551 Fusion Skill Silver Moon Scimitar!

In the dueling arena.

Liu Yan did not retreat in the face of this powerful Silver Moon Scimitar.

Liu Yan first activated his S-grade skill, Dragonification, and his entire aura changed. All aspects of Liu Yan's body received a significant upgrade, including his defense.

At the same time, Liu Yan used Earth Secret Art to form a ring of armor around him.

The earth elemental power had directly condensed into a physical body, and its defensive power was outstanding.

Finally, Liu Yan activated his S-grade skill, Rock Wall.

A large amount of earth elemental energy condensed, forming a wall in front of Liu Yan.

However, the Silver Moon Scimitar was much larger, so Liu Yan was naturally unable to control it to form a smaller stone wall.

Liu Yan had no choice but to form a gigantic Rock Wall.

But correspondingly, the thickness was much thinner, and the defensive power was reduced.

The huge Silver Moon Scimitar struck the Rock Wall.

After a short pause, the Silver Moon Scimitar's light dimmed a bit. It was obvious that Rock Wall had consumed some of its power.

But at the same time, the Rock Wall was also instantly shattered by the attack of the Silver Moon Scimitar.

The Rock Wall had blocked two rounds of long-range attacks from the ordinary members of the European Federation team and was barely exhausted in the face of the Silver Moon Scimitar. It was clear how terrifying the S-grade fusion skill was!

The members of the European Federation team were relieved to see this. After all, it was their extremely powerful trump card. This time, he could finally win the ultimate battle.

On the edge of the arena, the members of the Pan-ocean Community team were also helpless.

They all knew that Liu Yan had tried his best. With his strength alone, he had delayed the entire New Continent team. He had also delayed the European Federation team by quite a bit.

For a single person to be able to play such a huge role in this group battle was already extremely powerful.

Even if Liu Yan and the Land of Origin team lost this battle, it would be a glorious defeat!

Although everyone thought that Liu Yan would fail, he did not give up.

As soon as Liu Yan saw his opponents use the S-grade fusion skill Silver Moon Slash, he quickly thought of a way to deal with it.

After thinking about it for a while, it seemed that there was only one way to block it. It was the SS-grade skill, Elemental Domain.

Not only was the SS-grade skill Elemental Domain Liu Yan's only SS-grade combat skill, but its power was also terrifying.

Moreover, this skill was a skill that Liu Yan had obtained from his tier 3 hidden class, the law warlock. Its power was naturally even more powerful than ordinary SS-grade skill.

At this moment, Hans Wilson had ordered members of the European Federation team to use their trump card, the S-grade fusion skill, Silver Moon Slash.

Naturally, Liu Yan could not hold back either. He could only use his trump card as well.

Facing the approaching Silver Moon Scimitar, Liu Yan immediately activated his SS-grade skill, Elemental Domain. At the same time, he used the SS-grade Earth Secret Art to form an Earth Elemental Domain!

In an instant, all the earth elemental energy around Liu Yan was absorbed into Liu Yan's body and danced around him.

The terrifying earth elemental energy danced around Liu Yan, forming a zone of power.

A large amount of earth elemental energy made it impossible for the people outside to see the situation inside.

From the outside, it looked like a sandstorm had suddenly formed around Liu Yan, and no one knew what was happening inside.

At this time, Liu Yan was in the Earth Elemental Domain. He used the defense of the earth elemental energy to offset the attack of Silver Moon Scimitar continuously!

The Silver Moon Scimitar, which initially contained a great amount of power, was being slowed down and defended by a large amount of earth elemental power, but its power was constantly decreasing.

By the time the Silver Moon Scimitar reached Liu Yan, it had already grown from the size of a small mountain to the size of an arm.

Liu Yan's various attributes were already very high, and his defense was quite good. Previously, for safety's sake, he had even used the S-grade skill, Dragonification, to increase his defense.

Seeing the small Silver Moon Scimitar in front of him, Liu Yan didn't think much of it and directly caught it with his bare hands.

The slight pain in Liu Yan's hand disappeared, leaving no wound.

At this point, the Silver Moon Scimitar formed by the strength of the ordinary members of the European Federation team was blocked by Liu Yan alone.

Of course, the people outside didn't know what was happening inside the Earth Elemental Domain. The Earth Elemental Domain had blocked their line of sight, and they could not see the situation inside.

The people outside tried to use the perception skill, but the training of the earth attribute was too terrifying and chaotic. They could not detect what happened in the sandstorm.

It was also Liu Yan's intention. After the Earth Elemental Domain was unleashed, Liu Yan could control everything within the Elemental Domain at will.

Liu Yan wanted to make his domain murky so the people outside couldn't see it. He could also make it visibly clear.

At the same time, Liu Yan could control the chaos and rules of power as he pleased.

Liu Yan managed to cast the domain successfully with his tier 3 hidden class on the fifth level, which was a domain that only the top-tier powerhouses on the tenth level of the tower could cast. He decided to make the Earth Elemental Domain more turbid and chaotic. This way, the awakened ones outside would not know what happened inside. They could not be sure that this was the so-called Elemental Domain!

In any case, many awakened ones had only heard of Elemental Domains and had never seen it. There was no way for them to be sure that this was the Elemental Domain.

After blocking the terrifying Silver Moon Scimitar, Liu Yan began to counterattack.

Liu Yan, who was covered in the Earth Elemental Domain, arrived above the members of the European Federation team. He immediately controlled the Earth Elemental Domain to land.

Members of the European Federation team were still confused about the situation.

To their understanding, this powerful S-grade fusion skill, Silver Moon Scimitar, was something that Liu Yan could not possibly defend against, no matter how strong he was.

After all, Liu Yan was only one person, while the Silver Moon Scimitar was the combination of the strength of all the ordinary members of the European Federation team. It was extremely powerful and simply unstoppable.

However, as the Silver Moon Scimitar broke through Liu Yan's Rock Wall and was about to reach him, a sandstorm suddenly appeared around Liu Yan. They could not see the situation inside.

Furthermore, the sandstorm contained a terrifying and chaotic power, making it impossible for members of the European Federation team to understand the situation in the sandstorm.

Just as members of the European Federation team were feeling a little confused and didn't understand what was going on, they saw the sandstorm move directly above them and then fall!

552 Earth Elemental Domain

Under the power of the Earth Elemental Domain, members of the European Federation team could not stop it at all. Some of the weaker members were bleeding on the spot.

Although the Earth Elemental Domain was mainly good at defense and not good at attack, it didn't mean that it couldn't attack.

As the Earth Elemental Domain continued to fall, the terrifying earth elemental energy continued to approach. More and more members of the European Federation team could not withstand the pressure and gradually knelt.

It didn't take long for all ordinary members of the European Federation team to kneel in front of this huge pressure.

Many of the weaker members were sprawled on the ground, their bodies covered in wounds.

Even the experts from the European Federation, such as Hans Wilson, were under great pressure. They were struggling to hold on.

“What, what kind of power is this?”

“Why does it feel so terrifying? It’s like the sky is about to collapse.”

“This kind of pressure is too terrifying. I can’t withstand it at all.”

“I’m done. I feel like my body is going to explode.”

“Whose power is this? How can it be so terrifying?”

“What’s going on?”

...

The ordinary members of the European Federation team wailed and doubted their lives.

At this time, Liu Yan was in the middle of the Earth Elemental Domain. He saw that all the ordinary members of the European team had fallen. Most of them were slightly injured, and a few were seriously injured.

