

God level 1181

Chapter 1181

At this moment, Prince Xishen and others are only tens of billions of miles apart from the phantom clone. They can sense each other with their spiritual consciousness, and they can meet each other in just a moment.....

But the phantom clone and others did not move, waiting for them to arrive at the entrance of the mysterious valley...

At the same time, Xuanwu Holy Land, in the east.

Old Man Yuexia, Dimang Witch Ancestor and others were looking to the west.

The news of the previous battle alarmed them again

"Fellow Daoist Di Mang, this is the third time, the battles over there are very frequent!"

"It seems that Qin Mu is dead and many forces are vying for the spoils....."

Di Mang and the two thought arrogantly.

At this time, the old man Yuexia looked to the south of the holy realm again and muttered: "Counting the time, Xi'er and the others should have caught up with Qin Lei. Why has there been no movement for a long time?"

Di Mang smiled slightly: "I must be chasing Qin Lei quickly. Up. Fellow Taoist, you don't have to worry. With the strength of Xi Shen's nephew, plus Zhentian, and the twenty-six great witches from our Great Witch Heaven Realm, it will be easy to kill Qin Lei and others."

At this time, Liugen Ancestor He urged: "You two, hurry up and find Qin Feng! The place where the boy disappeared is not far ahead."

"Exactly! However, that kid can never run away!", Old Man Yuexia looked confident.

Ancestor Dimang Witch couldn't help but asked:"How do you say this?"

Old man Yuexia said self-righteously:"If what I guess is correct, that kid is still staying where he is. He just used secret techniques to cover his aura so that we can't sense it."

"As we all know, many secret techniques for masking the breath can only work when one is still. As long as you move, the effect will be greatly reduced, or even directly exposed"

"With that little thief's ability, he would never be able to move and cover his aura at the same time, unless he had the strength of the Holy Ancestor.

Di Mang laughed:"Haha!" How could that little thief have the strength of the Holy Ancestor? However, what Fellow Taoist said makes sense, let's go and find him out now!"

"Ha ha!! Let's go!"

At this moment, a group of people laughed and moved forward, with the mentality of a cat playing with a mouse.

In their view, Qin Feng was destined to not escape their grasp.

These self-righteous guys did not know that Qin Feng had long been In the distant west of the Holy Land, we are getting farther and farther away from them...

At this moment, the battlefield in the west of the Holy Land has been razed to the ground, and the air is filled with a strong smell of blood.

Just for a moment, Qin Feng has finished cleaning the battlefield and started counting the loot.....

It didn't take long for him to finish counting, and his face showed joy.

The harvest this time was also very good.

He obtained two more seeds of the spiritual roots of heaven and earth.

In this way, he got a total of six spiritual root seeds, and he can cultivate six quasi-saint ancestor-level subordinates in the future.

Among the forces that can have more than six quasi-saint ancestors, apart from the Hunji Heaven Realm, there are only three major forces outside the territory. This is a super force among super forces!

In the future, the League of Gods will also become such a terrifying force.

In addition, he also received the energy of the early stage of the Second Group of Quasi-Saint Ancestors, as well as the energy of more than a dozen heavenly saints.

The energy of those dozen heavenly saints is equivalent to the energy of half a quasi-saint ancestor in his early stages.

At this point, Qin Feng's accumulated energy to kill those people was equivalent to the initial energy of the Eight Regiments of Quasi-Saint Ancestors.

If all of these are refined, his combat power will greatly increase.

In addition, the Seal of the Dragon Spirit Heaven Realm also fell into his hands.

In other words, of the Nine Heavens and Ten Realms, six of these nineteen heavenly realms (realms) will be controlled by him.

This will also be of endless use in the future.

And by killing these early-stage quasi-saint ancestors, Qin Feng also obtained several cauldron-level holy weapons.

It is difficult to identify the owner of a sacred vessel, and he can only destroy it in the future and blend it into his own sacred vessel to improve the quality of the sacred vessel.

In addition, he also collected more than 10,000 drops of Nine Heavens Jade Dew from Huanglong Patriarch and others.

At this point, he has accumulated 30,000 drops of Nine Heavens Jade Dew, which is enough for him to complete the condensation of the Vermillion Bird Divine Mark.

Of course, these 30,000 drops of Nine Heavens Jade Dew are still a drop in the bucket and far from enough for Qin Feng's future needs.

Not only does he need a large amount of jade dew to condense the white tiger divine pattern and the blue dragon divine pattern, but he also needs to cultivate spiritual roots for Hongjun and others. Even millions of drops are not enough... Fortunately, this is a holy land, hidden Various opportunities and resources, including Jiutian Jade Dew.

With the Queen Mother of the West leading the way, he still hopes to obtain a large amount of jade dew...

Thinking of the opportunity here, Qin Feng speeded up the inventory of the spoils.

He must hurry up to help the phantom clone, kill Prince Xishen and others, and then enter the mysterious valley to get the opportunity.....

At the same time, Xuanwu Holy Land, in the south, is at the entrance to the mysterious valley.

The phantom clone and others have been surrounded by Prince Xishen and his party.

At this moment, the two sides were confronting each other, and the atmosphere in the field was very tense. Even the air seemed to be taut with a long string, as if everything was about to break out.....

"Qin Lei, I'm afraid you didn't expect this day, right?"

Prince Xi Shen's face was ferocious, and he was a little proud, as if he controlled everything in the field.

The shadow clone frowned slightly:"Xi Shen, what do you mean?!"

"what for?!", Prince Xi Shen sneered,"You idiot! Can't you see my intention?! I will naturally destroy you!"

"Qin Feng killed my sister, I will kill you today! I want little thief Qin Feng to experience the pain of losing a loved one!"

As soon as these words were said, Shenmeng and others were furious.

"Xishen dog thief! You dare to touch my uncle!"

Hongjun pointed at the nose of Prince Xi Shen and cursed loudly.

The shadow clone also sneered:"Xi Shen, I remind you! If you kill someone in this holy territory, you will be deducted points. If the score becomes negative, you will be eliminated and you will lose the qualification for the next assessment!"

The phantom clone naturally said this on purpose.

His purpose was for Prince Xishen and others to attack first.

Only by doing this, he would not be deducted points if he counterattacked.

Those points are very precious.

But those When Prince Xishen and others heard what he said, they thought that the shadow clone was afraid and threatened them with points deductions.....

"Ha ha!!"

Prince Xishen and others seemed to have heard the big joke and burst into laughter.

"Ha ha!! it's so funny!! Qin Lei! Qin Lei! You are as stupid as a pig! If I was afraid of being deducted points, I would not come here. What's more, I can afford a mere cent!"

"Yeah? I think you guys are just tough-talking! Are you going to give it a try?!"

"Ha ha!! Do you really think I am joking with you?! Everyone, take action!"

As soon as he finished speaking, Prince Xi Shen pounced directly on the phantom clone.

Saint Ancestor Guixu followed closely behind.

At the same time, the twenty-six great witches were divided into twelve people, one-on-one, and pounced on Hong Jun and others.

They wanted to stop Hongjun and others from going to the rescue.

The remaining fourteen great witches also pounced on the phantom clone.....

This is the plan they discussed.

They must concentrate their efforts to destroy the phantom clone first...

Boom~Long~Long!

Suddenly, the wind and thunder roared, and the heaven and earth roared!

The sixteen people of Prince Xi Shen joined forces with such overwhelming momentum that they covered the sky and the earth, making the sun, heaven and earth eclipse.....

That combined attack frighteningly reached the level of the late-stage quasi-saint ancestor.....

"His Majesty!"

Ziwei Star Master and others yelled in fear, feeling anxious.

They didn't know how far Qin Feng's strength had grown, and naturally they didn't know the strength of the phantom clone...

At this moment, Ziwei and others wanted to help. The phantom clone was stopped by twelve heavenly saints and great witches who rushed towards them.....

"Ha ha!! Qin Lei! go to hell!"

Prince Xi Shen laughed wildly with pride.

Boom~Long~Long!

The devastating attack fell!

But at this critical moment, a smile appeared on the corner of Xuying's mouth. What he wanted was such an opportunity to fight back.....

"Just in time!"

Boom~Long~Long!

The phantom clone pushed out with one palm, and the big white hand turned into a jade palm that reached the sky. Suddenly the color of the sky and the earth changed, and the sun and the moon became dim...

40 million combat power!

Three hundred multipliers!

In this moment It exploded completely in an instant!

Boom~Long~Long!

Ka~Ka~Ka!

That palm was waved away, and the void collapsed and shattered inch by inch. The power suddenly reached the threshold of the pinnacle of the Quasi-Saint Ancestor.....

In the blink of an eye, the attacks from both sides collided!

Bang~!

There was a loud crashing sound!

It's like the world is destroyed and the avenue collapses~!

Wow~! Wow~! Wow~!.....

Then there were more than a dozen screams, and Prince Xishen and others all vomited blood and flew out.....

This scene immediately made everyone in the Divine Alliance and the twelve Heavenly Saints look dumbfounded.....

Immediately, the faces of Ziwei and others showed expressions of ecstasy...

Your Majesty must be too surprised. With just one clone, he has reached the threshold of the pinnacle of the Quasi-Saint Ancestor.....

What kind of strength has the original body achieved?

It's unimaginable!..

Chapter 1182

Bang~! Bang~! boom~!.....

A dozen falling sounds!

Prince Xishen and others fell heavily to the ground, causing the ground to shake and dust to fly.....

"Wow~! "

Prince Xi Shen vomited several mouthfuls of blood before he regained consciousness.

Immediately, he raised his head in horror and looked at the phantom clone in disbelief

"impossible! This is impossible! How could your strength reach such a terrifying level?!"

The Saint Ancestor of Guixu was also completely dumbfounded. His eyes looking at the shadow clone were full of fear.

"Noisy!"

The virtual shadow clone sneered and was about to take action.....

The face of Prince Xishen changed greatly, and he instantly sacrificed the sacred artifacts, the Book of Life and Death and the Judge's Pen...

The Saint Ancestor of Guixu also sacrificed his own sacred artifact - the

Eight Directions Sky Scroll! At the same time, the twenty-six Heavenly Saints and Great Witches also sacrificed They all offered their own magic weapons, but none of them were holy weapons.

After all, holy weapons are rare, not everyone has them, and most heavenly saints still don't have them.

In short, at this moment, they did not dare to hide their secrets, and they all took out their trump cards and tried their best.....

"Do it!"

Hongjun roared, and directly sacrificed the accompanying sacred weapon - Chaos Bead...

Hongyun sacrificed the accompanying sacred weapon - Jiujiu Hongyun Soul Gourd...

Chu Chu sacrificed the matching sacred weapon - Xuanwu Divine Armor and Xuanwu Long. Spear...

Pan Zu sacrificed the sacred weapon - Sky-Opening Ax...

Qin Baobao sacrificed the sacred weapon - Red Hydrangea...

Feng Di sacrificed the sacred weapon - Jiangshan Sheji Map...

Minghe sacrificed the sacred weapon - Endless Blood Sea...

Buzz~! Buzz~! Buzz~!

The light of the holy weapons soars into the sky! The combination of humans and weapons is activated! The strength of the Heavenly Saints on the side of the Divine Alliance has increased dramatically...

The twenty-six Heavenly Saints The great witches were all dumbfounded.

