

God level 1801

Chapter 1801

"Huh! Your cultivation level... Good boy, how long has it been but your cultivation level has improved to such an extent? My child, you surprise me so much and surprise me so much."

As he said that, the deputy chief instructor's voice was trembling with excitement.

Seeing the deputy chief instructor's expression, Qin Chuan was slightly surprised.

But the deputy chief instructor looked at Qin Chuan excitedly.

"Your water and wood energy has actually reached the third level, and your fire energy has reached the second level of great perfection. This is incredible. Huh! Why did you practice earth energy again?"

The deputy chief instructor had a look of surprise on his face, but he disappeared immediately and stopped caring about it. He couldn't help but be afraid of Qin Chuan's shoulder.

"Boy, you are very encouraging to me! Now that your fire energy has reached the second level of Dzogchen, it's time for you to know the truth of some things."

Hearing this, Qin Chuan opened his eyes wide in surprise. After a while, he said excitedly

"Could it be... could it be that you, deputy chief instructor, are you too?...? "

Just when Qin Chuan was filled with doubts, Deacon Qin walked away from the back of the hall.

When Qin Chuan saw Deacon Qin, a look of surprise suddenly appeared on his face

"Uncle Qin, why are you here?"

"I am here, naturally, to wait for you to come back. Qin Chuan, you have grown up."

Deacon Qin smiled, with a look of relief on his face, and walked slowly to Qin Chuan.

"Uncle Qin, I finally see you."

Qin Chuan's eyes were slightly red. Since his father's death, he regarded Deacon Qin as his closest person.

But he hadn't seen Deacon Qin for more than a year. How could he not be excited when he saw Deacon Qin now?

"Silly boy, isn't Uncle Qin a good person? Why are your eyes red?"

Deacon Qin smiled slightly and suddenly said

"Qin Chuan, do you want to see your father?"

Hearing this, Qin Chuan was stunned, with doubts on his face.

"Uncle Qin, isn't my father dead? Where do you want to go to meet him?"

Deacon Qin was silent, but looked at the deputy chief instructor beside him.

Qin Chuan followed Deacon Qin's gaze and looked at the deputy chief instructor. Just when he felt puzzled, a scene that shocked him happened in front of him.

I saw the face of the deputy chief instructor began to squirm strangely. After a while, the originally cold and scarred face disappeared, replaced by a handsome and perfect face, except for some subtle wrinkles at the corners of the eyes. This handsome face The face was actually 78% similar to Qin Chuan's.

Seeing this handsome face, Qin Chuan's eyes widened in surprise. He couldn't help but take a step back, his lips trembling slightly with excitement.

"You... why do you want to become like my father?"

Qin Chuan's voice suddenly became hoarse.

For many years, this familiar face has been buried deep in his heart, deeply entangled with his childhood memories.

He once thought about all this. He buried it and no longer wanted to remember the painful memories, but in front of him, this familiar face brought back his pain.

"My child, I have made you suffer for so many years."

The deputy chief instructor's eyes also showed a trace of pain, and his voice also changed, becoming gentle and kind, with a unique magnetic charm.

Hearing this voice, Qin Chuan's whole body was shaken, as if he had been electrocuted, and he was stunned. He stood on the spot.

What a familiar voice!

His father's voice was his lifelong memory, how could he forget it.

Scenes from his childhood passed through his mind at this moment, and Qin Chuan felt an inexplicable sadness in his heart. pain

"Father? You...are you really my father?"

Qin Chuan's eyes were slightly red, and the corners of his eyes were a little moist...

Chapter 1802

Qin Chuan, he is really your father."

Actually, at this moment, without Deacon Qin having to say anything, Qin Chuan already believed that the handsome man in front of him was his father, but he couldn't understand why his father came back from the dead.

"Dad, you...how are you alive again?"

The deputy chief instructor smiled bitterly: "Your father and I are not dead at all." The news that I died in the execution of my mission was just that I faked my death in order to deceive the Zhou family and create an orphan background for you."

After hearing this, Qin Chuan lowered his head and fell silent.

With his intelligence, he understood a lot now and figured out many of the key points.

After a while, Qin Chuan slowly raised his head, and his eyes returned to their previous calmness..

Seeing this, the deputy chief instructor and Deacon Qin both had expressions of surprise on their faces.

They secretly thought that this child is still young, but his control is amazing. If he continues to grow up, it will become more and more difficult to deal with.

However, the two People are also happy about it

"Dad, Uncle Qin, what kind of life experience do I have? My surname should not be Qin, right?"

"good! It is true that your surname is not Qin, your surname is Qing!"

