

God level 1751

Chapter 1751

"yes! I have been stuck in the second level of Dzogchen for five or six years. If I go back and take one drop this time, I might be able to break through. By then.....Ha ha!!"

"Stop talking about you, I've been stuck in the second level of Dzogchen for eight years and still haven't been able to break through. I'll rely on it this time."

"I think there are at least twelve or three drops in this bottle. Any drop is worth one hundred thousand gold coins! I think, based on our contribution this time, the incense owner will definitely reward each of us with a drop."

"of course!"

Hearing this, Qin Chuan was also very tempted by the Ten Thousand Years Ice Heart Liquid. At present, his water energy is still at the second level of Dzogchen. He wants to break through to the third level, but it is far away.

From the second level of Dzogchen to the The third level is very difficult, and some people even stay stuck at this bottleneck their entire lives and cannot break through.

This is because if you want to break through from the second level to the third level, you need not only talent, but more importantly, understanding.

Only If you understand a certain characteristic of an element, and then integrate this characteristic and this understanding into your own vitality, and let your own vitality produce spirituality, it is considered an advancement.

For example, water, water is the most changeable, and different people feel it They are different, and the characteristics they comprehend are also different.

For example: some people comprehend fog, some are ice, and some are water in its natural state.

However, among all the essential characteristics of water, the characteristics of ice are the breaking
The most powerful one.

The Ten Thousand Years Ice Heart Liquid is to deepen the water warrior's understanding of the essential characteristics of 'ice', which is also an understanding close to the soul level. The deepening of this understanding also increases the chance of breakthrough.

I didn't expect that this Ten Thousand Years Ice Heart Liquid has such wonderful effects. It is really a good thing!

Hearing this, even Qin Chuan was excited.

How difficult it is to break through from the second level of Dzogchen to the third level, although Qin Chuan doesn't quite understand yet. But he knew from the conversation between the two just now that it must be very difficult.

Because of these two people, one has not broken through the bottleneck for five or six years, and the other has not broken through the bottleneck for eight years.

Qin Chuan also doesn't know. In cultivation, he didn't know how long it would take to break through the water energy to the third level.

At this time, the conversation between the two people came from next door.

"This time we went to Shenyang City. Although we gained a lot, we also had a little regret!"

The man who spoke was the man named Lao San.

"Lao San, are you talking about the time when you and Xiangzhu went to bid for the Ice Sword?"

"yes! We finally came across a water-based spiritual weapon, but that day we met an old immortal who threatened us, forcing us to give up!"

"snort! That old immortal is really too deceptive!"

"What do you think? I really want to kill him now! That old immortal is so immoral!"

Then, the two began to complain and curse the 'old immortal', and even greeted the 'old immortal' family several times.

Qin Chuan, who was next door, heard the two scoldings and his face turned blue and white with anger. Yes.

Anyone who hears others scolding them behind their backs will not feel good.

Huh! You two thieves, when you stole other people's things, why didn't you think about your own morals?

Now you are saying that I am a master. There is no morality.

Then I will treat others in their own way.

Tonight, I will steal your bottle of 'Ten Thousand Years Ice Heart Liquid' as compensation for your disrespect to me."

Thinking of this, Qin An evil smile appeared on Chuan's lips.

He was not a kind person to begin with, and these two people had offended him. Even if they had not offended him, Qin Chuan could not resist the temptation of the 'Ten Thousand Years Ice Heart Liquid' and wanted to steal it.

With a plan in mind, Qin Chuan went to sleep after finishing practicing.

He slept until late at night. In the dead of night, Qin Chuan sneaked into the next room with ease and started stealing.

This was not the first time he had done this, and he no longer felt as uneasy as the first time.

Moreover, these two people are not as strong as him.

It didn't take long for Qin Chuan to successfully steal the bottle of Ten Thousand Years Ice Heart Liquid based on the location determined by his previous hearing.

Although there was a thick porcelain bottle between them, Qin Chuan could still feel a biting coldness when holding it in his hand.

After quickly putting the Wannian Bingxin Liquid into the War God Order space, Qin Chuan exited the room and escaped overnight.

He knew he couldn't stay in this place any longer. In fact, he really wanted to see what the two people's expressions would be like when they found out that the Wannian Xuanbing Liquid was lost.

Perhaps, the two of them never expected that they had been thieves all their lives, but today they fell into the hands of thieves..

Chapter 1752

However, it was said that after Qin Chuan escaped from the inn overnight, he ran towards Tianshui City. However, he did not choose to follow the official road, but took a shortcut and went directly over the mountains.

It wasn't until dawn that Qin Chuan found a cave in a valley.

After moving a huge stone to block the entrance of the cave, Qin Chuan took out the bottle of ten thousand years of ice heart liquid. As soon as he opened the lid, an astonishing cold air emitted from the bottle, and the temperature of the entire cave dropped sharply.

With Qin Chuan's physical condition, he couldn't help but shudder.

What a strong chill! This thing is truly a wonder.

