Chapter 1451

The monkey king behind him seemed to have discovered that Qin Chuan was drowning, and immediately swam towards him at a faster speed. He wanted to take this opportunity to kill Qin Chuan.

In the blink of an eye, the monkey king was less than ten meters away from Qinchuan...

There was surprise in his eyes.....

But he said on the other side, just when Qin Chuan's consciousness gradually became blurred.

Suddenly, the body refining method started to work automatically, and a stream of clear water automatically flowed through Qin Chuan's body and through his head.

As soon as the clear stream passed over his head, Qin Chuan immediately woke up.

It turns out that that clear stream is the energy of life.

Under the conditions of extreme hypoxia, the body refining method was activated, allowing the life energy in his body to form a weekly cycle.

Qin Chuan was pleasantly surprised.

Isn't this what is described in the body refining method? When the hidden veins are opened, it means refining the body.

He actually unintentionally opened the hidden veins that would refine his body.

After opening the hidden veins, the seven doors of body refining are opened.

Hidden veins are the conditions for entry.

At this moment, Qin Chuan clearly felt that his strength had greatly increased.

That is, after the hidden veins were opened, a huge transformation occurred.

What's even better is that after the hidden meridians are opened, the life energy in the body can form a self-circulation, which can maintain the operation of body functions. You can actually keep your mind clear and move freely without breathing.

This breakthrough surprised Qin Chuan.

Wow!

But at this moment, the sound of rapid water flowed behind his head, and the Monkey King caught up with him, less than three meters away.

Qin Chuan was horrified and rowed forward quickly.

Suddenly, the life energy in his body circulated at high speed in his hidden veins, greatly increasing the strength of his hands and feet, and increasing his paddling speed.

The Monkey King was stunned.

This human being was drowning just now, but why did he suddenly recover and swim faster?

How weird!

However, it only hesitated for a moment before continuing to chase Qinchuan. , three meters.....Two meters.....one meter.....

Even though Qin Chuan's speed became faster, he was still not as fast as the Monkey King.

One person and one monkey, getting closer and closer.

In the darkness, Qin Chuan, with his super six senses, could clearly sense that the Monkey King was getting closer and closer to him, and the footsteps of death were approaching step by step... half a meter away.....one foot.....Half a foot...

Just when the monkey king was less than half a foot away from Qinchuan, it took out its claws...

With a burst of water vibration, Qinchuan sensed an attack coming from behind.

Immediately, a sharp claw grabbed his left leg.

Qin Chuan was horrified to feel that five sharp nails instantly pierced into his leg flesh, and then he was pulled back violently, feeling like a large piece of flesh was to be torn off from his leg.

Qin Chuan was horrified and clenched his teeth in pain.

He did not struggle, but instead rushed towards the monkey king. At the same time, he pulled out the dagger from his waist and stabbed the monkey's paw.

As soon as the monkey king felt pain, he immediately released his paw, and Qin Chuan took the opportunity to escape.

Roar~!

The monkey king was so angry that he roared, but he didn't even want to open his mouth, but he was poured more than a dozen mouthfuls of water, which made his head swell and hurt, and he almost drowned.

Under the water, the Monkey King's strength was greatly reduced, and he accidentally got into Qin Chuan's way.

In addition, in the darkness, not only Qin Chuan could not see anything, but the monkey king could not see anything either, so he followed Qin Chuan's advice.

As soon as Qin Chuan broke free, he took advantage of the opportunity and fled more than ten meters away.

The Monkey King was extremely angry and chased Qinchuan again.

The two sides chased each other and fled, then sneaked for tens of meters. The rushing water around them gradually became calmer and the river became wider.

At the same time, Qin Chuan discovered that there was a little silver light under the river ahead.

Those weak light sources allowed him to barely see the conditions at the bottom of the river.

The Monkey King, who was chasing after him, also saw those silver spots of light.

For some reason, it suddenly stopped, hesitated for a while, and then retreated.

Qin Chuan was overjoyed when he saw the Monkey King retreating, but also felt a little confused.

He didn't know whether the Monkey King retreated because he had reached the limit of holding his breath, or if there was another reason.

But no matter what, the Monkey King retreated, and he escaped.

Of course, he couldn't look back and had to keep swimming forward until he found the exit.

At the moment, Qin Chuan continued to swim.

Soon, he was approaching those bright places.

Only then did he realize that the silver light was emanating from some strange water plants.

Those water plants are all silver, emitting a faint silver light.

Although Qin Chuan was very curious as to why those silver water plants were glowing, he was worried that the Monkey King had not gone far yet, so he did not dare to stay longer and continued to paddle forward as hard as he could.

After swimming another hundred meters, Qinchuan found more and more silver water plants, more and more light under the water, and better and better visibility.

"What exactly are these silver water plants? Why does it glow?"

Qin Chuan was curious.

But at this moment, a silver light shot out from the water plants, like a sharp arrow, and shot straight at Qin Chuan at an incredible speed.

Qin Chuan was shocked and instinctively blocked the silver light with a dagger.

When ~!

There was a tremor under the water!

Qin Feng felt the hand holding the dagger shake, and a huge force came from him, which actually knocked him upside down under the water.

The silver light was also knocked back several meters by the dagger.

What a strong force!

Qin Chuan was horrified and quickly looked at the silver light. He saw that the silver light was a silver strange fish as thin as bamboo chopsticks.

The strange fish had an extremely long and slender head, shaped like a spike, and a tail fin shaped like a Clusters of arrows, the whole fish looked like a silver arrow, and the whole body exuded silver light.

What surprised Qin Chuan was that he had just struck the strange fish with a dagger, but the strange fish seemed to be fine, with no injuries at all. None. It can be seen that the hardness of its body is incredible.

At this moment, the strange fish shot at Qin Chuan again, at an alarming speed.

When~!

Qin Chuan used the dagger again to block the attack of the strange fish.

This time, the strange fish's The intensity of the attack increased greatly, knocking Qin Chuan back three to four meters, and he could hardly hold the dagger in his hand.

Such a strong force!

Qin Chuan felt his arms go numb. The power of this strange fish was even stronger than that of the golden-striped monkey. Don't get entangled with it.

Thinking of this, Qin Chuan quickly moved around and swam forward.

The strange fish was chasing after him..

Chapter 1452

Qin Chuan had no choice but to block and escape.

The impact of the strange fish also allowed Qin Gong to move forward, which in turn accelerated his forward swimming speed.

This discovery made Qin Chuan's heart move. He simply stopped swimming and turned around to defend himself against the attack of the strange fish. Then he used the impact of the strange fish to move him forward. This movement speed was actually several times faster than his previous swimming. point.

The strange fish had amazing endurance and rushed towards Qin Chuan again and again, colliding more than thirty times in the blink of an eye.

Qin Chuan's hands were sore and numb from the shock.

Fortunately, his body refining method continued to operate, and the life energy slowly flowed through his arms, constantly relieving the soreness and numbness in his arms.

But before he could be happy for long, another silverbait shot out from the water plants at the bottom of the river and shot towards him.

Qin Chuan was shocked and quickly blocked.

In this way, he is one against two.

But not long after, the third silverbait appeared.....

