

God level 1701

Chapter 1701

Qin Chuan looked at Liu Qian's body with lingering fear. If he had relaxed his vigilance just now, he might have been attacked by the other party.

At the same time, Qin Chuan was also surprised that Liu Qian's life was as strong as a cockroach, and the terrifying explosion before had not killed him.

Once again confirming that Liu Qian was really dead, Qin Chuan searched again.

After a while, Qin Chuan found a money bag from Liu Qian's body, which contained five thousand gold coins, which was the deposit paid to him by Mayor Wang.

Qin Chuan unceremoniously accepted the War God's order.

Next, Qin Chuan found more than a dozen gold tickets from Liu Qian, as well as a depository ticket.

The bill for depositing the check belongs to the largest bank in Fengyan City, Wanhui Bank.

Many casual warriors will temporarily store some of their more valuable items that are inconvenient to carry around in a bank, so that they can be picked up when needed. However, this generally requires a high storage fee.

I wonder what kind of good things this old guy has stored in the bank? When he returns to the city this time, he will take it out!

This bank recognizes tickets but not people. As long as you have a ticket, you can withdraw it.

Qin Chuan was in a good mood at the thought of another harvest, and looked through the dozen golden tickets again.

Seeing this, Qin Chuan was immediately overjoyed.

This old man is really rich! It doesn't look like a casual cultivator at all!

It turned out that each of the dozen or so gold tickets were of extremely large denominations, totaling more than 30,000 gold coins. The notes were also from Wanhui Bank.

After receiving more than 30,000 gold coins, Qin Chuan was extremely happy. Now the total money he had on him exceeded 40,000 gold coins.

After collecting the golden tickets and the depository tickets, Qin Chuan walked straight into the depths of the cave. He still wanted to kill the dying mutated female scorpion.

When Qin Chuan reached the innermost layer of the cave, he saw the dying mutated female scorpion, lying helplessly on the ground and falling into a semi-conscious state.

Qin Chuan killed the mutated female scorpion without much effort, and then dug out its inner elixir.

The inner elixir of a level three ferocious beast could be sold for at least four to five thousand gold coins.

After killing the mutated female scorpion, Qin Chuan had time to look around.

The lowest level of the cave was only tens of meters in size, and the temperature inside was relatively high. But what surprised Qin Chuan was that the concentration of fire energy inside was very strong, two or three times that in the passage.

Only then did Qin Chuan understand why this mutated female scorpion always stayed on the innermost floor instead of in the scorpion nest.

Because the fire energy here is relatively strong, and the advancement of the ferocious beast requires absorbing a large amount of the five elements' energy, so this place has become an exclusive place for the mutated female scorpion.

Why is the fire energy in this place so strong?

Qin Chuan pondered in his mind, and he always felt that these earth fire scorpions might be related to the earth fire scorpions on the fourth floor of the fire cave, and maybe they were a branch from the fourth floor of the fire cave.

Qin Chuan looked around again and quickly found out the reason for the strong fire energy at the bottom of the cave.

It turned out that in a corner at the bottom of the cave, there was a hot spring. The diameter of the spring was only one meter, and a large amount of fire energy overflowed from the spring.

This spring water is strange. It contains such rich fire energy. I don't know where it leads to?

Just when Qin Chuan was curious, he suddenly heard a large number of noisy footsteps outside the cave, followed by some fighting sounds.

It turned out that the explosion of Tianleizi caused a huge commotion, which alerted Mayor Wang and others. At this moment, they all entered the cave and were dealing with the disabled Earth Fire Scorpions.

When Qin Chuan saw a noise outside, his heart moved, so he knocked a huge stone from the cave wall and covered the spring.

Then he put the Flame Sword into the War God's Order, and at the same time canceled the 'war body madness' and returned to its original appearance.

Not long after, Mayor Wang came in with an escort team..

Chapter 1702

When Mayor Wang and others saw Qin Chuan covered in blood and the dead mutated female scorpion, they all showed very surprised expressions.

"Brother Qin, are you okay? Mayor Wang asked with concern

"Still not dead!"

Qin Chuan smiled slightly. The blood all over his body had already shown that he was seriously injured.

"Brother Qin, did you kill this mutated female scorpion?"

"Um!"

Qin Chuan nodded and admitted.

"It was actually you who killed me!"

Mayor Wang looked at Qin Chuan in horror, and the town guards around him looked at Qin Chuan with expressions of awe.

"hehe!! Brother, you misunderstood. What I killed was just a dying mutated female scorpion."

Mayor Wang shook his head slightly.

"Brother Qin, even a third-level ferocious beast that is seriously injured and dying cannot be dealt with by an ordinary second-level Dzogchen warrior. The death blow of a third-order ferocious beast is very terrifying."

"It seems that the younger brother is stronger than the older brother imagined."

At this moment, Qin Chuan's status in Mayor Wang's heart has unknowingly improved.

Now, Mayor Wang has no doubt that Qin Chuan's strength should be higher than him.

Listening to what Mayor Wang said, Qin Chuan Chuan shook his head and said: "Brother Wang, thank you very much. All this is the result of Senior Liu! Why! It's a pity that he is an old man....."

