Chapter 571: Absorbing The Original Spirit Race Bloodline! Epic-Tier Advance Grade Chaos Human Bloodline! (3)

"According to the notification, my Chaos Human bloodline should be optimizing the modified heart of this Original Spirit Race bloodline."

"I wonder what will happen to my bloodline after the optimization ends?"

Zhou Zhou took a guess when he saw this.

His Chaos Human bloodline had the ability to optimize and increase his bloodline.

He did not expect that even a top-notch bloodline like the Original Spirit Race could be optimized and upgraded.

He did not think too much about it and looked at the next Race Talent.

[Race Talent Name: Original Spirit]

[Talent Level: True God-Tier Advance Grade]

[Talent Description: The Original Spirit Race's existence is loved by the Supreme Will as the first batch of life forms of the Race when the myriad worlds were born. It is easier for them to feel the laws that are everywhere in the world, thereby promoting their growth. After the Original Spirit Race dies, their small world will enter the myriad worlds and become one of the endless worlds.]

[Note: This Race talent is being optimized by the Chaos Human bloodline.]

"So the Original Spirit Race is actually so powerful."

"It's actually the first batch of life forms of the Race at the beginning of the myriad worlds."

"Moreover, after they die, their small world will actually enter the myriad worlds and become a part of them."

"Could it be that a portion or even all of the worlds in the myriad worlds were transformed from the fallen Original Spirit Race?"

Zhou Zhou clicked his tongue and thought after reading this Lord Talent.

In addition, this Race talent was actually also being optimized by the Chaos Human bloodline.

He wondered what it would be like after optimization.

He did not think too much about it and continued to look at the next Race Talent.

[Race Talent Name: World Fissure]

[Talent Level: True God-Tier Advance Grade]

[Talent Description: The Original Spirit Race is born with extraordinary control over the Law of Space. Moreover, they are born with the ability to open up the spatial passageway between the small world in their bodies and the real world, opening the small world in their bodies to the outside world, allowing items and life forms in the inner world and the real world to enter and exit each other.]

Zhou Zhou nodded.

This was equivalent to opening a spatial door to the real world for the inner world. It was almost useless in battle, but it was very convenient to store items and hide life forms.

According to the Original Spirit Race inheritance he had grasped, when the Original Spirit Race grew to the God Spirit stage, they could even enter their own small world and completely disappear from the real world.

At that time, it would be impossible for the enemies of the Original Spirit Race to find them even if they wanted to.

Unless the enemies tore through space and entered the interlayer of space to wander around, searching for a world that belonged to the Original Spirit Race in the myriad worlds.

Otherwise, it would be almost impossible to find the Original Spirit Race's main world.

This would be a fantasy land that belonged to him and his main body would slip away as soon as the World Fissure opened. All the calamities in the real world would no longer befall him.

It could be said that its life-saving ability was extremely strong.

Then, he looked at the next Race Talent.

[Race Talent Name: God of Thunder]

[Talent Level: True God-Tier Advance Grade]

[Talent Description: You are a natural God of Thunder in the small world in your body. You have an incomparable Thunder Law Talent and can easily comprehend Thunder-type Skills or even Law Skills. As long as you continue to grow successfully, not only will you become a World Ancestral God in the future, you will even become a True God-Tier Advance Grade Thunder Law God Spirit.]

...

[Race Talent Name: God of Dark Clouds]

[Talent Level: True God-Tier Advance Grade]

[Talent Description: You are a natural God of Dark Clouds in the small world in your body. You have unparalleled talent in the Dark Cloud Elemental Law. You can easily comprehend Dark Cloud Elemental Skills or even Law Skills. As long as you continue to grow successfully, not only will you become a World Ancestral God in the future, you will even become a True God-Tier Advance Grade Dark Cloud Elemental God Spirit.]

[Global Lord: 100% Drop Rate](#)

Chapter 572: Millions of Refugees? (1)

"What an enviable talent."

Zhou Zhou looked at the talents of these two Races and sighed.

A God Spirit!

An unattainable existence to most life forms in the myriad worlds.

Countless Extraordinary-Tier life forms had spent a long time trying to become God Spirits but to no avail.

On the other hand, the Original Spirit Race could naturally become God Spirits and even have an additional small world of their own compared to the God Spirits.

Compared to normal God Spirits, a God Spirit with a small world was equivalent to a dead loyal citizen who was born with an entire world. He was the World Ancestral God of this world.

The Original Spirit Race would not have to worry at all if they took the path of Faith becoming a God.

Unlike normal God Spirits, who needed to establish sects and spread their faith, this bloodline was born to become a God.

How could the Book of The God Spirit compare to it?

Comparing the two, the former was like an ancient scholar. If he wanted to become an official, he had to study hard for ten years and familiarize himself with the Four Books and Five Classics. Then, he had to rush to the Capital for the examination and take the one in a million chance to become a small official.

The latter was like a noble.

He had already been arranged to be an official from the moment he was born. After becoming an official, he would have all kinds of connections and resources to support him and he could advance all the way.

There was really nothing to say about the Supreme Will's love for the Original Spirit Race.

But it belongs to me now.

From now on...

I'm also a Chaos Human wearing the skin of the Original Spirit Race, haha!

The corners of Zhou Zhou's mouth curled up slightly. Then, he looked at the next talent.

[Race Talent Name: Divine Power Control]

[Talent Level: True God-Tier Advance Grade]

[Talent Description: As a natural World Ancestral God, your control of divine power has reached an unbelievable level. You can easily use divine power to do things that other God Spirits can't.]

Zhou Zhou did not understand this.

However, according to the description of the Original Spirit Race inheritance seed he had grasped, this talent would be very useful after becoming a God. It was said that it could even be used to create life.

This was still too far away for Zhou Zhou. He did not think too much about it and looked at the next one.

There was no need to mention the Original Spirit Race's common sense inheritance and the Original Spirit Race's secret inheritance.

It was an enhancement of knowledge, horizons, and knowledge. It was not of much use to increase his strength for the time being.

Next was the Thunder Immunity that Zhou Zhou had long obtained.

This time, he had obtained the bloodline of the Original Spirit Race, directly strengthening this talent.

[Race Talent Name: Thunder Immunity]

[Talent Level: True God-Tier Advance Grade]

[Talent Description: When lightning-elemental attacks below the Mid-level Deity-Tier land on you, you will not suffer any damage.]

Zhou Zhou was satisfied.

He remembered that originally, this talent could only be immune to lightning-elemental attacks below the Low-Tier Deity-level.

Now, the upper limit of immunity to damage has been increased to the level of a Mid-level Deity-Tier.

Sure, it was also a very strong improvement.

Then, he looked at the two Law Skills that had been awakened.

[Law Skill Name: Thunder God Spear]

[Law Skill Quality: True God-Tier Advance Grade]

[Law Skill Power Description: Control the power of the Thunder Law and condense an extremely lethal Thunder God Spear. The Thunder God Spear has an extremely high offensive and destructive ability, especially against Chaotic Unholy Elementals such as Death, Shadowraze, and Corrosion. It also has an additional damage bonus to fog monsters.]

...

[Law Skill Name: Thunder God Body]

[Law Skill Quality: True God-Tier Advance Grade]

[Law Skill Power Description: Your body is filled with the divine power of the Thunder Law. You have the ability to resist all evil. Attacks Low-Level Deity and below will not be able to hurt your body.]

...

A smile appeared on Zhou Zhou's face.

There were only two words in his mind.

