#### Chapter 61: Blood Fire Arrow Elf- Bai Yi! The Blazing Sun Army Is Established!

Zhou Zhou quickly encountered Bai Yi, who was rushing over.

"Greetings, my Lord!"

Bai Yi said respectfully immediately after seeing Zhou Zhou.

Her face was still filled with excitement.

He was clearly very surprised by his gains.

Zhou Zhou looked at Bai Yi in a daze.

At this moment, Bai Yi's hair had changed from black to blood-red long hair.

Her skin had also become as fair as milk.

Her big eyes had also turned pure blood-red.

Flame marks that looked like tears appeared on both sides of her face. Not only did it not damage her looks, but it also added to her wild beauty.

Her height had increased, and her legs were even longer. Her figure had also become taller.

She was wearing blood-red military equipment and carrying a blood-red bow and arrow on her back.

Wisps of fire elemental energy, wood elemental energy, and a blood-colored energy surrounded her, as if the other party was a favorite of these three elements.

This was not the most important thing.

The most shocking thing was that Zhou Zhou could feel the other party's vigorous blood energy and mental strength just by standing in front of her!

In Zhou Zhou's mental perception, the other party's current physical and mental strength was even much more exaggerated than the Scarlet Lords he had encountered.

Bai Yi also realized something and immediately restrained her overflowing life aura, returning to the aura of a normal person.

"I didn't mean to offend my Lord!"

"Please punish me, my Lord!"

Bai Yi immediately half-knelt on the ground.

"It's okay."

"I know you didn't mean to."

Zhou Zhou helped her up and opened her attribute information curiously.

Zhou Zhou's mouth fell open.

Wasn't this attribute panel too luxurious?

Especially in the skill column.

There were so many skills that there were ellipses.

However, Zhou Zhou was most curious about her level.

He opened the column.

Specific information appeared.

[Epic-Tier Hero's Fate Level: The Fate Level acknowledged by the Supreme Will has left its own mark on the River of Time. It can be revived by a specific living being after tracing the mark. Fate Position Amplification: Physical Strength+2,000%, Soul Strength+2,000%, Life Willpower+500%!]

Zhou Zhou clicked his tongue.

Her physical strength and soul strength had increased by 20 times!

No wonder he felt that ridiculous blood energy and mental strength.

Such an existence.

Perhaps she could casually fight a hundred or even a thousand people on the battlefield?

Only such an existence could be called a hero.

The more Zhou Zhou looked at it, the more he could feel Bai Yi's strength.

He was very happy.

The stronger Bai Yi was, the more guaranteed both his and Blazing Sun City's development was!

"Rest for an hour."

"Grab hold of your new power!"

"In an hour."

"Let's go suppress that regional Scarlet Lord!"

Zhou Zhou said in a low voice.

"Yes, my Lord!"

Bai Yi said respectfully.

An hour later, outside Blazing Sun City, a total of 3,885 soldiers gathered here and lined up neatly!

Standing at the front was undoubtedly the Lord, Zhou Zhou.

Beside him was Nezario, who was lying on the ground.

Not far in front of him were Bai Yi and Zhang Cang, who were looking at him respectfully and fanatically.

Behind them stood a team of more than 3,000 soldiers.

Among them were:

1,202 Poisonous Crossbowmen!

1,478 Sword Shield Soldiers!

1,162 Elemental Archers!

39 Elemental Archers of the Elves!

There was also a cavalryman and a spearman!

Moreover, they were well-equipped!

Some wore the Fire Demon Fog Wolf Set, while others wore the new military equipment that Carter Kim and the other blacksmiths had created that matched their strength.

Further back, was a convoy of 100 mechanostriders and simple wooden carts.

Zhou Zhou looked at them and he was filled with pride.

They were the strongest strength Zhou Zhou had now without a doubt!

Zhou Zhou was also confident.

In the future, he could expand the team in front of him to ten times, a hundred times, or even more!

But before that, he had something important to do now.

"In a while, I will lead you all to the Sandman Lord and destroy the last Scarlet Lord faction in the Blazing Sun Desert!"

"Right now, I have an important decision to make!"

"I'm going to merge you into a complete army!"

"This army will be called the Blazing Sun Army!"

"It represents the first army of our Blazing Sun City!"

"And you!"

"You will be the first batch of soldiers to join the Blazing Sun Army!"

"Blood Fire Arrow Elf - Bai Yi!" Zhou Zhou looked at Bai Yi.

"I'm here!" Bai Yi said respectfully.

"You've followed me the longest and are the strongest amongst everyone here. You're also the first hero in the territory!"

"I hereby appoint you as the first Legion Commander of the Blazing Sun Legion!"

"Understood!" Bai Yi said firmly.

"Zhang Cang!"

"I'm here!"

"As the first Sword Shield Soldier in Blazing Sun City and the strongest Sword Shield Soldier now, I appoint you as the Deputy Commander of the Blazing Sun Legion!"

"Understood!" Zhang Cang's calm expression revealed some excitement.

"As for the specific lower ranks, soldiers can obtain them with military merits!"

"And right now."

"Military merit is already in front of us!"

"It definitely belongs to the Blazing Sun Army!"

"On my command!"

"Depart!"

"Strike the Sandman Lord!"

"Yes!!!" The soldiers roared. Their voices shook the world!

In the Blazing Sun City.

The life profession subjects and unemployed subjects who saw this scene were also very excited.

...

At the same time...

In the Elven Empire billions of kilometers away from Blazing Sun City.

The capital of the Elven Empire, Alanos.

In the Imperial Palace.

"Astrologer Méaulte."

"You're saying that a Lord from another world obtained the Hero Inheritance of our Blood Fire Arrow Elf?"

An elf in a gorgeous and resplendent dress sat upright on the throne, looking calmly at a female elf in the astrologer's uniform below.

She was the Empress of the Elven Empire.

The Original Elven Empress, Elizariel!

"I'm absolutely certain."

Your Majesty! Every hero is an imperial treasure. It's also our main combat strength against the other empires and the Scarlet Lords!"

"And Nadia's Hero Inheritance originally belonged to our Elven Empire. We can't let her fall into the hands of outsiders!" Astrologer Méaulte said.

"Have you divined where that Lord is?" Elizariel asked.

"The divination is out. Even though it's relatively far away."

"But we can reach there in a short period of time at a price." Méaulte said.

Elizariel did not reply, seemingly deep in thoughts.

Every hero is the treasure of the Empire just as Méaulte said.

She possessed the huge Elven Empire which only had a little more than 100 Elven heroes as of now.

Moreover, a large portion of them were Elven heroes with low status.

Therefore, she also valued the appearance of new elven heroes.

The Imperial Palace fell silent.

Méaulte stopped talking.

A moment later.

"Ignore that Lord first."

"There's an Agreement with the Supreme Will."

"We can't attack the Lords races below the Empire level for no reason."

"Don't even think about challenging the dignity of the Supreme Will!"

"However, you can pay attention to that Lord's faction for the time being."

"Bring back the heir of the Blood Fire Arrow Elf if his faction fails in the competition for the title of Lord of All Races." Elizariel spoke.

Méaulte opened her mouth as if she wanted to say something.

But in the end, she said nothing.

After that, Elizariel let the Astrologer leave.

Elizariel was the only one left in the huge Imperial Palace.

She stood up and waved her right hand gently.

A crystal coffin appeared in front of her.

Elizariel looked over.

The life form lying in the crystal coffin was Nadia, the Blood Fire Arrow Elf!

Her skin was fair and tender, and she even breathed faintly, as if she was alive.

However, for some reason, she had yet to wake up.

"Is it a coincidence?"

"The Time Pryer just found your mark of fate not long ago."

"Your Hero Inheritance appeared in the world at the same time."

"That's good too."

"I won't have to wait for too long..."

"for my Elven Empire to possess two Blood Fire Arrow Elves."

Elizariel stroked the crystal coffin and muttered to herself as she looked at Nadia's face inside.

Actually, in her heart, even though the successor of Nadia's Hero Inheritance was worthy of attention, it was not too important.

Nadia, the true Blood Fire Arrow Elf, was about to be resurrected!

How could her successor compare to the first generation?

As for the Lord who had the successor of the Blood Fire Arrow Elf Hero Inheritance, in her heart, she felt that it would probably not be long before he died in the wave of the competition for the title of Lord of All Races.

When the time comes...

Both Blood Fire Arrow Elves would naturally become hers.

**Chapter 62: Hero Technique - Stabilizing Morale! Incite Defection Again!**

In the desert.

Zhou Zhou and the soldiers looked at the sandman's territory in the distance.

The huge hole that Nezario had melted with the magma dragon breath on the huge desert pyramid the last time was still there.

About 100 to 200 sandmen were repairing the pyramid while a portion of the remaining sandmen patrolled the perimeter of the pyramid.

The others which were not immediately visible should be in the pyramid.

The corners of Zhou Zhou's mouth curled up slightly before he looked at Nezario, who was not far away.

Nezario instantly understood Zhou Zhou's thoughts.

It slowly flapped its wings and flew into the sky straight to the pyramid.

"Prepare for battle!"

Zhou Zhou ordered in a low voice.

"Yes!"

Bai Yi and Zhang Cang immediately responded and told all the soldiers to prepare for battle.

...

On the other side, Nezario, which was zooming towards the pyramid, quickly attracted the attention of all the sandmen with its huge size.

When these sandmen found out that the visitor was actually the evil dragon that destroyed their pyramid previously, they immediately became angry.

It wasn't enough to bully us once, you want to bully us a second time, right?

There's no end to it, right?

The sandmen roared angrily. Then, they picked up everything they could throw at Nezario in the air.

However, what they threw could not hit Nezario at all at the height it was flying at.

The next second, an overwhelming dragon might descended with a dragon roar!

All the sandmen were so frightened that they could not move immediately.

The entire territory of the Sandman Lord suddenly fell silent.

Nezario seized the opportunity to dive down. When he was still 40 to 50 meters away from the top of the pyramid, he suddenly opened his dragon mouth.

Magma Dragon Breath!

BOOM!

The scorching magma spat out from Nezario's mouth was like a torrent and instantly covered the top of the pyramid again.

Once the magma dragon breath was unleashed, the sandmen realized that not only had the repairs been in vain, but the pyramid had also suffered greater damage than last time.

At this moment, many Sandman, Elite Sandman, and Sandman leaders regained mobility because the effects of the Dragon Might had already disappeared.

They threw their weapons at Nezario with all their might in their anger.

This time, Nezario was hit.

However, even their Lord would not be able to pierce through the thick Lava Armor on its body.

The attacks of these Black Iron and Green Bronze-Tier Sandmen did not even make a scratch on Nezario.

Nezario only glanced at the sandmen monsters that dared to offend it. Their bodies burned out of thin air, and they quickly died under the flames.

No one else dared to attack when they saw that.

Nezario glanced coldly at the cowardly Sandmen, Elite Sandmen, and Sandmen leader.

Then, it suddenly flapped its wings and flew into the sky again.

It was not interested in these weaklings as a dragon with noble bloodline.

Its actions just now were firstly because it obeyed its master's orders, and secondly, it felt that it was fun.

It completed its order and had enough fun. It was time to be prepared to deal with the regional Scarlet Lord.

