571 Sun Wen's Suggestion

Sun Wen looked at Liu Yan hesitantly.

After all, Sun Wen did not know Liu Yan very well.

His previous understanding of Liu Yan was only superficial.

Just from the surface, Sun Wen knew that Liu Yan was an exceptional leader.

But in reality, Sun Wen was not sure what Liu Yan was thinking.

Sun Wen hesitated for a while. He felt there was no need to be afraid of offending Liu Yan, so he said, "Captain Liu, I have a suggestion that I would like to share with you."

When Liu Yan heard this, he looked at Sun Wen in surprise. "Oh? If you have any suggestions, you can tell me directly."

Although Liu Yan was not very familiar with Sun Wen, Liu Yan could tell that Sun Wen was an intelligent person who was good at strategizing.

Hence, Liu Yan asked Sun Wen from Ye Yifan to guide him in leading these five teams.

Liu Yan was pleased when Sun Wen had a suggestion for him.

Sun Wen nodded slightly and said, "What I want to say is about you leading the five teams. The five representative teams of the five continents on the Blue Planet are now under your command. You chose to let each team keep their original team and not split them up. You also chose to let their original team leader command them temporarily. This is indeed a wise choice."

Sun Wen had been slightly worried before.

After all, Liu Yan led five teams. Other than the Land of Origin team, the other four teams were basically outsiders to Liu Yan.

In Liu Yan's position, he believed that most people in the other four teams would not like to trust their original leaders. After all, they were his competitors and had even fought before.

Therefore, to truly recruit the members of the other four teams, Liu Yan naturally had to split up and form new teams. Then, he would assign the other team leaders to each team.

This way, the ordinary members would quickly lose their sense of belonging in their hearts and believe that Liu Yan was their true captain.

However, this method naturally had its shortcomings.

One of the biggest shortcomings was that ordinary members from different teams would become new teammates. Naturally, there would be no cooperation between them. Their mobility and combat power would be greatly reduced.

It was a fatal shortcoming.

After all, there was no time for team members to get to know each other. They would soon have to head to the sixth level of the Tower, which was extremely dangerous. It was much tougher and more dangerous than the first five floors.

If they were not careful, it would not be as simple as being eliminated and not advancing, but they would directly lose their lives.

Liu Yan had the right attitude. He had open-mindedness, no prejudice, and was concerned about the safety of the team.

When Liu Yan heard this, he nodded his head slightly. He had thought about this before.

Splitting up the other four teams and regrouping had many benefits and advantages. However, it also had many disadvantages and caused a decrease in combat power. It was not worth it.

"I know that. I know I must look at the big picture. Do you have any other suggestions?" Liu Yan asked.

Sun Wen nodded and said, "It's about the team names. We still use our original team name, so the members of the other teams still think they are representing their respective continents. In reality, when we cultivate on the sixth level of the Tower, the five teams will become one. The relationship between our teams is no longer rivals and enemies but comrades. We should help each other, improve our strengths, and overcome difficulties. Only then will our entire team have a higher chance of passing the trial on the sixth level of the Tower and smoothly reaching the seventh level."

Hearing this, Liu Yan nodded his head slightly and felt that it made sense.

On this point, Liu Yan had not considered it well.

According to Liu Yan's method, each team would still be the original team leader and team members, and their combat strength would not decline.

However, it was inevitable that there would be some estrangement between each team. The five teams would not unite.

"Then, what should I do? It won't be that easy to get the five teams to close the gap." Liu Yan couldn't help but ask.

Sun Wen nodded slightly. "It's impossible to clear the barrier between the five teams shortly. It won't be that easy. After all, they're from five different teams. There are still disputes between them. However, we can at least weaken the barrier for the first time. We need to use some simple methods, and we'll have a good start. Then, we can remove the barrier step by step. You'll play a significant role in it, Captain Liu. After all, you're the captain of the five teams. Only by making the members of the five teams acknowledge you as their captain from the bottom of their hearts can they have a sense of belonging and eliminate the barriers between them."

After Sun Wen finished speaking, he couldn't help but look at Liu Yan with a fiery gaze.

It was rare for the five representative teams from the five continents of the Blue Planet to join forces.

In the past, there were usually only two teams at most. Even if there were two teams, they might not be able to get along.

But this time, there were five teams.

Furthermore, Liu Yan had the chance to become the leader of the five teams.

It was also the reason Sun Wen admired Liu Yan so much.

Sun Wen felt there was a chance for the five teams to merge under Liu Yan's leadership.

The new team consisted of outstanding students from five continents. It was a powerful force that was full of possibilities. It was very likely that they would break history and become the breakthrough of the Blue Planet in recent years.

Then, Sun Wen told Liu Yan some of the specific methods.

After hearing Sun Wen's explanation, Liu Yan had an idea of what Sun Wen was thinking, and he couldn't help but be surprised.

Liu Yan did not expect Sun Wen to come up with so many ideas in such a short period. Sun Wen's thoughts were even more thorough than his own.

Based on what Sun Wen said, Liu Yan was the captain of the five teams. He already had two key points. The first was his terrifying strength.

The experts and top-tier experts in the five teams could only look up to Liu Yan.

In terms of strength, Liu Yan was already ahead of all the other members. He was undoubtedly the strongest among the five teams. Not only was he the strongest, but he was also the strongest among all the other top-tier experts.

Read Global Towers: Starting With The SSS-Rank Talent, God-Tier Extraction Chapter 572 - 572 Unprecedented Alliance

572 Unprecedented Alliance

The second key was that he had leadership skills. He could make his team members believe in Liu Yan's decision-making ability and admire his leadership sincerely.

After all, it was not enough for a team leader to be strong. He must also have a strong leadership ability that made the team members trust Liu Yan's decisions wholeheartedly.

Liu Yan was in a competitive relationship with the other teams. They were enemies. However, Liu Yan's series of decisions during the trial on the fifth level of the Tower earned the respect of the five teams.

After the first two points were achieved, Liu Yan only needed to do the last and simplest point. It was to treat everyone equally.

Liu Yan had to treat the members of the five teams equally. This way, the members of the five teams would gradually ignore the fact that they came from different continents and accept that their captain was Liu Yan. The members of the five teams were all Liu Yan's team members, and they were all comrades.

Seeing Liu Yan in deep thought, Sun Wen couldn't help but acknowledge Liu Yan even more and continued, "Captain Liu, I know that you have some prejudice against the members of other teams, especially the captains. After all, we were enemies in a competitive relationship before. We even fought in the ultimate gambling duel. It's completely reasonable for you to treat us differently, but there should be a limit. After the difference in treatment is over, you still have to treat us fairly. I think the first step to this is to eliminate the names of the teams, such as naming them first and second. Also..."

Sun Wen then explained the method to Liu Yan.

After Liu Yan heard this, he could not help but agree with Sun Wen's idea.

Liu Yan had already considered this before.

For example, the Pan-ocean Community team led by He Yang directly surrendered and joined the Land of Origin team during the ultimate gambling duel.

Liu Yan was naturally grateful to He Yang. After all, it saved him and the members of the Land of Origin team a lot of trouble. At the same time, it also showed the sincerity of He Yang and the team members of the Pan-ocean Community team.

