Chapter 861: Spreading

In the myriad worlds, if the Abyssal Gate appeared in a certain world, it often meant that this world was about to face the official invasion of the Abyssal World.

If they were lucky, the native life forms of this world might have barely repelled the abyssal invaders under the invasion of the abyssal life forms and saved the world that had already become a scene of devastation.

However, most of the time, the worlds that were officially invaded by the Abyssal Gate were not very lucky.

It was a light punishment for the people to suffer and be consigned to eternal damnation.

The most terrifying thing was that once the invasion of the Abyss was successful, this world would also be transformed into the Abyss World by the Abyss Will.

When the time comes...

Not only the world itself, even the life forms born in this world would gradually transform into Abyss life forms from their bodies to their hearts and collectively throw themselves into the arms of the Abyss Will.

The Abyss Will was said to have the Endless Abyss World and could even resist the Endless Heavens without being at a disadvantage.

Most of the Abyssal Worlds and Abyssal life forms were actually transformed from normal worlds that had successfully invaded...

However, what did they see at this moment?

The King of the Blazing Sun, who they had specially come to protect, had actually used the Abyssal Gate that only Abyssal God Spirits could set up...

These God Spirits, especially the Gods from the Knight Temple and the Knight Empire, were all stunned.

The Yellow Emperor and the other True God-Tiers who were watching the battle in the dark were also stunned for a moment before looking at Bai He in unison.

The corners of Bai He's mouth twitched twice before he spoke with a helpless expression.

"This kid's methods are getting more and more complicated... He even used the methods of the Abyss."

Even so, "He" did not hate the current Zhou Zhou.

When using methods, they would be righteous. When using evil, they would be evil.

They were naturally not superficial people who would kill everything in one go.

"Little friend Blazing Sun... seems to have changed his profession to Demon Hunter."

"If I'm not wrong, this method to summon the Abyssal Gate should be a supplement to the Demon Hunter class."

The Yellow Emperor's eyes were extremely sharp, and he could see through a portion of the Abyssal Gate at a glance.

"Demon Hunter..."

"No wonder..." Bai He suddenly understood. "I was wondering why Zhou Zhou suddenly asked me for the corpse of a high-level demon. It turns out that he wants to change his profession to a Demon Hunter."

"However, even though this profession's combat strength is formed very quickly, there are also huge hidden dangers." Bai He frowned slightly.

"There shouldn't be any problems." Patriarch Lu looked at Zhou Zhou carefully and pointed out, "'His' body doesn't show any characteristics of demonization. He should have become a Demon Hunter who can perfectly control the power of demons."

"There won't be any hidden dangers with such a perfect Demon Hunter."

Ever since Patriarch Lu rose to prominence, he had spent most of his time traveling the myriad worlds. He had only returned recently to save Bai He. "His" broad knowledge still convinced Bai He and the Yellow Emperor.

"That's good."

Bai He heaved a sigh of relief.

In "His" eyes, Zhou Zhou was the hope of humanity's future rise. "He" did not wish for Zhou Zhou to have any hidden dangers that would affect his future.

"Speaking of Demon Hunters, that's the only person who can perfectly transform a person into a Demon Hunter, right?"

The Yellow Emperor suddenly thought of something and asked Bai He.

"Is it Geralt?"

Bai He nodded thoughtfully. "If I'm not wrong, it should be him. He should be the one presiding over Zhou Zhou's Demon Hunter Class Change Ceremony."

"That child, what a pity."

The Yellow Emperor sighed.

"This child's father is the number one Demon Hunter of the human race, and his mother is the number one witch of our human race. This child has had astonishing potential since he was young."

"Originally, according to normal circumstances, 'He' should have been able to successfully grow into a pillar of our human race. 'He' might even be a high-level member of our human race now. If Zhou Zhou hadn't appeared, the position of the sixth Councilor might have been 'Him'."

"Who would have thought..."

"A single adventure caused both Geralt's parents to die in the hands of Demon Lord Demogorgon."

Bai He pursed his lips.

Demon Lord Dimo Gaogen was a Demon at the Master God-Tier level and was also the master of an ancient and powerful Divine Kingdom. He could be considered an overlord faction in the myriad worlds.

Such an enemy, even if they knew that there was a deep hatred between them, they did not dare to take revenge on each other.

He might feel aggrieved, but there was nothing he could do.

"Ever since that child found out that his parents had died in the Abyss, he changed his profession to a Demon Hunter alone and entered the Abyss alone to train."

"I remember that the last time a human God Spirit saw 'Him', he had already become a High-Tier Deity-level God Spirit."

"I originally wanted to invite 'Him' to join the Supreme Council of the Human Race, but I didn't expect 'Him' to reject me." Bai He smiled bitterly.

Many humans wanted to join the Human Race's Supreme Council, but they could not.

The fact that Geralt could make such a decision back then was really beyond the expectations of many upper echelons of the human race.

However, they knew what the other party was thinking.

Who asked them, the higher-ups of the human race, not to agree when they saw the child kneeling in front of them and begging them to save their parents' remains?

They would probably have a sense of resentment towards them if they put themselves in his shoes.

Fortunately...

While this child had resentment in his heart, he did not develop hatred because of it. He was just unwilling to interact too much with the human race.

Occasionally, he would even send some information about the abyss to the humans from the abyss, helping the Knight Temple survive a few dangers of the abyss invasion.

Hence, Bai He and the others, who knew about these things, actually quite liked Geralt, this 'tough child'.

...

Speaking of which, Zhou Zhou did not stop to rest when he summoned this huge Abyssal Gate. Instead, he cast another spell and summoned a total of seven Abyssal Gates!

A total of eight Abyssal Gates that emitted majestic might stood behind Zhou Zhou, making him look extremely mysterious and dignified.

Some God Spirits were even stunned.

Not to mention the soldiers.

"Soldiers and Immortals."

"Prepare for battle!"

At this moment...

Zhou Zhou's voice sounded in the hearts of all the soldiers and immortals.

Here, he used the ability of the Master God-Tier Law Skill, Decisive Mind.

Even though his current Legendary-Tier Advance Grade Chaos Holy Power could at most unleash the effect of a High-Tier Deity-level, he could also convey his thoughts to all the soldiers and immortals.

The soldiers and God Spirits immediately pulled their attention back and focused on the vast number of fog monsters in the distance.

At the same time, a voice suddenly came from the fog monster faction in the distance.

This voice was low and serious, and there was an extremely deep arrogance hidden in his tone.

When "He" spoke, the space seemed to tremble. He seemed to be an expert who was extremely accomplished in spatial laws.

"I am the current commander of the Scarlet Coalition Army and the Great General of the Archmage Scarlet Empire. At the same time, I am the Legion Commander of the Forbidden Scarlet Legion. My name is—Occles Zell !"

"Are you from the Lord faction under the King of the Blazing Sun?"

"Has the King of the Blazing Sun come personally?"

The voice asked.

"I am the Lord of The Blazing Sun."

Zhou Zhou did not hide his identity when he heard that.

Even though the two of them were tens of millions of kilometers apart, his words easily reached the other party's camp.

At the same time, as the scale of the battle had already exceeded 10 billion, there were nearly 200 God Spirits.

Therefore, even though they had not started the war, the space occupied by the soldiers before the war alone had reached more than 100 million square kilometers.

On this huge battlefield, other than the native Tribes that lived here, there were naturally Lords of all races everywhere.

Among these Lords, there were humans, elemental races, mountain spirits, goblins, and even the territory of a Lord of the Descendant of the God Spirit Race...

At this moment, they all looked at the two sides fighting in horror, feeling that the sky above their heads was about to collapse.

At this moment, they all looked at the two sides fighting in horror, feeling that the sky above their heads was about to collapse.

However, no matter how stupid they were, they could tell at this moment.

Between these two forces, there was definitely no lack of experts who could destroy the world with one move.

For small factions like "Them" that did not even have Legendary-Tier experts, if they did not seize the opportunity to escape this place, the aftershocks of a casual battle between the higher-ups of the two sides would probably be enough to destroy "Them" hundreds of times.

For a moment, the tens of thousands of people of foreign races Lord factions in the area covered by the battlefield began to migrate in panic, wanting to leave this troublesome place in the shortest time possible.

When the King of the Blazing Sun and Occles Zell conversed, the indigenous Lord factions and the Lord factions of the myriad races below immediately exploded when they heard the identities of the two parties in the conversation. They were in disbelief.

Did they hear wrongly?

King of the Blazing Sun!?

Wasn't he a Lord of All Races?

The scale of the soldiers and experts in front of him did not look like it at all.

People would probably believe that the Lord faction he was facing was a high-level empire-level Lord faction.

It took them a while to come back to their senses. Then, as they continued to migrate out of the battlefield, they began to open the world channel of their race and spread this matter to the range of the races in words, screenshots, videos, and even live broadcasts.

Chapter 862: Battle!

"King of the Blazing Sun. Tsk, I didn't expect you to really dare to come." Occles Zell snorted with laughter.

As the Strongest Lord of All Races of the previous event, King of the Blazing Sun was naturally prepared before coming.

Not to mention anything else, all of King of the Blazing Sun's public wars had been obtained as long as they could obtain them. They had also carefully studied them.

The more they studied it, the more shocked they were.

This was because "They" discovered that even though the King of the Blazing Sun was born a weak human, his growth speed was shockingly fast.

Especially him and the soldiers under him.

How long had it been since he descended to the High Continent?

There were actually God Spirits willing to work under Zhou Zhou, and there were quite a number of them.

