

## God level 131

### Chapter 131

In the blink of an eye, two days passed.

In the past two days, Wei Qing sent resources early.

The 100 Fire Spirit Pills were all replaced by Ice Spirit Pills.

Chu Chu was so happy.

She has such abundant cultivation resources that she can compete with the true descendants of kings.

In addition, Wei Qing brought Qin Feng two Essence Beads, 100 ml of Emperor Ooze (Fire), and several special items.

It only took Qin Feng more than ten minutes to digest all these resources.

At this moment, he is in the god-level challenge space.

The surrounding environment was somewhat familiar to him. It was the Hell Realm he had entered for the first time.

This is the depths of Hell Fire.

The surrounding temperature is extremely high and the air is boiling hot.

Qin Feng took out a pack of cigarettes from his body.

That was obtained from the demon sword ring.

He smoked a cigarette.

The cigarette butt was stuck to the flaming red rock nearby.

A puff of smoke rose and the cigarette was lit.

The temperature here is so high!

Qin Feng took a long puff of cigarette, which was a bit choking.

He threw away the cigarette butt and looked at the magma pool ahead.

There, the fiery red magma has been rolling and boiling, with bubbles popping up one after another.

His super six senses can sense that there is a powerful spirit below.

Not long ago, he swallowed two essence beads in a row, and his six senses were greatly improved, completely reaching the level of a six-star powerhouse.

His probability of awakening the mysterious element has also been increased to 60%.

In addition, those imperial oozes (fire) were also refined.

The completion rate of the third star pattern of the fire system has increased to 99.9%, just one step away from breaking through to three stars.

In fact, Qin Feng deliberately restrained this.

He still has 20 milliliters of Imperial Liquid Slurry (Fire) left to refine, otherwise he would already have three stars.

He was just waiting to complete this challenge and break through.

Qin Feng looked at the magma pool for a while. The monster inside had no intention of coming out and seemed not to sense his presence.

Maybe that guy's six senses are not as good as mine.

At the moment, Qin Feng started preparations.

He dug a big hole directly on the spot and took out a plastic doll from the storage ring.

The clothes this doll is wearing are exactly the same as those on Qin Feng.

He also put makeup on the doll to try to look like himself.

Then, he buried the doll in the ground.

This is no ordinary doll. It contains the scent of his blood and two miniature nuclear warheads.

The power of a micro nuclear warhead is more than ten times that of a super micro.

Wei Qing spent a lot of effort to help him get this, and it cost a lot of favors.

After burying the doll, Qin Feng took out dozens of high-explosive grenades and threw them into the lava pool.

Boom~! Boom~! boom~!.....

There was a violent bombardment.

Angry roars came from the bottom of the lava pool.

The next second, a spirit that was more than ten meters long and looked like a dog and a dragon rushed out, causing a wave of fire that was tens of meters high.

Immediately, it looked at Qin Feng with great anger.

At the same time, its eyebrows split open automatically, revealing its third eye, which glowed with golden flames.

A light screen popped up in Qin Feng's eyes.

Category: Spirit

Name: Three-eyed Fire Beast (elite level)

Level: Level 27 (early six-star stage)

Skill: Burning Sky Golden Flame (super skill, first kill can drop skill stones)

Warning: Extremely dangerous level (win rate is lower than 0.1%)

Damn it! An elite monster in the early six-star stage!

Damn it! Why is the winning rate below 0.1%?

What is the difference between this and 0%?

Qin Feng was unable to complain

"Ding! The divine challenge begins!"

Challenge content: Kill the three-eyed fire beast within ten minutes!"

"Ding! The challenge will automatically start after 3 seconds...3...2...1.."

"Ding! The challenge begins! Automatic timer 10:00....."

As soon as the mission was activated, Qin Feng quickly took out a rocket launcher from the ring and aimed it at the three-eyed fire beast.

Roar~!

At this time, the three-eyed fire beast roared angrily.

The land with a radius of a thousand meters was shaking.

It stared at Qin Feng angrily.

It was the little thing in front of him that disturbed its nap and offended its majesty.

It's going to eat this little thing.

But at this moment, Qin Feng pulled the trigger, and the rocket instantly hit the face of the three-eyed fire beast and exploded.

The three-eyed fire beast was a little confused.

Damn it~!

Before it even got mad, this little thing slapped it in the face.

The next second, it went crazy.

Flames arose all over his body, roaring wildly, and he rushed towards Qin Feng.

It wants to eat this little thing.

Qin Feng threw away the rocket launcher and immediately escaped into the ground, drilling into the ground desperately. twenty meters.....Forty meters....fifty meters.....

In just a moment, Qin Feng escaped more than fifty meters deep.

At the same time, he also used the ice concealment technique to try his best to hide his aura.

The three-eyed fire beast immediately pounced on Qin Feng's escape position and grabbed it underground with one claw.

The gravel and dust were flying, and the three-eyed fire beast grabbed a doll with exactly the same clothes and the same aura.

That's right! It's that nasty little thing!

Without thinking, it opened its mouth and swallowed the doll, belching.

Um?!

Why do you feel like there is a similar aura underground?

The three-eyed fire beast looked at the ground with some doubts, and there was something vaguely wrong in his heart.

But at this moment, Qin Feng activated the detonation device, and two miniature nuclear warheads exploded directly in its stomach.

The dazzling explosion light lit up the world, accompanied by extremely shrill screams.

At the same time, Qin Feng was already seventy or eighty meters deep underground.

The moment he pressed the detonation device, he curled up, and the countercurrent sand in his body surged out, wrapping and protecting him.

The micronuclear warhead detonated, causing the earth to crack and tremble.

Even with the protection of Counter Quicksand and Yuanwu Armor.

The shock wave of the explosion, separated by the thick ground, also caused blood to bleed from all his orifices.

At this moment, the demon core he had devoured in advance was repairing his injuries at a rapid pace.

The explosion lasted for several minutes before calming down.

Qin Feng quickly escaped from the ground.

An extremely huge pit appeared on the ground, and the three-eyed fire beast's body was completely exploded, making it extremely miserable.

What is horrifying is that it is not completely dead. It is lying there dying, its vitality is frighteningly tenacious.

Qin Feng drew out the Yanlong Sword and killed him easily.

This is the easiest god-level challenge he has ever won.

The body of the three-eyed fire beast collapsed, leaving a crystal core, a golden eyeball, and a skill stone on the ground.

Qin Feng was ecstatic when he saw the skill stone.

That is a super skill that can only be mastered by the Seven-Star King!.

Chapter 132

Qin Feng quickly put away the loot.

Of those level 27 crystal nuclei, the system directly recycled 20 billion.

As a result, his assets are more than 33 billion.

He picked up the skill stone happily.

Item name: Skill Stone (Sky Burning Golden Flame)

Category: Rare Item (Extremely Rare)

Skill Level: Super Skill, Fire System, infinite growth.

Devouring conditions: 1. The fire element power reaches the six-star level

2. Possess the Burning Sky Golden Eyes

"Ha ha! This skill can grow infinitely!"

Qin Feng was full of surprises.

In other words, as long as he meets the conditions, he can even evolve the Burning Sky Golden Flame into an eight-star king-level skill, a nine-star emperor-level skill, or even a god-level skill.

After being excited, Qin Feng looked at the Devouring Conditions.

The first one, he is lucky, it just fits the second one. Need the Burning Sky Golden Eyes?

Qin Feng thought of something and took out the golden eyeball.

Item name: Burning Sky Golden Eyes

Category: Foreign Objects from Heaven and Earth (Uniqueness)

Note: Can this thing be swallowed?

Qin Feng hesitated for a moment, then swallowed it.

God-level swallowing was in motion, and the Burning Sky Golden Eyes turned into a stream of clear air, rushed directly to his head, and then poured into the center of his eyebrows.

Later, Qin Feng's eyebrows were swollen and painful, and he felt numb and itchy, as if something was growing.

This feeling lasted for a few minutes, and then an extremely comfortable feeling came from his eyebrows.

For a moment , Finally, a crack appeared between his eyebrows. The crack slowly opened, revealing a golden vertical pupil, exuding a vague majesty and showing a noble temperament.

"Ding! Devour successfully.....Congratulations to the host for obtaining the Burning Sky Golden Eyes...."

Sure enough!

Qin Feng quickly swallowed the skill stone

"Ding! Successfully swallowing the skill stone... Congratulations to the host for obtaining the super skill - Sky-burning Golden Flame!"