Liu Yan knew that if he continued any longer, he could kill the members of the European Federation team.

Hans Wilson had ordered all the members of the European Federation team to use their trump card, the Silver Moon Scimitar, to attack the Land of Origin team. Thinking of this, Liu Yan was a little angry.

Liu Yan continued to wait for a while, waiting for the members of the European Federation team to be more seriously injured before he canceled the Earth Elemental Domain.

The sandstorm that filled the sky quickly disappeared.

Not long after, the sky regained its clarity.

The place where the sandstorm had originated was now empty. Liu Yan was the only person in the sky.

At this moment, Liu Yan spread out his green Wings of the Wind God, which were several times larger than his body, and flew high in the sky. His face was cold, and he looked like a god.

The injured members of the European Federation team saw that their S-grade fusion skill Silver Moon Scimitar had disappeared, while Liu Yan, who was inside, was intact.

On the other hand, members of the European Federation team were injured. Some of them could still stand up to fight, but their combat strength had been reduced by more than half. They were not in good shape.

“That thing that looked like a sandstorm. Was it Liu Yan’s skill?”

“What kind of skill is this? How can it be so terrifying?”

“This is too ridiculous. Not only did Liu Yan block our fusion skill, but he also seriously injured us?”

“We’re all in the same team, but our combat strength is not as good as Liu Yan’s?”

“What’s going on? Our team lost to Liu Yan?”

...

The ordinary members of the European Federation team were shocked and began to doubt their lives. They couldn’t believe what they were seeing.

However, even though he didn’t want to believe it, the truth was right in front of him.

In the sky, Liu Yan was still unscathed.

On the other hand, members of the European Federation team were seriously injured!

At this moment, the seven experts led by Hans Wilson in the Prison of Giant Trees were shocked when they saw this scene.

“What is this? What was that skill just now?”

“That sandstorm just now, why did it look like the legendary Elemental Domain?”

“Legend has it that within an Elemental Domain, there is an extremely terrifying power. Within the Elemental Domain, the user is the strongest.”

“That’s impossible. Elemental Domain can only be used by the top powerhouses on the tenth level of the Tower. We are on the fifth level of the Tower, so it’s impossible.”

“No matter how powerful Liu Yan is, he can’t possibly go from the fifth level to the tenth level in one go, right?”

“It must be some other powerful skill. It can’t be an Elemental Domain skill.”

“The ordinary members of the European Federation team are all injured. We can’t do anything to save them.

...

The experts from the European Federation team were also confused.

However, when they saw the ordinary members of the European Federation team being severely injured, they knew they had lost the battle.

Although their experts would soon be able to destroy the Prison of Giant Trees and get out, they still had some fighting power.

However, they were aware of Liu Yan’s combat strength. They might not be a match for Liu Yan.

Now that all the ordinary members of the European Federation team had lost their combat power, they could not change the situation.

It seemed that the defeat of the European Federation team was inevitable.

In this ultimate battle, it seemed Liu Yan and the Land of Origin team would defeat the other three teams simultaneously.

Experts from the European Federation team felt that it was ridiculous.

The three teams attacked at the same time, but they were not a match for the Land of Origin team.

At this moment, many experts were feeling a little regretful. They wished to know that Liu Yan was so outrageous and the ordinary members of the Land of Origin team were so strong. Their three teams would not have a chance to defeat Liu Yan and the Land of Origin team. They should have chosen to cooperate with the Land of Origin team.

At the very least, they could still work together on equal terms.

Now that they had lost the final battle, they would be incorporated into the Land of Origin team and would be affiliated with them.

At the same time, members of the Pan-ocean Community team at the edge of the arena were also surprised.

They had just seen members of the European Federation team use the S-grade fusion skill, Silver Moon Scimitar, and viciously use it directly at the Land of Origin team.

They had all thought that Liu Yan and the Land of Origin team were going to lose this time.

After all, the Silver Moon Scimitar that gathered the strength of an ordinary member of the European Federation team was too terrifying. Liu Yan obviously couldn't stop it alone.

Even if Liu Yan did not stop them, the powerful Silver Moon Scimitar would severely injure members of the Land of Origin team. It would change the battle situation between the Land of Origin team and the Red Star Empire team. It would help the Red Star Empire team turn the tide and take down the Land of Origin team.

However, the members of the Pan-ocean Community watched as the Silver Moon Scimitar broke through Liu Yan's Rock Wall and was about to hit Liu Yan to end the final battle.

With Liu Yan as the center, a sandstorm-like thing suddenly appeared. This sandstorm could still move. It directly injured all the ordinary members of the European Federation team.

The sandstorm was extremely terrifying. Not only did it devour the powerful Silver Moon Scimitars, but it also wiped out the European Federation team.

When the sandstorm disappeared, and the figure inside was revealed, it was Liu Yan.

553 I'll Spare Your Lives!

The members of the Pan-ocean Community team were all shocked.

"What's going on? Was that sandstorm Captain Liu Yan's skill?"

"That seems to be the case. Otherwise, Captain Liu Yan wouldn't be there now."

"What is this skill? I've never seen or even heard of it before. It's too terrifying."

"That's right. The range is so large, and the power is so terrifying. Not only did Liu Yan block the terrifying Silver Moon Scimitar, but he also wiped out the European Federation team."

"The power of this sandstorm seems to be a little terrifying!"

"I didn't expect Captain Liu Yan to have such a godly skill. How terrifying."

"No wonder Captain Liu Yan dared to lead the Land of Origin team to fight against three other teams simultaneously. It turns out that he has his confidence."

“I knew it. Captain Liu Yan must have confidence. He wouldn’t mess around.”

...

He Yang also had a strange expression on his face. He looked suspiciously at Liu Yan, who was flying in the distance and recalled the scene of the sandstorm.

The more He Yang thought about it, the more he realized that the sandstorm was similar to the elements recorded in the information.

However, He Yang immediately shook his head.

Even though He Yang also regarded Liu Yan as an idol, he was well aware of Liu Yan’s terrifying strength, which had exceeded the strength of a level 5 awakened one.

However, He Yang also knew it was already difficult to surpass the Tower by one level, let alone several levels.

No matter how powerful Liu Yan was, he couldn’t master an Elemental Domain on the fifth level of the Tower, which only the top powerhouses of the tenth level could master!

In the end, He Yang also attributed this to a powerful skill, and its effect was somewhat similar to the Elemental Domain.

However, even if it wasn’t an Elemental Domain, Liu Yan’s special skill was already extremely powerful.

After all, a skill that could severely injure all the members of the European Federation team in one fell swoop, what else could it be if not divine?

At this moment, Liu Yan, who was flying in the air, was a little surprised.

Even Liu Yan did not expect the power of the Earth Elemental Domain to be so terrifying.

In particular, its defensive power was relatively easy to deal with when faced with the S-grade fusion skill of the European Federation team members, the Silver Moon Scimitar.

As for the Earth Elemental Domain, its defensive ability was terrifying. It was also Liu Yan’s appearance in front of everyone.

However, when Liu Yan used the Earth Elemental Domain to attack, he was surprised to find that it was also powerful.

Looking at the group of ordinary members of the European Federation team on the ground, who had suffered serious injuries, Liu Yan was secretly surprised.

He didn't expect that the Earth Elemental Domain, which was known for its defense, would also have such a powerful attack.