I heard that just one drop of Wan Nian Bing Xin Liquid can increase the chance of a breakthrough by 30% for a second-level water type Dzogchen warrior. Isn't this just suitable for me to use now?

It looks like there are at least twelve or thirteen drops in this bottle. Why don't I take one drop first to test the effect."

Thinking of this, Qin Chuan's eyes shone with excitement.

Although his water talent has reached the level of a genius, it will take at least two or three years to break through from the second level of Dzogchen to the third level according to normal methods. Time.

Now that he has the Ten Thousand Years Bingxin Liquid, it can help him greatly shorten the breakthrough time.

Qin Chuan carefully poured out a drop of Wannian Bingxin Liquid and took it.

However, what surprised Qin Chuan was that the drop of Wannian Bingxin Liquid As soon as Nian Bingxin Liquid entered the mouth, it turned into a warm air flow and flowed directly into the Qi Sea. It was not as cold as he imagined.

After the warm air flow entered the Qi Sea, it merged into the water energy cyclone, and immediately a stream of air came from the depths of the soul. The chill in his body quickly spread from the inside to the outside.

Qin Chuan felt that the blood flow in his internal organs seemed to be frozen in an instant. Everything stopped flowing, even his heartbeat stopped.

A thin layer of thin film formed in his body strangely. Bing, life seems to have stopped at this moment, and everything has reached a state of shock.

But in this state, Qin Chuan's brain is very clear, and he feels as if his body has turned into nothingness, and his soul has transcended. The restraints of his body merged into the world.

He seemed to feel the call and touch of the ice spirit between heaven and earth. The feeling was very kind and comfortable.

However, Qin Chuan felt that there seemed to be a layer of separation in the middle, which made him clearly He felt it, but couldn't touch the other person.

He vaguely felt that as long as he broke this barrier, he would be able to break through to the third level.

However, no matter how hard he tried, he just couldn't touch the barrier, but The diaphragm seemed to exist in front of him, but he couldn't touch it.

Time passed minute by minute, and three hours passed before he knew it.

The thin ice on Qin Chuan's body gradually melted, and the coldness on his body gradually dissipated. , the originally calm water energy in the air slowly poured into his body.

After a long time, Qin Chuan slowly opened his eyes, his face full of aftertaste.

This Ten Thousand Years Ice Heart Liquid is indeed magical!

The previous realization was really It's wonderful!

It's a pity that he still failed to break through!"

This time, Qin Chuan did not break through after taking a drop of Wannian Bingxin Liquid.

He has just reached the second level of Dzogchen and is not very solid at all. It will definitely be much more difficult to break through this bottleneck than those second level Dzogchen warriors who have stayed at this level for many years.

However, although Qin Chuan failed to break through this time, his water energy, which had stopped increasing, finally increased again, and his realm foundation became more solid.

Qin Chuan is quite satisfied with such a harvest.....

Since one drop cannot make him break through, he will take another drop. Anyway, there is still a lot of Wannian Bingxin Liquid in this bottle.

At that moment, Qin Chuan took another drop and felt the mysterious feeling again.

For such a precious thing as the Ten Thousand Years Bingxin Liquid, ordinary warriors would shed tears of gratitude if they could get even a drop of it.

Even if you take the breakthrough, you have to wait until the realm is completely consolidated before taking it, otherwise it will be a bit of a waste.

Then there are people like Qin Chuan who started taking it not long after he broke through to the second level of Dzogchen?

It is simply the ultimate luxury!..

Chapter 1753

However, it would take a year or two for even a few warriors with genius qualifications to completely consolidate their realm. Even if Qin Chuan knew the stakes involved, he would choose to take it on the spot.

The most precious thing for him now is time, not money.

As long as it is any method that can help him improve his cultivation as soon as possible, he will try it.

Because he knows very well that only with absolute strength can he have everything!

Improve your own strength as soon as possible and let yourself reach the pinnacle of martial arts. Only then will you be qualified to control everything.

Everything in front of him is just a stepping stone on his way to the top, there is nothing to regret.

Three days later, Qin Chuan walked out of the cave again.

Looking at the wild flowers all over the mountains and the colorful butterflies flying in the forest, Qin Chuan was in a good mood.

Unfortunately, time passed too quickly. Three days passed in a flash. He still had a mission and could not delay here any longer."

Qin Chuan felt a little regretful.

In the past three days, he had taken five drops of Wannian Bingxin Liquid. Every time he took it, his realm was strengthened and his strength increased. His understanding has deepened.

Qin Chuan can feel that as long as he is given a few more days and takes a few drops of Wannian Bingxin Liquid, he will definitely be able to break through to the third level, but time does not allow it.

He must Find the old man the deputy chief instructor mentioned as soon as possible.

In addition to accompanying the old man to grow vegetables for a period of time, he also has to find those treasures, so he cannot delay too long.

Although he took five drops of Wannian Bingxin Liquid, Qin Chuan has not been able to break through, but his realm has been completely consolidated, and his water energy has reached the peak of the second level of perfection and his strength has increased a lot.