Qin Feng only felt a heat between his brows, and some changes occurred in Fentian's golden pupils.

Deep in the pupils, there was a small group of golden flames burning.

With a thought in his mind, countercurrent sand poured out of his body, forming a shield in the air. The next second, a finger-thick golden fire pillar shot out from Qin Feng's golden pupils, directly punching a big hole in the shield on the opposite side.

The shield suddenly collapsed and turned into a ball of counter-quick sand, returning to Qin Feng's body.

Haha!! This power is too strong!

Qin Feng was pleasantly surprised.

The shield formed against the quicksand had a defensive power comparable to that of a middle-grade Yuanwu weapon, but it could not block the blow of the Burning Sky Golden Flame.

This time The harvest was very good.

Suddenly, the system prompted that the stay time had expired.

A burst of white light flashed, and Qin Feng returned to the earth world.

In the secret room, Qin Feng looked at himself with a look of joy.

"Ding! Congratulations to the host for completing the two-star god level challenge and starting to distribute rewards....."

"Ding! Reward 3 pieces of wind star pattern fragments!"

"Ding! Reward 3 thunder star pattern fragments!"

"Ding! Reward 3 pieces of fire star pattern fragments!"

"Ding! Reward 3 pieces of ice star pattern fragments!"

"Ding! Reward 3 pieces of earth star pattern fragments!"

"Ding! Reward 3 high-level strengthening stones!"

"Ding! 3 fire demon cores (three-star perfection)...."

These star pattern fragments are still useful in condensing the third star pattern, but the effect is gradually weakening.

For example, digesting a star pattern fragment will complete the third star pattern by 20%, the fourth star pattern by 10%, and the fifth star pattern by 5%.....

Half an hour later, Qin Feng finished digesting all the rewards and used up the 20 ml of Emperor's Liquid Slurry (Fire) on his body.

His fire element successfully broke through to a three-star fire elemental master, and his combat power skyrocketed.

His fire energy was once again strengthened by 10%.

The fire elemental power increased, and the power of the Burning Sky Golden Flame also increased by 10%.

This allowed Qin Feng to find a way to improve the Burning Sky Golden Flame.

After breaking through three stars, the one-star and two-star demon cores are no longer helpful in improving cultivation and can only be used to heal injuries.

Qin Feng used the three-star demon core rewarded by the system to upgrade the fire system to three-star perfection, and his strength skyrocketed again.

Later, he used 3 strengthening stones to upgrade the violent strike to an advanced skill - the violent triple strike.

The Earth Escape Technique was promoted to a high-level skill - Advanced Earth Escape Technique (the speed of escape is increased by three times) and the Ice Hidden Technique was promoted to a high-level skill - Advanced Ice Hidden Technique (His aura cannot be detected under the Seven Stars).

In this way, Qin Feng's comprehensive strength has greatly increased again.

At this moment, he was carefully checking the results of his training.

Practitioner: Qin Feng (Emperor Level)

Earth Element Realm (Peerless): Two Star Great Perfection (Third Star Pattern 60%)

Wind Element Realm (Peerless): Two Star Great Perfection (Third Star Pattern 97%)

Thunder Element Realm (Peerless) ): Two-star Dzogchen (third star pattern 68%)

Ice realm (peerless): Two-star Dzogchen (third star pattern 68%)

Fire realm (absolute): Three-star Dzogchen (fourth star pattern 31%)

Battle Power Index: 100,000 points

After reading the data, Qin Feng was ecstatic.

His title changed from quasi-emperor level to emperor level, and his combat power also skyrocketed to 100,000 points, reaching the level of five-star perfection.

If he uses violent transformation again, the combat power amplitude will reach a small level, reaching more than 130,000 points.

He is confident that he can compete with the six-star early stage masters.

You know, the initial six-star combat power threshold is 200,000 points.

But he has more advanced skills than the six-star masters, as well as a super skill and god-level fighting skills.

This is the basis of his confidence.

In fact, there are very few elemental masters who can break through to six stars.

Six-star is the second threshold for elemental masters. The span of combat power begins to increase, and the difficulty of cross-level challenges also increases.

But as long as you enter the early six-star stage, you are equivalent to entering the ranks of top experts.

Qin Feng has already entered this ranks.

A quarter of an hour later, Qin Feng left the secret room in a happy mood.

Tomorrow is the day of the Zhucheng martial arts competition, and he has to make some preparations..

## Chapter 133

After leaving the secret practice room, Qin Feng saw Chu Chu in the hall.

The little girl is lying on the sofa, with her little feet crossed, humming a tune, looking very happy

"Chu Chu, why are you so happy?", Qin Feng smiled and sat next to her

"whee! Today, I beat Sister Xixi until she cried!", Chu Chu suddenly turned over and stood up

"Uh... are you competing again?"

"Yes! She asked the top fighting master in Yunyang City to fight me today, and I won seven games in a row. Sister Xixi is about to cry."

Chu Chu said with beaming eyebrows

"Fortunately, I have recently awakened and my fighting skills have improved a lot. Otherwise, it's hard to say whether we will win or lose. By the way, the number one fighting master said he had seen you!"

"Have you seen me? What does that person look like?"Qin Feng also became curious.

"She calls herself the Queen of Freedom and is wearing a mask!"

"Um, is it Liu Yan?"

"It can't be Sister Yan! If it was Sister Yan, I would recognize her even if she was wearing a mask."

"Oh, who is that?"

Qin Feng thought for a while. He seemed to have never seen such a person.

He shook his head.Too lazy to think about it.

Two days ago, Wei Qing announced his promotion to Lord.

His fame has spread throughout Yunyang City, and his popularity is unparalleled, even the city lord cannot compare with him.

This increased his fans several times, and more and more people said they knew him and were proud of it.

"Little girl, it seems you are not lazy."

Qin Feng looked at Chu Chu with a look of relief.

The little girl has already achieved one-star perfection.

In the past two days, Chu Chu refined 60 ice spirit pills and finally forcibly upgraded her cultivation to one-star perfection.

Since she awakened With the ability to control the flow of time, she can refine elixirs five times faster than ordinary people. It only took her a day and a half to refine 60 ice elixirs.

Today, she still has 100 ice elixirs. Pill.

Unfortunately, she has reached a bottleneck.

The Ice Spirit Pill can only improve her cultivation level, but cannot condense the second star pattern.

However, Chu Chu's ice-type talent is already peerless. Even without any external help, she can achieve the goal within a month. Condensing the second star pattern

"Brother, I am now a fourth-level Viscount. If I can break through to the early stage of two stars, I will definitely be promoted to earl!"

The little girl is in a very good mood.

These days are the happiest days for her cultivation. She can't use up all her cultivation resources, which makes her happy just thinking about it.

And her overall strength is comparable to the two-star Dzogchen, or even better.

Just between the brother and sister While the two were chatting, Wei Qing came to visit again.

In the living room, Wei Qing looked at Qin Feng with a look of surprise.

"Deputy City Lord Qin, have you broken through to three stars?"

He vaguely felt that there were three fire star pattern fluctuations on Qin Feng's body, but he couldn't sense the specific cultivation level.

Qin Feng smiled and nodded.

Wei Qing was overjoyed: "Haha!! This is exactly too good! Deputy City Lord Qin, your breakthrough was too timely. By the way, your current strength is comparable to that of the five-star early stage, right?"

Qin Feng smiled and said nothing.

He can now fight the five-star Dzogchen with just the fire element and god-level fighting skills, let alone the early five-star.

If he uses all five elements, his strength will be comparable to that of the early six-star..

If Wei Qing knew about this, I'm afraid he would be frightened.

Wei Qing looked at Qin Feng's calm smile, and he also smiled happily

"It seems that Deputy City Lord Qin's strength has indeed reached the early stage of five-star. This is great. Our Yunyang City's risk of being downgraded can be avoided. Qin Feng was confused:"

Didn't Yunyang City just succeed in promotion?" What's going on with this downgrade risk?"

Wei Qing quickly explained.

It turns out that each level of city has a performance point assessment standard.

Yunyang City has just been promoted to a third-level city, and its current points are 0, starting from the starting | point.

If Yunyang City's points If it becomes a negative number and cannot recover to more than 0 points within a year, it will be downgraded to a fourth-level city.