They were also Heavenly Saints, and none of the twenty-six of them had sacred weapons, but among the twelve Heavenly Saints from the Divine Alliance, more than half of them owned holy weapons.

This gap is too exaggerated!

Prince Xishen He Guixu Saint Ancestor was also dumbfounded...

However, the two reacted very quickly.

At this desperate moment, there was no room for them to be distracted.

Especially Prince Xi Shen, who reacted the fastest!

Buzz~! Buzz~!

In the blink of an eye, Xi The God Prince activated the Book of Life and Death and the Judge's Pen, and his strength also skyrocketed.....

"Qin Lei little thief! Go to hell!!!"

As soon as he finished speaking, the tip of the judge's pen lit up with a miserable green light, and it was extremely eerie...

Swish~! Swish~! Swish~!

I saw Prince Xishen writing in the book of life and death with a large stroke of his pen. Two words as black as ink - 'Qin Lei'.

Buzz~! Buzz~!

As soon as the name was written, every word glowed green, which was particularly dazzling.....

Prince Xishen launched his strongest attack.

The judge of life and death, murder is invisible!

As the saying goes: One book can control life, one stroke can determine life and death!

When he was at the peak of Tiansheng, he used this move to kill Wu Gang, the early quasi-sage ancestor, in his previous life.....

Now that he is in the mid-stage of Quasi-Saint Ancestor, this move is dozens of times more powerful.

He believes that he should be able to severely damage the phantom clone. This is the only way he can stand up.....

With this in mind, he waved his judge's pen and drew a big red cross on the name of 'Qin Lei'.....

Buzz~!

The big fork lit up with a dazzling red light, like blood soaring into the sky!

For a moment, the names on the book of life and death resonated with the soul of the shadow clone simultaneously.....

At the same time, Saint Ancestor Guixu led fourteen Heavenly Saints and Great Witches, and also launched the strongest attack on the phantom clone.....

This is their last chance to fight back!

On the other side, the twelve Heavenly Saints and Great Witches also attacked the twelve Hongjun people...

Bang~!

A soft sound!

On the book of life and death, the name 'Qin Lei' exploded into nothingness.....

The strike of the judge of life and death finally launched.....

Invisible soul attacks from all directions hit the ghost clone's soul.....

Prince Xi Shen also stared at the phantom clone nervously...

But the next second, he was dumbfounded...

I saw the invisible Yuan Shen attack passing by in a flash. The phantom clone was not moved at all, and even his body could not move. Shake it...

Obviously, Prince Xishen's attack on him was ineffective at all.

Not only that, the attack of the phantom clone also fell on him.....

How...how could this happen?!

Prince Xishen's eyes widened, and a powerless despair arose in his heart...

Bang~!

"ah~! "

"No~! "

Wow~! Wow~! ...

There was another loud noise that destroyed the world!

The earth for hundreds of millions of miles shook violently, and the entire holy land trembled!

The phantom clone once again slapped away the sixteen people of Crown Prince Xi Shen...

This time, Xi Shen and others were even worse and more seriously injured...

Even the great witches who mainly focused on body refining couldn't bear it. Their chests were dented, their bones were broken, and even the fragments of their internal organs were vomited out. It was too horrible to look at... The other twelve great witch saints were also crushed by Hongjun's twelve men. They only met each other, and all of them vomited blood and flew away.....

The side of Prince Xi Shen was completely crushed and was no match for the Divine Alliance...

Bang~! Bang~! Bang~!

Prince Xishen and others fell heavily to the ground again!

"Run away!"

At this moment, a Heavenly Witch and Heavenly Saint roared urgently.

This reminder made Prince Xishen and others wake up.

The next second, Xishen and others turned around and ran away!

Swish~! Swish~! Swish~!

Prince Xishen, Saint Ancestor Guixu and the twenty-six Heavenly Saints and Great Witches fled in twenty-eight directions, each choosing a direction.....

"not good!"

"Damn it!"

"Don't let them escape!"

Hongjun and others yelled anxiously.

There are only thirteen people on their side, and they can't tell the twenty-eight directions at all.
How can they catch them all...

But if these people escape, it will not be good for them...

Hongjun is here The others were in a panic, and the phantom clone took action again...

Buzz~!

A divine scroll appeared above his head, with a ray of light that radiated for hundreds of millions of miles...

This was the phantom clone's sacred tool - the Book of the Earth!

However, now, The Book of the Earth has been fused with the energy of the Holy Spirit and has been promoted to the Heaven-casting level. Its power has greatly increased and its appearance is extraordinary!

"Where to escape?!"

The phantom clone pressed down with a palm, and the Book of Earth instantly unfolded, turning into a membrane of heaven and earth, covering it.....

The membrane of the sky and the earth is boundless, and the edge can't be seen at all, as if the sky and the earth are falling... boom~boom~boom!

In just an instant, the fetal membrane of heaven and earth enveloped all the twenty-eight people of Prince Xi Shen, and then quickly shrank and wrapped them up, catching them all in one fell swoop.
.....

Hongjun and others were overjoyed.

These guys still couldn't escape

"Kill them with me!"

Immediately, the phantom clone waved his hand and took the twelve Hongjun people into the fetal membrane of heaven and earth.....

Boom~! Boom~! Boom~!

The next second, fierce fighting sounds were heard in the fetal membrane of heaven and earth, as well as the screams of Prince Xi Shen and others...

At this moment, a white light appeared, and a figure covered in blood was seen, wrapped in blood. With a white spiritual light, he actually passed through the barrier between heaven and earth and fled towards the direction of the old man under the moon.....

This figure is none other than Saint Ancestor Guixu.

His sacred weapon, the Bafang Yukong Scroll, can penetrate any restriction.

The book from the ground failed to trap him.

The Saint Ancestor of Guixu felt very lucky to have escaped. He was about to control the Bafang Yukong Scroll and speed up his escape.....

This holy weapon can increase his escape speed.

But just when Saint Ancestor Guixu was about to escape, the space in front of him shook slightly, and two figures appeared out of thin air.

When Saint Ancestor Guixu saw the visitor, his face turned pale with fright.

The person who came was none other than the clones of Qin Feng and Xuan Mi..

Chapter 1183

"Qin...Qin Feng!"

The Saint Ancestor of Guixu was so frightened that he lost his mind.

The next second, he turned around and ran away!

"Can you escape?!"

Qin Feng sneered, and pressed the top of the mountain with his palm, like a millstone on the road, crushing down.

At the same time, Xuan Mi's clone also took action.

The momentum of the combined attack was enough to destroy the heaven and earth, and was enough to blast through all the nine heavens and ten realms. Far surpassing the full blow of the peak giant.....

"No~! "

The Saint Ancestor of Guixu opened his eyes in horror and let out a desperate cry.....

He never expected that Qin Feng could deliver a blow that exceeded the limit of a peak giant...

Everyone had far underestimated Qin Feng!

Only at this moment did he see Qin Feng's true strength.....

But it's too late!

Boom~! Boom~!

Two loud noises that penetrated the sky and the earth!

Mixed with an extremely shrill scream!

Saint Ancestor Guixu was exploded in one second and turned into a blood mist that filled the sky...

At this moment, a giant hand reaching the sky penetrated the fetal membrane of heaven and earth and reached into the blood mist transformed by Saint Ancestor Guixu.Then

, with a pinch of his big hand, there was a soft 'puff' sound, and the soul of Guixu Saint Ancestor was completely destroyed.....

"Ding~! Congratulations to the host... for killing a powerful early-stage quasi-saint ancestor (Guixu Saint Ancestor)... you have gained a large amount of karma, and your redemption points have increased by 1.09 trillion....."

That big hand belongs to the shadow clone!

He completed the final kill!

At this point, Saint Ancestor Guixu was completely dead and turned into energy that filled the sky, but Qin Feng did not lose any points.....

Then, Xuan Mi's clone dodged and got into the fetal membrane of heaven and earth.....

Boom~! Boom~! Boom~!

Within the fetal membrane of heaven and earth, the fighting became more intense, and the screams of Prince Xishen and others also became more fierce.....

Qin Feng looked at the energy in front of him and showed a satisfied smile.

Immediately, he waved his hand and put away the energy transformed by the Guixu Saint Ancestor, leaving behind a yellow-green seed, a book, a storage ring, and a ball of yellow light that contained mental fluctuations.....

The yellow-green seeds are the seeds of the Tiandi Linggen Ginseng Fruit Tree.

As soon as the Saint Ancestor Guixu died, the ginseng fruit tree automatically collapsed, leaving only one seed. Only by cultivating it again can it grow into a new ginseng fruit tree.

And that book is the holy instrument of Guixu Saint Ancestor - the Bafang Yukong Scroll.

Qin Feng waved his hand and put away the ginseng fruit seeds, the Bafang Yukong Scroll, and the storage ring of Guixu Saint Ancestor.

Then, he looked at the constantly beating yellow ball of light.

The light ball exudes faint spiritual fluctuations.

Qin Feng knew that it was the innate spirit left behind by the Holy Ancestor when he returned to the ruins, and it was a complete innate spirit that could directly cultivate a powerful subordinate.

This shows that the innate foundation of Guixu Saint Ancestor is still good, and it is better than most quasi-Saint Ancestors.

Anyone who can leave an innate spirit behind represents a profound innate foundation and excellent talent.

Among the quasi-saint ancestors, only a few were born with innate spirits, and most were achieved by acquired spirits. This is the difference in fundamentals.

Thinking of this, Qin Feng waved his hand and put away the innate spirit, preparing to deal with it when he had time, hoping to cultivate an excellent subordinate.

He still attaches great importance to the innate spirit.

After all, such creatures are hard to find and can easily be cultivated to help them.

After doing this, Qin Feng dodged and got into the fetal membrane of heaven and earth.

The next second, the fighting sound in the fetal membrane became more intense, and the screams became more miserable.....

At the same time, Xuanwu Holy Land, east.

The four witch ancestors including Old Man Yuexia, Emperor Mang Ancestor, Liugen Ancestor, and Ping Liang were looking at the direction of the shadow clone and others, each with a smile... Before that, they arrived at Qin Feng At the place where he disappeared, he searched everywhere for traces of Qin Feng. He only dug three feet into the ground, but still could not find any trace of Qin Feng...

Just when Di Mang and others felt angry, another message came from the south of the Holy Land. There were waves of fighting sounds.

They immediately thought that Xi Shen and others must have caught up with Xuanxu's clone, and the two sides started fighting.....

"The wise nephew of Xi Shen finally caught up with Qin Lei! Look at the energy fluctuations, coming one after another. The fighting is very fierce!"

Di Mang Witch Ancestor had a smile on his face.

Old Man Yuexia also stroked his beard and said with a smile:"Yes! Qin Mu is dead! This time it's Qin Lei and their subordinates' turn....."

"Ha ha!! Of course! With the nephew of God Xi and the little friend Zhentian present, as well as the twenty-six great witches from my great witch heaven realm, how can Qin Lei and others survive?!"

Di Mang laughed openly.

Everyone smiled and showed a knowing smile...

But just when Di Mang and others were thinking that they were right, the old man Yuexia seemed to sense something, and his face suddenly changed.....

The next second, he flipped it casually, and a soul card appeared in his palm... click~!

As soon as the soul card appeared, it broke into two halves with a crisp sound...

Everyone's expressions changed drastically.

"Fellow Taoist Yuexia, this is...."

