Chapter 651: Talent Like A Double-edged Sword

There was naturally no need to mention the Illusory Fate Race's common sense inheritance and the Illusory Fate Race's secret inheritance.

They were all used to increase Zhou Zhou's foundation.

The talent of the Illusionary Heavenly Fate surprised Zhou Zhou.

Using it actually consumed one's life force or even fortune.

Vitality was nothing.

As a Chaos Human, Zhou Zhou's greatest strength was his vitality.

His vitality was even stronger than some God-Tier bloodlines that focused on the Law of Life talent.

However, fortune... was not something that could not be casually consumed!

This thing was simply his 'future'.

There was a saying, 'Someone's fortune is over. There's not much good life left.'

It referred to such fortunes.

It could be seen how important fortune was.

Zhou Zhou naturally cherished his own fortune.

He could clearly feel it now.

His fortune was quite strong.

Even the luck of the Emperors in ancient China did not even have 0.001% of his current fortunes.

But even so, Zhou Zhou was unwilling to exhaust even a little of his fortune.

What if what he lacked in the end was this bit of fortune when he fought for the position of the Lord of All Races in the future?

At the thought of this, Zhou Zhou secretly decided.

Unless he had no choice, otherwise, when he used the Illusionary Heavenly Fate, he would only deduce and divine things that consumed his life force.

At the thought of this, Zhou Zhou suddenly thought of something else.

"Back then, the High-Tier Deity-levels of the Illusory Life Race must have consumed a terrifying fate in order to deduce the main Scarlet Generals of the Hidden Battle Axe Scarlet Divine Kingdom."

"According to the common sense inheritance given to me by the Illusory Life Race."

"Back then, after the Illusory Life Race deduced the location of the Scarlet General, two High-Tier Deities, four Mid-Tier Deities, and six Low-Tier Deities died in the race."

"Back then, the Illusory Life Race, which was considered a relatively famous high-level bloodline Race, suffered a huge blow because of this deduction. They had no choice but to publicize that map and let the other high-level Races take a share of the loot."

"Even though I still obtained the final event reward of the Supreme Will in the end, I was forced to hide for 10,000 years."

"The fact that the Illusory Life Race is trapped in the Myriad Illusions Small World and is on the verge of extinction might be related to the divination back then that almost exhausted the luck of the Illusory Life Race."

The more Zhou Zhou thought about it, the more he felt that this divination technique was a double-edged sword.

It was used well.

To be able to stand out from the myriad races and even obtain the final event reward of the Supreme Event.

It was not used well.

Not only would he die, but he might even cause his Race to be on the verge of extermination.

The God Spirits of the Illusory Fate Race back then might have also expected this.

However, they chose to gamble.

As for the outcome of the bet...

Zhou Zhou shook his head.

It was very difficult for him to make an evaluation.

He shook his head and laughed. This was a matter of the Illusory Life Race. Why was he thinking so much?

He looked at the other two bloodline talents.

Fate Perception was also a good bloodline talent.

It could actually allow him to have a certain talent in the Law of Fate.

The Law of Fate was one of the top laws among the many laws of the Supreme Will.

As for the Mental Divination Technique, it was also a good bloodline talent.

At least in the future, whoever lost something, such as keys, Mist Cores, or other small items.

There was no need to trouble yourself to look for it.

He calculated in his heart and found it.

"Now that I've mastered divination and the Law of Fate talent..."

"The abilities in my body are getting more and more mixed..."

"Lightning Law Talent, Spatial Law Talent, Fate Law Talent, Bloodline Path, Blood Law Talent, Light Law Talent..."

"What kind of path will I walk in the future? What kind of nomological talent will I use to achieve my God Spirit path?"

Zhou Zhou looked even more confused.

He was a little happy and vexed.

It was not good to master too many abilities and talents.

For those with limited abilities and talent, at his current level, he would probably be very clear what kind of God Spirit path he would walk in the future.

There was no other path to take after all...

"Honorable Supreme Will, what Law path should I take to become an Achievement God Spirit?"

Zhou Zhou asked casually.

He had asked this question before.

However, the Supreme Will did not make a reply.

Occasionally, he would say [The path of the Law is on you].

But wasn't this obvious...

[Ask the Bodhi Supreme. He will help you solve your problem.]

At this moment...

A notification from the Supreme Will appeared in front of Zhou Zhou.

Zhou Zhou was stunned.

There was actually a different reply.

However, when he saw the answer of the Supreme Will, joy immediately appeared on his face.

"Can the Bodhi Supreme really help me solve my problem?"

Zhou Zhou muttered to himself.

He had actually wanted to ask this question when he obtained the Bodhi Supreme.

However, he was not too confident.

Now that he had the answer of the Supreme Will, he felt much more confident.

"I'll ask Bodhi Supreme tonight!"

Zhou Zhou thought to himself.

As for now...

He had to let his soldiers continue doing Faction Quests.

After that, Zhou Zhou did not stay any longer and returned to the Back Blazing Sun Kingdom through the Black Iron-Tier territory.

In the future, he planned to occupy a few more territories here.

This way, even if this Black Iron-Tier territory was captured, there were at least other territories that he could teleport over.

As for directly building a territory and teleportation array in the Myriad Illusions Small World, it sounded beautiful, but that would not work.

This was because the [Heaven Sealing Void Life Concealment Technique] of the Illusory Life Race had already completely blocked the internal and external space of the Myriad Illusions Small World. The Spatial Teleportation Array could not produce an Effect at all.

Even Zhou Zhou's Yellow Gold-Tier Return To The City could not pass through the [Heaven Sealing Void Life Concealment Technique].

Unless Zhou Zhou could raise it to a higher level.

However, Zhou Zhou did not have so many White Platinum-Tier Lord Talent Crystal Fragments in his hands now. He could not upgrade to Return To The City for the time being.

He could only wait until he gathered enough resources.

...

Blazing Sun Kingdom.

After Zhou Zhou returned to the capital of the Blazing Sun, he immediately used the Spatial Teleportation Array to arrive at the Knight Empire. He then teleported to the latest Epic-Tier Spatial Teleportation Array that they had captured yesterday.

The soldiers of the Knight Empire who were guarding this Spatial Teleportation Array were very polite to Zhou Zhou and the others.

After asking if he wanted to rest, Zhou Zhou tactfully refused. Then, he led the soldiers onto the Starry Night and flew to the next destination—a Legendary-Tier Advance Grade Spatial Teleportation Array.

...

More than six hours later, after occupying four Extraordinary-Tier Advance Grade Spatial Teleportation Arrays and two Epic-Tier Advance Grade Spatial Teleportation Arrays, Zhou Zhou successfully underwent two Incite Defections in the scarlet garrison of the two Epic-Tier Advance Grade Spatial Teleportation Arrays.

A total of more than 10 million Scarlet garrisons gave him 2,561,636 Scarlet Monsters for Incite Defection!

[Global Lord: 100% Drop Rate](#)

Chapter 652: Military Industry Lord's Request

After the Incite Defection was completed, Zhou Zhou left a Blood Bat Avatar for Bai Yun and the others as usual. Then, he let them conquer the other Spatial Teleportation Arrays themselves while he returned to the Blazing Sun Kingdom alone.

...

In a study room in the Advance Grade Lord's Paradise of the Blazing Sun Kingdom.

Zhou Zhou returned and was about to upgrade the Green Bronze-Tier Lord Talent, Scavenger, when he suddenly realized that the message interface had flashed.

He opened it and realized that it was a message from the Military Industry Lord.

He looked over curiously.

[Military Industry Lord: Your Majesty, why haven't you bought the weapons from our Military Industry Alliance recently? We have recently developed many new Cerulean Planet weapons. Our weapon developer even added some inspiration for the design of Machina race weapons in the High Continent. Their lethality is much stronger than when they were on the Cerulean Planet.]

Zhou Zhou scratched his head.

Cerulean Planet Weapons...

He had indeed bought some firearms and weapons from the Military Industry Lord.

However, at that time, the Military Industry Lord could only develop some firearms from the First World War. Even though they were considered strong and could reach the standard of Bronze and Silver Arms, as the strength of his soldiers increased rapidly, these weapons gradually could not match the strength of the soldiers.

In addition, his Ultimate Lord—Zhou Zhou had obtained the loots of the Machina race's Lord—Lord Father. He had grasped high-level war technology manufacturing blueprints of the Machina race, such as the Invisible Ghost, the Shield of Light, the Soul Residence, the Giant Axe Ripper, and the Suicide Bombeetles.

Therefore, he had long stopped using those primitive and backward First World War weapons.

[Lord of The Blazing Sun: I forgot to buy weapons from you recently because I have new weapons channels.]

Zhou Zhou replied truthfully.

...

Military Industry City Territory.

When the Military Industry Lord saw the Lord of The Blazing Sun's answer, he could not help but smile bitterly.

"That's true."