Looking at the sorry state of the ordinary members of the European Federation team, Liu Yan suspected that if he had retracted his Earth Elemental Domain a little later, he would have taken their lives.

The Earth Elemental Domain, which was more solid and good at defense, could also have such a powerful offensive ability.

Then what about the Elemental Domains of other attributes?

He believed an Elemental Domain specialized in attack, gold, and fire attributes would have even more powerful attack power.

It was also the first time Liu Yan had used the SS-grade skill, Elemental Domain. He had not expected it to be so powerful.

As expected of the class skill of tier 3 hidden class, law warlock. It was just so terrifying.

If his strength increased even more in the future, wouldn't he be able to master even more terrifying class skills? Wouldn't that make him invincible?

Liu Yan, who had the Elemental Domain, felt that his combat strength had improved substantially.

Just as Liu Yan was immersed in the power and surprise of this Elemental Domain...

On the ground, Hans Wilson and the other experts from the European Federation team finally broke through the prison of giant trees after much effort.

After Hans Wilson came out and saw that the members of the European Federation team were all injured, he was instantly enraged. He pointed at Liu Yan in the sky and roared, "Liu Yan, look at what you've done! I'll make you pay!"

With that, Hans Wilson was ready to join forces with the other experts to continue fighting Liu Yan.

However, at this time, the vice-captain of the European Federation's team, Derek Dole, stepped forward and stopped Hans Wilson. "Hans Wilson, calm down. Take a good look at the current situation. Our ordinary members are all injured. Many of them are seriously injured. They can't fight at all. We've already lost, and there's nothing we can do to turn the tables! Accept the reality and our defeat. We can't do anything now. I believe you don't want to see more casualties in our team."

The rest of the experts from the European Federation team also began to persuade him.

“The vice-captain is right. Captain, please consider it carefully.”

“Yeah, the ordinary members are already out of combat power. We’re the only ones in the European Federation team who still have combat power.”

“The few of us might not be Liu Yan’s match. Even if we can beat him, so what? Without a large force, how are we going to win against the Land of Origin team?”

“Yes, failure is a foregone conclusion.”

“It’s better if you stop resisting. These team members still need to be treated quickly.”

“Captain, don’t be stubborn. We’ve already suffered enough losses.”

...

Hearing the admonishment from the vice-captain and the experts of the European Federation team, Hans Wilson gradually came to his senses.

Hans Wilson looked around. The ordinary members of the European Federation team were all injured and no longer had any combat power.

Only these few experts still had combat power left.

However, they exhausted a lot of energy to break through the Prison of Giant Trees. The combat power of these experts had also dropped a little.

With just a few of them, without a large team, it was obvious that they would not be able to defeat Liu Yan and the Land of Origin team.

Now, failure seemed to be a foregone conclusion.

Even though Hans Wilson found it hard to accept, he had no choice but to accept this result. The three teams had joined forces to deal with the Land of Origin team, but they were still no match for the Land of Origin team.

The main reason was that Liu Yan’s enchanted puppets and Liu Yan’s combat power were too terrifying. They stalled and even eliminated the two teams in a short time.

The members of the Land of Origin team had also improved greatly. Their combat strength was no longer inferior to the Red Star Empire team.

In the end, they lost this ultimate battle!

When Liu Yan saw that Hans Wilson had no intention of resisting, he did not continue to attack. Instead, he looked at Hans Wilson coldly and said, "You said that I was ruthless, but why didn't you think about the consequences when you cooperated with the other two teams to fight us? Why didn't you concern you would hurt our team members when you used the S-grade fusion skill, Silver Moon Scimitar? Who was the one who attacked first? If I hadn't stopped in time, many of your team members would have died on the spot!"

#### 554 Magical Effects of the Elemental Domain

When Hans Wilson heard this, he looked at Liu Yan furiously, but he could not refute Liu Yan.

He was indeed a little hysterical after being so anxious just now. He did not care about anything else and directly ordered the members of the European Federation team to use their trump cards to kill members of the Land of Origin team.

If Liu Yan did not successfully block the Silver Moon Scimitar, it would have struck the Land of Origin team and severely injured them. Some of them might even have died.

At this time, members of the European Federation team couldn't help but tremble in fear when they heard Liu Yan's words.

The fear brought about by the crushing power of absolute power was still present.

They did not doubt Liu Yan's words at all. If Liu Yan had dispelled that terrifying skill a little later, it would have taken their lives. Liu Yan had indeed let them off!

Liu Yan looked at Hans Wilson and the other members of the European Federation team, who were unable to refute and say anything. He spoke with a cold face, "Remember, everyone from the European Federation team owes me their lives! Stay here obediently and prepare to surrender. If you dare to make any more moves, don't blame me for being ruthless!"

As Liu Yan spoke, he turned around and left on his Wings of the Wind God.

Hans Wilson and the experts from the European Federation team heard Liu Yan. Although they were a little sullen, they still had some fighting power. However, they did not dare to resist or make any moves.

Liu Yan's strength had shocked them. They were terrified.

After witnessing the terrifying scene, Hans Wilson and the other members of the European Federation team did not doubt Liu Yan's words.

With the terrifying strength that Liu Yan had just displayed, it seemed like he could take the lives of their entire team if he wanted to.

In this battle, all the members of the European Federation team had been beaten into submission by Liu Yan!

At the edge of the dueling arena, the members of the Pan-ocean Community team laughed when they heard Liu Yan's arrogant words and saw that the members of the European Federation team did not dare to say a word or even fart.

"Haha, weren't those from the European Federation very arrogant just now? They do not dare to make a sound now."

"Haha, you were asking for a bunch of conditions. Why don't you dare to mention them now?"

"The European Federation team has been defeated by captain Liu Yan alone."

"To be honest, Liu Yan's strength is too terrifying. The European Federation team is not his match."

"Indeed, they're not on the same level at all. There's no way to fight them."

"This battle has also changed my understanding of the world. It turns out that when an awakened one is strong to a certain extent, they can ignore numbers and single-handedly suppress an entire team!"

"Haha, he's pressing them to the ground and beating them up. Look, many members of the European Federation team are lying on the ground and can't get up."

"It's satisfying. In the future, we'll also have such a strong leader. I believe it will be extremely smooth when we reach the dangerous sixth level of the Tower!"

...

Members of the Pan-ocean Community team cheered.

He Yang, the captain of the Pan-ocean Community team, was also full of joy.

Even now, He Yang still couldn't understand how Liu Yan did it. It was a terrifying skill that allowed him to defeat the entire European Federation team in one fell swoop.

However, no matter what skill it was, it was undoubtedly a good thing for He Yang and the members of the Pan-ocean Community team.

After all, they had also joined the Land of Origin team. In the future, Liu Yan would also be their team leader and one of their own. The stronger Liu Yan was, the better it would be for them!

In the dueling arena.

Liu Yan still relied on his own strength. Not only did he delay, but he also successfully defeated the entire European Federation team.

At this moment, the ordinary members of the European Federation team were all injured and had lost their combat effectiveness. They were being treated with consumables and healers.

Although experts from the European Federation team could still fight, they did not dare to resist after being intimidated by Liu Yan. They all stayed where they were.

Liu Yan wanted to see how the battle between the army of enchanted puppets and the New Continent team was going.

As soon as he turned around, he saw a red tier 3 combat-enchanted puppet carrying Jin Cheng, the captain of the New Continent team. They were standing not far away, waiting for Liu Yan.

