Chapter 671: Condition To Buy The Kingdom Token!

This transaction quickly ended.

However, the Kingdom Token transaction chat group established by Zhou Zhou did not disband. Instead, it chose to be preserved.

This way, he could continue using this chat group the next time there was a Kingdom Token transaction.

In addition, the Dragon Lady Lord, the Undead Lord, and the others could also pull the Cerulean Planet Lord they felt was strong to join this chat group and participate in the future Kingdom Token auction.

"I believe it won't be long before a few new human kingdoms other than me appear on the Cerulean Planet."

Zhou Zhou thought to himself.

As the main mastermind behind this matter, he actually did not feel much.

There were so many human kingdoms on the Cerulean Planet.

In any case, it would not cause him trouble. Instead, it would benefit him a lot.

For example, the price Dragon Lady Lord and the others paid to obtain the Kingdom Token in this transaction.

Among them,

in the future, the Dragon Lady Lord, the Undead Lord, and the Mystic Heaven Lord would follow his lead. Moreover, their Lords would have to offer up their territory and a third of the kingdom's wealth after encountering Zhou Zhou's army.

The Dragon Lady Lord even promised to give the Blazing Sun Kingdom 100 drake seeds with dragon bloodline. Their strength ranged from Green Bronze-Tier Elementary Grade to White-Silver Tier Advance Grade!

The Undead Lord would give the Blazing Sun Kingdom a Yellow Gold-Tier Advance Grade pure-blooded bone dragon!

In the future, the Mystic Heaven Lord would be in charge of the detection of the Subjects' spiritual roots in the Blazing Sun Kingdom.

Moreover, the other party had agreed to apply to the Black Heaven Sect. In the future, he would build a Black Heaven Sect branch in the Blazing Sun Kingdom so that those with spiritual root aptitude in the Blazing Sun Kingdom could enter a sect and cultivate immortal arts!

This way, the Qi Practitioner Subjects who walked out of the Black Heaven Sect's branch sect would naturally serve the Blazing Sun Kingdom in the future!

Of course,

the materials, Mist Cores, and other supplies needed to establish the Black Heaven Sect needed the Blazing Sun Kingdom to provide and buy them.

The Blazing Sun Kingdom also needed to provide wages to the Qi Practitioners of the Heavenly Profound Sect who came to establish a subsect.

Towards this,

Zhou Zhou agreed readily.

He was also a Qi Practitioner, so he naturally knew how powerful they were.

Even though it was impossible for every Qi Practitioner to be as strong as his Chaos Sacred Body, as long as he could nurture a group of Qi Practitioners for his territory, even the most ordinary Qi Practitioners would be comparable to Kingdom-level Combat Professionals or even Empire-level Combat Professionals in Zhou Zhou's judgment.

Moreover,

in any case, he was worried about not having a place to spend the Mist Core.

Treat it as an investment.

After recalling the conditions given by these three families,

Zhou Zhou smiled.

Zhou Zhou felt that it was very profitable that these three Kingdom Tokens could be exchanged for so many benefits.

Otherwise, these three Extraordinary-Tier Advance Grade Kingdom Tokens would be useless to him and could only be placed in the King's Treasure Box to eat dust.

He did not mind. He opened the Mystic Heaven Lord's chat box and typed:

[Lord of The Blazing Sun: How do you plan to let me lead you to destroy that Dark Martial Lord?]

[Mystic Heaven Lord: Actually, I know the location of His Majesty's territory.]

Zhou Zhou did not care much when he saw his Regeneration.

The location of his territory had long been semi-public after the previous few exposures. He was not very surprised that the Mystic Heaven Lord knew.

[Lord of The Blazing Sun: And then?]

[Mystic Heaven Lord: I discovered an incomplete ancient teleportation array near the territory not long ago. This ancient teleportation array should have been left behind by a previous cultivator.]

[Black Heaven Lord: After I reported this Ancient Teleportation Array to the higher-ups of the Black Heaven Sect, a Class 9 Array Master at the Tribulation Transcendence Stage (Legendary-Tier) took action. After repairing it, I realized that it led to the ruins of a dilapidated immortal sect.]

[Mystic Heaven Lord: When we discovered the ruins of this Immortal Sect, there were no treasures inside. However, that Array Master still repaired its Ancient Teleportation Array and gave it to our Mystic Heaven City. He said that it was our last way out.]

[Mystic Heaven Lord: Then, I personally went there and realized that the location of this immortal sect ruin was actually very close to His Majesty's Blazing Sun Kingdom. According to the calculations of my Scouts, His Majesty's soldiers only need to travel more than 50 million kilometers north from the border of the Blazing Sun Kingdom to reach this immortal sect ruin.]

Actually, more than 50 million kilometers was still a very long distance for most of the Lords of the Cerulean Planet.

However, the Mystic Heaven Lord believed that

this distance was definitely not considered far for the Strongest Lord of All Races in the previous event!

In fact, that was indeed the case.

Zhou Zhou was a little surprised when he saw the words typed by the Mystic Heaven Lord.

More than 50 million kilometers was indeed very close.

One had to know that

the Starry Night spaceship under his command had advanced by leaps and bounds in all aspects after absorbing the spaceship technology he had obtained from Lord Father!

And now,

The flying speed of the top Starry Night under his command had increased from 8,000 to 9,000 kilometers per hour to more than 500 million kilometers per hour!

More than 50 million kilometers?

His Starry Night could arrive in five to six minutes.

[Mystic Heaven Lord: If Your Majesty is at ease with me, you can directly send troops to the Immortal sect ruins and come to my territory through the Spatial Teleportation Array. Then, you can head to the territory of the Black Martial Alliance.]

[Mystic Heaven Lord: My Mystic Heaven Alliance and the Dark Martial Alliance are not far from each other. It will be very convenient for Your Majesty to rest or go on an expedition.]

Zhou Zhou agreed without much hesitation.

This was the confidence brought about by strength.

Of course,

he would not be unprepared.

He took out a contract and wrote down the content of their conversation, including the transaction of the Kingdom Token.

After writing it,

Zhou Zhou confirmed it carefully again. After confirming that there was no problem, he signed it himself and sent it to the Mystic Heaven Lord to sign it too.

Unlike Zhou Zhou,

This was the first time the Mystic Heaven Lord had come into contact with this thing.

After a long time,

only then did he carefully sign his name on the contract and complete this contract.

Soon,

Zhou Zhou looked at the golden scale mark that had already appeared in his palm and smiled.

With this contract,

the other party was truly trustworthy.

[Lord of The Blazing Sun: Send me the location. If nothing goes wrong, I'll go over tomorrow morning. In addition, send me a copy of the Dark Martial Lord's military distribution and faction distribution. Don't say that you don't have them.]

The two Lord Alliances of the Cerulean Planet had been at odds with each other for so long. It would be suspicious if there was no information about the other party's war.

[Mystic Heaven Lord: Of course.]

After saying that,

in less than two to three seconds.

Zhou Zhou received a paper document from him.

After Zhou Zhou opened it, he took a rough look and clicked his tongue in wonder.

This Dark Martial Lord... was not even as strong as the Aurora Kingdom when it was on the verge of destruction.

A keyboard warrior, right?

I'll be a keyboard warrior tomorrow!

Zhou Zhou thought maliciously.

[Global Lord: 100% Drop Rate](#)

Chapter 672: Vast Sea Of Lord Talent Crystal Fragments!

Zhou Zhou and the Mystic Heaven Lord discussed the details of their cooperation tomorrow before ending the conversation.

"The Knight Empire's Faction Quests, the invasion of the Refine Flame Scarlet Legion, and the attack on the Black Martial Lord..."

"There's a lot going on tomorrow."

Zhou Zhou thought about his schedule for tomorrow and could not help but sigh.

Then, he thought about it and felt that he should have enough time.

It shouldn't take long to attack the Black Martial Lord after all.

The remaining time should be more than enough to do the first two things.