After hearing this, Qin Chuan understood in his heart, secretly thinking that indeed, it seems that the person in the fire cave is indeed his ancestor.

"Dad, what is my name? Qin

Chuan asked softly

"You are the thirty-seventh generation descendant of our Qing family, and your real name is Qing Tianqi."

Having said this, the deputy chief instructor couldn't help but smile bitterly.

"Originally, my father hoped that your life would be safe and that your life would be on par with heaven, but things went counter to your wishes. As a descendant of our Qing family, there are some things that you cannot choose, and these things may cost you your life. Do you understand this?"

"Dad, Tianqi understands!"

Qin Chuan's eyes showed determination.

Hearing this, the deputy chief instructor and Deacon Qin both showed relief on their faces. It was obvious that Qin Chuan had accepted his life experience.

"Tianqi, I wish you could understand! In fact, my real name is Qingyunfeng, and your Uncle Qin's real name is Qingyunsheng. He is also your biological uncle. And the person who once rescued you from the man in white is your cousin named Qingyun Lie"

"Dad, who is that dishy grandpa?"

Qin Chuan suddenly remembered the kind old man and his reluctant eyes when parting.

"Tianqi, that Grandpa Cai is your biological grandfather. He is also the patriarch of our Qing family."

"Sure enough! He is indeed my biological grandfather."

Thinking of the old man's kind smile, Qin Chuan felt warm in his heart.

But at this moment, Qingyun Feng sighed softly.

"I asked you to see grandpa because he wanted to see you. Why! Your grandfather's time is running out. If the mission of lurking in the Zhou family cannot be completed this time, your grandfather can live for at most three or four years. Hearing this

, Qin Chuan's face changed slightly, and he quickly asked:"Dad, why can grandpa only live three or four years?"

Qingyunfeng sighed softly

"Why! It's time for you to know all the truth!"

"You should know that there are two types of people in this world. The first type of people have balanced talents in the five elements. The second type of people have outstanding talents in one type of talent but have inferior talents in the other four types of people."

"The first type of people are ordinary people, and the vast majority of people in this world are ordinary people. The second type of people is very small in number. They are collectively called the ancient blood family."

"The children of the ancient blood successor family all inherit the bloodline of a certain series of ancient ferocious beasts. These ancient ferocious beasts are all nine-level or above ferocious beasts, so they all show outstanding qualifications in the talents of this system. His qualifications are at least superior, even genius qualifications"

"Of course, the price they paid for this was that the other four series of talents were all inferior qualifications."..

Chapter 1803

"Among the many ancient blood successor families, the strongest among them are the five powerful clans. What these five powerful clans inherited is not an ordinary ancient ferocious beast, but a holy beast that surpasses the ninth level."

"They are the Feng family who inherited the sacred beast Suzaku, the Bai family who inherited the bloodline of the sacred beast White Tiger, the Wu family who inherited the sacred beast Xuanwu, and the Teng family who inherited the sacred beast Soaring Snake. The other one is our Qing family."

"Dad, what bloodline does our Qing family inherit? Qin Chuan asked curiously

"Our Qing family inherits the bloodline of the 'Qinglong', the head of the five sacred beasts."

"Qinglong belongs to the wood element, so the talents of our Qing family members in the wood element are very amazing. Most of them show superior aptitudes from birth, and only a handful of people with extremely poor aptitudes show medium aptitudes."

"However, as long as we, the Qing family, activate the Qinglong bloodline in our bodies, our talents and qualifications will rise to the next level. Those with superior qualifications will become geniuses, and those with medium qualifications will become superior."

"Therefore, more than a thousand years ago, the worst qualifications in our Qing family were all superior, and there were even more genius qualifications. There are also many masters in the clan, there are more than thirty eighth-level masters alone, and there are countless seventh-level masters."

Hearing this, Qin Chuan asked with some doubts

"Dad, we, the children of the Qing family, have activated the Qinglong bloodline in our bodies, and our superior qualifications can turn into genius qualifications. Can those with genius qualifications still improve?"

"Can! Although our Qing family has inherited the bloodline of the ancient holy beast Qinglong, there are very few people who are born with wood qualifications as geniuses every time they are born."

"As for the disciples with genius qualifications, after activating the Qinglong bloodline in their bodies, their qualifications will be upgraded to another level, and the wood qualifications will become pseudo-spiritual qualifications."

"Pseudo spiritual body qualification? What kind of qualification is that?"Qin Chuan was very confused.

"In fact, there are two kinds of qualifications on top of genius qualifications. These two qualifications are called pseudo-spiritual qualifications and true spiritual qualifications."