Liu Yan's order to the red tier 3 combat-enchanted puppet was to capture Jin Cheng and bring him to him.

Liu Yan was surprised. He did not think the tier 3 red combat-enchanted puppet would do it. From the looks of it, it had been waiting here for quite some time.

Liu Yan looked at where the battle between the enchanted puppets and the members of the New Continent team took place.

At this time, all members of the New Continent team, be they ordinary members or experts, had been subdued and were guarded by a group of enchanted puppets.

At some point, the enchanted puppets had finished off all the members of the New Continent team.

At this moment, Liu Yan finally realized that the strength of the army of enchanted puppets was indeed enough to crush the New Continent team.

After all, the 41 orange enchanted puppets were all at level 50. It was equivalent to the powerhouses of the New Continent team.

Even if the individual powerhouses in the New Continent team were more powerful than the orange enchanted puppets, the number of orange enchanted puppets was still there. Naturally, they could still easily defeat the New Continent team.

If the orange enchanted puppet were already so powerful, the red enchanted puppet would be even more powerful. The red enchanted puppet was at least as powerful as the Red Star Empire team. There were no super strong top-tier experts in the New Continent team. It was estimated that no one was a match for the red enchanted puppet.

Liu Yan couldn't help but find it funny.

The enchanted puppets were so powerful they could defeat the New Continent team so quickly. If Liu Yan knew about this earlier, he would only delayed the European Federation team and let the enchanted puppets finish them off. He did not have to waste so much effort and even used the SS-grade skill, Elemental Domain.

However, Liu Yan thought about it and decided it would be a good opportunity to test the power of the Elemental Domain.

Although he had only tested the power of the Earth Elemental Domain this time, Liu Yan was already satisfied.

The defensive power of the Earth Elemental Domain was extremely terrifying. Any ordinary attack that entered the Earth Elemental Domain would be dissolved.

It was likely that only attacks stronger than Liu Yan's strength would be unable to be resolved by his Earth Elemental Domain.

However, Liu Yan had yet to come into contact with an attack of this level.

Even the Golden-armored Blue Ape Liu Yan had summoned previously was not strong enough to break through Earth Elemental Domain.

With this, Liu Yan was invincible in his Earth Elemental Domain.

At least for now, no awakened or fierce beasts could harm Liu Yan.

In addition, the attack power of the Earth Element Domain was also not bad, and it was heavy and domineering.

It might not be enough to deal with experts, but it was more than enough to deal with ordinary members. Furthermore, it was an area attack that could attack many members at once.

Just this alone made the power of the Earth Elemental Domain extremely terrifying.

## 555 Intimidating Army of Enchanted Puppets

In reality, Liu Yan knew that the power of the Elemental Domain had yet to be fully displayed.

After all, the Earth Elemental Domain emphasized defense. The Fire and Gold Elemental Domains were stronger in terms of offensive power.

As for the Water Elemental Domain and the Wood Elemental Domain, Liu Yan guessed that their support and restriction abilities were the most prominent.

Every Elemental Domain had its own unique characteristics and specialties.

Liu Yan could use any Elemental Domain he wanted.

In addition, he could even use Elemental Domains of various elements, such as a Half-gold and Half-earth Elemental Domain, which could be used for both offense and defense. Or a Half-fire and Half-water Elemental Domain, letting the opponent feel the combination of ice and fire attacks.

There were many ways to use it, and it was flexible.

In addition, Liu Yan made another discovery through the use of the Elemental Domain this time.

The principle of this Elemental Domain was to use the profoundness of various elements to trigger a large number of element energy in the surroundings.

After using the Elemental Domain, these elements would return to the air.

This way, while it produced a terrifying power, it didn't consume much of Liu Yan's energy.

It also meant that if needed, Liu Yan could use this powerful Elemental Domain for a long time, which was convenient.

It was unlike the other trump cards. Although they were powerful, they also consumed a lot of energy, so Liu Yan could not use them easily.

Liu Yan regained his senses and controlled the Wings of the Wind God to land on the ground.

The leader of the New Continent team was also a figure and a genius. However, he was being carried by the red enchanted puppet in an extremely embarrassing manner.

Although the red enchanted puppet did not impose any restrictions, Jin Cheng did not dare to resist or escape.

Judging from the bruises on Jin Cheng's face, it was obvious that Jin Cheng had suffered a lot at the hands of the red enchanted puppet and did not dare to resist.

At this moment, the red enchanted puppet had probably placed Jin Cheng on the ground and allowed him to leave, but Jin Cheng would not dare to leave.

When Jin Cheng saw Liu Yan, he said bitterly, "Captain Liu, I know I'm in the wrong. I'll surrender, okay? Can you ask the red enchanted puppet to let me go?"

At this moment, Jin Cheng had also compromised. He surrendered to Liu Yan willingly.

The battle between the New Continent team and the army of enchanted puppets made Jin Cheng realize how powerful Liu Yan was.

Rather than a battle, it was more like a one-sided crushing.

However, when the white enchanted puppet made its move, the New Continent team would still have the upper hand.

However, when the orange enchanted puppets and the red Enchanted puppet joined the battle, the situation was one-sided.

Members of the New Continent team were no match for the enchanted puppets at all.

Members of the New Continent team could not even defend themselves.

The battle did not last long before all members of the New Continent team were subdued by the enchanted puppets.

The leader of the New Continent team, Jin Cheng, had also suffered a lot at the hands of the red enchanted puppet. He was taught a good lesson and brought here.

Jin Cheng had tried his best to fight back. But to his surprise, no matter how hard he fought, he was no match for the red enchanted puppet.

The red enchanted puppet was unexpectedly powerful. It completely crushed Jin Cheng.

Jin Cheng was the strongest among this batch of students on the New Continent team, so they had never suffered such a blow before.

At this moment, Jin Cheng was already starting to doubt life.

The battle between the New Continent's team and the army of enchanted puppets left a psychological shadow on Jin Cheng and the members of the New Continent team. They had been utterly defeated.

Jin Cheng had never thought that Liu Yan's army of enchanted puppets would be enough to crush the entire New Continent team.

After being subdued, Jin Cheng had been looking forward to the European Federation team turning the situation around.

After all, Liu Yan was the only one who could face the members of the European Federation team. He did not have the help of the other members of the enchanted puppets.

However, after Liu Yan's battle with the European Federation team, Jin Cheng finally saw how terrifying Liu Yan's combat power was.

Liu Yan had managed to stop the entire European Federation team by himself.

Many members of the European Federation team had not recovered from their previous injuries and had not recovered to their peak combat strength.

The current European Federation team was a solid team, and their combat power was not weak. Even so, Liu Yan could hold back the entire European Federation team.

In the end, Liu Yan even used a terrifying skill similar to the Elemental Domain. Not only did he block the joint attack of the European team, but he also crushed all the ordinary members of the European team.

Liu Yan had defeated the entire European Federation team by himself!

Such an exaggerated combat power was a blessing to Jin Cheng. At the same time, it also extinguished the last hope of Jin Cheng.

At this moment, Jin Cheng finally realized how foolish it was for them to resist and fight against Liu Yan and the Land of Origin team.

Jin Cheng had a thought. If the Pan-ocean Community team did not surrender and joined the Land of Origin team but instead worked with them to deal with the team of the Land of Origin, the four teams would probably not be a match for the team of the Land of Origin, let alone the three teams.