Even though it felt that it would definitely win!

However, the principle of a lion doing its best to capture a rabbit ran through its veins as its dragon bloodline inheritance.

Therefore, it would not underestimate any enemy!

At the same time...

Nearly a hundred kill notifications immediately appeared in front of Zhou when Nezario melted the pyramid again.

There was no lack of monsters at the level of the Sandman Elite and the Sandman Leader.

"We can start attacking!"

Zhou Zhou ordered calmly.

The enemy was still in an extremely chaotic state so it was a good opportunity to take advantage of the situation.

Bai Yi immediately carried out Zhou Zhou's orders.

Soon, more than 3,800 soldiers cried out war cries and rushed towards the sandmen in the chaos.

They pressed forward like a torrent, not afraid of the enemies in the distance at all.

The reason why they were so fearless even if the enemy were under the command of a regional Scarlet Lord was firstly, because Zhou Zhou's soldiers had won all the battles so far.

These victories increased their confidence and courage in the face of the enemy to a certain extent.

On the other hand, it was because of Bai Yi's hero skill from the Blood Fire Arrow Elf.

Hero Skill: Stabilizing Morale!

[Hero Skill: Stabilizing Morale]

[Level: Green Bronze-Tier Intermediate Grade - Enhanceable]

[Skill Effect One: The Blood Fire Arrow Elf can allow your soldiers to still attack fearlessly when facing a strong enemy and maintain strong morale when the Blood Fire Arrow Elf is on the same battlefield!]

[Skill Effect Two: If your own faction loses to the enemy faction, the Blood Fire Arrow Elf can maintain the basic morale of the remaining soldiers of your own faction to fight again!]

[Skill Effect Three: The Blood Fire Arrow Elf can allow the soldiers of your own faction to avoid or weaken some of the negative effects of the bloodline pressure, mental deterrence, soul control, and other willpower from the outside world.]

[Note: It can currently affect a total of 7,000 units of soldiers from your own faction. The range and effect will increase as the Blood Fire Arrow Elf grows!]

This hero skill was very strong.

However, what Zhou Zhou valued the most was its Skill Effect Three.

This was because Zhou Zhou had always been worried that his soldiers would encounter a similar situation in the future after seeing the astonishing effect of Nezario's Dragon Might.

When the time comes...

It would probably be very difficult for them to resist the pressure of a powerful bloodline without corresponding defensive methods.

It would be very likely that they would be reduced to lambs waiting to be slaughtered like the monsters in the monster ranch.

However, now that he had Bai Yi's morale stabilization skill, they had some means to save themselves in such a situation at the very least.

...

In the distance.

The sandmen quickly saw more than 3,000 human soldiers rushing over from afar.

It was as if they had received an order.

They no longer cared about the Lava Dragon in the sky.

A portion of the sandmen picked up their weapons and rushed towards the enemies who dared to offend them.

Another portion of the sandmen stood where they were and began to summon the others.

As a large number of sandmen began to be summoned, the sandmen in front of them began to increase at a terrifying speed visible to the naked eye.

In an instant...

There were more than 2,500 sandmen from the original 1,000!

Zhou Zhou was not surprised to see this.

This was how the Sandmen fought.

The lowest Black Iron-Tier Elementary Grade Sandman was in charge of blocking the enemy!

The Black Iron-Tier Intermediate Grade and Black Iron-Tier Intermediate Grade Sandman were in charge of summoning the Sandman at the back to increase their troop numbers!

Even though these summoned sandmen only existed temporarily, it was useful!

After using one batch, they could summon another batch!

As long as there was enough energy in their bodies,

An endless stream of sandmen would crush the enemies sooner or later.

This was also why the Sandman Lord could rely on these subordinates to become a regional Scarlet Lord faction!

Zhou Zhou suddenly felt that it looked inexplicably familiar when he thought of this.

Isn't this my f\*cking human wave tactic?

He shook his head and stopped thinking nonsense.

Then, he stretched out his right hand and aimed at the sandmen.

The Incite Defection Talent that had long cooled down was suddenly activated!

BOOM!

An invisible wave instantly covered all the sandmen fighting and the sandmen in the pyramid.

[Prompt: You have activated your Lord's exclusive talent, Incite Defection!]

[Incite Defection has taken effect!]

[Lord Talent Hint: A total of 10 Black Iron-Tier Elementary Grade Sandmen, six Black Iron-Tier Intermediate Grade Sandmen, and two Green Bronze-Tier Elementary Grade Sandman leaders have betrayed their Lord's faction and become your loyal subordinates!]

At this moment.

Zhou Zhou could feel 18 more sandman monsters had become his loyal subordinates.

He could sense their existence and could also issue some orders from afar.

"Rebel!"

Zhou Zhou directly ordered all the sandmen who had been instigated to defect.

...

In the sandman camp.

A sandman who was fighting a Sword Shield Soldier was stunned.

Then, he turned around and slashed at his sandman compatriots.

The sandman companion looked at it in confusion.

The Sword Shield Soldier opposite him was also stunned.

What is going on?

Did it miss its target?

Missing at this range is a little ridiculous !

...

Behind the sandman.

The two Green Bronze-Tier Elementary Grade Sandman leaders who had just summoned the Sandman suddenly trembled. Then, their eyes became much clearer.

They looked at each other and instantly understood the deeper meaning in the other party's eyes.

They confirmed that they were all traitors.

The two sandman leaders silently retracted their gazes. Then, they controlled the summoned sandman to launch a sneak attack on the surrounding sandman 'compatriots' that were being summoned.

Chaos began at this moment!

[\*\*Global Lord: 100% Drop Rate\*\*](#)

**Chapter 63: Hero Skill—Blood Fire Meteor! The Sandman Lord Appears!**

Zhou Zhou looked at the slightly chaotic scene behind the sandman and pondered.

Incite Defection might be a Black Iron-Tier Lord talent that could only turn 2% of the enemy Lord's forces into loyal subordinates at any one time but he personally felt that the future potential of this talent was still very high.

They were instigating the rebellion according to the percentages after all.

If he could use the Lord Talent Fragment to increase its talent level, in the future it was not impossible for him to wave his hand and make all of this enemy surrender.

"Upgrading my 100% drop rate to the Mythical-Tier by collecting one billion Black Iron-Tier Lord Talent Fragments, is something I might not even achieve even after the competition for the title of Lord of All Races ends."

"Wouldn't it be a waste not to use this large pile of fragments?"

"Why don't I use the Lord Talent Fragments I collected to upgrade my other Lord Talents!"

"It's best if it is those Lord Talents with the potential to improve."

"This can also strengthen my territory."

"Moreover, if my territory becomes stronger, I will also come into contact with more secrets of the High Continent."

"At that time, I might be able to upgrade my 100% drop rate Lord Talent in other ways."

Zhou Zhou was deep in thought.

Then, he stopped thinking about it and summoned eight Green Bronze-Tier Elementary Grade Sand Cavalry through the Emperor of Sand's spatial ring.

After he broke through to the Green Bronze-Tier Elementary Grade and enhanced his Elementary Grade Mental Potential, his current mental strength was already enough for him to summon eight Green Bronze-Tier Elementary Grade Sand Cavalry.

Then, he summoned a Green Bronze-Tier Elementary Grade Sandman Leader through the Green Bronze-Tier Elementary Grade Summoning skill he had obtained in the morning.

[Skill Name: Summon Sandman Leader]

[Skill Quality: Green Bronze-Tier Elementary Grade]

[Skill Description: Summoning-type skill. Controls the sand element and condenses a Green Bronze-Tier Elementary Grade Sandman Leader that completely obeys your orders and will get Sandmen of Elementary Grade Intelligence to fight for you.]

The summoned Sandman Leader did not have the ability to summon, but it had the physique of a normal Green Bronze-Tier Elementary Grade Fog Monster.

Coupled with the Green Bronze-Tier Elementary Grade Sandification ability, it could at least be a meat shield on the battlefield.

After that, Zhou Zhou did what he did the last time, he got the Sandmen he summoned to charge into the battlefield and carry the injured soldiers back to Zhang Qianjing and the other two doctors for treatment.

In addition, they had already brought enough life potions this time, so they were not worried about not running out.

...

At the same time...

On the battlefield.

The Blood Fire Arrow Elf, Bai Yi, was riding on a mechanostrider and shooting arrows at the edge of the battlefield.

Every arrow of the Hero Bai Yi was extremely lethal.

Even a Green Bronze-Tier Intermediate Grade Sandman leader could be easily killed by her arrow!

A cold glint flashed across her eyes just as she saw the sandman monsters summon a large number of sandmen.

Bai Yi suddenly stopped the mechanostrider.

She drew her bow and aimed at the group of sandmen controlling the summoned creatures.

Then, she took a deep breath.

At this moment, Bai Yi felt as if she resonated with the battlefield.

Every scene on the battlefield appeared clearly in her perception.

Not only that, she could still sense the surging blood energy on the battlefield.

Moreover, she felt that she could clearly sense the elemental energy in every elemental archer on the battlefield and could even mobilize them!

And so she did.

The next second.

BOOM!

Everyone suddenly realized.

The blood energy in the air suddenly became restless and surged in Bai Yi's direction.

The senses of the 1,162 elemental archers were especially obvious.

This was because they also felt an insignificant wisp of fire elemental energy fly out of their bodies and converge on Bai Yi's fiery red bow.

Zhou Zhou also looked at her as if he had sensed something.

Flame arrows burning with the color of blood condensed around Bai Yi's body.

Ten, dozens, hundreds, hundreds...

In the blink of an eye.

A total of more than 1,000 Flame Arrows appeared in the air around Bai Yi.

The tips of their arrows were aimed at the Sandman camp, and the arrows trembled slightly.

It seemed to be about to shoot out and kill the enemy in the distance in the next second!

It was the Hero Skill, Blood Rocket Rain!

[Hero Skill: Blood Rocket Rain]

[Level: Gradeless]

[Skill Effect: The Blood Fire Arrow Elf spreads its perception throughout the entire battlefield and understands every dynamic on the battlefield. At the same time, she can mobilize the blood elemental energy on the battlefield and the fire elemental energy in all the elemental archers' bodies to gather around her, forming a vast number of Blood Fire Killing Arrows to kill more distant enemies!]

At this moment, the sandman seemed to have received some orders.

They abandoned the enemies in front of them and ran towards Bai Yi.

"Stop them!!!"

"Don't let them affect the Legion Commander!"

Zhang Cang, who was fighting a bloody battle, cried out the order when he saw this.

Then, he rushed over immediately.

...

"Go!"

Bai Yi ignored the sandmen rushing towards her.

His eyes were as calm as an eternal iceberg.

The next second.

She released the bowstring!

Whoosh, whoosh, whoosh, whoosh, whoosh, whoosh...

Thousands of Blood Fire Arrows instantly shot out as if it had been released.

They quickly streaked across the sky like a blood-red meteor shower that ran rampant in the sky accompanied by the sound of air exploding. In the blink of an eye, they landed behind the sandman.

Boom boom boom boom boom boom boom boom boom boom...

Every Blood Fire Killing Arrow that landed around the sandman would instantly explode, killing all the sandmen within a radius of four to five meters and leaving behind a pile of burning sand.