Then the fourth, fifth, sixth... there were more and more strange fish, and each one was like a sharp arrow, shooting at Qinchuan...

At this moment, Qinchuan deeply suspected that the Monkey King retreated and... It's not because I'm holding my breath to the limit, but because I know the existence of these strange fish.

At this point, he had no way out and could only keep waving his dagger to block.

Dang~! Dang~! Dang~!

There is constant trembling under the water!

Qin Chuan's arms were sore and numb!

Every time, he blocked extremely thrillingly.

He dare not neglect.

As long as there is a slight negligence, those strange fish will shoot him through, shoot him into a sieve, and die tragically underwater.

At the moment, under the impact of many strange fish, his movement speed is also increasing.

Unconsciously, the number of strange fish reached more than ten.

Qin Chuan felt that he could no longer defend himself and had reached his limit.

Just when he was about to collapse, the roar of water came from behind, the water suddenly became extremely cold, and the silver water plants around him became extremely rare.

Those strange fish also felt the water became colder and retreated one by one.

Qin Chuan was pleasantly surprised. These strange fish seemed to be afraid of the cold and stopped chasing them.

He quickly looked back and saw that the front suddenly opened up and there was a bright light, and he had reached the exit.

Under the light, Qin Chuan could see clearly. At the exit was a deep pool, exuding boundless cold air. The water from the underground undercurrent was flowing continuously towards the mysterious pool.....

As soon as he saw the exit, Qin Chuan dived into the water excitedly and swam desperately to the pool.

Wow~!

Once you enter the pool, you will feel the chill coming from all around.

Qin Chuan felt instantly frozen.

The water was so cold that it was unimaginable.

No wonder those strange fish retreated.

Even though Qin Chuan is a body-refining warrior, his physical strength is comparable to that of a third-level warrior.

But even so, his body couldn't withstand the cold, and he almost froze instantly.

Qin Chuan did not dare to neglect, and quickly used his hands and feet to climb to the shore before he was frozen.

After landing, the cold air in Qinchuan disappeared and we felt much more comfortable.

He couldn't help but let out a sigh of relief and sat down on the ground.

After regaining some strength, he began to deal with his injuries.

Now, his whole body is covered with injuries, but fortunately they are not serious.

Moreover, with the help of the body refining method, he has recovered to a full extent.

After taking care of the injury, Qin Chuan had time to look around.

He found that he was still in the cave, surrounded by no passages, with no exit, and a soft white light above his head.

"Huh! This is?"

Qin Chuan looked at the source of the light and couldn't help showing a look of astonishment.

He saw a huge spiritual bead floating above the cold pool, as big as a head.

The spiritual bead was a hundred meters high from the surface of the pool..

He couldn't reach it even if he wanted to.

It was just this weird scene that surprised him.

Could it be that the extremely cold water in the pool was caused by the spirit bead in the air?

Speaking of which, the spirit bead was continuously emitting water energy. , the ice is extremely cold, causing the surrounding water energy to become extremely rich, which is dozens of times that of the outside world. It is absolutely an excellent holy place to practice water-based skills!

"This bead is definitely a treasure! such a pity! I'm too far away from it! If I were closer to it, I might be able to get it!"

Qin Chuan murmured in his heart.

At this moment, the spirit bead in the air moved, slowly landed, and slowly sank into the cold pool, sinking deeper and deeper, like the bright moon in the water. As the spirit bead sank, The surroundings gradually became dark.

Qin Chuan looked at this scene in surprise.

His heart moved, and he secretly thought that it would be better to dive into the pool and get the spirit bead. At this time, after the spirit bead dived tens of meters, it quietly It was floating quietly in the center of the pool, neither sinking nor floating, as if it was still.

After hesitating for a moment, Qin Chuan decided to go into the water to explore.

Plop~!

He jumped into the cold pool again, and the biting coldness entered his body instantly. It was so cold that Qin Chuan shivered and his heart was shrinking.

The water in the pool was too weird and extremely cold!

Qin Chuan gritted his teeth and dived into the water, carefully diving towards the spirit bead.

Soon, he discovered that, The water energy in the pool was more concentrated than on the shore.

The closer he got to the Lingzhu, the higher the concentration of the water energy, and the water temperature became colder.

When he dived to more than ten meters, he couldn't bear the coldness of the pool water. , the whole person is about to be frozen, the movements are stiff, and the blood in the body seems to be freezing.

This can't go on!

I will probably freeze to death before I get close to the Lingzhu!

Qin Chuan has no choice but to go ashore again. After returning to the shore, the cold chill faded away and the body temperature returned.

Qin Chuan silently looked at the spirit bead in the water, somewhat unwillingly.

It was obviously a treasure, but he was not even qualified to get close to it. He thought it was still his own The strength is too weak.

By the way!

The water energy on this shore is so rich, dozens of times that of the outside world. It is an excellent place to practice water energy.

He might as well take this opportunity to try to break through the last main point. With this, he could break through to the first level.

Perhaps when his strength improves, he will be able to get close to the spirit bead.

Thinking of this, Qin Chuan's eyes lit up and he felt that this method was feasible.

At the moment, he sat cross-legged on the shore and started Start practicing.

As soon as you meditate, the water energy around you is attracted, like a tide, and rushes towards Qinchuan. Qinchuan was surprised to find that the speed of absorbing water energy on this shore was indeed dozens of times faster than the outside world. Times.

In such a wonderful place, practicing cultivation is definitely getting twice the result with half the effort.

In fact, according to his current cultivation progress, it would be impossible to break through from a peak quasi-martialist to a first-level beginner in less than ten days and a half.

But on this shore, I'm afraid He couldn't use it for half a day.

This discovery made Qin Chuan extremely happy, and he absorbed the water energy wholeheartedly.

During the absorption process, he keenly discovered that the water energy contained a trace of cold energy.

Moreover, the traces of icy energy were subtly changing the nature of the water energy in his body.

Qin Chuan did not pay attention to this change. Ice and water have the same source, and it is normal for the two to deviate.

What's more, the ice element The destructive power of water is greater than that of water.

In this way, Qin Chuan frantically absorbed the water energy around him, preparing to attack the last main point..

Chapter 1453

In this way, Qin Chuan frantically absorbed the water energy around him, preparing to attack the last main point.....

Not long after, he absorbed enough water energy to saturate all thirty-five main points.

The next second, with a thought, he activated the vitality in the thirty-five main acupoints to attack the Baihui acupoint above his head.

As long as this acupuncture point is opened, he can leap over the dragon gate, break through from a peak quasi-warrior to a first-level beginner, and his strength will be greatly improved.

Boom~Long~Long!

Vitality surges!

Hit the Baihui Gate!

Qin Chuan frowned slightly, feeling pain in the top of his head.

The first attempt to open the Baihui point failed.

Opening up the Baihui point was much more difficult than he thought.

No wonder, many people will always be stuck in the bottleneck of peak quasi-warrior, unable to break through.

However, it only failed once.

Qin Chuan was not discouraged.

With a thought in his mind, he continued to activate the water energy and began to attack the Baihui point again and again.

Bang~!

Bang~! Bang~!

Yuanli clashes again and again!

