[Global Lord: 100% Drop Rate](#)

Chapter 441: Soul Arrow Hero Inheritance!

He started his pursuit of his path after confirming that this was a place that was truly worth displaying his talent.

However, even though he knew that he was very talented in the battlefield and would definitely be placed in an important position by the Lord, he had never expected to obtain the opportunity to obtain the Hero Inheritance!

Moreover, it was a Hero Inheritance that was quite compatible with him!

Luo Sheng immediately decided to work hard to obtain this Hero Inheritance. Until today, he finally obtained it.

Zhou Zhou looked at the other party's slightly arrogant expression and did not feel annoyed. Instead, he admired him even more.

He liked this kind of arrogant person based on true ability!

Then, he looked at the other party's attribute panel.

His skills were ordinary. Other than the Epic-Tier Intermediate Grade Demon Suppression Halberd Technique, the rest were very conventional combat skills.

However, when he saw the other party's potential, he could not help but raise his eyebrows.

Legendary-Tier Elementary Grade!

It had to be known that Bai Yun, who had the Legendary-Tier hero Fate Level (fake), only had Legendary-Tier Intermediate Grade potential.

Wu Xin only had the potential of an Epic-Tier Advance Grade!

Comparing the three, it could be seen how high Luo Sheng's initial potential was as a human!

If Wu Xin could be considered a once-in-a-century human genius!

Luo Sheng was probably a once-in-a-thousand years genius.

He had really picked up a treasure!

Zhou Zhou was pleasantly surprised.

With this kind of initial potential, once he accepted the hero inheritance of the Ghost God General, how much would his potential increase?

"Go back and accept the Hero Inheritance."

Zhou Zhou suppressed his excitement and said with a faint smile.

"Understood!"

Luo Sheng said respectfully.

He could feel his Lord's admiration for him from Zhou Zhou's words.

However, his mentality was not arrogant because of this.

This was because he had gotten to know many capable people after joining the Blazing Sun Territory.

There was naturally no need to mention Bai Yun, Wu Xin, and Feng Luo, who were already heroes of the human race.

He also saw many Life Profession Masters or combat professional experts who were once famous in the Aurora Kingdom in Blazing Sun City.

And what about the dragons which looked down on all life forms? They were willing to be pets under their Lord.

Facing these existences, he naturally could not be too proud.

The arrogance he displayed was only comparable to the soldiers who were competing with him for the Ghost God General Hero Inheritance.

On the other side.

Wu Tu, who had been silent at the side, looked enviously at Luo Sheng's departing figure.

The conversation between the other party and his Lord surfaced in his mind.

Hero Inheritance!

As an old man who had followed Zhou Zhou for a long time, Wu Tu naturally knew what the Hero Inheritance was.

That was why he was even more envious.

"It's good to be a General of the Lord. I can have a chance to become a hero respected by the people."

"I'm just a Cartographer. I'm afraid I have nothing to do with heroes in my life."

Wu Tu thought in a daze.

"Wu Tu."

At this moment, Zhou Zhou's voice sounded in his ear.

"My Lord!"

Wu Tu came back to his senses and said respectfully.

"Why? Are you envious?"

Zhou Zhou asked with a smile.

He had high-level telepathy. Even if he was not specially listening to his inner thoughts, he could sense what the other party was thinking.

Wu Tu blushed when he heard this. Then, he hesitated for a moment and nodded in embarrassment.

"How about I give you a chance to be a hero?"

Zhou Zhou said with a smile.

Then, he flipped his right hand and a copy of the Hero Inheritance Secret Manual appeared in his palm.

"This is a Hero Inheritance Secret Manual."

"As long as you use it, you can be a real hero."

"How is it? Are you willing?"

Zhou Zhou smiled at him.

Wu Tu was stunned.

A Hero Inheritance Secret Manual?!

My Lord wants me to be a hero too?!

He was so excited that he did not know what to say.

Then, Wu Tu subconsciously glanced at the Hero Inheritance Secret Manual.

A text notification appeared.

[Treasure Name: Hero Inheritance Secret Manual]

[Grade: Epic-Tier Intermediate Grade]

[Treasure Ability: After using it, you can obtain the Soul Arrow—Endu's Hero Inheritance.]

[Introduction: My arrow is everywhere! — Soul Arrow — Endu]

When Wu Tu saw the detailed information of the Hero Inheritance Secret Manual, his heart immediately pounded.

Was it really the Hero Inheritance?!

Zhou Zhou smiled when he saw the other party's reaction.

The Hero Inheritance of the Soul Arrow was originally a +1 version of the Hero Inheritance dropped by the Ice Soul Arrow Ghost—Heartless.

After Zhou Zhou obtained it, he did not have the time to use it.

Coincidentally, he wanted to see Luo Sheng today, so he wanted to pass the hero inheritance of the Soul Arrow to Wu Tu.

Wu Tu was a veteran in his territory and had worked hard. In addition, he was now the commander of the Heavenly Army. It would not be good if he did not master some form of martial arts. Therefore, Zhou Zhou handed over the hero inheritance of the Soul Arrow to him.

Wu Tu did not like close combat.

This Soul Arrow Hero Inheritance that was good at archery should suit his wishes.

"Thank you, my Lord!"

Wu Tu immediately knelt on the ground and said excitedly seeing that his Lord was not in the mood to joke.

"Get up."

"The Hero Inheritance is extremely precious. I gave it to you because you deserve it. However, don't let down my hopes and this Hero Inheritance."

Zhou Zhou reminded.

"Yes, my Lord!"

Wu Tu stood up and said with a serious expression.

Zhou Zhou nodded and handed the Hero Inheritance Secret Manual to him before letting him leave.

Wu Tu carefully took the Hero Inheritance and left.

After he left, Zhou Zhou smiled.

"After Luo Sheng and Wu Tu accept the Hero Inheritance tomorrow."

"There would be a total of six heroes in my territory!"

His eyes lit up.

This number of heroes was comparable to two newly established beginner kingdoms.

Among the Lords of the myriad races, they could definitely be said to be outstanding!

"Now, I only have one Extraordinary-Tier Hero Inheritance left from the Knight Temple."

Zhou Zhou pondered.

He did not know who to give this Hero Inheritance to in the beginning.

Xu An had come today. After witnessing Xu An's amazing assassination technique, Zhou Zhou had originally wanted to give this Hero Inheritance to him.

Later, he thought about it and rejected this idea.

Xu An's potential was the strongest human Subject under him apart from Xiao Xuan!

Zhou Zhou felt that giving him an Extraordinary-Tier Hero Inheritance would become a hindrance to him.

Zhou Zhou felt that it had to be a Low-Tier Deity Level Hero Inheritance to match Xu An's potential, right?

"I'll go to the Knight Temple tomorrow and ask the Temple Lord."

"Let's see if I can negotiate and find Xu An a God-level Hero's Legacy."

Zhou Zhou pondered.

Then, he took out two items from his Spatial Ring.

It was the two Lord Talent Spheres he had obtained on the Lord Battlefield today.

[Global Lord: 100% Drop Rate](#)

Chapter 442: Two Lord Talents!

Zhou Zhou looked at the two Lord Talent Spheres in front of him, then his gaze landed on the Green Bronze-Tier Lord Talent Sphere.

A text notification appeared.

[Treasure Name: Lord Talent Sphere— Sturdy Constitution]

[Treasure Grade: Green Bronze-Tier]

Treasure Effect: After absorbing it, the Lord will have the Green Bronze—Tier Lord Talent—Sturdy Constitution!

[Treasure Description: A Lord Talent Sphere purified by the Supreme Will. After absorbing it, you can obtain a Green Bronze-Tier Lord Talent.]

Do you want to absorb this Lord Talent Sphere (Green Bronze-Tier)?

"Sturdy Constitution?"

Zhou Zhou nodded and chose to absorb it without thinking too much.

The next second.

This Green Bronze-Tier Lord Talent Sphere immediately turned into countless Bronze light spots and surged into his glabella.

Zhou Zhou closed his eyes.

A moment later.

He opened his eyes and immediately opened the details of the talent.

[Lord Talent: Sturdy Constitution (Green Bronze-Tier)]

[Sturdy Constitution: Your subjects' physiques are better than ordinary people. When their bodies are injured, the rate of their recuperation can speed up.]

...

After Zhou Zhou absorbed this Lord Talent, he felt a gentle energy suddenly appear in his body.

This gentle energy was in his body, using his heart as a transit station. It flowed through his blood and made him feel comfortable.

"This should be the effect of the Sturdy Constitution."

There was a strange look in Zhou Zhou's eyes.

He did not expect that a mere Green Bronze-Tier Lord Talent would actually give him and all his Subjects a special physique.

Even though this Sturdy Constitution was only a Green Bronze-Tier Lord Talent and looked ordinary,

However, in a world where wars were frequent, this Lord Talent that could accelerate the recovery of injuries in the body could be said to be quite practical.

Zhou Zhou was quite satisfied.

Then, he looked at the next Lord Talent.

[Treasure Name: Lord Talent Sphere—Agricultural Kingdom]

[Treasure Grade: Extraordinary-Tier]

Treasure Grade: Extraordinary-Tier

[Treasure Description: A Lord Talent Sphere purified by the Supreme Will. You can obtain a Yellow Gold-Tier Lord Talent after absorbing it.]

[Do you want to absorb this Lord Talent Sphere (Extraordinary-Tier)?]

