

# Global Towers: Starting With The SSS-Rank Talent, God-Tier Extraction

## Chapter 25: Obtaining an A-grade Skill for the First Time with Divine Extraction

Liu Yan gripped his dagger tightly, and hit the beast's weak spot with all his strength accurately.

However, with a "bang", the dagger was repelled, and the fire Kylin was unharmed.

1

He immediately used his Swiftsteps to pull away.

Only now did he notice that the fire Kylin's scales were extremely thick.

Even with his currently terrifyingly strong strength attribute as well as the three-times Strength Enhancement effect, he was still unable to cause any damage to it.

1

Liu Yan glanced at the dagger in his hand. It was the Federation Special Dagger that he had upgraded to E-grade by using Divine Extraction on it. Yet now, it was obviously not sharp enough to be of use.

To think he couldn't penetrate the scales of the fire Kylin and was unable to cause any damage to it even with his strength.

With this, his weakness was revealed.

Previously, although Liu Yan's close combat ability was fine, with the improvement in his long-range attacking abilities, especially archery, close combat had now become his weakness.

Liu Yan was helpless. Fortunately, he still had a huge advantage in speed.

With that, he relied on his speed, which he was best at, to continuously shuttle around and repeatedly test the fire Kylin's bite.

Though he was able to dodge the bites, he was unable to pull apart the distance and launch long-range attacks. After all, the fire Kylin was also very fast, and it did not leave any time for Liu Yan to do so at all.

Without a better choice, Liu Yan planned to prolong the battle.

He would first exhaust the fire Kylin by relying on his physical abilities. Then, when it was tired, he would find an opportunity to attack unexpectedly and kill it in one strike.

2

However, since the fire Kylin had reached level 8, its physical strength was very likely on par with Liu Yan's.

That being said, at this moment, he had no other way. After all, he could not launch the long-range attacks that he was good at either.

2

Liu Yan was feeling depressed when he sensed Shadow's consciousness.

1

It seemed to want to come out and fight together with him.

Shadow had, after all, just been subdued, and its level was still very low. Its combat strength was also relatively poor, so Liu Yan did not even think about it at all, and did not consider how it could help.

But now, Shadow's fighting will was very strong.

Liu Yan gritted his teeth and decided to give it a try. At worst, if Shadow could not beat it and was useless, he would just put it back into his ring.

Following this, Liu Yan released Shadow.

1

Having been summoned, Shadow appeared in front of Liu Yan.

The wolf cub's body was very small, half the size of a person. It formed a sharp contrast with the fire Kylin opposite it that was the size of several people.

However, the minute the fire Kylin saw Shadow which was clearly much smaller than it, it seemed to have seen its nemesis. It immediately gave up on attacking and quickly fled.

1

Shadow did not give the fire Kylin the chance to do so. It directly rushed up and attacked, biting at it.

Although Shadow's combat strength was not very strong, the fire Kylin did not dare to resist. Instead, the fire Kylin was thus held back by Shadow, which helped Liu Yan in launching close-range attacks.

1

Seeing all this, Liu Yan was immediately surprised. It turned out that Shadow could restrain the fire Kylin. No wonder it had been so eager to come out.

While still being surprised, Liu Yan did not stop his movements. He quickly took out the Myriad Beast Bow.

1

He then activated Poison Control, and poison was immediately attached to the arrow.

Following that, with Strength Enhancement, Liu Yan entered a berserk state and his strength was increased by three times.

At the same time, relying on the Archery column that he had unlocked, his archery abilities thus increased by several times.

The Myriad Beast Bow was pulled into a full moon shape. An arrow shot out, accurately hit the target, and directly pierced into it.

3

The fire Kylin immediately felt the pain and became furious. As it was enraged, it was no longer fearful of the shadow wolf and turned around to launch an attack.

Seeing this, Liu Yan naturally wouldn't let Shadow face it head-on. He hurriedly ordered Shadow to retreat.

Having already unlocked Absolute Order in the Familiars column, not only could Liu Yan sense the shadow wolf's thoughts, but it could also sense his thoughts.

