Chapter 691: Sneak Attack! Zhou Zhou's Confidence!

Zhou Zhou looked at the remaining fog monsters of the Scarlet Legion and felt that it was a pity.

His Incite Defection could only be used on the same enemy faction once a day.

If only he could use the second Incite Defection on these fog monsters.

Then he could have at least 20 million fog monster subordinates!

However, the situation in front of him was not bad.

Zhou Zhou was not greedy.

"Bye, everyone!"

Zhou Zhou looked at the countless fog monsters outside the barrier and smiled. Then, he planned to use Spatial Teleportation to escape.

He had extremely high spatial talent to begin with, and he often used this skill.

With the enhancement of his extremely high comprehension ability, he had already comprehended this Law Skill to the Law Skill level.

Even though it was only an Epic-Tier other Law Skill,

It was equivalent to the Law Skill that Feng Luo had comprehended back then—One Blade Ultimate!

However, it was more than enough in the face of the current situation.

At this moment...

A dark purple flying arrow that emitted the aura of a High-Tier Deity-level instantly passed through space and shot at the King of the Sky's Guardian barrier.

Rumble!

In the blink of an eye.

The Guardian barrier that protected Zhou Zhou, the King of the Sky, exploded on the spot.

A large amount of Wind Stats Divine Power and Abyss Divine Power contained in it caused a terrifying explosion under the conflict.

Rumble...

An azure and dark purple explosion ripple instantly spread out with the barrier as the center.

Wherever it passed, countless fog monsters below the Legendary-Tier could not even let out a scream before they were instantly killed. Even their corpses were not left behind.

Even the Scarlet God Spirits who rushed over and were accidentally affected suffered some serious injuries when they were caught off guard.

...

High up in the sky.

A Void Spirit Demon God Spirit holding a dark blue ferocious bow slowly lowered its bow.

The arrow just now was released by "Him".

And "He" was one of the only two High-Tier Deity-levels in the Refine Flame Scarlet Legion.

"I didn't expect a little worm to run over."

"And he's the King of the Blazing Sun Kingdom."

"What's this guy thinking?"

"As the Sovereign of a country and the favored one of the Supreme Will, you actually took a risk and ran to the most dangerous place on the battlefield."

"He" shook his head.

He did not understand.

Could it be that this King of the Blazing Sun had walked too smoothly and was arrogant? Had he already begun to look down on God Spirits like them?

"He" did not think too much about it, let alone mind it.

This was because "He" already knew that Zhou Zhou was an Epic-Tier Intermediate Grade human through his aura.

While the aura on his body was a little strange, the strength could not be faked.

In "His" heart, the other party would definitely die with the arrows of attacks just now.

"Now that I've killed the King of the Blazing Sun, the Crimson Overlord should reward me, right?"

"He" began to fantasize.

According to the Crimson Overlord's past style, it would definitely be rewarded with something for dealing a huge blow to the Supreme Will and fighting for the Crimson Overlord's face.

As "He" thought, "He" looked at the center of the explosion where the King of the Blazing Sun was.

As time passed, the Divine Power Violent Storm in the center of the explosion gradually dissipated, revealing the scene inside.

And then...

"His" pupils constricted slightly.

That was because "He" actually didn't see the remains of the King of the Blazing Sun's corpse inside.

"That's impossible."

"I clearly restrained my strength just now. That Abyss Demon Arrow could at most break through the Wind Stats Divine Power protective barrier protecting him and kill him. It's impossible to kill him until there's not a trace of him left."

Thinking of this, "He" immediately flew to the center of the explosion.

After "He" carefully observed it for a few seconds, "He"'s expression turned ugly.

"Spatial Law Skill..."

"I actually let him escape!"

...

In the sky, on a Galaxy spaceship.

Zhou Zhou sat calmly in the captain's exclusive seat and recalled the scene just now.

"That guy should be at least a High-Tier Deity-level Intermediate Grade Scarlet God Spirit."

"Otherwise, it would be impossible to directly break through my Sky King's Guardian."

"Aye."

"It's indeed difficult to stop so many Scarlet God Spirits with just Haros and Ze Wu."

Zhou Zhou shook his head.

The reason why he boldly appeared in front of so many Scarlet Fog monsters and even boldly exposed his identity to attract the hatred of the Refine Flame Scarlet Legion was because other than a large pile of divine artifacts and other God-Tier treasures, there was another very important reason.

He now had a total of nine resurrections with the professional ability of The Lord Of The End!

With so many resurrections, Zhou Zhou naturally had the capital to do whatever he wanted.

Zhou Zhou even wanted to take the initiative to die and see what this Resurrection Effect was like.

After all, if he revived with the power of the Final Nirvana, his strength would also increase greatly.

Ever since he entered the Epic-Tier, Zhou Zhou felt that it was increasingly difficult to increase his strength.

There were at least four to five million fog monsters that had just died from the earthquake.

However, Zhou Zhou felt that the promotion energy provided by these four to five million fog monsters only increased his Epic-Tier Intermediate Grade strength by about two to three levels.

The promotion energy provided by these four to five million fog monsters only increased his Epic-Tier Intermediate Grade strength by about two to three levels.

Not to mention Legendary-Tier and even God Spirits.

Therefore, if the power of the Final Nirvana could really increase his strength, he did not mind improving himself through death.

It was just a pity.

Even if it was a High-Tier Deity-level existence.

It did not force him to consume even one resurrection.

[Your Majesty.]

[Lord Haros and Lord Ze Wu are back.]

[They are walking towards the captain's room.]

At this moment...

Wen Ya's voice sounded.

Zhou Zhou nodded.

Soon, the two Gods walked over.

Haros' face was filled with excitement and a hint of depression.

Ze Wu was also excited, but other than excitement, he was also a little worried.

"Are you two injured?"

Zhou Zhou asked with concern.

"With this divine artifact, even if I can't defeat it, it's easy for me to not be injured."

"Even though I've been suppressing that guy called Gerrard, he's indeed an opponent I can fight!"

Haros was the first to speak.

Then, "He" said helplessly, "However, a group of Scarlet God Spirits rushed over later on. There was also another High-Tier Deity-level God Spirit who interfered. Otherwise, I would have definitely decided a victor with "He" today!"

"I fought two Mid-Tier Deity-levels and two Low-Tier Deity-levels alone with my divine artifacts."

Ze Wu said solemnly, "However, this Feidu Scarlet Empire can't be underestimated."

"Even though we far exceed the other party in terms of low-level combat strength, I'm afraid it's very difficult to compare to the other party in terms of high-end combat strength at the God Spirit level."

"This battle... is not easy to fight."

Zhou Zhou nodded.

Then, he smiled and said.

"You're right."

"However, if it really comes to the most dangerous moment, I'll ask the Elven Empire for help."

"With the Elven Empire's strength, it will definitely not be a problem to defeat this Flame Refining Scarlet Army."

Ze Wu was about to ask why he felt that he would definitely be able to invite the experts of the Elven Empire to help him resolve the current predicament.

However, "He" quickly thought of Zhou Zhou's unfathomable wealth.

"That's true."

"With the divine artifact resources this guy has,

"Even if he casually takes out a Low-Tier Deity Level Elementary Grade divine artifact, it should be enough for the experts of the Elven Empire to take action and resolve the current crisis for him."

"After all..."

"Even the Elven Empire lacks divine artifacts."

"It's not difficult to defeat an ordinary Empire-level Scarlet Legion."

"Moreover, the Elven Empire seems to have heard rumors that Zhou Zhou has many divine artifacts recently."

"At this moment, they're probably thinking about how to get the King of the Blazing Sun to 'gift' them a few divine artifacts."

"If this King of the Blazing Sun really asks the Elven Empire, the Elven Empire will probably agree without thinking for the sake of a divine artifact."

Ze Wu thought to himself.

"He" felt a little emotional.

There was a proverb circulating in the Blazing Sun Kingdom from the King of The Blazing Sun.

It was called money talks.

From the looks of it, he could also allow God to drive under his command with a divine artifact.

Chapter 692: Mystic Heaven Immortal Alliance!

Zhou Zhou, Haros, and Ze Wu chatted for a while.

Then, Zhou Zhou prepared to leave.

"Please continue to monitor the Flame Refining Scarlet Army and protect the 10 Apocalypse Satellites-IX in the sky."

"If a powerhouse of the Flame Refining Scarlet Army wants to fly up and destroy the Destruction Apocalypse Satellite-IX, please take the Galaxy immediately to the orbit of the Apocalypse Satellite-IX and move them. Then, change to a new place to continue releasing them to deal damage."

"This is called guerrilla tactics in our hometown."

Zhou Zhou smiled.

"Leave it to us."

When the two Gods heard this, they felt that it was not difficult and immediately agreed.

Zhou Zhou nodded.

Then, he took out a Galaxy from his inner world after bidding farewell to the two Gods. Then, he boarded the Galaxy and flew in the direction of the ancient teleportation array that the Mystic Heaven Lord had mentioned.

...

On a plain about 50 million kilometers away from the Blazing Sun Kingdom.