Zhou Zhou raised his eyebrows.

'Agricultural kingdom?'

Was it a Lord Talent related to agriculture?

He immediately absorbed it and looked at the details of this Lord Talent.

[Lord Talent: Agricultural Kingdom (Extraordinary-Tier)]

[Agricultural Kingdom: The soil in your territory is fertile and very suitable for agricultural development. It also has the following innate effects.]

[Specific Talent Effect One: Crop production increases by 1,000%!]

[Specific Talent Effect Two: Crop growth cycle decreased by 50%!]

[Specific Talent Effect Three: When agricultural Professionals carry out their professional activities, the promotion energy obtained will increase by 200%!]

[Specific Talent Effect Four: Natural disasters will not affect the growth of crops.]

[Specific Talent Effect Five: During the cultivation of crops, your Subjects will be more likely to comprehend the corresponding Life Profession and embark on the path of Extraordinary-Tier.]

After reading it, Zhou Zhou was amazed.

Any one of the five Effects of this Extraordinary-Tier Lord Talent would be considered top-grade!

Moreover, he was quite satisfied with this Lord Talent.

Now that the population of his territory was increasing, the amount of food, fruits, vegetables, and other crops he needed was also increasing.

Not long ago, Zheng Yuanqi had looked for him privately and said that even though the Sand Gold City was developing very quickly and Nong Chenglin had begun to provide food and other crop products to his territory, it was still gradually unable to keep up with the speed of the population growth in his territory.

Originally, Zhou Zhou's idea was to discuss with Li Yuangan and import crops, products, and other supplies needed by the Subjects in the territory of the Aurora Kingdom.

Now that he had this Lord Talent, he was confident that he could support all the Subjects in his territory without relying on any imports no matter how fast the population in his territory increased in the future.

However, he naturally would not really be self-sufficient.

The lesson of a certain conceited dynasty on Cerulean Planet that felt self-sufficient had long been engraved in the textbooks. He would naturally not make the same mistake.

"I have the incomplete Sword of Xuan Yuan which bestows additional benefits to agriculture, livestock, and breeding industries."

"Not to mention Nong Chenglin's Agricultural Expert Lord Talent."

"Now, with the farming talent of the agricultural country..."

"Tsk tsk."

"My ancestor's bloodline is guiding me."

Zhou Zhou thought happily.

"Nong Chenglin is probably going to go crazy laughing."

He thought to himself.

...

Zhou Zhou was right.

Nong Chenglin was indeed going crazy from laughing.

As a Green Bronze-Tier Lord Talent—Agricultural Expert, he was naturally very sensitive to land.

In addition, the agricultural Expert's compatibility with the agricultural kingdom was too high, so when the crops he planted changed, he felt it almost immediately.

"Why did the growth of the Jade Sun Fruit and the Blazing Sun Rice suddenly increase so much?"

"The promotion energy I obtained through planting crops suddenly increased a lot?"

Nong Chenglin was extremely shocked.

He turned to look at another White Silver-Tier farmer who was sowing seeds not far away and shouted, "Zhang Zhelin, do you feel that the crops we planted have changed?"

Zhang Zhelin was a young man, but he also liked to work as an Extraordinary-Tier Class.

"Sir, you feel it too?"

Hearing this, Zhang Zhelin stood up in surprise and looked at Nong Chenglin.

Nong Chenglin hurriedly asked the surrounding farmers. As expected, these farmers more or less sensed the changes in these crops and themselves.

They looked both happy and worried.

They were happy because this change was naturally extremely beneficial to them.

What worried them was that they still did not know how this change had happened.

But even so, their expressions were more happy than worried.

"I'll ask the Lord."

Nong Chenglin hesitated for a moment and thought to himself.

He really wanted to know the answer to this matter that concerned his profession.

His Lordship was very resourceful, so he should know... right?

"I know."

At this moment.

a familiar voice with a smile appeared beside his ear.

Nong Chenglin and the others were shocked. When they turned around, they realized that their Lord was standing not far behind them.

He was wearing a Green-White Diamond-Tier Elementary Grade New Wind Ceremony and carrying the Sword of Xuan Yuan—Agriculture Husbandry Sword. He stood there casually. Coupled with his Celestial Appearance, he naturally had an unparalleled bearing.

"Greetings my Lord!"

Everyone was stunned for a moment before they hurriedly said respectfully.

"There's no need to be so polite."

"You guys can continue working. I'm the one who caused the changes in the crops. Don't think too much about it. Just focus on your own matters."

Zhou Zhou said.

"Yes, my Lord!"

Nong Chenglin and the others were relieved.

Their faces were filled with joy.

Their future was simply limitless with the huge agricultural bonus brought by the Lord.

After seeing them continue to work, Zhou Zhou carried the Sword of Xuan Yuan—the Agriculture Husbandry Sword—on his back while feeling the field under his feet.

[Global Lord: 100% Drop Rate](#)

Chapter 443: 65 Dragons!

With the help of the Sword of Xuan Yuan—the Agriculture Husbandry Sword—he could clearly feel that the Jade Sun Fruits, Blazing Sun Rice, and other crops planted by Nong Chenglin and the others were absorbing the nutrients of the earth at an astonishing rate and growing rapidly.

Moreover, even though these crops absorbed a large amount of nutrients from the soil, under the influence of some mysterious power, the soil still maintained an astonishing fertility.

It was as if this land had endless nutrients.

"This should be the combined effect of the Agriculture Nation, the Sword of Xuan Yuan—the Agriculture Husbandry Sword, and the Jade Sun Fruit Tree Forest."

Zhou Zhou came to a realization.

Then, he clicked his tongue in wonder.

Unknowingly, his territory already had so many good conditions for agricultural development.

After that, he chatted with Nong Chenglin and the others for a while before turning around and walking towards the Arc de Triomphe.

...

In front of the Triumph Gate.

After Zhou Zhou arrived, he walked to the Triumph Gate without hesitation.

Then, the Triumphal Arch suddenly lit up with golden light. A gentle energy surged into his body from all directions, strengthening his body and soul strength!

A comfortable feeling surged into his heart.

Zhou Zhou had broken through to Diamond-Tier Intermediate Grade!

Right on the heels of that.

The Calamity Crossing Spirit Pill (Lord's Only Edition) hidden in his body pushed the promotion energy in his body to 90% again, making him only a step away from Diamond-Tier Advance Grade!

"If nothing goes wrong tomorrow, my strength will advance to Diamond-Tier Advance Grade."

"At that time, the medicinal power of the Calamity Crossing Spirit Pill should be completely exhausted."

Zhou Zhou thought ruefully.

After experiencing the pleasure of rapidly increasing his strength, Zhou Zhou felt a little uncomfortable just thinking about it.

But there was nothing he could do.

After all, a treasure like the Calamity Crossing Spirit Pill (Lord-only version) was something that could only be chanced upon by luck.

Zhou Zhou quickly adjusted his mentality.

He still had a chance to get the Supreme Treasure Chest in the future.

As for the treasures in the Supreme Treasure Chest, there was a high chance that the items that the Lord wanted would appear.

Therefore, he still had a high chance of obtaining good things like the Calamity Crossing Spirit Pill (Lord-only version) in the future.

Moreover, in the future, he would continue to increase the Lord Talent of the Blessing of the War God, the Blessing of the Ten Gods. Therefore, even if the speed at which he increased his strength in the future would slow down, it should not be much slower.

Then, he stopped thinking and returned to his Beginner-Grade Lord's Paradise. He came to the cultivation room and took out a large pile of Loots from his Spatial Ring.

Among these items were spoils of war that looked like hearts, spoils of war that looked like Mist Core, and spoils of war that looked like crystal statues...

There were more than 200 of them!

Even though they looked different, they all had one thing in common.

They were all bloodline treasures!

For example, the Shadow Race bloodline, the Crystal Demon Spirit Race bloodline, the Elemental Heart, the Dark Spirit Tiger Race bloodline...

They were all bloodline Loots that Zhou Zhou had obtained from their clansmen after attacking the Lord of All Races!

Most of them were below Diamond-Tier. The ones with the highest bloodlines were only Extraordinary-Tier and Epic-Tier. There were only six bloodlines at these two levels.

"These bloodlines are far inferior to the Light Sacred Dragon Bloodline or even the Light Spirit Dragon's bloodline."

"I wonder how much I can improve my Chaos Human bloodline."

Zhou Zhou muttered to himself.

He did not have much hope.

One had to know that even the Unique Level Light Sacred Dragon Bloodline only raised his Chaos Human Race bloodline from the Yellow Gold-Tier Intermediate Grade to the Diamond-Tier Elementary Grade.

Even though there were many bloodlines in front of him now, the effects combined were probably not even comparable to the Light Sacred Dragon Bloodline...

Zhou Zhou shook his head and stopped thinking about it. He absorbed the bloodlines one by one.

More than an hour later.

Zhou Zhou was speechless when he saw that he had advanced to Diamond-Tier Intermediate Grade.

Was it that difficult to raise the Chaos Human bloodline?

More than 200 people of foreign race bloodlines added together could only raise the Chaos Human bloodline by a small level??

"Ridiculous."

Zhou Zhou felt a little helpless.

What level was this Chaos Human bloodline at?

Why was it so difficult to improve?

Zhou Zhou was depressed for a while before he calmed down.

At this moment.

BOOM!

A loud sound rang out.