"At most, I won't do the Knight Empire's Faction Quests for the time being. I'll let it go for a day. After dealing with the Black Martial Lord, I'll focus on dealing with the invasion of the Refine Flame Scarlet Legion!"

Zhou Zhou thought.

At this moment...

There was a knock on the door.

"Come in."

Zhou Zhou said casually.

Soon,

Aliya opened the door and walked over quickly.

"Your Majesty."

"Prime Minister Zheng just came over to say that all the Lords of the Ice Demon Kingdom have arrived at the Blazing Sun Kingdom and are waiting in Conference Room 1 of the Administrative Hall."

Aliya said respectfully.

"I almost forgot about this."

Zhou Zhou stood up and walked out of the room towards the Administrative Hall.

...

In the Administrative Hall.

Conference Room 1.

When Zhou Zhou arrived, he saw more than 100,000 Ice Ghost Lords gathered here.

"Greetings, Your Majesty!"

When Zhou Zhou entered, the sharp-eyed Ice Ghost Lords immediately discovered him. Then, someone took the lead, and the entire conference room immediately sounded with fanatical shouts.

Zhou Zhou smiled and walked onto the stage.

He looked at the 100,000 Ice Ghost Lords who were shouting fanatically in front of him and felt a little emotional.

This was the foundation of an Intermediate Kingdom.

Previously, he had gathered all the Lords of the Aurora Kingdom and the Titan Kingdom, the two Beginner Kingdoms, but there were only more than 10,000 Lords.

Currently, there were already more than 100,000 Lords from the Ice Demon Kingdom's Intermediate Kingdom.

It could be seen how huge the difference between the Beginner Kingdom and the Intermediate Kingdom was.

However, the more Lords came, the more Lord Talent Crystal Fragments he could obtain. He was naturally even happier.

"Everyone, stop shouting."

"I can already feel your enthusiasm."

Zhou Zhou smiled and comforted her.

All the Ice Ghost Lords laughed when they heard this. Then, they gradually quietened down.

At this moment...

"Your Majesty, it's the same as last time."

"This is the specific list of all the Ice Ghost Lords this time. It records their abilities, strength, and previous Lord experiences."

Zheng Yuanqi walked over and handed Zhou Zhou a list as he whispered.

Zhou Zhou nodded and took it. He took a rough look before a smile appeared on his face.

There were actually a total of 116,255 Ice Ghost Lords!

How many Lord Talent Crystal Fragments would this provide him?

He was looking forward to it.

Then, he suppressed the excitement in his heart and looked up at the Ice Ghost Lords in front of him.

"Since you can come here, you should know why I called you here."

"Let me explain something that's not clear."

"Firstly..."

"I want to see everyone's aptitude. If your aptitude is good, I won't be stingy with the rewards."

"Secondly..."

"As the Blazing Sun Kingdom expanded,

the place also needs more and more capable officials to take over and take care of the livelihood development of the people."

"I called you all here to make it easier for you to arrange your positions in the future."

"Of course."

"Everyone is from the Ice Demon State. When our officials arrange positions, they will naturally prioritize you to take up positions in the Ice Demon State. You can rest assured about this."

"In terms of treatment,

our Blazing Sun Kingdom is famous for treating officials well."

"Everyone should have heard of this, right?"

Zhou Zhou said.

When the Ice Ghosts heard this, they nodded in agreement.

They had naturally done some investigations before coming to the Blazing Sun Kingdom.

In particular, they knew why they were here, so the focus of their investigation was on how they would be treated after becoming local officials.

He would not have known if he did not investigate, but the results were shocking!

Good God!

Was the treatment of the officials of the Blazing Sun Kingdom so good?

The minimum fixed monthly salary of a Regional Lord of a Yellow Gold-Tier regional territory was 500 Yellow Gold-Tier Mist Cores???

If he made outstanding political achievements, he would be rewarded with at least 100 White Silver-Tier Mist Cores and the highest unrestricted political achievement reward???

Every time the average loyalty of the Subjects in the territory increased by one point, they would be rewarded with 10,000 Diamond-Tier Mist Cores???

They were stunned when they found out about the reward mechanism for these officials' performance.

What was going on with the Blazing Sun Kingdom?

They looked at the Mist Core like it was dirt... Did they have a grudge against the Mist Core?

As for the rules that did not allow them to bully the weak for no reason, even though they were not used to it, they immediately felt that...

What kind of question was this?

As long as the Mist Core was in place,

it was fine even if the Race was changed!

Seeing that the Ice Ghosts did not seem to have any objections, Zhou Zhou got someone to distribute the specific reward and punishment system.

After all the Ice Ghosts read it and expressed no objections,

Zhou Zhou raised the main reason why he was here.

"Next, I'll do something to verify your loyalty. Please don't resist."

"After the verification is completed, you will really be one of us. I will also give you some rewards."

He said.

When the Ice Ghost Lords heard this, their expressions were filled with anticipation.

They thought of something they had heard about this before they came.

It was said that as long as a Lord passed this step, they would be rewarded by the King of the Blazing Sun with at least 1,000 special soldier type, the King Of Yellow Gold Class Certificate!

That was a special soldier type!

Special soldier types could be considered top-notch even in the Ice Demon Kingdom.

It was not something ordinary Ice Ghost Lords could come into contact with.

Now, they had a chance to obtain such a dream-like top-notch soldier type under the King of The Blazing Sun. How could they not look forward to it?

On the stage.

Zhou Zhou was also looking forward to it.

He took a deep breath and the chaotic Origin Energy in his body surged into the Master Thief's Robbery Gloves on his right arm.

The next second,

He used the Master Thief's Robbery Gloves to steal all the Lord Talent Crystal Fragments of the more than 100,000 Ice Ghost Lords in front of him into his King's Treasure Box.

He took a look and was pleasantly surprised to discover that these 116,255 Lords had actually provided him with 601,125 Black Iron-Tier Lord Talent Crystal Fragments, 6,514 Green Bronze-Tier Lord Talent Crystal Fragments, 2,690 White Silver-Tier Lord Talent Crystal Fragments, 1,550 Yellow Gold-Tier Lord Talent Crystal Fragments, 620 White Platinum-Tier Lord Talent Crystal Fragments, 133 Diamond-Tier Lord Talent Crystal Fragments, 21 Extraordinary-Tier Lord Talent Crystal Fragments, five Epic-Tier Lord Talent Crystal Fragments!

Zhou Zhou took a deep breath and barely suppressed his excitement.

Compared to the treasure vault of the Ice Demon Kingdom,

these Lord Talent Crystal Fragments in front of him were the greatest treasures he had obtained!

Chapter 673: God of Pastures—Mu Gu!

After that, Zhou Zhou chatted briefly with the Ice Ghost Lords before handing everything over to Zheng Yuanqi. Then, he left.

Then, he walked out of the Administrative Hall and returned to the Advance Grade Lord's Paradise.

In a study room in the Advance Grade Lord's Paradise.

Zhou Zhou sat in front of the desk. He opened his Lord Talent panel with a thought.

"I can upgrade my Lord Talent this time."

Zhou Zhou looked at his 28 Lord Talents and smiled.

Then, after some thought, he took out 10 Diamond-Tier Lord Talent Crystal Fragments and fused them into a Diamond-Tier Lord Talent Origin Divine Crystals.

Zhou Zhou looked at the Diamond-Tier Lord Talent Origin Divine Crystals and chanted in his heart.

The next second,

the Diamond-Tier Lord Talent Origin Divine Crystals in his hand emitted a bright diamond light.

A text notification appeared.

[You have three White Platinum-Tier Lord Talents at the same time, Monster Ranch, Mysterious Caravan, and Dragon Slaying Hometown, please choose one to advance:]

"I choose to advance the Monster Ranch!"

Zhou Zhou said without hesitation.

Monster Ranch was the fastest way to increase his military strength among the many methods he currently had.

Even the Incite Defection, which had advanced to the Epic-Tier Lord Talent, was inferior to the soldiers provided to him by the White Platinum-Tier Monster Ranch.