However, the biggest change in this process is that Qin Chuan's water energy has also changed. A big mutation, with a strong ice-cold attribute.

Qinchuan's water energy once had a subtle mutation in the cold pool, but the mutation was not obvious at that time.

Now after taking five drops of Wannian Bingxin Liquid continuously , gave him a very deep understanding of the spirituality of ice, and his water energy also had a strong cold attribute.

Qin Chuan was secretly happy about such a change.

Water energy is the most changeable among the five elements. Yes, the characteristics of ice are only one of them, but it is the most destructive form.

The mutation of Qinchuan's water energy, combined with the ice sword in his hand, is a perfect match, which also makes him stronger than ordinary water warriors. More offensive power.

One day later, a slender figure with two swords on his back appeared in Tianshui City.

This young man looked to be only fourteen or fifteen years old, but his temperament was slightly evil, and his chiseled face had a pair of big eyes. His eyes are as dark as stars, giving people a feeling of spirituality.

This spirituality and the evil spirit on his body do not give people a feeling of conflict with each other. Instead, they form his unique temperament, making people feel that he has a kind of evil spirit. Qin

Chuan was walking alone on the street, and many passers-by turned their heads along the way, especially those girls aged fourteen or fifteen, who seemed to be very interested in and curious about Qin Chuan, and couldn't help but take a few more glances..

Qin Chuan turned a blind eye to these.

After walking around the street for a while, Qin Chuan couldn't help but sigh.

This Tianshui City deserves to be one of the ten largest cities in Dakun Kingdom!

It is even more prosperous than Shenyang City!

In fact, Tianshui City Shuicheng is one of the ten largest cities in Dakun Kingdom, ranking eighth, ranking higher than Shenyang City.

Shenyang City ranks last among the ten largest cities.

The strength pattern of Tianshui City is completely different from Shenyang City.

Shenyang City Yan City is an alliance formed by four major families to jointly govern Shenyang City.

However, Tianshui City is a single family and is governed by the 'Tianshui School'. The rest of the small and medium-sized forces are all affiliated forces of the Tianshui School...

Chapter 1754

Shenyan City is an alliance formed by four major families to jointly manage Shenyan City.

But this Tianshui City is dominated by a single family, governed by the 'Tianshui School', and the rest of the small and medium-sized forces are all affiliated forces of the Tianshui School.

Tianshui School is divided into two schools: inner and outer.

The inner court is full of elites, and this is where the real strength of the Tianshui School lies.

The outer courtyard is open to the outside world in the form of a college.

As long as you can afford the tuition, no matter who you are, no matter what your status is, no matter where you come from, you can become a member of the outer college.

And you can learn various martial arts and techniques from there.

Every year, the Tianshui School will conduct an extremely strict assessment for students in the outer courtyard. As long as you can pass the assessment, you can become a disciple of the inner courtyard, that is, become a true member of the Tianshui School.

Qin Chuan did not stay in Tianshui City for long. He was just curious and walked around Tianshui City.

After satisfying his curiosity, Qin Chuan left the city and went directly to find the old gentleman mentioned by the deputy chief instructor.

Dakeng Village is a remote small village, only about seventy or eighty miles away from Tianshui City.

The villagers here make a living by growing vegetables.

Most of the vegetables they grow will be sold to Tianshui City.

Qin Chuan came to Dakeng Village according to the address given by the deputy chief instructor.

At the entrance of the village, several children who were playing looked at Qin Chuan curiously.

"Excuse me, do you know where Mr. Cai lives?"

The old Mr. Cai in Qin Chuan's mouth is naturally the old man mentioned by the deputy chief instructor.

When Qin Chuan heard the deputy chief instructor say that the old man's surname was 'Cai', he always felt a little strange.

"Big brother, are you talking about Mr. Cai?"

The person who spoke was a little village boy with a tough head and a tough brain.

"Um! Are there many people named Cai in your village?"

Qin Chuan is not sure whether the person he is looking for is that old man.

"There is only one person named Cai in our village."

The little village boy replied seriously.

Qin Chuan smiled and said: "That's him! Little brother, do you know where Mr. Cai lives?"

"I know! He's at the east end of the village. It's easy to find him wherever you go. His family lives there."

"Um! Thank you little brother!"

After bidding farewell to the village boy, Qin Chuan went to the east end of the village to find the 'cai old man'.

When he arrived at the east end of the village, Qin Chuan saw a lonely farmhouse in front of him from a distance. The small courtyard. The courtyard is surrounded by vegetable fields, many places have been planted with green vegetables, and there are also some newly plowed open spaces.

Approaching the small courtyard surrounded by fences, Qin Chuan opened the small wooden door.

In the courtyard, a man with hair The gray old man is scattering millet and feeding the chickens

"Who are you?"

When Qin Chuan came in, the old man had a look of surprise on his face. When

Qin Chuan saw the old man for the first time, he felt an inexplicable sense of intimacy and a sense of déjà vu.