Zhou Zhou was stunned as the ground shook,

Then, he flew out of the Beginner-Grade Lord's Paradise and looked into the distance.

A ten-thousand-meter-tall tower stood hundreds of kilometers away from Blazing Sun City.

It was the Dragon Sacrifice Holy Tower!

A silver dragon more than two thousand meters tall was entrenched on the Dragon Sacrifice Holy Tower.

"Has the Dragon Sacrifice Holy Tower been settled..."

When Zhou Zhou saw this, he thought of the 25 Light Spirit Dragon eggs in his Spatial Ring.

With a thought, he called back a Starry Night from the Final Battlefield. Then, he spread a layer of Absolute Light around his body and rode the Starry Night and rushed into the Scarlet Fog, flying in the direction of the Dragon Sacrifice Holy Tower.

...

Dragon Sacrifice Holy Tower.

"Greetings my Lord!"

Haris led the other 36 Extreme Dragon Race members, as well as Nezario, Auguste, and Light Sacred Dragon Ingesol.

When they saw their Lord arrive, they immediately said respectfully.

"Aren't you afraid of the Scarlet Fog?"

Zhou Zhou was surprised to see that their bodies were exposed in the Scarlet Fog, but their expressions did not change at all.

"Our Extreme Dragon bodies can easily resist the corrosion of the Scarlet Fog."

"Moreover, around the Dragon Sacrifice Holy Tower, the ancestral bloodline power of the Dragon Sacrifice Holy Tower will also protect us from the Scarlet Fog."

Haris said respectfully.

Zhou Zhou nodded.

Then, he did not say anything else. He directly took out 25 Light Spirit Dragon eggs and began to bind them with his blood.

Haris and the other members of the Extreme Dragon Race looked at this scene in surprise, but they did not say anything.

Even their ancestor had asked them to protect this Lord and the Light Sacred Dragon.

These Light Spirit Dragons were the Light Sacred Dragon's Elementary Grade Dragons. It was their honor to be hatched by the Overlord with his blood and be loyal to the Overlord and the Light Sacred Dragon.

A moment later.

25 Light Spirit Dragon cubs surrounded Zhou Zhou in a mess, making him look like the parent of a large family or a kindergarten teacher.

When Nezario and the others saw this scene, they all looked like they wanted to laugh but did not dare to.

Zhou Zhou was also a little helpless.

He had the Light Sacred Dragon Bloodline in his body. These Light Spirit Dragons were closer to him than to his parents.

In addition, he had dripped his blood on them to recognize them as his master.

With the double bloodline connection, at this moment, he was even more loved and relied on by these little fellows than the Light Sacred Dragon Ingesol.

It was not easy to appease them.

Zhou Zhou looked at Nezario and the others.

"From now on, you can stay here for the time being. This place will become your base for the time being."

"I'll get Zheng Yuanqi and the others to send the other corresponding buildings and resources over tomorrow."

"If you need anything, you can tell me. I'll definitely satisfy you if I can."

"As for these little fellows, I'll leave them in your care."

Zhou Zhou said.

"Yes, my Lord!"

The dragons said respectfully.

Zhou Zhou nodded.

He looked at these dragons and counted. He realized that there were already 65 dragons!

"Good God."

"Even that Dragon God Lord probably doesn't have as many dragons as I do here."

Zhou Zhou thought to himself.

[Global Lord: 100% Drop Rate](#)

Chapter 444: Upgrading The Territory!

Zhou Zhou looked at the Dragon Sacrifice Holy Tower in front of him and thought about Nezario and the others' future arrangements.

Now, he had as many as 65 dragons under him!

It was definitely not good for so many dragons to gather so close to Blazing Sun City.

There were still a large number of human soldiers and Subjects living in Blazing Sun Territory after all.

Even if the 65 dragons didn't do anything, the commotion they caused was enough to shake the heavens and earth, causing the residents of the Blazing Sun Territory to be unable to live normally.

Moreover, cohabitation between humans and dragons was ultimately a temporary measure in the past.

In the past, Zhou Zhou did not have any good conditions, so he allowed the dragons and humans to live together.

However, under such circumstances, be it humans or dragons, they were actually not living very comfortably.

The humans loved to protect their dragons, but they also respected the innate terrifying bloodline power of the dragons.

The dragons did not dare to play casually. They were even afraid that even a gust of wind created from a casual flapping of their dragon wings would blow the Subjects of the territory to death.

However, that was different now.

Zhou Zhou had a large amount of territories and resources. It was enough to arrange a new and suitable place for the dragons to live.

Moreover, he had an array master in his territory who could create Spatial Teleportation Arrays. If he wanted the dragons to return, he could just teleport them over instantly. It would not delay anything.

"I'll talk to Uncle Zheng tomorrow."

"Let him choose a suitable place in the territory and build a dragon city for the dragons to live in."

"Also, the Monster Subjects of the Monster Army have different living habits from humans. In fact, they are not suitable to live with humans."

"We can also build a monster city and let them live together."

Zhou Zhou thought.

He had separated the dragons, monsters, and humans. Apart from their different living habits, he naturally did not do it to create a barrier between the three types of Subjects.

They were all Subjects of Blazing Sun City, so Zhou Zhou would treat them equally.

In the future, even if Dragon City and Monster City were established, Zhou Zhou would not stop them from meeting. Instead, he would encourage them to communicate with each other.

Zhou Zhou believed that in the end, the benefits would outweigh the disadvantages.

It would not be too late to adjust if an accident really happened in the future.

He then continued thinking if there was still anything he had yet to do.

Today's matter was over.

Zhou Zhou did not want to leave the matter for tomorrow.

"Oh yes."

Zhou Zhou suddenly thought of something. He opened the Marketplace and took out 10,000,000 skill books and 20,000,000 pieces of equipment from the spoils of war he had obtained from the Final Battlefield. He sent them to the Marketplace for trade.

He still had more than 5.6 million skill books and more than six million pieces of equipment left.

These skills and equipment were enough for his soldiers to consume. The rest were useless for the time being, so he might as well take them out to sell the Mist Core.

The amount of Zhou Zhou's transaction could be said to be astonishing.

Therefore, it didn't take long for him to reach the first position in the trading viewership.

The Lords of Cerulean Planet had originally thought that their ability to accept the Lord of The Blazing Sun's attack was already very high.

However, when they saw this transaction, they were still shocked.

[F*ck! 30 million skill books and equipment??? What is the Lord of The Blazing Sun doing??? Is he participating in a world war???)

[So many skill books and equipment??? If they were to be directly airdropped over my territory, they would probably crush my territory.]

[Once again, I seriously suspect that the Lord of The Blazing Sun has opened the control panel! Can you send me the code?]

[Big Boss Blazing Sun, are you reading this? Is the Star Alliance still recruiting people?]

[The Lord members of the Star Alliance seem to be especially happy recently even though I'm not with them.]

[Boohooohoo, they must be silently making a fortune!]

[Seeing them make a fortune silently is even worse than my own territory leveling up!]

...

Zhou Zhou also saw these comments. He smiled and did not say anything.

With the Incite Defection around, they were indeed silently making a fortune.

However, he no longer had a low-level Master-Servant Territory Contracts in his hands to add new Alliance members.

The wishes of these Lords to join the Star Alliance could not be fulfilled in a short period of time.

Then, he closed this transaction and looked at another one.

It was his transaction to buy high-level Elemental Gems.

Then, he discovered that after a day of acquisition, he had already bought another 210 Life Elemental Gems and 168 Death Elemental Gems.

"I can upgrade my territory now!"

Zhou Zhou perked up.

Then, he took out all the gems and came to the door of the Beginner-Grade Lord's Paradise.

Zhou Zhou looked at the building in front of him.

A text notification appeared.

[Do you want to upgrade the Beginner-Grade Lord's Paradise?]

"Yes!"

He said.

The next second.

400 million units of basic materials, 100 White Platinum-Tier Mist Cores, 1,000 Origin Crystals, 10,000 units of basic Elemental Gems, 3,000 units of high-level Elemental Gems, and one Platinum-level Territory Token disappeared.

BOOM!

A golden light immediately covered the entire Lord Manor.

A moment later.

The golden light dissipated.

The obviously expanded Lord Manor appeared in front of Zhou Zhou.

[Congratulations, your Beginner-Grade Lord's Paradise has successfully been upgraded to a White Platinum-Tier Intermediate Grade building!]

[Your White Platinum-Tier Elementary Grade Essence Spirit Array has been successfully upgraded to White Platinum-Tier Intermediate Grade.]

[Your territory has been successfully upgraded to the White Platinum-Tier Intermediate Grade!]

[Territory Stone's Endurance increased to: 20 million / 20 million!]

[Your territory has expanded to 2,000km×2,000km×20,000m!]

[All fog monsters within the territory of the new territory have been expelled!]

[Scarlet Fog will not appear in any of your territories!]

[You have received an upgrade reward: Basic Construction Blueprint Treasure Chest (White Platinum-Tier Intermediate Grade)!]

[Lord Talent Notification: The upper limit of the enemy's Lord Force that you can use Incite Defection on has been increased to Legendary-Tier Elementary Grade!]

[Lord Talent Hint: Your Monster Ranches can be upgraded!]

[Lord Talent Hint: Your Mysterious Caravan faction has increased!]

[Lord Talent Hint: The strength of the clergy in your Goddess of Life's shelter has increased!]

