

God! I Turned Into a Turtle

Chapter 22: Shenyan Beastmaster's Essence

"Monsters are all beasts, they only hurt people's lives! The elders of the disciples of the sect obey the orders and kill all the monsters!"

The head of the Shiyen sect rushed towards Shenyan Beastmaster, and the elders and disciples followed one after another, screaming loudly.

Shen Yan Beastmaster raised his head to the sky and roared loudly, leading all the monsters to kill them.

Rumble!

A fight started in the Shenyan Mountains!

deep underground.

Ye Que lay on his body, and closed his eyes comfortably.

The injury is healing at an accelerated rate, and the cracked tortoise shell is also slowly healing.

Idea View Panel.

The experience point has risen to 2.01.

When it rises to 3 experience points, you can add points to the exercises, and then continue to wait for the experience points to rise.

"It's a pity that the fine veins have to be swallowed by magma, otherwise I could lie here for the rest of my life."

He sighed softly.

Boom!

The magma lake shook, and the khaki veins sank another five or six meters.

He looked calm and chose to continue absorbing.

When the next day came, the khaki veins were basically swallowed by the magma lake, and only less than ten meters above the magma lake.

At this time, Ye Que's whole body was red.

Almost steamed.

"Persist [Country Fiction www.xiangcun7.com] for a while longer."

Ye Que was reluctant to leave, and wanted to smoke for a while longer.

Glance at the panel.

The experience point has risen to 3, reaching the upper limit.

"Gongfa plus 3."

"Ding! The experience points of the first volume of the ancient **** swallowing the heavenly scriptures have reached 50."

After a night of hard work and adding points to the exercises many times, I finally added 50 experience points to the exercises.

The long-lost divine thoughts drilled into his mind.

This is the content of the follow-up part of the first volume of the ancient **** swallowing the heavenly scriptures, which he bought with a lot of experience points.

"Ding! Automatically practicing!"

"Ding! The training is complete, and the host has gained the ability to communicate with all creatures!"

There was light in Ye Que's eyes.

Boom!

The magma lake vibrated, and the Jingmai dropped five or six meters, leaving only four or five meters above the magma.

"We must go!"

No matter how reluctant, life safety must also be considered.

Pushing his limbs vigorously, Ye Que jumped into the air, performed the Void Assassination Technique, borrowed strength from the air again, and easily climbed onto the rock wall.

Climb all the way up, back to the cave.

Ye Que let out a breath.

so cool!

View panel data.

The mind clicks into one item of martial arts.

Evolution: Earth Dragon Turtle (a ten-level monster with the blood of a holy dragon)

Cultivation method: The first volume of the ancient **** swallowing the heavenly scriptures 50/100 (reach 100 experience points and open up the Yuanli pool)

"Oh my god! You have to reach 100 experience points to open up the Yuanli pool!"

Ye Que wanted to scold someone.

It was right to choose to add points to the martial arts at the beginning, it could indeed open up a pool of energy for him, but the requirements were too high!

Tucao belongs to Tucao, if you want to open up Yuanli pool, you can only earn experience points honestly.

But the practice requires too many experience points, just hunting monsters and eating treasures is not satisfied in a short time.

Most of the monsters and humans above are looking for him, let alone collect experience points, it is difficult to get along safely.

"Since there are essence veins here, there should also be nearby. Otherwise, why would the Shiyen sect and Shenyan Beastmaster choose to occupy here?"

It is the basic operation to create a force based on the Jingmai.

"Go to the underground area of Shenyan Beastmaster, if I want to cheat monsters or people, I will choose you first.

The vengeful Ye Que crawled along the cracks in the ground to the ground under the ruled area of Shenyan Beastmaster.

Fortunately, he has a small body and strong destructive power, so he can forcibly shuttle through underground cracks.

A daytime passed.

night comes.

"Map scanning prompt: 1,200 meters ahead, two eight-fold monsters were found!"

Ye Que's eyes lit up.

It is at least six or seven kilometers away from the underground.

At this depth, there are two eight-fold monsters appearing, which is very strange.

Unless, those two eightfold monsters lived underground themselves.

"Go and have a look."

He crept over quietly.

"We are very lucky to be sent to guard the Jingmai."

"That's right! The Shiyan Sect went mad and launched a fierce attack on us. Many monsters died, and even Lord Beastmaster was injured."

"It's all to blame for that monster turtle! If he hadn't killed the strong among us, how could so many things have happened."