"With His Majesty's strength, it would be strange if he still takes a fancy to our weapons back then."

"I wonder if my current bargaining chip can move him..."

The Military Industry Lord muttered to himself.

Then, he looked out of the territory at the fatigue, panic, and confusion on the faces of the Subjects. His eyes gradually became firm.

Not every Lord of the Cerulean Planet was as heaven-defying as Zhou Zhou.

Not only could he do the top-notch Faction Quests in this King of Ten Thousand Kings Event, he even had time to conquer an Intermediate Kingdom.

Most of the Cerulean Planet Lords, even top-notch Lords like the Military Industry Lord, were deep in the mire of the King of Ten Thousand Kings' activities and struggling.

The pressure brought to them by the large-scale offensive of the Scarlet Faction was too terrifying after all.

There were really as many Diamond-Tier Extraordinary-Tier experts as there were dogs. Epic-Tier Legendary-Tier experts were everywhere.

Even Scarlet God Spirits began to appear.

It was very difficult for them to resist such a scarlet faction with the forces they had developed so far.

It was very difficult for them to resist such a scarlet faction with the forces they had developed so far.

No wonder the Supreme Will asked the Lords of all races to join the kingdom or Empire faction to assist these local factions in resisting the invasion of the endless Scarlet factions.

instead of letting the Lords of all races fight head-on.

With this difference in strength, wouldn't a head-on confrontation be pure sending him to his death?

In this war situation, even top Lords like the Military Industry Lord, the Dragon Lady Lord, and the Undead Lord had a hard time surviving.

Only Cerulean Planet Lords with Legendary-Tier Lord Talents like the Overlord Lord, the Dragon God Lord, and the Insect Lord could barely live better.

However, it was not much better.

They did not even dare to hope to obtain a high ranking in their faction now.

Being able to live through this King of Ten Thousand Kings event unscathed was their greatest wish.

...

The Military Industry Lord did not think too much about it and typed to Zhou Zhou again.

[Military Industry Lord: Your Majesty of the Blazing Sun, I want to make a request of you on behalf of the entire Military Industry Alliance.]

[Lord of The Blazing Sun: You don't have to be so polite. We're old friends. If you have anything to say, just say it.]

Zhou Zhou had a good impression of the few Lords who could work with him among the Cerulean Planet Lords.

In addition, this guy was the only Lord without a Lord Talent among the Lords of the Cerulean Planet. Zhou Zhou admired him.

[Military Industry Lord: I want to buy an Extraordinary-Tier Elementary Grade Kingdom Token from you.]

Zhou Zhou raised his eyebrows.

Then, he typed:

[Lord of The Blazing Sun: You want to build a kingdom? The conditions to build a kingdom are very difficult to achieve.]

[Military Industry Lord: We can already satisfy the other two conditions other than the Extraordinary-Tier Elementary Grade Kingdom Token.]

Zhou Zhou was really surprised when he saw his reply.

Even he had spent a considerable amount of time and effort to gather the three conditions to establish a kingdom.

He was not an arrogant person.

However, he could not help but feel that it was very difficult for a second Cerulean Planet Lord to have his talent, opportunity, and strength to gather these three conditions to establish a kingdom in a short period of time to build a second Cerulean Planet Lord's kingdom other than his.

The Military Industry Lord actually said that he was only lacking an Extraordinary-Tier Elementary Grade Kingdom Token to gather all the conditions to establish a kingdom. How could he not be surprised?

Zhou Zhou asked without thinking too much.

[Lord of The Blazing Sun: How did you satisfy the other two conditions?]

[Military Industry Lord: Sigh, isn't it because of this King of Ten Thousand Kings event, or rather, the Tribulation of All Races event?]

[Military Industry Lord: I'm a little embarrassed to say this. In some ways, we have to thank the King of Ten Thousand Kings for this event.]

[Military Industry Lord: If not for this Tribulation of All Races, there wouldn't be so many Kingdom-level factions scattered by the Scarlet faction, and so many experts and resources wouldn't have fallen into the hands of low-level Lord factions like us.]

[Military Industry Lord: Your Majesty, you're right. The reason why we have gathered the other two conditions to establish a kingdom is because we obtained the remains of those Kingdom-level forces that have already been destroyed.]

[Military Industry Lord: After the kingdom was destroyed, the descendants of these Kingdom-level Lord forces brought a portion of the resources accumulated by their kingdom to wander the High Continent.]

[Military Industry Lord: I saw the opportunity and found these descendants. After accepting them and discussing it, they said that they are willing to use the resources they have as a bargaining chip to unite our Cerulean Planet Lord to build a federation kingdom governed equally by our Cerulean Planet Lord and them.]

[Military Industry Lord: This way, they can also restore their country and we can step into the Kingdom-level Lord faction in advance.]

[Military Industry Lord: This Tribulation of All Races event really lives up to its name... I'll be honest with His Majesty. Even though I'm now one of the top Lords on the Cerulean Planet, I'm not confident that I can last until the end of this Tribulation of All Races event.]

[Military Industry Lord: I agreed for the sake of my Subjects and my future.]

[Global Lord: 100% Drop Rate](#)

Chapter 653: Zhou Zhou's Condition! The Confused Military Industry Lord!

When the Military Industry Lord mentioned discussing this matter, his face turned slightly red.

In fact, the descendants of kingdoms who had the resources of kingdoms or even heroes had originally wanted to dominate the federal countries in the beginning.

Facing this situation, the Military Industry Lord and the others did not think of a way to deal with it at first.

Even in search of Survival, some of the higher-ups of the Alliance even suggested that they might as well obey their suggestion and compromise for the time being.

In any case, who could say for sure what would happen in the future?

But at this moment, a higher-up of the Military Industry Alliance suddenly had an idea and asked if he should pull the banner of the Lord of The Blazing Sun to boost their confidence.

Even if he did not convince the other party in the end, he might be able to fight for more benefits and rights.

With the intention of giving it a try, they told them in the next meeting that the Lord of The Blazing Sun was of the same race. They even thickened their skin and said that His Majesty the Blazing Sun was actually their backer.

In the end, they were stunned.

After hearing that the Lord of The Blazing Sun was their race and backer, the attitude of these descendants of the kingdom, who were originally quite arrogant, actually changed drastically. They were even willing to treat him as an equal.

Only then did the Military Industry Lord and the others realize that the Lord of The Blazing Sun from the Cerulean Planet actually had such an astonishing reputation and status in the eyes of the life forms of the High Continent, especially the human life forms.

Lords of the Cerulean Planet were already smug that they had some Initial Acquaintance Diplomacy with Kingdom-level forces.

He did not know that the Lord of The Blazing Sun had already achieved such a high Reputation status outside.

On the other side, Zhou Zhou cursed in his heart when he heard the Military Industry Lord's words.

He had to admit that he was jealous.

It was so easy to obtain the resources and heroes to build a kingdom. In comparison, his act of building a kingdom with his own hands was simply a model among the Lords.

However, when he thought about how the Military Industry Lord would not receive any good rewards even if he built a kingdom as the first person to eat the benefits of establishing a Kingdom-level Lord faction, he felt much better.

He had to give others some soup, right?

Zhou Zhou reminded himself and gradually calmed down and began to think about how much benefits this matter would bring him.

He now had five Kingdom Tokens.

Among them, he would use the Epic-Tier Elementary Grade Kingdom Token of the Ice Demon Kingdom to build an Intermediate Kingdom in the future.

The other four Kingdom Tokens came from the four Beginner Kingdoms, Aurora Kingdom, Original Tahan, Original Titan, and Original Nether Bark.

He could sell one to the other party.

In any case, there was no point in keeping it.

As for using the additional Kingdom Token to build an additional kingdom as his subsidiary kingdom, this was not beneficial to him at all.

If he had the time and energy, he might as well focus on developing the Blazing Sun Kingdom.

Zhou Zhou thought for a moment and typed:

[Lord of The Blazing Sun: I can sell you a Kingdom Token, but what can you give me?]

After Zhou Zhou sent it, he waited for a long time before the other party sent a message.

[Military Industry Lord: What does His Majesty want?]

[Lord of The Blazing Sun: What do you have?]

[Military Industry Lord: We have recently figured out a portion of the manufacturing process for nuclear level Arms. After appraising it, we realized that it has the destructive power of a Low-Tier Deity. I wonder if Your Majesty needs it?]

The Military Industry Lord was a little helpless when he raised this condition.

This was originally their greatest trump card.

However, the industrial foundation needed to make a nuclear weapon was too much and too broad.

Coupled with the current situation, he could only use it as a bargaining chip, hoping that the other party would take a fancy to it.

Zhou Zhou was a little surprised.

He actually created Arms of that level so quickly.

Zhou Zhou thought for a moment and typed:

[Lord of The Blazing Sun: Not enough.]