Qin Chuan pretended to be sad.

In fact, Mayor Wang was also full of doubts and asked quickly: "By the way, little brother, I'm very confused. What happened in the cave before?"

Qin Chuan shook his head and smiled bitterly: "What happened before was too... There are so many, it's hard to tell clearly at the moment. Brother, let's go out first and talk as we go!"

"good!"

At that moment, Mayor Wang ordered people to drag out the mutated female scorpion's body.

The materials on these third-level ferocious beasts are very valuable.

When Qin Chuan and others arrived at the lair, everyone had already removed the injured Earth Fire. All the scorpions were killed.

Everyone started digging for elixirs, cutting materials for materials, and some ran out holding the Earth Fire Scorpion eggs. These scorpion eggs can hatch into Earth Fire Scorpions, which are also very valuable. For a while, everyone was busy. It was a great pleasure.

They didn't spend much effort in this scorpion-suppression battle, but they gained a lot, so everyone was in a good mood.

After leaving the cave, Qin Chuan told Mayor Wang the whole story.

"Brother, what happened is this. At that time, Senior Liu and I went to lure the scorpions, but unexpectedly the mutant female scorpion was not in the innermost layer, but in the scorpion nest. Senior Liu was also accidentally attacked by the mutant female scorpion. Entangled, even trapped by a swarm of scorpions, we couldn't escape for a while."

"Later, after a hard fight, we still couldn't escape. Seeing that we were all going to be killed by the scorpions, Senior Liu took out a fist-sized blue projectile and threw it at the mutated female scorpion."

"As a result, brother, you have also seen that Senior Liu and his entourage... Hey!"

"Fortunately for the boy, he escaped serious injury but the mutated female scorpion was also blown to death. In the end, I caught up and killed her."

"Why! Brother, although you said it in an understatement, I can imagine that the scene must have been tragic! It's just a pity, Senior Liu! Unexpectedly, he, a dignified third-level warrior, died like this!"

Mayor Wang also pretended to sigh. In fact, he was still secretly happy in his heart, because Liu Qian died, so he didn't have to pay the remaining five thousand gold coins.

After all, the relationship between him and Liu Qian was only employer-employer, and there was no need to pay. There is not much friendship, and naturally there is no affection.

Of course, Mayor Wang only believed Qin Chuan's words 70-80%, not all of them.

"By the way, brother, the blue bullet you mentioned earlier, if my guess is correct, should be Tianleizi. Today Lei Zi is something that even fourth-level warriors are afraid of!"

"Tianleizi? This thing is so powerful, but I don't know what it is made of? Qin Chuan asked casually

"This old man knows a thing or two"

"Brother actually knows this, can you tell me? I also want to get a few and use them for self-defense in the future."

But Mayor Wang laughed and said: "Brother, how can it be so easy to get thunder seeds today? This thing is very precious, each one is worth at least 10,000 gold coins. Because this thing is too difficult to refine, and only one type of person can refine it."

"A kind of person? Could it be a weapon refiner?"

"no! This day Lei Zi was not refined by the weapon refiner. He was refined by the Lei Xiang warrior?"

"Thunder elephant warrior? What type of warrior is that?"

Qin Chuan opened his eyes curiously. This was also the first time he heard that besides the Five Elements Warriors, there were also Thunder Elephant Warriors..

Chapter 1703

Mayor Wang seemed to see Qin Chuan's doubts and secretly thought that although this boy was strong, he didn't know much about common sense issues.

Thinking of this, Mayor Wang smiled and explained to Qin Chuan one by one.

"In fact, warriors are divided into five elements warriors and two elephant warriors."

"The five elements refer to: metal, wood, water, fire and earth; the two phenomena refer to: wind and thunder."

"Many people believe that among warriors of the same level, warriors of the third series are the strongest. Because warriors of the fourth and fifth series almost do not exist and can be ignored, this statement is also correct."

"However, among the three-system warriors, there are still some people who, due to some special conditions, have combined the three-system vitality into one body and turned it into the wind and thunder two-image warriors, thus giving birth to the two-system warriors."

"In some ways, both wind warriors and thunder warriors are also called three-series warriors, but they are much stronger than ordinary three-series warriors, and they are far stronger than warriors of the same level."

"To put it simply, the strength of a dual-series warrior is approximately 1.5 times that of a warrior of the same level, and the strength of a three-series warrior is approximately that of a warrior of the same level. 2 times, while the strength of wind warriors and thunder warriors is 3 times that of warriors of the same level."

"Generally speaking, no matter how strong the second-level Dzogchen master is, he cannot cross the next level to challenge a third-level warrior. But the warriors of the two elephants of wind and thunder are not like this."

"Because when they reach the second level of Dzogchen, they have the qualifications to compete with the third level warriors."

Because the strength of an ordinary third-level warrior is three times that of a second-level Dzogchen warrior, but the strength of the Wind and Thunder Erxiang warrior is three times that of a warrior of the same level.

Therefore, he can compete with the third-level warrior..