The Baihui point was like a closed gate, motionless and showing no signs of being breached.

Is it possible that my breakthrough this time will fail?

Qin Chuan was unwilling to give in.

The concentration of water energy here is dozens of times that of the outside world.

If he practiced here, he wouldn't be able to break through.

If we go to the outside world, we may not be able to break through for even longer. correct!

The concentration of water energy here is so high because of the mysterious spirit bead.

The closer you get to the spirit bead, the higher the concentration of water energy will be.

Why don't I dive into the water to practice.

Thinking of this, Qin Chuan opened his eyes and glanced at the pool in front of him.

Plop~!

The next second, water splashed!

He dived into the cold pool again.

This time, he only dived three meters and did not continue diving.

The biting cold invaded his body again, but it was within his tolerance.

Qin Chuan quickly kept his body suspended, sat cross-legged in the water, and began to practice.

At the same time, he silently operated the body-refining method and held his breath.

After this attempt, he was pleasantly surprised to find that the majestic water energy around him was several times that on the shore.

There is also more ice-cold energy contained in the water energy.

Qin Chuan's heart moved, and he immediately pulled the majestic water energy to attack the Baihui point...

Bang~!

Bang~! Bang~!

Click~!

After several more collisions of vitality, a soft sound came from Baihui Point.

The gate to the main acupoint was finally loosened.

Qin Chuan was overjoyed, secretly thinking that there was hope, and continued to rush through the level crazily. once.....secondary.....three times.....

In the blink of an eye, he had passed the level a hundred times.

The signs of loosening of Baihui point are becoming more and more obvious.

Boom~!

Suddenly, Qin Chuan's body shook.

The Baihui point suddenly opened, like a big embankment being broken through.

A large amount of water energy, like a flood that broke the embankment, poured crazily from the Baihui point into Qin Chuan's body.

The calmness of the entire Hantan was immediately broken.

The water surface, which was originally as quiet as a mirror, shattered with a crash, forming a small vortex above Zhang Shuier's head.

"Huh!"

A very slight exclamation.

It came from the bottom of the cold pool, almost inaudible.

Qin Chuan did not hear this mysterious voice at the critical moment of breakthrough.

In this way, this series of amazing changes continued for a long time. After a quarter of an hour, it gradually stopped.

The vitality in the water seemed to be weakened due to Qin Chuan's crazy absorption.

After everything became quiet, Qin Chuan slowly opened his eyes, with a look of ecstasy on his face.

He finally He has broken through to the first level!

Wow~!

He jumped up and brought water splashing all over the sky.

Qin Chuan returned to the shore and looked at himself in surprise.

He had indeed broken through to the first level elementary level!

The twelve-year-old first level elementary level If a warrior is known to the outside world, he will definitely be astonished.

Even the genius disciples of the four major families in Shenyang City can only achieve this.

Generally speaking, those who reach the first level of junior warriors are sixteen or seventeen years old. , some warriors with poor qualifications may not be able to reach the first level after practicing until they are more than 20 years old.

In fact, the genius children of the four major families are simply not as good as Qin Chuan.

Those genius children started practicing when they were seven or eight years old.

Qin Chuan did not start practicing until he was twelve years old.

In addition, Qin Chuan is also a fellow practitioner in body and qi refining.

Those geniuses are a joke in front of Qin Chuan.

Feeling the thirty-six main acupoints, all opened.

The water energy follows the thirty-six main acupoints, forming a complete cycle, running automatically, completing a week.

The next second, Qin Chuan thought, and the water energy field with a hint of chill emitted from his body..

This is the release of the warrior's energy.

Only true warriors can do it, and peak quasi-martialists cannot do it.

After breaking through the first level of elementary level, Qin Chuan's combat power has also skyrocketed to the strength of five people.

Now, his comprehensive His combat power has reached the strength of twenty-seven people.

If combined with his superhuman listening skills and extraordinary fighting skills, he dares to fight against a first-level advanced warrior..

Chapter 1454

The joy of a breakthrough in cultivation made Qin Chuan happy for a long time. correct!

I have now achieved a breakthrough in cultivation and my tolerance to cold has greatly increased!

I wonder if I can get close to the spirit bead.

Thinking of this, Qin Chuan looked at the cold pool in front of him again.

He was naturally a little unwilling to get the mysterious spirit bead.

At that moment, he took off the small gourd from his waist, raised his head and took a sip of monkey wine to replenish his life energy.

Then, he hung up the small gourd, and with a thought, his whole body's energy emitted, forming an invisible air shield, and he entered the cold pool again.

This time, Qin Chuan's great improvement in strength was due to the help of his external air mask.

He dived twenty meters in one breath.

Twenty meters later, he couldn't bear the coldness in the water and could only look at the spirit bead and sigh.

To get close to the spirit bead, he had to dive more than twenty meters.

It seems that he still lacks strength.

However, after diving twenty meters, the concentration of vitality in the water was a hundred times closer to the outside world, which was astonishing.

With a thought in Qin Chuan's mind, he simply stopped diving or surfaced, just suspended in the water and started practicing again.

When a warrior reaches the first level of primary level, he needs to open up thirty-six main acupoints to form a small Zhoutian cycle.

To practice to the first-level intermediate level, one hundred and eight acupuncture points need to be opened to form a great circulation.

Among the one hundred and eight acupoints, Huya includes the thirty-six main acupoints that have been opened, so there are only seventy-two acupoints that actually need to be opened, also known as the seventy-two Disha acupoints.

At the moment, Qin Chuan tried to open the thirty-seventh acupuncture point in his body with the help of nearly a hundred times the concentration of vitality.

Speaking of which, the thirty-seventh acupoint is easier to open than the Baihui acupoint.

After all, Baihui Point is the first level for a warrior!

The thirty-seventh acupuncture point is not a checkpoint, it is much easier to get through.

The difficulty of getting through it is far less than that of Baihui acupoint, and it is even easier to get through than other main acupoints.

In this way, Qin Chuan entered the practice again and turned around.

Time flies!

In the blink of an eye, an hour passed.

Suddenly, Qin Chuan's body shook slightly.

Click~!

A soft sound!

The thirty-seventh acupuncture point was opened.

The water energy in his body suddenly thickened by one point, and his strength quietly increased by one point.

Qin Chuan was delighted and continued to try to open the thirty-eighth acupuncture point.

Not long after, there was another soft sound in Qin Chuan's body. The thirty-eighth acupuncture point was also opened, and his strength increased again.

Qin Chuan was happy and continued to practice.

In the blink of an eye, another hour passed.

The thirty-ninth acupuncture point was also opened, and his strength increased again.

Qin Chuan tried to dive, but he went down three more meters.

Sure enough, the higher the water system cultivation level, the higher his cold resistance, and the deeper he can dive.

However, he is still far away from the Lingzhu.

At the moment, he closed his eyes and continued to open the fortieth acupuncture point.

But at this moment, he felt an inexplicable palpitation in his heart, as if he was being watched.

That feeling, coming from the deep bottom of the pool, made him very uncomfortable.

Qin Chuan immediately became alert, quickly opened his eyes and looked at the dark bottom of the pool, but saw nothing.