"Actually, if it weren't for that monster turtle hunting down the strong among us, how could we, who are mere eighth-level realms, be qualified to guard the fine veins?"

"Hey, that's right. The elite among us are all going to defend against the attack of the Shiyan sect. There are not enough people to guard the veins. It's our turn."

Two eight-fold monsters were lying on their backs in an underground corridor to talk.

puff!

On the stone wall of the corridor, a head drilled out.

"Then you should thank me, right?"

Ye Que looked at the two bewildered monsters and spoke.

This place is six to seven kilometers deep underground, and caught off guard, a monster turtle came out...

Thanks to the strong psychological endurance of the two monsters, they didn't get scared out of trouble.

Roar-

The two monsters reacted and opened their mouths to bite.

Ye Que slammed into the tunnel, clawed up, and ended the lives of the two monsters.

"There are two dark whistles in front, and their strength is also at the eighth level of the monster realm."

It seems that Shen Yan Beastmaster really suffered a catastrophe, and the key position of guarding the veins had to be handed over to the eighth-level monster.

"You deserve it! You, Grandpa Turtle, will absorb your essence!"

Ye Queyan plucked too much hair, trying to pit Shen Yan Beast King until there was no hair left.

After searching for a day, I don't know how far the conflict above has progressed.

I just hope they keep fighting, and I can take the opportunity to **** the essence.

"We still need to speed up!"

He accelerated through the underground passage.

The corridors are criss-crossed, but it doesn't affect Ye Que at all.

Rely on map scanning prompts to solve dark and clear whistles.

"Map scanning prompt: 1,200 meters ahead, two nine-fold monsters appear!"

Nine layers of monsters finally appeared!

This shows that it is not far from Shenyan Beastmaster's veins!

"Void Assassination Technique!"

Ye Que didn't forget to brush up his proficiency, and quietly killed two nine-level monsters in a flash.

keep going.

After a while.

"Map scanning prompt: 1,200 meters ahead, two tenth-level monsters appear!"

"Now my injuries are healed, and the cracks in the tortoise's shell have also healed. With all my strength, I can quickly kill two ten-fold monsters!"

After devouring synthetic evolution, he has become very powerful.

Not to mention, the skills have been upgraded, and their power is not what it used to be.

"While the Beastmaster is out to defend against the enemy, should we take this opportunity to absorb some energy?"

"Are you crazy? The underground magma spread throughout the Shenyang Mountain Range, and 90% of the veins were swallowed by the magma. The remaining veins here are only a small part, which is only enough for the beast king to absorb!"

"Whatever fierce you are, I'll just talk about it."

"The Beastmaster has been wounded many times, and every once in a while, he will come back to absorb the essence to heal his wounds. You'd better not think about the essence, otherwise the Beastmaster won't be able to heal his wounds, and we monster beasts will not be able to resist the attack of the Shiyang sect!"

"Yes, yes, as long as the Beastmaster survives, we still have a way to survive! Jingmai, I will never move, I will watch to death!"

Ye Que said: Hehehe.

God! I Turned Into a Turtle

Chapter 23: almost soaring

"The underground magma has swallowed 90% of the essence veins, and the remaining small part here must be used!"

Ye Que speaks righteously.

Breaking through the stone wall, entering a spacious corridor, without saying a word, launched an attack on these two ten-fold monsters.

Land King God Seal!

Talent strikes back!

Void Assassination Technique!

Void vibration!

All kinds of moves were used, and two ten-fold monsters were killed in a simple, violent and quick manner.

Proficiency and experience points are gradually increasing.

"Experience points are full, add 3 to the skill."

Panel data changes.

Cultivation method: The first volume of the ancient **** swallowing the heavenly scriptures 53/100 (reach 100 experience points and open up the Yuanli pool)

The experience points required for the exercises have changed from 50 to 53.

47 points away from 100 experience points.

"Jingmai, here I come!"

Ye Que followed the map scanning prompts, moved forward all the way, and finally jumped down, and landed firmly on a khaki-colored sunken rock vein that was 100 meters long and more than 10 meters wide.

"First, try to see if you can put the essence into the God Realm of Returning to the Ruins."

With a thought.

"Ding! The host's Return to Ruins Divine Realm is too fragile to hold a large amount of heaven and earth essence!"

His God of Return to the Ruins is too fragile to be contained.