Thousands of Blood Fire Killing Arrows turned the sandmen's backup into a sea of fire.

This Blood Fire Arrow Rain directly killed six to seven hundred sandman monsters!

It directly destroyed more than half of the Sandman subjects!

Zhang Cang and the others, who were blocking the sandman monsters, suddenly saw the sandmen in front of them stiffen. Then, they collapsed into countless sand and scattered on the ground.

The soldiers of Blazing Sun City on the battlefield also saw many sandman summons suddenly collapse into sand.

The pressure on them instantly lessened greatly!

...

"Huar... Huar..."

Bai Yi put the bow back on her back and panted slightly. Her face was a little pale.

She sensed the elemental energy in her body and realized that there was only about 5% left.

Not only that, her mental strength was almost exhausted.

Even the blood energy in her body had temporarily decreased a lot.

Her expression did not change.

It seemed that Blood Fire Arrow Rain was a strategic-level hero skill!

Even if she was a hero now, she could only release it once in a short period of time.

She would have to at least recover completely before she could release it again.

Not far away, Zhou Zhou nodded slightly when he saw this.

This was the strength of a hero!

Bai Yi's attitude just now almost gave him the illusion that he was seeing Nadia's last arrow again.

At this moment, a sandman holding a golden staff and wearing a golden mask walked out of the pyramid.

It was more than three meters tall and looked quite tall.

It glanced at Nezario above its head when it emerged, then its gaze passed through the battlefield and looked directly at Zhou Zhou at the rear.

Zhou Zhou also looked at it calmly.

Monster information appeared.

[Monster Name: Sandman Lord - Simon (Scarlet Lord)]

[Strength Level: White Silver-Tier Elementary Grade]

[Monster Description: The strongest Scarlet Lord in the Blazing Sun Desert. It controls the entire Blazing Sun Desert and has many Sandman subjects under its command. It is good at summoning and was once a member of the Emperor of Sand's race when the Emperor of Sand was alive!]

[Loots: 10 White Silver-Tier Mist Cores (Drop Rate: 100%), five Origin Crystals (Drop Rate: 100%), 300 kg Black Iron-Tier Sand Crystal (Drop Rate: 20%), one White Silver-Tier Elementary Grade Sandman Scepter (Drop Rate: 10%), one White Silver-Tier Elementary Grade Sandification Skill Book (Drop Rate: 5%), one White Silver-Tier Elementary Grade Sandman Summoning Lord (Drop Rate: 2%), one White Silver-Tier Elementary Grade Alchemy Pharmacist Recruitment Book (Drop Rate: 1%), six Black Iron-Tier Elementary Grade Lord Talent Crystal Fragments (Drop Rate: 0%)]

**Global Lord: 100% Drop Rate**

**Chapter 64: Killing The Sandman Lord! Emperor Of Sand's Item!**

"Destroy it!"

Zhou Zhou ordered calmly.

"ROAR!"

Nezario and Zhou Zhou were telepathic. After receiving his order, it immediately roared at the other party and released its dragon might to control it on the spot.

Then, it swooped down and fired a magma dragon breath at the other party.

The Sandman Lord Simon's pupils constricted slightly.

It suddenly smashed the scepter to the ground.

BANG!

The next second.

The scorching lava dragon breath directly buried the immobile enemy below.

When Zhou Zhou saw this, a smile appeared on his face.

But in the next second.

His eyes narrowed slightly.

He suddenly felt that something was wrong.

Why wasn't there a kill notification?

Nezario had already noticed the abnormality.

It looked not far away and saw a figure running away in the distance.

It was the Sandman Lord, Simon!

"Trying to escape?"

Zhou Zhou raised his eyebrows.

This was the first time he had encountered a Lord who knew how to escape.

Then, Nezario chased after him without the need for his reminder.

Bai Yi also activated the overload mode of the mechanostrider—Little Bird Run. She chased after it extremely quickly.

The dragon and the woman quickly caught up to the Sandman Lord.

The Sandman Lord also noticed the two pursuers.

Its expression changed slightly. Then, it chanted an incantation and knocked the scepter on the ground twice.

Two White Silver-Tier Elementary Grade Sandman Lords instantly condensed.

Then, one pounced on Bai Yi while the other Sandman Lord suddenly stepped on the ground and jumped dozens of meters high before punching Nezario.

Nezario's dragon eyes turned cold.

It opened its dragon mouth and ate the Sandman Lord that rushed up. Then, it chewed and spat it out in disdain.

Bai Yi was not afraid at all when she saw the Sandman Lord rushing over.

Even if she was only at the Green Bronze-Tier Intermediate Grade who had just consumed a lot of energy...

And even if the other party was a summoned creature, it was also a true White Silver-Tier Elementary Grade...

There was actually not much difference between the two with the enhancement of the Epic-Tier Fate Level.

Bai Yi did not even slow down the mechanotrider.

She drew her bow and a Fire Vine Arrow condensed from fire and wood elements appeared on her bow out of thin air!

Whoosh!

The Fire Vine Arrow shot out quickly and hit the summoned creature squarely.

Not only did it retreat more than ten steps, but more than ten flame vines also grew crazily from the place they had hit, firmly binding it.

Then, Bai Yi drew her bow four times in a row!

Four Fire Vine Arrows shot out almost consecutively, scattering around the other party's body.

Bai Yi snorted and continued to pursue the Sandman Lord.

At this moment, Nezario opened its dragon mouth and spat out another magma dragon breath, spraying it at the fleeing Sandman Lord.

The Sandman Lord panicked.

It knocked its scepter six times in a row and summoned six summons of the White Silver-Tier Elementary Grade Sandman Lord to block behind him, trying to block their attacks.

But in the next second.

The magma dragon breath directly exploded the summoned creatures of the six Sandman Lords, and then its power blasted onto the Sandman Lord without decreasing.

After the dragon breath dissipated, only the tattered corpse of the Sandman Lord was left on the ground.

"As expected of the Lord's pet, the legendary dragon."

"Completely crushed them."

Bai Yi stopped and sighed when she saw this scene.

She was confident that she could kill this Sandman Lord at her peak.

However, she felt that she could not kill the Sandman like how Nezario did with a single strike.

Nezario flew over with the Sandman's corpse in its mouth in no time.

When it passed by Bai Yi, it nodded slightly in agreement.

Bai Yi was stunned.

Then, she immediately jumped down from the mechanotrider and bowed to it solemnly.

She was not proud...

Because she knew that what the dragon acknowledged was not her own strength but her hero identity.

...

[Your pet Lava Dragon - Nezario has killed the Sandman Lord (Scarlet Lord) - Simon. Promotion energy +200! Loots condensed!]

[The territory of the Scarlet Lord has become ownerless. You can plunder or occupy it!]

[The Blazing Sun Desert has become an ownerless area. After you obtain the Regional Token, you can become the Regional Lord of this area!]

"Regional Lord..."

Zhou Zhou looked at the notification.

He was looking forward to it.

Soon, he saw Nezario come to him with the corpse in its mouth. After putting the corpse down, it flew away to help the other soldiers deal with the remaining sandmen.

Zhou Zhou did not waste any time and began to retrieve the loot.

A golden notification appeared.

[Do you want to retrieve the loot?]

"Yes!"

The next second.

A text notification appeared.

[Lord Talent Hint: You have obtained loots—10 Mist Cores (White Silver-Tier), five Origin Crystals, 300kg of sand crystals (Black Iron-Tier), one Sandman Scepter (White Silver-Tier Elementary Grade), one skill book, Sandification (White Silver-Tier Elementary Grade), one skill book, Summoning Sandman Lord (White Silver-Tier Elementary Grade), one Alchemy Pharmacist Recruitment Book (White Silver-Tier Elementary Grade), six Lord Talent Crystal Fragments (Black Iron-Tier Elementary Grade)!]

Whoosh.

Big drop!

Zhang Qianjing and the others, who were treating the injured, could not help but look at them enviously. Then, they retracted their gazes and focused on treating the injured.

Zhou Zhou also began to inspect the loots.

There was naturally no need to mention the Mist Cores, Origin Crystals, and Sand Crystals.

Zhou Zhou looked at the golden scepter.

This golden scepter that was more than three meters long automatically turned into a scepter about two meters long after he held it in his hand. Moreover, the weight was just right. It was very magical.

It was completely made of gold. At the top of the scepter was a statue of a sandman wearing a crown whose face could not be seen clearly.

The equipment notification appeared.

[Equipment Name: Sandman Scepter]

[Equipment Grade: White Silver-Tier Elementary Grade]

[Equipment Effect 1: Sandman Noble's Bloodline Glory— It can reduce a portion of energy consumption when using sand-element-related skills.]

[Note: When using skills below White Silver-Tier Elementary Grade, it can reduce energy consumption by up to 50%. The reduction will decrease with the increase in skill strength.]

[Equipment Effect 2: The escape route of the Sandman Noble—The user can swap positions with the life summoned by the Sandman.]

Zhou Zhou clicked his tongue in wonder.

This was the first time he had seen equipment that could aid in escape.

Unfortunately, it was a White Silver-Tier Elementary Grade equipment.

He could not use it yet.

At this moment, a new notification appeared in front of him.

[Special Hint: This equipment contains a portion of the fragments of the Emperor of Sand's Glory Scepter. Finding other fragments can reforge the Emperor of Sand's Glory Scepter (Legendary-Tier Advance Grade)!]

Where can I find this?

When Zhou Zhou saw the notification, he could not help but mutter in his heart.

The High Continent is so big. He had no other hints yet. Wouldn't it be like searching for a needle in a haystack with just a fragment?

However, he did not expect to encounter other items left behind by the Emperor of Sand after his spatial ring.

He was quite fated with this Emperor.

He didn't think too much about it.

He put the scepter into his spatial ring and looked at the remaining loots.

[Skill Name: Sandification]

[Skill Quality: White Silver-Tier Elementary Grade]

[Skill Description: Sandify a part of the body for one second. Immune to physical damage below the White Silver-Tier. After one second, the sandified part of the body will return to its original state.]

...

[Skill Name: Summon Sandman]

[Skill Quality: White Silver-Tier Elementary Grade]

[Skill Description: Summoning-type skill. Controls the sand element and condenses a White Silver-Tier Elementary Grade Sandman Lord that completely obeys your orders and has normal intelligence to fight for you.]

...

They were all White Silver-Tier Elementary Grade items.

Zhou Zhou could not even learn it, so he temporarily placed it in his spatial ring and would learn it in the future.

Then, Zhou Zhou looked at the Alchemy Pharmacist Recruitment Book.

There was no need to think too much about it.

This must be a specialty of the gnome alchemy workshop.

[Item Name: Alchemy Pharmacist Recruitment Book]

[Item Level: White Silver-Tier Elementary Grade]

[Item Effect: Life Profession Recruitment Book! Throw it into the Gate of Summoning and you can recruit a White Silver-Tier Elementary Grade Alchemy Pharmacist as your subject!]

[Item Description: A special item created under the influence of the gnome alchemy workshop. It can immediately add a White Silver-Tier Elementary Grade Alchemist to your gnome alchemy workshop!]

