Chapter 751: Two Faction Quests!

"Ahem."

"Let them in."

Ji Yun's voice returned to its previous dignity.

Soon, Zhou Zhou and Yu Ling walked in under the lead of the attendant.

"Greetings, Your Majesty!" x2

"Greetings, King Father!"

The two of them said respectfully and led the way.

"No need for formalities."

Ji Yun sized up Zhou Zhou, the more he looked at him, the more satisfied he became.

"Zhou Zhou, it's already the sixth day of the King of Ten Thousand Kings event. How do you feel? Is there anything difficult?"

"Oh yes."

"How's the situation in your Blazing Sun Kingdom? How many fog monster armies are around your Blazing Sun Kingdom?"

"He" asked with concern.

"There's nothing difficult about it."

"It's just that I don't have enough faction points."

"As for the Blazing Sun Kingdom, other than an Empire-level Scarlet Army that came the day before yesterday and was destroyed by my troops, I haven't discovered any other Scarlet Army."

As Zhou Zhou spoke, he sized up the Emperor of the Knight Empire.

Even though he had long known what this emperor looked like through Wu Tu's information, this was the first time he had seen it in reality.

At the same time, the two emperors were also secretly clicking their tongues.

Why did destroying an Empire-level Scarlet Army sound so light coming from him...

"Not enough faction points?"

Ji Yun thought for a moment and said,

"Perfect."

"Today, the Emperor of the Divine Sword Empire brought six God Spirits to me, preparing to deal with the few Scarlet God Spirits surrounding the Knight Empire with me."

"I remember that your Blazing Sun Kingdom also has a few God Spirits."

"Why don't you bring it over and slaughter the Gods with us? During this process, I'll distribute a different number of faction points to you according to your performance. How about that?"

"Of course."

"The Loots belong to whoever kills the Scarlet God Spirits during the God Slaying process."

"If we work together to kill the Scarlet God Spirits, the loots extracted will be distributed according to your contributions."

"How is it?"

Ji Yun said.

"Thank you, Your Majesty!"

Zhou Zhou immediately said.

He could tell that this Emperor of the Knight Empire did not expect him to contribute much during the God-Slaying process. He was probably just looking for a reason to give him faction points.

What a good person!

"Count me in."

"At that time, follow me back to the Divine Sword Empire and help me deal with the Scarlet God Spirits surrounding our Divine Sword Empire."

"I won't mistreat you in terms of faction points."

Lu Zhen also smiled.

As soon as he finished speaking, lines of Quests notifications appeared in front of him.

Zhou Zhou's eyes lit up when he saw the Faction Quests.

This faction mission rewarded him with enough faction points.

Then, he suddenly thought of something and frowned.

"Why don't you look very interested?"

Ji Yun asked curiously when he saw his expression.

Could this kid be looking down on the points for these Faction Quests?

"It's not that I'm not interested."

Zhou Zhou shook his head.

Lu Zhen and Ji Yun looked at each other and could tell that the other party was hiding something.

However, since the other party did not want to tell them, they did not ask.

On the other side, Zhou Zhou looked at the Faction Quests in front of him and sighed inwardly.

As the Lord of All Races that was most valued by the human race, he could obtain such top-notch Faction Quests with many faction points from the Knight Empire and the Divine Sword Empire.

What about the True Lord, the God Shepherd Lord, the Great One Lord, and the other top Lords?

As the top Lords of all races, there must be countless Empire-level Lord factions rushing to give them top-notch Faction Quests.

It was definitely impossible for him to surpass the True Lord and the others in Faction Quests.

He still had to earn extra money.

Zhou Zhou thought to himself.

After dealing with all the Faction Quests on the Knight Empire and the Divine Sword Empire's side, he would use the Eye of The Heaven's Anger as the foundation to hunt those fog monsters that the Supreme Will hated.

Earning extra income was much more efficient than doing official Faction Quests.

"Your Majesty, I want another Faction Quests."

Zhou Zhou thought for a moment and suddenly said to Ji Yun.

Lu Zhen and Ji Yun were stunned. Then, not only were the two of them not unhappy, but an extremely obvious smile appeared on their faces.

"Tell me quickly!"

"We can help you as long as it doesn't violate the Supreme Agreement and can help you increase your ranking among the myriad races!"

Ji Yun said seriously.

This was also why "He" was not angry when "He" heard Zhou Zhou's sudden request. Instead, "He" was happy.

They were not afraid of Zhou Zhou's request.

She was afraid that Zhou Zhou would not have any requests to make!

This was because it was very likely that Zhou Zhou no longer had a way to continue increasing his ranking.

"My soldiers are training around the Knight Empire. From the beginning of the training until today, my soldiers have eliminated more than 300 million fog monsters."

"I—"

Lu Zhen and Ji Yun understood what he meant before he finished speaking.

Ji Yun immediately said solemnly,

"I'll give you another Faction Quest!"

"Currently, there are many fog monsters around our Knight Empire. Not only are these fog monsters seriously threatening the lives of my Subjects, they also severely affect the external trade and development path of the Knight Empire."

"I hope that you and your Blazing Sun Kingdom can kill these fog monsters so that my Knight Empire can reproduce the peaceful scene before the calamity of all races."

"I will send the reconnaissance army of the Knight Empire to help you investigate where a large number of fog monsters are gathered so that you can save time searching for them in order to help you successfully complete this Faction Quests."

As soon as he finished speaking, a text notification appeared.

[The Lord of the Knight Empire Faction—Ji Yun has issued a Faction Quest to you.]

[Faction Quests Name: Eliminate the fog monsters]

[Quality of Quests: Mid-Tier Deity-level Elementary Grade]

[Quest Description: The Lord of the Knight Empire faction—Ji Yun feels that the fog monsters currently in the surrounding territory of the Knight Empire are seriously threatening the territory of the Knight Empire and the safety of the Subjects.

In order to resolve this problem, Ji Yun hope that you could kill these fog monsters (312,561,564/1,000,000,000) and return the Knight Empire to its former peace.

Even if this peace was very limited.

Mission Reward: 500 million faction points]

...

Zhou Zhou looked at the simple and crude Faction Quests and finally smiled.

[Global Lord: 100% Drop Rate](#)

Chapter 752: Deal

Zhou Zhou's greatest motive for coming to the Knight Empire this time was actually for this Faction Quests.

Otherwise, wouldn't he not be able to earn any faction points after killing so many fog monsters during his training in the past two days?

Zhou Zhou would not make such a loss.

He had to squeeze the value of so many dead fog monsters to the maximum no matter what.

It had to be said...

500 million faction points was already quite high.

It was already comparable to the faction points he obtained from killing 10 fog monsters that were hated by the Supreme Will.

This trip was not made in vain!

"Put aside the fog monsters my soldiers have dealt with."

"There are still more than 600 million fog monsters left."

"At the speed at which my soldiers train."

"As long as nothing goes wrong, we should be able to deal with these fog monsters in three to four days or even more."

"Use a few days to exchange for 500 million faction points and it would be a huge profit!

Zhou Zhou was very satisfied and did not think too much about it. After telling the two Emperors and Yu Ling that he would look for the God Spirits in the territory, he left the hall and prepared to look for Wu Xin.

This time, Zhou Zhou planned to bring a few powerful God Spirits with him to hunt Scarlet God Spirits with Lu Zhen and the others.

He currently had six Scarlet God Spirits under his command.

Other than Vicky, Feng Luo, and Chi Xuantian brought by Bai Yun,

Currently, the God Spirits around the territory of the Knight Empire were: Haros (High-Tier Deity-level Elementary Grade), Ze Wu (Mid-Tier Deity-level Elementary Grade), Guo Qiao (Low-Tier Deity Level Elementary Grade).

Zhou Zhou prepared to bring Haros and Ze Wu along and let Guo Qiao guard Wu Xin and the veterans and recruits alone.

Even though Guo Qiao only had the strength of a Low-Tier Deity Level Intermediate Grade,

However, if "He" was forced to activate the Dragon Slaying Will, "His" strength could directly increase to the High-Tier Deity-level Intermediate Grade!

Even Haros and Chi Xuantian might not be able to defeat "He" with such strength.

In addition, Wu Xin had also mastered the Small God-Sura Myriad Spirit Army Formation. His combat strength was comparable to a Low-Tier Deity.

Coupled with the terrifying speed of the Galaxy, they had no problem protecting themselves and escaping.

Even if they encountered a life-threatening danger, they could just inform him directly. He could either fly back on the Galaxy or return through his Return To The City talent. He could immediately support them and resolve the danger they might encounter.

"Zhou Zhou"

Just as Zhou Zhou was thinking.

Yu Ling's voice came from behind him.

Zhou Zhou was stunned.

He turned around and saw Yu Ling jogging towards him.

"What's wrong, Yu Ling?"

Zhou Zhou asked.

"Do you still remember what I told you yesterday? It's about buying the Galaxy. I told my King Father when I came back. He agreed."

After saying that, Yu Ling carefully took out a Spatial Ring from her waist and handed it to Zhou Zhou.

"There are a total of five materials needed to make the Galaxy, as well as the cost of making 500 Low-Tier Deity Level Intermediate Grade Divine Crystals."

"I'll leave them to you."

"I wonder when I can finish making it?"

Yu Ling asked expectantly and nervously.

With so many God-Tier materials and 500 Low-Tier Deity Level Intermediate Grade Divine Crystals, it was a considerable wealth even for the Knight Empire. She could not help but be cautious.

