

God level 1741

Chapter 1741

Since qualifications can be improved, is there any way to upgrade them to higher qualifications?

If it was possible, he thought the wish of the fellow practitioners of the Wind and Thunder Twin Elephants might come true.

It would be better for him to ask Sister Yuyao. Sister Yuyao is an alchemist and should know better than him about how to improve the qualifications of this elixir.

Thinking of this, Qin Chuan immediately set off to visit Yuyao at the Alchemy Bureau and casually visit Xiao Xiang'er.

When Qin Chuan met Yu Yao, he learned that Xiao Xiang'er had gone to Master Yu Yao to learn alchemy.

In the alchemy room, Yuyao was reading a book as usual, with a look of tranquility on her beautiful face.

But when she saw Qin Chuan and met Qin Chuan's captivating eyes, her heart fluttered inexplicably. This feeling made her feel a little strange, but also a little happy.

Yuyao looked straight at Qin Chuan, a blush flashed across her delicate face, which made Qin Chuan confused. strangeness! It had been a while since I last saw Qin Chuan, but Qin Chuan had changed so much. He had even grown a lot taller and looked better than before."

Just when Yuyao was muttering secretly in her heart, Qin Chuan spoke.

"Sister Yuyao, I wonder if there is any elixir in this world that can turn people with inferior qualifications into superior qualifications?"

Yu Yao covered her mouth and smiled sweetly.

"Brother Qin Chuan, you are exaggerating too much."

"As far as my sister knows, there are not many drugs that can improve people's qualifications, but at most they can only turn people with inferior qualifications into inferior qualifications."

"As for turning low-level qualifications into medium-level qualifications, that is simply impossible. Changing medium-level qualifications into high-level qualifications is absolutely impossible. At least it's impossible to do Taoism on elixirs?"

"As for becoming a genius, there is no need to think about it."

Qin Chuan still asked reluctantly: "Sister, is there no way to change the qualifications?"

"This is it....."

Yuyao pondered for a while, and then said after a long while: "I once heard the master say that people's talents are determined by nature, and changing people's qualifications is an unnatural thing. This kind of thing is always extremely difficult."

"Although it is extremely difficult to change a person's qualifications, there are still some magical arts in this world that can change a person's qualifications. As for those magical arts, my sister is not sure about them, but my sister knows that there is a top-notch martial arts that can improve a person's qualifications."

Qin Chuan's eyes lit up and he asked quickly

"What martial arts is so magical? Can actually improve people's qualifications?"

"The best wood-based martial arts skill_necromantic skill. Wood warriors who have learned this psychic technique can choose any evil beast as their natal psychic beast. If the natal psychic beast has a higher talent in a certain system than the caster, it will also make the caster Improvement in this series of talents"

"Generally speaking, the improvement of a person's qualifications through psychic techniques mainly depends on the qualifications of the natal psychic beast. The higher the qualifications of the natal psychic beast, the more the improvement will be."

Hearing this, Qin Chuan was pleasantly surprised. If it were other top martial arts, he might not be able to learn it, but Qin Chuan had the opportunity to learn this psychic skill.

Ever since Qin Yunlie saved him that day, from some things that happened in the meantime, Qin Chuan vaguely judged that Qin Yunlie might be one of his own tribe, and his tribe seemed to specialize in wood-based skills, so Qin Chuan could be sure that he would definitely be able to learn psychic skills in the future.

I didn't expect that psychic skills can also improve people's qualifications, but it seems that this psychic technique can only sign one natal psychic beast, so it can only improve a certain series of talents.

No matter what, this is always a new one Way!

Next, Qin Chuan asked Yuyao some questions. Knowing that Yuyao didn't know how to change her qualifications, he said goodbye to Yuyao immediately...

Chapter 1742

On the way back, Qin Chuan also had many thoughts in his mind.

No matter what, he won't give up easily.

It is better to slightly improve the qualifications of the metal and earth elements first. This method is not difficult, as long as you get the Tianmui Liquid.

It's just that the marrow liquid that day cost at least 150,000 or 60,000 gold coins, which is not something he can afford now.

It seems that it is better to put this matter aside for now and break through the fire element energy first.

With a decision in his mind, Qin Chuan prepared to go into seclusion with all his strength to attack the bottleneck of Huo Yuanqi.

Time flies by like a white horse.

Two months passed in the blink of an eye.

The past two months have been a rare moment of peace for Qin Chuan in his cultivation career, and Young Master Zhou has never come to trouble him.

This made Qin Chuan, who was in seclusion, always uneasy, because he knew that there was always an unusual calm on the eve of a storm.

And in these two months, a lot of things happened.

Zhou Shao and Lin Yue got married three days ago.

