin, and the other experts.

Zhou Zhou felt that it was a pity.

If he could directly recruit the other party, these 400,000 life forms of the people of foreign races could directly become his subordinates.

However, he was already very satisfied to receive these 37 Extreme Dragon Race Subjects as his Subjects.

These were 37 pure-blooded dragons!

Their potential was stronger than Spectral Dragon Auguste and Nezario before they became heroes!

Coupled with the dragon egg of the Light Spirit Dragon and the Light Sacred Dragon Ingesol beside him,

Zhou Zhou felt that his gains today were off the charts.

At this moment, the Extreme World Honored Dragon also moved.

Silver light flashed in its eyes. The 36 heavily injured Extreme Dragon Race and Extreme Venerable Lords below recovered to their healthy state in the blink of an eye.

"Follow this Lord well in the future and listen to his orders. Also, protect this Light Sacred Dragon."

"Also..."

"Change your Lord title."

What level are you at?

How dare you use a title similar to my honorific title.

After the Extreme World Honored Dragon finished its last sentence, its body gradually disappeared.

The Dragon Sacrifice Holy Tower also calmed down again.

"This subordinate Extreme... Haris."

"Leads the Extreme Dragon Race to greet my Lord!"

The Extreme Venerable Lord, no, it should be called Haris now, brought 36 Extreme Dragons to Zhou Zhou and said unwillingly.

Zhou Zhou smiled.

He looked at the other party's attribute information.

[Lord Title: Extreme Dragon Lord]

[Territory: Extreme Dragon Territory]

[Hero Title: Dragon King of War and Strength]

[Strength Level: Yellow Gold-Tier Elementary Grade]

[Ability Overview: A genius from the Extreme Dragon Race. It awakened the Dragon God's blood of war and the Black Flame Dragon God from a young age. Later, it was chosen by the Supreme Will and came to the High Continent to become a Dragon Lord!]

Zhou Zhou's eyes lit up.

This guy had an Extraordinary-Tier Lord Talent?

Not bad, not bad!

"Give me your ranking points first, then give up your status as a Lord and become my Subject."

Zhou Zhou said.

"Yes, my Lord."

It agreed gloomily.

After it became a Lord, it originally wanted to do something ambitious.

It did not expect it to end up like this.

However, it had no choice but to listen to its ancestor. Therefore, it could only obediently admit defeat to Zhou Zhou and give its ranking points to him.

At the same time...

A notification of its surrender appeared in front of Zhou Zhou.

[The Final Battlefield Hint: The Extreme Dragon Lord has surrendered to you!]

[This Lord's Lord rank is Mythical-Tier Advance Grade (112 points). It has obtained 1,856,407,500 Basic Ranking Points on The Final Battlefield. You have obtained a total of 13,564,075,000 Basic Ranking Points.]

"I've become rich overnight!"

When Zhou Zhou saw this, a smile appeared on his face.

This Compass of the Soul of Vengeance was indeed useful!

However, there was actually a certain amount of luck involved to be able to defeat the Extreme Dragon Race Lord this time and obtain its submission.

If he had not obtained the Light Sacred Dragon and the Light Sacred Dragon Bloodline and the Extreme World Honored Dragon summoned by Lord Extreme Dragon had attacked him,

Then he would probably have to use the War Token to escape from this place.

This also gave Zhou Zhou a warning.

The foundation of a top Lord of all races could not be underestimated.

In the face of the foundation of these top Lords of all races, no matter how useful the Compass of the Soul of Vengeance was, he could not use it recklessly.

Then, he opened the rankings of The Final Battlefield.

[Cerulean Planet Human Race—Lord of The Blazing Sun— Rank: 24,761,251,200 points—The Final Battlefield Ranking: 1st!]

[Original Spirit Race - True Lord - Rank: 21,118,759,600 points - The Final Battlefield Ranking: 2nd!]

[Chaos Gods Race—Great One Lord— Rank: 17,513,697,500 points—The Final Battlefield Ranking: 3rd!]

[Shepherds God Race - Heaven Chasing Lord - Rank: 11.5 billion - The Final Battlefield Ranking: 4th!]

