#### Chapter 741: The Threshold Of A Divine Artifact Forger!

Ruoji brought Zhou Zhou to a Spatial Teleportation Array and was about to leave when he saw a figure rushing over from behind.

It was Yu Ling.

"Don't you want to talk to His Majesty for a while?"

Zhou Zhou was stunned.

"I... I wanted to come over and help."

Yu Ling blushed slightly and said naturally.

Zhou Zhou nodded.

He did not activate high-level telepathy at all times to sense the thoughts of others.

It was a little disrespectful after all. Furthermore, if he was discovered by an expert, it was very easy to offend him. Therefore, Zhou Zhou did not know what Yu Ling was thinking.

He did not think too much about it and entered the Spatial Teleportation Array with Yu Ling.

The Spatial Teleportation Array flashed.

Zhou Zhou and the others disappeared.

...

Divine Craftsman City.

The Divine Craftsman City was an Epic-Tier territory. It was extremely vast.

When Zhou Zhou and the others appeared, the first thing they saw was a huge Yellow Gold-Tier hammer that was more than 3,000 meters tall. It stood in the middle of the city.

Then, they heard the clamor of war that seemed to reverberate in their ears, as well as... the sound of iron striking.

They looked over.

The shops on both sides of the street were either blacksmith shops, Carpenter shops, tailor shops, war machinery shops, flying swords shops, and so on.

In the distance, he could see mines, metallurgical factories, and other medium-sized factories.

Apart from the fact that the architectural style was a little immortal-like,

Zhou Zhou even felt as if he had arrived at an industrial city.

The three of them simply registered with the soldiers beside the Spatial Teleportation Array. After confirming that they were not spies, the three of them were invited to the city wall by a deputy general who had rushed over.

...

On the city wall.

Zhou Zhou and the others looked at the battlefield.

Then, Ruoji's expression turned serious, and Yu Ling was even more shocked.

On the battlefield outside the city wall.

The army of fog monsters that covered the sky and the earth was continuously attacking the city wall and the array barrier in the sky.

The battle between the human soldiers and the fog monster army continued. A large number of soldiers were dying or injured every moment.

The air was filled with the strong smell of blood that was like rust.

All he could see was blood.

From a third-person perspective, at this moment, the Divine Craftsman City was like a victim surrounded by thousands of killer bees. It even looked a little terrifying.

"The Divine Craftsman City is currently besieged by the Jidu Scarlet Legion of the Jidu Scarlet Empire."

"The Divine Craftsman City is currently besieged by the Jidu Scarlet Legion of the Jidu Scarlet Empire."

"With such a large number of Scarlet Army soldiers, if it weren't for the fact that our Divine Craftsman City usually accumulates a lot of war weapons, I'm afraid we would have been occupied and slaughtered by these bastards."

The deputy general's expression was somewhat bitter.

Ruoji knew that the other party was asking the Empire for reinforcements, but how could the Empire have extra troops to support them now?

Therefore, he could only pretend not to understand and introduce Zhou Zhou to her with a smile.

"I see."

"But we're not just here to inspect the war."

"Do you see this young hero beside me?"

"He's the King of the Blazing Sun Kingdom!"

"You should have heard of his name long ago, right?"

"We came here this time because this King of the Blazing Sun took the initiative to suggest that we come over to help!"

The general was stunned.

Then, she looked at Zhou Zhou in a daze.

"King of... the Blazing Sun?"

"The human Lord who snatched the Strongest Lord of All Races from the hands of many top-notch Lords?"

He said in disbelief.

"Exactly."

Ruoji nodded proudly.

After a moment of silence, the general suddenly turned around and ran away.

The three of them slowly typed out a question mark.

What was going on?

Why was he running?

The deputy general returned and brought an old man with pale hair and a golden hammer on his back.

"I'm Tie Lian, the City Lord of the Divine Craftsmen City! Greetings to the Warlock Luo and the King of the Blazing Sun!"

Even though Tie Lian was old, he was very polite to Ruoji and Zhou Zhou.

"So it's City Lord Tie. It's an honor to meet you."

Ruoji greeted Zhou Zhou telepathically.

"This City Lord Iron is a Legendary-Tier Advance Grade Blacksmith and a Legendary-Tier Advance Grade Strongman. It can be said that he has already reached the peak of mortals in terms of Life Profession and Combat Classes."

"However, his dream is to become a divine artifact forger, so before he found the inheritance of a divine artifact forger, he had no way to advance. Until now, he is still comprehending the secrets of the profession of a divine artifact forger."

"What a pity."

"If only our Divine Sword Empire had the inheritance of a divine artifact forger."

"Otherwise, he might have become a divine artifact forgers by now."

Ruoji sighed.

A divine artifact forger...

Zhou Zhou pondered.

Thanks to the bloodline inheritance in his mind.

He had some understanding of this God-Tier Profession.

The requirements to change professions to become a divine artifact forger were very high.

First:

He had to have the complete inheritance of the divine artifact forger profession!

Secondly:

A Blacksmith had to be a Legendary-Tier Advance Grade and was only a step away from God-Tier!

Thirdly:

The Blacksmith had to have a God-Tier Strength-type combat profession!

The three conditions combined into one.

Only then would it be possible to create a basic divine artifact forgers!

And if he wanted to become a brilliant divine artifact forgers, he still had a long, long way to go.

It could be seen how difficult it was to become a divine artifact forgers!

Even for Zhou Zhou.

Right now, he only had a few forging blueprints at the level of a Low-Tier divine artifact.

They were all Legendary-Tier weapon forging blueprints carried by a few Legendary-level enemy Blacksmiths. In the end, they were killed by his soldiers in the war and dropped higher-tier divine artifact forging blueprints.

Zhou Zhou was not interested in these blueprints.

After all, the Low-Tier Deity Level God Divine Artifacts in his hands were almost piled up into a small mountain. Who cared about a few Low-Tier Deity Level divine artifact blueprints?

He casually threw it into the King's Treasure Box, preparing to use it after obtaining the complete inheritance of the divine artifact forgers.

And at the moment, these blueprints were also difficult for Tie Lian to become a divine artifact forgers.

It was like giving a university student a research thesis at the academician level.

It was not enough to explain the scientific and technical knowledge contained in a university student's thesis power to make a university student immediately become an academician.

There was too much basic professional knowledge in it.

It wasn't something that could be made up for with just a divine artifact blueprint.

"So it's City Lord Tie. It's an honor to meet you."

Zhou Zhou said politely.

"The King of the Blazing Sun actually knows about me?"

Tie Lian looked at Zhou Zhou in surprise.

Zhou Zhou was about to think of a response when he saw Tie Lian shake his head and say,

"But that's not important anymore."

"King of the Blazing Sun, you just said that you wanted to come to my place to help. I wonder how many troops you brought?"

"To be honest, King of the Blazing Sun, our Divine Craftsman City is in imminent danger. We urgently need external reinforcements!"

Tie Lian looked at Zhou Zhou expectantly.

"Um..."

"I'm alone."

Zhou Zhou pondered for a second before saying honestly.

Tie Lian was stunned. Then, he could not help but look disappointed. He was already old, but now, he seemed to have aged dozens of years.

"Thank you for coming to help, King of the Blazing Sun. This Decrepit still has things to do, so I'm not worthy of all of you. King of the Blazing Sun, if you want to do anything, feel free to do so."

Tie Lian forced a smile.

Then, he turned around and left.

Zhou Zhou was speechless.

Did this person think that this is above my pay grade?

"Now that the Divine Craftsman City is in deep danger, City Lord Iron has a heavy burden on his shoulders. He has a lot of matters to deal with at all times. King of the Blazing Sun, please don't blame him."

Ruoji quickly tried to salvage the situation.

"How come?"

Zhou Zhou shook his head.

"I'm going to help the Divine Craftsman City now. I'll be back soon. It won't take too long for the two of you to wait here."

He continued.

"Don't you need a soldier to help you?"

Ruoji was stunned for a moment before asking.

"No need."

Zhou Zhou shook his head.

Ruoji looked hesitant.

"Lord Ruoji, it's fine as long as we believe in the King of the Blazing Sun. For King of the Blazing Sun to be able to reach this point, how can he be a rash person? He definitely has his own confidence and means."

At this moment...

Yu Ling suddenly said.

Ruoji was stunned for a moment before nodding.

Well, he had worried for nothing.

Zhou Zhou looked at Yu Ling in surprise and nodded. Then, without hesitation, he flew into the sky and stood inside the array barrier.

**Chapter 742: The Upper Limit Of Incite Defection! Leaving!**

Zhou Zhou scanned the area a few times and quickly found a target.

It was a ferocious yaksha with purple-black skin, a golden steel fork in his hand, and a pair of fangs. "He" emitted the aura of a Low-Tier Deity Level Elementary Grade Scarlet God Spirit and was fighting another Sword Immortal of the Divine Craftsman City.

The Sword Immortal's face was pale, and the aura on his body was a little unstable. The nine flying swords surrounding him were also swaying. It was obvious that he had fought too many battles and had consumed too much divine sense and magic power.

On the other hand, the Yaksha Scarlet God Spirit looked full of energy and had powerful magic power. It was completely suppressing the Sword Immortal of Divine Craftsman City.

"I'll choose you."

He took out the Sword Of New Dimension Creation and held it in his hand. He condensed the Legendary-Tier Elementary Grade Chaos Origin Power in his body and activated the Myriad Sword Immortal Formation before slashing at the other party.

Yes, he felt that the Chaotic Origin Power in his body had already advanced to another level and broke through to the Legendary-Tier Elementary Grade just after he summoned Gerard to kill the Mid-Tier Deity-level Qilin Dragon Race Scarlet God Spirit!

