

## God level 1721

### Chapter 1721

After confirming this answer, Shao Geng couldn't sleep on Thursday.

He did all this carefully, but still failed.

However, what devastated Young Master Zhou the most was that not only did Qin Chuan not die, but his cultivation level increased greatly, and he was now a first-level advanced warrior.

This made it even harder for him to accept it for a while, and also made him want to see Qin Chuan more and learn the truth.

But Qin Chuan was so mysterious that he couldn't find any trace of him. This made him even more anxious and tortured him so much that he had trouble sleeping and eating, and his face looked haggard.

"It shouldn't be! I really don't understand, why do you think this little bastard came back to life?"

Thinking of this, Young Master Zhou couldn't help but feel a little upset. He stood up and paced back and forth in the hall irritably.

"Why! Now I am wondering whether that little bastard is a human or a ghost?"

"Fourth Young Master, you don't have to worry so much now. We'll find out when that kid comes back."

"snort!! If you ask me not to worry, how can I not worry? This time I assassinated the little bastard. Not only did he not die, his cultivation level also increased greatly."

"With his status as a third-line warrior, although he is still only a first-level senior warrior, I think you are no longer his opponent. Even if I am his opponent, it is hard to say. Do you think I can not be upset?"

"Fourth Young Master, what should we do?"

"what to do? what to do? How does this young master know?"

Young Master Zhou said angrily.

"Now I am also very upset. If I don't understand why this little bastard Qin Chuan is fine, I will feel uneasy!"

"Fourth Young Master, in this case, we can only wait for Qin Chuan to come back, meet him in person, and find out the truth."

"Why! That's all. However, no matter what the reason is for him not to die this time, I cannot let him go. There is no room for reconciliation between me and him. He must die!"

Young Master Zhou's eyes were full of violence.

"The fourth young master is right. Judging from his subordinates' observations of Qin Chuan, his talent is extraordinary. How long has it been? He has actually advanced to the first level of advanced level"

"It is indeed a serious problem for such people to stay! Fourth Young Master, I think we should get rid of him earlier, if we wait until he reaches the third level of cultivation. By then, I'm afraid it will be difficult for you, Fourth Young Master, to touch him!"

Qian Xing also persuaded.

After experiencing Qin Chuan's resurrection from the dead, he also had an inexplicable fear of Qin Chuan in his heart.

If one day, Qin Chuan turns over, maybe Young Master Zhou is fine, and he is the first to be unlucky. On the contrary, he

"snort! Don't worry about this. Since I have decided to get rid of him, I will naturally not let him grow. He has no chance to become a third-level person."

"By the way, go and tell Captain Xing about Qin Chuan's resurrection from the dead. I think the criminal captain will definitely be restless if he knows this. Now, it is impossible for him not to want to take a boat with us. Hearing this

, Qian Xing's eyes lit up, and he immediately said happily:"The fourth young master is still smart, my subordinates will go now!""

Qian Xing accepted the order and was about to leave, but was stopped by Master Zhou.

"By the way, you have to send someone to keep a close eye on Qin Chuan. As soon as he comes back, you will notify me immediately!"

"Don't worry, Fourth Young Master, my subordinates will try their best to get it done!"

"That's good! Go ahead!"

It's the seventh day.

After the heavy snowfall in Shenyang City, the streets became a little deserted.

However, on this seventh day, the snow has melted a lot, and there are more people on the streets than in the previous days.

In the inn, the door of the room where Qin Chuan lived was still closed.

In the room, Qin Chuan was sitting cross-legged on the bed practicing.

After a while, he slowly opened his eyes, with a haggard look on his face.

He already had I haven't slept for six days and six nights. Such crazy practice has reached a level of selflessness.

The auction will begin tomorrow...

## Chapter 1722

Qin Chuan estimated the time in his mind, and he was very satisfied with the progress of his cultivation in the past few days.

The fire energy mass in the sea of qi naturally became more solid. The water energy has also reached the second level peak, and the wood energy has naturally not changed.

Nowadays, Qin Chuan's comprehensive combat effectiveness has improved a bit, and he is more confident in fighting against third-level warriors.

However, during these six days of crazy training, Qin Chuan's Shui Yuan Dan has been consumed by nearly half.

With his tired eyes open, Qin Chuan now feels extremely sleepy. Anyone who stays awake for six days and six nights would be unbearable.

"Purifying mantra! Congeal!"

Qin Chuan once again used the Pure Heart Curse to focus his mind.

But this time, it was completely different from the past. An unexpected change occurred.

As soon as Qin Chuan used the Pure Heart Curse, there was a loud bang in his head. My eyes went black for a while, and then there was a sharp stabbing pain in my head.

"ah!"

I saw Qin Chuan suddenly scream, and a mouthful of black blood spurted out from his mouth, and then he bled from seven holes. With a crash, he fell under the bed. In the living room downstairs, the waiter had nothing to do and was chatting with the shopkeeper.

