

God level 1771

Chapter 1771

Later, he discovered that there were many fingerprints left on the gate, and there were even traces of sword attacks. They thought they were left by master Liu Qian and his disciples, but they still failed to open the gate after all.

Even Liu Qian couldn't open this gate. It seems that it is not easy to open it!

Thinking of this, Qin Chuan took a deep breath, inserted his hands into the crack of the door, and began to use force to pull up the gate.

"Give it to me!"

Qin Chuan shouted loudly, his muscles all over his body swelled, and veins popped out on his forehead. The whole gate also made a dull sound of "Creak! Creak!".

The iron gate was slowly lifted by Qin Chuan half a foot, but After raising it to half a foot, Qin Chuan's little face turned red from suppressing it, but he could no longer move.

Qin Chuan let go of his hands, and the iron gate suddenly closed again

"call! This iron gate is really difficult to open! It seems that the strength is still a little lacking!"

Qin Chuan was breathing heavily, and his forehead was covered with sweat.

In just a short moment, he had exhausted a lot of energy.

No wonder Liu Qian couldn't open the door. Liu Qian is a third-level warrior.

He His strength has now reached the edge of the third level of perfection, but he can only open it one foot. Liu Qian can't even do it. It seems that he can only use the battle body to go crazy.

Thinking of this, Qin Chuan used the battle body to go crazy. , immediately transformed into the look of a murderous god with white hair and red eyes, and his whole aura suddenly increased.

This time, Qin Chuan finally raised the gate.

Knock! Squeak! Squeak! Squeak!.....

The dull sound of iron chains twisting kept echoing in the cave.

Card!

With a clear sound, the gate was finally fully opened by Qin Chuan.

A passage appeared in front of Qin Chuan, and not far ahead was a stone house.

It's finally open!

Qin Chuan was so happy that he released the mad transformation of his fighting body, walked in, and walked directly towards the stone house.

Pushing open the stone door, Qin Chuan entered and saw an old man with gray hair sitting cross-legged in the center of the stone house.

At this moment, the old man was looking at him with a pair of white teeth and a sneer.

That smile was so captivating that even a brave man like Qin Chuan was so frightened that his hair stood up, his scalp felt numb, and he almost turned around and ran away.

However, Qin Chuan soon realized that something was wrong, because although the old man opposite had a lifelike face, he had no breathing for a long time and had obviously been dead for a long time.

But what surprised Qin Chuan was that a blood-red jade bead was floating above the old man's head, emitting a heart-stopping red light.

Qin Chuan felt very familiar with the blood-red jade bead as soon as he saw it. This blood-red jade bead was exactly the same as the blood-red jade bead in the space of the God of War Order.

These two blood red jade beads are exactly the same. Is there any connection between them?"

Qin Chuan was curious, and boldly walked towards the old man's body and grabbed the blood-red jade bead suspended in the air. As soon as the blood-red jade bead entered Qin Chuan's hand, it automatically converged its red light and became exactly the same as the blood-red jade bead in the God of War's order space.

But At this moment, a scene that surprised Qin Chuan happened.

When Qin Chuan took away the blood-red jade bead, the old man's body turned into a handful of dust.

Qin Chuan was stunned and looked at everything in front of him in disbelief..

Is it because of this jade bead that the senior's body has been well preserved?

Now that the jade bead has been taken away by him, the senior's body has turned into dust.

Hey! If this is the case, then he is guilty."

Then. , Qin Chuan took a closer look at the blood-red jade bead, and finally determined that the blood-red jade bead was exactly the same as the one in his God of War Order space.

But Qin Chuan didn't know what the blood red jade bead was, so he simply put it into the God of War Order space..

Chapter 1772

Next, Qin Chuan looked at the stone house and began to rummage inside.

This stone house is not very spacious. In addition to an alchemy furnace in the center of the stone house, there is also a bookshelf on the side.

In addition to a few books on the bookshelf, there are also several small porcelain bottles sealed with wax.

Soon, Qin Chuan looked around.

Except for some medicine residue left in the alchemy furnace, all the books on the bookshelf are about alchemy, and there is also a notebook about alchemy.

Obviously, the owner of this secret room used to be an alchemist.

Although Qin Chuan did not know how to make alchemy, he still collected all those books into the God of War Order space, which might be useful in the future.

Especially the notebook about alchemy, even if he doesn't need it, he can still give it to Yuyao and Xiao Xiang'er in the future.

Apart from these, Qinchuan's only gain was the three small porcelain bottles sealed with wax.

Among the three small porcelain bottles, one bottle contained three Awakening Pills, another bottle contained three Qihuang Pills, and the last bottle only contained one crystal clear pill, which was the 'Bingxin Pill'.