Because of this, Liu Yan naturally treated He Yang and the others differently from the other teams.

However, the bias should be limited and temporary.

It was impossible to always give special treatment to He Yang and the members of the Pan-ocean Community team because of this. It would undoubtedly make the members of the other teams feel cold and lose their sense of belonging.

After all, Liu Yan did not recognize their strength even though how could they have a sense of belonging to Liu Yan and the Land of Origin team?

After some thought, Liu Yan agreed to Sun Wen's suggestion and promised to start before they reached the sixth level of the Tower.

On the other side, Derek Dole had already found Hans Smith.

At that moment, Hans Smith was arranging for the members of the European Federation team to pick out their equipment. Although they could only pick the remaining equipment pieces from members of the Pan-ocean Community team, those leftovers were still good. It was much better than the equipment they were wearing and could enhance their combat effectiveness.

On the other hand, Hans Smith was also a little vexed. After all, many members of the European Federation team were still injured.

The members with minor injuries were fine. They could also recover on their own by relying on the healers in the team and their self-healing abilities.

However, the members with more serious injuries were undoubtedly in more trouble.

Without medicinal herbs and consumables for treatment, it would be difficult for the wounded to recover in time.

Even if they were strong, they could recover after a certain period by relying on their self-healing ability.

However, this was undoubtedly disadvantageous to the members of the European Federation team. After all, they were about to head to the more dangerous sixth level of the Tower, which would be even more dangerous.

If they went to the dangerous sixth level of the Tower with injuries, it would be fatal.

Hans Smith knew that Liu Yan and the others had the spoils of war from five teams, which included a large number of medicinal herbs and consumables for healing.

However, Liu Yan was unwilling to give the resources to them for free because of their previous conflicts. Hans Smith could only plan to let the members of the European Federation team use their less critical materials to exchange for it. It was the only way.

At this time, Derek Dole, who was now under Liu Yan's direct command, rushed over.

Derek Dole saw Hans Smith's sad face and guessed the reason. He immediately smiled and said, "What are you waiting for? Captain Liu Yan just gave us the order to contact the priest of the Land of Origin team. She will lead the other priests of the Land of Origin team to treat the injured members of our team. If our team members cannot be cured in time, they will send us medicinal herbs or consumables until the injured members are fully recovered."

Hans Smith's eyes lit up after hearing that.

"There's such a good thing? Liu Yan is not going to pursue the matter anymore?" Hans Smith said with shock.

"I don't know if Liu Yan will still hold a grudge against me for what happened before, but it was indeed his order." Derek Dole spoke while shaking his head.

When Hans Smith heard this, he didn't care so much. He first let the injured members of the European Federation team recover.

They must recover their strength to face the dangers on the sixth level of the Tower.

After that, Hans Smith and Derek Dole went to find Chu Long together.

After Chu Long found out it was Liu Yan's order, she immediately brought the other priests of the Land of Origin team to the resting place of the European Federation team.

After Derek Dole brought Chu Long and the other priests over, he pointed at the injured members of the European Federation team and said, "Miss Chu Long, these are the injured members of the European Federation team. Can you help with the treatment?"

Hans Smith explained, "It doesn't matter if they have minor injuries. They can heal themselves. However, there are still 30 more seriously injured members. I'm afraid they won't recover only with healing skills. We'll have to use healing herbs or consumables."

Hans Smith had a helpless look on his face. The European Federation team had fought many monsters before. However, they had only suffered minor injuries.

However, they fought the powerful Liu Yan in the ultimate gambling duel. Liu Yan's terrifying last move was so powerful that it caused many injuries to the members of the European Federation team. Many of them were even seriously injured.

573 Terrifying Healing Ability

Hans Smith did not doubt that the more than 30 seriously injured members of the European Federation team would have died if Liu Yan did not stop his attack.

The rest of the members of the European Federation team would suffer more severe injuries.

When Hans Smith recalled the terrifying scene when he first faced Liu Yan, he still felt a little scared.

They were all awakened ones from the Tower's fifth floor, but Liu Yan was way ahead of them. They were not even on the same level.

When Chu Long heard this, she observed the injuries of the members of the European Federation team and shook her head. "There's no need to use medicinal herbs and consumables for such a small injury."

"Are you serious? Is this a small injury to you?" Hans Smith could not help but question.

Derek Dole was also a little confused. "Ms. Chu Long, please take a closer look. All of our team members are seriously injured. Are you sure there's no problem?"

"Yes, no problem." Chu Long said matter-of-factly.

Immediately after, Chu Long arranged for a few priests behind her to treat the members of the European Federation team who were slightly injured while she took care of the 30 seriously injured members.

Derek Dole and Hans Smith looked at each other in confusion when they heard this.

The European Federation team also had awakened priests who could provide a certain amount of healing.

However, only a relatively powerful priest could heal this kind of severe injury.

However, they usually only treated one person. Priests would consume a lot of energy to treat an injured person. Then, they needed to rest for a long time, maybe one or two days, before they treated the next person.

But Chu Long said she would be responsible for the 30 injured members.

Derek Dole and Hans Smith couldn't help but be suspicious. Could Chu Long cure 30 heavily injured members by herself?

Hans Smith couldn't help but ask suspiciously, "Miss Chu Long, we will be heading to the sixth level of the Tower in a while, so time is tight. We need to heal them quickly so that they can recover their combat power. Only then can these members participate in the trial on the sixth floor of the Tower. So, I would like to ask you, how long will it take to heal these members?"

"Yes, time is of the essence. There's no time for slow treatment." Derek Dole also reminded him.

When Chu Long heard this, she remained calm and said, "I know, it won't take long, at most an hour!"

After saying this, Chu Long started her treatment.

Chu Long waved her S-grade staff.

In the next moment, Chu Long's body was covered in a milky white light.

Immediately, a pure white cloud appeared, and milky white light fell on the seriously injured members of the European Federation team.

Derek Dole was shocked and exclaimed in a low voice, "It's an S-grade healing skill. That's why it's so effective. This little girl is such a powerful priest."

When Hans Smith heard that, he was a little surprised. He did not expect the cute-looking Chu Long to be such a powerful priest.

Why there were so many crouching tigers and hidden dragons in the Land of Origin team? They already had top-tier experts like Liu Yan, but why were all their priests so powerful?

Just as Derek Dole and Hans Smith were in shock, the milky white light was rapidly healing the seriously injured members of the European Federation team. Their wounds were healing at a rapid speed.

In less than 20 minutes, Chu Long's treatment was over.

Looking at the seriously injured members of the European Federation team, after Chu Long's 20-minute treatment, their injuries had almost recovered, leaving only some minor injuries.

Chu Long turned around and looked at the other priests from the Land of Origin team and said, "Alright, there's only a minor injury left. Hurry up and treat them. I'll be leaving first."

"Yes!" A few priests from the Land of Origin team replied.

Chu Long immediately left. When she passed by Derick Dole and Hans Smith, Chu Long couldn't help but say in disdain, "I told you that it would not take too long. Do you believe me now? If Brother Liu Yan did not ask me to treat your members, I would have refused to help you with your attitude."

With that, Chu Long left without looking back.