How powerful!

The Thunder God Spear was similar to the Holy Light Sword, a Law Skill. They both had extremely high attack abilities. Moreover, they had an extremely high restraining and damage enhancement Effect on existences like Chaos Unholy.

However, it was clearly different from the Holy Light Sword.

The attack characteristic of the Holy Light Sword was biased towards 'purification' and 'incineration'!

The Thunder Divine Spear pursued extreme 'destruction' and 'elimination'!

Comparing the two, the Thunder God Spear was even more violent.

Moreover, there was almost no one in the world who could restrain the Thunder Law.

This was almost an invincible offensive method!

In a battle of the same level, he was almost invincible!

Only the suppression of a large realm could suppress the power of this Thunder God Spear.

As for the Thunder God Body, there was no need to mention it.

Evil Immunity sounded very powerful. In the future, Zhou Zhou would not be afraid of negative buffs such as curses.

As for the later description of being immune to attacks below the Low-Tier Deity, it surprised Zhou Zhou even more.

This was a top-grade life-saving ability!

In the future, he basically did not have to worry about getting injured or even dying when facing existences below the God Spirit Realm.

"Fortunately, I used Incite Defection back then to directly instigate Ansel, the God of Thunder and Dark Clouds."

"Otherwise, even if all of us attack, we probably won't be able to do anything about it."

Zhou Zhou sighed.

In retrospect, the two Original Spirit Races he had faced back then were really heaven-defying.

There was no need to mention Ansel.

The two Law Skills, Exile the World and Time Reversal, displayed by Adam, the natural God of Space and Time, were also extremely heaven-defying.

If not for the fact that the other party did not want to fight to the death and looked down on the event rewards in the Myriad Races Lord Battlefield, it was really not certain who the Strongest Lord of All Races would end up with.

He shook his head and didn't think too much about it.

He actually did not care about reputation.

Who cared about who was the strongest?

It was fine as long as he obtained the reward from the Strongest Lord of All Races.

Then, he opened the World Channel as he felt the changes in his body.

[Global Lord: 100% Drop Rate](#)

Chapter 573: Millions of Refugees? (2)

[Today is the third day. This rest period passed so quickly... It will be fine in another seven days.]

[Previous poster, I suggest that you give the Lord a winter break.]

[Tomorrow is the King of Ten Thousand Kings' event. I'm starting to feel nervous again. Every time the Supreme Will appears, a large number of Cerulean Planet Lords will definitely die. I hope fewer Lords die this time. It's best if I'm not the one who dies!]

[I have 1,000 soldiers under my command now. I wonder if I can survive this King of Ten Thousand Kings event.]

[1,000 soldiers are alright. I suggest that they be mercenaries for the indigenous countries. This way, they can also freeload their training resources.]

[Haha, that's what I did. I only have a little more than a thousand soldiers under my command, and most of them are new recruits. They almost don't have any battlefield combat experience. Later, I sent 500 new recruits over to be mercenaries for the native kingdom. When they returned, I felt like all of them had become elite soldiers.]

[I'm short of soldiers now. Most importantly, I'm short of weapons and skill books! F*ck! The drop rate of this High Continent is really a scam! I've tried it. On average, 100 monsters can only drop one equipment or skill book. What kind of trash drop rate is this!]

[Indeed, this drop rate is even crazier than anything I've ever played.]

[I want skill books, equipment, cozy up to someone powerful, all kinds of things!]

...

Zhou Zhou looked at the chat content on the World Channel. His originally happy mood from obtaining the bloodline of the Original Spirit Race calmed down a little.

"Tomorrow is the King of Ten Thousand Kings' event."

"Fortunately, the enemy kingdoms around me have been cleaned up. Otherwise, I would have to guard against their sneak attacks while I carry out my activities."

"As for the Ice Demon Kingdom and those people of foreign races, I only defeated them once yesterday. For the time being, they shouldn't rashly send troops to start a war with me unless they know my background."

Zhou Zhou thought.

Today was his founding ceremony so he did not plan to send troops out to fight again.

As the protagonist, he was destined to be very busy and would definitely not have time to go out.

Moreover, it would not be good to send troops on a day like the founding ceremony.

In any case, one day was not a problem.

He would treat it as a vacation for himself, the soldiers, and the Subjects.

Let everyone relax for a day. It would not be too late to continue developing tomorrow.

At the thought of this, Zhou Zhou felt much more relaxed.

Then, he thought of the Lords on the World Channel regarding the need for skill books and equipment.

"I can sell the skill books and equipment I obtained yesterday."

"I hope selling these skill books and equipment this time can earn back all the money I just spent on buying the Original Spirit Race bloodline."

"Even half is good enough."

Zhou Zhou thought. Then, he immediately opened the Marketplace and placed 100 million skill books and 200 million equipment on it!

As soon as such a large number of skill books and equipment entered the Marketplace, they instantly attracted the attention of a large number of Lords and quickly rose to the first place on the browsing list.

The Lords on the World Channel were once again amazed by the generosity of the King of The Blazing Sun!

Zhou Zhou did not care about this.

"Even though it's the holidays."

"But we still have to do what needs to be done."

After closing the Marketplace interface, he stood up and walked towards the Gate of Summoning.

...

In front of the Gate of Summoning.

Zhou Zhou looked at the scene in front of him.

A text notification appeared.

[Prompt: Do you want to summon immediately?]

"Yes!"

The next second.

The Gate of Summoning suddenly lit up with a bright white light. Then, a large number of subjects walked out.

Soon, the 4,000 new Subjects walked out of the Gate of Summoning.

"Greetings, my Lord!" x4,000

All the new Subjects said respectfully.

"Welcome to Blazing Sun City."

Zhou Zhou smiled.

Then, he asked all the Professionals to stand up and realized that he had summoned 235 Professionals this time!

There were 29 more Professionals than usual!

Then, he began to check the information of these Professionals Subjects.

Among the 206 Professionals Subjects

were one Diamond-Tier Intermediate Grade Martial Master, one Diamond-Tier Intermediate Grade Pudaos Soldiers, one Diamond-Tier Intermediate Demon Warlock, one Diamond-Tier Intermediate Blacksmith, and two Diamond-Tier Intermediate Grade Architects!

The rest were Diamond-Tier Elementary Grade and below Life Professionals and Combat Professionals.

Zhou Zhou nodded in satisfaction.

It felt good to summon six talents attracted by his Reputation Rating a day.

Back then, when Zhao Changshou first arrived, he was only a White Platinum-Tier Advance Grade architect as a talent attracted by his Reputation Rating.

Among the Subjects he summoned normally, there were two Diamond-Tier Intermediate Grade architects, not to mention the other four Diamond-Tier Intermediate Grade Professionals.

Looking at it this way...

He has really improved a lot recently.

Zhou Zhou smiled, but there was no pride.

He knew that he still had a long way to go.

The achievement he had now was nothing compared to his goal.

Then, he asked the staff beside him to arrange the work of these new subjects. Just as he was about to bring the soldiers to clean up the Time Ruins, a soldier suddenly rushed over from afar and came in front of him.

"Your, Your Majesty, many refugees came from afar and said... said that they want to join our Blazing Sun Kingdom and become Subjects of our Blazing Sun Kingdom."

He panted and his eyes were wide open, as if he had seen an extremely shocking scene.

Zhou Zhou was a little surprised.

He had the White Silver-Tier Lord Talent, Embrace of the Conqueror. Due to his reputation, hundreds or even thousands of refugees would come from afar to join his territory every day.