Needless to say, the effect of the Awakening Pill is that Naqi Huangdan is more valuable than the Awakening Pill. It is a middle-grade elixir that can bring people with severe internal injuries back to life. One pill is worth at least seven to eight thousand gold coins.

Bingxin Dan is a detoxifying pill, and its value is equivalent to Qihuang Dan.

The pill exudes a faint fragrance.

These three Qihuang Pills are pretty good, but they may not be of great use in the future.

This 'Bingxin Pill' is also good. It is a holy product among detoxification pills. It can detoxify hundreds of poisons. It is also useful if you keep it.

However, with such a big secret room, is that all the baby needs?

Qin Chuan searched around the bookshelf again and found that except for the three small medicine bottles, there was nothing else.

These shouldn't be the only things!

Qin Chuan had an intuition. He always felt that there must be something else in this house, but he just didn't find it.

This intuition mainly comes from the blood-red jade bead.

Although Qin Chuan didn't know what the blood-red jade bead was, he was sure that it must be very precious and related to the ancient war temple.

Since this blood-red jade bead is related to the ancient war temple, he found no words about the ancient war temple in the stone house, not even some ancient writings.

So he suspected that there must be something hidden in this room.

With this in mind, Qin Chuan searched the entire stone house carefully. Finally, he found a small bump on the wall behind the bookshelf. The bump was very smooth and seemed to be touched often.

Qin Chuan hesitated for a moment, then pressed on the bump.

As soon as I pressed it, a strange change was discovered on the wall behind the bookshelf, and there was a slight "click!" Click! ' sound, and then a small hidden grid appeared in front of Qin Chuan.

Seeing this secret grid, Qin Chuan was overjoyed, secretly glad that his guess was correct, otherwise he would have missed the treasure.

I saw a brocade box quietly placed in the secret compartment. Apart from this brocade box, there was nothing else.

Qin Chuan carefully took out the brocade box and opened it. There were three elixirs with a golden halo inside, a incomplete map, and a letter.

When Qin Chuan saw the three pills, he was suddenly surprised, but a little unsure.

This... this seems to be the Nine-turn Jingyuan Pill specially taken by ancient body cultivators.

This Jiuzhuan Jingyuan Pill is an ancient elixir, and its refining method has long been lost. Qin Chuan only learned about it after reading some ancient documents from Yu Yao.

It is said that this 'Nine Transformation Essence Pill' is made from the essence and blood of nine kinds of eighth-level ferocious beasts, plus some precious medicinal materials.

Its effect can be compared to the essence and blood of a ninth-level ferocious beast..

Chapter 1773

The blood essence and blood of ninth-level ferocious beasts can be regarded as a holy product for ancient body cultivators, and are dozens of times more effective than the blood essence and blood of eighth-level ferocious beasts.

Although the blood essence of the ninth-level ferocious beast is very effective, it is difficult to obtain.

Because, whether it is a ninth-level warrior or a ninth-level ferocious beast, they are all god-like existences.

It would be extremely difficult for an ancient body cultivator to obtain the essence and blood of a ninth-level ferocious beast to fortify his body!

Therefore, the ancient alchemist refined the 'Nine Transformation Essence Pill' to replace the essence and blood of the ninth-level ferocious beast. Each of them is worth hundreds of thousands of gold coins.

However, since the ancient martial arts cultivators disappeared, no one knows the function of the 'Nine Turns of Essence Pill', and even if someone knows it, they can't use it.

Because the ancient method of forging the body has been lost for countless years.

If this is really the Nine Transformation Jingyuan Pill, then the harvest from this trip will be too great.

Qin Chuan suppressed the excitement in his heart and looked at the incomplete map again.

The incomplete map was only about one-third of the original map. The place names marked on it were all marked with ancient characters, and it seemed like a map leading to some ancient ruins.

Unfortunately, the map was incomplete and Qin Chuan couldn't understand it, so he simply put the map away.

Finally, open the letter in the brocade box.

When Qin Chuan finished reading the letter, a strange look suddenly appeared on his face.

The content of the letter is as follows:

Intruder:

When you see this letter, you have triggered the mechanism, and the space here will be completely sealed in ten breaths.

After half a stick of incense, a mechanism in the dark will spray a miasma of rotten heart mist into this space.

Even if you hold your breath, this kind of poisonous mist can enter your body through your skin and damage your internal organs. Eventually, your internal organs will rot and die.

If you don't want to die, you can take the Bingxin Pill I left for you.

However, the effect of this Bingxin Pill can only last for fifteen days. If you can still get out of here after fifteen days, you will only be poisoned here.

When you read this letter, you must have not only obtained the Blood Soul Bead, but also obtained these three Nine Transformation Essence Pills.

Back then, I discovered the Blood Soul Bead, three Nine-turn Essence Pills, and an ancient map in an ancient ruins.