"This is the soul card of Zhentian! Zhentian is dead!"

Old man Yuexia's face darkened.....

"ah~! "

Emperor Mang Wuzu's tiger body trembled slightly, as if he was greatly shocked.

But the next second, he seemed to sense something, and his expression changed slightly.

Immediately, he waved his hand, and twenty-six soul cards appeared in the air.....

Click~! Click~! Click~!

As soon as the soul cards appeared, they were broken one after another!

In just a moment, all twenty-six soul tablets were broken into two halves!

The whole audience was immediately dumbfounded!

Everyone swallowed, some couldn't believe what they were seeing.

They knew that these twenty-six fast soul cards represented the death of all twenty-six heavenly saints and great witches...

At this moment, Old Man Yuexia seemed to sense something again, and took out a black soul tablet with a look of fear on his face. Card... click~!

There was another soft sound, and the black soul card shattered!

Boom~!

Under the moon, the old man felt as if he was struck by five thunders. His old body swayed slightly, and he spurted out a mouthful of black blood.....

"Brother Yuexia, what's wrong with you?"

The Six Roots Ancestors quickly supported him.

"Wow~! Xi'er! My Xi'er!"

Old man Yuexia looked at the broken soul card in his hand, weeping every word.....

Everyone was shocked and couldn't help but look at each other.

They didn't expect that Prince Xishen would also die.

"How...how could this happen? How could Xi'er die?!"

Old man Yuexia crushed the broken soul tablet, and the veins in his skinny palm became more prominent.....

"who is it? Who is it? I want to kill him!"

Di Mang Witch Ancestor was so angry that his eyes turned red.

All twenty-six of his subordinates also died.

"There's a ghost! There must be something wrong with Qin Lei!"

The old man under the moon suddenly raised his head and stared at the direction of the phantom clone with sinister eyes.

Emperor Mang Witch Ancestor also gritted his teeth and said: "That's right! This ancestor also felt that there must be something wrong with Qin Lei. With the strength of Qin Feng and others, it is impossible to harm Xishen Nephew and my men!"

"Let's go over and take a look! I want to see who killed my son!"

"Walk!"

At that moment, Old Man Yuexia, Emperor Mang Witch Ancestor and others rushed towards the direction of the virtual shadow clone...

Chapter 1184

At that moment, Old Man Yuexia, Emperor Mang Witch Ancestor and others rushed towards the direction of the phantom clone.....

At the same time, in the Xuanwu Holy Land, in the south, where the shadow clone is located.

The battle is over, and the fetal membranes of heaven and earth have been removed.

Hongjun and others looked forward excitedly...

At this moment, all the Princes of Xi Shen fell, and they all turned into energy that filled the sky.

Qin Feng waved his hand and put away all the energy.

The energy left by Prince Xi Shen is a ball of energy in the mid-stage of Quasi-Saint Ancestor.

The total energy left by the twenty-six Heavenly Saints and Great Witches is equivalent to the initial energy of two Quasi-Saint Ancestors.

At this point, the total energy he has obtained has accumulated to the mid-stage of One Group of Quasi-Saint Ancestors and the early stage of Eleven Groups of Quasi-Saint Ancestors. The harvest is extremely rich.

If he refines all this energy, his combat power will be greatly increased.

After collecting the energy, Qin Feng put away the storage rings of Prince Xishen and others.

After doing a little inventory, he was pleasantly surprised to find that there were more than 20,000 drops of Nine Heavens Jade Dew in the storage rings of the twenty-six Heavenly Saints and Great Witches.

So far, the total number of Nine Heavens Jade Dew he has harvested has reached more than 50,000 points.

However, no Nine Heavens Jade Dew was found in the storage rings of Prince Xishen and Saint Ancestor Guixu. Apparently, their Nine Heavens Jade Dew was lost in the bet with Qin Feng during the first assessment.

In addition to these, Qin Feng also obtained the sacred book of life and death, the judge's pen, and a fragmented innate spirit.

The innate spirit was left behind after the death of Prince Xi Shen. It was only the size of a fist and emitted the brilliance of moonlight like water. Unfortunately, it was incomplete.

This also shows that the innate qualifications of Prince Xi Shen are not as good as those of Guixu Saint Ancestor.

Even Qin Feng was a little surprised by this.

After putting away the incomplete innate spirit, Qin Feng received another seed of the spiritual root of heaven and earth.

That was the seed of the laurel tree, the spiritual root of heaven and earth. It was Wu Gang's spiritual root in his previous life, but was later taken away by Prince Xi.

Now that Prince Xi Shen died, the laurel tree automatically collapsed, leaving behind a spiritual seed.

At this point, Qin Feng has harvested eight seeds of the spiritual roots of heaven and earth.

After all this was cleared up, there were still twenty-six balls of bright red blood suspended in the field, constantly squirming in the air, emitting a faint red light. Each ball of blood contained extremely powerful energy, which was very strange... Those twenty-six The blood was what was left behind after the death of the twenty-six great witches...

Everyone in the Divine Alliance was surprised to see this.

"Dad, what is this blood?", Hongjun asked curiously

"That's witch blood!", Qin Feng explained while looking at it.

He had seen an introduction about witch blood from the information given by the old man in Antarctica, and now he had seen the real thing.....

"Witch blood? Dad, what's going on with the witch blood?"

"As far as my father knows, people in the Great Witch Heaven Realm specialize in cultivating the physical body, so their physical strength is much stronger than that of the same level, which also makes their overall strength stronger than that of the same level."

As soon as these words were said, everyone in the Divine Alliance nodded slightly.

When they fought against those great witches before, they did find that those great witches were stronger than those of the same level.

Qin Feng continued to explain:"In general, only witches with witch blood and above are powerful. It will be produced and contain special energy, and this witch blood can be passed down."

"If someone obtains witch blood, after refining it, not only can their physical body be greatly strengthened, but they can also acquire some inherited magical powers. These magical powers are all magical powers of the Witch Clan, and most of them are physical skills!"

After hearing this, Hongjun and others' eyes shone, secretly thinking that this witch blood is really a treasure!

Qin Feng added:"Generally speaking, the witch blood of the Heavenly Saint Great Witch is called the blood of the great witch. The ancestral witch's is the blood of the ancestral witch. The effect of the blood of the ancestral witch is dozens of times, or even hundreds of times, that of the blood of the great witch, and it also brings a huge increase in the strength of the ancestral witch."

"For example, even if an ancestral shaman in the early stage of the Quasi-Saint Ancestor does not have a sacred weapon, his overall strength is comparable to that of a powerful early-stage Quasi-Saint Ancestor who owns a sacred weapon."

"Because under the influence of the blood of the ancestral witch, his physical body has the defense of a holy weapon and possesses extremely strong brute force. Hearing this

, Hongjun and others suddenly realized. Ziwei Star Master said with emotion:"So, we have underestimated the Great Witch Heaven Realm before!" It turns out they are so strong!

Hongjun smiled and said:"Mother, if the Great Witch Heaven Realm had no foundation, it would not be ranked among the top three in the Nine Heavens and Ten Realms." By the way, dad, this witch blood is so magical, if we can refine it and absorb it, there must be a lot of benefits, right?

Qin Feng shook his head slightly:"Not necessarily!" This witch blood is weird and contains a unique witch aura. The witch aura is somewhat similar to the corpse aura of the corpse puppet, but also somewhat different. The zombie aura of the corpse puppet is pure death aura, while the witch aura contains both death aura and vitality."

"Generally, monks who refine witch blood will initially benefit from it. But over time, the death energy in the witch's blood will slowly erode the body, and gradually the body will turn into a corpse, turning into a living corpse puppet. It will be extremely painful, and it will be difficult to make progress in this life."

"Only the children of the witch clan who refine witch blood will have no negative effects. Of course, if someone is not afraid of the death energy, he can naturally refine it and gain unlimited benefits....."

Hearing this, Hongjun and others suddenly realized, and they all showed regret.

"So this is ah!"

"Why! This witch blood actually contains weird witch energy. It seems that we can't refine it....."

"yes! This witch blood cannot be refined, so it would be a pity to discard it. Wouldn't it make it useless?! At this time

, Qin Feng smiled slightly:"You can't refine it, but there is someone who can!""

As soon as he finished speaking, he looked at a certain person.

Everyone couldn't help but follow his gaze, and finally their eyes fell on Panzu.

At this time, Hongjun and others suddenly woke up, and everyone showed surprise.

"right! Pan Zu is not afraid of any death energy. He even devoured and refined Wu Ax Corpse Puppet's corpse energy. It should be very easy to refine this witch energy!"

"Ha ha! I also remembered this reminder! Panzu's roots are different from others! As for the blood of great witches, even the blood of more powerful ancestral witches, he can absorb and refine it.,"

Hongjun and others began to discuss excitedly, secretly thinking that the blood of the great witch could finally be put to good use and would not become useless.

Qin Feng waved his hand, and twenty-six regiments of the great witch's blood flew towards Panzu.
....

"Panzu, please accept the blood of this great witch!

Panzu was overjoyed and said with excitement:"Thank you, Your Majesty!"

Qin Feng smiled and said:"The total energy of these twenty-six groups of witch blood is equivalent to the energy of a half-step quasi-saint ancestor."

"If you refine them all, your physical combat power will be greatly improved, and you will also gain a lot of witch ancestor magical powers. By that time, even if you don't break through to the Quasi-Saint Ancestor, your strength will be doubled.

Panzu was ecstatic:"Thank you, Your Majesty, for giving me this opportunity!"

"OK! You should collect this witch blood first, wait until you leave the holy realm, and then refine it when you have time!"

"yes! His Majesty!"

Pan Zu respectfully accepted the order and put away the witch blood without putting it down.

Kunpeng, Hongyun and others looked at it with envy.

At this time, Qin Feng turned his head and looked towards the east of the holy realm.

"Our previous battle caused quite a stir, and when Prince Xi Shen and others fell, their soul cards must have been shattered. Old Man Yuexia and Emperor Mang Witch Ancestor must have noticed it immediately. If my prediction is correct, they will be on their way here now."

Hearing this, the expressions of everyone in the Divine Alliance changed slightly.

"Your Majesty, if the two of them arrive, the situation will be a bit bad. Those two are both top giants. What's more, there are four witch ancestors beside them, as well as six ancestors who are also top giants....."

Star Master Ziwei warned carefully.

After hearing these words, all the disciples couldn't help but feel a little nervous.

The three top giants, plus the four witch ancestors, are not comparable to the likes of Prince Xi Shen.

If the two sides fight together, the outcome is unpredictable.

Of course, Ziwei Star Master and others still underestimated Qin Feng.

With Qin Feng's current strength, he is really not afraid of the three of Di Mang joining forces.

However, his advantage is not obvious, and even if he wins, it can only be a small victory, or even a tragic victory.

Therefore, before the two sides started a head-on battle, he wanted to grab the benefits he could get as soon as possible.

Thinking of this, he said:"You don't have to be impatient! Even if Di Mang and Old Man Yuexia come over, it will only be seven or eight hours later. Before that, let's get rid of the opportunity here!

" After falling, Qin Feng looked towards the mysterious valley behind him.

All the disciples woke up and their eyes lit up. yes!

They haven't entered this land of opportunity yet!

Hongjun quickly urged:"Dad, time is running out, let's break the ban quickly!"

"Um!"