Of course,

this did not mean that Incite Defection was weak.

However, up until now, Zhou Zhou had not touched the upper limit of Incite Defection.

In other words, it was a Lord faction that had incited the Incite Defection's Mid-Tier Deity-level Intermediate Grade!

Lord factions of this level usually represented veteran Empire-level Lord factions.

Zhou Zhou had never instigated an old Empire-level Lord faction like this. He had only instigated a lower-level Lord faction. Under such circumstances, the number of enemies who instigated an instigation naturally did not seem to be as many as the new recruits provided by the Monster Ranch.

However, even so,

it could be seen how great the potential of the Monster Ranch was.

Therefore, after Zhou Zhou thought of upgrading his Lord Talent, the first thing he wanted to upgrade was the Monster Ranch.

As for the two White Platinum-Tier Lord Talents, Mysterious Caravan and Dragon Slaying Hometown, the former had just been upgraded not long ago, and there was no need to continue upgrading it for the time being.

As for the latter, Zhou Zhou did not know what use it had.

Under such circumstances,

naturally, he had to save the Lord Talent Crystal Fragments to upgrade his main Lord Talent.

[Lord Talent has been chosen!]

[Upgrading in progress...]

The next second,

He felt a familiar warm feeling between his eyebrows.

Zhou Zhou's expression was calm.

A moment later,

The warmth on his forehead gradually disappeared.

A new text notification appeared.

[Lord Talent upgrade successful!]

[Congratulations, your White Platinum-Tier Lord Talent, Monster Ranch, has been upgraded to Diamond-Tier Lord Talent, Monster Ranch!]

[You have leveled up to Diamond-Tier Lord Talent Effect:]

[Lord Talent: Monster Ranch (Diamond-Tier)]

[Monster Ranch: Your territory has the method to build a special building, Monster Ranch...]

"After upgrading to Diamond-Tier Lord Talent, the information of this talent still hasn't changed?"

"Looks like I have to ask Mu Gu to come over."

Zhou Zhou looked at the information of the upgraded monster ranch and muttered to himself.

Then, without hesitation, he took out 10 Extraordinary-Tier Lord Talent Crystal Fragments and fused them into an Extraordinary-Tier Lord Talent Origin Divine Crystals, directly upgrading the Monster Ranch to Extraordinary-Tier Lord Talent!

However, what made Zhou Zhou a little speechless was that even if he upgraded to the Extraordinary-Tier Lord Talent again, the talent information of the Monster Ranch did not change.

He shook his head and did not mind. He called Atley over and asked her to inform Mu Gu to come over immediately after he recovered.

Atley took the order and left.

A moment later,

Mu Gu came over.

"Greetings, Your Majesty!"

He said respectfully.

"Can you feel your improvement? Tell me the details."

Zhou Zhou smiled.

"Yes, Your Majesty!"

Mu Gu nodded and slowly said,

"Your Majesty, I am still an Extraordinary-Tier Elementary Grade Monster Rancher and Monster Patriarch."

"However, I now have a total of 10,000 Monster Shepherds under me."

"In addition, the number of Monster Ranches under my command has also increased from 100 to 500 today!"

"Moreover, the maximum capacity of each Monster Ranch has increased from 100,000 to 500,000."

Zhou Zhou could not help but click his tongue.

Each Monster Ranch could accommodate 500,000 fog monsters!

Wouldn't a total of 500 Monster Ranches be able to accommodate 250 million ranch monsters?!

Good God!

Zhou Zhou instantly felt that the invasion of the Refine Flame Scarlet Legion tomorrow would not be a problem.

There were a total of 250 million ranch monsters. Zhou Zhou did not even need to send troops. When the other party's Scarlet Army arrived tomorrow, he would directly get Mu Gu to order these 250 million ranch monsters to attack the other party's Scarlet Army with all their might. It would probably be enough to kill most of them.

Most importantly,

the ranch monsters were not afraid of the Scarlet Fog in the night.

Which meant...

His ranch monsters could completely go against the other party's Scarlet Legion in the night without any scruples.

The problem that Zhou Zhou was most worried about previously disappeared.

"Not bad, not bad."

Zhou Zhou praised.

"Your Majesty, I'm not done yet."

Mu Gu smiled.

"What other improvements?"

Zhou Zhou was a little surprised.

"Your Majesty, please take a look."

Mu Gu stretched out his right hand and saw an irregular square mini-continent slowly appear in his palm.

Zhou Zhou's vision was astonishing.

He could tell at a glance that

the mini-continent in Mu Gu's hands was actually neatly arranged with a vast Monster Ranch. Moreover, every Monster Ranch was currently rearing a huge number of fog monsters.

"This is... a continent?"

Zhou Zhou hesitated.

"Yes."

Mu Gu nodded and smiled. "After Your Majesty's improvement, I suddenly realized that a continent had appeared out of thin air in my body."

"It's called Ranchland Continent."

"This continent seems to be specially made for raising monsters."

"Its area is about 800,000 square kilometers, and Monster Ranches are naturally built inside. Moreover, there's no need for me to personally control each Monster Ranch. Every day, a huge number of Monster Ranch monsters will automatically appear in the early morning to fill the gap in the Monster Ranch."

"This pattern is very rigid. The next time to fill the vacancy in the Monster Ranch will probably be at dawn the day after tomorrow."

"Moreover, the size of this Ranchland Continent, the number of Monster Ranches, and the upper limit of each Monster Ranch to accommodate monsters will also increase with the strength of its subordinates."

"I also used this opportunity to comprehend my path to becoming a God."

"This path to becoming a god will probably follow the laws of 'cultivation', 'feeding', 'monsters', and so on."

"Because of the Path of Laws, my class name is no longer the Monster Patriarch."

"It's the God of Pastures!"

"This God doesn't mean that my strength has already reached the God Spirit Realm, but because I have mastered a continental world that completely belongs to me. Therefore, I Achieved the name of this priesthood with the status of the God of the World."

Mu Gu explained his abilities one by one.

[**Global Lord: 100% Drop Rate**](#)

Chapter 674: Extraordinary-Tier Lord Talent—The Shelter of the Goddess of Life

After Zhou Zhou heard this, he was naturally overjoyed.

He had never expected this.

Monster Ranch's upgrade to Extraordinary-Tier Lord Talent actually had such a huge increase!

Not only did the number of monsters that could be reared increase greatly, but Mu Gu also comprehended his own path to becoming a god and controlled such a magical continent!

This improvement...

Anyone who heard this would probably say that it was ridiculous!

"Can someone else enter your monster continent?"

Zhou Zhou looked at the mini continent in Zhou Zhou's hand and suddenly asked.

"Sure."

"I'm the Creation God of this continental world. I naturally control everything in this continental world, including allowing life forms to enter and expel them."

"But I'm not omnipotent."

"If an expert above the Low-Tier Deity level descends on my monster continent, because the other party's strength has already exceeded the upper limit of my world's energy level, it would be fine if the other party doesn't have any hostility. They can still live peacefully in my Ranchland Continent and won't cause any damage to it."

"However, if the other party has evil intentions, after entering the ranch world, he can completely destroy my world by himself. Even if he doesn't destroy my world, the other party can come and go as he pleases. My world can't trap the other party at all."

Mu Gu shook his head.

Zhou Zhou nodded.

Even though there were these restrictions,

it was also very difficult to hide the excellence of this Ranchland Continent!

Zhou Zhou thought for a moment and said, "These 500 Monster Ranchs will use 200 to nurture the Violent Storm Demon Spirit, 100 to nurture the King Of Yellow Gold, 100 to nurture the Mechanical Fear Falcon, 50 to nurture the Iron-Eating Bear, and 50 to nurture the Withered Tree."

As for the poisonous crossbow soldier type represented by the Black-Tailed Fog Scorpion, it was temporarily not produced.

The soldier type was too weak and was too far behind his version. It was really not worth nurturing.

