

## God level 181

### Chapter 181

Twenty minutes later, Qin Feng and Chu Chu returned to their residence quietly.

In the room, Chu Chu still had some lingering fears.

Before, when she was chased by the Flower God, she sensed that the Flower God was stronger than Lord Luo Li.

"Brother, will that person come after me?"

"Do not worry! This is an area under the jurisdiction of the alliance. That person doesn't dare to come. After all, he is not from the alliance... Even if he comes, I can sense it in advance.....", Qin Feng smiled and comforted

"That's good!", Chu Chu secretly breathed a sigh of relief, "Brother, what kind of organization does that person belong to?"

"Remember the two guys who were with Lin Jianhao last time? They are together..."

"So, we are being targeted by an organization....."

"At present, they are targeting me alone. However, you have to practice hard and improve your cultivation as soon as possible. They will not give up....."

"Um~! ", Chu Chu nodded obediently.

She also feels some pressure

"Little girl, these are for you!"

Qin Feng casually took out two bottles of Bing Yuan Dan, with about forty or fifty pills.

"Brother, where did this come from?", Chu Chu happily took it

"I got it from that woman's storage ring. Like you, she is also an ice master....."

"whee~! .This is quite advantageous for me! Brother, then I'm going to practice....."

After Chu Chu finished speaking, she left in a hurry.

Seeing that the little girl is so self-conscious, Qin Feng is also very pleased.

Chu Chu has a peerless talent, a large amount of training resources, and the assistance of time ability.

As long as she is willing to work hard, her cultivation progress will be faster than those of peerless geniuses.....

Qin Feng also hopes that she can make faster progress.

Through what happened today, he already knew that he and that organization were completely at loggerheads.

He hoped that Chu Chu would be able to protect herself.

He also needs to strengthen himself.

He remembered that the violinist once said that the strongest man in the future should be born from their organization.

In this case, there may be a Nine-Star Emperor in their organization.....

Thinking of this, Qin Feng suddenly felt pressure.

Then, he began to dispose of Feiying's body and check the information on Feiying's mobile phone.

After a moment, he finished processing everything and his expression became serious.

Through a lot of information, he learned that the name of the organization Feiying and others belonged to was 'Hun'.

The codename of that late seven-star powerhouse is Flower God.

'Emperor Bone' appeared several times in text messages on the mobile phone. They seemed to be waiting for orders from above to assist the upper management in retrieving the Emperor Bone.

He didn't find out exactly how to get it back.

But Qin Feng knew that the so-called emperor bones were the finger bones he got.

"Today, if I were not in a busy city, it would not be easy for me to escape from the Flower Goddess. And they have to send stronger experts over.....It seems that I must break through to five stars as soon as possible....."

Thinking of this, Qin Feng hurried to the training room.....

He wants to improve his strength.

With his current strength, he can only run away when encountering the Flower God, but cannot fight at all, unless he improves his strength.

A few minutes later, inside the secret training room.

Qin Feng took out the four Jing Yuan beads he had just obtained and swallowed them in succession

"Ding! Devouring the Essence Pearl Successfully.....Seven Consciousness Divine Ring Completion Degree 97.5%....."

"Ding! Devouring the Essence Pearl Successfully.....Seven Consciousness Divine Ring Completion Degree 98.4%....."

"Ding! Devouring the Essence Pearl Successfully.....Seven Consciousness Divine Ring Completion Degree 99.2%....."

"Ding! Devouring the Essence Pearl Successfully.....Seven Consciousness Divine Ring Completion Degree 100%....."

Boom~!

It was as if a barrier had been broken through in Qin Feng's mind, and his body shook slightly.

Then, seven silver haloes appeared behind his head, emitting dazzling light and illuminating the entire training room...

A substantial pressure spread out in all directions, covering an area of a thousand meters in an instant.

The villa area suddenly became a sensation.

The big city lords woke up from their meditation one by one and looked towards the direction from which the pressure came with horrified expressions...

The next second, the pressure suddenly disappeared.

But everyone still looked horrified.

Oh my God!

This is mental pressure!

That is one of the signs of the Eight-Star King!

Did Wang Zun pass by the villa area?

When they thought of this, many people came out of the training room in fear and wanted to receive him.

But when everyone came out, they didn't see Wang Zun.

Only then did everyone return to their residences uneasily.....

At the same time, inside the secret practice room.

Qin Feng looked at himself with a happy face.

The Seven Consciousness Divine Ring is finally completed.

His mental power has also undergone qualitative changes, and he has gained many incredible abilities, such as mental coercion.

People who don't know, think he is the Eight-Star King.

Qin Feng smiled slightly.

The next second, a ray of spiritual consciousness emanated from his body, sweeping tens of thousands of meters in an instant...

Wherever the spiritual consciousness passed, everything appeared in his mind, as if he had seen it with his own eyes and heard it with his own ears.

Qin Feng was pleasantly surprised.

Divine consciousness is the mutation of mental power after the Seven Consciousness Divine Ring is produced.

This is much easier to use than Six Senses.

Moreover, only those with eight stars or above can sense the divine consciousness, and other elemental masters cannot sense it at all.

Qin Feng was secretly happy.

He used his spiritual consciousness to scan everything around him and saw Chu Chu practicing. Shangguan Yunyang and Wei Qing were discussing the coercion just now.

Shangguan Zixi and Zhou Tong are playing 3D fighting.

When his consciousness shifted, he saw Zhao Hengfeng next door working on medicine...

There were also many city lords discussing when to return to the base city...

Soon, his consciousness came out of the villa area and saw the night market with people coming and going. , noisy roadside stalls, and karaoke dance halls.....

All the beautiful scenery of the night market and all kinds of life can be seen at a glance.....

Unconsciously, his consciousness swept towards the alliance headquarters.

In just a few minutes, he saw more than a dozen Seven-Star Monarchs one after another, all practicing in seclusion... The alliance headquarters was still very powerful.

Soon, he saw Neptune and a man in a blue shirt.

Qin Feng scanned these two people.

The two of them sensed it at the same time and immediately opened their eyes from meditation.

Qin Feng was shocked.

The man in green shirt is also the Eight-Star King.

Qin Feng withdrew his consciousness in an instant and dared to pry.

The next second, two figures appeared in the sky above the headquarters, it was Sea King and the man in blue shirt.

"King Lu, have you sensed it?" Neptune looked at the man in green shirt.

King Lu nodded: "I sensed it, it's divine consciousness, but it definitely doesn't belong to the King of Heaven!"

"yes! Have you sensed that person's location?"

Neptune looked around. The man's consciousness was too fast, and he didn't sense the specific location.

King Lu shook his head slightly, and he didn't sense it either.

Neptune sneered: "It seems that we have a distinguished guest in our southern capital city, and we don't know. Which one is it?"

King Lu said calmly: "That should be the case!" However, there is an emperor in our southern capital city. Presumably, he didn't dare to be presumptuous!"

"strangeness! How could the King of Eight Stars come to visit and be so sneaky?"

Neptune was a little confused.

Both of them misunderstood Qin Feng as the Eight-Star King.

"hehe!! The Dragon Ruins must be about to open. Some alliances can't sit still. Come to our Southern Alliance to spy on the information.....", King Lu guessed.

Every time the Second Dragon Ruins opens, the seven major alliances and the Deep Sea Clan compete with each other. It is necessary to fight for and fight within the Dragon Ruins.

Moreover, many people will die every time.

Those who are qualified to enter the Dragon Ruins are the elites among the elites of the major forces.

If one of them dies accidentally, the major powers will naturally feel distressed.

Therefore, every time before the Dragon Ruins is opened, the major forces will spy on each other, trying to understand the details of each other's elites so that they can go back and take targeted restraints.

The restraint of elements among elemental masters is still very obvious.

As long as you prepare well, it is not impossible for the weak to defeat the strong.

"That makes sense!", Poseidon nodded in approval.

King Lu said again:"By the way, I heard that His Majesty will be released from seclusion soon. Who are the three places you recommend this time?"

It turns out that each king can recommend three places to enter the Dragon Ruins.

The three kings recommended nine.

At that time, four more people will be eliminated, leaving five people. When

King Lu asked this, King Hai immediately thought of Qin Feng.

He smiled slightly:"Keep it secret for now!"..

## Chapter 182

King Lu smiled and shook his head:"Brother Haiwang, you and I may not be able to take advantage of the selection of candidates this time."

"Oh~? How to say?"

King Lu sighed:"Hey~!" The King of Heaven has many talents at his disposal. The three people he recommended this time should all be in the top five. In other words, you and I can only compete for the remaining two spots....."