There was a temporary military stronghold here.

At this moment, a group of people was gathered in front of the entrance of the military stronghold.

They were Wu Tu, Mai Lun, and the other generals of the army who had led their troops here in advance, as well as the nervous Mystic Heaven Lord, his subordinates, and the members of the Alliance.

They were Wu Tu, Mai Lun, and the other generals of the army who had led their troops here in advance, as well as the nervous Lord of the Mystic Heaven, his subordinates, and the members of the Alliance.

It was as if he was a righteous cultivator who had lived in a Daoist sect for a long time. He was righteous and innocent and was willing to help others. Just his appearance gave people a good impression.

Before Wu Tu and the others came, they had heard Zhou Zhou mention this person's aptitude and experience in the High Continent.

Now that he had seen him with his own eyes, he had to admit that he was indeed a Qi Practitioner seed that was filled with an immortal aura.

"But it's still far inferior to His Majesty."

Wu Tu looked at the Mystic Heaven Lord and muttered in his heart.

If the Mystic Heaven Lord was a Qi Practitioner seed, then he felt that his Majesty was a natural Immortal King!

The Mystic Heaven Lord was far inferior in terms of temperament and appearance.

It could be said that they were on two completely different levels.

It was even much inferior to the most handsome youth in their territory, Xiao Xuan.

At the same time, the Mystic Heaven Lord was also looking at Wu Tu and the others.

The more he looked at them, the more he clicked his tongue.

"I've long heard that the Subjects of the Blazing Sun Kingdom are all outstanding-looking. It's true from the looks of it."

The Mystic Heaven Lord sighed in his heart.

Even though these people's appearances were not comparable to his, they could be considered outstanding among ordinary people.

It made him want to join the Blazing Sun Kingdom now.

Not for any other reason.

He just wanted to see the upper limit of his appearance.

He turned to look at the higher-ups of the Mystic Heaven City and the Alliance Master members of the Mystic Heaven Immortal Alliance.

Then, he was speechless.

Because he realized that at this moment, these people were looking at Wu Tu and the others with infatuated eyes.

Even some people with stronger self-control could not help but look at Wu Tu and the others from time to time.

"All of you, restrain yourselves!"

"You have to pay attention to the image of our Mystic Heaven Immortal Alliance outside!"

The Mystic Heaven Lord shouted secretly.

It was too embarrassing!

It was as if they had never seen handsome men and beautiful women before.

Even though they had indeed never seen so many handsome men and beauties gathered together,

At this moment...

A huge shadow that covered the ground suddenly enveloped them.

A series of exclamations suddenly came from the crowd. At the same time, they looked at the sky.

The Mystic Heaven Lord was shocked. Then, he immediately reacted and turned around to look at the sky.

He saw a huge spaceship that was as gorgeous and resplendent as the Milky Way. It quietly floated in the sky, as if it had been parked there.

The huge spaceship even completely covered the sun, causing the plain below to be completely enveloped by the shadow of the Galaxy spaceship.

Right on the heels of that, a handsome man in a luxurious dragon robe flew out.

As soon as he appeared.

It was as if it was the only light source in the world, attracting everyone's attention.

"Is that... a God?"

A female Lord looked at Zhou Zhou infatuatedly.

The others also looked similarly obsessed.

Even the Mystic Heaven Lord, who was quite confident in his appearance, looked at Zhou Zhou in a daze.

At the same time, Zhou Zhou looked down. When he saw Wu Tu and the others, he immediately turned into a golden light and flew down, arriving in front of everyone.

"Greetings, Your Majesty!"

Everyone said respectfully and fanatically.

Zhou Zhou nodded and looked at the Mystic Heaven Lord and the others.

"You're the Mystic Heaven Lord, right?"

He walked in front of the Mystic Heaven Lord and suddenly smiled.

"He's even more handsome than in the video." He praised.

The Mystic Heaven Lord came back to his senses.

"It's not as good as what if it's not as good as Your Majesty."

The Mystic Heaven Lord lowered his head with a flushed face, feeling extremely embarrassed for his narcissism in the past.

In front of such people with such peerless Celestial appearance, how did he dare to say that he was the most handsome in the world in the past?

Zhou Zhou smiled and did not harp on this topic.

"You're from Mystic Heaven City and the Mystic Heaven Immortal Alliance, right?"

"Nice to meet you."

"I'm the King of the Blazing Sun of the Blazing Sun Kingdom. Everyone can call me the Lord of The Blazing Sun."

He looked at the people behind the Mystic Heaven Lord and greeted them.

When everyone saw this, only then did he come back to his senses and hurriedly replied to Zhou Zhou.

After a few simple words, Zhou Zhou said,

"There's no time to lose."

"Let's deal with the Dark Martial Alliance first."

"Okay!"

"Let's set off now!"

The Mystic Heaven Lord and the others immediately perked up, their expressions filled with excitement.

Some people even had rich aggro in their eyes.

Their Mystic Heaven Immortal Alliance had been fighting the Dark Martial Alliance for so long that a portion of them had long developed a blood feud.

After that, everyone did not waste any more time and directly entered this military stronghold. Then, they used the ancient teleportation array here to head to the headquarters of the Mystic Heaven Immortal Alliance.

...

Mystic Heaven Immortal Alliance.

Headquarters base.

When Zhou Zhou and the others arrived, he swept his gaze and saw the architectural style of the Mystic Heaven Immortal Alliance. He could not help but say in surprise,

"The architectural style here is not bad."

The architectural style of the Mystic Heaven Immortal Alliance was clearly modeled after ancient buildings.

Pavilions, pond pavilions, carved beams, and painted buildings could be seen everywhere.

There were fake mountains, strange rocks, flower beds, and potted plants, decorated with vines and green bamboo.

At the same time, it also had a rich Xianxia factor.

For example, Zhou Zhou had seen immortal cranes riding the wind just now. On the backs of the immortal cranes were Qi Practitioners who were dressed like immortals.

Other than that, Zhou Zhou also acutely realized that there seemed to be some array formation here that was constantly gathering the promotion energy of the world towards this city.

Even though he could not tell anything in the short term, as time passed, as long as nothing unexpected happened here, this place would sooner or later evolve into a blessed land.

"It's a little like a weakened version of the Essence Spirit Array..."

Zhou Zhou thought to himself.

"As long as Your Majesty likes it."

"I specially hired an architect from the Black Heaven Sect to design this."

"Therefore, the architectural style is more inclined to the preferences of the Qi Practitioners."

The Mystic Heaven Lord said politely.

Zhou Zhou nodded.

Then, they first came to a reception room. After chatting for a while, the Mystic Heaven Lord began to introduce the Dark Martial Lord to Zhou Zhou.

Chapter 693: The Resurrected Sun Extermination Association (1)

"After the Dark Martial Lord found out that His Majesty was going to attack them, he has been gathering the soldiers of the Lords under the Dark Martial Alliance."

"Just now, the information part of our Mystic Heaven Immortal Alliance tells me that the Dark Martial Lord has gathered about 4,500 Lord soldiers. His total military strength has already reached about eight million."

"It's said that he also paid a huge price to hire a few experts from the kingdom that hired him."

"However, they did a good job of keeping it a secret. Our intelligence personnel didn't get any information about it."

The Mystic Heaven Lord said with a solemn expression.

This Dark Martial Lord was clearly frightened by the reputation of the King of the Blazing Sun.

In the past, he did not have the ability to gather so many soldiers.

Now, it was obvious that he had the thought that he would probably die if he did not succeed. That was why he had tried his best to gather so many people.

Zhou Zhou nodded casually.

An expert?

No matter how strong an expert was, they would still be from a Kingdom-level Lord faction.

Unless a True God-Tier or even stronger descend.

Otherwise, Zhou Zhou would not be worried that there would be danger on this trip.

The Mystic Heaven Lord heaved a sigh of relief when he saw that Zhou Zhou's expression did not change. Then, joy appeared on his face.

As expected of the Strongest Lord of All Races who could defeat the kingdom's forces at this stage.

This confidence was really enviable and desirable.

When he thought about how he had also hitched a ride on the King of The Blazing Sun's ship, the thoughts in the depths of his heart that were subservient to others immediately dissipated.

"If I work hard alone and dig out my potential and my Lord Talent to the extreme, I'm afraid I won't be able to reach the heights of the King of the Blazing Sun in the future. I might not even be able to reach the heights of the Spiritual Medicine Lord under his command.

But if I follow the King of the Blazing Sun, not only can I greatly guarantee my safety at this stage, but in the future, with the resources he has, as long as I assist him with all my might and not betray him, he will definitely support me with all his might, allowing me to easily reach the limit of my potential. It won't even be difficult for me to surpass the limit of my potential."

"If that's the case."

"What's the big deal about submitting to him?"

The Mystic Heaven Lord thought.

Just as a certain Internet celebrity on Earth said.

On the street, I'm driving a Mercedes-Benz, and the other party is driving a little electric scooter. You're talking about dignity with me?

How good was the King of the Blazing Sun to his subordinates?