[Lord of The Blazing Sun: What you're talking about is just a half-finished product. It's not even a half-finished product. It's just a production method. Its production requires very professional talents. I don't have anyone in this field. I can't make it even if you give it to me. I can, but this alone isn't enough.]

Zhou Zhou had the Ultimate Lord, Zhou Zhou, Wen Ya, and a series of robot armies. After obtaining the production method and gathering enough materials, there was a high chance of making nuclear weapons.

However, he naturally could not expose his background so easily.

He would bargain first.

[Military Industry Lord: I knew His Majesty wouldn't fancy such things... There's another benefit. After the Holy Army Kingdom is established, our Holy Army Kingdom and the Cerulean Planet Lord of the Military Industry Alliance under my command will follow His Majesty the Blazing Sun's lead in the future!]

[Military Industry Lord: If Your Majesty needs any Cerulean Planet Technology Arms, we can provide complete and detailed manufacturing blueprints and corresponding military manufacturing talents for free.]

[Military Industry Lord: We can also become His Majesty's substitute factory. If His Majesty needs orders for Cerulean Planet Arms, we can provide Arms manufacturing and later maintenance services to His Majesty at an absolute cost price!]

[Military Industry Lord: In addition, if you encounter the Lord's territory of our Military Industry Alliance during the development of your territory, the Lord of our Military Industry Alliance can directly give up his status as a Lord and offer the territory to you with both hands.]

Zhou Zhou raised his eyebrows.

This Military Industry Lord was really willing to spend a lot of money.

[Lord of The Blazing Sun: Can you make decisions for those two sides?]

[Military Industry Lord: I have to make a decision even if you can't... Now is not the time to be willful.]

Zhou Zhou was silent.

It seemed that the Military Industry Alliance was really not in a good situation.

Still...

[Lord of The Blazing Sun: It's still not enough.]

The Military Industry Lord originally thought that his sacrifice was great enough, but when he saw Zhou Zhou's reply, he could not help but feel angry no matter how good his temper was.

Wasn't His Majesty of the Blazing Sun going too far?

He had already given him everything he could, but this Emperor of The Blazing Sun was still not satisfied?

He already had the thought of retreating.

He no longer had any other assets after all.

However, at most, he would discuss with the other top Cerulean Planet Lords and see if they could join forces.

Even though the other Cerulean Planet Lords were not doing well either, it was very difficult for them to support each other even if they joined forces.

However, it was still a path that could be tried.

At this moment...

The Lord of The Blazing Sun sent another message.

[Lord of The Blazing Sun: You came to ask me for the Kingdom Token. The descendant of that kingdom should have lost the Kingdom Token, right?]

[Lord of The Blazing Sun: You've already sacrificed so much. Why don't you let the other party pay a little too?]

[Lord of The Blazing Sun: Tell the descendants of that kingdom that if you want to exchange for the Kingdom Token in my hands, you can take out a third of the country's wealth. This way, I will hand over my Kingdom Token with both hands.]

Military Industry City.

The Military Industry Lord looked at the text sent by Zhou Zhou in shock.

There was only one thought left in his mind.

Why was his appetite so big?

A third of the kingdom's wealth?!

How could he think of that?

The Military Industry Lord's expression was gloomy for a long time. Then, he replied, "Let me try asking." Then, he went to contact the descendants of the kingdom.

A moment later, the Military Industry Lord walked out of a temporary palace in a daze.

Because...

Facing the harsh conditions given by the Lord of The Blazing Sun, that descendant of the kingdom actually agreed after only thinking for a moment?

And he looked very excited.

What was going on?

Could it be that the King of the Blazing Sun had eaten the fruit of his pride?

He actually agreed to such a huge matter so easily?

At this moment, the Military Industry Lord felt that his worldview had been overturned.

[Global Lord: 100% Drop Rate](#)

Chapter 654: Yellow Gold-Tier Lord Talent—Trashman

The Military Industry Lord told Zhou Zhou this result in a daze.

Zhou Zhou was also quite surprised.

[Lord of The Blazing Sun: Is the descendant of that kingdom a man or a woman?]

[Military Industry Lord: Male.]

The Military Industry Lord replied subconsciously.

Zhou Zhou nodded inwardly when he saw the reply.

Zhou Zhou nodded inwardly when he saw the reply.

It shouldn't be the same for men.

[Military Industry Lord: By the way.]

[Military Industry Lord: That descendant of the kingdom also has a small request.]

[Military Industry Lord: He said that he wants to visit you if there's a chance in the future.]

The Military Industry Lord thought of this and hurriedly said to Zhou Zhou.

Zhou Zhou agreed without hesitation.

Giving him a third of the wealth of his kingdom.

So what if they met?

If every descendant of a wandering kingdom had such an awareness, he was willing to meet them every day.

Then, Zhou Zhou and the Military Industry Lord chatted about some specific matters about this matter.

As there was more to talk about, the two of them simply turned on the voice chat.

In terms of the content of the conversation:

For example, the descendant of that kingdom was from a descendant called the Holy Roman Kingdom, Estan.

The [Holy Army Kingdom] that the Military Industry Lord had mentioned just now was the name of the future federal kingdom that he and Estan had discussed.

Other than that, they also chatted about the specific division of power between the Military Industry Alliance and the Estan faction.

Due to the Emperor Heart Skill, Zhou Zhou had the inheritance of many emperors' ways of handling matters.

Therefore, he had a deep understanding of the federation kingdom mentioned by the Military Industry Lord.

Therefore, during the conversation, Zhou Zhou pointed out many mistakes in the Military Industry Lord's words and easily provided many solutions. He even mentioned many examples.

When the Military Industry Lord heard Zhou Zhou's persuasive theory, he was so shocked that he was speechless.

"Your Majesty, may I ask what your background was before you came to the High Continent?"

"Normal working class."

"Huh?"

The Military Industry Lord's mouth was wide open in disbelief.

Are you kidding me?

Working-class?

How can the working class have your knowledge?

Based on your comments and opinions just now, the Military Industry Lord even suspected that the other party had transmigrated from the previous emperor era?

Otherwise, why would there be so many practical theories that could empathize with him?

However, seeing that Zhou Zhou had no intention of explaining further, the Military Industry Lord was smart enough not to ask further.

A moment later, their conversation came to an end.

The Military Industry Lord looked unsatisfied.

Zhou Zhou was a little impatient.

Why was this Military Industry Lord like a block of wood?

His brain was all focused on technology?

Zhou Zhou said, "Let's talk next time," and hung up.

Unexpectedly, the other party sent another message.

[Military Industry Lord: Your Majesty, I want to ask you about establishing a kingdom. Before looking for you, I had discussed it with other top Lords, including the Overlord Lord, the Dragon Lady Lord, the Undead Lord, and other Lords.]

[Military Industry Lord: They actually have the idea of building a kingdom. I wonder if you...]

Perhaps it was because he had admitted that Zhou Zhou was his direct superior.

The Military Industry Lord's tone became cautious.

When Zhou Zhou saw the message, he immediately understood what the other party meant.

He casually typed a reply:

[Lord of The Blazing Sun: You decide what to say and what not to say. However, if they really want to exchange for the Kingdom Token in my hands, fine. Bring at least the value you just paid and come find me.]

[Lord of The Blazing Sun: I have limited Kingdom Tokens. First come, first served.]

[Military Industry Lord: Yes, Your Majesty.]

The Military Industry Lord could not help but click his tongue.

It seemed that His Majesty was going to make a killing this time.

For some reason, he actually felt a little happy.

If these top-notch Lords wanted to survive this event, they had to build a kingdom and use the power and resources of the kingdom to coordinate all the forces that could be used.

Therefore, they had to buy His Majesty's Kingdom Token even if they wanted to.

He thought of something interesting.

The Military Industry Lord smiled.

...

On the other side, Zhou Zhou did not pay much attention to it after closing the chat interface.

Even though the Dragon Lady Lord was once a competitor he valued when he was weak, the difference between the two sides could be said to be worlds apart.

Zhou Zhou no longer minded what had happened back then.

Then, he took out 10 White Silver-Tier Lord Talent Crystal Fragments and fused them into a White Silver-Tier Lord Talent Origin Divine Crystals to upgrade the Scavenger to a White Silver-Tier Lord Talent.

[Lord Talent: Scavenger (White Silver-Tier)]

[Scavenger: As an old scavenger, you already have an almost innate intuition towards the treasures within a radius of 10,000 meters around you. You can acutely sense the location of the treasures.

At the same time, the treasures you have collected can be used for twice the time if they have characteristics such as time limit or Endurance.

When you extract the loot from the corpse, the drop rate will increase by an additional 10%.]

Zhou Zhou: "..."

He had a toothache.

The effect of this upgraded Lord Talent had indeed increased.

Whether it was the increase in the range from 1,000 meters to 10,000 meters or the increase in the drop rate from 5% to 10%, it was a huge increase for others.

But to Zhou Zhou, what he wanted the most was an increase in [Time Use]!

