

God level 141

Chapter 141

Seeing Liu Shen, Qin Feng frowned slightly.

This old man is a mid-level five-star expert. Instead of hunting in the five-star monster area, he comes to the four-star area and even appears next to him.

If it was a coincidence, he didn't believe it!

What does this old man want to do?

"Yo~! Isn't this boy from Yunyang City! Why are you in the middle of three stars?" Liu Shen crossed his arms and spoke in a sinister tone.

"none of your business!", Qin Feng turned around and left

"you....", Liu Shen was so angry that he rolled his eyes and almost couldn't help but make a move.

In this game, players are allowed to fight, but only in the process of fighting for monsters.

All other situations are prohibited.

If you actively attack others without any reason, you will be immediately disqualified from the competition and will be severely punished.

"Junior, you.....Hey~! Hey~! Don't go....."

Liu Shen quickly followed.

A few minutes later, Qin Feng arrived at his destination.

I saw a strange, ugly fish lying next to a coral reef, taking a nap.

His body exudes the aura of four-star Dzogchen ice energy.

Qin Feng was delighted. His six senses were really useful for finding monsters!

"Hey~! The four-star Dzogchen monster!"

Liu Shen also rushed over.

As soon as he saw the monster, he was overjoyed.

It was only half an hour after the game started, and he encountered a monster.

What a blessing!

Under normal circumstances, you can encounter one or two monsters a day. Beast, that's pretty good

"Ha ha!! Boy, you can't deal with this monster, run away for your life! Let me come!", Liu Shen was so excited.

He waved his hand, and a silent undercurrent surged from the bottom of the sea, pushing towards Qin Feng.

He wanted to push Qin Feng away and hunt the monsters himself.

It is forbidden to actively hurt others during the competition. But this kind of grabbing monsters is allowed.

But he didn't notice that as soon as those undercurrents came to Qin Feng's side, they would automatically move aside and have no impact on Qin Feng.

In an instant, Liu Shen rushed to the monster fish and monster , and punched the strange fish's head with one punch.

The strange fish woke up, suddenly opened its eyes, opened its mouth and sprayed out a cold air attack at Liu Shen.

Liu Shen was disdainful.

It was just a four-star perfect monster.

He punched it. He could subdue him.

But at this moment, a strange scene happened.

He punched the strange fish on the head, but it was deflected to the side inexplicably.

The punch was immediately empty.

Damn~!

What happened?!

Liu Shen was startled. Before he could react, he was attacked by the strange fish and was instantly frozen into an ice sculpture.

"Ouch~! Old man, you are old and your eyesight is not good enough, so you can miss everything."

Qin Feng's mocking voice sounded next to him.

In fact, it was Qin Feng who used his spatial ability - spatial twisting, to deflect Liu Shen's attack angle.

Qin Feng's mental power is very strong and he can use space abilities continuously and easily.

Chu Chu's mental power is too weak, so she cannot use the time ability continuously.

"Damn it!"

Liu Shen was furious. He had made a mistake.

He instantly shattered the ice and escaped. When he saw the giant tail of the strange fish coming towards him, he was about to dodge to avoid the blow.

But he didn't expect it. On the side, the surrounding seawater swayed strangely.

Not only did he fail to avoid it, but he took the initiative to send his chest up.

Bang~!

The huge and hard tail of the strange fish slammed into Liu Shen's chest.

"not good!"

Liu Shen was shocked and angry.

What happened today?

Why do he make so many mistakes!

With his six senses, he couldn't tell that Qin Feng was up to something.

At this moment, he had no time to dodge, so he quickly gathered the power of the elements in front of him. Form a shield.

It's just a four-star Dzogchen monster, which can't break his defense at all.

Ang~!

The strange fish let out a low roar, like a whale, and the sound waves vibrated everywhere.

Qin Feng took the opportunity to flick his finger.

Resonance kill!

Lock on Target!

Liu Shen felt his heart suddenly swell, the blood vessels all over his body burst instantly, blood spurted out, and a large mouthful of blood spurted out from his mouth. The elemental power he had just condensed was forcibly interrupted, and the defensive shield failed to form.

Click~!

The strange fish hit his chest with a solid blow, causing him to vomit blood and even broke several ribs in his chest.

Without the protection of the power of the elements, the five-star elemental master's physical body cannot withstand it. It resisted the four-star attack.

The monster was overjoyed. It won with one blow.

At that moment, it excitedly pounced on Liu Shen.

Liu Shen was even more frightened.

Oh my God!

This is definitely not an ordinary four-star monster!

It actually It can attack with sonic waves!

This is simply more terrifying than the five-star Dzugchen.

After a while, the monster caught up with Liu Shen, and the two sides fought.

But after several encounters, Liu Shen was blasted so hard that he vomited blood and flew backwards, and two more ribs were broken on his body..

Qin Feng was fighting there, watching the battle with a smile on his face, and

Liu Shen's screams kept coming from the field.

His waterproof shield was broken many times, he drank a lot of sea water, and the blood on his body More than a dozen ribs were broken, and the whole body was covered in blood. It was very miserable.

Mom! This is definitely not an ordinary four-star monster!

If you keep beating him, he will die!

"My little friend, please help me!!" Liu Shen actually asked Qin Feng for help.

Qin Feng sneered:"Old man, are you right? I only have three stars, how can I help you? Besides, why should I help you?!"

"Little brother, as long as you are willing...ah!"

Before Liu Shen finished speaking, he let out a shrill scream.

One of his arms was bitten off by a strange fish.

The next second, he screamed and escaped out of the sea with a trail of blood.

He lost one Arm, he couldn't continue this game.

In a blink of an eye, he escaped from the sea and flew towards the coast, disappearing for a moment.

Qin Feng did not pursue him.

It is not appropriate to kill people in this game, not to mention him and that person. The old man didn't have that kind of hatred.

The strange fish beat Liu Shen away and swelled extremely.

It took a big mouthful of sea water with human blood, then roared and rushed towards Qin Feng.

In the blink of an eye, it rushed in front of Qin Feng.

Qin Feng split it into two halves with a wave of his hand.

Then, he took out an arm from the monster's belly, which was Liu Shen's.

There is also a storage ring on that arm.

Qin Feng quickly put away the ring and the corpse of the monster and left the scene in a hurry. It was not suitable to stay here for a long time.

Liu Shenhui broke his arm, so it was naturally his fault.

After a while, Qin Feng came to a remote deep sea area.

He scanned it and saw that there was no one around, so he took out Liu Shen's storage ring and looked at it.

When he saw it, he was overjoyed. There was actually a Jingyuan Pearl inside.

After the elemental master reaches five stars, many people start to pay attention to spiritual power and will carry one with them to nourish their own spiritual power.

Qin Feng directly swallowed the Jingyuan Pearl.

His six senses were enhanced again, and his sensitivity to space increased from 1.0 to 1.1.

His control of space was also strengthened.

Qin Feng was delighted.

It turns out that swallowing the essence beads can quickly increase the spatial sensitivity.

This is a nice find.

Afterwards, he briefly dealt with Liu Shen's storage ring and put it away.

There's no time to take a careful inventory now.

After doing that, Qin Feng had a four-star Dzogchen Demon Core in his hand, which was the strange fish just now.

"Ding! Devouring the ice demon core (four-star perfection) successfully.....Three-star mid-term cultivation level increased to 11%....."

A four-star perfect demon core could not allow Qin Feng to break through to the late three-star stage.

He quickly pulled out the training template.

Practitioner: Qin Feng (Emperor Level)

Hunyuan Realm (Five Elements): Mid-Three Stars (11%)

Five Elements Attributes: Ice, Wind, Fire, Thunder, Earth

Combat Power Index: 155,000 points

Space Ability: First Level (Induction) Degree 1.1)

"Ha ha!! That's what happened! good!"

After reading the data, Qin Feng was ecstatic.

Although there was no breakthrough in his cultivation, his combat power increased by 5,000 points.

Then, he figured out that what he was practicing now was the five-series Hunyuan Power, and other elements. Masters have different standards.

His elemental star patterns are five-color, which is obviously different from others.

At the moment, Qin Feng closed the interface with satisfaction and dived towards the five-star monster area.

The four-star monster core improved his cultivation too slowly , he needs a higher level demon core..

Chapter 142

As he dived all the way, Qin Feng's six senses were fully activated.

He had just swallowed the Jingyuan Pearl, his mental power had greatly increased, and his sensing range had expanded a bit.

His current sensing range is more than thirty times that of a five-star elemental, and six or seven times that of a six-star elemental.