Even though they did not know how these gods bypassed the supreme agreement and became the Worshipped God Spirits of the Blazing Sun Kingdom,

Under normal circumstances, if a country wanted to nurture the local God Spirits in their country, it was impossible for each of them to nurture them for hundreds or thousands of years.

These God Spirits could not be native God Spirits nurtured by the Blazing Sun Kingdom.

However, from this, they understood why high-level Bloodline Lords like the Original Spirit Race, the Chaos Gods Race, and the Shepherds God Race, who had deep foundations, could not compete for the King of the Blazing Sun.

The others were still at the Extraordinary-Tier and Epic-Tier levels, but on King of the Blazing Sun's side, there were many High-Tier Deity-level God Spirits.

The two sides were no longer opponents on the same level. Even if they had more foundation and could take out any fancy things, it was useless in the face of the true difference in strength.

Facing such an opponent, they had also prepared for a long time and only came to look for the King of the Blazing Sun after confirming that they were confident of winning.

"They" did not expect that the King of the Blazing Sun had already come knocking on their door before they could even start looking for him.

This was simply a gift delivered to their doors!

As long as they captured King of the Blazing Sun, the difficulty of this war could be said to have decreased by 80%!

Even if "They" ignored the soldiers of the Blazing Sun Kingdom and directly turned around to retreat after taking down the Blazing Sun Queen, the masters of the factions behind "Them" would be satisfied with their gains and give them a huge reward.

"Demon Eye King!"

"Hurry up and take down King of the Blazing Sun!"

"As long as you can take down King of the Blazing Sun, I'll apply to the king when I return. Not only will you be exonerated of your previous crimes, I'll also reward you with cultivation resources to advance to the True God-Tier!" Occles Zel suddenly roared.

"Is what you said true?!"

A dark but excited voice suddenly sounded from all directions.

"Of course it's true!"

"Hahahahaha... Alright!"

"I'll take down the King of the Blazing Sun first!"

As soon as he finished speaking, a pair of huge eyes that were more than a thousand kilometers tall suddenly appeared in the sky.

Its eyes were red and its pupils were vertical. There seemed to be all kinds of pain, torture, resentment, and other negative emotions hidden in its eyes.

Thick nomological aura fluctuated in all directions from its surface.

It was a High-Tier Deity-level Law Skill—Demon Eye Slave God!

As a High-Tier Deity-level Advance Grade God Spirit, the Demon Eye King had once used this Law Skill to enslave three opposing High-Tier Deity-level God Spirits. He had even used this Law Skill to dodge the pursuit of a True God-Tier's divine power clone.

The method of being hit was also very simple, as long as an enemy stared at by the Demon Eye Slave God dared to look at this pair of Demon Eye directly, they would be affected.

At this moment, "His" Demon Eyes were more than a thousand kilometers tall.

Such a large-scale Law Skill.

Not to mention Zhou Zhou, even most of the other soldiers subconsciously looked at this pair of demonic eyes.

If not for the fact that the Demon Eye Slave God's move was a pure single-target enslavement attack, all the soldiers and God Spirits would have been hit at this moment.

It was precisely because he knew how powerful this move was.

Therefore, at the moment "He" attacked, whether it was Occles Zell, Demon Eye King, or other existences who knew the details of this Law Skill, they all felt that the King of the Blazing Sun would definitely be enslaved by the Demon Eye King.

Some of the scarlet God Spirits were even envious.

The war had yet to officially begin, but this greatest credit was actually going to be snatched away by the Demon Eye King.

But at this moment, a scream suddenly came from the sky.

Then, the corpse of a scarlet God Spirit that was more than a thousand meters tall fell from the sky and landed in front of Oakles Zell and the other scarlett God Spirits around him.

It also seemed to have smashed into the faces of these scarlet God Spirits, giving them a loud slap.

The scarlet God Spirits looked at Demon Eye King—Lero's corpse with ugly expressions.

This high-level Lord of the Crimson Kingdom was a famous Scarlet God Spirit even among High-Tier Deity-level existences. At this moment, not only were his eyes bleeding, but his soul had already been destroyed and his aura was gone.

All the fog monster factions and all the scarlet God Spirits immediately fell silent when they saw this scene.

At the same time, Zhou Zhou looked at the text notification that suddenly appeared in front of him with a strange expression.

[You have killed a High-Tier Deity-level Advance Grade Scarlet God Spirit—Lero. Promotion energy +800 billion! Loots condensed!]

[Blessing of the War God: You have obtained an additional 72 trillion promotion energy points!]

"You're bold enough."

"Even the Master God-Tier Deep Abyss doesn't dare to attack me with 'His' will when I achieve Will-like Light."

"You're a High-Tier Deity-level Scarlet God Spirit. How dare you?"

Zhou Zhou shook his head.

At the same time, the soldiers on Zhou Zhou's side also saw the corpse of the scarlet God Spirit that had fallen from the sky in front of the array.

The war had yet to begin but a powerful Scarlet God Spirit, an Advance Grade High-Tier Deity-level, had died in front of the local array.

The morale of the enemy fog monster soldiers immediately became a little dispirited.

On the other hand, the soldiers on their side were invigorated, and their fighting spirits soared like flames!

Even the God Spirits, the Yellow Emperor, Patriarch Lu, and the others who were watching the battle were shocked and smiled.

"Let's fight!"

"Destroy this group of fog monsters!"

Zhou Zhou struck while the iron was hot and immediately ordered calmly.

"Kill!"

When the more than four billion Blazing Sun Kingdom soldiers heard Zhou Zhou's order, they immediately took advantage of their current momentum and roared as they charged at the allied army of fog monsters.

The eight Abyssal Gates behind Zhou Zhou also opened at this moment!

A large number of Abyssal Demons began to surge out of every Abyssal Gate.

Black Iron-Tier Abyssal Worms...

Yellow Gold-Tier Heart-Seizing Demon...

Diamond-Tier Nature Devil Soul...

An Extraordinary-Tier Tanari Demon...

Epic-Tier Obiris Demon...

Legendary-Tier Ancient Demon...

All kinds of demons surged out of the Abyss Gate like lunatics in an asylum. Then, under Zhou Zhou's orders, they charged at the fog monsters with fanaticism and fearlessness.

"Even though I didn't summon a God Spirit-level abyssal demon because of my strength realm with only Abyssal Demons Legendary-Tier and below, the key is the volume."

"At this rate..."

"The eight Abyssal Gates should be able to summon 10 million Abyssal Demons with varying strength every 10 minutes or so."

"This battle will take at least ten hours, or even more."

"At that time, these eight Abyssal Gates will probably summon six to seven hundred million fog monsters!"

"We're practically invincible in a protracted battle!"

Zhou Zhou could not help but sigh at the terrifying effect of the Abyssal Gate.

No wonder the expressions of the life forms of the myriad worlds changed when they talked about the Abyss invasion war.

This Abyssal Gate alone was so terrifying, what about the other powerful invasion methods?

[**Global Lord: 100% Drop Rate**](#)

Chapter 863: Killing A Person In Ten Steps! Not Leaving A Trace Within A Thousand Miles!

At the same time...

"Counterattack!"

Even though he knew that his soldiers' morale was behind the other party's at this time, Occles Zell had no choice but to give the order to fight.

"He" was confident in his soldiers.

He had hard strength and trump cards.

Even if he had to fight in a hurry, Occles Zel was confident that he could defeat the other party.

...

On the battlefield, even though the soldiers of both sides were very far away, it would only take an instant for the experts to meet and fight.

Chi Xuantian, Haros, Yang Jian, Sun Wukong, and the other strongest God Spirits crossed thousands of kilometers in the blink of an eye and fought the Scarlet High-Tier Deity-level God Spirits that were charging over.

Or the sword qi that filled the sky swept through the world...

Or the soaring divine fire burning in all directions...

Or perhaps the three sharp edges and two blades could cut through space...

Or the Wish-fulfilling Divine Needle Sweeping the Six Directions...

The Scarlet God Spirit was not at a disadvantage either.

As soon as the two sides fought, they entered a white-hot battle.

Following closely behind the High-Tier Deity-level were Mid-Tier Deity-level, Low-Tier Deity-level, and Legendary-level experts from both sides and so on.

The last to fight were the middle and low-level soldiers with the largest number.

In order to prevent themselves from being accidentally injured, they had a tacit understanding to leave a special battle area for those God Spirit powerhouses so that they could fight to their hearts' content.

They did not even dare to launch a sneak attack in the dark, afraid that a casual attack from these God Spirits would destroy them in the blink of an eye.

At the same time, when the two sides officially came into contact, Zhou Zhou also raised his right hand without hesitation and activated Incite Defection.

The next second, an invisible fluctuation instantly enveloped the five billion Scarlet Fog monsters.

A text notification appeared.

[Prompt: Please choose the specific target you want to instigate Incite Defection:]

[1: Yellow Sky Scarlet Empire—Yellow Talisman Army (Imperial-level Scarlet Army)]

[2: Black Demon Scarlet Empire—Soul Absorbing Legion (Imperial-level Scarlet Legion)]

[3: Mage God Scarlet Empire—Taboo Legion (Imperial-level Scarlet Legion)]

[4: Demonic Scarlet Empire-Red Tide Legion (Kingdom-level Scarlet Legion)]

[5: Last Moon Scarlet Empire- Gray Moon Legion (Kingdom-level Scarlet Legion)]

...

Zhou Zhou's eyes narrowed.

More than 200 options appeared in front of him.

They were all from the Lord of the Scarlet Fog faction that had participated in this battle.

His expression was calm. He was already prepared for this scene. Without hesitation, he chose the first Yellow Talisman Scarlet Army.