This could be seen from the group of Star Alliance Masters who flaunted on the World Channel every day how much benefits they had enjoyed and how much their strength had increased after joining the Star Alliance.

They were really showing off!

It was not just talk.

They even posted videos and screenshots every day. Some flashy Lords even broadcasted the war scenes they experienced sometimes.

These could not be faked.

Therefore, many Lords of the Cerulean Planet hoped to join the Star Alliance and have a winning career.

There was a good saying.

Why work hard to carry others when there was someone to carry him?

This was the thought of many Lords who yearned to join the Star Alliance.

There was only one Lord of All Races after all.

Many Lords knew their limits and knew that they could not fight for the position of Lord of All Races in the hands of so many abnormal Lords.

Since that was the case...

Why fight to the death?

There was more than one choice in life.

Therefore, many of them chose to rely on powerful Lords.

If they exclude the Lords of the people of foreign races, the Lord of The Blazing Sun was undoubtedly the Lord of The Blazing Sun with the greatest potential from the Cerulean Planet.

The Dragon Lady Lord, the Undead Lord, and the other top Lords were very proud at the beginning. They even wanted to fight for the position of the Lord of All Races.

However, the Lord of The Blazing Sun appeared first and came first in the novice Lord test!

Later on, on the Lord Battlefield of All Races and in the competition with the Lords of the people of foreign races, they realized the difference in strength and foundation between them and the Lords of powerful Race Civilizations.

After that, they learned that Zhou Zhou had suppressed the Lords of all races and obtained the title of the Strongest Lord of All Races!

In the end, they learned of the existence of the Star Alliance.

These things changed their original thoughts step by step.

Until now.

They could already willingly choose to join the King of The Blazing Sun.

Speaking of which, "How many Lords does the Dark Martial Alliance have?"

Zhou Zhou asked.

"There are about 500,000 Lord members of the Cerulean Planet in the Dark Martial Alliance."

"However, 99% of the Lords are widely distributed in various regions of the High Continent. They can't send troops to help the Dark Martial Alliance when they need them."

"Not everyone can have an expedition spaceship like Your Majesty."

"Even if we want to build an ultra-long-distance teleportation array, we have to have that technology."

"Most of these Lords who joined only want to wear the identity of a member of the Lord Alliance and usually add the Lord Alliance to the chat group."

At this point, the Mystic Heaven Lord could not help but smile bitterly.

Wasn't his Mystic Heaven Immortal Alliance the same?

In fact, due to the traffic restrictions, most of the Lord Alliance of the Cerulean Planet Lords experienced the same problem.

There was no solution now.

Therefore, Lord Alliances like the Star Alliance, where all the Lords in the alliance could communicate and cooperate in reality, were envied by many Lord Alliances even though there were very few of them.

"However, when the Dark Martial Lord was active in the Myriad Races Lord Battlefield back then, he bought more than 20 Master-Servant Subject Territory Contracts and contracted more than 20 Lords to become his subordinate territory."

"The other party used the Teleportation Array given by the Master-Servant Territory Contract and relied on these 20-odd Lords of subordinate territory to contact more than 10,000 Cerulean Planet Lords in reality."

"Most of these eight million soldiers came from them."

The Mystic Heaven Lord said.

Zhou Zhou did not say anything.

Actually, he could do this too.

He could even contact dozens or even hundreds of times more Lords of the Cerulean Planet.

He had hundreds of Master-Servant Territory Contract Lords under his command after all.

However, he had no intention of continuing to recruit Lords of the Cerulean Planet ever since he did not have the Master-Servant Territory Contract. Therefore, he had never done this.

"Ever since the Lord members of the Dark Martial Alliance found out that the Dark Martial Lord wanted to deal with Your Majesty, many Lords have already left the Dark Martial Alliance."

"The Lords who still dare to stay in the Black Martial Alliance and are willing to work for the Black Martial Lord are either threatened by the Black Martial Lord in reality, have a close benefit relationship with the Black Martial Lord, or are hostile to Your Majesty."

The Mystic Heaven Lord said.

Zhou Zhou nodded.

Then, everyone chatted for a while. Then, Zhou Zhou stood up and looked at everyone in the meeting room.

"There's no time to lose."

"Let's go to Black Martial City."

He said.

"Yes!"

Everyone stood up and replied.

...

Black Martial City.

The Black Martial Lord was sitting on the sofa in his room and looking at the virtual screen in front of him.

On the virtual screen, a group chat was displayed. The name of this group chat was the Sun Extermination Association.

A long time ago, the Sun Extermination Association had disappeared after the leaders who founded it were destroyed by Zhou Zhou.

For some reason, it actually resurrected!

[Global Lord: 100% Drop Rate](#)

Chapter 694: The Resurrected Sun Extermination Association (2)

At this moment, the Black Martial Lord looked at the content of the chat group and occasionally typed.

[Second Lord of The Blazing Sun: How's the preparation going? Our dark warrior hero.]

[Black Martial Lord: I've already gathered more than 8.56 million soldiers of the Black Martial Alliance. This is already the limit of what I can gather.]

[Dark Martial Lord: In addition, I spent a third of the wealth of the Dark Martial Alliance and invited three Epic-Tier experts from the Roland Kingdom to help.]

[Black Martial Lord: This is the first time I've grasped so much power. With my current strength, I should be able to defeat the King of the Blazing Sun, right?]

[Evil Dragon Lord: More than eight million soldiers and three Epic-Tier experts??? Good lord! If I had your strength, I would have directly attacked the Blazing Sun Kingdom.]

[Lord of Water Chestnut Flower: Don't be careless. We might have eight million people but we might not be able to win against the Lord of The Blazing Sun even if we have the upper hand in numbers. We've gathered a lot of information about the King of the Blazing Sun's strength, that information is either incomplete or outdated from a long time ago. This information might no longer be trustworthy.]

[Second Lord of The Blazing Sun: That's right. From the fact that the King of the Blazing Sun can casually defeat an Intermediate Kingdom while being a Beginner Kingdom, his military strength should be at least ten million. There should be more than three Extraordinary-Tier heroes. We can't underestimate him.]

[Evil Dragon Lord: Can you change your group nickname? Do you want to become the Second Lord of The Blazing Sun so much that you've gone crazy?]

[Second Lord of The Blazing Sun: How can a sparrow know the ambition of a swan! I will definitely replace him!]

[Evil Dragon Lord: What swan! You're just a quail! How dare you call me a sparrow? I... ¥%...%&...%]

[Dark Martial Lord: Why should I fight if you say so! Can you stop scolding and give me ideas!]

[Black Martial Lord: Don't forget, I'm now representing the Sun Extermination Association to face the Lord of The Blazing Sun. This is a battle that will make our reputation known! As long as we succeed in this battle, our Sun Extermination Association's reputation will be established again. In the future, we will have the confidence to gather more forces to overthrow the Blazing Sun Kingdom!]

[Second Lord of The Blazing Sun: You don't have much serious ability, but you're quite capable of tyrannizing others.]

[Second Lord of The Blazing Sun: In addition, forget about the Sun Extermination Association. The former Sun Extermination Association has already been destroyed. We only inherited the spirit of this organization and were led by Boss to rebuild the Sun Extermination Association...]

[Lord of Water Chestnut Flowers: Why do I feel that we're dealing with the Great Demon King seeing the words sent by the Dark Martial Lord...]

[Evil Dragon Lord: With the King of the Blazing Sun's terrifying strength, he's no different from a Great Demon King.]

[Evil Dragon Lord: Where's Boss? @Boss.]

[Boss: I already know what you're worried about. Lord Dark Martial, do as I say next.]

[Dark Martial Lord: Good! I'm all ears, Boss. Boss is still the most reliable!!]

...

On the sofa.

The Dark Martial Lord looked at the words sent by [Boss] in the group chat. He was first stunned, then surprise suddenly appeared in his eyes.

"That's right! Why didn't I think of this!"

"I'm so stupid!"

He immediately stood up impatiently and walked out.

...

After Zhou Zhou and the others boarded the Galaxy, they immediately flew above Black Martial City.

The Mystic Heaven Lord and the others were shocked to discover that they were already above Dark Martial Arts City before they could react.

"I just got on the spaceship..."

The Mystic Heaven Lord looked at the scene below and could not help but be dumbfounded.

He boldly looked up at the spaceship he was in.

The more he looked at it, the more shocked he was.

The technological creation in front of him was like an extremely exquisite work of art, attracting his attention.

Until Zhou Zhou patted his shoulder.

"Stop looking."

"If you like it, you can come to my territory to take a look at it anytime in the future."

"No, I'll send you a normal spaceship in your territory later and let you drive it yourself for fun."

He said.

Since he had signed the Contract Book, he was considered half belonging to him even though it was not the Master-Servant Territory Contract.

What was a Normal spaceship worth?

The Mystic Heaven Lord's eyes widened.

F*ck!

Is this how rich people greeted each other?

He carefully touched the shoulder that was just patted.

This touch was worth a spaceship!

Then, he flew out of the Galaxy with Zhou Zhou.

As soon as he came out.