"Ding! I found a large amount of low-grade Shenyan essence, do you want to absorb it?"

"Absorb! Absorb!"

Ye Que quickly forgot his unhappiness, and lay comfortably on his Jingmai.

"Ding! Absorb the essence of the low-grade Shen Yan..."

Seeing the increase in experience points, he turned his attention to his surroundings.

A stone cave like a hall, below is red magma.

But this vein should have been taken care of by Shen Yan Beastmaster.

There are many boulders below to support it to avoid being swallowed by magma.

"Even if Shenyan Beastmaster came, he wouldn't dare to do anything here, unless he wanted to shake his veins into the magma!"

Ye Que felt very refreshed.

In addition, he does not need to worry about the struggle situation above.

No matter which side wins or loses, they will not delay their absorption of energy.

He estimated that even if Shen Yan Beastmaster's forces were defeated, it would take a day at the earliest for people from the Shiyan sect to find the essence here.

After all, this place is six to seven kilometers above the ground, and the terrain is complex.

It takes a lot of time and energy for the Shiyan sect to find it.

And one day is enough for him to open up the Yuanli pool, step into the first level of the Yuanwu realm, and even reach the peak of the first level.

When the time comes, he will be able to drive away the invading humans or monsters with the help of secret techniques and skills.

What's more, the two sides have not yet decided the winner, leaving him with more time.

In short, he has great confidence in occupying this essence vein.

Time passed bit by bit.

Shen Yan Beast Mountain.

A huge mountain.

This is the old lair of Shenyan Beastmaster, where a large number of monsters gather together.

"Hold on to me!"

Shen Yan Beastmaster was stained with blood, and when he was fighting the head of the Shiyan sect, he yelled at the bottom.

Its power basically retreated, and was attacked by the people of Shiyan sect with all its strength, and finally had to retreat under Shenyan Beast Mountain.

Fortunately, this place is easy to defend and difficult to attack, and there are many monsters, so the people of Shiyan sect can't attack for a while.

Of course, the main reason is that it is not dead yet.

Once it is dead, the head of the Shiyan sect who is at the second level of Yuan Wujing can easily defeat its power.

"You are already at the end of your strength and have been injured many times. If you hadn't absorbed the essence veins, you would have been killed by me long ago!"

The head of the Shiyan sect sneered.

"If it weren't for that monster turtle, I would have come to this day? People of the Shiyan sect, I have written down this account!"

Shen Yan Beastmaster hated the demon tortoise.

If the demon turtle appeared in front of him, it would definitely tear each other apart.

"When I defeat your power, I'll settle accounts with that monster turtle!"

The head of the Shiyan sect also hates the demon turtle.

His son died in the mouth of the demon turtle.

This enmity is a life-and-death enmity, and must be avenged!

"Want to defeat me? Dream!"

Shen Yan Beastmaster roared, and the offensive intensified.

"Don't forget, our sect also has a martial artist at the first level of Yuanwu Realm. He is absorbing the essence of the essence in the sect and trying to break through!"

The head of the Shiyan sect retreated, preparing to avoid his sharp edge.

Shen Yan Beastmaster's body turned cold.

No wonder I didn't see that martial artist at the first level of the Yuanwu realm.

Unexpectedly, it has reached the point where it is about to break through!

Once it breaks through, it can only choose to escape.

No, even if the opponent doesn't break through, as long as he comes over to press the formation, in his situation, he has to escape.

Because it has been injured, its subordinates are severely damaged, and it is unable to deal with the opponent.

"Demon Turtle! I must chop you into pieces!"

Shen Yan Beastmaster cursed in his heart.

It was because of a demon turtle that he got to where he is today.

He hated the demon turtle more and more.

Ah spray—

Ye Que sneezed.

"Who is missing me?"

...

In a blink of an eye, it was early morning, and it was about to dawn.

Ye Que looked at the panel data.

The experience points required for the exercises have increased to 73.4.

"Not far, not far!"

He is very excited.

Once it reaches 100, you will be able to open up the Yuanli Pool.

In this way, one will be able to break through to Yuanwu Realm, and one will be qualified to continue to improve one's strength.

"Map scanning prompt: 1,200 meters above, a monster of the second level of Yuanwu Realm appears!"

"System prompt: A monster at the second level of Yuanwu Realm is approaching quickly, please avoid it!"

Ye Que was vigilant.

Here comes the yellow shit.