But during the fight, I was seriously injured. When I came back, I knew that my injury was too serious to be treated, so I set up this trap.

If you get the Blood Soul Pearl and leave, that's your chance, I won't embarrass you.

If you are not greedy enough and find these three Nine Transformation Essence Pills, especially the incomplete map, I will test whether you are a person with great opportunities.

If you can pass the test, you are a person with great opportunities. Just take everything away.

If you fail the test, then you will die here and be buried with me!

My test for you is very simple. The effect of the Ice Heart Pill can allow you to survive in the rotten heart mist for fifteen days. You must get out of this closed space within fifteen days, otherwise you will be poisoned to death. here!

However, there is no food in this enclosed space, and you may starve to death in less than fifteen days.

Remember, the iron gate is the only exit. The way out is on the iron gate. I wish you good luck!

After reading this letter, Qin Chuan felt shocked and complicated.

But just when he was stunned, there was a sudden "boom" outside the stone house, and the iron gate outside closed automatically.

Hearing the sound of the door closing, Qin Chuan's face changed drastically. He knew that the mechanism in the dark had begun to operate and the space here had been sealed...

Chapter 1774

Hearing the sound of the door closing, Qin Chuan's expression changed drastically. He knew that the mechanism in the dark had begun to operate and the space here had been sealed.

Sure enough, not long after, pink poisonous mist began to spray from the corners and cracks of the stone house.

Seeing the poisonous mist, Qin Chuan hesitated for a while, then took the Ice Heart Pill, then left the stone house without stopping.

When he walked out of the stone house, he found that the passage was also filled with pink poisonous mist.

Seeing this, Qin Chuan had a bad feeling. He quickly walked to the closed gate and looked for a way out through the gate according to the letter.

Soon, Qin Chuan found a way out.

I saw a line of small words written on one side of the gate: easy to get in, hard to get out! 100% of the power can go in, and 150% of the power can go out!

Seeing this sentence, Qin Chuan suddenly understood.

When entering, as long as the power reaches the limit of the third level of Dzogchen, the gate can be opened.

But when going out, it takes more than half the strength of the third level of Dzogchen to open the gate.

In other words, he must increase his strength within fifteen days before he can go out.

Qin Chuan still had some doubts in his heart and tried to open the gate. This time no matter how hard he tried, he couldn't move it at all.

It seemed that what the letter said was true. Now he could only find a way to improve his strength first.

At this time, the red poisonous mist around him became thicker and thicker, but Qin Chuan did not panic. Although it was difficult to increase his strength by half, it was not completely hopeless.

For ordinary people, it is simply impossible to improve their strength so much in just fifteen days.

In fact, for ordinary people, not to mention fifteen days, it is not bad to survive for seven days without food and water.

But Qin Chuan didn't have to worry about food. Before setting off, he bought some dry food and water and stored them in the God of War Order space.

As long as he lives frugally, he will be fine for fifteen days.

Even though it was just a small thing for him to buy dry food before, for now, it is also an opportunity.

At that moment, Qin Chuan no longer hesitated and sat cross-legged near the gate.

Then, he took out the bottle of Wannian Bingxin Liquid, took a drop, and began to attack the bottleneck of water vitality.

In fact, Qin Chuan's water energy has already reached the edge of breaking through, but he has not had time to break through during this period. Now he just takes this opportunity to start breaking through.

Two days later, when Qin Chuan opened his eyes again, his water energy had broken through to the third level.

This time, in order to break through the water energy to the third level, he took a total of three drops of Wannian Bingxin Liquid.

Now, he only has two drops left in his hand.

After the breakthrough of water energy, Qin Chuan discovered that the water cyclone in his sea of energy disappeared and was replaced by a drop of crystal clear water.

This water droplet exudes an astonishing cold air, and there is a kind of spirituality within it, which seems to be extending from the depths of Qinchuan's soul.

In fact, this drop of water is the natal water spirit condensed after Qin Chuan's water energy broke through to the third level.

After the water energy broke through to the third level, Qin Chuan's comprehensive strength increased significantly, but it was still a little short of the power to open the gate.

Still a little worse! It seems that we can only try the effect of the 'Nine Turns of Essence Pill'.

Qin Chuan has not practiced the ancient body-refining method since he opened the first 'Battle Body Sect', so his body's strength has not increased.

However, during this period, Qin Chuan discovered a problem. This problem was that since he opened the 'Battle Body Gate', the essence and blood of ferocious beasts below the second level no longer had any effect on his forged body.

As for opening the second 'Blood Sea Gate', you must first increase your physical strength to the second limit, and then break through this limit to start the second evolution.

At that moment, Qin Chuan no longer hesitated, took a Nine-turn Jingyuan Pill, and began to practice the method of forging the body..