Zhou Zhou nodded in satisfaction.

He was one step closer to the next level of the Glory of the Pioneer.

However, he realized that there was something different about the upgraded territory this time. After upgrading the territory, there were no new blessed land buildings.

"Don't tell me that new buildings won't be added to the upgraded territory after reaching the White Platinum-Tier level?"

Zhou Zhou thought to himself.

Then, he did not pay much attention to it.

Now that the construction facilities in his territory were quite complete, there was no lack of necessary buildings. It did not matter if it did not increase.

Then, he looked at the requirements for the next level of territory upgrade.

[Construction Upgrade: 200 million units of wood, 200 million units of fine sand, 200 million units of metal, 200 million units of stone, 500 White Platinum-Tier Mist Core, 2,000 Origin Crystals, 30,000 units of basic Elemental Gems, 3,000 units of Thunder Elemental Gems, 3,000 units of Life Elemental Gems, 3,000 units of Death Elemental Gems, Two White Platinum-Tier cities, 20 White Platinum-Tier Lifestyle Professionals, 300 White Platinum-Tier Military Professionals, Two White Platinum-Tier Territory Tokens!]

Zhou Zhou frowned after reading it.

"It's getting harder and harder to upgrade this territory."

He muttered to himself.

Among these upgrade conditions,

basic resources, Mist Core, Origin Crystals, Basic Elemental Gems, Lifestyle Professionals, and Combat Professionals, as well as Territory Tokens, he could satisfy all of them.

However, he was not able to do the same with the 9,000 high-level Elemental Gems and two White Platinum-Tier cities.

Needless to say, there were high-level Elemental Gems.

He only had one Kingdom Beginning City out of the two White Platinum-Tier cities.

"After the Myriad Races Lord Battlefield event ends, I have to take down the Tahan Kingdom as soon as possible."

Zhou Zhou thought.

The White Platinum-Tier cities and high-level Elemental Gems in the Tahan Kingdom should be able to satisfy the next upgrade requirement.

Then, he stopped thinking about it. As he continued to collect high-level Elemental Gems on the Marketplace, he came to the Gate of Summoning and upgraded it.

[**Global Lord: 100% Drop Rate**](#)

Chapter 445: Upgrading The Summoning Gate! Mechanical Terror Falcon!

Zhou Zhou first looked at the upgrade requirements for the Gate of Summoning.

[Construction Upgrade: Two million units of wood, two million units of fine sand, two million units of metal, two million units of stone, 100 White Platinum-Tier Mist Core, Territory Level upgraded to White Platinum-Tier Intermediate Grade!]

Zhou Zhou nodded.

The requirement to upgrade the Gate of Summoning was easy.

After the territory leveled up, the Gate of Summoning could basically level up as well.

Then, he spent these materials to upgrade the Gate of Summoning.

[Congratulations, your Gate of Summoning has successfully been upgraded to a White Platinum-Tier Intermediate Grade building!]

[You can summon + 50 Subjects every day!]

[You will summon 70 Professionals from the Subjects every day!]

[Prompt: Under the influence of the unique title of the race, Glory of the Pioneer IV, you can summon 1,675 Subjects every day!]

[You will summon 75 Professionals from the Subjects every day!]

[Moreover, five of the Professionals will have the same level as your territory!]

This leveling up was not bad.

Zhou Zhou thought.

Then, he looked at the requirements for the next level of the Gate of Summoning.

[Construction Upgrade: five million units of wood, five million units of fine sand, five million units of metal, five million units of stone, 500 White Platinum-Tier Mist Core, Territory Level upgraded to White Platinum-Tier Advance Grade!]

"What a free upgrade request."

Zhou Zhou sighed.

At this moment.

Bai Yun walked over from not far away.

"Greetings my Lord!"

She said respectfully.

"Yes, why?"

Zhou Zhou asked.

"Reporting to the Lord, the Lord members of the Star Alliance have already brought 20% of their forces to Blazing Sun Territory."

"In addition, they also brought a group of captured fog monsters and said that they wanted to offer them to the Lord."

Bai Yun said.

Zhou Zhou's eyes lit up.

"Let's go and take a look."

He immediately said.

Bai Yun nodded and led the way for Zhou Zhou.

The two of them arrived at an empty space.

In this empty space.

More than 400,000 monster soldiers had gathered here.

There were also more than a hundred mist monsters of various shapes and sizes imprisoned in metal cages by these monster soldiers.

At the front of these monster soldiers were naturally the 311 Lord members who had grasped Incite Defection.

At this moment, they were in high spirits. Clearly, they were in a good mood.

"My good Lord..."

On the other side.

Zhou Zhou looked at the 400,000 soldiers and was a little stunned.

Could this be the 20% of their forces that they had turned around today?

20% of the troops would be more than 400,000.

Then wouldn't their combined forces of Incite Defection reach more than two million?!

Coupled with the more than 600,000 troops they already had, the Lord Alliance that he had just established for two days actually had a total of more than 2.6 million troops!

When Zhou Zhou thought of this, he was both excited and a little complicated.

He had worked hard until now, but he only had 700,000 soldiers...

Then, he smiled very happily.

With the Star Alliance's troops and the 1.1 million soldiers he was about to have,

In the future, even if he had to fight head-on against a Lord-level faction at the peak of the Tahan Kingdom, he had a chance of winning!

At this moment.

Nong Chenglin walked over.

"Reporting to my Lord."

"This is the list of 20% of the troops that our Incite Defection brought back. There were originally more than 417,000 people, but we made it up to a total of 420,000 people!"

He said respectfully.

Zhou Zhou nodded and took it to take a look.

Then, he knew that among the 420,000 people:

There were 171,350 Black Iron-Tier soldiers!

There were 131,693 Green Bronze-Tier soldiers!

White Silver-Tier 92,873!

There were 24,084 Yellow Gold-Tier players!

Zhou Zhou nodded in satisfaction.

Among the 420,000 Incite Defection soldiers, the highest level was only at the Yellow Gold-Tier.

However, with the strength of the Lord members, it was normal for Incite Defection to instigate an enemy of this strength.

After all, when he first used Incite Defection, he also started from weak enemies.

"With these 420,000 Incite Defection subordinates, the total number of troops under my command has reached 1,193,556!"

"I've officially exceeded a million troops! I have a standard force comparable to a beginner kingdom."

"Including the troops I can summon in the Star Alliance, I can actually control more than 3.4 million troops!"

Zhou Zhou was excited.

A smile unconsciously appeared on his face.

He felt that creating the Lord Alliance and sharing the Incite Defection with the Lord members was the wisest decision he had made recently.

And this was only the beginning.

As the strength of the Lord members increased in the future, the level of enemies they could induce Incite Defection would also increase rapidly.

At that time, with the help of Incite Defection, the growth of his and his Lord Alliance's power would increase to a very exaggerated level.

Even if the Bug Tribe Lord was in front of him, Zhou Zhou was confident that he would not lose to the other party in terms of the increase in the number of subordinates.

At that time.

Even if he were to face the Lords of top races like the Original Spirit Race, the Chaos Gods Race, and the Shepherds God Race, he was confident that he could fight them!

Then, under Bai Yun's lead, he arrived in front of more than a hundred different types of fog monsters.

Zhou Zhou started from the beginning and looked at the first fog monster.

It was a slender monster with a long black-red mouthpart. It looked like a mosquito or an ant.

[Monster Name: Blood-Traced Fog Ant]

[Strength Level: Green Bronze-Tier Elementary Grade]

[Monster Description: The Fog Monster of the Black Rock Plains was born in the Scarlet Fog and likes to suck the blood of life forms.]

[Loots Drop Rate: Two Green Bronze-Tier Mist Core (Drop Rate: 100%), one Green Bronze-Tier Elementary Grade Blood Ant Spear (Drop Rate: 3%), one Green Bronze-Tier Elementary Grade Skill Book "Sound of Wings" (Drop Rate: 2%)]

...

After reading its detailed information, Zhou Zhou shook his head.

This thing could only drop a pure attack-type weapon and a pure attack-type Skill other than the Mist Core.

He could not get the soldier type recruitment books, nor could he get the soldier type class change book. He could not even get the functional equipment, skills, or special materials.

Obviously, it did not meet the requirements of his monster ranch.

He did not stop and looked at the monster behind him.

[Monster Name: Black Tooth Boar]

[Strength Level: Green Bronze-Tier Intermediate Grade]

[Monster Description: A fog monster from the Misty Mountains. It has an irritable temperament and is extremely aggressive. It can be said to be a tyrant in Misty Mountain.]

[Loots Drop Rate: Four Green Bronze-Tier Mist Core (Drop Rate: 100%), one unit ~ 20 units of Green Bronze-Tier Intermediate Grade Black Tooth Boar Flesh (Drop Rate: 20%~1%), one Green Bronze-Tier Intermediate Grade equipment Black Tooth Dagger (Drop Rate: 3%), one Green Bronze-Tier Intermediate Grade Skill Book, Boar Charge (Drop Rate: 3%)

...

Zhou Zhou had seen one fog monster after another, but he had extremely high standards. Ordinary spoils of war were not worthy of his attention.

However, when he saw the forty-fifth fog monster, his eyes suddenly lit up.

