### **[Global Lord: 100% Drop Rate](#)**

#### **Chapter 501: Reduced Number Of Human Lords On Cerulean Planet! Gains From The Marketplace!**

Zhou Zhou was very satisfied.

There were more than 2.9 million soldiers!

He was confident that he could easily defeat the Tahan Kingdom at its peak with this army even without relying on the Star Alliance!

Not to mention the current Tahan Kingdom.

"Call a King Of Yellow Gold soldier over."

"Also... Inform the Lords of the Star Alliance to gather in an hour with enough soldiers!"

"Tell them that there's a big battle to fight!"

Zhou Zhou said in a low voice.

"Yes, my Lord!"

Bai Yun said respectfully.

She did not leave immediately.

"My Lord. In the morning, 11 Professionals with very high professional levels came to our Blazing Sun Territory and said that they wanted to join our territory when you were busy."

"Vice City Lord Zheng has already approved their request at this moment. They are already official Subjects of our Blazing Sun Territory."

"Do you want to see him?"

Zhou Zhou was stunned for a moment before reacting. His eyes lit up.

11 Professionals with very high professional levels?

Are they the 10 talents attracted by his Reputation Rating and one Mythical Reputation Rating talent that were rewarded by the Lord of All Races' Announcement yesterday?

"Let them come over!"

Zhou Zhou immediately said.

"Yes, my Lord!"

Bai Yun said respectfully.

Then, he turned around and left.

Zhou Zhou took this opportunity to open the World Channel and take a rough look.

[Brothers, the Myriad Races Lord Battlefield event has finally ended. What reward did you obtain? Hehe, I'm at the Yellow Gold-Tier Elementary Grade. I obtained 400,000 units of basic resources and five Yellow Gold-Tier Combat Professionals.]

[I'm envious. I stopped fighting when I reached the Green Bronze-Tier Elementary Grade. I only obtained 400 units of basic resources and one Green Bronze-Tier Elementary Grade Combat Professionals. What trash.]

[Who can I blame if I'm not strong enough?]

[Dragon Lady Lord: I reached the Extraordinary-Tier Advance Grade in this Lord Battlefield. I was rewarded with 1.6 billion units of basic resources, 200 million units of Intermediate Grade resources, 1,000 Basic Elemental Gems, and 100 Diamond-Tier Advance Grade Combat Professionals.]

[Take off!]

[Amazing, amazing, amazing!]

[You're at the Extraordinary-Tier. Why aren't you rewarded with Extraordinary-Tier Professionals? Only Diamond-Tier ones.]

[It's not bad to have obtained Diamond-Tier Professionals at this stage. Do you think Extraordinary-Tier Professionals are cabbages? You can be given just because you want them.]

[That's right. As far as I know, Extraordinary-Tier Professionals, be it Lifestyle Professionals or Combat Professionals, are top existences in the Kingdom-level Lord faction. We're only the Lords of the myriad races under the kingdom. How can we have Extraordinary-Tier Professionals? Diamond-Tier Professionals are already top-notch.]

[Have you heard? It's said that there's a Lord Talent among our human Lords. He said that after the end of the Myriad Races Lord Battlefield this time, our Cerulean Planet's human Lords lost nearly one billion. We should only have about four billion Lords left.]

[F\*ck, is that true?!]

[Of course it's true. That Counting Emperor's Lord Talent is Extraordinary-Tier. If you don't believe him, don't you believe in the Lord Talent of the Supreme Will?]

[Sigh, there are fewer and fewer Lords on the Cerulean Planet. I hope I can survive until the end, even if I don't have to live as a Lord.]

[As long as he's alive!]

[As long as he's alive +1!]

[As long as you're alive +10,086!]

...

"There are only about four billion Lords left on the Cerulean Planet?"

Zhou Zhou could not help but fall silent when he saw their discussion.

When they first arrived in this High Continent, there were more than eight billion Cerulean Planet Lords.

Now, they had lost half of the Cerulean Planet Lords just by passing the [Novice Lord test] and [Myriad Races Lord Battlefield].

Then what should he do about the [King of Ten Thousand Kings] event in three days?

What about the activities after the King of Ten Thousand Kings?

Zhou Zhou thought for a while and could not help but take a deep breath.

He could not protect all the Lords of the Cerulean Planet.

What he could do was so that he could only develop himself well. In the future, he might be able to rely on his strength to obtain more Race divine artifacts. This way, he could indirectly help his Lords.

As for the rest, he was helpless.

Then, he looked at the Lord function of the [Myriad Races Lord Battlefield].

Then, he realized that the function of the Myriad Races Lord Battlefield that had been maintained yesterday had already ended.

Zhou Zhou opened it curiously and realized that the Myriad Races Lord Battlefield had changed from a real battlefield to a virtual battlefield.

The Lords or Lord generals could bring soldiers into the [Myriad Races Lord Battlefield] or [Lord Battlefield of Your Race] to compete.

However, unlike the real battlefield in the past, once a Lord brought soldiers into the Lord Battlefield, there would be real casualties.

Unless the Lord had the Resurrection Token and the Territory Rebirth Token, the dead soldiers would really be dead.

It was different now.

In the current Myriad Races Lord Battlefield, even if injuries and deaths happened on the battlefield, it would only be virtual after the Lords brought the soldiers into the matching or ranking. As long as they returned to the real world, everything would return to normal.

This was almost equivalent to the Lords leading the soldiers to play a virtual battlefield game.

The risk could be said to have decreased greatly!

Moreover, the Supreme Will no longer had any rank requirements for the Lords.

The Lords of all races could reach any level in the function of the Myriad Races Lord Battlefield.

The rank had already become a pure honorary title!

There was no combat strength enhancement effect!

In the future, even if the Lords increased their ranks on the Myriad Races Lord Battlefield,

Their upgraded titles no longer had any special effects.

Only the rank title he had obtained from the event would still have the combat strength enhancement effect.

Thinking of this, Zhou Zhou suddenly felt lucky.

Fortunately, he had already reached the level of [Strongest Lord] and [Strongest Lord of All Races] in the Lord Battlefield of All Races in the first three days!

Otherwise, if he did not obtain these two titles, then even if he occasionally obtained the title of the strongest Lord in the Lord Battlefield of All Races in the future, this title would probably be useless.

In the future, when he faced other Lords with the title of a high-level Lord, he would be suppressed by their higher-level titles for the rest of his life!

And now, he would always rely on his rank title to suppress Lords of the same race and all races below him!

It was not bad for him even if he could only suppress a portion of their strength.

Advances were always accumulated bit by bit.

"Then this Myriad Races Lord Battlefield can almost be considered a pure training place for our Myriad Races Lord Battlefield."

"When I'm free. We can let the generals bring new soldiers in to train so that they won't be uncomfortable on the battlefield."

Zhou Zhou thought.

Then, he looked at his current rank.

Zhou Zhou heaved a sigh of relief as he realized that after the maintenance of the [Myriad Races Lord Battlefield], he was still first place, or the [Strongest Lord] and the [Strongest Lord of All Races]!

The ranks that the Lords had previously obtained from the event such as the [Lord Battlefield of Your Race] or the [Myriad Races Lord Battlefield] were still intact.

Just as well. He would not have to start fighting again.

At this moment, he opened the Marketplace and checked the Loots from the monster ranch he had sold yesterday and the Loots from The Final Battlefield.

Among them, the 1.5 million soldier type Class Change Certificates and excess Loots produced by the Monster Ranch yesterday morning had been sold for a total of 3,814,208,000 Black Iron-Tier Mist Cores!

As for the extra 30 million skill books and 50 million pieces of equipment he had obtained from the Battlefield of The Final Battlefield last night, he had sold a total of 186,680,203,900 Black Iron-Tier Mist Cores!

A smile appeared on Zhou Zhou's face.

If these two transactions were all converted by the Heavenly Mist Treasure Bag, he would have earned a total of 1,905 Legendary-Tier Mist Cores!

With this money, I should be able to buy any goods I want in the Lord Shop, right?

[Global Lord: 100% Drop Rate](#)

**Chapter 502: Talent With Mythical Reputation Rating! Butcher—Guo Qiao!**

Zhou Zhou suddenly felt a little restless. He wanted to go to the Lord Shop to see what was on sale today.

At this moment, 12 figures walked over from afar.

They were old and young. Their attire and even their race were different, making Zhou Zhou a little surprised.

They arrived in front of Zhou Zhou.

"Greetings my Lord!"

The 12 people said respectfully.

"Are you the Subjects who joined me today?"

Zhou Zhou dismissed the idea of going to the Lord Shop for the time being and asked.

"Yes, my Lord."

"His Lordship's territory is the territory of the Strongest Lord of All Races! Who in the entire High Continent doesn't know?"

"We're just the first lucky ones here."

"In the future, there will definitely be more Professionals coming from all over the High Continent or even the myriad worlds to seek refuge with the Lord."

...

A white-haired old man in the lead smiled.

Even though the old man was old, he was wearing damaged blood-red armor and carrying two blood-colored axes on his back.

