

God! I Turned Into a Turtle

Chapter 19: Shen Yan Beast King's Pursuit

His map scan indicated that he did not find any wild monsters or monsters behind him, but they were attacking.

This shows that the attacker was released and a surprise attack was launched on him from a distance of 1,200 meters.

How strong is this **** guy who can attack from a distance!

Boom!

A huge pit appeared on the ground, and smoke and dust filled the pit.

"Absolutely a strong man at the Yuan Wujing level!"

He was glad that he made the right choice, otherwise he would blindly resist with the turtle shell, and he would probably be cold now.

"Demon turtle, stop for me!"

A low growl came from behind.

Ye Que turned his head to look.

A yellow stone monster with limbs and a head flew over in the air.

It is the Shenyan Beastmaster of the Shenyan Mountain Range!

A strong man at the second level of Yuanwu Realm!

"Can't beat!"

Ye Que was so frightened that he accelerated again and got into the dense forest.

After phagocytosis and synthesis evolution, he is confident in a fight against the first-level monsters in the Yuanwu realm, but he is not sure whether he will win or not.

But in the face of monsters of the second level of Yuanwu realm, they still have to run as far as they can, and they can't beat the cliff.

boom!

A big hole exploded in the dense forest.

It was caused by Shen Yan Beastmaster's release of Yuan Force.

Ye Que's neck felt cold, and he turned sharply, trying to get rid of him.

bang bang bang!

The ground shook, and a large number of rocks protruded, blocking Ye Que's way.

"This piece of yellow **** is so awesome, and it also has supernatural powers!"

Only monsters with high bloodlines or mutated monsters have innate supernatural powers, which are very rare.

I didn't expect my luck to be so good, to meet a beast king who possesses supernatural powers.

Seeing that his way was blocked, Ye Que gritted his teeth, turned around and ran to the side.

Just turning around, the momentum dropped sharply, giving Shen Yan the Beastmaster a chance.

A burst of khaki-yellow energy created a strong wind and smashed towards Ye Que.

Ye Que was forced to be helpless and forced to resist.

"Void shock!"

The turtle shell shook slightly, and the force of the shock was released from above.

The khaki-yellow origin force had not yet touched the turtle shell, and was first hit by the shock force.

puff!

As soon as the slight sound spread, the power of the shock was easily broken.

boom!

The irresistible force fell firmly on the turtle shell.

This time, he couldn't even trigger his natural counterattack.

Because this force is too powerful, with his ability, even fifty-five percent of his power cannot be counterattacked.

Click—

Cracks appear in the shell.

Ye Que spat out a mouthful of blood, his consciousness was blurred, and he almost passed out.

"Huh! If you don't let you suffer, I really can't cure you!"

Shen Yan Beastmaster flew down.

It looked at the demon turtle and said indifferently: "You have committed the crime of mortal death by killing so many of my subordinates and shaking my rule! But I will give you a chance, a chance to submit to me!"

"Master, your mother! Master, use the teleportation technique to save me!"

Ye Que let out a loud roar, and focused on the God Realm of Return to Ruins on the panel.

brush-

He entered the realm of returning to the ruins.

Shen Yan Beastmaster was stunned.

That monster turtle actually disappeared before his eyes!

wrong!

It's a transfer technique!

"You actually have a master! You can also use such great supernatural powers as teleportation!"

Shen Yan Beastmaster trembled in fright, turned around and fled.

A person with great supernatural powers who can use the teleportation technique is definitely not a simple Yuanwu realm practitioner.

It can't afford it.

But after a while, it flew back again with a gloomy face.

"If you have a master, you can kill me with a random attack. Why use teleportation, which consumes a lot of power!"

Shen Yan Beastmaster fled all the way, but no one attacked it.

These are enough to show that the demon turtle is cheating.

"I dig three feet into the ground, and I want to find you!"

Shen Yan Beastmaster roared angrily, his body energy fluctuated, the soil on the ground floated up, and the stones bulged.

But there was no demon turtle.

Most of them left quickly while it was running away.

"You are seriously injured, you can't run far!"

Shen Yan Beastmaster chose a direction where the monster turtle might escape, and flew over.

In the territory of Guixu God, Ye Que was lying on the ground in the space, panting heavily.

The injury was too severe to heal itself.

Need to go outside to devour treasures and contain injuries.

"Wait a little longer, and go out at night."

He closed his eyes and tried to breathe evenly.

Estimating that it was night outside, Ye Que opened his eyes and his breathing became much more stable.

Scanned the panel.

Experience points: 1.5.

Cultivation method: The first volume of the ancient **** swallowing the sky 29/100 (reach 50 experience points, gain the ability to communicate with all creatures)

In the past few days, Ye Que has hunted and killed many monsters, and the experience points gained are all added to the exercises.

Therefore, the experience points required for the exercises have reached 29.

And the current 1.5 experience points are obtained from hunting monsters before, and they were supposed to be added to the skills, but they were chased and killed by the beast king, so it was too late to use them.