And tomorrow's Zhucheng Martial Arts Competition is a grand event that occurs once every ten years. It is a great opportunity for each city to earn points.

At the same time, it may also be Opportunities to lose points.

Every time after Zhucheng competes, a base city will be downgraded.

Today, the Southern Alliance has only 2 first-level cities, 7 second-level cities, and 16 third-level cities.

In other words, there are 25 third-level cities and above.

If Yunyang City ranks 25th overall in this competition, it will just pass and get 0 points. If it is lower than 25th, points will be deducted. If it is higher than 25th, points will be increased.

Now Qin Feng is very powerful With the increase, Wei Qing feels that the 25th place is within reach.

As long as Yunyang City is not deducted points, he is confident that Yunyang City will soon stabilize its status as a third-level city.

After all, Yunyang City has just received a large amount of resources and is running out of time. , just buy some time for Yunyang City, that's enough

"So this is ah!", Qin Feng smiled slightly,"If we enter the top ten, will Yunyang City get a lot of points?

Wei Qing smiled and said,"Of course!" If we can enter the top ten, our Yunyang City will not be at risk of being downgraded. We can maintain our position no matter how we develop in the future."

"However, it is impossible for us to enter the top ten. Among the top ten, nine positions have already been occupied by 2 first-level cities and 7 second-level cities. If you want to fight for the remaining seat, you must be the strongest being in the third-level city.

Qin Feng smiled:"It may not be impossible!"

Wei Qing didn't pay attention to these words. He thought Qin Feng was just talking casually.

"Deputy City Lord Qin, I am here this time to inform you that we will meet at the City Lord's Mansion at seven o'clock tomorrow morning, and then go to the headquarters to compete together."

"good!"

"By the way, I wonder if Deputy City Lord Qin still needs the Jing Yuan Pearl? I got another one yesterday."

Wei Qing took out a Jingyuan Pearl with a smile on his face and looked a little flattering.

Qin Feng was overjoyed:"Thank you, Brother Wei! This is exactly what I need!"

At that moment, he readily transferred 10 billion to Wei Qing.

After getting the Jingyuan Pearl, Qin Feng felt secretly happy.

After he broke through three stars, his mental power increased greatly, his six senses were strengthened again, and he was infinitely close to the level of a seven-star powerhouse.

His probability of awakening the mysterious element has increased to 70%.

If he swallows this essence bead again, his six senses will definitelyReaching the seven-star level, the awakening probability can also be increased to 80%.

In this way, the possibility of awakening failure is very small.

Even if his awakening fails and his mental power reaches the seven-star level, he can still learn the piano master's resonance technique.

"Ha ha!! As long as Deputy City Lord Qin is satisfied, I'll take my leave!"

Wei Qing is in a good mood.

He just likes what he likes.

Seeing that Qin Feng is satisfied, he is also happy

"Brother Wei, let's go! I'll be there early tomorrow morning as promised!"

At that moment, Wei Qing left in a hurry.

He wanted to inform Shangguan Yunyang of the good news of Qin Feng's breakthrough..

Chapter 134

After Wei Qing left, Chu Chu went to play fighting.

That was the only way she could improve her time flow sensitivity.

The conference is about to start tomorrow, and she wants to become stronger so that she can help her brother cheat.

Qin Feng was the only one left in the living room.

He directly swallowed the Jingyuan Pearl, and his six senses greatly increased again, finally reaching the level of a seven-star elemental master.

The probability of awakening the mysterious element has been increased to 80%.

Qin Feng was satisfied.

Then, he opened the system mall interface.

After breaking through to Samsung, the mall has also been upgraded to a level with two new products.

High-grade strengthening stone, unit price is 10 billion.

Enlightenment Stone: Unit price is 1 billion.

Enlightenment Stone (after swallowed, understanding increases 100 times, duration 10 minutes)

These are extremely useful treasures.

Qin Feng directly bought 3 enlightenment stones and closed the mall interface.

Then, he took out a secret book, which was the violinist's resonance technique.

His hearing has reached the level of Seven Stars Maharaja and he is ready to learn.

"Ding! Devouring the Enlightenment Stone Successfully.....Comprehension increases 100 times...lasts for 10 minutes...."

Qin Feng suddenly felt that his mind was clear and he could draw parallels.

He quickly flipped through the secret book and watched it carefully.

Qin Feng was surprised to find that even his memory had been strengthened, and he could remember ten lines at a glance.

After a moment, he looked happy and seemed to have an epiphany.

In the blink of an eye, ten minutes passed.

Qin Feng read the secret book word for word, memorized it all, and could even recite it backwards and forwards.

"Ding! Congratulations to the host for mastering the secret technique - Resonance Ultimate... Proficiency: Entry level."

Resonance ultimate attack is a secret technique, and its power is comparable to super skills.

The master of the resonance ultimate attack is at the entry level.

Therefore, he has to rely on the seven-stringed guqin to barely use it.

If the violin master's skills were perfect, what would have happened to Qin Feng at that time It's hard to say

"Ding! Devouring the Enlightenment Stone Successfully.....Comprehension increases 100 times...lasts for 10 minutes....."

Qin Feng continued to comprehend, sitting on the sofa with his eyes closed and meditating.

"Ding! Congratulations to the host for deepening his understanding of resonance and reaching the minor level....."

"Ding! Devouring the Enlightenment Stone Successfully....."

"Ding! Congratulations to the host for deepening his understanding of resonance and reaching the master level....."

This was not enough, Qin Feng spent another 2 billion to buy two enlightenment stones. twenty minutes later

"Ding! Congratulations to the host for his thorough understanding of resonance and perfect control of the secret technique - resonance....."

Qin Feng opened his eyes in surprise and drew out the Tingfeng Sword.

He looked through the window toward the courtyard.

There was a rockery two people high in the center of the courtyard, more than a hundred meters away from him.

Qin Feng slowly raised his sword and shook it slightly.

There was a moment of silence all around, all the breezes stopped, and the heaven and earth trembled.

Then, the rockery a hundred meters away exploded with a loud bang.

Gravel covered the lawn.

But except for the rockery, everything else is intact.

Even the window glass in front of Qin Feng was intact and not shaken.

Ha ha!! I succeeded!

Seeing this scene, Qin Feng was ecstatic.

His mastery of resonance is completely superior to that of the violinist.

Not only can he blend into the swordsmanship, but he can also resonate through the air and kill with targeted clicks.

This will make it difficult for people to guard against it.

The violinist can only attack indiscriminately, which is the lowest level.

Qin Feng put away the Tingfeng Sword with satisfaction.

Completely mastering this secret technique is equivalent to having another super skill and greatly increasing his strength.

Now, he is more confident to fight against the early six-star masters and even defeat them.

Such an explosion also alarmed Chu Chu in the fighting room.

The little girl ran out confused, but was sent back by Qin Feng.

After Chu Chu left, Qin Feng took out the awakening stone and swallowed it directly.

80% chance of awakening, worth fighting for!

After a while, the colorful spiritual stone dissolved and turned into colorful spiritual energy, which went straight to the brain.

Qin Feng suddenly felt a throbbing deep in his soul, and an indescribable feeling grew in his heart.

It is an extremely smooth feeling, as if the whole person's soul has been washed, and all the depression deep in the soul is released, cleared, and completely comfortable.....

"Ding! Devouring the Awakening Stone Successfully....."

"Ding! Congratulations to the host for awakening the seventh consciousness - Mana consciousness....."

"Ding! Congratulations to the host for awakening the power of the mysterious element - space....."

"Ding! Congratulations to the host for acquiring the first space skill - Space Twist...."

"Ding! Congratulations to the host for acquiring the second space skill - Elemental Chaos..."

"Ha ha!! Awakened!"

Qin Feng opened his eyes with ecstasy.

This awakening went very smoothly.

What made him even more ecstatic was that the mysterious power he obtained was actually space.

Space, like time, is an extremely powerful ability.

This pair His strength has greatly improved.

After being excited, Qin Feng began to check out the newly acquired skills.

Space twist: To distort the space to a certain extent, strong spatial sensitivity support is required.

Note: The host space sensitivity is 1.0; continue to improve the spirit Power can comprehensively strengthen the seven senses, thereby increasing the sensitivity.

The stronger the sensitivity, the more powerful the skill.

After awakening the seventh consciousness, Qin Feng changes from six senses to seven senses.

He can sense many things that ordinary people cannot sense. Things.

