

Global Towers: Starting With The SSS-Rank Talent, God-Tier Extraction

Chapter 17: The Blue-flame Skeleton Wolf, the Real Boss of Level One

Liu Yan's face was full of joy, and he quickly went forward.

He didn't care what exactly these precious spirit fruits were, he just picked them first. He would have time to study them later.

Fortunately, Liu Yan had a storage ring, which made it very convenient for him to keep a lot of the spirit fruits.

Otherwise, if he had used an ordinary backpack, he wouldn't have been able to take many with him.

During the process of picking the fruits, Liu Yan didn't let his guard down.

Sometimes, the safer a place seemed, the more dangerous it was.

This was especially so since this was the central nest of the beasts. There was a chance that a beast might suddenly come.

Fortunately, Liu Yan had the Beast's Sense of Smell and Spirit Vision, which allowed him to detect the situation in a relatively large area around him.

Even if danger came, he would have enough time to react.

After ten minutes or so, with Liu Yan's swift actions, all of the spirit fruits had been picked.

With that, many precious spirit fruits were now in Liu Yan's storage ring.

Just his harvest of these spirit fruits was worth the trip.

Then, Liu Yan continued to travel deeper into the nest.

Not long after, he saw a few corpses of the Awakened that had been casually thrown here.

Liu Yan used the Beast's Sense of Smell and Spirit Vision to observe that there were no beasts in the vicinity, for the time being, then he immediately went up to the corpses with no worry and used Divine Extraction on them.

[Divine Extraction on the Awakened corpse has been successful. Obtained: Taste Enhancement (F-grade)!]

[Divine Extraction on the Awakened corpse has been successful. Obtained: Poison Immunity (D-grade)!]

2

[Divine Extraction on the Awakened corpse has been successful. Obtained: Speed Enhancement (C-grade)!]

...

Soon, he had finished using Divine Extraction on the small pile of Awakened corpses. With that, Liu Yan had obtained several skills, so he quickly checked the rewards.

[Taste Enhancement]

[Grade: F]

[Effect: A passive skill that can enhance smell and observation abilities. It has automatically fused with Beast's Sense of Smell, enhancing Beast's Sense of Smell by 10%!]

5

[Poison Immunity]

[Grade: D]

[Effect: A passive skill that will allow you to resist most poisons and reduce the damage of some poisons!]

2

[Speed enhancement]

[Grade: C]

[Effect: Upon usage, it will grant a huge increase in speed. It has been merged with Ghoststeps to form Swiftsteps (B-grade) that has been automatically upgraded to second gear!]

2

[Vision Enhancement]

[Grade: C]

[Effect: A passive skill that grants a huge increase in vision and observation abilities. It has been automatically merged with Spirit Vision and upgraded to second gear!]

1

[Animal Affinity]

[Grade: B]

2

[Effect: A passive skill that will grant you a strong affinity with most animals, beasts, and fierce beasts!]

Reading through all the skills, he had gained a lot.

Although some of the skills were not of a high grade, they could be merged with the skills that Liu Yan already had, so his improvement in that sense was not small either.

After many of the skills had been merged, their grades had increased, and their power had also received a qualitative increase. With that, Liu Yan's strength had once again increased greatly.

Among them, the last skill that he had obtained made Liu Yan's eyes light up.

This was the first time he had heard of the skill Animal Affinity. It was a B-grade skill, but its actual effects were still to be tested.

Following that, Liu Yan continued to head deeper in.

In just a few steps, he met another corpse.

However, this Awakened was somewhat different from the previous ones.

The ones he had found previously were all black-haired and yellow-skinned, clearly Awakened from the Dragon Federation. On the other hand, the one in front of him now was an Awakened that had blonde hair and blue eyes, clearly from another area.

4

Liu Yan used Spirit Vision to carefully explore and found that Tower no.1003 and Tower No. 004 were connected together.

Towers were everywhere in the world, from 0000 to 9999. He didn't expect them to be connected from the inside.

At the same time, outside the central nest, compared to the quietness that Liu Yan was in, it was extremely noisy outside. The air was filled with the roars of all kinds of fierce beasts as well as the battle cries and screams of pain of the Awakened.