In this way, his efficiency in searching for monsters far exceeded that of all contestants.

In terms of sensing ability, only the three monarchs who presided over the competition could compete with him.

In this way, three hours later, Qin Feng hunted seven four-star monsters and two five-star monsters, all of which were water-based.

The ice element is a variant of the water element. The two are connected, but the ice element is more powerful.

Therefore, Qin Feng can also swallow those water demon cores.

After this devouring, his cultivation level increased to 83% of the mid-three-star level, and his combat power skyrocketed to 180,000 points.

Now, he is fully confident against six-star mid-level experts and has a great chance of winning.

The only two people who can threaten him are Wu Gan, the lord of Qianshan City, and Lu Xuan, the lord of Fengming City.

Both of them are the city lords of the first-level base city, and both are late six-star powerhouses.

The six-star mid-term combat power threshold is 300,000 points, the later stage is 500,000 points, and the Great Perfection is 800,000 points.

Qin Feng's current strength is still inferior to the late six-star masters.

Those who can become six stars are all the best among elemental masters, and they will have powerful trump cards in their hands. No one can be underestimated.

Unknowingly, Qin Feng had been deep into the five-star monster beast area for an hour.

There are only over a hundred contestants who dare to enter the five-star area.

After all, among the contestants, there are only more than a hundred five-star elemental masters, and the rest are four-star.

Qin Feng stayed in the five-star sea area for a while, then dived towards the six-star monster area.

The five-star demon core was still too slow to improve his cultivation. He needed a six-star demon core.

The improvement of chaotic energy requires dozens of times more elemental energy than the same level.

"Huh! That is....."

At this time, Qin Feng sensed that there was a fierce fighting wave in the distance, and it was a group fight.

He was curious and hurried over.

Ten minutes later, he arrived at the scene of the fight.

I saw two groups of people fighting in the field.

There were more than a dozen contestants watching around.

But when Qin Feng saw the two groups of people fighting clearly, he felt furious.

The people fighting were actually people from Yunyang City and Hengzhou City.

Zhao Hengfeng finally found trouble in Yunyang City, and he did so blatantly.

It turned out that Shangguan Yunyang and Wei Qing had worked hard and finally found a mid-five-star monster - the Boney Octopus King.

He and Wei Qing joined forces, just enough to suppress the Octopus King.

But at this moment, Zhao Hengfeng and another Hengzhou contestant appeared.

The two of them didn't say anything, they just started grabbing monsters.

In fact, they do it on purpose.

The two of them have been secretly following Shangguan Yunyang, just to grab monsters, hoping that Yunyang City will not get points and thus be embarrassed.

At this moment, Shangguan Yunyang and Wei Qing were completely at a disadvantage. They were being beaten back by Zhao Hengfeng's side, and the situation was not good.

Zhao Hengfeng is a late five-star master, and the other person is an early five-star master.

Shangguan Yunyang was only in the middle stage of five stars, and Wei Qing was only in the fourth stage of great perfection.

How could the two of them be Zhao Hengfeng's opponents?

Fortunately, the octopus king was smart and knew that if Shangguan Yunyang lost, it would definitely be killed by Zhao Hengfeng.

It joined forces with Shangguan Yunyang's side to fight against Zhao Hengfeng's side.

Of course, it was always wary of Shangguan Yunyang and did not cooperate wholeheartedly.

In this way, the scene formed a delicate balance, and the balance of victory tilted towards Zhao Hengfeng.

The onlookers around were all attracted by the sound of fighting.

At this moment, they were watching with gloating, excitement hidden in their eyes.

These guys have no good intentions.

They were all waiting for Yunyang City and Hengzhou City to be defeated so that they could snatch the monsters.

It is not easy for them to find a monster.

Now that they encountered a ready-made one, how could they miss it, so everyone sat back and watched the fight between tigers and tigers.

Shangguan Yunyang and Zhao Hengfeng naturally knew what they were thinking.

But the two sides are jealous and just want to defeat each other, and they can't care about that much.

"Yo! Look! That three-star player from Yunyang City is here!"

"hey-hey! This little guy is so brave! This is the five-star monster area, how dare he come!"

"Could it be Shangguan Yunyang who called for help?"

"Can he save the day with his three-star cultivation level? It's almost better to die!"

The onlookers all smiled with gloating faces and did not take Qin Feng seriously at all.

"Deputy City Lord Qin!"

Wei Qing was overjoyed when he saw Qin Feng.

"Deputy City Lord Qin, you came at just the right time!"

Shangguan Yunyang was also overjoyed.

They all knew that Qin Feng had early five-star combat power.

"Ha ha! Shangguan Yunyang, when did you fall to this point? A three-star elementalist came to the rescue!"

Zhao Hengfeng couldn't help but laugh.

The onlookers around him also smiled.

"What a bunch of idiots!"

Qin Feng suddenly erupted.

Boom~!

He instantly turned into a red light afterimage, like a sharp sword, thrust straight into the center of the battlefield.

Bang~!

A shocking muffled sound! Rising from the bottom of the sea!

A sea area of several thousand meters in radius Violent turbulence!

On the sea surface, high waves of more than 100 meters surged out, like a world-destroying tsunami, rising into the sky with traces of blood.

All contestants within tens of thousands of meters felt it, and they all looked in the direction of the explosion in horror.

At the same time, a six-star strong man was standing at the junction of the five-star and six-star monster areas.

He sensed the explosion and looked in the direction of the explosion with some surprise.

Immediately, he shook his head with disdain: "It's so boring! The dignified six-star master actually ran to the five-star area to grab monsters!"

As soon as he finished speaking, he rushed towards the sea of six-star monsters.

A master should have the dignity of a master.

Five-star and six-star are not on the same level at all. If a six-star goes to grab a five-star monster, the price will be somewhat reduced.

It turns out that this person will Qin Feng thought he was a six-star master.

He didn't know that Qin Feng was a three-star master.

At the same time, the 10,000-meter-high above.

Lord Liancheng put his hands behind his back and looked at the sea below in surprise.

He is responsible for supervising this area.

Although he couldn't see what happened under the sea, the explosion was obviously the work of a six-star master.

He looked at it for a while, then smiled and shook his head.

Among the contestants this time, there are only seven six-star masters. I don't know which one came to this five-star area. It's a bit bullying!

However, he didn't bother to care because the other party didn't violate the rules.

Meanwhile, the fight scene.

Qin Feng stood proudly in the center of the field.

Everyone around them had several bone spurs piercing their bodies, with blood flowing from the corners of their mouths, and they looked very miserable.

Especially Zhao Hengfeng, whose whole body was penetrated by more than a dozen bone spurs, and his ears, mouth, and nose were all bleeding.

At this moment, everyone looked at Qin Feng with great horror, trembling all over.

Just now, Qin Feng suddenly rushed over and blasted the Bone Spur Octopus King with one punch.

The bone spurs all over the Octopus King's body shot out in all directions, piercing them all and causing serious injuries.

Only Shangguan Yunyang and Wei Qing were safe and sound.

This was obviously Qin Feng's intention.

But no one dared to mention even a word.

The strength this guy showed just now is completely at the level of a six-star master. How dare they talk too much.

Qin Feng glanced at everyone coldly.

Everyone was so scared that they dared not breathe

"roll!"

Everyone, like Meng Dahe, dragged their seriously injured bodies and fled towards the sea.

This time, their competition was ruined.

With such injuries, they could no longer compete.

Zhao Hengfeng glanced at Qin Feng with great fear, and was He was helped away by his men.

Qin Feng's blow just now left an eternal shadow in the depths of his soul.

He was also the most seriously injured. If he didn't heal his injuries, his life would be in danger, and there would be no need to consider participating in the competition.

In the blink of an eye , In a short time, all those guys left.

Only Shangguan Yunyang and Wei Qing were left standing there with shocked expressions on their faces..

Chapter 143

After those people left, Qin Feng put away the mangled body of the Octopus King.

That can hardly be called a corpse anymore.

"Deputy City Lord Qin.....", Shangguan Yunyang looked at Qin Feng with a complicated expression.

Just now, the strength Qin Feng showed was so shocking.

"City Lord, please continue to hunt monsters here! The people from Hengzhou City will not interfere with you anymore..."

Qin Feng has already cleared the battlefield.

He knew that Shangguan Yunyang wanted to ask about his strength, but he didn't want to talk about this issue

"They also have Liu Shen..."

Qin Feng smiled slightly: "Liu Shen can't compete either. Hengzhou City should have 0 points this time..."