During this period, members of the Land of Origin team improved a lot in their combat strength. Their combat strength had improved so much that they could not be underestimated.

As for Liu Yan, this monster, there was no need to say anything. He felt like an invincible existence.

Jin Cheng felt that no creature on the fifth level of the Tower was a match for Liu Yan. even on the sixth level, Liu Yan was a top-tier master!

The current Jin Cheng was convinced and no longer wanted to resist. All they wanted to do was to surrender and join the Land of Origin team.

Liu Yan was amused by Jin Cheng's bitter face.

"I don't understand what's wrong with your mind. Why did you have to get beaten up before joining our team?" Liu Yan couldn't help but tease.

After saying that, Liu Yan recalled all the enchanted puppets.

Without the red enchanted puppet by his side, Jin Cheng heaved a sigh of relief.

Not far away, the team members of the New Continent team were relieved that the army of enchanted puppets was no longer guarding them. They were still a little scared when they thought of the terrifying scene just now.

556 S-grade Skill, Blessing of Water

"The combat power of these enchanted puppets is too strong."

"I have a tough time fighting the weakest white enchanted puppet one-on-one, not to mention the orange and red enchanted puppets."

"These enchanted puppets can even cooperate? That's ridiculous."

"I feel that even the Red Star Empire team is no match for the magical puppets, let alone our team."

"Yeah, the combat power of these enchanted puppets is too terrifying."

"We're not that bad. We were defeated by the army of enchanted puppets. The European Federation team was more frustrated. They were defeated by Liu Yan alone."

"That's right. I saw the battle just now. Captain Liu Yan's strength is too terrifying."

"I still feel that Liu Yan himself is terrifying. Although these enchanted puppets are powerful, they are still not as powerful as Liu Yan himself."

“Liu Yan’s combat ability was so terrifying. He could take on an entire team and many powerful enchanted puppets by himself. If we had known that earlier, we would have surrendered earlier. That way, we would have been spared from a beating.”

...

Members of the New Continent team sighed with emotion.

Jin Cheng turned around and looked at the regretful members of the New Continent team with a bitter expression.

He was the one who initiated the resistance.

At that time, many team members, led by Chu Cunrui, opposed fighting with the Land of Origin team. They all hoped to surrender and join the Land of Origin team.

Now that Jin Cheng thought about it, he was filled with regret. It was all his fault.

“I’m sorry, Captain Liu Yan. I made the wrong choice. I was too short-sighted.”

Jin Cheng couldn’t help but look at Liu Yan.

Liu Yan couldn’t be bothered with Jin Cheng anymore and said, “Order your team to rest and reorganize. We’ll talk about the rest after the end of this ultimate gambling duel.”

With that, Liu Yan flew away with the Wings of the Wind God.

If Jin Cheng had joined the Land of Origin team from the beginning, Liu Yan would have welcomed them and treated them well.

However, they had only joined the Land of Origin team after going through a series of battles, so it was naturally difficult for Liu Yan to show them any good looks.

Joining voluntarily and joining after being beaten up were two different treatments.

At the same time, the members of the Pan-ocean Community team at the edge of the dueling arena began to discuss when they saw the situation of the New Continent team.

“Haha, the New Continent team has been beaten so badly. Even their captain, Jin Cheng, was taught a lesson.”

“These enchanted puppets are too powerful. The New Continent team is no match for them.”

“Why did these people from the New Continent team have to go through all this trouble? If they had joined the Land of Origin team earlier, they would have been spared from being beaten up.”

“Look at Liu Yan’s cold attitude towards Jin Cheng. I think Jin Cheng will have a hard time in the future.”

“Haha, who asked them to make the wrong choice?”

“That’s right. Captain He Yang is wise. He made the right choice.”

“I can’t believe it. The three teams attacked at the same time, but they were not a match for the Land of Origin team.”

“The Land of Origin team has all improved significantly. With a terrifying captain like Liu Yan, it’s not surprising that they could defeat three teams.”

“This ultimate battle is finally coming to an end. We’ll be able to obtain generous additional rewards and successfully join the Land of Origin team to follow them to the sixth level of the Tower!”

...

At this time, He Yang, the captain of the Pan-ocean Community team, could not help but sigh. He was glad that he had made a decisive choice. Now that he thought about it, it was a wise choice.

On the other side, Liu Yan finished off the European Federation team by himself. With the help of the army of enchanted puppets, he had finished off the New Continent team.

At this point, the New Continent team and the European Federation team had been defeated by Liu Yan. Naturally, only the Red Star Empire team was left.

When Liu Yan arrived, the battle between the Land of Origin team and the Red Star Empire team had already come to an end.

The ordinary members and experts of the Red Star Empire team were gradually losing to the Land of Origin team. At this moment, they were being beaten to the point that they could only passively defend themselves. Looking at the situation, they would be defeated soon.

On the other hand, although members of the Land of Origin team were exhausted after an intense battle, their condition was naturally better than the Red Star Empire team.

In addition, many members of the Land of Origin team glanced at the situation of the New Continent team and the European Federation team during the gaps in the battle.

Although they did not know the specific situation, it seemed their captain held back the two teams by himself. He also successfully finished them off.

After learning about this situation, members of the Land of Origin team were even more confident. Their fighting spirit rose, and they began to fight even more intensely.

At this moment, members of the Red Star Empire team were struggling to hold on. They might not be able to hold on any longer.

Upon seeing this, Liu Yan immediately used the S-grade skill he had just learned from the Water Secret Art, Blessing of Water.

The S-grade skill, Blessing of Water, was activated.

A large amount of water element in the air condensed and turned into a drizzling rain. It fell on members of the Land of Origin team and seeped into their bodies.

As the water element seeped in, members of the Land of Origin team suddenly felt a strange but comfortable feeling.

The wounds on their bodies immediately recovered at an accelerated rate.

Although Liu Yan's healing ability wasn't as strong as Chu Long's, it wasn't weak either.

The truly terrifying thing about the Blessing of Water was that it could help members of the Land of Origin team relieve their fatigue and increase their physical strength.

Instantly, members of the Land of Origin team felt their bodies relax. The fatigue they felt from the long and intense battle had all disappeared.

"What the hell is this? You're suddenly not tired anymore?"

"It's a skill that the captain used. It seems to be a support skill."

"There's such a skill? It can help us relieve fatigue. Isn't this too amazing?"

"I feel like I'm full of energy."

"This feeling is too comfortable. In my current state, I think I can fight for half a day without any problem!"

"This support skill seems to be a little powerful."

...

With the help of the S-grade skill, Blessing of Water, members of the Land of Origin team quickly recovered from their physical strength and injuries. Their condition recovered quickly, and their combat strength was almost back to its peak.

On the other hand, members of the Red Star Empire team were still tired and in bad condition.

#### 557 Winning the Ultimate Gambling Duel

The team members of the Land of Origin team were already able to suppress the team members of the Red Star Empire team.

After they recovered, their combat strength increased by quite a bit. Under their combined attacks, they broke through the defensive line of the Red Star Empire team in one go.

The Red Star Empire team was instantly on the verge of collapse.

Not long after, the ordinary members of the Red Star Empire team were subdued.

Most of the experts were also taken down.

At this moment, only two members of the Red Star Empire team were still fighting.