With a movement of limbs, he quietly crawled under the fine veins.

The paws were stuck firmly in the fine veins, and continued to absorb the fine veins.

In the huge silent cave, Shenyan Beastmaster, panting heavily, landed steadily on the Jingmai.

"Hurry up to absorb the energy and contain the injuries, those guys will come over at any time."

It also had the opportunity to come back to heal when the leader of the Shiyan sect retreated to rest.

A large amount of khaki-yellow energy blends into the body.

The injuries were contained, and the consumed energy was replenished.

"Why so quiet?"

Shen Yan Beastmaster felt something was wrong.

It arranges so many bright and dark whistles, and there is not a single monster, so report the guarding situation to it!

Shen Yan Beastmaster became vigilant and became very sharp.

Because of its keenness, it immediately noticed that a small part of the khaki essence it had absorbed was leaking out in another direction.

"Not good! Something got in!"

It brushed the ground and flew to the bottom of the Jingmai.

His eyes widened instantly.

It's that monster turtle!

Damn, you are so arrogant!

Dare to go to Lao Tzu's lair and steal Lao Tzu's veins!

No wonder the surrounding area is so quiet, and the demon turtles killed all of them!

"Hi!"

Ye Que smiled awkwardly, and deliberately stretched out his paw and waved it.

"Demon Turtle! You are courting death!"

Seeing this, Shen Yan Beastmaster was so angry that he almost went to heaven.

boom!

The aura of the second level of Yuan Wujing filled the entire huge cave.

Its eyes were instantly blood red.

"I am going to kill you!"

It rushed to the demon turtle.

Ye Que crawled around the Jingmai, and kindly advised: "The rock below is not stable, if you push harder, this Jingmai will fall into the magma!"

As soon as he said this, Shen Yan's beast king's aura really stopped.

"That's right!"

Ye Que laughed.

God! I Turned Into a Turtle

Chapter 24: Open up Yuanli pool

"Don't think I can't kill you, I'll tear you up today!"

Shen Yan Beastmaster growled angrily and flew towards Ye Que.

"Looking at how seriously you are injured, if you don't take the opportunity to absorb the essence and heal your injuries, then those people will attack you later, and you will suffer."

Ye Que heard Shen Yan Beastmaster's words clearly just now.

Shen Yan Beastmaster paused, staring at the monster turtle with silent and terrifying eyes, panting louder and louder.

It seems to be suppressing the emotions of rage.

Ye Que smiled and said, "I'll teach you, take a deep breath and then exhale slowly, won't it make you feel better?"

Hearing the demon turtle's words, the anger that Shen Yan Beastmaster had finally suppressed almost exploded.

Fortunately, the pain in the body reminds it constantly that it must be calm and put the overall situation first.

"This seat will allow you to live longer!"

Shen Yan Beastmaster flew to the top of the essence veins, concentrated on absorbing the essence, and ignored the demon turtle.

If Ye Que persisted for a while, he would be able to brush up to 100 the experience points needed for the exercises.

Therefore, he did not continue to stimulate Shen Yan Beastmaster.

Several hours later, Shen Yan Beastmaster opened his eyes and flew outside.

It sensed that there was another big commotion outside.

"You'd better absorb the energy here honestly and wait for me to come back!"

Shen Yan Beastmaster stared at the demon turtle coldly, and flew up after saying a harsh word.

"That's a must! At that time, I will be able to open up the Yuanli Pool and give you a surprise!"

Ye Que smiled maliciously.

Shen Yan Beastmaster sneered: "If it were so easy to open up the Yuanli pool, with so many tenth-level monsters in my hand, I wouldn't be stuck in the monster realm for several years, or even decades!"

It simply doesn't believe that the monster turtle will be able to open up a pool of energy soon after absorbing the essence.

"Why don't you believe me!"

Ye Que really wanted to open up the Yuanli Pool, but Shenyan Beastmaster didn't believe it.

"When I come back, it will be your death day!"

Shen Yan Beastmaster left.

Ye Que watched it leave, shook his head and sighed: "Forget it, I will give you a surprise then."

Time passed quickly, it was noon.

Ye Que checks the panel.

"Experience points are full! Skills plus 3!"

Cultivation method: The first volume of the ancient **** swallowing the heavenly scriptures 98.6/100 (reach 100 experience points and open up the Yuanli pool)

The experience points required for the exercises reached 98.6.

The distance from 100 experience points is only 1.4.