And the current ranch cultivation configuration.

It satisfied the long-range spell attack configuration of Zhou Zhou's army, the melee meat shield configuration, the flying Arms configuration, the land Mount configuration, and the territory's economic source (Jade Sun Tree).

At the moment, it could barely be considered perfect.

"It's a pity that up until now, I haven't encountered any monsters that dropped medical Class Change Certificates and recruitment books."

"Otherwise, the spoils of war from my monster ranch would be perfect."

Zhou Zhou thought greedily.

Actually, during this period of time,

the Lords of the Star Alliance had been sending him all kinds of monsters for him to see.

Unfortunately...

Monsters were easy to come by.

Good trophies were hard to come by.

After that, Zhou Zhou chatted with Mu Gu for a while before letting him leave.

After Mu Gu left, Zhou Zhou's gaze landed on his Lord Talent interface.

He had obtained too many Lord Talent Crystal Fragments today.

He estimated that he would have to upgrade many useful Lord Talents.

Soon,

his gaze landed on a Lord Talent.

It was the Diamond-Tier Lord Talent—The Shelter of the Goddess of Life!

"There are more and more soldiers under my command now."

"Especially with the monster ranch talent that allowed me to level up two times in a row, the growth of my soldiers will only become more and more terrifying."

"Monsters without the Class Change Certificate and recruitment books."

"Then we can only let the number of clergymen who have mastered the Small Resurrection Spell catch up first."

At the thought of this, Zhou Zhou no longer hesitated. He took out 10 Extraordinary-Tier Lord Talent Crystal Fragments and fused them into an Extraordinary-Tier Lord Talent Origin Divine Crystals. Then, he upgraded The Shelter of the Goddess of Life.

Soon,

the Lord Talent information of the Goddess of Life's shelter appeared.

[Lord Talent: The Shelter of the Goddess of Life (Extraordinary-Tier)]

[The Shelter of the Goddess of Life: Your territory will have a special building—The Shelter of the Goddess of Life.]

"I have to go to Carol Moeli's place too."

At the thought of this, Zhou Zhou did not hesitate. He walked out of the Advance Grade Lord's Paradise and walked towards The Shelter of the Goddess of Life.

...

In front of The Shelter of the Goddess of Life.

After Zhou Zhou arrived, he looked at the building in front of him,
the upgraded Goddess of Life's Shelter was now more than 300 meters tall.

It was made of silver and gold bricks.

The temples were connected to each other, forming a temple complex.

Around the temple complex,

the air was fresh and green. Passersby only needed to take a breath of the air here to feel much more relaxed.

Some sick old men sat in wheelchairs and greedily absorbed the air here, as if the air here was a panacea.

And right in front of the shelter,

a statue of the Goddess of Life stood here.

Her face was still beautiful, and she was wearing a green religious dress with gold trimmings. She looked dignified and solemn, but also kind and natural.

Zhou Zhou looked solemnly at the tall statue of the Goddess of Life.

He could actually sense a rich aura of life divine power from this statue.

It was as if this statue was the Goddess of Life herself.

He took a deep breath and did not dare to think too much about it. Then, he looked at the building information.

[Building Name: The Shelter of the Goddess of Life]

[Building Level: Special Grade]

[Building Function One: Archbishop Carol Moeli of the shelter and her clergymen, priests, nuns, and other clergymen can each provide the Lord and Subject of the territory with basic protection services three times a day for free. [Construction Upgrade: This building originates from the Lord Talent and cannot be upgraded.]

Chapter 675: Resurrecting The Black Moon King! Your Heart Is On The Wrong Path

"There is a lot of upgrade!"

Zhou Zhou was a little surprised.

Firstly,

Carol Moeli had been promoted from Archbishop to Cardinal.

As a Cardinal personally conferred by the Goddess of Life,

its status was already comparable to the Pope of some veteran Kingdom-level Lord factions.

The number of asylum services added another high-level asylum service on top of the three Basic Shelter Services.

The next was the greatest improvement.

The prices of the Basic Shelter Service and Advanced Shelter Service provided by The Shelter of the Goddess of Life had almost halved. The prices of some services had even decreased even more!

Nonetheless, the price of using the Great Resurrection Spell was still one Holy Spirit-Tier Faith Divine Crystal.

Finally,

the probability of dropping Scarlet Crystals had increased from a small probability to a high probability.

This was naturally useless to Zhou Zhou.

His drop rate was 100% after all. There was no difference between a higher chance and a lower chance for him.

"Not bad, not bad."

Zhou Zhou nodded in satisfaction.

At this moment...

The door of the shelter suddenly opened slowly.

Carol Moeli walked out of the shelter with five clergymen in Archbishop attire.

"Cardinal Carol Moeli greets Your Majesty!"

"Archbishop Barry Millie / Julius Marcia / McPherson Muriel / Blumer Bridget / Collins Mamie greets Your Majesty!"

The six of them said respectfully.

"Are they the subordinates sent by the Goddess of Life to assist you?"

Zhou Zhou asked with interest.

A Cardinal!

Five Archbishops!

Such a configuration was not rare among veteran Kingdom-level Lord factions.

However, it was quite surprising in a Lord faction that had just established its territory.

"Yes, Your Majesty."

"They have mastered the Great Resurrection Spell and other Divine Arts. They are the most elite clergymen in the shelter!"

Carol Moeli said respectfully.

"How many clerics have mastered the Great Resurrection Spell in your shelter now?"

Zhou Zhou asked curiously.

"There are now as many as 20 Cardinal-level clerics who have mastered the Great Resurrection Spell in the shelter!"

Carol Moeli said truthfully.

Zhou Zhou nodded.

There were so many of these expertises that they were overflowing.

"How many clerics are there in the shelter now? How strong are they?"

Zhou Zhou asked.

"The Shelter of the Goddess of Life has 10,000,000 clergymen, 10,000,000 priests, 10,000,000 nuns, and 100,000,000 Paladins of Life after our Lord Talent was upgraded to Extraordinary-Tier."

"And my strength has also risen to the level of Low-Tier Deity Level Advance Grade!"

Zhou Zhou clicked his tongue.

Good God!

A total of 140 million clergymen!

The soldiers under his command and the soldiers of the Star Alliance did not even have 100 million.

Zhou Zhou suddenly felt that it was a pity at the thought of this.

The nature of these 140 million clergymen was similar to mercenaries.

They basically wouldn't help him without using the Faith Divine Crystals.

He shook his head, unconcerned.

He was confident now that he had an Extraordinary-Tier Monster Ranch.

The total number of soldiers under his command would exceed 100 million by the next day!

Then, he suddenly thought of something.

"Since you're already at Low-Tier Deity Level Advance Grade,
do resurrect a God for me."

Zhou Zhou said.

"Your Majesty, please follow me."

Carol Moeli didn't ask how strong the God that Zhou Zhou had resurrected was.

Since His Majesty said it himself, he could definitely be resurrected. In other words, his strength was below hers!

A moment later,

in the Shelter of the Goddess of Life.

In the main hall.

"Your Majesty, please give me 20 Holy Spirit-Tier Faith Divine Crystals and the other party's divine item."

Carol Moeli said.

Zhou Zhou flipped his right hand, and 20 Holy Spirit-Tier Faith Divine Crystals and the Black Moon Blade appeared in his hand.

He handed it to the other party.

After Carol Moeli took it, she went to the statue of the Goddess of Life and began to preside over the Great Resurrection Spell.

She raised the scepter in her hands with both hands, closed her eyes, and muttered something.

It was different from the past.

Zhou Zhou watched this scene with a serious expression.

This time, it was a God Spirit that had revived...

Which meant...

The will of the Goddess of Life would personally descend!

When he thought about how one of the 10 Master God-Tiers was about to appear in front of him, Zhou Zhou would be lying if he said that he wasn't nervous and excited.

At this moment...

Boom!!!

A terrifying God Spirit pressure suddenly descended.