With this, the shadow wolf quickly withdrew and did not stay to fight.

As for Liu Yan, he hurriedly activated Fog.

2

Instantly, white fog shrouded the entire area, and at the same time, it also brought multiple effects such as paralysis, delay, and so on.

The fire Kylin's vision was immediately greatly affected. It could only rely on the difference in smell and temperature to find Liu Yan and Shadow.

Liu Yan immediately put Shadow back in the ring to avoid it from being attacked by the fire Kylin, while he himself had the passive skill Aura Concealment.

2

Instantly, Shadow disappeared from the fire Kylin's perception. It could still sense Liu Yan a little, but couldn't be sure. It could only sense the approximate location of its target.

When it got closer, Liu Yan, who could sense everything in the white fog clearly, had already relied on his terrifying speed to leave.

With this, no matter how powerful the fire Kylin's offensive abilities were, it couldn't come into contact with Liu Yan at all.

As if strolling in the garden, Liu Yan strolled through the white fog. He shot out arrow after arrow, all of them fatal since they were aimed at the fire Kylin's vital points like its head.

With the Precise Shot and Pierce Shot that he had unlocked, not only was Liu Yan able to hit his target accurately, but he was also able to unleash an even stronger penetrating force with each arrow. His arrows could pierce through the scales of the fire Kylin and cause damage.

Soon, after Liu Yan had shot seven or eight arrows and the poison took effect, the fire Kylin fell to the ground.

[Congratulations on winning the battle. Obtained: EXP + 480!]

4

When Liu Yan saw the notification that confirmed that he had killed the fire Kylin, he immediately heaved a sigh of relief. He withdrew Fog and the surroundings returned to their original state.

As expected of a powerful level 8 mountain guardian beast. It had given Liu Yan 480 EXP in one go.

Liu Yan, who had just leveled up to level 4, was suddenly halfway there to the next level.

If another fire Kylin like this appeared again, he could then directly level up to level 5.

According to what he knew, the other Awakened who had just entered level two of the Tower could be considered strong if they were at level 2. There was only a handful of level 3 Awakened.

As for Liu Yan, he was already halfway through level 4. The gap between them was huge.

1

Liu Yan stepped forward to take a look. There was the corpse of the fire Kylin, and beside it was the treasure it was guarding, a warm jade.

Liu Yan took a look at the stats of the jade. It had a very high grade, reaching A-grade.

However, its effects were somewhat vague. He needed to use a special method to stimulate the power of the flames within before he could use it.

It was too troublesome. Without even thinking, Liu Yan directly used Divine Extraction on it.

A white light enveloped the jade, and a notification appeared before Liu Yan's eyes.

[Divine Extraction of the Flame Stone has been successful. Obtained: Flame Control (A-Grade)!]

[Flame Control]

[Grade: A]

[Effects: You will be able to freely control powerful flames and cause great damage. At the same time, it can greatly increase one's resistance to flames!]

Liu Yan could feel the changes in his body. At this moment, he could clearly feel the fire elements around him.

He stretched out a finger, and a small ball of flame appeared.

With a thought, the thumb-sized flame flew out and instantly turned into a two-meter-large fireball that was incomparably terrifying!

2

Liu Yan was extremely shocked. As expected of an A-grade skill, it was indeed powerful and terrifying.

With this, his strength had increased by a lot.

If he encountered a beast like the fire Kylin again, Liu Yan would not have to worry that he would not be able to break through its defense. He could just use the fire element to easily break through its defense!

This was also the first A-grade skill that Liu Yan had obtained so far!

Following this, Liu Yan looked at the fire Kylin's corpse at the side. Just as he was about to use Divine Extraction on it, he sensed the powerful desire of Shadow towards the fire Kylin. It seemed to want to eat the fire Kylin's corpse.

Could it be...

[HP: ...]

After checking its attributes, Liu Yan was shocked. Shadow's level had risen by two levels, reaching level 3, and its potential had even risen to the S-grade. It was truly insane.

Liu Yan, who had Beast's Sense of Smell, even sensed a hint of danger from the shadow wolf.

Its attributes had also gotten closer to Liu Yan's attributes when he had been in level 3 previously.