Zhou Zhou smiled.

As expected, after accepting Lord Extreme Dragon, one of the top ten Lords, his ranking had indeed jumped to first place in The Final Battlefield!

He would be able to sit in the position of the strongest Lord of all races as long as he could preserve this status for one more day.

Even though this was only the first event of an official Lord, the title of the strongest Lord of all races was nothing. After all, it was not the time to fight for the Lord of All Races.

However, this was a good start!

Zhou Zhou was excited for a while before gradually calming down.

"I'm afraid the True Lord and the others will feel anxious if I come to this position now."

"Tomorrow is the last day of The Final Battlefield. I'm afraid it will be the most intense day of the war."

"My first place is only temporary."

"I can't relax!"

Zhou Zhou reminded himself.

Then, he stopped thinking and looked at Lord Extreme Dragon in front of him.

"From today onwards, you are Subjects of Blazing Sun City."

"Even though we were enemies, I won't treat you with prejudice as long as you work for me well in the future."

Zhou Zhou said.

"Thank you, my Lord."

At this moment, the Extreme Dragon Lord was already a Subject of the Blazing Sun Territory. Under the silent influence of the Peace And Prosperity Lord Talent, the original resistance in its heart quietly dissipated after hearing Zhou Zhou's words.

Zhou Zhou nodded and brought the Master Thief's Robbery Gloves to the Extreme Dragon Lord. He placed his hand on its dragon head and took away its Lord Talent and the Lord Talent Crystal Fragments.

[Global Lord: 100% Drop Rate](#)

Chapter 438: Dragon Sacrifice Holy Tower!

Zhou Zhou looked at the Extraordinary-Tier Lord Talent Sphere in his Spatial Ring and could not help but smile.

Even though he already had nearly 20 Lord Talents, there were still very few Lord Talents above the Diamond-Tier.

Not to mention the Extraordinary-Tier Lord Talent.

Thinking of this, he looked at Haris, who looked normal, and even felt that its fierce face was much cuter.

Then, his gaze landed on the Dragon Sacrifice Holy Tower not far away.

[Race Building Name: Dragon Sacrifice Holy Tower]

[Race Building Level: Special]

[Building Function One— Holy Tower Protection: The cultivation efficiency of dragons cultivating near the Dragon Sacrifice Holy Tower has increased by 200%.]

[Building Function Two—Dragon Blood Sacred Sacrifice: Use the dragon race's own bloodline as a sacrifice and summon the ancestor of your dragon race. The stronger the sacrificer is, the higher the potential, and the stronger the dragon ancestor summoned.]

[Building Description: A building of the Dragon Race that plays an indelible role in the inheritance and continuation of the Dragon Race.]

Zhou Zhou raised his eyebrows.

Actually, there was naturally no need to mention the construction function of the Dragon Sacrifice Holy Tower.

They had already seen it just now.

However, building function one had really surprised Zhou Zhou.

Cultivation efficiency increased by 200%!

This increase in cultivation efficiency was naturally ordinary to the human race.

However, to a high-level Race like the Dragon Race and their size, a 200% increase in cultivation efficiency was already quite an outstanding bonus.

"Just as I thought."

"The quality of this Dragon Sacrifice Holy Tower is very high."

Zhou Zhou thought.

Only the high-quality Dragon Sacrifice Holy Tower could provide such a high cultivation efficiency bonus.

"Haris, where did you get the building materials for the Dragon Sacrifice Holy Tower?"

He asked Haris.

The construction method of the Dragon Sacrifice Holy Tower was not rare. Many pure-blooded dragons with higher bloodline levels would have it recorded in the dragon inheritance in their minds.

The key was that its building materials were rare!

This was because most of these building materials grew near the habitat of the Dragon Race.

Therefore, even Zhou Zhou, who visited the Marketplace of the Cerulean Planet's Human Race World Channel every day, rarely saw such rare materials.

"My Lord."

"When the Supreme Will distributes the initial territories of the Lords of various races, it will arrange them according to the habitual living environment of the various races. Lords would be able to survive off it even if there are some deviations."