Is it my misunderstanding?!

Qin Chuan looked at the bottom of the deep pool. At a glance, except for the spirit bead, it was pitch black and bottomless, and nothing else could be seen.

"It seems that it is really my illusion..."

Qin Chuan muttered, then closed his eyes again and continued to practice.

But the moment he closed his eyes, the feeling that made his heart palpitate came from below again...

Qin Chuan hurriedly He opened his eyes and looked down suddenly.

At this moment, his face changed with fear, and he was extremely frightened.

Below, he saw a headless corpse, slowly rising from the dark depths of the cold pool, approaching him.....

Damn it!

Qin Chuan screamed in his heart and immediately rushed to the water with all his strength.

Wow~!

Water splashed!

Qin Chuan broke out of the water and jumped to the shore.

At this moment, he felt that his legs were a little weak and he could hardly stand. Steady.

Anyone who sees such a terrifying scene will feel frightened.

What's more, the headless corpse, dressed in white, has an eerie feeling.

Did I encounter a ghost?

Qin Chuan couldn't help but shudder at the thought of a ghost. Shivering.

After all, he is only a twelve-year-old boy who is not afraid of ghosts.

No!

I have to leave quickly!

This place is too weird!

Qin Chuan quickly looked around.

The diameter of this cold pool is only more than twenty meters, which is considered very small.
There is a pool of water.

The underground undercurrent continuously inputs groundwater into it, but it has never been able to fill it.

The amount of water in the underground undercurrent is not small. After years of input, even a lake can be filled.

But this cold The water level of the pond has not changed at all. The water surface is always more than one meter high from the shore. It seems that it will never be full.

"Is this cold pool a bottomless abyss?"

Qin Feng thought it was possible.

Otherwise, it would be impossible to explain why the cold pool could not be filled.

However, he did not have time to think so much and just wanted to leave as soon as possible.

He was afraid that the headless corpse at the bottom of the water would catch up.

Thinking of this, Qin Chuan looked around the cold pool.

There were cliffs all around, and there was no exit.

The only exit was the underground undercurrent. If he wanted to leave, he could only go back against the undercurrent.

But there were a lot of strange fish in the undercurrent, and there were also With the Monkey King in front, there is a dead end if we go back.

Is it possible that I am going to die trapped here?!

Qin Chuan was anxious, but he had no choice.

At this moment, a faint sound came from the depths of the cold pool. sigh

"Why!"

This sigh was very soft, but in Qin Chuan's ears, it was like thunder.

His face suddenly changed, and he looked into the depths of the cold pool with a look of horror..

Chapter 1455

At this moment, a faint sigh came from the depths of the cold pool.

"Why!"

This sigh was very soft, but it was like thunder in Qin Chuan's ears.

His face suddenly changed, and he looked into the depths of the cold pool with a look of horror.

He saw the headless corpse floating slowly in the depths of the cold pool. Coming.

Qin Chuan saw that his scalp was numb.

This headless corpse didn't even have a head, how could it sigh?

Thinking of this, he mustered up his courage and asked:"Who! Who is pretending to be a ghost?!"

As soon as these words were said, a sudden change occurred.

Boom~Rong~Rong!

There was a roar at the bottom of the pool!

The spirit beads that were originally suspended quietly in the water sank into the dark abyss in a blink of an eye and disappeared. There was no longer any light from the spirit beads. , the surroundings immediately fell into darkness, and he couldn't see his fingers.

Qin Chuan was suddenly frightened.

At this moment, he couldn't see anything, so he couldn't help but panic.

Crunch! Crunch!

At this moment, a bone-crushing sound came from the bottom of the pool.

It seemed like a rusty iron chain was pulling the iron gate.

Although Qinchuan couldn't see it, he could hear that the water level of Hantan was dropping rapidly.

In the blink of an eye, the water level dropped to more than forty meters.

At this time, Ling The beads began to float slowly from the bottom of the water again, and there was gradually light all around.

At this moment, Qinchuan discovered that after the water level dropped, bare steep slopes were exposed on all sides.

On those cliffs, eight huge iron gates suddenly appeared, distributed In eight directions.

Each iron gate is engraved with a huge character, which are: Hugh, Sheng, Shang, Du, Jing, Death, Jing, Kai.

At the same time, the pool water fluctuates, and a bright moon slowly slows down. Slowly rising, it was the spirit bead that had sunk before.

What was shocking was that the headless corpse was standing on top of the spirit bead. Along with the spirit bead, it slowly surfaced out of the water. It was very strange.

Qin Chuan held his breath. , staring at the headless corpse with great nervousness.

After a while, the headless corpse stood on the spirit bead, completely emerged from the water, and slowly rose into the air.

Then, it slowly turned its stiff body and faced Qin Chuan became even more nervous, and cold sweat broke out on the back of his back.

He didn't know what the headless corpse would do next?

At this moment, the headless corpse had been facing Qin Chuan in a daze, dressed in white, and there was no trace of it. The wind automatically started to float.

The next second, it slowly raised its stiff left hand and pointed its long and white fingers directly at Qin Chuan.

Qin Chuan suddenly felt his scalp numb.

At this moment, the headless corpse appeared again Slowly turning his stiff body, he pushed towards the 'Gate of Life' among the eight large iron gates.

Boom~Rong~Rong!

The Door of Life suddenly roared, and then slowly opened, revealing a The dark passage.

Seeing this, Qin Chuan was shocked.

What does this headless corpse mean?

Is he helping me get out of here?

Thinking of this, Qin Chuan thought it was possible.

With the strength of the headless corpse to push the door open, it was really If you want to kill him, it is like squeezing an ant to death.

There is no need to play these tricks.

In this case, I might as well believe it for once.

Maybe the passage of the Gate of Life is the way out.

Thinking of this, Qin Chuan looked at it with a complicated expression. After taking one look at the headless corpse, he raised his hand and asked: "Senior, are you showing me the way?"

Hearing this, the headless corpse slowly lowered its hands and stood motionless in the air, as if in acquiescence.

Seeing this, Qin Chuan no longer hesitated and quickly climbed up the cliff, quickly climbed to the door of life and entered the passage.

Before leaving, Qin Chuan saluted the headless corpse again, and strode towards the depths of the passage.

Creak! Creak!

At this time, the iron door behind him creaked again and was being closed again.

"Why!"

Another faint sigh!

The moment the iron gate closed, Qin Chuan heard the strange sigh again.

This time, he heard it clearly. The sigh came from the bottom of the pool, but it was not from the headless corpse..

Bang~!

There was a heavy muffled sound, and the iron door behind him was completely closed.

The passage was plunged into darkness again..

Chapter 1456

Seeing the darkness all around, Qin Chuan was in shock.

The sigh still echoed in his ears.

Who is the person at the bottom of the pool?

What is his relationship with the headless corpse?

Qin Chuan shook his head, unable to think of a clue, so he continued on his way.

Speaking of which, he had been wandering around in the cave, and he didn't know how much time had passed outside.

I don't know if the exchange meeting between Tianshui Martial Arts School and Gale Wind Martial Arts School will start soon.

Thinking of this, Qin Chuan quickened his pace.