Derek Dole and Hans Smith were shocked. They had never seen a priest with such terrifying healing abilities.

Under Chu Long's treatment alone, the 30 heavily injured team members had almost fully recovered in such a short period!

One had to know that it would take at least half a day for the most powerful priest in the European Federation team to heal even one of these seriously injured people, let alone 30.

The European Federation team's priest was incomparable to Chu Long. The difference was like heaven and earth.

"The Land of Origin team is full of hidden talents. I didn't expect Chu Long's healing ability to be so terrifying." Derek Dole couldn't help but sigh.

Hans Smith couldn't help but nod in admiration. "They are indeed impressive. It seems our team didn't just lose to Liu Yan alone, but to the entire Land of Origin team."

Hearing this, Derek Dole waved his hand and said, "Alright, let's not think too much about it in the future. Since we've joined the Land of Origin team, we'll be a team from now on. Let's not keep harping on past matters."

Hans Smith couldn't help but nod and say with certainty, "Although Captain Liu treated us differently in the previous conflict, it's reasonable. After all, He Yang and the Pan-ocean Community team are more sincere in joining the Land of Origin team, so they deserve better treatment. In fact, we don't lack anything. It's fine that we didn't get better equipment, but we still received treatment. Now, we only lack some cultivation resources, but we can exchange our things, so it's okay. We have to thank Captain Liu

for helping us with the treatment. Otherwise, if we had to rely on ourselves, who knows when we would be able to recover.”

The news that Chu Long cured the 30 seriously injured members of the European Federation in a short time spread among the other teams.

When the members of the New Continent team, the Pan-ocean Community team, and the Red Star Empire team learned of this, they were all shocked.

“Is this for real? one person treating 30 seriously injured people in 20 minutes? Isn’t this too much?”

“I also feel it’s a little fake, but I saw it with my own eyes. That wound was healing ridiculously fast. It’s too magical.”

“It seems that this is what powerful priests are capable of. It’s just that we haven’t seen it before. I didn’t expect the Land of Origin team to have such a powerful priest.”

“Captain Liu is generous. The European Federation team resisted the Land of Origin team, and now Captain Liu is willing to help.”

“He’s indeed very generous. It seems like Captain Liu is slowly treating the members of the European Federation team as his own.”

“If we have such injuries in future battles, Liu Yan and Chu Long can help us to cure our injuries rapidly.”

“With a priest with such powerful healing abilities, I don’t have to worry about getting injured in the future. I can fight at the front without any worries!”

574 Forget the Past

In the center of the Tower’s fifth level.

The members of the five teams all gathered after receiving the notice.

At this moment, the members of the various teams had already chosen their equipment.

Members of the Land of Origin team had already selected their equipment. Their equipment pieces were luxurious.

As for the members of the Pan-ocean team, because they had the priority to choose, the equipment they chose was also good.

After all, they had to choose from all the loot from the five teams. There were naturally many high-level good equipment and a wide range of choices. Naturally, they could easily choose high-level equipment suitable for each party.

At this moment, the members of the Pan-ocean Community team were all smiling.

They were initially the weakest among the five teams, but after getting the priority to choose these pieces of equipment, every member's combat strength increased significantly. In addition, they had also received a large number of high-grade cultivation resources, so every member's combat strength would be able to increase by a lot in the future.

The significant improvement in every member increased the overall combat strength of the Pan-ocean Community team. They were able to surpass the New Continent team and narrow the gap between them and the Red Star Empire team and the European Federation team.

Members of the Pan-ocean Community team did not put much effort at all from the beginning to the end. They only chose to be the first to surrender and join the Land of Origin team.

Making the right choice was greater than working hard. Perhaps this sentence fit the situation of the Pan-ocean Community team quite well.

Such a correct choice immediately brought a lot of benefits to the members of the Pan-ocean Community team.

Compared to the Pan-ocean Community team, the members of the other three teams were not as happy.

After all, they had fought with Liu Yan and the Land of Origin team in the ultimate gambling duel. Naturally, they would be treated differently.

However, they could obtain high-grade equipment from the spoils of war. The members of the three teams were already quite content.

After all, the equipment among the spoils of war were all high-level equipment obtained from the fifth level of the Tower, and they were all pretty good.

The Pan-ocean Community team had picked their equipment. The remaining equipment pieces after their selection were naturally relatively poor.

But even if it was slightly worse, the equipment was still better than most of the team members' equipment.

Members of the three teams had an upgrade in their equipment and obtained a lot of improvement.

The members of these three teams were also in a good mood.

It was especially so for the members of the European Federation team. They had been facing the problem of a large number of injured people who could not recover quickly. However, Chu Long and a group of priests treated them under Liu Yan's instructions. They had almost recovered.

This action made the members of the European Federation marvel at Chu Long's terrifying healing ability. At the same time, they were also grateful that Liu Yan did not hold a grudge against them and chose to help them solve such an urgent problem.

Many team members were initially reluctant to join the Land of Origin team. At this moment, they had changed their view on Liu Yan and the Land of Origin team.

They didn't like Liu Yan and didn't feel a sense of belonging to the Land of Origin team, but at least they did not hate Liu Yan anymore.

At this moment, many members of the European Federation team were also discussing among themselves.

"I didn't expect Chu Long's healing abilities to be so terrifying. My injuries have almost recovered."

"I've never seen such a terrifying healing ability among my peers. I've only seen it on the radiance instructor."

"That's right. I didn't expect the Land of Origin team to have such a powerful priest."

"Looks like Liu Yan isn't the only terrifying person in the Land of Origin team. Many of the team members are also extremely powerful."

"Who would've thought members of the Land of Origin team would be so powerful?"

"Captain Liu Yan helped us. It seems like he didn't target us."

"I feel the same way. Captain Liu Yan doesn't seem to be a vengeful person."

...

While the team members were discussing, Liu Yan flew over with his SSS-grade special equipment, the Wings of Wind God.

Members of the five teams were in the middle of their discussion. They all quieted down when they saw Liu Yan's arrival. They also looked up at the mighty Liu Yan in the sky.

In the ultimate gambling duel, many team members witnessed Liu Yan's terrifying strength with their own eyes. He was able to defeat the entire European team by himself. Such strength was terrifying. They would not have believed it if they had not seen it with their own eyes.

At this moment, when they recalled that terrifying scene, many of the team members felt a chill run down their backs.

Liu Yan flew to the middle of the five teams at a low altitude, observing the members of the five teams.

Liu Yan said, "Before we head to the sixth level of the Tower, there's something that our team needs to settle first."

When members of the five teams heard this, they were all extremely curious. What other things needed to be settled in their teams?

Team members of the Land of Origin team were naturally relaxed. They were all waiting to watch a good show.

After all, they were members of the Land of Origin team and had followed Liu Yan for a long time. They were all on the same side and naturally did not have to worry about anything.

Members of the Pan-ocean Community team were also relatively at ease. They knew that no matter what the news was, it would not be detrimental to the Pan-ocean Community team.

As for the members of the other three teams, they were undoubtedly a little worried that Liu Yan would target them.

At this time, Liu Yan saw that many members of these three teams were worried and afraid. In his heart, he knew that he had to treat everyone equally.