[Monster Name: Mechanical Terror Falcon]

[Strength Level: Green Bronze-Tier Advance Grade]

[Monster Description: The fog monsters in the No. 2 Wasteyard were produced by the [Prophet Organization]. It was one of the intelligence-type mechanical creatures produced by the Machina race. Later on, because the materials of its body were outdated, it was abandoned in the No. 2 Wasteyard.

After being invaded by the Scarlet Fog, it became a Fog Mechanical Monster that hated the Machina race.]

[Loots drop rate: Eight Green Bronze-Tier Mist Cores (Drop Rate: 100%), 10 units of pure iron (Drop Rate: 10%), One piece of Green Bronze-Tier Advance Grade equipment, Fear Falcon Wings (Drop Rate: 3%), One piece of Green Bronze-Tier Advance Grade equipment, Fear Falcon Type II Radar (Drop Rate: 3%)]

Global Lord: 100% Drop Rate

Chapter 446: Mechanical Fear Falcon's Equipment! Iron-Eating Bear and Pet Egg!

"These two pieces of equipment should be useful..."

"Moreover, it can drop pure iron..."

Zhou Zhou felt that it should be stored in his Monster Ranches.

However, before that, he had to see the specific effects of its two pieces of equipment.

Zhou Zhou did not hesitate and casually threw out a Water Spear Technique to kill it. Then, he placed his hand on its body.

[Lord Talent Notification: Your loots have been enhanced by the 'King of Loots—Perfect Loots'. Grade +1!]

[Title Hint: Your loots have been affected by the title of 'Strongest Lord'. The number of Loots has increased by 20%!]

[Lord Talent Notification: You have obtained Perfect Loots—10 Mist Cores (White-Silver Tier Advance Grade), 12 units of forged stainless steel, one Fear Falcon Wing (White-Silver Tier Advance Grade), one Fear Falcon III Radar (White-Silver Tier Advance Grade)!]

The Mechanical Fear Falcon instantly exploded into a small pile of loots.

"Tsk, pure iron has actually become forged stainless steel?"

"The Fear Falcon II radar has also become the Fear Falcon III radar?"

Zhou Zhou clicked his tongue in wonder. Then, his gaze swept past the Mist Cores and forged stainless steel and landed on the two pieces of equipment.

Among them, the Fear Falcon's wings were a pair of combined silver mechanical wings that looked industrial. After unfolding it, Zhou Zhou realized that its wingspan was ten meters long!

Zhou Zhou looked at it.

A text notification appeared.

[Equipment Name: Fear Falcon Wings]

[Equipment Grade: White Silver-Tier Advance Grade]

[Equipment Effect: Use the energy in your body or place the Mist Core in the energy slot of the Fear Falcon's wings as the operating energy core of the Fear Falcon's wings. Carry it on your back. The user can fly freely in the sky and adjust their speed freely by riding it. The maximum flying speed of the Fear Falcon's wings is 3,000 km/h, and the maximum endurance is about one hour.]

Zhou Zhou raised his eyebrows and nodded.

Not bad.

This maximum flying speed was comparable to the maximum flying speed of some fighter jets on the Cerulean Planet.

Even though it was far inferior to Starry Night, it could still be used as an outstanding solo combat equipment.

However, Zhou Zhou also realized a problem.

That was, this Fear Falcon Wing only had the ability to fly. It did not have any concerns at all on the safety problems it could encounter during high-speed flight. It did not even provide a pair of goggles.

But it makes sense, thinking about it.

This was the equipment of the Machina race to begin with.

The Machina race is not made of flesh and blood. Why would they need auxiliary equipment like goggles?

However, even so, Zhou Zhou was still very excited.

With the Monster Ranch, such flying equipment could be produced endlessly.

Which meant...

He could use this equipment as a foundation to create his own aerial army!

Zhou Zhou's heart burned with ambition.

A long time ago.

Zhou Zhou had the idea of forming his own aerial army when he first saw the fog monster flying in the air.

In this world where there were endless means of war,

it was definitely an incomparably fatal flaw without any means to fight enemies in the air.

However, he was limited by the conditions and did not have such flying equipment at that time. In addition, he had Nezario, the killing machine in the air, with him, so this idea was temporarily put aside.

Now that he saw this equipment, Zhou Zhou immediately recalled his thoughts from a long time ago.

Still...

"This thing's flying speed is still a little too fast, and it's just pure flying equipment."

"Ordinary people shouldn't be able to use this equipment."

"Even Extraordinary-Tier Professionals need a certain level of physical fitness to face flying equipment of this level."

"At this stage."

"I have to find powerful Military Professionals or Combat Professionals if I want to use it immediately."

"However, it's not impossible to use it on a large scale."

Many thoughts appeared in Zhou Zhou's mind.

"I can get Wen Ya to study it with the Blacksmiths, Alchemy Technicians, and other Lifestyle Professionals in the territory. I should be able to study some supplementary equipment that can lower the threshold of usage, such as goggles, helmets, light flying armor, and so on, and pair them with the wings of the Fear Falcon."

"At that time, I can use it on a larger scale."

Zhou Zhou thought.

Then, he looked at another piece of equipment.

It was a square silver device that looked similar to the tablet on the Cerulean Planet.

[Equipment Name: Fear Falcon III Radar]

[Equipment Grade: White Silver-Tier Advance Grade]

[Equipment Effect: The radar system on the mechanical Fear Falcon can scan and discover special signals within a radius of 10 kilometers, including the electromagnetic signals emitted by mechanical creatures and the biological energy signals emitted by flesh and blood creatures.]

Zhou Zhou nodded.

This equipment was not bad either.

It was equivalent to a 'small map' in the game.

However, this small map could only find flesh and mechanical creatures.

The detection range was average.

However, if its level was high, it should be able to scan flesh and mechanical creatures in a larger range.

At this point.

Zhou Zhou had already officially decided to put it in the Monster Ranch to nurture.

He looked at Bai Yun beside him.

"Go find the Lord who discovered this monster later and ask him to send a few more over immediately. Then, send them to Mu Gu and let him use an individual Monster Ranch to nurture this species of monster."

"Yes, my Lord!"

Bai Yun said respectfully and immediately called the soldiers over to make arrangements.

Zhou Zhou did not care much and continued to look at the next monster.

In the time that followed, he looked at even more fog monsters.

However, very few could catch Zhou Zhou's eye.

Until he saw the 106th monster.

Zhou Zhou looked at the monster with a strange expression.

The monster was more than two meters tall and was completely black and white. Two dark circles hung around its eyes. At this moment, it was sitting on the ground and looking at him in confusion.

[Monster Name: Iron-Eating Bear]

[Strength Level: Black Iron-Tier Advance Grade]

[Monster Description: A Mist Monster in the Myriad Forest Mountain Range. It is good at digging minerals and feeds on them. It has thick skin, huge strength, and extremely fast speed. It can climb all kinds of complicated terrain and has extremely strong survivability.]

[Loots Drop Rate: Eight Black Iron-Tier Mist Cores (Drop Rate: 100%), 50 units of iron ore (Drop Rate: 10%), one Black Iron-Tier Advance Grade Skill Book, Iron Claw Slam (Drop Rate: 3%), one Black Iron-Eating Beast Pet Egg (Drop Rate: 1%)

"Isn't this a giant panda?"

Zhou Zhou was a little stunned.

This was the first time he had seen a fog monster that was almost identical to the creatures on the Cerulean Planet.

Moreover, this was the first time he had seen a fog monster that could drop pet eggs.

Zhou Zhou thought about it and decided to kill it.

Even if it was a former national treasure, it was still a fog monster.

They were products of two worlds. No matter how similar they looked on the surface, they were essentially different creatures. Zhou Zhou naturally did not have any pity for them.

Then, he looked at the spoils of war of the Iron-Eating Bear.

After the Iron-Eating Bear was dealt with, its spoils of war became 10 Green Bronze-Tier Mist Cores, 60 units of pure iron, one Green Bronze-Tier Advance Grade skill book, "Metro Claw", and one Green Bronze-Tier Advance Grade pet egg.

Zhou Zhou ignored the Mist Core, pure iron, and skill book. His gaze landed on the pet egg and he dripped his blood on it to let it recognize him as its master.

Global Lord: 100% Drop Rate

Chapter 447: The Greedy Wolf Totem That Was Returned

An Iron-Eating Bear more than half a meter tall crawled out of the egg cutely and turned around to eat the eggshell.

Zhou Zhou looked at the other party's attribute information while it ate the eggshell.

[Pet: Does not have a name yet]

[Race: Iron-Eating Bear]

[Growth Stage: Infancy]

[Strength Level: Black Iron-Tier Elementary Grade]

[Skill: Strong body, Thick Skin Constitution, Mineral Smell Detection, Iron Claw Slam...]

[Potential: Green Bronze-Tier Advance Grade]

[Loyalty: 80]

[Character: Warlike, gluttonous, likes to sleep, likes to play, likes to mine]

[Pet Description: The Iron-Eating Bears feed on minerals. It looks honest on the surface, but it actually has quite shocking combat strength!]

"From the description of this pet, this Iron-Eating Bear seems to be very suitable to be used as a Mount in the army."

"It's not bad for it to be a private pet."

"Or let it take charge of mining."

"Erm... Let's forget about mining. Isn't this equivalent to letting rats guard the rice jar?"

Zhou Zhou pondered.

Then, he looked at the other party for a while and discovered a shocking fact.

The Iron-Eating Bear that was born from a pet egg actually lost the power of the Scarlet Fog and became a normal life form.