After this period of struggle, the weak were almost all dead.

The ones who were still alive were the strong who had their rankings.

At this moment, the experts who had survived were finally able to catch their breath and rest in the beginner's camp.

Looking at the ranking list, they also noticed that Liu Yan's ranking was rapidly falling. His ranking was now extremely far away from them.

Seeing this, the few experts were immediately puzzled and began to discuss.

"What's the situation with this person? Why did his ranking fall so quickly? To have been surpassed by us by so much, is he already dead?"

"I don't think so. If he's dead, his profile should have turned gray instead of just dropping down the rankings with a bright profile."

"I don't understand. He's the only one with such a situation."

"Hahaha, what else could it be? He's probably hiding somewhere. Although he'll be able to survive, he can't kill monsters, so his ranking is continuously dropping!"

"That's probably the case, but it's useless, no? If he can't kill at least two Tower defense beasts, he can't advance to level two of the Tower, and he can't improve his strength. He'll be destined to be a weakling."

"That's right. Only the strong can survive in the Tower. Even if the weak can survive now, what about the future? They won't be able to escape death!"

The few of them discussed the matter for a while, but they didn't think much of Liu Yan. They then continued to hunt fierce beasts as a team to increase their strength.

...

At this moment, Liu Yan, who was in the central nest, was still not clear about the situation outside. He continued to explore deeper inside.

When he arrived in a deeper part, Liu Yan found a bronze coffin in front of him.

Through Spirit Vision and Beast's Sense of Smell, Liu Yan found that this bronze coffin was continuously absorbing the final life force of the corpses of the Awakened.

No wonder those fierce beasts brought the Awakened corpses back to their nest. It turned out that the corpses were the supply of life force for the bronze coffin and were its nutrients.

After figuring out the reason, Liu Yan knew that the bronze coffin must be something great.

It was just that he didn't know what was inside it.

1

Having confidence in his abilities, Liu Yan was extremely bold. He went forward, unafraid, and used his bow to open the coffin.

In any case, he had Swiftsteps and Helter-skelter. If he used both skills at once, his speed would be off the charts. As such, even if he encountered any danger, he was confident that he could escape and save his own life.

When the coffin was opened, a blue light immediately flashed.

Following this, a skeleton wolf with blue flames as eyes appeared in front of Liu Yan.

It was a skeleton with no flesh as if it had been demonized.

Liu Yan quickly used his smart wristband to check its stats.

[Blue-flame Skeleton Wolf (demonized)]

[Level: 5]

...

Liu Yan was shocked when he saw the stats. To think it was a level 5 ferocious beast!

He immediately understood that this was probably the real boss of the Tower's level one.

Not only was it at level 5 and extremely powerful, but it had even been demonized, which had given its strength a terrifying boost.

As soon as the blue-flame skeleton wolf came out of the coffin and saw Liu Yan, it immediately rushed over and launched an attack.

Although Liu Yan's close combat strength was quite good, he did not dare to take the risk easily. After all, the opponent was a level 5 boss.

As such, Liu Yan hurriedly activated Swiftsteps, and his speed instantly received a terrifying increase.

The Blue-flame skeleton wolf was very fast, but Liu Yan was even faster, and he pulled away at once.

Immediately after, Liu Yan used Fog!

Liu Yan used his Fog.

With that, white fog filled the entire inside of the cave, shrouding Liu Yan's body and completely blocking his vision.

2

Within the range of the skill, all vision was obstructed.

However, Liu Yan could still clearly sense the blue-flame skeleton wolf's specific position and its movements through the white fog.

At the same time, he also had the skill Aura Concealment, making it even harder for the blue-flame skeleton wolf to sense his position.

For a time, Liu Yan was in the dark, while the blue-flame skeleton wolf was in the open.

On top of that, there were many debuffs that came with the white fog, which greatly affected the blue-flame skeleton wolf's combat strength.

1

Facing a powerful level 5 boss, Liu Yan did not dare to hold back.

He immediately activated Strength Enhancement, increasing his strength by three times.

Then, he drew his bow and activated Poison Control, adding poison effects to the arrow.

1

He drew the bull into a full moon shape and shot the arrow.