Although they had many conflicts before, it was ultimately a competition on the fifth level of the Tower.

After reaching the sixth level of the Tower, they were all on the same team. They had to work together and unite. Only then could their combat strength be improved, and they would have a chance to go further.

As the team leader, Liu Yan naturally had the responsibility to bring the five teams from different continents together into one.

Only Liu Yan could do that.

Liu Yan looked at his team members and said, "It's simple. You've all joined the Land of Origin team. From now on, you'll all be members of the Land of Origin team. You're all on the same side. Everything that happened before will come to an end. When you reach the sixth level of the Tower, I'll treat you equally, even if you're a member of the original Land of Origin team!"

575 Five Squads

When the members of the five teams heard this, they were all a little surprised. They didn't expect Liu Yan to say something like this.

They knew Liu Yan's intention. However, the team members were also clear that no matter if it was the battle for advancement on the fifth level of the Tower or the battle on the ultimate gambling duel arena, the few teams fought each other until their eyes were red.

There had some intense conflicts between the teams.

However, Liu Yan let go of all his hatred and treated everyone equally in the future. They were even treated equally with the original team members of the Land of Origin team.

Liu Yan's decision undoubtedly shocked everyone, and some of them could not believe it.

Among the crowd, Luo Qingcheng looked at Liu Yan in shock.

Luo Qingcheng had thought about this before, but she also knew it was difficult to realize this goal.

Therefore, Luo Qingcheng planned to persuade Liu Yan later on.

However, he did not expect Liu Yan to take the initiative to realize this and immediately take action.

"Looks like I've underestimated Liu Yan's commanding ability. He is indeed a rare captain." Luo Qingcheng could not help but sigh.

Xu Han nodded and said, "Captain, I admire your magnanimity."

Allen Smith was not too interested. He still had a calm expression as if this matter had nothing to do with him.

When Murong Xue heard this, she spoke with some dissatisfaction, "Why should they be treated equally with our original members from the Land of Origin team? The original team members have been following us for a long time, so shouldn't we give them more benefits?"

"That's right!" Zheng Tainan nodded in agreement. "Captain, aren't you afraid that the other teams will take all the benefits and that the original members of our team will be left behind?"

"I don't want to share the resources with the other teams either. Why should I?" Liu Qing was also puzzled.

Liu Ning seemed to trust Liu Yan and said, "Maybe Captain Liu has his considerations. We should listen to him."

When Sun Wen heard this, he laughed and said, "Don't worry, everyone. Although we will all be treated fairly, it won't affect the interests of the original members of the Land of Origin team."

Derek Dole looked at Sun Wen doubtfully. He immediately had a guess in his heart. It seemed this plan was proposed by Sun Wen.

However, Derek Dole was surprised that Liu Yan would agree to it.

Derek Dole couldn't help but look at Liu Yan in the air with gratitude. He couldn't help but feel rueful. Perhaps following such a captain would indeed bring them different fates and heights.

At this moment, some of the other team members were doubtful, while others believed in him. However, most of them were still confused and suspicious. They had not expected Liu Yan to make such a choice.

After all, since Liu Yan was so powerful, the original members of the Land of Origin team were not weak either.

In addition, the other teams were bound by the rules of the Tower, so they could only listen to Liu Yan's orders. Liu Yan could act as a dictator and give all the benefits to the original members of the Land of Origin team.

However, Liu Yan did not do so. Instead, he insisted on fair treatment. Wasn't he afraid that this would reduce the resources his team would receive, and their strength would be surpassed?

At this moment, Liu Yan looked at his confused team members and explained, "Everyone, there's no need to doubt it. We'll be equal in the future. Of course, fair treatment doesn't mean that every team member will receive the same equipment and

cultivation resources. It's just that everyone will be treated equally. The resources that you receive will depend on your efforts and strength. The more contributions you make or the stronger you are, the more resources you will naturally receive."

Liu Yan was clear that although the rules were fair, it was still beneficial to the original members of the Land of Origin team.

After all, in terms of individual combat strength, members of the Land of Origin team were the strongest among the five teams.

In addition, he had more resources, so he could still be ahead in the future.

As long as one's strength was ahead, their contribution points would undoubtedly be greater, and one could obtain more resources.

If this virtuous cycle continued, members of the Land of Origin team would continue to be strong and walk ahead of the other four teams. Naturally, they would also be able to obtain more resources.

In the eyes of the rest of the team members, Liu Yan's rules were extremely fair.

Only a small number of team members noticed this, but they also felt it was understandable.

After all, team members of the Land of Origin team were stronger and contributed the most to the team. It was reasonable for them to receive more resources.

Liu Yan continued, "From now on, we're all members of the same team. There will no longer be five teams, so we don't need to use the old team names. At the same time, I'll number all the teams so we can carry out the operation smoothly. The order of the numbers will be based on our current strength. The Land of Origin team will be the first squad, and the leader will be Xu Han. The Red Star Empire team is the second squad, and the leader is still Ye Yifan. The European Federation team is the third squad, and the captain is still Hans Wilson. The Pan-ocean team is the fourth squad, led by He Yang. The New Continent team is the fifth squad, led by Jin Cheng. The five teams only have higher strength, and there's no difference in status. You'll carry out missions of different difficulty according to your strength, and of course, you'll get different amounts of resources!"

Xu Han was not surprised to hear that. Although Liu Yan did not say it out loud, his actions showed that Liu Yan wanted him to lead the battle team in the Land of Origin.

Now that he had confirmed it, Xu Han could not help but feel tempted.

After all, the current Origin Land team was powerful.

Leading such a team would give Xu Han rooms to perform.

Xu Han was good at area-of-effect control and attack spells, so group battles were the best for him.

The effect of using his area-of-effect spells and commanding the team in battle would undoubtedly increase the combat power of the Land of Origin team.

In the final battle, Xu Han was still a little rusty in commanding a group battle with large-scale spells, but even so, he still played a significant role and directly improved the combat power of the Land of Origin team.

Xu Han was looking forward to it. When they were familiar with each other, what would the Land of Origin team look like under his command?

576 Bronze Lord Token

Luo Qingcheng was not surprised when she learned about this situation.

Although she was good at commanding, she was still weaker than Xu Han in combat. After all, her influence on the battle was limited.

He was not like Xu Han, who could change the situation on the battlefield with a group spell.

“Congratulations! Under your leadership, the combat strength of the Land of Origin team will continue to improve!” Luo Qingcheng smiled and spoke.

“You’re welcome. I’ll do my best.” Xu Han said with a smile.

Murong Xue learned that Xu Han would lead the first squad, which was the Land of Origin team. Murong Xue looked at Xu Han with anticipation. “Since you’re the team leader now, you have to give me more missions and let me fight more. Don’t make me wait in the backline. It’s too boring!”

Xu Han was surprised, but then he smiled and said, “I’m afraid I don’t have the authority to do so. I’m only in charge of the first squad, and you might not be in the first squad. You’re likely under Liu Yan’s direct command.”

When Murong Xue heard this, her expression turned bitter. “I still can’t escape from Liu Yan’s command!”

Chu Long covered her mouth and laughed. “Sister Murong Xue, just give up and keep following Brother Liu Yan’s orders obediently. Haha!”