As for the Soul Absorbing Demon Spirit in the second Soul Absorbing Army and the Mage Gods in the third Taboo Legion, these two soldier types were extremely evil and were criticized by others.

Zhou Zhou did not want something like that to join his soldiers. He did not want them to turn around and harm his soldiers.

Soon, a text notification appeared.

[Prompt: You have activated your Lord exclusive talent, Incite Defection!]

[Incite Defection has taken effect!]

[Lord Talent Notification 1: There are a total of 136,005,522 White Silver-Tier Fog Monsters, 53,666,590 Yellow Gold-Tier Fog Monsters, 31,686,399 White Platinum-Tier Fog Monsters, 10,367,860 Diamond-Tier Fog Monsters, 3,597,700 Extraordinary-Tier Fog Monsters, 1,208,966 Epic-Tier Fog Monsters, 11,540 Legendary-Tier Fog Monsters, three Low-Tier Deity Level Elementary Grade Scarlet God Spirits, one Mid-Tier Deity Level Intermediate God Spirit has defected to you!]

[Lord Talent Notification 2: You have obtained a Spellcaster—Gaga (Legendary—Tier Advance Grade)!]

Zhou Zhou looked at the Incite Defection report and his eyes lit up. He almost laughed out loud.

This Legendary-Tier Incite Defection was indeed extraordinary!

Not only did he directly incite 236,544,581 fog monsters, there were also three scarlet God Spirits!

Not bad, not bad!

This was the first time he had incited an Incite Defection and obtained a Scarlet God Spirit!

The Lord Talent Crystal Fragment he used to level up was not wasted.

Now that his war had just begun, the number of soldiers had increased instead of decreasing. It had directly reached more than 4.5 billion, and the number of God Spirits had directly broken through to as many as 15!

It was really a wondrous scene in the world!

This was not the end.

Zhou Zhou ordered the fog monster soldiers to start fighting among themselves and cause internal strife among the four billion fog monster factions. Then, he turned to look at the Dragon Lady Lord, the Spiritual Medicine Lord, the Heavenly Commerce Lord, and more than 300 other Lords behind him.

"All of you, come and instigate the Incite Defection."

Zhou Zhou smiled.

He had already gotten what he wanted the most. Of course, he had to share the rest of the soup that he could not eat to avoid wasting it.

"Yes!"

The Lords raised their right hands excitedly and activated Incite Defection.

Large groups of fog monsters became soldiers under the Lords as the Incite Defections were used one by one.

Not long after, the fog monster factions were instigated by Incite Defection, about five billion fog monsters present, and about 1.6 billion fog monsters, became Zhou Zhou and the Lords' subordinates.

Then, under the same order, these fog monsters that had joined another faction turned around and began to fight crazily.

The five billion fog monster factions were instantly in chaos because of these infighting fog monsters.

Occles Zell, who was guarding the rear, and a few other scarlet God Spirits who did not go out to fight, immediately changed their expressions when they saw this scene.

"It's actually useless."

Occles Zel looked uncomfortable.

Before "They" came, when they were studying Zhou Zhou's means of war, they naturally knew about Zhou Zhou's special ability to cause internal strife among the enemy.

For this reason, "They" had specially invited several gods who were good at soul protection to make several group soul protection Law Skills for the entire army, thinking that this would make the other party's ability to lure in internal strife lose its effect.

Unexpectedly, he still failed.

Moreover, looking at the scale of this internal strife, it was clearly much larger than the results of their previous research.

"This King of the Blazing Sun... has become stronger again."

Occles Zell held the gem in his hand and heaved a sigh of relief. His expression became calm again.

This scene told them that even if they won in the end, the outcome would only be a tragic victory.

However, as long as he could take down King of the Blazing Sun, everything would be worth it!

The look in Occles Zel's eyes became firm.

At this moment...

"He" suddenly felt a sense of danger.

Without thinking, "He" teleported and disappeared from the spot. Then, "He" appeared in the distant sky and looked down at the spot "He" was in.

He saw a handsome human man carrying a blood sword on his back standing in "His" previous position and looking at him calmly.

"He" only emitted the aura of a Low-Tier Deity Level Elementary Grade.

However, the feeling that "He" gave him at this moment was not at all inferior to the feeling that the High-Tier Deity-level Advance Grade Scarlet God Spirit gave him.

It was the Night Rakshasa Sword God—Xu An!

At this moment, "He" didn't have any regrets after the assassination failed.

He was a Low-Tier Deity Level Elementary Grade human God Spirit after all. He could quietly barge into the enemy's rear alone and scare away the commander of the enemy's High-Tier Deity-level Advance Grade with a single strike!

In the eyes of outsiders, this was already a rather powerful achievement.

"Stop 'Him'!"

Occles Zell's face turned red. He did not expect to be so frightened by a Low-Tier Deity Level Elementary Grade human God Spirit. He immediately ordered the surrounding scarlet God Spirits.

In fact, there was no need for "Him" to give the order. When the surrounding four scarlet God Spirits saw this human God Spirit actually appear in this location, they were first stunned. Then, they held various divine artifact-level weapons and charged at Xu An with ferocious expressions.

"Those who stop me will die!"

Xu An's eyes turned cold. He waved the Blood Shadow Sword in his hand and drew out blood-colored sword shadows. He directly killed one of the Mid-Tier Deity-level Advance Grade scarlet God Spirits and put "His" corpse into his spatial treasure. Then, under everyone's gaze, he directly turned invisible and disappeared.

He had already appeared in front of another scarlet God Spirit below the Mid-Tier Deity-level a thousand miles away and silently assassinated it with a sword when he was next seen.

Killing a person in ten steps in a thousand miles without leaving a trace!

Good Xu An!

[Global Lord: 100% Drop Rate](#)

Chapter 864: Using The Nine-Headed Nightmare Realm Demon God's Heart!

"Ahhh, d*mn it!!!"

Occles Zel's face was red with incompetence and anger.

If "He" hadn't walked the path of spatial laws and was abnormally sensitive to spatial fluctuations, and if "He" hadn't been good at life-saving and escape Law Skills like teleportation, "He" might have really fallen into the other party's trap.

Furthermore, the other party did not succeed in assassinating him. Instead, he killed a Mid-Tier Deity-level from his side, took the corpse, and left. Then, as if nothing had happened, he turned around and went to assassinate another scarlet God Spirit...

'What's this?'

This was a complete disregard!

How could "He" survive in front of the other scarlet God Spirits after "He" returned in the future?

Perhaps this matter would even be compiled into myths and legends in the future and circulate in the myriad worlds for countless years.

Then "He" would be humiliated in history books.

"Kill! Gather all your strength and kill this human God Spirit!"

Occles Zel roared.

At this moment, in order to protect his reputation, the thought of killing Xu An was even on par with the extermination of the King of the Blazing Sun.

"Yes! Commander!"

The surrounding scarlet God Spirits hurriedly said and immediately flew in Xu An's direction.

When Occles Zell saw this scene, while he was furious, he could not help but feel a little terrified.

Based on this kid's attainments in stealth assassination, "He" knew that the other party's nomological comprehension in this aspect had definitely reached the level of a top High-Tier Deity-level.

Otherwise, it was impossible for "Him" not to notice.

And a mere Low-Level Deity at such a young age actually had a law comprehension that surpassed his strength by so much. This could only prove that the other party was a super genius!

"This human's potential comprehension has definitely reached the True God-Tier. He might even be at the Master God-Tier level!"

"We have to kill him. Otherwise, the future Supreme Will will definitely have another valiant general under his command!"

Occles Zel made up his mind.

It was different from the Lords under the Supreme Will who hid their ambitions and did their own things.

The fog monsters under the Crimson Overlord were all created by the Crimson Overlord, so almost all of them were very loyal to it. There were even many fog monsters with Holy Spirit-level faith.

Apart from a few Lords, most of the Lords of the myriad races did not have much faith in the Supreme Will.

Most of the Lords of the myriad races had the same goal.

Survive and obtain greater strength and power!

As for faith?

Many Lords did not have this word in their dictionaries.

It was the same for Zhou Zhou.

He mostly treated himself as a worker or collaborator of the Supreme Will. By borrowing "His" strength, he could help "He" deal with the Crimson Overlord's faction while improving himself.

Speaking of which, Occles Zell swept his gaze across the battlefield and looked at the local God Spirits of the Blazing Sun Kingdom recorded in the intelligence.

The more he looked at it, the more shocked "He" was.

This was because "He" had discovered that there was no lack of geniuses like Xu An among the native God Spirits of the Blazing Sun Kingdom who could fight above their level at the God Spirit level!

"Could this Blazing Sun Kingdom be a Lord faction personally established by the Supreme Will?"

"Otherwise, why would there be so many geniuses?"

At the same time that his expression wasn't too good, he became even more determined to destroy the King of the Blazing Sun.

When he saw Sun Wukong, Yang Jian, the God Spirit of the Holy Land, and the others, he frowned slightly.

"These seem to be the God Spirits of the human race and a few God Spirits of the people of foreign races who are on good terms with the human race."

"What price did the Blazing Sun Kingdom pay to actually invite so many God Spirits to help!?"

Occles Zell was confused and angry.

Without the help of these human God Spirits, "They" would definitely be able to defeat the Blazing Sun Kingdom and eliminate the King of the Blazing Sun with their overwhelming number of God Spirits.

Even if they could do such a thing, they would probably have to pay a huge price.

...

On the battlefield, after the Lords used Incite Defection and obtained 1.6 billion fog monster soldiers, the military strength of both sides reversed.