At this moment, Qin Feng calmed down and walked towards the entrance of the valley, followed closely by his subordinates...

Chapter 1185

After a while, Qin Feng and others arrived at the mouth of the valley.

I saw the mist surrounding the valley entrance, making it difficult to see the situation inside the valley.

The disciples tried to scan with their spiritual consciousness, but they were bounced back one by one by the restrictions in the spiritual mist, unable to penetrate even a bit.

Hongjun was even more bold. He stepped in and tried to break in, but was knocked back repeatedly.

This made Fuzhi and others stunned.

You must know that Hongjun's comprehensive strength has reached half a step to the early stage of the Quasi-Saint Ancestor, and even he can be easily bounced back. Even the early stage of the Quasi-Saint Ancestor cannot break through this restriction.

When Qin Feng saw this scene, he stepped forward to investigate.

After a while, he seemed to see some clues and showed a look of surprise.

Lord Ziwei immediately asked: "Your Majesty, is this restriction easy to break?"

Qin Feng shook his head slightly: "This is an ancient restriction method that has been almost lost. If we use the conventional method of breaking the restriction, it will take less than ten days and a half. I'm afraid It can't be cracked!"

As soon as these words were spoken, the expressions of Ziwei and others changed slightly.

Ten days and a half?

They simply can't afford to wait!

You know, the secret place only allows them to stay in the holy realm for seven days.

What's more, Di Mang Witch Ancestor and Old Man Yuexia arrived soon after.

At that moment, Hongjun said anxiously: "Dad, this restriction is so difficult to break, I'm afraid we will miss this opportunity! After all, we only have seven days to stay here, and the first day is almost over. It will only take more than six days if we fully count. It's one o'clock."

This reminder made all the disciples impatient. If they were asked to give up the opportunity in front of them, naturally no one would be willing to do so.

At this time, the Queen Mother of the West said thoughtfully: "No wonder the secret has been open for so many years, and no one has cracked the restrictions on this place, and there are no traces of anyone entering. I thought at first that no one had discovered this place, but now it seems that is not the case. Like this!"

Lu Ya also nodded repeatedly: "That's right! In seven days, there are always some peak giants who can travel throughout the entire holy realm. After so many years, there should be one or two peak giants who will discover the existence of this place of opportunity."

"But they were not able to enter, presumably because the restriction was too difficult to crack, or perhaps it took too long to crack the restriction, and the holy realm could only stay for seven days, which was obviously not enough time, and in the end no one ever entered."

After the two analyzed this, all the disciples nodded slightly. They all felt that it made sense, and the look of regret on their faces became stronger.

The more difficult it is to break the restriction, the more precious the opportunity here is.

What's even better is that this place used to be a medicine. No one has entered the forbidden area for so many years, and the elixirs and herbs inside it have grown to an unimaginable level.

Just when everyone was feeling regretful and thought that the opportunity to get it was unavailable, Qin Feng spoke again

"If I want to get the opportunity here, it's not impossible....."

Hongjun's eyes lit up: "Dad, what should we do?"

"Break the ban by force! Just blast through the restriction in front of you! If my father had not made a mistake in his assessment, if he wanted to forcefully break this restriction, at least five quasi-holy ancestor peak giants would have to join forces to attack, and it would be possible to break the restriction within a quarter of an hour!"

As soon as these words fell, the hopes that Hongjun and others had originally raised in their hearts sank in an instant.

Five peak giants are required to join forces!

Oh my God!

This is too exaggerated!

Several people couldn't help but look at each other, secretly wondering what to do?

They had seen the phantom clone take action before, and they could only barely reach the threshold of the peak giant.

As for Qin Feng's strength, they have not seen it yet.

After all, Qin Feng had killed the Guixu Saint Ancestor before. Outside the fetal membrane of heaven and earth.

The subsequent killings of Prince Xi Shen and others were mainly carried out by the Xuan female clone and the virtual shadow clone.

In the view of Hongjun and others, Qin Feng and the two clones joined forces, which is equivalent to at most three peak giants. After this calculation, they still lacked the strength of a giant.

Thinking of this, Hongjun hurriedly said:"Dad, should we find two more helpers?

Ziwei also said:"Yes!" If we can have two top giants as helpers, we should be able to quickly break this restriction! Qin

Feng raised his head slightly:"In that case, wouldn't the opportunity we finally found be advantageous to others?!"

Ziwei Star Lord said anxiously:"But if we don't do this, we won't be able to get in. We can only watch the opportunity and never get it!

Qin Feng smiled:"That's not necessarily the case!" What's more, even if you find someone, it's too late. In another seven or eight hours, the four witch ancestors Dimang, Yuexia, Liugen, and Pingliang will arrive."

"Even if we leave now, they will find this secret place. With the strength of the seven of them, they cannot break the restriction within a quarter of an hour. But if it takes five or six days, there is still hope to break the restriction."

"ah?!", Ziwei Star Master became even more anxious,"Your Majesty, what should we do? We absolutely can't give Di Mang and the others an advantage!"

"I'll try! You guys stand back!"

"Your Majesty, what do you want?....."

"Back off!"

Qin Feng waved his hand again.

Ziwei and others did not dare to say anything and retreated to tens of thousands of feet.....

"Mother, do you think Dad will succeed?", Hongjun was a little worried.

Star Lord Ziwei shook his head slightly: "I don't know! According to your father, it takes five peak giants to join forces to break the restriction in an instant."

"As for your father's two clones, their strength can only barely reach the threshold of the peak giant. Even if the original body is stronger, the three of them can only be compared to the three giants. I'm afraid it will be difficult to crack....."

Hearing this, Hongjun sighed: "Hey! Time is still too tight! If there is no threat from Di Mang and others, Dad and the two clones can still break through the restriction, but it will take longer...."

"yes! It is really difficult to break through the restriction within a quarter of an hour....."

Buzz~! Buzz~!

Just as Lord Ziwei finished speaking, there was movement ahead.....

I saw the virtual shadow clone and Xuan Ni clone, each waving their hands, and offering Yuantu Sword and Abi Sword respectively...

Suddenly, the two sword energy soared into the sky, making the heaven and earth shine, and all things eclipsed.....

Buzz~! Buzz~! Buzz~! Buzz~!

At this moment, Qin Feng also used the Four Heaven-Destroying Swords and the Heaven-Destroying Formation...

The sword lights shot up into the sky, like four dazzling rays of light, shining through the sky and the earth, and actually stimulated Hongjun and others. I can't even open my eyes...

The four divine swords and formation diagrams all exude the aura of heaven-forged holy weapons.....

Hongjun and others watched with horror.

Five pieces of heaven-casting holy weapons!

Is this your Majesty's weapon?!

The four swords and formations of Zhutian have been promoted to the Heaven-casting level!

This is the first time Qin Feng has used it...

Just when all the disciples opened their eyes wide and wanted to see the power of the Heaven-Slaying Sword after its promotion, Qin Feng's sword pointed.....

Buzz~!

The Four Heaven-Destroying Swords are activated!

The array diagram is instantly enlarged!

In an instant, the Heaven-Destroying Sword Formation took shape!

Boom~Long~Long!

As soon as the sword formation was completed, a dazzling white light erupted, exuding an aura that reached the sky and the earth. It instantly surpassed the aura of a heaven-casting level holy weapon and reached the legendary creation level...

At this moment, The sword light suddenly erupted, and the invisible sword energy filled a radius of hundreds of millions of miles.

Hongjun and others suddenly felt that their eyes were stung by the sword energy, and they could not open their eyes at all. Even their consciousness was suppressed by the invisible sword energy...

At that moment, everyone closed their eyes involuntarily, unable to open their eyes at all. See Qin Feng's figure clearly and the scene in the field.....

This made Hongjun and others extremely horrified!

You know, they are all heavenly saints.

But now, they can't even see Qin Feng's ability to use the sword formation.

Even if they closed their eyes, they still felt pain in their eyes and couldn't open them at all...

Could this be the power of the Creation-level holy weapon?!

Boom~! Boom~! boom~!

Just when Hongjun and others were frightened, there were several loud noises of earth-shattering coming from ahead, and the entire holy realm was shaking violently...

Crack~!

There was another crisp sound, as if something was broken.....

Immediately, the pressure of the invisible sword energy disappeared in an instant...

Hongjun and others quickly opened their eyes, only to see the sky full of white light, and three faint white shadows in the white light.....

The next second, the white light dissipated, revealing the majestic figures of Qin Feng and his two clones.

As for the Heaven-Destroying Sword Formation, it had already been put away by Qin Feng.

Hongjun and others looked stunned.

They never saw clearly the attacking power of the Heaven-Destroying Sword Formation.....

At this moment, Qin Feng looked back and smiled:"The restriction is broken!"

As soon as he finished speaking, the restriction at the entrance of the valley in front made a few crisp sounds...

Immediately, there was a muffled sound, and the spiritual energy in the valley poured out like a tsunami.....

This forbidden place has been sealed for too long, and the spiritual energy inside has become so rich that it is unimaginable...

As soon as the restriction was broken, the spiritual energy leaked out like sea water bursting from a dam.....

Seeing this scene, Hongjun and others were shocked and ecstatic at the same time.....

They didn't expect that Qin Feng really broke the restriction, and it didn't even take a quarter of an hour, which far exceeded expectations...

Qin Feng was also happy.

He also didn't expect that after the power of the Heaven-Destroying Sword Formation reached the creation level, its power would be so terrifying, which made him quite surprised.

"Let's go! No time to lose!"

After saying these words, Qin Feng dodged and got into the valley.

Hongjun and others woke up and quickly followed..

Chapter 1186

In the blink of an eye, Qin Feng and his party entered the valley.

Meanwhile, Holy Land, to the east.

Ancestor Dimang, Old Man Yuexia, Ancestor Liugen and others were looking in the direction of the valley with stunned expressions...

Just now, they were rushing towards the direction of Qin Feng and others.

Suddenly, an extremely terrifying strange aura rose from that direction, causing chaos in the laws of heaven and earth in the Holy Realm.....

This scene shocked Di Mang and others.

Immediately afterwards, there were several shocking loud noises, and then the unfamiliar breath disappeared in an instant.....

In fact, that terrifying and unfamiliar aura was the creation-level aura emitted by the Heaven-Slaying Sword Formation.....

Neither Emperor Mang Witch Ancestor nor Old Man Yuexia had ever seen a creation-level sacred artifact. They didn't recognize it for a moment and only felt vaguely terrified.

But the Liugen Ancestor beside the two of them had a look of astonishment in his eyes.

His originally calm expression actually became a little serious at this moment.

At this moment, he silently looked at the direction in which the Heaven-Slaying Sword Array appeared, with a look of contemplation...

Emperor Mang Witch Ancestor and Old Man Yuexia did not notice anything strange about him. They were still immersed in the shock just now. middle.

They also want to know, what happened there?

What is that strange and terrifying atmosphere?

However, the distance was too far for their spiritual consciousness to scan it, so they could only guess.

"Fellow Taoist Yuexia, have you sensed it?" Di Mang Witch Ancestor asked in a low voice.

Old Man Yuexia had a gloomy face and nodded slightly.

He had not yet recovered from the sadness of the death of his beloved son.

Emperor Di Mang asked in a low voice. Then he said: "That breath just now was so weird! Just one breath caused chaos in the laws of the Holy Realm. It's puzzling! I wonder where that breath came from and why it was born?" Old Man Yuexia said in a deep voice: "No matter what it is, I'll find out when I go over and take a look. Maybe the death of my son and many great witches is related to that breath."