Neptune frowned slightly:"This is really troublesome!"

At this moment, the sound of breaking through the air was heard not far away.

More than a dozen Seven-Star Monarchs arrived

"Meet the two kings!"

"I don't know why Wang Zun summoned us?"

All the monarchs saluted one after another.

These monarchs were all just summoned by the King of the Sea and the King of the Land.

"There may be some instability in Nandu City recently. You must strictly control the security of the city and check if anything special has happened recently. You must strictly monitor non-SAARC elementalists.....",King Lu ordered to go down.

All the monarchs agreed one after another.

After a while, everyone dispersed.....

But he said on the other side, in the secret room.

Qin Feng waited for all the movement to disappear before he breathed a sigh of relief.

Then, he took out two skill stones in a comfortable mood

"Ding! Successfully swallow the skill stone and obtain the king-level skill - Memory Stealing (obtain 90% of the target's memory in the last three days)....."

"Ding! Successfully swallow the skill stone and obtain the king-level skill - king-level illusion....."

Ha ha!! I have obtained two more king-level skills!

Qin Feng felt great.

King-level skills can usually only be mastered by eight-star kings.

It is extremely difficult for the Seven-Star Monarch to master one skill, unless there is a great opportunity.

And Qin Feng already has three king-level skills.

A night of silence.

After last night's spiritual consciousness incident, Nandu City's control has become even stricter.

Flower God also dared not act rashly.

Early the next morning, Qin Feng came out of the secret practice room with a satisfied look on his face.

After a night of meditation.

His fifth star pattern completion rate increased from 99.6% to 99.999%.

As long as he wants, he can break through to a five-star elemental master at any time.

However, Qin Feng restrained this idea.

He has not yet completed the four-star god level challenge, so naturally he cannot break through.

Otherwise, you will miss out on a reward.

After breakfast, Shangguan Zixi invited Qin Feng to play 3D fighting.

Qin Feng was also about to go shopping on the Internet when Luo Li came to find him.

In the living room.

Qin Feng sat on the sofa, sipping tea comfortably while admiring the beautiful monarch in front of him.

Luo Li's figure is even better than Feiying's, with uneven features that can't be concealed even if she wears an official uniform.

"What does Master Luo Li want from me?", Qin Feng asked with a smile.

"I have good news for you. His Majesty has agreed to let you practice in the forbidden area.", Luo Li showed a sweet smile.

She was also happy for Qin Feng.

You know, even the Eight-Star King would be excited to enter the Nine-Star Emperor's forbidden area to practice. Although there is only one big realm between Eight-Star and Nine-Star, the difference in strength is huge. It's earth-shaking, like the difference between an ant and an elephant.

The Nine-Star Emperor can give the Eight-Star a little benefit at will, and the Eight-Star can benefit from it for life. Qin Feng is only four-star, and he can receive such treatment.

If the outside world knows, those people will definitely be envious and crazy.

"That's great! When can I go?" Qin Feng felt very happy.

"Just today! but....", Luo Li was about to speak but stopped.

"But what happened?"

"I'm worried about you...."

"What are you worried about me for?", Qin Feng was puzzled.

Luo Li said worriedly: "You are about to go to His Majesty's forbidden area to practice, but your poison has not been cured yet. When the time comes, you will be rude when your toxicity attacks. Your Majesty will definitely think that you are frivolous, and any chance you have of entering the Dragon Ruins may be lost....."

"so serious?" Qin Feng was a little surprised

"Hey~! Because Your Majesty also.....Forget it, you'll know when the time comes....", Luo Li once again hesitated to speak.

"That's strange, haven't you had any toxic attacks during this time? I didn't see you contact me...."

Speaking of this, Luo Li's face turned slightly red.

"no! Otherwise, why wouldn't I contact you? What's more, Lord Luo Li is so beautiful...."

"loquacious!", Luo Li was ashamed and happy.

For some reason, she was a little happy to be teased by this young man.

Then, she worriedly said: "It's a pity that we don't have enough time. Your Majesty only gave you two days to practice, starting from today...otherwise you can still wait...."

Qin Feng shrugged and said helplessly: "You can't force this kind of thing. By the way, you have to wait until the attack occurs to detoxify? Can't it be done when there is no attack?"

"Yes! When there is no attack, the toxins are hidden and cannot be fully released. Forced detoxification has little effect....", Luo Li explained carefully

"That can only be like this. I hope nothing embarrassing will happen in the forbidden area.....", Qin Feng sighed helplessly

"By the way, if I have another attack after I come out, can I still ask Master Luo Li for help?" Qin Feng suddenly thought of this problem.

Luo Li blushed.

At first, she was worried that Qin Feng would cause embarrassment in the forbidden area, so she said she was willing to help this guy.

Now that the toxin problem has not been solved, Qin Feng will enter the forbidden area. Time It was too hasty.

After Qin Feng came out, the essence of the matter changed.

Logically speaking, Qin Feng did not have to worry and could slowly find a female companion, but he still wanted to find himself?

This guy is really...

I don't know why, Luo Li is a little happy

"You guy... let's go! Lord Neptune is waiting for us, don't let Wang Zun wait too long..."

Luo Li blushed slightly, put down the teacup in her hand, and stood up to leave.

"Uh...you haven't told me yet. Can I still ask for your help in the future?"

Luo Li rolled her eyes at Qin Feng, nodded slightly, then blushed, turned around and left...

In fact, she was still worried about another thing.

Qin Feng's toxicity has been delayed for a long time.

The next time it breaks out, it will definitely happen. It would be extremely violent. This was the inertia of that kind of toxin...

She was a little afraid that she wouldn't be able to bear it.

Besides, she had never experienced anything like that before.

Thinking of this, she unconsciously tightened her legs... and At the same time, Qin Feng saw Luo Li agreeing, smiled, and left.....

A quarter of an hour later, Qin Feng saw Neptune.

Inside the luxuriously decorated living room.

Neptune looked at Qin Feng with admiration.

"Qin Feng, Your Majesty has agreed for you to enter the forbidden area to practice. However, you only have two days to practice. How much you can gain depends on your own ability. This is all I can fight for for you.

Qin Feng said gratefully:"Thank you Wang Zun for your cultivation!" The juniors will definitely cherish this opportunity!

Neptune said happily:"It's because of your outstanding talent that you have such an opportunity." Your Majesty will never even take a look at an ordinary genius. Just know how to cherish it"

"Having said that, you are lucky enough to be an elemental master of the same type as His Majesty, so His Majesty's forbidden areas are of great use to you. If you replace it with an elementalist from other departments, it will have no effect....."

These words made Qin Feng seem to understand, but Qin Feng didn't ask any more questions.

"By the way, let me tell you something more serious."

"Wang Zun, tell me!"

"I have told His Majesty that you have dragon power and want to arrange for you to enter the Dragon Ruins. Your Majesty is very happy. However, His Majesty is worried that you will perish in Longxu, so he gave you a minimum requirement.

Qin Feng was curious:"What's the request?"

"Your overall strength must reach the mid-seven-star strength threshold. Otherwise, His Majesty will not allow you to enter!", Poseidon was a little helpless.

Luo Li on the side was shocked.

She said in surprise:"Wang Zun, is this condition too high? I heard that His Majesty will be leaving seclusion in three days. In other words, the wind will reach the mid-seven-star strength threshold in three days. How is this possible? This requirement is too difficult!

Poseidon smiled bitterly:"Your Majesty can't be blamed for this!" The opening of Dragon Ruins this time is different from the past. Luo Li was surprised:"

Is there any difference?"

The King of the Sea sighed:"In the past, the Dragon Ruins were opened only twenty or thirty years apart. This time it started, seventy years have passed since the last time. The longer the time passes, the more treasures are born inside, and the corresponding danger is higher."

"At the same time, the elite talents trained by the major forces to enter the Dragon Ruins will become stronger. If one enters it according to past standards, Seven Stars can barely protect themselves in the early stage. I'm afraid this time it will take mid-seven-star or above....."

"So that's it..."Luo Li suddenly realized.

When Qin Feng heard this, he smiled slightly and didn't worry much.

His current comprehensive strength has reached the mid-seven-star threshold.

"Qin Feng, let's go! Follow me to His Majesty's forbidden land...."

"yes! King Zun!"..

Chapter 183

Before leaving, Qin Feng also asked Luo Li to help take care of Chu Chu.

Luo Li readily agreed.

A quarter of an hour later, Neptune brought Qin Feng to the entrance of the Emperor's Forbidden Land.

The forbidden area is surrounded by high-level barriers, making it impossible for people to see clearly what is inside and blocking people from entering. Even the Eight-Star King cannot forcefully penetrate the barriers.