The other team leaders were also surprised when they heard about this arrangement.

But on second thought, it was not a bad idea.

Although they had a lot of conflicts before, they were in the past. In the future, they would all be a team, so it was better to unite on the sixth level of the Tower.

“This arrangement is not bad. In the future, we will be a few small squads, but we are in one team.”

“Yes, the stronger ones do the difficult and dangerous missions, but they will also get more resources.”

“If you’re weak, you’ll take on less dangerous missions and get fewer resources.”

“This rule is very fair.”

“I didn’t expect Liu Yan to be so broad-minded.”

“That’s right. We’ll be a team from now on. We can let go of our previous conflicts.”

...

Members of several teams discussed among themselves. They all felt that Liu Yan’s suggestion was good. This way, they would not feel excluded. They would all be a team in the future.

Liu Yan, who was flying in the air, continued, “Don’t worry, everyone. The ultimate gambling duel has come to an end. I won’t pursue it any further and will treat everyone equally in the future. I hope everyone will work hard together and successfully pass the trial on the sixth level of the Tower.”

When the members of the other teams heard this, they were at ease.

In that case, Liu Yan had only targeted the distribution of the spoils of war to a certain extent for the final battle. He wouldn’t target them again in the future, so the team members no longer had to worry.

Members of the Pan-ocean Community team also understood Liu Yan’s meaning. Similarly, they would not give special treatment to the Pan-ocean Community team in the future.

But even so, it was enough.

After all, a large amount of high-grade equipment and high-grade cultivation resources had already improved their strength a lot. It was a good start for them.

If it weren't for the increase in strength brought about by these, the Pan-ocean Community team would be the fifth squad instead of the fourth squad.

Although they were treated fairly, the fourth squad was still ranked ahead of the fifth squad, so there was still a difference.

Liu Yan had already given them a good start.

As for the future, they would have to rely on their efforts.

However, the members of the Pan-ocean Community team were not worried. After all, they were talented. They just lacked resources.

Now that they had cultivation resources, and there would be more in the future, why would they worry about being inferior to the other teams?

Liu Yan was clear that this step alone was not enough to unite the five teams. After all, they came from five different continents and had many conflicts in the past.

However, this step was undoubtedly a good start.

The team problem was solved.

The members of the five teams were already prepared. Liu Yan planned to merge the Lord's token and head to the sixth level of the Tower!

Under the expectant gazes of the members of the five teams, Liu Yan took out all the Lord's token fragments.

Previously, the Land of Origin team obtained close to 10,000 pieces of the Lord's token fragments. After that, they got all the pieces of the Lord's token fragments from the Red Star Empire team and the European Federation team.

At present, Liu Yan had more than 20,000 pieces of Lord's token fragments in his hands, which were more than the 10,000 pieces of Lord's token fragments required to synthesize the Lord's token.

Liu Yan wasn't sure if the extra Lord's token fragments were useful, so he immediately started the fusion.

He put all the pieces together. The originally dark and dull-looking pieces were now emitting a black light.

The black light was unfathomably deep, like a black hole. It was impossible to see what was going on inside.

However, upon closer inspection, one could roughly see that many Lord's token fragments were slowly merging.

Not long after, a palm-sized bronze token fell into Liu Yan's hands.

The bronze token was hot because it had just been fused.

However, Liu Yan had the Fire Secret Art, so he did not feel the heat.

Liu Yan used his S-grade skill Omniscient Insight to scan the area. However, just as he had guessed, he could not sense anything from the bronze Lord's token.

The Lord's token was mysterious. Even with Liu Yan's strength, he could not find out what was inside.

Liu Yan decided to stop sensing and directly checked the bronze Lord token's information through his smart bracelet.

[Bronze Lord Token]

Rank: Mysterious

Effect: Can build a bronze territory (territory size: 1 square kilometer, 100 level 0 wooden houses). You can explore the other effects!

...

The simple introduction left Liu Yan dumbfounded.

From the looks of it, this bronze territory was only a radius of a kilometer. And then bring 100 level 0 wooden houses?

In addition, Liu Yan also had some doubts. According to the rules announced by the Will of Tower at the beginning, only 10,000 pieces of the Lord's token fragments were needed to make one Lord's token.

However, he had just used up over 20,000 pieces of the Lord's token fragments. He had used up all the Lord's token fragments that Liu Yan had.

The consumption of more than 10,000 pieces of the Lord's token did not seem to have brought about any changes.

Liu Yan couldn't understand. Did those 10,000 pieces of Lord's token fragments disappear into thin air? Since it had been consumed, there should be some difference.

But at this time, the Will of the Tower's voice suddenly sounded.

577 Golden Lord Token, Head to the Sixth Level

[The Land of Origin team has successfully integrated the Lord's token and met the requirement for the Tower's fifth-level trial!]

[Because the Land of Origin team was the first to complete the trial of the Tower's fifth level, additional rewards will be given: Bronze Lord Token upgraded to Golden Lord Token!]

[The Land of Origin team is the only team that advanced to the fifth level of the Tower and won the ultimate gambling duel, all members of the Land of Origin team will receive additional rewards: Two random attributes received additional 3,000 points!]

[Heading to the sixth level of the Tower. Teleportation countdown: 5 minutes. All members of the Land of Origin team, please get ready!]

...

As the Will of Tower announced this, the team members were overjoyed. They had finally passed the trial on the fifth level and could successfully go to the sixth level.

Other than passing the trial, they would receive the Golden Lord Token and additional rewards!

Most of the team members did not know about the Golden Lord Token.

The additional reward was extremely generous, it boosted their attributes randomly, and they couldn't choose for themselves.

However, no matter which two attributes it was, 3,000 points was a huge increase in strength.

Not long after the Will of Tower's announcement ended, golden rays of light fell from the sky and landed on every member present, giving each member an attribute increase.

Liu Yan was also hit by the golden light. He immediately felt that his strength had increased. His adaptability had also increased by a little. It seemed Liu Yan's strength and adaptability had increased by 3,000 points.

The strength attribute was not that important to Liu Yan. After all, with the Divine Extraction, it was convenient for Liu Yan to increase his attributes, especially the basic attributes such as strength. He could obtain a lot of improvements by randomly extracting a fierce beast's corpse.

However, the adaptability attribute was of great help to Liu Yan. After all, only a few fierce beasts could increase Liu Yan's adaptability attribute.

All in all, these two attributes gave Liu Yan improvements.

However, because Liu Yan already had tons of attribute points, these improvements were not particularly significant.

Liu Yan had already predicted this.

However, he was lucky to be able to boost his adaptability.

In contrast to Liu Yan's calmness, the surrounding team members were extremely excited.

After all, a 3,000-point increase in two attributes was a huge increase for any team member.

Even those expert team members had also improved greatly. It was very likely that they would need a few months of hard training and dangerous experiences to have such improvement.

But now, they could directly obtain so many improvements in one go, which was extremely rare.

If this was the case for experts, it was even more so for ordinary members.

The team members cheered excitedly.

"Haha, that's great! I've increased my strength and vitality. I'm a warrior, so I need these two attributes the most. My strength has increased by 30%!"

"Damn, an increase of 30%? That's great!"