They were the captain of the Red Star Empire team, Ye Yifan, the strongest person in the Red Star Empire team, and the strongest assassin in the Red Star Empire team, Luo Wei.

Allen Smith had always been in charge of Luo Wei. Allen Smith's strength was stronger than Luo Wei's, but Luo Wei's concealment ability and movement technique were too powerful. Allen Smith could not touch Luo Wei at all, so he could only keep Luo Wei occupied and prevent him from attacking the other members of the Land of Origin team.

As for Ye Yifan, he was constantly being pestered by Murong Xue.

Ye Yifan couldn't get rid of Murong Xue, so he launched a thunderous attack on her.

However, after a series of attacks, they didn't cause any substantial damage to Murong Xue. Instead, Ye Yifan was exhausted.

The exhausted Ye Yifan struggled to cause any effective damage to Murong Xue.

Murong Xue's defensive power was ridiculous, but her offensive power was also limited. She could only defend Ye Yifan and hold him back, but she couldn't deal with him alone.

At this moment, Ye Yifan and Murong Xue were entangled in a battle. Neither of them could do anything to the other, so they could only fight meaninglessly and waste time.

“It seems like they can’t take it down. Let me help.”

Xu Han saw they were still fighting, so he was ready to help.

Xu Han was clear that Murong Xue’s battle prowess was inferior to Ye Yifan’s. It was already good that she could hold Ye Yifan back. Naturally, Murong Xue couldn’t defeat Ye Yifan. After all, Ye Yifan was the strongest person in the Red Star Empire team. He was the number one genius among the Red Star Empire’s current batch of students.

On the other hand, Allen Smith’s combat strength was above Luo Wei’s. It was still a battle between the two of them. However, Luo Wei was an assassin, and their speed was about the same. Although Luo Wei could not beat Allen Smith in a head-on fight, Luo Wei’s concealment ability and movement technique were above Allen Smith’s.

Naturally, Allen Smith would not be able to take down Luo Wei easily.

Liu Yan nodded in agreement.

Although Luo Wei and Ye Yifan were both top-tier experts, their strength was still far from enough compared to Liu Yan. Liu Yan was too lazy to deal with them, so he left them to Xu Han and the others.

Then, Xu Han stepped forward and waved his S-grade weapon, the Phantom Blue Staff.

In the sky, a small-scale blizzard suddenly started.

The people who were fighting slowed down.

Other than his speed being affected, Luo Wei could not hide in the blizzard.

After all, even if Luo Wei was invisible, he could determine Luo Wei’s position based on the traces left behind by the snowflakes.

Allen Smith finally found Luo Wei’s figure. Luo Wei’s speed was affected, so he had nowhere to hide.

Allen Smith immediately rushed forward and started fighting.

An assassin of similar strength was naturally no match for a warrior in a head-on battle.

Moreover, Allen Smith’s strength seemed to be above Luo Wei’s.

Within a few moves, Allen Smith had successfully dealt with Luo Wei.

After that, Allen Smith turned around and went to help Murong Xue deal with Ye Yifan.

Although Ye Yifan's combat power was not bad, he was slightly weaker than Allen Smith. After all, Allen Smith had the advantage in terms of equipment.

In addition to Murong Xue's help, Allen Smith and Murong Xue were now fighting Ye Yifan.

Ye Yifan, who was already exhausted, couldn't hold on any longer and was defeated.

Following the defeat of Ye Yifan and Luo Wei, all members of the Red Star Empire team had also been defeated.

The Will of the Tower's voice suddenly sounded.

[ The Red Star Empire team has been defeated. They will be teleported out of the dueling arena. Do not interfere with the remaining battles. ]

[ The ultimate gambling duel will continue. Currently, the Land of Origin team will fight against the New Continent team and the European Federation team! ]

Jin Cheng, the captain of the New Continent team, and Hans Wilson, the captain of the European Federation team, also chose to surrender after hearing the announcement of the Will of the Tower.

In reality, they had been defeated a long time ago. Liu Yan had let them go and did not finish them off.

Since the battle between the Land of Origin team and the Red Star Empire had ended, they naturally surrendered. There was no need for them to resist.

Their two teams could not even defeat Liu Yan, not to mention the fact that Liu Yan had the entire Land of Origin team behind him.

With the surrender of the New Continent team and the European Federation team, the Will of the Tower's announcement sounded again.

[ The New Continent team has chosen to surrender. They will be teleported out of the dueling arena. They are not allowed to interfere with the rest of the battle. ]

[ The ultimate gambling duel continues. Currently, the Land of Origin team will fight against the European Federation team! ]

[ The European Federation team has chosen to surrender. The final battle has ended, and the winner is the Land of Origin team! ]

[ According to the rules of the ultimate gambling duel, the New Continent team, the Pan-ocean Community, the European Federation, and the Red Star Empire have all failed and will be incorporated into the Land of Origin until they leave the Tower. All four teams must listen to the orders of the leaders of the Land of Origin. There is no delay or disobedience. If there is any disobedience, they will be punished by the Tower! ]

[ The final battle has ended. All teams will be teleported back to their original places! ]

...

As the Will of Tower's announcement fell, huge purple teleportation portals appeared beneath the feet of the teams.

After a short period of dizziness, Liu Yan and members of the Land of Origin team returned to the temporary camp in the fire attribute territory.

He raised his head and saw that the arena in the sky had gradually disappeared as the final battle ended.

The members of the Land of Origin team all cheered.

In this final battle, they faced four teams and won.

It seemed like an impossible bet, but they won in the end.

In this way, the Land of Origin team was undoubtedly the biggest winner. Not only would they be able to obtain the generous additional reward, but they would also be able to integrate the teams from the other four continents smoothly.

These four teams weren't weak at all. They were all outstanding students from their respective continents and were very powerful.

## 558 Bountiful Harvest

After successfully recruiting these four teams, the strength of the Land of Origin team had undoubtedly grown a lot. It would also be easier and more likely for them to have more opportunities in the subsequent trials on the sixth level of the Tower.

Members of the Land of Origin team knew they had not put in that much effort in this battle.

The New Continent team was defeated by Liu Yan's army of enchanted puppets, and the Pan-ocean Community team surrendered and joined the Land of Origin team. Then,

the European Federation team was defeated by Liu Yan alone. Only the Red Star Empire team was defeated by the hard work of their team members.

The Land of Origin had only defeated one team.

The most crucial person in this final battle was undoubtedly their team captain, Liu Yan.

All members of the Land of Origin team knew very well that without Liu Yan, they would not have been able to win this ultimate gambling duel and obtain such a fruitful harvest.

For a moment, members of the Land of Origin team cheered and celebrated their victory. At the same time, they were grateful to Liu Yan.

“This is too comfortable. Who would’ve thought that our Land of Origin team would be able to take in the other four teams?”

“When we first entered the Tower, we were almost all eliminated. But now we have such a situation. I didn’t dare to think about it before.”

“It’s all because of our team captain, Liu Yan. That’s why we have such a good result, haha!”

“Our team has gained a lot in the trial on the fifth level of the Tower. We’re the biggest winners.”

“Haha, it’s so comfortable!”

“The other teams are incorporated into our team. They have to listen to our orders.”

“Captain, you’re my idol.”

...

When Liu Yan heard his team members praise him, he couldn’t help but smile. “Alright, alright. This is the result of everyone’s hard work. Your performance in the battle is also great. The Red Star Empire team has always been known as the strongest team on the fifth level of the Tower, but you still won with your strength. I did not help you at all in this battle. It was all the result of your hard work.”