At this moment, two huge stone statues were lying at the entrance to the forbidden area.

A phoenix and a peacock.

As soon as Neptune and Qin Feng appeared.

The two stone statues seemed to be alive, with their bodies trembling and their eyes glowing silver.

Neptune immediately took out a token

"On your Majesty's order, I send Qin Feng to the forbidden area to practice for two days!"

When the stone statue saw the token, its eyes gradually disappeared.

The barrier light curtain in front automatically opened an entrance.

The King of the Sea immediately led Qin Feng into the forbidden area.

Within the forbidden area, he saw flowers, trees, pavilions, rockeries and flowing water. There are all kinds of things, and the scenery is very beautiful.

But Qin Feng's eyes were attracted by what was in the center of the forbidden area.

It was a white flame that was as high as ten thousand feet, suspended above a huge altar, burning blazingly.

Qin Feng could feel that It is not a real fire, but a kind of pure fire energy, which vaguely contains the power to destroy the world.

But it is isolated by the barrier of the altar.

Otherwise, as long as a trace of energy leaks out, The entire forbidden area will be burned to ashes

"did you see it?", Neptune's gaze indicated the tens of thousands of flames in front of him, "That is His Majesty's Emperor Yan...."

Sure enough!

Qin Feng nodded slightly.

The fire elemental power of the Eight-Star Fire King will be alienated and condense into a ball of strange fire within his body.

And the Nine Star Fire Master can condense the Emperor Yan.

Whether it is strange fire or emperor Yan, they are not real flames, but extremely pure fire energy.

"This time, your place of cultivation is on that altar. Entering the altar, you will feel the benefits of this forbidden place...."

Neptune sighed, with a hint of envy in his tone.

Unfortunately, he is a water elemental master.

Di Yan didn't help him

"By the way, let me remind you. The closer you are to Di Yan, the more benefits you will get. However, don't approach forcefully"

"If you are not strong enough and forcefully approach, even if you are hundreds of meters away from the Emperor Yan, you will be burned to ashes....."

"Generally speaking, six-star strength can only be cultivated from a thousand meters away, and seven-star strength can be practiced close to 500 meters in the early stage....."

"The closer it is to Di Yan, the greater the benefits will be. Specifically, you can experience it yourself. How much benefit you can get depends on your own ability."

Neptune explained in detail

"Thank you Wang Zun for the reminder!"

Neptune said again:"Let me remind you again, you only have two days to practice, so you must seize the opportunity and don't slack off."

"My subordinates understand!"

"good! One last reminder. During these two days, you will be the only one in the forbidden area. You should never act rashly, let alone do anything beyond your capabilities. If you are in danger, no one can save you in time...."

Qin Feng was surprised:"Your Majesty, don't you retreat in this forbidden area?"

"Your Majesty is retreating in another place and will not return here for the time being. Therefore, if something happens to you and His Majesty doesn't know about it, then your death will be in vain. In short, don't be reckless...."

Neptune's many warnings.

He didn't want anything to happen to Qin Feng.

The alliance finally produced such a super genius, so naturally we should cherish it

"Thank you Wang Zun for reminding me that my subordinates have their own sense of proportion!"

"good! Take this token... With it, you can pass through the barrier and enter the altar...."

Neptune handed a token to Qin Feng.

It was a fiery red token with a nine-headed phoenix pattern on the front and a white flame on the back.

Qin Feng took the token and thanked him.

After Neptune explained everything, he left.

After Neptune left, Qin Feng couldn't wait to walk to the altar.

He only had two days to practice, so he couldn't waste it.

In a moment, he walked to the altar and stepped directly in.

The token automatically lit up and enveloped him.

Buzz~!

A clear cry.

The next second, Qin Feng entered the altar.

At this moment, he felt that the surroundings were filled with violent and rich fire energy, as well as extremely high temperatures.

Qin Feng felt that the quality of the fire elemental power was extremely high, comparable to the fire elemental power of a six-star Dzogchen fire elemental master.

If a five-star fire master absorbs such fire power into his body and refines it, he can continuously strengthen the quality of his fire power and thereby enhance his combat power.

Qin Feng walked forward more than ten meters, and the quality of the fire elemental power immediately improved to the level of the early seven-star stage.

Obviously, the closer to Emperor Yan, the higher the quality of the surrounding fire energy.

Qin Feng's eyes lit up.

He understood the benefits of practicing at this altar.

That is to temper your own fire energy.

This is an extremely rare opportunity!

After thinking about this, Qin Feng strode forward.

In the blink of an eye, he was only five hundred meters away from Di Yan.

The quality of the surrounding fire energy has been upgraded to the level of Seven-Star Dzogchen.

This is the limit for those who are strong in the early stage of Seven Stars.

If you go further, the quality of the fire energy will be improved to the eight-star level.

The average seven-star early stage powerhouse simply cannot absorb such powerful fire energy.

Forcibly absorbing it will cause irreparable damage to your body.

In severe cases, spontaneous combustion may occur.

Qin Feng smiled slightly and continued to move forward. five hundred meters.....Four hundred meters...three hundred meters.....

In such a range, the power of the Fire Yuanli has reached the peak of eight stars.

The Seven-Star Dzogchen strongman can hold on here, but he dare not absorb the fire energy.

If they were forcibly absorbed, those fire elemental powers would destroy their internal organs.

Qin Feng did not stop and continued to approach Di Yan.

Two hundred meters...one hundred meters...fifty meters...

Qin Feng finally reached his limit..

Chapter 184

Qin Feng raised his head and looked at Wan Zhang Di Yan in front of him, with boundless fear in his heart.

He felt that if he took another step, he might be reduced to ashes.

In fact, the quality of the fire energy surrounding him has reached the limit of the Eight-Star Great Perfection.

One step further is the quality of fire energy at the quasi-nine-star level.

Even an eight-star fire elemental master must absorb the quasi-nine-star fire elemental power with extreme caution.

Qin Feng took a deep breath and began to sit cross-legged.

At this moment, he had already become bald.

The clothes and hair on his body had spontaneously ignited a few minutes ago and were completely burned.

At this moment, he became completely naked.

Ordinary things simply cannot withstand the high temperatures around them. fortunately!

He is the only one in this forbidden area, otherwise it would be embarrassing.

In order to cover up his shame, Qin Feng turned sand into personal armor.

Not to mention, the changes in the counter-quicksand helped him resist most of the damage from the fire elemental power.

Otherwise, he would not have been able to reach the fifty meters.

Qin Feng looked at the counter-quick sand armor on his body. It had been burned red and would melt if he took another step forward.

At that moment, he calmed down, swallowed a demon core, and began to absorb the fire energy around him.

As soon as the violent fire energy entered his body, the terrifying power was raging in his body...

His internal organs were like a barbecue on a barbecue grill, dehydrating and shrinking at a rapid rate, and even the color of the meat was changing. The direction of barbecue is developing...

A fragrance of barbecue floats out from his mouth...

Damn~! dying!

Qin Feng's face changed with fright.

This is not a god-level challenge space.

If you die, you really die!

Could it be that this time, he played himself to death?!

At this critical moment, the god-level devouring was running rapidly.

The demon core he had swallowed before worked, and the huge energy was quickly repairing his internal organs...

Qin Feng was worried that it was not enough, so he swallowed a few more demon cores...

Gradually, the destruction of the fire elemental power and the repair of the demon power A balance is reached.

Qin Feng secretly breathed a sigh of relief.

All this is within his own plan.

Of course, if there was real danger, he could survive.

He had already thought of a way to survive, which was to directly enter the god-level challenge space.

If he dies there, he can be resurrected.

After resurrection, if he comes out again, as long as he doesn't continue to absorb the fire energy, he will be fine.

He is the kind of person who thinks ahead before doing anything.

Of course, if he was not in a hurry and only had two days to practice, he would not be willing to take such a risk.

But at this moment, Qin Feng could resist the power of fire.

But the internal organs in his body were constantly roasted by the power of fire, which made him sweat profusely in pain and almost fainted from the pain.

That kind of severe pain is simply unbearable for ordinary people.

Qin Feng's perseverance is still extremely strong.

While gritting his teeth and persisting, he slowly absorbed the power of fire and tempered himself.

Gradually, Qin Feng's seven-line Hunyuan power absorbed more and more fire-yuan power, and the fire attribute in the seven lines was continuously strengthened.

It didn't take long for him to reach the early stage of Seven Stars.

His resistance to the power of fire is slowly increasing, and his combat power is also quietly improving.

Two hours later, his fire attribute was strengthened again, reaching the mid-seven-star level, and his combat power was increased to 2.05 million points...

