

God! I Turned Into a Turtle

Chapter 28: Activate the third skill

"The thousand-year-old treasure here is useful to me! However, don't let go of the nine-hundred-year-old treasure!"

Ye Que was preparing for a wave of locusts to cross the border, not a single blade of grass could grow.

"Take only one! Take only one!"

The middle-aged man murmured.

"Take it all! Take it all!"

With this in mind, Ye Que flew in another direction, wantonly searching for all the treasures.

Looking at the middle-aged man again, he took two steps in three steps and came to the innermost stone platform.

Picking up the thousand-year-old ginseng on it, he said excitedly, "Go back immediately, refine it and take it!"

As soon as he turned around, he almost suffocated for breathing.

"My dear mother! Where is the treasure!!"

He was so terrified that his voice became hoarse.

As far as the eyes can see, the fifth floor is empty, not a single treasure.

Suddenly, the hand is empty.

looked down.

Fuck!

The thousand-year-old ginseng in my hand is gone!

"who is it?"

No response.

The middle-aged man reacted with horror all over his body.

This is a ghost thing, followed him in.

Suddenly, his face changed drastically: "Not good!"

With a movement, he went straight to the sixth floor.

The sixth floor of Zhenbao Pavilion is the top floor, and it is also the place where the sect's most precious treasures are stored.

As soon as he went up, he was so scared that his face turned pale.

Gone!

All the treasures above are gone!

"Who is stealing the treasures of the Shiyen sect? If you don't want to die, get out!"

Middle-aged people are hysterical.

He is in charge of guarding the Treasure Pavilion, and now that all the treasures inside are gone, he will definitely be executed by the sect.

"The age of the treasures on the sixth floor is basically between 1,100 and 1,300 years. It's a big profit!"

Ye Que walked out from the corner, with unconcealable excitement in his eyes.

"It's you bastard, die for me!"

The middle-aged man unleashed ten layers of momentum and punched him away.

"Ding! Host talent triggers, counterattack!"

boom!

The middle-aged man was sent flying and was seriously injured.

"If you don't want to die, obediently follow me downstairs and open the formation!"

The reason why Ye Que didn't kill him was because the Zhenbao Pavilion was protected by a formation.

If you want to go out, you have to let him open the formation.

"Don't even think about it! Even if I, Zhang Shilin, die, I won't open the formation!"

brush-

A sharp claw cut the surface of his neck, and a trace of blood emerged.

Zhang Shilin's body trembled, and he said in fear: "I will open the formation immediately, don't kill me."

Ye Que put away his paws, and said coldly: "You little brat, wouldn't it be better if it was like this earlier?"

"But you can't take away the treasures here, I will die!"

Zhang Shilin wept miserably.

"You can choose to die immediately!"

Ye Que made the other party shut up with a word.

One person and one demon go downstairs.

"Oh my god! On the first, second, third, fourth, fifth and sixth floors, all the treasures in the entire Zhenbao Pavilion are gone."

Zhang Shilin's legs felt weak, and he almost hiccupped.

"Stop talking nonsense! Open the formation for me and let me go out!"

Ye Que's tone became heavier.

Zhang Shilin smiled miserably, took out the array and checked it a few times, and there was a hole in the array that could be entered and exited.

Suddenly—

"Stay in there for me!"

Zhang Shilin rushed to the opening quickly, and at the same time moved the array plate, and the opening was closed immediately.

After doing all this, looking back, the pupils shrank slightly.

The monster turtle reacted quickly and came out too!

"You can really stay here forever!"

Ye Que had been on guard for a long time. Seeing the other party's abnormal movement, he immediately used the Void Assassination Technique to rush out of the opening in the formation.

"Don't kill me... ah!"

"Ding! The host killed ten heavy wild monsters! Gained 0.5 experience points."

Zhang Shilin didn't even have the ability to resist, so he was killed by Ye Que.

"Get so many treasures, leave here before absorbing them!"

Ye Que threw out the corpse of the young man in Jinyi from the Godland of Returning to the Ruins, and then flew to a remote place.

Came to a remote place and entered the Godland of Guixu.

Looking at the pile of treasures inside, he said excitedly: "Devour all the treasures! I want experience points!"

"Ding! The host takes a thousand-year glass fruit and gains 0.5 experience points."

"Ding! The host takes 1,000-year-old Iron Yinye, and gains 0.5 experience points."

"Ding! The host takes a 1,000-year-old agapanthus plant and gains 0.5 experience points."

"Ding!..."

After a while, the experience point rose to 17.

"Excellent! Keep taking it!"

"Ding! The host takes a thousand-year-old ginseng and gains 0.5 experience points."

"Ding!..."

At this time, the treasures of a thousand years were devoured by him.

Experience points, rose to 26 points.

Ye Que didn't stop talking, and began to devour the 1,100-year-old treasure.

"Ding! The host takes a piece of 1,100-year-old Silver Moon Fruit and gains experience point 1."

"Ding! The host takes a 1,100-year-old Xueshen coupling and gains experience point 1."

"Ding!..."