Suddenly, When the two heard Qin Chuan's screams from upstairs, their faces changed drastically and they rushed to the second floor.

When they rushed into Qin Chuan's room, they found that Qin Chuan was bleeding from all his orifices, his face was black and blue, and his whole body was stiff. Lying on the ground, the two of them turned pale with fright.

"This...what's going on? Erzi, go up and have a look!"

The shopkeeper looked very panicked and hurriedly ordered the waiter to go up and check.

The waiter stepped forward tremblingly. As soon as he touched Qin Chuan's body, he felt that his body was stiff and cold, not like a living person's body.

He touched it again anxiously Check Qinchuan's breathing.

After a long while, he said with a pale face:"Shopkeeper, it's not good, this kid is dead!"

"What? he died? This...what can I do?"

The shopkeeper suddenly panicked. If a guest dies in his inn, and the Yan family security team investigates it, he can't say anything about it, and there will be trouble.

This southern district is the area ruled by the Yan family. Naturally, all public security is handled by the Yan Family Guards

"This is how to do ah? Erzi, what do you think I should do? It's not a good place for this kid to die, but he died in my inn, hey! This is how to do ah? ?"

The shopkeeper was so anxious that he couldn't even say anything.

"Shopkeeper, please don't be impatient. This matter cannot be rushed."

"Can't wait? Everyone is dead, how can we not be anxious?"

"Shopkeeper, since it has reached this point, I think now we can only report it to the Yan family security team, otherwise it will be detrimental to us if we delay it any longer!"

"Why! It seems that can only be the case."

The shopkeeper had no choice but to say

"Second son, it looks like you're going to have to make a hard trip. You should go to the Yan family security camp to report!"

"Okay, shopkeeper, I'll go right away!"

Not long after, the waiter brought over two warriors from the Yan family's security team. The warriors from this security team were also separated from the guard team, and they were all second-level warriors.

These two second-level warriors from the Yan family, One was a young man in his twenties, and the other was a boy of eighteen or nineteen. They were both wearing Yan family guard uniforms. As soon as the shopkeeper saw the two of them, he immediately stepped forward to greet them respectfully.

"Young one, I've seen Guard Zhou!"

The shopkeeper seemed to be familiar with the young guard.

Guard Zhou nodded proudly, indicating that he had seen him before.

"This guard is...."

The shopkeeper looked at the young guard in surprise.

"This is the new guard, Guard Chen!"

"It turned out to be Chen Huanwei. I had met Chen Huanwei before!"

"Shopkeeper, stop talking nonsense, what happened?"

Zhou Wewei seemed a little impatient.

After hearing this, the shopkeeper immediately said with a sad face.

"Zhou Wewei, what happened is this. This young man came to my inn to stay, but he suddenly screamed today. When the waiter and I came in, this young man had already died suddenly."

"This happened!"

Zhou Huwei looked at Qin Chuan lying on the ground with some surprise.

Seeing that Qin Chuan's body was stiff, his face was black and green, and his seven orifices were bleeding, he stepped forward to visit again, and finally shook his head involuntarily: "Hey! This kid is indeed dead!"

At this time, Guard Chen came forward. When he saw Qin Chuan, a look of surprise appeared on his face.

"Why is it him?"..

Chapter 1723

"Xiao Chen, do you know him?"

Zhou Huwei glanced at Chen Huwei in surprise.

"Um!"

Chen Huwei nodded slightly.

"Brother Zhou, I do know this young man, and I have been to the Fire Cave with him."

It turns out that this guard Chen is none other than Team Leader Chen who escorted a group of teenagers into the fire cave with Qin Chuan to break through.

However, this Team Leader Chen has already broken through to the second level and been promoted to the official guard of the Yan family. Now Assigned to the security team

"oh? So, this young man is also a warrior. Could it be that he is a casual cultivator?"

"Brother Zhou, he is not a casual martial artist. His name is Qin Chuan, and he is the leader of the Zhou family's preliminary guard camp."

Hearing this, Zhou Huwei immediately frowned.

"He turned out to be a member of the Zhou family, so this matter would be difficult to handle! A member of the Zhou family died in the controlled area of our Yan family. If it is not handled properly, it will also affect the relationship between the two families."

At this time, Chen Huwei shook his head and sighed.

"Why! It's a pity that this Qin Chuan has outstanding talent, which I have only seen in my life, but I didn't expect to die in this inn today. I am so jealous of talents!"

There was a bit of regret in Chen Huwei's tone. He had met Qin Chuan once before, and he admired the thirteen-year-old boy very much in his heart. But today he saw that he died suddenly in the inn, and it was inevitable that he was a little sad.

Zhou Huwei on the side He said cautiously:"This matter can be big or small! We have to handle it properly and give the Zhou family a complete explanation!"