Five hours later, his fire attribute was strengthened to the late seven-star level, and his combat power was increased to 2.15 million points...

Ten Hours later, the fire attribute was strengthened to the limit of Seven-Star Perfection, and the combat power increased to 2.4 million points...

At this time, Qin Feng opened his eyes with a look of joy.

He finally resisted.

Most of the demon cores below six stars in his body were also consumed.

And the fire attribute in his seven-line Hunyuan Power has also been tempered to the extreme.

Although the fire energy around him has the level of eight-star Dzogchen, it can only help him refine it to the level of seven-star Dzogchen at most.

If you want the fire attribute to continue to strengthen, you need stronger fire energy.

Qin Feng took a deep breath and stepped forward, entering the fifty-meter area.

The fire energy at the quasi-nine-star level swept towards him crazily...

If outsiders saw this scene, they would be scared to death.

That fifty-meter area is called the death zone.

Only Eight Star Fire Masters dare to enter.

But Qin Feng actually went in.

Even Neptune would be extremely shocked when he saw this scene.

The moment Qin Feng stepped in, there was a look of extreme pain on his face.

But he resisted.

The next second, Qin Feng swallowed several demon cores and began to forcibly refine them.

Time passed unconsciously.

In a blink of an eye, it was noon the next day.

Qin Feng still has ten hours of practice time left.

He finally broke through.

At that moment, an extremely violent aura of fire energy emanated from his body.

The fire attribute in the seven-series Hunyuan Power has finally been strengthened to the eight-star level, and the combat power has increased to 3 million points.

Ha ha!! It's finally done!

Qin Feng was overjoyed.

3 million combat power!

Now, he can barely compete with the late Seven Stars.

The combat power threshold for the late Seven Stars is 6.5 million.

The seven-star Dzogchen is 10 million points.

(Each of the seven-star realms has a very large combat power span)

The threshold for the eight-star king is 100 million combat power points.

Therefore, there is no king under the eight stars.

Since the birth of the elemental master, there has never been a seven-star who can surpass the eight-star.

No matter how strong the Seven Stars were, they would be instantly killed when they encountered the Eight Stars.

However, the Eight-Star King only has two small realms.

One is the eight-star realm, and the other is the eight-star Dzogchen realm.

All in all, Qin Feng is very satisfied with the current results of his cultivation.

"Ding! It was detected that the fire attribute power in the host's Hunyuan force reached the eight-star level, and the Burning Sky Golden Flame began to evolve....."

"Ding! Congratulations to the host, the power of the Burning Sky Golden Flame has skyrocketed, and it has been promoted to a king-level skill....."

"Ha ha!! Very good!"

Qin Feng was ecstatic.

He finally got a king-level attack skill, which is no longer a purely auxiliary skill.

Now, he can consider completing the god-level challenge and break through to five stars in one fell swoop.

By then, his strength will be Earth-shaking changes..

Chapter 185

Do you want to start the god-level challenge now?

Qin Feng looked at Di Yan in front of him and couldn't help but swallowed.

The surrounding fire energy can no longer strengthen his fire attribute.

This Emperor Yan can continue to strengthen.

It's just that all his demon cores below six stars have been used up.

"Otherwise, I forcibly swallow a trace of Emperor Yan, and then use the six-star demon core to heal the wound...."

The thought of using the six-star demon core to heal his wounds still made Qin Feng very painful.

Demon cores below five stars are available in the market and are not difficult to obtain. They are very suitable for healing wounds.

But six-star demon cores are very rare, and each one is hard to come by.

Qin Feng hesitated.

He was asked to give up Di Yan, but he was a little unwilling to do so!

Better give it a try!

If I miss this opportunity, I don't know when I will have such an opportunity.

Qin Feng calculated the time and found that there were only nine and a half hours left, so he could no longer hesitate.

At the moment, he sat cross-legged and continued to absorb the fire energy around him.

This time, he was not using it to strengthen the fire attribute in Hunyuan Power, but to strengthen his physical body.

Slowly, the counter-quick sand armor on his body shrank, weakened, and then completely disappeared into his body.

In this way, he was completely naked, with all the skin on his body exposed.

Anyway, there was no one in the forbidden area, so he wasn't too worried.

What's more, for the sake of your own big things, you can't be too rigid about trivial matters.

Next, Qin Feng used the surrounding fire energy to continuously temper his skin and body.

Before I knew it, two hours had passed.

His body slowly adapted to the surrounding fire energy and was further strengthened.

His combat power increased by another 50,000 points, reaching 3.05 million points.

Qin Feng opened his eyes and was very satisfied with his results.

Everything is ready, the body has also been strengthened, and the resistance should be stronger.

You should be able to try to absorb Emperor Yan.

As long as he can absorb even a little bit of it, he will make a lot of money.

Qin Feng took a deep breath and walked towards Di Yan extremely carefully.

Poof~!

At this time, a sweet smile like a silver bell suddenly sounded behind him.

Qin Feng was shocked.

He turned around quickly and was shocked.

Behind him, I don't know when there was an extremely beautiful woman in a white dress.

The woman has bright eyes and white teeth, delicate facial features, skin as white as snow, as smooth as jade, not stained by any dust.

The long black hair and white dress were fluttering in the wind, just like the wind returning to the snow, with a fairy spirit.

Vaguely, you can see the slender waist that can be held in one hand, and the long and beautiful legs that show your tallness.

What a nice view!

Qin Feng is amazing!

He has never seen such a beautiful woman!

This woman in white stood right in front of him, but she seemed to have her own light, and everything around her lost its color under her reflection.

Similarly, the moment Qin Feng turned around.

The woman in white was also shocked.

Those beautiful big eyes lit up with light.

This naked bald boy is so handsome!

The temperament is even more extraordinary!

This was the first time she had seen such a handsome young man.

Damn it~! my clothes!

Qin Feng suddenly thought of something, and the sand quickly poured out of his body, forming an ugly pair of shorts, covering his key parts.

Pfft~!

The woman smiled sweetly, her cheeks flushed.

Seeing Qin Feng's embarrassed look, she found it funny.

Having said that, this bald boy's body proportions are simply perfect!

At this moment, Qin Feng was embarrassed and a little depressed.

Didn't Poseidon say that there was no one here?

Why does someone show up now?

Moreover, she is also a woman!

"Who are you....", Qin Feng asked.

Seeing how relaxed this woman was on this altar, it didn't seem simple...

He quickly took a closer look, and there was horror in his eyes.

This woman looks to be about twenty years old, but her cultivation has actually reached the Eight-Star Great Perfection level, which is one level stronger than the King of the Sea, and she is the Eight-Star Great King.

Qin Feng once heard someone say that there are three kings in the alliance, namely the Sea King, the Land King, and the Heavenly King.

Among them, the King of Heaven is the great king of the eight-star Dzogchen.

Both Neptune King and Land King are eight-star kings.

Could it be that this woman is the King of Heaven?

"It turns out that the king has arrived! I have seen the Great King!", Qin Feng saluted respectfully.

The woman in white looked at Qin Feng with interest.

"You can actually see that I have eight-star Dzogchen strength, so your spiritual power is pretty good! When I was your age, I wasn't as powerful as you."

The woman in white admired sincerely

"The Great King has received the award!", Qin Feng smiled modestly, "You should be the King of Heaven of our alliance, right?"

"Am I the king of heaven?" The woman in white showed a mysterious smile, "My name is Yue'er, you can call me Lord Yue'er."

"Um...okay!"

Qin Feng seriously doubted that this woman was the king of heaven.

"Are you the Qin Feng that Neptune mentioned? Neptune keeps praising you and saying you are very good....."

Qin Feng smiled sheepishly: "That's Mr. Neptune's fault!"

But the woman in white said seriously: "I don't think Neptune is right....."

Qin Feng was embarrassed: "....."

The woman in white smiled and said: "I think you are ten times better than he said!"

"Forehead....", Qin Feng couldn't laugh or cry.

This woman didn't finish her sentence at once.

"By the way, you just wanted to absorb Emperor Yan, right?", Yue'er looked at the blazing fire not far away

"I want to try to absorb a little bit.....", Qin Feng didn't hide anything

"Fortunately you didn't absorb it! Otherwise, you will have turned into ashes. Don't say it's you, even if the Eight-Star King is infected even a little bit, he will be seriously injured even if he doesn't die. Only the eight-star Dzogchen strong ones can barely bear it!"

Yue'er's expression is very serious.

"So powerful?!"Qin Feng was a little shocked.

"Of course! Do you think the power of this Emperor Yan is much stronger than the quasi-nine-star fire energy?"