Di Mang's eyes lit up: "Yes! If you say that, my ancestor I think it's really possible. With the strength of Qin Lei and those twelve men, how could they possibly deal with Xi Shen's nephew and my men?"

"I'm afraid that their demise has nothing to do with Qin Lei and the others, but something else they encountered....."

Hearing this, Old Man Yuexia's gloomy eyes lit up: "What do you mean, fellow Taoist, it's not necessarily Qin Lei and the others who killed my son?"

Di Mang's lips curled up slightly: "Do you think Qin Lei has that strength??"

"this....", Old Man Yuexia frowned slightly and began to think.

After a moment, he shook his head slightly: "As far as I know Qin Lei, he definitely has no ability to kill my son."

Di Mang smiled coldly: "That's right! According to my ancestor, it was Xi Shenxian who was killed. There must be someone else working under my nephew and my ancestor."

At this moment, Emperor Mang Witch Ancestor was still looking down on Qin Feng and his two major points.

At this moment, Old Man Yuexia's face darkened:"No matter who they are, if they dare to kill my son, I will kill him!"

"You two, I feel that the breath does not look like a human breath, but more like an object...."

Ancestor Liugen said casually, intending to remind

"Huh! Fellow Daoist Liugen, when you say this, I think it is like an object. What could it be? Could it be that some treasure was born?", the emperor witch guessed

"No matter what it is, let's go and take a look and we'll find out!", said the Six Root Ancestors

"Let's go!"

Old man Yuexia led the way first. He just wanted to avenge his son as quickly as possible and was too lazy to think too much.

Emperor Mang, Witch Ancestor and others quickly followed behind.....

At the same time, in the north of the Holy Land, outside the courtyard of a dilapidated palace.

Taiqing, Yuqing, and Shangqing, leading a dozen quasi-saint ancestors of Taoist sects outside the territory, were preparing to enter.....

This courtyard was a place of opportunity they had just discovered.

But at this moment, the aura inspired by the Heaven-Destroying Sword Formation shocked the entire holy realm.

Sanqinglian looked in the direction of Qin Feng.

After a moment, Holy Master Yuqing turned back:"Elder brother, have you sensed it?"

Holy Master Taiqing nodded slightly:"I sensed it! It's the breath of a creation-level holy weapon!"

Shangqing said hurriedly:"Elder brother, what do you mean? Is it the Outer Territory Demon Abyss, or the Outer Territory Pure Sect?"

Taiqing thought for a while, then shook his head slightly:"I don't know! If anyone is hiding the creation-level sacred artifact, it is only these two forces.....The assessment has just begun now. It's not appropriate for us to have conflicts with them first. Let's ignore that for now and let's explore ours!"

As soon as these words were said, Yuqing and others understood that Saint Taiqing did not want to go over to check.

What's more, they had just discovered the land of opportunity in front of them.

At that moment, Taiqing walked towards the dilapidated palace, and Yuqing and others followed closely. follow.....

At the same time, on the other side of the Holy Land, somewhere in a hidden valley.

Mohu and Luo Jia looked in the direction of Qin Feng.

Behind the two of them were a dozen quasi-Saint Ancestor-level subordinates.

"Luo Jia, do you feel it?", Mohu asked in a low voice.

"Um! Creation level!"

"go?"

Luo Jia shook his head slightly:"The mission is the most important thing!""

"good!"

Mohu said nothing and walked directly to the depths of the valley.

Luoja and others followed behind him silently.....

On the other side, over an ocean.

Amitabha stood in the sky, looking at Qin Feng's position.

Behind him, more than a dozen quasi-Saint Ancestor subordinates looked shocked.

Among these dozen quasi-saint ancestors, three are still in the later stages of quasi-saint ancestors.

At this time, a later-stage subordinate whispered:"Your Majesty, the aura just now seems to be the aura of a creation-level holy weapon!"

Amitabha frowned slightly:"It's strange! Neither the Outer Territory Dao Sect nor the Outer Territory Demonic Abyss has gone. In which direction, it was obvious that the smell was not caused by those two families....."

"Your Majesty, is it possible that some good fortune-level treasure has been born?"

Amitabha's eyes lit up:" Hey!" Probably! Walk! Let's go take a look!"

"yes! Your Holiness!"

At this moment, a group of people from Jingzong outside the territory rushed towards the location where Qin Feng was.....

At the same time, in the entire holy territory, Qin Feng triggered the commotion caused by the Heaven-Slaying Sword Formation, which shocked the entire holy territory. Some forces were waiting and watching, and some forces came closer to see what happened.....

This time, it was not just the Pure Sect from outside the territory who came to investigate, but also the Ancient Heaven Territory led by the Ancestor Ran Deng, who also took the initiative to investigate.

In addition, several large forces with ordinary strength also rushed over...

But on the other side, Qin Feng and others were completely shocked by the rich resources inside as soon as they stepped into the valley.....

I saw that in the valley, the spiritual energy was dense and turned into a mist. It was extremely thick, ten thousand times the concentration of spiritual energy outside. Just one breath made people feel refreshed...

Through the thick spiritual mist, Qin Feng and others saw, The valley is extremely wide and huge, with a radius of tens of thousands of miles. There are extremely precious spiritual flowers, spiritual grasses, spiritual fruits, and spiritual plants everywhere. All of them have given birth to spiritual light, blooming with various colors of rays and shining...

Look further. There are rockeries, spiritual ponds, attics, pavilions, and even a palace in the deepest part. The appearance looks intact, with the glow of the sun hanging on it, and a thousand auspicious auras... The whole valley bottom is like a fairy family!

"Wow! There are so many spiritual flowers and spiritual herbs!"

"Wow! There are more than a hundred acres of spiritual grass over there, which seems to be Jiuqu Ginseng....."

"And...and over there...what kind of spiritual fruit is that? so big!"

"Ha ha!! Judging from the appearance of these elixirs, all of them can refine elixirs of higher realms!"

"If you eat some of them directly, you can improve your cultivation level....."

At this moment, Hongjun, Ziwei and others were extremely excited.

Qin Feng also found it pleasing to the eye.

Then, he said: "Hurry up! Search all the resources here! If you delay any longer, I'm afraid someone will come and get a piece of the pie."

With this reminder, Hongjun and others woke up and hurriedly went to pick those elixirs, spiritual fruits and other items...

But at this moment, a strange consciousness comparable to that of a peak giant swept from the depths of the valley, and in an instant Swept the whole place.....

Hongjun and others were immediately shocked, and they all looked into the depths of the valley with horrified expressions.

This valley has always been forbidden and sealed, which means that no one can come in.

Then who does this divine consciousness in the valley belong to?

Qin Feng also sensed it, but he raised his head calmly and looked into the depths of the thick fog.

Before this, he knew that there was something strange hidden in the valley here.

Right now, things in the valley are alarmed and seem to be coming out..

Chapter 1187

Qin Feng also sensed it, and looked up with an indifferent expression, looking into the depths of the thick fog.

Before this, he knew that there was something strange hidden in the valley here.

Right now, things in the valley are alarmed and seem to be coming out.....

Qin Feng was secretly on guard.

Hongjun and others were a little frightened.

They clearly sensed that the divine consciousness was strong, cold, and unfamiliar. It was not the divine consciousness of the nine peak giants at all...

At this moment, the divine consciousness locked onto everyone, and moved over quickly from far to near.....

Boom~Long~Long!

Deep in the valley, thick fog rolled violently, mixed with the sound of breaking the sky like wind and thunder, causing the heaven and earth to tremble...

The disciples were alarmed!

Star Master Ziwei quickly reminded:"Everyone, be careful!"

"Come behind me!", Qin Feng said quietly.

The disciples did not dare to hesitate and quickly retreated behind him. The person who came should be a peak giant. With their strength, facing the peak giant, they had no power to resist and could only take shelter. Yu Qinfeng.

Boom~! Boom~! Boom~!

In just a moment, following the roar of the sea of fog, a thin figure appearedBreaking out of the fog sea, and then slowly walking towards the crowd.....

Everyone quickly looked at the person coming, and couldn't help but feel stunned.

I saw that the visitor was wearing a blue Taoist uniform with a red jade belt around his waist. The clothes were spotless.

But the person wearing this robe has a thin face, yellow hair, and dark complexion, reflecting a faint sheen of corpse oil, and his whole body exudes a strong corpse aura.....

The person who came was actually a mummy!

"Oh My God! This...this guy is not human!"

"It doesn't seem like a corpse puppet! There is still a ray of life in him....."

"Huh! Did you find it? This guy's spiritual consciousness has reached the threshold of a peak giant, but his combat power and momentum are only at the mid-stage level of Quasi-Saint Ancestor!"

"yes! it's wired!"

At this moment, Hongjun and others quickly discovered what was special about the weirdo.....

"Huh! This consciousness....."

Qin Feng seemed to have discovered something. He frowned slightly and carefully looked at the monster opposite.....

"Dad, what did you find?", Hongjun asked curiously

"This guy's consciousness is weird...."

"What's weird?"

"His consciousness does not seem to be emanating from the soul, but rather seems to come from an object....."

Qin Feng looked confused.

The consciousness of the weirdo opposite actually gave him a feeling of déjà vu.

"Dad, you mean, this guy has no soul?"

"almost! Hongjun couldn't help but his eyes lit up:"

Dad, it would be great if we didn't have the soul." To kill this monster, you only need to kill it once, which is easier than killing an ordinary quasi-saint ancestor!"

At this time, the Queen Mother of the West came over

"Your Majesty, the Taoist robe this weirdo is wearing is the clothing worn by the disciples of the ancient God Lord. It is called the Wupi Taoist Robe. It can ward off wind, dust, water, fire, and the erosion of time....."

Hongjun suddenly realized:"No wonder this man is full of corpse energy and has been dead for an unknown period of time, but the Taoist robe on his body is still bright and beautiful. It seems that this Wupi Taoist robe is a treasure!"

Queen Mother of the West replied:"It is indeed a rare thing. Treasure! What's more important is that only my master's direct disciples are qualified to wear it!"

Hearing this, Qin Feng thought:"Queen Mother of the West, you mean, this person doesn't look like a human being, and the corpse puppet doesn't look like a corpse puppet. The monster is a direct disciple of the ancient God Lord?"

Queen Mother Xi smiled bitterly:"As far as I know, all of my master's disciples should have died, at least there are none alive in this secret place. Although the monster in front of you is wearing the clothes of a direct disciple , but I can't recognize who he is."

"Perhaps, he was my master's direct disciple when he was alive, but he died later and his body had some mutations....."

After saying this, the weirdo in front had already walked in front of everyone. His eyes, which were slightly closed, slowly opened, revealing green eyes, exuding a cold and confused light.....

The strange man's eyes fell on Qin Feng and others, and a violent light burst out from the depths of his eyes, seeming to blame Qin Feng and others for intruding...

Roar~!

The next second, he let out a roar, like a wild beast roaring.....

Immediately afterwards, a sudden change occurred in the field!

I saw the strange man floating into the air, the whole medicine valley shaking, countless spiritual energy pouring into his body, and the originally mummified body expanded crazily at a speed visible to the naked eye.....

Buzz~! Buzz~! Buzz~!