Hearing this, Qin Chuan couldn't help but feel very excited, and quickly asked:"Brother, I wonder how a warrior of the three elements can transform into a warrior of the two elements of wind and thunder? Mayor Wang pondered for a while and said:"

As far as I know, brother, warriors of the three systems of water, wood, and fire can be transformed into warriors of wind, warriors of the three systems of fire, earth, and gold can be transformed into warriors of thunder, and warriors of the other three systems cannot be transformed.""

Hearing this, Qin Chuan was secretly happy.

Not only is he a warrior of the three elements of water, wood, and fire, he already has the conditions to transform into a warrior of the wind elephant."

Thinking of this, Qin Chuan asked again:"Brother, Do you know how a warrior of the three elements of water, wood, and fire can transform into a warrior of the wind elephant?"

Mayor Wang shook his head and said:"I don't know about this, old man. I heard that certain conditions need to be met. However, one thing is for sure. Not all water, wood, and fire warriors can be transformed into wind warriors."

"I see!"

Hearing this, Qin Chuan's heart returned to calm. Although he is a warrior of the three elements of water, wood, and fire, he doesn't know whether he can transform into a warrior of the wind elephant. In any case, he must find a way to become a warrior of the wind elephant.

If he becomes a wind elephant warrior, his strength will definitely improve greatly.

By then, even without the Fire Sword, he can defeat the third-level warrior.

But, how should he find a way to become a wind elephant warrior?

Suddenly, Qin Chuan Thinking of a person, his eyes suddenly lit up:"By the way, the deputy chief instructor may know. With his cultivation and knowledge, he naturally knows more than Mayor Wang."

Thinking of this, Qin Chuan's heart suddenly became enlightened. He decided to visit the deputy chief instructor first when he returned to the city.

Not long after, the loot at the scene was cleaned up, and the Scorpion Suppressor Army returned to Beike Town.

This time In the Scorpion Suppression War, the troops of the four towns did not contribute much, and there were no casualties, but they gained a lot. This made the leaders of the four towns feel very good.

As for the death of Master Liu Qian and his apprentice, they were quickly and selectively forgotten..

Chapter 1704

As the only survivor of the three who lured the scorpion into the cave, Qin Chuan was also the last person to kill the mutated female scorpion. Naturally, he was regarded as the first contributor and was sought after by everyone.

When the spoils were finally divided, Qin Chuan was given two second-level inner elixirs.

The two second-level inner elixirs can be sold for one or two thousand gold coins in total. Qin Chuan naturally will not refuse and accepts them calmly.

After dividing the spoils, Qin Chuan was exhausted and exhausted.

His injury was not serious, and he had not had time to treat it until now. He just endured it so that outsiders could not see that his injury was serious.

Qin Chuan didn't want to take care of the next trivial matters, so he explained to Mayor Wang and returned to his residence to heal.

In the blink of an eye, three days passed.

With the abnormal recovery ability of physical warriors, Qin Chuan's injuries were basically healed.

On this day, Mayor Wang held a grand celebration banquet at his mansion, and all the guards who participated in the Scorpion Suppression were invited to the scene.

At the banquet, Qin Chuan and Mayor Wang sat at the head table.

When the banquet was halfway through, Qin Chuan was repeatedly persuaded by the leaders to drink a lot. In the end, he was overcome with alcohol and became very drunk.

During this period, Qin Chuan vaguely remembered that Mayor Wang talked to him a lot, and Commander Hua also smiled brightly.

Vaguely, he still remembered Hua Xiyue coming to help him.

As for what happened next, Qin Chuan didn't remember it either.

This time, it can be said that it was the first time since he was a child that he indulged himself and drank so much wine.

It was not until noon the next day that Qin Chuan woke up from his drunkenness with a splitting headache.

But at this moment, there was a knock on the door.

Qin Chuan got up, opened the door and saw Chen Shen and Peng Yu.

As soon as the two of them entered the door, they said with playful smiles

"Team leader, congratulations! Congratulations! Congratulations! Qin

Chuan's mind was filled with questions:"What are you congratulating me for?"

"Of course, congratulations to the team leader for having a wife!

Qin Chuan sneered and said,"Don't you two make fun of me!" What kind of wife do I have?"

"No way? Team leader, you forgot what happened last night so quickly?"

Qin Chuan saw that the two of them looked serious and didn't look like they were joking. He suddenly felt something was wrong and asked hurriedly:"What happened last night?"

"No way? Have you really forgotten?"

A strange look suddenly appeared on Chen Shen's face.

The more Qin Chuan listened, the more he felt something was wrong, so he urged:"Chen Shen, what happened last night? You guys, please tell me clearly quickly. Don't wait any longer. Yes!"

"Team leader, the thing is like this, last night Mayor Wang asked you if Captain Hua Xiyue is good-looking? You said Sister Hua Xiyue is beautiful"

"Mayor Wang smiled and said, since you think Sister Hua Xiyue is beautiful, why not marry her home and see her every day in the future. Team leader, you just said yes then!"

"Did I really say that?"

Qin Chuan looked stunned. At this moment, his brain was confused and he couldn't remember anything about last night.

"Really, you really said that!"

Chen Shen nodded seriously.

"At that time, we all thought Mayor Wang was making fun of you. Unexpectedly, Commander Hua also smiled and said, since the team leader is willing, why not book the marriage first?"