At this realm, he could already barely use the True God-Tier Divine Artifacts, the Sword Of New Dimension Creation, to launch his attack.

Of course, that was all.

If he wanted to use the divine artifact Law ability in the Sword Of New Dimension Creation, it was far from enough.

At the very least, he had to advance to the Low-Tier Deity-level or even the Mid-Tier Deity-level before he could use the divine artifact Law ability of the Sword Of New Dimension Creation.

On the other side, facing this sudden attack, this Low-Tier Deity-level Elementary Grade Yaksha Scarlet God Spirit could not react at all and was directly beheaded.

The sword cultivator was stunned when he saw this.

Could it be reinforcements from the Empire?! "He" thought in surprise.

Then, he hurriedly turned around and looked at Zhou Zhou, who had put down the Sword Of New Dimension Creation.

The Sword Immortal's eyes were blank.

As the Worshipped God Spirit of the Divine Sword Empire, "He" knew the other God Spirits of the Divine Sword Empire.

However, "He" had never seen the young man in front of him before.

What was going on?

Who was he?

...

On the other side, Zhou Zhou was also a little surprised to see that he had actually killed a low-level Low-Tier Deity Scarlet God Spirit with one strike.

His original intention was to injure the other party and take the opportunity to use his Incite Defection.

He did not expect it to be accidentally killed...

Zhou Zhou smacked his lips, very satisfied with his strength.

Of course, he was most satisfied with the power of the Sword Of New Dimension Creation!

As expected of True God-Tier Divine Artifacts!

Now that he could use this Sword Of New Dimension Creation, his combat strength should be comparable to most Mid-Tier Deity-level God Spirits.

If he was facing a High-Tier Deity-level God Spirit, even if he could not defeat them, he could still escape.

At the thought of this, a smile appeared on Zhou Zhou's face.

Then, he did not waste any time. He first retrieved the corpse of the killed Scarlet God Spirit and placed it beside the corpse of the other Scarlet Dragon God Spirit in the King's Treasure Box.

Then, he raised his right hand and willed while the enemy's morale was affected after killing a Scarlet God Spirit.

Extraordinary-Tier Lord Talent— Incite Defection—

Activate!

The next second, an invisible fluctuation instantly covered the 230 million Scarlet Fog monsters.

A text notification appeared.

[Prompt: You have activated your Lord exclusive talent, Incite Defection!]

[Incite Defection has taken effect!]

[Lord Talent Notification: A total of 20,489,965 Black Iron-Tier fog monsters, 13,359,810 Green Bronze-Tier fog monsters, 8,165,985 White Silver-Tier fog monsters, 5,426,521 Yellow Gold-Tier fog monsters, 2,284,453 White Platinum-Tier fog monsters, 202,187 Diamond-Tier fog monsters, 68,741 Extraordinary-Tier fog monsters, 6,187 Epic-Tier fog monsters, 151 Legendary-Tier fog monsters have betrayed their Lord faction and become your loyal subordinates!]

Zhou Zhou looked at the Incite Defection result and smiled.

There were a total of 50 million fog monsters!

It directly reached the upper limit of the number of Incite Defections for Extraordinary-Tier Incite Defection!

This was the first time he had Incite Defection, which had reached the upper limit of his Lord Talent.

"Normally, how can there be so many fog monsters gathered together to make me Incite Defection?"

It was just as he thought.

"This King of Ten Thousand Kings Event is both a calamity and... an unimaginable opportunity for me!"

Zhou Zhou's eyes lit up.

After that, he secretly released a Galaxy that had entered the Spatial Concealment state. At the same time, he secretly ordered the fog monsters of the 50 million Incite Defection to quietly withdraw from the current battlefield and enter the Galaxy to hide.

When the time comes...

Zhou Zhou put the Galaxy into his internal world again, and the 50 million fog monster soldiers could safely and smoothly reach his hands.

Then, Zhou Zhou flew down from the sky and landed beside Ruoji and Yu Ling.

As soon as he came down,

the two of them leaned over and looked at Zhou Zhou with burning eyes.

Especially Ruoji!

At this moment, this strategist looked at Zhou Zhou as if he was seeing a resplendent jade.

"The King of the Blazing Sun's attack is indeed extraordinary. He actually killed a Low-Tier Deity Scarlet God Spirit with a single strike as a Legendary-Tier!"

"In time!"

"King of the Blazing Sun, you will definitely become a pillar of our human race!"

"He" praised sincerely.

With the strength of a Legendary-Tier Elementary Grade, he killed a Low-Tier Deity Scarlet God Spirit with a single strike!

This child's future could no longer be described as only limitless.

Even if he could not become the Lord of All Races in the future, his strength alone was enough for him to occupy the upper echelons of the human race. He might even be able to become an Achievement True God-Tier and become a pillar of the human race like Bai He and Lu Yan. At the same time, he was an expert that all races had to respect!

"You flatter me."

Zhou Zhou said humbly.

"You two, get ready."

"We can leave in a while."

"You're leaving just like that?"

"Well, I guess you can indeed leave after killing a Low-Tier Deity Scarlet God Spirit."

Ruoji was stunned for a moment before nodding thoughtfully.

He felt a little regretful that he did not see more of this Lord's battle scenes.

But at this moment,

"Eh."

Yu Ling exclaimed in surprise.

"This battlefield... Why do I feel that the attack of this fog monster army has suddenly become much weaker?"

She said uncertainly.

Ruoji was stunned.

Then, he immediately looked over and saw what Yu Ling was talking about.

However, as a strategist who had experienced many war scenes, his observation skills were much more detailed than Yu Ling's. Therefore, he quickly saw through more things.

"Not only is it much weaker, but it's nearly a quarter weaker!"

"Moreover, there's something wrong with this fog monster army."

"Why do I feel that... there are fewer and fewer of them?"

Ruoji was stunned.

In his life, he had experienced tens of thousands of battlefields of all sizes.

However, he had never seen such a strange battlefield situation.

Then, they suddenly thought of something and looked at Zhou Zhou in disbelief.

"Zhou Zhou, is that your doing?"

Yu Ling asked in surprise and anticipation.

Ruoji also stared intently at Zhou Zhou.

"It's just some small tricks."

"But that's all I can do today."

"If these fog monsters in the Divine Craftsman City increase tomorrow, I'll come again."

Zhou Zhou did not explain further.

However, this made the two of them look at Zhou Zhou even more fanatically.

Ruoji took a deep breath and decided to tell His Majesty what he had seen and heard on this trip when he returned so that His Majesty would value this King of the Blazing Sun even more.

He looked at the Celestial Appearance Zhou Zhou and had a premonition.

If the Divine Sword Empire could establish a stable friendship with the King of the Blazing Sun and even borrow the power of this King of the Blazing Sun...

Then their Divine Sword Empire might be able to advance to a higher level and even do something that the human race could only dream of.

It sounded a little ridiculous for an Empire to want to borrow the power of a Beginner Kingdom King.

However, Ruoji firmly believed in his intuition.

After that, Zhou Zhou retracted the Galaxy in Spatial Concealment and the 50 million fog monster army inside.

Right on the heels of that, they told the deputy general and asked him to inform City Lord Tie Lian that they had left. Then, they entered the Spatial Teleportation Array and left.

Zhou Zhou still had a lot of things to do and could not stay here any longer.

When Tie Lian rushed over, he only saw an empty Spatial Teleportation Array.

Seeing this, Tie Lian hurriedly asked the soldiers guarding the Spatial Teleportation Array. After knowing that Zhou Zhou and the others had left, he stood on the spot in a daze for a while. Then, he bowed deeply to the Spatial Teleportation Array.

He did not get up for a long time.

**Chapter 743: The Law Skill Zhou Zhou Wants**

When Zhou Zhou and the others returned to the capital and wanted to meet Lu Zhen, they were informed by a servant that Lu Zhen was dealing with government affairs in the Pure Yang Hall. At that moment, "He" would not receive anyone.

"If that's the case."

"Why don't we return to the Blazing Sun Kingdom first?"

"Lord Ruoji, please inform His Majesty that we've returned when he's free."

Zhou Zhou thought for a moment and said.

"Don't you want to stay for a while?"

Ruoji hurriedly urged him to stay.

He still wanted to keep her in the palace for a period of time to nurture the friendship between the two countries.

"This King of Ten Thousand Kings event will only last for a month. I can't stay any longer."

Zhou Zhou shook his head.

Since he had already given this reason, Ruoji could not say anything. He could only watch as Zhou Zhou and Yu Ling left the palace through the Spatial Teleportation Array.

Then, Ruoji turned around and walked deeper into the palace.

...

After Zhou Zhou and Yu Ling returned to the Knight Empire, the two of them separated. Then, Zhou Zhou directly returned to the Blazing Sun Kingdom.

After returning to the capital.

Zhou Zhou first took out the corpse of the Mid-Tier Deity-level Qilin Dragon God Spirit and the corpse of the Low-Tier Yaksha Scarlet God Spirit, intending to see what the spoils of war of the two scarlet God Spirits were like.

However, it was a pity that the most valuable Loots on these two scarlet God Spirits were only two Low-Tier Deity Level Elementary Grade divine artifacts. After extracting them, they became six Mid-Tier Deity-level divine artifacts.

Among the other important spoils of war,

Zhou Zhou put away the Divine Crystals for himself.

As for the other two Mid-Tier Deity-level "Book of The God Spirit" and "Secret Manual of the Hero Inheritance", Zhou Zhou directly placed them in the military merit exchange system for the soldiers who had performed the most outstandingly in the war.

Then, he entered the cultivation room and continued to comprehend the Lord's laws.

Time passed quickly.

Night covered the earth in the blink of an eye.

The Scarlet Fog descended.

In the cultivation room.

Zhou Zhou opened his eyes.

His expression was thoughtful as he played with the Bodhi Supreme in his hand.