At this moment,

all the living beings within a hundred kilometers discovered a tall, dignified, but intimate, female figure in the depths of their hearts.

99% of these life forms had never seen this life form in their lives.

However, at this moment,

they naturally knew the other party's name in their minds.

"He" was the source of life, "He" was also the mother of all living beings, "He" was the Goddess of Salvation, "He" was the Undead Deity, and "He" was the Goddess of All Races!

"He" was...

Goddess of Life!

Carol Moeli, who was closing her eyes and chanting, suddenly opened her eyes slowly.

Emerald green light filled with life aura poured out of "He"'s opened eyes. Rare plants grew seedlings out of thin air where the light illuminated. Then, as if there was no limit to their growth time, they grew crazily, bloomed, and bore fruits before stagnating at the most beautiful stage...

When "He" completely opened his eyes,

"He"'s surroundings had already become a place surrounded by flowers, plants, and trees. Moreover, it seemed to be spreading incessantly.

Zhou Zhou watched this scene calmly.

Was this the power of one of the 10 Master God-Tiers...

Such a phenomenon.

It was simply as if the laws were personally involved.

"Her Excellency, the Goddess of Life, is probably not weak even among the 10 Master God-Tier..."

He thought to himself.

At this moment...

He was surprised to discover that

the first thing this Goddess of Life did not look at the Black Moon Blade to revive the Black Moon King after the Will descended. Instead, she looked straight at him.

[Interesting little guy.]

A dignified voice with a faint smile sounded from all directions.

It was as if it filled the entire world.

[Among the Lords of all races, you are the only Lord who has comprehended the Lord's Law.]

[However, your path is right, but your heart is on the wrong path.]

With that,

the Goddess of Life did not continue. She waved her hand and sprinkled an emerald green divine power on the Black Moon Blade. Then, a phantom was pulled out of thin air and landed on the Black Moon Blade. Then, it gradually condensed into a figure wearing a black royal robe with a pitch-black face. There was a silver moon mark on his forehead and a black crown on his head.

It was the Black Moon King!

At this moment, the Black Moon King was already breathing steadily even though his eyes were closed. It was obvious that he had been revived.

Zhou Zhou heaved a sigh of relief.

Then, he frowned slightly.

Her Excellency the Goddess of Life.

What did she mean by saying that his heart was on the wrong path?

Chapter 676: Looking For The Supreme Will To Farm Battle Results?

When "He" looked at Carol Moeli again, "He" realized that the emerald green light in "His" eyes had already disappeared, leaving only a pale and tired expression and the surrounding scene.

"How are you?"

Zhou Zhou immediately walked over and supported him.

"It's okay, Your Majesty."

"I'm just a little tired."

Carol Moeli forced a smile.

Zhou Zhou thought for a moment and took out a pill from his King's Treasure Box.

This medicinal pill was called the Heaven Returning Divine Pill.

It was a Low-Tier Deity Level Advance Grade God-Tier Pill.

It was a God-Tier medicinal pill specially used to restore his own state among the many God-Tier items he had obtained.

If a God Spirit exhausted all its divine power,

As long as he consumed this moment's Heaven Returning Divine Pill, he could allow a Low-Tier Deity to quickly recover all his divine power in just a minute and return to his peak state.

In the outside world.

This God-Tier pill was extremely precious even to God Spirits.

But to Zhou Zhou, such a Low-Tier Deity level Advance Grade medicinal pill could casually drop more than ten or even dozens of Legendary-Tier Advance Grade enemies. Naturally, it was not rare.

"This pill is too precious."

When Carol Moeli saw the pill and felt the rich aura of divinity emitting from it, she immediately realized how precious it was and hurriedly refused.

In "His eyes,

He could recover his state as long as he rested. There was no need to use such a precious medicinal pill.

"Take it."

Zhou Zhou shook his head and placed it forcefully in Carol Moeli's hand.

"...Thank you, Your Majesty."

Carol Moeli blushed slightly when she sensed the aura on His Majesty. Then, she returned to her indifferent state.

Zhou Zhou did not notice the other party's expression.

He walked in front of the Black Moon King and realized that he had already woken up and sat up.

"Is this... the territory of the Blazing Sun Kingdom? Were you the one who revived me? Are you the King of the Blazing Sun?"

The Black Moon King looked at the Lord of The Blazing Sun blankly.

Zhou Zhou nodded.

"How long have I been dead?"

"Ten years, a hundred years, or tens of millions of years...?"

The Black Moon King said with a complicated gaze.

He was already prepared to accept the changes in the world.

"Senior died in battle the day before yesterday and was revived today."

Zhou Zhou said without thinking.

Black Moon King: ...

"Just... two days..."

His gaze became even more complicated.

"Senior, do you think you haven't been dead long enough?"

Zhou Zhou hesitated for a moment before understanding what the other party meant.

Unexpectedly, the other party nodded in agreement.

"I can brag to those old fellows when I get back if I was dead for a longer time. I'm not afraid of death and will fight the Supreme Will alone!"

"Now that I've been revived in less than two days, how will those old fellows look at my deed of fighting the Supreme Will fearlessly when I return!"

"Those who don't know might think that I've discussed it with you and found the Supreme Will to farm battle results!"

The Black Moon King said with a pained expression.

Zhou Zhou: "..."

Looking for the Supreme Will to farm battle results...

Why was this big shot's brain so strange?

Moreover, could you be considered to have a huge battle with the Supreme Will?

You were instantly killed, alright!

He was a little speechless.

However, he did not undermine the other party at this time.

After a long time, the Black Moon King finally came back to his senses from this complicated emotion.

"How are the Subjects of the Kingdom of Black Moon Kingdom?" He asked.

"General Yue Luo has already brought all 36 million Subjects of the Black Moon Kingdom to my kingdom safely."

"If Senior wants to rebuild the Black Moon Kingdom, I can safely send all 37 million Subjects to you."

Zhou Zhou said.

While he valued his Subjects very much and hoped that he would have more and more of them, he would not lick his face and force the other party's Subjects to stay when the original King was revived.

In any case, he was not short of 37 million Subjects. Why did he have to do such a thing?

The Black Moon King looked at Zhou Zhou and a gratified smile appeared on his face.

I did not make the wrong decision that day.

"He" thought to himself.

There was nothing that was disappointing about the human in front of him, be it in terms of power, potential, ability, personality, and character...

How rare.

He sighed in his heart.

"I want to tour your kingdom. May I?" The Black Moon King asked.

"Of course." Zhou Zhou nodded and asked, "However, Senior, your subordinate, General Yue Luo, seems to want you to be revived. Do you want to tell him?"

"Yue Luo." The Black Moon King nodded. "I'll tell him later."

"He should be bringing the wealth of my Black Moon Kingdom to the human capital to meet the Emperor."

"Let's not interrupt him at this time."

"Emperor?"

Zhou Zhou was a little curious.

The Black Moon King nodded, reverence appearing on his face.

He looked at Zhou Zhou and said solemnly:

"The Emperor is the leader of our human race. He is the only candidate personally chosen by the will of the human race to lead the human race."

"Whether it's strength, character, personality, dedication, recognition, and responsibility to the human race, they can be considered the strongest among the human race."

"You should have a chance to see the Emperor in the future. At that time, you must remember to respect him."

Zhou Zhou was a little surprised.

There was actually a Leader of the human race chosen by the will of Humans...

It seemed that this person was definitely an impeccable person in all aspects!

According to the bloodline inheritance in his mind, the Will of the Race was almost equivalent to a small account of the Supreme Will that had its slot decreased countless times for a race.

The Leader of the Race chosen in such a way naturally would not be the wrong choice.

"I will."

Zhou Zhou agreed seriously.

The Black Moon King smiled and nodded.

It was already late.

It was clearly not very convenient for the Black Moon King to go out and take a look at his Blazing Sun Kingdom, nor could he see the entire Blazing Sun Kingdom. Therefore, the Black Moon King took the initiative to ask Zhou Zhou to arrange a place for him to stay. He would go out and take a look at the territory scenery of the Blazing Sun Kingdom tomorrow morning.