Shangguan Yunyang: "....."

Wei Qing: "....."

The two looked at each other, both shocked, but they didn't dare to ask any more questions.

At this moment, Qin Feng left them in awe

"Deputy City Lord Qin, what are your next plans?.....", Shangguan Yunyang's tone became very respectful

"Go to the six-star area!"

These words made both Shangguan Yunyang and Wei Qing look happy.

Hunting an early six-star monster is worth 300 points.

Qin Feng obviously has such strength.

According to previous games, 300 points can make him into the top ten..

Could it be that our Yunyang City can really enter the top ten?!

Shangguan Yunyang and Wei Qing were both excited.

They had never dared to think of this ranking before!

"City Lord, Brother Wei, I have to take the first step!"

With these words, Qin Feng rushed straight to the six-star area.

After Qin Feng walked away, Wei Qing said excitedly:"City Lord, our Yunyang City is going to be in the limelight this time! Top ten!! Tsk tsk! In the past, only first-level and second-level cities could enter!"

"yes! Vice City Lord Qin is really our lucky star in Yunyang City!" Shangguan Yunyang had a look of emotion on his face.

Suddenly, he looked at Wei Qing and whispered:"Do you think Deputy City Lord Qin is really a descendant of the king?"

"Um...isn't it?", Wei Qing was confused.

Shangguan Yunyang smiled mysteriously:"I can't see it!

Wei Qing was surprised:"Impossible!" Deputy City Lord Qin has six-star strength at such a young age. Talent alone is not enough. He must also need the support of his family background....."

Shangguan Yunyang smiled slightly:"Do you think that only a descendant of the king can achieve such an achievement?"

Wei Qing immediately thought of something and said with disbelief:"City Lord, you mean that Deputy City Lord Qin may be a descendant of the royal family?"

The so-called descendants of the royal family are the descendants of the Nine-Star Emperor.

Shangguan Yunyang narrowed his eyes and nodded slightly.

Wei Qing was completely shocked.

Descendants of the royal family!

Oh My God!

If this identity were to be revealed, the Seven-Star Monarch would be nervous...

But on the other side, after Qin Feng left the battlefield, he quickly found a remote sea area and took out the Octopus King's demon core.

"Ding! Successfully swallowed the water demon core (mid-five-star stage)...the cultivation level broke through to the late-three-star stage (0.01%) ..."

Ha ha!! Finally a breakthrough!

Qin Feng was ecstatic.

He quickly checked the data template.

Sure enough, his combat power has skyrocketed to 200,000 points, and his strength has greatly increased.

Qin Feng was very satisfied.

In addition, he also got a surprise.

Perhaps due to the continuous devouring of water demon cores, his ice elemental power became a blend of ice and water elemental power.

The Hunyuan Power is still from the five elements, but the Hunyuan Power has the attributes of the water system.

To put it simply, he could only practice ice skills before, but now he can practice both ice and water skills.

At the same time, he can also control the power of water and disguise himself as a water elemental.

This is also an unexpected surprise.

Qin Feng closed the data template with satisfaction and continued to move towards the six-star area.

In the blink of an eye, another three hours passed.

Qin Feng has been in the six-star area for more than two hours.

The seabed in the six-star area is deeper and wider.

There is a strong sense of domain and hierarchy among monsters and beasts.

In the six-star monster area, five-star monsters dare not approach.

However, six-star monsters, like six-star elemental masters, are a level threshold for monsters. They are powerful but rare.

At the same time, they can partially transform, have an IQ that is no less than that of humans, and have strong six senses.

Therefore, it is very difficult for contestants to find them.

In fact, these six-star monsters have a home field advantage and will often hide in the dark and sneak attack on the contestants.

At the same level, contestants lose their geographical advantage and will definitely suffer.

Therefore, even late-six-star experts like Wu Gan and Lu Xuan only hunt in the mid-six-star area and will not easily go to the late-six-star area.

But these unfavorable situations do not exist for Qin Feng.

At this moment, he is at the bottom of the sea at a depth of three thousand meters.

In a place like this, even the Eight-Star King wouldn't be able to notice what he was doing.

Qin Feng can do whatever he wants.

He used the advanced ice concealment technique under the sea, so that the six-star monsters could not sense his presence.

And his six senses are comparable to those of the Seven-Star Monarch, and he can easily discover the location of those monsters.

In this way, Qin Feng discovered an early six-star sea snake demon in less than three hours while in the invisible state.

If other six-star masters knew this, they would be extremely jealous.

They were lucky if they could find a six-star monster once in a day.

After discovering the sea snake, Qin Feng killed the sea snake with almost no effort.

Looking at the huge sea tens of meters long below my feet.

He felt a little excited.

Just got 300 points.

There is also a six-star demon core.

Qin Feng excitedly dissected the demon corpse and successfully took out a demon core

"Huh! This is....."

He suddenly sensed something and began to dissect the sea serpent's brain.

After a while, there was a white bead in his hand, which turned out to be the Jing Yuan Bead.

"Jingyuanzhu? Could it be... Haha!! I see!"

Qin Feng seemed to have figured out something and was very happy.

It turns out that after the monster breaks through to six stars, in addition to the evolution of the monster core in the body, a Jingyuan Pearl will also be formed in the brain.

It is precisely because of the formation of this Jingyuan Pearl , after the monster reaches six stars, its intelligenceIt also has some human-like abilities.

Such as using weapons, learning languages, etc.

This discovery surprised Qin Feng.

This meant that by hunting six-star monsters, he could not only improve his cultivation, but also improve his spatial abilities.

"Ding! Successfully swallowed the Essence Pearl, and the spatial sensitivity increased to 1.2...."

"Ding! Successfully swallowed the water demon core (six-star early stage), the cultivation level was improved to the late three-star stage (17%), and the combat power reached 220,000 points....."

"good! The combat power has increased by 20,000 points!"

Qin Feng licked his lips.

Then he put away the sea snake corpse, used the advanced ice concealment technique, and sneaked into the mid-six-star sea area.

There were only two and a half days left in the game to hunt down the early-six-star monsters. , it's still a bit slow.

He needs more advanced demon cores and essence beads..

Chapter 144

Just as Qin Feng was heading to the mid-six-star sea area, something was also happening in Nandu City.

Inside a luxurious apartment.

You Shar opened the collar of his shirt, smoking high-end cigarettes produced by Zhuque League, and leaned on the sofa with a comfortable look on his face.

Every time you finish something, just one word.

Cool!

He exhaled a puff of smoke and glanced at the beautiful woman beside him.

This beautiful woman was arranging her clothes. She had pulled all the corners of her clothes neatly without any wrinkles.

The starched uniform cannot hide the perfect curves and looks neat and tidy.

This is a beautiful, smart and capable woman.

You Shark's eyes showed appreciation, and he was a little proud.

Just now, he enjoyed this woman

"Sir, it's been seven or eight hours since this game started. Do we want to take a look at the situation in the deep sea?"

The beautiful woman squatted down and helped him button up the collar of his shirt.

You Shark glanced at the live TV broadcast: "They shouldn't be that fast, right?! However, it's good to take a look!"

The beautiful woman took out a laptop from under the glass coffee table, turned it on, and called up the system.

After a moment, an electrical image similar to a radar scan appeared on the computer.

There were more than twenty small red dots on it, some of which were moving. Some didn't move.

It was obvious that the outermost red dots were many and small, while the innermost red dots were few and large.

Yousha glanced at the electrograph and didn't bother to look at it. Instead, he admired the graceful back of the beautiful woman.

He wants to enjoy it again

"Sir, something seems wrong! Look! One of the early six-star monsters is missing!", the beautiful woman looked at the light screen in surprise.

"What?", You Shark was surprised.

He quickly looked at the electronic diagram and counted the little red dots outside.

After a moment, his eyes showed surprise.

Sure enough, there was a six-star early stage monster missing.

It turned out that the electronic diagram was The six-star monster area in the assessment area.

The smallest red dot represents the six-star early stage monster, the larger one is the middle stage, and the larger one is the later stage. The largest dot is the six-star Dzogchen monster, there are two.

For that No one is more familiar with the situation in the sea area than they are.

They even relied on a special method to manipulate every six-star monster.

"One is really missing!"

Yousha spit out a puff of smoke and his expression became serious.

They can't see what's happening deep under the sea. But this device allows them to know the location and strength distribution of the six-star monsters at any time. To a certain extent.