In his eyes, the world has become a little different from ordinary people.

Qin Feng guessed that Chu Chu has also awakened the seventh consciousness.

And the way this girl strengthens her mental power is to fight, which is a bit special.

Qin Feng feels that when he is free, Also try fighting to see if you can strengthen your mental power.

After all, Jingyuan beads are rare and will not always be available.

Then, Qin Feng began to check the second skill elemental chaos: based on the four elements of earth, fire, water, and wind. , fusing the four series of elements into one can obtain the most basic chaotic elemental force, also known as the four series of Hunyuan force..Ice is a variant of water, and earth, fire, ice and wind can also be fused.

Note: Each time this chaotic energy is fused with one more element, its power will increase by one point. It can infinitely fuse other elements and continuously improve its quality. When it reaches the limit, it can have the power of creation to open up space.

Seeing this, Qin Feng was ecstatic.

This ability is too powerful.

Not only is it practical, it also has unlimited growth potential.

According to that development, has the power of creation reached the god level?

The more Qin Feng thought about it, the more excited he became

"Ding! It is detected that the host has the power of ice, wind, thunder, fire and wind....."

"Ding! May I ask if you want to activate elemental chaos and fuse the five series of Hunyuan power?...."

Chapter 135

"Fusion!"

Qin Feng made his choice without hesitation.

In the Shenting acupoint, the fire, wind, thunder, ice, and earth divine seals began to merge with each other. The star patterns of the five systems collapsed one after another. Start regrouping.....

Qin Feng's body lit up with five-color aura.

After a while, the five colors of aura merged into one, turning into a gray aura, which was the light of Hunyuan.

His momentum also skyrocketed.

The five series of Hunyuan Power were successfully integrated.

Qin Feng's thoughts moved, and the Hunyuan aura around him turned into a red fire aura, and his fighting power did not weaken at all.

It turns out it can be like this!

Qin Feng was overjoyed.

This five-series Hunyuan power can simulate any one of the five series.

For example, when the fire element is simulated, it appears to be fire elemental power, but in reality it is Hunyuan power.

Even the Nine-Star Emperor may not be able to spot this kind of disguise.

From now on, he no longer has to hide his strength and can display it in front of others.

Qin Feng opened the training template, and huge changes took place on it.

Practitioner: Qin Feng (Emperor Level)

Hunyuan Realm (Five Elements): Mid-Three Stars

Five Elements Attributes: Ice, Wind, Fire, Thunder, Earth

Combat Power Index: 150,000 points

Space Ability: First Level (sensitivity 1.0, enhanced Mental power can increase the sensitivity)

Note: When the sensitivity exceeds 2.0, the spatial ability is promoted to the second level, and a qualitative leap will occur.

Damn it! The combat power has skyrocketed to 150,000 points!

Qin Feng was ecstatic.

After transforming into chaos, his combat power actually increased by 50,000 points.

If he performs the violent transformation again, his combat power will increase by a small level to over 190,000.

Coupled with his many methods and spatial abilities, he can compete with mid-six-star masters.

You know, the mid-six-star combat power threshold is 300,000 points.

After six stars, every time you advance to a small realm, the span of combat power is huge, and every step is a qualitative leap.

Qin Feng has mid-six-star strength, and his qualifications as a top master are fully assured.

At the same time, he was pleasantly surprised to find that his Hunyuan cultivation level was only in the mid-three-star stage.

This means that as long as he swallows a large number of three-star demon cores, he can break through to three-star perfection in a short time and his strength will skyrocket.

Unfortunately, three-star demon cores are so rare that Yunyang City does not sell them.

This makes Qin Feng look forward to tomorrow's Zhucheng martial arts competition even more.

The military meeting was held at the headquarters of the Confederacy.

The headquarters city is a super base city, one level higher than the first-level city. There must be three-star or above demon cores for sale.....

Time flies.

Early the next morning, the Qin Feng brothers and sisters arrived at the city lord's mansion.

At this moment, everyone was chatting at the gate of the City Lord's Mansion while waiting for the Alliance fighter plane to pick them up.

Shangguan Yunyang saw Chu Chu coming and didn't ask anything.

At such a grand event, many contestants will bring their families to watch, which is normal.

Just like him, he also came here with his daughter Shangguan Zixi.

After all, it's a grand event that happens once every ten years to open up my daughter's eyes.

Naturally, he didn't know that Qin Feng had taken Chu Chu there with the intention of cheating.

When Shangguan Zixi saw Qin Feng, her face turned red and she went to the side to chat with Chu Chu.

When the two chatted, Shangguan Zixi always peeked at Qin Feng secretly.

Qin Feng is very handsome today!

He is wearing a blue and black official uniform, which is exquisite and well-fitted. Every fold line is straight, making him look dignified.

Coupled with his extremely handsome facial features and flawless skin, he is so handsome that it makes people feel breathtaking.

What made Zi Xi's heart beat faster was that there was a faint red line between Qin Feng's eyebrows, making him even more evil.

This kind of handsome man with a hint of evil is fatally attractive to girls.

What's more, Qin Feng is still an extremely rare super genius.

Not only Zi Xi, but also Zhou Tong's eyes lit up when he saw Qin Feng.

I haven't seen this young man for a few days. His temperament has changed a lot and he is more attractive than before.

Especially the looming red line between her eyebrows always gives her an evil feeling, which makes people curious.

She couldn't help but her beautiful eyes shone, and her smile became sweeter when she looked at Qin Feng.

She didn't know that beneath the red line between Qin Feng's brows was the Burning Sky Golden Eyes.

At this moment, Qin Feng and Shangguan Yunyang were chatting very happily, and everyone was in a good mood.

Because we haven't seen each other for a few days, everyone has made great progress in cultivation.

Shangguan Yunyang broke through to the mid-five-star level; Wei Qing broke through to the four-star Great Perfection level; Zhou Tong and Li Yu broke through to the mid-four-star level.

The alliance has allocated a large amount of resources, and they are not given in vain.

However, in the eyes of everyone, Qin Feng has made the greatest progress, directly breaking through from the two-star Dzogchen to the mid-three-star.

Three-star level is the first threshold for elemental masters. It is very difficult to break through. It is even harder than breaking through from four-star level to five-star level.

Qin Feng was able to break through easily. Everyone had expected it, but they were still filled with emotion.

"Deputy City Lord Qin, do you smoke?", Shangguan Yunyang took out a cigarette.

Qin Feng smiled and shook his head.

Shangguan Yunyang smiled and held it in his mouth.

Wei Qing helped him light it, and then said with a happy face: "City Lord, this time, our overall strength is greater Increase, you will definitely get a good ranking"

"It is certain to improve the ranking, but I am worried that I will not reach the 25th place. If we rank lower than this, we will be deducted points.", Shangguan Yunyang handed Wei Qing a cigarette.

"What's more, our successful promotion this time was a bit tricky, and many city lords are very jealous. They are all waiting to see our jokes."

Shangguan Yunyang exhaled a puff of smoke, but there was still some worry deep in his eyes.

People like him are very concerned about face.

"Ah! It's useless for those guys to be jealous. Who prevents their city from producing super geniuses like Vice City Master Qin!", but Wei Qing looked proud.

He smiled and lit a cigarette for himself, but saw Chu Chu looking at him with big eyes.

He immediately changed his mind:"By the way, there are also great geniuses like Miss Chu Chu, they also No. Who can blame this?"

Chu Chu smiled sweetly, and her big eyes turned into crescent moons.

Qin Feng looked at it and found it a little funny.

Wei Qing blew out a puff of smoke and said:"Besides, Deputy City Lord Qin also has the strength of the early five-star stage. This time he won No. 25, very promising."

Hearing this, Shangguan Yunyang's eyes flashed with joy.

He had heard Wei Qing mention this matter.

"Deputy City Lord Qin, I have to rely on you this time. Of course, it may be a little difficult this time, so we just have to do our best....",Shangguan Yunyang's tone was somewhat complimentary.

Qin Feng is the lucky star of Yunyang City.

I wonder if this time, can it bring good luck to Yunyang City?

"City Lord, how many names did our Yunyang City win in the last term?", Qin Feng asked casually

"this....", Shangguan Yunyang was a little embarrassed,"We only finished 47th last time. However, our Yunyang City has made great progress in the past ten years."

He is a person who cares about face.

Qin Feng smiled:"This time, I will try my best to help Yunyang City break into the top ten."