His entire body was lean and strong, and his eyes were bloodshot.

Zhou Zhou's gaze landed on the Elder One and he instantly felt a murderous aura that seemed to want to fight the world assaulted his face.

Zhou Zhou's expression turned cold.

This old man was not simple.

"Hmm?"

At this moment, a throbbing suddenly came from the depths of his soul.

This throbbing seemed to tell Zhou Zhou that the old man in front of him was a family member connected by blood with some differences.

This stunned him.

Family? How could a transmigrator like him have relatives in the High Continent?

"And you are?" Zhou Zhou said politely.

"I'm Guo Qiao, nicknamed the Butcher."

"My Lord, just call me Old Guo."

Guo Qiao chuckled.

Zhou Zhou nodded.

At the same time Guo Qiao's attribute information also appeared in front of him.

[Subject: Guo Qiao (Hero Unit)]

[Hero Title: Butcher]

[Position: Low-Tier Deity-level Hero Fate Level]

[Territory: Blazing Sun Territory]

[Strength Level: Diamond-Tier Elementary Grade (Heavily Injured)]

He used slaughtering high-level bloodline existences as his livelihood and forcefully advanced to the Epic-Tier Elementary Grade with his Green Bronze-Tier Elementary Grade potential!

Not long ago, he had personally killed a Low-Tier Deity, but he was also severely injured because of it. His strength had fallen to the Diamond-Tier Elementary Grade. The current Guo Qiao had already bathed in all the divine blood of that God Spirit and used this opportunity to become a hero. His future was already limitless.]

[Loyalty: 100 (Dead loyal)]

[Potential: Green Bronze-Tier Intermediate Grade]

[Hero Biography: 1. He is a Dragon Slayer! Hero's Personal Reputation Rating +10, High Continent Reputation +100! 2. With the body of an Epic-Tier Elementary Grade Dragon Slayer, he killed a Low-Tier

Intermediate Grade God Spirit two levels higher and became a hero with a Low-Tier Deity Level Hero Fate Level slot, causing countless people with noble bloodlines to be shocked and afraid! Hero's personal Reputation Rating +50, High Continent Reputation +1,000!]

Zhou Zhou looked at the old man who was filled with killing intent but had a smile on his face.

He finally came to a realization.

No wonder he had that special feeling with him, he was the wandering Dragon Slayer.

Zhou Zhou naturally did not forget that he still had the White Platinum-Tier Lord Talent—Dragon Slaying Hometown!

He had also obtained the identity of the Dragon Slayer King because of this!

The old man in front of him was already his natural subject when he obtained this talent.

This could be seen from the fact that he was already dead loyal the moment he joined the Blazing Sun Territory.

"Welcome home."

Zhou Zhou looked at him and smiled.

Guo Qiao was still smiling at Zhou Zhou when he heard this, but tears had already quietly appeared in his eyes.

Zhou Zhou did not comfort him. Instead, his gaze landed on the other 10 new Subjects.

Among these 10 new Subjects, there were three people of foreign race and seven humans.

Zhou Zhou had seen their attribute information one by one.

He realized that they were: a White Platinum-Tier Advance Grade Blacksmith, a White Platinum-Tier Advance Grade Tailor, two Diamond-Tier Elementary Grade Musketeers, a Diamond-Tier Intermediate Grade Architect, a Diamond-Tier Advance Grade Merchant, an Extraordinary Elementary Grade Cartographer, an Extraordinary Elementary Grade Army Extermination Knight, and an Extraordinary-Tier Intermediate Grade Beast Tamer!

Zhou Zhou nodded slightly.

They should be talents attracted by his Reputation Rating.

Not to mention anything else.

There were only three Extraordinary-Tier Reputation Rating talents. This ratio was already quite good.

Then...

The Old Dragon Slayer in front of him with the Low-Tier Deity Level Hero Fate Level slot should be his Mythical Reputation Rating talent.

Killing a Low-Tier Deity Intermediate Grade God Spirit as an Epic-Tier Elementary Grade!

Then how terrifying would his combat strength be when he advanced to the Legendary-Tier or even the God-Tier?

This Mythical Reputation Rating talent was well-deserved!

Then, his gaze landed on the last person.

He was wearing Yellow Gold-Tier armor and holding a Yellow Gold-Tier Sword and Yellow Gold-Tier Shield. There were also nine Yellow Gold-Tier spears stuck in his back, making him look majestic.

It was a soldier who had just changed his profession to King Of Yellow Gold!

[Subject: Xu Zheng]

[Territory: Blazing Sun City]

[Soldier type Class Name: King Of Yellow Gold]

[Strength Realm: Extraordinary-Tier Intermediate Grade]

[Ability Overview: Originally a Normal Subject of a human kingdom. Due to his poor family background, he joined a gang when he was young in order to help his family. He has been running around at the bottom level since he was young. Therefore, he knows very well the difficulties of the life of the Subjects at the bottom. His dream is to follow a great Lord and let the Subjects at the bottom obtain their own warmth and stability.]

[Loyalty: 99]

[Potential: Epic-Tier Elementary Grade]

Zhou Zhou looked at his skill list and nodded slightly.

His skill list was very different from the skill list of the King Of Yellow Gold monster he had seen previously. There were many new King Of Yellow Gold soldier type Skills.

However, this was normal.

The King Of Yellow Gold monster he had seen previously was only a Yellow Gold-Tier Advance Grade.

The King Of Yellow Gold soldier in front of him was an Extraordinary-Tier Intermediate Grade.

The King Of Yellow Gold of this realm would naturally have more soldier type exclusive Skills.

After that, Zhou Zhou chatted with them for a while before letting them get busy.

Only Zhou Zhou and Guo Qiao were left at the scene.

"Come with me."

Zhou Zhou said.

Then, he walked towards the Beginner-Grade Lord's Paradise.

Guo Qiao followed closely behind.

Soon, the two of them walked into the Lord's Paradise.

The moment the door closed.

Before Zhou Zhou could turn around, he heard a kneeling sound.

"Dragon Slayer—Guo Qiao!"

"Greetings, my King!"

Zhou Zhou looked at them.

Guo Qiao had already knelt down in front of him. His shoulders were trembling, and tears fell.

It was not sadness, but excitement.

The excitement of returning home and also of seeing his elders!

In this world that regarded the Dragon Slayer as a noble enemy, this was the first time Guo Qiao, who had been wandering alone for most of his life, had seen someone with the same Dragon Slayer Will as him.

Moreover, there were so many Dragon Slayers!

There was also the Dragon Slayer King, whom they regarded as a king!

How could he not be excited?

[Global Lord: 100% Drop Rate](#)

**Chapter 503: New Class Subject—Bloodline Warlock! Zhou Zhou's Sigh!**

"Don't kneel."

"We're all home. You don't have to be so cautious."

Zhou Zhou wanted to help him up.

However, Guo Qiao's body did not move.

"The rites of a king cannot be abandoned!" He said solemnly.

"Fine. Rise." Zhou Zhou said in a commanding voice.

"Yes, my King!" Guo Qiao smiled and stood up.

"How have you been all these years? Did you meet any other Dragon Slayers?" Zhou Zhou asked.

"My King, the Dragon Slayer is the enemy of the noble bloodline of the myriad worlds. Our ancestral teachings tell us that if we want to preserve our bloodline, we can't gather together. Therefore, I haven't encountered a second Dragon Slayer until I came to your territory." Guo Qiao said.

Zhou Zhou nodded.

He sighed in his heart.

That was the fate of the Dragon Slayer.

However, his White Platinum-Tier Lord Talent, Dragon Slaying Hometown, was destined to attract the Dragon Slayer who was wandering in the outside world to gather together.

There was no effect yet.

But in the future, he had a faint premonition that his Dragon Slayer Hometown was probably going to cause something big.

He shook his head and did not think too much about it.

He was the greatest Dragon Slayer leader. What he had to do now was to work hard to develop his Lord faction before revealing his identity as a Dragon Slayer!

When the time comes...

He would deal with whatever came his way!

After that, Zhou Zhou and Guo Qiao chatted for a while more and asked him to join his Blazing Sun Army in the future to fight alongside it.

Towards this, Zhou Zhou had specially instructed him not to expose his identity as the Dragon Slayer unless it was absolutely necessary in the future.

Guo Qiao naturally agreed!

As the enemy of a noble bloodline, the Dragon Slayer, countless top-notch Bloodline Races were clearing out the remaining Dragon Slayers in the High Continent and even the myriad worlds.

He naturally knew how to protect himself since he had survived for so long.

After that, the two of them did not chat much. Zhou Zhou asked Guo Qiao to report to the Blazing Sun Army's base.

As for the arrangements for his future life, there were naturally corresponding people in charge.

Zhou Zhou came to the Gate of Summoning.

[Prompt: Do you want to summon immediately?]

"Yes!"

The Gate of Summoning suddenly lit up with a bright white light. Then, a large number of subjects walked out.

A moment later.

The 1,675 new Subjects walked out of the Gate of Summoning.

"Greetings, my Lord!" x1,675

All the new Subjects said respectfully.