"I'm already a Legendary-Tier Elementary Grade now. I'm not far from becoming a Legendary-Tier Advance Grade and becoming a God Spirit."

"With the enhancement of my Lord Talent, I should be able to reach the threshold of becoming a Low-Tier Deity Level Elementary Grade God Spirit in less than ten days."

"But..."

"I still feel that my comprehension of Lord's Law is still far inferior..."

Zhou Zhou frowned slightly.

He had not even fully comprehended the Lord's Law behind the Black Iron-Tier Lord Talent, Hand of Wealth.

Not to mention...

He had comprehended the most important and core Lord Law Skill.

He had a feeling that he had to achieve the God Spirit slot with the Lord Law Law Skill. Only then could he truly step onto the path of the supreme God Spirit!

He had to achieve the Achievement God Spirit slot with the Lord Law Law Skill. Only then could he truly step onto the path of the supreme God Spirit!

Zhou Zhou was deep in thought.

Then, he suddenly thought of something and opened his Lord Talent list.

His gaze swept across these Lord Talents one by one, and finally landed on the Mythical-Tier Unique Lord Talent: Lord Shop and another Mythical-Tier Unique Lord Talent: Ultimate Algorithm.

"These two Lord Talents are the closest to the Lord Talent of 'ruling' among all my Lord Talents."

"The former can allow me, a Lord, to have the power to 'rule' other Subjects, bloodlines, and even items."

"The latter can allow me to 'rule' all the computational power of the Machina race."

"If I can comprehend the Lord Laws behind these two Lord Talents, I will definitely be able to see the true meaning of 'ruling' from them and master a control-type Law Skill!"

"But..."

"The grades of these two Lord Talents are too high. The Lord Laws contained in them are too complicated. I can't comprehend them!"

Zhou Zhou smiled bitterly.

For the first time, he felt that the quality of the Lord Talent was too high. It was also a burden.

If other Lords heard this, they would probably scold him for not knowing the hunger of a hungry man.

But it was indeed his true thoughts at this moment.

What should I do?

Zhou Zhou pondered.

Then, his gaze slowly landed on the Bodhi Supreme in his hand.

"Bodhi Supreme?"

A fawning smile appeared on his face.

"What?"

Bodhi Supreme seemed to have seen the expression on his face and said warily.

"Um... Can you help me resolve my confusion? I'm..."

"I can't!" The Bodhi Supreme rejected Zhou Zhou directly before he could finish speaking.

"If you want me to clear your doubts again, you have to pay off the debt first and then give me enough knowledge to clear your doubts before I can help you." Bodhi Supreme snorted.

"That will take a few days..." Zhou Zhou was helpless.

"Just a few days and you can't wait?" Bodhi Supreme asked.

"I'm planning ahead..." Zhou Zhou gradually fell silent.

He did seem to be a little too anxious...

In any case, he was still a long way from becoming a Legendary-Tier Advance Grade. Why was he in such a hurry?

He suddenly became vigilant.

It seemed that his life had been too smooth-sailing. Now that he had encountered a little obstruction, he actually became a little anxious.

That wouldn't do!

He took a deep breath and looked at the Bodhi Supreme in his hand.

"I was in too much of a hurry."

"Alright."

"I'll keep instilling the bloodline inheritance in your mind for the next two days until it's enough for you to clear my doubts."

"That's more like it."

Bodhi Supreme was satisfied.

In its eyes, this Lord that had yet to mature still had many shortcomings.

However, at the very least, he knew his limits and would correct his mistakes in time. He can be molded!

Most importantly... The talent of the Lord's Law was shockingly high!

In short, his future is promising. I am with the right person.

The Bodhi Supreme thought to itself.

After that, Zhou Zhou did not waste any time and directly began to instill the bloodline inheritance he had grasped into Bodhi Supreme.

A moment later, Zhou Zhou, who was instilling his bloodline inheritance into Bodhi Supreme, suddenly heard a knock on the door.

"Your Majesty, Legion Commander Bai Yun and the rest have returned. Currently, Legion Commander Bai Yun is requesting an audience outside the door." Aliya's voice sounded.

"Let her in." Zhou Zhou said casually.

"Yes, Your Majesty!" Aliya left.

Seeing this, Zhou Zhou also stopped instilling bloodline inheritance and said to Bodhi Supreme, "I'm a little tired today. Let's continue tomorrow."

"Sure."

"At this rate, you should be able to completely repay the debt you owe me and save up enough to officially resolve your doubts in another two or three days." Bodhi Supreme was also very satisfied with today's gains.

At this moment...

"Your Majesty, Bai Yun requests an audience."

Bai Yun's voice came from outside the door.

"Come in."

Zhou Zhou put away the Bodhi Supreme and said.

Soon, Bai Yun walked in.

"Greetings, Your Majesty!"

She said respectfully.

"How is it? Have you captured all the Spatial Teleportation Arrays?"

Zhou Zhou asked casually.

"Everything went well."

"They've all been captured."

"We originally encountered two Low-Tier Deity Level Scarlet God Spirits along the way and wanted to stop us, but they were repelled by Chi Xuantian and the others."

Bai Yun reported.

Zhou Zhou nodded.

With this Spatial Teleportation Array that completely connected the two human empires, his Faction Quests could be considered to have been completed.

Even though he had already received the mission reward in advance...

**[Global Lord: 100% Drop Rate](#)**

**Chapter 744: War Summary**

"Your Majesty! Deputy Commander Wu has already led all the new recruits back. Furthermore, our soldiers have already passed through the Triumphal Arch once. I have already recorded the advancement of all the soldiers and the gains of the Loots. Please take a look, Your Majesty."

After Bai Yun finished speaking, she took out a list of battles from her Spatial Ring and handed it to Zhou Zhou.

Zhou Zhou took it and looked at it.

Today, they had killed a total of 320 million fog monsters!

Among them, Bai Yun and the rest led more than 400 million soldiers. In the process of seizing the Spatial Teleportation Array to the Divine Sword Empire, they eliminated a total of 110 million fog monsters along the way!

On the other hand, Wu Xin led 100 million veterans and 720 million new recruits to kill a total of 210 million fog monsters in a day around the territory of the Knight Empire!

It sounded like an exaggeration but if one counted every soldier, they would realize that some soldiers might not even have killed a single fog monster in a day.

At most, they would help each other and share the promotion energy obtained from killing a fog monster with a few soldiers.

Zhou Zhou smacked his lips.

No wonder Yu Ling said that the situation on the battlefield had improved a lot with the help of his soldiers.

Over the past two days, the recruits under him had killed almost 300 million fog monsters.

There were only about a billion fog monsters attacking the Knight Empire.

Now that three-tenths of it was gone, wouldn't the pressure be relieved a lot?

He didn't think too much about it and continued reading.

With the enhancement of the King of Loots and the title of the strongest Lord,

They obtained a total of:

More than 11,000 Low-Tier Deity Level Divine Crystals! 1,061,300 Legendary-Tier Mist Cores, 10,629,600 Epic-Tier Mist Cores, 121,000,000 Extraordinary-Tier Mist Cores, 165,000,000 Diamond-Tier Mist Cores, 369,000,000 White Platinum-Tier Mist Cores, 682,000,000 Yellow Gold-Tier Mist Cores, 1,412,000,000 White Silver-Tier Mist Cores, 2,836,000,000 Green Bronze-Tier Mist Cores!

More than 12,050,000,000 skill books and 15,012,000,000 equipment!

More than 9,000 Low-Tier Deity Level divine artifacts!

Basic materials: 3,600,009,900 units!

More than 40 million units of basic Elemental Gem resources!

There were more than two million units of Thunder Element Gems!

More than three million units of Life Elemental Gems! More than one million units of Death Elemental Gems!

12 million Origin Crystals!

245,672 Green Bronze-Tier Lord Talent Crystal Fragments!

212 Holy Spirit-Tier Scarlet Divine Crystals!

514 Low-Tier Deity Level "Book of The God Spirit"!

35 Hero Inheritance Secret Manuals!

Then, in terms of the increase in the combat strength of the soldiers, the total number and strength of Zhou Zhou's soldiers had also increased greatly throughout the day.

Other than his own Incite Defection army of 63,321,943 fog monsters!

The 20% Incite Defection troops handed over to him by the Lords of the Star Alliance had also reached 6,222,890 fog monsters!

All three of them added up to a total of 69,544,833 fog monsters!

And now, excluding the troops of the Star Alliance, the total number of troops under Zhou Zhou's command had already reached 1,322,074,382 soldiers!

Among them, were 35,499,341 Black Iron-Tier soldiers, 19,158,710 Green Bronze-Tier soldiers, 676.3 million White Silver-Tier soldiers, 360,079,010 Yellow Gold-Tier soldiers, 196,331,700 White Platinum-

Tiers soldiers, 28,355,439 Diamond-Tier soldiers, 6,108,413 Extraordinary-Tier soldiers, 254,100 Epic-Tier soldiers and 599 Legendary-Tier soldiers!

In addition, Dragon-Horse Spear General—Wu Xin and Ghost God General—Luo Sheng had broken through to the Legendary-Tier Advance Grade!

Soul Arrow—Wu Tu had broken through to Legendary-Tier Intermediate Grade!

The Original Spirit Race—Ansel had broken through to Epic-Tier Intermediate Grade!

The other heroes and generals had also improved greatly in terms of strength.

Zhou Zhou looked at the list and nodded slightly.

When he saw the distribution of strength among the last soldiers, he could not help but be speechless.

Among the soldiers under his command, there were hundreds of millions of White Silver-Tier, Yellow Gold-Tier, and White Platinum-Tier soldiers!

On the other hand, there were a lot fewer soldiers at the other levels of strength.