"Young hero, who are you looking for?"

"Are you Mr. Cai?"

"My surname is Cai, didn't you know yours? Qin

Chuan smiled politely and said, "Mr. Cai, I was entrusted by someone to help you fulfill your wish."

"Entrusted by someone? Mr.

Cai Lao seemed to have remembered something and asked: "Young hero, are you coming from Shenyang City?"

"Yes!"

"Did the person you entrusted it to give you a token?"

Hearing this, Qin Chuan took out the envelope as a token.

Mr. Cai took it and opened it. When he saw the dried blood on the white paper, a kind smile suddenly appeared on his face.

"My child, you are finally here. Did your deputy chief instructor tell you that he wanted you to help me grow vegetables for a while?"

"As I said, this is what the kid is here for."

"Ha ha!! My kid, it's been a hard journey, hasn't it? quick! quick! Come inside and sit down! Grandpa will make you something delicious tonight. Hearing the old man's friendly voice, Qin

Chuan felt warm in his heart and shouted casually: "Grandpa Cai, don't bother me. Just eat whatever you want.""

When Mr. Cai heard Qin Chuan call him 'Grandpa Cai', he suddenly beamed and seemed very happy.

"How's that going to work, kid? You have worked so hard to come here, and grandpa will entertain you well no matter what. In the evening, grandpa will kill a chicken for you and let you have a taste of grandpa's craftsmanship."

The old man's enthusiasm warmed Qinchuan's heart, allowing him to find a long-lost feeling, the feeling of home..

Chapter 1755

"Grandpa Cai, you are too polite. Otherwise, I will help you!"

"OK!!"

The old man smiled happily.

In the evening, the old man prepared a table full of sumptuous dishes to entertain Qin Chuan.

Looking at the table full of dishes, Qin Chuan also had a great appetite and started eating without ceremony.

"Children, eat more! This is the chicken that grandpa killed specially for you. Do you like it if you try it?"

The old man put a big chicken leg into Qin Chuan's bowl with a kind smile on his face.

"Grandpa Cai, I came here by myself, and you eat too!"

After getting along for a short time, Qin Chuan experienced a rare warmth.

"Child, are you thirteen years old this year?"

"Huh! Grandpa Cai, how did you know I was thirteen? Qin Chuan said in surprise.

The old man was slightly startled, then smiled and said:"Haha!"! This is what your deputy chief instructor told me."

Hearing this, Qin Chuan was secretly surprised.

Strange, why did the deputy chief instructor tell him this?

"Grandpa Cai, how did you meet our deputy chief instructor?"

The old man laughed and said,"What are you talking about, that little bastard!" When he was a child, his grandfather taught him how to grow vegetables."

Qin Chuan broke into sweat after hearing this.

Unexpectedly, such a wise and powerful deputy chief instructor also had to farm when he was a child.

"Grandpa Cai, why didn't the deputy chief instructor continue growing vegetables?"

"He was too stupid and couldn't grow vegetables well, so his grandfather kicked him out, so he could only become a warrior."

Hearing this, Qin Chuan vomited in his heart.

This vegetable grandpa is too weird! Listening to what he meant, a warrior might as well be a vegetable grower.

"Boy, you and your deputy chief instructor look so much like you when we were kids!"

The old man looked at Qin Chuan with a smile.

"oh? Yeah? I think the difference is quite big. Grandpa Cai, you must be dazzled."

"Ha ha!! Grandpa's eyes are very good, and he didn't look at the flowers."

"If you are not dazzled, it means you don't remember much about the deputy chief instructor when he was a child."

As he said this, Qin Chuan frowned. He felt that he looked nothing like the deputy chief instructor.

"Ha ha!! You kid!"

The old man laughed happily

"Grandpa Cai, why did the deputy chief instructor learn to grow vegetables from you when he was a child?"

"Because he wants to learn martial arts from his grandfather!"

Hearing this, Qin Chuan looked at the old man in surprise. After a while, he still didn't dare to ask with certainty.

"Grandpa Cai, are you also a warrior?"

No matter what Qin Chuan thinks, the old man in front of him is just an ordinary person, and he doesn't look like a warrior.

"Ha ha!! Boy, don't you believe it?"

"I don't believe it!"

The old man smiled, and his body suddenly exuded a faint Mu Yuan Qi.

Feeling the old man's aura, Qin Chuan finally believed it, and at the same time he was very surprised.

This grandpa is really a warrior. I can't even tell that he has hidden cultivation. Because, even the deputy chief instructor has learned martial arts from him, it seems that he must be a hidden master. It seems that the deputy chief instructor asked me to come over and help him grow vegetables, it is not that simple! There must be other motives."

Qin Chuan was a smart person and figured out a lot of things at once.

Originally, he was not very interested in helping the elderly grow vegetables, but now he is very curious.

"Grandpa Cai, when will you teach me how to grow vegetables?"