The door at the back was closed, so he could only walk forward along the passage.

The dark passage, without a trace of light.

He could only hold on to the stone wall and slowly groped forward.

After walking for several thousand meters, Qin Chuan gradually felt that the temperature in the passage was getting higher and higher, and the surrounding stone walls were also getting hotter.

Doesn't this passage lead to underground magma?

This weird idea came to Qin Chuan's mind and he walked nearly a thousand meters. The temperature in the passage became higher and higher, and the surrounding air was as hot as a wave of fire.

Qin Feng was so hot that he was sweating profusely, and his clothes were soaked with sweat and clung to his body.

The stone walls on both sides of the passage were so hot that you couldn't touch them with your hands, otherwise the quilt would squeak from the heat.

Is it really leading to underground magma?

The more Qin Chuan thought about it, the more it seemed possible, but he had no choice but to go forward.

After walking a few hundred meters more, the temperature in the air had reached an incredible level.

Qin Chuan's hair had been curled by the hot air.

Sweat was pouring from his forehead, and his clothes were steamed dry.

A layer of salt crystals formed on his face and clothes.

In fact, every time he took a breath, he felt the hot air entering his body, as if he had drank hot boiling water, which made his throat burn with pain.

Finally, he simply closed his mouth and breathed as little as possible.

Until he turned a corner, Qin Feng discovered that there was a faint red light on the passage ahead, like the light of a flame in the dark cave.

He quickly quickened his pace and walked forward.

After getting closer, he discovered that the red light was emanating from a piece of fiery red transparent jade.

The piece of crystal jade was only about the size of a thumb, but the light it emitted was very strong, illuminating an area dozens of meters in radius. It was extremely extraordinary at first glance.

Qin Chuan thought that this might be a treasure, so he quickly took out his dagger and pried the red crystal jade off the stone wall.

What surprised him was that after he got the crystal jade, it was as cool as jade, and it seemed to contain violent energy.

Seeing this, Qin Feng became more and more certain that this red crystal jade was a treasure.

He happily took the crystal jade and continued to move forward.

Along the way, he collected two pieces of red crystal jade.

In the dark cave, Qin Chuan used the red crystal jade as a light source to move forward. After walking for more than a thousand meters, a piece of light suddenly appeared in front of him, and he finally reached the exit.

Qin Chuan was overjoyed and hurriedly walked to the exit.

The exit is on a cliff.

Under the cliff is a large rolling mass of fiery red magma.

Qin Chuan stood at the exit, looking at the fiery magma below with a look of fear on his face.

If he accidentally fell down, there would definitely be no dregs left.

Fortunately, the cave entrance was only two meters away from the top of the cliff.

At that moment, he carefully found a foothold, leapt forward, and climbed to the top of the cliff.

After reaching the top of the cliff, Qin Chuanzhang found that the surrounding area was very spacious.

However, he should still be underground, with the cave wall above his head and a passage on the right that leads to no one knows where.

Qin Chuan glanced around and walked towards the passage to see if he could find the real exit.

After entering the passage, Qin Chuan found that he seemed to be back in the stalactite cave before.

I saw stalactites all around.

Fluorite grows naturally on the cave walls, emitting a faint light.

No way?

I went around in a circle and came back?

Qin Chuan was a little depressed.

But at this moment, faint footsteps came from the distance.

Qin Chuan was startled and quickly ducked and hid behind a stalactite.

After a while, the footsteps became clearer and clearer.

A ghostly figure appeared in Qin Chuan's sight.

Huh! is her!

When he saw who was coming, Qin Chuan's eyes showed surprise.

The person who came was none other than Lin Yue.

How did she appear here?

Also, how did she escape from the Monkey King?

Qin Chuan murmured in his heart.

He clearly remembered that after entering the underground cave, he found several passages.

He randomly chose a way to escape, and then the Monkey King chased him.

It is estimated that Lin Yue chose the other one, which happened to avoid the Monkey King.

After thinking about this, Qin Chuan felt a little depressed.

He narrowly escaped death and escaped the pursuit of the Monkey King.

Lin Yue relied on luck to avoid the monkey king's pursuit.

Huh!

Where is this woman's energy fluctuation?

At this time, Qin Chuan was surprised to find that Lin Yue didn't have any energy fluctuations on his body.

If Qin Chuan hadn't known that this woman was a first-level intermediate warrior, he would have thought she was an ordinary person.

At this moment, Lin Yue passed by the stalactites hidden in Qinchuan.

In the dim cave, she walked forward cautiously with a cautious look on her face.

At this moment, Qin Chuan dodged and pounced directly on Lin Yue.

Lin Yue was shocked when she heard the sudden sound of wind behind her head.

But Qin Feng was so fast that she had no time to react.

Plop~!

A soft sound!

Qin Chuan immediately threw Lin Yue to the ground, cut her hands behind her back, pressed her under him, and captured her.

Lin Yue was horrified and opened her mouth to scream

"Don't make a sound! Otherwise I will kill you!"

Qin Chuan suddenly covered Lin Yue's mouth and issued a fierce warning.

Lin Yue was horrified and immediately fell silent..

Chapter 1457

"Don't make a sound! Otherwise I will kill you!"

Qin Chuan suddenly covered Lin Yue's mouth and issued a fierce warning.

Lin Yue was frightened and immediately fell silent...

Then, she felt that the voice was familiar and couldn't help but turn her head to look.

When she saw the person who had captured her, It was Qin Chuan.

The panic in her eyes disappeared and was replaced by joy.

Qin Chuan ignored her look, took away the long sword from her body, put it on her neck, and then released her mouth.

Speaking of which, Qin Chuan had not long entered martial arts and had not yet learned how to restrain others.

After letting go, Lin Yue took several breaths and her chest rose and fell rapidly.

After a while, she looked at Qin Chuan with awe:"Why are you here? Qin

Chuan snorted coldly:"Don't ask so many questions. Now I'm here to ask you, why are you here?"

"Don't be so fierce, okay?", Lin Yue pretended to be pitiful.

Qin Chuan was a little disgusted, and put the sword directly against her throat, saying in a cold voice:"My patience is limited!

Lin Yue panicked:"I...I said that's it!" Little brother, we are in danger now, but we are still kind...ah! you!"

Lin Yue looked at Qin Chuan in great horror.

The sharp long sword had pierced her skin, and blood beads oozed from the tip of the sword.

"Do not kill me! I said! I said!"

Lin Yue was so frightened that her face turned pale, and she suddenly became frightened.

The little evil star in front of her was so cruel!

He killed her as soon as he said it. How could she not be afraid?

"This...this is the cave beneath the Monkey King's lair. After I came in, I kept looking for the exit, but I couldn't find it."

"How long have you been here?"

Lin Yue shook her head in confusion:"I don't know!" It's dark here, and I don't know how long it has been. I think it's been a long time.

Qin Chuan frowned and asked again:"How did you escape the monkey king?" With your strength, you can't escape the Monkey King's pursuit."