Speaking of this, Zhou Huwei suddenly raised his head and looked at the shopkeeper with a bad tone.

"Shopkeeper, I see that Qin Chuan's face is black and blue, and he is bleeding from all his orifices, which looks like signs of poisoning. Could it be that the food in your inn is not clean, and he is poisoned?"

Hearing this, the shopkeeper shouted that he was wronged.

"What an injustice! Zhou Wewei is really unjust! This young man has been staying at home since he moved into my inn. Today is already the seventh day. I have never seen him eat or drink anything, let alone eat the food in my inn."

"joke? If a person doesn't eat or drink for seven consecutive days, wouldn't he starve to death long ago? Shopkeeper, even if you lie, you won't find someone who looks like you. Zhou

Huwei showed anger on his face, "Shopkeeper, I was just suspicious before, but after listening to what you just said, I am now very sure that this young man died of poisoning after eating your food!""

The shopkeeper's face changed drastically, he was so anxious that he didn't know what to do, and he kept shouting that he was wronged.

"Zhou Wewei is really unjust! You really didn't lie!"

The waiter on the side also said: "Two guardians, my shopkeeper is really not lying. This young man has indeed not left the door for seven days."

"snort! Waiter, you don't have to help your shopkeeper lie, you have nothing to do with this either."

"Sir, you can't be so arbitrary! Zhou Huwei said angrily:"

If you say I am arbitrary, I will leave you speechless." Xiao Chen, please quickly ask the coroner to come over for an autopsy. Whether the young man died of poisoning will be known after the autopsy. Shopkeeper, how could you quibble when I saw this?"

"Brother Zhou, little brother, go right now!"

Not long after, Guard Chen invited a coroner.

After the coroner arrived, he asked everyone to carry Qin Chuan's body to the bed, then took out a slender silver needle and was about to pierce Qin Chuan's body. In the esophagus, he checked whether Qin Chuan really died of food poisoning.

Just when the coroner was about to take action, a look of surprise suddenly appeared on his face, and then he checked Qin Chuan's breath, and couldn't help but said angrily

"What the hell are you doing? This boy clearly still has a faint breath, but you asked me to do an autopsy? What kind of autopsy? This young man was almost transformed from a living person to a dead person."

After hearing this, everyone was stunned and came forward to visit.

At this time, they found that Qin Chuan's body was no longer as cold and stiff as before, it had some warmth, and there was a trace of free breath on his nose.

"Huh! This boy is really alive!"

A look of horror flashed across Zhou Huwei's eyes. He had visited Qin Chuan before and found that Qin Chuan was indeed lifeless, but he didn't expect that Qin Chuan would be alive again at this moment. As soon as he heard that Qin Chuan was not dead, the dejected shopkeeper beside him suddenly came to life. Taking pictures of the waiter's head, anxiously speaking

"Erzi, why don't you hurry up and ask Dr. Zheng from Lijie to come over and take a look? Maybe he can be saved!"

When the waiter heard this, he quickly went over to ask Dr. Zheng...

Chapter 1724

Dr. Zheng was an experienced old man who lived very close to the inn and rushed over soon.

The old doctor examined Qin Chuan carefully. After a while, a look of contemplation appeared on his face, and then he shook his head slightly.

Seeing his expression, the shopkeeper said anxiously: "Mr. Zheng, how is this young man? Is he okay?" The old doctor said slowly: "Judging from my diagnosis, this young man has been suffering from mental stress for a long time. , and then suddenly collapsed, causing his seven orifices to bleed."

"At this moment, his energy was scattered, his six senses were not cohesive, and he was like a living dead. If he continued like this, he would die sooner or later!"

"Old doctor, what should we do? Is there any help?"

"Why! Whether he can be saved or not is up to him alone, no one else can help him. However, I have a piece of Ningshen incense here. You can light this incense. Maybe this incense will be helpful to this young man."

"If this young man can wake up after burning this column of concentration incense, he will be fine; if he still doesn't wake up, it will be hopeless. The shopkeeper took the Ning Shen incense and hurriedly ordered: "Second son, hurry up and light this incense!"

"Well done!"

The waiter in the shop quickly lit the Ningshen incense.

But he said that Qin Chuan was immersed in a dream at this moment.

In the dream, he was like a mist that was about to expand, and his body spread wider and wider.

He had an extremely terrifying premonition in his heart. , as long as the mist-like body completely spreads, he will die.

No! He can't die yet!

He wants to wake up. He doesn't know his life experience, how can he die like this?

Qin Chuan tried hard to It was difficult to condense his mist-like body! It was difficult! This made him very anxious, but there was nothing he could do for a while.

But at this moment, Qin Chuan suddenly smelled a strange fragrance, which made him He felt very comfortable.

It seemed that every time he breathed in a strange fragrance, he became more energetic, and his mist-like body became more solid.

This discovery surprised Qin Chuan in his dream, and he began to greedily absorb the fragrance.