Chapter 1775

The effect of the Nine Transformation Essence Pill is indeed amazing, dozens of times better than the eighth-level ferocious beast essence and blood refined by Qin Chuan before.

After only refining for a moment, Qin Chuan could clearly feel the strength of his body slowly increasing. This feeling made him very excited, and he practiced harder.

In this way, in order to increase his strength by half in fifteen days, Qin Chuan worked almost without sleep and devoted himself wholeheartedly to refining the Nine Transformations Jing Yuan Dan.

On the thirteenth day, Qin Chuan finally completely refined the Nine Transformation Essence Pill, and his physical strength actually increased a lot.

After improving his physical strength, Qin Chuan went into battle madness, and his strength just reached the level where he could open the gate.

Qin Chuan walked to the gate, lifted it hard, and opened the gate.

As soon as Qin Chuan walked out, the gate closed automatically, and the poisonous gas inside did not leak out.

In order to get out of trouble as soon as possible, Qin Chuan practiced crazily day and night, and had not slept for fourteen consecutive days.

Once he was out of trouble, he couldn't hold on any longer, fell down next to the gate, and fell asleep.

But he said that just when Qin Chuan was sleeping soundly in the cave.

Outside the Cloud Valley, there were two people waiting restlessly at the entrance of the valley.

These two people are naturally Chen Xiangzhu and Lao San.

Today, Chen Xiangzhu has broken through to the fourth level, and his temperament is completely different from before. The bookishness in his body has disappeared, but there is an awe-inspiring and murderous aura.

The third child on the side looked at him with more awe than before, as if he didn't dare to get close to him.

"That little thief has been in there for half a month, why hasn't he come out yet?"

Master Chen Xiang's face was filled with anger. The past few days of waiting had made him very impatient, and he was about to collapse. If he hadn't wanted to take back the Ten Thousand Years Bingxin Liquid and Tianmui Liquid, he would have left long ago.

"Incense Master, do you think the little thief died inside?"

"It's hard to say. The little thief is not a fool. He knew that it was full of miasma and poisonous mist, but he still dared to go in. From what I can see, there must be some treasure inside."

"We'll stay at the mouth of the valley to see when he comes out"

"When he came out, the incense master intercepted and killed him. This hateful little thief actually made me wait for him for so long. I must cut him into pieces."

After saying that, Chen Xiangzhu didn't express his hatred. With a wave of his hand, an ice blade flew out from his palm and split the hard rock on the opposite side into two halves.

"Is this the strength of a fourth-level warrior?"

Lao San couldn't help but have a look of horror in his eyes.

When a warrior reaches the fourth level, his combat power is at least three times that of the third level Dzogchen, and it also comes with elemental damage.

Therefore, his strength is not just a difference in strength.

"Can't wait any longer like this! Third child, you go back and get some antidote pills, we have to go in and search!"

Without the detoxification pill, even if Lord Chen Xiang is already a fourth-level warrior, he is still very afraid of these miasma mist poisons, so he has been guarding outside the valley and does not dare to step into the valley easily.

"yes! Incense Master, I'm going right away!"

But Qin Chuan, who was sleeping soundly in the cave, did not know that there was a huge threat lurking outside the valley.

Maybe he was too tired, and he slept from morning to afternoon before Qin Chuan woke up.

After waking up, Qin Chuan felt more energetic and energetic again.

The harvest from this trip to the treasure was not bad.

Qin Chuan smiled with satisfaction and prepared to leave.

Obviously, he was very satisfied with this trip to the treasure. He was very satisfied with the harvest.

Not to mention the spiritual gourd fruit found in the valley and the three bottles of precious elixir found in the stone house, just talking about the three 'Nine Turns of Essence Pills' made Qin Chuan feel that the trip was worthwhile.

If Without the Nine-turn Jingyuan Pill, Qin Chuan didn't know when and what month he would be able to open the second door. However, with the Nine-turn Jingyuan Pill, he saw a glimmer of hope.

Another gain was the Blood Soul Bead. and the incomplete map. Although Qin Chuan didn't know what the use of them was, his intuition told him that these things were probably more precious than the Nine Turns Essence Pill. When he walked to the entrance of the cave, Qin Chuan was about to press the switch and open the stone door to go out. , but at this moment, there was an inexplicable throbbing in his heart, a throbbing mixed with inexplicable excitement..

Chapter 1776

A look of surprise appeared on Qin Chuan's face, and he quickly looked inside his own Qihai.

In the air sea, the red air mass representing the fire energy began to rotate slowly, and some mutations began to appear inside the air mass. It seemed that the difference in internal and external spiritual pressure had reached the edge of breakthrough.

Seeing this, Qin Chuan's face suddenly showed excitement.

After months of hard training, his fire energy was finally about to break through.