"My child, you are very smart! Tomorrow, grandpa will teach you tomorrow!"

"OK!"

Qin Chuan said with a smile.

After dinner, Qin Chuan continued to practice hard as usual. This practice lasted until dawn. In the morning, the old man prepared the food and asked Qin Chuan to come out for breakfast.

After breakfast, the old man He began to teach Qin Chuan how to grow vegetables.

Qin Chuan couldn't understand the old man's intention, but he learned very seriously.

The old man also taught Qin Chuan how to loosen the soil, sow seeds, and water water seriously.

He had never enjoyed such a quiet life. Qin Chuan soon enjoyed himself in the pastoral life and integrated himself into this rural life..

Chapter 1756

Having never enjoyed such a peaceful pastoral life, Qin Chuan soon enjoyed himself and integrated himself into this rural life.

"Children, you have to feel this kind of food with your heart. You first have to use your heart to feel how this seed germinates. You will find that it is a very happy thing to see a life from sleeping to sprouting."

After hearing this, Qin Chuan seemed to have some realization.

"Grandpa Cai, how should I feel??"

"Listen carefully! From now on, if you come here every morning to look at this vegetable field and listen to the sound of those seeds sprouting, you will understand."

"oh! I see!"

In the following days,

Qin Chuan watered and planted vegetables with the old man during the day, and continued to practice hard at night.

More than ten days passed in the blink of an eye.

In these ten days, through the assistance of a large number of elixirs and hard practice, Qin Chuan He finally cultivated the earth energy that troubled him to the level of a high-level quasi-warrior.

In the past ten days, the first thing Qin Chuan did when he got up every morning was to go to the vegetable field outside the courtyard to listen to the sound of seeds sprouting.

That In the vegetable field, every vegetable was planted by him personally, and every vegetable was condensed with his sweat.

Therefore, Qin Chuan cared for them as if they were his own children, and looked forward to them sprouting quickly every day. Grow up soon.

The more he looks forward to it, every time Qin Chuan hears the sound of seeds sprouting, he feels a sense of relief in his heart, and feels the satisfaction of getting something for his efforts.

This kind of relief is unknowingly hidden in his heart. In his sleep, he was put into a kind of perception, which is a kind of perception of life, the perception of 'life', which is a very wonderful feeling.

That wonderful feeling is the same as the one that Wannian Bingxin Liquid brought to him in the first place. The feeling was very similar.

It was only at this moment that Qin Chuan understood the meaning of the old man teaching him to grow vegetables.

The old man taught him to grow vegetables to let him understand what 'life' is? Let him understand the spirituality of 'life' of wood energy.

At the same time , Qin Chuan also understood that it turns out that to understand something, you don't need to search for it deliberately. Many things can be understood in the details of life.

For example, this kind of dish can make the human body understand the process of life from scratch..

But that morning, Qin Chuan went to see the vegetable field as usual.

When he arrived at the vegetable field, he was pleasantly surprised to find that there were a few bits of green on the ground that used to be soil.

"Huh! It sprouted! It finally sprouted!"

Qin Chuan looked at the young green seedlings excitedly, and was so happy that it was hard to express.

He closed his eyes gently and felt the joy with his heart.

The moment he closed his eyes, he seemed to feel that the world The vitality of the wood seems to be alive, gently stroking the new green seedlings.

It seems to be slowly nourishing the growth of the seedlings. It is so gentle and caring, just like how I treat these young shoots. It seems they are also looking forward to it

"Is this what life is?"

At this moment, Qin Chuan seemed to understand their inner words, and completely let go of his mind to feel and communicate.

The wood energy seemed to be active, and they had no intention of rejecting him at all. They actually interacted with Qin Chuan's mind melted together.

At this moment, Qin Chuan felt that he was the wood energy, and the wood energy was himself.

Floating between the sky and the earth, wandering on the land, listening to the sound of seeds underground.

Although he was closed eyes, but at this moment, Qin Chuan seemed to see every seed in the ground.

Every seed seemed to be longing for the nourishment of Mu Yuan Qi

"Grow up! Grow up quickly!"

Qin Chuan seemed to be able to understand their voices. He enjoyed commanding the vitality to slowly nourish the seeds.

At this time, a miracle happened. Only a few buds appeared on the vegetable field.

But now, all the seeds in the entire vegetable field are sprouting and breaking out of the ground at a speed visible to the naked eye. It is a collective bloom of life...

Chapter 1757

Outside the fence, the old man looked at all this in great shock, and then a look of surprise appeared in his eyes.

"This kid had an epiphany! Such understanding is really amazing!"

Ahead, Qin Chuan was still enjoying all this with his eyes closed. At this moment, the wood energy in the world seemed to be obeying his orders, nourishing the new buds and growing crazily.

After a long time,

Qin Chuan finally slowed down. He slowly opened his eyes.

When he saw a patch of green vegetable seedlings in front of him, he opened his mouth in surprise.

After a moment, an even more horrified look appeared on his face.