"People with pseudo-spiritual qualifications are usually called geniuses among geniuses. Among them, one or two out of ten people can advance to the ninth level master. And this pseudo-spiritual qualification is the highest limit that all members of the ancient blood family can achieve."

"As for the qualifications of a true spirit body, this type of person will only appear among ordinary people. According to their different attributes, they can also be called fire spirit body, water spirit body, wood spirit body, etc."

"For example, the Fire Spirit Body can only cultivate Fire Yuan Qi, but cannot cultivate the other four systems of Yuan Qi. As for people with fire spirit bodies, if nothing unexpected happens, they will most likely become ninth-level masters. However, people with fire spirit bodies are rare to see in hundreds of years!"

After hearing this, Qin Chuan finally understood something.

He had also heard someone say that even those with genius qualifications can only reach the eighth level. If they want to reach the ninth level, it will be difficult for them to do so. That is to say, only one person among one hundred people with genius qualifications can become a ninth-level person.

"Tianqi, in fact, your wood qualification barely meets the standard of genius qualification. If you can activate the Qinglong bloodline in your body, it is possible to become a pseudo-spirit qualification."

"Although not everyone with pseudo-spiritual qualifications can become a ninth-level master, it is always easier than a person with genius qualifications to become a ninth-level warrior."

As if he thought of something, Qing Yunfeng's eyes were empty and his eyes were filled with memories..

Chapter 1804

As if he thought of something, Qing Yunfeng's eyes were blank, revealing memories.

"Thinking back then, the strength of our five powerful clans could be said to have shocked the entire Tianfeng Continent."

"Moreover, our five major families have formed a life-and-death alliance since ancient times, advancing and retreating together. Why such an alliance was formed? This may be related to the emergence of the ancient blood successor family."

"In fact, it has always been a mystery why the ancient blood successor family appeared on this continent. No one knows why it appeared. It seems like it suddenly appeared in this world in ancient times"

"The ancestors of the five major families all left their legacy, and the contents of these legacy are surprisingly the same."

"The legacy says: The five families must advance and retreat together to be able to cope with a catastrophe in the future. Therefore, since then, the five major families have formed a life-and-death alliance, called the Five Saints Alliance."

"Our Qing family is the strongest among the Five Saints Alliance, so we have always been the alliance leader. Later, our Five Saints Alliance established the superpower on the continent, the Five Saints Kingdom, in Tianfeng Continent.'"

"The position of the head of the country has always been held by our Qing family. The Qing family is called the Qinglong Royal Family, and the other four major families are all named the Protector Family."

"The land under your feet now was the land of our Qing family back then. Every inch of land in Dagon Country belongs to our Qing family, and not only that, the several small countries around Dagon Country were also ruled by our Qing Family back then."

Hearing this, Qin Chuan couldn't help but ask

"Then why did it become the land of Dagon Kingdom again? Why didn't our Qing family end up in this situation?"

"A huge conspiracy is involved here. Tianqi, do you know where this Shenyan City used to be?"

"Where?"

"This Shenyang City used to be the home of the Feng family of the Suzaku royal family. At that time, the head of the Feng family was kind-hearted and often helped poor people. Later, he discovered four young people with outstanding talents among the wandering orphans. The head of the Feng family loved the talents and took these four people as his disciples. , carefully teaching them how to practice martial arts. Do you know who these four talented teenagers are?"

"who is it?"

"snort!"

Qingyunfeng sneered.

"These four wolf-hearted things are the ancestors of today's Yanwei Zhou family in the south of Shenyang City!"

"If these four people hadn't secretly poisoned the head of the Feng family, which greatly reduced the strength of the head of the Feng family, the Feng family would not have been slaughtered by two mysterious ninth-level masters overnight. The owner of the house was also captured alive"

"You must know that the head of the Feng family is a ninth-level master. If he hadn't been poisoned, he could have escaped."

"Our Qing family knew about this, so the head of the family and the heads of the other three families came to Shenyang City to avenge the Feng family. Unexpectedly, the entire Shenyang City was arranged into a god-destroying formation, and five ninth-level gods suddenly appeared on the other side. The master and a ninth-level Dzogchen master are waiting for the four of them to come."

"The last four masters of the family all died in that battle, and our Qing family's inherited artifact"Blue Dragon Pearl" was also lost in that battle."

"On the day when the four masters died, three ninth-level masters who originally belonged to our five major families also launched a rebellion. These three people slaughtered all the children of the four major families in one day."

"The leader of these three people is Long Xing, the current leader of Dagon Kingdom."

"This is how our five major families in ancient times were wiped out in a few days. As a result, the Five Holy Kingdoms fell apart and split into the Dagon Kingdom and several smaller countries."