"Gongfa plus 1.5."

Suddenly, the panel data changes.

Cultivation method: The first volume of the ancient **** swallowing the sky 30.5/100 (reach 50 experience points, gain the ability to communicate with all creatures)

The skill reached 30.5, which is 19.5 points away from 50 experience points.

"Hey, monsters can no longer be hunted, so as not to be discovered by that pile of yellow shit, we can only find treasures secretly."

He is very helpless.

Even less dared to go back to the Monster Beast Forest.

Those humans could even seriously injure the earth dragon. With his current situation, once he goes there, he will basically die.

"Shen Yan Beastmaster, you wait for Grandpa Turtle, I will come to settle accounts with you after I break through to Yuan Wu Realm!"

Ye Que is a vengeful lord, and he misses Shen Yan Beastmaster.

Cautiously leaving the Godland of Return to Ruins, what caught my eye was the silent night and the dense forest.

He is ready to return to the God of Return to Ruins Realm if something goes wrong.

Fortunately, there was no danger.

Ye Que heaved a sigh of relief, and left cautiously.

He didn't know where it was, but it was definitely still under the rule of the Shenyan Beastmaster.

"Leave first."

Run around the corner.

"Map scanning prompt: 1,200 meters ahead, a nine-level wild monster appears!"

"Map scanning prompt: 1,200 meters ahead, a ten-level wild monster appears!"

There was light in Ye Que's eyes.

"Probably from the Shiyan sect! Since the realm is so high, there must be treasures on him!"

There are two major forces in the Shenyang Mountain Range.

One is the monster force ruled by Shenyang Beastmaster.

The second is the Shiyan sect established by humans.

"Whether I can heal the injury depends on the two of you."

He touched it quietly.

"Young master, this is the area ruled by Shenyang Beastmaster, let's leave."

"What are you afraid of! Recently, a monster turtle came to Shenyang Mountains and killed many high-level monsters. The danger is greatly reduced. This is a good opportunity to find out information!"

"But, the Shenyang Beastmaster is also looking for that demon turtle, if we encounter the Shenyang Beastmaster..."

"Liu Chengfeng, if you get scared, get out! Don't follow me!"

The two young men walked into the dense forest, talking in low voices.

Suddenly, the two of them paused, and their eyes looked at a demon turtle crawling over.

"It's that monster turtle!"

"He's injured, take advantage of his illness to kill him, go! Take him back!"

Young Master Shi and Liu Chengfeng rushed up.

God! I Turned Into a Turtle

Chapter 20: Beastmaster

"One is Jiuzhong and the other is Tenzhong. With my ability, I need to use all my strength to deal with it."

When he saw the two rushing towards him, a cold light flashed in his eyes.

"Don't kill him, catch him back and train him as a demon pet! Just smash his turtle shell!"

Young Master Shi jumped up, with all ten strengths fully activated, and stepped on the turtle shell with one foot.

When Liu Chengfeng saw that the young master came up first, the long sword he drew paused for a moment.

Ye Que drank in a low voice: "The Divine Seal of the Earth King!"

"The host activates the seal of the earth king!"

The limbs receive the power of the earth, and a light yellow light emerges from the whole body, as stable as an immortal mountain.

"Void shock!"

Ye Que then activated his skills.

The turtle shell shook slightly, and the force of the shock was released, piercing through the kicked youth.

The young man felt an impact that spread throughout his body, but there was nothing unusual about it.

So, he breathed a sigh of relief, turned to grinning and said, "A mere beast wants to hurt me too? I'll crush your tortoise shell!"

Stepped on it.

"Ding! Host talent triggers, counterattack!"

Click!

The youth's leg bones were broken!

And suffered a huge impact on the turtle shell, and flew out backwards!

The youth screamed.

But before he landed, a shock force hit his whole body!

Part of the leg bones were not broken, but the places where cracks had already appeared were impacted by the force of the shock.

With a click, it also broke apart!

Add injury to injury!

"puff!"

The young man spat out a pool of blood, fell to the ground and howled continuously.

Looking at Ye Que again, it's really like a sacred mountain, no one can shake it half a bit.

"If you don't go, then it's mine!"

Ye Que glanced at the bewildered sword-wielding youth, and rushed towards the fallen youth.

Liu Chengfeng couldn't understand what the monster turtle said, but he also reacted, and immediately stabbed the monster turtle with his sword.

"Void Assassination Technique!"

Ye Que activated his skills.

brush-

Disappeared in an instant.

"Not good! Be careful, young master!"

Liu Chengfeng held his sword and swept across the ground, trying to stop the demon turtle.

Young Master Shi did not lose his mind. Hearing the reminder, he subconsciously arched his back, bounced up, then chopped the ground with his right foot, and jumped into the air.

He was also afraid of the monster turtle's surprise attack.

"Jump to the top, with your four clumsy short legs, don't even think about hurting me!"