"The materials I used to build this Dragon Sacrifice Holy Tower were all bought from the Dragon Race's Marketplace. As for these building materials, they mostly found them around the territories of the Dragons which sold them."

Haris understood what his Lord was puzzled about, so he explained in detail.

Zhou Zhou frowned.

"Can you return to your territory now?"

Zhou Zhou suddenly thought of this and asked.

He suddenly regretted being so anxious to recruit the other party into his territory.

There must be a large amount of wealth and some dragons left in the other party's territory.

If it kept the other party's status as a Lord first, it could bring them all over.

But fortunately...

What Haris said next made Zhou Zhou heave a sigh of relief.

"I can sense the location of my territory, but it's probably quite far from the Blazing Sun Territory. It's at least three billion kilometers away."

Haris closed its eyes to feel for a while, then opened them and said.

Zhou Zhou pondered.

Three billion kilometers?

His Starry Night could fly about 100 million kilometers in an hour. This way, it would take about a day to go to Haris' territory.

It would be very simple to return here.

He could just use his Lord Talent—Return To The City.

Zhou Zhou felt much more at ease knowing that.

"When we get back, I'll assign you a Machina race spaceship, Starry Night. At that time, you can assign a subordinate to receive the clansmen and supplies in your original territory."

"If your territory is developing well, I can also give you a Territory Token of the corresponding level and let you activate the territory buildings again. Then, you can become the Lord of the territory again. At that time, please set up another teleportation door. Then, you can guard there directly as long as you listen at any time."

Zhou Zhou said.

"Forget it."

"After I came to the High Continent, I almost didn't build a territory. I've always been letting the clansmen I summoned fight everywhere to increase my strength."

"The only outstanding building built is this Dragon Sacrifice Holy Tower."

Haris smiled bitterly.

Most dragons had reached the limit of the life forms of all races in terms of martial strength, but they were completely unable to develop in terms of farming.

Other than a few dragons who were good at this, most of the dragons were either collecting treasures or increasing their strength. They rarely thought about anything else.

The Extreme Dragon Race was such a dragon race.

"Fine."

"Then hurry up and bring back the clansmen and resources in your territory."

"Put away this Dragon Sacrifice Holy Tower first and place it in my territory later. In the future, you and your clansmen will live and cultivate in my territory."

Zhou Zhou was not surprised.

He knew that this situation was very normal with the Light Sacred Dragon's dragon inheritance in his mind.

"Yes, my Lord."

Haris nodded and flew in front of the Dragon Sacrifice Holy Tower. Right on the heels of that, it dripped a drop of dragon blood and began to cast Draconic Magic.

The 10,000-meter-tall Dragon Sacrifice Holy Tower suddenly shook and emitted a seven-colored light with a low dragon roar. Then, it quickly shrunk and finally turned into a 10-meter-long Dragon Sacrifice Holy Tower that landed in Haris' hand.

A moment later.

Just as the soldiers were still extracting the Loots of the 400,000 people of foreign race life forms, Zhou Zhou suddenly seemed to have sensed something and turned to look into the distance.

He narrowed his eyes slightly, then his expression changed.

"Let's go!"

"Ignore the remaining Loots!"

"The terrifying Violent Storm is here!"

Zhou Zhou immediately sent a voice transmission to all his subordinates.

When Bai Yun, Wu Xin, and the others heard this, they immediately asked the soldiers to put down the loot in their hands without hesitation. Then, they arranged an order and quickly entered the Starry Night.

The expressions of Haris and the other members of the Extreme Dragon Race suddenly changed.

As a former top Lord faction, they naturally knew of the existence of this terrifying Violent Storm.

Even dragons like them, who focused on improving their dragon bodies, would probably not be able to last more than a second in the face of the terrifying Violent Storm before they shattered into pieces and dissipated!

Zhou Zhou did not say anything else. He directly arranged another Starry Night for the 37 Extreme Dragon Race and asked them to immediately take refuge.

Then, he did not get on the spaceship immediately. Instead, he looked into the distance.

This series of actions only took four to five minutes.