5

With the support of Ultimate Aim, it accurately hit the target.

The blue-flame skeleton wolf was in pain, but it immediately rushed over in the direction that the arrow had come.

Liu Yan quickly used Swiftsteps and Helter-skelter to easily dodge it.

As expected of a powerful level 5 boss. His powerful arrow had not caused much damage.

However, the situation was extremely advantageous for Liu Yan. Relying on all sorts of powerful skills like Fog and the sort, no matter how strong the blue-flame skeleton wolf was, it couldn't even touch Liu Yan.

As such, the battle turned into a one-sided fight.

The blue-flame skeleton wolf attacked in all sorts of ways, however, not only Liu Yan was extremely agile, but there was also the added effect of the white fog, so the blue-flame skeleton wolf couldn't even get close to him.

As for Liu Yan, he continued to shoot arrows after arrows.

Not long after, after he had successfully released seven or eight arrows that hit his target, coupled with the spread of the poison on the arrows, the blue-flame skeleton wolf let out a roar and fell to the ground dead.

2

Its last roar seemed to be extremely sullen as it couldn't even scrape Liu Yan before death.

[Congratulations on winning the battle. Obtained: 300 EXP!]

3

Liu Yan stopped the skill Fog, and the white fog disappeared. He carefully came to the front, and only after confirming that the blue flame skeleton wolf was dead did he relax.

Then, he looked in a direction deeper into the nest. Through the white fog, he had noticed just now that the blue flame skeleton wolf seemed to have looked in that direction before it died. Perhaps there was something valuable there.

Liu Yan came to the front of the blue flame skeleton wolf's corpse and used Divine Extraction.

Green light enveloped the corpse.

[Divine Extraction of the blue-flame Skelton wolf's corpse has been successful.
Obtained: strength +28, vitality +22, agility +31!]

He hadn't obtained any skills this time but had been rewarded with a lot of attribute points.

Following that, Liu Yan glanced at the coffin. There was a golden book floating in the air above it, and the whole scene looked was extremely magical.

Having some guesses in his heart, Liu Yan was instantly overjoyed.

He quickly took the golden book and the notification sounded.

[Obtained: Class Certificate!]

[Congratulations on obtaining the hidden class "unaffiliated".]

Liu Yan quickly checked the specific stats.

According to the explanation shown, as long as Liu Yan met the requirements of the class certificate, he could choose to transition to any class.

Currently, there was only one class template that could be saved at a time.

Liu Yan was instantly overjoyed. All the powerful Awakened had a class.

1

Only by having a class could one move in one specific direction and obtain even more powerful combat power.

For Awakened at the same level, having a class and not having a class was like Heaven and Earth, and they were worlds apart.

Liu Yan hurriedly opened the class certificate and looked at all the classes above that were available.

It was packed with classes that were further classified into the first transition, second transition, third transition, and so on. There were also single and composite classes.

Liu Yan was immediately dazzled. He asked helplessly, "Just tell me please, what class am I closest to in meeting the class transition requirements?"

With that, two classes appeared on the panel in front of him: archers and beastmasters!

1

Liu Yan looked at the introductions of both classes and hesitated.

With his high agility, high perception, and high lethality, he was quite compatible with the archer class.

On the other hand, because he had the skill Animal Affinity, he was also quite suited to be a beastmaster. Beastmasters would also become extremely powerful in the later stages since they could make all kinds of beasts fight for them.

Both had their own advantages, and it was difficult to choose.

Liu Yan slapped his thigh. Only a child would have to make a choice. Since he was an adult, why not just choose both?

1

"I want both. Change my class to hunter!"

9

With that, the golden class certificate immediately turned into a ray of light and entered the space between Liu Yan's eyebrows.

Liu Yan's body suddenly underwent some changes.

After a long time, everything calmed down. Liu Yan had successfully transitioned, and had become a hunter that matched his attributes!

He then looked at his stats panel.

[Liu Yan]

[Level: 3(476/500)]

[Class: Hunter (first transition)]

[HP: 800/800]

[MP: 380/420]

[Strength (attack): 108]

[Vitality (defense): 101]

[Agility (speed): 123]

[Spirit (mana): 41]

[Adaptability (magic resistance): 39]