Wasn't this very normal?

Why was he so flustered?

Was he a Newcomer?

"It's okay."

"Just accept them as subjects of our country."

Zhou Zhou replied casually, not paying much attention to this matter.

"Your Majesty, it's not that we don't want to accept it. The situation is really beyond our control. We don't know how to deal with it. Vice City Lord Zheng specially asked me to come over and invite Your Majesty to take a look." The soldier said.

Zhou Zhou was stunned.

Uncle Zheng asked for me to go over?

"Let's go." Zhou Zhou changed his mind and immediately said.

If Zheng Yuanqi really asked him to come over, something was probably wrong.

What's going on?

Zhou Zhou was puzzled.

What sort of problems could the refugees cause?

Zhou Zhou took the Starry Night spaceship and arrived at the city wall of the Supreme Defence.

The reason why he took the spaceship was not because Zhou Zhou was lazy but because the current Blazing Sun King was too big.

The territory that his upgraded territory increased was not the territory of the entire kingdom, but only the area of the Blazing Sun Kingdom!

How big was the Diamond-Tier Intermediate Grade Blazing Sun Kingdom now?

The answer: A total of 80 million square kilometers!

In the past, the surface area of the Earth he was on was only 510 million square kilometers.

The area of the entire Blazing Sun Kingdom alone had already reached one-sixth the size of Earth!

It sounded exaggerated.

However, in the High Continent that could accommodate the Lords of all races fighting each other, such a small area was probably equivalent to the surface area of a grain of sand in the desert.

It was precisely because the current size of the Blazing Sun Kingdom was too exaggerated that Zhou Zhou came over on the Starry Night.

When he climbed up the city wall and saw the refugees under the city wall, he was immediately dumbfounded by the scene in front of him.

"F*ck! What's going on?"

"Your Majesty, do you know why I had no choice but to invite you over?" Zheng Yuanqi, who had been waiting at the side for a long time, could not help but smile bitterly when he heard Zhou Zhou's words.

Zhou Zhou said nothing.

His gaze landed outside the city wall on the endless tide of refugees.

Among these refugees, most of them actually looked to have good living conditions. They looked like they were wearing gold and silver. Many refugees even emitted an obvious Extraordinary-Tier aura.

Why are you refugees when you're so rich and are at the Extraordinary-Tier?

Zhou Zhou was shocked.

"They're all refugees?"

Zhou Zhou could not help but ask.

"Yes."

Zheng Yuanqi answered honestly.

"How many are there?"

"No statistics, but according to my estimate, there are probably a million refugees."

Zhou Zhou: "..."

Is the world crazy or am I crazy? How could there be a million refugees?

Is there a large-scale war nearby? Is that why a large number of Subjects were displaced and looking for a new home?

Zhou Zhou was filled with question marks.

[**Global Lord: 100% Drop Rate**](#)

Chapter 574: Four Million Recruits! Three Extraordinary-Tier Heroes!

"Have you sent someone to these refugees to ask them why they're here?" Zhou Zhou asked.

"I've just sent someone to ask. They should be back soon." Zheng Yuanqi said.

Zhou Zhou nodded.

The two of them did not say anything else. Instead, they continued to look at the million migrants in front of them.

Zhou Zhou realized something strange as he looked on.

That was, most of the refugees were young people, and most of them were young women, occupying more than 80% of the refugees.

"What's going on?"

Zhou Zhou became even more puzzled.

In his understanding, most of the refugees were elderly or young men, and there were also women, but the ratio had never been so high.

Women did not have the advantage in exploration after all.

Not every woman who was an Extraordinary-Tier Professionals who could withstand the test of physical hardship from exploration.

Zheng Yuanqi had clearly realized this too, and the confusion in his eyes increased.

He did not let them wait for long.

A soldier quickly ran over and said respectfully to them,

"Your Majesty, Vice City Lord Zheng, I just understood why they collectively came to our Blazing Sun Kingdom to become Subjects."

"Shoot."

Zhou Zhou said.

"From their answers, other than a small number of refugees who came to our Blazing Sun Kingdom to settle down because of the war suffering and the reputation of our Blazing Sun Kingdom, most of the other refugees, especially those who are mainly young women, came to our Blazing Sun Kingdom to become Subjects because..."

When the soldier said this, his expression was a little strange. He wanted to laugh, but he was also a little proud.

"It's because they want to look better!"

"They seem to have heard that His Majesty made all the subjects in the country beautiful and handsome. After this matter spread to foreign countries, these foreign Subjects, especially foreign women, rushed over overnight."

Zhou Zhou: "..."

Zheng Yuanqi was speechless.

"They came all the way to our Blazing Sun Kingdom just to look good... Young and vigorous."

Zheng Yuanqi felt a little emotional.

Even though he was a little surprised, he felt that this matter was reasonable.

Everyone loved beauty.

Moreover, His Majesty's ability to make the entire country beautiful was indeed enviable.

He suddenly thought of something and became excited.

"Your Majesty!"

He looked at Zhou Zhou and said excitedly, "I think the arrival of these subjects is a good thing!"

"The number of male Subjects in our Blazing Sun Kingdom accounts for more than 90% of the entire country's Subjects because soldiers originally occupied the democratic territories!"

"This ratio actually hasn't improved much even with the addition of the Aurora Kingdom Subjects."

"I've been worried about this for a long time."

"I've previously thought of adopting some good immigration policies to migrate female Subjects from other human countries to our country."

"However, other than the Aurora Kingdom, the other human countries are too far from our Blazing Sun Kingdom. Without the help of the Spatial Teleportation Array, it's very difficult to immigrate a large number of female Subjects to our Blazing Sun Kingdom in a short period of time and resolve the serious imbalance in the number of Subjects in our country."

"But now that His Majesty has the means to make the Subjects beautiful, this problem has been easily resolved!"

"The million female refugees in front of me are the best proof!"

"And this is only the beginning! The fact that my appearance can be upgraded and optimized by becoming a Subject of our Blazing Sun Kingdom has only just spread."

"Nearly a million female refugees came over in just one night!"

"Then as time passes and the range of the news becomes wider, more and more female Subjects will definitely come to our Blazing Sun Kingdom every day!"

"Moreover, there will definitely not be a decrease in the number of refugees in the short term!"

"In the future, there might be tens or even hundreds of millions of refugees coming to our Blazing Sun Kingdom in a day!"

"In the future, our Blazing Sun Kingdom will no longer have to worry about the source of female Subjects!"

The more Zheng Yuanqi spoke, the more excited he became.

It was as if he could already see billions of refugees crazily pouring into the Blazing Sun Kingdom.

Zhou Zhou was also attracted by Zheng Yuanqi's future.

Uncle Zheng is right! This is indeed very likely to happen.

In that case, the problem of the Blazing Sun Kingdom's excessive male vibe could indeed be resolved!

"Quickly arrange for them to become Subjects of our Blazing Sun Kingdom!"

Thinking of this, Zhou Zhou immediately said.

"I've already arranged for more than 10,000 officials to resolve this matter before His Majesty came."

"It's just that there are too many refugees, so it doesn't look obvious for a while."

Zheng Yuanqi said with a smile.

Zhou Zhou nodded.

He looked at the million subjects under the city wall and sighed even more.

He did not expect a mere Green Bronze-Tier Lord Talent, Beauty, actually brought him so many benefits.

Tsk tsk.

It was extremely likely that he would attract a million Subjects in a day and more than a hundred million Subjects would join in the future.