Zhou Zhou did not say anything. Instead, he first sent his consciousness into the Spatial Ring. Then, he quickly saw a mountain of spaceship manufacturing materials and 500 Low-Tier Deity Level Intermediate Grade Divine Crystals.

Zhou Zhou put away the Spatial Ring.

His expression did not change, but he was very happy.

So many God-Tier materials for the Galaxy were enough to make 10 Galaxies.

Even if he had to give five to the Knight Empire, he could still have five left and earn 500 Low-Tier Deity Level Intermediate Grade Divine Crystals.

"About three days."

"In three days, I'll personally send you 10 Galaxy."

Zhou Zhou said.

"Three days? So fast?!"

Yu Ling's eyes widened.

She thought that such a God-Tier spaceship would take at least half a year or even a year to build.

Zhou Zhou nodded.

Each of the 10 Galaxies given by the Lord Talent had its own Galaxy Low-Tier Deity Level Elementary Grade Manufacturing Factory.

In other words, it was a spaceship factory that specialized in making the Galaxy and its exclusive intelligent life forms.

To Wen Ya, who controlled all the Galaxy,

As long as there were enough materials, "He" could completely use these 10 spaceship factories to build the Galaxy in an assembly line.

Under such circumstances, it would only take half a day.

Wen Ya could assemble a Galaxy through a Galaxy Star God manufacturing factory.

In the remaining two and a half days, it was the time Wen Ya had to process and modify these raw materials.

"Then I'll tell my King Father this news now."

"Oh yes."

"If Uncle Lu Zhen asks, can I tell him about this too?"

Yu Ling was about to leave when she suddenly thought of this and turned around to ask Zhou Zhou.

"Of course."

"You don't have to keep this a secret."

"If you can introduce me to more customers, I can give you a 30% discount the next time you book the Galaxy from me!"

Zhou Zhou immediately nodded.

He could not wait for this matter to spread throughout the entire human race.

When the time comes...

He shouldn't have to worry about the materials for the Galaxy.

He might even be able to use this matter to turn it into a long-term profitable national industry.

"Really?!"

Yu Ling's eyes lit up.

"For real!"

Zhou Zhou nodded seriously.

"Then just wait for my results!"

"I'll go back first!"

Yu Ling hurriedly left.

He could tell that she valued this matter very much.

Zhou Zhou did not stay any longer. After leaving the capital, he took out a Galaxy from his internal world and handed all the materials that Yu Ling had given him to Wen Ya. He asked her to order 10 Galaxy to build the Galaxy at the same time. This way, he could obtain 10 Galaxies in three days.

Then, he piloted the Galaxy straight to Wu Xin's location.

...

In the northwest of the Knight Empire.

Wu Xin was leading more than 1,742 million Blazing Sun Kingdom soldiers and more than 65 million soldiers under the command of the Star Alliance Master to eliminate all the fog monsters they encountered along the way.

As everything was about killing the fog monsters and increasing the strength of the recruits under their command, Wu Xin and the others did not occupy a few low-level regional territories along the way. Instead, they chose to continue hunting the fog monsters elsewhere to increase the strength of the recruits with the greatest efficiency.

Under the radar function of the Galaxy's powerful Low-Tier Deity Level Elementary Grade, the fog monsters within a radius of billions of kilometers of the Galaxy had nowhere to hide. They were discovered by the radar and then eliminated by the soldiers of the Blazing Sun Kingdom who rushed over on the Galaxy.

How did it feel to have a total of 1.8 billion soldiers kill all the fog monsters in the range of the spaceship's radar?

Wu Xin could be very honest.

If there was one word to describe the current situation.

Awesome!

This invincible war method that could be said to be sweeping even made a veteran like him, who had been on the battlefield for a long time, feel the hot blood in his chest stir.

"Maybe in less than two days."

"We'll sweep through more than 90% of the normal fog monsters surrounding the Knight Empire."

Wu Xin thought.

[Global Lord: 100% Drop Rate](#)

Chapter 753: Killing The High-Tier Deity-level Intermediate Grade Scarlet God Spirit!

One had to know that yesterday, they had only led more than 800 million soldiers to eliminate nearly 200 million fog monsters.

Today, he had brought a total of 1.8 billion soldiers. As long as no High-Tier Deity-level Scarlet God Spirits appeared to stop them, it was not impossible for them to destroy 400 to 500 million fog monsters today.

To other factions, even if they had 1.8 billion soldiers, they might not be able to do this.

This was because they could not quickly reach another location where the fog monster army was.

However, the Galaxy's terrifying speed and powerful radar search function allowed their Blazing Sun Kingdom to make up for this shortcoming, allowing their efficiency in destroying the fog monsters to reach an astonishing level.

That was why Wu Xin was confident that they could deal with all the fog monsters surrounding the Knight Empire in two days.

"Old Wu, do you have wine?"

At this moment...

Guo Qiao walked over and said.

His face was red, and he smelled of alcohol as he spoke. It was obvious that he had drunk a lot.

"We've killed too many people in the past two days."

"We might encounter Scarlet God Spirits coming to take revenge at any time now. Can you drink so much wine at this time?"

Wu Xin looked at him and said helplessly.

He preferred military discipline and strict teams.

Therefore, he actually did not like Guo Qiao being like this.

However, even though Guo Qiao was in the Blazing Sun Army, he was actually not under anyone's control.

As someone with High-Tier Deity-level combat strength, Guo Qiao only needed to personally deal with powerful enemies when they appeared. In other aspects, even Zhou Zhou did not ask much of him.

Wu Xin also knew about this.

Therefore, he could not say anything to Guo Qiao.

"Haha, Old Wu, you don't understand. As a traditional Dragon Slayer, wine is a treasure to me to increase my combat strength!"

"You see, I'm drinking. Actually, I'm already prepared to fight at any time."

Guo Qiao smiled drunkenly.

After saying that, he burped.

The corners of Wu Xin's mouth twitched.

He hesitated for a moment and took out a jar of wine from his Spatial Ring.

As soon as the wine came out, an extremely mellow wine fragrance dissipated.

Guo Qiao's eyes lit up.

"This is my precious good wine. It's called 'Twilight in the Cup'. I can't bear to drink it myself. You have to take it easy..."

Before he could finish speaking.

He suddenly felt that his hand was empty. Then, he realized that his treasured Twilight in the Cup had already disappeared.

He looked up and realized that it had indeed fallen into Guo Qiao's hands.

"Good wine! Good wine!"

"I knew that this wine was extremely good when I smelled it! Burp ~ Thank you, Big Brother Wu..."

"Wu Xin!"

If he did not have any alcohol, he was Old Wu, if he had alcohol, he became Old Brother Wu, right?

Just as he was about to say something...

He suddenly saw Guo Qiao's expression change.

"Enemy has appeared!"

Guo Qiao carefully placed the wine on the table at the side and pulled out his two axes from behind. His eyes gradually turned bloodshot. "You interrupted my drinking. What a damn fellow. See if I don't cut "He" into meat filling!"

"Old Wu, leave the wine for me. I'll come back after killing a Scarlet God Spirit!"

As soon as he finished speaking, Guo Qiao had already rushed out of the Galaxy at an astonishing speed and flew in a certain direction outside it.

Wu Xin also came back to his senses.

"Galaxy Six, who was the enemy that His Excellency Guo Qiao mentioned just now?"

He said calmly.

In Galaxy No.6.

Even though the intelligent life form he was riding on the Galaxy was created by Wen Ya and was under her jurisdiction,

[Captain.]

[From the direction where His Excellency Guo Qiao flew, the enemy "He" mentioned should be a High-Tier Deity-level Intermediate Grade Scarlet God Spirit that had just entered the range of our radar.]

Galaxy No.6 said.

"A High-Tier Deity-level Intermediate Grade Scarlet God Spirit?!"

Wu Xin raised his eyebrows slightly.

Even after Guo Qiao erupted with the Dragon Slaying Will, he only had the strength of a High-Tier Deity-level Intermediate Grade. Moreover, it did not last long.

Facing a Scarlet God Spirit of the same combat strength, Guo Qiao was actually in a certain danger.

"Invite His Excellency Haros and His Excellency Ze Wu to help His Excellency Guo Qiao. Don't let "Him" fight alone."

Wu Xin ordered.

[Okay, Captain.]

Galaxy No. 6 fell silent after saying that.

More than 10 seconds later.

Its voice sounded again.

[Reporting to the captain, His Excellency Haros and His Excellency Ze Wu have been informed. The two of them have already gone to support His Excellency Guo Qiao.]

As soon as he finished speaking,

A virtual screen appeared in front of "Him".

Haros and Ze Wu turned into two streams of light and flew quickly in Guo Qiao's direction. They quickly met up with him.

However, when the High-Tier Deity-level Intermediate Grade Scarlet God Spirit saw this scene, it was immediately shocked and turned to escape.

Guo Qiao and the others did not have any way to stop him and could only watch him escape.

Wu Xin, who saw this scene through the virtual screen, sighed slightly.

Then, he comforted himself.

It was acceptable to scare them away.

As long as they did not stop him from training and completing the mission given to him by His Majesty.

At this moment...

He suddenly saw something and his eyes were filled with surprise.

...

More than 100 kilometers away, Guo Qiao, Haros, and Ze Wu were looking at the fleeing Scarlet God Spirit.