He looked at his Lord Talent Fragment storage and realized that it could still be upgraded to Yellow Gold-Tier.

However, he could not continue charging at the White Platinum-Tier.

There was no hesitation.

Zhou Zhou used another 10 Yellow Gold-Tier Lord Talent Crystal Fragments to fuse into a Yellow Gold-Tier Lord Talent Origin Divine Crystals and upgrade the Scavenger to the Yellow Gold-Tier.

[Lord Talent: Trashman (Yellow Gold-Tier)]

[Scavenger: You are the leader of the scavengers, a famous trashman.]

You, who is quite talented in picking up trash, already have an almost innate intuition towards the treasures within a 100-kilometer radius of you. You can acutely sense the location of the treasures.

"At the same time, if the treasure you collected has characteristics such as time limit or endurance, you can use your rich experience to find a way to extend the usage of this treasure. It can be extended by up to three times.

When you extract the loot from the corpse, the drop rate will increase by an additional 15%.]

Zhou Zhou raised his eyebrows.

The Scavenger had been upgraded to Trashman.

Emmmm...

Is this considered an upgrade?

Zhou Zhou shook his head.

He looked at the upgraded Lord Talent and smiled.

He had finally upgraded to what he needed.

Another increase: The range of perception had increased from 10,000 meters to 100 kilometers. It was also ten times stronger.

As for the final 15% drop rate, it could basically be ignored.

He immediately took out the Bodhi Supreme.

As he watched, a text notification gradually appeared in front of him.

[Trashman Talent Hint: As an experienced trashman, you vaguely feel that this seed-like treasure seems to have a life of its own and is constantly emitting a rich desire for knowledge.]

The desire for knowledge?

Zhou Zhou raised his eyebrows.

[Global Lord: 100% Drop Rate](#)

Chapter 655: Use Dispelling Questions!

"Wen Ya." Zhou Zhou suddenly said.

"Wen Ya is here, Your Majesty."

Wen Ya's gentle voice appeared in the room.

"Take out the bloodline inheritances I recorded previously."

He said.

"Yes, Your Majesty."

After Wen Ya finished speaking, a large number of virtual texts slowly appeared around Zhou Zhou.

All kinds of bloodline inheritances were recorded on these virtual texts as if they were free.

Zhou Zhou did not notice this.

His gaze had been on the Bodhi Supreme in his hand.

The next second, under Zhou Zhou's surprised gaze, the Bodhi Supreme that had been motionless suddenly moved slightly after these bloodline inheritances appeared. Then, it floated in the air.

Wisps of golden light emitted from the golden patterns on its surface, looking mysterious, dazzling, and eye-catching.

This light landed on the virtual text.

With every virtual text that recorded the bloodline inheritance, the golden light on the surface of the Bodhi Supreme became brighter. At the same time, the virtual text that was scanned disappeared, as if it had been absorbed by the Bodhi Supreme.

Zhou Zhou did not care.

It was just a replicated virtual text. Wen Ya could make as many of these things as she wanted.

After these virtual texts were absorbed by the Bodhi Supreme, the light on his body gradually dimmed. Zhou Zhou said without hesitation,

"Next batch!"

A new batch of virtual texts recording the bloodline inheritance appeared in the air around Zhou Zhou.

Seeing this, the Bodhi Supreme was like a child who had seen delicious snacks. The light on his body immediately lit up again. Then, he began to absorb these bloodline inheritances again.

After seven to eight such experiences, the bloodline inheritance that Zhou Zhou had recorded was finally absorbed by Bodhi Supreme.

He looked at Bodhi Supreme.

He did not know if it was an illusion, but he could actually feel that it was not done yet...

"Don't be anxious."

"Tomorrow, I'll continue to engrave the bloodline inheritance and let you eat your fill."

Zhou Zhou comforted him as he was secretly shocked by this fellow's bottomless pit. He felt that the other party was like a big rice bucket.

The Bodhi Supreme floating in the air seemed to have a life of its own. It moved slightly when it heard Zhou Zhou's words before landing in his hand again.

Zhou Zhou looked over expectantly.

[Treasure Name: Bodhi Supreme]

[Treasure Grade: Mythical-Tier]

[Treasure Effect One - No Doubts: With the Bodhi Supreme in your hand, ask the Bodhi Supreme the question in your heart. The Bodhi Supreme will give you an answer.]

[Current number of questions answered: 1/3]

[Prompt One: After the enhancement of your Scavenger Talent, the current number of questions answered by the Bodhi Supreme has increased to: 2/3]

[Prompt Two: The Bodhi Supreme Will is satisfied with your feeding and is willing to answer an ordinary question for you. Current number of Normal questions answered: 1/1.]

[Treasure Effect Two - Bodhi Heart: With the Bodhi Supreme in your hand, your comprehension ability will increase greatly.]

[Treasure Description: A Mythical-Tier treasure personally created by the Supreme Will. It can resolve all the doubts in the world!]

Zhou Zhou looked a little excited when he saw the update on the treasure.

Not bad, not bad!

Even though it only increased the number of normal questions,

However, at the very least, it proved that his trashy Lord Talent provided him with a feasible method to increase the 'use duration'!

Moreover, who knew what kind of range of problems the normal problems in the eyes of the Bodhi Supreme covered?

The opportunity to answer this Normal question was definitely quite precious.

"Use this method to increase the number of times Bodhi Supreme can be used."

"I'm afraid only I and the other high-level Bloodline Races with a large amount of bloodline inheritance can do it."

Zhou Zhou came back to his senses and was secretly rejoicing.

He did not expect this either.

His bloodline inheritance could actually be useful in this aspect.

He thought for a moment and decided to use the Normal question first to see the specific Effect.

In any case, there were still many bloodline inheritances in his mind.

This ordinary question was not a big deal.

He held the Bodhi Supreme in his hand and was about to ask something when a lazy voice that sounded like a man and a woman sounded.

[Human, what question do you want to ask?]

This was... the Bodhi Supreme?

Zhou Zhou was surprised.

Even though he had previously learned that the Bodhi Supreme had his own Wisdom Will through the Illusory Life Race and had even made an agreement with Patriarch Shi Luo back then,

However, this was the first time he had come into contact with the Intelligence Will that was born from the treasure.

[I want to ask, what's the difference between normal questions and answering questions?]

Zhou Zhou did not waste his breath and asked in his heart.

[Normal problems are just some not-so-secret problems.]

[Even though these normal questions do not involve the most secretive secrets of the myriad worlds, they will still be answers that some high-level Bloodline Races have been pursuing bitterly but can't obtain.]

[As for answering questions, its scope is huge. Basically, as long as there are questions in the myriad worlds and there are answers to them, I can answer almost all of them for you.]

[Not only that, but if there's a need, I'll also give the enquirer some benefits that can assist in clearing his doubts.]

[For example, when I was answering a Illusory Fate Race member's doubts previously, that Illusory Fate Race member asked me if I could resolve its predicament. After answering his questions, I gave him a set of Blood Seal Technique.]

[Almost?]

Zhou Zhou acutely sensed this word.

[Aiyaya, you discovered me. Of course, in the current world, I basically know everything. However, I was created by the Supreme Will after all.]

[As you Cerulean Planet people or Earthlings have said, Bodhi has no choice in the pugilistic world.]

[If the Supreme Will doesn't want me to reveal some secrets, I can only choose not to.]

As the Bodhi Supreme spoke, he sounded helpless as if his talent had been delayed by the Supreme Will.

It sounded like he deserved a beating...

Zhou Zhou nodded on the surface.

He was a little shocked.

He could actually tell at a glance that I was a transmigrator.

As expected of the omniscient Bodhi Supreme.

Moreover, from the other party's calm tone,

Were transmigrators not rare in this world?

Zhou Zhou instantly thought of many things.

He pondered for a long time before coming back to his senses. He looked at the Bodhi Supreme in his hand and said seriously:

[Bodhi Supreme, I want to use that opportunity to clear my doubts.]

[Ask away.]

Bodhi Supreme said lazily.

[May I ask what path of laws I should use to become a God Spirit in the future?]

[You don't know?]

[Should I know?]

[It's on you. You actually don't know? Hahahaha, you're teasing me to death...]

Bodhi Supreme laughed out loud, as if he had heard something extremely funny.

Zhou Zhou's expression darkened.

This Bodhi Supreme...

His personality was really bad!

But then again, this Bodhi Supreme's answer was exactly the same as the hint given to him by the Supreme Will.

[**Global Lord: 100% Drop Rate**](#)

Chapter 656: Lord Law!

[Alright, alright, I won't laugh at you anymore.]

Bodhi Supreme composed himself and replied leisurely.

[It's not your fault. It's the number one Law path among the Endless Laws after all. Even those high-level Bloodline Races will find it difficult to see its appearance, let alone you.]

[What kind of law is it?]

When Zhou Zhou heard the other party's words, his eyes lit up and he immediately asked.