At the same time, the entire Xuanwu Holy Land shook, and the power of heaven and earth rose into the sky and attached to the strange man.....

In just a moment, under the irrigation of spiritual energy, the weirdo's body swelled up, becoming more like a human... and his combat power and momentum increased crazily with the addition of the power of heaven and earth.....

In the blink of an eye, the weirdo's combat power and momentum reached the threshold of the pinnacle giant of the Quasi-Saint Ancestor, and his strength increased dozens of times...

Hongjun and others were dumbfounded!

Before, the weirdos only had spiritual consciousness that had reached the level of a peak giant, and their combat power was only at the mid-stage of Quasi-Saint Ancestor, so they didn't take it seriously.

Unexpectedly, this weirdo could actually borrow the power of heaven and earth from the Holy Realm to raise his combat power to the threshold of a peak giant in the blink of an eye...

Roar~!

Another roar!

The weirdo pounced directly on the people of the Divine Alliance. His thin claws, carrying the power of destroying the heaven and the earth, blasted through the layers of space and landed on the heads of everyone.....

"not good!"

The faces of Hongjun and others changed slightly.

When the claw fell, they felt the suffocating pressure.

"roll!"

At this moment, Qin Feng took action, and with a wave of his hand, his white palm met the skinny claws...

Boom~!

A loud sound of the sky and the earth shattering! The land for thousands of miles was cracked!

The endless void was shattered inch by inch!

The weirdo groaned, and was blasted hundreds of miles away by Qin Feng's palm...

Hongjun and the others couldn't help but breathed a sigh of relief.

Bang~!

The weirdo fell to the ground, causing gravel to fly everywhere.

But The next second, he turned over, rushed out of the rubble, and roared to the sky... The roar shook the whole valley!

Before the roar could fall, deep in the valley, in the temple hidden in the thick fog, There was also a roar, which seemed to be echoing the roar of the weirdo...

Immediately afterwards, two extremely terrifying divine consciousnesses penetrated countless spiritual objects and swept towards Qin Feng and others...

The power of those two divine consciousnesses , actually above the weirdos

"Huh! There are two more hidden!"

Qin Feng was a little surprised and couldn't help but look at the palace deep in the valley.....

However, the expressions of Hongjun and others changed slightly.

The Master of Ziwei Star even reminded:"Your Majesty, the situation is not good now! The two hidden inside have stronger spiritual consciousness, and they may be even stronger than the guy in front of them!"

Hongjun also said depressedly:"Dad, this means there are three peak giants guarding here all the time! Then how can we get a chance? I'm afraid we haven't defeated these three monsters yet, Emperor Mang Witch Ancestor, Yuexia Old Man, Liugen Ancestor and others Just came here!"

Qin Feng smiled coldly:"There was a lot of noise before, I'm afraid it's not just Di Mang, Yue Xia and others who will come over. However, we really need to fight quickly.

"Having said that, the strange man in front of me seems to be the will of the secret place to guard this medicinal garden. Naturally, such excellent opportunities and resources will not be easily obtained by others in the secret place."

"In other words, there are two stronger weirdos hidden in that palace. Does that mean there are better treasures in the palace?"

Hearing this, Hongjun and others couldn't help but their eyes lit up.

Yes!

According to His Majesty's analysis, it is indeed the case.

Could it be that there are better treasures hidden in the palace deep in the valley?

Just before everyone When he was suspicious, the weirdo in front attacked him again.

At the same time, two thunderous sounds broke through the air deep in the valley.....

The two guys hiding in the palace also came here..

Chapter 1188

Just when everyone was suspicious, the weirdo in front came over again.

At the same time, deep in the valley, two thunderous sounds broke through the air.....

The two guys hiding in the palace also came here.....

"Dad, things are not good!"

"His Majesty! The two coming out may be even more powerful! What should we do?"

At this time, everyone in the Divine Alliance was in a panic.

They were not worried that Qin Feng could not subdue these monsters, but they were worried that there was not enough time.

With Qin Feng's current strength, even one person can defeat three. There is such a monster, not to mention that he has two clones to help him. But the key to the problem is that any peak giant, even one that has just reached the threshold level, is easy to defeat, but it is more difficult to kill than to kill the mid-stage quasi-saint ancestor. Thousands of times...

In other words, if Qin Feng and the two clones join forces to eliminate a peak threshold giant, it will definitely not be eliminated in a quarter of an hour. I am afraid it will take several days or even longer...

That is still the weird monster in front of me, without a normal soul.

If it has a soul and can be resurrected continuously, it will be even harder to kill.....

Boom~Long~Long!

In the blink of an eye, the strange man once again jumped in front of everyone, carrying the power of a peak giant. Wherever he passed, the earth was shaken.....

But at this moment, the shadow clone sacrificed the Book of Earth.....

Buzz~!

Boom~! Boom~! Boom~!

The aura of the Book of Earth shines brightly, and immediately grows infinitely, turning into an endless membrane of heaven and earth, covering everyone in the Divine Alliance, covering the weirdos, and covering all the heaven and earth in that area.....

"Jedi Tiantong! combine!"

The phantom clone printed everything in his hand, and in a moment, the fetal membrane of heaven and earth closed, wrapping everyone in the Divine Alliance and the weirdos into a huge membrane space.....

Buzz~!

Click~! Click~! Click~!

Then, there was an invisible sound between heaven and earth. It was inaudible, but it resounded in everyone's hearts, like a law of heaven and earth being forcibly cut off...

The next second, the power of heaven and earth attached to the weird man's body moved at a speed visible to the naked eye. , fading crazily, and its combat power and momentum are also plummeting.

This made everyone in the Shen League stunned, even the weirdos were confused...

This is the new magical power born after the Earth Book was promoted to the Heaven-casting level-Jedi Tiantong!

It is able to isolate the power of heaven and earth, so that creatures using various world seals can no longer borrow the power of heaven and earth.

This Jedi Heavenly Power is originally a heaven and earth formation, and Qin Feng has studied it for a long time.

This time, when Earth Book was integrating the Holy Spirit's energy and improving its quality, the phantom clone followed Qin Feng's concept and incorporated the formation with absolute magical power. Unexpectedly, it was successful... When the sacred weapon was improving its quality, it was also improved. Great time for supernatural powers.

When Qin Feng upgraded the quality of the Heaven-Slaying Sword and the Earthly Script this time, he also improved their magical powers. They can be put to great use today.....

In the blink of an eye, the strange man's aura plummeted to the mid-stage of Quasi-Saint Ancestor, and the power of heaven and earth attached to him was gone and all dissipated.....

"Huh! That guy's momentum has dropped to the mid-stage of Quasi-Saint Ancestor!"

"Ha ha!! It turns out that His Majesty still has this skill!"

Hongjun and others were overjoyed.

At this moment, Qin Feng and the two clones rushed towards the strange man.....

Seeing this, Hongjun and others also followed and killed him.....

Boom~! Boom~! Boom~!

Bang~! Bang~! Bang~!

Suddenly, the weirdo was frantically besieged by Qin Feng and others.....

There was a huge sound in the field, which affected the outside world through the fetal membranes of heaven and earth, and the entire holy realm was shaken by it.....

In just a moment, the weirdo was blasted to pieces and turned into energy that filled the sky.....

"Ding~! Congratulations to the host, successfully killed the guardian of the Xuanwu Holy Realm.Get a lot of merit points...your redemption points are increased by 10 trillion....."

Guardian of the Xuanwu Holy Realm?!

Sure enough, it was arranged by the will of the secret place!

10 trillion exchange points are just the standard for killing a mid-stage quasi-saint ancestor.

The exchange points for killing the early stage powerful quasi-saint ancestors are about 1 trillion.

"His Majesty! Let's kill him!"

"Ha ha!! Less than ten seconds before and after!"

At this moment, all the disciples of the Divine Alliance were very excited.

Within ten seconds, they killed a powerful mid-stage quasi-saint ancestor. This is the current strength of the Divine Alliance, which can be described as extremely terrifying.....

Qin Feng was also quite satisfied and raised his head to look ahead.....

I saw that after the strange man died, in addition to leaving a sky full of energy, he also left behind a storage ring, five Taoist robes, and two broken divine seals.....

Qin Feng waved his hand and put away the storage ring, the five-dimensional Taoist robe, and the energy in the sky.

Those energies are equivalent to those of a mid-stage quasi-saint ancestor.

So far, the energy he has gained after entering the holy realm is a total of 2 groups of mid-stage quasi-saint ancestors and 11 groups of early-stage quasi-saint ancestors.

After collecting the trophies, Qin Feng waved again and sucked the broken divine seal into his hand.....

"Huh! This is....."

Qin Feng looked at one of the broken divine seals with a look of surprise...

Hongjun also came over:"Dad, this piece seems to be a fragment of the Xuanwu divine seal, right?"

"That's right! It is the Xuanwu divine pattern fragment.....Chuchu, please accept it! If you have time, you can refine it and your cultivation will definitely improve!"

Qin Feng waved his hand, and the fragment of Xuanwu divine pattern flew over.

"Thank you bro!"

Chu Chu was overjoyed. Under the envious eyes of everyone, she accepted the fragment of the Xuanwu divine pattern...

She is the Great Emperor of Xuanwu and is the spirit of Xuanwu.

Let her refine the fragments of the Xuanwu divine pattern, which will not only greatly enhance the combat power, but also He can also gain a lot of insights into the Tao Yun of the water system and advance to improve his cultivation.

In short, Chu Chu is the most suitable candidate for refining the fragments of the Xuanwu Divine Mark.

At this time, Qin Feng looked at the other incomplete Divine Seal with a look of surprise.

That piece The residual seal is a seal of the world.

In other words, it is the seal of heaven and earth that controls the Holy Realm of Xuanwu, that is, the Seal of Heaven.

This made Qin Feng understand why the guardian can borrow the power of heaven and earth in the Holy Realm.

"Dad, this should be a piece of Heavenly Seal fragment, right?"

"That's right! If my father's guess is correct, the secret place relies on a fragment of the Xuanwu divine pattern and combines it with the guardian of the holy realm to create a powerful power of the soul. And this piece of sky seal fragment is the barrier for the guardian to borrow the power of heaven and earth."

"I see! Dad, if we collect all these heavenly seal fragments, can you control the entire holy realm?"
Qin Feng smiled slightly:

It may not be impossible!""

He suddenly thought of one thing. If he could collect all the fragments of the Holy Realm's Heavenly Seal, would he be able to control the entire Xuanwu Holy Realm?

If so, then he would be able to do so during this treasure hunt in the Holy Realm. , you will get unimaginable benefits. At this time, the phantom clone removed the fetal membrane of heaven and earth.

In the distance, two sounds of breaking through the air are getting closer and closer.

"I'm going to deal with the other two guardians of the holy realm. You hurry up and collect the medicinal materials and resources here!"

"yes! His Majesty!"

After leaving these words, Qin Feng and the shadow clone flew deep into the valley, leaving Xuan Mi's clone and others behind to collect resources.....

"Get started! Don't waste any time!"

"yes! His Majesty!"

Under the order of Xuan Mi's clone, everyone in the Divine Alliance rushed towards the valley with joyful faces, preparing to collect all kinds of elixirs and spiritual fruits.....

"Wow~! This...this soil is different from the outside world! It seems to be a kind of superior spiritual soil....."