Haros and Guo Qiao were fine.

The two Gods did not have enough desire to fight at this moment.

However, Guo Qiao was different.

"F*ck, a dignified High-Tier Deity-level Scarlet God Spirit ran like a rat when it saw the two of you coming!"

"Stop and fight me if you have the ability. I'm willing to fight you one-on-one!"

Guo Qiao was drunk and angry.

Haros and Ze Wu looked at each other and smiled.

This was the first time they had encountered a Low-Tier Deity Level Intermediate Grade God Spirit as reckless as Guo Qiao.

"Come on."

Just as the two Gods were about to return to the spaceship.

"Your Majesty!"

Guo Qiao suddenly looked into the distance in surprise.

Then, "He" laughed out loud. Then, "He" activated the Dragon Slaying Will and suddenly increased his strength from the Low-Tier Deity Level Intermediate Grade to the High-Tier Deity-level Intermediate Grade. Then, "He" rushed over.

When Haros and Ze Wu heard Guo Qiao's shout, they hurriedly turned around and saw Zhou Zhou standing more than 10 kilometers away from the High-Tier Deity-level Intermediate Grade Scarlet God Spirit that had just escaped.

Beside him was another High-Tier Deity-level Intermediate Grade Scarlet God Spirit.

It was Gerard, the High-Tier Deity—Intermediate Grade Scarlet God Spirit he had summoned with The Pillar of The Empire Puppet!

At this moment, the two of them were forcing the fleeing Scarlet God Spirit back in their direction while Guo Qiao attacked from behind.

Haros laughed when he saw this and dispelled the idea of returning to the spaceship. He also turned into a ball of fire and rushed up, blocking the other direction of the Scarlet God Spirit's escape.

Ze Wu felt a little helpless.

"He" was lazy by nature and liked to be lazy.

But now that His Majesty was here.

No matter how much "He" wanted to be lazy, "He" did not dare to be so blatantly lazy in front of His Majesty. "He" could only fly up and stand with Guo Qiao.

They were very particular about blocking the way.

He specially left a gap, as if he wanted to give the other party a way to escape.

It was also because of this that this High-Tier Deity-level Intermediate Grade Scarlet God Spirit always thought that it had a way out, so it had no intention of fighting Zhou Zhou and the others to the death. It tried to escape while resisting Zhou Zhou and the others.

The result was that this Scarlet God Spirit could not defeat Zhou Zhou and the others. Even if it wanted to escape, it could not escape the pursuit of Zhou Zhou and the other God Spirits with the Galaxy. In the

end, when the divine power in "His" body was about to be exhausted and "He" could not successfully escape, "He" realized that "He" had fallen into a desperate situation.

At this moment, "He", who had consumed nearly 90% of his divine power, could not even fight to the death in exchange for a chance of survival.

In less than a moment, the Scarlet God Spirit was killed by Haros' saber.

"Awesome!"

Haros had a comfortable expression as he felt promotion energy comparable to 81 High-Tier Deity-level Intermediate Grade Scarlet God Spirits pouring into his body.

"He" felt that after a few more kills and supplementing his comprehension of the laws, "He" even felt that "He" could break through to the High-Tier Deity-level Intermediate Grade.

[Global Lord: 100% Drop Rate](#)

Chapter 754: 100 Million Faction Points!

Ze Wu looked envious.

"He" had enough nomological comprehension. If "He" could personally kill that High-Tier Deity-level Intermediate Grade Scarlet God Spirit, "He" felt that "He" should be able to directly break through and reach the Mid-Tier Deity-level Intermediate Grade.

However, such a thing was not something that could be done just by thinking about it. Therefore, "He" could only watch helplessly as Haros felt the pleasure brought to "Him" by the boundless promotion energy.

If I encounter such a battle again, I'll have to work hard.

Ze Wu could not help but have this thought.

In any case, His Majesty had mastered the ability to revive and had an extremely generous reward for his subordinates to kill God Spirits. In addition, he could obtain a large amount of promotional energy by killing God Spirits...

In that case, there was no reason for him to refuse to kill the enemy for His Majesty.

Ze Wu quietly changed his mind.

On the other side, Zhou Zhou also extracted the corpse of this High-Tier Deity-level Intermediate Grade Scarlet God Spirit.

The result satisfied him.

This was because this High-Tier Deity-level had a Mid-Tier Deity-level divine artifact in his hand.

After extracting it, it directly turned into three High-Tier Deity-level Elementary Grade divine artifacts.

In addition, he obtained a True God-Tier Intermediate Grade Book of The God Spirit and a True God-Tier Intermediate Grade Hero Inheritance Secret Manual.

Other than that, when Zhou Zhou extracted "His" corpse, he also used the ability of the Lucky Star to obtain an additional Loots.

However, he was not as lucky as last time and did not obtain another puppet with High-Tier Deity-level combat strength.

He only obtained another Mid-Tier Deity-level divine artifact.

It was still acceptable.

Compared to the gains he obtained, the Pillar of The Empire Puppet was not worth mentioning after being used once.

Then, Zhou Zhou looked at the Book of The God Spirit and the Hero Inheritance manual and thought about who to give them to.

Bai Yun had already given it to him, so there was no need to consider it.

He thought for a moment.

In the end, he decided to give it to Wu Xin to give him a chance to advance further.

Wu Xin had joined his Blazing Sun Kingdom a long time ago. Moreover, with his rich EXP, he had already made an indelible contribution to the development of the Blazing Sun Kingdom's army.

Wu Xin's talent was gradually becoming Normal with the addition of more generals.

However, Zhou Zhou naturally would not forget his previous contributions.

After making a decision, he looked at the mission notification that had just appeared.

[Faction Quests Hint: You and your subordinate have successfully killed a High-Tier Deity-level Scarlet God Spirit without the interference of external forces. You are rewarded with 100 million faction points!]

Zhou Zhou looked at the Quests notification and the corners of his mouth curled up slightly.

Not bad.

Obtaining 100 million faction points on the first day was a good start!

While the other Lords were extremely happy to obtain hundreds, thousands, or tens of thousands of faction points every day, 100 million faction points was definitely an unimaginable number for 99.9% of the Lords of all races.

"Compared to those top Lords of all races."

"Even if I don't have their powerful and deep racial civilization foundation, I still have an advantage that they definitely can't compare to mine at the moment."

"Those are my second-best territory development and powerful subordinates!"

Zhou Zhou was still confident in this aspect.

"At this stage, there's definitely no Lord who can do what I can do. I have several High-Tier Deity-level combatants under my command and can even easily kill a High-Tier Deity-level Scarlet God Spirit."

"Even the True Lords can't do this."

"If one of the top Lords like the True Lord, the God Shepherd Lord, the Great One Lord, and the Spiritual Venerable Lord has my current strength..."

Zhou Zhou clicked his tongue just imagining that scene.

If that really happened, there was almost no suspense in this Lord of All Races competition.

Top-notch Lords had deep foundations to begin with. Coupled with the fact that they had powerful strength in the early stages,

the position of the Lord of All Races could almost be said to have been reserved in advance.

Fortunately, this did not happen.

Otherwise, it would be too despairing for the other Lords.

After returning to the Galaxy, Zhou Zhou handed the Book of The God Spirit and the Hero Inheritance to Wu Xin.

Wu Xin was stunned. He was about to say something when he saw Zhou Zhou wave his hand and stop him from saying anything else.

"Uncle Wu, there's no need to decline. We've all seen your contribution. You deserve it."

Zhou Zhou said.

Wu Xin was speechless.

He looked at the Book of The God Spirit and the Hero Inheritance manual in his hand and smacked his lips. Originally, he wanted to say that he planned to retire soon.

After all, the Blazing Sun Kingdom already had so many outstanding generals. His ability was no longer as outstanding as when he first joined Blazing Sun City.

Under such circumstances, he would retire after succeeding and leave his position to the later generations. He could also leave a good reputation.

Now that His Majesty had suddenly given him such a precious God Spirit inheritance, how could he say anything?

"Thank you, Your Majesty!"

"I won't let you down, Your Majesty!"

Wu Xin hesitated for a while before finally accepting Zhou Zhou's good intentions.

What to do, His Majesty had given him too much.

Zhou Zhou did not mind seeing this. Then, he told him about the Faction Quests he had accepted and the need to take Haros and Ze Wu away.

"Don't worry, Your Majesty!"

"With me around, I will definitely ensure the safety of these recruits!"

"With me around, I will definitely ensure the safety of these recruits!"

Zhou Zhou nodded.

Even though Guo Qiao was usually carefree and liked to drink, he was quite at ease when it came to serious matters.

"Your Majesty, don't worry. I will definitely protect these recruits."

Wu Xin also said.

"Contact This King through my personal terminal if you need anything. This King will rush over immediately."

After Zhou Zhou finished speaking.

He took out a Galaxy and brought Haros, Ze Wu, and Gerard in.

"Your Majesty, what kind of method is this?"

As soon as he boarded the spaceship.

Haros pointed at Gerard in surprise.

Ze Wu also looked at Gerard curiously.

The two Gods were naturally not unfamiliar with this powerful 'enemy'.

Back then, they might not have been able to subdue the other party if not for the fact that they were a group of God Spirits.

At this moment, seeing that the other party was actually standing obediently beside his Majesty, it would be strange if the two of them were not curious.

On the other side, Zhou Zhou took out The Pillar of The Empire Puppet and threw it to the other party.