And Qin Chuan heard that Lin Yue not only brought a lot of dowry when she got married, but also brought a strange little pet, which was a mini golden monkey.

When he heard the news that day, Qin Chuan was shocked and horrified.

He knew that the miniature golden monkey must be the Monkey King.

Generally speaking, many of the fifth-level ferocious beasts can freely change the size of their bodies, but it is difficult to conceal their own cultivation.

Qin Chuan didn't know how the monkey king hid his cultivation and sneaked into the Zhou family.

You must know that the Zhou family is full of experts, with many experts above the fifth level. It is not easy to hide your cultivation in front of these experts.

But no matter what, the Monkey King had followed Lin Yue into the Zhou family.

It seems that the days to come will be more dangerous. If the Monkey King finds out that he is in the Zhou family, he will be dead.

However, as long as he didn't meet the Monkey King and the others, they wouldn't know that he was hiding in the Zhou family.

The Zhou family is so big that it is not easy to meet them.

Even so, Qin Chuan was still very worried. Who knew if there would be any accidents in the future?

If one day he happened to meet Lin Yue and the Monkey King, it would be a big deal.

Why! Speaking of which, it's still his fault for being too weak. What if he was strong enough? Why should I worry about this?"

Thinking of this, Qin Chuan felt a sense of urgency to practice quickly.

When he breaks through the cultivation level, he will find out what Uncle Qin knows about his life experience.

Then, he will leave the Zhou family to find his own people.

There is nothing in the Zhou family worth remembering. That's it.

He doesn't have to worry about meeting the Monkey King and Lin Yue all day long."

In fact, Qin Chuan didn't know that after he knew the truth about his life experience, he couldn't leave the Zhou family anymore, but that was another story later.

In fact, during this month, two things happened that Qin Chuan was more concerned about.

That means Huo Qing and Luo Feng have both broken through to the second level and joined the Zhou family's guard team.

As for Huo Qing, although Qin Chuan didn't have much contact with him, there was a feeling in his heart that was as touching as if life were just like the first time he met, the kind of sincere friendship that only a young boy can sprout.

How many first times are there in life?

The first unexpected encounter, the first time working together, the first time fighting against the enemy together?

Many firsts, full of wonderful memories.

This kind of memory makes Qin Chuan feel a preference for Huo Qing. It is a preference for friendship. Although it is very weak, it is very real.

Regarding Luo Feng, Qin Chuan always felt that there were many secrets hidden in this person, and many of these secrets seemed to involve him, so he had to be careful on guard, but he did not dare to take the initiative to deal with Luo Feng.

Because he knew that if he really touched Luo Feng, there would be many difficult-to-provoke people behind him, so all he could do was watch quietly..

Chapter 1743

The next time was still very peaceful.

I don't know whether it was because Young Master Zhou Zhou had too many things to do after his wedding, or because Major General Qin Chuan was forgotten on Thursday.

Master Zhou never came to trouble him.

This made Qin Chuan very surprised. He didn't believe that Thursday Young Master was a person who did not care about past grudges. With Thursday Young Master's unyielding character, it was impossible to spare him.

Moreover, the conflict between the two has long been irreconcilable, and neither party wants to let go.

Just like that, another month passed in the blink of an eye, and Qin Chuan still spent his time practicing peacefully.

Right now, it is March in spring, when flowers are blooming all over the ground.

The mountains, forests, grasslands, and river banks are all filled with the breath of spring, and the earth has been buried in spring.

Qin Chuan walked on the forest path.

This forest was where he used to practice his swordsmanship.

The green grass on both sides of the trail is dotted with unknown white flowers, which are small wild flowers that exude a faint fragrance.

Qinchuan greedily breathed in the fragrance of flowers, tender grass and earth in the air, feeling the breath of spring, and felt extremely comfortable in his heart.

"Why! It's been a while since I came out to relax!"

For two whole months of seclusion, Qin Chuan, except for occasionally coming out to inquire about the situation and get some food, almost never left the room. He practiced crazily day and night to pass the level.

Qin Chuan also discovered that since the essence of his willpower After transforming, his energy became more and more extraordinary.

In the past, he had to sleep for more than an hour every day, but now he only slept for an hour every two days.

At the same time, as Qin Chuan frequently used the Qingxin Curse, his mental power also slowed down. Slowly strengthened.

The members of Group 7 had long been accustomed to Qin Chuan's life-defying practice. They all admired Qin Chuan in their hearts, and privately followed Qin Chuan as an example.

It seemed that under Qin Chuan's leadership, the members of Group 7 were better than those in other groups. People are more diligent, and the overall cultivation level of the team members is gradually improving.

For Qin Chuan, he has also made great progress after two full months of retreat practice.

His water energy finally broke through to the second level. It's complete. Now Qin Chuan's own comprehensive combat power is very close to that of a third-level warrior.