, there is a cooperative relationship between them and these monsters

"Sir, is it a coincidence that a six-star early-stage monster died so quickly?", the beautiful woman asked uneasily

"According to the past, at least one or two casualties would occur after at least a day. This time, it was a little faster.", Yousha spit out a puff of smoke

"Are the contestants this time very capable?"

"Ah!" You Shark was a little disdainful, "Among these people, only seven are qualified to enter the six-star area. Except for Wu Gan and Lu Xuan, everyone else's strength is average. I guess it's just a coincidence."

The beautiful woman thought for a while and nodded slightly.

You Shark is right.

Among the seven people, except Wu Gan and Lu Xuan, who are in the late six-star stage, the others are all in the early six-star stage and do not pose a threat.

You Shark added: "Our treasure is in the six-star Dzogchen monster area. Even Wu Gan and Lu Xuan don't dare to approach easily, don't worry, they won't be exposed that easily!"

"Besides, there was only movement in the six-star early stage monster area, and it was still far away from the treasure location!"

But as soon as he finished speaking, a larger light spot on the light screen also went out.

Yousha and the beautiful woman were stunned, with a look of astonishment on their faces.

That light spot represented a mid-six-star monster. Ah!

How long has passed, even the mid-six-star monsters have been injured and killed. The progress of the matter is a bit beyond their expectations.....

At the same time, assess the sea area.

The depth of the seabed is more than 5,000 meters, which is the area of mid-six-star monsters.

Qin Feng looked at the corpse of the monster at his feet with excitement.

This is a mid-six-star demon shrimp, seven or eight meters long, with a very hard shell, comparable to a mid-level Yuanwu.

Qin Feng first used the advanced ice concealment technique to get close, then attacked it with a sneak attack and severely injured it. Then he rushed up and fucked it violently. In less than three minutes, he easily killed the monster.

The mid-six-star demon core was obtained easily, and another 500 points were obtained.

You know, he hasn't used violent transformation yet.

After a while, Qin Feng dissected the demon beast and took out the demon core and essence beads.

"Ding! Successfully swallowed the Essence Pearl, and the spatial sensitivity increased to 1.32...."

"Ding! Successfully swallowed the water demon core (mid-six-star stage), the cultivation level increased to the late-three-star stage (40%), and the combat power reached 250,000 points....."

The mid-six-star demon core is more powerful than the early stage!

This time, the combat power increased by 30,000.

Similarly, its Jingyuan Pearl is also more powerful, with an increased sensitivity of 0.12, which is 0.02 more than the six-star early stage.

This also made Qin Feng guess that the Jingyuan Pearl he had swallowed before should have been in the early stage.

According to this progress, he will be able to break through to the three-star Great Perfection by killing three more mid-level monsters.

Qin Feng put away the demon corpse with satisfaction and was about to leave.

But at this moment, water fluctuations were heard not far away.

His heart moved, and he quickly used the advanced ice concealment technique and hid aside.

At this moment, he couldn't escape, otherwise it would cause the water flow to fluctuate and make people aware of clues.

Sure enough, not long after, two figures flew over.

These two people are none other than Wu Gan and Lu Xuan.

Chapter 145

Wu Gan and Lu Xuan were attracted by the sound of fighting just now.

"strangeness! There are clearly signs of fighting here, but why didn't you see any monsters?" Wu Gan frowned slightly.

"Brother Wu Gan, look at these seawaters!", Lu Xuan had a strange look on his face

"Huh! Monster blood!" Wu Gan was a little surprised.

The sea water around him diluted the blood of some monsters, indicating that a monster was injured just now.

"Brother Wu Gan, what do you think about this matter?", a smile appeared on Lu Xuan's lips.

Wu Gan pondered for a while and said: "Could it be that besides you and me, anyone else can enter this sea area?"

Lu Xuan smiled slightly: "I thought so!"

Wu Gan took a deep breath: "It seems that this time, there will be a Crouching Tiger, Hidden Dragon! Apart from you and me, there is a master hidden inside. Don't know who he is?"

"In my opinion! It should be that someone among the five has broken through to the mid-term. It's just that he hid his strength so that he could make a big splash. However, this person is really strong!"

Lu Xuan waved his hand, and the blood threads in the sea water condensed out.

Wu Gan was slightly moved when he saw the blood threads.

Lu Xuan was right, if that person was not strong, it would be impossible to injure the mid-six-star monster..At this moment, both of them felt a little pressure in their hearts.

They had another powerful competitor.

"Brother Lu, not only is this man not weak, he is also better at discovering monsters than us....."

Wu Gan's tone was a little helpless.

He wandered around this area for seven or eight hours and didn't even see a shadow of a monster, let alone hunt one.

Lu Xuan also looked serious.

He was like this too. He had been wandering around for a long time and didn't even see the shadow of a monster.

In other words, the ability of the two of them to search for monsters is not as good as that of the mysterious master.

"Brother Wu Gan, it seems that you and I need to change our strategies."

"How to say?"

"If we continue to hunt in this area, I'm afraid that in the end, the championship will not belong to you or me, but to that mysterious master, because it is easier for him to find monsters than us!"

Lu Xuan expressed his opinion.

Wu Gan nodded slightly, but felt a little aggrieved.

In his opinion, the mysterious master should be in the mid-six-star stage, and his strength is not as good as them.

But this assessment will test not only strength, He also has the ability to find monsters and some luck.

If he continues to hunt here, he may really lose.

"Brother Lu is right! Wu took the first step!"

Wu Gan was very straightforward.

After leaving these words, he rushed towards the six-star late-stage monster area.

He thought very clearly in his mind that if he continued to stay in this sea area, he was afraid that he would not be able to catch the mysterious master and eventually lose the game..

In this case, it is better to go to the six-star late-stage sea area.

That person is not strong enough to go to the late-stage sea area, and he will lose a big competitor.

What's more, he spent a lot of money to get an equally powerful weapon for this martial arts competition. Treasure.

With that treasure, he was confident that he could hunt the late-stage monsters.

Even if the mysterious man didn't appear, he would have gone to the late-stage sea area.

Watching Wu Gan leave, Lu Xuan smiled slightly.

He turned around again After looking at it for a while, he rushed towards the sea area of the late six-star period, but in a different direction.

Qin Feng looked at the direction in which the two people were leaving, and secretly breathed a sigh of relief.

He didn't want to come into contact with these two people prematurely, after all. His strength is not as good as these two.

Hiding in the dark, he will have more initiative.

However, Qin Feng did not appear from the dark immediately.

He was still waiting.

Sure enough, after another ten minutes, a figure quietly Return.

It was Lu Xuan who had gone and returned.

He looked around carefully again, but still found nothing, and then he really left.

This guy was very careful.

Only after Lu Xuan left completely did Qin Feng show up.

He sensed that the two guys really went to the late-six-star area.

Qin Feng was happy.

This is better!

He was the only one in the mid-six-star area and could hunt as much as he wanted.

At that moment, Qin Feng left the scene.

Time It went by so fast.

In the blink of an eye, it was the second day of the competition.

In that luxurious apartment in Nandu City,

You Shark was sitting on the sofa, smoking a cigarette and staring at the photoelectric diagram in front of him.

The ashtray on the coffee table , filled with cigarette butts.

There were cigarette ashes scattered around.

He had been staring at the photoelectric diagram all day and night.

Now, he felt very irritable and worried.

At this moment, another red spot disappeared from the photoelectric diagram.

"grown ups....", the beautiful woman looked back at the swimming shark, with some uneasiness in her beautiful eyes.

"Ah! One less!"You Shark's tone was a little irritable.

In one night, three six-star mid-level monsters were killed in a row.

This hunting speed was too fast!

It exceeded any previous martial arts competition.

"Sir, the contestants this year are stronger than any before!", the beautiful woman exclaimed

"hehe!!" You Shark laughed dryly.

This is a fact. He can't help it even if he doesn't want to admit it.

"Sir, there are six mid-six-star monsters in total, and four of them have died. Today is only the second day of the competition... Our treasure also matures today!"

The beautiful woman reminded the seriousness of the problem.

You Shark's face instantly darkened.

According to this hunting speed, all the mid-six-star monsters will be killed soon.

By then, when the players have no prey, they will go to the six-star level. Late-star area

But their treasure will mature today.

At the moment of maturity, some visions will occur.

Although the vision appears for a short time, it can affect a wide range, and it will be felt in the six-star late-stage area..

By then, their treasure will be exposed, and more than ten years of hard work will be in vain.

Thinking of this problem, You Shark's heart sank.

The matter was completely beyond his control.

According to his previous thoughts, the competition was In the first two days, no one should go to the post-production area.....