[Idiot, the strongest method you've used to reach this point is also the strongest Law path you have. It's naturally yours...]

[Many Lord Talents!]

Zhou Zhou could not help but tremble.

Lord... Lord Talents?!

When he heard this word, Zhou Zhou immediately felt the fog that enveloped the path ahead disappear almost instantly. It was as if a light suddenly illuminated the future path that he had been searching for a long time but had not found.

However, Zhou Zhou still had a question.

[Lord Talent... Isn't it a personal talent?]

Zhou Zhou asked doubtfully.

[Most of the innate talents of life forms are manifestations of endless laws on life forms. It can also be said to be an ability that simplifies laws billions of times.]

[Therefore, talent tracing back to the extreme is the Law.]

[You're very lucky. From the beginning, you became one of the few Lords chosen by Heaven with a complete Lord Talent.]

[Even though your Legendary-Tier Lord Talent—100% drop rate back then was not the top Lord Talent among the many Lord Talents.]

[But it is the best prerequisite for this path of laws.]

[Especially after you upgraded it to the Mythical-Tier—Unique Grade Lord Talent—King of Loots, this prerequisite for underwent an extreme transformation.]

[If the path to this Supreme Law requires talent.]

[Then you, who has this strongest prerequisite for, are the strongest talent owner!]

[And it's foreseeable that your talent will continue to increase after you obtain more Lord Talents in the future.]

No matter how bad the Bodhi Supreme's personality was, his evaluation of Zhou Zhou's talent was quite high.

Zhou Zhou was not proud.

After all, talent was only a talent.

It was useless no matter how talented he was if he did not become the last Lord of All Races.

Just as an old saying went, a dead genius was not a genius.

[What's the name of this path of laws?]

Zhou Zhou asked.

[You can call it the Lord's Law, or the Supreme Law, the Control Law, the Control Law, the God's Law, the Original Law...]

[There are many names. It's up to you.]

Bodhi Supreme said.

Zhou Zhou thought for a moment.

Since he targeted the Lord of All Races, he would call it the Lord's Law.

[How should I comprehend the Lord's Law?]

[How should I comprehend the Lord's Law?]

[That's another problem.]

Bodhi Supreme said leisurely.

[Normal question or answer question?]

Zhou Zhou immediately asked.

[Let's see what answer you want.]

[If it's a Normal question, I can at most hint you with some methods verbally.]

[However, if it's an answer at the enlightenment level, not only can I hint you with some methods verbally, I can also give you good things like the Blood Restriction and the Heaven Sealing Void Life Concealment Technique, allowing you to master the method to directly reach the Lord's Law.]

Bodhi Supreme tempted.

Zhou Zhou's expression was strange.

This Bodhi Supreme...

Why did he look like the kind of person who wanted to tell him his secret but did not want to say it himself? Instead, he wanted others to take the initiative to ask for guidance...

[I want to dispel my doubts.]

Zhou Zhou did not think too much about it and said in a low voice.

[Wise choice!]

Bodhi Supreme praised and said,

[To you, you have two innate conditions to comprehend the Lord's Law.]

[The first is to casually choose one of the large number of Lord Talent Crystal Fragments you have and comprehend the incomplete Lord Law that is billions of times simpler.]

[However, this method is a little worse than the second method.]

[The second method is to start with the Lord Talent you have and comprehend the Lord Laws within.]

[The second method is to start with the Lord Talent you have and comprehend the Lord Laws within.]

[However, you can't bite off more than you can chew at the beginning. You have to start comprehending from your lowest-level Lord Talent.]

[It's too complicated a Lord's Law. You won't understand it.]

Bodhi Supreme reminded.

Zhou Zhou nodded thoughtfully.

At this moment...

[However...] Bodhi Supreme's tone changed and he said, [There are billions of existences in the Endless Heavens who have the Lord Talent. But do you know why, after countless years, very few or even almost no experts in the myriad worlds are famous for the Lord Law?]

[Why?]

Zhou Zhou also realized this problem.

There were countless bloodline inheritances in his mind.

However, he only realized a problem now.

None of the bloodline inheritances in his mind mentioned anything about the Lord's Law.

Not to mention a God Spirit that had become a God with the Lord's Law?

It was as if even those top-notch Bloodline Races did not know the existence of the Lord Law?

It was unbelievable just thinking about it.

[That's naturally because there is an extremely high threshold to sense the Lord's Law.]

[If you can't cross this threshold, not to mention becoming a God with the Lord's Law, even living beings with high talent can't sense the existence of the Lord's Law.]

[You have so many Lord Talents on you, but don't you feel anything about the Lord Law?]

[You have so many Lord Talents on you, but don't you feel anything about the Lord Law?]

[I'll teach you a secret technique now. If you learn this secret technique, you can feel the existence of the Lord's Law.]

[The name of this mystic technique is Supreme Eye. Listen carefully...]

Then, the Bodhi Supreme explained the Supreme Eye mystic technique tirelessly.

Zhou Zhou closed his eyes and listened to the mystic technique worn by the Bodhi Supreme.

Gradually, white fog emitted from his body and condensed above his head.

A moment later, a circular pure white eye floated above Zhou Zhou's head.

If the Black Moon King was still alive, he would probably be able to tell at a glance that this pure white eye was the phenomenon of the world that appeared when he faced the Supreme Will.

However, compared to a phenomenon of that level, at this moment, the Supreme Eye above Zhou Zhou's head was much smaller.

Moreover, it did not have that supreme and terrifying heavenly might.

There was no time freeze or spatial distance astronomical phenomenon.

At the same time, Zhou Zhou realized that when he used this Supreme Eye, his perspective seemed to have suddenly changed from a first-person perspective to a God's perspective.

Not only could he observe everything around him from 360 degrees without any blind spots, Moreover, he could see things that most life forms could not.

For example...

Zhou Zhou moved the Supreme Eye and looked down at his body.

It was as if he had x-ray vision and could see straight into his body.

In his body, colorful mystical law engravings spread throughout his body.

It was as if he had seen the most profound and fundamental thing in the world, making him unable to help but be addicted.

He looked at these secrets of the Mysterious Laws.

He suddenly seemed to understand something.

"This is the law that controls everything!"

"This is the supreme path!"

"This is..."

"A Lord's Law!"

Zhou Zhou muttered to himself.

[Global Lord: 100% Drop Rate](#)

Chapter 657: Black Iron-Tier Lord Talent— Hand of Wealth

Zhou Zhou's gaze landed on the profound patterns on his body.

These law engravings that represented the Lord's laws were many and varied. They looked very scattered, as if they were independent.

However, if one looked closely, they would discover that they were actually vaguely similar in nature, but they differed in the division of labor.

Zhou Zhou controlled the Crowd Control Supreme Eye and his gaze landed on the largest Lord Talent law engraving in his body.

This Lord nomological secret pattern was nine-colored and looked extremely noble, as if it contained a world.

As soon as they came into contact.

Zhou Zhou knew what the Lord's Law was.

It was his most powerful Lord Talent—Mythical-Tier—One and Only Lord Talent: King of Loots. It represented the secret laws!

Zhou Zhou was naturally the most confident in this Lord Talent that had followed him for the longest time.

After he came into contact with it, he subconsciously went deeper and prepared to comprehend this law engraving.

He had completely forgotten the Bodhi Supreme's reminder.

A moment later, he retracted his consciousness from the King of Loots' nomological secret engravings with a dumbfounded expression.

After his consciousness entered it, he was like a child who had never gone to school and suddenly saw an academician-level scientific research paper.

He didn't and could not understand it at all!

[Heh, I told you to start from the lowest-level Lord Talent, but you didn't listen. Are you dumbfounded?]

[Did he really think that it was so easy to comprehend an ultimate Maxim?]

Bodhi Supreme mocked mercilessly.

Zhou Zhou was so embarrassed that he did not know what to do.

[I was wrong.]

[I'll comprehend the lowest-level Lord Talent now.]

Zhou Zhou was not stubborn. He looked at the nomological patterns represented by the smallest Lord Talent.

Soon, his gaze landed on a Lord Talent that was emitting a Bronze glow.

It was the Green Bronze-Tier Lord Talent— Beauty!

It was one of his few Green Bronze-Tier Lord Talents.

It was all thanks to this Lord Talent that so many refugees could come from thousands of miles away to join his territory every day.

His consciousness was immersed in it.

A moment later, a slight frown creased his brow.

The Bodhi Supreme was right.

A low-level Lord Talent was indeed easier to comprehend.

Still...

Zhou Zhou was so embarrassed that he did not know what to do.

Even the Green Bronze-Tier Lord Talent was very difficult for him to comprehend.

The only thing that made Zhou Zhou happy was...

He had really comprehended a little of the profundity of the Lord's laws.

For example, this Beauty Lord Talent.

After a while of comprehension, he vaguely understood how this Lord Talent had unknowingly improved the looks of the Subjects.