Then As he absorbed the aroma, Qin Chuan became more and more energetic, and gradually became able to slowly gather his mist-like body.

This feeling of gradually gathering made him very comfortable.

He knew that as long as he condensed all the mist into a ball, , he could wake up.

But he said that several people in the room were nervously observing Qin Chuan's changes.

Not long after the Ningshen incense was lit, Qin Chuan's originally dark complexion gradually turned rosy. His breathing gradually became heavier.

This discovery made everyone around him look happy.

After a while, Qin Chuan's breathing became more and more obvious and even, and his chest began to rise and fall.

"It seems that this boy is finally alive!"

Seeing this, the shopkeeper breathed a sigh of relief and wiped the cold sweat from his forehead.

At this time, Qin Chuan, who was lying on the bed, slowly opened his eyes.

His eyes gradually became brighter.

But in his eyes The moment I woke up, a strange golden light flashed across my eyes. It was a golden light that was as solid as

"Come to life! He finally came to life!"

Seeing that Qin Chuan finally woke up, the shopkeeper shouted excitedly.

When Qin Chuan woke up, he was a little surprised to see many people around him.

But when he saw the Ningshen incense on the table, he smelled it again The scent of Ningshen incense made him understand everything immediately.

The scent of Ningshen incense was clearly the strange fragrance he smelled in his dream, which made him secretly happy. If no one lit up this Ningshen incense, maybe He was really dead.

Next, Qin Chuan was naturally questioned by everyone, which also made Qin Chuan understand the whole story.

Qin Chuan could only deduce that there was a problem in cultivation, and all this had nothing to do with the kind-hearted shopkeeper , and also sincerely thanked Dr. Zheng who saved him.

Of course, Qin Chuan was a little surprised when he saw Chen Huwei, and the two couldn't help but exchange greetings.

After this incident, Qin Chuan knew that he could not stay in the inn any longer. After explaining the whole story, he left in a hurry.

Qin Chuan left the inn in such a hurry not only because of this unexpected incident, but also an important reason was that when he woke up, he found that There has been a huge change, a change that even shocked him...

Chapter 1725

On the street, Qin Chuan hurried to the reserve guard camp. He wanted to ask the deputy chief instructor about the changes in his body.

Suddenly, Qin Chuan stopped, opened his eyes in surprise, and looked ahead.

Thousands of meters ahead, I saw a tiny grain of rice lying quietly on the snow.

At such a long distance, the rice grains are white and cannot be seen clearly by ordinary people, but they are clearly visible in Qin Chuan's eyes.

What exactly is going on?

How come his eyesight seemed to have improved a lot all of a sudden!

It seems that's not all!

Qin Chuan felt that it was not just his vision that had improved. His hearing, smell, touch, and even taste had all been greatly improved.

The biggest change among them is naturally hearing.

Nowadays, Qin Chuan's hearing has also been greatly improved, and even the sound of vibrating sand grains 130 meters away can be heard clearly.

In the past, he could only hear the vibration of sand grains a hundred meters away.

What caused all these changes was the addition of a small golden droplet in Qinchuan's sea of consciousness. This droplet was only the size of a peanut, but since its appearance, Qinchuan's five senses have been greatly improved.

There are two magical places in the human body, one is the sea of qi and the other is the sea of consciousness.

Generally speaking, a warrior's sea of consciousness is empty.

But there was a mysterious little golden liquid in Qin Chuan's sea of consciousness.

This small golden droplet was also produced after Qin Chuan experienced his previous mental breakdown.

Therefore, Qin Chuan speculated that this small golden liquid was a strange substance that was finally produced because he frequently used the Qingxin Curse to continuously refine his mental power.

Although Qin Chuan didn't know what this golden droplet was, he was certain that it must be related to mental power.

In fact, Qin Chuan's guess was good. These golden droplets were produced by highly tempering his mental power after he frequently used the Pure Heart Curse.

The Pure Heart Mantra has the effect of tempering one's mind power, and some people have learned it in the past.

However, most of these people died of mental breakdown after frequently using the Pure Heart Curse, and very few survived. This directly led to fewer and fewer people knowing the Pure Heart Curse.

However, everyone who survived has received unexpected benefits, and they no longer have to worry about mental breakdown in the future. This is the so-called good luck.

I don't know what those golden droplets are?

Maybe with the knowledge of the deputy chief instructor, he can know something!

Qin Chuan thought about these questions all the way, and now he urgently wanted to know what the golden color was.

When Qin Chuan arrived at the deputy chief instructor's residence, it was already half an hour later.

This time, Qin Chuan was lucky, the deputy chief instructor happened to be at his residence.

In the hall, the deputy chief instructor sat on a chair and took a leisurely sip of tea.

"Qin Chuan, why did you come to see this instructor this time?"