At that moment, Qin Chuan sat cross-legged and began his final push.

Not long after, a huge vortex of vitality formed around Qinchuan, spinning at high speed with him as the center.

And the medicinal power of the Dragon and Phoenix Sacred Fruit that remained in Qin Chuan's body was also being absorbed crazily by Qin Chuan.

All signs indicate that Qinchuan's fire energy is making a breakthrough.

After a long time, the vortex of vitality around Qin Chuan gradually disappeared, and he slowly opened his eyes, with an extremely excited look on his face.

For Qin Chuan, the breakthrough of fire energy to the second level is more significant than the breakthrough of water and wood elements to the third level.

Very good! The fire energy finally broke through to the second level, and this time he could finally go to Uncle Qin to ask about his life experience.

Thinking of this, Qin Chuan became more and more excited. The long-standing confusion about his life experience, the desire for the truth, and the helplessness of being unable to know finally broke out at this moment.

He must find out the truth. Why was he placed in the Zhou family incognito?

Who exactly killed his ancestor like that?

He must find the murderer and rescue his ancestors!

And figure it all out!

Qin Chuan clenched his fists excitedly, his joints turning pale, and the desire in his heart finally burst out at this moment.

It's time to go back. This time I have been in the valley for half a month, and there is only half a month left to complete the task.

He must rush back to Zhou's house within this half month, complete the task to the deputy chief instructor, and then go to find Uncle Qin."

Thinking of this, Qin Chuan pressed the mechanism and walked out of the cave.

After going out, the mountain door closed automatically. It looked no different from an ordinary mountain wall. If no one knew that there was a mechanism here, they probably wouldn't have thought that there was something else here. Mystery.

Qin Chuan looked at the sky outside the valley. It was almost evening. If he hurried with all his strength, he could still reach Tianshui City before dark. At that moment, Qin Chuan rushed straight towards the mouth of the valley.

Now, his fire With his vitality breakthrough, his strength has increased. With his current strength, he can completely sweep through the third-level warriors.

With his abnormal hearing and extraordinary strength, Qin Chuan traveled through the foggy valley, all the way smoothly, without any There was no obstacle at all.

Soon, Qin Chuan arrived at the entrance of the valley.

When Qin Chuan stepped out of the entrance of the valley, he immediately became alert and looked up at the big tree in front of him.

"Huh!"

There was a sound of surprise immediately from the front.

Then a slender figure jumped down from the tree, but it was a Chen Xiangzhu waiting at the mouth of the valley.

"What a strong alertness! Boy, it seems that Chen still underestimated you!"

Qin Chuan saw Lord Chen Xiang at a glance, and instantly sensed that he exuded a fierce aura that only a fourth-level warrior could possess. He was horrified, secretly shocked that the other party had broken through, and at the same time vaguely knew that something bad was going to happen today.

"It turns out to be Master Chen Xiang! I didn't expect to meet Chen Xiangzhu here, what a coincidence! Isn't it Master Chen Xiang who is just here waiting for the boy to come out?"

"Ha ha!! Boy, you are not stupid!"

Master Chen Xiang had a sneer on his face, and a look of disdain in his eyes.

Qin Chuan's expression gradually became serious:"I wonder why Master Chen Xiang is waiting here, waiting for the boy to come out?"...

Chapter 1777

Qin Chuan's expression gradually became solemn:"I wonder why Lord Chen Xiang is waiting here, waiting for the boy to come out?"

"snort! for what? Little thief, do you still want this incense owner to explain it so clearly?"

Chen Xiangzhu smiled coldly, as if he was smiling but not smiling.

"Sorry? I really don't know why?"

Chen Xiangzhu was furious and showed his ferocious face.

"Little bastard! You are still pretending to be crazy and stupid with me. Do you think you can just forget about stealing things from me? Today, this incense owner is here to settle accounts with you!"

Hearing this, Qin Chuan seemed to understand everything

"I see! It seems that Chen Xiangzhu has been following the boy, otherwise how would he know that the boy is hiding in this valley. However, I don't understand. I didn't find anyone following me along the way. How did you do that?"

"snort!" Chen Xiangzhu sneered, "Little bastard, I'll make you understand to death today, so there's no harm in telling you! Do you still remember the stick of sandalwood I lit when we traded with you?"

Qin Chuan's expression changed slightly, as if he had guessed something.

"I mixed ten miles of incense into that sandalwood stick. When you went in, the smell of ten miles of incense clung to you. No matter where you go from now on, as long as you are within ten miles, my scent bugs will be able to find you, so you can't escape from my grasp."

"Scent bug? Is it deworming?"

"good! It seems you are not ignorant!"

Hearing this, Qin Chuan suddenly understood everything.