"Welcome to Blazing Sun City."

Zhou Zhou nodded.

Then, he asked all the Professionals to stand up and realized that he had summoned 106 Professionals this time!

There were 31 more Professionals than usual!

Then, he began to check the information of these Professionals Subjects.

Among the 106 Professionals Subjects,

Among them were one White Platinum-Tier Intermediate Grade Bloodline Warlock, one White Platinum-Tier Intermediate Grade ranger, one White Platinum-Tier Intermediate Grade adventurer, one White Platinum-Tier Intermediate Grade Martial Artist, and one White Platinum-Tier Intermediate Grade Mage!

The rest were Life Professionals and Combat Professionals below the Yellow Gold-Tier.

Zhou Zhou looked at the five White Platinum-Tier Intermediate Grade Professionals and was very satisfied.

Now, upgrading his territory already required a certain number of Life Professionals and Combat Professionals.

For example, if his territory wanted to advance to the White Platinum-Tier Advance Grade, he needed 20 White Platinum-Tier Lifestyle Professionals and 300 White Platinum-Tier Military Professionals!

The latter was naturally simple with the Blessing of the War God.

However, he did not have the enhancement of a Lord Talent like the Blessing of the War God when it came to Lifestyle Professionals. Therefore, there were far fewer Lifestyle Professionals in his territory than Military Professionals.

Fortunately, he had the enhancement of many titles now, making him famous. Therefore, there were many high-level Life Professionals among the refugees he spontaneously absorbed every day.

Coupled with the White Silver-Tier Lord Talent—Embrace of the Conqueror, the addition of talents with Reputation Rating, and the Essential Prescriptions Worth a Thousand Gold for Emergencies, the professional levels of many Physician-related Professionals increased very quickly.

Therefore, with the current number of Professionals in Zhou Zhou's territory, it was not a problem to advance to the Diamond-Tier.

Then, he called over the Bloodline Warlocks among the five Professionals.

This person was tall and thin with a Western face. His eyes were as bright as an eagle's and he had an aquiline nose.

Zhou Zhou looked at his Stats information.

[Subject: Brough Roderick]

[Territory: Blazing Sun City]

[Combat Class Name: Bloodline Warlock (Dark Fire Demon Eagle)]

[Profession Class: White Platinum-Tier Intermediate Grade]

[Ability Overview: An ordinary Bloodline Warlock with an Abyssal Bloodline—Dark Fire Demon Eagle. It is good at using Dark spells and Fire spells. It is born able to fly and can also become invisible during flight.]

[Skills: Talent - Dark Fire Demon Eagle Bloodline, Talent - Eagle Eye, Talent - Fire Elemental Control, Talent - Dark Elemental Control, Talent - Flying, Talent - Invisibility, Talent - Fire Pillar Technique, Talent - Spirit Terrorize, Talent - Super Reaction, Talent - Fear Shrieking...]

[Loyalty: 82]

[Potential: Extraordinary-Tier Advance Grade]

...

Zhou Zhou looked at this guy's skill list in a daze.

Good God!

There were no Skills, all talents!

Was this a Bloodline Warlock?

Not long ago, he thought that talent was a privilege that only a small number of life forms had.

However, he now understood what it meant by the world was so big that there were all kinds of strange things.

He was too narrow-minded.

So there was such a profession that focused on talent in this world.

Therefore, he did not say much.

He directly handed these new subjects to the staff to arrange. These staff would naturally arrange the most suitable place for these new Subjects to stay.

Then, he came to the Lord Shop.

In this shop.

Old Zhou was sitting in front of a television with a controller in his hand. There was a game console in front of him, and the television screen displayed a game called Ninja Hun Douluo.

Zhou Chengmin was playing enthusiastically. He threw darts one after another to destroy the alien monsters.

"Old Zhou."

"Old Zhou?"

Zhou Zhou knocked on the counter twice before Old Zhou came back to his senses.

"Hehe, I'm sorry, I was too engrossed."

Zhou Chengmin smiled.

Zhou Zhou did not mind. He had played this game when he was young and felt that it was much more fun than the original "Twilight Douluo" that only knew how to shoot.

Moreover, this Old Zhou's strange behavior was already quite immune, so he did not show any strange expressions when he saw this scene.

"What's new today?"

Zhou Zhou asked.

Old Zhou pressed the pause button and walked to the counter. He took out the three golden boxes under the counter and opened them one by one.

Zhou Zhou looked at them.

[\*\*Global Lord: 100% Drop Rate\*\*](#)

**Chapter 504: Goods From The Lord Shop**

The first box contained a Purple Talent Crystal.

Zhou Zhou looked at it and a text notification appeared.

[Talent: Thunder Immunity]

[Talent Effect: When lightning-elemental attacks below the Low-Tier Deity Level land on you, you will not suffer any damage.]

The introduction of the Talent Effect was simple.

However, its effect was extraordinary.

One had to know that the Thunder Element was definitely the most aggressive element. Moreover, it had a very strong ability to cause damage to the body and soul.

It was also because of this that many experts were flocking to Thunder-element Skills, wanting to master a few Thunder-element attack Skills.

If he bought it and mastered this talent, he would not have to worry about the other party's Thunder Element attack hurting him in front of enemies below the God-Tier.

Zhou Zhou immediately decided to buy this skill.

"This talent is one of the talents of the Original Spirit Race's Ansel."

"What a pity."

"If I obtain 'His' talent—the World Lord or the Original Spirit—my bloodline talent will probably catch up to the orthodox Original Spirit Race."

"If that doesn't work, the God of Thunder or the God of Dark Clouds will do too."

"There will be two more smooth paths to becoming a God."

Zhou Zhou thought greedily.

Then, he smiled and felt that he was a little too greedy.

Talent—Thunder Immunity was actually top-grade.

Then, he looked at the second box.

The second item was a skill book.

Zhou Zhou looked at it.

He realized that it was another Hero Skill Book.

Moreover, it was the hero skill of the Ghost God General—Ghost God Military Morale!

Zhou Zhou clicked his tongue in wonder.

Previously, he had obtained Wu Xin's hero skill, Desired Military Morale, from the Lord Shop. Now, he had actually obtained Luo Sheng's hero skill, Ghost God Military Morale.

After he bought this good, he would have two hero skills in terms of morale.

When the time comes...

He would have no one better than him in terms of military control!

Zhou Zhou decided to buy this good. Then, he looked at the third good.

The third item was nothing much for Chen.

It was just an Alchemy Technology - Mechanostrider (White Silver-Tier Elementary Grade) Alchemy Technology skill book.

Zhou Zhou was not too disappointed.

The first two goods were already very good after all. There was no need to bother about the third one.

"How many Mist Cores for all three?" Zhou Zhou asked.

"The Talent - Thunder Immunity is worth 50 Legendary-Tier Mist Cores and 10 Legendary-Tier Territory Tokens."

"The Hero Skill—Ghost God Military Morale is worth 50 Epic-Tier Mist Cores and five Epic-Tier Territory Tokens."

"The White Silver-Tier Elementary Grade Alchemy Technology—Mechanostrider is worth 20 White Silver-Tier Mist Cores and two White Silver-Tier Territory Tokens." Zhou Chengmin said.

Zhou Zhou raised his eyebrows.

"So expensive?" He could not help but ask.

Among the goods in the Lord Shop, this talent— Thunder Immunity—was the most expensive.

"This Thunder Immunity talent can be considered a Low-Tier Deity Level talent in terms of its grade. It's not expensive." Zhou Chengmin shook his head.

Zhou Zhou stopped talking.

Ansel was really a God Spirit that had yet to grow.

Without saying anything else, he took out 60 Legendary-Tier Mist Cores, 55 Epic-Tier Mist Cores, and 22 White Silver-Tier Mist Cores from the Heavenly Mist Treasure Bag and handed them to the other party.

"Thank you for your business." Zhou Chengmin accepted them with a smile.

"I hope that you have something good next time, I'm not lacking in Mist Cores now."

Zhou Zhou did not leave immediately.

He had just obtained more than 1,900 Legendary-Tier Mist Cores from the Marketplace. He really was not lacking in Mist Cores now, what he lacked were excellent Lord Shop goods.

"Okay. I'll see if I can get something good tomorrow." Zhou Chengmin was stunned for a moment before smiling.

Zhou Zhou was taken aback too, it was just something that he had said casually.

He did not expect anything really good to come out tomorrow nor for the boss of the Lord Shop to answer in this way.

Wasn't the goods that appeared in the Lord Shop random? Could he really control the production of goods?

Zhou Zhou did not hold back this question in his heart. Instead, he asked him directly.

However, Zhou Chengmin only laughed and did not answer this question.

Zhou Zhou had no choice but to leave.

"My Lord, come and play games with me when you're free."

"I have a lot of gaming discs here. There are Crimson Army, Bomb Excellence, Street Fist, and other classic games."

"You might get lucky playing games."

Zhou Chengmin's voice suddenly came from behind.

Zhou Zhou nodded thoughtfully.

...

