

GOD! I TURNED INTO A TURTLE

Chapter 5 – Have Skills

Ye Que didn't panic, he opened his mouth to eat.

Breakthrough consumes a lot of energy, and a strong sense of hunger will strike right away.

So eat some meat first to replenish your strength.

After he felt full, he checked the panel with confidence.

Evolution: Wild Forest Turtle (Double Monster Beast with Keen Hearing)

Skills: None

Skill: Assault 0/100 (Proficiency increased to 100, can be upgraded to Shadow Assault)

Mystery: Opened at the triple realm

"Where is the move of the second day and second time? Forget it, the system has its own skills, which should be very powerful, and the key can be upgraded!"

It is very rare for low-level monsters to possess skills.

Especially the turtles among low-level monsters.

Turtle's attack is already weak, but he got an active attack skill, which can be upgraded.

Enough!

“Go try out my new skill!”

Ye Que was very enthusiastic about this.

As soon as his body moved, he went to find other monsters.

“Map scanning prompt: 400 meters ahead, a level one monster appears!”

“The higher the realm, the larger the range of map scanning, which is cool!”

After a while, he found the first-level monster.

It is a black spider, one meter in size.

Ye Que rushed up without fear.

hiss-

The black spider is angry.

A palm-sized tortoise dared to provoke it, and became impatient.

The foreleg poked up.

“Activate skills, attack and kill!”

Ye Que flashed strangely.

brush-

His claws had cut through the black spider's abdomen and landed firmly on the ground behind.

The black spider screamed and fell to the ground dead.

“Ding! The host killed a monster black forest spider! Gained 0.5 experience points.”

“Ding! Raid proficiency, increase by 10.”

“Although relying on the superiority of the realm, you can perfectly display the attack and killing skills, but I like this!”

What Ye Que wants is to hang on, hold on, and grab fat at critical moments.

In addition, never do meaningless risky things.

“Save the experience points first, and then find a few first-level monsters to practice!”

The palm-sized wild forest turtle began to hunt outside the monster forest.

“Map scanning prompt: 400 meters ahead, two first-level monsters appear!”

“Assault!”

“Ding! The host kills the first-level monster Black Forest Bee! Gain 0.5 experience points.”

“Ding! Raid proficiency, increase by 10.”

“Ding! The host kills a monster wild boar! Gain 0.5 experience points.”

“Ding! Raid proficiency, increase by 10.”

“Map scanning prompt: 400 meters ahead, a double monster appears!”

“Do you want to kill this double monster? Do it! Anyway, my turtle shell is hard!”

“Ding! The host has gained 1 experience point for killing the double monster Earthhorn Beast.”

...

afternoon.

Ye Que walked out from the periphery of the Monster Beast Forest and got into a crevice in a stone wall.

“Killing a double-level monster is comparable to another double-level monster, and the third one can’t beat it!”

He was not disappointed.

In the same realm, turtle monsters are inherently weak in terms of attack ability.

Possess the ability to attack and kill, can kill one, equalize one, and escape from the mouth of the other safely.

Already a good record.

Moreover, in the battle, he has used the attack and kill skills many times, and his proficiency has risen to a high level.

“My harvest is good. I killed four first-level monsters and gained 2 experience points.”

In addition, one experience point obtained by beheading a double monster of the same realm.

He currently has 3 experience points.

Now open the panel to view.

Speed: 2/10

Defense: 2.2/10

Attack: 2/10

Experience Points: 3

Martial Arts: Enabled

“Speed +1, Defense +1, Attack +1.”

The panel data is refreshed immediately.

Speed: 3/10

Defense: 3.2/10

Attack: 3/10

Experience points: 0

Martial Arts: Enabled

“Ding! The speed, defense, and attack of the host are all above 3, and you can break through to the triple realm! Do you want to break through?”

“breakthrough!”

The whole body is changing.

Ye Que enjoyed this part very much.

“Ding! The breakthrough has been successful!”

After the breakthrough, hunger followed.

He was already prepared.

Jumping out of the gap in the stone wall, he found the meat placed in the bushes without running far.

Feast on it.

With a sense of satiety, thoughts enter the panel.

Host: Ye Que

Realm: 3/10 (Triple Monster Beast, after reaching the tenth level, get the qualification to return to the ancestor once)

Evolution: Wild Forest Turtle (triple monster with keen sense of hearing)

Talent: Counterattack (when attacked, return 50% of the attacker's damage)

Speed: 3/10

Defense: 3.2/10

Attack: 3/10

Experience points: 0

Martial Arts: Enabled.

The martial arts on the panel flickered again.

The mind clicks on martial arts.

Evolution: Wild Forest Turtle (triple monster with keen sense of hearing)

Skills: None

Skill 1: Assault 90/100 (Proficiency increased to 100, can be upgraded to Shadow Assault)

Skill 2: Enabled at the quadruple realm

Mystic: Riot (in one minute, all abilities are increased by 50%, cooldown time: three days)

“When you get out, upgrade the attack to a shadow attack!”

“Instead of this riot, all abilities are increased by 50%. It is a life-saving skill, but the cooldown time is three days, so use it with caution!”

“Raise the realm as soon as possible, and reach the fourth level of monsters, and then you can unlock the second skill!”

Ye Que rushed into the dense forest.

“Map scanning prompt: 500 meters ahead, a level one monster appears!”

“Five hundred meters! Even if four or five monsters appear, I can escape safely in advance!”

Quickly found the first level monster.

Easy to kill.

“Ding! The host killed a level 1 monster blood rabbit!”

“Ding! Raid proficiency, increase by 5.”

“What about my experience?”

After a while, Ye Que realized that his realm had reached the third level, and he would not be able to gain experience points by killing a monster at the first level.

You can only get less proficiency.

“What about killing the double monster?”

He immediately went to find the double monster.

“Ding! The host killed the double monster black-backed bear! Gained 0.5 experience points.”

“Ding! Raid proficiency, increase by 10.”

“Ding! Assault proficiency has reached 100, and it has been upgraded to Shadow Assault.”

“0.5 is not bad. With my current strength, I can still kill the second-level monsters! Although it is a bit laborious!”

Ye Que cheered up again.

Suddenly, he thought of something.

“By the way, if I take 100-year-old ginseng, a treasure of the same level, can I still get experience points?”

“Map scanning prompt: 500 meters behind, a double wild monster appears.”

“Hey, isn’t this the dick, his strength has become stronger.”

Ye Que ran over to take a look, and smiled in surprise.

“Yesterday, if it wasn’t for that **** mouse, the two of us wouldn’t have been hunted down by the black-backed bear. Now I’m the only one who survived, hey!”

Grandpa Diao knelt in front of the fire pit and put the paper money into the fire pit.

Seeing that his face was full of sadness, but he couldn’t squeeze tears for a long time, Ye Que couldn’t stand it anymore.