One had to know that Liu Yan's level 3 was different from the ordinary Awakened. After the many usages of Divine Extraction, his attributes had been increased by God knows how many folds.

Yet under such circumstances, the shadow wolf's attributes were actually close to Liu Yan's. It was truly monstrous.

Liu Yan guessed that just the shadow wolf's strength alone was probably stronger than the strongest among the other Awakened.

His familiar was stronger than all the other Awakened? Liu Yan felt that this was quite monstrous.

At this moment, halfway up the mountain, Sun Ren and Sun Yi were charging toward the top of the mountain together.

They were quite fast and were ahead of the vast majority of the Awakened.

Though at this moment, the Awakened of three Towers had all been gathered, and those who could survive were all talented. Therefore, they could only be slightly ahead of the others, and couldn't shake the others off as Liu Yan had done.

The other Awakened followed the majority with difficulty.

However, they were only halfway up the mountain when many of the Awakened were already beginning to tire. They were gradually unable to keep up and were all complaining.

"Isn't this too tiring? This mountain is so big, is there a need to rush to the top of the mountain in one go?"

"Brothers in front, can you slow down and wait for us?!"

"Sigh, hurry up and keep up. If you're left behind, it'll be much more dangerous to face those powerful beasts alone."

"Yeah, although it's very tiring to keep up with the experts in front, at least they'll work together to wipe out the beasts along the way. It'll make it much safer for us!"

"..."

At this moment, Sun Yi was looking at the top of the mountain. He couldn't see Liu Yan's figure at all, and couldn't help but feel distressed, "Why is Liu Yan's speed so terrifying? I had originally wanted to deal with him together, but I didn't expect him to run so fast!"

When Sun Ren heard this, he smiled and said calmly, "Don't worry, there's a fierce mountain guarding beast on the peak of the mountain that's said to be extremely powerful. Normally, even if all the Awakened in the three Towers work together, they might still not be able to deal with it. If he reaches the top of the mountain first, he's sending himself to his death. It's useless!"

"That's good. To think the idiot even ran so fast. He's sending himself for a beating to his death!" Sun Yi said with a smile.

At this moment, Sun Ren felt the powerful aura of a beast coming from the mountain peak and was slightly surprised.

"There's a beast on the mountain peak that seems to have evolved. What a violent and powerful beast!" Sun Ren exclaimed.

Sun Yi didn't feel it at all, and his face was full of confusion.

Sun Ren's face was full of determination, "I want this beast!"

Thinking of this, Sun Ren shouted, "Everyone, stop!"

Immediately after, Sun Ren stopped his footsteps. Sun Yi, though puzzled, stopped as well.

Seeing this, the group of Awakened following behind also stopped.

Level one of the Tower was nothing compared to level two. Level two was extremely dangerous, so all of them wanted to move together. They didn't dare to travel alone since that would be too dangerous.

Not every Awakened was as confident in their strength as Liu Yan. They did not dare to move alone.

"Big brother Sun Ren, what's wrong? Why are we stopping?" An Awakened asked in confusion.

The other powerful Awakened also looked puzzled. They wanted to reach the top of the mountain as soon as possible.

As for the weaker Awakened, they took this opportunity to rest and catch their breath. It was already a hard task for them to even keep up with the main group.

"The Awakened from Tower 107 should have more trust in me. As everyone knows, I had been ranked first in Tower 107. In the previous battles, I had also controlled some beasts to help the lot of you kill the boss, which was why many of you have been able to survive till now," Sun Ren said.

The Awakened from Tower 107 looked at each other and nodded.

"That's right. We do remember big brother Sun's kindness in saving our lives."

"Thank you for taking care of us before. Just say what you want to say. We'll listen to you!"

"That's right. Big brother Sun gave me this life, so I'll listen to big brother Sun too!"

When they were faced with the beast tide in Tower 107, they encountered a powerful boss. Sun Ren had controlled beasts to delay the boss, which was how they had the chance to besiege and defeat the boss, thus surviving and coming to level two of the Tower.

The Awakened from the other two Towers were puzzled. Sun Ren hadn't saved them and had nothing to do with them.