"It's coming! It's coming!"

Ye Que took a deep breath and suppressed his excitement.

It didn't take long for the experience point to rise to 1.4.

"Gongfa plus 1.4."

Ye Que couldn't wait to add points to his skills.

"Ding! The experience points of the first volume of the ancient **** swallowing the heavenly scriptures have reached 100."

A divine thought entered my mind.

The content of this divine thought is the follow-up part of the first volume of the ancient **** swallowing the sky.

"Ding! Automatically practicing!"

"Ding! Yuanli Pool is being developed!"

Ye Que felt as if his chest had been cut by a knife.

It hurts!

And this pain has just begun!

It seemed that the knife kept cutting and expanding his chest.

Fortunately, Ye Que regards the pain as a process of becoming stronger every time he breaks through and devours and evolves.

This time, no exception.

So it got over it quickly.

"It feels like there's something extra in my chest!"

Looking inside, the body trembled.

I saw a small black circle floating in the chest.

The small circle has a faint suction, as if it can **** everything in the world into it.

This is Yuanli Pool!

"Ding! The training is complete, and the host has opened up a Yuanli pool!"

"Ding! The speed, defense, and attack of the host have broken through the upper limit of the ten layers!"

"Ding! After completing the first volume of the Ancient God Swallowing the Heaven, you have the qualification to practice the second volume!"

Ye Que immediately checked the panel data.

Host: Ye Que (Returning to the Ruins Divine Realm)

Realm: 0/10 (Ten-level monsters, after reaching the tenth level of Yuanwu Realm, they will be eligible to return to their ancestors once)

Evolution: Earth Dragon Turtle (a ten-level monster with the blood of a holy dragon)

Talent 1: Counterattack (when attacked, return 55% of the attacker's damage)

Talent 2: Earth King God Seal (activate this seal, the body receives the power of the earth, the sky will not be shocked, the earth will not fall)

Speed: 0/100

Defense: 0/100

Attack: 0/100

Experience points: 0

Martial Arts: Enabled

"Finally breaking through the limit, as long as I have experience points, I can step onto the Yuanwu Realm!"

Ye Que laughed.

His hard work during this time was not in vain.

Ideas enter martial arts.

Evolution: Earth Dragon Turtle (a ten-level monster with the blood of a holy dragon)

Cultivation method: The second volume of the ancient **** swallowing the heavenly scriptures 0/1000 (reaching 100 experience points, and obtaining the qualification for a partial evolution)

Skill 1: Void Assassination 205/1000 (Proficiency increased to 1000, can be upgraded to Void Devour)

Skill 2: Void Shock 125/1000 (proficiency increased to 1000, can be upgraded to Immortal Void Seal)

Skill 3: Enabled at the second level of Yuanwu Realm

Mystic: Riot (in one minute, all abilities are increased by 50%, cooldown time: three days)

"Eligibility for partial evolution! Cool!"

Ye Que was very pleasantly surprised.

Every time he evolves, he becomes stronger.

Even partial evolution is good for him.

"Must be qualified for partial evolution!"

In addition, breaking through to the second level of Yuanwu Realm can obtain the third skill.

look forward to!

Look at the other two skills.

After this period of training, the proficiency of Void Assassination and Void Concussion has been improved a lot.

And the riot has long since cooled down, and has once again become one of his trump cards.

Everything is going in a good direction and getting stronger.

"I already have a Yuanli pool. According to the introduction of the ancient **** swallowing the sky, I can devour everything in the world and turn it into Yuanli!"

Ye Que performed the first volume of exercises, and opened his mouth to inhale.

The soil, high temperature, and essence that exist here all enter the body.

According to the guidance of the exercises, they finally turned into Yuanli and poured into Yuanli pool together.

"Hahaha! Others want to get Yuanli, they need to absorb the essence of heaven and earth, I absorb all things, and I can get Yuanli!"

He could imagine the scene where he had infinite power.

It's a pity that swallowing everything can only be transformed into Yuanli.

Even if it is the essence veins that are devoured, it has to be transformed into Yuanli in the end, and experience points cannot be obtained.

However, being able to devour everything and obtain Yuanli is enough to satisfy him.

You know, this is the ability to swallow even the enemy's attack.

Of course, if the enemy's attack is too high, he still doesn't dare to swallow it, otherwise he doesn't dare to bear the damage from the attack.