However, in his vision, the terrifying Violent Storm that was originally more than 1,000 kilometers away had actually arrived more than 500 kilometers away.

This time, not only Zhou Zhou saw it.

Even Bai Yun, Wu Xin, and even the Normal soldiers saw the terrifying Violent Storm from afar.

They felt at ease and revered their Lord even more thinking of their Lord's warning just now.

Zhou Zhou was not in a good mood.

He frowned as he looked at the approaching terrifying Violent Storm and muttered,

"The movement speed of this terrifying Violent Storm is at least twice as fast as yesterday!"

"At this rate, the Lords of all races will have less and less activity area. All the Lords will also be closer and closer to each other, and the probability of a Lord War breaking out will also increase."

"This Final Battlefield... is really getting more and more dangerous." He thought.

It seemed that the Final Battlefield tomorrow would be the most dangerous so far.

[**Global Lord: 100% Drop Rate**](#)

Chapter 439: The Huge Advantage Of The Machina race!

It seemed that the Final Battlefield tomorrow would be the most dangerous so far.

At the same time.

It would also be the time when the Lords of all races increased their ranking points the fastest.

"The True Lord, the Great One Lord, and the Heaven Chasing Lord will definitely make good use of tomorrow to increase their ranking."

"Even though I'm already a distance away from the second-ranked True Lord, if I don't make good use of tomorrow's time, I'm afraid I'll have a certain chance of being chased back by the other party."

"I can't relax."

Zhou Zhou thought urgently.

"My Lord, everyone has already boarded the spaceship. Come on."

At this moment.

Bai Yun flew to Zhou Zhou's side and said.

Zhou Zhou came back to his senses and nodded. Then, he returned to the Starry Night with Bai Yi and flew away from the Violent Storm at full speed.

...

In the Starry Night.

In the conference room.

Zhou Zhou, Bai Yun, Wu Xin, Feng Luo, Xu An, the other Blazing Sun City generals, and the members of the Star Alliance were in a meeting.

Zhou Zhou and his generals were naturally present.

On the other hand, huge subordinates like Nezario, Auguste, and Haris held a meeting with Zhou Zhou and the others through a video call with the Lords of the Star Alliance.

In the huge conference room, more than 300 video screens and more than 20 subordinates of the Blazing Sun Territory sat together in an orderly manner, looking rather solemn.

However, the topic of conversation was very relaxing.

"Everyone, is the Incite Defection over?"

Zhou Zhou looked at the more than 300 Alliance Masters in the video.

"The Incite Defection is over, President!"

"Me too. This Incite Defection was really awesome. I used it and obtained more than 2,000 subordinates of the people of foreign race Lord!"

"My Incite Defection has incited more than 3,000 undead subordinates!"

"Same here."

"The Final Battlefield is really a good place."

"The feeling of running away after Incite Defection is so exciting!"

"Hahaha..."

...

The Lords in the video almost had smiles on their faces. They looked like they had gained quite a lot.

When Zhou Zhou heard the discussion of the Lord members, he smiled and nodded.

"You can return to your respective territories to organize your gains now."

"Our Starry Night will automatically meet up and advance away from the Violent Storm."

Zhou Zhou waited for everyone to talk for a while before saying.

The Lords agreed one after another.

"President, when will we hand over the fog monsters we captured to you?"

At this moment.

The Paper Immortal Lord suddenly raised this question.

Previously, Zhou Zhou had told them that they could capture some special fog monsters around their territories and send them to him in their free time.

There was no need for much.

One or two would do.

They had always remembered, so they only wanted to ask now.

"Anytime."

"If you have time later, you can also send it directly to the Blazing Sun Territory."

"Then just go straight to the military officer to collect your military merits."

Zhou Zhou immediately said.

He had mentioned this before.

It was to add some new ranch monsters to his monster ranches.

He had seen all the monsters around his territory after all. Other than the fog monsters that had already been put into the Monster Ranch, most of them were not valuable.

Therefore, Zhou Zhou thought of these Lord members.

The territories of these Lord members came from all over the High Continent.

There must be many special fog monsters and special loot production places around their territory.