It seems that this guy didn't have any good intentions from the beginning. I'm afraid things won't go well today. He has to find a way to escape!

Thinking of this, Qin Chuan said: "Since Master Chen Xiang If you want to take the things back, the boy will give them back. I wonder what Master Chen Xiang thinks?"

Qin Chuan said this just to test Chen Xiangzhu's limits. Not to mention that he didn't want to pay it back, even if he wanted to pay it back, he had already used up only two drops of the Ten Thousand Years Bingxin Liquid, and he couldn't explain it anymore.

Hearing this, At these words, Chen Xiangzhu laughed proudly.

"Ha ha!! Little bastard, are you afraid? such a pity! Do you regret it too late?"

Qin Chuan's face changed drastically: "Master Chen Xiang, what do you mean?" Don't you want anything back?"

"hey-hey!! Of course this incense owner has thought about it. Today, this incense owner not only wants to get back his own things, but also takes away your dog's life! You little bastard, go to hell!"

As soon as he finished speaking, Chen Xiangzhu suddenly took action, his figure flashed, and he punched

Qin Chuan in the chest. Qin Chuan was on guard for a long time. When he saw Chen Xiangzhu taking action, he shot out both palms, trying to block Chen Xiangzhu's attack.

But the two of them The strength gap between them was too big. Chen Xiangzhu was so fast that Qin Chuan was hit in the chest with a punch before he could stop him.

‘There was a crack, a crisp sound of broken bones.

Qin Chuan's chest suddenly sank, and then he opened his mouth and spat out a large mouthful of blood, and his body flew out.

With just one punch, Chen Xiangzhu severely injured Qin Chuan.

The strength gap between the two was so big that Qin Chuan didn't even have a chance to fight back.

"Wow~! "

Qin Chuan spurted out another mouthful of blood, this time it was mixed with fragments of internal organs, and his internal organs were shattered by the huge impact.

At this moment, Qin Chuan only felt that his eyes were black and his whole body was weak and weak. His internal organs felt like they were all smashed into pieces, churning endlessly in his body. The broken sternum felt like a steel gun stabbed into his chest, a sharp sting!

Looking at the fragments of internal organs in front of him, Qin Chuan gritted his teeth desperately, shook his groggy brain, and screamed desperately in his heart.

"I can't die! I can't die! I haven't figured out my life experience yet, I can't die like this without knowing anything! I want to escape! I want to escape!"..

Chapter 1778

"Huh! You're not dead yet!"

Looking at Qin Chuan struggling on the ground, Chen Xiangzhu was greatly surprised. He thought that this punch could kill Qin Chuan to a pulp, but he didn't want to just beat the opponent into a dying state.

"You kid is really tough! I just punched with 70% of my power, but you didn't die. This is really a surprise to me!"

"If it were an ordinary third-level Dzogchen warrior, he would have died long ago. What's more, your cultivation level hasn't reached the third level yet, right?"

"Boy, you are still a little weird! However, I don't think you can live much longer like this."

Chen Xiangzhu crossed his hands on his chest, with a proud look on his face like a cat playing with a mouse.

Qin Chuan stood up with difficulty, shaking his unsteady body, with a bleak smile on his face.

Under the afterglow of the setting sun, his face was covered with blood. His face looked very miserable!

"Ha ha!! If you want to kill me, it's not that easy!"

Qin Chuan smiled miserably, suddenly turned around and ran towards the valley, and in a blink of an eye he got into the thick fog filled valley.

"Huh! Little bastard, you still want to run! court death!"

Master Chen Xiang was furious. He waved his hand and the water energy in the air immediately condensed dozens of ice picks and shot them in the direction of Qin Chuan's escape!

His move was not a martial skill, but a fourth-level warrior's ability to turn the void into reality. Instinct.

But after the dozens of ice picks shot in, Qin Chuan's scream came from inside.

It turned out that Qin Chuan was running away when he suddenly sensed the attack of dozens of ice picks behind him and quickly dodged to avoid it. But he still couldn't completely avoid it. An ice pick passed directly through his chest and pierced his left lung. After the lung was pierced, Qin Chuan suddenly couldn't hold his breath and screamed, and at the same time he inhaled. He took a big mouthful of poisonous mist.

As soon as he breathed in the poisonous mist, Qin Chuan's originally pale face immediately turned black and purple, his eyes were even blurry, and he couldn't even lift his legs.

He actually Poisoned.

As soon as he found out that he was poisoned, Qin Chuan quickly stopped breathing.

But as soon as he stopped breathing, Qin Chuan's lungs immediately became congested, and then blood flowed out of his mouth and nostrils uncontrollably, but he had already taken care of it. Nothing more

"cannot! I can't die!"

Qin Chuan roared desperately in his heart, dragging his dying body and desperately running away into the valley. He wanted to escape back to the treasure cave.