Zhou Zhou was well aware of the reason for this.

He had recruited too many new recruits in the past two days.

However, with the Epic-Tier Blessing of the War God, these soldiers' strength increased rapidly. This resulted in the number of White Silver-Tier, Yellow Gold-Tier, and White Platinum-Tier soldiers under him being so much more than the soldiers at other levels.

"It doesn't matter how many new recruits there are."

"Under the Blessing of the War God,

it won't be long before these new recruits become the high-end combat power under my command."

Zhou Zhou's lips curled up slightly.

"The Lords of the Star Alliance now have a total of more than 65 million troops."

"In addition to the soldiers I have now, I now have more than 587 million soldiers under my command."

He nodded then returned the list of battles to Bai Yun.

"I've already placed the 'Hero Inheritance' and 'Book of The God Spirit' in the Military Merit Exchange System."

"Remember to find someone to discuss and reward them to the soldiers who perform the most outstandingly and need them the most."

Zhou Zhou said.

"Yes, Your Majesty!"

Bai Yun said respectfully before continuing,

"Your Majesty, I have something to tell you."

"What is it?"

"Deputy Commander Wu told me just now."

"It's too obvious that we've been killing fog monsters around the Knight Empire to train our troops these past two days."

"Currently, there are already at least three Empire-level Fog Monster Army and 40 Kingdom-level Fog Monster Army that are stirring up trouble with our Blazing Sun Kingdom. I reckon that they will take revenge on our Blazing Sun Kingdom soon."

"I understand."

Zhou Zhou fell into deep thought.

This was within his expectations.

After all, these fog monsters were not wooden figures. If he trained his soldiers so wantonly and used their lives to train his soldiers, he would definitely attract their counterattack.

However, Zhou Zhou was not afraid.

Ability!

It was the reason why he dared to do this!

He had already killed one of the Empire-level Monster Army.

The current him.

His strength had increased greatly again.

Even if a few more Empire-level Monster Army came, he would not be afraid!

"Oh yes."

"How many heroes does our Blazing Sun Kingdom have now?"

He suddenly asked.

"Currently, there are a total of 68 heroes in our four legions who hold various important positions within the legion!"

"If we distribute the Hero Inheritance manual that we obtained today and let the contributing soldiers accept these Hero Inheritances, our Sun Kingdom will have 105 heroes!" Bai Yun said.

When Zhou Zhou heard this, a smile appeared on his face again.

105 heroes! This number had already exceeded a hundred!

If this was placed on some small races, it would probably be equivalent to the number of heroes in their race.

But now, it was only the number of heroes in his small Beginner Kingdom.

If news of this got out, who knew how many life forms would call it ridiculous!

Now, Zhou Zhou was even more confident in dealing with the Monster Army that wanted to take revenge on him.

"Your Majesty, Legion Commander Wu Tu requests an audience!" Aliya's voice came from outside.

After Zhou Zhou let the other party in, Wu Tu quickly came over.

"Greetings, Your Majesty!"

Wu Tu said respectfully.

"What is it?"

"Your Majesty, I've already sorted out all the information on the sixteen enemy countries that you asked me to sort out previously."

"Also..."

"His Majesty asked me to investigate the five scarlet monsters that the Supreme Will detests. I've already investigated two of them today!"

"Your Majesty, please take a look!"

With that, Wu Tu opened his personal terminal and sent an intelligence report to Zhou Zhou.

When Zhou Zhou saw this, he opened his personal terminal and found the information Wu Tu had sent him. Then, he projected the information into the air so that everyone present could see it.

[Global Lord: 100% Drop Rate](#)

**Chapter 745: Alliance Of The Sixteen Kings! Garlos, Castro!**

Zhou Zhou, Bai Yun, and Wu Tu looked at the virtual image projected in the air in front of them.

At the top was the information on the 16 people of foreign races.

Zhou Zhou looked at it, which was recorded in this intelligence information.

These 16 enemy countries now had a total of about 56 million troops!

They had even formed an alliance called the 16 Kings Alliance. As for who this alliance was guarding against, it was clearly written on it. It was his Blazing Sun Kingdom!

"Your Majesty, actually, when the Alliance of Sixteen Kings was first established, it only had about 35 million troops."

"However, they might have heard of our Blazing Sun Kingdom's reputation during this period of time and were so frightened that they hurriedly went all out in the country. They forced most of the superhumans and Subjects in the country to enlist. Only then were they barely able to gather more than 56 million soldiers."

"Nonetheless, since it's a compulsory recruitment, most of these recruits are very weak. Only a small number of recruits who are combat Professionals are slightly stronger. However... because most of them don't have any combat experience in the army, their strength isn't comparable to the Military Professionals." Wu Tu said.

Military Professionals were better at performing on the battlefield because of their Profession characteristics. Therefore, on the battlefield, Military Professionals usually performed better than combat Professionals.

However, if it was a 1v1 battle outside the battlefield, then combat Professionals could often defeat Military Professionals of the same level.

This was also the biggest difference between Military Professionals and Combat Professionals.

Zhou Zhou nodded.

He looked into Bai Yun's eyes and understood what she meant. He could not help but laugh.

There were more than 56 million soldiers. In the past, they would probably think that the other party was very strong.

But, what was 56 million soldiers for him, who had nearly 1.4 billion soldiers? He managed to obtain this amount of soldiers just by one activation of Incite Defection!

"I'll leave it to you, Bai Yun."

"Tomorrow, I want to see the territories of these 16 kingdoms filled with the flags of our Blazing Sun Kingdom!"

Zhou Zhou said in a low voice.

"Yes, Your Majesty!"

Bai Yun said respectfully.

There was no hesitation in her voice.

Capture 16 kingdoms in a day?

Bai Yun's eyes were filled with anticipation.

She had only heard such stories in myths and legends when she was young.

At that time she felt that a general who could do such a thing must be a great hero who could support the heavens and the earth. He must be an extraordinary figure!

She did not expect that she was going to do the same now!

She took a small breath and her eyes became determined.

There was still a long way to go, this was only the beginning.

It was far from enough to achieve sixteen kingdoms in a day if she wanted to sit firmly in the position of the number one General beside His Majesty.

There were too many outstanding talents by His Majesty's side!

She had to become a general in myths and legends that was enough to be praised by all the life forms of the myriad races. She also has to be the most outstanding general in order to steadily become the number one general beside His Majesty!

Bai Yun thought to herself.

Zhou Zhou did not know the change in Bai Yun's heart.

After looking at the strength of the sixteen kingdoms and confirming that he could crush this so-called 16 Kings Alliance, he looked directly at the two Scarlet Fog monsters that Wu Tu had found and were hated by the Supreme Will.

The first fog monster was named Garlos.

According to the information, he was a Low-Tier Deity Level Elementary Grade God Spirit from the Doro Crimson Empire!

The other party was the Deputy Commander of an Empire-level Scarlet Army in their empire. He was good at close combat, but other than that, he had no other characteristics.

At this moment, the other party was following the Empire-level Scarlet Army and besieging a human Advance Kingdom called Tian Ze 1.6 billion kilometers away.

The second fog monster was a fog monster named Castro.

According to the information, the other party was originally a life form from the Heavenly King's Boundless Universe.

Later on, the world he was in was invaded by the fog monster faction.

At that time, he chose to fight for his world, but he was defeated and captured by the fog monster. Then, because of his extremely high talent, he was recognized by a big shot in the fog monster camp and transformed into a fog monster.

However, Castro had an unyielding nature. He would not be able to change that even though he had transformed into a fog monster.

Not long after, this guy actually defected from his camp and became a lone fog monster that roamed the High Continent.

This guy's original strength was Low-Tier Deity Level Elementary Grade. After he defected and left, he took pleasure in challenging and killing experts of the same level on the High Continent. Occasionally, he would even cross realms to fight.

After such a long time, not only did "He" not die, "He" had even made a breakthrough in strength. Now, "He" had already become a Mid-Tier Deity-level Elementary Grade Scarlet God Spirit!

During the current calamity of the myriad races, the other party began to specially assassinate the God Spirit-level experts of the various empires in the High Continent to weaken the combat strength of the

Lord-level forces of the High Continent's empires. They attacked cities and territories in the High Continent with the Scarlet Empire behind them.

The results were quite fruitful. It was said that they had already captured one Empire of the people of foreign races.

He even said in this invitation, as a lone Scarlet God Spirit, Castro was not only extremely strong in frontal combat, he was also extremely good at escaping and hiding.

This was also the reason why "He" had been able to roam freely in the High Continent for so many years without being successfully retaliated against by his enemies.

Now, the other party was appearing at a place 5.4 billion kilometers away, as if he wanted to attack the Orc God Spirit of a nearby Orc Empire.

Then, Zhou Zhou opened the other information.

In the end, with their reading speed, it took them more than half an hour to finish reading.

After reading it, Zhou Zhou immediately looked at Wu Tu.

"Where did you get all this information?"

He asked in surprise.

"Your Majesty, this is all thanks to the Dark Walker Job Change Statue in our territory."

"Dark Walkers have the ability to create the Demon Concealment Ointment, and the Demon Concealment Ointment allows us to treat us as members of the fog monster camp when we encounter fog monsters."

"That's why I have an idea."

"I order the soldiers of the Heavenly Map Army to disguise themselves as members of the fog monster camp through the Demon Concealment Ointment when exploring the information of the fog monster faction. Then, they will take the opportunity to sneak into the fog monster camp, greatly reducing the difficulty of spying."

"I obtained the information about these two fog monsters that are hated by the Supreme Will using this method."

"Even though we encountered some small risks along the way, it's not worth mentioning compared to the value of the information we obtained." Wu Tu said.

"I remember that the Demon Concealment Ointment only has a high chance of making the fog monsters treat us as members of the fog monster camp, right?"

