

The cultivation ground tower has six floors, and the area of each floor is different.

The further down, the smaller the area, but the greater the danger.

"If you want to enter the third floor, you only need to reach the sixth level of the Spiritual Martial Realm."

"That's right! Only a warrior of the sixth level can withstand the strong wind of earth flames on the third floor."

"The fourth floor requires eighth-level warriors to enter, the fifth floor requires tenth-level warriors, and the final sixth floor requires reaching Yuan Wujing to enter!"

On the second floor, two sect disciples who walked out of the practice room kept discussing.

Ye Que flew by and didn't disturb them.

"The third floor is blocked by the Earth Flame Gale, what about the fourth, fifth, and sixth floors?"

Thinking in my heart, the speed did not slow down.

Quickly fly to the third layer deeper underground.

Find the entrance and exit, drilled in.

call-

High temperatures accompanied by strong winds covered every corner of the third floor.

"It turns out that this is the earth-flaming gust. The wind has high temperature and contains fire poison! But it still can't affect me."

Ye Que continued down.

Enter the fourth floor.

boom-

The earth-flaming gust, which was hundreds of times more violent, carried flames and blew across the fourth floor.

But it still had no effect on Ye Que.

Go straight to the fifth floor.

rumbling—

The sky was full of flames, filling the fifth floor, and the strong wind howled inside, swimming like fire dragons.

Ye Que felt the pressure, but it was within the tolerance range.

"The further you go down, the stronger the power of the Earth Flame Gust! The Earth Flame Gust on the sixth floor cannot be underestimated!"

There is caution in his eyes.

Came to the entrance and jumped down.

Boom! Boom! Boom!

Groups of flames, like the flames of hell, constantly hit every place on the sixth floor.

The flame contained terrible high temperature and fire poison.

As soon as Ye Que entered, he wrapped his body with Yuanli to isolate him from the erosion of the flames.

"The area here is not big, so it's easy to find Shi Buyu."

He kept flying and searching on the sixth floor.

Suddenly, in the flame at the center of the sixth floor, Shi Buyu wearing a black robe was found.

This guy covered his whole body with elemental energy and sat cross-legged on a stone in the flames.

"Huh? Who is it?"

Feeling the strange force, Shi Buyu turned his head and drank sharply.

"You turtle grandfather!"

Ye Que is not polite, meeting is a chain skill.

Void Assassination Technique!

Void vibration!

Talent strikes back!

Biting suck!

"You have reached the second level of Yuanwu Realm, it's impossible!"

Shi Buyu was seriously injured.

This monster turtle is too disgusting.

Hitting it will counter damage.

If you don't hit it, you will be hit by it again.

Can only run!

"How can you say it's impossible for something you've personally experienced?"

Ye Que chased after him.

Shi Buyu collapsed.

Even if you run, you can't run away from the opponent.

"What do you want to spare my life?"

"Tell me, where is the Jingmai?"

"Are you sure you can let me go?"

"cannot!"

"Get out! Even if I die, I won't tell you!"

"I guess it's below the sixth floor!"

Ye Que smelled the essence.

Just when Shi Buyu got up from the center of the sixth floor, energy oozed out from the center.

Therefore, he roughly guessed the location of the Jingmai.

Shi Buyu's face changed, knowing that he could not escape the opponent's claws, he said grimly: "Do you think you can do whatever you want by becoming a monster of the second level of Yuanwu Realm?"

Ye Que sneered: "Tell you, I really can do whatever I want!"

"The Shiyuan sect has star-rated weapons, which can seriously injure a second-level Yuanwu realm warrior with a single blow, not to mention the power of the formations in our sect."

Shi Buyu shouted angrily.

"That has nothing to do with you dying now!"

Ye Que wants to deal with Shi Buyu.

He didn't believe the other party's words, if the Shiyuan sect really had star weapons, why didn't they take them out earlier to deal with Shen Yan Beastmaster?

"If you can let me go, I can take you away from these threats and escape from the Shiyuan sect."

Shi Buyu was terrified in his heart, and hurried to speak out, fighting for a chance of life for himself.

"You snatched my veins. I came here to take back my veins. Do you think I will be afraid? Will I run away?"

Ye Que laughed loudly and used all his skills to kill Shi Buyu.

"Ding! The host kills wild monsters in the first level of the Yuanwu realm! Gain 0.5 experience points."

"I just need to go out after I become stronger!"

As long as he gets the essence and becomes stronger, it is only a matter of time.

At that time, what else could threaten him?

Fly to the center of the sixth floor.

There is an entrance and exit here, but it is blocked by a stone containing Yuanli.

Essence is oozing out from the cracks in the stone.

He opened his mouth and took a breath to cheer him up.

"Below, there should be another layer!"

The cultivation tower is not six floors, but seven floors.

"Go down and have a look."

Ye Que knocked the boulder into the air.

Boom! !

A terrifying gale, carrying scorching flames, surged out from the entrance and exit.

At the same time, the rich spirit also came out.

Ye Que's eyes lit up, his spirit energy was so strong, there was probably a spirit vein underneath.

"It's so violent! The wind and flames contained in it, practitioners below Yuanwu Realm, will die if they touch it!"

He was not afraid, and flew directly in and out of the entrance.

Just reached the seventh floor—

"Map scanning prompt: 1,800 meters ahead, a small sinking rock vein appears!"

"Hahahaha, the essence veins are really inside... not good!"

Ye Que's eyes changed drastically.

The wind was so strong that his whole body was aching, as if countless knives were scraping his whole body.

At the same time, the rich fire poison, wrapped in flames, continuously invaded his whole body.

"Activate the Divine Seal of the Earth King!"

Ye Que landed on all fours.

"The host activates the seal of the earth king!"

The limbs receive the power of the earth, and a light yellow light emerges from the whole body, as stable as an immortal mountain.

The strong wind and flames could no longer shake him.

This is the strength of the Divine Seal of the Earth King.

As long as you touch the earth, you can absorb the power of the earth and make yourself as stable as a mountain.

Let the sky fall, let the earth fall, and you can't shake yourself in the slightest.

Of course, the Land King God Seal also has shortcomings.

That is, once the body is completely off the ground, it cannot be used.

This is why Ye Que didn't use the Earth King's Seal when he faced the enemy before.

Surrounded by the power of Yuan and the power of the earth, he is no longer affected by the strong wind of the earth's flames.

With a movement of limbs, he crawled forward steadily.

"What a strong spirit!"

Ye Que licked his lips, crawling faster.

Boom! !

Boom! !

The gale of earth flames was hitting him, but the impact on him was almost zero.

"If another second-level Yuanwu realm warrior comes in, let alone advance, it will be very difficult to persist in it for a while."

Thanks to the seal of the Earth King, he can come and go freely inside.

After a while, a 100-meter-long fire vein appeared in the flames ahead.

"Shi Yanfeng, you stole my veins, I'm going to drain your sect's veins today! I'll let you know what the price will be if you offend me!"

Ye Que crawled to the side of the Jingmai, and gently touched it.

"Ding! I found a large amount of low-grade Shenyan essence, do you want to absorb it?"

"absorb!"

"Ding! Absorb the essence of the low-grade Shen Yan..."