"That works?!"

Zhou Zhou smiled.

He naturally would not reject such a change.

Then, he did not think for long and decided to send the Iron-Eating Bear in the form of a fog monster to the Monster Ranch.

Be it its Pet Egg loots or its pure iron mineral loots, they were all what Zhou Zhou wanted.

Since that was the case...

There was no reason to let it go.

"In the future, perhaps our Blazing Sun Territory's Subjects can each have an Iron-Eating Bear."

This thought suddenly flashed across Zhou Zhou's mind.

Then, he stopped thinking and asked Bai Yun to send the Iron-Eating Bear in the form of a fog monster to Mu Gu. Then, he continued to look at the remaining fog monsters.

With the mechanical Fear Falcon and the Iron-Eating Bear in front, Zhou Zhou was quite looking forward to the remaining 23 types of fog monsters.

Unfortunately, the remaining 23 types of monsters' spoils of war were relatively normal and were not worthy of Zhou Zhou's attention; perhaps he had used up all his luck.

Zhou Zhou was a little disappointed.

He called the members of his Lord Alliance over and asked if there were any more fog monsters.

There were more than 300 Lords, so there were definitely more than 100 monsters.

Everyone looked at each other in surprise.

Initially, they thought that this was a small matter. After all, when the Alliance Master said this, he did not even hold a meeting and only casually told everyone.

From the looks of it, the Lord seemed to take this matter very seriously?

"Yes, yes."

"This is only the first batch. We will send another batch of fog monsters over everyday."

"Lord Alliance Master, this batch of fog monsters are what we think to be stronger. We didn't bring back some weaker fog monsters because we didn't think they were worth showing them to our Lord. If our Lord needs them, shall we capture a batch of weaker fog monsters tomorrow for you to take a look?"

...

The Lords spoke one after another.

One of the Lords' words immediately made Zhou Zhou look over.

Good God!

No wonder there are only a hundred odd fog monsters sent over.

You're thinking too much. Why segregate the strong and weak ones?

I want them all!

Zhou Zhou immediately explained this misunderstanding.

The Lords heaved a sigh of relief.

"That makes things easier."

"We can bring a lot more monsters to the Lord if there are no specifications."

...

"Oh yes."

"Which Lord brought the mechanical Fear Falcon and the Iron-Eating Bear over?"

Zhou Zhou nodded at everyone's reaction and asked curiously.

"I brought the Mechanical Fear Falcon here."

The Gold Merchant Lord smiled.

"My territory is close to a Machina race kingdom, so there are such Machina race creatures near my territory."

"I brought the Iron-Eating Bear here."

A younger Chinese female Lord raised her hand timidly and said with a red face, "I think the Iron-Eating Bear is very cute and looks like our national treasure, so I brought it over."

"I like the fog monsters you two brought."

"In a while, the two of you can collect 1,000 copies of the Violent Storm Spirit Class Change Certificate. You can also collect 1,000 copies of the other Basic Military Profession Change Certificate."

"As for the other Lords who brought fog monsters, everyone will be determined according to the number of fog monsters they brought. A new fog monster can receive 500 Basic Military Profession Change Certificates."

"No upper limit!"

The Lords were excited when they heard that.

They had already obtained a large number of subordinates through Incite Defection. What they lacked now were Class Change Certificates that could allow their subordinates to embark on the path of professions.

Therefore, when they heard Zhou Zhou's words, they immediately made up their minds to bring more new fog monsters over next time.

However, in that case...

They could not only care about the development of Life Professions. It was time to invade the territory of the non-Kingdom-level Scarlet Lords around their territory.

Otherwise, with the limited area of his territory, they would definitely not be able to find too many New Race fog monsters.

On the other side.

Zhou Zhou looked at the Lords' fighting spirit and could not help but smile.

He hoped that the fog monsters they would bring in the future would also surprise him.

Then, he chatted with the Lords for a while before letting them return to their respective homes.

When they returned, Zhou Zhou was also thinking of returning to his Beginner Lord Blessed Land.

"My Lord."

At this moment.

Bai Yun suddenly stopped him.

"Why?"

Zhou Zhou was stunned.

Bai Yun took out a totem statue from her Spatial Ring.

It was the Greedy Wolf Totem!

"My Lord."

"I have already completely comprehended this Greedy Wolf Totem. I can use the Greedy Wolf Howling Moon Array even if I do not rely on this Greedy Wolf Totem."

"Therefore, I want to return it to the Lord and let him find a general to teach it."

Bai Yun said respectfully.

Zhou Zhou raised his eyebrows.

Ever since he saw Bai Yun comprehend the hero skill—Greedy Wolf Killing Arrow—from the Greedy Wolf Howling Moon Array, Zhou Zhou had a premonition that this general of his would soon completely master the Greedy Wolf Moon Array like Wu Xin and get rid of his dependence on the Greedy Wolf Totem.

However, he did not expect it to be so fast.

It had only been less than a day or two, right?

Zhou Zhou was surprised but did not say anything on the surface. He took the Greedy Wolf Howling Moon Array over.

He looked at the Greedy Wolf Totem in his hand and was thinking about who to give it to when his heart suddenly moved.

Why should he hand it over to others?

He had previously obtained Wu Xin's talent, Ability To Grasp Situation Thoroughly, and Hero Skills from the Lord Shop.

Who is the most suitable to learn the Greedy Wolf Howling Moon Array in this Greedy Wolf Totem in his territory?

Definitely him, without a doubt!

[Global Lord: 100% Drop Rate](#)

Chapter 448: The Improvement Of The Lord Talent! Wen Ya's Spaceship Factory!

As a Lord, he did not need to go on stage to kill enemies and use the Greedy Wolf Howling Moon Array to kill them.

However, no need to and not knowing how to are two separate matters altogether.

Zhou Zhou felt that as a Lord, it was necessary for him to learn even if he did not have to go to the battlefield.

"I understand."

Zhou Zhou nodded and did not say anything else.

Bai Yun bowed respectfully and was about to leave.

"Oh yes."

"Call Mu Gu, Carol Moeli, and Zheng Fugui over."

Zhou Zhou said.

"Yes, my Lord!"

Bai Yun said respectfully and turned to leave.

After seeing her leave, Zhou Zhou shook the Greedy Wolf Totem in his hand and decided to study it tonight.

He would try to master it as quickly as possible and hand it over to the other generals.

This was a top-notch military formation that could reduce the casualties on the battlefield after all.

He had nearly 1.2 million subordinates now!

The Greedy Wolf Howling Moon Array could accommodate at most 200,000 soldiers.

Therefore, there had to be at least six generals who controlled it in his territory.

Moreover, his military strength would increase exponentially every day as the days passed.

Therefore, the more generals who controlled him in his territory, the better.

Zhou Zhou did not think too much about it and turned around to return to his Beginner Lord Blessed Land.

A moment later, in the conference room of the Beginner-Grade Lord's Paradise.

Zhou Zhou sat on the main seat, while Mu Gu, Carol Moeli, and Zheng Fugui sat on both sides.

"Same old rules. Tell me about your enhanced abilities."

Zhou Zhou said.

The three of them looked at each other. Then, Mu Gu, who was the first to follow Zhou Zhou, stood up.

"Reporting to my Lord, my strength has also increased to the White Platinum-Tier Intermediate Grade after the territory advanced to the White Platinum-Tier Intermediate Grade. My various Skills have also increased to the White Platinum-Tier Intermediate Grade."

Moreover, the number of monster ranches that I can manage has already reached 34.

The maximum capacity of each Monster Ranch has also increased from 10,000 to 15,000. The upper limit of the monsters that can be nurtured has also increased to the White Platinum-Tier Intermediate Grade."

Zhou Zhou nodded.

He thought for a moment and said,

"You saw the new breed of fog monster I sent over just now, right?"

"I just did."

Mu Gu nodded.

"The nine monsters nurtured by our Monster Ranch now are the Desert Fog Lizard (Source of Sword Shield Soldiers), Tailed Fog Scorpion (Source of Poison Crossbow Soldiers), Sandman (Source of City Wall Materials—Source of Light Drawing Crystals), Wild Sand Believers (Source of Pudao Soldiers), Withered Tree (Source of Tree Core Gems, Jade Sun Trees), Undead Knights (Source of Aurora Knights), Violent Storm Demon Spirit (Source of Violent Storm Spirit), Mechanical Fear Falcon (Source of Fear Falcon Wings), and the Iron-Eating Bear (Source of Iron-Eating Bears)."

"For now, including the new monster ranches that will be added in the future, we can prioritize nurturing the Violent Storm Spirit, Mechanical Fear Falcon, Iron-Eating Bear, Withered Tree, and Sandman. As for the other monsters, we can nurture less. Two Monster Ranches will be enough for one kind of fog monster."

Zhou Zhou said.

With the Star Alliance around, he did not lack troops for the time being.

Since that was the case...

It was better to produce Kingdom-level soldier types like the Violent Storm Spirit with all his might.

As for other materials, air force equipment, and pets, he could produce more in a short period of time.

As for Normal soldier types like the Sword Shield Soldiers and Pudao Soldiers, they only needed to leave two Monster Ranches for each.

"Yes, my Lord!"

Mu Gu said respectfully.

Zhou Zhou acknowledged.

After Mu Gu finished his report, he automatically retreated. Then, Zheng Fugui stood up.

"Reporting to my Lord."