"That Long Xing took the opportunity to become the leader of Dagon Kingdom. But they didn't expect that one person from the Qing family would escape from their clutches. This man was the youngest son of the head of the Qing family, and he was also our ancestor."

"Since then, he has remained anonymous and began to investigate the inside story of the matter"...

Chapter 1805

"Could this all be Long Xing's conspiracy? Qin Chuan asked.

Qing Yunfeng shook his head slightly:"According to our Qing family's secret investigation over the past thousand years, all this conspiracy should come from the ninth-level Dzogchen master.""

"That Long Xing was just instructed by him. Various signs indicate that the ninth-level Dzogchen master did this for some huge conspiracy. As for what kind of conspiracy, we don't know."

"And since that battle, the group of mysterious ninth-level masters have disappeared."

"We have also conducted secret investigations to find out who the ninth-level Dzogchen master is. But that person's face was very unfamiliar, unlike any of the known ninth-level Dzogchen masters."

"This puzzled him. You must know that there are only a few dozen ninth-level masters in Tianfeng Continent, and there are only a handful of ninth-level Dzogchen masters, definitely no more than three."

"And that person was not any of the three people, and I don't know where he suddenly appeared as a master. What's even more frightening is that he actually has five ninth-level masters under him."

"Although we don't know the identity of that person, it is very likely that Long Xing knows the identity of that person."

Qin Chuan expressed his thoughts

"I don't know whether Long Xing knows it, but the Zhou family ancestor, this ungrateful bitch, has no right to know that person's identity based on his strength."

"Maybe he has some clues, but definitely not many"

"Moreover, judging from various signs, that person was not interested in the territory of our Five Holy Kingdoms. He used the territory of the Five Holy Kingdoms as a bargaining chip and traded it to Long Xing."

"He didn't do it for the artifacts inherited from our five major families. For example, the artifacts inherited from our Qing family were given to the Zhou family by him. As for what he did for it, we don't know. Hearing this

, Qin Chuan's heart moved and he said, "Dad, I seem to know what they are for?"

"you know? How could you possibly know?"

Qing Yunfeng and Qing Yunsheng both looked at Qin Chuan in surprise.

The Qing family has spent thousands of years trying to find out the truth. They don't know how much effort they have spent, but they still haven't found out what the reason for that mysterious man was. They want to destroy the five major families.

But Qin Chuan, a child who did not grow up in the family and who does not even know his own life experience, how could he know?

Seeing his father's doubts, Qin Chuan asked

"Dad, back then, the name of the head of our Qing family was Qing Wushen?"

After hearing this, both Qingyunfeng and Qingyunsheng were slightly moved.

"Yes, it's Qing Wushen. I didn't expect you to even know this. How did you know?"

At that moment, Qin Chuan told the story about meeting his ancestors on the fourth floor of the Huoyan Cave, and then told about the headless senior in the cold pool under the Monkey King's Cave.

After hearing the cause and effect, the two brothers Qingyunfeng had expressions Big move, neither of them expected that Qin Chuan had experienced so much during this period of time.

After a long while, Qingyunfeng took a breath, with boundless anger in his eyes

"If my guess is correct, the headless senior you saw in the cold pool should be Bai Yetian, the head of the Bai family of the White Tiger royal family."

"Although you only saw two places, there should actually be five places. These five places used the body essence of the heads of the five clans to worship the Five Elements Spirit Pearl. snort! We use people to raise pearls, but I didn't expect that this person would use the essence of our ancestors to feed the pearls. What on earth did he want to do?"

Qing Yunsheng beside you is so angry that his eyes are blood red.

"Brother, this man is so abominable. Not only does he destroy our five tribes, he also wants to make our ancestors worse than death and practice for thousands of years just to feed the spirit beads. This breath is really hard to swallow. Brother, should we inform our father now and use the strength of the whole clan to rescue the remains of our ancestors?"

"Don't act rashly!"..

Chapter 1806

"If my guess is correct, that person's desire to destroy our five clans back then was secondary. He mainly wanted to capture the heads of the five clans and feed the Five Elements Spirit Orbs with the bodies of the heads of the five clans."

"They destroyed our five tribes because they were afraid that the descendants of our five tribes would save the remains of the family leader and cause him some unnecessary trouble."

"Brother, then why did he do this? Qing Yunsheng asked

"I don't know this either. Maybe this is his real intention"

"I guess this has something to do with our status as an ancient blood family. If that person only wanted to capture the ninth-level master to feed the spirit beads, there is no need to capture the heads of our five clans."