"Ding! The host needs 30 experience points to break through the realm, so the upper limit of experience points is 30! This time, you can't get experience points!"

"I was excited for a while, I overeat!"

Ye Que felt a little distressed at wasting a 1,100-year-old treasure.

Fortunately, there were many treasures, so he recovered quickly.

Stop taking jumbo, check the panel.

Speed: 11/100

Defense: 12/100

Attack: 10/100

Experience Points: 30

"Speed +10, Defense +10, Attack +10."

He started adding points.

"Ding! The speed, defense, and attack of the host are all above 20, and you can break through to the second level of Yuanwu Realm! Do you want to break through?"

"breakthrough!"

The body became stronger, and the Yuanli pool in the chest expanded again.

"Ding! The breakthrough has been successful!"

Ye Que checks the panel.

Speed: 21/100

Defense: 22/100

Attack: 20/100

Experience points: 0

"I'm now a monster at the second level of Yuanwu Realm!"

He is very excited.

Because at the second level of Yuanwu Realm, the third skill can be activated.

Ideas enter martial arts.

Evolution: Earth Dragon Tortoise (second-level Yuanwu Realm monster with the blood of the Holy Dragon)

Cultivation method: The second volume of the ancient **** swallowing the heavenly scriptures 0/1000 (reaching 100 experience points, and obtaining the qualification for a partial evolution)

Skill 1: Void Assassination 420/1000 (Proficiency increased to 1000, can be upgraded to Void Devour)

Skill 2: Void Shock 345/1000 (proficiency increased to 1000, can be upgraded to Immortal Void Seal)

Skill 3: Biting Suction 0/100 (proficiency increased to 500, can be upgraded to Abyss Suction)

Mystic: Riot (in one minute, all abilities are increased by 50%, cooldown time: three days)

"The proficiency of Void Assassination and Void Concussion has improved a lot. Of course, the most important thing is the third skill, which has been activated!"

Ye Que was extremely excited.

The third skill, Biting Suction.

"Try what type of skill this is!"

He uses it right away.

Immediately, a huge suction force was generated on the tortoise shell covered with bony spurs, sucking the treasure next to it.

Ye Que stopped using his skills.

"Hahahaha! Fight back with my talent, perfect match! Suction the enemy to the turtle shell, and then forcibly trigger the talent to fight back!"

This is simply a skill tailored for him.

"Proficiency must be improved!"

The current bone-piercing suction is the most basic skill, the suction power is too weak, and the threat is not great.

Only by constantly upgrading skills can it generate greater and greater suction.

God! I Turned Into a Turtle

Chapter 29: biting suck

"Take the remaining treasures first!"

Ye Que ate it with his mouth open.

"Ding! The host gets 0.5 experience points by taking one thousand and one hundred year-old Dihua tea."

"Ding! The host takes a piece of 1,100-year-old soft food fruit, and gains 0.5 experience points."

"Ding!..."

Reaching the second level of the Yuanwu Realm, taking the 1,100-year-old treasure, the experience point has dropped.

"Forget the card realm, pay attention next time."

Without thinking too much, I ate it quickly.

I ate part of it before, so I didn't eat much before it was gone.

"The rest are treasures of 1,200 and 1,300 years old, but they are very few!"

Ye Que devoured it again.

"Ding! The host takes 1,200 servings of white borneol, and gains experience point 1."

"Ding! The host takes 1,200-year wine scented flower and gains experience point 1."

"Ding!..."

"Ding! The host takes one thousand and three hundred servings of fire spirit fruit and gains experience point 2."

"Ding! The host takes a 1,300-year-old Polygonatum odoratum and gains 2 experience points."

"Ding!..."

After eating, look at the panel data.

Speed: 21/100

Defense: 22/100

Attack: 20/100

Experience Points: 19

"There are 19 experience points, should I add points for speed, defense and attack, or for skills?"

Ye Que was confused.

Adding points to speed, defense and attack can directly increase strength.

But adding points to the skills can obtain the qualification for a partial evolution, which can also improve the strength and possibly increase the potential value.

In fact, looking at it from another angle, that is, choosing to become stronger in the short term is still a matter of long-term consideration.

Become stronger in the short term, directly adding points to speed, defense and attack.

For long-term consideration, add points to the exercises.

"For the sake of long-term consideration, to make yourself stronger in the future, you must add some exercises!"

Ye Que looked at the problem quite thoroughly.

He experienced atavism.

If it wasn't for the phagocytosis synthesis evolution, how could he have an extra talent of the Earth King God Seal?

How could it be possible to have the blood of the holy dragon and thus return to the ancestors successfully?

All of this is evolution, which has greatly increased his potential, and thus he has what he is today.

"Gongfa plus 19."

Ye Que checks the panel.

Cultivation method: The second volume of the ancient **** swallowing the heavenly scriptures 19/1000 (reach 100 experience points, and get a partial evolution qualification)

"Since adding points to the exercises, you can't give up halfway, otherwise the value of the 19 experience points you just added will be greatly reduced."

He knows how to make choices and sets goals in his heart.