But outside the valley, Master Chen Xiang heard Qin Chuan's screams and was immediately overjoyed. , then hesitated for a while, held his breath, rushed into the thick fog, and touched in the direction of Qin Chuan's screams.

But when Chen Xiangzhu touched there, except for some blood stains on the ground, there was no Qin Chuan's body at all..

Chen Xiangzhu was immediately horrified, and quickly searched around for a while, but still couldn't find Qin Chuan's body, and finally had to exit the valley. There was no antidote pill, and it was dusk now, and the vision in the cloud valley was very poor, so he couldn't If he dared to break in, he was afraid that if he got lost, he wouldn't be able to get out soon.

But he couldn't hold his breath for a long time, and he would probably die of poisoning in the end.

If that was really the case, he would be too dead. Unjust.

But it was said that Qin Chuan ran all the way in the valley, but he ran slower and slower, and ran less and less energetic. In the end, he staggered forward.

Not only was he seriously injured, but he was also poisoned by miasma, so Ordinary people would have passed out long ago due to injuries.

Qin Chuan tried hard to keep himself awake, and he escaped entirely by relying on his own perseverance.

When Qin Chuan entered the cave, his consciousness had begun to become a little blurry.

However, he did not forget , before entering the cave, he wiped out the footprints outside the cave and did not leave any bloody fingerprints on the button on the cave wall.

His brain became increasingly groggy, and Qin Chuan's consciousness gradually blurred. A voice seemed to be in his ears. Bian persuaded him to take care of everything and have a good sleep.

I'm really tired! I really want to sleep!

No! No! He can't sleep! He can't sleep!

Qin Chuan bit the tip of his tongue, causing pain Stimulate himself to keep his brain awake, and at the same time try to open his eyelids that are as heavy as a thousand pounds.

Qin Chuan knows very well that if he really falls asleep, he will never wake up again..

Chapter 1779

He knew very well in his heart that if he really fell asleep, he would never wake up again.

If he wanted to live, he could only keep his brain awake and prevent himself from falling asleep.

Afterwards, Qin Chuan took out an antidote pill from the God of War Order space with trembling hands and swallowed it, and then swallowed three Qihuang pills.

This detoxification pill is naturally used to relieve the poison of miasma.

Although Qihuang Dan is said to be miraculous and can bring people with seriously injured internal organs back to life, it only refers to people with ruptured internal organs.

But Qin Chuan's injuries were more serious. His internal organs were shattered and his lungs were even punctured.

Qin Chuan didn't know whether the Qihuang Pills would have any effect on his injuries. Now he could only take the gamble of treating a dead horse as a living doctor, so he swallowed all three Qihuang Pills.

After swallowing the Qihuang Pill, Qin Chuan endured the severe pain and moved the broken chest back to its original position. Then he closed his eyes and meditated, and began to refine the pill to treat his injuries.

But at this moment, there were messy footsteps outside the cave, and then there was a conversation between two people.

"Incense Master, you see there is blood here, that little bastard must have been here."

"Um! Look around quickly, maybe the kid's body is nearby. That little thief's internal organs were shattered by me. He definitely won't survive."

"Ah! That kid is really strong. His internal organs were shattered. He can still run so far."

"Stop talking nonsense and go find it! The owner of this incense wants to see people alive, and wants to see corpses when dead! He must be found. The ten-thousand-year Bingxin Liquid and Tianmui Liquid are still in that little thief's body"

"yes! I'll go find it right now!"

It turned out that not long after Master Chen Xiang retreated outside the valley, Lao San arrived with the detoxification pill. The two of them took the detoxification pill and went into the valley to search for Qin Chuan's body.

The two searched near the cave for a long time, but still did not find Qin Chuan. traces of river

"strangeness! The boy's traces seemed to have suddenly disappeared nearby. Where could this boy have gone? Could it be that the world has evaporated?"

"Incense Master, it's getting dark now, do we still want to continue looking?"

Chen Xiangzhu pondered for a while before saying:"Forget it, it's getting dark now, the sight in the valley will be even worse, and it will be even harder to find the little bastard's body."

"Besides, at night, there will be more poisonous insects in this valley. Why don't we get out of the valley first and look for them after dawn tomorrow!"

Then, the two left.

After hearing the departure of the two, Qin Chuan, who was hiding in the cave, secretly breathed a sigh of relief and continued to refine the elixir and treat his injuries.

After this meditation, Qin Chuan quickly became A surprising discovery.

He found that the essence of energy in the sea of qi automatically entered the meridians and slowly repaired the injuries in his body.

Under the nourishment of this essence of energy, some wounds in the body, It started to grow again.

Only then did Qin Chuan know that this essence energy was not only the source of energy for physical warriors to use combat skills, but it could also repair people's injuries.