According to this progress, he continued to comprehend.

Perhaps in another 10 days or eight days.

He could change a person's appearance without relying on his Lord Talent.

It could even improve one's figure and temperament in all aspects that affected one's appearance.

Sensing this, Zhou Zhou looked excited.

[I say... What are you so happy about?]

At this moment...

The Bodhi Supreme threw another merciless voice over.

Zhou Zhou opened his eyes and looked at Bodhi Supreme.

Bodhi Supreme lectured again:

[For the Lord Talent, you're just a kid who can't even remember the numbers.]

[Now, instead of studying the kindergarten curriculum, you're thinking of skipping grades to study the first and second grade curriculum?]

[Don't bite off more than you can chew!]

Bodhi Supreme did not stand on ceremony.

Zhou Zhou nodded.

He wasn't angry.

That was because he knew that the other party was right, with his current understanding of the Lord's Law, it was indeed a little too difficult to start with the Green Bronze-Tier Lord Talent.

However, the Black Iron-Tier Lord Talent that he had previously had had long been upgraded.

Since that was the case...

Zhou Zhou flipped his right hand and took out ten Black Iron-Tier Lord Talent Crystal Fragments. Then, he fused them into a Black Iron-Tier Lord Talent Origin Divine Crystals.

He looked over.

A text notification appeared.

Treasure Name: Lord Talent Sphere—Hand of Wealth

[Treasure Grade: Black Iron-Tier]

[Treasure Effect: After absorbing it, the Lord will have the Black Iron—Tier Lord Talent—Hand of Wealth!]

[Treasure Description: A Lord Talent Sphere purified by the Supreme Will. You can obtain a Yellow Gold-Tier Lord Talent after absorbing it.]

"Since I don't have the Black Iron-Tier Lord Talent, I can only create a Black Iron-Tier Lord Talent on the spot..."

Zhou Zhou looked at this Lord Talent and thought to himself.

Actually, with the Lord Talent Crystal Fragment he had, he could completely create a large number of low-level Lord Talents.

But he understood that

no matter how many low-level Lord Talents he had, they could not compare to the benefits that a high-level Lord Talent would bring him.

In addition, upgrading other high-level Lord Talents required a large number of low-level Lord Talent Crystal Fragments to synthesize.

Therefore, he had never used these low-level Lord Talent Crystal Fragments.

However, this situation was different. It was fine to use a few pieces.

He directly chose to absorb the 27th Lord Talent without hesitation.

Soon, he finished absorbing it.

Then, he looked at the talent information of this Lord Talent.

[Lord Talent: Hand of Wealth (Black Iron-Tier)]

[Specific Talent Effect One: With the Hand of Wealth in hand, scoop into the Void and you can randomly obtain one to 100 Black Iron-Tier Mist Cores. This Talent Effect can be used once a day.]

[Specific Talent Effect Two: When you and your Subject extract the spoils of war from the corpse, there is a 1% chance of obtaining an additional Mist Core equivalent to the corpse's strength realm.]

After reading it, Zhou Zhou shook his head.

He might be very interested in this Lord Talent if he had just descended to the High Continent.

But now, he could harvest hundreds or thousands of Legendary-Tier Mist Cores every day.

He was naturally not interested in such a weak increase in the drop of the Mist Core.

"However, this Lord Talent Effect is quite useless."

"But it can be used to comprehend the Lord's Law contained in it."

Zhou Zhou thought to himself.

Then, he closed his eyes and entered the Supreme Eye's perspective again to observe his body.

Soon, he found the Black Iron-Tier Lord Talent that represented the Hand of Wealth.

His consciousness was immersed in it and a smile appeared on his face.

Not bad.

Even though it was still difficult to comprehend the nomological secret engravings of the Black Iron-Tier Lord Talent, he could at least comprehend them normally.

He saw his body in reality holding the Bodhi Supreme.

At this moment, Zhou Zhou immediately felt that his comprehension had improved greatly again.

Previously, Zhou Zhou had found it somewhat strenuous to comprehend the nomological engravings.

Now, he no longer felt any difficulty at all.

Comprehending the black iron level law engravings was as natural as eating and drinking.

...

When Bodhi Supreme saw this scene, he praised the human in front of him.

As expected of the Chaos Humans, he could actually comprehend this supreme Lord's Law normally.

Even though he had the enhancement of the Bodhi Heart and could only comprehend the Black Iron Lord Talent law engravings,

However, as long as the lord in front of him took his time, the speed at which he comprehended the Lord Talent's nomological patterns would become faster and faster!

In fact, it was not impossible for him to become a God Spirit with achievements with the Lord's Law in the future.

[Global Lord: 100% Drop Rate](#)

Chapter 658: Taking Out A Portrait Of Grandpa Mao?

The sky gradually darkened.

In a cultivation room in the Advance Grade Lord's Paradise.

A handsome man in the Emperor Dragon Robe was sitting cross-legged on a mat and cultivating.

This person was naturally Zhou Zhou!

And above his head, a circular eye emitting a pure white light was focused on Zhou Zhou's body.

This round pupil reflected the black iron law engravings, looking a little mysterious.

A moment later, the pure white round pupil disappeared.

Zhou Zhou, who was sitting cross-legged on the mat, slowly opened his eyes.

His eyes were filled with fatigue, and his face was a little pale. He looked like he had used up too much energy.

"I didn't expect that comprehending the Lord's laws would consume so much of my essence, energy, and spirit..."

"Especially after using the Bodhi Supreme, the consumption has actually doubled."

"Now, I feel like I've stayed up for three to four nights when I was an ordinary person."

Zhou Zhou took a deep breath.

The Lord's law was indeed the strongest law that governed everything, so he wanted to continue using the Bodhi Supreme to increase his comprehension.

The Bodhi Supreme had added too much to his comprehension.

The difference in comprehension between him holding the Bodhi Supreme and him not holding it was ten times or even greater.

One had to know that he was a Chaos Human to begin with. He had a racial talent that greatly increased his perception, such as the high-level Chaos Core.

But even so, he had actually been enhanced by the Bodhi Supreme so much. It could be seen that the Bodhi Supreme was top-notch!

With a top-grade treasure like Bodhi Supreme, he would definitely be able to greatly increase his efficiency in comprehending the Lord's laws!

With a flip of his right hand, he took out a bottle of Epic-Tier Intermediate Restoration Potion and a bottle of Epic-Tier Soul Restoration Potion. Then, he uncorked the bottle and drank it in one gulp.

After tasting it for a while, he realized that his energy and soul fatigue had recovered slightly, but it was not as much as his Chaos Human Constitution's self-recovery.

He shook his head and gave up on taking the medicine.

Then, he thought of something and smiled.

He raised his right hand.

The next second, his entire right arm was emitting a faint black iron light.

Just like that, he raised his right hand and extended it into the void, until his arm completely disappeared into the void.

Right on the heels of that, he made a rummaging motion.

Soon, he seemed to have grabbed onto something as he retracted his right hand from the depths of the Void. Then, with a flip of his right hand, some Black Iron-Tier Mist Cores appeared in his hand.

"23 Black Iron-Tier Mist Cores..."

"Tsk tsk, my luck isn't too good..."

Zhou Zhou muttered to himself.

These 23 Black Iron-Tier Mist Cores were obtained by him through the Hand of Wealth—Lord Talent—that he had just obtained.

Even though there were very few of them.

Zhou Zhou did not mind.

"The next step is the most important..."

Zhou Zhou took a deep breath.

His expression turned solemn.

He raised his right hand and looked at it.

Whoosh!

Invisible nomological fluctuations rippled around him.

This nomological fluctuation was extremely unstable. It was like a kite controlled by a newbie. It could leave his hand at any time, causing the kite to fail.

Drops of sweat appeared on Zhou Zhou's forehead.

He was trying his best to control the laws around him and condense them in his right hand.

A moment later...

BOOM!

A soul-piercing explosion sounded.

The Dharmic power fluctuations around Zhou Zhou suddenly became chaotic. Then, they suddenly exploded and dissipated.

Zhou Zhou's expression was calm.

It was just that his attempt had failed.

He didn't say anything and tried again.

...

Two hours later.

Zhou Zhou continued to use the Lord's law but all of them failed without exception.

Fortunately, such a failure would not cause any damage to Zhou Zhou's body. It would only make him more tired.

It was just exhaustion.

Naturally, he could not stop Zhou Zhou's enthusiasm for the Lord's laws.

Therefore, he endured the double exhaustion of his Spirit and body and continued to practice even more seriously.

...

The 67th attempt.

Zhou Zhou took a deep breath as his body emitted invisible nomological fluctuations again. Then, he forcefully retracted the nomological fluctuations towards his right arm.

Soon, all the nomological fluctuations approached his right arm at a slow but firm speed and finally converged on it.

At this moment, his right arm emitted an extremely faint black-iron light.

Zhou Zhou's expression remained solemn.