He resisted the pain and said coldly.

But just as he finished speaking, a monster turtle the size of a rock appeared next to his head.

"Really good at cooperating! This move of mine is to launch an attack from the air. If you lie on the ground, I may not be able to kill you instantly!"

Ye Que sneered, and his sharp claws slashed across the man's neck.

"Can you fly..."

Young Master Shi collapsed, and before he could finish speaking, his neck was cut off.

When it falls to the ground, it is completely cool.

"Ding! The host kills ten heavy wild monsters! Gain experience point 1."

Ye Que landed on the ground, stepped on the corpse, stared at the young man with the sword rushing over with his eyes, and let out a low growl.

With a low growl like a dragon, the young man holding the sword was shocked.

"died!"

Liu Chengfeng was frightened.

The young master is the son of the sect master, the number one genius of the sect, and the future master successor of the Shiyan sect!

Just die!

Something big happened!

"not good!"

Seeing the monster turtle rushing towards him, his expression changed drastically, and he turned around and fled.

The young master is a martial artist at the tenth level of the Spirit Martial Realm, but he is only at the ninth level, and he can't even beat the demon turtle.

However, with his state, how could he escape Ye Que's pursuit.

After a while, there was a scream, and the vitality disappeared.

"Ding! The host kills the nine-fold wild monster! Get 0.5 experience points."

Ye Que quickly rummaged through them, and quickly found two packages.

"These two people made too much noise before they died. Most of them will alarm the nearby monsters, even the Shenyan Beastmaster. Get out of here first!"

He threw the package into the Guixu God Realm, and then quickly ran out of the dense forest, trying to stay as far away from the Shenyan Beast King's rule area as possible.

Run away in a hurry.

Not long after, Shen Yan Beastmaster led many high-level monsters to the dense forest.

When the beast king saw the two human corpses on the ground, his expression changed.

He recognized one of them.

He is the son of the head of the Shiyen sect.

Look at the wound on his neck—

"Damn it, it was the demon turtle who killed it! He never escaped from the jungle!"

Shen Yan Beastmaster was incompetent and furious.

If the son of the head of the Shiyen sect died in its ruled area, the consequences would be serious.

If it was before, even if he died, he would die.

It is incompatible with the Shiyen sect.

But now it's different.

Many of my subordinates were killed by the monster turtle, and their strength was greatly reduced.

The Shiyen sect already had thoughts about it.

Right now, the son of the sect leader died in its ruled area, and the Shiyen sect would definitely attack its power aggressively.

And it's the most aggressive one.

This pot, it still has to carry it.

Because the demon tortoise is also a monster, one of them!

"I'm going to peel you alive!"

Shen Yan Beastmaster immediately ordered all the monsters to look for the monster turtle.

As for the two human corpses in front of them, they were devoured directly.

However, they never imagined that Ye Que has a map scanning function, which can be avoided in advance.

Let them look for it, but they can't find it.

Ye Que left the dense forest, away from the area ruled by the Shenyan Beastmaster, and came to a dry riverbed.

There is an underground gap here.

"There are really many underground cracks in the Shenyan Mountains! I like it!"

Ye Que got into a crack in the ground and kept climbing down.

"Hurry up and contain the injury! In order to kill those two people, my injury has worsened!"

He felt his body getting weaker and weaker.

Climb to about 2,000 meters underground, dig a hole in the crack, and hide in it.

Ye Que took a breath, took out the package, and opened it.

What a treasure.

"Eat them all!"

Mouth to swallow.

"Ding! The host is taking an 800-year-old fruit."

"Ding! The host takes a 900-year-old green leaf and gains 0.5 experience points."

"Ding! The host takes a 900-year-old Star Spirit Grass and gains 0.5 experience points."

"Ding! The host took a 700-year-old Shamu root."

"Ding! The host takes a nine-hundred-year brandy fruit and gains 0.5 experience points."

Ye Que stopped devouring.

"Before killing those two people, I got 1.5 experience points, plus the 1.5 I got from devouring the treasure, exactly 3 experience points, full value!"

"Gongfa plus 3."

Use the experience point, and then take the treasure.

Panel data changes.

Cultivation method: The first volume of the ancient **** swallowing the sky 33.5/100
(reaching 50 experience points, gaining the ability to communicate with all creatures)

The experience points required for the exercises have changed from 30.5 to 33.5.

Still need to work hard!

"The injury has healed a lot, keep eating!"

Ye Que regained his energy, and devoured the treasures in big mouthfuls.

After a while, the experience points were added to 3 again.

And the treasure in front of him just finished eating.

"Continue to add points to the exercises, add 3 to the exercises."

The experience points required for the exercises have changed from 33.5 to 36.5.

It is 13.5 points away from 50 points.

Still need to add some!

"I need to rest for a while, and I will go to collect experience points tomorrow!"

He closed his eyes, ready to fall asleep.

Boom!

There was a dull sound from the ground.