At this moment, Sun Yi added, "Everyone, my big brother is very powerful. His talent is the A-grade Beast Control which is extremely powerful. Now, his talent has been developed. Previously, it was also thanks to this talent that he was able to control multiple beasts and displayed powerful combat strength! Only by relying on my big brother will we be able to go further!"

1

When the rest of the Awakened heard this, they were all extremely shocked.

There were very few Awakened with A-grade talents, and those with A-grade talents who could survive till now were even fewer. It was very likely that Sun Ren was the strongest among all the Awakened present.

## Chapter 27: Setting the Mountain on Fire

At this moment, Sun Ren smiled proudly as he said, "That's right. I hope that all of you are clear of the current situation!"

The other Awakened looked at each other and discussed for a while before agreeing unanimously.

"If you have any ideas, just say it. We'll listen to you!"

"We'll act together and listen to your commands!"

"..."

Most of the Awakened chose to follow.

"Good, everyone is wise," Sun Ren smiled and said, "My talent allows me to tell the strength of fierce beasts. The one on the mountaintop is even stronger than the bosses we've encountered before, so if we charge at it and engage in a bloody battle with it, we might not be a match for it. However, I have an idea."

The rest of the Awakened looked over.

Although they could not sense how powerful the fierce beast on the top of the mountain was, the ones they had encountered on level two were already much stronger than those on level one.

They hadn't seen any level 1 fierce beasts either. All they had met were level 2 and level 3 fierce beasts.

If there was a boss on the mountain, it was indeed possible that it was very powerful and they might not be a match for it.

"Big brother Sun, please tell us what you have in mind!" An Awakened said anxiously.

Sun Ren continued, "I suggest that we set fire to the mountain. No matter how strong the beast on the mountain is, it will definitely die under the fire. Even if it doesn't, it will at least be heavily injured. When the time comes, we can just go up and collect our harvest!"

6

Hearing this, some Awakened immediately had some doubts.

"But I saw Liu Yan rushing up just now. If we set fire to the mountain, wouldn't we burn Liu Yan to death?"

"That's right. I also saw that person go up just now. He seems to be pretty strong."

Sun Ren sneered and said, "Everyone, at a time like this when we can't even protect ourselves, why would you still consider that? Besides, think about how many companions we lost on level one. One more death is nothing. Moreover, with the riddance of a strong opponent, we might be able to get more treasures in the secret realms. Wouldn't that be better?"

3

The few people who had bought hemostatic herbs or equipment from Liu Yan at the resting platform were not very willing to do so.

"This can't do, Without Liu Yan's hemostatic herbs that I've gotten at the resting platform, I might have been seriously injured by now."

"Me too. I bought equipment from him. Without such powerful equipment, I wouldn't have been able to defeat that level 2 beast."

"Liu Yan saved our lives. Putting aside doing something for him in return, at the very least, we can't harm him!"

However, these people were only a minority. Most of the Awakened weren't familiar with Liu Yan, especially those who had come from the two other Towers.

As such, the majority of Awakened felt that it was nothing.

“What’s that count as? It’s just reasonable trading. It’s not like he gave those things to you for free. There’s nothing to feel sorry for.”

“That’s right. Why did he have to be the first to rush up and not move with us? If he dies, he deserves it!”

“Everyone knows the situation on Blue Planet now. The human race is having a hard time. It’s the best if we get out of here alive. There is no need to care too much about his life and death!”

1

Soon, the voices of those who objected were all drowned out.

In the face of survival and huge benefits, they did not feel that there was anything wrong with killing Liu Yan.

Only a few people felt that this was not a good idea and still held an opposing attitude.

Seeing this, Sun Ren had already expected it. He simply smiled and said, “Those who are willing to burn the mountain, come with me. After we’re done, we will rush up together to harvest the treasures. Those who are not willing to do so, just stay by the side. When the time comes, you won’t have a share in the harvest!”

1

Soon, a small number of Awakened who were not willing to burn the mountain and kill Liu Yan either stayed where they were or went down the mountain to wait.