The Mystic Heaven Lord realized that the 20 million soldiers Zhou Zhou had brought had already surrounded the entire Black Martial City. The sky, ground, and even the ground were already surrounded by soldiers.

Not even a fly could fly out.

There were quite a lot of transformation Skills in this world after all. The soldiers had to be careful.

The Mystic Heaven Lord looked at the 20 million soldiers and clicked his tongue at Zhou Zhou's strength.

Then, he looked at Black Martial City below.

As he watched, he suddenly felt a little strange.

Why was this Black Martial City... so quiet?

What about the eight million soldiers of the Dark Martial Lord?

"This Black Martial City... is almost empty."

"Only some abandoned lonely old and young Subjects are left."

At this moment...

Zhou Zhou seemed to have heard what he was thinking and said calmly.

The Mystic Heaven Lord was stunned.

A young general emitting an Extraordinary-Tier aura flew up from below.

"Your Majesty!"

"I've already brought people to check the entire Black Martial City. Other than 40,000 to 50,000 abandoned old people, children, and women, the Black Martial Lord, his trusted aides, and soldiers have all disappeared."

"Currently, we haven't discovered any arrangements like the Spatial Teleportation Array. We haven't found out how the other party left yet."

The young general said respectfully.

Zhou Zhou frowned.

This young general in front of him came from the original Aurora Kingdom and was best at searching and detection.

With his investigation skills, he was ranked among the top in the entire Blazing Sun Kingdom, but he actually didn't discover how the other party left?

"Did you find anything strange?"

Zhou Zhou said.

"We did discover some strange places." The young general was already prepared. "I smelled a faint stench of insects in this Black Martial City."

"However, I didn't find that worm after following the stench."

"The stench of insects... Is there anything else?"

"That's it."

Zhou Zhou nodded.

"Could it be... that the Dark Martial Lord was scared away?"

The Mystic Heaven Lord muttered.

He felt that this was very likely.

Was there anyone in the entire Cerulean Planet who didn't know how terrifying the Lord of The Blazing Sun was?

Even if the Dark Martial Lord had more than eight million soldiers and the help of experts, the other party probably knew that they could not defeat the Lord of The Blazing Sun.

Since that was the case...

Why would he stay to wait for death?

"He can't escape."

Zhou Zhou said calmly.

Then, he turned around and flew back into the Galaxy.

...

Galaxy.

In the captain's room.

After Zhou Zhou returned, he calmly sat on the throne and took out the Bodhi Supreme.

"Bodhi Supreme, what's going on with the Dark Martial Lord?"

Zhou Zhou asked directly.

Trying to escape?

Did you ask my Bodhi Supreme?

[Global Lord: 100% Drop Rate](#)

Chapter 695: The Mysterious Boss

"Didn't you hear what your subordinate said?"

The Bodhi Supreme's lazy voice sounded.

"I believe he ran away, but I don't think it's that simple."

Zhou Zhou said calmly.

"You're right, but if you want to ask the specific reason... It will cost you one Normal question that I can answer."

Bodhi Supreme chuckled.

"Sure."

Zhou Zhou agreed without hesitation.

It was just one normal question.

He could easily create another one if he gave the other party more bloodline inheritances.

"Refreshing, but it's a little troublesome for me to explain this to you in words."

"Take a look for yourself."

As soon as Bodhi Supreme finished speaking.

An illusory video appeared in front of Zhou Zhou.

At this moment, the illusory video was playing the scene of the Dark Martial Lord looking at the chat group alone.

Zhou Zhou raised his eyebrows, wanting to see what the Dark Martial Lord's chat group was discussing.

In the end, this illusory video seemed to have heard his request and really enlarged the chat group panel according to his wishes.

"The Sun Extermination Association?"

Zhou Zhou was stunned.

Wasn't this Lord Organization of the Cerulean Planet that targeted him destroyed by him?

Why did it appear again?

He did not ask. Instead, he continued to read patiently.

Soon, he saw the words typed by [Second Lord of The Blazing Sun].

"So he's just using the Sun Extermination Association's name to deal with me."

Zhou Zhou's expression was calm.

He did not react much.

In the past, when he was weak, he was not too interested in the Sun Extermination Association. He only used a little strength and destroyed it.

Now, he could be said to have gained wings in front of the Lord of the Cerulean Planet.

Naturally, he was not afraid of the Sun Extermination Association.

He continued to read.

Soon, he exclaimed softly.

"Who's this boss?"

He continued reading.

He quickly knew what this boss had instructed the Dark Martial Lord.

[Boss: Since you already have more than eight million troops and have the help of experts, why do you care about the King of the Blazing Sun?]

[Boss: I can provide you with an escape method and a Territory Relocation Token to let you come to my universe. You have so many soldiers and experts. It won't be a problem for you to capture a Kingdom-level Lord faction alone.]

[Boss: Since that's the case, why don't you leave the High Continent and find another way to develop?]

Zhou Zhou raised his eyebrows slightly.

This idea was indeed not bad.

With more than eight million soldiers and some high-end experts, they could indeed take down the Lord faction of a Beginner Kingdom.

Normal Beginner Kingdoms usually only had two to three million troops after all.

Even if there were more White Platinum-Tier experts in the Lord faction of the Beginner Kingdom, they could fill this difference in strength with human lives in front of so many soldiers.

He continued to read.

The Lord of the Black Martial Tower quickly raised his concerns.

[Dark Martial Lord: But I borrowed these soldiers from other Lords... How can I explain this to them...]

[Boss: Then do you want me to tell you about stepping on your left foot or your right foot first?]

[Dark Martial Lord: I don't dare, I don't dare... I understand. Don't worry, Boss. Leave this matter to me. When we reach Boss's world, I'll follow your lead in the future. Boss, please take care of me when the time comes.]

[Boss: I won't mistreat you as long as you work hard for me. In the future, as long as you don't betray me and make more contributions, you might even have a chance to become a God. At that time, what kind of power beauties in the world can't you experience in front of you, a God Spirit?]

[Second Lord of The Blazing Sun: Envy!]

[Lord of Water Chestnut Flowers: Envy!]

[Dark Martial Lord: Boss is right. Then I'm gathering people!]

...

"Who exactly is this Boss? He actually mastered the method to transmigrate to the universe at this stage?"

Zhou Zhou muttered.

It had to be said...

He was a little surprised by the methods of this person with the code name Boss.

If the other party was really the Lord of the Cerulean Planet, Zhou Zhou had to admit that he might have underestimated the potential of the Lord of the Cerulean Planet.

"What's so strange about transmigrating into the universe?"

Just as Zhou Zhou was shocked by this person's methods,

Bodhi Supreme said lazily again.

"As long as you ride the Galaxy you have now into the dark universe and fly for a period of time, no more than a day and night, you will encounter the world membrane of another world."

"It sounds very difficult to open the world membrane, but it's nothing to the God Spirits. With the divine power of the God Spirits, even Vicky, who has just advanced to the God Spirit level in your territory, they can easily open the world membrane and enter another world."

"If this person who claims to be the boss discovers a cross-border teleportation array to the High Continent in his world, it will be even easier. As long as there's enough energy to activate the array, he can come to the High Continent in the next second."

"The High Continent is the core area of the Great Cosmos."

"There are many experts in the various small and medium-sized universes, continents, planets, cosmic mystic realms, God Spirit Worlds, and even low-dimensional worlds and demiplanes in the Supreme Universe. In order to return to the High Continent, they have set up a fast world teleportation array to the High Continent."

"It wouldn't be surprising if the other party was lucky enough to discover one."

Zhou Zhou nodded and continued to watch the virtual video in front of him.

After the Dark Martial Lord found out about [Boss's idea], he obtained the means to transmigrate into the universe and the Territory Relocation Token [Boss] mentioned.

With these two methods, the Dark Martial Lord was clearly much more confident.

He gathered the eight million soldiers and released a worm.

This worm was like a toad and was half the height of a human.

Its entire body was densely covered in special patterns that emitted silver light. Its eyes were like white crystals, and it actually had an exquisite and translucent beauty.

"This is... The Array Devouring Gu Toad?"

Zhou Zhou looked at the toad and searched through his bloodline inheritance for a long time before finding its origin.

"The Array Devouring Gu Toad is a Gu cultivator method among Qi Practitioners. It's said that this Gu worm can feed on array formations and swallow the array formations that exist in reality into its body, turning them into a part of its body. Then, it can use them as if it was using its intrinsic mystical ability."

"You can say that it's a natural Array Master."

"This method of refining arrays into the body is also a top array formation talent that many array masters in the Immortal World can only hope to obtain."

"Because of this, once the Array Devouring Gu Toad appears, it will cause a bloodbath in the Immortal World. Over the long term, the refining method of this Gu worm has long been forced to be lost after a long period of bloody competition."

"It actually appeared again?"

"Could it be that this Boss is a Lord who walks the path of Gu cultivation in the Immortal World?"

Zhou Zhou guessed in surprise.

[Global Lord: 100% Drop Rate](#)

Chapter 696: Gate Of Restart! Insect Tribe Universe!