Even Diamond-Tier and Extraordinary-Tier Lord Talents could not achieve this effect of attracting Subjects.

He did not expect the Lord Talent he did not care about to be a treasure.

Moreover, with the addition of so many female Subjects and the number of male soldiers in his country, the Green Bronze-Tier Lord Talent, Peach Luck, would also be of great use!

Global Lord: 100% Drop Rate

Chapter 575: Four Million Recruits! Three Extraordinary-Tier Heroes! (2)

My God.

These two Lord Talents are really a perfect match thinking of this!

Zhou Zhou became even happier thinking of this.

He looked at the million Subjects below and thought of something.

"Yes."

"Only women with rich family backgrounds, or who are Extraordinary-Tier themselves, or both have the ability to come to the Blazing Sun Kingdom overnight."

"Tsk. A large group of rich and beautiful women have arrived."

A smile appeared on Zhou Zhou's face. The single men in his territory were in luck.

"What a coincidence they're here. It just so happens to be in time for our Blazing Sun Kingdom's founding ceremony." Zheng Yuanqi also sighed.

"When will the founding ceremony begin?"

Zhou Zhou asked.

"The auspicious hour is 10 a.m."

Zheng Yuanqi said respectfully.

"Let me know when the time arrives."

Zhou Zhou said and turned to leave.

Then, he led the soldiers to clean up the Time Ruins, went to the Golem Lair, and summoned the 126 golems today. Finally, he arrived at the Monster Ranches.

He looked at the Monster Ranches in front of him.

Currently, with the number of ranches reaching 50 and the Monster Ranches nurturing 50,000 monsters each, the total number of monsters nurtured has already reached 2.5 million!

Among them:

There were two monster ranches that nurtured the Black-Tailed Fog Scorpion and produced Poison Crossbow Soldier recruitment books and Class Change Certificates!

There were two monster ranches that nurtured Undead Knights and produced Aurora Cavalry recruitment books and Class Change Certificates!

There were three monster ranches that nurtured withered trees and produced Tree Core Gems and Jade Sun Tree seeds!

Four were used to cultivate the Iron-Eating Bear to produce its pet eggs, nurture the Mechanical Fear Falcon, and produce four monster ranches each with the Fear Falcon Wings and the Fear Falcon III radar!

There were 11 monster ranches that nurtured King Of Yellow Gold and produced special soldier types—King Of Yellow Gold recruitment books and Class Change Certificates!

There were 24 monster ranches that nurtured Violent Storm Demon Spirits and produced Kingdom-level soldier types—Violent Storm Spirit recruitment books and Class Change Certificates!

This was the current situation of the Monster Ranches.

Zhou Zhou did not waste his breath and began to lead his troops to clean up the Monster Ranch and extracted all looks.

In terms of the Mist Cores, he had obtained a total of 17.5 million Green Bronze-Tier Mist Cores, 10.5 million White Silver-Tier Mist Cores, seven million Yellow Gold-Tier Mist Cores, 6,125,000 White Platinum-Tier Mist Cores, 2,537,500 Diamond-Tier Mist Cores, and 87,500 Extraordinary-Tier Mist Cores!

There were also:

More than 14 million soldier type Class Change Certificates!

1,375,000 King Of Yellow Gold recruitment books!

155,620 Poison Crossbow Soldier Recruitment books!

960 Elemental Archer Recruitment Books!

257,595 Aurora Cavalry Recruitment books!

Three million Violent Storm Spirit recruitment books!

215 fragments of the Proof of Legion!

1,201,500 True Faith-Tier Scarlet Crystals! 835,100 Pious-Tier Scarlet Crystals! 463,300 Fanatic-Tier Scarlet Crystals!

More than 1,500 White Platinum-Tier and Yellow Gold-Tier mount contracts!

200,000 Iron-Eating Bear pet eggs!

200,000 Fear Falcon wings and Fear Falcon III radar!

59.6 million units of original gold!

As for the other loots, there was no need to describe them.

Zhou Zhou looked at the Loots and his gaze landed on the soldier types almost immediately.

When he saw so many soldier type recruitment books, he could not suppress the smile on his face.

"Haha..."

He laughed out loud.

A total of 4,789,175 soldier type recruitment books!

When they were recruited from the Gate of Summoning later, there would be a total of 4,789,175 new Subjects!

Oh my god!

He only had a total of 5,383,863 soldiers under his command!

This was almost equivalent to the total military strength of the new Blazing Sun Kingdom!

In total, there would be 10,173,038 soldiers!

In the outside world, this was almost comparable to the total military strength of five veteran Beginner Kingdom!

Compared to the newly established Beginner Kingdom, it was equivalent to the total military strength of 10 newly promoted Beginner Kingdoms!

Including the more than 8.4 million troops of the Star Alliance, the military strength he could control was almost 20 million!

Previously, the people of foreign race alliance that Floyd had created only had about this number.

And that was the allied army of 18 people of foreign race kingdoms!

He had actually already reached it.

Even Zhou Zhou was shocked by the speed at which his strength increased.

Then, he was pleasantly surprised and excited.

As expected of a monster ranch that had leveled up twice in a row!

This improvement really did not disappoint me!

He brought these four million recruitment books to the Gate of Summoning and spent the Mist Core to recruit all four million new recruits at once without hesitation.

Soon, more than four million recruits appeared neatly in front of Zhou Zhou.

"Greetings, Your Majesty!"

More than four million recruits roared in unison.

It was so loud that it shook the world!

When the female subject who had just joined the Blazing Sun Kingdom heard this voice, her body went limp. It was unknown if it was because she was frightened or for some other reason.

"Since you've come to the Blazing Sun Kingdom, you're our people from now on."

"As the King of the Blazing Sun Kingdom, I, Zhou Zhou, guarantee that I won't mistreat you!"

Zhou Zhou looked at the four million new recruits and was in an extremely good mood.

He, who rarely spoke at this time, also said a few words to these recruits.

The recruits were also very excited.

Even though they had just arrived at the Blazing Sun Kingdom, they could tell from the surrounding people that they had joined a powerful kingdom.

After all, that upright aura and confident and proud gaze could not be deceived.

Then, these recruits were brought by Bai Yun and the others to join the Blazing Sun Army.

At this moment, Zheng Yuanqi walked over with 12 people.

"Your Majesty!"

Zheng Yuanqi said respectfully.

"Greetings, Your Majesty!"

Seeing this, the 12 people behind him also said respectfully.

Zhou Zhou nodded.

"Who are these people?"

He looked at the 12 people behind Zheng Yuanqi.

"Your Majesty. They are especially outstanding subjects that I discovered during the process of accepting new subjects. Three of them have extraordinary identities. That's why I wanted to bring them over for Your Majesty to see." Zheng Yuanqi replied.

Zhou Zhou looked at the 12 people seriously again.

Soon, his eyes lit up.

This was because he realized that three of them actually emitted the faint aura of heroes.

Zhou Zhou immediately understood.

These should be the three Extraordinary-Tier heroes who had been rewarded by the Lord Talent, Embrace of the Conqueror, in his Conqueror Kingdom.

As for the other nine people, he glanced at the message.

He realized that they were nine Extraordinary-Tier Lifestyle Professionals.

These should be the nine Reputation Rating talents rewarded by the three Lord Announcement announcements on the Cerulean Planet.

After thinking it through...

A smile appeared on his face.

"Welcome to the Blazing Sun Kingdom."

"This King believes that This King's country will definitely not disappoint you."