"Team leader, you agreed right then and there, so everyone present heard it. Hua Xiyue blushed and remained silent.

At this time, Peng Yu also said:"Yes!" At that time, I thought you were drunk, team leader, so I stepped forward to remind you, team leader, you are only thirteen years old, there is no need to be in such a hurry to get married."

"But you said that you will be an adult in three years, and it doesn't matter if you get engaged now. You also promised Commander Hua to go to Huarong Town to find them in three years."

"Did I really say that? Qin

Chuan asked in disbelief.

However, Chen Shen and Peng Yu said in unison:"You really said that?"

"But why don't I remember anything?"

Qin Chuan scratched his hair sadly.

"Why! It's all because of drinking! This is how to do? I don't want to get married at all! No, I'm going to explain it to them now!"

Qin Chuan just wanted to go out, but was stopped by Chen Shen

"Team leader, you don't need to go. Commander Hua and his friends returned to Huarong Town this morning. People from other towns have also left. Now we are the only ones left. The two of us came here to ask you, when will we return to Feng Town? Yancheng!"

"What? Are they all gone? So what can I do?"

Qin Chuan suddenly felt like his head was big...

Chapter 1705

"What? Are they all gone? So what can I do?"

Qin Chuan suddenly felt a big head.

But Chen Shen on the side smiled playfully.

"Team leader, there is nothing wrong with this. You see, Captain Hua Xiyue is not only talented, but also looks like a flower, with watery eyes. Why don't you want such a good fiancée? Do you dislike people who are older than you? Peng

Yu also advised: "Team leader, it doesn't matter if you are a little older. Captain Hua Xiyue is only sixteen years old and only three years older than you. As the saying goes: if you are a junior female, you should get a gold brick!" This is a good thing!"

"yes! Team leader, we actually envy you."

"You are only a little old and you already have a fiancée. How about us, we are so old and still alone!"

Chen Shen sighed in a mature manner.

After hearing this, Qin Chuan kicked Chen Shen in the butt angrily.

"You annoying guy, you're like this and you're still laughing at me!"

Chen Shen covered his buttocks and pretended to be aggrieved: "Team leader, what I said is true! I'm really not kidding you!"

"roll! roll! roll! You two, get out of here and don't make me angry here!"

Qin Chuan irritably drove Chen Shen away and lay on the bed tossing and turning.

At this moment, he felt extremely regretful, but he didn't know how to deal with it.

"This is how to do ah? I got an extra fiancée for no reason, hey! But I am still young! Forget it, didn't I say three years? Maybe after three years they will all forget it and just treat it as a joke!"

Thinking of this, Qin Chuan felt a little better. However, this incident also taught him a lesson. Drinking can ruin things. This is true!

At noon, Chen Shen and Chen Shen came again to ask Qin Chuan when he would return to the city. Qin Chuan Chuan then asked Chen Shen and Peng Yu to lead the team back to the city first, saying that he had some personal matters and would go back a day later.

Chen Shen and the other two thought Qin Chuan was worried about Hua Xiyue, so they didn't ask any more questions. He led the team back to Fengyan City first.

After Chen Shen led the team to leave, Qin Chuan also said goodbye to Mayor Wang and left.

After leaving Beike Town, Qin Chuan did not return directly to Fengyan City, but transferred He set a direction and headed straight for the scorpion nest.

He also wanted to explore the spring of the hot spring in the cave.

He wanted to know why a large amount of fire energy overflowed from the spring, and maybe there was some treasure hidden in it.

Along the way , Qin Chuan tried his best to avoid pedestrians and quietly returned to the scorpion nest.

There were still traces of the fight three days ago in the cave. Many of the broken corpses of the fire scorpions had begun to rot slightly, and the cave was filled with the smell of rotting corpses.

Qin Chuan held his breath and walked to the innermost level of the cave.

Moving away the big stone pressing on the spring, Qin Chuan hesitated for a while and then jumped into the hot spring. After entering the hot spring, Qin Chuan discovered that the spring was very Deep, the entrance above is very small, but it is very wide underwater.

This discovery made Qinchuan wonder whether this hot spring is connected to the fire cave?

This is purely Qinchuan's intuition and guess.

He always felt that this scorpion group was far away from the sea. The Huoyan Cave is not far away. It is more or less related to the large scorpion group on the fourth floor of the Huoyan Cave. It may be a branch of the scorpion group on the fourth floor of the Huoyan Cave.

Thinking of this, Qin Chuan continued to dive.

What surprised Qin Chuan was, This spring was more than 20 meters deep. However, what surprised him most was that the bottom of the spring was actually an underground hot river. The temperature of the river water was very high, at least 70 or 80 degrees. If an ordinary person came down with such a temperature, , has long been scalded, but to Qinchuan it is nothing at this water temperature.

The water temperature of the underground hot river here is so high, it should be very close to the underground magma, but I don't know if this underground hot river will be related to What about the fire cave connection?"..

Qin Chuan hesitated for a while and decided to go into Rehe to explore.

However, Qin Chuan chose to go against the current.

According to his judgment, he had seen the magma pool on the fourth floor of the fire cave, and the location should be closer to the upstream.

