

## Global Towers: Starting With The SSS-Rank Talent, God-Tier Extraction

### Chapter 21: The Wondrous Uses of Divine Extraction, the Powerful Wind Rider Set!

Just as Liu Yan was about to continue using Divine Extraction, he saw an Awakened with wounds all over his body walking over.

“Bro, I don’t have any beast corpses. Can I use other things to exchange for the hemostatic herb?” The Awakened asked.

“What is it? Take it out and let me have a look,” Liu Yan asked.

After all the exchanges, the beast corpses that these Awakened had had all been transferred to Liu Yan who had, in return, given them many stalks of hemostatic herb.

However, Liu Yan still had quite a number of hemostatic herbs in his storage ring.

He only needed to keep some for any accidents, and the rest weren’t too important to him. As long as it was something suitable, he was willing to trade.

“Well, the Tower defense beast that we encountered was a little strange…” The Awakened explained.

After listening to the explanation, Liu Yan roughly understood the situation.

The Tower defense beast that they had encountered was not of a high level, but was inexplicably much stronger than those of the same level.

And after going through a lot of hardship and suffering many wounds, they finally killed it.

However, the Tower defense beast then disappeared like the wind. It didn’t leave behind a corpse, instead, a treasure chest had appeared.

The Awakened had yet to open the treasure chest and did not know what was inside. Right now, he wanted to use the items in the treasure chest to exchange for some hemostatic herbs with Liu Yan.

“Bro...” The Awakened said again, “Although I don’t know what’s inside, it should be quite precious. We’re only in urgent need of the hemostatic herb because we’re heavily injured. Otherwise, we wouldn’t have been willing to give it up. Do you think you could give us more hemostatic herbs in exchange for it?”

Hearing this, Liu Yan waved his hand and said, “Sure, I’ll give you 50 stalks of hemostatic herb, how about it?”

When the Awakened heard this, his face was instantly filled with ecstasy. He had originally expected to only get 30 stalks of hemostatic herb. He didn’t expect that he could get 50 stalks.

Soon, the transaction was completed.

The Awakened left with a face full of satisfaction and the hemostatic herbs in his hands.

Liu Yan, on the other hand, had obtained this treasure chest.

He knew that there was a possibility that the items inside were valuable, but there was also the possibility that they might be useless.

However, he didn’t think much of it. On one hand, the hemostatic herbs were indeed useless to Liu Yan and were not valuable.

On the other hand, he had Divine Extraction.

Even if the items inside the treasure chest were not that good, how could they remain bad if he used Divine Extraction on them?

He then opened the treasure chest and saw a pair of silver gloves placed inside.

Liu Yan checked its stats.

[Wind Rider Gloves]

[Grade: E]

[Effects: defense +10, strength +10, agility +10.]

Liu Yan did not hesitate to use Divine Extraction on it.

A white light enveloped the Wind Rider Gloves, and a notification appeared in front of him.

[Divine Extraction of the Wind Rider Gloves (E-grade) has been successful. Obtained: Wind Rider Gloves (D-grade, a piece of the Wind Rider Set)]

A piece of the set? Liu Yan's interest was piqued and he quickly checked the renewed stats of the glove.

[Wind Rider Gloves]

[Grade: D]

[Effects: defense +30, strength +30, agility +30.]

[Set bonus: Single piece, increases the speed and accuracy of arrows.]

Seeing the effect, Liu Yan was a little surprised.

After he had used Divine Extraction on it, not only had the grade and attributes of the item increased, but it was even a part of an equipment set. On top of that, the set bonus it had was extremely compatible with the hunter class.

Liu Yan immediately had a guess. After completing the Super God extraction, the bonus seemed to be developing in a direction that was beneficial to him.

Liu Yan immediately had an idea. If he had a pile of equipment and he used Divine Extraction on them one by one, wouldn't it be very possible for him to obtain pieces of equipment with similar effects, or even directly form a complete set?

With this idea in mind, he immediately took action.

"Everyone, not only can the corpses of fierce beasts be exchanged for hemostatic herbs, but any equipment is also accepted. If you need it, hurry up and come!" Liu Yan shouted in the trading area.

When the other Awakened heard this, their eyes immediately lit up.

Some of them hadn't brought back any fierce beast corpses since the corpses were not easy to carry. As such, they hadn't been able to exchange for any hemostatic herbs and were currently wracking their brains to find a way.

There were also some who had already exchanged for the hemostatic herbs but had brought back equipment that was somewhat useless.

Now that Liu Yan had made it clear that he accepted any equipment for the exchange, the Awakened immediately took out the equipment that they did not need to exchange for the hemostatic herbs.

Useless equipment was just useless, but the hemostatic herb was different. It was a hard currency and would always be useful.

Soon, the Awakened swarmed over, and piles of all kinds of equipment appeared before Liu Yan.

Some of the equipment was not bad, and some had very low grades.

Liu Yan was not picky. He just accepted everything. He simply gave less hemostatic herbs for the lower-grade equipment, and more for the better equipment.

Soon, the transactions ended.

With this, Liu Yan had already given away more than half of the hemostasia herbs in his storage ring. Finally, he had freed up enough space.

At the same time, there were more than ten pieces of equipment in front of Liu Yan.

He picked them up one by one and used Divine Extraction.

[Divine Extraction of the Iron Wolf Brace (F-grade) has been successful. Obtained: 3 pieces of refined iron, 2 wolf claws!]

1

[Divine Extraction of the Iron Tiger Breastplate (E-grade) has been successful. Obtained: Wind Rider Breastplate (D-grade)!]

...

After finishing this process, Liu Yan took a look. The results of the Divine Extraction were indeed similar to what he had guessed.

By using Divine Extraction on equipment, he would automatically obtain items that were beneficial to him.

Equipment with very low grades would become rare materials that could be used in the future.

Equipment with relatively low grades would become better equipment that he could use.

Equipment with higher grades would become a part of the Wind Rider Set after being extracted.

Liu Yan took a look.

After all the Divine Extraction, he had obtained a lot of rare materials.

Apart from that, he had even finished the collection of the Wind Rider Set.

He quickly checked them one by one.

[Wind Rider Helmet (D-grade)]

[Wind Rider Pauldron (D-grade)]

[Wind Rider Breastplate (D-grade)]