Zhou Zhou naturally would not refuse. He immediately sent someone to make arrangements.

After making the arrangements, the two of them separated.

When Zhou Zhou walked out of The Shelter of the Goddess of Life, he was surprised to discover that there were actually dense Subjects surrounding the shelter.

Among these Subjects, there were human Subjects, other people of foreign races, and even some Holy clergymen of the Holy Elven Race...

"It should have been attracted by the phenomenon of the Goddess of Life's descend just now."

He thought to himself.

Zhou Zhou did not mind. He casually cast an invisibility spell on himself and left, returning to the Advance Grade Lord's Paradise.

In a study room in the Advance Grade Lord's Paradise.

Zhou Zhou sat back in his previous seat and opened his Lord Talent panel again. He gazed at his 28 Lord Talents.

[Global Lord: 100% Drop Rate](#)

Chapter 677: Improving The Lord Talent Crazy! (1)

Zhou Zhou looked at it for a while before his gaze landed on Incite Defection.

"I have 14 Epic-Tier Lord Talent Crystal Fragments on hand now. I can upgrade Incite Defection to the Epic-Tier."

"But..."

"Do I really need to upgrade it?"

Zhou Zhou hesitated.

His idea was to keep these high-level Lord Talent Crystal Fragments to upgrade the Blessing of the War God.

The Epic-Tier Lord Talent, Blessing of the War God, could not only quickly increase the combat strength of the lower-level soldiers, it could also greatly increase the speed at which the high-end combat strength under his command increased!

This was something that the two Lord Talents, Monster Ranch and Incite Defection, could not do.

And now,

According to the enemies he had come into contact with so far,

He had enough soldiers, and they were even overflowing.

However, he could not keep up with the high-end combatants.

From the combat strength of a God Spirit,

Excluding Haros and Ze Wu, the two God Spirit external helpers, and Carol Moeli, the half-mercenary.

The only God Spirit that truly belonged to him under his command was the Low-Tier Deity-level Lady Ice Flower—Vicky.

As for his current opponents,

which one of them did not have a few Low-Tier God Spirits under their command?

Which one of them did not have a few Low-Tier God Spirits under their command?

If not for the fact that True God-Tier could not easily fight in the High Continent, Zhou Zhou even felt that he might have encountered a True God-Tier God Spirit.

From this, it could be seen how scarce the high-end combatants under his command were.

At the thought of this,

Zhou Zhou decided to leave these 14 Epic-Tier Lord Talent Crystal Fragments behind to upgrade the Blessing of the War God to the Legendary-Tier in the future.

"Now, I have five Legendary-Tier Lord Talent Crystal Fragments and 14 Epic-Tier Lord Talent Crystal Fragments!"

"Which means..."

"I only need to gather another 36 Epic-Tier Lord Talent Crystal Fragments or four Legendary-Tier Lord Talent Crystal Fragments to upgrade the Blessing of the War God."

"This number... shouldn't be too many."

Zhou Zhou thought.

The Tribulation of All Races in front of him was the best opportunity to gather these Lord Talent Crystal Fragments.

Then, he looked at the other Lord Talents.

He thought about it.

Zhou Zhou made a decision.

"Upgrade the Gnome Alchemy Workshop (Green Bronze-Tier), Return To The City (Yellow Gold-Tier), Gift of the Machina (White Silver-Tier), Embrace of the Conqueror (White Silver-Tier), Fighting God Full-time Master II (Green Bronze-Tier), Trashman (Yellow Gold-Tier), Sturdy Constitution (Green Bronze-Tier), Peach Luck (Green Bronze-Tier), Beauty (Green Bronze-Tier), Spirit Body III (White Silver-Tier)!"

Zhou Zhou thought.

In any case, they were all low-level Lord Talents. After leveling up, it would not affect the upgrade of the high-level Lord Talent.

He took out the Lord Talent Crystal Fragments and began to upgrade them one by one.

Soon,

all the Lord Talents had been upgraded.

...

Among the 10 Lord Talents,
other than Beauty and Peach Luck,

Zhou Zhou upgraded the other Lord Talents to Diamond-Tier.

As for why only these two had not been upgraded, Zhou Zhou's reason was very simple.

In this chaotic world...

These two Lord Talents were actually not very useful in war.

If it was in a peaceful era.

He was still willing to upgrade these two Lord Talents to Diamond-Tier.

However, in the era of the Lord of All Races...

White Platinum-Tier was actually about the same.

Therefore, Zhou Zhou chose to save higher-level Lord Talent Crystal Fragments in preparation for the upgrade of a good Lord Talent in the future.

Unless he had too many high-level Lord Talent Crystal Fragments in the future.

then he might increase these two Lord Talents again.

As for now, forget it.

Then, he looked at the 10 enhanced Lord Talents and could not help but smile.

If one or two Lord Talents did not increase much,

then, if so many Lord Talents were upgraded to the White Platinum-Tier Diamond-Tier, the help this would bring to the territory was probably equivalent to adding a Legendary-Tier Lord Talent to the territory.

"It feels good to use enough Lord Talent Crystal Fragments!"

Zhou Zhou lamented.

Among his 28 Lord Talents,

other than the Black Iron-Tier Lord Talent, the Hand of Wealth, which was a tool talent specially used to comprehend the Lord's Law,

The other Lord Talents were already White Platinum-Tier Diamond-Tier or even higher.

Zhou Zhou was excited for a while before looking at his remaining Lord Talent Crystal Fragments.

After the recent upgrade, he still had:

646,657 Black Iron-Tier Lord Talent Crystal Fragments!

108,229 Green Bronze-Tier Lord Talent Crystal Fragments!

2,899 White Silver-Tier Lord Talent Crystal Fragments!

2,145 Yellow Gold-Tier Lord Talent Crystal Fragments!

40 White Platinum-Tier Lord Talent Crystal Fragments!

44 Diamond-Tier Lord Talent Crystal Fragments!

22 Extraordinary-Tier Lord Talent Crystal Fragments!

14 Epic-Tier Lord Talent Crystal Fragments!

Five Legendary-Tier Lord Talent Crystal Fragments!

Six Mythical-Tier Unique Lord Talent Crystal Fragments!

Zhou Zhou nodded.

Even though he had just experienced a fierce upgrade,
there were still many Lord Talent Crystal Fragments left.

He would keep these Lord Talents for the time being to prepare for the upgrade of his Advance Lord Talent in the future.

"It's time to do the last thing today."

Zhou Zhou stood up and walked out of the Advance Grade Lord's Paradise.

A huge spaceship in the form of a miniature Milky Way gradually appeared in the sky above his head.

It was the Galaxy spaceship given to him by the Diamond-Tier Lord Talent—Gift of the Machina.

The next second,

a silver starlight shone on Zhou Zhou from below the Galaxy spaceship.

After the light disappeared,

Zhou Zhou also disappeared.

...

In the Galaxy.

In the captain's room.

Zhou Zhou sat on a silver throne and looked at the brand new sci-fi-like arrangements around him. He smiled and asked.

"How's it going?"

"My Galaxy Star God—Wen Ya?"

As soon as he finished speaking,

silver mechanical symbols appeared out of thin air one after another. Then, they quickly condensed into a silver-haired and red-eyed girl wearing silver shorts. Her skin was fair and her facial features were exquisite.

"Greetings, Your Majesty."

Wen Ya said respectfully.

Zhou Zhou sized up "His" body and raised his eyebrows slightly.

"Flesh Divine Body?"

"Yes, Your Majesty."

Wen Ya also looked at her divine body with a hint of infatuation in her eyes. "This is a human data divine body that His Excellency the Machina God-Tier personally created for me. Even though it looks like a flesh and blood divine body, it's actually filled with the technological wisdom crystals of data life technology..."

Zhou Zhou raised his eyebrows.