"The number of mysterious vendors in our Mysterious Caravan has increased from 500 to 1,000.

"All the Mysterious Merchant's abilities have also been upgraded to the White Platinum-Tier Intermediate Grade."

"The number of our carriages has also increased to 1,000."

"In addition, the mysterious ring that each of us was given by the Supreme Will has also increased from 10,000 cubic meters to 30,000 cubic meters. We can transport more goods now."

"This is the improvement of our Mysterious Caravan."

Zhou Zhou nodded.

Seeing this, Zheng Fugui did not say anything else and sat back down.

Carol Moeli also stood up elegantly.

She was still wearing her Cardinal uniform and looked beautiful, holy, and dignified.

"Reporting to my Lord."

"After our territory was upgraded to the White Platinum-Tier Intermediate Grade, The Shelter of the Goddess of Life also upgraded to the White Platinum-Tier Intermediate Grade."

"Now, there are already 2,000 clergymen, 2,000 priests, 2,000 nuns, and 5,000 Life Paladins in our shelter."

"In addition, the strength of all the clergy has also increased to the White Platinum-Tier Intermediate Grade."

"My strength has also increased from Extraordinary-Tier Elementary Grade to Extraordinary-Tier Intermediate Grade."

Zhou Zhou nodded in satisfaction.

Carol Moeli's strength improved.

It meant that the upper limit of the hero's strength that she could revive had also increased by a small level.

He would have more confidence when he goes to the Knight Temple tomorrow to ask for the Hero Inheritance for Xu An.

He did not have any extra Holy Spirit-Tier Faith Divine Crystal yet.

After that, the four of them chatted for a while before ending the meeting.

"My Lord."

"Wen Ya also has something to report."

At this moment, Wen Ya's virtual image gradually appeared in front of Zhou Zhou.

At this moment, she was wearing a gothic maid outfit. Coupled with her innocent face, she looked very charming as a young girl.

"Where did you get that outfit?"

Zhou Zhou did not ask what the matter was immediately. Instead, he asked curiously.

"During this period of time, Wen Ya has been using Ling'er's Marketplace to buy the materials for the construction of the Star Night and Black Ghost spaceship factories."

"During this period, I also browsed through the products and comments of the other Lords of the Cerulean Planet. I chose this set of clothes."

"Does my Lord like it?"

Wen Ya looked at Zhou Zhou with an innocent and expectant gaze.

Zhou Zhou: "..."

Who is able to withstand this!

"I like it."

Zhou Zhou said what was on his mind.

Wen Ya smiled when she heard this.

"Tell me what you want to say."

Zhou Zhou became serious again.

"My Lord, please follow Wen Ya to Plane Seven first."

Wen Ya trailed off.

The White Silver-Tier Gift of the Machina brought Zhou Zhou a total of 10 Starry Nights.

Zhou Zhou and Wen Ya decided to give the Starry Nights spaceships individual numbers to differentiate them.

Zhou Zhou was curious.

During this period of time, only four or five of the 10 Starry Nights were often used because one Starry Night was very large.

As for the remaining Starry Nights, they had never been used.

According to Wen Ya, she was using these Starry Nights to prepare for the spaceship factory.

Could it be...

At this thought, Zhou Zhou's eyes lit up.

He didn't ask further and immediately followed Wen Ya to Number Seven.

...

In Number Seven.

When Zhou Zhou arrived at Starry Night, he was stunned by the scene in front of him.

The huge Starry Night was actually filled with all kinds of automated industrial machinery.

These industrial machines were full of futuristic technology and were always running.

All kinds of colors filled the entire Starry Night, and mechanical parts that Zhou Zhou could not understand were constantly produced and transported to the center of the Starry Night.

Seeing this, Zhou Zhou flew straight to the center, wanting to see what secrets there were.

When he arrived at the center, he was immediately shocked again.

Because he saw half of a Starry Night!

To be precise, it was a half-built Starry Night!

Tens of thousands of mechanical industrial arms accurately placed all kinds of components on the incomplete Starry Night, allowing it to be perfected at an astonishing speed.

At the same time...

Wen Ya's voice also sounded in the entire Number Seven.

"The entire Number Seven is operating for the construction of this Starry Night."

"It will take 19 hours, 16 minutes, and 25 seconds to build a new Starry Night."

"Wen Ya is also building a Black Ghost spacecraft factory in the Number Six spacecraft beside it."

"Building a brand new Black Ghost will take 8 hours, 54 minutes, and 11 seconds."

"My Lord, if we can obtain some advanced flying device technology knowledge from the Machina race Lord tomorrow, Wen Ya can build more powerful Starry Nights and Black Ghosts in a shorter period of time."

Wen Ya said.

[**Global Lord: 100% Drop Rate**](#)

Chapter 449: Creating The Monster Army! Lu Cai'er's Doubts!

"A Lord of the Machina race... Alright, I understand."

Zhou Zhou came back to his senses and thought for a few seconds.

He still had three tries for the Compass of the Soul of Vengeance in his hand.

It was naturally not a problem to find a Machina race Lord.

Then, he went to Number Six and looked at Black Ghost. The results were naturally quite satisfactory. However, he also had a problem.

"Why must we build the spaceship factory on Starry Night?"

"Can't we build it on the ground of Blazing Sun Territory?"

Zhou Zhou asked curiously.

"Reporting to my Lord."

"Starry Night has the most perfect spaceship construction and repair system as a completed spaceship."

"Wen Ya built the first Starry Night Spacecraft Factory and the first Black Ghost Spacecraft Factory in the spacecraft because I wanted to use these two systems to complete these two spacecraft factories as soon as possible."

"With these two successful examples in front, the following spacecraft factories can be built on the ground faster and better."

Wen Ya trailed off.

Zhou Zhou came to a realization.

It turned out that the Number Six and Seven were used as factory experimental sites.

Then, he chatted with Wen Ya for a while. After knowing more about Wen Ya's future plans for the spaceship factory, he left Starry Night and returned to his Beginner-Grade Lord's Paradise.

After returning to the Lord's Paradise, he first took out 100 fragments of the Proof of Legion.

Zhou Zhou looked at the fragments.

A text notification appeared.

[Do you want to fuse?]

"Fuse!"

Zhou Zhou said.

The next second.

The 100 fragments of the Proof of Legion suddenly emitted a faint white light, enveloping all the fragments.

After a long time, the white light dissipated.

A complete Proof of Legion appeared in Zhou Zhou's hand.

Zhou Zhou used it and saw the Proof of Legion in his hand instantly shatter into countless light spots and condense a line of red words in front of him.

[Please confirm the Name of your Kingdom-level army:]

"Monster Army."

Zhou Zhou said in a low voice.

There were more than 100 fragments of the Proof of Legion when he conquered the Monster Ranch this morning.

However, there were many things to do at that time, so he did not have time to use it. Now that he was free, it was time to prepare an official army for the Monster Army.

In the time that followed, Zhou Zhou began to fill in the information of the members of the monster army.

After filling it in and confirming it,

A text notification appeared.

[You have created your Black Iron-Tier army!]

[Lord—The army function has been officially activated!]

[Black Iron-Tier Army Enhancement 'Braveness' has been activated!]

[You can increase the level of your army by collecting Battle Points, thereby obtaining higher-level army buffs and other army benefits!]

Zhou Zhou nodded in satisfaction.

The Monster Army was officially established today.

Moreover, the number of his monster ranches was more than twice as many as before.

In addition, he focused on nurturing the Violent Storm Demon Spirit. The number of Proof of Legion fragments would increase greatly from tomorrow onwards!

"Perhaps I can gather the next Proof of Legion tomorrow."

Zhou Zhou thought to himself.

There were so many troops and types in his territory.

The official formation of the two legions was naturally far from enough.

For example, the Heavenly Army needed an independent army.

He had more and more dragon subordinates now, but he did not enjoy the various benefits of an official army formation. Therefore, he had to get an official army formation for his dragon subordinates after he gathered the Proof of Legion.

After that, he could also consider giving the Starfire Mercenary Team an official army.

Lastly, the Lords of the Star Alliance had an increasing number of troops.

Therefore, in the future, in order to make it easier for them to manage the army under them and increase the combat strength of the army, they would definitely need things like the Proof of Legion.

"This Proof of Legion is also a very important resource."

Zhou Zhou sighed.

If that was the case...

He needed more than 10 sets of Proof of Legion.

It seemed that he had to make the Violent Storm Demon Spirit that produced the Proof of Legion, the Violent Storm Spirit recruitment books, the Violent Storm Spirit Class Change Certificate, and the Thunder Element Gems as a fixture in the Monster Ranch.

The Violent Storm Demon Spirit would definitely not be taken away from the Monster Ranch at least for a long time in the future.

Then, he stopped thinking about other things and took out the Greedy Wolf Totem to study it.

At the same time...

Lu Cai'er was in the injured camp, treating the injured with a group of doctors and clergymen.

Lu Cai'er walked out of the injured camp late at night.

She could not help but smile when the cries of pain gradually stopped in the injured camp.

She was sincerely happy to see the soldiers recover under her medical skills.

"Even though I haven't treated anyone for many years..."

"But I'm still good at it."

Lu Cai'er was very satisfied with her performance today.

Then, she stretched and was about to return to her residence to rest.

At this moment.

She was suddenly stunned.