"Report to the Deputy Chief Instructor, I came to you this time because I have some doubts about cultivation and want to ask the Deputy Chief Instructor for advice."

Qin Chuan stood respectfully in front of the deputy chief instructor.

"oh? What question? Come and listen!"

"yes! Deputy Chief Instructor, did you know that a small golden droplet is produced in the sea of consciousness?"

Hearing this, the deputy chief instructor thought for a while, and then said

"I have indeed heard of such a thing. I once heard someone say that after someone experiences some inexplicable opportunities, golden droplets will appear in the sea of consciousness in the brain."

"However, anyone who has this kind of opportunity will have some similar characteristics, such as: five senses that are stronger than ordinary people, extraordinary energy, and a super strong memory with almost a photographic memory. how? Could it be that you also had this opportunity, and golden liquid was produced in the sea of consciousness?"

"No!"

Qin Chuan denied it.

"The kid just heard about it and was curious! By the way, deputy chief instructor, I wonder what those golden droplets are?"

"In fact, the golden droplets are the materialized power of thought."

"Substantial thought power? Deputy Chief Instructor, what is mental power?"...

Chapter 1726

Qin Chuan was still confused

"This power of thought is a relatively ethereal thing. In fact, everyone has it, not just warriors, but ordinary people too"

"For example, if you stare at someone's back in a crowd, after a while that person will sense it and look back. Why do you think that person sensed it?"

"Why?"

"In fact, what he can sense is your power of thought"

"When you look at a person, there will definitely be some kind of thought in your mind. This ethereal thought will produce a force field that you don't know, and this force field will make people aware of it."

"In a way, the human eye is the organ that can most easily emit the power of a person's thoughts, just like a warrior's hands can most easily unleash a warrior's fighting power."

The deputy chief instructor continued:"Although everyone has mental power, everyone's mental power is different, some are strong and some are weak." When a person's will power reaches a certain level, it will materialize. After materializing, small golden droplets will be produced."

After hearing this, Qin Chuan's eyes lit up and he said happily:"After hearing what the deputy chief instructor said, the boy seems to understand."

"It's good that you understand. However, although the power of thoughts is magical and ethereal, it does not help much in martial arts practice, so I hope you will focus more on practice in the future and not on these sideways."

"What the deputy chief instructor taught him was that the boy knew it!"

"Um! As long as you understand, do you have any questions?"

"there is none left!"

Then, Qin Chuan resigned to the deputy chief instructor.

After coming out of the deputy chief instructor's residence, Qin Chuan was in a good mood. He finally figured out what the little golden liquid was.

Anyway, there was an extra drop of gold in the sea of consciousness. The small droplets were only good for him and had no harm.

After leaving the deputy chief instructor's yard, Qin Chuan did not return to the camp of Group 7 because he knew that Master Zhou would definitely send someone there to monitor him and wait for his return.

The auction will start tomorrow, so he would like to avoid conflict with Zhou Shao for the time being until he has finished participating in the auction!

Qin Chuan can't help but look forward to it when he thinks that the Ice Sword will be auctioned at tomorrow's auction. He was determined to win the ice sword!!

The next morning, Qin Chuan went to the auction site.

In the VIP box on the third floor of the auction hall, Qin Chuan still looked like a mysterious man.

At the entrance, people came in one after another Quite a few.

At this time, the auction conference has not started yet, and the seats below are not full.

Qin Chuan sent away the maid who was arranged to serve in the VIP room, and then waited for the conference to start. After waiting for about a cup of tea, The seats in the hall are almost full, and the auction has officially begun.

Director Liu is still hosting the auction

"Welcome everyone to participate in this auction conference. This conference is still hosted by Liu. There will be several very rare items in this auction. Please wait patiently. There will definitely be unexpected gains."

"Okay, I won't say any more unnecessary words, let's get started now! Now let's start the auction of the first item."

At this time, a beautiful maid brought the first item of the auction to the stage. It turned out to be Qinchuan's Earth Fire Scorpion King's inner elixir.

"Everyone, the first item in today's auction is a fourth-level Earth Fire Scorpion King's inner elixir. The Fire Scorpion King here is a fierce beast of the fire system. Its inner elixir is the fourth level and can be used as a medicine."

"In a big city like our Shenyang City where there are many fire warriors, it is quite popular."

"The auction for this fourth-level fire element inner elixir begins now: the base price is 2,500 gold coins, and each increase in price must not be less than 300 gold coins. Please bid!!"

"I'll pay you 2,800 gold coins!"

"I'll pay you 3,200 gold coins!!"

Soon, many people began to participate in the bidding.

Fire-type inner elixirs are still very popular in Shenyang City. If it were other types of inner elixirs, few people would be interested.

Soon, the Earth Fire Scorpion King The inner elixir was bought for 5,800 gold coins by a young woman dressed as an alchemist..

## Chapter 1727

Next, a dozen more items were auctioned.