He did not look smug at all.

Retracting the nomological fluctuations to his right arm was something he could already do on the 35th time.

However, the final step, which was to take the 'wealth' from the void, was the most crucial part of his failure.

He concentrated, raised his right arm, reached into the void, and began to 'fish'.

A moment later, Zhou Zhou was delighted.

This was because he felt that his right hand, which was engraved with the Lord Talent, seemed to have grabbed something.

At this point, his expression became even more solemn.

Zhou Zhou slowly retracted his right arm from the void.

When his arm was completely retracted from the void, his expression immediately became ecstatic.

"It worked!"

"It did not fail!"

He jumped up from the futon excitedly.

"I!"

"Zhou Zhou,

is talented in the Lord's Law as expected! Hahahaha..."

Zhou Zhou laughed out loud.

While he did not show anything on the surface during the previous dozens of failures, he was about to doubt his life.

Thankfully, the bitter end was over, and he finally succeeded...

"Success my *ss!"

"Let's see what you're holding."

At this moment...

Bodhi Supreme's voice sounded again.

Zhou Zhou was stunned.

He had a bad feeling and looked at his right hand.

He was holding a red note tightly in his hand.

He opened it and was dumbfounded.

"Grandpa Mao?"

He looked left and right.

No matter how he looked at it, he felt that this was a piece of Grandpa Mao.

"How am I going to take out one of Grandpa Mao's?"

Zhou Zhou was at a loss.

[This is considered a normal problem.]

Bodhi Supreme said.

[I'll record new knowledge for you tonight.]

Zhou Zhou said.

[Okay.]

The Bodhi Supreme was still very passionate about knowledge, especially the bloodline inheritance of this human who had grasped many high-level bloodline inheritances. It was still very envious.

Because it knew a lot but for some reason, most of the things it knew did not really belong to it.

That was why it craved the knowledge that belonged to it.

[According to my observation, when you were applying the law engravings just now, in terms of wealth, you subconsciously thought of your Huaxia currency.]

[This is actually very easy to understand.]

[You've only been in the Higher Continent for a short period of time after all.]

[The impression that Mist Core gave you is naturally far less than the impression that Grandpa Mao gave you. After all, the latter has accompanied you for more than 20 years.]

[Try a few more times in the future and you'll get the Mist Core.]

"Is that so?" Zhou Zhou looked hesitant.

He still felt a little dreamy about obtaining this picture of Grandpa Mao from the void.

[Global Lord: 100% Drop Rate](#)

Chapter 659: The Omnipotent Lord Law! A Strong Enemy Is Attacking!

"Where did I get Grandpa Mao from?"

Zhou Zhou suddenly thought of this.

[This is another normal problem.]

"I'll give them all to you in the future."

Zhou Zhou's face darkened.

This guy...

[Earth, in the security vault of a certain rich man in China.]

Bodhi Supreme said in satisfaction.

"In other words, my hand just returned to Earth?"

Zhou Zhou glared at him.

[You were the one who used the power of the Lord's Law to create the Hand of Wealth to go to Earth.]

[Your main body is actually still on the High Continent.]

[Keep this picture of Grandpa Mao well.]

[In the future, when you become stronger, you might be able to use this Grandpa Mao as the coordinates and return to your hometown through the spatial passageway opened by the Hand of Wealth.]

Bodhi Supreme said lazily.

Zhou Zhou's mouth widened slightly.

An important reason why he wanted to become the Lord of All Races was because he wanted to return to his hometown.

They did not expect...

He already had an approximate method.

Even though the Hand of Wealth had only returned to the Cerulean Planet and not his main body...

However, this also made Zhou Zhou excited enough.

There was hope for the future after all!

After coming back to his senses,

Zhou Zhou felt more and more how terrifying this Lord's Law was.

"This Lord Law... is simply like the source code of the myriad worlds."

He muttered to himself.

The act of withdrawing the money just now reminded him of some open world game he had played in the past.

As long as he entered a certain mysterious code, he could obtain money, weapons, equipment, and so on...

[That's right.]

[If you completely master the Lord's Law, you will be an omnipotent God in the Endless Heavens!]

Bodhi Supreme encouraged.

Zhou Zhou nodded.

A Black Iron-Tier Lord Talent's nomological engraving gave him such a surprise ability.

If one grasped the top-notch Lord Law or even the complete Lord Law,

It was indeed not a problem to say that he was omnipotent.

After that, he did not continue to comprehend the Lord Talent Law engravings. Instead, he planned to rest.

He was too tired.

If he wanted to continue comprehending, he would probably have to rest until tomorrow.

Originally, he wanted to use the Eye of The Heaven's Anger again after asking the Bodhi Supreme his questions.

From the looks of it, it was better to think about it tomorrow.

At this moment...

"Your Majesty, Prime Minister Zheng requests an audience!"

"And the Prime Minister said that he has something important to report to His Majesty!"

Atley quickly walked over and reported to Zhou Zhou.

"Important matters?"

Zhou Zhou was stunned.

Then, he immediately asked Atley to bring Zheng Yuanqi over.

Soon, Zheng Yuanqi arrived in front of Zhou Zhou.

"Your Majesty!"

"About 10,000 kilometers away from the Blazing Sun Kingdom."

"A vast army of Fog Monsters is rushing towards the territory of our Blazing Sun Kingdom!"

"Their total military strength is about 100 million!"

Zheng Yuanqi said solemnly.

Zhou Zhou's pupils trembled.

"100 million?!"

"Are you sure?!"

He immediately asked.

"I've already gone and witnessed it myself. I'm very sure!"

Zheng Yuanqi looked like he was not joking.

Zhou Zhou also realized the severity of the matter.

100 million fog monsters were definitely a terrifying combat power that could destroy his territory!

However, he was still in disbelief.

Even the total military strength of the fog monsters around the Knight Empire was only about a billion.

Moreover, not all of the total military strength of the billion fog monsters was dealing with the Knight Empire. A considerable portion of the fog monster factions was dealing with the Lord factions around the Knight Empire.

What did he do to attract so many fog monster forces?

"I didn't feel much when I saw the Knight Empire being besieged by the Fog Monster Army."

"Now, the calamity of the Tribulation of All Races has finally landed on me."

"I can empathize now."

"But..."

"I'm not an Empire-level Lord faction. Is there a need to send so many Mist Legions to besiege me?"

Zhou Zhou muttered.

At this moment, he finally felt the terrifying pressure this calamity brought to the forces of the myriad races on the High Continent.

What would happen to the other Lord factions if even he was feeling the pressure?

"How's the average strength of the other party?"

After pondering for a long time.

Zhou Zhou asked in a low voice.

"The other party is also extremely strong."

"According to the images recorded by the Scouts."

"There's no lack of Extraordinary-Tier, Epic-Tier, and even Legendary-Tier high-level fog monsters in the other party's army."

"As for the God Spirit Scarlet God Spirits, the Scouts haven't discovered them yet."

Zheng Yuanqi said.

"Let me see the image."

Zhou Zhou immediately said.

"Your Majesty, please take a look!"

Zheng Yuanqi took out a personal terminal created by Wen Ya's technology factory from his Spatial Ring. After opening a recording, he handed it to Zhou Zhou.

Zhou Zhou took it and looked at it.

He gradually frowned as he looked on.

A moment later, Zhou Zhou returned the personal terminal to Zheng Yuanqi.

"A strong enemy..."

Zhou Zhou frowned.

Ever since he came to the High Continent, other than the last Demon Lord he faced during the novice Lord test, which gave him immense pressure,

The Fog Monster Army that came this time was the first enemy to give him such pressure.

There were about 100 million fog monsters!

There was no lack of Extraordinary-Tier, Epic-Tier, and even Legendary-Tier Scarlet Experts!

Even the Scarlet God Spirits might be hidden among them. It was just that they might not have discovered it yet.

Such terrifying strength.

Even if Zhou Zhou gathered all his forces to fight him, he was not confident that he could win.

It might even become the losing side!

"According to their marching speed."

"How long will it take them to reach the border of our Blazing Sun Kingdom?"

Zhou Zhou asked.

"Because they have a lot of troops. In addition, they will clear out the Lord's forces they pass along the way."

"I estimate that the fastest they can reach the border of our Blazing Sun Kingdom should be around tomorrow night."

Zheng Yuanqi said.

Zhou Zhou frowned slightly.

Tomorrow night...

There was too little time.

If he was given another five days to develop, even if it was three days, he was confident that he could gather at least equivalent military strength to fight the other party head-on.

However, Zhou Zhou was not so confident if he came over tomorrow night.

Moreover, as a fog monster, night was their home ground.

Zhou Zhou and the others' combat strength would decrease because they were not used to the fog at night.

On the other hand, the other party's combat strength would increase because of the richness of the Scarlet Fog.

Zhou Zhou took a deep breath.

"Prime Minister."