Qinchuan swam along the underground river for a long time.

In the dark river, unable to see his fingers, Qin Chuan moved forward based on his abnormal hearing.

After swimming for about half an hour, Qin Chuan suddenly saw a blue light spot ahead, shining blue in the dark river.

Qin Chuan was curious and swam over quickly.

After swimming closer, Qin Chuan discovered that the flashing blue light was a blue crystal the size of a fist.

"Huh! This is water crystal!"

When Qin Chuan saw this blue crystal, a look of surprise suddenly appeared on his face.

Qin Chuan had seen this water tidal crystal at an auction. It is a treasured item of the same level as the fire crystal. It is also a water-based spiritual weapon. One of the raw materials.

I didn't expect to find water tidal crystals in this underground river, so my trip was not in vain.

Qin Chuan happily put away the water tidal crystal and continued to swim forward. After a while, Qin Chuan came again Two water tidal crystals were discovered in succession.

This made Qin Chuan very happy. He found three water tidal crystals at once, which was equivalent to an income of 30,000 gold coins.

Just when Qin Chuan wanted to continue swimming forward, he saw what was ahead. When he could find Shuixi Crystal, there was a sudden violent vibration and roar above his river.

Qin Chuan was shocked and stopped moving forward quickly. He couldn't help but feel worried.

Such a big movement couldn't be Is there a volcanic eruption?

Thinking of this, Qin Chuan listened carefully again.

After listening for a long time, Qin Chuan found that the vibration above the river was not like a volcanic eruption, but rather like a fight.

It seemed that it was very close to the ground. Otherwise, I won't feel the sound of fighting on the ground.

Why don't you go up and see what's going on above?"

Thinking of this, Qin Chuan drew out his flaming sword, found a place where the sound was the clearest, and bombarded it.

The clearer the sound transmission, it means that the ground is the thinnest at that point, and the sound can penetrate more easily.

Now, Qin Chuan's fighting power has reached a frightening level, and with the help of the flaming sword in his hand, he penetrated the three-meter-thick river with just one sword blow, blasting out a half-meter wide aisle.

As soon as the sword penetrated the river, Qin Chuan heard the sound of a fierce fight coming from above.

Qin Chuan was curious and quickly jumped out of the passage.

As soon as he returned to the ground, Qin Chuan quickly looked around and was stunned.

It turned out that the place he was in was no other place, but the fourth floor of the fire cave he had been to.

This underground undercurrent is indeed connected to the fourth floor of the fire cave. It seems that his guess is correct!

On this fourth floor, the purple poisonous mist is still floating everywhere.

At this moment, fierce fighting sounds and screams were coming from the depths of the fourth floor.

Deep in the fourth level is the lava pool where the Earth Fire Scorpion King is staying.

Could it be that the Earth Fire Scorpion King is fighting with someone?

Is it a human or another ferocious beast?

Qin Chuan was surprised, he quickly held his breath and sneaked over quietly.

When Qin Chuan approached the scene of the fight, he found corpses of fire scorpions all over the place, at least seventy or eighty of them.

These dead Earth Fire Scorpions were all adult Earth Fire Scorpions. Judging from their death state, some were scratched to pieces by sharp claws, some were scorched by fire, and some were bitten to death.

Although Qin Chuan was very horrified, he did not forget to dig out the inner elixir of these earth fire scorpions. Each of these corpses was a second-level inner elixir!

A second-level inner elixir can be sold for seven to eight hundred gold coins at least.

In this way, Qin Chuan quietly moved forward and dug out the inner elixir.

Not long after, he finally arrived at the fighting venue.

Along the way, he dug up all the earth fire scorpions on the ground.

A total of seventy-six inner elixirs were dug out, plus Qinchuan himself had two more, for a total of seventy-eight, worth at least 60,000 gold coins!

When he thought of this number, Qin Chuan's eyes lit up and he couldn't help but feel excited..

Chapter 1707

Qin Chuan didn't expect to return to the Huoyan Cave this time, and it turned out that his trip was not in vain.

After putting away the inner elixirs, Qin Chuan was willing to take a peek at the fighting scene.

As soon as he saw the battle scene, Qin Chuan opened his eyes wide in surprise.

Next to the lava pool, the Earth Fire Scorpion King was leading dozens of Earth Fire Scorpions, fighting with a huge rat-shaped beast.

The rat-shaped ferocious beast is seven meters long, has a body shape like a rat, is surrounded by flames, and has a third eye on its forehead. This is the fourth-order Dzogchen ferocious beast, the three-eyed fire ferret.

At this moment, the two sides were fighting inextricably and fiercely, and each had injuries on their bodies. There were many corpses of Earth Fire Scorpions around the battlefield.

However, what surprised Qin Chuan was not the battle between the Three-Eyed Fire Weasel and the Earth Fire Scorpion King.

Instead, it is on the small island in the magma pool behind the two ferocious beasts, where the Dragon and Phoenix Sacred Fruit once grew.

At this moment, a red jade bead the size of a head was floating above the island. It was emitting astonishing fire energy. The concentration of the fire energy was unimaginable. It was almost solid and visible to the naked eye.