"I...I actually broke through! My Mu Yuan Qi has actually broken through to the third level! This...how is this possible?"

Qin Chuan looked at his sea of energy in disbelief.

He saw that the Mu Yuan cyclone in the sea of qi disappeared, but there was a small green droplet, which contained amazing life energy, which was even more surprising. What's interesting is that this droplet has a kind of spirituality, and that spirituality is like an extension of his own life.

In fact, this small green droplet is the spirit of the natal tree that Qin Chuan condensed after breaking through to the third level.

The natal tree was condensed. After the spirit, Qin Chuan found that he was more able to control the Mu Yuan Qi between heaven and earth, and he was also able to maximize the release of the power of Mu Yuan Qi.

"Is this the third level of agility?"

After a long time, Qin Chuan accepted this unexpected surprise.

"My child, this is the third level of agility."

I don't know when, the old man has walked to Qin Chuan's side.

Qin Chuan looked at the old man in surprise. Just now, he was so obsessed with enlightenment that he didn't even notice that the old man was leaning on him. This is impossible to happen under normal circumstances. thing

"My child, your understanding is higher than your talent!"

The old man smiled gently, with admiration in his eyes.

Breaking through from the second level to the third level requires not only the accumulation of vitality, but also the understanding of the spirituality of the vitality. This requires not only qualifications, but also a certain understanding.

"My child, now that you have made a breakthrough, your mission is accomplished. You can go back and report to your deputy chief instructor."

The old man smiled happily. In fact, he originally just wanted Qin Chuan to understand more about 'life' and touch that layer, but he didn't expect that Qin Chuan not only touched it, but also had an epiphany and directly broke through to the level of cultivation. Level 3.

This result was a big surprise for the old man.

Hearing the old man's words, Qin Chuan's heart moved and he was inexplicably moved. It turned out that the deputy chief instructor asked him to grow vegetables, not to make Grandpa Cai happy, but to make Grandpa Cai happy. He wants Grandpa Cai to teach him.

Why does the deputy chief instructor treat him so well?"

Thinking of this, Qin Chuan felt warm in his heart, full of gratitude to the deputy chief instructor, and at the same time full of doubts.

"My child, you are able to break through to the third level in such a short period of time, I am really surprised!"

"Grandpa Cai, if it weren't for your careful teaching, this kid wouldn't have been able to have an epiphany. Thank you too, kid!"

"Ha ha!! Son, actually it should be grandpa thanking you. For so many years, my grandfather has been alone, always thinking about how nice it would be to have a grandson by my side to accompany me. Why!"

Speaking of this, the old man sighed softly.

Hearing this sigh, Qin Chuan felt an inexplicable pain in his heart.

After getting along with each other these days, he had an innate sense of intimacy with the old man in front of him. Naturally, I don't want him to be sad either.

"Grandpa Cai, if you don't mind it, just treat me as your grandson!"

Hearing this, the old man was greatly relieved, with a complicated look in his eyes.

"Silly boy, grandpa has been treating you as a grandson these days. Son, please stay with grandpa for a few more days. Will report back in a few days!"

"Um! Grandpa, I listen to you"

"Ha ha!! This is like my grandson."

At this time, a warm atmosphere spread around them..

Chapter 1758

Qin Chuan stayed with the old man for a few more days.

In the past few days, the grandfather and grandson were getting along very happily.

The old man also taught Qin Chuan a lot of things intentionally or unintentionally.

Joy is always short-lived, separation does not mean the end.

Three days later, Qin Chuan finally said goodbye to the old man.

In the old man's reluctant eyes, Qin Chuan seemed to understand something, something that gave him a warmth similar to family affection.

Under the setting sun, Qin Chuan waved goodbye to the old man.

Behind the young man, an old man stood quietly. Quietly, quietly, looking at the young man's disappearing back, the man standing in the village said that after Qin Chuan said goodbye to the old man, he set off for Tianshui City again. He wanted to go to Tianshui City again. Go find that treasure.

When he came to Tianshui City for the second time, Qin Chuan first found an inn to stay at.

Qin Chuan reorganized his emotions, woke up from the melancholy parting mood, and took out the treasure map.

According to the treasure location marked on this treasure, the treasure is in the Ten Thousand Beasts Forest area, only more than thirty miles away from Tianshui City.

I just don't know what kind of place this Ten Thousand Beast Forest is.

He planned to find out what kind of place this Ten Thousand Beast Forest was first, and then find the treasure as soon as possible."

Nearly two months have passed since Qin Chuan set off from Shenyan City. There is not much time left for the three-month mission.

The return trip alone will take Qin Chuan all his energy to travel. In these ten days, Qin Chuan only has more than twenty days left, so he must take out those treasures in these twenty days.

Presumably, master and disciple Liu Qian should have entered that treasure, otherwise with his ability as a casual cultivator Identity, how could he have so much money?

There are also Tianleizi and Huo Yanjian. I suspect that these things were obtained from that treasure.