"Wow. I'm a tank, so what I need the most is vitality. Not only did it give me strength, but it also gave me speed. What bad luck!"

"As a tank, speed is not important."

"You're lucky. I got spirit and adaptability boosts. What's the use of that?"

"I also got adaptability. What bad luck. I have a useless attribute."

...

Liu Yan could only smile wryly as he listened to the discussions of his team members.

Although the bonus reward was generous, it was random. None of the team members could choose their boosts. Hence, they might get boosts in undesired attributes.

Spirit and adaptability, for example, were extremely useful attribute points for spellcasters or experts. After all, these two attributes were usually the most difficult to improve.

However, to these ordinary team members, the help of these two attributes was undoubtedly a little small. Naturally, the improvement brought by the basic strength, vitality, or speed attributes would be more direct.

Liu Yan didn't pay any more attention to the ordinary members around him and let them continue cheering. He then looked at the Lord's token in his hand.

The Bronze Lord Token had now turned yellow.

Liu Yan immediately checked the Golden Lord Token's panel.

[Golden Lord Token]

[Rank: Unknown]

[Effect: Can build a golden territory (territory size: 3 km, 300 level 0 wooden houses, 50 level 1 wooden houses). You can explore other effects yourself!]

It was still a brief introduction. The only difference between it and the Bronze Lord Token was that the territory had become larger, becoming 3 km in radius, and there were many more wooden houses, even a level 1 wooden house.

It sounded nice, but Liu Yan didn't know the details. He could only be sure when he reached the sixth level of the Tower.

However, Liu Yan felt that this Golden Lord Token was quite ordinary. This little increase seemed to be insufficient.

At this time, Derek Doyle, who was not far away, came to Liu Yan's side. When he saw Liu Yan looking at the Golden Lord Token suspiciously, he couldn't help but smile and said, "Captain, this Golden Lord Token is good. It can give us a good start on the sixth level of the Tower. It's crucial to our team's trial on the sixth level. You'll naturally understand when we reach the sixth level. We can't understand its usefulness now."

Hearing this, Liu Yan finally understood.

They could only know how extraordinary the Golden Lord Token was when they reached the sixth level.

"Alright, we'll wait until we reach the sixth level of the Tower." Liu Yan replied and kept the Golden Lord Token.

Liu Yan then looked at his team members, who were still excited about the additional reward, and announced, "Everyone, don't celebrate yet. When we reach the sixth level of the Tower, there will be more and more generous rewards than this one. The trial on the sixth level is the most important thing right now. Hurry up and get ready to go to the sixth level of the Tower!"

When the team members heard this, they finally reacted.

Although the additional reward was extremely generous, it was only for them at their current level.

For the top powerhouses of the Tower, 3,000 attribute points for two attributes were not a lot.

And now that the sixth level of the Tower could bring them even greater gains, far more than this additional reward, there was indeed no need to be complacent about this additional reward. It would affect the trial of the sixth level instead.

Immediately, the team members made their preparations. They prepared to head to the sixth level of the Tower together after the countdown ended!

It didn't take long for the Will of Tower's announcement to ring again.

[Teleportation countdown: 10 seconds, 9 seconds, 8 seconds...]

As the Will of Tower counted down, all team members were a little nervous, but they were also looking forward to it. They were all looking forward to the trial on the sixth level of the Tower.

Liu Yan also looked up at the sky. He couldn't help but feel curious. What kind of scene would this so-called sixth level of the Tower look like? Was it ten times more dangerous?

Liu Yan was no longer alone. Behind him was a team of five small teams, a powerful team of nearly 300 awakened ones!

As the countdown reached zero, a giant purple teleportation array appeared under the feet of the team members.

After nearly half a minute of dizziness, Liu Yan and the others opened their eyes again, but they were already in a completely different world.

The blue sky had disappeared.

It was replaced by a gray world.

There was a giant transparent barrier above them, which seemed to be protecting members of the Land of Origin team.

Outside the protective barrier, it was a world of gray.

It was accompanied by a constant whistling sound similar to the sound of a hurricane. However, it was not just the sound of the wind. It seemed like a mix of various sounds, which was extremely strange.

The team members looked around curiously.

“This is the sixth level of the Tower? It feels so magical.”

“This is a protective shield, right? Are you protecting us? Then they probably won’t be able to protect us forever.”

“I feel that it’s dangerous outside the protective shield. It’s all grey.”

“That gray color seems to be wind energy. It’s extremely dense, and it has a shape.”

“Wind energy that has a shape? How terrifying is this!”

...

The team members were still confused when the voice of the Will of Tower suddenly sounded.

Although the Will of Tower’s voice this time was also mechanical and emotionless, it was different from the voice of the Will of Tower on the fifth level of the Tower. It seemed to be clearer and more arrogant.

578 Sixth Floor of Tower, Wind Barrier

On the sixth level of the Tower.

Liu Yan had just arrived at the sixth level of the Tower with the members of the five teams.

At this moment, everyone was curiously looking at everything around them.

The sixth level of the Tower was different from the five levels before it.

Although the environment of each level of the previous five levels was different, they were still many similarities.

However, the sixth level of the Tower was totally different.

They were surrounded by a huge barrier, and the wind kept howling outside the barrier. It sounded terrifying. It was like it was filled with terrifying power.

At this time, the Will of Tower's announcement continued.

All the team members listened carefully to the announcement of the Will of Tower.

[District 3761, welcome to the sixth level of the Tower!]

[Division 3001 – 4000 has been successfully fused!]

[The rules of the Tower's sixth level will be announced: All teams that have reached the sixth level of the Tower must set up a territory and develop their strength. During this process, you will constantly improve the strength of the team members, build the territory, improve it and upgrade it. During this process, you will face the attacks of fierce beasts, monsters, and other races. At the same time, you will also face the attack of hurricane forces. You will also face duels, invasions, and even massacres from other territories!]

[In the Wind Barrier, only by obtaining enough resources and increasing your strength sufficiently will you have the right to live and continue to become stronger!]

[There is one opportunity every year. The top 100 territories can participate in the final trial of the Wind Barrier on the sixth level of the Tower. Those who succeed can go to the seventh level, and those who fail will return to the sixth level, but they will also receive rewards based on their ranking in the final trial. Of course, the premise of all this is to walk out of the final trial alive!]

[At the same time, there will also be an annual exit opportunity. All teams ranked below 100 can participate, and ten teams will be able to leave the sixth level of the Tower and return to the lower level!]

[Please explore the other rules on your own. All teams have a successful trial!]

[As the will of the Tower announced this, the team members were in an uproar.]

They had long heard that the difficulty of the trial on the sixth level of the Tower would suddenly increase enormously, but they did not expect it to be so brutal.

First, the sixth level of the Tower fused again.

But it wasn't the same as the previous fusion when several Towers fused. Instead, it was a thousand regions.

The Blue Planet was at region 3761.

They were Blue Planet's representative team this year and would be facing teams from thousands of other regions.

After all, only one team from the Blue Planet had advanced this year. It might not be the same for the other regions.

Every year, at most three teams would successfully advance to the next round.

Other than the many teams that had advanced this year, there were also the teams that had stayed on the sixth level of the Tower.