Get more experience points, and fill up 100 experience points for the exercises as soon as possible, so as to obtain the qualification for partial evolution.

"After searching the Zhenbao Pavilion, it's time to find the essence of the Shiyan sect!"

Ye Que smiled coldly.

It has become a monster of the second level of Yuanwu Realm, devoured and synthesized and evolved into an earth dragon tortoise, and its skills have been upgraded many times.

All these things made his strength unable to be compared with those of the same realm.

Now in the Shiyan sect, there are very few who can restrain him.

"Shi Yanfeng, just wait and cry!"

Ye Que jumped out of the God Realm of Returning to the Ruins.

"Map scanning prompt: 1,800 meters to the left, two five-level wild monsters appear!"

"Go and find out the news."

He searched the Zhenbao Pavilion and beheaded many people, which may have caused chaos in the Shiyan sect.

Obtaining information will allow him to regain the initiative.

"Someone took advantage of our sect to attack Shenyan Beast Mountain, searched the Treasure Pavilion, killed the elders who guarded the pavilion, and two unlucky ones also died."

"Stop talking, go back to the room and hide! Those infiltrators haven't been found yet!"

"Yes, yes, yes! Go back quickly! I just went to see Junior Sister Yan!"

"Usually Junior Sister Yan is cold and cold, and she loves to ignore us, but now we're taking her back, let's see if she still dares to ignore us!"

The two youths laughed in a low voice and gradually walked away.

"The Shiyang sect is really in chaos! However, I don't have enough information, so I'll follow the past to find out more."

Ye Que followed, just in time to take these two five-level wild monsters to try out the power of the new skill.

The power of the new skill is too weak, and it is basically useless against practitioners at the Yuanwu realm, but it is very suitable for those with low realms.

Following up all the way, the map scanning reminder kept ringing.

It can be seen what chaos the Shiyang sect has become.

"Map scanning prompt: 1,800 meters ahead, a quadruple wild monster appears!"

Ye Que raised his head in the grass.

There is a house ahead.

The two young men ran into the room.

Ye Que moved and quickly ran into the house.

"Junior Sister Yan, I'm here!"

"Let me go first!"

"Say yes, I'll come first, it was agreed before!"

Ye Que couldn't listen anymore, broke into the door, and directly activated the third skill, Bone Biting Suction.

A suction force was generated from the turtle shell covered with bony spurs.

The young man who had just taken off his pants was caught off guard, pulled by the suction force, and collided with the turtle shell.

It's just that because the tortoise's shell is not big, when the young man bumped into it, only the crotch touched the tortoise's shell.

"Ding! Host talent triggers, counterattack!"

Just as the young man was about to scream, he was struck dead by Ye Que's counterattack.

"You... who are you!"

Another young man said with a pale face, his body couldn't stop falling backwards.

Ye Que smiled sinisterly: "I'm your ancestor of the turtle! Grandson of the turtle, where is the essence of the Shiyan sect, tell me!"

As he spoke, murderous intent appeared in his eyes.

"Otherwise, I will make your death worse!"

The power of Biting Suction is good, but it's a pity that it can't brush out the proficiency.

It seems that this is the same as earning experience points.

Proficiency can only be obtained by using this skill for those whose strength is similar to their own.

"I do not know I do not know!"

The young man shook his head frantically, his body trembling with fear.

"Then tell me, where is Shi Buyu?"

Ye Que asked another question.

Shi Buyu is a big shot in the Shiyan sect, and he definitely knows where the essence is.

"In...in the ground fire training room!"

"Where is the ground fire training room?"

"In the training ground tower in the north, let me go, I won't tell others! As long as you can let me go!"

The young man ran to the window against the wall.

"Come back to me!"

Ye Que used the bone-piercing suction to **** this person onto the turtle shell.

A wave of anti-injury, direct suppression and killing.

"Earth fire training room."

Ye Que memorized the place name, and immediately turned to leave without looking at the terrified girl tied to the bed.

With a map scan, head straight north.

"It turns out that this is the cultivation ground tower."

He flew to a tree and looked forward.

There is an upside-down ground tower in front of it, which goes straight into the ground.

It may be that the Treasure Pavilion was stolen and the sect's elders were killed, which attracted everyone's attention.

There was no one in the tower and its surroundings.

"Just to save a lot of trouble, Shi Buyu, I'm here to find you!"

Ye Que smiled coldly, and flew into the cultivation tower.

He went all the way down.

After a while, the system prompt sounded.

"Map scanning prompt: 1,800 meters below, a wild monster of the first level of Yuanwu Realm appears!"

"The Shiyan sect only has the realm of Shi Buyu, at the first level of the Yuanwu realm! Hehehe, Shi Buyu, I, Ye Que, are here to find you!"

God! I Turned Into a Turtle

Chapter 29: biting suck

"Take the remaining treasures first!"

Ye Que ate it with his mouth open.

"Ding! The host gets 0.5 experience points by taking one thousand and one hundred year-old Dihu tea."

"Ding! The host takes a piece of 1,100-year-old soft food fruit, and gains 0.5 experience points."

"Ding!..."