Haros hurriedly took it. When he saw the attributes of The Pillar of The Empire Puppet, his body immediately trembled, and his hands trembled. He almost lost his grip and let it fall to the ground.

Ze Wu, who had also seen The Pillar of The Empire Puppet, widened his eyes.

"There's actually such a treasure in the world?!"

"He" exclaimed.

"This thing... is more practical than a High-Tier Deity-level divine artifact without looking at the number of times it can be used."

Haros also looked envious.

Then, he returned it to Zhou Zhou reluctantly and complained,

"Your Majesty, don't throw such a precious thing to me like a Normal item in the future."

"I was so shocked that I almost dropped it on the ground just now. What if it breaks?"

[Global Lord: 100% Drop Rate](#)

Chapter 755: Bai Yun's Strategy

Zhou Zhou took it indifferently.

This was how he treated people he trusted.

Moreover, this was a High-Tier Deity-level Intermediate Grade treasure.

It would be a waste of its grade if it accidentally fell to the ground and broke.

He looked at Gerard, who was standing a step behind him.

Every time The Pillar of The Empire Puppet summoned Gerard, there was no specific summoning time limit.

After Gerard, the summoned creature, consumed all the divine power in his body, "He" would naturally dissipate. At the same time, it meant that "He" had completely consumed the number of summons.

Judging from the divine power in Gerard's body, he should be able to fight another battle.

A moment later...

Zhou Zhou returned to the Knight Empire.

...

In front of the Imperial City.

14 existences emitting the pressure of God Spirits were standing there.

They were the seven God Spirits of the Knight Empire and the six God Spirits brought by Lu Zhen.

Among these God Spirits, there was the City Lord of the Nine Sieves Fort that Zhou Zhou was familiar with—Sun Wujie.

Lu Zhen and Ji Yun were standing in front of them.

However, this was not the main point.

The point was...

At this moment, they were looking at Zhou Zhou, Haros, Ze Wu, and Gerard in surprise.

"Two High-Tier Deity-levels and one Mid-Tier Deity-level..."

"This... This..."

Lu Zhen and Ji Yun were stunned when they saw the God Spirit brought by Zhou Zhou.

Lu Zhen and Ji Yun could tell that Gerard was essentially a summoned creature and not a true High-Tier Deity-level.

But even so, a High-Tier Deity-level and a Mid-Tier Deity-level also surprised them.

One had to know that even in their Knight Empire and the Divine Sword Empire,

High-Tier Deity-level Worshiped God Spirits were also very rare.

Every High-Tier Deity-level Worshiped God Spirit had a status comparable to Lu Zhen and Ji Yun.

Even the two of them were only at the High-Tier Deity-level, they definitely could not mistreat existences at the same level as them.

"Are this High-Tier Deity-level and Mid-Tier Deity-level really the Worshiped God Spirits of your Blazing Sun Kingdom?"

Lu Zhen could not help but ask.

"That's right."

Zhou Zhou acknowledged.

Lu Zhen and Ji Yun looked at each other and suddenly felt a sense of urgency that they were about to be surpassed by their juniors.

"Come on."

In the end, the two Empire Lords did not ask further. Then, Ji Yun made a request to Zhou Zhou, hoping to use his Galaxy to head to the location of the Scarlet God Spirits.

The reason for doing so was that "He" and Lu Zhen wanted to experience the real experience of the Galaxy for themselves.

If it was really good, then Lu Zhen and Ji Yun would personally advertise for Zhou Zhou and promote the Galaxy to other human territories.

Facing free s, Zhou Zhou naturally had no reason to refuse, so he took out another Galaxy from his King's Treasure Box and let the 14 God Spirits of the Knight Empire and the Divine Sword Empire enter the Galaxy.

After they entered the Galaxy, they were immediately surprised by the technological spaceship buildings inside.

After a while, Ji Yun walked over and handed a map to Zhou Zhou.

"Nephew."

"This is the approximate distribution map of the Scarlet God Spirits around the territory of my Knight Empire who are eyeing it covetously."

"Follow the distribution of the Scarlet God Spirits on this distribution map and search for these Scarlet God Spirits one by one."

Ji Yun said.

"Yes, Your Majesty."

"Haha, you don't have to be so polite. You're a great benefactor of my Knight Empire and my daughter, Yu Ling, is so familiar with you. Just call me Uncle Ji and Lu Zhen, Uncle Lu."

Ji Yun smiled.

Zhou Zhou nodded and took the map.

There were 10 God Spirits around the Knight Empire at first.

However, in the past few days, another five Scarlet God Spirits appeared around the Knight Empire, so there were 15 God Spirits marked on it.

Among them were 10 Low-Tier Deity Scarlet God Spirits, four Mid-Tier Deity-level Scarlet God Spirits, and one High-Tier Deity-level Scarlet God Spirit!

Zhou Zhou looked at the location of the only High-Tier Deity-level Scarlet God Spirit and pondered for a second before crossing it out.

"Why did you cross it out?"

Ji Yun was stunned.

"I encountered this High-Tier Deity-level Intermediate Grade Scarlet God Spirit called 'Jia De' on the way here. 'He' was killed by my subordinates."

Zhou Zhou said casually.

Ji Yun: "?"

Lu Zhen: "?"

The other God Spirits: ?

"Killed... Killed 'Him'?"

Lu Zhen said in disbelief.

"He" had even discussed with Ji Yun how to deal with the only High-Tier Deity-level Intermediate Grade Scarlet God Spirit before Zhou Zhou returned.

The two God Spirit teams they brought did not bring other High-Tier Deity-level God Spirits after all. Instead, they brought a clear group of Mid-Tier Deity-level and Low-Tier Deity-level God Spirits.

Therefore, the two of them would definitely have to deal with the only High-Tier Deity-level Intermediate Grade Scarlet God Spirit personally.

They were already prepared, but they were actually told that "He" had been dealt with?

Lu Zhen and Ji Yun looked at Zhou Zhou with complicated expressions.

They realized that they seemed to have underestimated this strongest Lord of all races from their human race.

Zhou Zhou and the others did not waste any time after that. They immediately steered the Galaxy and flew in the direction of the closest Low-Tier Deity Level Intermediate Grade Scarlet God Spirit, Deer Forest.

At the same time, about 200 million kilometers away from the Blazing Sun Kingdom.

In the sky above the Yellow Gold-Tier regional territory, the Wind and Thunder Forest.

An invisible Galaxy was hovering here.

In the spaceship.

Bai Yun was sitting in the main general's seat, listening to the report of a diplomat intelligent robot in front of her.

Bai Yun could not help but click her tongue in wonder after listening to it.

"The 16 Kings Alliance has actually split into three factions because of internal conflict?"

"The first faction is led by the Fire Spirit King. They insist on a strategy of not submitting to our Blazing Sun Kingdom. There are a total of nine kings in this faction who support the Fire Spirit King."

"The second faction has the King of the Demon Soldiers as their Leader. They feel that our Blazing Sun Kingdom is invincible and even the Alliance army of the 16 Kings Alliance can't withstand the sharpness of our Blazing Sun Kingdom's army. Therefore, they now have the idea of introducing powerful external Lord forces to interfere. They even want to collude with the fog monster forces to deal with our Blazing Sun Kingdom together."

"There are about five kings in this faction who support the Demon Soldier King."

"The third faction is an underground faction. They use the Car Cloud King as their Leader and are afraid of the powerful strength of my Blazing Sun Kingdom. They have long had the intention to join my Blazing Sun Kingdom. There are about 10 kings in this faction who support the Car Cloud King."

"This includes the 11 Kings, including the Car Cloud King. Some of them are currently in the camp of the Fire Spirit King on the surface, while the rest are in the camp of the Demon Soldier King."

"Tsk."

"My arrangements last night were not in vain. I actually heard such interesting information."

"We came at the right time."

Bai Yun's lips curled up slightly.

She immediately had a rough idea of conquering the 16 Kings Alliance after receiving His Majesty's instructions last night.

Therefore, she did not sleep at all. She found Wu Tu overnight and asked him to find some spies and intelligence personnel from his Heavenly Map Army to head to the 16 Kings Alliance. Then, she spread the news that the Blazing Sun Kingdom's army was about to attack in the various kingdoms of the 16 Kings Alliance, causing almost all the 16 kingdoms to enter a state of panic.

At the same time, she also found some smart bots from Wen Ya to be diplomats of the Blazing Sun Kingdom. Wen Ya personally controlled them and asked them to go to the 16 Kings Alliance to convey the news that their Blazing Sun Kingdom would send an army to attack the various kingdoms of the 16 Kings Alliance tomorrow. At the same time, she asked Wen Ya to hear the thoughts of these kings.

She did not expect to really hear such important news.

Chapter 756: The Disappearing Scarlet God Spirit

"Then does the King of the Car Cloud Kingdom sincerely want to join my Blazing Sun Kingdom? Or does he look like he's defecting on the surface, but he's actually harboring evil intentions?"

Bai Yun asked cautiously.

At this moment, even though she already had a huge strength advantage, it was precisely because of this that she did not want to be deceived on such a small matter. Otherwise, she would feel unhappy even if she won in the end.

"Lord Star God said that according to their mental activity data, they shouldn't be lying. Instead, they sincerely want to join our Blazing Sun Kingdom."

The Diplomacy intelligent robot said.

Bai Yun nodded slightly.