However, there should be other good things hidden in that treasure, otherwise this Liu There is no need for Qian to leave this treasure map.

But what is the reason why they did not loot all the treasures? It seems that it must not be simple here, or it may be that they cannot take away the treasures with their current strength. That's why we couldn't loot all the treasures."

Thinking of this, Qin Chuan couldn't help but feel worried.

With Liu Qian's third-level strength, it would be difficult to take away everything in the treasure. It might be difficult for him to succeed, so he wouldn't come back empty-handed!

After Qin Chuan's Mu Yuan Qi broke through to the third level, his own comprehensive combat power completely reached the third level of Dzogchen.

However, Qin Chuan can also use the battle body to go berserk. After his battle body goes berserk, his comprehensive combat power can be increased by 10%. After the battle body goes berserk, he will be his opponent in the third level of Dzogchen.

Besides, he still has a spiritual weapon in his hand.

Therefore, Qin Chuan now has no fear even if he encounters a third-level Dzogchen warrior.

However, even so, Qin Chuan's strength is not much stronger than that of Liu Qian. It is hard to say whether he can take away the treasures that Liu Qian cannot take away.

No matter what, he must visit this treasure.

After he finished taking the treasure, he rushed back to Shenyang City.

With his current strength, he no longer has to be too afraid of Young Master Zhou's persecution.

At most, Zhou Shao could only find a third-level master to deal with him. Unless Zhou Shao asked his father to take action, he couldn't afford to lose face.

However, he can't sit still and wait for death. He must find a way to get rid of Zhou Shao this time when he goes back. Zhou Shao's survival is always a big hidden danger for him.

Unless you don't want to stay in the Zhou family any longer, you must get rid of Master Zhou.

An invisible murderous aura emanated from Qin Chuan. He was extremely disgusted with Young Master Zhou. The other party had sent people to kill him more than once. This time he returned to the city and it would be his time to fight back...

Chapter 1759

However, Qin Chuan was more worried about Qin Yue and the Monkey King than Zhou Shao.

With his current strength, he is not worthy of mentioning in front of the Monkey King.

Now that Qin Yue and Young Master Zhou are together, it is not known whether the matter of him stealing the drop of Xuanjing jellyfish from Young Master Thursday was revealed.

But even if it hasn't happened yet, if Qin Yue suddenly mentions it that day, Young Master Zhou will know what he did, and he will definitely get to the bottom of it.

When the time comes, he will know that what he gave Qin Yue was not a mysterious jellyfish but a clay ball. Then he will be in trouble.

Thinking of this, Qin Chuan couldn't help but break out in cold sweat.

Nowadays, Qin Chuan is not afraid of Master Zhou's assassination. He is most worried that after Master Zhou learns about it, he will use it as an excuse to settle accounts with him openly. At that time, no matter how strong he is, he will not be able to resist, otherwise Zhao What came was the suppression of the entire Zhou family.

No, this time when he goes back, he must kill Thursday Young Master so that Thursday Young Master will never be able to speak.

However, if you want to kill Mr. Zhou, you must first get close to Mr. Zhou. This will most likely lead to an encounter with Qin Yue. If you meet Qin Yue, the Monkey King will know his whereabouts.

If his whereabouts are exposed, with his current strength, he will only die when facing the Monkey King.

Thinking of this, Qin Chuan frowned and felt worried. After a while, he sighed in his heart.

Why! There are gains and losses. Even if he risks being discovered by the Monkey King, he must get rid of Mr. Thursday first.

After all, it was a big mistake for him to steal the Xuanjing Jellyfish. If Young Master Zhou knew about it, he would no longer need an excuse to deal with him in the future. He would definitely be dead by then.

Even if the Monkey King wanted to kill him, he could only do it secretly.

After all, that was the Zhou family, and the Monkey King also wanted to get the God of War Order in his hand, so he would not kill him easily, so he would still have room to maneuver.

After weighing the pros and cons, Qin Chuan still chose. The first thing he did after returning was to find an opportunity to kill Young Master Zhou.

By the way, what secret is hidden in this God of War Order?

Why does the Monkey King want it so much?

And what the Monkey King said is that this War God Token is the key to going to the War Temple in the ancient ruins?

So what good things are hidden in the War Temple that make the Monkey King so eager to enter?

At this time, Qin Chuan couldn't help but think of the blood-red jade bead in the War God's Order that exuded astonishing evil energy.

As for the blood-red jade bead, Qin Chuan had always figured out what it was.

Forget it, these things are hard to figure out at the moment. What he needs to do most now is to take out the treasure as soon as possible and then improve his strength.

With more strength, he will have more opportunities to protect himself when he meets the Monkey King in the future.

Nowadays, Qin Chuan is most anxious about the breakthrough of Huo Yuanqi.

After months of hard training and accumulation, Qin Chuan's fire energy was approaching the limit of breakthrough.

He had a premonition that the fire energy seemed to be able to break through at any time, just like a thin membrane separated by a thin film. It only took a light touch to break this limit.