Although these items were precious, Qin Chuan didn't take any fancy to them.

It wasn't until the twenty-first item was auctioned that Qin Chuan's Shuixi Crystal was auctioned.

However, three water tidal crystals only cost 28,000 gold coins. Qin Chuan was not satisfied with the price, but considering that there were not many water warriors in the Divine Flame City, such a price was normal.

The next auction was Qinchuan's Fire Spirit Crystal, but this time it sold for a high price of 13,000 gold coins.

"Everyone, the twenty-third item is up for auction. This item is very rare and practical. I think many people here will want to take a photo of it after seeing it."

On the stage, Master Liu smiled mysteriously, then opened the twenty-third item, revealing a fist-sized blue projectile.

As soon as he saw the blue projectile, many people in the audience Recognized

"Huh! It's Tianleizi!"

"It turned out to be Tianleizi, this thing is very rare!"

"yes! This day's thunder is extremely powerful. If a fourth-level warrior is hit head-on, he will be seriously injured. It is indeed a good thing to save his life.

On the stage, Director Liu laughed and said,"Haha!! You are right. This is the legendary Tianleizi that only thunder elephant warriors can condense. It is so powerful that even fourth-level warriors have to stay away. It is a good thing to save their lives."

"We will start the auction now. The base price is 10,000 gold coins. Each increase in price must not be less than 500 gold coins. Please bid!"

As soon as Mr. Liu finished speaking, the crowd started fierce bidding.

"I'll pay eleven thousand gold coins!"

"I'll pay you twelve thousand gold coins!"

"I'll pay 14,000...."

The bidding in the field was very fierce, and this result surprised Qin Chuan. He did not expect that this piece of thunder could make so many people jealous.

In the end, Tianleizi was auctioned off for 21,000 gold coins.

Qin Chuan was also shocked by such a high price, but he was even more happy. He was very satisfied with the price.

At this point, all the items Qin Chuan sent for auction have been auctioned. After deducting the labor commission from the auction house, Qin Chuan netted more than 63,000 gold coins.

Including the gold coins Qin Chuan had on him, he had a total of more than 224,000 gold coins.

With so much money, I don't know if I can succeed in taking the ice sword. I guess it shouldn't be a big problem!

After all, there are not many water-type warriors in Shenyan City, so they may not be able to fetch high prices."

Although he said this, Qin Chuan was still a little worried. Maybe it was because he wanted to get the ice sword so much.

The items that were auctioned next were each more rare, which made Qin Chuan's price increase a lot. A rare sight.

There were several items among them that made Qin Chuan's heart flutter. He couldn't help but want to take a photo, but he held back in the end. After all, his goal was the final item: the Ice Sword.

The auction continued, and the countdown came to the auction. When it came to the third item.

On the stage, Manager Liu cleared his throat, with a look of excitement on his face.

"Everyone, the most exciting moment has arrived. The next three items to be auctioned are the last three items in this auction. We now begin the auction of the first grand finale item!"

Hearing this, Qin Chuan in the VIP box also became curious and had some expectations in his heart. He also wanted to know, what is the first and last item in this seat?

At this time, he saw a beautiful maid bringing the first item to the table. The final item was brought out, and it turned out to be an ordinary book.

As soon as they saw this book, many people had doubts in their eyes, and they were very confused in their hearts. They didn't know what this book was.

Seeing that everyone Doubts, Master Liu pretended to be concerned and said

"You have seen it too. The first and final item is this book. In fact, this book records a secret technique, and it is this secret technique that we are auctioning."

Hearing this, the audience was in an uproar..

Chapter 1728

"Secret technique! This first final item turns out to be a secret technique! What is the secret technique?"

"The secret technique that can be used as the finale of the auction must be a very powerful secret technique. Its power and effect can at least be compared with superior martial arts!"

"If it can really compare with superior martial arts, it can really be auctioned as a grand finale item."

"You may have missed something. Most advanced martial arts can only be learned by warriors of level five or above. However, this secret technique has no level restrictions. If its effect can really be compared with that of advanced martial arts, I think it is better. Superior martial arts are more practical."

In the box, Qin Chuan became very curious when he heard that the first finale item was actually a secret technique. He became energetic and sat aside to wait for the next step.

"Ahem!!"

Master Liu coughed twice.

The place suddenly became quiet.

Everyone knew that Master Liu began to explain what kind of secret technique this was.

"Everyone, I don't think Liu needs to say more. Everyone knows that among warriors of the same level, dual-system warriors are far stronger than those of the same level."

"I think many of you who are doing this want to become dual-system warriors. However, not everyone can achieve dual-use of distraction. Only a very small number of people can do it, so most people cannot become dual-system warriors."

"However, now there is a way to turn ordinary warriors into dual-system warriors. This method is to practice this secret art: the art of distraction"

"As long as you learn this distraction technique, you will be able to use both distraction and distraction, and you will naturally become a dual-system warrior."