In that case, there were probably more than 10,000 teams on the entire sixth level of the Tower!

The trial on the sixth level of the Tower was equivalent to tens of thousands of teams competing.

In the end, only the top 100 teams would be able to participate in the final trial and have the chance to pass the final trial and head to the seventh level of the Tower.

Such a harsh trial rule made all the team members shocked.

After all, each of these 10,000 teams was the best of every region and planet!

It was especially so for the teams that had arrived at the sixth level of the Tower earlier. They had arrived at the sixth level earlier, so their strength was naturally stronger.

These teams were like a dimensionality reduction attack on the new teams that had just arrived on the sixth level of the Tower this year.

The teams that had just arrived this year were not their match!

The difficulty of the competition had increased significantly.

For example, on the fifth level of the Tower, only three out of the five teams entered. Even if only one team entered in the end, they were still in a fierce fight.

Now that they had to compete with tens of thousands of teams, the difficulty was hard to imagine.

On the other hand, the difficulty of the trial was thousands of times or even harder. The rules had also become much crueler.

In the end, the previous five levels of the Tower were only a competition between awakened ones from the same batch as them.

Unless they had no other choice, they would not kill their opponents. They would only eliminate their opponents, not take their lives.

In the trial of the first five levels of the Tower, most of the danger came from fierce beasts and monsters, so it was relatively safe.

However, the sixth level of the Tower was different. Apart from facing fierce beasts and monsters, they also had to deal with many foreign races.

They might even have to face humans from other planets, which were all dangerous.

If they were not careful, they would be massacred, and all members would die.

The level of danger had suddenly increased by several levels!

Even returning to the lower levels of the Tower after reaching the sixth level would be a luxury.

In the first five levels of the Tower, as long as one failed, they could return to the lower level of the Tower or even leave the Tower.

However, they could not leave the sixth level easily.

If they wanted to leave, they still needed to compete with others.

There was only one chance every year, and only the teams ranked in the bottom 100 could leave the sixth level. At most, ten teams could leave the sixth level of the Tower alive and return to the lower level.

What about the other 90 teams? They would probably die in the trial.

The difficulty and danger level of the Tower's sixth level trial had suddenly increased by several levels.

The members of the five teams were all flustered and worried.

"Why is the sixth level of the Tower so much more difficult?"

"It's difficult and a lot more dangerous. It's a luxury to stay alive!"

"It's over. It's over. The trial on the sixth level of the Tower is so difficult. How can we pass it?"

"If I had known that the trial on the sixth level of the Tower would be so difficult, I wouldn't have come to the sixth level."

“This is dangerous. I feel like we’re all going to die Here.

“How could we be a match for the teams that arrived here years ago?”

“Yeah, it’s impossible. We can’t live through this.”

“There will also be all kinds of foreign races. This is too dangerous.”

“I can’t leave yet. I can’t leave since I’m on the sixth level of the Tower.”

...

For a moment, many members of the five teams were panicking.

Liu Yan was not surprised to see their reaction.

The difficulty and danger level of the Tower’s sixth level trial were much harder. It had exceeded Liu Yan’s expectations.

Even Liu Yan felt that the rules of the sixth level’s trial were much harsher and more dangerous, let alone for these ordinary team members.

At this moment, it would be difficult to even survive, let alone pass the trial on the sixth level of the Tower.

Liu Yan also understood that the trial on the sixth level of the Tower was already so difficult. The team members needed to be more alert and overcome the difficulties to move forward.

If he continued to be so worried, it would be impossible for him to survive, let alone successfully pass the trial on the sixth level of the Tower.

At the thought of this, Liu Yan immediately controlled the Wings of the Wind God and flew above the crowd.

579 Stay Alive

Members of the five teams were discussing worriedly. Then, they shifted their attention to Liu Yan.

Liu Yan looked at his team members and said, “Everyone, we have already arrived at the Wind Barrier on the sixth level of the Tower. The trial on the sixth level of the Tower is harsh and full of dangers. Some of you might have begun to regret coming to the sixth level. We can’t overcome all challenges at this moment. No matter what, we can only grit our teeth and move forward. In addition, we’re a team formed of five teams, so we’re naturally much stronger than the other teams who’ve just arrived on the sixth

level. The seniors also passed the trial on the sixth level of the Tower step by step. The teams before us are also training here, so what do we have to be afraid of?"

When members of the five teams heard Liu Yan's words, they all came back to their senses and thought of the same thing.

Although the sixth level of the Tower was dangerous, it wasn't just for their team. It was the same for other teams.

No matter which region the team was from, it would be difficult when they first arrived at the sixth level of the Tower.

Every team had to put in their effort to survive on the sixth level of the Tower. They even gained the chance to pass the trial on the sixth level.

As for their team, they had a much better start.

After all, the members were not weak, and there were many of them. They were a team made up of five teams, so their strength was naturally much stronger than most of the other teams that had just arrived on the sixth level of the Tower.

In addition, they also had the Golden Lord Token, which gave them a generous bonus.

All in all, their start was already considered pretty good.

And since their ancestors could pass such a difficult trial on the sixth level of the Tower, why couldn't they?

After all, compared to their ancestors, they already had a significant advantage.

The team members all felt much better.

"Yeah, we have a big advantage."

Although it's still difficult, we're much better than most teams who just arrived on the sixth level of the Tower.

"Yeah, we have a pretty good start."

"It's hard to imagine how our ancestors overcame all difficulties and successfully passed the trial on the sixth level of the Tower."

"There's no turning back. We can only move forward."

"It's good that we have more people, and our strength is greater if we work together. Naturally, we have a higher chance."

...

In the middle of the crowd, Xu Han, Luo Qingcheng, Sun Wen, and Derek Dole were relieved when they saw the situation.

All team members were a little flustered, and their morale was unstable.

However, the team members immediately calmed down after hearing Liu Yan's words.

Liu Yan was too strong. In the hearts of his team members, he was incomparably respectable.

With such a terrifyingly strong leader like Liu Yan, the team members felt they had found their backbone. Naturally, they felt much more confident.

Liu Yan's actions were timely. It successfully calmed the morale of the troops.

At this time, Luo Qingcheng also stepped forward and said, "We originally came from five different teams and had different information channels, but now we're all a team. On this extremely dangerous sixth level of the Tower, the first thing we have to do is to be united. The five teams must work together to overcome the difficulties. I suggest that we share the information first. Each team will share all the information they know about the sixth level of the Tower. How about it?"

When the team members heard this, they all felt it made sense.

Even though the five teams came from different continents on the Blue Planet, they had many conflicts on the fifth level of the Tower and even fought each other because of benefits.

However, they were from the Blue Planet and belonged to the same camp. They became the same team and were all in the same boat. Naturally, they should work together so that they would have stronger power.

"That's right. The sixth level of the Tower is already so dangerous. We must unite."

"That's right. We have to let go of our previous conflicts. We have to be united."

"I agree with sharing the information."

"That's right. We have to work together in the future to have stronger power."

...

The members of the five teams all agreed.

When Luo Qingcheng saw this, she also felt relieved.

Although there were still some disputes between the five teams, they could quickly unite in the face of great danger and the common enemy.