Zhou Zhou's military strength directly increased to 6.4 billion!

The total military strength of the allied army of the fog monster faction had plummeted from 5 billion to about 3.4 billion!

A wave of Incite Defection directly widened the gap by nearly half.

Coupled with the internal strife of the allied army of the fog monster faction, the Blazing Sun Kingdom, which had just started the war, directly obtained an extremely obvious battlefield advantage.

As for the battle between the God Spirits on both sides, the Blazing Sun Kingdom's situation was also very good.

There were more than a hundred scarlet God Spirits in the allied army of the fog monster faction, and among these scarlet God Spirits, the ratio of Mid-Tier Deity-level and High-Tier Deity-level God Spirits was very high.

On the other hand, not only was the Blazing Sun Kingdom at a disadvantage in terms of the number of God Spirits, but they only had more than 80 God Spirits. Moreover, these God Spirits were generally lower-middle-level God Spirits. Compared to the scarlet God Spirits, the difference in strength was not small.

Fortunately, they were all wearing divine artifacts. With the enhancement of the divine artifacts, they forcefully turned the disadvantageous situation into an advantageous situation.

Facing this scene, Occles Zell's eyes widened.

"Where did these God Spirits get so many divine artifacts? Did they pick up a Divine Kingdom-level treasure?"

"He" roared in disbelief.

Then, "He" immediately took out a flesh communication device and prepared to send this news to the other scarlet factions.

However, "He" paused slightly and had the thought of hiding this news.

After all, as long as he won, it was very likely that the divine artifacts worn by these enemy God Spirits would belong to them. And if this news was spread, it was uncertain if these divine artifacts would belong to "Him".

"He" suddenly thought of something and a helpless expression appeared on "His" face. "He" still sent the news honestly.

With so many Scarlet Lord forces participating in this war, it was impossible to hide the news.

But in the next moment, "His" expression immediately changed.

This was because "His" flesh and blood communication device emitted a vibration and low hum. It was actually telling "He" that the intelligence transmission had failed.

"What happened?"

"He" suddenly looked up at the sky before his pupils constricted slightly.

At some point in time, a huge scarlet light barrier that covered an area of 50,000 kilometers appeared above them, enveloping all the soldiers, generals, God Spirits, supplies, and war machines of both sides.

A purple-black illusory creature with pitch-black wings and nine heads stood on the scarlet light barrier like a nine-headed Demon Horse.

"A Nine-Headed Nightmare Realm Demon God?!"

Occles Zell's pupils constricted.

"He" was extremely knowledgeable and could tell the origin of this illusory creature at a glance.

Then, "He" carefully sensed the aura of the huge array formation before his expression suddenly changed.

"A True God-Tier array?! And it's a top-notch True God-Tier array?!"

"He" suddenly looked at Zhou Zhou in the distance.

Even though there was a huge difference between the two sides, he could still see Zhou Zhou thousands of kilometers away at a glance. He was floating in the sky behind the army, holding an illusory heart that seemed to reflect countless dream worlds in his right hand.

It was the Nine Headed Nightmare Realm Demon God's Heart, a True God-Tier Advance Grade divine artifact!

[Global Lord: 100% Drop Rate](#)

Chapter 865: Nine Worlds Divine Demon Dreamfall Array! Summon The Spirit Of The Army Formation!

This Nine-Headed Nightmare Realm Demon God's Heart was originally a High-Tier Deity-level Advance Grade array treasure, the Nine-Headed Nightmare Realm Demon God Statue.

From the information on its surface, he could only tell that it was a top-notch True God-Tier Divine Artifacts that could summon a Nine-Headed Nightmare Demon God and make "Him" agree to a reasonable wish within the paramount law.

However, just like how the Spatiotemporal Region was the hidden ability of the Sword Of New Dimension Creation, as a top-notch array formation treasure, the Nine-Headed Nightmare Realm Demon God's Heart's ability to set up formations was also hidden.

As the upgraded version of the Nine-Headed Demon God statue, the Nine-Headed Nightmare Realm Demon God's Heart was no longer a High-Tier Deity's Nine-Headed Nightmare Realm Demon God's Heart. Instead, it was a top-notch formation of True Gods and Advance Grades—the Nine Worlds Demon God Dreamfall Formation!

According to the ability of this array formation, if it was used to the limit, even if 10 True Gods descended, they would be trapped in the Nine Worlds Demon God Fallen Dream Array. It would even cause True God-Tier existences to fall into an eternal dream. With the help of the dream power, they could even kill them.

Which meant...

This array formation had the shocking offensive ability to kill more than one True God-Tier!

Even though Zhou Zhou could not reach that level with his current strength, it was more than enough to trap people.

"This King of the Blazing Sun actually has True God-Tier Divine Artifacts?"

"From the looks of it, 'He' also has an existence at the True God-Tier level behind 'Him'. 'He' thinks highly of 'Him' and even supports 'Him'."

"However, what did 'He' do to make the Supreme Agreement agree to let this human Lord possess a True God-Tier now?"

Occles Zell thought for a moment and stopped thinking about it.

No matter how powerful a True God-Tier Divine Artifact that leaned towards imprisonment and sealing was, it was ultimately not as effective as an offensive-type divine artifact!

Which meant...

The chances of winning were still in "His" hands!

Thinking of this, Occles Zell immediately stopped panicking and a faint smile even appeared on his lips.

"Pass down the order!"

"Don't hide it."

"Let the Legion Commanders use their military formations."

"Don't let a human Lord like the King of the Blazing Sun look down on us."

Occles Zell smiled faintly.

"Yes, Commander-in-Chief!"

A light blue scarlet God Spirit nodded. Then, he took out his flesh and blood communication device and issued an order to all the Legion Commanders.

...

In the sky, the Legion Commander of the Forbidden Legion of the Archmage Scarlet Empire was the first to know of the order.

"Hehehe, you should have done this long ago!"

"He" sneered at the soldiers and God Spirits of the Blazing Sun Kingdom. Then, "He" shouted crazily,

"Source Of Impurity Formation!!!"

"Summon the great Abhos!!!"

A total of 10 million taboo images below the God Spirit level gathered at this moment.

They wore grayish-black mage hoods and grayish-black mage robes, completely covering their faces and bodies.

Then, they held the Forbidden Book in their hands and chanted twisted and crazy forbidden incantations.

Wisps of pale blue water vapor emitted from their bodies as they chanted forbidden incantations, then gathered above their heads, forming a pale blue water vapor that was tens of millions of kilometers wide and covered the surface of the water vapor. It looked like a stinky rotten armor that covered the sky.

"He" was surrounded by darkness. Ominous water vapor filled the surroundings and constantly expanded and contracted, as if it was breathing.

Moreover, every breath was accompanied by an extreme stench.

It was the Source Of Impurity—Abhos!

Abhos was a taboo god and was also a direct subordinate of the Crimson Overlord.

"He" was a True God-Tier existence. The God Spirit that he had summoned was only a projection of "Him".

Then, two more High-Tier Deity-level Advance Grade projections of the Source of Impurity summoned the 20 million scarlet God Spirits.

At this moment, three high-level High-Tier Deity-level experts appeared out of thin air on the battlefield!

This was not the end.

After receiving the order from Occles Zell, the other empire-level Scarlet Legions and Kingdom-level Scarlet Legions that controlled the military formations also gathered soldiers and set up the military formations they controlled.

In less than a moment, there were a total of 110 God Spirit-level army spirits on the battlefield!

As for the army formation formed by low-level soldiers, the number of spirits summoned by the lowest Extraordinary-Tier and highest Legendary-Tier army had reached more than a million!

In the current situation, even though the total number of soldiers of the allied army of the fog monster faction had decreased, however, the number of experts suddenly increased by more than one level.

The God Spirits of the Blazing Sun Kingdom, who had originally relied on the advantage of the number of divine artifacts to greatly suppress the scarlet God Spirits, faced the increase in the number of scarlet God Spirits at this moment and found it difficult to move again.

"Generals, listen up!"

"Set up the array formation with me!"

Bai Yun also shouted angrily at this moment.

"Set up the array!"

"Build the Greedy Wolf Howling Moon Array!"

"Set up the Small God-Sura Myriad Spirit Army Formation!"

"Army God Formation!"

...

Over 10,000 generals roared.

Then, more than a billion soldiers came near them under their orders to set up the array.

Most of these soldiers were only at the White Silver-Tier level.

Only two million soldiers were at the Extraordinary-Tier level, and 100,000 soldiers were at the Epic-Tier level.

Right on the heels of that, these soldiers set up the Greedy Wolf Howling Moon Array, the Small God-Sura Myriad Spirit Army Formation, and the Weapon God Army Formation!

Among them, there were more than 10,000 Greedy Wolf Howling Moon Arrays formed by White Silver-Tier soldiers. From this, they summoned more than 10,000 spirits of the Greedy Wolf Avatar army that had the strength of the Extraordinary-Tier limit.

As for the two million Extraordinary-Tier soldiers, they summoned the spirits of 20 Sura Swordsman formations with the strength of the Low-Tier Deity Level Intermediate Grade!

The remaining 100,000 Epic-Tier soldiers summoned 10 Soldier God Army Spirits with the strength of Low-Tier Deity Level Advance Grade!

After they took shape, the spirit of the strongest Soldier God Army led the charge at the fog monster army with all kinds of battlefield weapons with a murderous aura.

Tens of thousands of Greedy Wolf Avatars followed closely behind.

Meanwhile, the Sura Swordsman stood behind the Blazing Sun Kingdom's army and continuously fired Shinra Sword Aura to attack the soldiers of the fog monster faction from afar.

