

GOD! I TURNED INTO A TURTLE

Chapter 17 – Earth Dragon Turtle

“I choose to devour the earth dragon!”

“Ding! The host chooses to devour the target, Earth Dragon! Please pay attention to the panel data!”

Ye Que checks the panel.

Experience Points: 3

Already fully charged.

“Hey, you can get 10 experience points for killing the earth dragon in the first level of Yuanwu realm yesterday, but because the upper limit is 3, you can only get 3 experience points.”

This made Ye Que very sad.

Fortunately, there was also good news, and the mood quickly became excited.

The mind clicks into one item of martial arts.

Evolution: Wild Forest Turtle (a tenth-layer monster with a keen sense of hearing)

Cultivation method: The first volume of the ancient **** swallowing the heavenly scriptures 20/100 (reach 50 experience points, gain the ability to communicate with all creatures)

Skill 1: Void Assassination 50/1000 (Proficiency increased to 1000, can be upgraded to Void Devour)

Skill 2: Rock Seal 470/500 (proficiency increased to 500, can be upgraded to Void Shock)

Mystery: Riot (In one minute, all abilities are increased by 50%, cooling time: three days. Currently in cooldown, this secret cannot be used)

“Last night, the riot was launched, and the shadow attack and rock seal were turned into riot shadow attack and riot rock seal. To deal with the earth dragon at the first level of Yuanwu realm, the proficiency increased by one hundred and one hundred.”

Because of this, the 500 proficiency of his Shadow Assassination can be quickly maxed out, and finally upgraded to Void Assassination.

And the 50 proficiency in the void assassination technique was obtained when he cast this skill on the earth dragon after the riot disappeared.

“The proficiency of the Rock Seal is almost full. After the evolution of the engulfing synthesis, it will be full, and it will be upgraded to Void Shock as soon as possible!”

After Void Assassination, Void Devour.

After the void shock, what kind of skill is it?

He is looking forward to it.

Exit the martial arts panel, and click on the evolution item with your mind.

Evolution: Wild Forest Turtle (a tenth-layer monster with a keen sense of hearing)

Swallowing target: Earth Dragon (monster of the first level of Yuanwu Realm)

Select the synthesis point: a trace of the holy dragon blood of the earth dragon, the tough body of the earth dragon, the terrible bite force of the earth dragon

Synthetic Evolution Goal: Land Dragon Turtle

“Tough body, do you have my flesh? The bite force is terrible, my turtle shell can’t even be bitten! Don’t think about it, I want the blood of the holy dragon!”

Ye Que laughed out loud.

The system is unresponsive.

“Ahem, I choose to synthesize, a trace of the holy dragon blood of the earth dragon!”

Ye Que got a little serious.

“Please contact the host to devour the target!”

He is now in the body of the earth dragon, and there is no need to move.

“The evolution of phagocytosis begins!”

The huge body of the earth dragon melted quickly.

Pain came from all over the body.

His bones, cells, and meridians are all changing.

“My body has finally changed.”

Ye Que became the size of a rock, with a black-gold turtle shell covered with hideous bone spurs.

The sharp claws on the limbs exude cold light and are extremely sharp.

The head has the characteristics of a dragon’s head, which looks domineering and cold.

“Ding! The evolution of phagocytosis is successful! The next evolution of phagocytosis will start in fifteen days.

Ye Que couldn’t wait to check the panel.

Host: Ye Que

Realm: 10/10 (Ten heavy monsters, ancestral countdown: four days)

Evolution: Earth Dragon Turtle (a ten-level monster with the blood of a holy dragon)

Talent 1: Counterattack (when attacked, return 55% of the attacker’s damage)

Talent 2: Earth King God Seal (activate this seal, the body receives the power of the earth, the sky will not be shocked, the earth will not fall)

The rest of the data was unchanged.

“I’m an earth dragon tortoise, and I also have the blood of the holy dragon, and I have one more talent, and even the damage of the counter-attack talent has increased to 55%!”

Ye Que laughed out loud.

With the blood of the holy dragon, if he returns to his ancestors, will there be any surprises?

Just wanted to do a throwback.

Gollum—

“No, I’m too happy! After devouring synthetic evolution, I will be extremely hungry!”

He has experienced dizziness.

Not daring to delay, crawled out of the cracks in the ground, looking for meat.

“The map scan prompts that an eight-fold monster appears 1,200 meters ahead.”

I'll eat you, eightfold monster.

Hearing the system prompt, Ye Que remembered that his experience points had reached the upper limit.

"First add the experience points to the exercises."

"Gongfa plus 3."

Glance at the data on the dashboard.

Cultivation method: The first volume of the ancient **** swallowing the sky 23/100 (reach 50 experience points, gain the ability to communicate with all creatures)

The skill experience point has increased to 23, but there is still more than half the distance from 50 experience points.

Look at another part of the data.

Speed: 10/10

Defense: 10/10

Attack: 10/10

Experience points: 0

After all of them reached the tenth level, the next thing they had to do was an extremely important thing.

Open up the Yuanli pool, break through the restrictions of the ten realms, and step into the Yuanwu realm.

But here comes the problem.

How to break through?

The improvement of his strength relies on the system.

How to break through, you have to find a solution from the system.

"Nowadays, the panel data in the system can only be changed, such as atavism, skill proficiency and exercises."

The rest of the data is already restricted and cannot be changed.

As for the experience point, it has been capped before, but nothing has changed, so it has nothing to do with the experience point.

"Returning to ancestors has nothing to do with breakthroughs. As skill proficiency increases, you can only upgrade stronger skills."

His attention fell on the exercises.

The exercises are used to assist him in his cultivation.

He wants to open up the Yuanli pool, which should have a lot to do with the exercises.

Although I haven't seen any information about the opening of the Yuanli Pool from the exercises.

But he can only find a breakthrough from the exercises.

"Now, the experience points gained from killing monsters can only be used in exercises, so let's see if the exercises reach 100 experience points."

It just so happened that he also wanted the ability to communicate with all creatures.

"That's it, for the next few days, get experience points, and by the way, proficiency points too!"

Ye Que made a plan for what to do next.

Gollum—

Dizziness hits the brain.

"But first, I have to fill my stomach!"

"Ding! The host killed the double-headed wolf of the eight-fold monster."

Ye Que feasted on it.

After evolving into the earth dragon tortoise, his appetite was astonishing, and he ate up the two-headed wolf in one meal.

That is a monster several times bigger than him!

"I'm full! Refreshing!"

Hiccup.

"Next, use up the qualifications for returning to the ancestors before brushing up experience points and proficiency!"

Regarding returning to his ancestors, Ye Que had been looking forward to it for a long time.

If it wasn't for Tulong's disturbance, he would have returned to his ancestors last night.

“Fortunately, the earth dragon interrupted my return to ancestors, otherwise I would not be able to evolve into an earth dragon tortoise today, with the blood of the holy dragon in my body.”

Ye Que doesn't hate Earth Dragon now, but is very grateful to Earth Dragon.

With the blood of the holy dragon, returning to the ancestors will definitely have some surprises.

This is all good fortune given by the earth dragon.

“Find a hidden place to return to the ancestors, and there must be no more accidents!”

He's ready for a throwback and doesn't want problems in the middle.

Immediately ran to a more remote place and hid.

At noon, he came to a wasteland.

Drilling under the cracks in the barren soil, crawling around in a meandering way, entering the ground cracks about a thousand meters underground.

“Now you can go back to your ancestors.”

Ye Que adjusted his state, and said in his heart: “Return to the ancestors!”