Perhaps there would be loots that could make Zhou Zhou's eyes light up?

Zhou Zhou had also thought of using the Marketplace to buy some fog monsters to see what Loots they could drop.

Unfortunately, the Marketplace could not trade living creatures unless it was products like pet eggs.

Zhou Zhou dismissed this idea.

After that, everyone chatted about other matters for a while before dispersing.

The Lords returned to their respective territories.

Zhou Zhou asked Bai Yun and Wu Xin to bring their troops back to the Blazing Sun Territory while he stayed in the Starry Night alone.

"My Lord, aren't you returning to the Blazing Sun Territory?"

Wen Ya's voice sounded in the conference room.

"I want to see what The Final Battlefield looks like at night."

Zhou Zhou shook his head.

"My Lord, as an intelligent lifeform, I can't stay here with you physically."

"But I can create an intelligent program that links to my consciousness to stay here with you."

Wen Ya did not ask further and only said gently.

"Sure."

Zhou Zhou acknowledged.

He opened a virtual screen and looked at the scene outside the spaceship.

Scarlet Fog gradually appeared in the air and began to quickly spread around the blood-colored battlefield as night fell.

More and more Scarlet Fog spread throughout The Final Battlefield and quickly spread to the Starry Night where Zhou Zhou was.

The Starry Night could not stop the invasion of the Scarlet Fog at all.

The Scarlet Fog barged into the spaceship's cabin and approached Zhou Zhou in no time.

"Nomological Skill..."

"Absolute Light."

At this moment.

A faint voice sounded.

Then, Zhou Zhou, who was sitting in the main seat of the conference room, suddenly emitted a bright and gentle holy white light.

The holy white light quickly spread and enveloped the conference room where Zhou Zhou was in the blink of an eye.

Wherever the holy white light passed, the Scarlet Fog evaporated into blood-colored airflow and dissipated in the air.

Zhou Zhou watched this scene.

This was the first time he was in the Scarlet Fog like this. This was also the first time he had seen the Scarlet Fog disappear in such a way.

Zhou Zhou thought.

The holy white light quickly expanded and enveloped the entire Starry Night in the blink of an eye, including the other eight Starry Nights around it.

Night had already fallen on the huge The Final Battlefield.

Zhou Zhou's location seemed to have become the only light.

It looked a little incompatible because it was very different from its surroundings.

...

In the conference room.

Zhou Zhou sat on the main seat and felt the consumption of energy in his body.

He was surprised to discover that he had only consumed about 5% of the energy in his body after using the Light of Absolute Light to protect such a large area.

"This Absolute Light actually consumes so little energy as a Law Skill?"

"And it feels like it can last for two hours."

Zhou Zhou clicked his tongue in wonder.

He thought that the consumption of Law Skills would be pretty extensive.

He did not expect it to be like this.

Of course.

Perhaps it was because this Absolute Light Law Skill was only an auxiliary Law Skill and the grade of the Chaotic Origin Energy in his body was too high, so he felt that the consumption was so low.

Zhou Zhou only had this one Law Skill so far, so it was not easy to make a judgment.

He looked at the surrounding spaceship environment and suddenly thought of a problem.

If Wen Ya's mechanical spaceship body could not be affected by the Scarlet Fog, wouldn't the Machina race be able to take advantage of The Final Battlefield, or even the High Continent and the other Lords?

Zhou Zhou shook his head.

If that was the case.

The Supreme Will had really given the Machina race Lord a huge development advantage by a freak combination of factors.

But fortunately.

He now had the means to ignore the Scarlet Fog.

With a thought, he gathered the light of Absolute Light around his body to prevent the Starry Night from being too obvious.

Then, he looked at the rankings of The Final Battlefield.

Lord Father of the Machina race was ranked fourth!

Only below him, the True Lord, the Great One Lord, and the Heaven Chasing Lord.

"Even though this Lord Father was defeated by me,

"But it's also an opponent to be underestimated."

Zhou Zhou raised his eyebrows.

Then, he looked at the virtual screen in front of him.

It still displayed the scene of The Final Battlefield.