"At that time, the Monkey King chased you, not me"

"snort! Even if the Monkey King is not chasing you, the Monkey King still has so many subordinates, and they are not chasing you either? Tell me quickly, how did you avoid being chased by those monkeys? Lin

Yue smiled bitterly:"You should have noticed by now that there is no energy fluctuation in my body, right?" Not only that, even my breath is well covered"

"How is this going?", Qin Chuan showed curiosity.

At this moment, he also discovered that Lin Yue did not have any fluctuations in Yuan Power, and even her aura was obscured.

If she hid in a corner like this, it would be difficult to find her.

Lin Yue Explained:"I took Turtle Breath Pill to cover up the breath all over my body. Then, I hid in a remote corner, and then I escaped the pursuit of those monkeys, and I was lucky enough to survive until now."

"However, Guixi Dan has a big disadvantage, that is, it will block acupuncture points, thus sealing the vitality of the whole body, thereby achieving the effect of sealing the breath. Only when the effect of the medicine wears off can the power be restored. Qin Chuan suddenly said:"

No wonder, I can't sense the fluctuation of Yuan Power from you. It turns out to be this reason!""

"yes! Lin Yue said with lingering fear,"Because I didn't have any skills, I almost died several times. Just now when you attacked me secretly, I thought I encountered those wild monkeys."

Qin Chuan frowned:"You mean, there are monkeys in this cave?""

"Yes! Those monkeys never gave up. They have been searching for us. If it were not for the Turtle Breath Pill, I would have been discovered by them long ago."

Speaking of this, Lin Yue said with a sad face:"Although I can hide it well, staying here all the time is not an option. The terrain here is too complicated and there are so many forks that I have lost my way. I don't know how to get out now?"

"Are you lost?"

"yes! There are so many side roads here that I don't know how to get back. I originally planned to secretly return to the Monkey King's lair and find an opportunity to escape back the same way, but now it seems there is no hope."

Hearing this, Qin Chuan frowned.

If they still can't find a way out, even if they don't die in the hands of the monkeys, they will starve to death in this underground world.

He must find a way out as soon as possible.

"Bring it!"

Qin Chuan suddenly stretched out his hand to ask for

"What?!"

"Turtle Breath Pill!"

"oh! Lin

Yue suddenly realized, and quickly took out a white porcelain bottle and handed it over.

"I originally had two of these Turtle Breath Pills. I took one before and there is still one left in the bottle. Qin

Chuan poured out a yellow pill from the bottle and looked at it carefully.

Then he cut off a quarter of the yellow pill and handed it to Lingyue.

"Eat it! Lin

Yue was slightly stunned.

Immediately, she suddenly realized:"You are cautious enough, are you afraid that what I gave you is poison?"! Don't worry, this is Guixi Dan."

After saying that, she took the pill and swallowed it without hesitation.

Qin Feng waited for a long time and saw that Lin Yue showed no signs of poisoning, so he felt relieved and put away the Turtle Breath Pill.

"Okay, we are in the same boat now. I hope you don't have any evil intentions. If I find out that you have any evil intentions, don't blame me for killing you!"

Qin Chuan warned coldly.

He didn't kill Lin Yue not because he was kind, but because he wanted to find someone to back him up.

Just like when two people meet a tiger, they don't necessarily have to outrun the tiger, they just need to outrun the other person..

He wanted to take Lin Yue with him. This was his idea.

If he encountered an irresistible force of monkeys, he would use Lin Yue to attract firepower.

However, Lin Yue heard the warning and said hurriedly:"As long as you can take me out, I will listen." What's wrong with yours?"

"good!", Qin Chuan put away his sword.

At this moment, he seemed to hear something, raised his head and looked into the depths of the cave, his brows slightly furrowed.

"What's wrong?", Lin Yue asked

"There's movement!"

"What's going on?"

Just after saying this, the sound of monkeys chirping came from the depths of the cave. There seemed to be more than one monkey.

Lin Yue's face changed slightly, and she suddenly panicked:"Those wild monkeys are here again, let's leave quickly.!"..

Chapter 1458

As soon as he said this, the sound of "squeaking" monkeys came from the depths of the cave, and it seemed that there was more than one monkey.

Lin Yue's face changed slightly, and she suddenly panicked: "Those wild monkeys are searching here again, let's go quickly!"

"Wait!"

Qin Chuan suddenly stopped Lin Yue who was running away.

"What are you doing?", Lin Yue stamped her feet anxiously

"Don't you want to find the exit?"

Lin Yue was stunned: "Do you have any idea?" Qin

Chuan smiled coldly: "We don't know the exit, but these monkeys do." As long as we follow the monkey, we will definitely find the exit"

"Yes!", Lin Yue couldn't help but her eyes lit up.

"Hide it first and then talk about it!"

At that moment, the two of them found a hidden corner and hid their bodies.

"How long does the effect of this Turtle Breath Pill last?", Qin Chuan took out the Turtle Breath Pill

"Two days! It takes two days for the effects of the medicine to dissipate and the power to return to normal."

Qin Chuan hesitated for a while and then took the Turtle Breath Pill.

Without the assistance of the Turtle Breath Pill, he could not hide his aura.

His body refining method could hide his skill, but it could not hide his aura.

In order to avoid the eyes and ears of the monkeys, he had to take Guixi Dan.

Speaking of which, Lin Yue's survival to this day is due to the contribution of Guixi Dan.

Of course, Guixi Dan will make him less powerful.

But he is currently The biggest problem is that he can't find an exit. Instead of being trapped here, it is better to take a risk and maybe have a chance to escape.

At that moment, Qin Chuan's throat rolled and he swallowed the Turtle Breath Pill.

The pill entered his stomach. Automatically decomposed, a trace of medicinal power quickly flowed throughout the body, sealing Qin Chuan's acupuncture points and covering up his aura. When

Lin Yue saw this scene, there was a hint of joy in her eyes.

She was very afraid of Qin Chuan.

Even if she recovered her skills , will not be Qin Chuan's opponent.

Now, it's good that Qin Chuan took the Turtle Breath Pill himself and sealed his Yuan Power.

Without cultivation, how can this child be his opponent with his own strength?

This thought , Lin Yue was secretly delighted.

After all, Qin Chuan was just an eleven or twelve-year-old child.

She was a mature, tall, eighteen-year-old girl with a slender waist.

She didn't believe it, because no one had the cultivation level. Under such circumstances, a person as big as herself can't deal with a little kid.

Lin Yue straightened up her proud figure and began to make plans of her own.

She didn't know that even if Qin Chuan had sealed his cultivation, he still had the ability to practice physical training. Why.

In terms of physical combat power alone, Qin Chuan could compare with a first-level intermediate warrior. How could Lin Yue be able to deal with it?

However, after taking the Turtle Breath Pill, Qin Chuan quickly felt the Turtle Breath. The effect of the pill.

His acupuncture points were quickly blocked, his skills were temporarily sealed, his breath was masked, and even his heartbeat and breathing slowed down a lot.

His whole person entered a state of turtle breath, like an animal in hibernation.

This way The state can indeed deceive people's eyes and ears.

At this moment, the monkey's chirping sound came again from the passage ahead.

Qin Chuan and Lin Yue Lingming held their breath and observed quietly.

Not long after, more than a dozen people A monkey appeared in the sight of the two people.