"As long as I can get to the 25th place, I don't dare to hope for the top ten!"

Shangguan Yunyang smiled and did not take Qin Feng's words seriously.

At this moment, the roar of machines sounded in the distant air.

A huge saucer-shaped aircraft was flying at an extremely fast speed.

That speed was Fast, comparable to the Seven-Star King.

Everyone was happy, the alliance came to pick up their fighter plane, and it finally arrived..

## Chapter 136

Not long after, the saucer-shaped aircraft landed in front of the mansion.

The ground shook slightly.

The hatch rises and the silver steps automatically extend

"Let's go!"

Shangguan Yunyang put out his cigarette butts and took the lead on the plane.

Wei Qing and others followed.

After Shangguan Yunyang and others boarded the plane, the saucer-shaped aircraft took off again and flew towards the alliance headquarters.

According to the rules of the competition, each city There can only be three contestants and one substitute.

This time, Shangguan Yunyang, Wei Qing, and Qin Feng competed in Yunyang City, with Zhou Tong as the substitute. Li Yu stayed behind in Yunyang City.

In the cabin, Shangguan Zixi and Chu Chu sat Chatting together.

Shangguan Yunyang and Wei Qing were discussing strategic layout.

Qin Feng was leaning on the sofa comfortably.

A beautiful female flight attendant brought a cup of hot coffee and the service was very attentive.

At this time, Zhou Tong left Come over and sit next to him

"Sister Zhou, are there any demon cores with three stars or above available for sale in Nandu City?"  
Qin Feng took a leisurely sip of coffee.

Nandu Base City is where the alliance headquarters is located and is also the only super city in the alliance.

"Of course! Zhou Tong said with a smile,"Not to mention three-star demon cores, five-star ones are all for sale. Nandu City is not an ordinary base city. It is very large and very prosperous.""

Qin Feng was overjoyed.

He was worried about how to upgrade to three-star perfection. He could just sell the demon core.

"Deputy City Lord Qin, the three-star demon core is not cheap, with a value ranging from 300 million to 1 billion. What do you want that for?", Zhou Tong asked casually

"Something special!", Qin Feng smiled

"Do you want a lot of pills?"

"Well, one shouldn't be enough! Zhou

Tong smiled sweetly:"I suggest you not to buy it!"

"Why?"

Zhou Tong smiled and said:"The first match of this martial arts competition is related to hunting monsters. At that time, all the monster cores hunted will belong to the contestants personally. There are not only three-star monsters in them, but also four-star and five-star monsters, and even six-star monsters."

"By then, are you still afraid that you won't have any demon core to use? So, I suggest you save some money and don't buy it.

Qin Feng's eyes lit up:"This is a good idea!"

Time flies, and two hours have passed.

Everyone arrived at the alliance headquarters - Nandu Base City.

After getting off the aircraft, Qin Feng discovered that Nandu Base City was the original magic city on the earth.

Now, not only has its name changed, but its appearance has also changed. Great changes have also taken place. In addition to the numerous high-rise buildings, many high-altitude defense systems have been deployed in the sky, mainly to defend against the Star Orcs.

Many high-voltage power grids and various high defense walls have also been established on the edge of the city.

In addition, the population density It was also several times larger than the original earth world.

Qin Feng and others got off the aircraft, and soon specialized personnel came to receive them.

Half an hour later, everyone was taken to the contestants' residential area.

This martial arts competition is the tenth anniversary of the Southern Alliance A once-in-a-lifetime event does not end in a day or two.

The residential area is a villa area.

The staff responsible for the reception is a beautiful woman with a thin waist and long legs, skin as white as jade, exquisite facial features, and an elegant temperament.

Along the way, she has appeared from time to time She peeked at Qin Feng.

This young man was really charming. He had an evil temperament that other handsome guys didn't have, which fascinated her.

However, she thought Qin Feng was a junior of Shangguan Yunyang and others, and he just came to watch the competition and see the world..

She didn't know that Qin Feng was one of the contestants.

If she knew the truth, she would not dare to take a peek.

After all, she was only a small two-star elemental, and she would not dare to offend the contestants.

However, even if She may not believe it if the truth comes out.

After all, Qin Feng is too young, and his cultivation level is only three stars.

In the past, the lowest among the contestants were four-star elemental masters, and she has never seen a three-star competitor.

However, Qin Feng is so young. Even though she was a three-star elementalist, she was still very shocked.

Unconsciously, the group of people arrived in front of a villa

"My lords, this is Villa No. 25, the residence assigned to you. The nanny and servants are already in place. You adults can just check in....."

The beautiful staff introduced enthusiastically.

At this moment, a group of people arrived at the door of Villa No. 24 next door.

This group of people includes two five-star masters, two four-star Dzogchen masters, and several young juniors.

The leader was a fat man with a round face who always had a smile on his face.

His cultivation level is in the late five-star stage.

As soon as the two sides meet.

The fat man with a round face ran over happily

"Oops! Isn't this the Lord of Shangguan City? long time no see!!"

The fat man ran over and shook hands with Shangguan Yunyang enthusiastically, with a kind smile on his face.

"It turns out to be City Lord Zheng Yuan, whom I haven't seen for many years." Shangguan Yunyang also held the opponent's fat hand enthusiastically.

This fat man is also the city lord of a third-level city.

In the past, the fat man's base city was the bottom of the third-level cities.

Now that Yunyang City has been successfully promoted, the bottom position Let's go back to Yunyang City, and Fatty's Wangsha City is ranked second to last.

In fact, these villa numbers are based on the ranking of the base city.

Yunyang City is ranked No. 25, and Wangsha City is No. 24.

At this time, Zheng Yuan looked up Behind Guan Yunyang, he discovered that there was only one five-star expert and two four-star experts in Yunyang City.

As for Qin Feng, he paused for a moment and did not pay too much attention.

This young man only had three stars and was obviously not a contestant.

At the moment, Zheng Yuan was confused. Said:"Lord of Shangguan City, didn't you arrange any substitutes for this competition?"

Substitutes are not necessary. If there are not enough people, you don't have to arrange them.

Zheng Yuan didn't see a fourth expert with four stars or above in Yunyang City, so he thought there was no need for substitutes.

Shangguan Yunyang smiled:"Actually, we...."

Zheng Yuan suddenly slapped his head:"I remembered, something happened to Lin Jianhao. Hey~! Without Lin Jianhao, your Yunyang City has lost a master, and there are still people left in the city. There is not enough manpower to arrange, I can understand.

" The fat man said a lot of things self-righteously.

Shangguan Yunyang was a bit dumbfounded

At this time, Zheng Yuan suddenly lowered his voice and said: "Lord Shangguan City, let me remind you. In this martial arts competition, you must be careful of the people in Hengzhou City, they may cause trouble for you...."

But Shangguan Yunyang smiled and said: "I guessed this would happen, it's understandable."

It turns out that Hengzhou City is the strongest existence in the fourth-level city, and it was the most likely to be promoted to a third-level city.

But this time it was taken away by Yunyang City, and the people of Hengzhou City were naturally unhappy.

This kind of city promotion is approved once every three years.

Each time, only one city can be successfully promoted.

Hengzhou City was originally the most promising, but Yunyang City had two geniuses, and the points suddenly rushed up, squeezing them out.

In this way, Hengzhou City can only wait another three years before being promoted.

But they were not convinced.

This time, they want to prove that Yunyang City is not worthy of being a third-level city, and they want to make Yunyang City look embarrassed.

At the same time, they also need to far surpass Yunyang City in points, letting the entire alliance see who is more suitable for promotion.

Zheng Yuan saw Shangguan Yunyang's relaxed expression and couldn't help but said: "Shangguan City Lord, you may not know yet. Just a few days ago, another person in Hengzhou City broke through to the early five-star stage...."

"And this thing?!" Shangguan Yunyang was a little surprised.

Hengzhou City originally had two five-star masters, but with this breakthrough, there were three. This is not a good situation.

"Why! Brother Shangguan, your position at No. 25 may not be guaranteed this time.....", Zheng Yuan shook his head and sighed.

At this moment, a group of people came to the door of Villa No. 26 next door.

They are from Hengzhou City.

Hengzhou City currently ranks 26th.

When the two sides meet, it can be said that they are enemies on a narrow road..

Chapter 137

"Yo~! Isn't this Yunyang City a lucky city?"