Although they didn’t want to harm Liu Yan, they wouldn’t go so far as to help him either. After all, if they went against the other Awakened, things wouldn’t end well for them.

The majority of the Awakened who were willing to burn the mountain gathered and discussed how to do so.

This fire-attributed mountain was of the fire element. There weren’t many trees on it, so it wasn’t easy to set a fire here.

5

That being said, it was of the fire element after all. As long as a fire was set, it should be very easy to burn the mountain.

2

At this moment, there was a delicate woman in the crowd who was a little anxious.

She was the person who ranked first in Tower 106, Chu Long.

Chu long and Liu Yan were neighbors and childhood sweethearts. She had a very close relationship with Liu Yan.

3

When the three Towers had merged, she had been looking for Liu Yan, but she had never found him.

After that, when they had arrived at level two of the Tower and Liu Yan had rushed forward ahead of everyone, then only had she seen him, but she could not keep up with him.

Now, hearing that these people were going to set fire to the mountain and burn the boss on the mountain to death along with Liu Yan, she became anxious and quickly went forward to stop them.

Chu Long came to the front of Sun Ren and the others and said, "Everyone, Liu Yan is my friend. Can we not set fire to the mountain? We can find another way. There will always be a way to deal with that powerful boss!"

Sun Ren glanced at Chu Long. She was pretty and had a hot figure.

However, after a few glances, he stopped paying attention to her.

In the Tower, beauty was no longer attractive. Strength and survival were the biggest priorities.

1

As long as they could leave the Tower alive and return to Blue Planet, they would become experts and would be treated extremely well in all aspects.

Beauties? As long as they had the strength, they could have as many as they wanted at that time.

1

Sun Ren directly ignored Chu Long. He didn't say a word, but his meaning was obvious.

Sun Yi looked at Chu Long lustfully, but after being glared at by Sun Ren, he didn't dare to look at her any longer and continued to busy himself.

2

The other Awakened did the same. All of them acted as if they hadn't heard anything and directly ignored Chu Long.

Seeing this, Chu Long stomped her feet angrily, but there was nothing she could do.

Although she had been ranked first in Tower 106 and had a very highly graded talent at S-grade, her talent was Holy Healing, which was a healing support type talent.

2

Her talent was very powerful. It was thanks to it that she had played a key role in Tower 106's beast tide previously and thus obtained a very high number of points to become number one.

However, her talent was not a battle-type talent. She did not have much combat ability. She could not even defeat an ordinary Awakened.

3

Now that these people were ignoring her, she did not have the ability to forcefully stop them either. Her face was immediately filled with helplessness.

Looking at the mountaintop, Chu long pondered for a moment. Finally, she gritted her teeth and decided to go up the mountain to save Liu Yan!

At this moment, Sun Ren and the others were bringing some combustible materials and heading to the top of the mountain.

1

They were currently only halfway up the mountain. If they started the fire here, it might not reach the peak of the mountain. As such, they had to get close.

Having made her decision, Chu Long hurriedly set off before Sun Ren and the others.

She was very aware that she had to rush to the peak of the mountain before these people set the mountain on fire. She had to rush up there, tell Liu Yan, and bring him away.

Only in this way could she successfully avoid the risks and save Liu Yan.

## **Chapter 28: Forced to Leave the Mountain? The Secret Realm Opens!**

At the peak of the mountain, relying on his Spirit Vision and Beast's Sense of Smell, Liu Yan could sense that there were dozens of auras approaching from not far away.

These dozens of auras seemed to be very excited and were also quite strong.

At first, Liu Yan did not think much of it, thinking that it was the stronger Awakened who had arrived.

However, it didn't take long for him to notice that something was wrong. The fire elements around him seemed to have been ignited.

He hurriedly went to the side of the high platform and looked down.

With his Spirit Vision, even though he was quite far away, Liu Yan could clearly see the situation in the distance.

Thick smoke was billowing in the distance. The fire elements had been ignited, and a huge fire was rapidly sweeping towards the top of the mountain.

Behind the flames were dozens of Awakened.

Only then did Liu Yan understand the situation.