As soon as Hongjun stepped into a certain medicinal garden, he was attracted by the soil under his feet.

The Queen Mother of the West smiled proudly and said:"Young Master, this valley is my master's medicinal garden specially used to cultivate and refine upper realm elixirs. The soil here is naturally different, and it is something you can't find outside."

"What's more, this medicine garden has been banned for so many years. This soil and various elixirs and spiritual plants feed each other back, and the soil is also more full of spirituality. It is absolutely extraordinary for cultivating elixirs! Hongjun's eyes shone:"

So, these soils are treasures!""

"Of course!"

Hearing this, Xuan Ming suddenly moved her head and said hurriedly:"Listen carefully. Dig all the medicinal materials and spiritual objects in these medicinal fields for three hundred feet and shovel them up! Take them all away!"

Everyone was shocked!

Hongjun couldn't help but said:"Dad, you are going to take away the entire Medicine Valley!"

Xuan Mi's clone smiled slightly:"That's right!"

As soon as these words were said, all the disciples couldn't help but look around, with wry smiles on their faces.

This medicine valley uses the secret method of space. It doesn't look big from the outside, but from the inside, it's hundreds of millions of miles away, and there are even souls. Spring, Lingxi, Lingchi, Linghu are incomparably vast.....

In such a huge place, their storage rings combined cannot fit even one ten thousandth of it!

In addition, storage rings are difficult to store certain delicate spiritual plants.

For example, some spiritual flowers and spiritual grasses grow beautifully in the spiritual soil, but they will soon wither when placed in the storage ring...

As if seeing everyone's doubts, Xuan Mi's clone smiled and said:"Just take care of it. Dig up three hundred feet of ground, including the spiritual streams, spiritual springs, spiritual ponds, and spiritual lakes. I have my own way to put them away....."

Hongjun was surprised:"Dad, do you have any special storage rings?

"....."

After hearing this sentence, everyone suddenly realized. right!

There are various space restrictions in this secret place, but they cannot restrict Qin Feng's control of the Great Flood God Realm. For example, if items are sent to the Great Flood God Realm, they can also be taken out, but they cannot summon creatures to enter.....

If the Great Flood God Realm is used as a space, Qin Feng can hold infinite things, even the entire Xuanwu Holy Realm.....

After thinking about this clearly, Hongjun and others were overjoyed

"His Majesty! I'll understand later!"

At this moment, everyone dispersed and began to shovel three hundred feet of the ground, frantically collecting resources.

They wanted to plunder all the resources here and not leave any soup for others..

Chapter 1189

At the moment, everyone dispersed and started shoveling three hundred feet of ground, frantically collecting resources.

They want to plunder all the resources here without leaving any soup for others.....

The clone of Xuan Mi also used the two swords of Yuantu Abi, displayed her great magical power, and began to cut the earth.....

At this moment, there was a burst of earth-shattering explosions deep in the valley. The entire valley shook violently, and even the entire holy realm was trembling slightly...

Hongjun and others only glanced at the depths of the valley and ignored it. , continue to search for resources with all their strength.

They knew that it was Qin Feng and the shadow clones who faced the two guardians who came over.

With the strength of Qin Feng and Xuying's clones, as well as the wonderful use of the earth book, they don't have to worry about it at all.....

At this moment, deep in the valley, the phantom clone has sacrificed the book of earth and raised the fetal membrane of heaven and earth.

Inside the fetal membrane, Qin Feng and the shadow clone were fighting fiercely with two weirdos.

The two weirdos were both wearing Wupi Taoist robes and red jade belts, the same outfit as the previous guardian of the secret realm.

However, the consciousness of these two weirdos is much stronger than the previous one.

With the assistance of the power of heaven and earth, the combat power and momentum of the two weirdos became stronger, reaching the level of the six ancestors.

But the phantom clone activated the Jedi Heavenly Power of the fetal membrane of heaven and earth, causing the two weirdos to lose the support of the power of heaven and earth, and their combat power plummeted to the peak level of the mid-stage Saint Ancestor.

Afterwards, Qin Feng and Xuying's clones strangled the two weirdos crazily.....

In this way, Qin Feng and the virtual shadow clones were fighting against the two guardians...

Xuan Mi's clone led Hongjun and others to search for resources in the valley.....

At the same time, the eastern part of the Holy Land.

Ancestor Dimang, Old Man Yuexia, and Ancestor Liugen and their group are speeding towards Qin Feng's location.....

"Fellow Daoist Yuexia, Fellow Daoist Six Roots, have you sensed it? The sound of fighting and energy fluctuations came from that place again!"

"yes! The second time! The previous fighting sound lasted less than ten seconds, but this time it seemed to be longer....."

The Six Root Ancestor responded.

What they felt was the energy fluctuation of Qin Feng's battle with the guardian.....

Di Mang hurriedly said:"It seems that there must be a treasure born in that place, so there are so many battles!"

Old Man Yuexia said anxiously:"Fellow Di Mang, stop gossiping, let's go there quickly, so as not to miss the opportunity!"

Di Mang nodded quickly:"That's right!"

Liugen Ancestor also urged:"Hurry up! Those who have secret skills will use secret skills. It's time to speed up. Stop hiding your strength....."

At that moment, the group speeded up and rushed toward the forbidden area in the valley.

Whether it was to fight for the treasure or for revenge, they had to rush there as soon as possible to see what happened...

And the speculation of the treasure's birth also increased the enthusiasm of Emperor Mang Witch Ancestor.

It's just that neither Emperor Mang Witch Ancestor nor Old Man Yuexia noticed that the Liugen Ancestor's enthusiasm suddenly increased several times, and he was no longer as calm and relaxed as before.....

In addition to the acceleration of Di Mang and his party, Amitabha and his party, Ran Deng Guzu and his party were also stimulated by the continuous fighting fluctuations in the mountain, and they also accelerated their speed and rushed over.....

And the Holy Land, somewhere in the southwest.....

Ancestor Hunji looked at the direction of the forbidden area in the valley, looking thoughtful.

Behind him, there were twelve subordinates of the Quasi-Saint Ancestor and more than fifty subordinates of the Heavenly Saint.

As the largest force in the Nine Heavens and Ten Domains, in addition to the pinnacle giant Hunji Ancestor, the Hunji Heaven Realm also has twelve quasi-saint ancestors and more than sixty heavenly saints...

Such combat power is not inferior to the three outside the territory at all..

At least that's what it seems on the surface.

After all, there is a Saint Ancestor sitting behind the three sects outside the territory, and his background is extremely profound.

Even this time, the candidates sent by the three sects from outside the territory are only part of their forces. For example, the Nine Heavens and Ten Territories, as well as the small and medium-sized forces in the heavens, are almost all experts.....

All players who are qualified to enter the secret land do not want to miss this opportunity that only opens once in millions of billions of years.....

"Ancestor, the situation over there looks very lively!"

Behind Ancestor Hunji, a subordinate of the Quasi-Saint Ancestor whispered.

"yes! There was an aura of the Holy Artifact of Creation rushing over there before. I didn't want to have a premature conflict with the three sects outside the territory, so I didn't want to go there. But unexpectedly, there were frequent sounds of fighting and energy fluctuations over there. It seemed that several parties were fighting again!"

Ancestor Hunji whispered to himself

"The breath of the sacred artifact of creation? Ancestor, what you are talking about is that a strange aura rose up before, disrupting the laws of the Holy Realm....."

The subordinates looked at him curiously.

Even though twelve of these subordinates are quasi-Saint Ancestors, they have never seen the Creation-level Holy Artifact, so naturally they don't understand it.

"That's right! That breath is the creation-level holy weapon! I have lived for countless years and experienced countless tribulations. I once witnessed the power of a sacred artifact by chance. That impression was so profound that I will never forget it in my life!"

Ancestor Hunji sighed with emotion.

"Ancestor, if there is anyone in this secret land who has a creation-level sacred weapon in hand, it can only be the three sects outside the territory. After all, they have a saint ancestor sitting behind them, and he should lend them his creation-level sacred weapon. Use it!"

"Ancestor, I think the third elder is right. If this is the case, we should not go there, lest we prematurely conflict with the three sects outside the territory....."

As soon as he said this, everyone nodded slightly and agreed.

Looking at the expressions of these people, it is obvious that they are very afraid of the three foreign sects.

Although on the surface, Hunji Heaven Realm is the largest force in the Nine Heavens and Ten Territories, which is comparable to the three forces outside the territory.

What's more, there are very few players sent in from the three tribes outside the territory.

But in fact, each of the players from the three extraterrestrial sects is the elite among the elites. Even at the same level, they can completely suppress the masters of the Nine Heavens and Ten Domains. What's more, the three extraterrestrial sects have hidden strength every time.

According to past experience, every time the secret land assessment is completed, the final assessment results are that the three sects outside the territory are ranked in the top three, and the Hunji Heaven Realm can only be ranked fourth.

Therefore, the ancestor of Huanji did not want to conflict with the three sects outside the territory unless it was absolutely necessary.

But this time, he hesitated.

He was seen silently looking in the direction of Qin Feng, with a look of thought.

When all the subordinates saw this, they couldn't help but look at each other face to face.

At this time, Ancestor Hunji looked at his subordinates

"This ancestor once heard a rumor that there is a creation-level holy artifact hidden in this secret place. It is rumored that it was used by the ancient god lord, and it is likely to be hidden in one of the four holy realms. Do you think it could be hidden in the territory of Xuanwu Saint?"

As soon as these words fell, all the subordinates were slightly stunned.

Immediately, one of the subordinates opened his eyes wide and said: "Ancestor, what you mean is that the aura of the Creation Holy Artifact just now is probably a Creation-level Saint Artifact. Born!

Ancestor Hunji smiled mysteriously: "Isn't it?" If the three sects from outside the territory used the sacred weapon of creation to fight against the enemy, then what kind of enemy did they encounter that made them use their trump card in advance?"

"What's even more strange is that the breath of creation only disappeared for a fleeting moment, and in the subsequent battles, the breath of the holy weapon of creation did not appear again, which was puzzling. Now that they have taken out the sacred artifact of creation, why not take it out and continue to fight against the enemy?"

"Could it be another situation, that is, someone broke the seal that imprisoned the Holy Artifact of Creation, allowing the Holy Artifact of Creation to leak a little bit of its breath. Then, someone else arrived, and the two sides began to fight....."

After hearing this analysis, all the subordinates' eyes lit up and they felt it made sense.

At that moment, a subordinate said: "Ancestor, if the Holy Artifact of Creation is born, we will hurry over there. Even if there is a conflict with the three sects from outside the territory, if we can grab the Holy Artifact of Creation, we will not lose anything!"

Old Hunji Zu nodded slightly: "I think so too!"

"Ancestor, then I'll go over and take a look!"

"Walk!"

With an order, Ancestor Hunji rushed directly towards the valley where Qin Feng was.

The twelve subordinates of the Quasi-Saint Ancestor and more than sixty Heavenly Saints followed closely behind, and the group left in a mighty manner.....

At this moment, the explosions and energy fluctuations in the direction of the valley stopped...

Qin Feng and the shadow clones also eliminated the two guardians of the secret realm..

Chapter 1190

At this moment, the explosions and energy fluctuations in the direction of the valley stopped...

Qin Feng and the shadow clones also eliminated the two guardians of the secret realm.....

At this moment, deep in the valley, the spiritual mist shrouded.