"This is...ten times, right?"Qin Feng expressed his speculation.

Yue'er shook her head slightly:"The power of ordinary nine-star fire energy is ten times that of quasi-nine stars. But this Emperor Yan is the essence of the fire power condensed by His Majesty, and its power is ten times that of the ordinary nine-star fire power."

"In other words, its power is a hundred times that of the quasi-nine fire elemental power. You can only withstand the power of the quasi-nine-star fire energy now. This suddenly increases a hundred times. Do you think you can bear it?"

After hearing this, Qin Feng was shocked.

Fortunately, he did not absorb it.

Otherwise, even if there were six-star demon cores to heal his injuries, he would have to turn into ashes.

Although he could escape into the god-level challenge space and resurrect, the chance of challenge would be lost.

According to the rules, in Resurrecting the mission target once before it dies is equivalent to failing the challenge.

There is still a loss.

"That said, I have no chance with this Emperor Yan.....", Qin Feng sighed helplessly.

He only had nine hours left and no chance to refine it.

Yue'er smiled sweetly:"It seems that you are determined to give up. That's all, we are destined to meet each other. Let me help you!"..

## Chapter 186

As soon as she finished speaking, Yue'er took out a translucent bottle, similar to a crystal bottle.

With a casual move, she pulled out a wisp of Emperor Yan from the tens of thousands of flames like a thread, and then automatically flew into the strange bottle.

This method was so amazing that Qin Feng was stunned.

This Venerable Yue'er looks pure and beautiful on the outside, but his strength is not limited.

"Give this to you....."

Yue'er capped the bottle and handed it over.

Qin Feng took it happily.

He took a closer look and found that the bottle was made of strange material and was not afraid of Emperor Yan.

"The material of this bottle is made of thousand-year-old ethereal jade, which is not particularly precious, but very rare. It can be used to hold many special things, such as Di Yan, Di Yao, etc....."

Yue'er saw that Qin Feng was curious and explained it by the way.

"Thank you, Lord Yue'er!" Qin Feng put it away with satisfaction.

Seeing his happy look, Yue'er smiled sweetly and looked particularly happy.

"Let me remind you, your current strength is not enough, don't think about refining Emperor Yan rashly. When the quality of your fire energy reaches the eight-star Dzogchen level, you can try to refine it....."

Yue'er reminded seriously.

She is still very concerned about the super genius of the Alliance.

"Thank you for the reminder, Your Majesty.....By the way, Venerable Yue'er, can you help me get another copy of Emperor Yan?"

Qin Feng was a little embarrassed.

But if he wanted another portion, it would be of great use, so he had to be shameless.....

"You're greedy..." Yue'er smiled sweetly, "I can help you get another one, but you have to promise me not to forcibly refine it when you are not strong enough. Qin Feng was delighted:"

Sir, this is no problem." Yue'er smiled slightly and took out an ethereal bottle with another casual move.

A moment later, another bottle of Emperor Yan was obtained.

Qin Feng felt secretly happy.

"How about it? Are you satisfied now?", Yue'er asked with a smile.

"Um!", Qin Feng nodded repeatedly.

He felt that Venerable Yue'er was quite easy to talk to this time.

"You are quite interesting. Let me give you another benefit. This is for you....."

Yue'er threw another red crystal stone over.

Qin Feng caught it and took a closer look. The crystal was as big as a ping-pong ball, and its whole body was deep red. The aura it gave off was somewhat similar to the Emperor's Liquid (fire), but it was a hundred times stronger than the Emperor's Liquid (Fire).

"what is this?", Qin Feng was curious.

Yue'er explained with a smile:"This is the emperor's liquid crystal (fire). Often, a pool of Imperial Liquid Slurry will have to undergo decades of precipitation before an Imperial Liquid Crystal can be born. Its value is dozens of times more precious than Imperial Liquid, and its effect is naturally dozens of times better....."

"Then this one is too expensive!"Qin Feng couldn't help but take a deep breath.

Yue'er added:"Generally speaking, the Emperor's Liquid has an effect on elemental masters below six stars. But at the early stage of Seven Stars, the effect of Emperor Flow Serum was only one-tenth. After reaching the middle stage of Seven Stars, it gradually loses its effect. The Emperor's Liquid Crystal is still effective for mid-seven-star and above....."

Qin Feng suddenly realized.

In this way, this imperial liquid crystal becomes even more precious.

"Venerable Yue'er, thank you for taking care of your subordinates. In the future, my subordinates will definitely repay you!"Qin Feng was very grateful.

"OK!", Yue'er was very happy, "I'm very optimistic about you!"

"Okay, it's time for me to go into retreat. You can continue to practice here. It is good to use the fire energy here to temper your body and consolidate the foundation..."

After leaving these words, Yue'er turned around and left with a smile, looking at this woman's slim and slim body. The back view and the fairy-like temperament make Qin Feng feel very good

"By the way, I think people like you are very courageous and like to take risks... I will lock the six senses during retreat. You don't know everything that happens outside. If you take risks like you did just now, no one can save you....."

Before leaving, Yue'er was still worried and turned around to give her instructions.

It is not easy to find such outstanding talents in the league.

She is quite caring

"Do not worry! I will not....."

"That's good~!", Yue'er then left with peace of mind.

In a blink of an eye, she was gone, incredibly fast.

Qin Feng was amazed.

Later, he used the power of fire to temper his body on the altar, but found that it was of little use.

He has reached the extreme

"Is Lord Yue'er gone?"

Qin Feng murmured, and quietly scanned the entire forbidden area with his spiritual consciousness. Sure enough, there was no one.

I guess Venerable Yue'er had gone into seclusion.

At that moment, Qin Feng disappeared out of thin air on the altar.

The next second, his figure appeared. In a spiritual mountain.

Qin Feng was suspended in the air, overlooking the surroundings below.

Huge spiritual mountains were suspended in the air.

When he blinked, he thought they were fairy mountains. Then he looked up at the sky, and saw dark clouds rolling in the sky. The lightnings were like giant blue pythons, rolling and exploding in the clouds. The crackling thunder continued, deafening.

The terrifying momentum was intimidating.

Qin Feng faintly felt that the power of each thunder and lightning was No less than the all-out blow of the Seven-Star Great Perfection.

In fact, this is not the earth world, but the god-level challenge space-Wuwang Lei Realm!

At this moment, Qin Feng is most curious about the spiritual mountain dozens of miles away.

That is where everyone The largest of the Lingshan Mountains.

The crazy thunder in the sky kept hitting the Lingshan Mountain one after another, and they were all at the same position.

Strange!

Why were these thunder and lightning all hitting the same position?

Is there something weird somewhere? ?

Or some kind of peerless treasure?

Qin Feng's eyes lit up and he felt that it was very likely to be a treasure.

He quickly used the super ice concealment technique to hide his breath, and then quietly sneaked towards the lightning strike place.

Along the way, he saw There were many spirit monsters that looked like rhinoceroses and had two horns.

The names of these monsters were thunder beasts. They were born to control thunder and had tyrannical fighting power.

As he approached Lingshan, he saw the thunder beasts that began to transform, all of which had animal heads and human bodies. His cultivation reached six stars or above.

Soon, Qin Feng approached the place where the lightning struck.

It was a valley

At the outer entrance, there were several six-star thunder beast monsters guarding them, each with a serious look on their face, as if they were guarding carefully.

They were unaware of Qin Feng's arrival.

Qin Feng quietly passed through the guards and entered the valley.

I saw a huge thunder pond in the center of the valley.

There is a ten-meter-high sacred tree in the center of the thunder pool.

Crazy thunders left from the sky and directly bombarded the sacred tree.

But not only was the sacred tree undamaged, it also absorbed all the lightning.

After a moment, a dense light blue air mass escaped from the sacred tree and filled the entire thunder pond.

"This is....."

Qin Feng was surprised, looking at the sacred tree, a screen of light popped up in his eyes.

Item name: Lightning strike sacred tree

Category: Rare object (unique), divine item

Notes: It can absorb various low-level thunder energy and convert it into higher quality thunder energy.

Qin Feng's eyes shined.

A unique treasure is definitely the rarest treasure.

There is no other one in the world.

What's more, this lightning strike on the sacred tree is indeed magical.

The quality of the thunder and lightning in the sky is only at the seven-star level.

But after being absorbed by the lightning-struck sacred tree, the quality of the condensed thunder elemental power actually reached the level of Eight-Star Great Perfection.

Qin Feng couldn't help but wonder, if this lightning-strike sacred tree absorbs the thunder energy of the nine-star power, will it create thunder energy that surpasses the nine-star power?