In addition, Ye Que didn't feel it getting stronger when the Yuanli entered the Yuanli Pool.

He knew exactly why.

When others get Yuanli, they can transform their physical bodies, which is the process of becoming stronger.

He obtained Yuanli, but simply stored Yuanli.

Just like the magicians seen in the previous life movies, they need to store mana to be able to cast various spells.

Yuanli is in his body, just like mana.

It's just that what he casts is not spells, but various magical skills, and at the same time it can increase his combat endurance.

Where there is energy, there is combat power!

With infinite energy, there is infinite combat power!

And if he wants to become stronger, he only needs to add experience points to speed, defense and attack.

"Experience points are the most important!"

Ye Que absorbed energy non-stop, increased experience points, and at the same time devoured everything around him, injecting energy into the energy pool.

More than ten hours passed, and it was early morning.

"My Yuanli Pool is like a bottomless pit, it's not full yet."

This is a good thing!

The more Yuanli stored in the Yuanli Pool, the more helpful it will be for him.

"Look at how the experience points have increased."

View panel data.

Speed: 0/100

Defense: 0/100

Attack: 0/100

Experience Points: 16

"The experience point is 16, and it has risen faster than before. It should be related to my opening of the Yuanli Pool and breaking through the upper limit."

Ye Que laughed.

God! I Turned Into a Turtle

Chapter 25: Head-to-head

"There are 16 experience points, use them, and step into Yuanwu Realm as soon as possible."

He had to break through to Yuanwu Realm before Shen Yan Beastmaster came back.

Ye Que won't break his promise if he promises to give the other party a surprise.

"Speed +5, Defense +6, Attack +5."

All of a sudden, these three data changed.

becomes as follows—

Speed: 5/100

Defense: 6/100

Attack: 5/100

Experience points: 0

The strength has become stronger, but it is still a long way from a breakthrough.

Continue to absorb experience points.

It was already daylight.

Experience points go up to 15.

"Speed +5, Defense +4, Attack +5."

The panel value becomes as follows—

Speed: 10/100

Defense: 10/100

Attack: 10/100

Experience points: 0

"Ding! The speed, defense, and attack of the host have all reached more than 10, and you can break through to the first level of Yuanwu Realm! Do you want to break through?"

"breakthrough!"

"Ding! The breakthrough has been successful!"

Ye Que's strength became stronger again.

"According to the usual practice, after breaking through, you will be very hungry. You should eat right away, but I have energy."

As soon as he thought of this, Yuanli Pool gushed out Yuanli, supplemented it into all parts of his body, and restored his physical strength.

This is a typical example of where there is strength, there is combat power.

"With Yuanli, breaking through in the future can save me a lot of trouble."

Boom!

There was a loud noise from above, and the surroundings shook slightly.

"How fierce is this fight!"

Ye Que murmured.

Not long after.

"Map scanning prompt: 1,500 meters above, a second-level Yuanwu realm monster appears!"

"System prompt: A monster at the second level of Yuanwu Realm is approaching quickly, please avoid it!"

The map scanning range has been expanded to 1,500 meters.

At the tenth level of the Monster Beast Realm, the range is only 1,200 meters.

This is an increase of three hundred meters.

"Sun thief, you are finally here! Grandpa wants to give you a surprise!"

Ye Que smiled coldly.

Back then, if he hadn't possessed the God Realm of Returning to Ruins, he would have been killed by Shen Yan Beast King long ago.

This hatred must be avenged!

"Demon Turtle, before I escape today, I will kill you!"

Shen Yan Beastmaster flew down covered in blood, his body was full of evil spirits.

Before fleeing?

It seems that Shenyang Beast Mountain was breached by the Shiyang sect, and Shenyang Beastmaster was defeated and prepared to run away.

It's just that before it escapes, it wants to kill the demon turtle to vent its anger.

Ye Que raised his head and said, "Aren't you afraid that on the way to kill me, it will affect the essence veins and be swallowed by magma?"

"Hmph! Do you think I will leave my veins to those humans after I escape? Even if I am ruined, I won't give it to them! Die to me!"

Shen Yan Beastmaster let out a roar, and his body exuded earth-yellow energy.

At that moment, it was like a huge khaki boulder stained with blood, hitting the demon turtle on its veins.

This action not only wants to kill the opponent, but also smashes the essence into the magma below.

Ye Que's eyes changed drastically, and he was anxious.

"Yellow shit, are you him? Don't mess around!"