Every Shinra Sword Aura required 1,000 Legendary-Tier Mist Cores to be released.

But now, the spirits of the 10 Sura Swordsman army seemed to be free as they crazily attacked the fog monster army.

On average, 10 Shinra Sword Qi attacked the Scarlet God Spirits every second.

Which meant, every second, 10,000 Legendary-Tier Mist Core were consumed.

However, even though the consumption was huge, the effect was also very obvious.

Facing the sudden appearance of 30 God Spirits and the continuous Shinra Sword Qi that shot over from behind, the sudden increase in the number of God-Tier God Spirit army spirits on the side of the fog monster faction was actually unable to cause too much damage to the army of the Blazing Sun Kingdom for a moment. They even fought equally with the God Spirits of the Blazing Sun Kingdom and did not give in to each other.

When Zhou Zhou saw this scene, he naturally did not feel sorry for the consumption of the Sura Swordsman's Mist Core. He only felt a little dissatisfied and regretful.

"What a pity."

"The time given to the soldiers is still too short."

"If my soldiers can be nurtured by the Reincarnation Sacred Palace for a few more days, they will definitely be able to nurture more generals who control military formations. This way, they can summon more God Spirit-level army spirits."

"This way, we can deal with the current situation more calmly."

Zhou Zhou said with regret.

Chapter 866: True God-Tier Elementary Grade Divine Artifact—Demon Abyss Spiderweb!

On the battlefield, the two sides fought very anxiously.

Ever since the allied army of the fog monster faction summoned 110 God Spirit-level army spirits, the total number of God Spirits under Occles Zell had already reached more than 200.

Coupled with the million army spirits below the Legendary-Tier level,

The originally powerful fog monster alliance army's strength increased greatly in the blink of an eye.

Even though the God Spirits of the Blazing Sun Kingdom were all wearing a complete set of divine artifacts that could be used by one God Spirit, in addition to Bai Yun and the others summoning 30 God Spirit-level army spirits and more than 10,000 Extraordinary-Tier Greedy Wolf Avatars,

However, it was still a little inadequate to deal with the fog monster Lord faction that had increased in strength.

This caused the God Spirits to fall into an obvious disadvantage on the battlefield.

Even though there had yet to be any incidents of God Spirits dying, there had already begun to be frequent injuries to God Spirits.

However, the only good news was that with the appearance of a large number of army spirits, they immediately had a greater advantage in terms of the number of soldiers.

After the soldiers of the Blazing Sun Kingdom eliminated all the soldiers of the fog monster faction, they could turn around and deal with these scarlet God Spirits.

Facing the siege of more than six billion soldiers, even the scarlet God Spirits would be injured or even in danger of dying if they were not careful.

"This is a priority, if we want the God Spirits in our camp to last until our soldiers deal with the other party's fog monster soldiers before turning around to help the God Spirits in our camp."

Zhou Zhou whispered.

Soldiers saving God Spirits?

It sounded unbelievable, but when the number of soldiers underwent a qualitative change, it became reality.

At this thought, Zhou Zhou turned around and entered the Galaxy. Then, he took out a bundle of spider webs.

This spider web was about three to four meters long. It was completely black and emitted a strange purple-black light.

It moved restlessly in Zhou Zhou's hands, emitting a murderous aura, as if it wanted to rush out of the Galaxy and go to the battlefield outside to kill wantonly.

Zhou Zhou looked at the purple-black spider web and a text notification appeared.

[Divine artifact name: Demon Abyss Spider Web]

[Divine artifact Grade: True God-Tier Elementary Grade]

[Divine artifact law One - Spider God Domain: The Demonic Abyss Spider Web is the Spider God Queen Rose. With her own natal spider web as the core, she extracts and combines the purple slime, Demonic Abyss evil soil, doomsday ashes and other True God-Tier materials from the Demonic Abyss region. Materials to create a true artifact of imprisonment.

Once spread out, it could extend an endless spider web that covered a radius of a million kilometers and transformed it into a domain that the owner of the divine artifact could control. Any attack below the True God-Tier Elementary Grade would not be able to injure the Demon Abyss Spider Web.]

[Divine artifact law Two— Lockdown of the Spider God Domain: When the God Punisher Domain is activated, the Demon Abyss Spider Web will take root in space and seal the space within the Spider God Domain. No life form in this range can use spatial law techniques at the level of True God-Tier Elementary Grade and below. The effect of spatial treasures will also be greatly weakened or even disappear.

At the same time, within the domain, the flying speed of any life form and things below the True God-Tier Elementary Grade will be reduced by 90%. It will also have a certain effect on the flying speed of life forms and things above the True God-Tier.]

[Divine artifact Law three—Poison of the Spider God Domain: Within the range of the Demonic Abyss Spiderwebs domain, there is a kind of intrinsic poisonous fog personally created by the Spider God Empress Lorci. Enemy God Spirits in the range of the domain will be affected by the poisonous fog, and the efficiency of the energy circulation in their bodies will be reduced by 10 to 50%.

At the same time, this poisonous fog will also cause a long-lasting corrosive poison to the body and soul of the enemy life form. The longer it is affected by the intrinsic poisonous fog, the greater the damage the enemy life form will suffer until its life ends. At the same time, only the master of the divine artifact can remove the damage of this poisonous fog without any side effects.]

[Divine artifact Law four: Creation of the Dark Poison Spider: When the master of the divine artifact uses the Demon Abyss Web, he can use the enemy's corpse as an embryo. By consuming divine power, he

can create an uneven number of Dark Poison Spiders. This Dark Poison Spider can exist permanently. Its strength is equivalent to the strength of the embryo type. The highest is not below the True God-Tier.

Currently, there can be at most 20 Darkness Poison Spiders on the Demonic Abyss Spider Web at the same time.]

This was one of the 12 True God-Tier Elementary Grade divine artifacts that Zhou Zhou had obtained from extracting the corpse of the Queen of Spiders, Lorci.

He had never used it before.

Now, this battlefield was the time for it to shine.

Therefore, Zhou Zhou took it out without hiding any thoughts.

"Spread out the Spider God Domain!"

He ordered in a low voice.

The next second, the Demonic Abyss Spider Web in his hand gradually turned ethereal and disappeared.

As the master of the divine artifact,

"He" clearly sensed it.

This Demonic Abyss Spider Web did not disappear. Instead, it was hidden in space and expanded crazily in all directions. In the blink of an eye, it covered an area of a million miles.

This action that affected the entire battlefield should have attracted the attention of countless life forms and God Spirits.

However, at this moment, apart from the Yellow Emperor, Lu Zhen, Bai He, and the other True God-Tiers who were secretly observing, they vaguely realized that something was wrong with the battlefield.

The God Spirits on the other battlefield, including Oakes Zell, the commander-in-chief of the Fog Monster's Force High-Tier Deity-level Advance Grade, actually did not realize that they had already fallen into the range of the Demon Abyss Spiderweb.

Zhou Zhou was not surprised.

They were True God-Tier Divine Artifacts used by True God-Tier God Spirits after all.

If it was casually discovered by a group of gods below the True God-Tier, it would be too unworthy of its quality.

"Activate the Spider God Domain's seal!"

"Activate the poison of the Spider God Domain!"

Zhou Zhou continued to give orders to the Demon Abyss Spider Web without hesitation.

The next second, he felt the Chaotic Sacred Power in his body crazily surge towards the Demon Abyss Spider Web like a flood that had broken through a dam.

His expression changed and he immediately used the White Platinum-Tier Law Skill, King!

At this moment, the power of a hundred Subjects gathered on Zhou Zhou.

Among the hundred Subjects, other than all the God Spirits in the Blazing Sun Kingdom, the remaining spots would be filled by top-notch Legendary-Tier experts!

BOOM!

In almost the blink of an eye, Zhou Zhou's strength had increased to the High-Tier Deity-level Advance Grade. It had even reached the level where he could use more than 20 full-strength attacks comparable to a Low-Tier True God-Tier Elementary Grade expert.

In terms of the reserves of the Chaotic Sacred Power, at this moment, the Chaotic Sacred Power in Zhou Zhou's body was more than ten thousand times that of the Legendary-Tier Advance Grade!

The Chaos holy power that had surged into the Demon Abyss Spiderweb just now was as easy as a drop in the ocean for Zhou Zhou.

"He" calmly allowed the Chaotic Sacred Power in his body to continuously surge into the Demon Abyss Spiderweb. It only stopped when he could perfectly use the two divine artifact laws, the Spider God Domain's seal and the Spider God Domain's poison.

At this moment, there was still more than 60% of the Chaotic Sacred Power in "His" body!

With the help of the True God-Tier Divine Artifacts, it was not a problem to release more than ten full-strength attacks at the True God-Tier level.

...

On the battlefield, as the Spider God Domain was quietly activated,

The expressions of the fog monster soldiers and scarlet God Spirits who were fighting the soldiers and God Spirits of the Blazing Sun Kingdom suddenly changed.

[Global Lord: 100% Drop Rate](#)

Chapter 867: Spatial Rift Dimensional Cannon!

They were shocked to discover that not only had their movement speed suddenly decreased greatly, but they could not use spatial magical techniques and spatial items.

Moreover, they also saw a large amount of purple-black poisonous fog appear somewhere in the surrounding environment.

The poisonous fog was uncontrollably sucked into their bodies. Not only did it affect the efficiency of the energy in their bodies, but it also greatly reduced their combat strength.

They even realized that they were actually poisoned at this moment, and it was a high-level poison that they could not expel!

These poisons were causing serious corrosive damage to their divine bodies at all times.