"Could Old Zhou be hinting at me? The Lord Shop will have something good on sale tomorrow as long as I play with him?"

Zhou Zhou thought about what Zhou Chengmin had just said as he walked towards the Imperial Ancestral Temple.

After a while, he made a decision.

"There's no loss. I'll play with him when I get back today. I'll think of it as reliving my childhood." Zhou Zhou thought.

Soon, he came to the Imperial Ancestral Temple and entered the main hall.

Zhou Zhou looked at the three Ancestor Statues in front of him before his gaze landed on the Ancestral Altar.

Previously, he would come to the Imperial Ancestral Temple every day before going out to fight and obtain an Ancestral Blessing through the altar.

However, the Ancestral Statues at that time were all White Silver-Tier and Yellow Gold-Tier. Even though the corresponding Ancestral Blessing was not bad, it was not too awesome and exciting.

"Sun Simiao's Ancestor Statue has already reached the Legendary-Tier."

"Then will you give me the Legendary-Tier Ancestral Blessing if I use it again?"

Zhou Zhou was filled with anticipation.

Then, his gaze landed on the altar again.

A text notification appeared.

[Ancestral Altar: Offer 10 sacrifices with value not lower than Legendary-Tier Mist Cores to the ancestor before a war and you will obtain the Ancestral Blessing. You will obtain a random temporary war enhancement effect!]

[Prompt One: The higher the level of the Cerulean Planet's Ancestor Statue, the higher the value of the offering and the stronger the Ancestral Blessing effect obtained.]

[Prompt Two: The Lord can only have one type of Ancestral Blessing at any one time.]

The corners of Zhou Zhou's mouth twitched.

Good God!

He already began to need offerings worth 10 Legendary-Tier Mist Cores!

If this was another Lord, they might not even be able to afford this.

Fortunately, he could afford it.

He did not think too much about it and took out 10 Legendary-Tier Mist Cores and placed them on the altar.

A text notification appeared.

[You have obtained an Ancestral Blessing: Imperial Preceptor (Legendary-Tier War Enhancement)!]

[State Preceptor (Legendary-Tier War Enhancement): In the next 24 hours, the Class Level of the 10 Physician-related Professionals under your command will temporarily increase to Legendary-Tier Elementary Grade. After 24 hours, the Class Level of Physician-related Professionals will return to normal.]

Zhou Zhou's eyes widened.

F\*ck!

Wasn't this Legendary-Tier War Enhancement too awesome and exciting?

He directly gave them to 10 Legendary-Tier Elementary Grade doctors!

This could be considered a cheat-like existence on the battlefield at his level!

Even though it only lasted for 24 hours, these 24 hours of Legendary-Tier Professionals experience would definitely benefit those 10 people greatly. They would definitely be able to improve rapidly on their professional path in the future!

These 10 Legendary-Tier Mist Cores had not been spent in vain.

The level of Sun Simiao's Ancestor Statue had not increased in vain.

Zhou Zhou felt very happy.

...

A moment later.

In a vast empty space outside Blazing Sun City.

Nearly nine million soldiers were gathered here.

Among these soldiers, there were humans, all kinds of fog monsters, and even many dragons that covered the sky!

The Spiritual Medicine Lord, the Fertile Land Lord, the Gold Merchant Lord, the Paper Immortal Lord, and the other Lords of the Star Alliance were all excited when they saw such a huge army.

"What can we not attain with so many soldiers?!"

"That's a little exaggerated, but I do feel at ease with so many soldiers around, haha..."

"I've never felt so safe!"

"Fight, fight, fight! With so many soldiers, it's a waste of talent not to fight!"

"Haha, what's the hurry? Didn't the Lord ask us to come because he said that there's a big battle waiting for us?"

"I've never been so eager to go to the battlefield."

...

The Lords discussed animatedly, and ambition burned in their eyes.

It was hard to imagine.

Three days ago.

They were just a group of Lords who could not even protect themselves.

At this moment, a figure flew over from afar and finally floated in the sky above the nearly nine million troops.

It was none other than Zhou Zhou!

"Alliance Master!"

"Alliance Master!"

"Alliance Master!"

"Alliance Master!"

...

No one knew who started it.

Soon, more than 5.9 million soldiers under the Lord of the Star Alliance roared.

The voice was really earth-shattering. Even Zhou Zhou, who had just arrived, could not help but be stunned. Then, a smile appeared on his face.

He pressed his hands in the air and activated his hero skills—Desired Military Morale and Ghost God Military Morale at the same time. The shouts of all the soldiers subsided in less than two seconds.

This scene stunned Bai Yun, Wu Xin, Feng Luo, the other generals of Blazing Sun City, and the Lords of the Star Alliance.

**Chapter 505: The Mechanical Father—Zhou Zhou's Avatar!**

"This..."

Bai Yun, Wu Xin, Luo Sheng, and the other Blazing Sun City generals looked at Zhou Zhou floating in the sky in a daze.

"My Lord has already surpassed us in terms of the control of military morale."

Wu Xin smiled and said after some time. Bai Yun and Luo Sheng, the two generals who had also mastered hero skills, nodded in agreement.

The former had mastered the hero skill, Desired Military Morale, through learning under Wu Xin's guidance.

The latter was because he had inherited the Ghost God General Hero Inheritance and automatically mastered the hero skill, Ghost God Military Morale.

Even though they and Wu Xin could do similar things, they could only crowd control a million troops at most!

They would never be able to control the morale of nearly nine million troops like Zhou Zhou with a single order.

Thinking about how their Lord had mastered the Greedy Wolf Howling Moon Array and its strongest military formation skill, the Moon Fall, in one night not long ago, they immediately felt that their Lord probably had extraordinary talent in controlling the army!

Thinking of this, they smiled even more brightly.

It was naturally a good thing for Generals like them that their Lord had such talent.

At the same time...

In the sky.

Zhou Zhou could not help but look satisfied when he saw the soldiers below immediately quiet down in less than two seconds.

The effect of the two Military Hero Skills was indeed extraordinary!

"It's a pity that the Greedy Wolf Howling Moon Array has an upper limit."

"Otherwise, if I can get these nine million soldiers and generals to set up the array and transform into Greedy Wolf Avatars, I'm afraid that there would be no battle even if a God Spirit descends, right?"

Zhou Zhou thought to himself.

As for the talent— Thunder Immunity, he had naturally used it. He had also handed the White Silver-Tier Elementary Grade Mechanostrider Alchemy Technology blueprint to Zheng Yuanqi and asked him to hand it to the Alchemy Technician of the Gnome Alchemy Workshop to use.

And now, his soldiers' flying tools were already mainly the Starry Night and Black Ghost.

However, this did not mean that the previous mechanostrider was useless.

As an Alchemy Technology means of transportation that could fly in the sky and travel on land, Zhou Zhou had already instructed Zheng Yuanqi to convert them into civilian Alchemy Technology.

With such convenient civilian tools, it would definitely be more convenient for the subjects of the Blazing Sun Territory to travel and do business in the future.

Zhou Zhou also planned to turn a portion of the Black Ghost and Starry Night into civilian transportation after they became popular on a large scale in the future.

When the time comes...

Realizing "air transportation" of the Cerulean Planet on the High Continent would no longer be a dream.

He stopped thinking about it and his gaze landed on the nearly nine million soldiers below again.

"Today our target is the Crimson Kingdom near the Blazing Sun Territory!"

"Our goal is simple: destroy and replace them to build a kingdom that belongs to us!"

"Are you fearful?!"

He looked at the nine million soldiers below and shouted loudly. Under the spread of the chaotic Origin Energy in his body, his voice resounded in the ears of every soldier.

"No Fear!!!"

"No Fear!!!"

"No Fear!!!"

...

The nine million soldiers roared in unison. Everyone had a surging fighting spirit. Even the Lords of the Star Alliance were stimulated by the roars of the nine million soldiers. It was as if they could defeat any enemy in front of them.

"Okay!"

"Follow me to the spaceships!"

Zhou Zhou did not waste his breath and was the first to fly into the Starry Night in the sky.

After a night of researching the technological blueprints dropped by Lord Father and the expansion of the spaceship factory, Wen Ya's efficiency in making spaceships had clearly increased greatly.

Two Starry Nights and three Black Ghosts were made within the night.

He now had a total of 13 Star Nights and four Black Ghosts under his command.

With so many spaceships around, it was not a problem to accommodate 17 million soldiers, let alone nine million soldiers.

Of course, it would not work if it exceeded 17 million.

Soon, these approximately nine million soldiers, a large number of doctors, clergymen, and other war logistics personnel boarded the spaceship and flew towards the Tahan Kingdom.

In front of the city gate of Blazing Sun City.

Li Ya, who had already walked out of the Beginner-Grade Lord's Paradise, looked at the departing spaceship column in a daze.

She could not help but recall the conversation between Zhou Zhou and her.

"Zhou Zhou, why don't you look for my father? Wouldn't you be more confident in crusading against the Tahan Kingdom after accepting my father's Aurora Kingdom?"

"Haha, it's better to build my kingdom with my own hands."