The phantom clone has removed the fetal membrane of heaven and earth.

System prompts echoed in Qin Feng's mind.....

"Ding~! Congratulations to the host, successfully killed a Xuanwu Holy Realm guardian.....Get a lot of merit points...your redemption points are increased by 11.2 trillion....."

"Ding~! Congratulations to the host, successfully killed a Xuanwu Holy Realm guardian.....Get a lot of merit points...your redemption points are increased by 12.1 trillion....."

At this moment, Qin Feng's exchange points continued to skyrocket, and it increased by more than 2.3 billion in the blink of an eye...

The exchange points provided by these two guardians were obviously more than the first one, which shows that these two guardians are stronger.....

Qin Feng looked at the results ahead with satisfaction.

Then, with a wave of his hand, he put away all the trophies and the abilities transformed by the two guardians.

So far, the energy he has harvested includes a total of 4 groups of mid-stage Quasi-Saint Ancestor energy and 11 groups of early-stage Quasi-Saint Ancestor energy. The harvest is extremely rich.

In addition, he obtained two more fragments of the Xuanwu Divine Mark, two fragments of the Heavenly Seal of the Xuanwu Holy Realm, and two pieces of Wupi Taoist robes.

Although the five-dimensional Taoist robe is not a holy weapon, it is considered to be the best among non-holy weapons and its value is also very high.

Qin Feng had a gut feeling that it would be of great use in the future, so he carefully collected it.

After counting the loot, Qin Fengyou casually looked at the storage rings of the two guardians.

After reading this, his face showed a look of joy.

I saw that the storage rings of the two guardians were filled with all kinds of high-quality medicinal materials and various rare resources, which had been well preserved after countless years.

What pleased him the most was that he found two jade bottles inside the two storage rings, both of which contained a large amount of Nine Heavens Jade Dew, a total of more than 30,000 drops.

Then, he took out the first guardian's storage and found more than 10,000 drops of Nine Heavens Jade Dew.

At this point, the Nine Heavens Jade Dew on his body had accumulated to about 80,000 drops, which made him very satisfied.

After counting the trophies, Qin Feng and the shadow clones flew deep into the valley.....

Not long after, the two reached the depths of the valley and arrived at the door of the temple.

I saw that the temple was ten thousand feet high and thousands of miles wide. It was extremely majestic. The entire temple was shrouded in colorful rays of light, shining and extraordinary...

Qin Feng and the shadow clone entered the temple directly without hesitation.....

After passing through a large courtyard with a rockery and a leisurely courtyard, and a white jade corridor with carved railings and painted buildings, the two came to the main hall... As soon as they entered the hall, Qin Feng saw three corridors on the left, middle and right of the main hall. Leading to the depths of the hall.

He thought for a while and then acted separately from the shadow clone.

He entered the corridor on the left, and the phantom clone entered corridors on the sides, leaving the middle corridor to be explored last.....

Entering the corridor on the left, it didn't take long for Qin Feng to see a secret room. The stone door outside was tightly closed and covered with various forbidden runes.

After observing it for a while, he discovered that it was an ancient restriction. If you use the conventional method of breaking the restriction, it cannot be broken in an hour. If you want to break the restriction quickly, you can break it with force...

Fortunately, the restriction The force is much weaker than the restriction at the entrance to the valley, and it only takes a full blow from the pinnacle Saint Ancestor to break the restriction.

But if you were in the late stage of Quasi-Saint Ancestor, it would be difficult to break the ban without a day or two...

Thinking of this, Qin Feng did not hesitate and punched the stone gate directly.....

Boom~!

Click~!

An earth-shattering bang!

The stone door shattered instantly!

Dust and smoke are everywhere, and gravel is flying!

When the dust settled, Qin Feng walked into the secret room and saw that there was no one in the secret room, and there was a tripod-shaped alchemy furnace in the center.

Next to the alchemy furnace, there is a gray futon.

Around the secret room, there are many antique wooden shelves with various jade boxes and jade bottles placed on them...

In addition, the air is filled with various faint medicinal fragrances.....

Obviously, this is an alchemy room

"The grade of this alchemy furnace is pretty good!"

Qin Feng stepped forward, looked at the alchemy furnace for a while, and then opened the lid of the cauldron...

As soon as he opened it, a burst of elixir fragrance came to his face, refreshing his heart.

When Qin Feng took a closer look, a look of great joy appeared on his face. Color.

I saw twenty-three divine pills neatly arranged in the alchemy furnace. Each pill had nine golden rings on it. It was the divine pill of the upper realm—Nine-turn Golden Body Pill!

This Nine-turn Golden Body Pill One pill is worth 1,000 drops of Nine Heavens Jade Dew, and 23 pills equals 23,000 drops for the family.

You must know that only the first place in the first assessment will be rewarded with 20 Nine-turn Golden Body Pills.

It can be seen from this that the Nine-turn Golden Body Pill Pills are extremely precious.

He didn't expect that when he entered the first secret room, he got 23 Nine-turn Golden Body Pills, which was more than the first place in the first assessment!

This harvest was extremely rich!

No wonder, this The forbidden power on each secret room requires the full blow of the peak giant to blast through it.

Obviously, the more good things are hidden, the greater the obstacles and difficulties set by the will of the secret place will be.

Fortunately, Qin Feng has excellent combat power. If If a player from the early stage of the Quasi-Saint Ancestor came here, he would be able to barely break the restrictions of this secret room within seven days. In this way, he would have no time to collect treasures elsewhere.

This palace definitely has more than one secret room.. At that moment, Qin Feng happily put away the 23 Golden Body Pills, and also the alchemy furnace.

The Nine-turn Golden Body Pill was of little use to him, but it could greatly improve the strength of his subordinates, and also It can be exchanged for Nine Heavens Jade Dew.

One Golden Body Pill can be exchanged for more than a thousand drops of Nine Heavens Jade Dew. These 23 Golden Body Pills may be exchanged for a lot of Nine Heavens Jade Dew...

Nine Heavens Jade Dew is what Qin Feng is extremely eager for!

He condenses The Vermillion Bird Divine Pattern, the White Tiger Divine Pattern, and the Azure Dragon Divine Pattern all require a large amount of jade dew.

And the eight spiritual root seeds in his hand also need to be cultivated with a large amount of jade dew, which is how he quickly cultivated his men into quasi-saint ancestors. It's a trick.....

After putting away the Golden Body Pill and the pill furnace, Qin Feng checked the medicine shelves around him and found a lot of good things.

The jade boxes and bottles were filled with elixirs.

However, those elixirs are all divine elixirs from the middle and lower realms, which Qin Feng himself does not like, but they are of great use to subordinates below the Heavenly Sage.

He made a rough calculation and found that there were no less than 300 magical pills of various kinds, which could greatly enhance the strength of subordinates below the level of Tiansheng.

Qin Feng put it away with satisfaction.

In just a moment, Qin Feng swept away all the supplies in the alchemy room. Even the ordinary-looking gray futon was taken away by him.....

After searching everything, Qin Feng walked out of the secret room.

When he came out, the hall suddenly trembled violently, and a huge crash sounded from the other side...

Qin Feng raised his head, looked in the direction of the crash, and smiled.

It turned out that the phantom clone also discovered a secret room in another corridor and began to bombard the door of the secret room to forcefully break the ban.

Qin Feng ignored it and continued to search along the corridor.....

Along the way, the entire temple was trembling under the bombardment of the phantom clones.

A full quarter of an hour passed before the bombardment suddenly stopped.

Obviously, the combat power of the phantom clone is not as good as the main body, and the speed of breaking the ban is much slower.

However, the gains from the phantom clone are also great.

The secret room he broke through was also an alchemy room, and he found seventeen Nine-turn Yuanshen Pills in it...

The market price of the Nine-turn Yuanshen Pills is more than 1,500 drops of Nine Heavens Jade Dew, which is more precious than the Golden Body Pill.....

In that secret room, the phantom clone found no less than 300 divine pills for the middle and lower realms, which can be said to be a fruitful harvest.....

But on this side, while the shadow clone was searching for pills, Qin Feng discovered the second secret room.

The restraining power of that secret room was more than twice as strong as the first one.

This time, it took him half an hour to break through the restriction and break through the door.

It was also an alchemy room.

This time, Qin Feng not only found twelve Nine-turn Golden Body Pills from the room, but also found six Jiji Divine Pills.

The Ultimate Transformation Divine Pill is also an upper realm divine pill, and its value on the market is more than 3,000 drops of Nine Heavens Jade Dew.

This magical elixir is ineffective against cultivators above the Heavenly Saint level, but it can help those at the peak of the Supreme Saint level to break through to the Heavenly Saint level in one fell swoop, with a success rate as high as 60%.

In other words, two Ultimate Transformation Pills will definitely be able to cultivate a peak Saint into a Heavenly Saint.

In cultivation, breakthrough is the most difficult thing.

It is not easy for any force to cultivate a heavenly saint.

The discovery of these six ultimate transformation pills made Qin Feng very happy.

There are many peak saints under his command, such as Qinglin, Jiutian Xuanny, Gonggong, Jiuyin, Yingzhao, Xiangliu and so on.

This Ultimate Transformation Divine Pill can just allow him to add a few more Heavenly Saints.

As the strength of his subordinates increases greatly, he can also obtain a large amount of combat power, and his strength will also increase greatly...

In addition, he also collected more than 400 divine pills of various middle and lower realms from the secret room. Much more than the first secret room.....

After searching the second secret room, Qin Feng continued to search and soon found the third secret room.

And the restraining power of the third secret room is more than twice as strong as the second one.
.....

This time, it took Qin Feng more than a quarter of an hour to break the restriction.....

At the same time, the phantom clone also discovered a second secret room in another corridor.

The restraining power on the secret room has naturally more than doubled.....

The phantom clone also exerted all its strength and began to break the ban.....

In this way, Qin Feng and the shadow clone broke through the ban and searched the secret room along the way.....

Inside the temple, earth-shattering roars were constantly heard, causing the entire temple to tremble violently, and even the valley outside was shaking... It only shocked Hongjun and others to look deep into the valley from time to time, curious. What are Qin Feng and Xuying's clones doing?.....

Time flies!

In the blink of an eye, three hours passed!

In the past three hours, Qin Feng and the shadow clones had searched a total of eleven secret rooms, and the harvest was extremely rich, with more than 200 Nine-turn Golden God Pills alone.

There are also many other high-level divine elixirs, several of which Qin Feng does not recognize, and their visual inspection is of higher quality than the Golden Body elixir.

As for the magic pills in the middle and lower realms, more than 5,000 have been accumulated.....

This is a huge gain!

However, Qin Feng and the shadow clones had only completed half of their exploration of the temple. They knew that Di Mang and others would arrive at any time and did not dare to waste time. They continued to search with all their strength, so they had no time to study the unknown upper realm gods. Dan.....

Outside the temple, inside the valley.

Xuan Mi's clone, Hongjun and others shoveled three hundred feet of ground and put two-thirds of the medicine valley into the Great Flood God Realm.

The harvest is even more immeasurable!

However, Qin Feng and others did not know that a group of people were rushing towards the valley at this moment.....

The group was less than an hour away from the valley.

And this group of people is not Di Mang and others, but the group of Ran Deng Ancient Ancestor.

It turns out that the original location of the Randen Ancestor was closest to the valley, so he would be the first force to arrive..