"You know, the heads of our five clans all have the talent inheritance of the five series of holy beasts, and are stronger than ordinary ninth-level masters. There is no need for him to give up easy things for difficult things."

Hearing this, Qin Chuan also felt that it made sense. At this time, he remembered the incident of Senior Fengwei River Demon Snake, so he also told this matter. When

Qingyunfeng and Qingyunfeng heard this, their faces changed. All looked shocked

"Tianqi, the senior demon snake you are talking about should be senior swallowing the sky."

"Senior Tuntian? who is he? What is his connection with our five major families?"

Qin Chuan was very curious.

"Senior Tiantian is not a human being, he is a ninth-level ferocious beast, the Tiantian Divine Python. It was also the natal psychic beast of our family head back then."

"After our family master merged with Senior Tuntian, his strength was extremely close to that of the ninth-level Dzogchen. It can be said that there are almost no opponents in the world. Only those who can suppress him, except for those few ninth-level Dzogchen masters, no one can suppress him. It can be done, but there is no one who can kill him."

"However, no one knows how the head of the family was defeated by that person. Logically speaking, this is absolutely impossible."

"Even if that person had arranged a god-destroying formation in advance, it would be impossible to capture and kill the family leader. At most, the family leader would be seriously injured and run away, but the fact is that the family leader was captured. This has always been something we have been unable to understand."

Speaking of this, Qing Yunfeng suddenly thought of another question.

"By the way, Tianqi, when you see your ancestors and senior Tuntian, they are all eager to let you leave. Does this mean that there is an informant of that person hidden in Shenyang City?"

"The purpose of his spy in this divine flame city is to supervise several altars. If I guessed correctly, the heavy snowfall that day was caused by his eyeliner."

Hearing this, Qing Yunsheng on the side showed a look of astonishment and hurriedly asked

"Brother, do you mean that the ninth-level master hidden in Shenyang City is that person's spy?"

"Um! should be! Qing Yunsheng's face changed drastically:"

What can we do?" With this ninth-level master here, how can we get the Azure Dragon Pearl back from the Zhou family? If we don't take back the Blue Dragon Pearl, our Qing family will have no hope of revitalizing. More importantly, my father's time is running out."

"snort! Ah Sheng, do you think that ninth-level master will take care of these matters of the Zhou family?"

"In the entire Zhou family, only the arrogant Zhou family ancestor is an eighth-level master. Such strength is not worth mentioning in the eyes of that ninth-level master. He has no need to protect the Zhou family."

"Even if he finds out that we are fighting for the Blue Dragon Pearl, in his eyes it is just a struggle for interests between some low-level warriors. As long as we don't hurt the foundation of the Zhou family, he won't take action easily, so our plan to snatch the 'Blue Dragon Pearl' continues as usual."

"Dad, aren't you afraid that the hidden ninth-level master will find out that we are members of the Qing family?"

"Tianqi, you don't have to worry about this. I, the Qing Family, have not gone through the 'Hua Long Pond' to activate the Qing Dragon bloodline in our bodies. No one can tell that we are from

the Qing Family except our own Qing Family members. Even if that person is a ninth-level master, he can't see it"

"Dad, I still don't understand. What's going on with the 'Hualong Pond' and 'Blue Dragon Pearl'? And why can't grandpa survive four years? And what does this Blue Dragon Pearl have to do with revitalizing our Qing family?"..

Chapter 1807

"This is all related to our blood inheritance"

"Although we, the children of the Qing family, have inherited the bloodline of the holy beast Qinglong, this bloodline has always been hidden in our bodies, and we must use certain methods to awaken it. The way to awaken is through the baptism of Hualong Pond"

"Therefore, when the children of my Qing family reached the age of seven, they would be arranged to undergo bloodline awakening in the Hualong Pond. As long as the Qinglong bloodline of the children of our clan is awakened, not only will their cultivation talents be improved, but they will also be able to randomly obtain a talent inheritance. As for what kind of talent inheritance they can obtain, it is unknown."

"Only the children of the Qing family who have awakened the Qinglong bloodline can truly begin the path of cultivation. If it is not turned on, the Qinglong true blood lurking in the bodies of the Qing family's children will automatically absorb the Qing family's life essence, greatly reducing the Qing family's lifespan, and usually they will not live past the age of fifty."

"Unless you can cultivate to the seventh level before the age of fifty, this is because when a warrior reaches the seventh level, his vitality increases greatly, and his longevity breaks through the limit of ordinary people, exceeding a hundred years old, and he can live to about five hundred years old, so he can continue to live. Go down"

"After cultivating to the seventh level before the age of fifty, although he was said to have escaped the fate of dying from having his life essence drained away by the True Blood of the Azure Dragon, he could not break through to the eighth level."