The Lord Star God was the Galaxy Star God, which referred to Wen Ya.

As an Elementary Grade Low-Tier God-Tier intelligent lifeform, the huge difference in life level allowed Wen Ya to easily see through the thoughts of a few Extraordinary-Tier and Epic-Tier kings with the help of the robot's body.

[In addition, when Lord Star God came into contact with the Flame Spirit King, the Flame Spirit King had given us a hint during our conversation. The other party roughly hinted that if we can help the other party deal with the Kingdom of the Demon Soldier King's faction, it is willing to lead all the Kings of its faction to join my Blazing Sun Kingdom.]

[According to the judgment of Lord Star God, the other party is not lying to us on this point.]

The diplomat robot said.

Bai Yun thought for a moment and said, "Let me see the conditions they proposed to submit to us."

When the Diplomacy intelligent robot heard this, its mechanical pupils suddenly lit up. Then, a virtual screen was projected in front of Bai Yun.

Bai Yun took a closer look and nodded slightly.

Their conditions were probably that some of them still had to maintain their original status after submitting, which was to have the position of Governor like the original King of the Titan Kingdom.

In addition, the Subjects in their country had to have the same benefits, status, and treatment as the other Subjects of the Blazing Sun Kingdom.

There were no overboard requests.

Bai Yun thought for a moment and understood.

They wanted too many conditions.

But did they dare to bring it up?

There was a huge difference in strength between the two sides.

If they dared to raise excessive conditions to submit and make the Blazing Sun Kingdom disagree, the Blazing Sun Kingdom would directly not talk about this and come knocking on their door. At that time, they would have no place to regret even if they wanted to.

Those who could become kings were not fools. They knew that the person who understands the times was a wise man and knew when to stop.

That was why they proposed these conditions that were at least more reasonable and would not make the Blazing Sun Kingdom feel impatient after careful consideration.

"This is the benefit of having strength."

"According to His Majesty,

this is called... subduing others without fighting."

A faint smile appeared on Bai Yun's face.

Then, she got the Diplomacy smart bot to compile a report and send it to Zhou Zhou to ask for His Majesty's opinion.

A moment later...

Zhou Zhou sent a reply.

Bai Yun looked over.

He realized that his Majesty had basically agreed to most of the other party's conditions.

However, there was a change.

That was, Zhou Zhou allowed these Kings who submitted to become the Governor after submitting.

However, if these Governors and corresponding officials were discovered to be unable to govern after taking office, he could remove them from their positions at any time and send someone else to take over.

Bai Yun naturally had no objections to this. She directly handed this opinion to the Diplomacy intelligent robot and asked it to inform the Flame Spirit King and the others.

Soon, the other party replied.

They agreed.

Seeing this, Bai Yun stood up and calmly ordered as she walked towards the Command Platform.

"Galaxy No.9, inform His Excellency Vicky, His Excellency Feng Luo, and His Excellency Chi Xuantian."

"We can move our limbs now!"

[Yes, Legion Commander!]

At the same time, just as Bai Yun was about to start the war of destruction,

Zhou Zhou's God Slaying operation was also in full swing.

However, just as they killed three Scarlet God Spirits and were about to continue killing more, they suddenly realized that something was wrong.

...

About 360 million kilometers west of the outer area of the Knight Empire.

This was a vast desert.

Its name was the Flaming Hot Sun Desert. It was a Diamond-Tier natural disaster forbidden area.

Zhou Zhou and the others were here.

As far as the eye could see, there was yellow sand and very few life forms.

This was because the average temperature of the air here was more than 1,000 degrees Celsius, which was already one-sixth of the temperature on the surface of the sun!

Other than some mutated creatures that were naturally resistant to high temperature, there were only some fire-elemental life forms that could live here.

However, this temperature was naturally nothing to Zhou Zhou and the others.

There was naturally no need to mention Haros and the other God Spirits.

Even though Zhou Zhou was not a God Spirit yet, the Chaos Human Constitution contained in his body was enough for him to easily withstand the high temperature.

Not to mention that the 10,000 Legendary-Tier Elementary Grade Skills in his skill bar could easily withstand these high temperatures.

These skills were all loots he had obtained from the war.

Even though he had Law Skills on him, these Skills were not very useful.

However, it would be a waste not to learn. He had already learned it. What if he used it one day?

"Your Majesty!"

At this moment...

A Low-Tier Deity Level Elementary Grade God Spirit from the Knight Empire appeared from afar and quickly flew in front of Ji Yun.

"Your Majesty, there's no trace of the Scarlet God Spirit, Cruel, in the southwest!"

Ji Yun frowned slightly and nodded.

A moment later...

Another Low-Tier Deity Level Intermediate Grade life form of the Divine Sword Empire flew in front of Lu Zhen from afar.

"Your Majesty, there's no sign of the Scarlet God Spirit, Cruel, in the northeast!"

Lu Zhen and Ji Yun looked at each other.

In the following period of time, the other human God Spirits who had gone out to search for the Scarlet God Spirits also returned from afar.

"Your Majesty, we didn't find anything in the southeast desert!"

...

"Your Majesty, no Scarlet God Spirits have been discovered in the sky!"

...

"Your Majesty, I don't have any either."

...

Soon, all the human God Spirits had returned.

As for the results of their search, they did not discover any traces of the Scarlet God Spirits they wanted to hunt on this trip.

"This is already the third Scarlet God Spirit that has disappeared," Ji Yun said in a low voice. "They must know that we're chasing them, so they're hiding."

"It's also possible that they're gathered together and discussing how to counterattack." Lu Zhen sneered. "This group of Scarlet God Spirits are all unwilling to suffer losses."

Zhou Zhou could not help but ponder when he heard the two emperors' words.

According to the information he knew, the Scarlet Fog monsters were not stragglers.

Not only did they have their own Lords, Kingdoms, Empires, and Divine Kingdoms, they even had their own World Channel with the help of the Crimson Overlord.

Therefore, it was not impossible for an ally to be killed and send a message to their friends on the World Channel before they died to tell them to be careful of the Lord of the Supreme Will faction.

What should he do now?

Zhou Zhou pondered.

Chapter 757: Special Treasure—Wisdom Demon Crown

Zhou Zhou had a way, which was the Compass of the Soul of Vengeance.

This treasure from the Battlefield of The End had been used more often after he had the Lord Talent of the Collector. Moreover, he knew how to repair this compass, so it was not impossible for him to take it out and use it now.

Actually, he could also ask the Bodhi Supreme, but he had yet to repay his debt, so there was a high chance that the Bodhi Supreme would not answer his question.

Just as he was thinking about what to say,

Ji Yun flipped his right hand and took out a golden crown.

On the golden crown were five seven-colored gems side by side. However, three of them were shattered, leaving only the other two seven-colored gems intact.

Then, Zhou Zhou saw Ji Yun take off the crown on his head and put it on.

Then, Zhou Zhou was shocked to see that a pair of ferocious and terrifying flesh eyes and a bloody mouth filled with sharp teeth actually opened on the golden crown.

This monster image was in stark contrast to the image of the golden crown.

Zhou Zhou suddenly felt a sense of danger, as if this monster could bring him danger.

"Little Ji, why are you looking for me?"

At this moment...

The crown monster opened its mouth and said in a low and hoarse voice.

"Ahem, there's a junior here. Give me some face."

Ji Yun said awkwardly.

The crown monster did not answer.

Ji Yun did not waste any time and immediately asked, "I want to ask you something. May I ask where the Scarlet God Spirits who are coveting our Knight Empire are now?"

"If you need a limited distance, then let's go to the Scarlet God Spirits within a radius of 50 billion kilometers of the Knight Empire."

Ji Yun had just experienced the extreme speed of the Galaxy and knew that the Galaxy's hourly speed was 50 billion kilometers per hour. That was why he suggested this distance.

The crown monster closed its eyes.

A moment later...

Zhou Zhou and the others suddenly heard a crack, as if something had cracked.

Zhou Zhou looked in the direction of the voice.

Another of the five rainbow gems on the crown above Ji Yun's head shattered, leaving only a complete and undamaged rainbow gem.

Just as Zhou Zhou was guessing what was going on, the crown monster opened its eyes, and then blood-colored light shot out of them. Then, the Gods and Zhou Zhou saw that this blood-colored light had actually formed a blood-colored map in midair.

On this map, there were 16 black light spots gathered in one place.

"Those black light spots are the location of the Scarlet God Spirits you want."

"Little Ji."

"If there's anything you don't understand, you must ask me again in the future. I'll give you an answer. Hehehe..."

As the arrogant and cold laughter gradually disappeared, the blood-colored eyes and sharp teeth on the golden crown also gradually disappeared, allowing the crown to return to its previous state, as if nothing had happened.

"So they're here."

"However, I didn't expect there to be five more Scarlet God Spirits. They should be the helpers we just called in."

"Brother Lu, you're right. They do have ulterior motives. Fortunately, we discovered them in advance."

"Otherwise, if we let these 16 Scarlet God Spirits ambush us in secret and launch a fatal blow at a critical moment, our Knight Empire will probably be destroyed!"

Ji Yun's expression was solemn.

"From the distance, it should be about 23 billion kilometers north."

"With the speed of the Galaxy, we'll be there in half an hour."

Lu Zhen's expression also became serious.

At this moment...

Ji Yun realized that Zhou Zhou had been looking at the monster crown on "His" head.