However, what surprised Qin Chuan was that this scene gave him a very familiar feeling.

Just when he was wondering why he felt familiar, an idea flashed in his mind, and he remembered that he had seen a similar mysterious jade bead in the cold pool of the Monkey King Cave underground cave.

The jade bead was almost exactly the same size as the red jade bead in front of me, and it was also suspended in the air strangely.

However, one is transparent, one is red-hot, one exudes amazing water energy, and the other exudes amazing fire energy.

"Why are they so similar? Is there any connection between these two huge jade beads?"

Qin Chuan looked at the two ferocious beasts fighting in the field again, and thought to himself: Are these two ferocious beasts trying to compete for the red jade bead?

Qin Chuan was thinking to himself when a sudden change occurred in the field.

In the field, the three-eyed fire weasel suddenly roared violently, opened its mouth and spit out a stream of purple flames, which immediately burned all the dozens of besieged fire scorpions to ashes, including the inner elixir.

When Qin Chuan, who was hiding in the dark, saw this, he couldn't help but feel sorry for the inner alchemy that was burned to ashes, but he was even more horrified in his heart.

At this time, Qin Chuan had no doubt that if he was also sprayed by the purple flame, he would be reduced to ashes on the spot.

At that moment, he quickly restrained his breath, not daring to act rashly for fear of alarming the fighting beasts.

Although his current strength is infinitely close to the third level, he is still vulnerable to the fourth level ferocious beast.

As we all know, the strength gap between the second level and the third level is very large, but the gap between the third level and the fourth level is even greater.

The level barriers among warriors become larger as they reach later stages.

But it was said that after the three-eyed fire weasel spit out a large mouthful of flames, his spirit suddenly became much weaker, and it seemed that he had sprayed out the ball of flames. Homura had a very heavy load on it.

The Earth Fire Scorpion King took the opportunity to counterattack, and the scorpion tail like a steel spear pierced the chest of the Three-Eyed Fire Weasel.

The Three-Eyed Fire Weasel screamed, and the third eye on his forehead suddenly opened, shooting out a black flame beam, directly piercing the Earth Fire Scorpion King's head.

The Fire Scorpion King died on the spot.

This battle between the two beasts ended with the Earth Fire Scorpion King's entire army being annihilated and the Three-Eyed Fire Weasel being seriously injured.

Obviously, the Three-Eyed Fire Weasel, who was born into the fourth level of Dzogchen, is much stronger than the Earth Fire Scorpion King.

Although the three-eyed fire weasel was seriously injured, Qin Chuan still did not dare to act rashly. He knew very well that even if the three-eyed fire weasel was seriously injured, it was definitely not something he could handle.

In the field, the Three-Eyed Fire Weasel glanced at the Earth Fire Scorpion King's body resentfully, as if it was difficult to understand the resentment in his heart. With a sharp twitch of its iron tail, the Earth Fire Scorpion King's huge corpse was directly thrown away.

Finally, he landed at the place where Qin Chuan was hiding, and Qin Chuan was shocked.

At this time, the three-eyed fire weasel felt a little relieved. He raised his head and looked at the red jade beads in the sky, his two rat eyes showing greed.

Qin Chuan, who was hiding in the dark, looked at the body of the Fire Scorpion King next to him, his eyes filled with joy.

This is really pie from the sky, and Qin Chuan will naturally not refuse it.

While the three-eyed fire weasel focused his attention on the red jade beads, Qin Chuan quietly dug out the inner elixir of the Earth Fire Scorpion King.

The Earth Fire Scorpion King is a fourth-level ferocious beast, and a fourth-level inner elixir is worth at least six to seven thousand gold coins. This is a huge amount of income!...

Chapter 1708

Qin Chuan had just finished digging out the inner elixir of the Earth Fire Scorpion King, but another change occurred in the field.

It seemed that the three-eyed fire weasel could no longer suppress the desire in its heart, and suddenly jumped up and rushed toward the red jade beads in the air.

In the blink of an eye, the three-eyed fire weasel rushed close to the red jade bead. It opened its mouth and swallowed the red jade bead.

But at this moment, something unexpected happened. The red jade bead suddenly emitted an invisible force and violently pushed the three-eyed fire weasel away.

The three-eyed fire weasel was unprepared and was pushed backwards, falling directly into the magma pool.

Seeing this, Qin Chuan felt happy, thinking that the three-eyed fire weasel was going to die tragically in the magma.

Unexpectedly, the three-eyed fire weasel was not afraid of the magma at all. He jumped to the shore safely, and then pounced on the red jade beads in the air again.

This time, the three-eyed fire weasel was still pushed away.

The three-eyed fire weasel was furious, roared, opened the third eye on his forehead again, and shot a black flame beam directly towards the red jade bead in the air.

Next, an unexpected scene happened.

As soon as the black flame beam hit the red jade bead, the entire magma pool began to boil violently. The small island in the middle slowly rose up inexplicably, and the entire cave on the fourth floor of the earth trembled violently.

As the small island rose, Qin Chuan discovered that it was not a small island at all, but a huge stone pillar engraved with black runes.

What shocked him even more was that on the stone pillar, there were more than a dozen arm-thick iron chains tightly binding the body of a middle-aged man.