Zhou Zhou asked Bodhi Supreme to pause the video. Then, he carefully observed the Array Devouring Gu Toad in the video.

As he watched, he suddenly felt that something was wrong with this Array Devouring Gu Toad.

"Why does this Array Devouring Gu Toad look a little deformed?"

Zhou Zhou frowned.

According to the records of his bloodline inheritance, even though the Array Devouring Gu Toad was a Gu refined from a cultivation Gu, it would also possess the unique beauty of a powerful Gu worm.

The Array Devouring Gu Toad in front of him looked a little unnatural.

It was as if...

"Could this be a Gu worm pieced together?"

Zhou Zhou had a strange guess.

At this moment, the video was still continuing. The Array Devouring Gu Toad immediately opened its mouth after hearing the order from the Black Martial Lord to activate the cross-border Teleportation passageway. Then, a silver-white super large-scale array appeared.

Then, this array formation quickly spread out with it as the center. In the blink of an eye, it covered the Dark Martial Lord and more than eight million soldiers.

They disappeared within a heartbeat and the video ended.

Zhou Zhou pondered for a moment and asked Bodhi Supreme about the origins of this Array Devouring Gu Toad.

"If you want to answer this question, you need to use up an official answer."

Bodhi Supreme said leisurely.

"Why is it so expensive?"

Zhou Zhou was shocked.

He had asked Bodhi Supreme about the path of his Laws and had also obtained the Supreme Eye, a top-notch secret technique specially used to comprehend the Lord's Laws. He had only used this once to officially resolve his doubts.

Even though he had already officially answered Bodhi Supreme's doubts five times because of his Diamond-Tier Lord Talent, Zhou Zhou did not want to use it so casually.

"Because this matter concerns you. Moreover, the matter you want to investigate involves some Lords with more potential."

"They might shine in the Lord of All Races Competition in the future. If you obtain information about them from me and take action against them, it will be equivalent to affecting the competition for the Lord of All Races in the future."

At this point, Bodhi Supreme's expression was solemn.

"I'm the dog of the Supreme Will. I don't dare to ruin 'His' mood."

Zhou Zhou: "..."

He took a deep breath and began to weigh whether he should use this opportunity.

After thinking for a few seconds, he suddenly thought of something and a faint smile appeared on his face.

"I'm really... getting more and more timid."

"No matter how strong the other party is, can he be stronger than the top Lords of all races like the True Lord, the Great One Lord, and the God Shepherd Lord?"

"Since I can tolerate these abnormal Lords as my opponents..."

"Is there no room for a Lord weaker than them to be my opponent?"

"Moreover, this time, I wasted Bodhi Supreme's rare opportunity to resolve its doubts to kill an enemy with great potential."

"Even if we succeed in killing it, does it mean that such enemies won't appear again?"

"In this competition that concerns the Lord of All Races."

"What I am not lacking of is countless Lords with potential!"

"If I kill one, can I kill all of them?"

"Rather than thinking of killing an opponent who has yet to mature, why don't I think about how to improve myself? I want to 'establish my roots in the broken rock' and constantly grow! Only then can I be at ease and not be afraid of any dangerous enemies!"

Zhou Zhou's eyes lit up.

In his heart, at the very least, he had to encounter something as important as the Lord's Law before it was worth using his precious answers.

At the thought of this, Zhou Zhou immediately knew what he wanted.

"I want to know how to find the Dark Martial Lord safely." He asked.

The Dark Martial Lord's method of moving freely at night was too important to him.

If he had that Lord Talent, it would be immeasurably useful to his future development.

The most obvious and simple benefit.

Even he could lead troops out at night.

"This is very simple. You only need one normal question.: The Bodhi Supreme chuckled.

"Put it on the account first and I'll pay it back slowly in the future." Zhou Zhou said without thinking.

Bodhi's laughter immediately disappeared.

I wouldn't have let you go on credit if it wasn't because I know that you have so many inheritances in your mind.

It criticized in its heart.

However, it still told Zhou Zhou how to find him.

"I'll teach you a skill that can rely on the remaining power of Spatial Teleportation to temporarily open the spatial passageway again."

"After you master it, go to the place where the Array Devouring Gu Toad left with its people. Then, use this method to open the cross-border Teleportation passageway they left again. You can go to the place where the Dark Martial Lord arrived."

"But I have to remind you that the duration of the temporary Fast World Teleportation channel activated using this method is very short."

"Take heed, otherwise, you might be trapped there forever. Even though you have the Galaxy, it's not omnipotent. There are places it can't reach." Bodhi Supreme warned seriously.

"I'll keep that in mind." Zhou Zhou nodded seriously.

When Bodhi Supreme heard this, he taught Zhou Zhou a skill called the Gate of Restart.

After he obtained this skill, he immediately asked Wu Tu to bring all the soldiers into the Galaxy. Then, he put the Galaxy into his internal world.

Then, he came to the place where the Array Devouring Gu Toad had disappeared.

Zhou Zhou took a deep breath and activated the Gate of Restart.

The next second, wisps of silver spatial power gradually appeared around Zhou Zhou before gradually forming a slightly transparent cross-border teleportation array.

At this moment, Zhou Zhou could clearly feel that the incomplete spatial power in front of him could maintain this cross-border Teleportation passageway for about half an hour through the Gate of Restart.

"Half an hour... is enough."

Zhou Zhou took a deep breath.

Then, without any hesitation, he teleported to another world through this illusory cross-border teleportation array.

...

In the Insect Tribe Universe of the Zerg Race.

When Zhou Zhou arrived, he realized that he was on a Desolate planet.

He looked around and found only dead yellow sand.

There was not even a breeze and it looked terrifyingly quiet.

"This is... The universe where that boss is?"

Zhou Zhou looked at this new world curiously.

At this moment...

A line of text suddenly appeared in front of him.

[Prompt: Welcome to the Zerg Lord Universe!]

f[Prompt: Detected that you are a Lord of all races from the High Continent. Do you want to temporarily enter the Cerulean Planet's Human Race—Insect Race Lord World Channel?]

[Prompt: After you enter the Cerulean Planet's Human Race—Insect Race Lord World Channel, you can communicate and communicate with your Lord!]

[Prompt Two: You will automatically leave the Cerulean Planet Human Race—Zerg Lord World Channel after you leave the Lord Universe, but you will retain the friends you have already added to in this Lord Universe.]

Zhou Zhou frowned.

Chapter 697: The Insect Lord And The Dark Martial Lord

"The Insect Race Lord Universe... And the Insect Race Lord World Channel of the Cerulean Planet..."

Zhou Zhou was deep in thought.

Could this be a Lord Universe that only Zerg Lords fought for supremacy?

He thought for a moment and chose to settle in.

Soon, a whole new World Channel appeared in front of him.

Zhou Zhou looked at it curiously.

[Bell Insect Lord: I just invaded a Cloud Race town today. Pfft, pfft, this group of Cloud Race people taste soft and not delicious at all. Moreover, the energy obtained from their bodies can't create many subordinate Zergs. Instead, more than 2,000 of my Bell Insect subordinates died in battle when I invaded. I've really suffered a f*cking loss!]

[Giant Beetle Lord: We're still invading an ordinary town. Our Insect God has already begun to attack the third life planet. I, the Giant Beetle, am envious!]

[Black Insect Lord: As a member of the Insect God Alliance, I have already accepted the genetic modification of the Insect God. I have already broken through the limit of the Epic-Tier and have the potential to grow into a Legendary-Tier Zerg. Hahaha!]

[Min Insect Lord: Hold on tight to the previous poster's thigh!]

...

"These Lords of the Insect Tribe Universe... seems to be very different from our normal Lords of all races."

Zhou Zhou pondered.

Moreover, Zhou Zhou realized from these short sentences that this "Insect God" they were talking about seemed to have an extremely high status among them.

It was even comparable to him in the Cerulean Planet's Human Race World Channel in the High Continent.

"Could it be the strongest Lord here?"

Zhou Zhou did not think too much about it.

He had more important things to do now.

He took out the Bodhi Supreme and asked.

"Tell me the location of the Dark Martial Lord."

The question he had just asked was to find the Dark Martial Lord safely.

Therefore, this question was not considered a second question.

"He was brought to another planet, about 150 million kilometers away."

After Bodhi Supreme finished speaking.

It transformed into an interstellar map for him to see.

After reading it, Zhou Zhou immediately took out the Galaxy and boarded it. He flew towards the planet where the Black Martial Lord was according to the map given by the Bodhi Supreme.

...

Planet Cologne.

This was originally a modern technology planet.

However, after the Insect Lord invaded, this place became a resource planet ruled by the Insects.

The people of Cologne here were controlled by the Zergs with a kind of Zerg called the 'Cerebrate Worm'. They worked in the factory every day to produce some low-level resources for the Zergs.

At this moment, the Dark Martial Lord and his eight million soldiers were here.

"Boss, is this... the planet you are asking me to manage?"

The Dark Martial Lord looked at the technological city scene that was like the Cerulean Planet in front of him with an extremely excited expression.