"Gather all the combat Professionals in the kingdom who are willing and capable of participating in the battle and form an 'endangered army'. Take the meaning of 'accepting orders in times of danger'. Arrange for the patrols and guards of various regional cities in the country before the fog monster forces attack!"

"Also..."

"Recall Wu Tu and his Heavenly Army and ask him to temporarily stop the map exploration operation. Return to the Back Kingdom immediately and gather the corresponding war information with all your might!"

"Inform the Subjects in the country about the impending war but don't say much."

"Just say that we will definitely win the war. Don't let the subjects in the country panic."

"That's the arrangement for the time being. If you have any suggestions, you can act according to the situation. But don't ask me too often and focus on efficiency."

Zhou Zhou made arrangements.

[Global Lord: 100% Drop Rate](#)

Chapter 660: War Gathering!

There was no point in hiding it.

A total of 100 million enemies had attacked. How could he hide this?

Since that was the case...

It was better to say it directly.

He trusted Zheng Yuanqi's ability very much.

He believed that Zheng Yuanqi could resolve this situation.

"Leave it to me, Your Majesty!"

Zheng Yuanqi said respectfully.

Just as Zhou Zhou thought.

As an old man who had served as the prime minister of two countries, Zheng Yuanqi had seen all kinds of situations.

At this moment, he already had a series of solutions in his heart.

Still...

Most importantly...

It still depended on victory on the main battlefield.

Otherwise, they would lose on the main battlefield.

It was useless no matter how well he arranged the rear.

Zhou Zhou nodded.

After arranging all of this, he felt much more at ease.

"A powerful army of about 100 million is not the best choice to fight head-on."

"I need to think of a way to weaken it first."

Zhou Zhou thought to himself.

After Zheng Yuanqi left, Zhou Zhou endured the fatigue in his soul and continued to record the various high-level bloodline inheritances in his mind.

Zhou Zhou asked Wen Ya to record these high-level bloodline inheritances as teaching material to train the territory's personnel.

On the other hand, he had also used it as payment for the two questions he had asked the Bodhi Supreme previously.

After paying him, Zhou Zhou took out another high-level bloodline inheritance and handed it to the Bodhi Supreme, exchanging it for the number of times he asked an ordinary question.

[What question do you want to ask? Tell me.]

Bodhi Supreme said lazily.

"Why did the Fog Monster Army approach my territory and specifically come to look for me? Or are they just on the way?"

Zhou Zhou asked.

[I'm naturally here to look for you. You're the strongest Lord under the two activities of the Supreme Will after all. Even the Supreme Will favors you very much.]

[It's not easy for these Scarlet Forces to come out and invade the High Continent. How can they not come and capture you?]

[Capture you and offer you to the Crimson Overlord. The Crimson Overlord will definitely give you a large number of rewards.]

Zhou Zhou thought to himself.

Well, he was so famous in the two activities of the Supreme Will.

It would be strange if the Scarlet Fog monster forces under the Crimson Overlord did not react at all.

[There's another reason. They want your Race divine artifact.]

At this moment...

Bodhi Supreme reminded again.

"Race Divine Artifact?"

Zhou Zhou was stunned. "You mean the Lucky Star?"

[It's not just the Lucky Star.]

[They also want the other two Race divine artifacts in your hands.]

Bodhi Supreme said.

[Why do they need so many Race divine artifacts? Could it be that they can use them?]

Zhou Zhou frowned.

[That's right. They have a 'pollution' technique that can contaminate the Race's divine artifact into a Scarlet Sacred Artifact.]

[This Scarlet Sacred Artifact is similar to a Race divine artifact, but there are no Race restrictions. It can work on any Scarlet Fog monster.]

[Their only limitation is that the range of the Holy Artifact Effect is limited.]

[Therefore, Scarlet Fog monsters yearn for the divine artifacts of any race.]

Zhou Zhou raised his eyebrows.

Such a secret had never been mentioned in such detail, even for the high-level bloodline inheritances.

As expected of the omniscient Bodhi Supreme.

"Thank you, I understand."

Zhou Zhou nodded.

It had to be said...

It was convenient to have such an almost omniscient existence by his side.

Moreover, this Bodhi Supreme was indeed very interesting.

Even though it always said that it would only answer one question.

However, it would answer other derivative questions on this problem in most cases as long as it was still related to the question.

I'm in love!

At this moment, Zhou Zhou knew the other party's motive for coming and felt much more at ease.

At this moment...

A large number of footsteps suddenly came from outside.

Zhou Zhou went out to take a look. Indeed, Bai Yun and the others were back.

...

A moment later,

in a study room in the Advance Grade Lord's Paradise.

In a study.

Zhou Zhou sat at the desk and looked at the list of battles that Bai Yun had just brought over.

Today, they had killed a total of more than 86 million fog monsters and recaptured 33 Extraordinary-Tier Advance Grade Spatial Teleportation Arrays, seven Epic-Tier Advance Grade Spatial Teleportation Arrays, and three Legendary-Tier Advance Grade Spatial Teleportation Arrays!

With the enhancement of the King of Loots and the title of the strongest Lord, they had obtained a total of:

2,360 Legendary-Tier Mist Cores, 251,200 Epic-Tier Mist Cores, 8,101,260 Extraordinary-Tier Mist Cores, 42,503,900 Diamond-Tier Mist Cores, 146,012,000 White Platinum-Tier Mist Cores, more than 300 million Yellow Gold-Tier Mist Cores, more than 711 million White Silver-Tier Mist Cores, and more than 106,000 Green Bronze-Tier Green Bronze-Tier Mist Cores!

There were 2,016,990 skill books and 2,878,100 pieces of equipment!

101,800 billion units of basic materials!

7.2 million units of basic Elemental Gem resources!

2.1 million units of high-level Elemental Gem resources!

320,000 Origin Crystals!

70,160 Green Bronze-Tier Lord Talent Crystal Fragments!

Five Epic-Tier Lord Talent Crystal Fragments!

One Epic-Tier Scarlet Lord Talent Sphere!

31 Holy Spirit-Tier Faith Divine Crystals!

16 Hero Inheritance Secret Manuals!

Three Books of The God Spirit (Mid-Tier Deity-level Elementary Grade)!

Three Extraordinary-Tier Ancestor Statues of the human race on Cerulean Planet.

In addition, under Zhou Zhou's special instructions, Bai Yun and the others also specially brought back the corpses of 21 Legendary-Tier fog monsters and three Low-Tier Deity Level Elementary Grade Scarlet God Spirits.

These enemies were all killed and preserved by Bai Yun and the others who led the army today.

Each of them could obtain God Spirit-Tier Loots!

This was the general situation of the Loots.

At this point, a smile appeared on Zhou Zhou's face.

Putting everything else aside, for today's battle, in terms of the benefits of the Mist Cores alone, he had obtained a total of more than 150,000 Legendary-Tier Mist Cores!

In the future, he would no longer have to worry about not being able to afford the goods in the Lord Shop.

In addition, there were other Loots such as the Epic-Tier Scarlet Lord Talent Sphere!

They were also top-grade.

The Epic-Tier Scarlet Lord Talent Sphere surprised Zhou Zhou the most.

This was because this meant that he would have another Epic-Tier Advance Lord Talent today.

This Lord Talent was enough to create a top Cerulean Planet Lord when they had just descended!

He was not in a hurry to use this Lord Talent Sphere.

Finally, in terms of the increase in the combat strength of the soldiers,

The total number and strength of Zhou Zhou's soldiers had also increased greatly throughout the day.

Apart from the 2,518,276 fog monsters that he had Incite Defection with,

With the enhancement of the Extraordinary-Tier Incite Defection, the 20% of the Incite Defection troops handed over to him by the Lord members of the Star Alliance had also reached 2,861,250 fog monsters!

In total, there were 5,422,886 fog monsters!

And now, excluding the forces of the Star Alliance, the total number of troops under Zhou Zhou had already reached 47,547,748!

Among them, were 3,353,682 Black Iron-Tier soldiers, 6,001,806 million Green Bronze-Tier soldiers, 10,028,900 White Silver-Tier soldiers, 16,079,169 Yellow Gold-Tier soldiers, 10,662,850 White Platinum-Tier soldiers, 1,251,860 Diamond-Tier, 168,850 Extraordinary-Tier, 625 in the Epic-Tier and six in the Legendary-Tier!

In addition, Night Rakshasa Sword God—Xu An had broken through to the Legendary-Tier!

The Blood Fire Sword Spirit—Bai Yun, the Dragon Horse Spear General—Wu Xin, the Ten-Directional Martial Emperor—Feng Luo had broken through to the Legendary-Tier Elementary Grade!

Soul Arrow—Wu Tu had broken through to Extraordinary-Tier Elementary Grade!

The Original Spirit Race—Ansel had broken through to the Extraordinary-Tier Elementary Grade!

The others also had different improvements in strength.

Zhou Zhou looked at the list and nodded slightly.