Zhou Zhou read it a few times before he confirmed that he was not mistaken.

He would really be able to recruit a White Silver-Tier Elementary Grade Alchemist!

It was not an alchemy pharmacist with White Silver-Tier Elementary Grade potential but only of Black Iron-Tier Elementary Grade!

Zhou Zhou was a little puzzled.

However, it was also quite a surprise.

"This time Ashburn will have company."

Zhou Zhou smiled and put it away.

Then, he looked at the final loot.

The six Black Iron-Tier Lord Talent Crystal fragments.

Zhou Zhou's eyes lit up.

He had four Black Iron-Tier Lord Talent Crystal Fragments in his possession, now he had six more.

After he returned, he would be able to fuse another Black Iron-Tier Lord Talent Origin Divine Crystal!  
Or he could save it up.

In the future, he would upgrade his Incite Defection Talent to a Green Bronze-Tier Lord Talent!

### [Global Lord: 100% Drop Rate](#)

#### **Chapter 65: Regional Token! New Black Iron-Tier Lord Talent!**

The remaining Sandmen were like headless flies when they fought without the Sandman Lord. They were wiped out by Nezario, Bai Yi, and the soldiers not long after.

Soon, a Green Bronze-Tier Elementary Grade Sandman leader and a Green Bronze-Tier Intermediate Grade Sandman leader came in front of him. Then, under everyone's surprised gazes, they knelt on one knee to Zhou Zhou and muttered in some language that Zhou Zhou could not understand.

Zhou Zhou looked at them.

He had used Incite Defection here, where he incited a total of 24 Sandmen to become loyal to him! They were only the only two that survived.

He used his mental perception and understood what they meant.

We swear loyalty to My Lord!

Zhou Zhou asked the two of them to follow the Blazing Sun Army and return to the territory.

A moment later.

Bai Yi came in front of him.

"I've something to report, my Lord!"

"We've explored the interior of the pyramid!"

"This pyramid should be the base of these Sandmen."

"It's divided into living quarters, noble quarters, resource storage rooms, Lord's area, and so on."

"We've discovered the territory token tablet in the Lord's area."

"We've also found a total of 10,000 units of wood, 15,000 units of stone, 6,000 units of fine sand, and 8,000 units of metal in the resource storage room!"

"In addition, we found 584 Black Iron-Tier Mist Cores, 56 Green Bronze-Tier Mist Cores, and two White Silver-Tier Mist Cores!"

"Lastly, we also found a design blueprint for this pyramid."

After Bai Yi finished speaking.

She took out a thick stack of paper and handed it to Zhou Zhou.

Zhou Zhou raised his eyebrows, took it and realized that there were no text notifications.

Then, he flipped through the stack of blueprints again, but there was still no information about them.

"This looks like a hand-drawn blueprint for a self-built building."

"This pyramid wasn't built from blueprints."

"It was built by these Sandmen from their memories."

Zhou Zhou clicked his tongue in awe.

No wonder he felt a little strange when he first saw the pyramid.

It looked a little too crudely-made from the perspective of a blueprint building.

He understood now.

So it was a self-built building.

Then it was fine, actually it was built pretty well.

"Maybe they're missing their old civilization." Bai Yi said.

"It's the first time I've seen you so sentimental. Bring me to the territory tablet." Zhou Zhou smiled and said.

"Yes, my Lord!" Bai Yi said respectfully.

The two of them passed through the battlefield and quickly walked into the pyramid surrounded by soldiers.

Zhou Zhou's first impression was that it was spacious and cool as soon as he entered the pyramid.

Moreover, it was not dark here.

There were rows of torches on both sides of the road, illuminating the entire pyramid.

Under the illumination of the flames, there were ancient murals representing the Sandman civilization on the walls.

A tall Sandman whose face could not be seen clearly would often appear on it, accepting the worship of billions of Sandmen.

It was exactly the same as the statue on the Sandman's Scepter.

Zhou Zhou guessed that this should be the Emperor of Sand.

"This place can actually be used as a barrack after I'm done with the novice lord test." Zhou Zhou suddenly realized.

It was such a huge pyramid.

The environment was not bad either.

It was not a problem to accommodate about 10,000 soldiers.

Coincidentally, there was a shortage of residences in the territory, so he could get some soldiers to live here first.

A moment later, the two of them arrived at the Lord's area.

The blueprint designated this place to be the Lord's area, but the moment Zhou Zhou arrived, he could tell that this place had been modified to mimic the Lord's courtyard.

His gaze landed on the territory tablet and on its durability.

It was a total of 100,000!

Zhou Zhou clicked his tongue and asked Bai Yi to shatter the stone tablet.

After Bai Yi received the order, she immediately drew her bow.

After shooting 10 Fire Vine Arrows at it, this territory token with 100,000 durability shattered with a bang, revealing two tokens.

One of the tokens emitted a rich bronze luster. It was a Territory Token!

The other token was slightly larger than the Territory Token and emitted a faint black iron luster. On the front was the word [Region], and on the back were the words [Blazing Sun Desert].

Zhou Zhou picked up the Territory Token first.

He realized that this was a Green Bronze-Tier Advance Grade Territory Token.

I can bring it back with me to upgrade my territory.

A smile appeared on Zhou Zhou's face.

Then, he picked up the other token and looked at it.

A text notification appeared.

[Treasure Name: Regional Token]

[Area Name: Blazing Sun Desert (Changeable)]

[Regional Grade: Black Iron-Tier]

[Area area: About 523 square kilometers]

[Treasure Description: Regional Token of the Blazing Sun Desert. The Lord who possesses the Region Token and fuses it with the Territory Stone Tablet can become the Region Lord of the Blazing Sun Desert and obtain a Regional Exclusive Treasure Chest!]

"I'll fuse it with my territory stone tablet when I return."

"At that time, I will be able to completely control the entire Blazing Sun Desert!" Zhou Zhou thought.

Half an hour later.

All the Sandmen had Golden Corpse Water dripped on them and were loaded into the convoy with the loots. Then, they returned to Blazing Sun City with the Blazing Sun Army.

...

Everyone had just returned to Blazing Sun City.

Zhao Changshou was instructing everyone to build a wall.

"Greetings, my Lord!"

Everyone immediately said respectfully when they saw Zhou Zhou and the others return.

"My Lord, you won?" Zhao Changshou asked with a smile.

When the others heard this, their eyes lit up and they looked at him expectantly.

"This is the first battle of the Blazing Sun Army. There's no reason to lose."

"I'll get someone to set up a public sign in the territory to tell everyone this news."

"From today onwards! The Blazing Sun Desert belongs to our Blazing Sun City! In addition, I'll get someone to paste a map of the Blazing Sun Desert on the public sign."

"Therefore, from now on, everyone's range of activity will not be limited to Blazing Sun City." Zhou Zhou smiled.

Everyone immediately cheered when they heard that.

Blazing Sun City might be safe, but anyone would want to go out for a walk after staying here every day for a long time.

The Lord was indeed the Lord!

He could take down a Scarlet Lord just like that.

The subjects looked at Zhou Zhou with admiration.

Zhou Zhou looked at the notifications that their loyalty had increased.

He was deep in thought.

It seemed that as long as he did more deeds that convinced and revered his subjects, he could probably obtain the Peace And Prosperity reputation earlier.

After that, Zhou Zhou first extracted the loot from the Sandman's corpse.

More than an hour later.

The loot extraction was complete.

During this battle...

Other than the Sandman Lord whose loot had already been extracted, they had also eliminated a total of 1,125 sandman monsters!

Among them, there were 652 Black Iron-Tier Elementary Grade, 313 Black Iron-Tier Intermediate Grade, 121 Black Iron-Tier Advance Grade, 27 Green Bronze-Tier Elementary Grade, nine Green Bronze-Tier Intermediate Grade, and three Green Bronze-Tier Advance Grade!

The loots of higher-level sandman monsters did not change much.

However, the number of its Mist Cores and sand crystals had increased!

Moreover, the grades of both the Sandification skill book and the Sand Summoning skill book would also increase.

Monsters above the Elite Sandman level would drop "Summoning Elite Sandman" and "Summoning Sandman Leader"!

The specific gains were as follows:

They obtained a total of 7,377 Black Iron-Tier Mist Cores! 225 Green Bronze-Tier Mist Cores!

3,641kg of Black Iron-Tier Sand Crystal!

1,125 Sandification (Black Iron-Tier and Green Bronze-Tier)!

965 Sandman Summoning Books (Black Iron-Tier Elementary and Intermediate Grade)!

121 Sandman Summoning Elite (Black Iron-Tier Advance Grade)!

39 Sandman Summoning Books (Green Bronze-Tier Elementary, Intermediate and Advance Grade)!

Zhou Zhou put away the Mist Cores.

All the sand crystals obtained were handed to Zhao Changshou to build the wall.

As for these skill books, Zhou Zhou planned to include them in the military merit system so that the soldiers could exchange them for military merits.

A moment later.

In the living room of the Lord's Courtyard.

Zhou Zhou looked at the 10 Black Iron-Tier Lord Talent Crystal fragments in front of him.

"Should I fuse it? Obtain another Black Iron-Tier Lord Talent?"

"Or should I save them up to upgrade the Incite Defection Talent in the future?"

He hesitated.

A moment later.

Zhou Zhou could not help but fuse.

No choice.

The Incite Defection had given him a huge surprise.

Wouldn't he be making a killing if he could obtain another great Black Iron-Tier Lord Talent this time?

However, his expression immediately became a little complicated when he opened this Lord Talent column after he absorbed the newly fused Black Iron-Tier Lord Talent Origin Divine Crystal.

[Lord Talent: 100% drop rate (Legendary-Tier), Gnome Alchemy Workshop (Green Bronze-Tier), Monster Ranch (White Silver-Tier), Incite Defection (Black Iron-Tier), Return To The City (Black Iron-Tier)]

...

[Lord Talent: Return To The City (Black Iron-Tier)]

[Return to the City: You can immediately return to your territory, no matter where you are, and recover 50% of your physical state in the next 10 seconds when you chant the designated password for 5 seconds.]

[Lord Talent Hint: This talent can only be activated once a day.]

...

Zhou Zhou: "Teleportation home, right?"

[\*\*Global Lord: 100% Drop Rate\*\*](#)

**Chapter 66: Upgrade Building! Cerulean Planet's Announcement!**

Zhou Zhou studied this Lord Talent.

His expression was complicated.

Was it useful?

Yes it was indeed very useful, especially if he was in a desperate situation where he could not escape. This Lord Talent could be said to be a life-saving talent.

However, with Zhou Zhou's current strength and cautious personality, he had almost no use for this Lord Talent unless he was stupid enough to provoke those forces that he could not afford to provoke at all and was trapped by the enemy.

Zhou Zhou finally gave it a more pertinent evaluation.

It was useful!

However, it might be used less often.

"In the future, I should save up the fragments of the Lord Talent Crystal and use them to upgrade the other Lord Talents."

Zhou Zhou thought.

A specialist is better than a Jack of all trades!

It was not as good to blindly increase the number of Lord Talents as to pursue the strength of a certain Lord Talent!

After that, he set the return passcode for this Lord Talent as - [Return to the City]!

It was simple and easy to remember!