Members of the Land of Origin team were also a little happy when they heard this.

The previous victories could be said to be mainly due to Liu Yan. They didn’t put in much effort. Every time, Liu Yan would lead a group of experts to defeat the other party, or Liu Yan and his group would lay the path for them. They didn’t do anything at all and won without doing anything.

Liu Yan had not interfered in the battle between the Land of Origin team and the Red Star Empire team other than his unexpected command. Members of the Land of Origin team used their strength to defeat the powerful opponent, the Red Star Empire team. They had improved so much without them realizing it.

Previously, they knew they were all improving. However, they did not know how much they had improved.

The battle with the Red Star Empire team this time had undoubtedly allowed them to understand their strength. It also verified the huge improvement they had made during this period.

The members of the Land of Origin team cheered. Until now, they still could not understand how Liu Yan defeated the powerful New Continent team and the European Federation team by himself.

At that time, team members of the Land of Origin team had also been busy fighting against the Red Star Empire team. Occasionally, they would glance at Liu Yan's side during their breaks in the battle.

They knew about the situation of the New Continent team. Liu Yan had crushed them with the army of enchanted puppets.

The members of the Land of Origin team understood this. After all, they had seen Liu Yan's enchanted puppets before. They knew these enchanted puppets were very powerful. However, they were surprised that Liu Yan had created many powerful enchanted puppets.

As for the situation on the European Federation team side, members of the Land of Origin team were confused. They could not understand how their Captain, Liu Yan, had defeated the entire European Federation team by himself.

Immediately, many members started asking questions.

"Captain, can you tell us how you defeated the Red Star Empire team?"

"That's right, Captain Liu. You're too strong. You've reached a level that we can't even imagine."

"One person beating an entire team, it's too crazy."

"Captain, you're my idol."

"If one day I can be half as strong as Captain Liu, no, one-fifth as strong as Captain Liu, I'll be content."

“Come on, if you’re one-fifth as strong as the captain, Won’t you be a top-tier expert? Do you think that’s possible?”

“Hahahaha!”

...

Members of the Land of Origin team were all asking questions, and the members were also teasing each other.

The trial on the fifth level of the Tower was finally coming to an end, and the ultimate gambling duel was also successfully won. The Land of Origin team became the biggest winner of the Tower’s fifth level.

At this moment, team members of the Land of Origin team were undoubtedly more relaxed.

After all, they had finished the trial on the fifth level of the Tower. They had yet to start the trial on the sixth level.

During this rare free time, members of the Land of Origin team did not feel any pressure and were relaxed.

As for Xu Han, Allen Smith, Murong Xue, and the other experts, they couldn’t help but look at Liu Yan curiously when they heard their team members’ questions.

They were also extremely curious about how Liu Yan defeated the entire European Federation team by himself.

“Yeah, I’ve been busy with the battle and commanding, so I didn’t have time to pay attention. Captain, how did you do it?” Xu Han asked.

Xu Han would occasionally pay attention to the battle between Liu Yan and the European Federation team, but he only noticed the white fog, the Rock Wall, and the last skill that caused a sandstorm. He did not know the specific situation.

“Is this for real? Liu Yan defeated the entire European Federation team by himself?” Murong Xue only found out about this now and was surprised.

Murong Xue had been fighting with the captain of the Red Star Empire team, Ye Yifan.

Ye Yifan was the captain of the Red Star Empire team and the strongest person on the Red Star Empire team. He was tough to deal with. Murong Xue was naturally focused on the battle and did not pay much attention to the battle situation between Liu Yan, the New Continent team, and the European Federation team.

Allen Smith also looked at Liu Yan curiously.

## 559 Regret

Previously, when Allen Smith was fighting with the number one assassin of the Red Star Empire team, Luo Wei, he was extremely focused. Allen Smith did not pay much attention to the battle between Liu Yan, the New Continent team, and the European Federation team.

As a top-tier expert, Allen Smith had a better understanding of the combat power of the European Federation team.

The ordinary members of the European Federation team were not weak, and the experts of the European Federation team were also strong.

The most important thing was that the European Federation team had many fusion skills.

The fusion skill was extremely powerful. It could concentrate the power of multiple awakened ones and produce an even stronger attack. It was why the comprehensive combat power of the European Federation team was so powerful.

Of course, Allen Smith knew that Liu Yan was strong. He knew more about the strength of the European Federation team than the ordinary members.

Allen Smith also knew how difficult it was to defeat the European Federation team himself.

Moreover, in addition to dealing with the European Federation team, Liu Yan also dealt with the New Continent team. Allen Smith was even more curious about how Liu Yan had done it.

Allen Smith was already super strong. But even if he were to face any team, he would have no chance of winning. He was clear about his combat strength.

The few experts present did not know how Liu Yan had defeated the European Federation team by himself.

On the other hand, Luo Qingcheng was mainly in charge of commanding and supporting the battle between the Land of Origin team and the Red Star Empire team. She had more free time and paid more attention to Liu Yan.

Luo Qingcheng observed and naturally found that Liu Yan's abilities were strong in all aspects, and he had caused a lot of trouble for the members of the European Federation team.

However, the European Federation team was a powerful team, and they even had fusion skills. Hence, Liu Yan was still unable to stop them all by himself.

When Liu Yan was about to be overwhelmed by the powerful S-grade fusion skill of the European Federation, the Silver Moon Scimitar, he suddenly used a skill similar to a sandstorm.

Not only did he block the powerful fusion skill of the European Federation team, Silver Moon Scimitar, but he also counterattacked and seriously injured all members of the European Federation team.

Luo Qingcheng was clear that the key factor in Liu Yan's battle with the European Federation team was the skill similar to a sandstorm but not a sandstorm.

Luo Qingcheng was also very curious. What kind of terrifying skill was that? It was so powerful that it could seriously injure all the members of the European Federation team in one fell swoop.

However, Luo Qingcheng was clear that this was most likely Liu Yan's trump card skill, so it was better not to ask too much.

At this moment, Liu Yan did not want to explain too much to the ordinary members and experts from the Land of Origin team. He smiled faintly and said, "I was just lucky. The battle is more complicated, so I won't go into detail. Hurry up and rest. I'll gather the rest of the teams and prepare to combine the Lord's token to head to the sixth level of the Tower!"

Upon hearing Liu Yan's words, everyone understood this was just an excuse. They knew Liu Yan did not want to go into detail.

However, since Liu Yan did not want to say more, the members of the Land of Origin team tactfully stopped asking.

After learning that they were about to head to the sixth level of the Tower, members of the Land of Origin team excitedly began to rest and prepare.

In the final battle, the battle between the Land of Origin team and the Red Star Empire team was more intense. Many of the members had expended a lot of energy and were injured.

However, in terms of stamina, he had almost fully recovered after Liu Yan's S-grade skill, Blessing of Water.

As for their injuries, with the help of Chu Long and many healing consumables, members of the Land of Origin team quickly recovered and were almost fully rested.

Members of the Land of Origin team, who had adjusted themselves, used the time to quickly use the high-grade cultivation materials and consumables they had obtained.

After all, they were about to enter the sixth level of the Tower. The sixth level was extremely dangerous, far more so than the fifth level. It was even life-threatening, so they didn't dare to take it lightly.