"Because, as soon as we break through to the eighth level, the Azure Dragon True Blood in our bodies will automatically awaken, and the energy absorbed over the years will explode in an instant. The energy that will burst out at that time will be very huge, even for the body of an eighth-level warrior. You won't be able to bear it anymore, and you'll just explode and die."

"Your grandfather has cultivated to the peak of the seventh level more than ten years ago. From that time on, he stopped practicing. He only planted vegetables every day and only understood the artistic conception."

"His purpose is to suppress his own cultivation, prevent him from breaking through to the eighth level, and avoid the fate of exploding his body and dying."

"In fact, it is very difficult for a warrior to break through from the peak of the seventh level to the eighth level. Many people cannot break through in their lifetime. Although your grandfather is extremely talented, it will take a lot of effort to break through this bottleneck."

"But it happened that your grandfather had a huge adventure twenty years ago. That adventure made his bottleneck of breaking through from the seventh level to the eighth level disappear. Even if he no longer practices, his cultivation level is slowly increasing. If it goes up, it will be a matter of time before it breaks through to the eighth level."

"According to estimates, he can suppress it for up to four years."

"Then why didn't grandpa perform the baptism in Hualong Pond before to awaken his Qinglong bloodline?"

"It's not that he doesn't want to, it's that he can't wake up. Because the most critical item in the Hualong Pond is the inherited artifact of our Qing family, the Green Dragon Pearl."

"Because the Azure Dragon Pearl contains the Azure Dragon's natal vitality, this Azure Dragon's natal vitality is the trigger for the awakening of the Azure Dragon's true blood in our body. Without the Azure Dragon Pearl, it is naturally impossible to awaken our Azure Dragon bloodline."

"It is precisely because of this that after the great changes a thousand years ago, although our Qing family has been raising elites, we have never been able to grow again."

"Because the blue dragon bloodline in our bodies cannot be awakened, many clan members do not live to be fifty years old. And some disciples with outstanding talents, although they have cultivated to the seventh level before the age of fifty, they dare not continue to break through to the eighth level."

"This has resulted in that our Qing family is not only sparsely populated now, but the strongest master is only at the top of the seventh level. With such strength, it can only be regarded as a middle-class family in Dagon Country."

"Without an eighth-level master in charge, our Qing family's strength would be inferior to that of the Zhou family. Compared with the Qing family a thousand years ago, it is simply heaven and earth."

"With the current strength of the Qing family, let alone revenge, they don't even have the ability to protect themselves."

"In fact, every child of the Qing family understands that if they want to take revenge, they must revitalize the Qing family. If you want to revitalize the Qing family, you must retrieve the 'Blue Dragon Pearl'..."

Chapter 1808

"Thousands of years ago, our Qing family did not know where the 'Green Dragon Pearl' was lost. It was not until the Zhou family accidentally leaked the news decades ago that we learned that the 'Green Dragon Pearl' had been obtained by the Zhou family."

"Later, after many investigations, we learned that the Green Dragon Pearl was hidden in the Zhou family's forbidden area, but we didn't know where the Zhou family's forbidden area was."

"In order to find out the location of the Zhou family's forbidden area, your uncle and I passed the preliminary guard assessment to enter the Zhou family when we were young and lurked there."

"Finally, we discovered that as long as we become the Zhou family's blood guard, we can enter the Zhou family's forbidden areas. However, the Zhou family is very strict in recruiting blood guards, and they must have a very clean background."

Hearing this, Qin Chuan suddenly understood

"Dad, that's why you faked your death and made me an orphan and grow up in the Zhou family. An orphan who grew up in the Zhou family since childhood, with such an identity and background, he is innocent enough."

"good! However, just having a clean identity is not enough. If you want to become the blood guard of the Zhou family, you must practice fire skills to the third level, and after entering the forbidden area, you will not be allowed to leave the forbidden area for the rest of your life. The Zhou family did this to protect the confidentiality of the forbidden area."

"Dad, what should I do?"

"The Zhou family recruits blood guards every three years. One year later will be the day when the Zhou family recruits blood guards."

"You must break through your fire energy to the third level within this year, and then join the Blood Guard and enter the Zhou family's forbidden area. If you can't break through to level three within this year, you'll have to wait until the fourth year."

"However, I'm afraid your grandpa won't be able to hold on for that long. In the fourth year, he may explode and die at any time, so for your grandpa's sake, you'd better make a breakthrough within this year."

Hearing this, Qin Chuan was slightly moved.

"Dad, I will work hard! I will definitely break through within this year."