Zhou Zhou said.

The 12 of them hurriedly replied without any arrogance.

Even though they were rare talents with three of them having Extraordinary-Tier hero slots, they immediately realized that there were many capable people in the Blazing Sun Kingdom after they entered.

It was not rare to see other Epic-Tier talents or even other Epic-Tier heroes.

How could they be proud?

However, this did not make them disappointed. Instead, it made them even more excited, feeling that joining the Blazing Sun Kingdom was the right choice.

Everyone hoped that the country they were in was a powerful country after all!

The King of the Blazing Sun in front of them made them even more shocked and impressed.

They had already heard about it before they came.

This King of the Blazing Sun, who owned the Blazing Sun Kingdom, not only had many capable people under his command, but he was also a super fierce person!

The news of him killing seven heroes of the people of foreign race alone with his spear had already spread.

There were even Legendary-Tier people.

In the entire Blazing Sun Kingdom, the human King of the Blazing Sun was the one with the strongest combat strength!

There were real battle results as evidence after all!

And such a fierce person actually spoke so kindly. When communicating with them, he did not have any arrogance from above, making people feel like they were bathing in a spring breeze.

This was simply too rare.

With such a monarch around and also so many fierce people supporting this monarch, the future of the Blazing Sun Kingdom would be bright if nothing went wrong!

Everyone sighed in their hearts.

Chapter 576: 31 Heroes! (1)

Zhou Zhou looked at the 12 people in front of him, especially the three heroes with Extraordinary-Tier slots. There was an irrepressible smile on his face.

At this moment, 11 more existences appeared in the distance.

Among them, six were humans and five were fog monsters.

At this moment, their bodies emitted a strong heroic aura.

"Greetings, Your Majesty!"

After they arrived in front of Zhou Zhou, they immediately knelt on one knee and said respectfully and fanatically.

Seeing their attitude, the three Extraordinary-Tier heroes who had just joined the Blazing Sun Kingdom were immediately stunned.

Then, they were deeply amazed.

Was this still a newly established human kingdom?

Not to mention the heroes they had just seen along the way.

What was going on with the 11 heroes in front of them?

Since when did heroes, an existence with an extremely high status, start to be sold wholesale like cabbages?

Shouldn't it be normal for a new Beginner Kingdom to only have three heroes at best?

The scene before them, if they did not understand the situation, they would probably think that they had come from an old Intermediate Kingdom or even a new advanced kingdom.

At the same time, Zhou Zhou looked at the 11 heroes kneeling on one knee and nodded. Then, he smiled and said.

"It seems that your Hero Inheritances have been accepted very smoothly."

"How can we disappoint Your Majesty!"

The 11 heroes said respectfully.

"Not bad."

Zhou Zhou smiled.

These 11 heroes were not born for any other reason. They were personally created by Zhou Zhou!

Yesterday, he led the army and killed 11 heroes of the people of foreign races on the battlefield of the people of foreign race alliance army. After that, he extracted the 11 Hero Inheritance Secret Manuals from their bodies.

After bringing them back to the capital of the Blazing Sun, Zhou Zhou almost immediately handed them to Bai Yun, Wu Xin, and the other main generals and asked them to reward the top 11 soldiers with the highest military merits according to the performance of the soldiers on the battlefield yesterday.

Regardless of birth, race, position, or qualifications!

Only in terms of military merits!

This created the 11 new heroes in front of him!

Among them, the lowest was a hero with an Epic-Tier slot, and the highest was a hero with a Legendary-Tier slot!

Their strengths were also at the Extraordinary-Tier and Epic-Tier!

With such slots and strength, they were enough to be a pillar of the country even in the Intermediate Kingdom or even an Advance Kingdom.

If word got out, it would probably shock the living beings of countless Races in the outside world!

Zhou Zhou was naturally quite happy.

The number of heroes under his command had already reached 31 with these 11 new heroes and the three heroes who had just joined the Extraordinary-Tier slots!

How could that Beginner Kingdom have such a strong reserve of heroes?

Not to mention that there were still three Hero Inheritance manuals that had yet to be exchanged for in his military merit exchange system.

If the three heroes of the Aurora Kingdom were willing to join him, they would be three more heroes!

"I can't be proud."

"Even though I'm developing well now, I'm still far inferior to an Empire like the Elven Empire that has hundreds of heroes."

"Not to mention a higher-level country."

"And at the moment, as a Kingdom-level Lord faction, Intermediate Kingdoms or even Advance Kingdoms are also qualified to attack me."

"Who knows if any heaven-defying Intermediate Kingdom or even Advance Kingdom has a faction like mine or even stronger?"

Zhou Zhou thought to himself.

The arrogance that had just risen in his heart immediately dissipated.

It was not that he did not want to be arrogant.

There was no benefit in being arrogant in this dangerous world. There was nothing wrong with being cautious.

"Go and prepare. Let's all participate in This King's founding ceremony later."

"This King doesn't want the enemies in the outside world to know for the time being that I have so many heroes under my command." Zhou Zhou said.

In a while, as the hosts, they would definitely hold a military parade to show their strength to the guests at the founding ceremony.

However, Zhou Zhou was naturally not stupid enough to expose all his strength at the founding ceremony just because he wanted to show off.

He just had to show the strength he had revealed previously again.

As for these new heroes in front of him, let them keep a low profile for the time being.

"Yes, Your Majesty." The 14 heroes said respectfully.

Then, he was taken away by Zheng Yuanqi to arrange their residence and positions.

At the same time, just as the capital of the Blazing Sun was preparing for the founding ceremony, in a Catacomb hundreds of kilometers away.

Seven people of foreign races of different races gathered here.

They have one thing in common:

Their bodies emitted the pressure of heroes.

At this moment, six of the seven heroes were looking in the direction of the Blazing Sun Kingdom in the distance, their eyes filled with aggro and coldness.

"Our kingdom lost heroes and a million troops in battle, and the entire kingdom fell because of this. The Lord of The Blazing Sun actually held a founding ceremony in the capital?!"

"My son was killed by the King of The Blazing Sun with a spear. This enmity is irreconcilable!"

"I really want to eat his flesh raw!"

"Damn the King of The Blazing Sun. I'll destroy his country one day!"

The six heroes of the people of foreign race said angrily.

Only the last hero sat on a huge rock, looking calmly and coldly in the direction of the Blazing Sun Kingdom.

It was about ten meters tall and had a humanoid body that was thin. Its limbs were slender and its entire body was covered in an ice-blue ice crystal. Even its eyes were ice-blue, and its body emitted a faint cold aura.

Chapter 577: 31 Heroes! (2)

It was a Legendary-Tier Hero from the Intermediate Kingdom—the Ice Demon Kingdom!

Ice Blood Ghost Spike—Arno!

"Why wait until the future? We'll cause a scene at their founding ceremony and embarrass him, the new King today!"

"You can use the random Teleportation Scroll I gave you to leave after causing a scene. No matter how strong this King of the Blazing Sun is, can he chase you billions of miles away?"

"Don't worry about your safety. Just cause destruction to your heart's content." Arno said coldly.

It was ranked within the top five even in the Ice Demon Kingdom.

She actually looked down on His Majesty for arranging for her to come here to deal with the King of a new Beginner Kingdom.

However, when she thought of the other party's results, she felt a little more fervent.

"The fact that this King of the Blazing Sun can kill seven heroes of the people of foreign race on the battlefield by himself is definitely not because he's very strong. It must be because he has a treasure that can allow him to fight above his level!"