This was because she suddenly noticed that her Immortal Divine Medicine Doctor level had unknowingly increased from Diamond-Tier Elementary Grade to Diamond-Tier Intermediate Grade.

She could not help but open her mouth in disbelief.

'How did this happen?'

Even though she had been asleep for a long time, she still felt that she was still a distance away from the Diamond-Tier Intermediate Grade before she came today.

Normally speaking, she should be able to advance to the Diamond-Tier Intermediate Grade within half a year to a year.

Why did she break through now?

She was very puzzled.

Then, she walked back to her residence and began to think about what she had done today that allowed her to advance by leaps and bounds and save so much time.

However, she did not think that she had done anything special until she reached home.

She had passed on knowledge to higher-level doctors today other than teaching the doctors in the territory.

After the Lord returned with the injured soldiers, she directly entered the injured camp and began to treat the injured soldiers' injuries.

She didn't do anything special...

Hm?!

Just as she was feeling puzzled...

A Will-O-Wisp suddenly flashed across her mind.

No!

There was something special about today!

Lu Cai'er remembered.

When she was treating the injured soldiers today, for some reason, her mind was especially clear and her reaction was especially sensitive. When she used the medical knowledge she had, more medical theories actually appeared in her mind.

There were only two ways for physicians to raise their level.

The first was to treat a large number of patients effectively and accumulate healing experience to obtain promotion energy to increase the level of a doctor.

The second was to master more medical theory knowledge through studying medical classics.

As long as one mastered enough theoretical knowledge of the medical path and used it to the point of proficiency, the promotion energy needed for a doctor to advance would naturally increase continuously and complete the breakthrough of the doctor level.

Lu Cai'er's actions during the day coincided with the doctor's advancement method!

At that time, she did not pay much attention to this strange state. She only thought that she was talented in the path of medicine.

She only realized that something was wrong when she had the time to rest.

[**Global Lord: 100% Drop Rate**](#)

Chapter 450: Perfect Mastery Of The Greedy Wolf Howling Moon Array! The Last Day!

Lu Cai'er thought for a long time, but she could not think of the source of that special state during the day.

However, she had a faint guess in her heart.

"I didn't have such a state when I returned to Teacher's place to take Teacher's medical examination."

"I suddenly entered this state after coming here."

"Is it because this territory is special?"

Lu Cai'er frowned slightly.

She was puzzled, curious, and eager to look forward to it.

Her Immortal Divine Medicine Doctor realm would definitely increase rapidly if her special state during the day could continue!

"Let's ask Zhou Zhou tomorrow."

"He's the Lord here. Zhou Zhou will definitely know something if my state during the day is really related to this territory."

Lu Cai'er thought.

...

The night passed in the blink of an eye.

In the Beginner-Grade Lord's Paradise.

In the fitness hall—Army Duel Room.

"ROAR!"

A Divine Wolf howl that seemed to come from the stars sounded.

A Greedy Wolf Avatar more than 2,000 meters tall was fighting wantonly in the army of 500,000 fog monsters.

None of them could withstand it no matter where it went. The fog monsters turned into incomplete corpses and scattered on the ground.

Not long after.

This place had become a terrifying battlefield with rivers of blood.

"Howl!"

The Divine Wolf roared again.

The entire battle room suddenly darkened.

An illusory blood-colored full moon suddenly appeared on the ceiling and quickly fell towards the fog monsters below.

Greedy Wolf Moon Howling Array's killing move—Moon Fall!

Rumble!!!

The ground shook.

All the remaining fog monsters were crushed and killed by the ultimate move of the military formation.

When the Greedy Wolf Avatar saw this scene, it slowly sat down.

The next second.

It suddenly collapsed into countless blood mist. A total of 200,000 human soldiers standing majestically on the spot when the blood mist cleared up.

In front of them stood a majestic figure.

It was none other than Zhou Zhou!

He waved his hand, and the 200,000 soldiers behind him turned into phantoms and quickly dissipated.

The blood-colored battlefield and the corpse of the fog monster in front of him also dissipated.

In the blink of an eye.

The battlefield that had just gone through an intense battle turned into a clean practice room.

Zhou Zhou did not look at the changes in his surroundings.

He had been studying and practicing the Greedy Wolf Avatar for the entire night. He had seen this scene countless times.

At this moment, he was focused on the virtual screen in front of him.

Lines of black words quickly appeared on the virtual screen.

[The battle between the military formations has ended!]

[Your Army Formation (Greedy Wolf Howling Moon Array) Killing Ability Rating: Perfect!]

[Your Army Formation (Greedy Wolf Howling Moon Array) Crowd Control Ability Rating: Perfect!]

[Your Army Formation (Greedy Wolf Howling Moon Array) Defense and Counterattack Ability Rating: Perfect!]

[Your Army Formation (Greedy Wolf Howling Moon Array)'s Random Crisis Response Ability Rating: Perfect!]

[Congratulations, you have perfectly mastered the Greedy Wolf Howling Moon Array!]

[Do you want to end this battle?]

Zhou Zhou smiled when he saw these comments.

The night he spent was not in vain.

He had finally grasped this Greedy Wolf Howling Moon Array.

Furthermore, he grasped it perfectly without any blind spots!

Now, even the creator of the Greedy Wolf Howling Moon Array might not be able to compare to him in terms of theoretical understanding and practical use of the Greedy Wolf Howling Moon Array.

He had already far surpassed Wu Xin and Bai Yun.

The reason why he could master the Greedy Wolf Howling Moon Array so quickly was not only because of his many bloodlines, but also because his aptitude and comprehension far exceeded ordinary people.

Wu Xin's talent—Ability To Grasp Situation Thoroughly and Hero Skill—Desired Military Morale—was also an important reason why he could master the Greedy Wolf Howling Moon Array in such a short period of time.

"I finally know what it's like to be a military genius."

Zhou Zhou stretched and thought contentedly.

Of course, apart from the above reasons, this battle array room was also one of the important reasons why he could master the Greedy Wolf Howling Moon Array so quickly.

This military formation duel room could not only create virtual battlefields, virtual allies, and virtual enemies, but it also made him truly feel what it was like to use military formations on the actual battlefield.

He could also point out the various imperfections when he used the military formation at any time and correct them in real time.

This was how he utilized the night.

In the beginning, he spent time comprehending the Greedy Wolf Howling Moon Array on the Greedy Wolf Totem.

He spent the rest of his time on the virtual battlefield.

He had perfectly grasped the usage of the Greedy Wolf Howling Moon Array after more than ten virtual battle array battles in a row.

"In the future, generals who learn military formations can come here to cultivate in seclusion."

"I guarantee that I can master the usage of the military formation in a short period of time."

Zhou Zhou thought.

Then, he waved his right hand casually. The Greedy Wolf Totem that was placed not far away suddenly flew over and landed in his hand.

Zhou Zhou looked at this Greedy Wolf Totem and could not help but smile.

Now that he could perfectly control the Greedy Wolf Howling Moon Array, he could naturally set up the Greedy Wolf Howling Moon Array without relying on the Greedy Wolf Totem like Bai Yun and Wu Xin.

"It's time to give this Greedy Wolf Howling Moon Array to other generals."

Zhou Zhou stood up and walked out of the battle room, walking out of the Beginner-Grade Lord's Paradise.

Zhou Zhou opened the World Channel on his way.

A large number of Lords were still discussing and chatting enthusiastically on the World Channel even though it was only three in the morning.

Zhou Zhou glanced at it.

He realized that most of them were talking about today's events in The Final Battlefield.

[Today is the last day of The Final Battlefield. I wonder how many ranking points I can get today.]

[Big shot above, are you still in the Final Battlefield? I couldn't move at night and I'm afraid that I'll be crushed into pieces by the terrifying Violent Storm the next day, so I didn't dare to go the next day.]

[Me too. I'm really scared. The Final Battlefield is not a place that ordinary Lords can be in.]

[Today is the last day of the Final Battlefield. I'm afraid there will be a fierce battle on the battlefield today.]

[It's useless. My Alliance Master is invincible!]

[That's right. Our leader of the Blazing Sun Alliance has obtained first place on the rankings of The Final Battlefield. Moreover, there's already a considerable gap between him and the True Lord in second place. The chances of the other party catching up and surpassing him are not high.]

[Big Boss Blazing Sun is fierce, but you can't make a judgment so easily until the end. I feel that those top Lords of the myriad races are going to exert their strength today. Your Alliance Master might not be able to keep the first place.]

[Can Big Boss Blazing Sun really get first place?]

[Previous poster, are the True Lord, Great One Lord, and Heaven Chasing Lords useless? Do you know how terrifying the power of civilization of the top Lords of the myriad races is?]

[How can a civilization that has been around for thousands of years compare to a civilization that has been around for tens of thousands of years? It's a good thing to be confident about our races, but you can't be arrogant.]

[I don't care. I will support Big Boss Blazing Sun unconditionally at this moment as a human from the Cerulean Planet, even if we are to be enemies one day in the future!]

[That's right! Big Boss Blazing Sun, charge!]

[Best of luck, Alliance Master!]

[The other Lords who are still in The Final Battlefield can't admit defeat easily either!]

...

Zhou Zhou looked at what the Lords said for a while and stopped looking.

At this moment, he suddenly felt something and turned to look in the direction of Luo Sheng and Wu Tu's residence.

"What a coincidence?"

"These two people actually woke up at the same time?"

Zhou Zhou did not hesitate and stood up to walk towards them.