If he uses the battle body to transform wildly, he can compete with a third-level warrior even without using the ice sword and the fire sword several times..As for the Mu Yuan Qi, it is still at the level of the second-order Great Perfection, and there is still no change at all.

The Fire Yuan Qi in the Qi Sea is also much more solidified than before.

However, according to Qin Chuan's estimation, it will take at least two months to break through. It takes a long time to transform the fire energy into a cyclone.

It is really not easy to break through to the second level!

He practiced so crazily, but the fire energy still failed to break through.

If he hadn't had a series of unexpected encounters, I'm afraid the water and wood energy would also have failed. It should still be at the first level of advanced level!"

Qin Chuan sighed in his heart, and at the same time felt lucky for his adventure.

Compared with these achievements, what made Qin Chuan frustrated was that the progress of his cultivation of the fourth series of skills, Earth Yuan Qi, was so slow that it almost drove him crazy.

After two full months of seclusion and training, his earth energy had just reached the level of an intermediate quasi-warrior.

And this was achieved only after taking a large amount of Xiaojuyuan Dan.

If it were the three elements of water, wood, and fire, he would have already broken through to the first level.

Only at this moment did Qin Chuan realize the bitterness of a warrior with ordinary qualifications.

It turned out that after Qin Chuan knew that his qualifications in the earth and metal systems were average, he chose to cultivate the earth element's vitality first.

After all, his progress in cultivating earth element vitality will be faster than that of gold element.

Judging from this progress, even with the aid of a large number of elixirs, it will take one or two years for his earth energy to break through to the first level of elementary level!

If he cannot break through it to the first level, he will not be considered a true warrior of the four elements.

Why! This progress is too slow!

He had to find a way to get some money as soon as possible, and then buy the marrow fluid that day to improve his qualifications..

Chapter 1744

When he thought about money, Qin Chuan's head got a little big.

Now, the elixirs on his body have been completely exhausted, and he only has a dozen gold coins left. He is completely poor.

The only valuable items left on him were two spiritual weapons and a Heavenly Thunder Seed. Of course, these were not for sale.

Therefore, Qinchuan can only rely on the pills distributed by the reserve guard camp every month to survive.

In fact, he also thought about going out to hunt some ferocious beasts and earn some money, but he has been busy in retreat and has not taken time to do so.

Unfortunately, according to the treasure map obtained from Liu Kun, the treasure location is far away in Tianshui City. It is too far away from here, and he cannot leave Shenyang City easily.

If not, he could go somewhere and see what good things are hidden there, and maybe he can get some money to spend.

What Qin Chuan lacks most now is money, and this is also the problem he is most eager to solve.

At the same time, outside Shenyang City, in a remote forest, two figures familiar to Qin Chuan appeared.

These two figures suddenly turned out to be the deputy chief instructor and Deacon Qin.

The breeze blows, and petals fall from the forest.

Watching the remaining flowers falling in the forest, the deputy chief instructor was in a trance, his thoughts wandering in memories.

In the same place, in the same season, the woman in white clothes was no longer there, leaving only painful memories for him.

One year spent similar, each year is different.

Time is like water, flowing slowly and unconsciously. How many people are drifting with the tide, and occasionally looking back, they realize that the days have gone so far.

Maybe it was the shadow in the sky that blocked the sunshine, but there was a sad smell in the air. It was so light that after tasting it for a long time, I felt a bit heartbroken.

If life is just like the first time we met, why should the autumn wind draw a fan sadly?

The beauty in dreams is always slowly dispersed by the hustle and bustle of the world. On the road of pursuit, dream seekers occasionally appear confused mysteries, unknown paths ahead, flowers slowly wither, and their faces fall all over the ground. , as if sad, slightly swollen

"Brother, do you miss her?"

Deacon Qin's voice woke the deputy chief instructor from his thoughts.

The deputy chief instructor smiled bitterly, and tears flashed in the corners of his eyes.

"Time is too thin, and the gaps between fingers are too wide. Thirteen years have passed before I know it, and Qin Chuan has also grown up."

"Ha ha!! Brother Feng, Ah Sheng, what are you talking about?"

But at this moment, another figure emerged from the woods, but it was Qin Yunlie.

"snort! Why are you so loud? Tell me, why did you ask us out?"

Deacon Qin glared at Qin Yunlie angrily.

"hey-hey!!!"

Qin Yunlie laughed heartily and didn't care.

"Brother Feng, this is the secret message from the patriarch to you!"

The deputy chief instructor took the letter from Qin Yunlie's hand and read it carefully.

After a while, a faint look of surprise appeared on the deputy chief instructor's face.

"Brother, what did father say in the letter?"

"The father wants to meet his grandson!"