Luo Qingcheng glanced at Liu Yan. After getting Liu Yan's approval, she looked at the crowd again and said, "Then I'll start on behalf of First Squad. I don't have much information on the sixth level of the Tower, and I only know that the trials on the sixth level are difficult. Many teams might not be able to pass the trial on the sixth level for decades. Even those powerful and outstanding teams might need close to ten years to pass the final trial on the sixth level. Therefore, there's no need for everyone to be anxious. The trial on the sixth level of the Tower is long. We'll take it one step at a time!"

Luo Qingcheng's expression was a little strange as she spoke.

Luo Qingcheng had always wanted to find her sister. Based on the information she had gathered from various sources, her sister was most likely on the sixth level of the Tower.

However, she did not know if her sister was still alive.

And from the current environment of the sixth level of the Tower, even if she reached the sixth level, finding her sister seemed challenging.

It seemed that Luo Qingcheng could only think of a way to resolve this matter later.

When the team members heard this, they were in an uproar.

They had only spent two years in the fifth level trial. They didn't expect the trial on the sixth level of the Tower would take several or even more than ten years.

When everyone thought about it carefully, they felt it was reasonable.

After all, the fifth level of the Tower had teams from a few years ago. Meanwhile, new teams like them were naturally not as strong as them. It would be difficult for the new teams to even enter the final trial on the sixth level, let alone pass the trial on the sixth level. After all, only the top 100 teams every year could successfully enter the final trial.

It was naturally extremely difficult to pick one in a hundred out of ten thousand teams to be in the top hundred.

Liu Yan had already known about this from Luo Qingcheng. Luo Qingcheng looked at the crowd and said, "Luo Qingcheng is right, so there's no need for everyone to be anxious. We can slowly increase our strength until we have enough strength. Then we will consider entering the final trial and going to the seventh level of the Tower. Before that, the most important thing for us is not to pass the trial on the sixth level but to

survive! In the face of so many competitors and the extremely dangerous sixth level of the Tower, we can only survive first. Only then can we continuously increase our strength and have a chance to pass the trial of the sixth level of the final Tower!”

580 Sharing Information

When the team members heard Liu Yan’s words, they were surprised. They didn’t think that the most important thing for them now was to survive.

For a moment, all the team members were a little down.

Initially, they were all outstanding students from their respective continents. They would be powerful experts in the future. They would be respected wherever they went.

However, surviving became extremely difficult after reaching the sixth level of the Tower.

The sixth level of the Tower was so dangerous, and there were many powerful opponents. Hence, staying alive was crucial.

“That’s right. We have to survive first.”

“Even if our strength is slightly weaker, as long as we can survive, we can continue to grow stronger. One day, we will be strong enough.”

“Let’s survive first, then increase our strength. I believe we will be strong enough to pass the trial on the sixth level of the Tower in ten years!”

“It seems like this is going to be a long trial.”

“Haha, it sounds funny. The first thing we have to do is to survive.”

...

Luo Qingcheng told the information she knew about the sixth level of the Tower. Then, she went down.

When Sun Wen saw this, he walked up to the stage and said, “I’ll represent Second Squad and announce the information we know about the Tower’s sixth level. According to the information we gathered from various sources, there are many fierce beasts, monsters, and foreign races on the sixth level. These existences aren’t like the first five levels of the Tower, where there’s a limit to their strength. Instead, some of the beasts here may be far beyond our level. Our team might not be a match for them. Thus, we must be extra careful and mainly rely on our territory for defense. In addition, the other teams might be a real danger to us. There will be teams from many other planets. Among them, there will be alien races and humans. Even those humans are dangerous.

They might even massacre the city for benefit, so we must be careful. On the whole, whether it's the Blue Planet or humans, we are a small branch on the sixth level!"

Hearing this, the team members had a further understanding of the situation on the sixth level of the Tower.

The humans from the Blue Planet or all humans were small existences on the sixth level.

Therefore, their team was an extremely small existence on the sixth level of the Tower, and they had to be careful with every step.

Many existences would pose a threat to them including the other human teams.

Sun Wen continued, "However, there's no need for everyone to be so worried. The other groups, especially those who have been on the sixth level for several years, are deadly to us. However, the entire sixth level of the Tower is vast. At the same time, it is filled with wind element energy. Many groups can't easily leave the territory. Although there are many groups, it's still difficult to encounter them. We can only use special battle token to engage in long-range combat. It's rare for two teams to be able to engage in close combat."

The team members were relieved to hear that.

It would be too dangerous if they ran into other teams.

They were not weak, and they were a team formed of five teams. They had an advantage in numbers, and their overall strength was not bad.

However, compared to the teams that had entered the sixth level of the Tower a few years ago, the Team Origin was not strong enough.

Hence, it was undoubtedly much safer to not encounter other teams.

"That's all I know." Sun Wen said as he walked down.

Seeing this, Derek Dole didn't hide anything and walked directly onto the stage.

Derek Dole had always admired Liu Yan. Previously, Liu Yan had even taken the initiative to arrange for people to treat the injured members of the European Federation team. It had long made Derek Dole have a sense of belonging to this team.

In addition, the environment of the sixth level of the Tower did require the five teams to be united, so Derek Dole was naturally willing to share the information he knew.

After walking onto the stage, Derek Dole looked at the members of the five teams and said, "I'll represent Third Squad to announce the information we know. The sixth level is called the Wind Barrier. The entire world is incomparably huge, far beyond our imagination. It's many times bigger than the Blue Planet we were originally on. Sun Wen also mentioned this earlier. Therefore, even though there were many teams on the sixth level of the Tower, it was not easy to encounter them. In addition, the entire sixth level of the Tower has been filled with wind elemental energy. This dense wind elemental energy materialized, forming all kinds of hurricanes of different sizes, constantly wreaking havoc. If we were to bump into these different-sized tornadoes, we would only get injured at the very least. At the very worst, we would die without even a corpse. Rumor says that some huge hurricanes could even directly destroy a team! Hence, it's even more difficult for the other teams to run into us, and our range of activity can only be within the territory's barrier. Only members with enough strength can leave the territory's barrier but not for too long. Once they encounter danger, they can only immediately return to the territory to avoid it!"

The team members were relieved to hear that.

The strange environment of the Wind Barrier made it impossible for them to leave their territory, but at the same time, other teams could not come in.

It was dangerous, but at the same time, it was a safeguard for the weaker teams who had just arrived on the sixth level of the Tower.

This way, at least in the initial stage, it would be much easier for Team Origin to survive.

Derek Dole saw that his team members had relaxed, so he added, "The Wind Barrier's special environment has indeed protected us, but we can't let our guard down. We must increase our strength as soon as possible and let the team's overall strength grow. All the teams on the sixth level of the Tower have multiple channels to obtain the battle token. As long as they activate the battle token, they can directly engage in long-distance battles or even massacre the entire territory. Therefore, strength is the most important thing. You must grow up as soon as possible!"

The leader of the fifth team, Jin Cheng, walked out and said, "I know this better. The battle token can be obtained through many channels, and it is divided into three types: siege token, team battle token, and single battle token! These three battle tokens are of the same value. They can all be used to engage in long-range combat. However, their specific uses are completely different."