"As for Father-in-law's Aurora Kingdom, it won't be too late to take it over after I conquer the Tahan Kingdom and establish my own kingdom."

...

"Father, neither of us would have thought that the Lords of all races whom we only wanted to invest in back then would grow to the extent that he is confident of conquering the Tahan Kingdom easily, right?" Li Ya muttered in her heart.

The smile on her face became even brighter.

...

In the spaceship.

Zhou Zhou sat on the main seat in the captain's cabin and looked at the map in his hand.

This map was the map of the Tahan Kingdom!

There were a total of 54 regional territories in the entire Tahan Kingdom!

Previously, he had already conquered Dark Night Town, Red Wasp Town, Kingdom Beginning City, and other six regional territories. There were still 48 regional territories left!

Among them, there was one Extraordinary-Tier regional territory, three Diamond-Tier regional territories, 10 White Platinum-Tier regional territories, 20 Yellow Gold-Tier regional territories, and 14 Green Bronze-Tier regional territories!

"As long as I can take all these regional territories."

"Not only is there hope of upgrading the territory, the 30 regional territories needed to build a kingdom can also be easily completed."

Zhou Zhou had a faint smile on his face.

Previously, in order to increase the level of the Blazing Sun Territory's regional territories, he had fused most of the regional territories he had conquered.

And now, there were only two or three regional territories under his command that had yet to be fused.

Fortunately, as long as he conquered the regional territories on the Tahan Kingdom's side, he could also satisfy the number of regional territories needed to build a kingdom.

"Wen Ya."

"Let's go to this White Platinum-Tier regional territory, Blood Channel City, first to take a look."

Zhou Zhou said.

"Yes, my Lord!"

Wen Ya's voice sounded before falling silent.

Zhou Zhou gave it a thought and

a seven-colored light flew out of his glabella and turned into a silver-robed Zhou Zhou after landing on the ground.

It was the Ultimate Lord—Zhou Zhou!

The current Ultimate Lord—Zhou Zhou—was very different from yesterday.

This was because his body was currently emitting an astonishing hero pressure!

Zhou Zhou felt the pressure on the other party and smiled.

He looked at him and a text notification appeared.

**Chapter 506: Conquer! Conquer!**

"Impressive."

"Not only did he use that Hero Inheritance Secret Manual, but he also mastered all of Lord Father's Mechanical Technological Skills in just one night."

Zhou Zhou praised.

"I have the Ultimate Algorithm and control all the computing power of 32,104 Machina race soldiers. I'm very intelligent to begin with. It's not difficult for me to master them in one night."

"What I need the most now is to increase my strength level."

The Ultimate Lord—Zhou Zhou said.

With the Ultimate Algorithm, he could be said to be an absolute technology genius!

With the computing power he controlled, he could basically master technology theories below the Extraordinary-Tier at a glance.

If his strength could increase, he could control more computing power and increase his strength faster and better to create more technological inventions.

"Increase your strength level?"

"Then have you done your Grand Unified Core Energy?"

Zhou Zhou asked.

The Ultimate Lord—Zhou Zhou looked up and said, "Wen Ya? Is it done?"

"It's done."

"A total of 50,000 Grand Unified Core Energy Crystals. They are all in the warehouse now." Wen Ya trailed off.

"Install them for the Machina race soldiers immediately."

The Ultimate Lord, Zhou Zhou, said.

Wen Ya did not speak immediately.

"Do as he says."

"In the future, his orders are equivalent to mine. Wen Ya, you can obey them."

The main body, Zhou Zhou, said.

The Ultimate Lord—Zhou Zhou was his Talent Avatar. Their minds were connected, so Zhou Zhou naturally did not have to worry that the Ultimate Lord would harm him.

"Yes, my Lord."

"I'll start installing it now." Wen Ya replied.

"Wen Ya. How's the Machina race blueprints I gave you?" Zhou Zhou asked again.

"I've already begun to build the corresponding technology manufacturing factories in the territory. From the looks of it, we can start producing various Mechanical Technological Skill products tomorrow." Wen Ya trailed off.

Zhou Zhou nodded in satisfaction.

If he could digest Lord Father's series of technological products, the strength and development potential of his territory would definitely increase greatly again.

More than a minute later, the 17 spaceships flew into the territory of the Tahan Kingdom.

...

Tahan Kingdom.

Zhou Zhou, Bai Yun, Wu Xin, Feng Luo, Luo Sheng, Xu An, and the other Blazing Sun Territory generals, as well as the 312 Lords of the Star Alliance, were looking at the virtual screen in the middle of the conference room through a virtual video conference.

On the virtual screen, a quiet city surrounded by blood-colored city walls stood here.

It was the White Platinum-Tier regional territory, Blood Channel City!

It looked lifeless

He could not even see many fog monsters at a glance.

"Wu Tu, how many fog monsters are there in Blood Channel City?"

Zhou Zhou asked.

As soon as he finished speaking,

Wu Tu, who was sitting on his right and wearing silver bow general light armor, quickly stood up.

"Reporting to my Lord, according to the information of the Heavenly Army, at this moment, there are only about 200,000 fog monsters left in Blood Channel City."

"There are only about 10,000 fog monster soldiers amongst them. The rest are civilian fog monsters that have almost no combat strength." Wu Tu said with a dark expression.

Everyone nodded thoughtfully.

"It's just as the information said, most of the soldiers of the Tahan Kingdom have gone to support that country's war that concerns the fate of the country."

"Otherwise, there would definitely not be only so many fog monster soldiers in such a huge White Platinum-Tier Scarlet City." Bai Yun said.

"The Scarlet King of the Tahan Kingdom has already given up on these cities. It wants to defeat the Titan Kingdom first."

"As for these cities... It's of no concern to them for now." A monster general of the Monster Army said with a smile.

Everyone agreed.

"If that's the case. We don't have to be polite! Conquer these uninvolved cities as quickly as possible." Zhou Zhou said in a low voice.

"I'll bring 200,000 soldiers."

"This amount of enemy."

"My Greedy Wolf Avatar can slaughter this city in a few rounds."

The Ghost God General—Luo Sheng said.

"Go on."

"Use the Machina race's soldiers among your 200,000 soldiers."

"Also..."

"The Lords of the Star Alliance will send one person to follow the army to instigate Incite Defection and weaken the enemy according to the level of war contributions they have accumulated previously." Zhou Zhou said.

Even though his Incite Defection had been refreshed today, he would naturally not use them on these small fries.

He would leave them to his Alliance Lords.

"Yes, my Lord!"

Luo Sheng stood up and accepted the order. Then, he carried his gun and left.

After a while, a Divine Wolf with starlight on its body landed in Blood Channel City and began to wreak havoc on the fog monsters.

At the same time, a Lord member of the Star Alliance who was chosen successfully Incite Defection during this process and brought back nearly 20,000 Fog Monster Subjects.

"My Lord."

"When are we going to fight?"

When the Lords of the Star Alliance saw this, they could not help but ask.

The weapons of more than 5.9 million soldiers under their command were already unbearably hungry.

"Don't be anxious."

"It's just a small fight now. You don't have to do anything."

"There will be a chance for you to attack." Zhou Zhou said.

When the Lords heard this, they quietened down, looking forward to it.

Five minutes later, the Blood Channel City had already turned into a sea of blood. There were no longer any living fog monsters.

Zhou Zhou nodded slightly.

At this rate, he might really be able to conquer all the regional territories of the Tahan Kingdom in one day!

He looked at the Ultimate Lord—Zhou Zhou, who was sitting beside him. His attribute information appeared in front of him.

Then, his eyes lit up.

This was because he realized that the Ultimate Lord—Zhou Zhou's strength realm had already increased to the Green Bronze-Tier Intermediate Grade!

Not bad, not bad.

At this rate, perhaps today, the Ultimate Lord—Zhou Zhou's strength would increase to Yellow Gold-Tier.

This was much faster than the time he needed to advance back then.

The Grand Unified Core Energy was indeed a top-grade technology that could quickly increase one's strength.

Unfortunately, it could only be used on the Machina race and not life forms. Otherwise, it would be perfect.

10 minutes later.

Zhou Zhou and the others flew to the next regional territory of the Tahan Kingdom with all the Loots from Blood Channel City.

...

In the next four hours.

Zhou Zhou and the others continued to fight and quickly conquered the remaining regional territories of the Tahan Kingdom to the extent that there was only one Extraordinary-Tier regional territory and two Diamond-Tier regional territories left.

The place where the three regional territories joined together was the capital of the Tahan Kingdom. It was also the current battlefield between the Monster Army of the Tahan Kingdom and the Titan Kingdom!

"Wen Ya, let's go!"

"Head to the capital of the Tahan Kingdom!"

Zhou Zhou said in a low voice.

"Yes, my Lord!"

Wen Ya said respectfully.

Whoosh! Whoosh! Whoosh! Whoosh! Whoosh! Whoosh! Whoosh...

17 spaceships quickly flew towards the capital of the Tahan Kingdom!

[Global Lord: 100% Drop Rate](#)

### **Chapter 507: Attacking The Tahan Kingdom!**

Tahan Kingdom.