As long as no one went there in the past two days, he wasn't worried, but now.....

"Feiying, do you want to wait any longer?"

The swimming shark looks at the beautiful woman

"After all, there are still two mid-stage monsters. By the time they finish killing, half a day should have passed. At that time, our treasure will be mature and they will still not be able to notice it....."

"Sir, the situation is not as optimistic as you think." Feiying is very smart.

"Have you noticed? From yesterday to now, the time between the deaths of those mid-six-star monsters has become shorter and shorter."

"The interval between the third and fourth deaths was only one hour. This is very abnormal"

"It stands to reason that as the number of monsters decreases, the difficulty of finding them will increase, and the intervals should become longer and longer. But now it's getting shorter and shorter? This shows what?" Feiying looked at the swimming shark

"What does it mean?" You Shark likes Feiying's shrewdness and ability very much.

He feels very happy when such an excellent woman is enjoyed by him.

Feiying analyzed: "It shows two possibilities! One is that the number of contestants entering the mid-six-star area is increasing. In other words, in addition to Wu Gan and Lu Xuan, there are also six-star mid-level and above masters among the contestants....."

"The second possibility is that they have mastered the knack of finding monsters, or they are constantly getting stronger..... However, I prefer the first possibility!"

But just after saying this, a big red dot disappeared on the photoelectric diagram.

You Shark and Feiying saw it at the same time, and their expressions changed greatly.

The six-star late-stage monster was actually killed!

How could this happen?

A mid-stage monster just died. Yes, not even ten minutes have passed, and another late-stage one was killed.

"Sir, the situation is dangerous!" Feiying was anxious.

"Hey~! It seems that I can't do anything even if I don't want to!"

You Shark put out the cigarette butt in his hand and stood up slowly..

Chapter 146

"Sir, are you going to take action yourself? Feiying was worried.

Yousha said helplessly: "Although there is a risk of exposure, I have to go." If you continue to stare at the photoelectric diagram, if you have any questions, please contact me!"

"Sir, be careful!" Feiying's eyes showed concern.

"Hmm~! wait for me! I'll be back in the evening. At that time, I needed you very much...."

Feiying's pretty face turned red, she understood what Yousha meant.

Ever since this man came into contact with that treasure, his demand has been very strong, especially when he comes back after going there, he will definitely need it...

Yousha likes the way Feiying blushes very much.

He smiled, pinched Feiying's cheek, and left.....

At the same time, the six-star late-stage monster area.

Wu Gan looked at the demon corpse in front of him with excitement.

This is a late six-star monster!

Got 1,000 points.

If he hadn't obtained a high-grade Yuanwu, he wouldn't have dared to enter this sea area.

The power of high-grade Yuanwu is extremely powerful, which most six-star experts don't have.

It is basically a standard equipment that can only be owned by superpowers above the Seven-Star Monarch.

He also spent a lot of money to get one.

This greatly increased his strength, and he could even hunt down late six-star monsters.

In fact, a six-star strong man possesses a high-grade Yuanwu, which is equivalent to having an additional super skill.

This time, the alliance has increased the rewards.

The championship is rewarded with a high-grade Yuanwu.

Therefore, Wu Gan attached great importance to this competition and even took out the treasures at the bottom of the box.

He guessed that Lu Xuan would also show his trump card.

The temptation of high-grade Yuanwu towards Lu Xuan is equally powerful.....

At the same time, the mid-six-star sea area.

Qin Feng looked at the body of the clam demon at his feet happily.

This monster is covered in shell, extremely hard, and has no dead ends for defense.

He used resonance to kill, attack from behind the shell, and shocked him to death.

This was also the fourth mid-six-star monster he had hunted.

Cutting open the clam shell, Qin Feng took out the demon core and essence beads.

"Ding! Successfully swallowed the Essence Pearl, and the spatial sensitivity increased to 1.68...."

"Ding! Successfully swallowed the water demon core (six-star mid-term), the cultivation level broke through to three-star perfection, and the combat power reached 350,000 points....."

"Ha ha!! Finally a breakthrough!!"

Qin Feng was ecstatic.

With his breakthrough to the three-star consummation, his combat power also skyrocketed to 350,000 points.

If he used the violent transformation again, his combat power could reach more than 430,000 points.

He can now fight against the late six-star stage. , can even defeat most of the six-star late stage.

The combat power threshold for the six-star late stage is 500,000 points.

Among them, the strong ones will not exceed 600,000 points.

Qin Feng's combat power after transformation is not much different from the six-star late stage..

But he has many skills and masters spatial abilities, which cannot be calculated by ordinary methods.

Speaking of which, after he swallowed many Jingyuan beads in succession, his mental power skyrocketed, comparable to the level of the late Seven Stars.

Now, his six senses He is so powerful that no one in the field can match him.

The most powerful Monarch of Luo Li is the mid-seven star.

In other words, he can easily avoid the detection of the three monarchs and make everything silent.

In addition, His spatial ability is also getting stronger and stronger.

"Huh! What's this....."

Qin Feng was about to put away the body of the clam demon when he seemed to have discovered something.

His eyes looked towards the area near the clam demon's head.

He vaguely felt that there seemed to be something hidden under the demonic flesh.

Before switching, he couldn't sense it.

But just now, his mental power increased and his six senses were strengthened.

Qin Feng quickly stepped forward, drew out the Yanlong Sword, cut open the demonic flesh, and saw an electronic instrument-like thing, only the size of a soybean. strangeness! What's this?!

Qin Feng was a little surprised.

This thing is obviously made by humans.

Then who put these things into this monster beast?

Is it an alliance?

You know, the six-star monsters have very high intelligence. If they don't cooperate, this thing won't be implanted.

Monsters and humans are mortal enemies.

It is impossible for them to cooperate with the alliance.

Could it be...

Qin Feng thought of something and took out several other demon corpses and observed them carefully.

After a while, he found the same electronic equipment from all the six-star monster corpses.

"hehe!! It's true that every one has something...a bit interesting!"

Bang~!

Qin Feng smiled slightly and shattered all the electronic instruments.

He vaguely felt that this matter was not as simple as it seemed.

But he still couldn't figure it out.

In fact, these things were released by the shark.

Qin Feng sent the demon The corpse was put away again and the battlefield was cleaned up.

Since you don't understand, let's not think about it for the time being.

"Ding! The host is reminded that the conditions for activation of the God Level Challenge have changed. The host needs to reach three-star Dzogchen in cultivation and reach the second level of spatial ability before it can be activated!"

Forehead.....

Qin Feng was stunned.

He was just thinking about when the god-level challenge would start.

This activation condition comes out.

It seems that the system wants him to improve in all aspects.

This is not a bad thing.

His current spatial sensitivity is 1.68. If he wants to break through to the second level, his sensitivity needs to be above 2.0.

As long as he hunts three more mid-stage monsters, that's it.

Qin Feng looked at the surrounding sea.

His sensing range is now getting wider and wider, and his search speed for monsters is getting faster and faster.

According to the information provided by the alliance, there are approximately six mid-six-star monsters.

He has killed four, and only two are left, which is not enough!

Qin Feng raised his head and looked at the sea area in the late six-star period.

He now has the strength to kill late-stage monsters.

Perhaps just killing two late-stage monsters would be enough for his spatial ability to break through.

Thinking of this, Qin Feng dived into the later sea area..

Chapter 147

After his strength increased greatly, Qin Feng's speed became much faster.

It didn't take long for him to reach the late-six-star monster beast area, which was also the bottom of the sea ten thousand meters below.

At this moment, it was pitch black all around, and there was no distinction between day and night at all.

People are suspended in it, as if they are suspended in the vast void of the universe, there is no top and no bottom, and it is impossible to distinguish between east, west and north.

The more such an environment is, the more powerful the six senses are needed.

Qin Feng is like a fish in water here

"Huh! This is....."

Qin Feng had just entered the late-stage area for a moment when he vaguely heard the cry of a baby coming from the front left.

The sound was harsh and made people feel inexplicably uneasy.

Strange!

How could there be a baby crying in this 10,000-meter-deep seabed?

Qin Feng was surprised.

At this time, the sound of fighting came from that direction again.

He quickly hid his figure and rushed in that direction.

When he arrived at the scene, he saw two late-level six-star monsters besieging Wu Gan.

At this moment, Wu Gan was beaten to the point of retreat.

If it weren't for the special long whip in his hand, he would have fled long ago.

I saw that every time the long whip struck, it would turn into nine whip shadow attacks. Each attack was no less than a full-strength strike in the late six-star stage, and the power was terrifying.