At this moment, the Lord factions of the myriad races had long disappeared from the blood-colored ground, causing the entire battlefield to fall silent.

"This Violent Storm is constantly accelerating and shrinking. Unless these people of foreign race Lords can be like me and have tools to travel at night, they can only give up on entering The Final Battlefield if they don't want to appear on the Battlefield the next day and be drowned by the Violent Storm."

"Under the influence of the terrifying Violent Storm these two days, there are probably not many Lords left tomorrow."

Zhou Zhou thought.

Of course.

There was also a lucky Lord who was an exception.

They might have just descended on the Battlefield of The Final Battlefield and were in the final range of the Violent Storm.

In other words, the final circle.

If they could survive in the final circle, they might be able to pick up a good ranking.

After that, Zhou Zhou stayed in the conference room for a long time before returning to the Blazing Sun Territory.

Global Lord: 100% Drop Rate

Chapter 440: Loots And Luo Sheng!

The Blazing Sun Territory.

Zhou Zhou directly returned to his Beginner-Grade Lord's Paradise when he returned.

Bai Yun came to him and handed him the list of today's spoils of war.

Zhou Zhou looked at the list of Loots.

Today, they have eliminated a total of more than 5.25 million people of foreign races!

With the enhancement of the King of Loots and the title of the strongest Lord, there were a total:

56 Green Bronze-Tier Territory Tokens! 21 White Silver-Tier Territory Tokens! Five Yellow Gold-Tier Territory Tokens!

1,207,530 White Platinum-Tier Mist Cores, 6,547,950 Yellow Gold-Tier Mist Cores, 15,109,600 White Silver-Tier Mist Cores, and 21,261,250 Green Bronze-Tier Mist Cores!

15,400,000 9,650 skill books and 26,009,655 pieces of equipment!

More than 5.15 billion units of basic materials!

4,160 Green Bronze-Tier Lord Talent Crystal Fragments! Six Extraordinary-Tier Lord Talent Crystal Fragments!

One Extraordinary-Tier Lord Talent Sphere! One Green Bronze-Tier Lord Talent Sphere!

Apart from the above Loots, in this trip to The Final Battlefield, 611,280 people had broken through!

After that, he went through the Triumphal Arch again, and the number of people who broke through directly reached 701,001!

They were just short of more than 60,000 soldiers to reach the level of everyone's promotion!

Of these 701,001 people, 51,255 people were promoted to Black Iron-Tier Intermediate Grade and Black Iron-Tier Advance Grade!

96,435 people advanced from Black Iron-Tier to Green Bronze-Tier!

233,493 people advanced to the White Silver-Tier!

161,024 people advanced to Yellow Gold-Tier!

116,502 people broke through to the White Platinum-Tier!

23,660 people had broken through to Diamond-Tier!

One person had broken through to the Extraordinary-Tier level!

Soul Reaper Maris had broken through to White Platinum-Tier Advance Grade!

Spectral Dragon Auguste had broken through to the White Platinum-Tier Intermediate Grade!

Among the soldiers under his command.

There were 51,255 Black Iron-Tier soldiers!

There were 158,904 Green Bronze-Tier soldiers!

There were 223,76 White Silver-Tier soldiers!

183,943 of Yellow Gold-Tier!

154,522 of White Platinum-Tier!

24,549 Diamond-Tier!

And 16 Extraordinary-Tier!

Zhou Zhou nodded in satisfaction.

He had more than 24,000 Diamond-Tier experts under his command now!

That probably exceeded the number of Diamond-Tier powerhouses in a veteran beginner kingdom!

With this strength, the current Blazing Sun Territory was enough to sweep through an ordinary beginner kingdom.

What surprised Zhou Zhou was that among the human soldiers under him, there was finally a soldier who was not a hero or a talent with Reputation Rating who had broken through to Extraordinary-Tier Elementary Grade.

Zhou Zhou pulled up this person's personal information.

He learned that this person's name was Luo Sheng, and he was a Sword Shield Soldier.