"He" could not help but say.

"It's a treasure called the Wisdom Demon Crown. Its function is to answer five questions from the owner. For every question answered, one of the wisdom gems on the Demon Crown will shatter. After all five wisdom gems shatter, the Demon Crown will open the seal and release the monsters inside."

"But don't worry."

"Even though this treasure is dangerous, it will be safe as long as we don't use the fifth problem."

"When I return, I'll abandon it in the spatial turbulence. The spatial turbulence is very strange. At that time, even I will find it difficult to retrieve it and use it to answer the last question."

Ji Yun said seriously.

Even "He", a High-Tier Deity-level, might not be able to withstand the temptation of being able to answer questions.

Therefore, "He" chose to banish it permanently into the spatial turbulence to prevent such a thing from happening in the future.

"Your Majesty, can you trade this Monster Demon Crown with me?"

Zhou Zhou thought for a moment and said.

Ji Yun and Lu Zhen were stunned. Then, Ji Yun hesitated. "Don't tell me you want to use this last chance to get an answer?"

"Even though this Monster Demon Crown looks ordinary, I can feel that the demonic creatures inside are not to be underestimated. If you release it, it will definitely be very dangerous for you."

"Your Majesty, don't worry. I can guarantee you that I won't release it."

Zhou Zhou said seriously.

No joke.

With his current strength, he had never triggered his Danger Prediction Talent even when facing a High-Tier Deity-level.

Yet, just a glance at this Monster Demon Crown today actually made him feel a sense of threat.

He naturally knew how terrifying this monster Demon Crown was.

Therefore, he would not release such a terrifying demonic creature to harm him.

However, he had the Diamond-Tier Lord Talent, the Collector. He could increase the number of times he could use it when facing such a treasure with a limited usage.

If he obtained it and extended its usage through the Collector Lord Talent, it would not be too late to throw it away when the extended usage could not be used.

"Sure."

"I believe you have the ability to control yourself."

"There's no need for a deal."

In the end.

Ji Yun looked deeply at Zhou Zhou before taking off the Wisdom Demon Crown on his head and handing it to him.

"Thank you, Your Majesty."

Zhou Zhou took it.

but he did not put it in the King's Treasure Box. Instead, he carefully placed it in a separate Spatial Ring.

"Come on."

"Let's see what these Scarlet God Spirits want to do when they gather together."

Ji Yun said in a low voice.

Even though they knew that there must be some trap when the 16 Scarlet God Spirits gathered together,

However, their strength was not bad either. There were a total of three High-Tier Deity-levels.

Secondly, they had all seen the speed of the Galaxy and felt that they could retreat calmly even if they encountered any danger.

Most importantly, even as the monarchs of the two empires, their trump cards were unimaginable to normal Scarlet God Spirits. This was also their greatest confidence in daring to go over.

Zhou Zhou had no objections.

This was because his Danger Prediction Talent and Talent Intuition Lord Talent did not give him any hints of danger, proving that this trip was most likely safe.

They boarded the Galaxy and flew north of the Knight Empire without saying anything else.

Chapter 758: Borrowing A Divine Artifact! The Destruction Of A Group Of God Spirits!

Half an hour later, an Extraordinary-Tier Wilderness regional territory.

A Galaxy that had entered Spatial Concealment was floating in the sky.

Zhou Zhou, Ji Yun, Lu Zhen, and the others were observing the scene below through virtual external scene mode.

In their vision, a hall emitting Scarlet Fog stood on the wasteland.

The aura of the 16 Scarlet God Spirits emitted from them.

Zhou Zhou and the others looked at each other and could see the confusion in each other's eyes.

"What are they doing inside? Can you tell?" Ji Yun asked.

No God Spirits spoke.

Zhou Zhou did not say anything.

He looked at the scarlet palace, but the building information given to him by this palace was actually a series of question marks.

However, there was no warning sign in his heart, which meant that even though this palace looked mysterious, there was actually not much risk.

After a while, Lu Zhen said, "Don't approach that palace first. Let's attack it from afar and see if we can force them out and probe their methods."

"If we encounter anything wrong, we'll return to the Galaxy."

The Gods had no objections.

This was indeed a good idea.

Lu Zhen looked at Zhou Zhou.

"Nephew, you haven't entered the God Spirit level yet. Don't interfere in a battle of this level first. Just let His Excellency Haros and the others follow us."

"Sure."

Zhou Zhou nodded in agreement and said,

"However, everyone, I have a way to temporarily increase your combat strength."

"What method? Tell me."

Ji Yun was stunned for a moment before saying immediately.

The other God Spirits were more or less disapproving.

In their eyes, they were the high and mighty God Spirits while Zhou Zhou was only a Lord of all races who had just arrived in the High Continent.

Even if he obtained the title of the Strongest Lord of All Races in the previous Supreme Will event and had a High-Tier Deity-level expert as his subordinate, how much combat strength could a Lord who was not even at the God Spirit level increase the God Spirits like them?

However, even though they thought so in their hearts, they did not show it on the surface.

But in the next moment, they widened their eyes and looked at Zhou Zhou in disbelief.

"I have some Low-Tier Deity-level divine artifacts that I can lend you temporarily."

"However, everyone knows how precious divine artifacts are, so I want to ask everyone to sign a Contract Book with me before borrowing my divine artifact."

"There's only one term on the contract. I hope Seniors here can keep the fact that I have divine artifacts a secret."

Zhou Zhou said.

"Sign it, sign it, we'll definitely sign it!"

"Good kid, you hid it well. Tell me, how many divine artifacts do you have?"

Lu Zhen and Ji Yun looked at Zhou Zhou in surprise.

Previously, the news that Zhou Zhou had traded 10 Low-Tier Deity Level Elementary Grade divine artifacts to the human race through Bai He in exchange for the protection of the refugees who had gone to the Blazing Sun Kingdom for 30 years had been secretly spread among the higher-ups of the human race.

Zhou Zhou had also completely attracted the attention of the higher-ups of the human race because of this matter. They felt that Zhou Zhou had already grown to the stage where he could repay the human race.

Lu Zhen and Ji Yun naturally knew about this.

They did not expect that this kid actually had a divine artifact!

Could it be that it was really as those higher-ups of the human race said? Was Zhou Zhou's luck so good that he would trip over an ownerless divine artifact when he went out?

When Zhou Zhou heard Lu Zhen's words, he pondered for a few seconds and said.

"About a dozen sets."

Lu Zhen: ???

Ji Yun: ???

The other God Spirits: ???

They looked at Zhou Zhou and thought that their ears had gone wrong.

Zhou Zhou did not say anything else. With a wave of his right hand, a total of 14 sets of Low-Tier Deity divine artifact Outfits floated in front of the Gods.

The Gods were dumbfounded.

It had to be said...

This scene caused a huge visual impact on the God Spirits present.

"Am I dreaming?"

A female God Spirit from the Divine Sword Empire looked at these sets of divine artifacts and felt a little dizzy.

The other God Spirits did not speak.

This was because they also felt that they were dreaming.

"Did you obtain a high-level True God-Tier treasure?"

Lu Zhen could not help but ask.

Only a high-level True God-Tier would probably have the ability to obtain so many low-level divine artifacts.

Bai He had guarded the Abyss for tens of thousands of years, but he had only obtained so many low-level divine artifacts and contributed them all to the higher-ups of the human race.

For tens of thousands of years, some of these divine artifacts were damaged, some were lost, and some were snatched away by experts of the people of foreign race...

Therefore there were not many left.

Zhou Zhou said nothing.

It was even more ridiculous than this after all.

Lu Zhen did not ask further.

Then, Zhou Zhou took out a contract and wrote the content of the contract. The other God Spirits immediately walked up eagerly. After seeing that the content of the contract was correct, they signed their names without hesitation.

Then, they excitedly came to the 14 sets of divine artifacts and began to choose divine artifacts that were suitable for them.

Actually, there was nothing to choose from.

This was because even though the divine artifacts Zhou Zhou took out did not have any characteristics, they were basically suitable divine artifacts. Most God Spirits could use them directly without worrying about being unable to use them.

Seeing this scene, Zhou Zhou also nodded slightly.

"This time, they should give me a portion of faction points after killing the Scarlet God Spirits, right?" He thought.

The Faction Quests, God Slaying, stated that if they killed the Scarlet God Spirits with the help of external forces, the faction points would be distributed according to their contributions.

Now that he had lent these Empire God Spirits so many sets of Low-Tier Divine Artifacts, he did not know how many faction points he could obtain from them.

On the other side, the God Spirits who were choosing divine artifacts suddenly saw Haros and Ze Wu motionless at the side.

"Why didn't you choose?"

A God Spirit went forward and asked.

"His Majesty has already given us a set of divine artifacts."

Ze Wu said indifferently.

With that...

The entire set of divine artifacts on "Him" lit up with the dazzling light of divine artifacts according to "His" will.

Haros did not even say anything, not even looking at the divine artifact Outfits.

With a High-Tier Deity-level Elementary Grade divine artifact given to "Him" by His Majesty, "He" had long looked down on these Low-Tier Deity Level Elementary Grade divine artifacts.

The other Gods: "..."

This light was so dazzling that they shed tears of envy (T▽T).

Soon, all the God Spirits had already put on their divine artifacts.

At this moment, they felt the powerful power enhanced by their divine artifacts and instantly felt that their confidence had reached an unprecedented peak.