Hearing this, the audience in the audience suddenly became restless.

"Oh my God! There is such a magical secret!"

"No way! If this distraction technique is really so magical, and its value can be used as the last finale item, why is it the first one to be put up?"

You know, if there is really a way to make an ordinary warrior become a dual-system warrior, it would be enough to make any ordinary warrior crazy."

"Of course, there are conditions for learning this distraction technique."

Mr. Liu paused slightly.

"This condition is that only those who have special opportunities to materialize their willpower can learn. Ordinary people cannot learn."

As soon as they heard this, the audience suddenly understood why this magical skill was so magical, but it could only be auctioned as the first item in the finale, because ordinary warriors could not learn it at all.

At the moment, some people with bad tempers The good warrior cursed in a low voice

"What are you doing? Is the power of thought materialized? This kind of thing is just a rumor, not many people have seen it, and no one knows whether it can be materialized. Your secret technique is just empty talk and useless."

"that is! Even if the power of thought can really be materialized, what kind of opportunity will it take? I think many people will never have such a chance in their lifetime!"

"That's right, I don't know what the use is of buying this secret technique? I'm afraid I won't be able to use it in my lifetime!"

Hearing the noisy cursing in the audience, Manager Liu blushed in embarrassment and continued to laugh.

"hehe!! Everyone, although there are some restrictions on learning this magic technique, how can you be sure that you won't need it in the future?"

"You might as well buy it and put it on yourself! Maybe one day you will get the opportunity to materialize the power of your thoughts."

"What's more, even if you don't need it in your lifetime, you can still leave it to your son!"

"If your son doesn't need it, you can still leave it to your grandson! If your grandson doesn't need it, you can still leave it to your grandson's grandson! If this happens, there will be endless descendants, and there will always be one generation who can use it!"

As soon as these words came out, Master Liu immediately received a series of contempt.

However, compared to the disappointment of those ordinary warriors.

Qin Chuan in the box was extremely excited, and his eyes almost glowed with colorful lights.

"Isn't this 'distraction technique' tailor-made for him?"

His power of thought has become substantial, and there is no problem in learning it.

As long as he learns this divine technique, he can become a warrior of the four elements. The effect of this divine technique on him is more than ten times and a hundred times more powerful than that of the ice sword. With it, what does he need the ice sword for?

Today, I have to take a picture of it no matter what, even if I can't take a picture of the Ice Sword, it doesn't matter.

Thinking of this, Qin Chuan clenched his fists excitedly...

Chapter 1729

Today, I have to take a picture of it no matter what, even if I can't take a picture of the Ice Sword, it doesn't matter.

Thinking of this, Qin Chuan clenched his fists excitedly.

You know, in this world, only people have seen three-line warriors.

But no one has ever seen a warrior of the fourth element. If there are, they have only heard of them in legends, but no one has ever actually seen them.

Therefore, no one knows what kind of strength the fourth and fifth series warriors are.

If Qin Chuan really learns the 'distraction technique', then he can become a legendary warrior of the four elements.

At this time, Director Liu on the stage spoke.

"Everyone, the auction for this magical distraction technique begins now. The base price is: 50,000 gold coins. Each bid must not be less than 1,000 gold coins! Please start bidding!"

As soon as he finished speaking, Director Liu looked expectantly towards the audience.

But after waiting for a long time, there was silence in the audience, that is, no one bid.

I have never encountered such a situation, which made Director Liu's forehead straighten with anxiety. Sweating, I shouted again

"Please start bidding!"

There was still no one bidding at the scene, and the atmosphere became very cold.

This time, Manager Liu was really anxious, and his voice doubled again

"Do you have any bids? If there are no more bids, the item will not be auctioned for the time being."

As soon as these words came out, someone finally made a bid.

"I'll pay you 50,000 gold coins!"

A lazy voice came from a VIP box on the third floor. It seemed that the voice was not very interested in this 'distraction technique'.

Seeing someone bidding, Mr. Liu's wrinkled face finally relaxed and he asked again. : "Fifty thousand gold coins, does anyone have a higher offer?"

In the box, Qin Chuan was a little surprised when he saw someone bidding, but he was not in a hurry.

With his current wealth, it was no problem to take pictures of this 'distraction technique', so he never spoke and just did it on the side. watch

"Fifty thousand gold coins, is there anything higher?"

"I'll pay you fifty-one thousand gold coins!" But it was the voice of a young woman.

When he heard that someone finally increased the price, a smile appeared on Mr. Liu's face.

"Fifty-one thousand gold coins, is there anything higher?"

Master Liu shouted twice, but this time no one bid again.

"Fifty-one thousand gold coins! first! Is there any higher price?"

The scene was silent, and Manager Liu's heart gradually turned cold.

"Fifty-one thousand gold coins, the second time! Didn't anyone offer a higher price?"