Wen Ya's Data Life Divine Body was actually personally created by the Machina God-Tier...

That was one of the 10 Master God-Tiers like the Goddess of Life!

No wonder the Diamond-Tier Gift of the Machina allowed his diplomatic relations with the Machina to reach the Alliance level.

Which Machina race faction would dare not to treat them as Alliance-level Lord factions with the highest level of Master God-Tier backing them?

At the thought of this,

he opened the activity icon of the King of Ten Thousand Kings and opened the [Join the Faction] option. Indeed, he found the Machina race's faction inside.

Moreover, this Machina race faction already had a Machina race Beginner Kingdom faction called [Gitta].

Moreover, the Alliance's Diplomacy relationship had already reached the [Alliance] level and was ranked ahead of the Knight Empire and the Elven Empire.

"Gitta Kingdom?"

"Isn't this the Mechanical Kingdom where the Ultimate Lord, Zhou Zhou, went?"

Zhou Zhou thought to himself.

It seemed that his diplomatic relationship with the Machina race could only be officially obtained by him or his subordinates coming into contact with this kingdom.

It was impossible for him to directly obtain the Diplomacy of all the Machina race Lord factions with just his Lord Talent.

He shook his head in his heart and did not care. He looked at Wen Ya.

"Come on."

"Let me see how different you are from before after becoming a God."

He smiled.

"His Majesty will see."

Zhou Zhou nodded and told him to go to the Gitta Kingdom where the Ultimate Lord, Zhou Zhou, was.

Wen Ya smiled and activated the Galaxy spaceship, flying towards a Spatial Teleportation Array.

After arriving at the Spatial Teleportation Array, Zhou Zhou used this place to head to the Gold Merchant Lord's territory.

...

[Global Lord: 100% Drop Rate](#)

Chapter 679: The Speed Of The Galaxy! Gitta Kingdom!

Myriad Merchant City.

Beside the Spatial Teleportation Array.

The Gold Merchant Lord was leading more than 100 territory officials to stand there respectfully, looking expectantly in the direction of the Spatial Teleportation Array.

At this moment...

The Spatial Teleportation Array suddenly lit up with a silver-white light. Then, a huge galaxy-shaped spaceship appeared above the teleportation array out of thin air.

"Greetings, Your Majesty!"

When the Gold Merchant Lord and the others saw this, they immediately said respectfully and fanatically.

The next second,

a figure appeared out of thin air outside the spaceship.

It was Zhou Zhou.

He looked at the Gold Merchant Lord and the others below and nodded slightly.

"You guys can go back."

"This King is just passing by. I won't stay here."

He said.

"Yes!"

The Gold Merchant Lord and the others naturally did not dare to have any objections.

Zhou Zhou did not say anything else when he saw this. He used Spatial Teleportation to return to the spaceship and let the Starry Night fly quickly northwest.

"Did you notice that the spaceship His Majesty rode on this time is different? It seems to be more advanced."

"Perhaps His Majesty's territory has developed a higher-level spaceship."

"I wonder when I can have a spaceship too..."

"What are you dreaming about? Even the most ordinary Black Ghost needs hundreds of Diamond-Tier Mist Cores."

"Why do you want to buy a spaceship? If you want to experience a spaceship, can't you just go to the Blazing Sun Kingdom and buy a plane ticket?"

"I heard that His Majesty is going to build an airport in our places in the future. I wonder if it's true."

"It should be true."

The Ministers discussed animatedly.

The Gold Merchant Lord smiled when she heard their discussion.

"His Majesty's strength has increased again."

He sighed inwardly when he thought of the spaceship that was even more sci-fi than a sci-fi movie.

...

Five minutes later,

in the Galaxy spaceship.

Zhou Zhou was sitting on a silver throne with his eyes closed.

His constitution was strong. Even though he had played the virtual game all night yesterday, not only did this not make him feel even more tired, but it was also equivalent to resting, gradually restoring his state to its peak.

At this moment, he closed his eyes to rest.

It was not because his eyes were tired from watching the game.

He was just thinking about how to develop in the future.

"Your Majesty, we have arrived at the Gitta Kingdom."

At this moment...

Zhou Zhou heard Wen Ya's voice.

He opened his eyes with a very surprised expression.

"We're here?"

"Yes." Wen Ya said respectfully, "The flying distance between the Myriad Merchant City and the Gitta Kingdom is about 5,816 million kilometers. This flight took a total of six minutes and 54 seconds."

Zhou Zhou's mouth fell open.

After a long time.

He came back to his senses.

"In other words, the Galaxy's flying speed is 50 billion kilometers an hour?!"

He quickly calculated the result in shock.

"Yes, Your Majesty."

Wen Ya's voice was as usual.

Zhou Zhou looked shocked.

As expected of the Diamond-Tier Gift of the Machina!

The speed of a spaceship that had increased by three major levels was extraordinary!

This was 50 times faster than the previous Starry Night.

Yes.

What right did a White Silver-Tier spaceship have to scam a Diamond-Tier spaceship?!

Moreover, it was a spaceship whose functions had all reached the Low-Tier Deity Level Elementary Grade.

Such a configuration.

was not a problem to say that the Galaxy was a Low-Tier Deity Level Elementary Grade spaceship wearing the skin of a Diamond-Tier Advance Grade spaceship.

A smile appeared on his face. Then, he thought of something and asked curiously,

"I remember that you also have a Low-Tier Deity-level Dark Universe Travel function."

"How fast will you be if you use Dark Universe Travel Function?"

"If the Galaxy activates the Dark Universe Travel Function, its speed will reach 100 times the speed of light, 21.6 times normal sailing speed!"

Wen Ya reported her data truthfully.

Zhou Zhou clicked his tongue.

Then, he was secretly happy.

100 times the speed of light.

That was 1,080 billion km/h!

At this speed, he would not have to consider whether he was too far away if he wanted to go anywhere in the High Continent in the future.

No matter how far away it was.

They would eventually arrive after letting the Galaxy fly for a day and night.

"In the future, I won't have to rely on any Location Teleportation Scrolls or random Teleportation Scrolls to go further."

Zhou Zhou lamented.

A moment later,

he came back to his senses and remembered why he was here.

Thinking of this, Zhou Zhou immediately stood up from the throne and activated Exterior Mode. Then, he saw a kingdom that was different from common sense appear in front of him, revealing the tip of the iceberg.

"Machina race kingdom—Gitta Kingdom..."

Zhou Zhou looked at the scene in front of him and thought of the information given to him by the Ultimate Lord—Zhou Zhou.

Gitta Kingdom.

This was an Intermediate Kingdom established by the Machina race.

It had more than 500 million Machina race Subjects in its territory.

In terms of numbers, this was a kingdom with a relatively large population of Subjects.

However, the Gitta Kingdom knew.

Among the 500 million Machina race Subjects, there were only more than 10 million Machina race life forms.

The remaining 500 million Machina race Subjects were just lifeless machines.

It was equivalent to a bionic human among humans.

In fact, because the classification of the Machina race was very strict, these lifeless Mechanical Subjects might even be inferior to Bionics.

If a war began and they were in a life-and-death situation, the Machina race life forms would throw these Mechanical Subjects out as cannon fodder without hesitation.

It was rational and cold.

This was also a common characteristic of the Machina race.

...

"Is this the city built by the Mechanical Race?"

Zhou Zhou's gaze was focused on the city in front of him.

This was a huge mechanical city made up of all kinds of machinery.

The technologically bright silver was its main color.

All kinds of neon lights filled the city, rendering it like the future Cyberpunk Style world.

All kinds of mechanical life forms walked in the city like a part on a gear, emitting a sense of order.

Other than that,

there were also some Subjects of the other Races who lived here.

They seemed to have reached a special harmonious relationship and did not look like they were in conflict.

At this moment...

A silver flying saucer-shaped aircraft flew over.

Zhou Zhou did not do anything.

When the silver aircraft flew in front of him, a virtual image was projected above the aircraft.