"What? Father, do you want to see Qin Chuan now?"

Deacon Qin was also a little surprised.

The deputy chief instructor looked into the distance and fell into deep thought. After a while, he said to himself

"My father's cultivation level can hardly be suppressed anymore, maybe it will be four years, maybe it will be five years. He will definitely break through to the eighth level."

Hearing this, Deacon Qin and Qin Yunlie both looked sad.

"yes! If the clan leader fails to control his cultivation and accidentally breaks through to the eighth level, he will explode and die... Hey!"

Qin Yunlie sighed helplessly.

"I think the patriarch wants to see his grandson whom he has never met before, probably because he doesn't want to leave any regrets for himself!"

Children of the Qing family, without going through the Hualong Pond to activate the Qinglong bloodline in their bodies, will not live past the age of fifty, unless they can cultivate to the seventh level before the age of fifty. The seventh level is called 'Nirvana', and a warrior must reach it. At the seventh level, the lifespan is no longer just a hundred years like normal people, but has transcended this limit, and the lifespan can reach five hundred years.

This is also the reason why the Qing family cultivated to the seventh level before they were fifty years old and can continue to live..

Chapter 1745

When the children of the Qing family reach the eighth level of cultivation, if they have not been baptized by the Hualong Pond before, the Qinglong bloodline in the body can be automatically activated without having to be baptized by the Hualong Pond.

The automatically activated Qinglong bloodline, because it has been hidden in the body for a long time, has slowly absorbed a huge amount of power. Now it is suddenly activated and bursts out, which the human body cannot bear.

Even an eighth-level warrior cannot bear it. There will be only one outcome, and that is death from body explosion.

This is also the biggest crisis that the patriarch of the Qing family is about to face.

"Four years! We must recapture the 'Blue Dragon Pearl' within four years. As time goes by, the clan leader will be in danger!"

A trace of anxiety appeared on Qin Yunlie's face.

"Four years is enough. I think it won't take that long for Qin Chuan to reach the third level."

The deputy chief instructor said softly.

But Deacon Qin suddenly sighed, his voice a little hard.

"Brother, I think you also understand what my father means. He is not worried that Qin Chuan will not be able to break through to the third level within four years. He is worried that after that battle, he may never see Qin Chuan again."

"After all, Qin Chuan is going to enter the forbidden area of the Zhou family. No matter whether we can successfully capture the Blue Dragon Pearl, Qin Chuan will have a narrow escape. So my father wants to see his grandson before that, and he doesn't want to leave any regrets for himself."

"Brother, are we a little sorry for Qin Chuan when we do this? After all, he is still so young, but we ask him to bear so much."

The deputy chief instructor's lips trembled slightly, and he said after a while

"Qin Chuan is a child of the Qing family. Since he was born in the Qing family, he must have the consciousness of a child of the Qing family. This is what he should do for the sake of the Qing family. Ah Sheng, let's go!!"

After saying that, the deputy chief instructor's figure flashed and disappeared into the forest.

Deacon Qin sighed and left.

At the same time, Qin Chuan on the other side had no spare money at this time and was wondering whether to Taking advantage of the flower blooming season, he went to hunt a few ferocious beasts outside the city, sell the inner elixir, and earn some money for use. However, the instructor suddenly called him over and said that he had a new mission. The seventh group camp, in the martial arts hall

"Qin Chuan, this mission was issued by the deputy chief instructor. After completing the mission, the deputy chief instructor will personally reward you with 10,000 gold coins."

"Ten thousand gold coins! So many!"

Qin Chuan's eyes showed joy. What he lacks most now is money. If he doesn't earn these ten thousand gold coins, he won't make them in vain.

"I don't know what task the deputy chief instructor issued?"

"I don't know about this either. The deputy chief instructor asks you to go to him in person, and he will personally tell you what the mission is. The rewards are so high, so it must be quite difficult!"

The instructor kindly reminded me

"Thank you instructor for telling me, I will go meet the deputy chief instructor now!"

After leaving the seventh group camp, Qin Chuan excitedly went to find the deputy chief instructor.

Although he didn't know what tasks the deputy chief instructor would arrange for him, but based on his understanding of the deputy chief instructor, the deputy chief instructor would not fall into any trap. He was at a disadvantage.

In the hall, the deputy chief instructor was sitting on the purple wood chair, sipping hot tea. Apparently he had been waiting for Qin Chuan for a long time.

"The boy has met the deputy chief instructor!"

"You are here!"

The deputy chief instructor smiled and put down the white porcelain tea cup in his hand.

"The boy heard from the instructor that the deputy chief instructor issued a task to his subordinates. I wonder what the task is? The deputy chief instructor smiled and said, "You will know what the mission is in a moment. Can your instructor tell you about the rewards for this mission?"