Putting aside the benefits of being a Lord, who was willing to live on the edge of a knife every day in a place like the High Continent?

The technological planet in front of him gave Lord Dark Martial the illusion that he had returned to the Cerulean Planet, making him feel intimate and relaxed.

"Mhm."

A Firefly Insect that emitted a faint light flew in the sky and emitted a faint female voice.

Even though there were many life planets like this in the Insect Tribe Universe, there was actually nothing worth cherishing.

For example, this inhabited planet in front of him.

There were originally more than 100 million Cologne clansmen living here.

However, there were only three to four Black Iron-Tier Extraordinary individuals, and once they appeared, they would be captured for research by the government.

It could be seen how rare extraordinary power was here.

No.

Or rather, rather than being rare, it was better to say that there was too little promotion energy on this planet and it was very difficult to give birth to Extraordinary-Tier life forms!

This was also why Boss did not care about the resources on this planet.

"No matter how many life planets I have, they're not even a hair of the High Continent."

"It's very difficult for even a Black Iron-Tier Extraordinary-Tier individual to be born on Planet Cologne."

"But in the High Continent, Black Iron-Tier life forms are cannon fodder in war."

"Even a True God-Tier can be born. Master God-Tier is willing to set their sights on the High Continent."

"The difference is too great."

She sighed in her heart.

The first time she went to the High Continent, she was immediately shocked by the rich promotional energy there.

At that time, the shock in her heart was like a country bumpkin coming to a first-tier city. It was simply indescribable.

If not for the fact that her foundation was in the Insect Tribe Universe and that the reputation of the Zerg Race was really not good in the myriad worlds, she would have wanted to stay in the High Continent and not leave if there was a chance she would personally be killed by the God Spirits of the High Continent.

"Thank you, Boss Insect Lord!"

"I'll definitely do my best for you!"

At this moment, the Black Martial Lord also came back to his senses and immediately expressed his loyalty to the Insect Lord.

The Insect Lord, which was emitting a faint white light, suddenly chuckled.

"Just talking about it won't do."

"Then what will it take for Boss to believe me?"

The Black Martial Lord asked carefully.

"Easy."

"Just accept a little trick of mine."

As soon as she finished speaking,

an extremely ugly worm that looked like a face-hugging worm suddenly jumped out of the soil under his feet. Then, under the terrified cries of the Dark Martial Lord, it hugged his face and slowly bit him...

"Ahhh!!!"

"Save me! Kill this crazy woman!"

The Dark Martial Lord fell to the ground and scratched his face crazily as he screamed.

However, in the eyes of the soldiers behind him,

At this moment, the Dark Martial Lord did not let out any screams. Instead, he stood there like a normal person and chatted calmly with the Insect Lord.

Even though the soldiers were curious about the content of the conversation and the origin of this insect that emitted light, no one dared to approach them.

"No need to scream."

"I've long placed the Phantom Insects near you. They can't see your appearance or hear your cries."

The Insect Lord smiled faintly.

"You're so ruthless..."

The Dark Martial Lord was on the verge of death, his voice revealing despair.

"Don't worry, I won't kill you."

"I will only control you through this method and let you retain most of your intelligence. However, you will definitely be loyal to me in the future."

"A subordinate with a brain is more valuable than a brainless puppet after all."

"Moreover, I need you to control your eight million... Extraordinary-Tier people!"

The Insect Lord was a little excited.

More than eight million Extraordinary-Tier military forces!

There were even three Epic-Tier experts among them.

Even she, who was called the Insect God by her Lords, only barely had so many subordinates.

This silly Dark Martial Lord could be said to have directly doubled her strength!

"These eight million low-level Extraordinary-Tier soldiers are nothing."

"On the other hand, the three Epic-Tier experts need to use some methods to control them."

"With this enhancement in strength, I wonder how far my faction is from the King of the Blazing Sun?"

The Insect Lord thought to herself.

At this moment...

There was a bang.

The Cerebrate Worm on the Black Martial Lord's face suddenly exploded into countless minced meat and fell to the ground.

"Who!"

The Insect Lord suddenly shouted.

"Weren't you thinking about me just now?"

A faint smile sounded.

The Insect Lord was stunned for a moment before her body trembled.

Chapter 698: The Escaped Insect Lord! Return!

The Insect Lord looked up.

A peerless and handsome man in the Emperor Dragon Robe was flying in the air and looking down at her.

Behind him was a huge spaceship that could cover the sky.

His Galaxy spaceship and him were only hovering in mid-air, but it already gave the Insect Lord a lot of psychological pressure.

"King of The Blazing Sun..."

The Insect Lord gritted her teeth.

"Insect Lord..."

Zhou Zhou looked at her. "When I found out that this was the Insect Tribe Universe, I guessed that the boss behind the Dark Martial Lord was you."

The Insect Lord remained silent.

She did not even ask if it was the Dark Martial Lord who leaked the secret. Otherwise, how would he know about her hidden identity as the boss?

Because the Insect Lord knew that at King of the Blazing Sun's level, he could contend for hegemony with the top Lords of all races.

Being able to use some amazing intelligence-gathering methods would be too normal for him.

"King of the Blazing Sun!"

The Insect Lord suddenly whispered.

"Hmm?"

"You're too powerful."

"However, it's precisely because you're very powerful that you seem to have become arrogant. You actually dare to come to my home ground alone!!"

"Come out, my children!"

The Insect Lord suddenly roared at the sky. Her voice was as sharp and ear-piercing as a poisonous bug.

The next second, more than eight million Zergs appeared from the void and surrounded Zhou Zhou from all directions, leaving not a single gap.

Facing this scene, Zhou Zhou remained calm.

He even glanced at the insectoids calmly.

"These strange things are all your subordinates?"

Zhou Zhou clicked his tongue in wonder.

He was used to seeing those handsome men and beautiful women in his territory.

Occasionally looking at these strange-looking insects actually gave him a rare sense of comfort.

Could this be the relaxation after aesthetic fatigue?

Zhou Zhou could not help but think.

"Attack!"

"Kill him at all costs!"

The Insect Lord roared.

As soon as she finished speaking...

"Sizzle! Sizzle!"

"Caw caw!"

"Wuqiu~"

"Crack! Crack!"

All kinds of insect cries came from these nine million insectoids.

It was extremely noisy.

"You're mistaken. I didn't come alone."

Zhou Zhou said calmly.

The next second, the Galaxy above his head shone brightly.

Right on the heels of that, ripples appeared in the void below the spaceship. Then, more than 20 million Blazing Sun City soldiers appeared out of thin air. Under the lead of the generals, they roared and flew towards the Zergs.

At this moment, the battle suddenly descended!

Zhou Zhou and the Insect Lord watched as the soldiers from both sides fought. Then, they saw the scales of victory on the battlefield tilt towards Zhou Zhou at a visible rate.

Not only were Zhou Zhou's soldiers three times more than the Insect Lord's, but their average strength was also stronger.

The strongest insect soldiers under the Insect Lord were only Extraordinary-Tier.

As for Zhou Zhou, he had Legendary-Tier soldiers.

Coupled with the difference in numbers, equipment, Potions, single-use weapons, and combat experience,

it would be strange if Zhou Zhou's side did not have the advantage.

"These Zergs are quite interesting... They seem to have been modified."

Zhou Zhou realized this after carefully observing these Zerg soldiers.

Then, without hesitation, he stretched out his right hand and activated Incite Defection.

The next second, an invisible fluctuation covered these insect soldiers with his right palm as the center and quickly enveloped them and a text notification appeared.

[Prompt: You have activated your Lord exclusive talent, Incite Defection!]

[Incite Defection has taken effect!]

[Lord Talent Notification: There are a total of 841,525 Black Iron-Tier Iron-Tailed Worms, 691,251 Green Bronze-Tier Scythe Mantises, 348,411 White Silver-Tier Ladybugs, 149,660 Yellow Gold-Tier Meteorite Golden Turtle Ants, 19,960 White Platinum-Tier Blood Dragons, 1,001 Diamond-Tier Gold-Swallowing Gu, and 50 Extraordinary-Tier Dark Demonic Butterflies have betrayed their lord's faction and become your loyal subordinates!]

"Two million Zergs... Not bad."

Zhou Zhou nodded.

While this number was far inferior to the results of the Refine Flame Scarlet Legion, he could use these two million Zerg to probe the background of this Zerg Lord.

In this way...

He could know what he wanted even without the help of the Bodhi Supreme or even know more.

On the other side...

Just now, after Zhou Zhou activated Incite Defection, the Insect Lord suddenly felt that her life connection with the eight million plus Insects was reduced by a quarter!

This made her heart sink.

Why did this King of the Blazing Sun... have so many means that caught people off guard?

At this moment...

A blood-colored sword light suddenly appeared from the Void behind the light spot. Before the Insect Lord could react, it pierced through the Firefly Worm that represented her existence.

"King of the Blazing Sun... We will meet again in the future."

An angry voice came from where the Firefly Worms were. Then, the Firefly Worms that had been pierced by the blood sword turned into countless specks of light and dissipated into the air.