"Perhaps it's a treasure rewarded by the Supreme Will after he became the Strongest Lord of All Races in the previous event!"

"The treasures on him will be mine as long as I kill him."

"When the time comes, my status in the Ice Demon Kingdom will definitely increase greatly. I might even be able to use that treasure to peep at the path of a God and step into the God Spirit slot!"

"At that time, the Ice Demon Kingdom will respect me!"

The more Arno thought about it, the more excited she became. She wished she could fly to the King of the Blazing Sun now, kill him, and obtain his treasures.

However, she was still there. She was quite calm and knew to be cautious at all times.

In the High Continent, there were not many cases of low-level Professionals being killed by low-level Professionals because they relied on their high realm.

Therefore, even though it looked down on the other party, it still decided to deal with it with all its might.

Arno looked at the six heroes of the people of foreign race.

These six heroes of the people of foreign races came from six people of foreign race kingdoms.

They were the six kingdoms in the people of foreign race's alliance army.

As for the other kingdoms and factions that participated in the people of foreign race's allied army, they were terrified by the results of the King of the Blazing Sun. When they heard that the Ice Demon Kingdom wanted to deal with the King of the Blazing Sun again, they did not want to send heroes to help in the battle at all.

The reason why these six heroes could come was not only because their Ice Demon Kingdom promised them heavy benefits, but also because the King of the Blazing Sun had killed their heroes and soldiers, causing their country to suffer heavy losses, so it created a huge aggro.

They only dared to come over to today's matter because of their aggro and benefits.

"What did you prepare?"

Arno glanced at the six heroes of the people of foreign race and asked calmly.

When the other heroes heard this, they immediately told her the methods they had prepared for today.

Arno listened calmly.

As Legendary-Tier heroes of the Intermediate Kingdom, these methods that Extraordinary-Tier and Epic-Tier slots regarded as their strongest trump cards were actually just ordinary trump cards to him.

She only really perked up its spirit after hearing the methods prepared by the two heroes of the people of foreign race.

These two heroes of the people of foreign race came from the Demon Thunder Kingdom and the Spiritual Gu Kingdom respectively.

The former prepared a Myriad Thunder Violent Storm Magic Forbidden Spell Scroll with the power of a Mid-level Deity-Tier Elementary Grade.

It was said that this was a Mid-level Deity-Tier forbidden spell scroll that the other party's founding emperor, the Demon Ape King, had sacrificed himself and fused many Deity-Tier materials before he died.

The hero of the Spirit Gu Kingdom brought a Low-Tier Deity-level Death Curse Blood Gu.

Even though this Death Curse Blood Gu was only a Low-Level Deity and looked weaker than the Myriad Thunder Violent Storm Magic Forbidden Spell Scroll of the Demon Thunder Kingdom, this Death Curse Blood Gu contained a complete Law Skill.

Law Skills were nothing.

Everyone present was from the veteran Beginner Kingdom, and Arno was from the veteran Intermediate Kingdom.

It seemed that the Kingdom's level was very low. It could only come into contact with Extraordinary-Tier, Epic-Tier, and Legendary-Tier powers.

However, they had existed in the High Continent for hundreds or thousands of years. Who didn't have a trump card that could fight above their level and intimidate the enemy country?

Even though the Law Skill was high-end, in their eyes, it was at most a normal national treasure and not a rare national treasure!

However, when the hero of the Spiritual Gu Kingdom said the nature of this Law Skill, the expressions of all the heroes present, including Arno, immediately changed.

All the heroes of the people of foreign races looked at the blood-colored worm in fear, as if this worm contained extreme terror.

While Arno was terrified, greed flashed in her eyes.

If not for the fact that she was wary of the kingdom's orders and that her family bloodline was still in the kingdom, she would have given up on this mission and snatched this little worm away.

"As expected of the Spiritual Gu Kingdom with the strangest methods."

"I didn't expect you to even nurture Gu worms that contain the instant death Law Skill."

Arno forcefully retracted the greed in her eyes and probed with a faint smile.

"The ancestors of our Spiritual Gu Kingdom were once a branch of the Myriad Gu Empire."

"This Death Curse Blood Insect was also passed down by the ancestors. There's only this one left."

"Moreover, only clansmen like me who contain the bloodline of the Myriad Gu Empire can barely control it."

"Other life forms without the bloodline of the Myriad Gu Empire can't control this Death Curse Blood Gu. If they forcefully control it, they will suffer the backlash of the Death Curse Blood Gu."

The heroes of the Spiritual Gu Kingdom said calmly. The other heroes were a little disappointed when they heard this.

Arno barely dismissed the idea of snatching the Death Curse Blood Gu.

After seeing the expressions of the heroes of the people of foreign race,

The hero of the Spiritual Gu Kingdom heaved a sigh of relief on the surface.

It took a huge risk to bring this only Death Curse Blood Gu out because it wanted to avenge the Chief High Priest of the Spiritual Gu Kingdom, the hero of the people of foreign race who was killed by the King of the Blazing Sun on the battlefield of the people of foreign race alliance!

Mo Ya and her were biological sisters who had grown up together. Their relationship was extremely deep. After hearing that Mo Ya had been killed by the King of the Blazing Sun, she decided to bring the Spirit Gu Kingdom's treasure, the Death Curse Blood Gu, over.

Now, she only hoped that she could personally kill the King of the Blazing Sun and avenge her sister!

Of course, she wanted to fight for some benefits for her country at the same time.

"Let me make things clear first."

"If I can use the Death Curse Blood Gu to kill that King of the Blazing Sun, I can give up on the Race divine artifact after the Blazing Sun Kingdom is destroyed, but I want 30% of the Blazing Sun Kingdom's wealth on behalf of the Spiritual Gu Kingdom!" She said coldly.

"Of course, if you can really kill the King of the Blazing Sun, the first credit will be yours. 30% of his wealth is nothing."

"That's right."

...

Arno and the other heroes of the people of foreign race agreed.

No one knew each others' true thoughts. Arno stood up after they discussed the specific actions again.

"Okay, I'll repeat the goal of this operation."

"Our main goal is to destroy the King of the Blazing Sun's founding ceremony. At the same time, we have to try our best to test the King of the Blazing Sun's methods. Our secondary goal is to kill him."

"Of course, if we can really kill the King of the Blazing Sun, the secondary and main targets don't matter."

"The main goal is to serve the secondary goal after all." Arno said.

"Got it!"

The six heroes of the people of foreign race nodded.

"Then get ready to move."

"Okay!"

"Yes!"

...

At the same time, in the Blazing Sun Kingdom.

Intermediate Grade Lord's Paradise.

It was half past nine. There was still half an hour before the founding ceremony officially began.

Zhou Zhou, who had just changed into the Emperor Dragon Robe and was about to go to the venue of the founding ceremony, suddenly felt an inexplicable sense of danger.

This warning sign was very clear, and it seemed to be not far from him.

Zhou Zhou narrowed his eyes slightly.

He knew that this was because his Danger Prediction had been triggered.

An enemy wants to harm me.

He was not flustered.

From the time he rose to now, he had led his troops to kill countless opponents, so he had accumulated many enemies.

It was not impossible for him to understand why these enemies chose to attack him on such an important day.

"But... We can't let rat sh*t ruin such a big day today."

Zhou Zhou muttered.

A treasure suddenly appeared in front of him with a thought.

It was the treasure he had obtained from the Aurora Kingdom, the Great Thousand Rivers and Mountains Painting!