It turned out that these people knew that they were no match for him and that they did not even have a chance to fight him, so to avoid any fights with him altogether, they had chosen to set fire to the mountain.

3

Through Spirit Vision, Liu Yan looked at their faces and memorized them one by one.

Many of them were the Awakened who had been in the same Tower as Liu Yan.

Some had talents related to the fire element, some had talents related to the wind element, while some had inflammable items with them.

Under the cooperation of the group, they used the wind to help the fire grow, then added oil to the fire. Soon, the fire elements in the surroundings were ignited, forming roaring flames that headed toward the top of the mountain.

"These people are really ruthless!" Liu Yan was secretly surprised.

He did not expect that other than the fierce beasts and the environment in the Tower, the Awakened who were human, like him, were also so dangerous.

2

Indeed, the hearts of people were unpredictable.

1

Liu Yan knew that they wanted to burn him to death with the fire. This way, when the secret realm opened, they could rush toward the treasure.

With this, not only would they face one less powerful opponent, but they would also be able to keep the treasure for themselves.

Liu Yan was helpless and prepared to use Swiftsteps.

With Swiftsteps, his speed could be extremely terrifying.

In addition, he had an A-grade skill Flame Control, which provided him with powerful fire resistance.

Liu Yan estimated that it would not be a problem for him to resist the flames for a short period of time, as long as he did not stay in them for a long time.

He would avoid the danger of the fire for now and settle the score with them later.

Having made up his mind, Liu Yan was just about to set off when an announcement suddenly sounded in the Tower.

[The boss on the fire elemental mountain has been killed. The secret realm has been opened!]

1

When the group of Awakened below heard this, they were all puzzled.

They had just started the fire and the fire had not even reached the top of the mountain yet. How was the boss already killed?

Could it be that the boss had rushed into the fire foolishly and had been burned to death?

At this moment, Liu Yan, who was on the mountain, heard a strange sound.

He followed the source of the sound and came to the other side of the mountain.

Thick smoke billowed around him, accompanied by a circle of flames.

Liu Yan used Flame Control and released a wave of flames, making a hole in the circle of flames.

Through the hole, he noticed that on the other side of the mountain, the entrance to the secret realm had appeared.

Seeing this, Liu Yan was delighted.

Those Awakened had bad intentions, but they probably did not expect that in such a short time, not only had Liu Yan rushed to the top of the mountain, but he had also killed the powerful boss on the top of the mountain alone.

1

After the boss had been killed, the secret realm opened, and its entrance had thus appeared.

He could totally be the first to enter the secret realm, exploring the secret realm before any of them and having the chance to obtain the treasures first.

On the other hand, the plans of the Awakened who hadn't reached the mountaintop had backfired. Not only had the huge fire that they created not harm nor affect Liu Yan, but it even prevented them from advancing forward. With this, they could not head toward the entrance of the secret realm and enter it at the first opportunity.

The backfire was especially apparent because the current elemental peak they were on was fire-attributed. The surrounding fire elements were extremely abundant.

Under the huge fire, a large number of fire elements had been ignited. The fire burned more and more vigorously, showing no signs of dying out soon.

"You guys can just wait till the flames die off to come up slowly. I'll be going ahead!" Liu Yan glanced at the group of Awakened who had set the mountain ablaze, then returned to the other side of the mountain and rushed down the mountain.

1

The surrounding flames also burned to the other side of the mountain.

However, Liu Yan had Flame Control, so he had a very strong fire resistance.

To be on the safe side though, he still used Flame Control to build a wall of flames around himself, blocking the other flames outside.

At the same time, he activated Swiftsteps, and his body instantly became lighter while his speed increased tremendously.

Relying on Swiftsteps and Flame Control, Liu Yan rushed towards the entrance of the secret realm that was halfway up the mountain.

Soon, enduring the surrounding flames, Liu Yan arrived at the entrance of the secret realm.

At this moment, even though he had a good flame resistance, he still felt a burning sensation all over his body that was extremely painful.

This was, after all, the fire elemental mountain. Ordinary flames simply could not compare to the fire formed from the ignition of fire elements.

