

GOD! I TURNED INTO A TURTLE

Chapter 14 – Atavism

“Speed +1, Defense +1, Attack +1.”

“Ding! The speed, defense, and attack of the host are all above 7, and you can break through to the seventh level! Do you want to break through?”

“breakthrough!”

A powerful aura emanated from Ye Que.

“Ding! The breakthrough has been successful!”

“Meat! I want meat!”

He still had meat left before, so he wasn't worried about replenishing his energy.

When you're full, check the panel.

Speed: 9.9/10

Defense: 9.9/10

Attack: 7.9/10

Experience points: 0

“Speed and defense, you will reach the tenth level immediately, you need to work harder to attack, and get to the tenth level as soon as possible.”

In this way, he will be able to obtain the qualification to return to his ancestors once.

“Hunting monsters! I want to collect experience points!”

Ye Que wanted to obtain the qualification to return to his ancestors as soon as possible.

If he is lucky, he will get some great treasures from the ancestral return, which will change his life's destiny.

With a movement of limbs, he rushed out of the small valley.

“Map scanning prompt: 900 meters behind, two ten-level wild monsters appear!”

“Map scan prompt: 900 meters behind, four nine-layer wild monsters appear! Eight eight-layer wild monsters!”

“Map scanning prompt: 900 meters behind, there will be...”

Ye Que was startled.

This is the middle of the monster forest, so many people appeared all at once.

Are they going to massacre monsters on a large scale!

“Could it be that the gang of killers, who couldn’t find Xue Lingluo for a long time, began to recruit people to cover up and kill the monster forest?”

With this in mind, Ye Que decided to evacuate.

Although the present is not what it used to be, and the strength has improved qualitatively, but what is the point of contacting those killers, or irrelevant human beings?

Not only can’t get experience points, but also cause trouble.

He is not willing to do thankless things.

Turn around and run to the depths of the monster forest.

Now, his speed and defense have reached the peak of the ninth level, and he is already qualified to go to the depths.

Along the way, there are monsters in the central area, affected by humans, and they are also fleeing to the depths.

Ye Que joined the fleeing army, constantly looking for suitable targets to kill.

“Human actions will anger the Beastmaster of the Monster Beast Forest!”

“They have to pay the price in blood!”

“From the outer massacre to the central area, the strong in the deep forest will never spare them lightly.”

While searching, I also learned a lot of news from the monsters.

Those people were indeed slaughtering monsters.

“If a beast tide is triggered, these people will be sinners among humans!”

Ye Que sneered.

Suddenly, with sharp eyes, he spotted a wounded eightfold monster.

“These guys slaughter monsters, but it’s a chance for me to earn experience points! I like this kind of residual blood best!”

The speed and defense have reached the peak of the ninth level, and the attack has reached the peak of the seventh level, and then cooperate with skills.

It is not difficult for him to kill the seriously injured eight-fold monster.

“Experience points, here I come!”

He approached the eightfold monster.

Not long after.

“Ding! The host kills the eight-fold monster! Get 2 experience points.”

“Swipe another experience point, and you will be able to break through again!”

Ye Que looked for prey again.

When he reached the deep area, he had just maxed out his experience points.

“Map scanning prompt: 900 meters ahead, a nine-fold monster appears!”

As expected of the depths of the monster forest.

As soon as he entered, he found a nine-fold monster.

“It’s still a bit unsafe, I’d better break through the realm as soon as possible!”

Ye Que found a rock crevice that was not disturbed by monsters, slipped in, and broke through with peace of mind.

View panel.

Speed: 9.9/10

Defense: 9.9/10

Attack: 7.9/10

Experience Points: 3

“Defense plus 1, attack plus 1, speed plus 1.”

“Ding! The upper limit of defense, speed, and attack is 10! Please add experience points reasonably!”

Ye Que pondered.

According to the introduction of the ancient **** swallowing the sky.

After the tenth level of Monster Beast, if you want to go up, you must open up the Yuanli Pool.

Because any cultivator wants to break through from the Spirit Martial Realm/Monster Beast Realm to the Yuan Martial Realm.

The first step is to open up the Yuanli pool.

Once the development is successful, it will successfully enter the Yuanwu Realm.

If the development fails, you will not be able to step into the Yuanwu realm for life.

Therefore, even if he is not restricted, he can't make defense, speed and attack an inch in the tenth realm.

"Then change to another way of adding, adding 0.1 to defense, 0.1 to speed, and 1 to attack."

Panel data changes.

Speed: 10/10

Defense: 10/10

Attack: 8.9/10

Experience points: 1.8

"Ding! The speed, defense, and attack of the host are all above 8, and you can break through to the eighth level! Do you want to break through?"

"breakthrough!"

Ye Que became stronger again.

"Map scanning prompt: A thousand meters to the right, a nine-fold monster appears!"

He felt normal.

Breaking through the realm, the scope of map scanning will also expand.

The monsters that could not be scanned before can also be scanned as the scope of map scanning expands.

"I'm going to be hungry soon, hurry up and fill my stomach."

Breaking through the realm consumes a lot of energy.

If he doesn't fill his stomach and make continuous breakthroughs, Ye Que will definitely faint from hunger, and even his life will be in danger.

This is the depths of the monster forest, he dare not mess around.

Ye Que quickly killed a monster, ate quickly, and then returned to the crevice of the stone.

“I’m full! Now, you can make a second breakthrough!”

Ye Que licked his lips, with excitement in his eyes.

There are still 1.8 experience points, which can completely allow him to break through to the tenth level.

The qualification to return to the ancestors can be obtained immediately.

“Attack plus 0.1.”

First break through to the Ninth Layer Realm, and then continue to break through.

Otherwise, the body will not be able to bear the continuous breakthrough.

Immediately—

Speed: 10/10

Defense: 10/10

Attack: 8.9/10

Experience points: 1.8

become-

Speed: 10/10

Defense: 10/10

Attack: 9/10

Experience points: 1.7

“Ding! The speed, defense, and attack of the host are all above 9, and you can break through to the ninth level! Do you want to break through?”

“Breakthrough immediately! My ancestral qualification is coming!”

“Ding! The breakthrough has been successful!”

“Eat meat, eat meat!”

Ye Que quickly finished the remaining meat.

He is now a nine-fold monster!

It’s only one step away from the tenth level!

Ye Que was ready, just about to break through again—

“Map scanning prompt: 1,100 meters ahead, a ten-fold monster appears!”

“Map scanning prompt: 1,100 meters ahead, a first-level Yuanwu realm monster appears!”

His eyes changed slightly.

The map scanned the monster forest, and there was a message in it that made him remember deeply.

The monster forest is ruled by a beast king of the first level of Yuanwu realm.

Roar!

The roar came from the front, shaking Ye Que’s ears sorely.

“Humans! You have crossed the line! I will kill you all!”

In that roar, a piece of information was revealed, which made Ye Que feel at ease.

It’s fine if it’s not aimed at him.

boom!

The ground shook.

It was the Beastmaster running outside.

Ye Que let out a breath, not daring to delay, and immediately increased the attack by 1.

Panel data changes.