Zhou Zhou frowned.

**Chapter 746: Second-Generation Dark Walker Potion!**

"Your Majesty, you're busy every day so you may not know that

ever since the Dark Walker statue and let all the Subjects in the territory change their profession to Dark Walker, the people from the Alchemy Union have begun to research the three Profession secret medicines, the Dark Walker's Demon Vanquishing Powder, the Demon Concealment Ointment, and the Sacred Redemption Medicine."

"Then, they realized that if they increased the level and quality of the medicinal herbs used to make the Dark Walker secret medicine and added some outstanding supplementary medicinal herbs, it could greatly increase the medicinal effect of the secret medicine."

"Just yesterday, two of these three Potions, namely the Demon Concealment Ointment and the Sacred Redemption Medicine, have already been optimized by the Alchemy Pharmacists of the Alchemy Union."

"Among them, the second generation of Sacred Redemption Medicine can allow living beings that have been transformed into fog monsters for a period of time to return to their normal life form."

"And the Demon Concealment Ointment can already make the living beings smeared with the Demon Concealment Ointment have a 100% chance of being mistaken by the fog monsters as a member of the fog monster camp."

"Unless the difference in strength between the living beings smeared with the Demon Concealment Ointment and the fog monsters they encounter exceeds a major level, they will definitely not be recognized."

Wu Tu said respectfully.

Zhou Zhou was stunned.

There was actually such a thing.

He thought for a moment and suddenly remembered that Zheng Yuanqi had indeed sent him a document about the Alchemy Union yesterday. It was just that he had always been used to letting Zheng Yuanqi deal with the matters in the territory. In addition, it was not a major matter that endangered the territory, so he did not take a look.

So that document was about this.

Zhou Zhou understood why the Alchemy Professionals of the Alchemy Union had the ability to modify and increase the effect of the Dark Walker Potion.

The first batch of Professionals of the Dark Walker were just ordinary life forms who were not even Professionals.

When the fog monster first descended, the medicinal herbs they could come into contact with were extremely limited.

Under such conditions, the effect of the secret medicine they could create would naturally not be too high.

However, with the resources Zhou Zhou had now and the rich Potion knowledge of the high-level Alchemy Professionals of the Alchemy Union, he could naturally easily develop the Dark Walker secret medicine with stronger Effects.

In the future, as the research time increased, the various resources and conditions that Zhou Zhou had increased, and the Profession Level of the Alchemy Professionals in the Alchemy Union increased, it was not impossible for them to develop the Dark Walker secret medicine with a stronger effect.

"Well done."

Zhou Zhou patted Wu Tu's shoulder and said with a smile.

"Your Majesty, you flatter me!"

"It's because the Dark Walker's potion is too useful!"

"I've read many historical books, but this is the first time I've known of such a practical potion with such an effect."

"If these secret medicines could circulate throughout the entire High Continent when the Scarlet Fog first descended, perhaps the High Continent today would have become different."

Wu Tu did not take the credit. Instead, he sighed about the effect of the Dark Walker's secret medicine.

Zhou Zhou nodded.

The Effect of the Dark Walker's secret medicine was indeed ridiculously good.

Then, he thought of something and opened Ling'er's chat to initiate a video call.

Soon, Ling'er appeared on the other end of the video.

"Big Brother!"

Ling'er looked at Zhou Zhou in surprise.

"Ling'er, how's the production of the Dark Walker's secret medicine recently?"

Zhou Zhou went straight to the point.

When Ling'er heard that, she immediately said,

"Big Brother, you asked me to buy 10 billion copies of the first generation Dark Walker secret medicine last time. I've already bought them all."

"Currently, we have already made the first generation of the Dark Walker secret medicine an official quest. We have mobilized the Subjects and organizations of the entire Blazing Sun Kingdom to make it."

"About two billion have been made so far."

"Also..."

"Yesterday, Prime Minister Zheng asked me to buy more medicinal herbs to make the second-generation Dark Walker secret medicine. I've also begun to buy them on the World Channel, the territory of the Blazing Sun Kingdom, and the territories of the Lords of the Star Alliance."

"However, because the medicinal herbs needed for the second-generation Dark Walker secret medicine are higher-level, there aren't many medicinal herbs bought so far. I can only make about 300 million sets of the second-generation Dark Walker secret medicine."

Ling'er was clearly very familiar with this business and said directly.

"How many Mist Cores did you spend in total?"

Zhou Zhou asked curiously.

"Each of the first generation Dark Walker secret medicines only costs five Black Iron-Tier Mist Cores."

"10 billion copies of the first generation Dark Walker secret medicine cost a total of 1,500 Legendary-Tier Mist Cores!"

"The second generation Dark Walker secret medicine is more expensive. Each of them will cost two White Silver-Tier Mist Cores."

"Therefore, a total of 1,800 Legendary-Tier Mist Cores were spent on 300 million second-generation Dark Walker secret medicines." Ling'er said.

"So cheap?" Zhou Zhou clicked his tongue in wonder and said generously,

"Then continue to buy! Buy as much as you can!"

"In addition, if we can plant the medicinal herbs needed for these secret medicines ourselves, we can also focus on planting them!"

10 billion might seem like a lot, but it was actually not much to split evenly with each soldier.

Not to mention that she had only collected 300 million copies of the second generation of the Dark Walker secret medicine. It was not enough for his soldiers to share at all.

Therefore, he still had to create a large number of Dark Walker secret medicines.

"Yes, Your Majesty!"

Yu Ling was a little surprised, but she did not ask further and nodded in agreement.

Zhou Zhou did not chat further and closed the chat box.

He looked thoughtful.

Originally, he planned to sell the extra Dark Walker secret medicine to the Cerulean Planet's human race, or even the entire human race, or even other Lord factions that fought against the fog monsters.

The effect was such a good Dark Walker secret medicine and the manufacturing cost was so low. A large number of factions would probably be willing to buy it even if he increased the cost by a few times!

When the time comes...

He would obtain incomparably shocking profits!

However, now, since his production capacity was limited, he could only give up on this idea for the time being and think about it in the future.

After that, the three of them discussed the order in which they should deal with these two groups of enemies. Then, they quickly decided to follow the order of ease before difficulty. Tomorrow, they would deal with the 16 Kings Alliance first before dealing with the two fog monsters that the Supreme Resistance hated.

"I'll do it now!"

Bai Yun stood up and said.

Then, she bade farewell to Zhou Zhou and left.

Wu Tu also left quickly.

Seeing this, Zhou Zhou went straight to the cultivation room and continued to comprehend the Lord Law behind the Hand of Wealth.

Command-type Law Skills were only the beginning of becoming a Lord Law-type God Spirit.

The Lord's Law behind the Hand of Wealth was also a part of the entire Lord's Law. Zhou Zhou would have to comprehend and master it sooner or later, so it was not a waste of time to master it in advance as long as he did not use it as a nomological skill to become a God in the end.

...

One of the 16 Kings Alliance—Ghost Darkness Kingdom.

Spectre Palace.

In a vast dark purple hall.

16 life forms emitting Extraordinary-Tier and Epic-Tier auras were gathered here.

Some of them emitted the aura of the Netherworld, some had blazing flames burning on their bodies, some were wearing royal robes with strange tower patterns, and some emitted the aura of witchcraft that made people not dare to approach...

The auras they emitted were different, but they were all silent at this moment. No one spoke, making the already quiet hall even more deathly silent.

If someone familiar with the life forms present was here, they would definitely be able to recognize immediately that the 16 life forms in different forms in the hall were the monarchs of the 16 countries that formed the 16 Kings Alliance!

At this moment, they actually disregarded the past and gathered together!

**Chapter 747: Conspiracy**

After a long time...

"Have you heard the latest news about the Blazing Sun Kingdom?"

The King of the Fire Spirit Kingdom suddenly said, breaking the silence.

"I heard."

"This King is here for this."

"Speaking of which... Is that news true?"

The King of the Rota Kingdom could not help but ask.

"If you're asking if the Blazing Sun Kingdom defeated an Empire-level Scarlet Army from the Scarlet Empire yesterday... This King can say that it's true!"

The King of the Spiritual Insect Kingdom said hoarsely.

"That's not all."

"Just today, I received the news."

"The King of the Blazing Sun led more than 800 million soldiers and severely injured the fog monster faction that besieged the human Knight Empire."

"At least 200 million fog monsters died at the hands of the soldiers of the Blazing Sun Kingdom!"

The King of the Demon Soldier Kingdom said in a low voice.

"What!? An army of more than 200 million fog monsters was destroyed in a day?!"

"That's impossible, right? Even a butcher can't kill them so quickly, right?!"

"What's so fast about killing 200 million with 800 million? Currently, fog monsters are everywhere in the entire High Continent. Other than the fact that there are fewer fog monsters within the protection of the Lord's faction, which ownerless land outside the protection of the Lord's faction hasn't been occupied by fog monsters, Big Brother? As long as the fog monsters are dense enough, it won't be strange for 800 million soldiers to kill one billion soldiers a day, let alone 200 million!"

"The Blazing Sun Kingdom actually has more than 800 million soldiers. Then what's the point of establishing this Alliance of 16 Kings! We can just disband and surrender!"

...

It was true.

As soon as these words were spoken.

Some of the monarchs of the 16 countries present were really tempted.

This was because even though the King of the Blazing Sun was fierce and decisive to the enemy and never left anyone alive, he treated his own people, even those who had just surrendered, as if they were from the same hometown.

They wouldn't be treated as outsiders!

He was willing to use everything good on his own people.

The treatment was ridiculously good. When the people of foreign races heard this, they exclaimed that they wanted to change their nationality!

Moreover, the King of the Blazing Sun liked to use the locals to govern the locals.

