

GOD! I TURNED INTO A TURTLE

Chapter 3 – Big Black Mouse?

Ye Que looked at his body again.

intact!

The injuries he suffered before were all healed during the breakthrough.

Moreover, the limbs and beak became sharper.

When he was excited to check the data on the panel, he felt dizzy again.

“Not good! I was very hungry before, and I only ate a piece of meat. Now that I have broken through, I am even hungrier!”

He quickly climbed forward and gnawed on the python’s wound.

He devoured the flesh and blood with big mouthfuls.

Gradually, satiety appears and physical strength rises.

“Take another bite, and leave after eating!”

“Map scanning prompt: Three hundred meters behind, a triple monster appears!”

brush-

Ye Que ran away.

Having seen the power of triple monsters, he no longer dared to dawdle.

He ran away in a hurry, and didn’t stop until the map scanning prompt disappeared.

Fortunately, the speed is not what it used to be, otherwise it may not be possible to escape.

Hiding under a pile of broken stones, the idea entered his mind and checked the panel.

Host: Ye Que

Realm: 1/10 (Monster beast of the first level, after reaching the tenth level, get the qualification to return to the ancestor once)

Evolution: Wild Forest Turtle (Level 1 Monster Beast with Keen Hearing)

Talent: Counterattack (when attacked, return 50% of the attacker's damage)

Speed: 1/10

Defense: 1.7/10

Attack: 1/10

Experience points: 0

Martial arts: open at the second level

“Ancestral qualification, let me think about it, the ancestor of the turtle monster, Xuanwu? Bixi?”

This is a different world, perhaps the ancestors of turtle monsters would be even more terrifying and mysterious.

Don't jump to conclusions.

However, whatever the ancestor.

Anyway, I have the qualification to return to my ancestors once, so I will know if I return once.

“Martial arts will be opened at the second level! Could it be the monster clan skills!”

Ye Que was excited.

Mastering martial arts is tantamount to having one more means to save one's life.

“Map scanning prompt: 300 meters ahead, two 1st level wild monsters were found!”

Ye Que was surprised, wild monster?

“The 100-year-old ginseng is just under the gravel pile. I noticed it half a year ago.”

“Brother is loyal enough, as long as we sell this century-old ginseng, we will have money to buy that bottle of top poison!”

“Xue Lingluo was born beautiful, she poisoned her parents to death, not only Xue Lingluo is ours, even the Xue family is ours!”

“I haven't played such a good game yet, I can't wait!”

With Ye Que's keen sense of hearing, he heard the excited conversations of human beings.

“It turns out that wild monsters are human beings, that’s right, I’m a monster now, and human beings are wild monsters to me!”

A cold light flashed in his eyes.

These two are vicious enough!

He actually wanted to kill his parents, take his daughter away, and occupy his family!

“Bah! They are really two wild monsters, your ginseng, grandpa accepted it with a smile!”

He is now under the pile of rubble.

Two claws were digging, and after a while, a ginseng appeared in front of him.

There really are.

“After eating, will it make me evolve? Or add experience points? Or trigger a mission?”

Without thinking too much, I just opened my mouth and ate.

Anyway, you can’t take advantage of those two beasts.

Became a level 1 monster and evolved once, his bite force is very strong.

After a while, I finished eating the ginseng.

“Ding! The host takes a century-old ginseng! Gain experience point 1.”

Ye Que was overjoyed, it really worked for him.

That’s experience point 1.

Killing a level 1 demon beast Timberwolves before only gained 0.5 experience points.

To get experience point 1, he estimated that he would have to kill a double monster to get it.

That’s simply not something he can do now.

“It’s a big profit!”

He immediately added points to his speed, defense, and attack.

Open the panel first.

The current data are as follows.

Speed: 1/10

Defense: 1.7/10

Attack: 1/10

Experience points: 1

Martial arts: open at the second level

After weighing it, make a decision.

“Speed increases by 0.5, defense increases by 0.3, and attack increases by 0.2.”

Turtle monsters cannot lose their advantages.

He never forgot this.

Therefore, speed and defense are still the main plus options.

Of course, Ye Que, who had suffered a lot, didn't dare to ignore the attack, so he also added some experience points.

Looking at the panel again, the data has changed.

Speed: 1.5/10

Defense: 2/10

Attack: 1.2/10

Experience points: 0

Martial arts: open at the second level

“The defense reaches the second level, the speed is considered outstanding in the first level, and the attack can threaten those who are in the same level!”

Ye Que chuckled.

Eating ginseng gained experience points and broadened his thinking.

If we can't offend high-level monsters, let's find treasures to eat, anyway, we can gain experience points after eating.

Well, focus on improving defense and speed.

Even if you encounter monsters of the same realm, or even monsters of a slightly higher realm, you are not afraid.

Anyway, the skin is rough and fleshy, durable, and it can also trigger counterattack talents.

At that time, you will not be able to fight, chase away, or even chase.

There are footsteps approaching.

“The two wild monsters have arrived.”

Ye Que didn't wait for long, he moved his limbs, brushed the ground and slipped out.

“Did a **** mouse slip past just now?”

“No, look at the ginseng!”

The two kicked away the pile of rubble, and what they saw was a pit with a few ginseng roots beside it.

“Ginseng was eaten by that **** mouse!”

“Eat bear heart and leopard gall, even dare to eat my cock's ginseng, chase it! Kill it!”

“It should have just eaten the ginseng, there is still in the stomach, if it is cut open, it can save a little bit!”

“Map scanning prompt: 300 meters ahead, we found a double monster!”

“If you want to cut me open, I won't kill you all!”

With one paw, Ye Que slapped a stone away, then made a sharp turn and circled in another direction.

The stone flew very far, and hit the ground with a slap, attracting the wandering double monster.

Coincidentally, those two had just caught up.

“It's the double monster black-backed bear!”

“run!”

The two were so frightened that their souls trembled, they turned around and fled.

Roar!

A bloodthirsty light appeared in the eyes of the black-backed bear, and with a roar, it chased after it.

“What a dick?”

Ye Que climbed onto a broken log, and when he heard the screams fading away, he smiled coldly.

“It's important to improve your strength, go find the treasure.”

Turn around and crawl into the depths of the monster forest.

In the depths of the monster forest, powerful monsters live, which is very dangerous, but it also brings many opportunities.

Ye Que dared to go because he has a map scanning function, which can detect danger in advance.

Therefore, there is not much psychological pressure.

“The map scan prompts that a triple monster and two normal monsters were found 300 meters ahead.”

Ye Que turned around and ran away.

“The map scan prompts that a double monster appears 300 meters behind.”

Fuck!

He braked sharply and ran to the left.

Before he ran out of the range indicated by the map scan, two beast roars came clearly.

“Wait! Could it be that two monsters are fighting?”

Ye Que’s heart skipped a beat.

boom! boom!

There are fighting sounds!

The two monsters really fought.

“Go over and have a look, if there is a chance to make a move, I can get rich!”