For now, all he needs is the right time.

After thinking about his future strategy, Qin Chuan began to make some preparations before exploring the treasure.

He first went to the street to buy some necessary supplies for living in the wild, and also bought a few sets of clothes that could be changed, as well as ropes, hooks, food and water.

Whatever he could think of, he bought it.

In addition, he also bought some coagulation powder and Qingling pill for treating internal injuries.

At this point, Qin Chuan had spent all the gold coins he had on him.

Apart from those items not for sale, the only thing Qin Chuan could sell for money was the bottle of Wannian Bingxin Liquid.

There are still seven or eight drops of the Ten Thousand Years Bingxin Liquid left, which is enough for Qin Chuan to break through the second-level bottleneck. There should be some left, but Qin Chuan doesn't know how many drops he needs to take to break through.

It's just that Qin Chuan is not in a hurry to break through the water energy, so he puts this matter aside for the time being..

After completing these preparations, it was already approaching noon.

After Qin Chuan returned to the inn, he asked the shopkeeper about the situation of Ten Thousand Beasts Forest.

"Shopkeeper, do you know what kind of place the Ten Thousand Beasts Forest is?"

"Young hero, as I know, there are many ferocious beasts in the Ten Thousand Beasts Mountain Forest. It is a place where many warriors hunt ferocious beasts to make money. However, it is also very dangerous there."

"Ordinary warriors will not go in alone. If the young hero wants to hunt some ferocious beasts there to earn some extra money, I would advise the young hero to find someone to go in with him."

"There is a warrior club at the west gate of Tianshui City. Teams of warriors who hunt ferocious beasts often go there to recruit some team members. Young warriors can go there to try their luck."

"Shopkeeper, thank you for letting me know!"

"You're being polite, young hero. This is a well-known thing, so I'm just mentioning it casually. I think Young Hero's accent is not like that of people from Tianshui City. It's no wonder that you don't know much about the situation in Tianshui City."

"If you want to know more about the Ten Thousand Beasts Mountain Forest, you can go to the Warrior Club to inquire. There are also detailed maps of the Ten Thousand Beast Mountain Forest for sale."

"Thank you very much, shopkeeper!"

Farewell to the shopkeeper, Qin Chuan went straight to the warrior club at the west gate. He wanted to inquire about the situation of the Ten Thousand Beasts Forest there and buy a map. At the west gate of Tianshui City, there was a large building with many warriors entering from it. In and out.

This is the warrior club in Tianshui City.

In fact, most of these warrior clubs are gathering places for low-level warriors.

Because low-level warriors who want to hunt ferocious beasts alone are not strong enough and can easily endanger their lives, low-level warriors When high-level warriors want to hunt ferocious beasts, most of them form a small team of seven or eight people to hunt.

This warrior club provides a place for these low-level warriors to form groups and communicate.

Although there are similar places in Shenyang City, Qinchuan I have never been there before.

It was the first time for Qin Chuan to enter this kind of place.

When he came to the entrance of the warrior club, Qin Chuan found that most of the warriors coming in and out were first-level warriors, and there were very few second-level warriors. As for the third-level warriors, Qin Chuan still No one was found.

Seeing this, Qin Chuan used the Breath Condensation Technique to hide his cultivation, and he looked like he was just a first-level senior warrior.

Then, Qin Chuan paid an admission fee of one gold coin and entered the warrior club. Hall.

After entering, Qin Chuan discovered that it was very large. The first floor was a leisure recruitment hall, which was convenient for warriors from all parties to rest and recruit team members. There were private rooms on the second floor, which were used to facilitate transactions between warriors.

Qin Chuan Glancing at the hall, there were dozens of tables inside. There were already many warriors in the hall. Most of these warriors were first-level warriors. Occasionally, a few second-level warriors could be seen. As soon as

Qin Chuan entered the hall, he naturally aroused unease. Few people paid attention.

Not long after he sat down, a rough-looking young warrior came over from the table next to him.

This young warrior was actually a second-level warrior.

"I'm Wang Meng, the captain of the Tiger and Wolf Squadron. I wonder what your little brother's surname is?"

"Captain Wang is very polite. My surname is Qin, and my name is Chuan. Qin

Chuan replied with a smile.

"Ha ha! It turned out to be little brother Qin Chuan. Brother Qinchuan, I see that you are not very old, but your cultivation is quite good! Are you going to the Ten Thousand Beasts Forest to hunt ferocious beasts?"

"Yes!"

"I wonder if you have joined the team?"

"Not yet!"

Hearing this, Wang Meng's eyes showed joy and he said enthusiastically

"Then little brother Qinchuan, why not join our Tiger Wolf Squad? The strength of our Tiger Wolf Squad is quite famous in this circle."

"Except for the captain below who is a second-level warrior, the rest of the permanent members are all first-level senior warriors. The temporary members we recruit are all first-level senior warriors or above. I wonder if little brother Qin Chuan is interested in joining us?"..