It ensured that he could use it to return to the city as soon as possible when he was in danger.

He had actually thought of using 'B' as a password.

However, he was worried that he would accidentally say the same word when he spoke to others in the future and then he would suddenly disappear five seconds later...

That would be funny.

Therefore, it was better to use [Return To The City].

He did not try it out because he planned to go to Fish Spring Town after Wu Tu returned today.

If anything happened to him in Fish Spring Town, this Return To The City talent would give him a guarantee.

After that, Zhou Zhou walked out of the Lord's courtyard and looked at it, preparing to upgrade it.

With a thought...

A line of text appeared.

[Do you want to upgrade the Lord's courtyard?]

"Yes!" He said.

The next second.

20,000 units of basic materials, 100 Green Bronze-Tier Mist Cores, one Origin Crystal, and the Green Bronze-Tier Advance Grade Territory Token that he had just obtained instantly disappeared.

BOOM!

A golden light suddenly covered the entire lord's wooden house.

A moment later.

The golden light dissipated.

Zhou Zhou looked over.

The area of the Lord's courtyard expanded again, and the renovation of the house was even more exquisite.

A series of text notifications appeared.

[Congratulations, your Lord's courtyard has been upgraded to a Green Bronze-Tier Intermediate Grade building. There is an additional bathroom!]

[Your territory has been upgraded to Green Bronze-Tier Intermediate Grade!]

[Territory Token Durability increased to: 50,000/50,000!]

[Your territory has expanded to 10,000m×10,000m×3,000m!]

[All fog monsters within the territory of the new territory have been expelled!]

[Scarlet Fog will not appear in any of your territories!]

[You have received an upgrade reward: Medical Hall Blueprint (Green Bronze-Tier Intermediate Grade)!]

[Lord Talent Hint: The upper limit of the enemy lord's power that you can instigate to defect has been increased to White Platinum-Tier Intermediate Grade!]

[Lord Talent Hint: Your Monster Ranches can be upgraded!]

"Bathroom!"

Zhou Zhou's eyes lit up.

He immediately ran back into the house and quickly found the bathroom.

Even though this bathroom was a little small, there was a toilet, a bathing area, a sink, toilet paper, toothpaste, toothbrush...

It had all the necessary facilities and toilet supplies.

Zhou Zhou was a little touched.

He could finally say goodbye to the pit latrine!

A moment later.

He walked out of the bathroom reluctantly.

As for the newly obtained Green Bronze-Tier Intermediate Grade Medical Hall blueprint, the other lords might like it very much.

However, Zhou Zhou had the all-purpose human blueprint, Elder Zhao, so it did not attract his attention at all.

After that, he looked at the materials needed to upgrade the Lord's Courtyard from Green Bronze-Tier Intermediate Grade to Green Bronze-Tier Advance Grade.

[Construction Upgrade: 20,000 units of wood, 20,000 units of fine sand, 20,000 units of metal, 20,000 units of stone, 500 Green Bronze-Tier Mist Cores, three Origin Crystals, two Green Bronze-Tier Territory Tokens!]

Zhou Zhou looked at the building materials thoughtfully.

There was no problem with the basic materials and Origin Crystals.

He could collect 500 Green Bronze-Tier Mist Cores with some time in the monster ranches.

The hardest to obtain were these two Green Bronze-Tier Territory Tokens!

"There are no Scarlet Lords or Lords of All Races in the Blazing Sun Desert whom I can obtain Territory Tokens from now."

"I have to think of a way to obtain Green Bronze-Tier Territory Tokens from other areas." Zhou Zhou thought.

He did not think too much about it for the time being and went to the Gate of Summoning to upgrade it.

He consumed another 8,000 units of basic materials and 50 Green Bronze-Tier Mist Cores!

[Congratulations, your Gate of Summoning has been upgraded to a Green Bronze-Tier Intermediate Grade Building!]

[You can summon +5 subjects every day!]

[You will definitely summon four Professionals every day!]

[Prompt: Under the influence of the unique title of the race, "Glory of the Pioneer I", you can summon 54 subjects a day!]

[You will definitely summon six Professionals every day!]

[And the professional levels of two of them will be the same as your territory level!]

"Only five more this time?"

"Didn't I increase it by 10 people the last time I advanced from Black Iron-Tier Advance Grade to Green Bronze-Tier Elementary Grade?"

Zhou Zhou was stunned when he saw the notification.

Could it be that it directly increased the summoning limit of 10 subjects because it was a large-level advancement?

There were only five more people this time because it was a small-level advancement?

Zhou Zhou took a guess.

Then, he looked at the upgrade requirements for the Gate of Summoning.

[Construction Upgrade: 5,000 units of wood, 5,000 units of fine sand, 5,000 units of metal, 5,000 units of stone, 100 Green Bronze-Tier Mist Cores, Territory Level upgraded to Green Bronze-Tier Advance Grade!]

"It's easy to upgrade the Gate of Summoning."

"I don't have to worry about upgrading materials at all."

Zhou Zhou thought.

After that, he returned to the Lord's courtyard and took out the Black Iron-Tier Regional Token.

Zhou Zhou looked at this Regional Token twice and placed it on his territory stone tablet.

A suction force suddenly came from the territory stone tablet and sucked this Regional Token in.

Zhou Zhou looked at this scene in surprise.

The next second.

Rows of golden text appeared in front of him.

It also appeared in front of all the Cerulean Planet Lords!

[Congratulations on obtaining a Black Iron-Tier Regional Token (Blazing Sun Desert) and officially becoming the Regional Lord of this area!]

[The Regional Territory column has been unlocked in your Lord's personal information!]

[You can check the information about the regional territory you own here!]

[You have obtained a Regional Treasure Chest! (Exclusive to the Blazing Sun Desert)]

[Cerulean Planet World Channel Announcement: Congratulations to the Lord of The Blazing Sun, becoming the first Regional Lord and to officially own a regional territory. Reward: Supreme Treasure Chest +1, Reputation Rating +1!]

[Cerulean Planet World Channel Announcement: Congratulations to the Lord of The Blazing Sun...]

[Cerulean Planet World Channel Announcement: Congratulations to the Lord of The Blazing Sun...]

...

Zhou Zhou looked at the golden text notification in front of him.

He had already guessed that he might receive another announcement from the Cerulean Planet's entire channel after obtaining the first regional territory, but he could not help but feel a little excited now that he saw it with his own eyes.

"The last Reputation Rating talent hasn't come yet but the next Reputation Rating talent is on the way."

Zhou Zhou could not help but smile.

He opened the Cerulean Planet Lord World Channel and glanced at it. Indeed, the Lords were discussing him fervently.

"Ridiculous... This is the fourth time, right?"

"There's still only Big Boss Blazing Sun on the Reputation Ranking. Is this the loneliness of an expert?"

"One step ahead, many steps ahead. I didn't know much about it in the past, but I suddenly understand now..."

"Is Big Boss Blazing Sun really not going to livestream the opening? I'm so curious!"

"Do you think Big Boss Blazing Sun is diving and peeping now?"

"I think he might be opening the box now!"

"There are trillions of Lords on the entire High Continent, and I'm the only Lord of The Blazing Sun! (Tsendere face)"

"Simply too brilliant!"

"Girl, is there no one you care about on the Road to Supremacy?"

"Aren't you guys a bunch of fools? The Lord of The Blazing Sun is now the only one among us. When he becomes completely invincible in the future and comes to your territory, let's see if you'll still be happy to welcome him?"

"I remember that Lord Mighty revealed that the Lord of The Blazing Sun's territory is near the Aurora Kingdom, right? Lords of the Aurora Kingdom, don't blame me for not reminding you. Either join forces and think of ways to deal with the Lord of The Blazing Sun, or prepare to end up like Lord Mighty."

"Tsk tsk, there are so many Lords watching the show. Be careful that the Lord of The Blazing Sun will record you in his notebook."

"Some Lords have already been blacklisted by the Lord of The Blazing Sun. Now, they can't even buy Big Boss Blazing Sun's goods. You people who stir up trouble, be careful not to attract trouble."

As soon as this was mentioned, the Lords who were stirring up trouble immediately became much quieter.

They still wanted to buy the goods of the Lord of The Blazing Sun.

To be honest, even though the goods sold by the Lord of The Blazing Sun were a little expensive,

He was at least honest and did not sell fake goods!

This was also the reason why many Lords would rather endure the cost and still buy the goods.

Unlike some Lords, who sold rotten monster meat to pass off as fresh monster meat and second-hand equipment as new equipment in order to make a fortune in the exchange.

Many naive Lords had been scammed.

Comparing the two, the face of this profiteer, the Lord of The Blazing Sun, seemed a little friendly instead.

However, what they did not know was that Zhou Zhou, who was peeping at the screen, had already silently blacklisted them.

You want to buy my goods to increase your strength while badmouthing me on the world channel?

Zhou Zhou thought.

Over my dead body!

[\*\*Global Lord: 100% Drop Rate\*\*](#)

**Chapter 67: Regional Treasure Chest! Void Mask!**

On a plain, in front of the wyvern's nest.

Suzanne looked down at a rough map on the table after reading the discussion on the world channel.

More than 30 human subjects were working on a building behind her.

Not far in front of her, two wyverns, the Spinebone Earth Dragons, were playing. There was also a flying Bone Winged Dragon in the sky.

The loud bangs caused by the three huge creatures made the human subjects look back at them nervously from time to time.

"He actually took down a complete regional territory."

"I have to hurry too!"

"Fortunately, my wyvern nest has also leveled up."

"I can summon one wyvern every two days now."

"I should be able to challenge that regional Scarlet Lord as long as I have five wyverns under my command."

"When the time comes!"

"I can also become a Regional Lord!"

Suzanne pondered.

While she felt that she could not catch up when she saw the fourth Lord Announcement regarding the Lord of The Blazing Sun, but, the upgrade of the wyvern nest also gave her hope of surpassing him again.

In her heart, she would have an army of thousands of wyverns in the future as long as her wyvern nest fully matured.

When the time comes...

So what if the human soldiers under the Lord of The Blazing Sun were stronger?

He would still lose to her!

The potential of human soldiers was too low after all!

How could they compare to wyverns with dragon bloodline?

...

In a desolate forest.

Accompanied by the scream of a monster.

A Green Bronze-Tier Advance Grade One-Horned Blood Python was smashed to the ground and turned into a pile of meat paste.

"So weak!" Said a disdainful voice.

The instigator sat on a rock at the side as he threw the severed tail into his mouth. He did not care about the smell of blood at all and ate the flesh.

He was more than three meters tall and his muscles were bulging.

His upper body was bare, and the skin of a certain monster was wrapped around his waist.

If ordinary people were near him, they would immediately sense that he emitted a sense of danger and a faint sense of life level suppression.

At this moment, not far away, two subjects ran over.

They placed the flesh on the ground on a wooden plate and handed it to their Lord respectfully and fawningly.

"All hail the Overlord!"

"A mere Green Bronze-Tier Advance Grade fog monster is not even qualified to injure you, Overlord!"

The two of them flattered.

"It's just a Green Bronze-Tier Advance Grade fog monster. There's nothing much to brag about."