Chapter 579: Arno's Divine Outfit (2)

"So bold of you to leave the city!"

"However, this guy only has the strength of an Extraordinary-Tier Advance Grade, but he can actually use such a powerful Law Skill."

"As expected of the Strongest Lord of All Races from the last event."

"As long as I kill him, the opportunities on him will definitely give me hope of becoming a god!"

Arno's eyes burned with ambition.

It was as if the opportunity on the King of the Blazing Sun was already in her bag.

As for the 10 subordinates beside him, she only glanced at them before looking away as if they were nothing.

They were all small characters at the Epic-Tier level.

Even though it was shocking that such powerful subordinates were in the hands of a new king who had just established the Beginner Kingdom, if she ignored this point, this strength was actually nothing to a Legendary-Tier expert like her.

At the same time, in the sky, Zhou Zhou was not surprised to see the seven heroes dodge his Thunder God Spear.

This was the first time he had used the Thunder God Spear, a Law Skill, so he was more or less unfamiliar with it. In addition, these people of foreign races were heroes with at least Epic-Tier strength. He could still do this with all his might.

Then, he raised his right hand and condensed another divine spear that emitted the aura of the lightning laws. Then, he looked at the seven heroes of the people of foreign races covetously.

His Chaos Human Constitution and the Original Spirit Race Constitution added up to an extremely huge amount of Chaos Origin Energy in his body.

Currently, he could condense 11 or 12 Thunder God Spears in a row without any problem.

It was not an exaggeration to say that he could deal with all seven heroes of the people of foreign races alone.

Bringing Bai Yun, Wu Xin, Chi Xuantian, and the others along was just to prevent them from escaping.

At the same time, after seeing the King of the Blazing Sun condense another Law Skill, the expressions of all the heroes of the foreign races present changed drastically, except for Arno.

In the face of such a terrifying Law Skill attack, they would definitely not be able to withstand the Blazing Sun King's attack other than unleashing methods like the Death Curse Blood Gu and the Myriad Thunder Violent Storm Magic Forbidden Curse Scroll.

"Why don't you show your trump cards! Do you want to save them for when you're dead?!"

At this moment, Arno roared at them.

Hearing this, the six people of foreign races gritted their teeth and immediately took out their trump cards.

Apart from the Death Curse Blood Gu of the Spirit Venom Kingdom and the Myriad Thunder Violent Storm Magic Forbidden Curse Scroll of the Demon Thunder Kingdom, there were also people of foreign race heroes who took out one-time burst-type Legendary-Tier Advance Grade treasures...

There were also heroes from the people of foreign races who took out Alchemy Potions that could increase their strength by a large level in a short period of time.

There were even heroes who carefully took out a zombie that emitted the aura of a Low-Level Deity-Tier Elementary Grade expert from their spatial treasure...

For a moment, a battle that was almost comparable to Deity-Tier had actually erupted near this small Jade Sun City!

...

"They are using all of their trump cards?"

Zhou Zhou could not help but be surprised when he saw the seven heroes of the people of foreign races show their abilities.

At the same time, he became even more cautious about the Kingdom-level factions in this world.

Previously, the Nether Bark Kingdom had been able to invite a lesser God Spirit to assassinate him!

And these Beginner Kingdoms in front of him could also use similar methods.

From this, it could be seen that even though the Beginner Kingdom was the lowest-level Lord faction in the kingdom,

However, if it developed for thousands of years, it would eventually accumulate some methods that exceeded its own level.

"I can't underestimate these Beginner Kingdoms just because my strength has increased."

Zhou Zhou thought to himself.

At the same time, just as these people of foreign races attacked...

There was no need for Zhou Zhou to order.

Bai Yun, Wu Xin, Chi Xuantian, Guo Qiao, Xu An, and the others also attacked, blocking the methods of these people of foreign races for Zhou Zhou.

Some resisted with difficulty, some resisted with ease, and some were evenly matched.

However, they could not stop the two people of foreign races, so Zhou Zhou did not let them.

These two methods of the people of foreign races were none other than the Demon Thunder Kingdom's hero's Myriad Thunder Violent Storm Magic Forbidden Spell and the Spiritual Gu Kingdom's hero's Death Curse Blood Gu!

The former appeared directly above Zhou Zhou in the form of rolling thunderclouds, completely locking onto him.

No matter where Zhou Zhou went, the thunderclouds would follow him.

Once others came into the range of the thunderclouds, not only would they fail to help Zhou Zhou block the power of the forbidden spell, but they would also trigger the mechanism of the forbidden spell, increasing the power of the lightning contained in the thunderclouds.

As for the latter's Death Curse Blood Gu, it seemed to have locked onto Zhou Zhou.

Bai Yun and the others wanted to block the Death Curse Blood Gu, but they realized that the blood-colored worm had passed through their bodies and was flying straight towards Zhou Zhou.

Bai Yun and the others still wanted to catch up and block him.

Zhou Zhou hurriedly stopped them.

With Bai Yun and the others' physiques, they should not be able to block this Death Curse Blood Gu. If they forcefully blocked this terrifying Gu worm, they would die.

He did not have many Holy Spirit-Tier Faith Divine Crystals after all. He could not lose one just because of this little bug.

Then, his gaze landed on the blood-colored bug that was flying over.

Seeing the blood-colored bug turn into a blood-colored light and rush towards him, Zhou Zhou only watched this scene with a faint smile. He had no intention of attacking.

At this moment, all the heroes of the people of foreign races couldn't help but look at the King of the Blazing Sun, even if they had to split their attention to fight.

Was the Death Curse Blood Gu about to succeed?

The next second.

They were shocked to see that the Death Curse Blood Gu landed on Zhou Zhou's body and bit him.

Thick spatial power erupted, forming a spatial passageway with endless suction behind it, directly sucking it into the spatial rift.

All the people of foreign races smiled.

"Hahaha, this King of the Blazing Sun will definitely die!"

"The instant death Law Skill of the Death Curse Blood Gu is infinitely close to 100% when facing an existence weaker than it! This King of the Blazing Sun is only an Extraordinary-Tier Advance Grade, but the Death Curse Blood Gu is a lesser deity-level Gu. The difference in strength is so great. If this King of the Blazing Sun doesn't die, I'll eat shit in public!"

"When this King of the Blazing Sun, who has no descendants, dies, the Blazing Sun Kingdom will collapse on its own! At that time, we will be able to obtain the wealth of his kingdom!"

...

The eyes of the heroes of the people of foreign races burned.

It was as if they had already pocketed all the wealth of the Blazing Sun Kingdom.

But in the next moment.

It was as if they had seen something that shocked them greatly. They looked at the King of the Blazing Sun in horror.

After the Death Curse Blood Gu bit down, the insect teeth that could bite through a God Spirit's body failed to bite through Zhou Zhou's body. Instead, two of its teeth were broken.

The Death Curse Blood Gu did not give up when it saw this. Instead, it was stimulated by the ferocity in its bloodline and took three bites in a row.

And then...

Its teeth were all broken.

Tears welled up in its eyes.

Its teeth hurt so much that it cried.

"Is my body hard?"

Zhou Zhou used his chaotic energy to transform into a chaotic hand. He lifted the little bug and asked with a smile.

He had long seen that this little bug contained the power of instant death.

He had mastered the power of this law himself after all.

It could be said that they were very familiar with each other.