Diamond-Tier regional territory—Left Guardian City.

This was a scarlet city that guarded the capital of the Tahan Kingdom. In the past, millions of civilian fog monsters lived here. Hundreds of thousands of Extraordinary-Tier fog soldiers were stationed there.

However, at this moment, this place had already become a pile of ruins.

More than two million fog monsters were fighting. Their roars shook the sky, and the battle was tragic. It was not an exaggeration to call it a river of blood.

Everyone from the Blazing Sun Territory, who was hidden in the 17 spaceships, saw the scene clearly.

"This is the main battlefield where the armies of the two kingdoms are fighting."

"Such a fierce fight, but it's only so-so. There are only more than two million monster soldiers. How can they compare to our nearly nine million soldiers?"

"Yes, if we go down and fight now, we will definitely win!"

"Is that the Titan Race of the Titan Kingdom? Their bodies are indeed terrifying, just like monsters."

...

The Lord members discussed spiritedly. Even though they were a little shocked by the Titans' physical talent, they still had absolute confidence in themselves.

Zhou Zhou also looked at the Titan Clan fighting crazily on the battlefield.

This was the first time he had seen the Titan Race.

There were about 1.3 million Titans, and each Titan was generally more than 20 meters tall.

There were also Titans that were 30 to 40 meters tall, but there were not many of them.

They were completely grayish-white and were wearing ancient and rough huge armor. The weapons in their hands were also crude and easy to use strength-type weapons like stone axes, iron staffs, bronze maces...

The way they fought the Fog Monster Army of the Tahan Kingdom was extremely easy. They charged into their soldiers and used their advantage in size, thick skin, and strength to brandish their weapons to wreak havoc among their soldiers.

The method was simple and crude, but it was surprisingly useful and he killed them quickly.

However, the Fog Monster Army of the Tahan Kingdom was not to be trifled with.

Even though most of them were inferior to the Titans in terms of physical strength, their combat strength was also very high, and they had endless methods.

He could not defeat them in close combat.

At most, he would use long-range skills to fight.

This made the situation on the battlefield seem to be in a deadlock.

"Alliance Master, can I record it?"

Some Lord members could not help but ask.

He really wanted to record such a big scene.

"Yes, but don't spread it to outsiders. Just within our Alliance."

Zhou Zhou thought for a moment and agreed.

This was the first time he had launched a frontal attack on a kingdom, and it was also his experience establishing the number one kingdom of the human race on the Cerulean Planet.

It had memorable value.

"Okay! I promise it will not spread to outside people!"

The Lord who made this promise immediately became excited and activated the recording function of the World Channel.

The other Lords followed suit and hurriedly began to record.

This was also an extremely memorable experience for them.

Zhou Zhou's expression was a little strange when he saw this.

This scene looked like an internet celebrity filming a video.

"Wen Ya. Did you notice where the Nether Bark Kingdom's army is?" Zhou Zhou observed the situation below for a while and asked.

"Not at the moment." Wen Ya trailed off.

Zhou Zhou frowned.

The Starry Night had Diamond-Tier Advance Grade life detection and anti-reconnaissance radar.

Even this reconnaissance device could not detect the location of the other party's army. Either the other party's method of obscurity was higher than his own reconnaissance method, or they were not here.

Lu Ruyi's information should be right.

In addition, under his talent, Danger Prediction, he vaguely sensed that there seemed to be some faint sense of danger hidden in his surroundings.

Therefore, he was naturally biased towards the former.

"As expected, no Kingdom-level faction is simple."

He thought to himself.

Then, he looked at the anxious situation below and finally made a decision.

He would not continue waiting!

Time was limited.

He did not want to wait for the Nether Bark Army of the Nether Bark Kingdom to attack before attacking!

Moreover, he had nine million troops, and the soldiers were all extremely strong! What was there to be afraid of with such combat strength? If anyone dared to be a fisherman after him, he would directly be wiped out at once! He immediately made up his mind.

"Lead the entire army to attack with Bai Yun as the overall commander and Wu Xin and Luo Sheng as the Deputy Commanders!"

"Destroy all the fog monsters in front of us!"

Zhou Zhou ordered decisively.

"Yes!!!" Furious roars sounded behind him.

Then, the two sides fighting on the ground saw 17 spaceships suddenly appear out of thin air in the sky.

Right on the heels of that, the 17 spaceships emitted pillars of light.

Countless human soldiers, fog monster soldiers, and dragons flew out of the pillar of light. Then, some landed on the ground and rushed towards them, while others attacked them from the air.

Under their terrified gazes, these enemies that suddenly appeared seemed to be endless.

They came out of the spaceship in an endless stream and attacked them with ferocious killing intent.

"What's going on?!"

"Where did these enemies come from?"

"Could it be the people from the Aurora Kingdom? Shouldn't they be repairing their dilapidated kingdom at this time?"

The monster army of the Tahan Kingdom and the Titan Kingdom were stunned.

However, there was no time to think.

This was because the soldiers of the Blazing Sun Territory and the Star Alliance had already rushed in front of them.

As soon as the two sides came into contact, they began to fight fiercely.

The first to reach the two million monster soldiers was the Dragon God Army led by Nezario!

Firstly, Haris led 39 Extreme Dragon Race soldiers and smashed into the dense area of more than two million monster soldiers.

Accompanied by the sound of the ground trembling!

There were more than 10,000 fog monsters smashed to death by the Extreme Dragon Race alone.

Then, Haris and the other 40 Extreme Dragon Race members began to wreak havoc among the two million fog monsters.

As pure-blooded dragons with the strongest physical bodies, the Extreme Dragon Race's dragon body was their strongest Arms.

This was because they did not need to use any skills. They only needed to flap their dragon wings and wave their dragon claws to injure and kill the hundreds or thousands of fog monsters around them.

When the surrounding fog monsters saw this scene, they rushed up to kill these Extreme Dragons. Then, they realized that most of their attacks could not even break through.

They could only watch helplessly as these Extreme Dragon Race wreaked havoc among their companions.

Only Diamond-Tier and above fog monster experts could barely fight it, but they would not be able to gain much advantage.

Other than the Extreme Dragon Race, immediately after were the Five-Colored Dragons, the Earth Dragons, the Bronze Dragons, the Elf Dragons, and the Emerald Dragons!

They were all subdued by Zhou Zhou. At this moment, they were also using their full strength, wanting to perform well in front of the new Lord and His Excellency the Light Sacred Dragon.

[Global Lord: 100% Drop Rate](#)

**Chapter 508: End Of The War**

Behind them were the Dragon King Of Volcano and Destruction—Nezario, Spectral Dragon Auguste, and the Light Sacred Dragon, Ingesol, who were casting spells in the air!

Nezario used fire-elemental Draconic Magic, Auguste used Soul Draconic Magic, and Ingesol released extreme Light Draconic Magic!

The strength of the three dragons was already above the White Platinum-Tier, and unleashed powerful Draconic Magics.

Especially Nezario and Ingesol. Each of their Draconic Spells could kill thousands of these fog monsters!

At the same time...

Bai Yun, Wu Xin, Luo Sheng, and the Ultimate Lord, Zhou Zhou, also organized 800,000 soldiers and four Greedy Wolf Avatars to fight and kill among the monster soldiers of the Crimson Kingdom.

The Ten-Directional Martial Emperor—Feng Luo, Soul Arrow—Wu Tu, Night Rakshasa Sword God—Xu An, and the newly joined Butcher—Guo Qiao were also slaughtering the fog monsters with all their might.

In addition, Soul Reaper Maris and the God of Thunder and Dark Clouds, Ansel, were not to be outdone.

One silently harvested fog monsters in its soul state.

The other directly turned into a lightning body and waved his hand to summon thousands of lightning to kill a large number of fog monsters.

The generals were so powerful.

The soldiers of the Blazing Sun Territory also performed extremely well.

Under the Blessing of the War God, their average strength far exceeded these fog monsters.

They could have fought three or even four people on the battlefield, but because of the advantage in numbers, they often fought three or four against one.

This way, the fog monsters of the two Scarlet Kingdoms were even more helpless.

Coupled with the addition of the 5.9 million soldiers of the Star Alliance,

As soon as the battle between the two sides began, the Blazing Sun Territory and the Star Alliance had an absolute advantage and began to eliminate these fog monsters at an astonishing speed.

"What's going on?!"

In the monster army, a tall monster more than ten meters tall, covered in bruises, had four arms, and held four weapons widened its eyes in anger when it saw the situation on the battlefield.

He was the only Extraordinary-Tier Scarlet Hero left in the Tahan Kingdom—Four-Armed Mara King—Tarot!

He had never expected this.

They had just gained some confidence and felt that they could rely on the territory advantage of the Tahan Kingdom to drag down these Titan Legions from the Titan Kingdom.

In the blink of an eye, there was a second unknown powerful human faction that interfered.

This could be said to be very fatal to them, who were barely fighting to begin with!

On the other side.