The scene was still silent. Manager Liu's heart was completely cold, and he couldn't help but sigh secretly.

"Why! Unexpectedly, the most failed auction in my life was related to this 'distraction technique'. It seems that I really overestimated this secret technique."

Thinking of this, Manager Liu helplessly shouted: "Fifty-one thousand gold coins, the third...."

Just when Manager Liu shouted for the last time, Qin Chuan finally made his bid.

I saw him shouting in a hoarse voice: "I offer fifty-five thousand gold coins!"

Hearing Qin Chuan shout out such a high price.

Mr. Liu, who was originally filled with despair, now has a glimmer of light in his eyes.

"This senior offered 55,000 gold coins. I wonder if there is anyone who can offer more?"

Mr. Liu looked expectantly at the woman who had bid before.

But the woman had no reaction and stopped bidding.

"Fifty-five thousand gold coins for the first time! Are there any higher prices?"

Master Liu shouted three times in a row, but no one bid again. This 'distraction technique' was also captured by Qin Chuan.

In fact, when Qin Chuan saw that Master Liu shouted for the third time, but still no one bid, His slightly hung heart was relieved, and he felt extremely excited.

In his opinion, it was definitely worth 55,000 gold coins to capture this 'distraction technique'.

Not to mention 55,000 gold coins, even if It was two hundred thousand gold coins, and Qin Chuan took the photo without hesitation..

Chapter 1730

After the last failed auction, Manager Liu started the second auction of the final item.

"Everyone, there must be a lot of people who know about this second auction item. It is so well-known that it probably doesn't require any explanation from Liu."

Mr. Liu paused for a moment, then took out a white jade porcelain vase from the brocade box held by the maid on the side.

"Everyone, this is the second final item today. This bottle contains the famous Tianmui Liquid."

As soon as he said these words, there were many gasps of exclamation in the venue.

"It's actually Heavenly Marrow Liquid. This thing is indeed a good thing!"

"hehe! So what about the good stuff? It can only be said that it is a luxury product, and only those from big families are willing to give it to their disciples."

"makes sense!"

At this time, Director Liu Jiuxue on the stage introduced

"This day's marrow liquid is considered top-grade according to the level of elixirs. Although most people here already know its efficacy, there are still some people who are not sure about it."

"Liu will introduce it again here. The effect of this 'Heavenly Essence Liquid' can improve the talent and qualifications of warriors and enhance their qualifications."

"However, it is only effective after the first dose, and the degree of improvement is extremely limited."

Hearing this, Qin Chuan couldn't help but pay more attention to the 'Heavenly Essence Liquid', secretly sighing that there is such a heaven-defying liquid in this world.

You know, the talents and qualifications of warriors are all innate, and they are almost inseparable. It may change.

The next auction also surprised Qin Chuan. The bidding was very fierce.

However, most of the people participating in the bidding were people in the VIP box on the third floor.

Presumably they were all people from big families who sold to their own disciples. After all

, even the children of big families have low qualifications.

In the end, the bottle of 'Heavenly Essence Liquid' was snapped up by someone in a VIP box on the third floor for 150,000.

What follows? The last item is the Ice Sword.

Qin Chuan had about 170,000 gold coins after taking the picture of the distraction. He had no idea whether he could take the Ice Sword.

"Everyone, now comes the last auction of the final item, which will also be the most exciting moment."

At this moment, the audience in the audience became excited.

According to past practice, this last item is naturally the most important and the most anticipated.

"Mr. Liu, what exactly is this final item?"

"yes! What exactly is it?"

Many people in the audience asked aloud.

Not everyone can know in advance what the last finale item is. Only a few people with status will be informed in advance by Chief Liu.

Chief Liu always thought that Qin Chuan was A very low-key outsider, so he told me in advance.

On the stage, Director Liu smiled and said:"Please be patient and calm! You will find out in a moment what this last item is!"

After saying that, Chief Liu clapped his hands twice.

A beautiful maid came out from behind the stage, holding a long sword with a sheath in her hand.

Chief Liu took the sword, and under the curiosity of everyone,"Shua" He pulled out the long sword in one fell swoop.

When the long sword was unsheathed, a strong cold air spread out, and a vague cold mist condensed around the snow-white sword body.

"This...this is a spiritual weapon!"

Some knowledgeable warriors recognized this sword as a spiritual weapon at a glance.

"good! This sword is indeed a spiritual weapon!"

Mr. Liu smiled and nodded.

"This sword is called the 'Ice Sword' and is a water-based spiritual weapon. If a water-based warrior obtains it, its strength can be increased by 20 to 30%. Based on this alone, it is worth noting that Liu needs to say more about its value."

"Moreover, this ice sword also comes with a more destructive cold attribute, which is considered good among water-based spiritual weapons."

Hearing what Chief Liu said, the water warriors at the venue all opened their eyes in excitement...