Even the King of a defeated country had a high chance of continuing to be the King of his country after surrendering.

It was just that the name had changed from King to Governor, and the treatment and benefits had changed slightly from before.

In other aspects, it was almost no different from before.

Both the original King of the Aurora Kingdom and the original King of the Titan Kingdom had set a very good example on this point alone.

At the thought of this, many of the Kings present were even more tempted.

However, they did not say it out loud. Instead, they were secretly observing the other monarchs.

"The King of the Blazing Sun is so strong. The more than 56 million of our 16 Kings Alliance is simply a joke to them."

"There's definitely no way out if we fight head-on."

"Do the Kings have any other thoughts?"

A monarch said worriedly.

When the other monarchs heard this, they lowered their heads and looked down. No one said anything.

They had some thoughts.

However, none of them dared to say anything.

At this moment, wouldn't anyone be dumbfounded if they were deliberately provoked by other monarchs with ulterior motives and attacked together?

"That's not right!"

"The Human Knight Empire is a rather distant empire from us. How do you know such distant news?"

A king suddenly reacted and asked curiously.

"I found out through the Lords near my territory."

"Their world channel can send messages to each other. I also learned about the Knight Empire from their world channel."

"The King of the Blazing Sun defeated an Empire-level Scarlet Army head-on as a Lord of all races and then defeated more than 200 million fog monsters. This news will probably spread throughout the entire High Continent and even the myriad worlds before long."

"This King of the Blazing Sun... is famous again."

The King of the people of foreign race said with a dark expression.

"Since this King of the Blazing Sun is so powerful..."

"Why don't... we move our countries?"

"Even though the relocation of the parliament will greatly damage the foundation of our countries, it can at least protect the seeds of our countries. It might not be impossible for us to seek revenge from the King of the Blazing Sun when we rise again in the future!"

Another king of the people of foreign race suggested softly.

When the other kings of the people of foreign races heard this, their expressions were either frown, disdain, serious, or deep in thought.

"Don't make such a decision unless you encounter a desperate situation."

"But we can make it our last plan."

A people of foreign race said in the end.

The monarchs nodded.

"This King has another idea."

At this moment...

The King of the Demon Soldier Kingdom said.

"Oh? What do you think?"

The other kings of the people of foreign races looked over.

"Since we can't deal with the enemy, the King of the Blazing Sun, we might as well find other powerful existences to deal with him."

"That King of the Blazing Sun made such a great reputation. At the same time, it means that he has imperceptibly established a huge number of enemies."

"We can completely lure those enemies over and help us deal with the King of the Blazing Sun."

"We can completely lure those enemies over and help us deal with the King of the Blazing Sun."

Towards the end, the Demon Soldier King's voice gradually became ruthless.

"This King feels that we have to do this for the sake of survival and the continuation of the country!"

The other monarchs fell silent.

They widened their eyes and looked at the Demon Soldier King. They did not expect the Demon Soldier King to dare to say such treacherous thoughts.

Lure the Scarlet Fog forces over to deal with the King of the Blazing Sun?

Are you going to be a traitor in our Supreme Will's camp?

However, it had to be said that this could also be a way to resolve their current predicament.

Moreover, it was a very likely method to succeed.

At this moment...

The Fire Spirit Kingdom's King suddenly sneered.

"This King once heard of something. It's said that the ancestor of the Demon Soldier Race was once close to the power of the fog monsters. It's even said that he was the spirit of a weapon of a mighty figure in a fog monster camp."

"Don't tell me you want us to lure the fog monster faction here to lure the Wolf into our house and turn to the enemy!"

Towards the end, the Fire Spirit Kingdom's King's body erupted with blazing scarlet-gold flames. A pair of scarlet-gold fire eyes looked at the King of the Demon Soldier Kingdom with sharp eyes.

"What nonsense are you talking about?!"

The expression of the King of the Demon Soldier Kingdom changed. He stood up and looked at the King of the Fire Spirit Kingdom coldly.

The other kings of the people of foreign races hurriedly persuaded them when they saw this. Only then did they sit down again, but they also did not like each other.

A moment later...

The meeting of the Kings ended.

The 16 monarchs were about to leave.

Just as the Demon Soldier King was about to leave alone,

He suddenly saw a few figures standing in the shadows not far away, as if waiting for him.

The Demon Soldier King narrowed his eyes.

"King of Spiritual Insect Kingdom, King of Dark Soul Kingdom, King of Savage Elephant Kingdom, King of Ground Hill Kingdom..."

"Everyone, are you waiting for me?"

The King of the Demon Soldiers said calmly.

"King of the Demon Soldiers..."

The Spiritual Gu King stood up. It was wearing a colorful Witchcraft King Robe and had seven to eight worm sacs of various colors on its body. Strange insect cries came from inside.

"We're interested in what you just suggested."

"Maybe we can find a place to discuss it in detail."

"I wonder what the King of the Demon Soldiers thinks?"

The Spiritual Gu King said hoarsely.

"Sure."

The Demon Soldier King swept his gaze across these monarchs and nodded slightly.

**Chapter 748: Breaking Through Two Billion! Master God-Tier Talent— Summon the Immortal Sword!**

The next day, Zhou Zhou woke up from cultivation.

He activated the Hand of Wealth and reached into the void to take out two Grandpa Mao.

"If I had this Skill on Earth in the past."

"Even if I can't afford a car or a house, at least I won't have to worry about food and drink every day."

Zhou Zhou lamented.

Then, he put away the two bills.

Then, he walked out of the Advance Grade Lord's Paradise and came to the Gate of Summoning.

Zhou Zhou looked at the huge Gate of Summoning in front of him and chanted the summoning in his heart.

The next second,

The Gate of Summoning suddenly lit up with a bright white light. Then, a large number of new Subjects walked out.

After spending 100 Extraordinary-Tier Mist Cores to accelerate, the 14,700 new Subjects quickly walked out of the Gate of Summoning.

"Greetings, my Lord!" x14,700

The 14,700 new Subjects said respectfully.

"Welcome to Blazing Sun City."

Zhou Zhou smiled.

Then, he asked all the Professionals to stand up and realized that he had summoned a total of 480 Professionals this time.

Among them were one Extraordinary-Tier Intermediate Grade Spatial Archmage, one Extraordinary-Tier Intermediate Grade Holy Light Knight, one Extraordinary Intermediate Grade Martial Artist, one Extraordinary-Tier Intermediate Grade Qi Practitioner, one Extraordinary-Tier Intermediate Grade Array Master, one Extraordinary-Tier Intermediate Grade Army Extermination Knight, and one Extraordinary-Tier Intermediate Grade necromancer!

The rest were Life Professionals and Combat Professionals below Extraordinary-Tier.

"The quality of today's summoning... is so high."

Zhou Zhou looked at the seven Extraordinary-Tier Ultimate Professionals and raised his eyebrows slightly.

Each of their seven Extraordinary-Tier Class could make a Beginner Kingdom faction treat them as VIPs in the outside world.

He did not expect them to appear in front of him together today.

His luck had exploded!

Then, he did not think too much about it and asked the officials beside him to bring them to their respective places of work and life.

After that, he ordered Bai Yun, Wu Xin, and the other generals to gather all the territory soldiers and enter Mu Gu's Ranchland Continent.

A moment later...

Zhou Zhou flew out of the Ranchland Continent with the army and returned to reality.

He looked at the mountain of soldier type recruitment books and soldier type Class Certificates in the King's Treasure Box and smiled.

Then, he did not waste any time and went straight to the Gate of Summoning. He spent 100 Extraordinary-Tier Mist Cores to summon 360 million Violent Storm Spirits and 360 million King Of Yellow Gold.

Zhou Zhou could not help but fall into deep thought as he looked at the recruits standing all over the ground.

With the addition of this batch of recruits, the number of soldiers under his command had officially exceeded two billion, reaching 2,042,074,382!

So many soldiers, he had to find them a place to live.

Otherwise, sooner or later, his King of the Blazing Sun was about to be filled with soldiers.

At that time, the other Subjects would not be able to live normally.

His Blazing Sun Kingdom, as an Extraordinary-Tier regional territory, had a total area of more than 54 million square kilometers.

It looked vast.

However, in such a large area, only about one-tenth of the territory could be used as a residential area.

It was actually barely enough to accommodate two billion soldiers and other Subjects but it would be too crowded.

It would be a little troublesome to place the soldiers in other territories of the Blazing Sun Kingdom.

He had to bring the army out every day.

If they scattered the soldiers, it would waste a lot of time on the round trip. It was not in line with Zhou Zhou's needs.

"Put them in the Galaxy for the time being."

"The interior of the Galaxy is vast. One Galaxy can accommodate a billion soldiers!"

"I have 12 Galaxy under my command now. Even if one of them is reserved for the Heavenly Map Army, the remaining Galaxy is enough to accommodate 10 billion soldiers to live, train, and live."

"However, in reality, we have to build the corresponding barracks buildings."

"We can't let the soldiers live in the Galaxy all the time."

"The foundation of a soldier is still on the ground after all."

Zhou Zhou thought.

"Your Majesty, I'll lead my troops to take down the 16 King Alliance now!"

At this moment...

Bai Yun came to his side and said respectfully.

"How many soldiers are you bringing with you?"

Zhou Zhou asked.

"300 million soldiers!"

"Okay, go."

"Remember to bring a few God Spirits of our country."

"Even though the forces of the 16 King Alliance are far inferior to ours, they should still have some foundation in the God Spirits."

Zhou Zhou said.

"Yes, Your Majesty!"

Bai Yun nodded.

Then, she turned around and left.

Right on the heels of that, Zhou Zhou asked Wu Xin, Feng Luo, and Vicky to lead the remaining veterans and these 720 million new recruits to the surrounding territory of the Knight Empire to train.