The Legion Commander of the Titan Army was also one of the five heroes of the Titan Kingdom—the Iron-Fang King, Saifen. When he saw that this unknown human faction actually wanted to snatch their results, he was immediately furious.

In addition, after knowing that the other party had many troops and that they probably had no possibility of retreating, the hostility in its heart intensified.

"Kill!"

"Kill and eat all these b\*stards in front of us!" Saifen roared.

At the same time...

In the sky.

When Zhou Zhou, who was floating in midair, saw this scene, he did not dare to waste any time. He immediately raised his hand and used Incite Defection.

At this moment, a line of golden text suddenly appeared.

[Please choose the enemy Lord faction you want to Incite Defection:]

[1: Tahan Kingdom!]

[2: Titan Kingdom!]

Zhou Zhou could not help but be stunned when he saw the sudden text notification.

This was the first time he had encountered such a situation.

Then, he thought for a moment and said, "Titan Kingdom!"

There were more than 1.3 million Titan soldiers in the Titan Kingdom, while the Tahan Kingdom only had more than 1 million monster soldiers. Of course, he had to choose the side with more Incite Defection soldiers.

He had just confirmed his choice.

BOOM!

An invisible fluctuation covered all the Titans on the ground in the blink of an eye.

The expressions in the eyes of more than 150,000 Titans suddenly changed.

They did not immediately attack their companions beside them. Instead, under Zhou Zhou's secret instructions, they continued to attack the monster soldiers of the Tahan Kingdom like before.

In the sky, Zhou Zhou looked at the Incite Defection notification in front of him.

[Lord Talent Notification: A total of 63,420 Black Iron-Tier Titan soldiers, 41,852 Green Bronze-Tier Titan soldiers, 21,542 White Silver-Tier Titan soldiers, 18,850 Yellow Gold-Tier Titan soldiers, 7,760 White

Platinum-Tier Titan soldiers, 5,050 Diamond-Tier Titan soldiers, and 101 Extraordinary-Tier Titan soldiers have betrayed their Lord's faction and become your loyal subordinates!]

Zhou Zhou nodded in satisfaction.

This wave of Incite Defection directly obtained the loyalty of 158,575 Titan soldiers!

It had to be known that these Titans had astonishing physical talent to begin with, and their combat strength was even stronger than special soldier types of the same level.

Even though there were relatively few Incite Defections, Zhou Zhou did not feel that he had suffered a loss.

Then, Zhou Zhou called Ling'er over and asked her to Incite Defection on the monster soldiers of the Tahan Kingdom.

Soon, Ling'er had also used Incite Defection on more than 80,000 monster soldiers from the Tahan Kingdom.

Seeing this, Zhou Zhou asked Ling'er to immediately order the 80,000 odd monster soldiers of the Tahan Kingdom to start a civil war among them.

This action immediately caused the million-odd monster soldiers of the Tahan Kingdom to riot for a while.

However, they were elite soldiers of the Tahan Kingdom after all.

They calmed down in no time and were also guarding against the sneak attacks of their companions.

But even so, while resisting the attacks of the Titan soldiers and the Blazing Sun Territory soldiers, he was also guarding against the sneak attacks of his companions.

In the sky.

Zhou Zhou could not help but smile when he saw the battle situation below.

However, he still remained cautious.

This was because he knew that there was an enemy faction of the Nether Bark Kingdom hidden around him with the notification of his talent— Danger Prediction.

But at this moment.

"Hmm?"

Zhou Zhou suddenly raised his eyebrows and observed his surroundings without leaving a trace.

In the end, he naturally did not discover anything.

"The sense of danger given to me by my talent, Danger Prediction, has disappeared."

"Could it be that the Nether Bark Kingdom has left?"

Zhou Zhou thought to himself.

Zhou Zhou was not surprised if that was the case.

After all, as long as it was a Beginner Kingdom faction with some common sense, they probably would not have any thoughts of attacking after seeing his nearly nine million soldiers.

Wasn't that purely courting death?

Of course, he could not rule out the possibility that the Nether Bark Kingdom had some method that could hide from his Danger Prediction.

However, Zhou Zhou felt that the possibility of such a guess was extremely small.

Talent—Danger Prediction was the talent of Xiao Xuan, a True God-Tier talent.

How could he be easily hidden by a Kingdom-level Lord faction?

So, in this situation, there was a high chance that the Nether Bark Kingdom knew that they could not match his nine million soldiers, so they automatically retreated.

Thinking of this, Zhou Zhou did not let his guard down. Instead, he continued to be cautious.

At the same time, he glanced at the text notification that had just flashed past.

[An official battle has been discovered. Battle mode has been activated!]

[Virtual Battlefield has been established!]

[Battle Points are being calculated...]

[Prompt: After the battle ends, the army's Battle Point function will be calculated and obtained a corresponding number of Battle Points according to the battle performance of the Blazing Sun Army, the Monster Army, and the Dragon God Army. When there are enough Battle Points, you can increase the level of the army and unlock more army functions.]

Zhou Zhou's gaze landed on the battlefield below again.

It seemed that these two monster armies of the Crimson Kingdom had triggered the army battle mode.

Just as well. It could also increase the level of the three armies under his command.

Two hours later, the battlefield gradually returned to silence as the soldiers of Tahan Kingdom and Titan Kingdom were all dead.

[Global Lord: 100% Drop Rate](#)

**Chapter 509: Yellow Gold-Tier Blazing Sun Army! Yellow Gold-Tier Braveness!**

Zhou Zhou gazed calmly at the battlefield that had stabilized below.

He was not surprised that the battle could end so easily.

What to do, his strength far exceeded that of the Tahan Kingdom and the Titan Kingdom. In addition, these two kingdoms did not have the combat strength at their peak, and he had mobilized all his forces. It would be strange if these two kingdoms could withstand him.

Then, his gaze landed on the text notification that had just appeared.

[This battle has been recorded!]

[Battle settlement completed!]

[Your Monster Army (Black Iron-Tier Army) has obtained 4,000 battle points.]

[The Monster Army has been upgraded to the White Silver-Tier Army!]

[Black Iron-Tier Army Enhancement—Braveness has been upgraded to White Silver-Tier Army Enhancement—Braveness!]

...

[This battle has been recorded!]

[Battle settlement completed!]

[Your Dragon God Army (Black Iron-Tier Army) has obtained 4,000 battle points.]

[The Dragon God Army has been upgraded to the White Silver-Tier Army!]

[Black Iron-Tier Army Enhancement—Braveness has been upgraded to White Silver-Tier Army Enhancement—Braveness!]

...

[This battle has been recorded!]

[Battle settlement completed!]

[Your Blazing Sun Army (Green Bronze-Tier Army) has obtained 4,000 battle points.]

[The Blazing Sun Army has been upgraded to a Yellow Gold-Tier army!]

[Green Bronze-Tier Army Enhancement—Braveness has been upgraded to Yellow Gold-Tier Army Enhancement—Braveness!]

...

Zhou Zhou could not help but smile when he saw the three notifications.

This battle was not in vain.

The Green Bronze-Tier Blazing Sun Army was upgraded to the Yellow Gold-Tier Blazing Sun Army!

The Monster Army and the Dragon God Army, which had just established an official army, had directly jumped from the Black Iron-Tier army to the White Silver-Tier army!

As expected, army battle points could only be obtained by fighting an official army.

Previously, he had fought with tens of thousands of Lords on the Battlefield of The End but could not obtain even one battle point.

However, he had obtained 4,000 points in this single battle!

Zhou Zhou was instantly satisfied.

He opened the army interface and looked at the current information about the army and the army buff—Braveness.

[Blazing Sun Army (Yellow Gold-Tier Kingdom Army)]

[Current maximum number of soldiers accommodated: 1,455,641/5 million]

[Current Battle Point: 1,200/4,000]

[Prompt: You can obtain the corresponding battle points by completing the battle. When there are enough battle points, you can increase the level of the army and unlock more army functions.]

...

[Army Enhancement: Braveness]

[Buff Level: Yellow Gold-Tier]

[Buff Effect: Your legionaries will be even braver when fighting on the battlefield. At the same time, your overall strength will receive a 40% enhancement.]

...

Zhou Zhou nodded in satisfaction.

His overall strength had obtained a 40% enhancement. This was already a relatively high strength enhancement.

Then, he looked at the enhancement of the White Silver-Tier Army—Braveness and realized that it was a 30% increase in overall strength.

Not bad.

Zhou Zhou nodded slightly.

At this moment, Bai Yun walked over and waved her right hand. The corpses of the Four-Armed Mara King, Tarot, and Iron-Fang King, Saifen, appeared in front of him.

"My Lord, did the enemy of the Nether Bark Kingdom not appear?"

She asked curiously.

"He probably escaped."

"Of course, there's also the possibility of spying on them and waiting for an opportunity, but the possibility is not high."

Zhou Zhou said.

Bai Yi nodded.

"Clean up the battlefield and take what you need. In addition, put the corpses of these enemies into the spaceship for the time being and retrieve the Loots as you move."

"Then we'll go straight to the capital of the Tahan Kingdom."

Zhou Zhou said.