I saw that the man's eyes were gouged out, blood was flowing everywhere, and there was a big hole in his chest. It was hollow inside, and his whole heart had been gouged out.

As soon as this man appeared, Qin Chuan felt an inexplicable sense of intimacy. This feeling was very strange, but yet so real.

At the same time, Qin Chuan also felt an extremely majestic wood energy emanating from the man's corpse.

At this moment, Qin Chuan suddenly understood why the Dragon and Phoenix Sacred Fruit could grow here. It turned out that the wood energy needed to grow the Dragon and Phoenix Sacred Fruit came from this man's corpse.

It can be seen from this that this man must have been an extremely powerful master of the wood element during his lifetime.

Although the man was dead, his body still emitted a thick green light. It seemed that it was the protection of this layer of green light that kept the body soaked in the magma without being melted by the magma.

In fact, this thick layer of green light is produced by the natural emission of the wood energy in the man's body.

At this time, the red jade beads in the air slowly landed on the middle-aged man's head, absorbing the wood energy of the corpse.

As the Mu Yuan Qi was inhaled, the red jade beads became increasingly red and bright.

Seeing this scene, Qin Chuan couldn't help but think of the words 'cultivating pearls with people'.

This couldn't help but remind him of the headless corpse in the cold pool under the Monkey King's Cave.

What exactly is going on?

Is it true that someone uses the corpses of top masters to feed these spirit beads?

The one in front of me is feeding the fire element spirit beads with the top masters of the wood element. Could it be because wood can make fire.

Could it be that the headless corpse in the cold pool was a top master of the gold system, using gold water to feed the water spirit bead?

Who is it? So cruel? He even used the corpses of top masters to feed the spirit beads!"

Thinking of this, Qin Chuan couldn't help but feel a surge of anger in his heart.

But at this moment, something unexpected happened to him.

The body that was supposed to be dead suddenly moved, and he slowly lifted it. He picked up his head without eyes and looked at the stunned three-eyed fire ferret with empty eyes.

Suddenly a sad voice floated in the air: "Why did you betray me?" Why betray me? I hate! I hate! I hate this so much! My regrets will never go away!"

Qin Chuan looked at the corpse in horror. The corpse did not open its mouth, but he was sure that the sound came from the corpse.

Could it be a trace of his thoughts? This is too scary!

But at this moment, The corpse slowly raised its right hand and grabbed the stunned three-eyed fire weasel in the air.

The three-eyed fire weasel immediately let out a shrill scream, and its body exploded on the spot, turning into a rain of blood. Dandu was scratched to pieces.

Seeing the mysterious corpse killing a fourth-level Dzogchen beast with just one hand, Qin Chuan's face changed with fright. At this moment, he was very doubtful whether the man on the stone pillar was really dead. ?

Thinking of this, Qin Chuan was frightened. He didn't dare to stay for a long time, so he wanted to retreat quietly.

However, the mysterious corpse on the stone pillar seemed to have discovered Qin Chuan a long time ago, and raised his hand to move towards Qin Chuan's hiding place..

Chapter 1709

Qin Chuan was so frightened that he thought he would explode and die like the three-eyed fire weasel.

But unexpectedly, something incredible happened.

He only felt his body suddenly lighten, and then flew involuntarily towards the corpse in the air. In the blink of an eye, Qin Chuan was sent to the man's corpse by an invisible force.

He was actually sucked in by the mysterious corpse.

When he saw the two empty eyes and the pale face in front of him, Qin Chuan was frightened out of his wits.

But now he was floating in the air, and no matter how hard he struggled, he couldn't move his body.

Just when Qin Chuan was panicking, the mysterious corpse pressed a pale and withered hand to his forehead.

Qin Chuan closed his eyes helplessly and lamented in his heart.

It's over! It's over! This guy is not completely dead, is he going to die here today?

As soon as this thought came to his mind, Qin Chuan felt a pain in his head. A stream of cool air suddenly poured into his Baihui point, then instantly penetrated all the acupoints in his body, and finally gathered at his Dantian.

There was a loud shock in Dantian, and earth-shaking changes immediately occurred.

After a while, Qin Chuan opened his eyes in shock, because he discovered that his Mu Yuan Qi had advanced to the second level, and it was still at the second level of Dzogchen.

Qin Chuan looked at the man in front of him in disbelief, not knowing whether he was alive or dead.

But at this moment, another voice that seemed both sad and joyful sounded in his ears.

"My descendants! Leave! Don't come back!"

When he heard this, Qin Chuan's whole body was shaken, and there was a sense of sadness and sadness in his heart for no reason. His eyes were inexplicably moist, and even his voice became a little trembling.

"You...you are my ancestor?"

Qin Chuan is very sure that the man in front of him is his ancestor, because he gave him an extremely warm feeling, a feeling of blood connection.

Qin Chuan has always known that there are many secrets hidden in him, and he also He has always had a lot of speculations about his life experience.

But no matter how he thought about it, he never thought that he would meet his ancestors in such a situation.

Not only did his ancestors have their eyes and hearts gouged out, but their bodies were also soaked Sacrifice the spirit beads in the magma pool.