Three of the dozen monkeys were golden-striped monkeys, and the rest were silver-striped monkeys. Their strength should not be underestimated.

At this moment, every monkey was holding a monkey fruit in his hand.

Strange!

Where are these monkeys going with the monkey fruit? What are they going to do?

Are they going to make wine?

Qin Chuan suddenly thought that the Monkey King had stolen all the monkey wine long ago.

It would not be strange if he made wine again..While

Qin Chuan was thinking wildly, a golden-striped monkey passed by Qinchuan and Lin Yue's hiding place.

The golden-striped monkey couldn't help but stop and sniffed around.

It seemed to smell an unusual smell.

Qin Chuan suddenly became nervous.

Lin Yue's face changed with fear.

Sure enough, the golden-striped monkey began to sniff all the way towards where the two were hiding.

Qin Chuan's face began to look ugly.

They must not be exposed. Otherwise, if he attracts the Monkey King, he will definitely die.

What to do?

Lin Yue clenched her fists nervously, slowly retreated, and leaned towards Qin Chuan behind her. This was an instinctive reaction after facing fear.

Qin Chuan glared at her coldly and told her not to move rashly, so as not to cause trouble.

Lin Yue was too frightened to move under his intense gaze.

Even though Qin Chuan had taken Guixi Dan, the residual power was still there, and Lin Yue still made Lin Yue afraid. Yue didn't dare to be presumptuous.

At this moment, the golden-striped monkey pricked up its ears and listened carefully.

Lin Yue's small movements just now seemed to make her feel something.

Just when it was about to get closer, another golden-striped monkey in front made an anxious cry, seeming to urge it.

The Monkey King is still waiting for them to give them spiritual fruits!

Things cannot be delayed!

At this urging, the golden-striped monkey hesitated for a moment, then turned around and followed the team and left together.

Seeing the monkeys leaving, Lin Yue breathed a sigh of relief and sat down on the ground, with cold sweat on his forehead.

Qin Chuan also secretly said that it was dangerous.

Then, he glanced at Lin Yue with disgust.

This woman's mental quality is so poor that she is not as good as a child like him, and she almost ruined a big thing.

If it wasn't for her usefulness, he would have abandoned her long ago..

Chapter 1459

Qin Chuan looked at the monkeys' retreating figures.

After a moment, he whispered:"They have gone far, let's follow them!"

"Follow? Lin Yue was surprised.

Qin Chuan said coldly:"You have to follow these monkeys to find the exit. Do you want to stay here and wait to die?"

"oh!" Lin Yue didn't dare to refute.

At that moment, the two quietly followed the monkey group and groped over.

After walking for about a quarter of an hour, the space in front suddenly opened up, and a hall-like space appeared.

In the center of the hall , there is a platform with a diameter of tens of feet, and a huge bronze alchemy furnace is placed on the platform.

At this moment, the golden-haired monkey king is standing on the bronze alchemy furnace.

Seeing the monkey king, Qin Chuan and Lin Yue were so frightened that they did not dare to breathe , quickly held their breath and hid in the corner, not daring to move at all.

The scene of the Monkey King tearing apart the second-level guard was still fresh in their memory, how could they not be afraid.

Even if Qin Chuan had fought with the Monkey King, it was in Under the water, the Monkey King cannot exert his strength.

On this land, the Monkey King's strength is definitely not something he can resist.

In addition to the Monkey King, there are more than a dozen teams of wild monkeys in the field.

Each team of wild monkeys has a Holding the monkey fruit and some other fruits.

Under the command of the Monkey King, the monkeys poured the monkey fruit and various spiritual fruits, as well as some strange spiritual fluids, spiritual herbs, and spiritual roots into the pills one after another. In the furnace.

Seeing this scene, Qin Chuan suddenly understood.

Obviously, the Monkey King was making wine.

Lin Yue was even more surprised. As far as she knew, the Monkey King generally used stone troughs and other natural utensils to make wine..

She has never heard that the Monkey King can use the alchemy furnace to make wine.

The bronze alchemy furnace is obviously a product of humans. How can a ferocious beast use it?

Qin Chuan also thought of the same question.

Previously, Jiang Tianshui told He, the monkey wine here is different from other places.

He is also curious about why it is different.

Could it be a problem with the alchemy furnace?

Qin Chuan feels that the problem is not that simple.

The average monkey king's strength will not exceed the third level. Most of the hair is gray.

This monkey king has surprisingly reached the fifth level. The hair is golden, and all kinds of phenomena are strange.

Just when Qin Chuan was thinking wildly, the wild monkeys had put all kinds of materials into the elixir. In the furnace.

Squeak~! Squeak~! Squeak~!

At this time, the monkey king called a few times to the monkeys.

The monkeys took the order and left one after another. After a while, they were all gone.

Qin, who was hiding in the dark The two people from Sichuan and Sichuan watched all this silently, very curious, wondering what the Monkey King wanted to do?

After the hall became quiet, the Monkey King patrolled around uneasily. After seeing that all his men had gone away, he Suddenly he stood up and walked upright like a human being.

The whole monkey's aura also became a little weird at this moment.

I saw the monkey king scanning for a week, his eyes were less violent than a ferocious beast, but more spiritual, like a human being Generally cunning.

Then, it took out a dagger from somewhere and a copper bowl from the other paw.

Qin Chuan and Lin couldn't help but look at each other, and they were both surprised.

This monkey king is really a monkey ?

Why did it feel like a human being to them?

Without waiting for Qinchuan and Qin Chuan to think too much, the monkey king jumped out of the alchemy furnace and walked towards the stone wall behind him.

After he reached the stone wall, he pressed the button in an inconspicuous place. Boom! Boom! Boom!

A rumbling roar!

A stone door appeared on the stone wall, slowly rising, and then revealing the entrance to a secret room.

Qin Chuan was amazed.

The next second, the Monkey King Holding the dagger, the cat crawled into the secret room.

Roar~! Roar~!

A moment later, the roar of an angry beast came from the secret room, as well as the sound of pulling iron chains, making the whole cave tremble slightly.

Qin Chuan's expression changed slightly.

The roar of the beast was not from the Monkey King, but from another ferocious beast.

It can be distinguished from its roar that the ferocious beast in the secret room must be very scary, perhaps not as powerful as the Monkey King.

Thinking of this, Qin Chuan couldn't help but look at Lin Yue.

Lin Yue had a frightened look on her face, and she was at a loss what to do.

At this moment, footsteps came from the secret room again.

Qin Chuan looked up and saw a flash of golden light at the door of the secret room. The Monkey King ran out happily holding a copper bowl...

The copper bowl was filled with half a bowl of animal blood, crystal clear like amber.

Obviously, that is the blood of the ferocious beast in the secret room.

The monkey king happily jumped onto the alchemy furnace and poured the animal blood in the bowl into the alchemy furnace.

After doing all this, it turned back, closed the door to the secret room, and then went out through another passage.

In the blink of an eye, the place became quiet

"The monkey king is gone...."

Lin Yue whispered softly

"do not speak! The alchemy furnace hasn't been closed yet, so the Monkey King will probably come back."

Qin Chuan warned in a low voice.