This raised their morale to an unprecedented high.

Lu Zhen and Ji Yun were even more satisfied when they saw this.

In the God Spirit team of their two empires.

Other than the fact that the two Lords of the Empire were High-Tier Deity-level, the other God Spirits were all Mid-Tier Deity-level and Low-Tier Deity-level, and Low-Tier Deity-level occupied the majority.

Originally, they felt that their combat strength should be slightly higher than those Scarlet God Spirits.

Even though the advantage might not be great, it should be able to let them win.

However, with this set of divine artifacts, the Low-Tier Deity-level God Spirits among them should be able to fight Mid-Tier Deity-level God Spirits next. Mid-Tier Deity-level God Spirits would even be able to guarantee that they would not die in front of High-Tier Deity-level God Spirits.

Under such circumstances, their combat strength had directly increased by a large level. Then, the outcome of the next battle should be a steady crushing.

What to do, an entire set of divine artifacts could give them such a huge increase in combat strength!

"Didn't they want to ambush us?"

"We can also take them by surprise."

"After we go out later, don't reveal our divine artifacts first. We'll give them a surprise when they confidently rush close."

At this moment...

Lu Zhen suddenly said.

The eyes of the other God Spirits lit up and they nodded in agreement.

Zhou Zhou clicked his tongue in wonder.

As expected of an old God Spirit.

It was sneaky and sinister.

Then, Lu Zhen and the others did not waste any more time. They flew out of the Galaxy and looked down at the scarlet palace below.

"Get ready..."

"Attack!"

Ji Yun and Lu Zhen ordered one after another.

All the God Spirits threw the offensive Law Skills they had prepared at the scarlet palace on the ground.

14 Law Skills emitting various divine power lights descended from the sky and hit the palace.

The ground fell silent for a second.

Boom!!!

It was as if the world had collapsed with a shocking bang.

An explosive mushroom cloud emitting all kinds of divine power light soared into the sky and spread in all directions in the blink of an eye.

In less than a moment...

All the wilderness, forests, deserts, lakes, rivers within a radius of more than 5,000 kilometers...

All of them were devoured by the explosion.

But fortunately...

There were no other life forms here because this place was already occupied by these Scarlet God Spirits. There were only some fog monsters.

Outside the range of the explosion.

If a life form was within 2,000 kilometers, they could also feel the air suddenly become extremely hot.

Zhou Zhou narrowed his eyes at this scene.

This was the destructive power of a God Spirit...

The other God Spirits also looked at the scene below.

They were also very excited that they could actually cause such destructive power.

In such a shocking explosion, if "They" themselves provided half of the lethality, the other half was definitely enhanced by the divine artifacts they were wearing.

At this moment, they realized even more how powerful the divine artifact on them was.

At this moment...

Lu Zhen, Ji Yun, and Zhou Zhou suddenly felt something and lowered their heads to look down.

Their eyesight was extremely astonishing. They saw the scarlet palace in the explosion at a glance.

The scarlet palace that was originally emitting Scarlet Fog was not destroyed after this round of Law Skill attacks. Instead, it suddenly became illusory.

The next second, the scarlet palace suddenly released scarlet light that shot in all directions. In the blink of an eye, it included Lu Zhen, Ji Yun, and the other Scarlet God Spirits, including Zhou Zhou, who was in the Galaxy.

If one looked down from a high altitude, they would discover that the illusory scarlet palace had released a scarlet light barrier, trapping Zhou Zhou and the others inside.

On the scarlet light barrier, one could vaguely see a ferocious and dignified three-headed, six-armed, skinny demon king pinching three different divine seals to maintain the stability of the light barrier.

Chapter 759: Hell Demon Heaven Imprisonment Array!

In the scarlet light barrier.

"Hahaha... Your Majesty is wise. This group of stupid human God Spirits actually took the initiative to attack the array core and activated our Heaven Imprisoning Hell Demon Array!"

"Tsk tsk, this is the first time I, Cruel, have seen a God Spirit with a death wish coming to my door..."

"The Lord of the Empire of the Knight Empire, oh? There's also the Lord of the Divine Sword Empire! Hahaha, what a huge gain. After we take them down, it's almost equivalent to us conquering the two empires of the human race. This battle record will definitely be appreciated by the Crimson Overlord!"

"Big gain, big gain!"

...

More than a dozen ecstatic cries sounded.

15 streams of light flew up from below and appeared in front of Lu Zhen and the others. There were 15 Scarlet God Spirits.

Thick spatial power erupted, forming a spatial passageway with endless suction behind it, directly sucking it into the spatial rift.

Ji Yun and Lu Zhen did not panic. Instead, they first looked at the strength of the 15 Scarlet God Spirits.

Then, they realized that among these 15 Scarlet God Spirits, there were three High-Tier Deity-level Scarlet God Spirits, five Mid-Tier Deity-level Scarlet God Spirits, and seven Low-Tier Deity Scarlet God Spirits!

Their strength was about the same as the humans.

Then, they sized up the scarlet light barrier.

A few seconds later.

Lu Zhen said, "Even though the Hell Demon Heaven Imprisoning Array they mentioned trapped us here, I don't think the strength of this light barrier is very high. Give us some time and we should be able to break through this light barrier and leave."

On the other side, Ji Yun felt the changes in his body as he said slowly, "This Hell Demon Heaven Imprisonment Array seems to have the effect of suppressing my strength. I feel that my strength has been suppressed by about 20%."

"How was your suppression?"

"I'm suppressed by about 30%."

"I'm suppressed by about 50%."

"I'm also suppressed by 50%."

...

After Ji Yun finished speaking.

The other God Spirits immediately said.

Ji Yun nodded.

Low-Tier Deity-level God Spirits were suppressed by 50% by the Hell Demon Heaven Imprisonment Array. Mid-Tier Deity-level God Spirits were suppressed by 30% by the Hell Demon Heaven Imprisonment Array. As a High-Tier Deity-level, "He" was suppressed by two levels. Lu Zhen was probably the same.

"Is this their trump card?"

Ji Yun said softly.

Then, "He" and Lu Zhen looked at each other and smiled.

If Zhou Zhou had not lent them the divine artifact, this Hell Demon Heaven Imprisonment Array might really pose a huge threat to them.

However, with the 14 divine artifacts that Zhou Zhou had lent them, they could basically ignore this so-called Hell Demon Heaven Imprisonment Array.

Even with the suppression of this Hell Demon Heaven Imprisonment Array, their strength could suppress these Scarlet God Spirits with the enhancement of an entire set of divine artifacts.

The human God Spirits of the other two empires also realized this.

They looked at these Scarlet God Spirits. Not only were they not afraid, but they also looked eager.

...

On the Scarlet God Spirit's side.

"Where's Seventh Brother?"

The Scarlet God Spirit in the lead was wearing a purple robe and a black crown. There were three pairs of black vertical eyes side by side on his face. At this moment, he frowned slightly as he looked at the other Scarlet God Spirits.

"Seventh Brother was killed by the attack of these guys just now."

The other Scarlet God Spirit immediately sent a voice transmission.

When Black Eye heard this, it looked at Lu Zhen and the others with even colder eyes.

"He" was the current Lord of the Thousand-Eyed Scarlet Empire, a beginner Scarlet Empire.

During this Calamity of All Races, "His" Thousand-Eyed Scarlet Empire occupied one of the three Scarlet Empires that besieged the Knight Empire.

Originally, they were besieging the Knight Empire well. They felt that after a while, they should be able to slowly eat the Knight Empire, a tough nut to crack, a tough cookie.

However, today, "He" suddenly learned that two of the Scarlet God Spirits he had brought to the High Continent had suddenly lost contact. Moreover, "He" also learned that another Scarlet God Spirit had suddenly died today in the Scarlet Empire that besieged the Knight Empire.

The Lords of the three Empires immediately realized that something was wrong.

Then, they only understood after knowing the last words of the dead Scarlet God Spirits on the World Channel before they died. It turned out that the Knight Empire had already joined forces with the Divine Sword Empire to counterattack against the Scarlet God Spirits, causing them to lose three Scarlet God Spirits.

This time, as the Lord of the Scarlet Empire, they definitely could not not not express anything.

Therefore, they took the opportunity to join forces and prepared to use this opportunity to ambush and kill all these human God Spirits who dared to leave the country.

Black Eye even took the initiative to suggest that he participate in the battle himself.

This was because in "He"'s Thousand-Eyed Scarlet Empire, other than the High-Tier Deity-level, the other High-Tier Deity-levels were still guarding the Guardian Empire in the Empire and had not come to the High Continent.

As for the other two Scarlet Empires, they had sent a High-Tier Deity-level to participate in the battle. If "He" didn't bring a High-Tier Deity-level combatant over, "He" might not be able to reap much benefits from this counterattack.

Therefore, "He" could only do it himself since "He" had no manpower to use.

However, "He" never expected that as the party in the ambush, one of their Scarlet God Spirits died in battle at the beginning.

Moreover, they died aggrievedly from the unknown Law Skills of these God Spirits of the Human Empire.

This made "Him" very angry.

At the same time, "He" felt that something was wrong.

Logically speaking, with the enhancement of the Hell Demon Heaven Imprisonment Array, no matter how strong the joint attack of these God Spirits of the Human Empire was, they could not directly kill one of them, right?

As for why they were not injured, it was because they were obscure, they formed a Mid-Tier Deity-level military formation called Heart Slayer!