Just when Qin Chuan was grieving, he was sent back to the original place by an invisible force.

"Ancestor!"

Qin Chuan suddenly knelt down in front of the man on the stone pillar. He could no longer hold back his hot eyes and burst out of his eyes. At this moment, he felt extremely heart-wrenching pain.

Whoever sees his ancestors being killed in such a cruel way I'm afraid I can't even endure the sacrifice of spiritual beads.

Feeling Qin Chuan kneeling to him, the man on the stone pillar was so excited that he trembled with excitement, and two lines of bloody tears shed from his empty eyes.

It seemed that because of the excitement of the man on the stone pillar, the huge The rune stone pillar actually rose another meter, suddenly revealing the whole picture below the stone pillar.

Under the stone pillar, there was actually a huge altar. The rune stone pillar stood in the center of the altar, and there were eight demon-suppressing pieces arranged around it. Monument.

As soon as the altar was fully exposed, the eight demon-suppressing monuments seemed to be activated. The body of the monument flashed with red electric light, and the red jade beads in the air trembled violently.

Such a change occurred, and the stone pillars were tied to The man's expression suddenly became anxious.

The man's anxious voice sounded in Qin Chuan's ears

"My descendants! Leave quickly! Leave quickly!"

After hearing these words, Qin Chuan's expression changed drastically, and then he took three heavy shots at the man on the stone pillar.

"Ancestor! Your descendants are unworthy and cannot save you from the sea of fire. I am extremely sad in my heart. I swear here today that I will rescue my ancestors and kill those who harmed them one day!"

After saying that, Qin Chuan endured his grief, stood up, and walked out of the cave.

He is a decisive and smart person, because he knows that he cannot stay here for a long time..

Chapter 1710 Snow fell three feet as a warning.

Although he didn't know what kind of strength his ancestor was, in such a situation, he could kill the fourth-level Dzogchen beast with just a raise of his hands. You can imagine how terrifying its strength is.

And the person who persecuted his ancestors will only become stronger. Qin Chuan has no doubt that the enemy may be able to kill him with just one breath, so Qin Chuan can only choose to leave now.

Seeing Qin Chuan leaving, the expression of the man on the stone pillar gradually softened, with a trace of relief on his face, and his thoughts echoed in the air again.

"remember! remember! My name is Qingwushen! My name is Qingwushen!! Qin

Chuan's body trembled slightly, and he said sadly in his heart:"So my surname is Qing!""

At that moment, Qin Chuan no longer hesitated, re-entered the underground river, and returned along the original path.

After Qin Chuan left, the huge altar in the magma pool trembled again, and then slowly sank into the magma.

However, what Qin Chuan didn't know was that just when the altar was completely revealed, there was a mysterious palace a hundred meters underground in the center of Shenyang City. In that palace, a white-haired man was sitting cross-legged. In the center of the altar, eight old men were sitting around the altar. These eight old men were all eighth-level warriors.

The white-haired man was extremely handsome, but he gave people a strange feeling, especially his There was a six-edged snowflake mark on his forehead.

Fluorescence flowed on the mark, emitting a faint halo.

Suddenly, the white-haired man suddenly opened his eyes and looked sharply in the direction of the fire cave, with a sneer on his lips.

"snort! Thousands of years! Your remnant soul will never die, your remnant thoughts will never be extinguished, what's the use of struggling like this?"

"It seems that the world is too peaceful. Do you and the other five people think that this envoy will no longer guard this place? The snow will fall three feet today to give you a warning."

After saying that, the white-haired man sneered, and his hands began to make strange seals one after another.

As the man in white moved the seals, the sky above Shenyang City began to change.

The originally sunny weather suddenly changed. The sky turned into a gray sky, gusts of cold wind blew between the sky and the earth, and the temperature in the air also dropped suddenly.

After a while, heavy snow like goose feathers began to fall in the sky.

On the street, a pedestrian hugged tightly. Wrapped up in not-so-thick clothes, I looked at the falling snowflakes in the sky and shivered with cold.

"Grass!! What kind of fucking bad weather is this? In the past, spring has started at this time, and the weather has already warmed up. Why did it suddenly snow heavily this year? What a hell!"

The pedestrian cursed and trembled as he rushed home. The snow fell heavily this time and covered a wide area.

With Shenyang City as the center, it snowed heavily for hundreds of miles.

Beike Zhen Ye is no exception.

However, Qin Chuan said that he had countless thoughts in his mind all the way back from where he came.

It turns out that his surname is Qing and he is a member of the Qing family.

I don't know what kind of life experience he has? Why did his ancestors get killed? Such persecution?

Thinking of the misery of his ancestors, Qin Chuan felt an inexplicable sadness in his heart.

And the senior demon snake of Fengwei River seemed to know his life experience. He must also have a great connection with his ancestors.

And Hantan The headless senior in the trap, if he hadn't appeared to help him that day, he wouldn't have been able to get out of trouble.

But who on earth caused them to be so miserable?

By the way, Uncle Qin must know some truth. This time he went back He must find Uncle Qin.

He must find out his life experience.

But how can he see Uncle Qin?

Qin Chuan can't help but feel worried..