If they could not find a way to remove the poison in a short period of time, they would probably be corroded to death by the poison from the inside out.

At that time, they instantly panicked.

This was considered light.

If the God Spirits were poisoned, they could at least resist for a period of time with their powerful divine bodies and divine power.

However, the spirits of those God Spirits were different.

"They" were originally spirit bodies constructed by non-God Spirits through the power of array formations.

At this moment, under the poisonous fog of the True God-Tier, not only were they suffering as spirit bodies,

Even the fog monster soldiers who formed the spirit bodies were affected at this moment. Moreover, because they were not God Spirits, their resistance to this God-Tier poison was not as strong as that of God Spirits.

Therefore, not long after the poisonous fog began to spread in the Spider God Domain, large numbers of fog monster soldiers began to die one after another. Even the soldiers who formed the military formation under the protection of the army spirit did not recover much. At most, they died a little later.

Not long after these 110 God Spirits appeared on the battlefield, they began to collapse one after another.

After a while, most of them actually died.

Only the High-Tier Deity-level army spirit summoned by the twelve empire-level scarlet legions could barely maintain its form.

However, under the poisonous fog of the True God-Tier, they could not last long.

What was completely different from them was that the soldiers and God Spirits of the Blazing Sun Kingdom were not affected at all.

On the contrary, seeing this scene, the God Spirits of the Blazing Sun Kingdom immediately decided not to let go of this excellent opportunity and immediately counterattacked.

In less than two hours, the Blazing Sun Kingdom easily regained the advantage on the battlefield.

Thick spatial power erupted, forming a spatial passageway with endless suction behind it, directly sucking it into the spatial rift.

Occles Zell's expression instantly turned ugly.

He never expected that the spirits of the more than 100 God Spirits that they had summoned were not destroyed by the other party's gods. Instead, they were destroyed by them in this way.

"This poisonous fog is..."

Occles Zell's nose twitched slightly, and then his expression changed drastically. He hurriedly held his breath and closed all the energy exchange between himself and the outside world.

However, it was useless.

This True God-Tier Elementary Grade poisonous fog was not something a High-Tier Deity-level Advance Grade God Spirit like "He" could withstand at all.

"He" could only watch with widened eyes as the poisonous fog seeped into "His" body as if "He" had entered an uninhabited place, causing continuous corrosive damage to "His" body. Soon, "He" sensed it.

"I'm considered top-notch even among the top High-Tier Deity-level Advance Grade God Spirits."

"But it still can't stop the infiltration and damage of this poisonous fog!"

"Could this poisonous fog be a True God-Tier poisonous fog?!"

Occles Zell looked horrified.

"He" had to admit that "He" had miscalculated.

He did not expect King of the Blazing Sun to also have such an offensive True God-Tier method. Moreover, it was a large-scale offensive method.

This was much stronger than single-target offensive methods in war.

"Tell the Scarlet Legion to use their respective war machines!"

"Also..."

"Bring the Spatial Rift Dimensional Cannon."

"Blow up the army of the Blazing Sun Kingdom!"

Occles Zell said decisively.

"I have to defeat the King of the Blazing Sun quickly. Only then can I obtain the antidote for the poisonous fog from him."

"Otherwise, we can only return to our world and find those True God-Tier 'Lords' to ask 'Them' for solutions."

He thought of those adults.

Occles Zell's face twitched slightly.

If it was possible, "He" really didn't want to face those True God-Tier-level "Lords." After all, those Lords were too terrifying. Putting aside whether "He" could resolve "His" problem after meeting them once, "He" would definitely shed a layer of skin first.

In order to prevent "Him" from suffering, "He" had to do everything "He" could to take down the King of the Blazing Sun and the Blazing Sun Kingdom as soon as possible.

"Yes, Commander-in-Chief!"

The surrounding Legendary-Tier Scarlet Generals immediately left after hearing Occles Zell's order.

A moment later...

A total of 100,000 exquisite silver cannons made of spatial gems were brought up.

Each of their cannons emitted a faint spatial fluctuation, giving people a feeling that they did not exist in this space.

"Gunner, get ready..."

"Fire!"

Accompanied by the Fog Monster General's order,

The 100,000 Spatial Rift Dimensional Cannons immediately shook. It looked like they had released some cannonballs, but there was no sound at all.

At the same time, ten thousand miles away.

In the army of the Violent Storm Spirit that was casting storm spells at the back of the battlefield, cannon points suddenly appeared in the space. At a glance, there were more than a hundred thousand of them!

Then, with these 100,000 cannon points as the center, they began to continuously spread rings of spatial ripples in all directions. In the blink of an eye, they covered an area of 50,000 kilometers.

Wherever the spatial ripples affected, the Violent Storm Spirits in the range were all affected by the spatial ripples. At best, they were injured and vomited blood. At worst, their bodies were twisted and broken, looking very tragic.

Thick spatial power erupted, forming a spatial passageway with endless suction behind it, directly sucking it into the spatial rift.

Not far away, the clergymen of The Shelter of the Goddess of Life immediately wanted to run over and treat these soldiers, but they were stopped by a low-level life clergyman in the lead.

"Don't go over."

"It's in the bombardment area of the space bombardment."

"Our bodies are not even as strong as these Violent Storm Spirits who have mastered elementalization."

"Even though 'They' are injured..."

"But if we go over, not only will we not be able to save anyone, we will definitely die!"

"Treat those you can treat remotely for now,

those who cannot treat remotely, don't be rash!"

"Remember, as healers, our first principle on the battlefield is to protect ourselves. Our second principle is to save the soldiers!"

"He" ordered with a solemn expression.

"Yes, Cardinal!"

The clerics who had mastered healing abilities listened to the order.

The Cardinal-level life clergyman nodded and did not say anything. He directly began to use his Divine Art to remotely treat the soldiers who were injured by the violent spatial ripples.

...

In the spaceship.

When Zhou Zhou saw this, he nodded slightly in his heart.

Carol Moeli's subordinates were not bad. At least they didn't rush forward stupidly. In that case, he might lose a batch of medical talents.

Then, his gaze landed on the 100,000 Spatial Rift Dimensional Cannons.

"My Demonic Abyss Spider Web can greatly suppress spatial abilities and items."

"Under such circumstances, these war machines can still unleash such shocking power..."

"Without the suppression of the Demon Abyss Spiderweb, wouldn't these cannons be able to shatter a large spatial area at will?"

"This power... Is it a God-Tier war machine?"

Zhou Zhou's eyes lit up.

"His" territory lacked such God-Tier war machines.

[Global Lord: 100% Drop Rate](#)

Chapter 868: Dawn After A Long Night

Zhou Zhou's territory had already developed to a level of wealth that far exceeded the current stage in terms of war resources and the number of soldiers.

But in terms of war machinery, his progress was rather slow.

Even though his territory had many abilities and items related to assisted development and creation such as the Heart of the Craftsman, his territory was developing too quickly. Even if the craftsmen in his territory were like Luban and Tesla, they could not catch up to the development speed of his territory.

Currently, the item with the highest achievement in war machinery in his territory was a super weapon that was being developed.

This superweapon, which was regarded as a nuclear peace envoy on the Cerulean Planet, should be comparable to a Low-Level Deity's attack once it was developed and used in war.

There was no need to think about the power of a True God-Tier.

The destructive power of a casual strike from a True God-Tier could reach more than 10,000 kilometers.

Earth's diameter was only a little more than 10,000 kilometers.

If a True God-Tier were to be placed on Earth, "He" could easily split the Earth in half with a casual strike. Super weapons wouldn't be able to catch up even if they developed for another hundred years.

In another thousand years, a few more technological revolutions might be possible.

However, Zhou Zhou had already arranged for these researchers who studied super weapons to enter the Time World and use the extremely high time flow difference to conduct weapons research. The results should be visible after a while.

"He" looked at the dimensional cannons for a few seconds before looking at the Violent Storm Spirit's camp again.

Just for a moment, hundreds of millions of Violent Storm Spirit soldiers had already been injured or even killed by the 100,000 Spatial Rift Dimensional Cannons.

The clergymen in the distance could only feel anxious when they saw this scene.

Zhou Zhou did not hesitate when he saw this. He injected a little Chaotic Sacred Power into the Demon Abyss Spiderweb again and strengthened the spatial stability of the area where the Violent Storm Spirit soldiers were.

After a while, the invisible spatial cannonballs that were shot out by the Spatial Rift Dimensional Cannons could not even cause any spatial ripples after landing on the position of the Violent Storm Spirit, let alone harm the soldiers.

When the clergy saw this, their expressions immediately became excited. Then, they hurriedly rushed over to treat the soldiers' injuries and revive them.

When Zhou Zhou saw this scene, he fell into deep thought.

"This cannon should be a God Spirit-level war machine, but in terms of power, it should only be at the Legendary-Tier level."

"However, in terms of the range of influence, due to the spatial characteristics, it can compare to the attack range of a Low-Tier Deity Level. A Spatial Rift Dimensional Cannon can radiate a hundred kilometers of space."

"Especially when 100,000 cannons are fired at the same time. In a war, the killing range is comparable to a million Legendary-Tier experts."

Zhou Zhou nodded slightly.

This kind of cannon looked like nothing if used alone.

However, once the numbers were accumulated, there would be more than ten thousand or even a hundred thousand of them. Their lethality on the battlefield could be said to be destructive to ordinary life forms!

It could be seen from the fact that more than a hundred million Violent Storm Spirits were injured or even died in such a short period of time.

Zhou Zhou narrowed his eyes slightly.