Qing Yunsheng on the side frowned slightly.

"Brother, is it too much for us to ask Tianqi like this? Although he is very talented, it is impossible to break through the bottleneck and reach the third level within this year. Even a genius would need two or three years to break through this bottleneck. Qingyun

Feng said coldly.

"It all depends on people, as long as you do it, there will be hope. If you think it's impossible before you even start doing it, that's equivalent to giving up. If you even give up on yourself, it will naturally become even more impossible to achieve."

"Dad, don't worry! No matter whether I can make a breakthrough within a year or not, I will never give up and I will keep working hard."

"Um! It's good if you think so. As a descendant of the Qing family and the grandson of the head of the Qing family, you bear the expectations of all of us in the Qing family."

"This kind of expectation is an inescapable responsibility for you. For this responsibility, you cannot shrink back even if it costs you your life. Because the blood of our Qing family is flowing in your body, you cannot and should not shrink back, do you understand?"

"father! Tianqi understands!"

Qin Chuan clenched his fists. At this moment, he suddenly felt a little heavy on his shoulders. That was because he knew that he was carrying the expectations of all his people.

"Whether the Qing family can be revitalized depends on me, and I can't let my people down."

Qin Chuan thought silently in his heart

"Dad, I wonder what I should do after entering the forbidden area?"

"After you enter the forbidden area, first find out the location of the Blue Dragon Pearl. We, the children of the Qing family, have a special connection with the Qing Long Pearl. As long as you can get close to it for a hundred meters, you can sense its presence"

"After you find out the specific location of the Azure Dragon Pearl, you can then find a way to inform us of the location of the Zhou family's forbidden area."

"When the time comes, we will all come out to attack the Zhou family's forbidden area and recapture the Blue Dragon Pearl. However, you have to be extremely careful in all this"...

Chapter 1809

"There are many masters in the Zhou family's forbidden area, and the ungrateful ancestor of the Zhou family has been in seclusion in the forbidden area all year round. So you must be extremely careful and don't expose your identity, otherwise you will be in danger"

"Well, Dad, I'll be careful. I wonder when we will rescue our ancestors again after we take back the Azure Dragon Pearl?"

After hearing this, Qing Yunfeng showed a helpless smile on his face.

"It may take many years to rescue our ancestors. We can't act rashly now, otherwise, if that person finds out, our Qing family will be in danger by then if they are still alive."

"If our Qing family wants to take revenge, we must have a ninth-level Dzogchen master. Otherwise, it will be difficult to avenge. So the most urgent thing now is to take back the Blue Dragon Pearl. If there is no Qinglong Pearl, let alone a ninth-level master. It is impossible for our Qing family to even have an eighth-level master. Tianqi, do you understand?"

"Dad, I know!"

Qin Chuan responded in a low voice, but secretly swore in his heart.

Let me avenge the family's hatred!

Is the ninth level perfect?

I must reach that height.

"Tianqi, I've told you everything I need to say. Is there anything else you want to ask?"

Qingyunfeng looked at his son silently

"Dad, I do have a lot of questions in my mind. Since we, the descendants of the Qing family, have outstanding wood-type talents, the other four types of talents are all inferior qualifications. Why are my talents in the three systems of water, wood, and fire all genius qualifications, but only my talents in the two systems of metal and earth are mediocre?"

Qingyunfeng seems to have expected it.

"You finally mentioned this issue. Your water talent is also a genius, which is beyond our expectation. This should be related to your mother."

Speaking of this, Qingyunfeng's expression suddenly became sad, and he thought of the woman in white clothes and snow again.

After a pause, Qingyunfeng continued: "When I met your mother, she was just an ordinary person. There are no doctors who have practiced martial arts. Now that I think about it, she should also be a descendant of a blood descendant family, and one with water talent."

"Only in this way can we explain why your water talent is also a genius. Because you have the same bloodline"

"What is blood inheritance?"

"The so-called common blood inheritance means that both parents are children from different blood inheritance families, but the children inherit the blood inheritance of both parties at the same time, and have outstanding talents in both lines."

"However, the phenomenon of co-blood inheritance is very rare. The vast majority of people can only inherit the bloodline of one of their parents."

"Dad, where is my mother? Where is she now?"

Hearing this, the pain on Qing Yunfeng's face became even more obvious.

"Since your mother gave birth to you, she has been in a deep sleep and has not woken up yet."

"Why? Why is this happening? Qin

Chuan asked excitedly. Although his mother was very strange to him and he had never had his own mother since he was born, he longed to see his mother in his heart.