It was the Ultimate Lord, Zhou Zhou!

At this moment, he was in a mechanical palace with mechanical servants serving him. He looked to be in a pretty good situation.

"Looks like you're doing well."

Zhou Zhou smiled.

The Ultimate Lord shook his head. "Follow the Eye Disc reconnaissance robot."

Zhou Zhou nodded.

[Honorable guest, please follow me.]

At this moment...

The Frisbee that the Ultimate Lord Zhou Zhou called an Eye Disc robot suddenly emitted a mechanical voice.

Zhou Zhou nodded.

Then, he followed the Eye Disc robot and flew towards the mechanical city in front of him.

[This is one of the Yellow Gold-Tier regional cities of our Gitta Kingdom—Silver Button City.]

[Honorable guest, you can come to our place as a guest anytime in the future.]

The Eye Disc robot flew in front and led the way, not forgetting to introduce this city to Zhou Zhou.

Zhou Zhou nodded and did not say anything else.

Chapter 680: Apocalypse Satellite—IX! The Era of the Data Civilization!

Soon,

they stopped in front of a mechanical palace.

A machine and a person walked into the palace one after another. Soon, they saw the Ultimate Lord, Zhou Zhou, waiting for them.

Zhou Zhou was a little surprised when he saw him.

"You're already an Extraordinary-Tier Advance Grade?"

"Mhm."

The Ultimate Lord, Zhou Zhou, nodded and gestured for the Eye Disc robot to leave. After it flew away, the Ultimate Lord, Zhou Zhou, said to him,

"I temporarily borrowed half of the Machina race's military strength in the other party's kingdom at the price of promising the King of the Gitta Kingdom that I would help him research a few war technologies in the future. At the same time, I shared the total database of the Gitta Kingdom."

"I obtained a large amount of computing power and a large amount of promotion energy through the Grand Unified Core Energy. This allowed me to advance to the Extraordinary-Tier Advance Grade in a short period of time."

"In the future, I should be able to continue improving until I reach the Epic-Tier Advance Grade. Only then will my improvement speed slow down."

"Half of the Machina race's troops?"

Zhou Zhou raised his eyebrows.

"Does the King of the Gitta Kingdom trust you so much?"

"My main body is the Machina race, and the friendship behind the Gift of the Machina represents the Machina race. In addition, I've signed the 'Core Contract Procedure'. There's basically no possibility of harming each other."

"That's why King Gitta trusts me so much."

Ultimate Lord Zhou Zhou explained.

Zhou Zhou nodded.

Then, he smiled.

"By the way, I've already upgraded the Gift of the Machina to Diamond-Tier Lord Talent."

"The Starry Night has all been upgraded to a higher-level Galaxy."

"His diplomatic relations with the Machina race have also increased from their previous friendship to the Alliance level."

"The Gitta Kingdom should already know this."

"I'll send another Galaxy over later. It should be useful to your situation in the Machina race."

He said.

"Okay!"

The Ultimate Lord, Zhou Zhou, nodded.

It was more than useful.

With this witness spaceship that represented Alliance-level diplomatic relations,

In the future, its situation in the Machina race could be described as like a fish in water.

"Oh yes."

"I already know why you're here."

"According to the information I obtained from you, you should be able to steadily resolve this crisis."

"I still have a reason to stay here, so I won't go back with you."

"But you can take some gadgets with you."

The Ultimate Lord Zhou Zhou said. Then, he took out a silver ring and handed it to Zhou Zhou.

Zhou Zhou took it and entered it with his consciousness. Then, he was stunned.

"What... What is this?"

Zhou Zhou said in surprise.

"10 Legendary-Tier Elementary Grade Apocalypse Satellite—IX."

"As well as the corresponding satellite launch base, satellite maintenance base, satellite recovery base, satellite manufacturing base, satellite robot factory, and 10,000 Apocalypse Satellite Mechanical Engineers."

"With this batch of facilities and staff, the future satellite launch, recovery, manufacturing, and restoration can be properly resolved."

"Apocalypse Satellite? It's Lord Father's unfinished loot?"

Zhou Zhou thought for a moment and remembered.

The Ultimate Lord, Zhou Zhou, nodded.

"After obtaining the computing power, big data, and promotion energy here, I upgraded the original Extraordinary-Tier Elementary Grade Apocalypse Satellite IV to Legendary-Tier Elementary Grade—IX through my ultimate algorithm, True Simulation, and Super Calculation."

"These 10 Apocalypse Satellite—IX. As a high-altitude attack satellite building, its range is 100 million kilometers. With the Legendary-Tier Elementary Grade Apocalypse Laser Cannon, it can instantly kill all life forms below the Legendary-Tier Elementary Grade in the range."

"Moreover, it can accumulate full power attack charging every 60 seconds when there's enough energy."

"Apart from that,

"It also has a satellite reconnaissance function. It can observe any enemy within the attack range and determine who is the greatest threat based on the energy fluctuations."

"This way, we can hit accurately."

"They should be useful to you in the upcoming war."

The Ultimate Lord, Zhou Zhou, said.

"It works!"

"It's too useful!"

Zhou Zhou's eyes lit up when he heard that. He looked at the 10 Apocalypse Satellite—IX as if they were treasures.

He had to deal with hundreds of millions of enemies tomorrow.

It would definitely be very difficult to find the other party's general among so many enemies and take the head of the enemy general.

Even if he could find the enemy general through the Eye of The Heaven's Anger, it was not easy to break through the enemy's obstruction and kill the enemy general inside.

However, it was different with this Apocalypse Satellite—IX.

They could directly launch a laser attack from a high altitude. No matter how many people there were, they could still target them!

Would his soldiers dare to block it?

He might not be able to withstand it even if he died.

This was the advantage of Laser Strike.

Zhou Zhou chuckled and put the mechanical ring on his finger. Then, he asked, "What else do you plan to do by staying here? Study the war technology you agreed to?"

"More than that."

"I also plan to rely on the computing power here to continue climbing the technology level of the Grand Unified Core Energy."

"Also..."

"There's not only one Mechanical Kingdom here. There are also many small Mechanical Lord factions nearby."

"I plan to take them all down and become a subordinate of my computing power so that I can bring them back to the territory in the future."

"The computational power of the Gitta Kingdom is ultimately borrowed."

"Apart from that,

I have another purpose. This is the greatest reason why I'm staying here."

The Ultimate Lord, Zhou Zhou, said.

"What is it?"

Zhou Zhou was curious.

"I discovered a very useful and interesting incomplete technology in the database of the Gitta Kingdom."

"It's 'Mixed Virtual Reality Technology'."

"After I complete and popularize this mixed reality technology, our territory can enter the mixed virtual reality era."

The Ultimate Lord, Zhou Zhou, said.

Zhou Zhou's eyes lit up.

Mixed virtual reality era...

This sounded a little complicated.

However, it actually had another name in the Machina race.

The era of data civilization!

Living beings who lived in the era of the data civilization were like living in a game world. Everything could understand each other's information by checking the data.

In this data environment,

no matter what he did, his efficiency would increase greatly!

Life forms could even understand their improvement by observing their data. It was also because they knew how much they had improved and why. From there, they would be more motivated, methodical, and efficient in learning and improvement!

Life forms could even find ways to improve faster from big data through the Internet, thereby allowing them to improve better!

In the online novels of the Cerulean Planet and Earth, there was often a type of protagonist who learned everything quickly because he had obtained the proficiency panel. Then, he would leap into the sky and have everything.

However, in the eyes of the data civilization, this proficiency panel was only an incomplete data panel.

Only the proficiency panel and the Perfect Teaching Data Resource could be equivalent to the learning Effect of an individual's life in the data civilization.

The only thing stronger than the data panel might be the magical learning Effect of the proficiency panel in the novel.

"If my Blazing Sun Kingdom enters the era of mixed virtual reality, the development speed of my territory will be ten times or even a hundred times faster!"

The more Zhou Zhou thought about it, the more excited he became.