This military formation could allow them to jointly defend against attacks from the outside world.

However, if the attacks from the outside world exceeded the upper limit of their military formation defense, the additional damage would focus on one of the Scarlet God Spirits forming the array.

And Seventh Brother was that unlucky person...

At this moment, even though the Black-Eyed King was puzzled that the other party's destructive power exceeded "His" expectations, causing Seventh Brother to die accidentally.

However, when "He" saw that these God Spirits of the human empire had already fallen into the range of the Hell Demon Heaven Imprisonment Array's military formation and were suppressed by the strength of the Hell Demon Heaven Imprisonment Array, "He" quickly forgot this doubt.

"He" licked "His" purple lips, "His" eyes burning with ambition.

Today

"He" would kill the God Spirits of these two human empires. Then, "He" would replace their human empire and build "His" own Scarlet Empire on this High Continent.

Compared to the rich resources of the High Continent, the resources in the Scarlet World where the Thousand-Eyed Scarlet Empire was could only be described as poor.

Not to mention that the Crimson Overlord would give him additional rewards for establishing a Scarlet faction in the High Continent.

In short...

There were many benefits.

This was also the reason why "He" came to the High Continent to develop the new territory of the Empire.

"Kill!"

Black Eye did not waste any more time. It called for the other two High-Tier Deity-level Scarlet God Spirits and rushed towards Lu Zhen, Ji Yun, and Haros.

As for Gerard...

"He" had already consumed all the divine power in his body on the way here and disappeared.

However, seeing this, Zhou Zhou summoned another Gerard without hesitation and joined the battle to deal with the three High-Tier Deity-level Scarlet God Spirits together.

When the other Scarlet God Spirits saw this, they also rushed up with ferocious roars and stood together with the other Mid-Tier Deity-level and Low-Tier God Spirits.

After the two sides fought for a while, the 12 Scarlet God Spirits suddenly felt that something was wrong.

Why are these Human Race God Spirits... So strong?

Chapter 760: Ten Thousand Feet Mountain Sword World!

The Scarlet God Spirits were stunned.

The other party's Law Skill attacks on him were extremely painful.

As for the Law Skill attacks that he had really hit the human God Spirits, this group of God Spirits from the Human Empire had indifferent expressions.

What was going on?

All the Scarlet God Spirits felt as if they were fighting a human God Spirit that was a level higher than them.

This made them feel a little suspicious.

When did the human race have so many experts?

At the same time, the God Spirits of the Human Empire felt completely different.

He did not even feel anything when he saw the other party hit him. He hit the other party, but it made the other party scream in pain.

This feeling could only be described in one word!

Awesome!

Therefore, the human God Spirits gradually let go of themselves and no longer had so many scruples. They attacked these Scarlet God Spirits with all their might.

There were even some human God Spirits who simply gave up on defense and relied on the super strong defense of the divine artifact armor to blindly pursue offensive attacks. In the end, even though they were accidentally injured, they beat these Scarlet God Spirits until they were indescribably miserable. They even had the thought of escaping.

Zhou Zhou watched this scene and silently asked Wen Ya to stay at least 3,000 kilometers away from them.

The aftershock of this group of God Spirits' battle...

If it was on Earth, Earth would probably be destroyed by now.

Even though Galaxy was a low-level spaceship, it could not withstand the full-strength battle of these God Spirits.

A moment later...

Black Eye, who was fighting Ji Yun, looked back at the battle situation of the low-level scarlet God Spirits while in combat.

In the end, "He" only took a glance before "He" felt his vision turn black.

This was because the Scarlet God Spirits that they had brought with them were being suppressed and beaten by the God Spirits of the Human Empire. In fact, four or five of the scarlet God Spirits were already seriously injured and looked like they would not be able to hold on for long.

What's going on?!

Black Eye was furious.

This was different from what "He" had imagined!

"He" observed carefully before realizing something. "He" immediately turned to look at Ji Yun, who was fighting "Him".

"To deal with us..."

"You actually borrowed so many divine artifacts from the other four empires of the human race?!"

"The God Spirits of the other human empires are actually willing to lend you their divine artifacts?!"

"He" said through gritted teeth.

Even though these human God Spirits had controlled the light of their divine artifacts to conceal themselves,

but as the ruler of the Scarlet Empire, "He" could still tell at a glance that each of these human God Spirits had a complete set of divine artifacts on them.

Only this possibility could explain the source of the divine artifacts on these human God Spirits.

However, there were almost a hundred divine artifacts in total.

The other human empires were actually willing to lend it to them during the calamity of the myriad races?

Black Eye felt that it was ridiculous.

The human race was actually so willing to sacrifice themselves for others?

Ji Yun was expressionless, but he actually wanted to laugh.

This fellow had actually misunderstood.

However, "He" didn't say much, nor would "He" reveal that the divine artifacts on every God Spirit came from Zhou Zhou.

Zhou Zhou already had enough light on him.

If it was revealed that "He" had many divine artifacts, "He" would probably provoke a group of terrifying and greedy enemies.

At this moment, the two High-Tier Deity-level scarlet God Spirits on the other side also realized that something was wrong.

The God Spirits of this Human Race Empire were actually wearing divine artifacts to fight them.

How could they match up then?!

The two High-Tier Deity-level scarlet God Spirits immediately had the thought of leaving.

The situation was already unfavorable to them.

If they continued to waste time, it would not be beneficial to them. They might even die.

They looked at each other and then flew in opposite directions in tacit understanding.

"Trying to run?!"

Lu Zhen snorted coldly when he saw that his opponent had actually given up on escaping.

"He" raised "His" right hand and saw a finger-sized black translucent sword floating in "His" hand.

Then, Lu Zhen formed a seal and chanted an incantation. Then, he used his sword fingers to gently point at the miniaturized transparent heavy sword.

"Ten Thousand Feet Sword!"

"Go!"

"He" shouted softly.

The next second, the Ten Thousand Feet Sword suddenly flew into the sky and quickly enlarged. In the blink of an eye, it turned into a ten thousand feet sword-shaped black mountain. With a bang, it suppressed the area within a radius of five thousand kilometers. Even the Hell Demon Heaven Imprisonment Array set up by the Black Eye King was suppressed by the ten thousand feet sword-shaped black mountain.

The surface of the 10,000-foot-long sword-shaped black mountain was actually covered in dense black heavy sword Qi.

The two High-Tier Deity-level scarlet God Spirits originally wanted to rush out directly, but as soon as they touched the sword aura barrier on the surface of the black mountain, they were directly rebounded by the sword aura barrier.

When they saw this, they were already prepared. They immediately took out their Teleportation Scrolls, wanting to use Teleportation to escape.

In the end, after they injected divine power into the Teleportation Scroll, they realized that the Teleportation Scroll could not be used anymore.

The expressions of the two scarlet God Spirits finally changed.

There was no way to charge out!

Teleportation could not teleport them away either.

This place that they had planned for an ambush had actually trapped them inside!

"Haha! How's the effect of my Ten Thousand Feet Mountain Sword World?!"

When Lu Zhen saw this scene, he immediately felt happy and laughed out loud.

"If I kill you, I'll be able to leave!"

Faced with such a predicament, Black Eye and the other two High-Tier Deity-level scarlet God Spirits were triggered. They turned around and charged at Lu Zhen.

"Do you think I'm afraid of you?!"

Lu Zhen snorted coldly when he saw this. He picked up his High-Tier Deity divine artifact, the Lu Ming Sword, and rushed towards them.

At the same time, Haros and Gerard also rushed up.

The five High-Tier Deity-levels fought in the blink of an eye.

The area within a radius of 100,000 kilometers had become the battlefield of the five High-Tier Deity-levels at this moment. Just the aftershocks of the battle could easily cover an area of two to three thousand kilometers. In this range, even Low-Tier Deity-level Deities had to hide far away. Otherwise, they might be affected by the aftershocks of their battle.

This was also Zhou Zhou's first time seeing such a scene. He could not help but fly out of the spaceship and watch this peerless divine battle from the sky.

In addition, he was also very cautious.

After walking out of the spaceship, he directly used the spacetime boundary of the Sword Of New Dimension Creation, placing himself in a temporarily isolated spacetime boundary.

This space-time region had its own independent rules of time and space. Only True God-Tier experts and above could probably discover his existence. Therefore, he was not worried that he would be discovered by these scarlet God Spirits when he came out to watch the battle.

On the other side, these scarlet God Spirits all began to risk their lives perhaps because they realized that they had fallen into a desperate situation.

"They" used all kinds of trump cards, Law Skills, secret techniques, and taboo techniques, raising their combat strength to an extremely high level in a short period of time.

For a moment, Lu Zhen and the other human God Spirits, who originally had the advantage, gradually showed signs of being unable to suppress the other party.

Even the human God Spirits who had divine artifacts had begun to be injured.

However, all the God Spirits present knew that the sudden increase in strength of these scarlet God Spirits was only temporary.

As long as the human God Spirits could withstand the pressure during this period of time, when the strength of these scarlet God Spirits returned to normal, the backlash of various taboo techniques would continuously eat into them.

At that time, the combat power of these scarlet God Spirits would decrease drastically.

When the time comes...

That was when they would sound the horn of counterattack!

The human God Spirits were enduring and were also waiting for the eruption.

However, the sudden death of a human God Spirit from the Divine Sword Empire changed the situation suddenly.