"The instructor has already told the boy that the reward is 10,000 gold coins"

"Um! Are you satisfied with this reward?"

"This... I don't know what kind of mission the deputy chief instructor has issued. Can you tell me first?"

Qin Chuan knew in his heart that the more generous the reward, the higher the risk factor...

Chapter 1746

"All right! Since you want to understand the content of the task first, this instructor will tell you first! In fact, this mission is one of my wishes. When I was young, I had experience in mainland China and met an old man."

"The old man was very kind to this instructor, and he also promised to help him fulfill his wish."

"Unfortunately, since that goodbye, this instructor has been busy with things and has been unable to help him fulfill his wish, so I would like to ask you to help him fulfill this wish on my behalf. This wish is also the task issued by this instructor to you."

"I wonder what the old man's wish is?"

The deputy chief instructor did not answer. He just smiled and took out a few paper packets and handed them to him.

At the instruction of the deputy chief instructor, Qin Chuan opened the paper packets and took a look, and a strange look suddenly appeared on his face.

Because that Several paper bags contain plant seeds.

"Deputy Chief Instructor, these...."

"Haven't seen it yet? These are of course plant seeds, to be precise, they are vegetable seeds. The ones you hold in your right hand are Chinese cabbage seeds, the ones here are radish seeds, and...."

Listening to the deputy chief instructor's introduction, Qin Chuan sweatdropped on his forehead and asked in confusion.

"Deputy Chief Instructor, what do these vegetable seeds have to do with this mission?"

"Of course it does matter. Oh, this instructor forgot to tell you, that old man is a vegetable farmer, and his wish is to let this instructor help him grow vegetables, so your task this time is to help him grow vegetables!"

"ah!"

Qin Chuan was stunned. He never expected that this mission would be to help others grow vegetables.

This made him feel a little incredible. How could he get such a high reward for helping others grow vegetables?

"how? you are not willing?"

"ah? Oh, no! Instructor, do you have nothing else to do besides growing vegetables?"

"Apart from helping the old man grow vegetables, there should be nothing else."

"No way! Can a kid really get a reward of 10,000 gold coins if he helps an old man grow vegetables?"

Qin Chuan still couldn't believe his ears. He originally thought this mission would be very dangerous.

"Of course it's true. Do you think the rewards released are too many? Then the instructor should give me less!"

Hearing this, Qin Chuan became anxious and giggled:"Not much!" not much! Not much at all!"

Seeing his expression, the deputy chief instructor couldn't help but smile.

"So you have no objection to the reward for this mission?"

"No comment! Of course I have no objection!"

Qin Chuan's expression showed no hesitation. He was afraid that the deputy chief instructor would regret it.

"Ha ha!! Since you have no objection, this instructor will treat you as accepting this mission."

Hearing this, Qin Chuan was delighted.

You can get a reward of 10,000 gold coins by helping people plant vegetables. This task is too easy. I didn't expect the money to be so easy to make! He seemed to have read Qin Chuan's thoughts. The deputy chief instructor smiled.

"Boy, don't think this mission is easy to complete. Your trip to help the old man grow vegetables this time is actually secondary. Your main task is to make the old man happy."

"As long as the old man is happy, these ten thousand gold coins will naturally be yours."

"If you fail to make the old man happy, consider your mission a failure and you won't get the money. Qin

Chuan said with a smile: "Don't worry, deputy chief instructor, I'm just trying to make the old man happy!" This guy is the best at this!"

"hehe!! As long as you understand, kid!"

"Deputy Chief Instructor, I wonder where that old man lives?"

"The old man lives in a small village near Tianshui City. I have his address here. You can find him according to this address."

When he heard that the old man lived in Tianshui City, Qin Chuan's eyes lit up and he was secretly happy.

Isn't the treasure location indicated on the treasure map near Tianshui City?...

Chapter 1747

Qin Chuan was worried about not having the chance to go to Tianshui City this time, but he didn't expect the opportunity to come so soon.

After he completed the task of growing vegetables, he stopped by to explore the treasure. He didn't know what good things there were in the treasure."

Thinking of this, Qin Chuan was very excited, but he pretended to frown on his face.

"Deputy Chief Instructor, Tianshui City is far away from Shenyang City! It takes about a month to go back and forth, which may be a bit tight."

Of course the deputy chief instructor heard what Qin Chuan meant and immediately said with a smile

"Don't worry, kid! The time given to you for this mission is three months. After three months, you must return to the Zhou family. That should be enough time, right?"

Qin Chuan was overjoyed:"That's enough!" Of course that's enough!"

In the past, Qin Chuan could not leave the reserve guard camp for a long time without orders. Now with this mission, Qin Chuan can go out and hang out openly for three months.