He flew up, released his black energy, and enveloped himself.

"Void shock!"

The black energy on the turtle shell fluctuated for a while.

boom!

A light black shock force charged towards Shenyang Beastmaster.

After possessing Yuanli, the skills displayed will also be attached with Yuanli, which is even more powerful.

"What! You actually made a breakthrough!"

Shen Yan Beastmaster was horrified.

But when he saw the pale black Yuan force rushing towards him, he immediately sneered: "Even if you break through, you are only at the first level of Yuan Wujing. This seat is a monster at the second level of Yuan Wujing, and its defense ability is naturally strong! Want to stop my offensive? Dreaming!" !"

Without dodging or dodging, he resisted the pale black force head-on.

However, it feels nothing.

"Hahaha, are you trying to blow me to death with one breath?"

Shen Yan Beastmaster laughed sarcastically.

"Coincidentally! I am also naturally strong in defense, let's see who is stronger!"

Ye Que turned into a mass of black streamer, and in an instant came into contact with the Shenyang Beastmaster who was like a khaki boulder.

He has undergone two phagocytic synthesis evolutions, coupled with multiple upgraded skills, his strength cannot be considered at the same level.

The opponent was seriously injured and his strength declined.

Comparing the two sides, it's really hard to say who wins and who loses.

boom!

The turtle shell collided with the boulder, making a loud and dull sound.

"Ding! Host talent triggers, counterattack!"

Shen Yan Beastmaster's fall was stopped, and a force of counterattack surged out from the turtle shell.

Its wounds were shattered and its injuries aggravated.

"You... ah!"

Shen Yan Beastmaster hadn't finished speaking, a layer of pale black energy fluctuations appeared on his body, and then a violent shock force swept his whole body.

Its wounds widened again, and its injuries aggravated again.

"Ding! Void shock proficiency, increase by 20."

"Demon turtle, how dare you hurt me!"

Shen Yan Beastmaster was afraid.

For the first time, it felt the threat from the demon turtle.

"This guy's growth ability is too strong, we can't let him continue to absorb the essence of the essence!"

The blood-red eyes moved away from the monster tortoise, and fell to the inferior Shenyang Jingmai below.

To destroy!

It must be destroyed!

Can't be absorbed by the demon turtle and those humans!

Ye Que saw Shen Yan's Beast King's thoughts, and said coldly, "I'm going to beat you into a piece of shit! Come on, let's continue to be tough!"

He used Void Assassination, Void Concussion, and Talent Counterattack to block Shenyang Beastmaster.

And Shen Yan Beastmaster, relying on his own hardness and the advantages of high realm, and Ye Que's toughness, kept looking for opportunities to destroy the fine veins.

In this way, a fierce hand-to-hand combat began.

It's just that Shen Yan Beastmaster didn't get any benefit when fighting hand-to-hand.

This monster turtle is not only hard, but also counterattack damage.

Every head-to-head encounter has to suffer a wave of damage.

But if it doesn't attack, it can't do anything to the opponent.

This is the most frustrating!

As for destroying the fine veins, there is almost no chance!

"Let me see how much energy you have!"

Shenyang Beastmaster is a level 2 Yuanwu Realm monster with a huge pool of Yuanli, which stores a lot of Yuanli.

Even if it consumes a lot outside, it is more than enough to deal with monsters of the first level of Yuanwu realm.

"I just happened to see if your second elemental force pool is stronger, or my first elemental force pool is more durable!"

boom! boom! boom!

Melee melee!

The two sides showed their toughness to the fullest!

Ye Que had enough energy, he wasn't tired at all, and he could still use his skills during the battle.

After a long time, Shen Yan Beastmaster was covered with scars, and the blood kept dripping down.

It was completely suppressed by Ye Que!

Realizing this, Shen Yan Beastmaster immediately gave up fighting the monster turtle and forcibly destroyed the Jingmai instead.

"court death!"

Ye Que charged forward with all his strength, strictly blocking Shen Yan Beastmaster's move.

In order to prevent the fine veins from being destroyed, he was ready to launch the riot secret technique.

boom!

Shen Yan Beastmaster was sent flying.

It looked at the demon turtle angrily: "Why do you still have energy?!"

Even if it is hard, the combat ability is still so durable!

Do you want to be so perverted!

How can this Shenyan monster, which is good at defense, live!

Looking at myself again, my energy is quickly exhausted.