If it could, that would be terrible.

Thinking of this, Qin Feng licked his lips.

He wants to decide on this treasure.

However, he didn't take action immediately and looked to the side of Lei Chi in a blink of an eye.

There was a young man in black, sitting cross-legged next to the thunder pool, absorbing the thunder energy in the pool very carefully to temper and strengthen his own energy.

Obviously, he was very afraid of Lei Yuanli in the pool.

That is the energy comparable to the eight-star Dzigchen level.

He only absorbs a tiny sliver at a time, an almost invisible sliver.

Then she refining with all her strength, her face showed pain from time to time, and her forehead was already covered with sweat.

His refining speed is far inferior to Qin Feng, not even one thousandth of the same.

When Qin Feng saw this, his eyes showed joy again.

His seven-line Hunyuan power is very powerful.

But in terms of the quality of the thunder attribute alone, it is at the four-star Dzigchen level, which is consistent with his cultivation level.

And this pool full of high-quality thunder energy can help him strengthen his thunder attributes!

It seems that his strength is about to improve again!

However...

Qin Feng's eyes turned to the young man in black again, with murderous intent in his eyes...

## Chapter 187

A screen of light flashed across Qin Feng's eyes.

He learned that this young man in black was the son of the Thunder Beast Emperor, also known as the Thunder Beast Prince, who was in the early stage of seven-star cultivation.

It was not the target of this challenge. Qin Feng ignored those.

He quietly sneaked behind Prince Lei, his eyes suddenly lit up with silver light.

Lock the target!

King-level skill - memory stealing!

Start suddenly!

After a while, Qin Feng obtained 90% of the memory of the young man in black in the past three days.

A smile appeared on his lips.

It turns out that this huge spiritual mountain is called Beast King Mountain.

This Thunder Pond Valley is the forbidden area of the Beast Emperor Mountain. Only the Thunder Beast Emperor and the Thunder Beast Prince can enter here to practice.

Among other things, he learned.

There are also thirteen seven-star strong men and about a hundred six-star strong men in this Beast King Mountain, which is the core residence of the Thunder Beast Clan.

The Thunder Beast King is a powerful Seven-Star Dzogchen.

Among the other twelve seven-star experts, there are two late-stage seven-stars, four mid-stage seven-stars, and the rest are all early-stage.

This kind of strength can be said to be extremely strong.

With Qin Feng's current strength, if it were a head-on confrontation, it would be comparable to the late Seven Stars, and would not be the opponent of Seven Stars Dzugchen.

But if he wants to escape, even the powerful Seven-Star Dzugchen will be unable to do anything to him.

Qin Feng smiled slightly, and the sky-burning golden pupils between his brows suddenly opened.

A golden light flashed.

The Thunder Beast Prince instantly sensed movement behind him.

He was so horrified that he instantly condensed a lightning shield to protect his whole body.

But in front of the Burning Sky Golden Flame, the shield was like paper, being penetrated instantly.

Pfft~!

A soft sound!

The Burning Sky Golden Flame penetrated the Thunder Beast Prince's head and killed him on the spot.

Afterwards, the body of the Thunder Beast Prince automatically collapsed, leaving a crystal core of the early Seven Stars in place.

Qin Feng put away the crystal core happily.

The system has enabled advanced exchange, and one crystal core can be exchanged for a demon core of the same level.

This is equivalent to him getting a seven-star early demon core.

He has never swallowed the demon core of Qixing, so he doesn't know the effect.

After clearing the battlefield, Qin Feng's spiritual consciousness scanned the outside of the valley, but the guards outside were not aware of it at all.

He quickly cast a king-level illusion and turned into the appearance of Prince Thunder.

Then, he stepped directly into the thunder pool, frantically absorbed the power of thunder, and began to strengthen his thunder attributes.

The strengthening this time is obviously much faster than when absorbing the fire elemental power.

In less than an hour, Qin Feng's thunder attribute was rapidly strengthened from the four-star perfection level to the seven-star perfection level, and his combat power was also increased to 3.5 million points.

This is already the limit that Lei Chi can strengthen.

Qin Feng looked towards the center of the thunder pool with unfinished thoughts.

That's where the lightning strikes the sacred tree.

Should he take away the Thunder Strike Sacred Tree now?

As long as he finds a more powerful thunder and lightning power in the future, he can use the lightning to strike the sacred tree and condense the thunder elemental power that is comparable to the power of the quasi-ninth grade.

Only this quality of thunder energy can strengthen his thunder attribute to the eight-star level.

Thinking of this, Qin Feng moved and was about to take away the lightning strike tree.

At this moment, there was movement outside the valley.

Qin Feng swept his consciousness and saw the scene outside the valley.

He immediately thought of something and quickly returned to the thunder pool, continuing to disguise himself as the Thunder Beast Prince, pretending to be strengthening the power of thunder.

After a while, a tall and majestic man walked into the valley.

The man looked middle-aged, with two horns on his head and a red line between his eyebrows.

Under that red line, there is a strange eye hidden.

Judging from his facial features, he is very similar to the Thunder Beast Prince.

Qin Feng pretended to be alarmed and looked back

"Father, why are you here?", Qin Feng pretended to ask.

His king-level illusion is difficult to see through even the master of Seven-Star Dzogchen.

Unless the opponent's mental power is very strong, or there is a secret technique to restrain it.

"As a father, I came to check on the progress of your cultivation... How is your recent progress?"

The Thunder Beast Emperor walked to the thunder pool.

Qin Feng looked at him, and a light screen automatically popped up in his eyes.

Name: Thunder Beast Emperor (Lord Level)

Level: 34 (Seven-Star Great Perfection)

Skill: Crazy Thunder Technique (Super Skill, First Kill Can drop skill stones)

Thunder Escape (king-level skill, as fast as lightning, skill stone can be dropped on first kill)

Thunder Punishment Light (king-level skill, needs to be activated by Thunder Punishment Silver Eyes, skill stone can be dropped on first kill)

Weapon: Thunder God Spear, high-grade Yuanwu.

Warning: Extremely dangerous (win rate less than 3%)

Reminder: The Thunder Beast Emperor is a descendant of the Thunder Dragon. If killed for the first time, a drop of true dragon's blood will be dropped.

After Qin Feng read the information, I was horrified in my heart.

This Thunder Beast Emperor was actually a lord-level Seven-Star Great Perfection.

If they faced each other head-on, he would be seriously injured even if he was not instantly killed. If his identity was exposed, he would have no choice but to escape.

However, the Thunder Beast Emperor has a king-level escape method. , as fast as lightning.

After being discovered, he may not be able to escape even if he wants to escape.

There is a limit to the number of times he can teleport, unlike the Thunder Beast Emperor's lightning escape method, which can be used continuously.

He now has the advantage There are only two, one is illusion and the other is invisibility.

If these two are cracked, he will not even have a chance to survive.

Thinking of this, Qin Feng took a deep breath and became cautious

"Father, my cultivation is going well...."

"That's good... Hey! you....", the Thunder Beast Emperor suddenly stared at Qin Feng, "Why are you different today from the past?"...."

The Thunder Beast Emperor was confused.

He vaguely felt that the son in front of him was a little different from before.

If there was any difference, he couldn't tell.

This made him feel a little weird...

Qin Feng's heart thumped, and he secretly thought something was wrong.

This Thunder Beast King was a Lord-level seven-star Dzogchen master, and his mental power was extraordinary after all. He vaguely sensed that... he could no longer doubt it.

Otherwise, you will be exposed

"Father, I am a little different from before. You see....", Qin Feng showed his momentum

"This is.....Ha ha!! It turns out that your strength has improved so much! good! good!"

The Thunder Beast Emperor couldn't help but be overjoyed when he saw Qin Feng's outward momentum.

His son broke through to the early stage of Seven Stars a month ago, and his combat strength was only 2.2 million.

But the momentum Qin Feng just unleashed actually reached 2.6 million points.

This progress is too fast!

The Thunder Beast Emperor was overjoyed and did not dwell on his previous doubts.

But at this moment, a system prompt rang in Qin Feng's mind.

Ding! The god-level challenge mission begins!

Mission content: Within fifteen minutes, kill all six-star or above thunder beast spirits in Lingshan...

Reminder: If you miss any one, the mission will fail!

Damn~!

This challenge mission is still as super perverted as ever!

This six-star spirit monster in Lingshan There are about a hundred of them, and there are thirteen of the seven stars.

Let alone hunting, fifteen minutes is not enough for him to find them all.

Besides, two of the seven stars are late-stage, and he has fifteen minutes. It's hard to say whether he can kill any of them.