These three months are very precious to Qin Chuan..

Because he doesn't have to worry about Mr. Zhou's revenge at any time, and can avoid meeting Lin Yue, and it also allows him to practice with peace of mind.

Qin Chuan believes that in this three months, he will be able to break through the fire energy.

"Boy, do you have any questions?"

"there is none left!"

"Get it! This is the token. As soon as the old man sees this token, he will naturally know that you were sent there by me."

The token was an envelope. There was only a piece of white paper in the envelope. There was a drop of dried blood on the white paper, and there was nothing else.

Although Qin Chuan was full of doubts about the token, he still took it seriously. stand up

"This is the old man's address written here. You should also keep it! Boy, when are you going to leave?"

"The boy is leaving today! only...."

Qin Chuan suddenly wrinkled his face with a frown, wanting to say something but feeling a little embarrassed.

Seeing his appearance, the deputy chief instructor was surprised and said:"Little guy, what else do you want? If you have anything, just say it!"

"hey-hey!! It's like this. I've been a little tight lately and I've basically spent all my money. I'd like to ask the deputy chief instructor to borrow some money first. I wonder if it's convenient for the deputy chief instructor?"

Hearing this, the deputy chief instructor suddenly felt dumbfounded.

"How come you are so miserable that you have to borrow money to survive? That's all! Here are 3,000 gold coins, so this instructor will advance part of your mission reward! Qin

Chuan was overjoyed, took the gold coin, and said gratefully:"Thank you so much, deputy chief instructor. I will definitely complete this mission successfully!"

Then, Qin Chuan said goodbye to the deputy chief instructor and left.

After Qin Chuan left, Deacon Qin walked out from the back of the hall.

"Brother, what do you think my father will think after seeing Qin Chuan?"

"I don't know this, but at least one thing I'm sure of is that my father will definitely teach this child how to grow vegetables!"

"Brother, when we were young, we both grew vegetables a lot!"

"Ha ha!! Do you still remember those things?"

Both of them had knowing smiles on their faces.

However, Qin Chuan said that after leaving the deputy chief instructor's residence, he went back to pack some clothes.

He now has the space of the God of War, and it is easy to carry some sundries and other things, so he doesn't have to worry about things. There are so many, I just worry about forgetting something.

While sorting out his things, Qin Chuan saw the "Insect Repellent Notes" and a few bottles of spiritual insect eggs in the space, and thought that he had almost forgotten this.

This deworming technique seems to be quite good. It's practical. I'll learn it when I get a chance. It's a pity that I'm too busy practicing now and don't have time to be distracted in this area!

After thinking for a while, Qin Chuan put away the "Insect Repellent Notes" again.

Then, Qin Chuan Chuan went to the market and spent more than 2,000 gold coins to buy five or six bottles of small Juyuan Dan.

These small Juyuan Dan were naturally prepared for the earth element.

As for the other three elements, Qin Chuan did not need to go there for the time being. What kind of elixir should I buy?

At this point, Qin Chuan will only have a few hundred gold coins left..

Chapter 1748

These few hundred gold coins should be barely enough for him to travel to Tianshui City and back, right?

Qin Chuan was calculating in his mind.

Now in Qin Chuan's mind, as long as he has money, he wants to buy pills to improve his cultivation.

Cultivation has been placed first in his life, and before he knew it, he had turned into a little martial arts fanatic.

After making these preparations, Qinchuan was ready to march towards Tianshui City.

Shenyan City and Tianshuicheng are more than a thousand miles apart.

Qin Chuan rushed on the road with all his strength, and it would take more than ten days to reach Tianshui City.

During these ten days, he had no way to practice.

For someone like Qin Chuan who is crazy about martial arts, he is not willing to waste a little time on training.

Outside the south gate of Shenyan City, there is a large inn.

Every day, there are many caravans stationed at this inn.

Most of these caravans are going to other cities, and naturally some are going to Tianshui City.

These temporarily stationed caravans usually recruit some casual warriors to join the team to strengthen the defense force on the road.

After all, the journey is long, and robbers are often encountered along the way. It is difficult to pass through with enough guard force.

So Qin Chuan decided that he would follow the caravan.

When Qinchuan arrived at the inn, the inns near the inn were already full of businessmen, and it was a prosperous scene.

There are also many caravans who have put up signs recruiting casual cultivators nearby.

Qin Chuan walked around the recruitment office.

He found that large caravans would have one or two third-level warriors in charge, while medium-sized caravans would have second-level Great Circle warriors in charge, and small caravans would mostly be led by first-level warriors.

Qin Chuan thought for a while and finally decided to choose a medium-sized caravan.

With his current strength, he is not afraid of third-level warriors, unless he encounters third-level Dzigchen warriors.