This discovery made Qin Chuan feel more confident. There was a glimmer of hope for survival.

The next day, Chen Xiangzhu and Lao San went into the valley again to look for Qin Chuan's body, but still found nothing.

The two were not reconciled. They searched for three days in a row, but still did not find Qin Chuan's body.

However, they still found nothing. , although these two people did not find Qin Chuan's body, they made some unexpected gains while searching for Qin Chuan's body.

"Incense Master, others say that there are no treasures in this Cloud Valley except poisonous mist and poisonous insects. But we still made quite a discovery in the past three days!"

"yes! Just this century-old Rhizoma Polygonatum plant is worth more than 20,000 gold coins!"

"hey-hey!! And this seven-star yellow flower grass is worth seven or eight thousand gold coins! In addition to these, we also found a lot of spiritual gourd fruits! All in all, in the past three days alone we have discovered precious medicinal materials worth fifty thousand gold coins."..

"Um! These are unexpected surprises, even the owner of this fragrance did not expect them."

"However, the medicinal materials we found are all earth-based. I think they have something to do with the environment and relationships here."

"It seems that the Yunwu Valley's earth energy is very strong, so it can grow so many precious earth-type medicinal materials. The owner of this incense suspects that the miasma here may also be related to earth energy."

"hey-hey!! Incense Master, thanks to the thick fog and miasma everywhere here, no one else is willing to come in. Otherwise, these precious medicinal materials would have been discovered by others."

"snort! If we hadn't searched for that little bastard's body, we wouldn't have found these treasures. I don't know if I want to thank that little bastard or scold him, but no matter what, we have been looking for his body and medicinal materials in the past few days."

"Um! Incense Master, where did you say that little bastard went? We have been looking for him for several days and still can't find him. Logically speaking, he should be dead by now! :"

Chen Xiangzhu frowned and said:"This Yunmist Valley is not small, and there is thick fog everywhere. Maybe he died in the corner there, we just keep looking."

"Um!"

Time always passed quietly. In the blink of an eye, Qin Chuan healed his injuries in the cave for ten days.

Ten days later, Qin Chuan miraculously recovered from his serious injuries.

However, he was surprised to find that his body strength was inexplicable. Miraculously, it increased a lot.

This change surprised and delighted Qin Chuan.

Then, he figured it out.

It turned out that he used to train his body mainly to temper his muscles, bones, skin and flesh.

But this time, his internal organs were seriously injured, and many of them were injured. The internal organs were shattered, but later, nourished by the power of Jingyuan Qi and Qihuang Dan, the broken internal organs healed and grew again.

Especially the Jingyuan Qi, not only repaired the injuries to the internal organs, but also removed all of Qin Chuan's internal organs. It has been greatly strengthened.

It is because the internal organs have been strengthened by the essence of energy that Qin Chuan's physical strength has once again increased significantly.

It can be said that Qin Chuan's body strengthening this time is different from the past. This time it is strengthened. It's the internal organs, from the inside to the outside.

After the physical strength is improved, Qin Chuan's comprehensive combat power after transformation can reach the strength of three hundred people.

Although Qin Chuan's strength improved again after recovering from serious injuries, he still did not dare to go out.

With his current fighting power, he might be able to kill any third-level warrior instantly, but facing a fourth-level warrior, he still had no chance of winning.

And in the past ten days, Qin Chuan also discovered that Chen Xiangzhu and Lao San had not left, and they were still there. They have been searching in the valley.

These two people seemed to be very patient, or maybe because they found a lot of spiritual herbs in the valley, they were reluctant to leave. If Master

Chen Xiang did not leave, Qin Chuan naturally did not dare to show up.

Since it was temporarily Unable to escape for three moments, Qin Chuan was not in a hurry to leave.

Because he had been delayed in this valley for another ten days, even if Qin Chuan could escape at this moment, by the time he rushed back to Shenyang City, it would still be more than three months. The mission has expired.

In the Zhou family, if you fail to return after the mission deadline, you will be punished.

But Qin Chuan is not worried about this, because this mission is a private mission issued by the deputy chief instructor. Whether he will be punished depends on the deputy chief instructor. That's what he meant.

Based on his understanding of the deputy chief instructor, even if there is a punishment, it will not be too serious.

So Qin Chuan decided: Since he can't escape now and there is not enough time to rush back, he simply doesn't rush back and just stays. Cultivating in a cave, after all, life is the most important.

The mission can be put aside for now, saving life is the most important thing.

Of course, he must go back to the Zhou family this time.

Because he can only return to the Zhou family , only by finding Deacon Qin can he figure out his life experience and the truth that has been lurking behind him.

With a decision in his heart, Qin Chuan stayed in the cave and continued to cultivate...