A sour voice sounded from the crowd in Hengzhou City. The person who spoke was the deputy city lord of Hengzhou City.

"Brother Shangguan and Brother Zheng, you two came early!"

Among the crowd in Hengzhou City, there was another gentle middle-aged man who greeted Shangguan Yunyang and Zheng Yuan with a smile.

This man had a calm demeanor, and there was a hint of majesty in his gestures. His cultivation level was in the late five-star stage.

He was Zhao Hengfeng, the lord of Hengzhou City.

"Brother Zhao is not too late!" Shangguan Yunyang showed a faint smile.

Zhao Hengfeng smiled gently: "Brother Shangguan, congratulations on your successful promotion in Yunyang City!"

The tone of these words was so sincere that no one could see any trace of jealousy or jealousy.

But as soon as these words fell, the skinny old man next to Zhao Hengfeng spoke again in a strange way.

"Shangguan City Lord, your Yunyang City has been promoted from 47th to 25th. You are so lucky! I wonder if you will have such good luck in the next martial arts competition? Zhao

Hengfeng quickly stopped him: "Deputy City Lord Liu, luck is also strength. Don't underestimate Yunyang City." I believe Yunyang City can achieve good results this time. Look at their lineup this time....."

Hearing this, the old man Liu Shen looked behind Shangguan Yunyang. Only Wei Qing and Zhou Tong were four-star masters, and the others were juniors.

With such strength, you can't even arrange for a substitute contestant, and you still want to achieve good results. Isn't this a joke?

Liu Shen couldn't help but laugh.

There was a touch of sarcasm in that smile

"Brother Zheng, Brother Zhao, let's talk next time!"

Shangguan Yunyang was too lazy to make excuses with these people.

He entered the small courtyard of the villa directly, and Qin Feng and others followed.

Outside the courtyard, after Shangguan Yunyang entered, Zheng Yuan also left.

The people in Hengzhou City were discussing where they were.

"City Lord, Yunyang City doesn't even have a substitute this time, so it shows how weak it is!"

"hey-hey!! It would be difficult for Yunyang City to make a fool of herself this time...."

"hehe! The ranking I got by luck, but my background is a bit worse after all...."

Everyone in Hengzhou City was gloating about the misfortune.

Zhao Hengfeng shook his head:"We should say less of these words, lest others say that we in Hengzhou City are jealous, we can just watch them make a fool of themselves!"

"Ha ha!! The city lord is so right!"

"By the way, the first martial arts competition tomorrow is a ferocious beast hunting competition. Let's give them a little stumbling block...."

"You are right! What does it mean to make a little tripper...? That's called free competition!"

"Ha ha!! right! right! I was wrong!"

Everyone in Hengzhou City smiled and entered the villa.

In the courtyard of Villa No. 25, Qin Feng looked across the courtyard wall in the direction of Villa No. 26, with a playful smile on his lips.

His hearing was comparable to The Seven-Star Lord.

Although the people in Hengzhou City deliberately lowered their voices, he heard clearly.

These guys really underestimated Yunyang City. After entering the villa, everyone quickly assigned rooms.

Shangguan Yunyang , Wei Qing, and Qin Feng each live in one room, and Chu Chu and Shangguan Zixi live together. It's not that there are not enough rooms, but the two girls like to be together.

The relationship between the two is very close now, and they have become best friends for a long time.

Accommodation and everything else After the arrangements were made, Shangguan Yunyang and Wei Qing gathered together and discussed tomorrow's event with sad expressions.

Hengzhou City suddenly had a five-star master, which caught them off guard.

Qin Feng was going to tidy up his room.

Then The beautiful staff was extremely enthusiastic and took the initiative to help him hang up his clothes and pack his luggage.

In the room, the beautiful staff helped Qin Feng get replacement slippers while chatting with him.

"Brother, are you here to watch the game with your elders?", the beautiful staff member's smile was sweet and a little shy.

"this...."

Qin Feng put on slippers and didn't know how to explain.

The beautiful staff member smiled and said:"Actually, in every competition, the contestants will bring some juniors. Have you been to Nandu before?"

"no!"

The beautiful staff member smiled and said:"Nandu is a good place and there are many interesting places. There is a lot of free time in this competition. If you want to hang out in Nandu, I can be your tour guide for free!"

I don't know why, but she felt a little excited when she was with Qin Feng.

Maybe this is the charm of the most handsome guy.

Qin Feng smiled:"Okay!"

The beautiful staff member happily handed over a staff business card.

"This has my phone number on it. If you need a tour guide, just call me. I'm available at any time. By the way, my name is Xiaoqing, what's your name?"

"Qin Feng!"

"Oh, then I'm leaving!"After Xiaoqing finished tidying up the room, she was still a little reluctant to leave.

After leaving the room, she seemed to think of something and looked back.

"Qin Feng, if you feel bored here at night, you can make an appointment with me. Nandu is very lively at night. There are many bars and K-bars nearby. Whatever you want to do, I can play with you....."

Xiaoqing blushed slightly, with a hint.

After saying that, she reluctantly left.

Qin Feng didn't care either.

He had just arrived in Nandu City and was not familiar with the place. He also wanted to know more about Nandu through Xiaoqing.

On the first day in Nandu City, all the contestants from Zhucheng were resting and recuperating.

At the end of the day, all the contestants from one hundred and twenty-seven base cities, large and small, were in place.

The content of the first competition was also informed.

Nandu is a large city near the sea.

The first competition was held on the beach.

The content of the competition is that contestants from each city go deep into the sea to hunt underwater monsters.

Hunting a four-star early-stage monster will score 1 point, mid-4-star stage 2 points, late-stage stage 4 points, and perfect stage 8 points.

The five-star early stage is 20 points, the middle stage is 40 points, the late stage is 80 points, and the Great Perfection is 150 points.

The six-star early stage is worth 300 points, the mid-term stage is 500 points, the late stage is 1,000 points, and the Dzogchen stage is 2,000 points.

The seven-star stage is worth 5,000 points.....

Finally, each city is ranked according to its hunting points.

After the first ranking comes out, the top ten will receive generous rewards.

However, the contestants also have concerns.

For example, it is rumored that there is a seven-star early stage monster in the participating sea area.

This is extremely terrifying.

Moreover, the monster's whereabouts are so weird that even the Eight-Star King has a hard time finding it.

Of course, it is also highly intelligent.

Whenever the Southern League holds such competitions, it hides and never attacks the contestants for fear of exposing its whereabouts.

All along, the two sides have been at peace with each other.

But it is always a hidden danger.

This hidden danger is also what the organizers want.

It is said that one is born in sorrow and dies in happiness. Without any crisis, how can people's potential be stimulated?

However, some contestants felt that the higher-ups might have used them as bait to trick the seven-star monster into appearing.

Qin Feng didn't bother to think about these rumors. Anyway, everyone's risk was the same.

Each contestant has a rescue device on him. Once he is in danger, he presses it and the Seven-Star Lord will come to the rescue immediately.

In this way, after a night of rest and reorganization, the first battle of the Zhucheng Martial Arts Competition finally began..

## Chapter 138

Early the next morning, the entire Nandu City became lively.

Today is the day for martial arts competitions in Zhucheng, which can only be seen once every ten years!

Early in the morning, nearly ten million people came to the competition venue to watch.

The scene was very lively.

Especially the young people, each holding a telescope and looking at the contestants on the contest stage, looked very excited.

They all looked like they were on a high, watching, commenting and analyzing the strength rankings of each city.

The most sought-after ones are naturally the two first-level cities and the seven second-level cities.

As for the contestants in the third-level cities, there are far fewer people paying attention.

Even fewer people are paying attention to the newly promoted Yunyang City.

At the same time, major TV stations have already set up various live broadcast equipment, and even more than a dozen helicopters have arrived.

This event will be broadcast live throughout the league.

At this moment, in the distant Yunyang City, Liu Yan, Li Yu and many residents in the city were waiting by the TV early in the morning, waiting for the live broadcast of the game.

In short, in this world where elemental masters are respected, this grand gathering of high-level elemental masters is highly sought after by the whole people.

At the end of every grand event, several star city lords will be created.

At this moment, on stage 25.

Qin Feng looked around calmly.

He kind of likes such a lively atmosphere.

It's just that many contestants on the stage looked towards Yunyang City from time to time.