Qin Chuan did not want to choose a caravan that was beyond his control, so he did not choose a large caravan, but only a medium-sized caravan.

The medium-sized caravan can be staffed by at most second-level Dzigchen warriors.

Defeating the second-level Dzigchen warrior was no suspense for Qin Chuan.

In the tea shed east of the inn, there is a medium-sized caravan recruiting casual warriors who have passed by.

In the recruitment office, a fat middle-aged man with a greasy face was sitting at a table. He looked like a businessman at first glance. There was also a middle-aged man with a dark face sitting next to him.

Qin Chuan's expression changed slightly when he saw the black-faced man. It turned out that this middle-aged man was actually a second-level warrior.

A large sign recruiting casual warriors was placed next to the two.

The sign read: The Qian family caravan is recruiting warriors.

Destination: Tianshui City.

Recruitment price: first-level senior warrior: 500 gold coins; first-level intermediate warrior: 200 gold coins; first-level junior warrior: 100 gold coins.

Qin Chuan looked at it for a while and thought it was pretty good, so he walked over.

"Are you recruiting warriors here? Qin Chuan asked

"good! Young man, we are here to recruit first-level warriors and above. Have you achieved your level of cultivation?"

The obese businessman reminded kindly.

In his opinion, Qin Chuan is only thirteen or fourteen years old. Although he carries two swords and looks like a warrior, at this age, he is at most a quasi-martial artist.

Qin Chuan slightly He smiled and was about to speak when the middle-aged man beside him let out a startled sound. He seemed to have noticed Qin Chuan's cultivation level, and his eyes showed surprise.

Of course, the obese businessman noticed the middle-aged man's abnormality and asked,"Captain Liu." , is there anything wrong?

Captain Liu shook his head and said with a smile:"There is nothing wrong!" It's just that the little brother in front of him is already at the first level of advanced cultivation at such a young age, which makes Liu even more surprised."

Hearing this, the fat businessman opened his mouth in surprise and looked at Qin Chuan in disbelief..

Chapter 1749

"Captain Liu, do you think this little brother is actually a first-level senior warrior? Did you read that correctly? This brother is only thirteen or fourteen years old!"

"Ha ha!! Boss Qian, of course Liu is right, but you are wrong this time. Even though this little brother is young, his cultivation is indeed at the first level. However, I don't blame Boss Qian for not believing it, even I can't believe it!"

After hearing this, Boss Qian was convinced that Qin Chuan was really a first-level senior warrior, and his attitude immediately became much more polite.

"Ha ha!! It turns out that my little brother is actually a first-level high-level warrior. He is truly a hero from a young age! Qian really made a mistake, I hope my little brother won't be offended! Little brother, are you here to recruit our caravan escort team?"

"good!"

"Ha ha!! Qian very much welcomes masters like my little brother to join me. I am the boss of the Qian family caravan, and next to me is Captain Liu of the Qian family caravan. I wonder what your little brother's last name is?"

"Boy Wang Yue, Boss Qian, there is no need to be polite, just call me by my real name!"

Qin Chuan did not use his real name.

"Ha ha!! It turns out to be Brother Wang Yue. I wonder if Brother Wang Yue has any objections to the above recruitment price? Qin

Chuan glanced at the price and said with a smile, "Do you have any opinions?" Hearing this

, Boss Qian said with a grimace: "Brother Wang Yue, business is sluggish now, and the price we pay is already quite high. I wonder if I can raise the price a little less?"

Hearing this, Qin Chuan knew that Boss Qian had misunderstood him.

"Boss Qian, my opinion is that I will not charge you a retainer and will escort you for free, but I have one condition?"

"What conditions?"

"The condition is that you just need to give me an empty carriage!"

"Ha ha!! This request is no problem!"

Boss Qian was overjoyed when he heard that Qin Chuan's request was so simple.

He didn't expect to recruit a first-level senior warrior with such a simple request. It was such a good deal. He felt as if he had made a big deal, and he was even more interested in Qin Chuan. They became enthusiastic.

The two reached an agreement on this. Next, Qin Chuan was arranged to stay at the inn where the Qian family's caravan stayed, preparing to set off early the next morning. Only after joining the caravan did Qin Chuan know that the money There are more than sixty people in the family caravan, of which about twenty are merchant guards. Among them, Captain Liu is the second-level warrior, and there are only three first-level senior warriors including Qin Chuan. In fact, this Qian family merchant Not all of the caravan is from the Qian family, there are also some small traders who have paid to join the caravan in order to get some protection on the road.

At the speed of ordinary caravans, it will take at least half a month to get from Shenyang City to Tianshui City. , it is much slower than Qin Chuan traveling on his own.