This long whip is obviously a high-grade Yuanwu.

But even if Wu Gan had the help of high-grade Yuan Wu, he was still at a disadvantage, and his shoulders were injured and dripping with blood.

Those who besieged him were two late-stage six-star monsters.

One is a giant crab monster, which is as tall as a two-story building, has a whole body of carapace, and has extremely high defense.

Its two giant claws are majestic and their attack power exceeds that of most mid-level Yuanwu.

Another big demon has a human baby-like head on its upper body and a fish body on its lower body.

It also has four human arms, each holding a weapon, a harpoon, a sword, beads, and a conch.

It also made strange sounds from its mouth, like a baby crying.

In fact, it was its sonic attack that kept disturbing Wu Gan's mind, making him irritable and unable to concentrate.

"It's actually a baby fish!"

Qin Feng was a little surprised.

According to the information given by the alliance, there are four late-stage monsters in the six-star late-stage area.

The strongest one is this baby fish.

Wugan is good, not only provoked two monsters, one of them is a baby fish.

His current situation is very bad.

But even so, Wu Gan refuses to leave.

Because on the seabed not far away, lies quietly the corpse of a late-six-star monster beast.

That was killed by him.

Right there Not long ago, he finally killed the big demon and was about to take away the demon body.

The baby fish appeared and started fucking him hard.

The baby fish was attracted by the sound of fighting.

It saw Wu Gan kill He was very angry when he killed his compatriots and started fighting directly.

Wu Gan was also very depressed.

If it was just one-on-one, he could tie Yingyu with the Nine Shadow Whip.

That way, he would still have a chance to take away the demon corpse.

But unfortunately At this time, another giant crab monster rushed towards him, and he was at a disadvantage.

The chance of taking away the monster corpse was very slim.

But he was unwilling to leave like this!

In the darkness, Qin Feng saw not far away The demon corpse appeared, and his heart felt hot.

It was a late-stage six-star demon beast, and he could sense that the demon core and essence beads were there.

If he sneaked over now, he would definitely be able to steal the demon corpse.

At a depth of 10,000 meters The bottom of the sea was surrounded by darkness.

Such an environment was very conducive to hiding and had a bonus effect on his advanced ice concealment technique.

However, Qin Feng did not go.

He turned his head and looked behind a reef near the battlefield, with a trace of his mouth showing Sneered.

He sensed that there was a person hiding in that place.

That person also used secret techniques similar to invisibility.

Unfortunately, his invisibility secret room was just an ordinary technique, far inferior to Qin Feng's ice invisibility technique.

Under Qin Feng's powerful mental scanning Next, he saw clearly that the hidden person was none other than Lu Xuan.

At this moment, Lu Xuan looked at the fight between the two sides with a proud look on his face.

He was waiting!

Waiting for both of them to be injured, or for one of them to retreat, and then he would take action to snatch the demon Corpse.

In fact, he deliberately attracted the giant crab demon.

The fighting noise Wu Gan made before was too loud.

He just happened to meet the giant crab demon again, so he took advantage of the situation and lured Wu Gan to it!

At present, it seems that, The effect was not bad.

The more Lu Xuan thought about it, the more proud he became. When Qin Feng saw this, he had already guessed it.

Lu Xuan looked like a scholar, but he was actually a cunning person.

Moreover, he had the same thoughts as himself. This But no.

At this moment, Yingyu let out a strange cry again.

The sound waves swayed in all directions, and the aftermath spread.

Qin Feng took the opportunity to snap his fingers and send out a resonance kill, targeting Lu Xuan!

Lu Xuan had no defense at all.

He was full of blood As soon as it surged, his heart hesitated suddenly, and his body seemed to explode.

The pain was indescribable.

He couldn't help but groaned, and the invisibility technique was broken.

That sound seemed particularly abrupt, The whole audience was shocked at once.

The baby fish and the giant crab demon were stunned when they saw Lu Xuan suddenly appeared.

There was actually a human hidden nearby.

"Lu Xuan!"

Wu Gan was also shocked.

Lu Xuan was even more confused.

What happened just now?

He looked around, and finally his eyes fell on the baby fish.

It was this monster that launched that terrifying sonic attack just now.

What's strange is, why didn't it attack Wu Gan, but me instead?

Could it have discovered my existence a long time ago?

Lu Xuan misunderstood.

He thought it was the baby fish that caused the ghost.

All the monsters and people in the scene were confused After a while

, everyone reacted together.

The baby fish and the giant crab demon once again attacked Wu Gan.

Wu Gan shouted anxiously: "Lu Xuan, come and help me!"

"this.....", Lu Xuan hesitated

"Lu Xuan, help me fight off these two monsters. That monster corpse is half for each person. Otherwise, I'll leave now. You can't get that demon corpse either!" Wu Gan can't hold it any longer.

"good!"

Lu Xuan drew out his long sword and charged towards the battlefield.

The two demons were startled, but the human took action.

The giant crab demon quickly gave up his martial arts and faced Lu Xuan.

The two sides immediately started a one-on-one battle.

After a moment, the baby fish fired again. Sonic attack.

Qin Feng took the opportunity to launch a resonance sniper kill, targeting Wu Gan and Lu Xuan.

The two were caught off guard and were hit at the same time.

Two muffled groans were heard, and both of them exposed their loopholes.

The baby fish blasted Wu Gan until he vomited blood. Flying upside down.

The giant crab demon also smashed Lu Xuan away with one claw.

"Brother Lu! what happened? How did this baby fish's sonic attack become so powerful!" Wu Gan wiped the blood from the corner of his mouth, his eyes full of horror.

His protective shield was broken just now, causing him to drink a lot of sea water.

"have no idea! Stop thinking so much! I'm going to grab the body, you stop the baby fish!"

Lu Xuan ignored the embarrassment and rushed towards the monster corpse again.

The giant crab monster immediately intercepted it.

Lu Xuan ducked and easily avoided it.

The giant crab monster was furious and smashed its giant claws wildly.

Lu Xuan was disdainful, and if he made a mistake in his steps, he would Avoid.

He is good at fighting and speed, but the giant crab demon is clumsy and cannot stop him.

Seeing that he is about to break through the giant crab demon's interception, Qin Feng secretly uses spatial twist.

Lu Xuan's dodge angle changes immediately.

Bang ~!

Lu Xuan was smashed away by a claw again.

Damn it!

What the hell is this?

Didn't I avoid it just now?

But before he could think about it, the giant crab demon came to kill him again.

Just like that, the two sides were fighting, Qin Feng kept They were doing something in the dark.

It didn't take long before Wu Gan and Lu Xuan were covered with wounds.

They couldn't hold on any longer and turned around to run away. No matter how good the monster corpse is, life is more important.

The baby fish and the giant crab monster chased after them.

A moment later , there was no one in the field.

After the two demons walked away, Qin Feng appeared with a happy face.

This time, he caught a mistake!..

Chapter 148

Qin Feng came to the demon corpse with a look of joy on his face.

This is a late six-star demon corpse!

That's it for 1000 points.

The value of light itself is worth tens of billions.

Qin Feng took action immediately.

After a while, the Jing Yuan Pearl and Demon Core were obtained.

He put away the demon core and demon corpse with satisfaction.

The six-star late-stage demon core is stored first, and can only be devoured after he breaks through to four-star.

After the demon core reaches six stars, it is not only expensive, but also unavailable on the market.

Even Nandu City is the same.

If he wants six-star demon cores in the future, he can only go to auctions or special secret markets.

Therefore, Qin Feng cherishes this demon core.

Likewise, he cherished this opportunity to hunt the demon core.

As long as conditions permit, he is willing to hunt down a few more demon cores and save them

"Ding! Successfully swallowed the Essence Pearl, and the spatial sensitivity increased to 1.83....."

"Ha ha!! The Jingyuan Pearl in the later stage is really stronger than the one in the middle stage!"

Qin Feng was delighted.

The enhanced sensitivity of the six-star late-stage Jingyuan Pearl is 0.15, which is much higher than the mid-stage 0.12.

"There is still 0.17 left to break through to the second level. I wonder how much the six-star Dzogchen can be improved?"

Qin Feng was thinking while cleaning up the battlefield.

Of course, he did not forget to check the demon corpse.

The demon corpse also had strange electronic equipment.

Qin Feng destroyed the equipment directly and became more curious.

After he finished cleaning everything, When he was about to leave, a rapid wave of water came.