Not to mention, there is a Thunder Beast Emperor that he can't defeat at all.

As for using Emperor Bone to deal with six-star spirits, it can't deal with seven-star spirits!

They are not afraid at all!

The system is really to be played. Kill him!

"Ding! The challenge will automatically start after 3 seconds...3...2...1.."

"Ding! The challenge begins! Automatic timing 15:00....14:59....."

Damn it!

Fortunately, I have already thought of a way!

Qin Feng stepped forward quickly:"Father, I have a big secret to tell you..

Chapter 188

"Oh, what secret?!", Thunder Beast Emperor was curious

"Father, this secret is extremely important. Please summon all six-star and above masters to the meeting hall. The sooner the better! If it's too late, we'll miss a huge opportunity....."

Qin Feng looked anxious.

He wasn't all pretending, he was really anxious.

After all, the task time is only 15 minutes

"you....", the Thunder Beast Emperor felt that Qin Feng was a little strange,"What is the secret?"

"I can't explain this at the moment... By the way, Father, don't you think it's a bit strange that my strength has improved so quickly?"

""Uh...", the Thunder Beast Emperor was stunned.

When Qin Feng mentioned this, he suddenly felt a little strange.

Logically speaking, the Thunder Beast Prince would have to practice for at least two or three years to reach this level.

This progress is indeed too fast!

Is it possible, Is it really about some big opportunity?

"Father, I want to tell you a big secret, which is related to the secret of my rapid cultivation. Perhaps, it can help you break through to the level of the Eight-Star King in one fell swoop!", Qin Feng continued to deceive

"What?!"The Thunder Beast Emperor's eyes instantly shone,"Your Majesty, can you really make your father break through to eight stars?"

The Thunder Beast Emperor was so excited that his hands were shaking.

Breaking through the Eight Stars was his lifelong wish!

How could he not be excited!

"There is a high chance of success! However, you and I cannot succeed alone. We need to pool our efforts. Father, please summon me quickly! It's late, it might be too late....."

"Ha ha!! good!!!"

The Thunder Beast Emperor was overwhelmed by this great news.

He suddenly flew into the sky.

"From now on, all experts with six stars or above must gather in the meeting hall! Anyone who has not arrived within ten minutes will be killed!"

The Thunder Beast King's voice instantly resounded throughout the entire Lingshan Mountain.

The subordinates looked at the Beast King in the sky in shock one by one.

It seemed that something important was about to be announced.

The subordinates did not dare to neglect and rushed to the meeting hall.

Then , Qin Feng also followed the Thunder Beast Emperor to the meeting hall.

In less than ten minutes, all the masters with six stars and above gathered.

Looking at the densely packed heads below, Qin Feng was delighted. The first step of the plan was completed.

"Are everyone here?", the Thunder Beast Emperor is sitting on the high throne

"Return to my emperor! Everyone is here!", a seven-star subordinate respectfully reported

"good!"The Thunder Beast Emperor turned to Qin Feng who was standing aside,"Your Majesty, you can announce it now!"

"Yes, Father!", Qin Feng bowed respectfully.

All the spirits and monsters looked at him one after another.

Everyone was a little uneasy.

The Thunder Beast Emperor made such a big noise, and they didn't know what the big deal was.

The next second, all the spirits and monsters saw Qin Feng taking out a White porcelain bottle

"Father, the big secret I want to tell you is related to the fairy liquid in this bottle... Let me give you a demonstration first....."

As Qin Feng spoke, he pushed his illusion skills to the extreme.

I saw him opening the jade bottle and taking a small sip of the fairy liquid inside.

The next second, Qin Feng's aura surged, and he broke through to the mid-seven-star stage in the blink of an eye.

"Seven...seven stars are in the middle stage!"

"Oh My God!"

At this time, all the spirits were extremely shocked.

What kind of fairy liquid was that?

Just a small sip allowed His Highness the Crown Prince to break through to the mid-seven-star stage. This is too terrifying!

Oh~!

The Thunder Beast Emperor suddenly stood up. , looking at the jade bottle in Qin Feng's hand with great excitement

"Huang'er, what kind of immortal liquid are you talking about?....."

The eyes of the Thunder Beast Emperor already had a fiery and greedy light.

Qin Feng looked at the challenge time, and there were only two minutes left.

He immediately said:"Father, I don't know what it is specifically called. However, this fairy liquid may help you break through to the eight-star king realm.".....Father, you can give it a try...."

"good!"The Thunder Beast Emperor excitedly took the jade bottle and was about to take a sip.

At this time, he thought of something again and asked in confusion:"Your Majesty, what does it have to do with this fairy liquid that you asked everyone to come over?"

"Yes, I have!"

Qin Feng quickly explained:"I found a space-time crack, and the fairy liquid flowed out from there. It's just that the space-time crack has begun to close, and everyone needs to concentrate their efforts to break it... There should be more fairy liquid inside....."

These words made all the monsters' eyes light up and they all became excited.

"However, the cracks are closing. We have to get there quickly. If it's too late, the crack will be completely closed and there will be nothing we can do. Father, please quickly drink some fairy liquid to improve your strength...and then take everyone there with you....."

Qin Feng talks about running the train.

Now there are only 30 seconds left before the challenge ends.

After hearing this, the Thunder Beast Emperor was very anxious.

This is no time to waste.

He quickly pulled off the bottle cap and drank the fairy liquid inside.

The moment he drank the fairy liquid.

Qin Feng instantly displayed his super skill - atomized body protection (damage halved).

At the same time, he escaped underground in an instant.

Advanced Earth Escape Technique!

Escape speed is extremely fast!

With just one breath, he escaped dozens of meters below.

And at the moment Qin Feng escaped underground, an extremely terrifying explosion occurred in the meeting hall, which was comparable to a blow from the Nine-Star Emperor.

The terrifying aftermath of the explosion hit Qin Feng through the thick ground, but was blocked by the atomized body and counter-moving sand.

Qin Feng was safe and sound.

It took three full minutes for the shaking on the ground to stop.

Only then did Qin Feng escape from the ground.

All that was seen was scorched earth in a radius of 10,000 meters, and the entire palace was reduced to ashes.

The Thunder Beast King and all the spirits were all dead and turned into ashes. The ground was filled with six-star and seven-star crystal nuclei.

The Thunder Beast King also left behind a high-grade Yuanwu, a strange eye, a super skill stone, two king-level skill stones, and a drop of true dragon essence and blood.

Qin Feng was overjoyed and collected the loot happily.

It turned out that what he had just given the Thunder Beast Emperor to drink was not fairy liquid at all, but Emperor Yan.

With the help of illusion, the Thunder Beast Emperor was completely deceived.

This is also the reason why Qin Feng asked for an extra bottle of Emperor Yan.

## Chapter 189

It took Qin Feng seven or eight minutes to clear the battlefield.

This time, it was fruitful.

The challenge mission was also successfully completed!

Qin Feng was secretly happy.

Then, with a thought in his mind, the power of the seven elements around him, including ice (water), wind, thunder, fire, earth, metal, and wood, surged into his body.

Click~!

There was a soft sound in Qin Feng's body, and the bottleneck shattered.

His momentum skyrocketed, and he broke through to the five-star realm in an instant, and his strength skyrocketed.

His fifth divine pattern has already reached 99.99% and has been suppressed by him.

Now, he can feel free to break through.

The next second, Qin Feng teleported and disappeared out of thin air.

A moment later, he appeared in the thunder pool and took away the lightning-struck sacred tree.

After a few minutes, Qin Feng returned to the earth world.

On the altar of Emperor Yan.

Qin Feng looked at himself excitedly.

Not long ago, he had almost consumed all the loot.

All six-star crystal cores are exchanged for six-star demon cores.

The seven-star crystal core was exchanged for the seven-star demon core.

But as his cultivation level increases, the energy Qin Feng needs to absorb becomes larger and larger.

A six-star demon core only increased his cultivation by 0.2%.

It can increase by 5% in the early stage of Seven Stars, 10% in the middle stage of Seven Stars, 20% in the later stages, and 40% in Dzogchen.

Judging from the data, the six-star demon core is about to lose its effectiveness.

If he wants to speed up his cultivation in the future, he will focus on collecting the seven-star demon cores.

In short, he consumed all the six-star and seven-star demon cores, reached the mid-five-star level (73%), and his combat power increased to 6 million points.

In addition, he also obtained a high-grade Yuanwu - the Thunder God Spear.

And a king-level skill - the lightning escape method.

Now, he has five king-level skills.

Three auxiliary doors, one for attack and one for speed.

His overall strength is completely comparable to the Seven-Star Dzigchen.

