

Ye Que was awakened.

"What's down there?"

He crawled to the mouth of the cave and looked down.

At this time, the dull sound came from below again.

Ye Que was afraid that there would be some danger below, and when he was about to climb to the ground, a faint energy floated up from below.

"Fuck! It can't be the essence of heaven and earth, can it?"

As soon as he smelled that essence, the wounds on his body tended to recover faster, and the blood flow in his body also accelerated.

Ye Que swallowed.

For a normal cultivator, if he wants to open up a Yuanli pool, it is necessary to absorb the essence of heaven and earth.

If you want to improve your strength in the future, you also need to absorb the essence of heaven and earth.

Although he relies on the system to improve his strength, the essence of heaven and earth should also be good for him.

"Go and see?"

He is hesitating.

"Go!"

He said harshly.

In order to add points to the martial arts, he offended both the Shenyang Beastmaster and the Shiyang sect.

Even if you go to the ground, hunting monsters or looking for treasures, you will be blocked many times.

But at present, the experience points required for his exercises have only reached 36.5.

Not to mention reaching 100, it is still 13.5 points away from 50 experience points.

"I have map scanning and the God of Return to the Ruins. If I encounter danger, I will retreat. If I can't withdraw, I will enter the God of Return to the Ruins. If I get benefits, it will be a big profit!"

With this in mind, Ye Que chose to act immediately.

With sharp claws on all fours, it easily scratches through the cracked soil, and climbs down cautiously.

All the way down, there is no danger.

When he climbed a thousand meters below, he keenly felt that the temperature around him rose.

At this time, he was three kilometers deep from the ground.

Boom!

The dull voice came up again.

Perhaps it was because of going too deep, the muffled sound was a bit clear.

"What a strong spirit!"

He smelled the essence of heaven and earth again, the wounds on his body were recovering faster, and the flow of Qi and blood was also accelerating.

This feeling made him intoxicated, and he couldn't help but speed up the climb down.

Go down another 1,000 meters.

The surrounding temperature is very high.

Boom!

The muffled voice became clearer, and the energy that floated up became stronger.

"No wonder there are so many underground cracks in the Shenyang Mountains! It's probably caused by the dull sound underground!"

He descended 1,500 meters this time, and was already 5,500 meters above the ground.

The surrounding temperature is frighteningly high.

The mud and stone walls on both sides were a little red.

Fortunately, he is a land dragon tortoise with high heat resistance.

Continue to crawl down.

"Map scanning prompt: 1,200 meters below, a small low-grade sinking rock essence vein appears!"

Ye Que was taken aback for a moment, then he was overjoyed.

"Damn! It turned out to be a Jingmai! A Jingmai containing the essence of heaven and earth!"

According to the introduction of the ancient \*\*\*\* swallowing the sky, Jingmai is a special and rare essence of heaven and earth.

The reason why many sects and aristocratic families can develop and prosper depends on the essence.

With a main meridian, you can continuously absorb the essence inside, which is the root of cultivating warriors and strengthening yourself.

At the same time, Jingmai is also the source of conflict.

Everyone wants to have it, so the conflict broke out.

Often a large-scale conflict where blood flows into rivers and bones become mountains is all because of the essence.

From this we can see the preciousness of the main veins.

Now, Ye Que discovered an unused essence vein.

Although it is only a small size, it is only used by him, no one will compete with him, and it will make a lot of money!

"Calm down! Calm down! I'm different from other practitioners. After absorbing the essence, whether I can get experience points is still a question."

He stabilized his mind and continued to climb down.

Whether you can get experience points, just try it out.

Boom!

What came from below was no longer a dull sound, but a roar!

Both sides of the crack are shaking slightly.

"System prompt: The small low-grade sinking rock essence is being swallowed by underground magma, please avoid it!"

Ye Que's limbs were clinging to the soil in the cracks, and when he heard the notification sound, his expression became serious.

Swallowed by underground magma?

Could it be that he can't absorb the essence?

"No, I have to absorb the essence before the veins are swallowed by the magma!"

He saw a red light below, it should be that the crack is coming to an end.

Soon he would be close to the small Shen Yan Jingmai, so he sped up his speed.

As for the roar and high temperature, it should be caused by magma, so don't worry too much.

When he climbed out of the crack, what he saw was a magma lake, surrounded by red.

On the surface of the magma lake, there is a 100-meter-long earth-yellow main vein standing upright.

Being able to stand upright in the magma lake means that part of the veins submerged by the magma lake is definitely very long.

Boom!

The magma lake shook, and the khaki-yellow veins standing inside dropped five or six meters.

At the same time, the khaki-yellow main veins gushed out a large amount of essence.

There was greed in Ye Que's eyes, he stared at Jingmai and said, "Can it be absorbed? System, system, can it be absorbed?"

If possible, he would like to take the risk of jumping down to absorb it.

As a land dragon tortoise, it has high heat resistance.

Even close to a magma lake, it can withstand high temperatures.

The system didn't answer him.

But when a large amount of essence gushed out from the earth-yellow main veins, flooding the whole body, the system was triggered.

"Ding! I found a large amount of low-grade Shenyang essence, do you want to absorb it?"

"Absorb! Absorb!"

Ye Que shouted.

"Ding! Absorb the essence of the low-grade Shen Yan..."

Ye Que hurriedly looked at the panel.

Experience points are increasing by 0.01, 0.02, 0.03.

"Hahahaha! I won't go to the top anymore, just wait for the experience points to increase!"

Ye Que was excited.

This is much safer than going to the ground.

Maybe above, Shen Yan Beastmaster and Shi Yan sect are all going crazy.

"Ding! Absorption interrupted!"

Ye Que's eyes changed: "What's going on?"

Soon he found out what was going on.

Just now, the khaki-yellow main veins, which spewed out a large amount of essence, are gone.

Part of it was absorbed by him, but more part overflowed into various cracks.

Without essence, it cannot continue to absorb.

"Need to go to the Jingmai! Fight!"

Although the Jingmai would drop a few meters every once in a while, he could still get a lot of benefits before the Jingmai completely descended into the magma lake.

With his eyes fixed on the khaki-yellow sinking rock essence, he jumped forward.

wipe!

The sharp claws of the limbs slid a few meters on the main veins, and finally landed firmly on it.

"Ding! I found a large amount of low-grade Shenyang essence, do you want to absorb it?"

"absorb!"

"Ding! Absorb the essence of the low-grade Shen Yan..."

Ye Que laughed again.

Absorbing energy means that experience points are increasing.

Next, he just needs to continue to wait.

Just when he was absorbing it well, a fierce conflict broke out between the Shiyang sect and the Shenyang Beastmaster on the ground.

"My son was killed by your monsters, and all your monsters will be buried with him!"

The head of the Shiyang sect roared furiously, and the aura of the second level of the Yuanwu realm on his body suddenly spread.

Shen Yan Beastmaster said with a sad face: "It was killed by the monster turtle. It belongs to monsters from other areas, and it probably came from the monster forest!"

A large number of high-level monsters were killed by the monster turtle, and his ruling power is not as good as before. If he fights with the Shiyang sect, he will definitely suffer a big loss.

"This damned bastard, you have caused me a lot of trouble!"

Shen Yan Beastmaster scolded the demon turtle in his heart.