Sure enough, not long after, the golden light flashed in the field, and the Monkey King left and came back again.

But there was a corpse in the Monkey King's hand.

Seeing the corpse, Lin Yue's face turned pale.

Then The corpse was none other than Nanyu.

The Monkey King groped for a while on Nanyu's corpse and found an inner elixir of a ferocious beast.

The Monkey King crushed the inner elixir into pieces and sprinkled it into the elixir furnace.

Seeing this scene, If Qin Chuan has realized something, it seems that the monkey wine here is so effective because it is mixed with the evil beast's inner elixir and the mysterious blood of the evil beast.

But the ordinary monkey king should not know about such an improved brewing method. Could it be that someone taught it?

Just when Qin Chuan was thinking wildly, the Monkey King jumped down from the alchemy furnace and covered it.

Then, it looked around the alchemy furnace again and found that there was nothing wrong with it, so it was satisfied. Dragging Nan Yu's body, he walked to the stone wall again and opened the secret door.

Squeak~! Squeak~! Squeak~!

In the secret room of the Monkey King, he called a few times and then threw Nan Yu's body in.

Squeak!!Creak!

A moment later, the sound of bone-gnawing beasts came from the secret room. It was obvious that the ferocious beast inside was devouring Nanyu's body.

Qin Chuan's scalp felt numb when he heard it.

Lin Yue's face was pale and extremely ugly..After a while, the monkeyI closed the stone door again, looked around again, and found nothing out of the ordinary, then left slowly..

Chapter 1460

After the Monkey King left, a long time passed and he still did not return.

Only Qin and Chuan had the courage to come out of their hiding place.

"What should we do now?", Lin Yue asked with lingering fear.

Qin Feng looked at the stone wall in front of him.

Behind the stone wall was the secret room.

Lin Yue's face changed slightly: "Do you want to go in? Aren't you afraid of disturbing the monster inside and attracting the Monkey King?"

Qin Chuan whispered: "Do you dare to follow the passage where the Monkey King left?" If we encountered it along the way, we would be dead. Why not, let's go to the secret room first and take a look. Maybe we can find a way out or make new discoveries."

Lin Yue hesitated for a moment, then nodded slightly.

She was also curious about what was in the secret room.

At that moment, Qin Chuan walked straight to the stone wall, put his ear against the stone door, and listened carefully.

Lin Yue saw this and followed suit. With this look on his face, he listened carefully, but couldn't hear anything.

The stone door was so thick that he couldn't hear the movement behind it.

But at this moment, Qin Chuan's eyes lit up, as if he heard something, and he looked happy

"What did you hear?" Lin Yue asked curiously.

Qin Chuan smiled slightly: "I heard snoring. The beast must be asleep."

Lin Yue's eyes suddenly lit up and she was overjoyed.

The ferocious beast inside was asleep, and they could just go in and take a look.

In addition, she was still a little surprised.

Qin Chuan's power was obviously blocked, but he could still hear the door. After seeing the movement, the six senses are really powerful!

At this time, Qin Chuan searched on the stone wall for a while, and soon found a black round stone as big as a thumb, which was very smooth.

Obviously, the black round stone was The switch button is so smooth because it is often touched.

At that moment, Qin Chuan pressed it with one finger.

Boom~boom~boom!

With a rumbling roar, the stone door slowly rose, revealing the entrance to the secret room.

Then Qin Chuan's cat He bent down and got in first.

After entering the secret room, he saw a huge ferocious beast lying in the middle of the secret room, sleeping soundly. The ferocious beast had the head of a dragon, the body of a dog, and the hooves of a green-haired ox. It was one foot tall and three feet long. , with a ferocious appearance.

Four thick iron chains were tied to each of its four thick legs, trapping it firmly in the secret room.

In addition, Nanyu's body was no longer found in the secret room. But there were a lot of blood stains and debris left, and the air was filled with a strong smell of blood.

This scene was horrifying!

"Huh! That is...."

Qin Chuan's eyes fell behind the ferocious beast.

Behind the ferocious beast, there was a dark cave entrance, and stone steps could be vaguely seen in the cave entrance, leading to the ground.

There is actually a hole here that seems to lead underground.

Could that be the exit?

And this ferocious beast is trapped here, is it to protect the entrance of the cave?

Just when Qin Chuan was thinking wildly, Lin Yue also came in.

"Oh my God! It turned out to be this ferocious beast! Lin

Yue exclaimed, looking at the ferocious beast in front of her in horror.

"Do you know the details of this ferocious beast?", Qin Chuan asked in a low voice.

Lin Yue nodded slightly:"This is the seventh-level ferocious beast - the wind beast."

"Seventh level ferocious beast! hiss~!"

Qin Chuan gasped.

You must know that the ancestor of the Zhou family of the four major families in Shenyang City is only an eighth-level powerhouse.

In this vast world, the eighth level is a master level master.

The seventh level is an elder master among the big clans.

Think about it again, that monkey king is only a fifth-level ferocious beast, and its strength is outrageous.

This shows how terrifying the wind beast in front of us is!

At the seventh level, whether human warriors or ferocious beasts, they were all top-notch beings.

Qin Chuan suddenly thought that the Fenghu beast was a seventh-level ferocious beast, much more powerful than the Monkey King.

How it got trapped here and let the monkey king take its blood to make wine is really surprising.

No wonder, the monkey wine here is extraordinary.

The blood of seventh-level ferocious beasts is an extremely precious material for refining medicine.

In fact, the seventh-level ferocious beast is more terrifying than the seventh-level warrior. The one who can subdue it will basically have to take action from the eighth-level warrior.

In short, the person who can catch the wind beast must be extremely powerful. correct!

An idea flashed in Qin Chuan's mind, and he remembered another thing.

Jiang Tianshui mentioned it to him when he first entered Wild Monkey Valley.

This Wild Monkey Valley used to be called Fenghu Valley, and a powerful Fenghu beast lived in it.

Then one day, the wind beast suddenly disappeared, but the monkey group inside began to grow, and finally it was renamed Wild Monkey Valley.

In other words, this wind beast should be the same one from back then.

Unexpectedly, it was caught here.

The person who caught it must not be simple. I wonder what the relationship is with the monkey king?

Thinking of this, Qin Chuan looked at the cave entrance behind the wind beast again.

"This wind beast is sleeping. Let's go around it and look into the hole behind it. Maybe we can find an exit there."

"good!", Lin Yue nodded slightly.

At that moment, the two of them held their breath and tiptoed around the Feng Jiao Beast. The Feng Jiao Beast was a seventh-level ferocious beast, and they were definitely not something they could provoke. Fortunately, the Feng Jiao Beast was sleeping. It was perfectly cooked.

The two of them were very careful not to wake it up and entered the cave entrance smoothly.

Then, the two of them walked underground along the stone steps in the cave.

After walking for about ten minutes, they finally came to a large secret room.

The secret room is equipped with tables, chairs, incense burners, and futons for meditation.

On the left side of the secret room, there is a row of long bookshelves.

On the wall on the right, a large picture scroll is hung. In the center of the secret room, there is a huge jade coffin.

In front of the coffin is an incense burner, and beside the incense burner, a long-bright lamp is lit.