When he arrived at the entrance of the secret realm, Liu Yan hurriedly took a step forward and entered it.

A wave of dizziness washed over him, but it disappeared in an instant.

When Liu Yan stood still, he could only feel a wave of coldness all over his body.

Liu Yan looked around and saw that this was another space. It was a world covered in ice and snow.

At the same time, a notification sounded from his wristband: [You have entered the secret realm. You have temporarily been removed from the points calculations, and your points will not be factored into the ranking list for the time being!]

Liu Yan, who had felt extremely hot just a moment ago, now felt extremely cool and comfortable.

He was quite surprised. He did not expect that the secret realm on the fire elemental mountain would be a world of ice and snow. It was truly strange.

With curiosity, he slowly walked forward and began to explore the secret realm.

As far as he could see, the secret realm was very big. It was a world of ice and snow that seemed to stretch on forever, but there were no other creatures or treasures within sight.

After walking for a while, Liu Yan, who had initially felt extremely cool and comfortable, soon felt that something was not right.

He was now feeling a bone-piercing cold. Moreover, it seemed that as he advanced further, his surroundings were becoming colder. It was as if he was in an ice cellar that had been sealed off for a hundred years.

Liu Yan knew that if this continued, he might freeze to death before he could find any treasures.

With this, he hurriedly used Flame Control to create a circle of flames around himself, providing him with warmth.

Just a moment ago, Liu Yan had used a wall of flames to block the flames and the heat.

And now, it was the complete opposite. He was now using a flame wall to block the ice and snow as well as the cold, to provide himself with warmth.

Relying on the Flame Control, Liu Yan was finally able to maintain his body's normal temperature. He hurriedly increased his speed in his explorations, not daring to stay in this secret realm for too long.

## **Chapter 29: Enchanted Puppets! No Weaknesses?**

In the secret realm of ice and snow, Liu Yan did not have to walk for long before he realized that something was amiss.

He was surrounded by a world of ice and snow, and the ground beneath his feet was formed from ice crystals.

With the high temperature of the flames around him, the ground that he had walked on earlier had gradually melted and cracked.

After it had cracked, Liu Yan looked down only to see an endless abyss.

The sound of falling ice crystals did not come after a long time.

Seeing this, Liu Yan had no choice but to reduce the flames around him.

He had to lower the temperature of the flames a little so that the ice crystals under his feet would not melt and he would not fall into the endless abyss.

As a result, his body turned cold again.

Although it was not so cold it chilled the bone, it was still relatively cold. If he stayed here for a long time, he would definitely not be able to endure it.

Liu Yan relied on his body to endure the cold. He only surrounded himself with some flames as he hurriedly moved forward.

Just as he was struggling, unexpectedly, puppets suddenly rushed out from the surroundings and towards him.

[Enchanted Puppet]

[Level: 4]

[Potential: D]

[HP: ...]

Looking at their stats, they were level 4 enchanted puppets.

Liu Yan wasn't afraid at all.

Although he was also at level 4, his strength was already above level 8.

However, there were dozens of enchanted puppets rushing out from the surroundings, and there were even more rushing towards him from afar.

Liu Yan hurriedly took out his Myriad Beast Bow and shot one arrow after another.

1

Under his powerful strength, the arrows easily penetrated the armor of the puppets, and some even pierced them through.

However, these puppets were not living beings, to begin with. They were without life and did not feel pain. Even after being shot through, they were still completely unharmed and continued to rush toward Liu Yan.

Two of the enchanted puppets were already close to him. After blocking their attacks, Liu Yan hurriedly moved away from them.

At this moment, Liu Yan's expression turned solemn.

These enchanted puppets were incomparably powerful. Their strength was actually not much inferior to his, and their attacks were incomparably ruthless. Their every move was aimed at his fatal spots.

What gave Liu Yan the greatest headache was that while these puppets greatly numbered and were very powerful, they did not feel pain at all.

1

As such, he could not engage in close combat with them, or he would be easily injured.

If he attacked with long-range methods, even if he hit them with his arrows, it would not be able to cause much damage.

The poison attached to the arrows was even more useless. The puppets were not life-forms, to begin with, so they were not afraid of poison at all.