Then, he arrived at the Lord Shop.

Then, he saw Zhou Chengmin with dark circles under his eyes and wearing a virtual game Helmet. He was laughing and playing the game gloomily at times.

"Old Zhou."

"Bring the new goods up before I play with you."

Zhou Zhou called him.

"Give me a minute."

"I'm about to be addicted!"

Old Zhou said anxiously and continued to be engrossed in the game world.

Zhou Zhou: "..."

He was not in a hurry. In any case, most of the things he had to do today had been arranged for his subordinates to do. He was not in a hurry for the rest.

A minute later.

Zhou Chengmin put down the virtual game Helmet with regret and satisfaction.

Then, he quickly walked in front of Zhou Zhou.

"Thank you, Your Majesty, for distributing 10,000 virtual game Helmets in advance and letting me feel the joy of having teammates!"

Zhou Chengmin chuckled, looking like an old urchin.

Zhou Zhou was stunned.

Then, he reacted.

Yes, he had given Yu Ling 10,000 virtual game Helmets. It seemed that she had already taken them back and distributed them yesterday.

"You saw Yu Ling?"

"Yu Ling? That little girl? I saw her."

Zhou Chengmin nodded. "But she only went online for a while before going offline and leaving."

Zhou Zhou nodded and did not ask further.

Then, Zhou Chengmin took out three golden boxes from under the counter.

In the first box was a Yellow Gold-Tier Advance Grade accessory equipment.

In the second box was a weapon.

It was the Enhanceable weapons that the Ghost God had given Luo Sheng—the Ghost God Demon Slaying Halberd!

Unfortunately, even though this Ghost God Demon Slaying Halberd had a good growth rate and could grow to a Low-Tier Deity Level Elementary Grade divine artifact,

But firstly, Zhou Zhou did not lack Low-Tier Deity-level divine artifacts.

Secondly, this Ghost God Demon Slaying Halberd lacked the Ghost God On Earth Skill that attracted Zhou Zhou the most, so it was even less attractive to him.

Therefore, Zhou Zhou was really not interested in this divine artifact.

However, Zhou Zhou was still willing to buy it with the Mist Core if the price was not high.

Then, Zhou Zhou took a deep breath and his gaze landed on the last item.

It was a golden Talent Crystal.

Zhou Zhou looked at it.

[Talent: Summon the Immortal Sword]

[Talent Effect: A life form with this talent is born a favorite of the Sword Dao Law. The Sword Dao Law will personally forge a perfect Enhanceable Intrinsic Divine Sword for the owner of this talent.]

"It's here! This talent!"

Zhou Zhou looked excited.

Then, he looked up at Zhou Chengmin.

"How much are these three goods worth?" He asked.

"That Yellow Gold-Tier Advance Grade accessory, the Bright Jade Pendant, is worth 20 Yellow Gold-Tier Mist Cores."

"Enhanceable weapons—Ghost God Demon Slaying Halberd. It's worth 100 Legendary-Tier Mist Cores."

"Master God-Tier Talent— Summon the Immortal Sword is worth 10 million Legendary-Tier Mist Cores!"

When Zhou Zhou heard this, the corners of his mouth could not help but twitch even though he was already prepared.

A Master God-Tier talent worth 10 million Legendary-Tier Mist Cores...

[Global Lord: 100% Drop Rate](#)

**Chapter 749: Enhanceable Divine Artifact— Regal Sacred Dao Sword!**

Alright, it was actually acceptable.

The profits from the Monster Ranch's Mist Cores this morning alone had reached nearly 30 million Legendary-Tier Mist Cores after all!

It was naturally not a problem to take out a third to buy a Master God-Tier talent.

Zhou Zhou did not waste his breath. He took out a Spatial Ring and threw it to Zhou Chengmin.

"Boss is generous!"

Zhou Chengmin took it and read it. Then, a smile immediately appeared on his face.

Zhou Zhou did not reply and left with the three goods.

...

In a study room in the Advance Grade Lord's Paradise.

In a cultivation room.

Zhou Zhou looked at the three goods he had just brought back from the Lord Shop and naturally ignored the Yellow Gold-Tier Advance Grade accessory.

He also casually put away the growth weapon, the Ghost God Demon Slaying Halberd, prepared to reward any general he liked with it in the future.

Then, his gaze landed on the last Summon the Immortal Sword Talent Crystal.

Zhou Zhou picked up the Talent Crystal and took a deep breath. Then, he chanted to absorb it.

The next second, the golden Talent Crystal suddenly shattered into countless golden light spots and flew into Zhou Zhou's glabella.

Zhou Zhou was already familiar with this scene. He watched calmly as the light spots fused into his glabella and fused with the soul in his glabella sea of consciousness.

Zhou Zhou's sea of consciousness was enveloped in a vast chaotic airflow, revealing a chaotic color.

His soul was also chaotic. At this moment, he was sitting cross-legged in the center of the chaotic airflow, allowing it to revolve around him. From time to time, it would rush into his soul and turn into nourishment for his soul to grow.

This scene looked as if Zhou Zhou's soul was a Chaos Ancient God guarding the Chaos.

After the golden light fused into the soul body, Zhou Zhou's originally chaotic soul actually emitted a faint golden light.

At this moment...

A sudden mutation occurred!

A huge golden divine dragon head suddenly broke through the chaotic airflow and appeared in front of Zhou Zhou.

Zhou Zhou looked at it calmly.

The unknown golden divine dragon head also lowered its head and looked down at him.

"Who are you?"

Zhou Zhou asked.

"You are qualified to know my name."

"I am the number one dragon in the world..."

"Regal Dragon—Ao Zun."

The Regal Dragon—Ao Zun looked at Zhou Zhou with his golden and dignified dragon eyes and said in a rumbling voice.

Zhou Zhou's body trembled.

Regal Dragon—Ao Zun?!

The legendary dragon race!

It was an existence on the same level as the Extreme World Honored Dragon that he had seen before!

Moreover, he naturally did not forget that the Emperor Dragon Robe he was wearing was created with this big shot's inspiration.

'That's not right.'

From its words, "His" level was probably much higher than the Extreme World Honored Dragon!

Such an existence basically disdained lying, so what "He" said should be true.

"Is Your Excellency Ao Zun here for my Intrinsic Immortal Sword?"

Zhou Zhou asked.

"There's no need to say anything else."

"Prepare to accept your Immortal Sword."

The Emperor Dragon—Ao Zun did not say anything else. After saying this, he suddenly roared at the sky.

"Roar!!!"

At this moment, the world shook!

With the Blazing Sun Kingdom's territory as the center, and all the living beings in a radius of a trillion kilometers heard this soul-shocking dragon roar in their hearts.

This dragon roar seemed to contain supreme dignity. When all the living beings heard this dragon roar, those with weak will could not help but kneel down.

Even if one's will was strong, they could only barely maintain not to kneel, but his face revealed extreme shock.

"What happened?"

"Is this a dragon roar?"

"What kind of dragon can emit such a terrifying dragon roar?"

"It's the dragon roar of the Legendary Dragon Race?! A Legendary Dragon Race has descended upon the High Continent?!"

...

When the dragon roar gradually disappeared, all the living beings gradually recovered from it.

Then, they started discussing fervently.

Some life forms were puzzled, some were afraid, some were excited, and some were worried...

Of course, there were also some life forms who could tell that this dragon roar came from the legendary Mythical-Tier dragon.

There were even some existences who could tell that this was the roar of the Emperor Dragon.

"The appearance of the Emperor Dragon..."

"Could it be... that a new Regal has appeared?!"

They muttered.

...

Blazing Sun Kingdom.

In Advance Grade Lord's Paradise.

Zhou Zhou opened his eyes.

"I didn't expect that

the talent of Summon the Immortal Sword actually attracted the appearance of a mighty figure like the Regal Dragon."

"Was Chi Xuantian like this back then?"

"I don't think so..."

"Chi Xuantian's Summon the Immortal Sword summoned the Scarlet Mystic Immortal Sword."

"And mine is..."

Zhou Zhou raised his right hand.

A dazzling golden sword appeared in his hand.

The hilt of the golden sword was carved with a high-spirited and domineering Regal Dragon.

The sword body was like autumn water, looking reflective.

The blade was extremely sharp.

Just being exposed to the air naturally caused dark and deep spatial cracks to crack in the space around the blade. It could not even heal.

Just as it was about to heal, it was cut into pieces by the sharp sword energy that pounced on it again.

A supreme emperor's aura appeared from the divine sword.

He felt extremely oppressive just by approaching it.

"This is..."

"The Regal Dragon Sacred Dao Sword?"

Zhou Zhou muttered.

[Divine artifact Name: Regal Sacred Dao Sword]

[Divine artifact Grade: Legendary-Tier Elementary Grade - Enhanceable]

[Divine Artifact Law One— Regal Prestige: As a Regal recognized by the Legendary-Tier Dragon Race— Regal Dragon, you will naturally have supreme pressure when you control the Regal Sage Dao Sword. Any existence in front of you will feel an extremely strong pressure. At the same time, the pressure on any existence will not cause any negative impact on you. You can take the initiative to activate and turn off the Effect of this divine artifact Law.]

[Divine Artifact Law Two— Regal Charm: You are a natural Regal recognized by the Legendary-Tier Dragon Race— Regal Dragon. You have an indescribable extreme temperament and Charm. When you persuade others to submit to you, they will easily submit to your temperament and Charm and be willing to serve you until they die. When you want to do something, your subordinates will help you with all their might. Your enemies might even defect from their faction and become your subordinates.]

[Divine Artifact Law Three— Regal Luck: As a natural Regal, your luck exceeds 90% of the life forms in the world. You will often encounter good luck in your daily life. When you encounter danger, it will be easier for you to turn misfortune into fortune.]