It seemed that even if he used Incite Defection, there would be heavy casualties in this battle. He would probably have to invest all the Faith Divine Crystals he had saved in this battle.

...

At the same time, when he saw this scene, he immediately ordered all the dimensional cannons to attack the Yellow Gold-Tier God Attendants with a dark expression.

However, as soon as "He" fired the cannonballs, Zhou Zhou, who was in control of the overall situation with the help of the Demon Abyss Spiderweb, immediately knew the movements of these cannonballs. He directly strengthened the spatial strength of the area where the Yellow Gold-Tier God Attendant was, causing these spatial rift dimensional bullets to fall and disappear without making a splash.

When Occles Zell saw this scene, his expression immediately became even uglier.

However, even though "He" knew that it was useless, "He" did not plan to stop. Instead, "He" planned to continue using this method to exhaust Zhou Zhou's energy.

"He" didn't believe it.

The King of the Blazing Sun could always use such methods.

When he was unable to use these methods, it would be the end of the King of the Blazing Sun and "His" kingdom.

On the other side, Zhou Zhou continued to use the Demon Abyss Spider Web calmly to protect his soldiers from the other party's 100,000 Spatial Rift Dimensional Cannons.

As for his consumption...

Zhou Zhou looked at the High-Tier Deity-level and even True God-Tier supplements in his King's Treasure Box.

Any of these supplements could replenish most of the Chaotic Sacred Power he had consumed.

In terms of consumption?

"He" was really not afraid of dragging it out!

Seconds ticked by.

In the blink of an eye.

Four hours passed.

It was already noon the next day. Without the enhancement of the Scarlet Fog at night, the strength of the fog monster faction, which was already at a disadvantage, decreased greatly again.

Coupled with the energy in their bodies, their injuries, and the consumption of items, their combat strength had almost doubled compared to when they had just fought!

On the other hand, the soldiers of the Blazing Sun Kingdom

As the day descended, the enemy's strength decreased greatly. They did not need to continue maintaining the black membrane of the Dark Walker, so they immediately felt much more relaxed.

Coupled with various external injuries recovery potions, mental recovery potions, combat enhancement potions, and various other potions to increase their combat strength, they poured them into their bodies as if they were free. Their combat strength had almost always maintained their peak state.

Seeing them taking potions so crazily that some soldiers even had the time to change into brand new armor and weapons, the fog monster soldiers' already red eyes turned even redder.

It was a red color of envy and jealousy!

Why are you so rich!!!

The fog monster soldiers were furious.

With this comparison, they were simply like militias that had run out of a poor ditch!

Pitiful and poor!

At this moment, Occles Zell felt that he was about to go crazy.

"He" had been waiting eagerly for the other party to use up all his methods. In the end, when the sky was bright and the sun was already shining on his head, most of his soldiers were almost slaughtered by the other party. The scarlet God Spirits had begun to suffer casualties, but the other party still had the strength to control such a large-scale killing method at the True God-Tier??

Why are you so persistent!!!

Occles Zell was very puzzled.

If not for the supreme agreement, True God-Tier definitely could not easily participate in the battle between the Lords of the myriad races.

"He" almost suspected that the living being in the spaceship was not the Lord of The Blazing Sun, but a True God-Tier!

At this moment...

This sudden piece of news completely made "He" fall silent.

"Commander."

"The Spatial Rift Dimensional Bomb... has been used up."

A Legendary-Tier fog monster general in charge of guarding the ammunition depot flew to "He"'s side and said respectfully and fearfully.

[**Global Lord: 100% Drop Rate**](#)

Chapter 869: Refinement Divine Crystals

After a moment of silence, Occles Zell asked, "I remember that there were a total of 50 million Spatial Rift Dimensional Bullets in the ammunition warehouse, right? Why did they run out so quickly?"

"Commander-in-chief, you've been asking us to continuously fire cannonballs. Even though 50 million Spatial Rift Dimensional Bombs sounds like a lot, 100,000 Spatial Rift Dimensional Bombs can continuously fire cannonballs for four hours. This is already the best outcome after we paid attention to maintaining the cannons."

"Otherwise, two hours ago, all the dimensional cannons might have self-destructed because they could not withstand the energy of the cannonballs."

The Legendary-Tier fog monster said in fear and grievance.

Occles Zell took a deep breath and suppressed his anger to make the Legendary-Tier fog monster general retreat. Then, he suddenly punched the air in front of him, shattering space with a punch and creating a huge hole filled with cracks.

It was only after "He" retracted "His" fist that the fist hole slowly began to repair itself.

Occles Zell hesitated for a moment before extending his right hand. He saw a silver gem lying quietly in "His" right palm.

This gem was called the Refinement Divine Crystals.

It was said that after a spatial-type True God-Tier died, a portion of "His" bones naturally formed a natural treasure.

As long as the God Spirit consumed this Refinement Divine Crystal, in the following period of time, the God Spirit would temporarily possess the strength realm of a True God-Tier and a portion of the nomological comprehension of a True God-Tier.

It sounded very tempting, however, in fact, after the God Spirits who consumed it consumed all the divine power in their bodies, not only could they not continue to maintain their original strength realm, but their strength would even fall to an even lower level.

At the same time, their divine bodies would be severely injured. Under such circumstances, it was almost impossible to recover to their original strength realm.

Therefore, even though "He" had this trump card that could be said to be unsolvable, "He" had never dared to use it.

However, looking at the scene in front of him, "He" knew that "He" had no choice but to use it.

If he lost this battle, "He" probably wouldn't even have the chance to use this Soul Refinement Crystal when the time came.

Thinking of this, "He" no longer hesitated as "He" flew away from "His" original position and arrived at the highest spot in the sky above the entire battlefield.

"He" took a deep breath and roared at the sky, "King of the Blazing Sun!"

Under the enhancement of the divine power of a top-notch High-Tier Deity-level, his voice was like a hurricane, turning into a tangible and terrifying transparent sound wave that quickly spread throughout the entire battlefield.

There were more than five billion soldiers and more than 120 God Spirits on both sides, in addition to the native Lord factions who were still trapped on the battlefield and the Lords of the myriad races who were broadcasting the situation on the battlefield...

"They" were attracted by this roar and subconsciously looked at "Him".

Zhou Zhou also narrowed his eyes slightly and looked at the commander-in-chief of the allied forces of the fog.

What is "He" doing?

"King of the Blazing Sun!"

Occles Zell raised his right hand, and a silver transparent circular blade gradually appeared in his hand.

"He" stared intently at the Galaxy where King of the Blazing Sun was.

"Do you dare to fight me?"

"He" said in a deep voice.

"..."

All the living beings and God Spirits present looked at him speechlessly.

How could this guy be so shameless?

A High-Tier Deity-level who had lived for countless years challenged a Lord of All Races who had just arrived in the High Continent?

'Where's your pride?'

It would be strange if the King of the Blazing Sun agreed to it!

Right on the heels of that, "They" saw the King of the Blazing Sun appear above the Galaxy.

"He" deliberately revealed the aura of a Legendary-Tier Advance Grade. "He" looked at the other party and sneered.

"Are you sure?"

"Of course."

Occles Zell's expression was calm, and he did not feel embarrassed at all.

"He" had lived for tens of thousands of years. He was so thick-skinned that even the Supreme Defence that formed the city walls of the Blazing Sun Kingdom sighed.

Zhou Zhou sneered and could not be bothered with him. He wanted to return to the Galaxy.

When Occles Zell saw this scene, he did not say anything. He only clenched his right hand that was holding the Soul Refinement Crystal.

There was a click.

A shocking pressure came from "His" hand and spread to "His" entire body in the blink of an eye.

BOOM!

A terrifying pressure that belonged to a True God-Tier Elementary Grade existence suddenly erupted from "His" body. In the blink of an eye, it covered an area of 5,000 kilometers.

The sky trembled slightly.

A huge agreement condensed from boundless pure white light seemed to appear in the void.

It was the Legendary Supreme Agreement.

In the center of the agreement, one could vaguely see a blue-white eye that was filled with the charm of justice and judgment.

It spun around and glanced coldly at Occles Zell, who temporarily had the strength of a True God-Tier. Then, it closed again and disappeared.

Right on the heels of that, the Supreme Agreement also rolled up and disappeared into the void.

No one saw this scene, and almost no one noticed it.

Only Zhou Zhou, who was comprehending the Lord's laws, looked at the sky in confusion. Then, he thought that it was his imagination and was not too concerned about returning to the Galaxy.

But at this moment, his expression changed slightly, and he suddenly turned to look in the direction of Occles Zell.

...

In the sky, Occles Zell, who temporarily had the strength of a True God-Tier Elementary Grade, did not attack Zhou Zhou immediately. Instead, he rushed towards Xu An, who was fighting a High-Tier Deity-level scarlet God Spirit without hesitation, and appeared in front of "Him" in the blink of an eye.

"Can you guess how I felt at this moment? Didn't it feel like when you appeared behind me just now?"

Occles Zell's faint voice sounded with a hint of pleasure.

However, in the next second, "He" was stunned to see this.

Xu An had actually instantly escaped the suppression of "His" True God-Tier pressure. Immediately after, he slashed at him without any hesitation.

"It's useless."

"Even if your talent is astonishing and you can fight a High-Tier Deity-level when you're a Low-Tier Deity, it's still difficult for you to cross the gap between an ordinary God Spirit and a True God-Tier."

"Die!"

"If you die in the hands of a True God-Tier, I won't let you down."

Occles Zell ignored Xu An's attack on him and slashed at Xu An's head with a round blade.

Facing this extremely dangerous scene, a wisp of determination and ruthlessness appeared on Xu An's increasingly calm expression. The Blood Shadow Sword in his hand became even faster and stronger.