Xu An, who was still in the posture of drawing his sword, frowned slightly.

After confirming that the other party had really escaped, he pulled up the unconscious Dark Martial Lord and turned into a bloody light that soared into the sky, flying in the direction of Zhou Zhou.

At the same time, after the Insect Lord escaped, the 800 Zergs around Zhou Zhou seemed to have received an order. They suddenly roared crazily and launched a suicidal attack on Zhou Zhou's soldiers fearlessly.

Caught off guard, even though Zhou Zhou's soldiers' strength, equipment level, and combat experience far exceeded the other party, some of them were still injured.

However, they were veterans after all.

He quickly adjusted himself and calmly welcomed the final counterattack of these insectoid soldiers.

A moment later...

The battlefield returned to calm.

Zhou Zhou's side won.

Then, he asked Wen Ya to control the Galaxy and put away all the Zerg corpses. Then, he returned to the Back Galaxy and flew straight back to the temporary cross-border Teleportation channel.

In front of the temporary cross-border Teleportation channel.

He took one last look at the Insect Tribe Universe before opening the Insect Race Lord World Channel on Cerulean Planet. With his [Lord of The Blazing Sun] ID, he sent a message on the World Channel. [Lord of The Blazing Sun is here.] After that, he didn't care how much of a commotion his words had caused among these Insect Race Lords. Without any hesitation, he stepped into the temporary cross-border Teleportation channel and disappeared.

...

Black Martial City.

Where the temporary cross-border Teleportation Space Tunnel was.

The Mystic Heaven Lord was stationed here.

At this moment, the Mystic Heaven Lord was observing his surroundings to prevent any enemies from approaching. He looked worriedly at the temporary cross-border Teleportation channel and frowned from time to time.

At this moment...

A silver stream of light flashed through the temporary cross-border Teleportation channel. Then, the Galaxy's huge spacecraft appeared in the sky again.

Mystic Heaven Lord looked at the Galaxy and heaved a sigh of relief.

He looked at the temporary cross-border teleportation channel again and realized that it was dissipating bit by bit until it completely disappeared.

Chapter 699: Interrogation

In the Galaxy.

In a small conference room.

Zhou Zhou and Mystic Heaven Lord were sitting there.

At this moment, they were looking at a man kneeling on the ground with drool dripping from the corner of his mouth. He was smiling foolishly.

This man was none other than the Dark Martial Lord.

"How did Lord Dark Martial become like this?"

Mystic Heaven Lord could not help but feel a chill in his heart when he saw the Dark Martial Lord's expression.

He looked at Zhou Zhou carefully.

Could this be done by Zhou Zhou? Wasn't this too ruthless...

"Don't look at me."

"I'm not interested in this kind of thing."

"The person behind Lord Dark Martial made him like this."

Zhou Zhou said calmly.

He had arrived at the scene a long time ago with the Galaxy.

However, because he wanted to know more information, he had been hiding in the dark and did not appear.

It was not until the Insect Lord wanted to turn the Dark Martial Lord into one of her own that he decisively attacked and appeared in front of the Insect Lord.

"There's someone behind him?"

The Mystic Heaven Lord was stunned.

"It's the Insect Lord."

"That woman even established a Sun Extermination Association and recruited a group of Lords who are hostile to me."

Zhou Zhou smiled and told him about it.

"The Sun Extermination Association has appeared again?"

The Mystic Heaven Lord said in surprise.

He knew that his new backer usually did not like to take the initiative to show off on the world channel.

Therefore, there was not much news about him on the World Channel.

And the Sun Extermination Association incident was one of the few incidents where the Lord of The Blazing Sun was involved.

Back then, he had even watched the commotion for fun.

Zhou Zhou nodded casually.

"Then how does Your Majesty plan to deal with this organization? Is there anything I can do?"

The Mystic Heaven Lord immediately said.

Now that he was Zhou Zhou's subordinate, he naturally knew how to protect the interests of his faction and attack the enemies of his faction.

"There's no need to do anything about it."

"Just issue a warrant and see if they have the guts to show up."

Zhou Zhou shook his head.

"Won't it be a disaster to raise a tiger?"

The Mystic Heaven Lord said worriedly.

"Let's wait until they grow to the level of the top Lords of the myriad races before talking about raising a tiger."

"In my opinion, the value of me focusing on my own development is much higher than the value of spending effort to destroy them." Zhou Zhou said.

And there was another very important reason.

He had already checked the temporary cross-border Teleportation channel.

The remaining power of Space Teleportation on it was no longer enough for him to use the Gate of Restart again.

And he currently did not have the preparations and means to fight across the universe.

Therefore, to him, at this stage, it was very inconvenient to conquer a Lord from another universe.

Since that was the case...

There was no need to spend so much effort.

Seeing how determined Zhou Zhou was, the Mystic Heaven Lord did not say anything else.

He believed that His Majesty had his own judgment.

"I will talk to the Military Industry Lord, the Dragon Lady Lord, and the Undead Lord later and get them to issue the arrest warrant together." He said.

Zhou Zhou acknowledged.

Then, Zhou Zhou and the Mystic Heaven Lord chatted for a while. The Mystic Heaven Lord could not help but say, "I feel that His Majesty seems to have the Dharmic powers of us Qi Practitioners..."

"That's right, I'm also a Qi Practitioner. The immortal who gave me the Qi Practitioner Class Change Certificate is from the Myriad Sword Immortal Sect. Ask the elders of the Profound Heaven Immortal Sect later. They should know." Zhou Zhou chuckled.

There was nothing to hide.

The Mystic Heaven Lord's eyes lit up.

It turned out that both His Majesty and him were Qi Practitioners. Moreover, from His Majesty's words, their sects seemed to have a certain relationship.

He immediately felt that his relationship with His Majesty had become even closer.

Then, the two of them chatted for a while before Mystic Heaven Lord stood up and left.

Before walking out of the room, the Mystic Heaven Lord took one last look at the silly Dark Martial Lord.

The formidable enemy he had been vexed about all this time couldn't last more than half a day in the hands of this King of the Blazing Sun. He even fled to another universe, but he couldn't escape from His Majesty's grasp.

The Mystic Heaven Lord thought silently.

No wonder so many people liked to cozy up to someone powerful.

His life problem could be resolved with a causal order in front of a big shot after all.

With this comparison, who wouldn't want to find a backer to cozy up to someone powerful?

At this moment, he was no longer resistant to becoming Zhou Zhou's subordinate. He even planned to work hard for Zhou Zhou in the future. Only then would he have a higher status among Zhou Zhou's many capable subordinates.

"Let's first do a good job of establishing the Black Heaven Sect branch in the Blazing Sun Kingdom!"

He thought firmly.

Then, he left the spaceship.

On the other side,

Zhou Zhou looked at the foolishly smiling Dark Martial Lord in front of him.

"You deserve to end up like this. But you can't continue to be so stupid now. I still have to ask you something."

Zhou Zhou muttered to himself and healed him with the Chaos Healing Technique.

Right on the heels of that, under the treatment of the Chaos Healing Technique, the originally silly Dark Martial Lord's eyes gradually became clear and his consciousness gradually became clear.

"Ah!!"

He screamed in horror and frantically touched his face.

What made him gradually heave a sigh of relief was that the Insect Lord's Cerebrate Worm seemed to have disappeared from his face.

Then, he saw Zhou Zhou looking at him calmly.

That extremely handsome, god-like face immediately let him know that the other party was the King of the Blazing Sun that he was extremely afraid of.

"King... King of the Blazing Sun..."

His face was extremely pale.

He had just left the Wolf's Den and was now in the tiger's den!

"Why are you so afraid of me? just saved you from the Insect Lord and healed the injuries caused by the Cerebrate Worm, otherwise, you'd still be a fool."

Zhou Zhou looked at him and said calmly.

Cold sweat broke out on the Dark Martial Lord's head. Then, he suddenly knelt on the ground and kowtowed to Zhou Zhou while begging for mercy.

"Your Majesty! Your Majesty!"

"You're a magnanimous person! Spare me, a sinner!"

"In the past, I was to entertain angels unaware, which was why I foolishly offended you. If I were given another chance, even if I had 180 more guts, I wouldn't dare to offend you!"

"Please spare me! I'm willing to lead all the Lord members of the Dark Martial Alliance to offer our loyalty to you!"

"From now on, if you want us to go east, we won't go west. If you want us to fight, we won't run!"

...

The Dark Martial Lord spoke for more than 10 minutes, but he did not stop. Moreover, all kinds of begging words came out of his mouth. This was the first time Zhou Zhou knew that there were so many ways of begging.

"Shut up."

Zhou Zhou said.

The Dark Martial Lord was about to say something when he suddenly stopped.

"I ask and you answer."

"If your answers satisfy me, I can spare your life."

"If you dare to hide or lie, then bear the consequences. There are a lot of extraordinary methods to detect lies on this High Continent. Don't think you can hide it from me."

Zhou Zhou stared into his eyes and said coldly.

Such a weak-minded person. He could hear what he was thinking effortlessly.

"Yes!" Yes, "Your Majesty!"