[Divine Artifact Law Four— Destiny Regal: As a natural Regal, you are extremely compatible with the Regal Law. When comprehending the Regal Law, your comprehension ability will increase by 10 times!]

[Divine Artifact Law Five— Regal Dragon Protection: When a natural Regal encounters a fatal threat, you can summon the Regal Dragon itself and personally protect yourself once. However, you can only summon it once. After this time, this divine artifact Law will disappear permanently.]

[Prompt One: The soul has been forced to recognize you as its master. It cannot be removed.]

[Prompt Two: As the grade of the Regal Sage Dao Sword continues to increase, the effects of its various divine artifact laws will also increase in Enhancement. It can be upgraded to a Master God-Tier Advance Grade!]

After Zhou Zhou saw the Effect of the Regal Sage Dao Sword's divine artifact Law, he could not help but gasp in shock.

Then, he was overjoyed.

As expected of a Master God-Tier Lord Talent!

Not to mention giving him a divine artifact with top-notch growth potential,

The effect of this divine artifact was also extremely powerful!

There was no need to mention the abilities of the first few divine artifact Laws.

The fourth divine artifact law ability, the Destiny Regal, made Zhou Zhou unable to help but be overjoyed.

This was because this was the ability he needed the most!

The Regal Law was the Lord Law!

For the past two days, he had been worried about how to speed up the comprehending of the Lord's Law.

Now, he was actually given a buff that specialized in comprehending the Lord's Law.

It would be strange if Zhou Zhou was not pleasantly surprised.

Not to mention the last Regal Dragon's protection, a divine artifact Law ability.

Tsk tsk.

The Regal Dragon itself had appeared to protect him.

That was a Regal Dragon.

It was at least a Master God-Tier existence!

If "He" could personally appear to protect him, no one in the myriad worlds other than the Supreme Will and the Crimson Overlord should be able to hurt him.

Even though he could only use the Regal Dragon's protection once,

it would not be able to hide the power of this divine artifact law.

### **Chapter 750: The Favor Of The Two Emperors**

Zhou Zhou stood up and hung the Regal Sacred Dao Sword on his waist.

Then, he looked at the sword on his waist and could not help but laugh.

This was because he had a total of three swords hanging on his waist.

One of them was the Race divine artifact of the Cerulean Planet's human race—the Sword of Xuan Yuan!

The second was a True Divine artifact—Sword Of New Dimension Creation!

The third was the Regal Sacred Dao Sword he had just obtained!

Any one of these three divine swords would be enough to make countless life forms go crazy in the outside world, even God Spirits.

However, they were all hanging from Zhou Zhou's waist and looked a little crowded.

Zhou Zhou was not worried that the three divine swords would be lost because they were already soul-bound to him. He could sense their location even if they were billions of kilometers away. With a thought, the three divine swords would transmigrate and appear in front of him.

Unless someone used some special seal to isolate Zhou Zhou from the divine sword after it was stolen, it would basically not be lost.

However, if there was really an enemy who could personally take down the divine sword from him, at that time, Zhou Zhou would probably be unable to protect himself, so it did not matter if he lost the divine artifact or not.

"But..."

"It's still a little ostentatious."

Zhou Zhou muttered to himself.

Then, he willed.

The special divine sword aura on the Sword of Xuan Yuan and the Regal Sacred Dao Sword gradually disappeared, making them look like two ordinary sword accessories.

As for the Sword Of New Dimension Creation, Zhou Zhou did not even need to care about it. It was usually in a state of seclusion. Only when he used it personally would it reveal the terror of its True God-Tier Divine Artifacts. Therefore, he did not have to worry about others being able to tell that this divine sword was special.

At this moment...

Zhou Zhou suddenly saw a new message in his friend list.

Until now, Zhou Zhou also had many friends in his friend list.

However, in order to avoid being disturbed, Zhou Zhou set most of his ordinary friends to receive messages but not alert him. Only some good friends would be set to receive messages and alert him, such as Ling'er, Li Ya, Zheng Yuanqi, Bai Yun, Wu Xin, Chi Xuantian, Guo Qiao, and the others.

However, those who were on good terms with him usually did not send him messages because they would come over to see him directly because they had something on.

Therefore, Zhou Zhou was quite surprised to see this news.

Then, he realized that the person who sent the message was none other than Yu Ling.

She had added him as a friend through the Knight Empire Camp Channel. Now, she was also sending him a message through this friend slot.

[Yu Ling: Zhou Zhou, Uncle Lu brought the God Spirits to our Knight Empire. Do you want to come over?]

[Blazing Sun Kingdom—Lord of The Blazing Sun: I'll go over in a while.]

[Yu Ling: Alright, tell me when you arrive. I'll pick you up.]

[Blazing Sun Kingdom—Lord of The Blazing Sun: Okay.]

Zhou Zhou closed the chat box and stood up to head to the Knight Empire.

Actually, he had the idea of going to the Knight Empire today. Yu Ling's news gave him a reason to go.

...

A moment later...

Zhou Zhou arrived at the capital of the Knight Empire through the Spatial Teleportation Array.

As soon as he walked out of the teleportation array, he saw Yu Ling waiting not far away.

"I'm here."

Zhou Zhou walked over and patted her shoulder.

"You're here! Let's go. I'll bring you to see my King Father and Uncle Lu."

When Yu Ling saw Zhou Zhou, a look of surprise flashed across her eyes. Then, she pulled him towards the Imperial Palace.

Zhou Zhou looked at his right hand that was being held tightly by the other party and pondered for a few seconds. He did not say anything and let her pull him towards the capital.

At the same time, Yu Ling, who was pulling Zhou Zhou along, was blushing while pretending to look calm, as if nothing had happened.

However, after running for a while, Yu Ling could not help but look at Zhou Zhou.

She took a look and turned back.

Then, she could not help but take a second look.

The third look...

The fourth look...

She looked at Zhou Zhou in a daze, unable to look away.

Zhou Zhou: "..."

Who would understand?

"Zhou Zhou, why do I feel that you're even more handsome than before... And you seem to have a better temperament..."

Yu Ling said in a daze.

At this moment, she felt that Zhou Zhou was shining.

This light was so dazzling.

As a result, she felt that it would probably be difficult for her to accommodate other men in the future.

This was because no matter how outstanding the other men were, they would probably not be able to surpass the man in front of him.

Zhou Zhou looked at Yu Ling's condition and then at the Regal Sacred Dao Sword at his waist.

Was this sword strength so strong...

Well, he had the top appearance and temperament of a Celestial Appearance to begin with.

Now, coupled with the enhancement of the Regal Charm, and his current charm, even the Goddess of Life would have to call him her husband if she was here personally...

Ahem.

Even though this example was a little exaggerated, it was not far off.

Hm?

Zhou Zhou looked up in a certain direction without leaving a trace. Then, his expression returned to normal.

At the same time, just as Yu Ling brought Zhou Zhou to the Imperial Palace to meet the two Emperors, at this moment, the two emperors were also looking at the two of them through an illusory water mirror in a hall.

"Haha, Old Ji, it seems that your daughter is already deep in love."

Lu Zhen pointed at the two people in the illusory water mirror and laughed at a tall and handsome emperor beside him.

This Emperor was no one else.

It was the Empire Lord of the Knight Empire, Ji Yun.

"My daughter has grown up. I can't control her anymore..."

Ji Yun smiled bitterly.

"Come on, don't pretend to be obedient after taking advantage."

Lu Zhen rolled his eyes at Ji Yun. Then, he pointed at Zhou Zhou in the water mirror and sighed seriously.

"This kid is the most outstanding Lord among the Lords of our human race."

"Even among the abnormal Lords of all races, he has made a name for himself."

"Moreover, both you and I know how his territory is developing."

"If you're not satisfied with your future son-in-law, you can give him to me. There are still some descendants of national beauties among my direct bloodline."

"As for feelings... there will always be nurturing."

Lu Zhen chuckled, his tone carrying a rare hint of seriousness.

When Ji Yun heard this, he glanced at him and said,

"Haven't you always liked to let your children and juniors freely choose the love they want?"

"Why do you suddenly want to force a match?"

"Haha."

"With this kid's appearance."

"Who wouldn't fall in love with him when they see him?"

"What's wrong with a forced match?"

"Do you believe that even if I bring over the girls who have long had someone they like among my descendants, they will immediately fall in love with Zhou Zhou once they lay their eyes on him? Then, they will have to thank me, their ancestor, for finding them a good husband that is hard to find in the world."

Lu Zhen pursed his lips.

Ji Yun stopped talking.

The more "He" looked at Zhou Zhou's appearance in the water mirror, the more "He" felt that what Lu Zhen said was very likely to happen.

"Such appearance and temperament are rare in the world."

"How did the heavens give birth to such a monster?"

"This is too unfair to other life forms."

Ji Yun shook his head.

"With his appearance and temperament, he can easily make a name for himself in this world even if he doesn't have anything else."

Lu Zhen also sighed.

The two emperors fell silent for a while.

"My daughter knew Zhou Zhou first. Don't do anything rash!"

Ji Yun suddenly said.

"So what if they got to know each other first? Is your daughter allowed to know him but not my daughter and my great grand-daughters?"

Lu Zhen said disdainfully.

"Aren't you ashamed?! Does Sword Emperor Fuyou know what you're like?"

Ji Yun was pissed off.

"He travels the Immortal World and is free and happy every day. How can he have the time to care about me?"

Lu Zhen said.

Then, the two of them started arguing without giving in.

"Your Majesty, Princess Yu Ling, the King of the Blazing Sun requests an audience."

At this moment...

The respectful voice of an attendant suddenly came from outside the hall.

The two emperors, who were arguing and fooling around, instantly returned to their upright postures, as if nothing had happened.