Some are sympathetic, some are jealous, and some are gloating about others' misfortunes.....There are all kinds of looks.

Yunyang City's promotion still aroused the jealousy of many base cities.

Of course, those who are jealous are all base cities below level three.

The first and second level cities did not pay attention to Yunyang City at all. They were not interested.

They only cared about each other and a few powerful third level cities.

Because the top ten will be produced between them.

Among the top ten, for each additional ranking, the resource rewards obtained are very different.

Therefore, they are competitors to each other.

As for small cities like Yunyang City, they are not on the same level as them. They do not pose any threat to them and there is no need to pay attention to them.....

Meanwhile, Alliance Headquarters.

In a luxuriously decorated live broadcast room.

Three seven-star princes, two men and one woman, were standing in front of a white-haired old man with great respect.

The great kings who were unattainable in people's eyes did not even dare to breathe in front of this old man.

This old man is Sea King Bailichuan, one of the three kings of the alliance, an eight-star powerhouse.

At this moment, Bailichuan was sitting on the throne, looking through the contestants' information casually.

When he saw Yunyang City's entry list, his eyes showed surprise.

"Qin Feng? Isn't this the newly discovered super genius? Why did Shangguan Yunyang arrange for him to participate?...."

Bailichuan's tone was slightly dissatisfied.

It's too disrespectful to let such a precious super genius risk taking part in the competition.

There are certain risks in this martial arts showdown. There have been a small probability of casualties in the past.

"Well, Samsung is in the mid-term...very good!", a gratified smile appeared at the corner of Bailichuan's mouth.

He had been secretly paying attention to this super genius for a long time.

Qin Feng's training progress made him very satisfied.

"Huh! Fourth-level Lord.....", Bailichuan was so surprised that the light in his eyes lit up.

"good! good! This kid can definitely compete...."

Bailichuan looked at the information and nodded repeatedly.

He was so satisfied with Qin Feng's performance.

The three princes on the side were also shocked.

It's amazing to be able to become a fourth-level Lord in the middle of three-star stage!

This Qin Feng is no ordinary super genius!

"By the way, that young man is Qin Feng?"

Bailichuan raised his head and couldn't wait to look at the live broadcast light screen in front of him.

In front of him, there were more than twenty light screens.

It was a live broadcast of the scene from more than twenty angles, all-round.

But Bailichuan put all the live broadcasts I searched the window, but I didn't see the footage of Yunyang City, let alone find Qin Feng.

Because most of the live broadcast windows were focused on the contestants from the first-level city and the second-level city.

A few were placed on the scene.

Yunyang The city did not get the attention of the reporters at the scene at all.

Bailichuan frowned slightly, a little disappointed.

The person he wanted to see most did not see it.

On the screen, all the contestants from the first and second level cities were in high spirits.

The three When the Maharaja saw this, cold sweat broke out on his forehead, and he secretly scolded those reporters for being so ignorant.

"Wang Zun, I will make arrangements now to let those reporters focus on Qin Feng.", a prince quickly asked for instructions

"Don't!" Bailichuan quickly stopped, "Just let everything take its course. Don't let anyone influence Qin Feng. I am worried that he will be nervous and that he will easily perform abnormally... After all, he is a young man!"

"Therefore, it will be fine if I keep an eye on him secretly.....By the way, something will happen during the competition. The three of you must give priority to saving Qin Feng. You must not let him lose a hair...."

"I'll understand!"

The three monarchs responded respectfully.

Then, the three of them looked at each other with strange looks in their eyes.

At this moment, the three of them already knew that there was only one real protagonist in this martial arts competition, and that was Qin Feng.

He He is the only person Wang Zun wants to pay attention to.

As for the contestants in the first- and second-level cities, they are just foils.

Chapter 139

After giving the instructions, Bailichuan continued to look at the contestants' information.

But he had little interest in the other contestants. He quickly glanced at them and finished them in a short time.

"Luo Li, what happened to that seven-star monster recently?" Bailichuan put the information together casually.

This Luo Li is the only woman among the three Seven-Star Monarchs, and she is also a beautiful woman with a hot figure.

"Returning to Wang Zun, the monster was extremely spiritual and disappeared thirteen days ago. It seems to have calculated that we would start banning the sea thirteen days ago."

Luo Li took the initiative to take the information from Bailichuan.

Monsters above seven stars cannot appear in the assessment area. After all, the highest contestants are only in the late six-star stage.

Bailichuan frowned:"Weird! We closed the sea in advance this time just to catch that monster. How did it calculate it? This monster is so smart that it's a little unusual!"

Bailichuan sighed helplessly.

For more than ten years, as the eight-star king, he has been unable to deal with the seven-star early-stage monster.

Every time he didn't show up, the monster would come out from time to time to act as a monster..

As soon as he appeared, the monster disappeared, as if he knew it in advance.

But what was incomprehensible to him was that no matter how hard he searched on the bottom of the sea, he couldn't find the seven-star monster, as if it didn't exist at all.

But after he left, the monster appeared again.

Once, he searched the bottom of the sea for three months without even seeing a hair.

He thought the monster had really left.

But when he came ashore, Ten minutes later, the monster appeared again.

When he went over again, the monster disappeared again.

Bailichuan was so angry that he wanted to vomit blood!

He thought that he, the eight-star king, was actually played by a seven-star early stage monster. He was also very curious as to how the demon beast, which was only in the early stage of Seven Stars, fell to the ground and escaped his search.

In short, this incident made him very embarrassed, and he felt a little unworthy of the title of Sea King. It's too embarrassing to face His Majesty.

This is also a big worry of his.

However, what makes him fortunate is that the monster rarely hurts people and is very low-key.

Otherwise, Your Majesty would have taken action himself.

After all, there are people near the human base. It's not a good thing for such a seven-star monster to be hiding

"Wang Zun, that monster is indeed unusual. Come to think of it, it also knows that we are driving it away, but it just refuses to go. Still taking the risk of being hunted, he stayed in the nearby waters for more than ten years....."

Luo Li also looked confused.

Bailichuan sneered slightly: "There must be a reason for everything to go wrong, but we don't know the truth yet... Forget it, this matter is over for now. Go and host the competition!"

"yes! King Zun!"

The three of them left respectfully.

Bailichuan closed his eyes slightly and began to think deeply.....

At the same time, in Nandu City, in a luxurious apartment.

A bald man with a sharp and dignified temperament was sitting on the sofa, watching the live broadcast with an indifferent expression.

And the aura emanating from his body was the Six-Star Great Perfection.

"Mr. Shark, what do you think of this underwater hunting competition?", a beautiful young woman came over and massaged the bald man's shoulders naturally

"I have no interest in their rankings, as long as they don't ruin my good deeds."

The bald man naturally touched one of the beautiful women's hands, which was smooth and delicate.

The beautiful woman did not shy away and continued to massage the bald man's shoulders very gently.

"Master Yousha, they can't ruin our good deeds. If it could be broken, it would have been broken long ago... Besides, even Aquaman has been fooled by us for more than ten years. How can these contestants compare to Aquaman?"

Speaking of this, the beautiful woman smiled coquettishly.

"As long as nothing happens, it will be fine.....", You Shark squeezed the beautiful woman's jade hand hard, and then pulled it over with a strong force.

The beautiful woman staggered and fell next to You Shark...

She glanced at You Shark resentfully.

I saw this beautiful woman wearing the uniform of an alliance official. She was fair-skinned, beautiful, with a slim waist and long legs.....

"We have been guarding this treasure for more than ten years. Seeing that it is about to succeed, the Confederate Confederacy's martial arts competition has begun again... I hope there won't be any trouble in the last few days..."

Yousha glanced at the beautiful woman's perfect curves

"Sir, judging by the time, in two days, the baby can be taken away. But this offshore monster killing will take three days."

"It's the same thing when I go to take them out after their game is over. I'm afraid that someone will find out in the past two days, and that would be bad.....", You Shark's hand stretched out to the beautiful woman's collar...

The beautiful woman gently patted his hand away: "Sir, don't worry! I have one more important thing to report to you!"

"Say it!"

"Bronze-level members Qin Shi and Yao Dao disappeared. The organization asked us to check the whereabouts of the two of them after completing this mission..." The beautiful woman lowered her voice.

"How did they disappear?" You Shark's expression became serious.

"They disappeared after going to Yunyang City... to capture the traitor Zhou Changtong. Together with the two of them, there was also the alliance fugitive Lin Jianhao.....", The beautiful woman said

"What about Lin Jianhao??"