Even if he had to die, "He" also wanted to slash this hypocritical True God-Tier!

Even if "He" could only cut off a single strand of "His" hair, "He" would not hesitate!

But at this moment...

BOOM!

A spatial rift suddenly appeared in front of Xu An, separating him from Occles Zell.

Then, a man with a silver-gray divine sword hanging from his waist and wearing a mysterious gray armor walked out of the spatial rift calmly and appeared between the two. His body was surrounded by the phantom of the Nether River that represented the dead and rebirth. He could even vaguely hear the sound of the Nether River flowing.

He raised his right hand, and the ancient slender gray glove in the style of the Nether River gently grabbed the full-strength saber with killing intent and pleasure.

Occles Zell's expression changed immediately.

"You brat, can't you save me some Faith Divine Crystals?"

Zhou Zhou said to Xu An with a headache.

"Thank you for saving my life, Your Majesty."

Xu An smiled and quickly left the battlefield.

The following battle was not something "He" could interfere in.

The rest is up to His Majesty.

The surrounding soldiers, generals, and God Spirits seemed to have sensed something and subconsciously made way for the two "kings" to create a vast area with a diameter of 100,000 square kilometers.

They had a feeling that the outcome of the battle between these two would probably determine the true outcome of this battle involving ten billion life forms and more than a hundred God Spirits!

Chapter 870: Occles Zell VS Zhou Zhou!

At this moment, a strange scene appeared in the center of the huge battlefield.

Zhou Zhou and Occles Zell stood opposite each other. The difference between the man and the scarlet God Spirit was less than two meters.

There was actually not a single life form within a radius of 100,000 kilometers. They all hid far away, afraid that the battle between the two of them would affect them.

At this moment, Zhou Zhou suddenly said, "Blazing Sun Kingdom's life forms, listen up. Retreat 100 million kilometers away!"

Under the influence of Decisive Mind, all the soldiers, generals, God Spirits, and even the fog monster heard Zhou Zhou's words.

The soldiers of the Sun Kingdom repelled the enemy in front of them without hesitation. Then, they covered each other and retreated back into the Galaxy, flying 100 million kilometers away at high speed.

When he saw this scene, he also woke up a little from the excitement and fanaticism of obtaining the power of a True God-Tier.

"You've also retreated 100 million kilometers away."

"He" also spoke.

"He" had almost forgotten that he had suddenly obtained the power of a True God-Tier. If he did not control it well, it would be very easy for him to injure his allies.

After hearing their commander's words, the fog monster soldiers and the scarlet God Spirits hesitated for a moment before rushing 100 million kilometers away.

However, they did not have the Galaxy. Even though they also had more than 10 High-Tier Deity-level Scarlet Boats, their speed was far inferior to the Galaxy that the Master God-Tier had personally built.

It would probably take some time for the soldiers and God Spirits of both sides to continue fighting.

...

After seeing his soldiers and God Spirits leave, Occles Zell snorted coldly and pulled back his High-Tier Deity-level Advance Grade divine artifact, the World-Shattering Blade, to distance himself from Zhou Zhou.

"He" looked at Zhou Zhou and sensed his aura that was infinitely close to that of a True God-Tier. "He" narrowed "His" eyes slightly before sneering.

In the end, he was only infinitely close to becoming a True God-Tier.

Facing a scarlet God Spirit that had temporarily reached the level of an Elementary Grade True God-Tier, there could only be one outcome for "Him", and that was death!

The way "He" looked at Zhou Zhou was still as if he was looking at a dead person.

Zhou Zhou didn't mind. Instead, he drew his Sword Of New Dimension Creation, pulled out the blade, and stroked the silver-gray sword with his fingers.

As it was still in the state of concealing its divine artifact, Occles Zell did not notice that Zhou Zhou was holding a True God-Tier Divine Artifacts.

"Pretentious."

"He" sneered in his heart. At the same time, he began to familiarize himself with the powerful True God-Tier power he had just obtained.

As "He" also walked the path of a God Spirit with the Law of Space, "He" accepted this kind of power abnormally smoothly.

In fact, "He" felt that his comprehension of the Law of Space was advancing by leaps and bounds at this moment. He had the feeling that even if his strength regressed or even fell, he would also understand how to walk the path of a future True God-Tier.

"If I can treat my injuries from using the Soul Refinement Crystal in the future, I might be able to become a True God-Tier Scarlet and reach the level of those 'Lords'!"

Occles Zell was excited and expectant.

At this moment, "He" saw Zhou Zhou suddenly raise the divine sword in his hand and point the tip at him.

"What are you doing? Our soldiers haven't retreated 100 million kilometers away. If we fight now, the aftershock of my battle will not only affect my soldiers, but also your soldiers."

Occles Zel made up his mind.

"My soldiers have already retreated 100 million kilometers away. Only your soldiers are not 100 million kilometers away."

Zhou Zhou said calmly.

"But..."

Occles Zell was about to say something when he saw Zhou Zhou swing his sword.

The terrifying aura emitted by the sword made Occles Zell's expression change drastically.

"True God-Tier Divine Artifacts?!"

"You can actually use True God-Tier Divine Artifacts?!" Occles Zell exclaimed.

This fellow had clearly only temporarily raised his strength to the High-Tier Deity-level Advance Grade. This was already shocking enough.

He didn't expect this guy to be able to use True God-Tier Divine Artifacts at this stage!

Occles Zell was stunned.

There was no such thing recorded in the information they had scouted previously.

There was no time for "Him" to think too much.

At this moment, Zhou Zhou's performance in controlling the True God-Tier Divine Artifacts undoubtedly proved that "He" already had the ability to officially fight him.

He had to treat "Him" as an opponent of the same level. Otherwise, he would definitely be the one to suffer in the end.

"No wonder you dared to fight me alone."

"So you're still hiding such a method."

"The Lord of All Races has underestimated you."

"No."

"It should be that the myriad races' civilization and even our Scarlet Fog faction have underestimated you, a human Lord."

A shocking killing intent erupted in Occles Zell's eyes.

At this moment, Zhou Zhou's threat was thousands of times greater than Xu An's!

If Xu An grew up, he might become a General under the Supreme Will in the future!

Then, with King of the Blazing Sun's current performance, he could actually be considered a reserve general!

To put it simply, the former was only a genius, while the latter was already a true expert after the genius had grown up!

"You have the nerve to tell me this?"

Zhou Zhou sneered and slashed at Occles Zell's head.

Occles Zell immediately raised the World-Shattering Saber to block it.

Boom!

The two weapons collided.

The sound of swords colliding suddenly sounded in the world, and the sound spread to a radius of a million kilometers. In this range, all the living beings who had yet to escape heard the sound of the weapon colliding and could not help but be shocked.

The ground within a radius of 4,000 to 5,000 kilometers of the two divine artifacts seemed to have been bombarded by super weapons. It was as if an earthquake had passed. The forest was completely destroyed, the mountains collapsed, the lakes dried up, and the earthquake cracked...

In this area, it was actually completely destroyed with a single strike!

At the same time, the moment Zhou Zhou and Occles Zell exchanged blows, Occles Zell's World-Shattering Saber immediately let out a painful cry. An extremely minute crack even appeared on the blade.

The moment Zhou Zhou and Occles Zell exchanged blows, Occles Zell's World-Shattering Saber immediately let out a painful cry. An extremely minute crack even appeared on the blade.

The difference between the two divine artifacts was obvious!

Occles Zell's expression changed slightly, and he immediately retreated 40,000 to 50,000 kilometers. Then, he looked at the small crack on the surface of the World-Shattering Saber in his hand with a pained expression.

This High-Tier Deity-level Advance Grade divine artifact, the World Shattering Saber, could be said to be top-notch even among many top-notch High-Tier Deity-level Advance Grade divine artifacts. It was even said that it was forged from the fragments of a True God-Tier weapon, so its sturdiness was needless to say.

He did not expect that it would actually crack with a single touch when fighting against true True God-Tier Divine Artifacts.

"He" looked at the King of the Blazing Sun with a slightly solemn expression. At the same time, "He" was thinking of a countermeasure.

"King of the Blazing Sun uses the body of a High-Tier Deity-level Advance Grade God Spirit to control True God-Tier Divine Artifacts. This process will definitely consume a lot of energy. It definitely won't last long."

"This period of time is when he's at his strongest. I can't fight 'Him' head-on."

"I'll swim around and consume 'He' first. When his divine power is exhausted, I'll be able to control 'Him' at will."

Occles Zell made up his mind and immediately began to use the divine artifact law attached to the World-Shattering Saber and the spatial law technique he had mastered to attack.

The Law of Space was not only powerful in terms of attack, but also extremely powerful in terms of the Book of Concealment and Teleportation Technique.

Among the many nomological laws, only a few nomological laws could surpass the spatial nomological laws in terms of concealment and teleportation.

"He" teleported in front of Zhou Zhou and slashed at him with the World-Shattering Saber in "His" hand, bringing with it a powerful and terrifying spatial fluctuation.

Zhou Zhou swung his sword back fearlessly. Halfway through, he saw Occles Zell disappear along with the monster and the saber.

"He" seemed to sense something and suddenly turned his head. He saw Occles Zell appear in the air thousands of kilometers away. He began to brew a spatial law technique and slashed again. In the blink of an eye, he appeared behind Zhou Zhou, wanting to launch a surprise attack from behind.

Zhou Zhou suddenly turned around and slashed out. Ten thousand swords turned into immortals, raising a smoke wave of 50,000 kilometers.