He came to the Blazing Sun Territory and became a Subject of the Blazing Sun Territory before he became a military professional. Later on, he changed his profession and became a Sword Shield Soldier with the help of the territory. Then, with his extremely high potential and the enhancement of the Blessing of the War God, his strength advanced by leaps and bounds, from Black Iron-Tier Elementary Grade to Extraordinary-Tier Elementary Grade!

He was one of their own, an expert nurtured under the Blazing Sun Territory's military merit exchange system!

Moreover, he was the Sword Shield Soldier whose military merit was closest to 100,000 when Zhou Zhou was setting up the exchange requirement for the Ghost God General Hero Inheritance in the military merit system!

At this thought, Zhou Zhou looked at his military merits.

He discovered that his military merits had already exceeded 100,000 points, reaching 125,460 points!

He then looked at the exchange records.

He realized that he had indeed exchanged for the Ghost God General Hero Inheritance.

"This person is indeed a talent."

A smile appeared on Zhou Zhou's face.

When he set the exchange requirement for the Ghost God General back then, he felt that there was a high chance that this rising star would obtain the hero inheritance of the Ghost God General.

His military merits were about to reach the standard after all and there was a huge gap between him and the second place.

Unless a miracle happened, the second place would definitely not be able to catch up to Luo Sheng in a short period of time.

From the looks of it, that was indeed the case.

Furthermore, with the other party's Extraordinary-Tier Elementary Grade strength and his astonishing potential, he should be able to unleash the potential of an Epic-Tier Hero!

He thought for a moment and decided to meet this future general of his and give him the hero inheritance of the Ice Soul Sword Spirit that he had previously obtained.

At the thought of this, he called the Aliya sisters over.

"Aliya, go to the Blazing Sun Army and get a soldier called Luo Sheng over."

"Atley, go invite General Wu Tu over."

Zhou Zhou said.

"Yes, my Lord!"

The two women said respectfully, then turned around and left.

A moment later.

Wu Tu and Luo Sheng came to Zhou Zhou.

"Greetings, my Lord!" x2

The two of them said respectfully and led the way.

Zhou Zhou nodded and his gaze landed on the young man called Luo Sheng.

He looked to be 17 or 18 years old. He was wearing an Extraordinary-Tier Elementary Grade Sword Shield Soldier armor. He was slender, fair-skinned, and handsome. He looked serious.

Anyone who saw him would probably praise him for being a handsome young man.

What surprised Zhou Zhou was that other than carrying a saber and shield on his back, he also carried a halberd.

"You're good at wielding halberds?"

Zhou Zhou asked.

"Reporting to my Lord."

"My family has been in the army for generations. The weapon I'm best at is the halberd. My father also passed down a set of the Evil Suppression Halberd Technique."

"I've also cultivated with other weapons, but none are as strong as my family's halberd technique."

Luo Sheng reported.

"Then you're quite compatible with this Hero Inheritance."

Zhou Zhou smiled.

The weapon used by the Ghost God General was a halberd!

"Yes!"

Luo Sheng said in a neither servile nor overbearing manner. There was pride in his expression, but there was also love and yearning for the Hero Inheritance.

He had been practicing martial arts and reading military books since he was young under the care of his elders. His talent in the battlefield had begun to show since he was young.

Therefore, he knew from a young age that his talent on the battlefield far exceeded that of ordinary people!

Later on, he gradually grew up and came into contact with more battlefield matters. He was very comfortable with it, as though he was a fish in water.

His family elders were also very surprised by his child's talent, so they nurtured him with all their might.

And he did not let down the hopes of his elders.

When he was 14 years old, he bade farewell to his family and joined the army alone. Later on, he killed several Green Bronze-Tier soldiers on the battlefield as an ordinary person without a Class!

This made him even more arrogant!

However, he was also very smart. He knew that arrogance would not go far in the army. Therefore, he hid his arrogance deeply and polished himself in the army.

Four years later.

He suddenly realized that the Lord he was loyal to had secretly sent a private army to snatch the women. Hence, he killed his Lord and liberated the oppressed female Subjects. Then, he left this territory.

Later on, he heard that there was a peaceful territory near the Aurora Kingdom, so he came here and became a Subject here.