"I promise to tell you everything I know!"

The Dark Martial Lord hurriedly said.

"Tell me about you, the Sun Extermination Association, and the Insect Lord." Zhou Zhou said.

Chapter 700: Insect Lord's Lord Talent—Genetic Map!

The Dark Martial Lord took a deep breath and began to organize his thoughts. Then, he said with a trembling voice,

"In the beginning, I didn't have much to do with the Insect Lord. However, one morning, a strange black insect suddenly found me. It didn't say anything else and only asked me to add the Insect Lord as a friend."

"I naturally know the name of the Insect Lord. There are only a few Legendary-Tier Lord Talents among the human lords on Cerulean Planet after all. Therefore, I agreed without thinking."

"Later on, she asked me to join her Insect God Alliance on the condition that she would help me develop my territory and give me resources for development in the future. After a while, she saw that there were no problems with me and asked me to join the Sun Extermination Association... I didn't dare to refuse, so I joined the Sun Extermination Association."

"Then, the Kingdom Token incident happened."

Zhou Zhou knew everything that happened after that.

After listening, he was sure that this guy was not lying.

"How many Lords does the Sun Extermination Association have?"

Zhou Zhou asked.

"About a dozen."

"This organization has just been rebuilt by the Insect Lord, so it hasn't recruited many people yet."

The Dark Martial Lord said in a low voice.

"Tell me what you know about the Insect Lord."

Zhou Zhou nodded and asked.

The Dark Martial Lord thought about it and his eyes lit up.

"I know an important piece of information about the Insect Lord!"

"Cut the crap. Just say it!"

"Yes! Yes! The Insect Lord is actually working with the Dragon God Lord now."

The Dark Martial Lord said quickly.

"Working together? How are they working together?"

Zhou Zhou was a little surprised. Then, he reacted. "A Space Teleportation Channel?"

"Your Majesty is right!"

"The Insect Lord had mastered a method to open the passageways to other universes, and then found the Dragon God Lord in the Elemental Realm."

"They then worked together."

"I'm not too sure about the entire contents of their collaboration, but it seems to be related to the fusion of insect genes and dragon genes."

The Dark Martial Lord hurriedly said.

Zhou Zhou was stunned.

Then, a White Platinum-Tier insect called Blood Dragon flashed across his mind.

At that time, he was only a little surprised. He did not expect the Insect Tribe Universe to have a high-level bloodline creature like the Dragon Tribe.

Now he realized that the blood dragon was very likely a product of genetic fusion developed by the Insect Lord!

"I'll check it out later."

Zhou Zhou thought.

Then, he thought of the chat content of the Lords of Cerulean Planet on the Insect Race Lord World Channel.

"The Insect Lord seems to have a way to improve his genes and potential."

Zhou Zhou looked at Lord Dark Martial.

"Yes, Your Majesty."

The Dark Martial Lord hurriedly nodded. "The Insect Lord told me that her Legendary-Tier Lord Talent is called the Genetic Map. It can contain the genes of all creatures in the world and make use of them at will."

"It's said that many of the insects with unique abilities under her command are genetically modified insects that she personally created through the Genetic Map."

"However, according to her, it depends on luck to create this kind of genetic modification. It requires a large number of genetic modification experiments to successfully create a new example of excellent genetic modification."

"This process consumes a lot of resources, so even she rarely uses this Lord Talent."

Zhou Zhou acknowledged.

However, that was what he said.

However, judging from the reactions of the Insect Lords on the World Channel, that Insect Lord had probably succeeded many times and had already started to use it to seek benefits for himself.

At the thought of this, Zhou Zhou could not help but feel that it was a pity.

This Legendary-Tier Lord Talent—Genetic Map was also a Lord Talent that was comparable to a cheat.

Unfortunately, he could only stay in the Insect Tribe Universe for a short period of time. Otherwise, she would definitely think of a way to find him and take his Lord Talent.

In any case, the other party had even established the Sun Extermination Association.

Zhou Zhou did not feel burdened at all.

"The other party has grasped the method to come to the High Continent and established the Sun Extermination Association. He's not giving up on destroying me."

"If that's the case. I'll wait for you to come and kill me before taking your Lord Talent." He thought.

His ability!

It was his greatest confidence to be so calm and even indulge the other party!

He believed that as long as he did not stop and continued to improve.

Since the other party had not surpassed him previously,

Then, it would be even more impossible for her to surpass him in the future!

If he became lazy in the future, he would stop advancing and let the other party surpass him.

Then he would deserve whatever was coming his way!

"Perhaps I can deliberately create the illusion that I'm weak. At that time, I might lure out the Insect Lord and other enemies who have designs on me."

This thought suddenly appeared in Zhou Zhou's mind.

He shook his head.

It all depended on the timing.

The current situation was definitely not good.

Perhaps in the future...

"That Array Devouring Gu Toad was also modified by the Insect Lord?"

Zhou Zhou recalled this matter and asked.

Now that the Array Devouring Gu Toad had been locked into Zhou Zhou's small world, it was trembling in fear from the lightning in his small world.

"It's not just the modification of the Genetic Map."

"I heard that the Insect Lord even used some Gu cultivation methods to refine that Array Devouring Gu Toad."

"That Array Devouring Gu Toad is really precious to her."

"If I hadn't brought more than eight million soldiers to that universe I'm afraid the Insect Lord wouldn't have let me come into contact with the Array Devouring Gu Toad."

The Dark Martial Lord muttered.

Then, he suddenly realized something.

"Your Majesty, my eight million soldiers..."

Before he could finish speaking, he saw Zhou Zhou's calm gaze on him and he was so frightened that he hurriedly changed his words.

"What about Your Majesty's eight million soldiers?"

"I brought them all back. In the future, they will live well in my Blazing Sun Kingdom. Their families will also be brought over." Zhou Zhou said calmly.

The Dark Martial Lord nodded and bowed.

Zhou Zhou said nothing.

He recalled what the other party had said just now.

Insect race and a Gu cultivator!

She will definitely be the protagonist if this was in an online novel!

But if...

If I take out 28 Lord Talents, including three Mythical-Tier Unique Lord Talents, how will you deal with them?

Then, Zhou Zhou asked Lord Dark Martial some more questions. Lord Dark Martial was very afraid of death. He had done everything he could to answer. If he could not answer, he simply did not know.

"You can go now."

Zhou Zhou said.

The Dark Martial Lord was delighted.

"Thank you, Your Majesty! Thank you, Your Majesty!"

"I will definitely repay Your Majesty for sparing my life in the future!"

With that, he immediately turned around respectfully and left the room.

Zhou Zhou looked at his departing figure and sneered.

This guy...

The moment he left, he finally revealed his malicious intent!

...

"I'll definitely repay you in the future!"

After the Dark Martial Lord left the small conference room, although his expression did not change, he immediately thought viciously in his heart.

He had already figured it out.

The Dark Martial Alliance was finished.

There should be no place for him among the humans on the Cerulean Planet.

Since that was the case...

He might as well join the people of foreign races.

When he was the Alliance Master of the Dark Martial Alliance, he had obtained a lot of information about the human Lord of Cerulean Planet and the King of the Blazing Sun. He could exchange this information for a large sum of money no matter which people of foreign race he went to.

Especially the information about King of the Blazing Sun.

Those people of foreign races would definitely be very interested in the information about the Strongest Lord of All Races.

As for the consequences?

Who cares!

It was fine as long as he lived well.

If that didn't work, he would change his race!

He had long been fed up with the low potential of the human race!

Soon, he got off the spaceship.

Just as he was fantasizing about joining the people of foreign races in the future and living a glorious life...

He suddenly saw that a large group of Dark Martial City's Subjects had gathered in front of him.

At this moment, they were all looking at him as if they wanted to eat him alive.

"Who... are you?!"

The Dark Martial Lord was shocked.

As soon as these words were spoken, everyone was even angrier.

Many people looked at him with bloodshot eyes.

"Lord Dark Martial! Do you still remember that girl called Sun Ling? She's my sister. However, because you occasionally went out on the streets and took a fancy to her beautiful appearance, you ordered the soldiers to snatch my sister in the middle of the night. In less than two days, when my sister returned, she had already become a ravaged corpse! I'm here to avenge my sister!"

"Xu Chewu! You bastard! Some time ago, you rode your dogsh*t Cloud Wolf Mount on the street and barged along the way, killing my old father, who was resting at a roadside stall. Have you forgotten!!"

"Lord Dark Martial! Just because my second brother said a few words about your usual atrocities in the teahouse, you ordered your soldiers to capture him and kill him. How cruel and heartless are you!"

"Lord Dark Martial, you deserve to die!"

...

More and more angry roars sounded.

Soon, the Dark Martial Lord was injured and this was like a fuse.

More and more people gathered around. One punch, one kick, one saber, one sword...

At first, the Dark Martial Lord was screaming very loudly.

Until his voice stopped abruptly.

A moment later...

The crowd dispersed.

Only a minced meat that didn't look human was left at the scene.

A soldier walked over and stowed it in a sack expressionlessly before returning to the spaceship.
