

# GOD! I TURNED INTO A TURTLE

## Chapter 2 – You Eat Me, I Eat You Too

Ye Que felt severe pain, a feeling that all the cells and bones in his body were being torn apart.

Fortunately, the pain did not last long.

“Ding! The evolution of phagocytosis is successful! The next evolution of phagocytosis will start in five days.”

Ye Que felt that all kinds of voices were filling his surroundings.

Shaking his head, he couldn't wait to check the panel.

Host: Ye Que

Realm: 0/10 (none)

Evolution: Forest Turtle (an ordinary monster with a keen sense of hearing)

Talent: Counterattack (when attacked, return 50% of the attacker's damage)

Speed: 0.6/10

Defense: 1/10

Attack: 0.1/10

Experience points: 0

Martial Arts: No Boundary, Unable to Open

Still no boundaries.

“Maybe it's because they haven't met the conditions for raising the realm.”

Ye Que guessed.

Gollum—

Very hungry!

He hasn't eaten anything since he woke up.

Before, he was hungry, but the hunger was not strong.

But after evolution, the sense of hunger strongly impacted the brain, making him feel dizzy.

Devouring and synthesizing evolution consumes too much energy.

“I’m so hungry, Timberwolves are gone, and there’s still an orangutan to eat!”

Enduring the dizziness, he staggered towards the orangutan, wanting to feast on it.

This was derived from the nature of monsters to eat, and he who came through the soul wear did not feel any discomfort.

“If I don’t eat any more, I’m really going to faint here from hunger.”

Coming to the orangutan’s wound, he grabbed a piece of meat with one paw and quickly stuffed it into his mouth.

Evolving into a wild forest turtle not only improves hearing, but also makes limbs and beaks much sharper, which can be regarded as the benefit of evolution.

Therefore, he can easily grab some, softer meat.

Just about to take my second bite...

“Map scanning prompt: 200 meters ahead, a triple monster appears!”

“System prompt: A triple monster is approaching quickly, please avoid it!”

Ye Que was shocked.

He just wants to eat quietly, why do so many monsters always appear!

Smell it.

The smell of blood is so strong!

It should be the \*\*\*\* smell from the orangutan, which attracted the surrounding monsters.

“One-level monsters are enough to scare turtles, and three-level monsters can’t be provoked!”

He ran away helplessly.

“The map scan prompts, two hundred meters to the left, a first-level monster appears!”

“Map scanning prompt: Two hundred meters behind, a double monster appears!”

“Map scanning prompt...”

The smell of blood attracts more monsters.

Ye Que’s heart trembled, and he ran faster.

“The sound is still about 100 meters away, there is a chance to escape!”

Ye Que was glad that he increased his speed a bit, making his actions quick and agile.

hiss—

A black figure sprang out from the forest, raised its head, and stared at Ye Que with cold eyes.

This is a three-meter-long boa constrictor as thick as an adult’s head.

“Snakes make no sound when they move, I was careless!”

Ye Que paused.

But after thinking about it, it must be a triple monster that can appear so quickly.

For a monster of this level, even if he heard the sound in advance, he would not be able to escape in time.

“The sound of monsters running around is approaching, so I can’t be trapped. I have a turtle shell, let’s fight!”

Ye Que didn’t dare to wait any longer, once the surrounding monsters came over, it would be even more difficult for him to escape.

However, the strength of the triple monster was beyond his imagination.

As soon as he moved, the boa constrictor slapped the ground and tightly entangled him.

Immediately, he took a big mouth and swallowed him.

“Swallow it when you see me, I won’t kill you!”

When Ye Que was swallowed, the only reaction he could make was to retract his limbs and head into the turtle shell.

Roar! Roar!

The beast roars one after another spread around.

The python feels the pressure.

hiss—

It spits out the snake letter and demonstrates to the surrounding monsters.

“It’s hard to breathe.”

Ye Que felt like he was about to suffocate.

Fortunately, before being swallowed, I ate some meat, so I wouldn’t lose my strength and faint here.

“Triple monsters are amazing! If they meet, they will devour me, and I will devour you too! I just happen to be hungry!”

He stretched out his sharp claws, opened his mouth, and frantically gnawed at the surrounding flesh walls.

However, I can’t bite.

Facts tell him that triple monsters are amazing.

Suddenly, pain came from all over the body.

It was the stomach acid secreted by the boa constrictor, which stuck to his body and wanted to digest him.

“I don’t believe it, I can’t make a bite!”

Ye Que was still struggling, biting with his best strength.

But after a while, he became very weak.

Not only was the stomach acid melting him, but there was no air around him, and he was suffocating.

“Could...could it be...really...really going to be planted here?”

Before his consciousness dissipated, he finally bit a wound, and the painful boa constrictor rioted.

As the saying goes, shoot the bird that stands out.

The surrounding monsters bit the python one after another.

The python rioted, its eyes were blood red, and the bloodthirsty launched a counterattack.

It needs to vent pain.

After a while.

“Ding! The host killed the triple monster jungle python! Gained 2 experience points.”

The system’s notification sound woke up Ye Que.

“Am I... still alive?”

Ye Que opened his eyes and saw a lot of monster corpses on the ground.

Can see outside!

I can still breathe!

“I’m alive! I’m alive!”

He froze for a moment, then smiled for the rest of his life.

After struggling to climb out of the jungle python’s stomach, his whole body was aching.

The stomach acid of the jungle python has melted many parts of the body, so it’s no wonder it doesn’t hurt.

He turned his head to look bitterly.

The guy had holes all over his body and had a dead grizzly bite on his head.

It was a miserable death.

“You deserve it! If you didn’t swallow me, how could you get to this point!”

Ye Que clearly remembered that he had bitten a wound on the jungle python, causing it to riot.

The result after the riots must have been besieged.

The corpses of the surrounding monsters should have been killed by the jungle python, but the jungle python also died in the end.

“I’m going to leave right away, and a few more monsters will come later, and I’ll be really cold.”

It’s just that the body hurts and it’s too hard to move.

“Use experience points first to strengthen your body!”

Ye Que’s thoughts returned to the panel in his mind.

Host: Ye Que

Realm: 0/10 (none)

Evolution: Forest Turtle (an ordinary monster with a keen sense of hearing)

Talent: Counterattack (when attacked, return 50% of the attacker’s damage)

Speed: 0.6/10

Defense: 1/10

Attack: 0.1/10

Experience Points: 2

Martial Arts: No Boundary, Unable to Open

“There are two experience points, plus 0.4 for speed, 0.9 for attack, and the remaining 0.7 for defense.”

After suffering the loss of not attacking, he decided to increase his attack.

Otherwise, how could it be so difficult to even break a hole in the jungle python’s body just now?

After adding points, the panel data changes.

Speed: 1/10

Defense: 1.7/10

Attack: 1/10

“Ding! The speed, defense, and attack of the host are all above 1, and you can break through to the first level! Do you want to break through?”

Ye Que was stunned.

It turns out that to break through the realm, all three must be improved.

“breakthrough!”

Ye Que felt severe pain again.

The cells, bones, and meridians of the whole body are changing.

“Ding! The breakthrough has been successful!”