2

These enchanted puppets were simply indestructible, which made Liu Yan extremely wary of them.

Helpless, Liu Yan hurriedly used Swiftsteps and pulled away from them with his terrifying speed. He hid to the side, thinking of a way to deal with them.

He definitely could not stay in this ice and snow secret realm for long.

Firstly, the environment here was extremely harsh. It made him extremely cold, yet he could not use too many flames to warm himself. Otherwise, it would be even more dangerous if he fell into the abyss.

Yet, this was a secret realm. Liu Yan entered through teleportation and could not find an exit at all.

Secondly, these enchanted puppets were not only powerful but also indestructible. Plus, their numbers also made him extremely troubled.

2

Just as he was thinking, the ice block under Liu Yan's feet started to crumble. It looked like it was about to collapse.

Seeing this, he had no choice but to leave his hiding place before it shattered.

At this moment, the surrounding enchanted puppets charged at him once again.

Liu Yan was a little puzzled. He had already distanced himself from them and avoided their sight, so how could they still find him so accurately?

It was as if these puppets had a third eye that could always find him accurately.

At this moment, Liu Yan sensed the powerful fighting desire of the inferno shadow wolf again. It seemed that Shadow wanted to help him out.

2

Liu Yan directly released it.

The body of the inferno shadow wolf was equally terrifying. The moment Liu Yan released it, it charged at the puppets and started fighting them.

Although the puppets were very powerful, they were not as powerful as the inferno shadow wolf.

With its strong body and firepower, the inferno shadow wolf could easily suppress the puppets.

However, the enchanted puppets were immortal, so they could keep pestering the wolf.

For a moment, the inferno shadow wolf was locked in a fierce battle with the puppets.

As the wolf was covered in flames, the temperature around it was rising, and the ice under its feet was melting faster.

Seeing this, Liu Yan frowned slightly. It was not a good idea to delay the battle.

Let alone the fact that the inferior shadow wolf would be exhausted soon, the ice crystals under its feet could not sustain the battle for that long.

1

Before long, the ice crystals would melt, and the inferno shadow wolf would fall into the endless abyss together with the enchanted puppets.

1

The inferno shadow wolf was Liu Yan's first familiar. Not only was it powerful, but he already had some feelings for it. As such, Liu Yan wouldn't allow such a situation to happen.

He quickly wracked his brain for a solution. He had to quickly find one, or else the situation would be even more disadvantageous if this dragged on.

Soon, he thought of something. Among the hunter class skills on traps, there had been some introduction about puppets.

Liu Yan quickly searched through the memories in his mind.

According to the records, puppets had no life and were immortal. Therefore, if one wanted to defeat a puppet, one had to find its energy core.

By destroying the puppet's energy core, it would stop. As such, it would naturally no longer pose any threat.

However, each puppet was different. The location of the energy core would also be different depending on the puppet's production.

Liu Yan looked at the enchanted puppets in front of him and wondered where their energy core might be.

He took out his Myriad Beast Bow and nocked an arrow. He then joined in on the battle and searched for the energy core of the puppets while attacking.

He first aimed at the more common parts of the puppet, like its head and its heart.

However, after shooting two arrows in succession and piercing through those two spots, a hole appeared in each of the two puppets, but they were unaffected as they continued to fight.

No? Then he would just keep trying. He didn't believe that he can't find their energy core!

In Liu Yan's hunter class skills, Rapid Shot in the Archery column had been unlocked and learned, so the speed of his arrows could be very fast.

Liu Yan shot arrows at different parts of the puppets one after another, looking for their energy core.

However, looking at the enchanted puppets not far away after a few minutes, he suddenly felt a headache.

Apart from the head and heart at the beginning, Liu Yan had experimented on their throat, chest, abdomen, crotch, legs, and even ankles.

2

However, the results were all the same. The puppets were not affected at all except for additional holes in parts of their bodies.

Liu Yan couldn't find the energy core of the puppets at all!

At this moment, after the time that the battle had gone on, the ground around the inferno shadow wolf had cracked and was about to collapse.