"Lost contact too!"

"Who are they looking for in Yunyang City?"

"According to Lin Jianhao's intention, Zhou Changtong and Qin Feng colluded with each other, and they went to find Qin Feng"

"Qin Feng? That super-genius that the Confederacy has recently emerged from?"

"good! However, the news of the discovery of the super genius has not yet spread completely, and the alliance deliberately suppresses the speed of the spread of the news."

The beautiful woman explained intentionally.

She is a six-star early stage expert, working at the top of the alliance, and has a deeper understanding of many things.

In fact, her true identity is a silver-level member of the organization.

Yousha is also a silver-level member. member, and also her superior.

At this time, You Shark frowned and said:"Is their disappearance because of Qin Feng?

The beautiful woman shook her head:"Impossible!" The musical instrument master and the demon sword are the best among the bronze-level members. If you want them to disappear silently, at least a six-star master will take action. That Qin Feng is only seventeen years old, how could he have such terrifying strength?...."

You Shark nodded slightly:"That's right! Even adding Zhou Changtong is useless! There must be something fishy here... Haha!! There are so many things going on recently. The task here has not been completed yet, and a new one has come....."

The swimming shark was a little agitated.

The beautiful woman smiled sweetly and said:"Don't be impatient, sir. We will ignore the matter of the piano master and the demon sword for the time being. We should complete the task at the bottom of the sea first, and then we can talk about it."....."

"That can only be the case!" You Shark turned to look at the enchanting woman beside him, and his eyes began to change again.

The beautiful woman's pretty face was slightly red.

She knew what You Shark wanted to do..

Chapter 140

At the same time, the assessment site was conducted.

Qin Feng looked at the text messages on his phone.

Just now, the league sent a text message to each contestant.

The content of the text message was an assessment map, which marked the approximate areas of four-star, five-star, and six-star monsters.

The purpose is to allow the contestants to do their best and avoid casualties as much as possible

"Deputy City Lord Qin, when the game starts, will you join us or act alone?" Shangguan Yunyang asked with a smile.

"I'll do it alone!", Qin Feng turned off his phone.

After awakening the seventh consciousness, his understanding and memory increased greatly.

In just one minute, he memorized all the assessment maps.

"Then you have to be careful alone. Do everything according to your ability. You must not go to areas above mid-level five. It doesn't matter if we lose the game, life is the most important thing."

Shangguan Yunyang gave serious instructions. He didn't want to see anything happen to Qin Feng.

"City Lord, don't worry, I know it well."

Qin Feng didn't pay much attention.

With his strength, even if he encounters a mid-six-star monster, he dares to fight. What kind of monster is he afraid of above a mid-five-star monster?

Since the transformation of elemental chaos, Qin Feng can disguise himself as a single-line fire element Master, even skills can be disguised.

For example, Ice Invisibility, which is obviously an ice skill, can be disguised as a fire skill.

In short, he can display his strength to his heart's content.

At this moment, there was a commotion behind the stands.

In the crowd There were bursts of exclamations

"Look! Lord Luo Li, Lord Liancheng, and Lord Dongmen are out!"

"Wow! This is the legendary monarch! So impressive!"

Qin Feng couldn't help but turn around.

He saw three Seven-Star Monarchs, two men and one woman, walking out of the summit platform at the rear. As soon as the three appeared on the stage, the majestic Seven-Star aura radiated out unconsciously.

The elements between heaven and earth The power seemed to be affected by the three people, forming a strange aura that enveloped the whole place, which was very scary.

Everyone felt the pressure and couldn't help but become quiet.

At this time, Luo Li, the strongest among the three monarchs, Lord, step forward.

Her facial features are exquisite, her skin is white, and her perfect figure cannot be concealed even in uniform.

This is an extremely powerful and beautiful woman.

Her eyes swept across the competition area.

All the city lords stood up one after another. , all saluted her respectfully.

She ignored it, and her eyes lingered on Qin Feng intentionally or unintentionally.

This boy was Qin Feng that Neptune cared about. He was much more handsome in person than in the photo.

A strange color flashed across Luo Li's eyes. , quickly looked away

"Everyone, the first martial arts competition, the monster points competition, lasts for three days, let's begin!" Lord Luo Li announced to the audience:

As soon as he said this, the players in the first-level and second-level base cities immediately jumped into the air and flew quickly towards the assessment sea area.

The host of the TV station also enthusiastically broadcast

"Everyone, the long-awaited Zhucheng Martial Arts Competition has finally begun... As you can see, the contestants are rushing to enter the assessment area....."

"Let's first switch to the contestants in the first-level city to see where their goals are....."

"Wow! Dear viewers, look! Look! The Lord of Wugan City is indeed the winner of the previous championship. He actually flew directly to the six-star monster area....."

"Wow! City Lord Lu Xuan also flew towards the six-star monster beast area. City Lord Lu Xuan was the runner-up last time. A battle between dragons and tigers is about to begin....."

The host explained excitedly as if he had been injected with blood.

The whole audience was excited.

Everyone looked eagerly at the big screen.

At this moment, all the shots were given to the two city lords of the first-level city.

"Let's go too!"

Shangguan Yunyang took the lead and flew out of the contestant stage.

Wei Qing and Qin Feng followed.

But when Qin Feng took action, the surrounding contestants were shocked.

Damn it~!

Why did Yunyang City send a mid-level three-star player? Participate?!

Isn't this a joke?

The people in Hengzhou City were even more stunned.

They were still discussing who would deal with Shangguan Yunyang, who would deal with Wei Qing, and who would deal with Zhou Tong.

But Yunyang City didn't give in. Zhou Tong participated, but instead a three-star boy participated

"City Lord, what the hell is Yunyang City doing?", Liu Shen looked at Zhao Hengfeng

"No matter what they do!", Zhao Hengfeng looked at Qin Feng's back, "Deputy City Lord Liu, go and stare at that young man so that he doesn't get points....."

hey-hey! I'll go right away!"

Liu Shen smiled proudly and chased after Qin Feng.

With his mid-five-star cultivation, it was too easy to target a three-star elementalist. In just a moment, all the contestants flew out of the contestant stage and flew towards the assessment sea area. Go.

After entering the assessment sea area, Qin Feng separated from Shangguan Yunyang.

Shangguan Yunyang and Wei Qing went to the five-star monster area.

They planned to join forces to hunt the five-star monster, which would earn points faster.

Qin Feng directly Fly to the four-star monster area.

After arriving in the four-star area, he fell from the sky and dived directly to the bottom of the sea.

There were many photographers live broadcasting on the sea, but there were none on the bottom of the sea.

Qin Feng was going to dive to the six-star monster from the bottom of the sea. The monster area.

The monsters that the contestants want to hunt are basically deep under the sea.

Since the earth mutated, various monsters have appeared among animals.

The place with the most monsters is in the ocean.

After all, there are four quarters of the earth The third is the ocean, and there are countless species in it.

After diving a hundred meters deep, Qin Feng stopped and looked around. It was very dark under the water, with only the sunlight above his head shining through, and the light was very weak.

With this light , you can't see very far underwater, and it's even harder to find monsters.

In fact, this assessment is not only testing nuclear combat capabilities.

It also tests people's ability to find monsters.

Otherwise, no matter how strong you are, If you can't find prey, you won't get high scores.

After all, the sea is not full of monsters, and you need to work hard to find them.

In the last assessment, there were many contestants who searched for three days. He didn't find a monster, and he only got 0 points in the end.

There were many five-star masters among them.

But Qin Feng was not worried at all about this.

His six senses were as strong as those of a seven-star monarch, and he used them to find prey, no matter how good he was. However.

At the moment, he closed his eyes and sensed various fluctuations in the water to try it out first.

After a while, he opened his eyes with joy and looked forward.

He sensed that a four-star monster was moving rapidly in that direction. Swimming.

Sure enough, the stronger the six senses, the easier it is to find the intermediate monster.

This time, it was difficult for him to get a high score even if he didn't want to. At that moment, Qin Feng was ready to go over and take a look.

But at this moment, above his head, There was a 'plop' sound.

This was the sound of water falling from the air.

Someone also came to this assessment area.

Qin Feng looked up and saw an old man with a skinny face diving down from above.

This old man was the deputy city lord of Hengzhou City. ——Liu Shen.