Even though Liu Yan was leading the team and he had also incorporated four other powerful teams, the overall strength of the Land of Origin team was strong.

No one knew how dangerous the situation on the sixth level of the Tower would be. They had no idea how powerful the enemies would be.

When it came to strength, the stronger the better.

Especially after experiencing the series of events on the fifth level of the Tower, members of the Land of Origin team were even more aware of the importance of strength.

Only the strong could be respected and obtain more resources.

Only the strong could survive.

Therefore, members of the Land of Origin team were eager to become stronger. They were racing against time to improve their combat strength.

The Land of Origin team had obtained the spoils of war from the other four teams, so the Land of Origin team had many resources.

Although Liu Yan kept most of the resources, he distributed them to his team members.

In particular, Liu Yan distributed half of the cultivation materials and consumables to members of the Land of Origin team.

Now that members of the Land of Origin team had these high-level cultivation materials and consumables, it was naturally easier for them to improve their strength.

As long as he had the time, he could use these high-level materials and consumables to improve his strength.

At the same time, on the other side of the metal attribute territory, the members of the New Continent team had unsightly expressions.

In the final battle, they joined forces with the European Federation team and the Red Star Empire team to deal with the Land of Origin team. However, they did not expect all

three of their teams would lose to the Land of Origin team. To be exact, the entire New Continent team lost to Liu Yan.

Since they had been recruited by the Land of Origin team, they would naturally have to listen to Liu Yan's orders

At this moment, the New Continent's team leader, Jin Cheng, was regretful.

"If I had known earlier, I would have observed for a little longer. I did not expect the combat strength of the Land of Origin team would be so strong. They could defeat the Red Star Empire team when they were at their peak. Liu Yan's combat strength is even more outrageous. He's going up against two teams by himself!" Jin Cheng sighed with regret.

Members of the New Continent team looked at each other with embarrassed expressions.

Although many of them had advocated joining the Land of Origin team, many had advocated resisting the Land of Origin team. However, they ended up in such a state.

560 We're Not the Only Team that's Embarrassing!

"Our situation is indeed a little awkward. If we don't handle it well, we might get revenge by the Land of Origin team."

"Our team, the European Federation team, and the Red Star Empire team chose to fight against the Land of Origin team. However, the European Federation team and the Red Star Empire team are stronger, while our team is weaker. It means our team will most likely be targeted by Liu Yan. We might not have a good life in the future."

"Sigh, I'm regretful. If only we had surrendered and joined the Land of Origin team. We might have been able to leave a good impression on Liu Yan."

"That's right. We shouldn't be so obsessed with those extra rewards."

"We have lost miserably."

"I wonder how Liu Yan will deal with us. It's probably going to be difficult for us to stay on the sixth level of the Tower in the future."

"If things go wrong, Liu Yan might break us up. This is the greatest revenge he can take on us."

...

The members of the New Continent team discussed worriedly. They all felt that they would not have good days in the future.

Chu Cunrui's face was still calm, "That's not the case. We'll talk things out with Captain Liu Yan later on. Although we had quite a few conflicts with the Land of Origin team during this ultimate gambling duel, we've already lost and are now members of the Land of Origin team. Any smart captain will know it's the best time to team up and not be tyrannical. I believe Liu Yan isn't that kind of person."

Members of the New Continent team couldn't help but feel that Chu Cunrui's analysis made sense, so they were more square-shaped.

At this moment, in the water attribute territory.

The overall atmosphere of the European Federation team was a little depressing.

The European Federation team suffered the greatest losses in this final battle.

All members of the Red Star Empire team had a fierce battle with members of the Land of Origin team. However, they did not suffer many losses. After all, their members had all been defeated and did not suffer any serious injuries. Thus, they did not suffer many losses.

On the other hand, the European Federation team was only fighting Liu Yan.

However, Liu Yan's combat strength alone was too exaggerated.

In particular, his terrifying skill severely injured all the members of the European Federation team.

At this moment, only a few experts from the European Federation team were not injured. Almost all the ordinary members were injured. Some were even seriously injured. Fortunately, they could be treated in time, or they might have died.

On the other hand, not only did the European Federation team lose so many people, but they also lost the ultimate gaming duel. They were all incorporated into the Land of Origin team. In the future, all the members of the European Federation team would have to listen to Liu Yan's orders. It was a double loss.

At this moment, the members of the European Federation team were a little disappointed while they were treating themselves.

"Sigh, we've lost too thoroughly this time."

"I didn't expect that not only were we eliminated in the trial on the fifth floor of the Tower, but we even lost the ultimate gambling duel and were directly recruited."

“I don’t understand how this Liu Yan can be so powerful.”

“That’s right. If it weren’t for that Liu Yan, we would have easily taken over the team representing the Land of Origin.

“It’s this Liu Yan. His combat strength is too terrifying. He took care of our entire team by himself.

“Don’t say anymore. It’s so embarrassing. It’s embarrassing that an entire team can’t beat a single person.

“What’s there to be ashamed of? We’re not strong enough. It’s just a fact.”

“We’re going to be the laborers of the Land of Origin team in the future.”

...

Members of the European Federation team were a little reluctant to be incorporated into the Land of Origin team.

After all, they were all from the European Federation and had a certain sense of pride. Naturally, they wanted to explore on their own and did not want to listen to others.

After being recruited by the Land of Origin team, they had to listen to Liu Yan’s orders in the future. It was undoubtedly extremely sullen for the members of the European Federation team.

At this time, the vice-captain of the European Federation team, Derek Dole, heard the sighs of the other members of the European Federation team. He frowned slightly and stood up. “Everyone, I don’t think this is a bad thing.”

Hans Wilson and the other members of the European Federation team looked at Derick Dole when they heard his words. They didn’t understand what he meant.

“Vice-captain, what do you mean?”

“Is this a good thing?”

“We lost so miserably and were even incorporated. How could it be a good thing?”

“Vice-captain, what do you mean by this?”

“Yeah, how can such an embarrassing thing be good?”

...

Members of the European Federation team looked at their vice-captain, Derek Dole, in confusion.

Hans Wilson also asked in confusion, “Derek Dole, before the final battle began, you kept persuading me to join the Land of Origin team. I didn’t pay attention at that time. Now, tell me your reason.”

Derek Dole nodded slightly and looked at members of the European Federation team. He explained, “I know that everyone thinks that we have failed. After all, we have just lost a battle. Our entire team lost to Liu Yan alone. We will be incorporated into the Land of Origin team. It is disappointing and frustrating, but there are two sides to everything. Let’s look at this from a different perspective.”

The members of the European Federation team listened curiously.

Derek Dole continued, “First of all, I know that everyone still thinks that we’re from a powerful continent like the European Federation and that it’s humiliating to lose to other teams and be incorporated. But that’s not the case. We’ve only been incorporated for the trials in the Tower. When we leave the Tower, we’ll still belong to the European Federation. Isn’t this integration similar to cooperation? The only difference is that they have to listen to orders and don’t have the right to speak.”

Members of the European Federation felt that it made sense.

“You’re right. It’s just a team from the Tower world and the Land of Origin challenging the higher levels of the Tower.”

“That’s right. After we leave the Tower, we will still belong to the European Federation. We have nothing to do with the Land of Origin.”

“It’s true after thinking about it carefully. It doesn’t seem that aggrieved.”

“The other three continents have also been incorporated. It’s not just our European Federation team. It’s good that we have the other teams to accompany us.”

...