"Yes, my Lord!"

At this moment, Wu Tu, the Soul Arrow, suddenly walked over quickly.

"I've something to report, my Lord!"

"I just received news from my people."

"It's said that a mysterious army has suddenly descended on the capital of the Tahan Kingdom and is attacking it."

"Even though the King of the Tahan Kingdom can barely hold on with the protective barrier of the capital, I'm afraid he won't be able to last long!"

Wu Tu said quickly.

"How outrageous!"

Anger flashed across Bai Yun's eyes.

They were fighting with their lives on the line here, but that mysterious army actually wanted to pass them and take advantage of them?

A cold glint and killing intent flashed across Zhou Zhou's eyes.

There was no need to guess. This mysterious army was most likely the Nether Bark Army of the Nether Bark Kingdom.

Otherwise, the other kingdoms would not have reacted so quickly.

"I thought you ran away because you were afraid of me. I didn't expect it was because you are looking to plunder the fruits of my war?" Zhou Zhou narrowed his eyes slightly.

"Leave 100,000 soldiers, a Starry Night, and 90% of the Conqueror's Blast Furnace here to continue extracting Loots."

"The remaining soldiers, board the spaceship immediately and head to the capital of the Aurora Kingdom!"

Originally, Zhou Zhou wanted to take some time to go to another Diamond-Tier regional territory, Right Guardian City, to see if there were any leftover monster enemies that had not been attacked.

From the looks of it, he could only go to the capital first.

"Yes, my Lord!"

Bai Yun immediately ordered.

Soon, other than the soldiers who stayed where they were and continued to retrieve the Loots, the remaining soldiers boarded the spaceship and flew towards the capital of the Tahan Kingdom.

...

In the capital of the Tahan Kingdom.

A total of two million kobolds in black armor were gathered outside the capital and attacking the dark blue light barrier that enveloped the capital.

One could vaguely see a dark blue illusory eastern divine dragon swimming around on that light barrier, constantly neutralizing the attacks of the two million troops.

However, because the enemy's attacks were too fierce and dense, the figure of the dark blue illusory eastern divine dragon was continuously dissipating and condensing again.

During the process of continuous dissipation and condensation, its divine dragon figure gradually became transparent.

Obviously, this light barrier would not last long.

...

Behind the Nether Bark Army.

A temporary military base was erected.

A kobold that was more than 20 meters tall, carrying two dark black sabers on his back, wearing dark black divine armor and the clothes of a cardinal of the God of Death Church, was looking at the battle in front of him with a deep gaze.

It was the Legion Commander of the Nether Bark Army and one of the four heroes of the Nether Bark Kingdom!

The Death Spirit Servant—Sakomo!

"How long can this Vast Sea Divine Dragon Barrier protect their capital?"

It said in a deep voice.

"Reporting to Cardinal Sakomo."

"According to my observations this barrier would be destroyed by us in another half an hour."

A kobold wearing the clothes of the God of Death Priest said fawningly.

There was a hint of pride and excitement in its voice.

In its eyes, the breakthrough of the capital of the Tahan Kingdom was already a done deal.

The powerful human Lord who was still fighting in Left Guardian City was just easy meat for them.

When they broke through this Tahan Kingdom and obtained the Kingdom Token, they would return to the Nether Bark Kingdom.

When that happens, what would it matter how powerful the human Lord was when they have the protection of His Excellency the God of Death?

"Half an hour..."

"It's taking too long!"

Unexpectedly, Sakomo's expression was quite serious after hearing the priest's words.

"My Lord is warning me."

"The danger is approaching at an astonishing speed!"

"We have to break through the capital of the Tahan Kingdom in 10 minutes, kill the King of the Tahan Kingdom, and obtain the Kingdom Token!"

Sakomo said solemnly.

**Chapter 510: Death Spiritual Servant— Sakomo! God Of Death Descends!**

The priest's eyes widened.

They are approaching so quickly? How is that possible?

Could it be that the powerful human Lord faction had already dealt with their enemies?

However, there were a total of more than 2.3 million soldiers left in the Tahan Kingdom and the Titan Kingdom.

There were so many soldiers. Even if they all surrendered and killed them one by one, they would have to kill them for a day and night, right?

How could it be resolved so quickly and come to look for us immediately without resting?

Still...

As a Death Spirit Servant with extremely pure faith, Lord Sakomo's inspiration could reach a strange resonance with the God of Death's divine power.

Therefore, Lord Sakomo's premonition would not be wrong under normal circumstances

The Priest's face became serious.

"I'll hurry them up now!"

"We must break through the capital of the Tahan Kingdom in the shortest time possible!"

With that...

It immediately turned around and left.

However, a kobold soldier rushed in in a panic before it managed to get very far.

Seeing this scene, Lord Sakomo and the Priest both had a bad feeling.

What the kobold soldier said next confirmed their thoughts.

"My Lord!"

"That human Lord flew over on the Machina race's mechanical spaceship!"

It said in a panic.

Lord Sakomo and the Priest did not speak for a moment.

"They came so quickly... Prepare to retreat." Lord Sakomo said after taking time to consider the matter for some time.

"Are we going to pull back just like that?"

The priest was still a little unwilling when it really heard it Even though it had a premonition of Lord Sakomo's decision.

"This isn't our country, why should we fight that human Lord head-on?" Sakomo glanced at it.

If it was in the Nether Bark Kingdom, it would have the guts to fight the human Lord even if he had tens of millions of soldiers under the protection of the God of Death.

However, in a faithless place like the capital of the Tahan Kingdom, it would not do such a stupid thing as fighting the enemy head-on.

"Yes! Lord Cardinal!" The priest was still a little unwilling.

Sakomo could understand the other party's feelings.

Who could be willing?

Their Nether Bark Kingdom was only lacking this Kingdom Token to advance to an Intermediate Kingdom.

Unfortunately...

The Heavens did not grant them their wishes...

They did not stay any longer and walked out of the temporary military base. Then, they saw the 16 majestic spaceships in the sky carrying the nine million soldiers!

...

In the sky.

Zhou Zhou floated quietly in the sky.

He looked at the two million soldiers of the Nether Bark Legion below.

When they arrived, they were naturally not stupid. They had already stopped attacking the capital's barrier and looked at them warily.

Just as Zhou Zhou was about to attack them, he saw Sakomo walk out of the military base.

They looked at each other.

A text notification appeared in front of Zhou Zhou.

Zhou Zhou's eyes lit up.

This guy's loot list actually had Fanatic-Tier Scarlet Crystals?!

Then wouldn't he be able to obtain another Holy Spirit-Tier Faith Divine Crystal after killing it?

"The Nether Bark Kingdom is a religious kingdom that believes in the God of Death."

"Perhaps there will be many kobolds with pure faith in this kingdom."

"Maybe I can obtain many Holy Spirit-Tier Faith Divine Crystals from them."

Zhou Zhou took a guess.

In addition, its Epic-Tier Elementary Grade Hero Inheritance Secret Manual would also become a Legendary-Tier Elementary Grade Hero Inheritance Secret Manual after extracting it. This was also a considerable temptation to him.

Zhou Zhou immediately felt that he had to take it down.

At this moment, Sakomo, who had been looking at him, spoke.

[Human Lord.]

[What are you playing at?]

It said telepathically.

[What are you pretending for? Anyone who's not a fool can tell what you want to do.]

Zhou Zhou could not be bothered to be hypocritical with him and fell out with him.

[You should want to capture this place, right? We won't stop you.]

[Actually, our Nether Bark Kingdom has no intention of becoming enemies with you. We're only here this time because we have many years of enmity with the Tahan Kingdom.]

[Since you want to attack it too, I'll leave it to you. We're leaving.]

With that, it waved its right hand and a huge black flying ship appeared. The most obvious thing on it was a black kobold statue of the God of Death, Thanatos, which was a thousand meters tall.

The two million soldiers of the Nether Bark Army immediately turned into a tide of soldiers that rushed towards the black flying ship.

[You come and go as you please.]

[What do you take us for?]

Zhou Zhou said coldly.

The nine million soldiers under his command immediately charged at the two million kobold soldiers.

When Sakomo saw this scene, it sighed softly. Then, its expression became serious.

"It's time for me to offer my faith to His Excellency."

It flew in front of all the soldiers of the Nether Bark Kingdom and sat cross-legged in the void.

Right on the heels of that, it closed its eyes and began to pray in the kobold language.

The prayer content was the content of the Death Holy Scripture.

This was the Bible of the God of Death Church. It was a religious supreme classic that all the believers of the God of Death had to master.

As its prayer slowly expanded, its body and face began to decrepify at a very fast speed.

When its prayer had already expanded to be heard by the entire battlefield,

Its body had already become extremely decrepit, looking like an old kobold withered.

**BOOM!**

An extremely terrifying pressure suddenly appeared on the battlefield.

Then, a huge black figure 10,000 meters tall gradually appeared behind Sakomo.

All the living beings on the battlefield seemed to have seen their lives end when they saw this black figure.

Countless life forms suddenly came to a realization.

The God of Death had descended.