He quickly used violent transformation, and his combat power surged. Then he hid aside with an ice concealment.

A moment later, a humanoid monster appeared on the scene.

The monster was three meters tall. , covered in black hair, looks like a monkey, and wears something like leather armor.

It is the six-star late-stage great demon - Sea Monkey Demon, and it is also the last late-stage great demon in this area.

In fact, it has long been destroyed by this I was alerted by the movement nearby, but it was too far away, so I arrived late.

The great demons in the later stage were obviously more intelligent than those in the middle and early stages, and they already knew how to join forces with each other to fight against the enemy.

The sea monkey demon arrived at the scene and looked at it doubtfully. He sniffed around again.

Except for some demon blood remaining here, there was nothing else.

Could it be...

Boom~!

Qin Feng suddenly erupted.

A sword light cut through the dark seabed.

The sword body! From the inside out. It emits a dazzling spiritual light!

It shines brightly all around!

The advanced skill - three violent attacks!

The Tingfeng Sword stabs directly into the back of the sea monkey demon.

The sea monkey demon is frightened, turns around quickly, and attacks with the iron claws and long sword.

The space twists, The defensive angle failed.

The Sea Monkey Demon was so frightened that he quickly gathered the infinite water energy and prepared to form a defense.

But at this moment, the tip of the sword rang softly, resonating to kill.

The energy and blood in the Sea Monkey Demon's body was violent, and the newly condensed defense Collapse.

Bang~! Bang~! Bang~!

Three violent attacks, all hit!

The Sea Monkey Demon's defensive vest was shattered!

Another dazzling golden light flashed!

Boom~!

A shocking muffled sound!

The bottom of the sea shook violently. On the sea surface above 100 meters, countless bubbles burst out, carrying bright red blood.

At this time, people and monsters within tens of thousands of meters were shocked.

Somewhere under the sea, Wu Gan looked at the direction of the explosion in shock.

Behind them The baby fish was also dumbfounded.

Wasn't the place where the explosion happened just now?

How could there be an explosion?

Could it be that Lu Xuan and the Cancer Demon had returned? But with their strength, they couldn't make such a big noise!

Qian and Lu Xuan fled in separate directions.

On the other side, Lu Xuan and Cancer Demon had the same idea.

They thought it was caused by the fight between Wu Gan and Yingyu.

But they couldn't figure out why the two people escaped. Where.

At the same time, at the battle scene, the Sea Monkey Demon looked at the human in front of him in great horror.

The human's eyebrows were split open, revealing a golden eye, with a golden flame burning deep in the pupil.

Just now , this human's sword shattered its leather armor, and then the strange eye between his brows shot out a golden light, hitting its heart.

It clearly sensed that the golden light was comparable to the six-star Dzogchen blow, and it also had The temperature was extremely high, and the seawater within a radius of several meters evaporated instantly.

Suddenly, the Sea Monkey Demon felt a little pain in his heart.

When he lowered his head and looked down, his eyes showed great fear and despair.

He saw a large transparent hole in his chest, which was enough It was as big as a fist.

That was the position of the heart.

Its heart was gone and was instantly burned to ashes by the golden light.

It looked up at Qin Feng in despair, and then slowly turned around.

It wanted to escape!

It felt that it was still alive You can save it again.

Seeing this, Qin Feng quickly stepped forward, added another sword, and killed it.

The great demon in the late six-star stage was easily killed by him.

Qin Feng put away the Burning Sky Golden Eyes between his brows.

Put away the monster corpse quickly, it is not suitable to stay here for a long time.....

At the same time, in the city, in that luxurious apartment.

Feiying looked at the red dot disappearing on the photoelectric diagram and was instantly dumbfounded.

She is a shrewd woman.

She saw that the red dot was moving quickly from a distance just now.

But when it got to that place, it paused, and then went out in less than 20 seconds.

Kill a late six-star monster in 20 seconds.

What kind of strength is this?!

This is definitely the strength of Six-Star Dzogchen.

Lu Xuan and Wu Gan are completely incomparable.

An extremely powerful mysterious player must have appeared!

Feiying's hands are shaking!

Something is going to happen this time!

In panic, she took out her phone.

She wants to report to Yusha.

At the same time, a remote place on the sea.

You Shark looked at the direction of the explosion with a look of astonishment.

The power of the explosion just now was not small, it was even more powerful than those produced by the late six-star powerhouses.

Could it be a joint attack by Wu Gan and Lu Xuan?

Just then, Feiying called.

Yousha quickly picked up the phone.

After a few minutes, he hung up the phone with a look of shock on his face.

What Feiying means is that in the later sea areas, a six-star Dzogchen master is suspected to have appeared.

"Six-star Dzogchen?"

You Shark took a deep breath and slowly put away his phone.

His cultivation level is only six-star perfection.

"This is forcing me! Do I want to use the seven-star combat power?....."

The swimming shark sighed helplessly and dived to the bottom of the sea..

Chapter 149

According to the rumors, the seven-star monster that appears and disappears, and the monster that even the King of the Sea cannot catch, was caused by the wandering shark.

In front of the seven stars, any six stars will be killed instantly.

But swimming sharks are also afraid!

If caught by Neptune, he will die!.....

But on the other side, after Qin Feng left the battlefield, he came to a remote seabed.

After a while, he had another Jingyuan Pearl and Demonic Core in his hand.

"Ding! Successfully swallowed the Essence Pearl, and the spatial sensitivity increased to 1.98...."

"Just 0.02 difference!"

Qin Feng was delighted.

He was only 0.02 away from the second level of space. He also accumulated two six-star late-stage demon cores.

Not bad!

Next, he should hunt down the other two late-stage monsters.

Qin Feng raised his head and looked in the direction where the Cancer Demon and Lu Xuan were leaving.

He knew that Wu Gan and Lu Xuan escaped separately.

These two people indirectly helped him separate the Yingyu and the Cancer Demon.

Although the hunt just now made Qin Feng He knew his own strength.

Even if the baby fish and the giant crab monster teamed up, they were no match for him.

But he still wanted to kill these two monsters at the minimum cost and as quickly as possible.

Qin Feng silently put on the black mask , put on a set of all-black clothes, and dived towards the Cancer Demon.

On the other side, Wu Gan was chased by Yingyu, and finally escaped from the water with hatred and flew towards the mid-six-star sea area.

He could have been with Yingyu It was a tie.

However, he was too seriously injured and his strength declined. When the baby fish saw Wu Gan fleeing to the sea, it did not dare to chase him.

Above the sea, it was the territory of humans.

It turned around and went to support the Cancer Demon.

At this time, At the same time, in another place under the sea,

Lu Xuan and the Cancer Demon were inextricably killed.

The Cancer Demon was originally the weakest of the four late stage monsters, and its movements were clumsy and slow. Facing Lu Xuan, who was known for his speed, its shortcomings were immediately magnified..If

Lu Xuan hadn't been injured and his strength had declined, the Cancer Demon wouldn't have been able to draw a tie.

For a while, the two sides were in a stalemate.....

At the same time, something was happening in the Six-Star Dzogchen Sea.

In the dark deep sea, a giant white shark tens of meters long was swimming from a distance.

It is one of the two six-star Dzogchen monsters in this area, named White Shark King.

At this moment, it swam to an undersea hill, looked down at the hill with its blood-red eyes, and actually spoke.

"King Xuan! Two of the late six-star demon commanders died....."

The sea mountain shook slightly and seemed to wake up.

After a moment, a low and stiff voice came out

"Are the players this year so strong?"

The voice was full of shock.

The White Shark King sighed:"This time I need you to take action! Go for it! Kick those contestants out of the post area...."

"why don't you go....",The voice was somewhat dissatisfied.

The White Shark King said coldly:"You are the real king of this sea! Your men are dead, and you don't care? I'm just an outsider living here temporarily....."

The voice fell silent.

After a while, it rang again

"If I enter the late sea area, I am afraid that it will attract the attention of powerful humans....."

That's what worries it

"With your strength, it won't take long to drive away those contestants, and then return them, and it won't be a big deal....."

"Then the cooperation between us...."

"rest assured! I promise you the benefits, plus 10% more!"

"good!"

The sea mountain shook and slowly floated up.

It turned out to be an extremely huge turtle.

It was another six-star Dzogchen monster - the Black Turtle King.

The Black Turtle King stood up, and in the next second he moved at an extremely fast speed. , rushing towards the six-star late-stage area.

After the Black Turtle King walked away, the White Shark King opened its mouth.

A bald man walked out of its mouth. It was the swimming shark.

"One hour left!"