"This is related to your fire talent. As members of the Qing family, our fire talent is definitely an inferior qualification. With such qualifications, it is absolutely impossible to cultivate the fire energy to the third level before the age of thirty."

"However, if you want to become a blood guard of the Zhou family, you must have cultivated to the third level of the bodyguard before the age of thirty."

"In order to allow you to cultivate the fire element to the third level before you are thirty years old. Before you were born, we integrated a drop of the true blood of the fire-based holy beast 'True Listen' into your placenta using the ancient secret technique of 'Blending Blood and Fetus' to improve your fire-based qualifications."

"However, this 'Blood and Fetus Fusion Technique' will be very harmful to you. If you don't do it right, you will be stillborn."

"However, you were lucky to survive in the end. Your fire qualifications have also been improved. You have reached the genius qualifications since you were born, and you also obtained a talent inheritance of the holy beast 'True Listening' - the Art of Heavenly Listening.'"

Chapter 1810

Have you ever noticed that your hearing has been much better than that of ordinary people since childhood? If you wait until you fully activate this talent inheritance, your hearing will reach a terrifying level."

"However, this kind of change of qualifications that relies on the 'Blending Blood and Fetus Technique' cannot be passed on to the next generation. This is very different from our blood inheritance."

Hearing this, Qin Chuan suddenly realized that he had once been puzzled that his hearing was different from ordinary people, and now he finally understood the reason.

"But what does this have to do with my mother falling into a deep sleep?"

"Of course there is. Diting is a fire-based sacred beast. In ancient times, it was said that it was a divine beast from hell. Its strength was as strong as that of Suzaku. Generally speaking, the true blood of the holy beast contains very majestic energy. When integrated into the human body, it will automatically absorb the person's life essence."

"We took the risk to integrate the True Blood into your placenta. After the integration was successful, it began to absorb your mother's life essence through you."

"Although we gave your mother a lot of medicine to replenish life essence, after giving birth to you, your mother still consumed too much life essence and fell into a deep sleep. She has not yet woken up."

"so what should I do now? So how can we save the mother? Qin

Chuan asked excitedly

"If you want to save your mother, you have to wait until your grandfather reaches the ninth level of cultivation. Ninth-level warriors can know how to defy fate and condense people's essence and soul, and may be able to revive your mother. However, it is still unknown whether your grandfather can cultivate to the ninth level in this life."

Speaking of this, Qing Yunfeng's eyes showed a trace of hesitation and confusion, and the pain became even stronger.

"Regardless of whether your grandfather can cultivate to the ninth level, we must take back the Blue Dragon Pearl. If you can't take back the Blue Dragon Pearl, let alone cultivate to the ninth level, it will be difficult for your grandfather to survive."

"Tianqi, you should understand now how important it is to regain the Azure Dragon Pearl. This is not only for the revitalization of the Qing family, but also for your grandfather and your mother."

"Dad, I understand."

Qin Chuan suddenly felt that the burden on his body became heavier. That was because he had more worries and ties.

"Dad, I still don't understand something. Where did the true blood of Di Ting come from? Di Ting is a holy beast, how can our Qing family have its true blood?"

"Indeed, it is not an exaggeration to say that the True Blood of Tingting is hard to find in a thousand years."

"We will get this drop of truth blood. It was actually obtained by your grandfather in that great adventure."

"Twenty years ago, your grandfather left Tianfeng Continent and traveled to some overseas island countries. By chance, he came to an uninhabited desert island. There is an abandoned temple on that desert island"

"It was in that abandoned temple that your grandfather obtained the True Blood of Listening, and also obtained the ancient secret technique of 'Transforming Blood and Melting Fetus', and also obtained a magical elixir."

"It was because of that pill that your grandfather broke through the bottleneck of the eighth level and turned it into nothingness. Even if he didn't practice, his cultivation level could advance to the eighth level unknowingly. Why! I don't know if this is a blessing or a curse."

"However, something more magical is yet to come. After your grandfather left that desert island, he soon wanted to return again. When he returned to the sea, he found that the desert island had magically disappeared."

"Later, your grandfather secretly inquired and heard a legend among many island countries in the sea. Legend has it that there are thirteen magical netherworld islands floating in the vast sea. The location of each Netherworld Island changes, and there is no fixed location. And there is a temple on every island"

"Legend has it that whoever can understand the mysteries of these thirteen temples will know the biggest secret hidden in the world."

"This legend is very mysterious, and your grandfather didn't pay much attention to it at the time, but since there is True Blood in this temple, the people who built the temple on that island are definitely not simple."

Hearing this, Qin Chuan also felt very amazing. He didn't expect that such a mysterious place and such a legend existed in this world...