"If not for the fact that there are too many monster subjects around the Regional Scarlet Lord, I will be able to pull him out and beat him up!"

Xiang <anno data-annotation-id="49bff87c-b96d-41b3-b960-72a422d19f6e">Xueba</anno> said calmly.

When outsiders heard his name for the first time, they might smile knowingly, thinking that his family might want him to be a top student.

But that was not what he thought. He felt that his name was a hint that they wanted to learn from the Overlord, Xiang Yu!

That was his idol!

Therefore, he did not study much since he was young. He left the house early and fought with the hooligans outside.

Gradually, he really made a name for himself. He accepted a group of underlings and self-proclaimed himself as the Overlord!

However, he was not satisfied.

That was because he wanted to be a true Overlord!

Not just some hooligan leader.

Later on, the world changed. In the blink of an eye, he came here and became a Lord.

While he was at a loss, he realized that he had awakened his Lord Talent.

Moreover, it was a rather powerful Lord Talent!

[Lord Talent: Gluttonous Demon Body (Legendary-Tier)]

[Gluttonous Demon Body: You have the Gluttonous Demon Body. You can devour and digest the flesh and blood of all living beings in the world. During the process of digesting the flesh and blood, the

energy in the flesh and blood will strengthen your physical fitness. There is a low chance of obtaining the bloodline ability of this living being from the flesh and blood.]

This Legendary-Tier Lord Talent was naturally very powerful!

The only drawback was that the probability of obtaining a bloodline ability was a little low.

Xiang Xueba did not care about this.

Low probability?

Then I'll eat more!

He fought and ate at the same time after six days.

Not only had he broken through to his current Green Bronze-Tier Elementary Grade strength, he also had the confidence to fight a White Silver-Tier Elementary Grade Regional Scarlet Lord with his innate ability!

He opened the world channel and saw that the Lords were all discussing the Lord of The Blazing Sun.

"Lord of The Blazing Sun..."

"We'll meet sooner or later."

Xiang Xueba' tiger eyes were extremely deep.

...

Zhou Zhou naturally did not know that a Lord with a Legendary-Tier Lord Talent like him was already targeting him.

He was now looking at the golden Supreme Treasure Chest and an iron box that emitted a black iron light.

This iron box was the Regional Treasure Chest exclusive to the Blazing Sun Desert!

[Regional Treasure Chest (Exclusive to the Blazing Sun Desert): A treasure chest specially prepared to conquer the territory of the entire Blazing Sun Desert. It contains exclusive treasures for the territory of the Blazing Sun Desert!]

"I'll open the Regional Treasure Chest first!"

Zhou Zhou looked at the two treasure chests and quickly made a decision.

He had a habit.

He always wanted to save good things for the last to enjoy.

Then, he opened the regional treasure chest and found a squarish yellow package inside.

He picked it up and looked at it.

A text message appeared.

[Item Name: Blazing Sun Desert Resource Pack]

[Item Level: Black Iron-Tier]

[Item Effect: After opening it, you can obtain 50,000 units of stone, 50,000 units of wood, 50,000 units of metal, 50,000 units of fine sand, 10,000 kg of Black Iron-Tier Sand Crystal!]

[Item Description: Black Iron-Tier Area Exclusive Resource Pack! After opening it, you can obtain a large number of basic resources and some Area Exclusive Resources!]

"This..."

When Zhou Zhou saw the reward, he felt a little disappointed.

The rewards of this Regional Treasure Chest were indeed inferior to the rewards of the Supreme Treasure Chest.

"But 10,000 kg of Black Iron-Tier Sand Crystal is not bad."

He nodded slightly.

Zhao Changshou and the others needed sand crystals now that they were building the wall.

Originally, he was a little worried that there would not be enough sand crystals and wanted Zhao Changshou to replace it with an ordinary wall.

However, there should be no problem with these sand crystals.

He was not disappointed. He then opened the Supreme Treasure Chest.

A black mask was quietly placed in the Treasure Chest.

This black mask was completely without any decorations on the surface, leaving only the position of its eyes. It looked extremely ordinary.

"A mask?"

Zhou Zhou raised his eyebrows.

He picked it up and looked at it carefully.

A text message appeared.

[Treasure Name: Void Mask]

[Treasure Grade: Special]

[Treasure Effect One: Unable to be observed. When a living being tries to understand your private information through some observation method without your permission (including but not limited to detection, perception, divination, life spying, deduction, and so on), the other party will not be able to receive any feedback.]

[Treasure Effect Two: Fateless One—When an external life form tries to curse you with a fate ability such as instant death, you can be immune to the damage caused by this ability!]

Zhou Zhou looked at the mask in his hand in surprise.

This mask is pretty good!

With this mask, he would not have to worry about the details of his ability being leaked by the enemy before the battles began in the future.

As for its Treasure Effect Two, it could also allow him not to worry about suddenly dying one day when facing an opponent with an instant death fate ability.

"I can wear it when I go to Fish Spring Town." Zhou Zhou thought.

Then, he placed the mask gently on his face.

The next second.

He felt his face turn cold.

When he touched his face again, he realized that the Void Mask had already disappeared.

He immediately went to the bathroom and looked at himself in the mirror.

He saw himself in the mirror, handsome and elegant.

There was no sign of a mask at all.

However, Zhou Zhou could indeed clearly sense that there was a mask on his face and he could remove it at any time.

"Amazing!"

Zhou Zhou clicked his tongue in wonder.

"I've something to report, my Lord!"

"There's an old man standing outside the protective barrier, saying that he wants to join the territory!"

"The other party doesn't look like an ordinary person, so I specially came to report!"

Bai Yi's voice came from outside.

When Zhou Zhou heard these familiar words, he immediately reacted.

The talent attracted by Reputation Rating was here!

He rushed out without even taking off his mask.

[\*\*Global Lord: 100% Drop Rate\*\*](#)

**Chapter 68: Prime Minister Of Aurora! Potential Advancement Potion!**

Just as Zhou Zhou was putting on the Void Mask.

Astrologer Méaulte, who was divining the situation faraway in the territory of Nadia's successor in the Elven Empire, suddenly looked surprised.

"What happened?"

"Why can't even the stars emit light to illuminate the fate of that human Lord?"

"Even death shouldn't result in such a divination."

"It seems like..."

"He disappeared into thin air?"

Astrologer Méaulte looked at the dim illusion of the stars in front of her. Her beautiful elf face was changing.

She was in disbelief.

She was only a step away from becoming a God-Tier Astrologer as a Legendary-Tier Advance Astrologer.

Her status was above everyone, with the exception of the Empress, even in a top empire like the Elven Empire!

A person like her actually couldn't divine the fate of a human Lord who had just arrived in the High Continent less than six days ago?

Who would believe this?

She was silent for a moment before divining again.

This time, she wanted to divine if the successor of Nadia was still a subject under the Lord of All Races.

As long as she could obtain this answer.

She could also determine if the human Lord was dead or alive.

A moment later.

She stared at the illusion of the stars in front of her with a pale face.

The stars were still dim!

Every star lost its light and hung weakly in her divination illusion like a meteorite that had lost its energy.

This scene was like the end of the stars!

"I can't even find the fate of that successor..."

"Is it because of that Lord?"

"I won't be able to obtain it by direct or indirect means as long as I want to divine any information about him?"

"Could it be that that Lord has already sensed that our Elven Empire is investigating his situation?"

"So now he's..."

"Warning us?"

Astrologer Méaulte fell silent at the thought.

A moment later.

She stood up and left her residence with a solemn expression, walking towards the Elven Empress's Imperial Palace.

...

Blazing Sun City.

Outside the protective barrier.

Zhou Zhou looked at the old man in front of him.

His beard and hair were all white, and his face was kind. There was a warm smile on his lips. He was wearing a platinum robe, and he looked extraordinary.

At this moment, he was also peering at Zhou Zhou.

"Decrepit Zheng Yuanqi greets, my Lord!"

Zheng Yuanqi smiled.

"Hello, Elder One."

"I heard from my subordinate that you want to join my territory?"

Zhou Zhou asked.

"Exactly!"

"This decrepit has long heard of the Lord's great achievements in the Aurora Kingdom."

"You have already cleaned up the forces of the Scarlet Lord in your area in less than six days since you arrived in the High Continent."

"Compared to other human Lords, some of whom can't even protect themselves..."

"There were even those who had no choice but to give up their status as Lords and enter the Aurora Kingdom to become ordinary adventurers."

"In comparison, Your Lordship's performance is naturally quite outstanding."

"I just retired not long ago. Some of my work experience is still useful, so I wanted to join my Lord."

"Firstly, I can unleash my remaining strength. Secondly, I want to find a place to retire."

"I wonder if my Lord is willing to let me stay?" Zheng Yuanqi smiled.

[Zheng Yuanqi requests to join your territory and become your subject. Do you agree?]

Zhou Zhou felt that it was familiar when he heard this.

Oh.

I remember now.

Elder Zhao also said that he wanted to find a suitable place to retire when he arrived.

How did my Blazing Sun City become a center for senior cadres?

Zhou Zhou complained in his heart.

As for the matter of the human Lords joining the Aurora Kingdom, even though he was a little surprised, he felt that it was reasonable.

Not everyone was like him, who had a certain chance of passing the novice lord test.

What he didn't notice was that at this moment, Bai Yi, who was beside him, suddenly became surprised and doubtful when she heard Zheng Yuanqi's name.

"Elder Zheng, you're too kind."

"Welcome to Blazing Sun City!" Zhou Zhou agreed immediately.

"Are you Prime Minister Zheng?" Bai Yi could not help but ask.

Zhou Zhou was stunned.

"You know me, young lady?" Zheng Yuanqi smiled.

"One of the three Prime Ministers of the Aurora Kingdom. You assisted the Aurora King in handling almost all the political matters in the Aurora Kingdom!"

"Who doesn't know of your existence?" Bai Yi held back her excitement.

"It's all in the past. This decrepit is now retired." Zheng Yuanqi chuckled.

Bai Yi nodded and turned towards Zhou Zhou to introduce this Prime Minister. She said that Zheng Yuanqi had a good reputation in the Aurora Kingdom and that the Aurora King had always relied on this old Prime Minister.

Zhou Zhou listened attentively.

He was also a little surprised.

He did not expect this talent attracted by his Reputation Rating to be one of the former Prime Ministers of the Aurora Kingdom!

As the two of them spoke, Zheng Yuanqi also looked at Bai Yi.

The more he looked at her, the more he felt that something was wrong.

"You're... A hero?" He suddenly hesitated.

Bai Yi was stunned.

Then, she nodded.

Zheng Yuanqi was immediately stunned.

A hero had actually appeared in a territory that had only been established for less than six days?

He fell silent.

He began to wonder why the Aurora Kingdom had only given birth to three heroes after hundreds of years.

Then, after he came back to his senses, he immediately cupped his fists and said politely,

"This decrepit was rude just now."

When Bai Yi saw that the former big shot was being so polite to her, she immediately felt a little uneasy.

She looked at Zhou Zhou.

She realized that Zhou Zhou was looking at the air in front of Zheng Yuanqi.

[Loyalty: 89]

[Potential: Extraordinary-Tier Advance Grade]

Zhou Zhou looked at the series of Diamond-Tier skills and was dumbfounded.