You Shark looked at the back of the Black Turtle King and sighed.

There is only one hour left, and the baby will be mature.

By then, the movement caused by the mature baby will definitely be spread to the later area.

"Swimming with sharks, only for an hour, I'm afraid it's too late to drive people away. How about I help the Black Turtle King?"

The White Shark King looked at You Shark

"Need not!" You Shark shook his head slightly, "No matter how much time it takes. The Black Turtle King may not be able to drive that person away. That guy's strength is not inferior to Six-Star Dzugchen"

"Then why did you ask the Black Turtle King to drive him away?....", The White Shark King was puzzled.

You Shark smiled slightly: "I just want the Black Turtle King to entangle that person. As long as he can entangle him for an hour or two. Once the treasure is mature, we will pick it up and leave. Everything will be fine."

"Such trouble! Why don't we go over together and kill that guy directly!"

"No!" Yousha shook his head quickly, "Every contestant has emergency rescue equipment. If you can't kill him with one blow, you'll be in trouble if you provoke the Seven-Star Monarch."

"Besides, the treasure is about to mature. How can we leave? If you want to harvest, we need to join forces....."

After hearing this, White Shark King felt it made sense.

It turns out that picking that peerless treasure requires the strength of Seven Stars.

Yousha can't do it alone

"Let's go!"

At this moment, one person and one shark headed towards the 20,000-meter-deep seabed. There was a deep trench somewhere.

Their treasure was hidden deep in the trench..

Chapter 150

But said the other side.

Lu Xuan and the Cancer Demon fought for a long time and gradually gained the upper hand.

The Cancer Demon's hard back shell has cracks.

After all, it was no match for Lu Xuan, and his eyes showed the intention to retreat.

Lu Xuan seemed to be aware of it and kept pestering it. The more he fought, the more excited he became.

The Cancer Demon gradually became uneasy.

But at this moment, water waves shook in the distance.

One person and one demon quickly looked around and saw the baby fish coming to kill them.

The Cancer Demon was overjoyed.

Lu Xuan was horrified.

Even in a one-on-one fight, he was no match for Yingyu, let alone facing two demons joining forces.

At this moment, without even thinking, he repelled the giant crab demon with one move and fled towards the sea.

The baby fish hurriedly chased after him.

The Cancer Monster also chased after him.

But its speed was obviously not as fast as Yingyu and Lu Xuan, and it gradually pulled away.

After a while, Lu Xuan escaped from the sea.

After all, the baby fish was afraid and did not chase him out.

Lu Xuan breathed a sigh of relief.

Sudden!

There was a muffled sound deep under the sea!

The sea surface of 10,000 meters shook, and huge waves rose into the sky, vaguely carrying a bit of blood.

"This is....?!"

Lu Xuan was very shocked.

What happened under the sea?

He just broke out of the sea, and the baby fish was not far behind him.

The explosion place is deeper under the sea.

Could it be that someone is fighting with the Cancer Demon?

Lu Xuan was very curious, but he didn't dare to sneak in.

But at this moment, another violent explosion came from the bottom of the sea.

Boom~! Boom~! boom~!

The explosions continued!

I saw waves rising into the sky!

The boundless sea water turned into rain, falling everywhere!

The whole sea area is boiling!

Lu Xuan looked horrified.

What a terrifying movement!

This is the move of the six-star Dzogchen powerhouse!

But this sea area is clearly a late-stage six-star area!

Lu Xuan remained frozen in place, letting the rain and waves wet his clothes.

The explosion on the bottom of the sea lasted for a full two minutes before stopping.

The huge waves disappeared, but the sea water was bright red, dyed red with blood.

Lu Xuan took a deep breath of cold air.

Then, he hesitated for a moment, his figure gradually became transparent, disappeared, and then dived into the bottom of the sea.

He couldn't hold back his curiosity after all!

A moment later, he dived thousands of meters deep into the ocean floor and saw a horrific scene.

In the dark depths of the sea, a masked man in black stood proudly, with two monster corpses lying around him.

One is a giant crab demon, and the other is actually a baby fish.

Lu Xuan was horrified.

He instantly understood that the movement just now was caused by this mysterious man killing the baby fish.

It's just that everything happened too fast, less than three minutes.

Lu Xuan looked at Qin Feng with fear.

But the distance was too far and he couldn't see through Qin Feng's cultivation. ,

In fact, he guessed correctly.

Qin Feng first caught up with the giant crab demon and killed it with one blow.

The baby fish noticed it and quickly turned around to fight him.

The two sides fought fiercely for more than ten times, and Qin Feng finally killed the baby fish.

This baby fish is indeed the queenThe strongest among them.

Qin Feng looked at the two demon corpses beside him and showed joy.

In the later area, the corpses of the four great demons all fell into his hands.

"Um~? ! "

At this time, Qin Feng sensed something and suddenly raised his head and looked in the direction where Lu Xuan was invisible.

Lu Xuan was shocked.

Have you been discovered?

But before he could think about it, Qin Feng snorted coldly.

Resonance kills!

Target Lu Xuan!

This is a full blow!

Wow~!

Lu Xuan was caught off guard, and the blood vessels in his body burst, spurting out a mouthful of blood, and the invisibility technique became ineffective.

It was discovered!

He was so frightened that he turned around and ran away.

In the blink of an eye, he rushed out of the sea and fled.

Qin Feng took one look, did not pursue him, collected the monster corpses on the ground, and evacuated.

It was just a competition, and he wasn't ready to kill the other contestants.

Besides, Lu Xuan couldn't see anything.

After a while, Lu Xuan escaped from the later area.

He looked behind him and saw no one was chasing him, so he breathed a sigh of relief.

Then, he smiled bitterly and rushed towards the mid-six-star area, never daring to stay in the late-stage area.

As a result, Qin Feng was the only one left in the late six-star area.

Meanwhile, in the city, that luxury apartment.

Feiying looked a little numb as she looked at the two red dots that had just disappeared.

In just three minutes, two more late stage monsters died.

One of them should be a baby fish.

The baby fish's combat power has reached 600,000 points, and there are many treasures in his hands.

Among those players, except for Wu Gan who relied on high-grade Yuanwu Neng to draw with Yingyu, no one should be its opponent.

But now, the baby fish has been killed.

Feiying looked at the time.

There are still 30 minutes left before the treasure is ready.

It's too late to drive away this mysterious player now.

However, she did not report to the swimming shark.

Because she saw the red dot representing the Black Turtle King and had already arrived near the place where the fight had just taken place.

At this moment, the big red dot finally stopped.

Apparently, the Black Turtle King and the mysterious master met.

Feiying finally breathed a sigh of relief.

She picked up the tea cup on the table and took a sip.

Just now, she made a calculation in her mind.

As long as the Black Turtle King pesters the mysterious master for 40 minutes, it will be enough.

After 30 minutes, the treasure will move when it matures.

Then, after another 20 minutes of fruiting period, you can pick them.

The Black Turtle King struggled for 40 minutes, and there were only 10 minutes left before picking time.

In 10 minutes, the mysterious master had no time to rush over.

The swimming shark and white shark king will definitely be picked successfully.

Thinking of this, Feiying relaxed a little.

In fact, her guess was accurate.

Not long after Qin Feng left the battlefield, before he could deal with the demon corpse, the Black Turtle King came to his door.

The two sides immediately fought together, and they were evenly matched.

Feiying put down her teacup and stared at the light spot pattern silently.

In a blink of an eye, 10 minutes passed.

The red light spot is still flashing.

A smile appeared on Feiying's face.

The Black Turtle King is good at defense. It is no problem to entangle the mysterious master for 40 minutes or a day.

It seems that everything is still under control.

Feiying sat back on the sofa and straightened her long legs.

Tonight, the swimming shark should be able to return smoothly.

Thinking of being enjoyed by that guy again.....

Her pretty face was slightly red.

Just like that, another ten minutes passed without realizing it.

There are only 10 minutes left before the treasure is mature.

The red dot representing the Black Turtle King is still there.

Feiying felt more relaxed.

At the same time, the six-star Dzogchen area.

The dark sea floor is in a trench tens of thousands of meters deep.

Swimming Shark and White Shark King looked nervously at the deep pit ahead.

I saw that inside the deep trench, it was originally dark and hazy, almost like an ordinary seabed scene.

But at this moment, it slowly lit up with cyan light.

The illusion that originally covered the deep trench was broken by the cyan light, revealing the true face of the deep trench.

Swimming Shark and White Shark King were excited.

This treasure finally has some movement..