But Qin Chuan still chooses to join the caravan, because this way he can sit in the carriage and practice all the time, and can ignore other things, so that the time on the road can also be used in practice Go on, there will be no waste.

Early the next morning, the Qian family caravan set off on time.

But at this moment, the caravan suddenly added two small merchants. These two people claimed to be from Tianshui City to do cloth business. Now follow the team back to Tianshui City.

The two men paid some money, and Boss Qian agreed for them to join.

At first, Qin Chuan didn't pay attention to these two people.

But when he heard one of the men speaking, he suddenly He felt that the voice sounded familiar, and after thinking for a while, he remembered that the middle-aged man was the man who was called the third child in box No. 7 when he was bidding for the Ice Sword at the auction that day.

At that moment, Qin Chuan looked at the man After paying a little more attention and observing carefully in secret for a while, Qin Chuan discovered that this man was actually a second-level Dzogchen warrior. Another middle-aged man who came with him was also a second-level Dzogchen warrior.

"Huh! It's really strange. These two people are both second-level Dzogchen warriors. Why do they pretend to be merchants and sneak into the caravan?"

Thinking of this, Qin Chuan paid more attention.

If he had something to do, he would eavesdrop on the conversation between the two. With his abnormal hearing, no news could escape his ears..

Chapter 1750

Next, the caravan officially set off.

What made Qin Chuan a little disappointed was that the two men had remained silent since joining the caravan, which made Qin Chuan unclear about their intentions.

Qin Chuan simply ignored them and continued to start his own cultivation plan.

In this way, the caravan traveled for sixteen days and was only two days away from Tianshui City.

During these sixteen days, everything was calm and no robbers were encountered.

During these sixteen days, Qin Chuan hid in the carriage to practice during the day and practiced in the inn at night, which did not delay his practice.

After half a month of hard training, Qin Chuan clearly felt that Huo Yuanqi was one step closer to a breakthrough.

However, what troubled him was that with the help of a large number of pills, his earth energy was still progressing slowly, and he didn't know when he would be able to break through to the level of a high-level quasi-warrior.

Perhaps they were approaching Tianshui City, and the two mysterious men that Qin Chuan had been paying close attention to finally spoke.

But that night, the caravan stopped in a place called Molin Town.

After entering the inn, Qin Chuan chose to stay next door to the two of them as usual.

After dinner, Qin Chuan closed his eyes and meditated as usual, preparing to start practicing, but at this moment there was a voice from next door

"Third child, we will arrive at Tianshui City in two days. We can finally breathe a sigh of relief."

"yes! This journey has made me nervous. However, we are about to arrive at Tianshui City now, so there is no need to worry too much."

The man who spoke was the third son Qin Chuan met at the auction.

"I don't think anyone in the Li family would have thought that we would disguise ourselves as ordinary people and enter the caravan to escape!"

"Ha ha!! This is all thanks to your idea, Fourth, otherwise it wouldn't have been easy for us to escape!"

However, thanks to the incense master for helping us lure them away, otherwise it would not be easy for us to escape! I don't know what the situation is like for the incense owner now?"

"Third brother, you don't have to worry, Xiangzhu is a third-order Dzogchen warrior, so it's no problem to get rid of those people."

"That's true, but this time we came to Shenyang City and gained a lot! The bottle of 'Ten Thousand Years Ice Heart Liquid' stolen from the Li family this time is worth at least one million gold coins! quack!!"

"hehe! As long as it is something that our Heavenly Thieves Gang likes, how can it escape from our hands!"

Hearing this, Qin Chuan seemed to understand something.

It turned out that these two people were from a gang called the 'Tian Pirates Gang'. Just by listening to the name, you knew that this was a gang whose main purpose was theft.

I don't know how their people got it. When the Li family heard about the 'Ten Thousand Years Bingxin Liquid', they rushed to Shenyang City to steal it.

There were about three people who came, and the other one was the missing incense owner.

At this time, another voice came from the next door. Voice

"The Li family is just a small family in Shenyang City. This loss is extremely painful for them!"

"Why! You said that this 'Ten Thousand Years Ice Heart Liquid' is a treasure for us water warriors! The Li family are all fire warriors, what's the use of this 'Ten Thousand Years Ice Heart Liquid'? It's simply a waste, you might as well give it to us and make the best use of it!"

"yes! I heard that taking a drop of Ten Thousand Years Ice Heart Liquid can allow a second-level Dzogchen warrior to briefly realize the spirituality of ice. There is a 30% chance that a second-level Dzogchen water warrior can break through to the third level."

"Not to mention the second-level Dzogchen, even if it is a third-level Dzogchen warrior, it will be helpful to a certain extent to break through to the fourth level! I heard it can increase the chance of breakthrough by 10%. This Ten Thousand Years Bingxin Liquid is indeed a good thing!"..