He opened the ellipsis at the back.

It expanded to more than 200 skills!

Other than four or five cavalry profession skills, the rest were all skills to manage local and national matters!

Ridiculous!

So this is a Prime Minister?!

I'm in love!

Zhou Zhou could not help but look at Zheng Yuanqi.

After thinking for a moment, he solemnly held the other party's hands.

"Elder Zheng!"

"I want you to be the Vice City Lord of Blazing Sun City. From now on, please help me deal with all the matters in Blazing Sun City. I wonder if Elder Zheng is willing?"

89 loyalty points was not considered low as a talent attracted by Reputation Rating.

In addition, his ability was so outstanding.

Therefore, Zhou Zhou was very at ease to hand this important responsibility to him.

"This subordinate accepts this order!"

When Zheng Yuanqi heard this, bowed calmly as though he was already mentally prepared.

"Elder Zheng doesn't seem surprised at all?" Zhou Zhou looked at him in surprise.

"I still have a certain level of understanding of my ability." Zheng Yuanqi chuckled.

Zhou Zhou nodded in satisfaction.

This is the confidence of a talent.

He looked at him and could not help but feel comfortable when he thought of his experiences in the past six days.

In the past six days.

He had to personally participate in and decide almost everything in the territory.

It was not very difficult, however, the accumulation of matters made him very tired as well.

Everything would be fine now.

With Elder Zheng around, he could finally be a hands-off shopkeeper!

After that, he chatted with the other party for a while more before leaving.

He came to the Gate of Summoning, took out the Alchemist Recruitment Book, and threw it into the Gate of Summoning.

Soon, a green-skinned gnome walked out.

"Greetings, my Lord!"

"Peggy Orlena at your service!"

She bowed slightly. Her voice was gentle, and she was wearing a female green robe. She should be a female gnome.

"Hello."

Zhou Zhou smiled and nodded.

Then, he opened her interface information.

[Subject: Peggy Orlena]

[Territory: Blazing Sun City]

[Life Profession: Alchemy Pharmacist]

[Profession Class: White Silver-Tier Elementary Grade]

[Ability Overview: A genius Alchemy Pharmacist from the Gnome Kingdom. She is the daughter of the Gnome Kingdom's Alchemy Association President. [Loyalty: Dead Loyal]

[Potential: Diamond Elementary Grade]

Potential Advancement Potion?

Zhou Zhou's gaze was immediately attracted by this word.

Even those two personal talents did not attract his attention much.

He immediately opened the specific information of this potion.

[Potion Name: Potential Advancement Potion]

[Potion Grade: Black Iron-Tier]

[Potion Effect: After consumption, it can increase the potential of a life form with Black Iron-Tier potential by a level, up to the Black Iron-Tier Advance Grade!]

[Potion Description: A bottle of potion that can sublimate life!]

**[Global Lord: 100% Drop Rate](#)**

**Chapter 69: Ashburn's Advancement! Wu Tu Returns!**

"There's actually such a potion!?"

When Zhou Zhou saw this Potential Advancement Potion, his heart immediately pounded.

He really needed this potion!

Most of the soldiers under his command were recruited from the Gate of Summoning through recruitment books.

And at least 50% of them only had Black Iron-Tier Intermediate Grade potential!

As the recruitment books for soldiers started from Black Iron-Tier Intermediate Grade monsters, the most number of recruitment books he had were the Black Iron-Tier Intermediate Grade recruitment books.

Therefore, he had the most Black Iron-Tier Intermediate Grade soldiers under him!

If they broke through from Black Iron-Tier Elementary Grade to Black Iron-Tier Intermediate Grade, there would be no more possibility of a breakthrough.

In fact, Bai Yi had notified him about this situation before,

However, Zhou Zhou had no choice in this situation previously, so he could not resolve it.

If he could have a large number of potential advancement potions, these soldiers would immediately have the possibility of breaking through again!

"Do you know where we can obtain a higher-level Potential Advancement Potion or formula?"

Zhou Zhou immediately asked.

If he had a higher-level advancement potion, the problem of the low potential of the human subjects would be resolved!

"The Potential Advancement Potion is the most difficult to research and obtain among countless potions."

"There are only Black Iron-Tier ones even in the collection of the Gnome Kingdom's Alchemy Association."

"I don't know where we can find a higher-level Potential Advancement Potion or the corresponding formula either."

Peggy winced, then apologized.

Zhou Zhou felt that it was a pity.

However, he was not too disappointed.

His Gnome Alchemy Workshop could allow monsters to drop related alchemy items.

Perhaps one day, it would drop the formula for the Potential Advancement Potion?

Even though the possibility was relatively small.

But what if?

"Do you have a Potential Advancement Potion on you now?"

Zhou Zhou asked.

"I do. I brought three bottles with me when I left for training." Peggy wiped her spatial ring with her right hand, and three bottles of potion emitting a faint black iron light appeared in her hand. Then, she handed them to Zhou Zhou.

Zhou Zhou took it and asked Bai Yi to call three soldiers with Black Iron-Tier Intermediate Grade potential and strength over.

Soon, three soldiers came in front of him.

"My Lord!"

"They are three Black Iron-Tier Intermediate Grade Sword Shield Soldiers. They're usually very brave in battle and are the first batch of Sword Shield Soldiers to advance to the Black Iron-Tier Intermediate Grade."

"But later on, they were limited by their potential and couldn't break through anymore. Moreover, even though they've accumulated a lot of military merits, they haven't used them much." Bai Yi introduced.

The three of them were a little embarrassed.

"I just feel that the Lord is very good to us. We don't have to worry about food and clothes, and our lives are quite satisfied. There's nothing we need for the time being, so I haven't exchanged it."

"Me too."

"I want to save up for a wife in the future."

The three of them said.

Zhou Zhou smiled.

"The Blazing Sun City will not mistreat every soldier who fights bravely!"

He handed the three bottles of Potential Advancement Potion to the three of them and told them the effects of the potion.

When the three of them heard this, they were first stunned, then immediately became excited.

Then, Zhou Zhou saw the loyalty of the three of them increase continuously and quickly break through to more than 90 points!

One of them's loyalty directly broke through to 95 points!

Zhou Zhou suddenly realized that the importance of this Potential Promotion Potion to people with low aptitudes like them was simply immeasurable.

It was like a person could only live to be 60 years old.

If his medicine increased the other party's lifespan to 70 years old. How could this person not be grateful to the person who gave him the medicine?

They used these three bottles of Potential Advancement Potion immediately.

A moment later.

An energy fluctuation erupted from their bodies.

Zhou Zhou opened their interface.

He realized that their potential had increased from Black Iron-Tier Intermediate Grade to Black Iron-Tier Advance Grade!

Moreover, their strength had already broken through to the Black Iron-Tier Advance Grade!

It should have been accumulating advancement energy when he was at the Black Iron-Tier Intermediate Grade.

The advancement energy they accumulated would directly help them break through now that the upper limit of their potential had advanced.

Zhou Zhou thought to himself.

"Thank you, my Lord!"

When the three of them realized their improvement, they immediately knelt down excitedly.

Zhou Zhou helped them up.

"You deserved it."

"Go back and tell our brothers who also have the Black Iron-Tier Intermediate Grade potential."

"Soon..."

"The same Potential Advancement Potion will appear in our Blazing Sun Army's Military Merit Exchange List!"

"Get them ready!"

Zhou Zhou said.

"Yes!" The three of them said excitedly.

Then, they bade farewell to Zhou Zhou and immediately left.

They wanted to spread this good news to the other soldiers!

"My Lord..."

"The medicinal herbs needed to make the Potential Advancement Potion are actually quite rare. And those herbs live in a rather harsh growing environment."

"Even though the Gnome Kingdom has mastered the formula for a long time, this Potential Advancement Potion is not popularized either."

"The promise you just made, I'm afraid..." Peggy hesitated.

She did not expect the Lord that she was loyal to to want to popularize it on a large scale as soon as he saw the Potential Advancement Potion.

Even though he did the right thing, he had to consider the difficulty too.

"Don't worry about this."

A mysterious smile appeared on Zhou Zhou's face.

Ling'er had the Divine Herb Garden.

As long as she was given a medicinal herb seed, she could return hundreds or thousands of grown medicinal herbs to him the next day!

Medicinal herbs that were rare?

It did not exist in front of her.

Then, Zhou Zhou asked her for the list of medicinal herbs needed to make Potential Advancement Potion, high-level life potions, and energy potions.

Then, he brought her to the Gnome Alchemy Workshop.

"From now on, you'll work here. You'll have another colleague. He's the owner of this gnome alchemy workshop.

"Ashburn!"

"Come out here to receive guests!" As soon as Zhou Zhou entered the alchemy workshop, he began to call for Ashburn.

Soon, two apprentices walked out of the studio.

"My Lord."

"Teacher is developing a Black Iron-Tier Intermediate Grade Life Potion. He's at a critical moment..." An apprentice said awkwardly.

They were naturally more loyal to Zhou Zhou.

However, their teacher was also at the most critical moment.

Under such circumstances, they did not know who to choose.

"It's okay."

"Then we'll wait for him to come out."

"Go help him."

Zhou Zhou was stunned before saying.

The two apprentices heaved a sigh of relief.

Then, they bowed respectfully and returned to the studio.

"Is the boss also a Gnome? Is he also an Alchemy Pharmacist?" Peggy asked curiously.

"He's indeed a gnome, and he should be of the same race as you."

"But he's not an Alchemy Pharmacist. He's a Black Iron-Tier Advanced Grade Alchemy Technician."

"He is researching the Black Iron-Tier Intermediate Grade Life Potion because he wanted to use this opportunity to break through to the Green Bronze-Tier Elementary Grade Alchemy Technician." Zhou Zhou explained.

Peggy was enlightened.

At the same time, she could not help but be curious.

As the daughter of the Alchemy Association's President, when she broke through to the professional level, she had obtained higher-level potion formulas from her father. Then, under the guidance of several potion masters, she quickly mastered this potion and completed the professional level breakthrough.

In addition, she was extremely talented!

That was why she could be promoted to a White Silver-Tier Elementary Grade Alchemy Pharmacist at this age!

For example, Ashburn could break through his profession level by exploring advanced knowledge without higher-level knowledge.

Such behavior was not unheard of in the industry.

However, it was relatively rare and the difficulty far exceeded the difficulty of breaking through to the professional level.

Nonetheless, the benefits were also very high.

People who used this method to break through to the professional level often had a relatively solid foundation. Moreover, it would be easier for them to break through in the future.

Moreover, once he received professional guidance, such an unorthodox genius would grow very quickly!

Peggy knew that there were a few potion masters who had grown up like this in the association.

Thinking of this, she was suddenly curious about Ashburn.

"Oh yes."

"I'll give you these potion formulas as a greeting gift."

"You can learn it, but you don't have to spend your energy making these two potions."

"Just focus on making Life Potions, Energy Potions, and Potential Advancement Potions."

"I will also send some subjects to be your apprentices or assistants to increase the efficiency of making potions."

"In addition, if I obtain a new potion formula in the future, I will also give it to you to learn."

Zhou Zhou handed the antidote formula and the Blood Cleansing Pill formula to Peggy.