In addition, he had long absorbed the bloodline of the Extreme Dragon Race and condensed the Extreme Dragon Body that was immune to the laws of instant death. Therefore, he was not afraid of this Death Curse Blood Gu at all.

Therefore, the Spiritual Gu Kingdom's method of protecting the country was almost like scratching an itch to him.

Chapter 580: Dropping A Set of Divine Equipment (1)

Zhou Zhou didn't even rely on the divine artifact—Shadow Cloak when facing this Death Curse Blood Gu. He only relied on his physical strength to firmly block this little bug outside his body.

Then, he carefully checked the Death Curse Blood Gu. After discovering that it did not have any hidden cards, he slashed with his right hand and opened a world crack that led to the small world in his body. He casually threw the little bug into the small world in his body.

Facing a small world created with the Thunder Law and the Dark Cloud Law as the foundation,

The Death Curse Blood Gu could be said to be completely countered in terms of Origin Stats.

Putting it into his small world, even if this little thing was a Low-Tier Deity Level Gu worm, it would not be able to turn the world upside down.

Then, he looked up at the dark clouds in the sky.

In the surging dark clouds in the sky, the spirit of the lightning bloodline of a huge ape condensed.

At this moment, it was emitting the terrifying aura of a Mid-level Deity-Tier Elementary Grade!

ROAR!

She was not afraid of Zhou Zhou at all and even looked at him curiously.

The lightning Elemental Spirit formed by the Demon Ape King's bloodline seemed to have been angered and immediately roared at Zhou Zhou.

Then, it immediately swooped down from the center of the dark clouds with a thunderous momentum, smashing towards Zhou Zhou with a shocking momentum.

Rumble...

The two collided in the blink of an eye.

The remaining lightning directly spread to a radius of five kilometers.

Fortunately, it was just some aftershocks, so Bai Yun and the others were not injured.

But even so, the heroes of the people of foreign races were still watching this scene in fear.

Even Bai Yi and the others, who were confident in their emperor, could not help but worry.

After a long time, the lightning dissipated.

Zhou Zhou floated in the void unscathed. Not only were there no wounds on his body, but even the Emperor Dragon Robe was not damaged.

"I'm fine. Focus on the enemy."

At this moment, Zhou Zhou's voice rang in the ears of his subordinates.

The heroes heaved a sigh of relief and continued to focus on dealing with the enemies in front of them.

The heroes of the people of foreign races fell silent seeing that Zhou Zhou was unharmed.

"Why is this King of the Blazing Sun so strong? Even a Mid-level Deity-Tier forbidden spell can't hurt him?"

"Let's run!"

"Where's Lord Ghost Spike? I wonder if she has any trump cards? Why isn't she attacking?"

...

The hearts of the people of foreign races wavered.

However, they were still confident of escaping with the Random Teleportation Scroll, so they were not very panicky.

They wanted to see what trump cards the hero from the Intermediate Kingdom had.

At the same time, Zhou Zhou was also watching the battlefield.

As for the Ten Thousand Lightning Violent Storm just now, it was naturally useless to him, who had the divine body of lightning.

It even replenished the consumption of his previous Thunder God Spear.

He casually condensed two Thunder God Spears and threw them at the heroes of the Spiritual Gu Kingdom and the Demon Thunder Kingdom.

How fast was the lightning?

There was a loud bang.

Before the two heroes of the people of foreign races could take out the random Teleportation Scroll and escape, they were blasted into pieces by the Thunder God Spear.

"Fortunately, I can also extract loot from bits and pieces."

"Otherwise, I would have lost two Hero Inheritance manuals."

When Zhou Zhou saw this, he muttered inwardly.

Then, he looked at the battlefield again, looking for an opportunity to attack.

But as he watched, he raised his eyebrows slightly.

"Hmm?"

"What about the heroes of the Ice Ghost Kingdom?"

He muttered to himself.

At this moment, he felt a slight sense of alarm in his heart.

An ice-blue figure suddenly pierced out of space with an ice-blue dagger in her hand and stabbed at Zhou Zhou.

It was the Ice Blood Ghost Spike—Arno!

"Die!"

Arno's expression was ferocious.

She had already used her full strength in this attack.

But just as its dagger was about to pierce Zhou Zhou's neck...

A hand that emitted a faint white light slightly blocked in front of the dagger and grabbed it, preventing Arno's attack from advancing.

When Arno saw this scene, not only did she not panic, a sly smile even appeared on her face.

The next second.

The dagger suddenly released a huge amount of energy to attack Zhou Zhou.

And the power of this energy attack had shockingly reached the level of a High-Level Deity!

"A dagger that can release a full-strength attack from a High-Level Deity-Tier is considered a national treasure in our Ice Demon Kingdom."

"His Majesty really values you."

"Even such a treasure is specially used to deal with you."

Arno looked at the King of the Blazing Sun, who was covered by the energy shockwave. She knew that the other party would definitely die, so she subconsciously relaxed and said indifferently.

But at this moment, an illusory arm that emitted a faint grayish-black light, as if it was formed by dark clouds, suddenly flew out from the energy shockwaves. It grabbed her by her neck and lifted her up.

Arno's ice-blue eyes widened as she tried to shake off the arm in horror.

However, the divine power contained in this arm made her unable to escape no matter what method she used.

After the energy shockwaves dissipated, Zhou Zhou's unscathed figure appeared in front of Arno.

However, the current her was somewhat different from the human form just now.

The current Zhou Zhou seemed to be made of pitch-black dark clouds, looking deep and mysterious.

"You... you..."

Arno looked at Zhou Zhou in horror.

How is that possible?

That was an all-out attack from a High-level Deity-Tier. How could it not even kill an Extraordinary-Tier Advance Grade Lord?

What kind of existence is this guy?

At this moment, an unprecedented fear finally surfaced in her eyes.

She felt that this human in front of her could not be dealt with at all. He was like the incarnation of invincibility.

Zhou Zhou also looked at Arno.

The attack that this guy had unleashed just now was indeed extraordinary.

If not for the fact that he was not only the God of Lightning, but also the God of Dark Clouds, and could immediately transform his lightning body into a divine body made of dark clouds, greatly reducing the attacks that descended on him. He might really have been reduced by this attack to resurrect The Lord Of The End once.

He looked unscathed now, but in fact, more than 90% of the divine power in his body had been consumed to resist the attack just now.

"I still lack actual combat experience."

Zhou Zhou concluded in his heart.

This was also the reason why he came to the battlefield.

He had four resurrection spots now.

With so many resurrection spots in hand, he could now boldly come into contact with combat.

Otherwise, in the future, if the soldiers in front of him could not withstand the enemy's attack, if he did not have any combat experience, he could only fight in a panic and be killed by the enemy with rich combat experience.

Now that he had enough resurrection times, it was a good time to nurture his combat experience.

Fortunately...

This time, it was a close call.

Not only did he accumulate combat experience, the number of times he revived also did not decrease.

Then, he looked at the hero of the Ice Ghost Kingdom in his hand.

At this moment, the hero of the Ice Ghost Kingdom still wanted to escape from Zhou Zhou's grasp and kept attacking him.

However, now that he was maintaining the Dark Cloud Divine Body formed by the divine power of the dark clouds, even an attack from a High-level Deity-Tier could offset most of it, let alone the attack of a mere Legendary-Tier hero from the people of foreign races.

Her attacks landed on him, but they were useless. She was defeated.

"You can't get away with this. If you want to live, there's only one way. Surrender and join This King's Blazing Sun Kingdom. This King can spare your life." Zhou Zhou suddenly said.
