

GOD! I TURNED INTO A TURTLE

Chapter 18 – The Ancestor Of The Turtle Monster

“The host is sure to return to the ancestors?”

system hint.

“I am sure!”

“Ding! Throwback countdown: 10, 9, 8...1.”

“The return to the ancestors begins!”

After Ye Que heard this voice, his body and soul trembled.

It seemed that something had scanned his whole body.

“Ding! The host is an ordinary demon turtle, and has no potential to return to the ancestors!”

Ye Que’s heart sank.

“Ding! It is detected that the host has the blood of the holy dragon, and the body has become a dragon turtle of the earth, and the ancestral return is successful!”

The system notification sounded again, and his consciousness was pulled into a certain picture.

Under the clear sky, the sea is boundless.

Suddenly, tens of thousands of meters high waves rose from the calm sea.

A tortoise more than 100,000 meters high jumped out of the sea.

The huge body seemed to break the sky.

All living beings are like ants in front of the tortoise.

The tortoise exudes a blue-black light, and an aura of vicissitudes and simplicity, sweeping all directions.

It is a kind of unique power that has lived for an extremely long time.

Seeing this scene from the perspective of God, Ye Que felt like he was taking a deep breath.

Really big!

The tortoise's deep black pupils seemed to be able to see through the ages, and wherever it looked, the sky and the earth were distorted.

Suddenly, the tortoise looked up at the sky.

Ye Que was startled, feeling that he was discovered by the other party.

At that moment, he was terrified, and there was a desperate thought in his heart that he didn't dare to resist.

As if as long as he dared to move around, he would be wiped out by the turtle at a glance.

"not good!"

Ye Que trembled, he saw the turtle open its mouth.

Roar! !

The tortoise roared, and the sky and the earth trembled!

Ye Que's limbs felt weak, and he subconsciously sat on the ground.

Consciousness, return to the body.

But in his eyes, there was still unconcealable panic and fear.

"Ding! The host has obtained one ten-thousandth of the Guixu God Realm of the Guixu Sky Turtle!"

The system prompt sound slightly calmed the soul.

It took an unknown amount of time before he calmed down.

"Guixu Sky Turtle, is this the ancestor of the turtle monster?"

Ye Que murmured.

After a while, check the panel.

Host: Ye Que (Returning to the Ruins Divine Realm)

Realm: 10/10 (Ten-level monsters, after reaching the tenth level of Yuanwu Realm, they will be eligible to return to their ancestors once)

Evolution: Earth Dragon Turtle (a ten-level monster with the blood of a holy dragon)

Talent 1: Counterattack (when attacked, return 55% of the attacker's damage)

Talent 2: Earth King God Seal (activate this seal, the body receives the power of the earth, the sky will not be shocked, the earth will not fall)

Other figures were unchanged.

“The next time you go back to your ancestors, you have to reach the tenth level of Yuanwu Realm.”

He has expectations.

At the same time, he deeply realized the importance of his own blood.

If he didn't have the blood of the holy dragon, he wouldn't have the potential to return to his ancestors at all.

“Before turning on Ancestral Return next time, you must devour monsters with higher bloodlines.”

Take a look at this return to the ancestors, what is the return to the ruins God Realm.

Click on the mind, the God of Return to Ruins on the panel.

brush-

Ye Que entered a small space of about one hundred square meters.

“Small space to take with you.”

He was excited.

With this space, it can bring him great convenience.

“According to the system introduction, this is the Guixu God Realm of one ten thousandth of the Guixu Sky Turtle. It is not only used for space, but also has many functions.”

Of course, he does not expect to obtain other functions with his current strength.

It is enough to have a carry-on space.

“Since returning to the ancestors is over, let's start earning experience points and proficiency!”

The realm has reached the upper limit, and only by maximizing the experience points required by the exercises can it be possible to obtain a breakthrough opportunity.

Moreover, his rock seal proficiency reached 470, not far from 500.

Today, the Rock Seal can be upgraded to Void Shock.

With a thought, exit from the small space.

He climbed out of the cracks in the barren soil and started to collect experience points and proficiency.

“Map scanning prompt: 1,200 meters ahead, a nine-fold monster appears!”

“Panshi Seal!”

“Void Assassination Technique!”

“Ding! The host kills the nine-fold monster half-earth pig! Gain 0.5 experience points.”

“Ding! Rock seal proficiency, increase by 10.”

“Ding! Void Assassination proficiency, increase by 10.”

...

afternoon.

“Ding! The rock seal proficiency has reached 500, and it has been upgraded to Void Shock!”

When the system prompt sounded, Ye Que couldn't wait to check the panel.

The mind clicks into one item of martial arts.

Evolution: Earth Dragon Turtle (a ten-level monster with the blood of a holy dragon)

Cultivation method: The first volume of the ancient **** swallowing the sky 23/100 (reach 50 experience points, gain the ability to communicate with all creatures)

Skill 1: Void Assassination 80/1000 (Proficiency increased to 1000, can be upgraded to Void Devour)

Skill 2: Void Shock 0/1000 (proficiency increased to 1000, can be upgraded to Immortal Void Seal)

After Void Shock, it can be upgraded to Immortal Void Seal!

“It requires a thousand proficiency, so I can only learn slowly!”

Ye Que was very happy that he got the skill of Void Shock.

But when he thought about gaining experience points and proficiency, he was a little more troubled.

The higher the level of monsters, the rarer they are.

Monster beasts that have reached eighty or ninety weights are even more pitifully rare.

Even though he had the map scanning function, he hadn't killed less than two until the afternoon.

The experience point is only 2.5, which is not yet full. As for the full proficiency, it is still far away.

"Do you want to go deeper into the Shenyan Mountains?"

He thought about it and decided to go.

Although it is easy to disturb the two major forces in the Shenyan Mountains, if he doesn't go there, he won't be able to earn experience points.

"First add the experience points to the exercises."

"Gongfa plus 2.5."

Immediately, the experience points of the exercises increased.

It becomes as follows.

Cultivation method: The first volume of the ancient **** swallowing the sky 25.5/100 (reach 50 experience points, gain the ability to communicate with all creatures)

"Not to mention 100 experience points, there is still 24.5 experience points short of 50 experience points."

Ye Que put away his extra thoughts and went straight to the depths of the Shenyan Mountains.

Just in time to try out my new abilities—Earth King Seal and Void Shock.

From today onwards, there is an extra bloodthirsty turtle in the Shenyan Mountains.

Many high-level monsters in the Shenyan Mountains were killed by this bloodthirsty turtle.

This is undoubtedly breaking the calm of the Shenyan Mountain Range for many years.

Shen Yan Beastmaster was the first to be alarmed.

"Dare to kill my subordinates, it is no less than destroying my rule!"

Shen Yan Beastmaster exuded the aura of the second level of Yuanwu Realm, and flew out of the mountain with a cold light in his eyes.

High-level monsters are the core force for maintaining its rule, and if one is missing, it will affect its rule.

“Demon Turtle, you can either submit to me or die under my claws!”

It started looking for the bloodthirsty demon turtle.

Two days passed.

“Void Assassination Technique!”

Ye Que borrowed strength in the air, changed direction several times, and suddenly passed by a ten-layer monster.

puff!

The cow-like ten-fold monster had a wound cut on its neck and fell to the ground dead.

Ye Que got proficiency and experience points and was about to leave.

There was a strong wind coming from behind.

“Fuck!”

Ye Que didn't even dare to block, so he ran away.