Since the Black-tailed Fog Scorpion's monster ranch, antidotes and Blood Cleansing Pills were produced in large quantities every day.

Therefore, Zhou Zhou gave this potion formula to Peggy as a simple greeting gift.

"Thank you, my Lord!" Peggy took it with a delighted expression.

Ashburn did not let Zhou Zhou and the others wait long. He walked out of the studio in no time.

He looked tired, but his eyes were shockingly bright. There was a smile on his lips, and he was holding a bottle of red potion.

"My Lord!"

"I've already developed this Black Iron-Tier Intermediate Grade Life Potion."

"I'm already a Green Bronze-Tier Elementary Grade Alchemy Technician!" Ashburn said excitedly.

"Congratulations!" Zhou Zhou acknowledged.

Then, he introduced Peggy beside him.

"Let me introduce you."

"This is Peggy Orlena, who just joined Blazing Sun City. She'll also be your colleague in the future."

"Oh yes."

"She's a White Silver-Tier Elementary Grade Alchemy Pharmacist."

"You don't have to make the Life Potion and Energy Potion anymore. Just leave them to her."

Ashburn: "?"

He looked a little confused.

I worked so hard to develop the Black Iron-Tier Intermediate Grade Life Potion because I wanted to make it for the benefit of the territory.

My Lord, are you saying you don't need me anymore?

He was a little depressed and his gaze fell on Peggy's face for the first time.

After a moment of silence.

He turned around and returned to the studio.

Zhou Zhou and Peggy looked at each other blankly.

"Does the boss not like me?"

Peggy wondered.

"Probably not."

Zhou Zhou was also a little surprised.

Ashburn didn't seem like such an ill-mannered gnome.

10 seconds later.

The door of the studio suddenly opened.

Ashburn Hall had become clean and changed into brand new clothes, bowing elegantly to Peggy Orlena.

"Beautiful Lady Peggy!"

"Welcome to the Gnome Alchemy Workshop!"

"Please tell me if you need anything."

"Ashburn will do his best to fulfill the lady's request as a gentleman!"

Peggy Orlena: ☹️(●0✘0●)

Zhou Zhou: ( □ ;)

A moment later.

Zhou Zhou left the Gnome Alchemy Workshop and returned to the Lord's courtyard.

Then, he immediately contacted Ling'er and asked her to collect the corresponding herbs and nurture them in large quantities, especially the herbs for the Potential Advancement Potion.

Ling'er agreed without hesitation.

Not long after, a soldier suddenly sent a message.

Wu Tu had just returned with a reconnaissance team and wanted to see the Lord.

Zhou Zhou immediately asked him to come over.

[\*\*Global Lord: 100% Drop Rate\*\*](#)

**Chapter 70: Overlord Of The Fish Spring Town! Set Off!**

In the living room.

Zhou Zhou looked at the map Wu Tu had brought back.

This was the redrawn map of Fish Spring Town!

Most of the map information on it was no different from the original map information.

Only a portion of the map information had been slightly modified.

In addition, Wu Tu had highlighted the location of Zhang Li's New Wind Tailor Shop and the territories of two Overlords and three Scarlet Lords.

Zhou Zhou looked at New Wind Tailor Shop and then at the five Overlords' territories.

A map notification appeared:

[Vampire Race Overlord— Territory Level: Black Iron-Tier Advance Grade]

[Baphomet Race Overlord— Territory Level: Black Iron-Tier Intermediate Grade]

[Wind Howler the Wild Sand Boss Scarlet Lord— Territory Level: Green Bronze-Tier Elementary Grade]

[An Si the Water Demon Scarlet Lord— Territory Level: Green Bronze-Tier Intermediate Grade]

[Zi Pao, the Purple Scale Murderfish Scarlet Lord— Territory Level: Green Bronze-Tier Intermediate Grade]

There was also a special note at the end.

It described the strength of these Overlords and Scarlet Lords, the number of their Subjects, and the distribution of their strength.

"My good lord..."

"This Fish Spring Town is indeed a Green Bronze-Tier area."

"The three Scarlet Lords' territory levels are all Green Bronze-Tier."

Zhou Zhou clicked his tongue in wonder.

"Because once a Scarlet Lord with a Black Iron-level territory is born, Fish Spring Town will send troops to destroy it immediately."

"Only the Scarlet Lords of these three Green Bronze-Tier territories have long occupied this place. Their actual strength has already reached White Silver-Tier. Moreover, the monster Subjects under them are also quite powerful."

"The Fish Spring Town military feels that if they attack rashly, their strength might be weakened. At that time, they might be in danger when facing the other Scarlet Lords, so they maintain their current peaceful state."

"But peace actually just means that there are no major conflicts but there are endless small conflicts."

"It's not true peace." Wu Tu said.

"Where did you find out about this?" Zhou Zhou asked curiously.

"... I actually bought it."

"Many places in Fish Spring Town have organizations that sell information."

"In addition, this information is not very precious."

"Therefore, I used the Mist Cores and bought it with ease."

Wu Tu was a little embarrassed.

"Well done."

"In the future, when you go out to draw maps, you can also collect local information part-time."

"Blazing Sun City will be responsible for all the expenses."

"If you need manpower or other supplies, you can apply for them directly."

"You don't have to ask me."

"There's a new Vice City Lord in the territory now. You can call him Elder Zheng and apply to him." Zhou Zhou said.

"Yes, my Lord!" Wu Tu said excitedly.

He had been entrusted with an important task by the Lord again.

It felt good to be trusted!

He could not let down the Lord's trust!

He thought firmly.

Zhou Zhou continued to look at the map.

"Let's not attack these Overlords for the time being."

"The novice lord test is coming."

"Let's go to Fish Spring Town and collect 10 Aurora Crystals to complete Zhao Changshou's Quests and obtain the completed Green Bronze-Tier Advance Grade Aurora Tower."

Zhou Zhou pondered.

Then, he looked at Wu Tu.

After some thought, he said...

"Wu Tu."

"I'll give you a new Quest now that the map of Fish Spring Town has been drawn."

"Take your reconnaissance team and draw the regional maps of the Desolate Gobi and Thorn Dune around the Blazing Sun Desert."

"I'll give you three days. Can you do it?"

Zhou Zhou asked.

"Leave it to me, my Lord."

"I guarantee that I'll draw all the maps of the two Black Iron-Tier regions in two days!"

Wu Tu immediately agreed.

Zhou Zhou acknowledged.

After that, the two of them chatted for a while more before Zhou Zhou let Wu Tu leave.

After Wu Tu left, Zhou Zhou looked at the map of Fish Spring Town in front of him and suddenly thought of something. He took out the map of the Blazing Sun Desert.

The current exploration on the map had changed from 59% to 100%!

Zhou Zhou, who was slightly obsessive-compulsive, was quite satisfied when he saw this number.

Then, he began to think about his next development.

"I've already occupied the Blazing Sun Desert."

"Next, it's time to expand!"

"Fish Spring Town has the Aurora Kingdom behind it. We can't afford to offend them for the time being."

"I can give the two Black Iron-Tier regions, the Desolate Gobi and Thorn Dune, a try!"

"I can directly fight in these two Black Iron-Tier regions! As long as Wu Tu's map is in order.."

Zhou Zhou thought.

He put away the map and walked out of the Lord's courtyard. He used the Blazing Sun Desert's exclusive resource pack and obtained 200,000 units of basic resources and 10,000 kg of Sand Crystals.

Then, he handed these resources to Zhao Changshou to build the Wall.

After that, he found Zheng Yuanqi and told him that he was about to go to Fish Spring Town. He asked if there was anything he needed to pay attention to.

"There's nothing to pay attention to."

"The Aurora Kingdom is quite friendly to the Overlords of all races. There's basically no need to worry about any accidents."

"On the other hand, there are some local forces that can't see the light of day. Your Lordship needs to be careful."

"The members of those forces don't care about the Overlord's identity."

"They will attack without restraint as long as there are benefits."

Zheng Yuanqi said.

Zhou Zhou acknowledged.

Then, he asked the other party how he could obtain the Aurora Crystal.

He also told them about his plans to build the Aurora Tower in his territory.

"So we're going to build the Aurora Tower."

"That's easy."

"I'll write a letter to the mayor of Fish Spring Town. Overlord, send someone to deliver the letter to the other party. After the other party sees the letter, they will naturally hand over the Aurora Crystal with both hands."

Zheng Yuanqi said with a smile.

"You can do that?"

Zhou Zhou was stunned.

"The mayor of Fish Spring Town is called Zhang Boen."

"This kid is my student."

"He could have been with me as an officer."

"However, he didn't like the sinister schemes in the palace. In the end, he ran to Fish Spring Town to be a small mayor to resist the invasion of the Tahan Kingdom."

"Tahan Kingdom?"

"Yes, the Overlord has just descended not long ago, so you don't know."

"The Tahan Kingdom is a scarlet kingdom formed by fog monsters!"

"Its force is not inferior to the Aurora Kingdom!"

"At the same time, it is also the enemy that the Aurora Kingdom has been constantly resisting and conquering for the past few hundred years!"

"The enmity between the two countries runs deep."

"Furthermore, the Supreme Will and Scarlet Lord are enemies to begin with!"

"Under such circumstances, this grudge will only continue unless a country is exterminated."

"My Lord, you have to be wary of the Tahan Kingdom when you go."

"Its territory is not far from here. Not only is it adjacent to the Aurora Kingdom, but in the future, it will definitely collide with its territory when MY Lord's territory expands."

"We'll deal with them sooner or later!"

Zheng Yuanqi smiled.

Zhou Zhou nodded in satisfaction.

Then, Zheng Yuanqi began to write a letter, while Zhou Zhou found Bai Yi and asked her to call 500 Elemental Archers and 500 Sword Shield Soldiers to follow him to Fish Spring Town later.

The 1,000 soldiers were assembled in no time.

Zhou Zhou looked at them and was very satisfied.

With these 1,000 soldiers, the hero Bai Yi, and the pure-blooded Nezario accompanying him, and finally his trump card [Return To The City], he shouldn't be in any danger this time, right?

As for the remaining soldiers, he left them to Zhao Changshou to build the Wall of the territory.

"Lord, the soldiers have gathered. We are ready to attack Fish Spring Town at any time!"

After Bai Yi prepared the army, she immediately came to Zhou Zhou and reported.

"I'm not attacking Fish Spring Town."

"I just want to go to Fish Spring Town to take a look."

Zhou Zhou was stunned for a moment before explaining.

Bai Yi's eyes were blank.

Why did he make such a big scene just to take a look?

She felt puzzled and regretful.

However, she did not question Zhou Zhou's orders. Instead, she planned to execute them silently.

At this moment, Zheng Yuanqi also walked over with the written letter.

When he saw the 1,000 soldiers, Bai Yi, and the dragons flying in the sky, he was stunned. Then, he hesitated and said,

"My Lord."

"The Aurora Kingdom is powerful and has a certain foundation!"

"It's not wise to attack rashly now."

"If my Lord really has designs on the Aurora Kingdom, we can consider it at length and slowly deploy it."

"This subordinate is very familiar with the Aurora Kingdom!"

"Just give us three years to grow!"