This made him very satisfied

"pity! These two can't be swallowed up yet.....otherwise....."

Qin Feng looked at a skill stone and a strange eye in his hand with a look of regret.

That skill stone is a king-level skill - Light of Thunder Punishment.

The strange eye is the Thunder Beast Emperor's silver pupils of thunder punishment.

If you want to learn the light of thunder punishment, you need to strengthen the thunder attribute to the eight-star level first.

Qin Feng's thunder attribute is at the seven-star Dzigchen level, which is not enough, so he cannot swallow these two things.

However, according to the system prompts, as long as he successfully swallows the Thunder Punishment Silver Eyes.

The Thunder Punishment Silver Eyes will merge with the Burning Sky Golden Eyes to form the Eye of Heaven Punishment.

The Burning Sky Golden Flame will also merge with the Light of Thunder Punishment to form the ultimate king-level skill - Divine Punishment Light.

The best king-level skills can generally only be mastered by the eight-star Dzigchen king.

But the divine light of punishment can grow infinitely. As long as the conditions are met, it can evolve into an emperor-level skill, or even a god-level skill that far exceeds the understanding of this world.

Qin Feng has unlimited expectations for this skill.

If given the chance, he would definitely prioritize strengthening the thunder attribute to the eight-star level.

That way, he can immediately possess the Eye of Punishment

"such a pity....."

Qin Feng put away the Thunder Punishment Silver Eyes and Skill Stones before he finished, and went down to the Emperor Yan Altar in a happy mood.

Continuing to stay on the altar won't do much good.

He couldn't refine Emperor Yan.

There are still seven hours left!

Qin Feng looked at the time and saw that there was still time left before the cultivation time given by the emperor.

It's a pity to leave the forbidden area like this!

He looked at the pavilions, small bridges and flowing water not far away. The scenery was very beautiful, and he couldn't help but become interested.

Anyway, the time isn't up yet, so it's not bad for me to take a tour of the forbidden area!

The emperor didn't say that he was not allowed to wander around.

Thinking of this, Qin Feng started to visit arrogantly.

He toured for a while and found that he was really the only one in the entire forbidden area.

His courage grew involuntarily.

Some places that were clearly enchanted were forbidden for people to enter, so he also used teleportation to penetrate them and wander around for a while.

No one saw it anyway, as long as he didn't take the contents.

Not to mention, he actually found something useful.

Qin Feng accidentally discovered a small bamboo building, which was shrouded in a barrier.

But the barrier can't stop spatial teleportation. This may be a BUG.

After he entered, he found that the small bamboo building was similar to a library. There was a lot of information in it, recording various anecdotes and strange places, as well as some suspected secret places.

What surprised Qin Feng the most was that it contained some introductions about Dragon Ruins.

He immediately became interested, bought a few enlightenment stones directly from the system mall, and began to read the information.

The ability to remember the past has come into play.

Time flies.

In the blink of an eye, four hours passed.

In the bamboo building, Qin Feng closed the last book and carefully put it back to its original place, making everything look exactly the same as before, making it impossible to tell that it had been touched.

In just four hours, Qin Feng read all the books in the attic, which increased his knowledge a lot.

He even understood how to break through to eight stars.

In addition, he also learned several small secret techniques.

This time I gained a lot!

Qin Feng left Xiaozhulou with satisfaction

"By the way, the book introducing Dragon Ruins said that dragon power is also divided into levels. The stronger the dragon's power, the more benefits you will get from entering the Dragon Ruins. What level of dragon power am I now?"

Qin Feng stood outside the bamboo building, muttering in his heart.

Then, he thought of something, and when he looked around, there were three drops of pale golden dragon blood suspended in the palm of his hand.

One of these three drops of dragon blood came from the Thunder Beast King, The second drop is a god-level challenge reward.

In addition to dragon blood, this god-level challenge reward also rewards 10 star pattern fragments and 3 super fossils. The absolute freezing technique has been strengthened into super freezing technique.

Advanced soil Escape is strengthened into super earth escape.

Multiple water sword skills are strengthened into three thousand water sword skills...

Nowadays, Qin Feng's lowest skills are all super skills.....

"Ding! Successfully swallowed the blood of the true dragon.....The concentration of dragon blood reaches the standard, and the body begins to transform into a dragon 2%.....Combat strength increased by 200,000....."

"Huh! It can still be like this!"

Qin Feng was a little surprised.

Last time, after he swallowed a drop of dragon blood, there was no such change. It should be that the concentration of dragon blood was not enough.

According to the explanation in the Dragon Ruins information, dragon transformation will not make people turn into dragons, but it can It allows people to have a body as powerful as a real dragon.

In the same realm, humans have always been suppressed by the Starry Sky Beast Clan, but they lose to the body.

The Starry Sky Beast Clan's physical body is extremely powerful.

Even the newly born Starry Sky Beast Clan can ignore it. All kinds of cosmic rays wandered in the starry sky.

And the body of the Dragon Clan was stronger than the Starry Sky Beast Clan.

This time, Qin Feng became excited.

He swallowed the remaining two drops of dragon blood.

"Ding! Successfully swallowed the blood of the true dragon.....Flesh Dragon Transformation 3%.....Combat strength increased by 200,000....."

"Ding! Successfully swallowed the blood of the true dragon.....Flesh Dragon Transformation 4%.....Combat strength increased by 200,000....."

"Ding! The concentration of dragon blood reaches the standard, and the first-level dragon power evolves to the second-level dragon power....."

"This is not bad!"

Qin Feng was pleasantly surprised.

His combat power has increased to 6.6 million points.

Longwei has also reached level two.

This will be of great benefit to him entering Dragon Ruins..

Chapter 190

Qin Feng was very satisfied with what he had just gained

"By the way, there's one thing I haven't used yet....."

He seemed to have thought of something, and took out a red crystal stone from the storage ring, which was the Emperor's Crystal (Fire) given by Venerable Yue'er.

Qin Feng swallowed it in one gulp

"Ding! After successfully devouring the Emperor's Liquid Crystal (Fire), your cultivation will increase by +40%....."

"Ding! Congratulations to the host for breaking through to the late five-star stage (10.3%) and increasing its combat power to 8 million points....."

"Huh! Imperial Liquid Crystal is so easy to use!"

Qin Feng was overjoyed.

An emperor's flow crystal can improve one's cultivation as much as the seven-star Dzogchen demon core.

This made Qin Feng unexpected.

What's more, the emperor's flow crystal can assist in condensing star patterns, but the demon core cannot.

From this On the one hand, the Emperor's Liquid Crystal is much more precious than the Seven-Star Demon Core.

Qin Feng was shocked.

Venerable Yue'er gave him an incredible treasure.

At the same time, he was even more looking forward to the trip to Dragon Ruins.

The Emperor's Liquid Crystal The Emperor's Liquid Crystal is a specialty of Longxu and cannot be obtained elsewhere.

Qin Feng didn't know that every time the Southern Alliance got only a dozen pieces of Emperor's Liquid Crystal from Longxu.

Any piece was extremely precious. It is generally allocated to those who are eight-star or above, and seven-star monarchs rarely have the chance to obtain it.

He is extremely lucky to get one.

Of course, there are many treasures in Dragon Ruins, not just these two.

For example, ordinary dragon blood, and Extremely rare true dragon blood

"Three hours left....."

Qin Feng looked at the time again and decided to continue the tour.

After finally coming in, he naturally wanted to see it all. Who knows if he will have a chance to come in next time.

At the moment, Qin Feng continued to wander.

At this moment, he was in a very good mood.

His combat power has been increased to 8 million points, and he can easily crush most of the Seven Stars.

If he encounters the Flower God again, he can easily kill him.....

At the same time, in the city.

In that luxurious apartment.

The Goddess of Flowers puts his hands behind his back and looks at the sky

"Only six hours left....."

Flora whispered.

According to the announcement above, the Immortal Wood Emperor will arrive at the South Alliance City in another six hours. It is time for him to cooperate with the higher-ups.....

He turned his head and looked towards Qin Feng's residence.

That's the villa.

I wonder where Qin Feng is?

Just yesterday, he reported to his superiors that Qin Feng was probably the one who stole the emperor's bones.....

The upper management accepted his opinion and will focus on Qin Feng this time.....

At the same time, in the Wang Mansion, there was a small courtyard full of exotic flowers and plants.

Neptune is pruning a bonsai leisurely.

Luo Li stood aside.

At this moment, she secretly rolled up her long sleeves and looked at her watch, looking a little anxious.

Neptune smiled and raised his head:"How much longer?"

"There are still three hours left to go back to Wangzun.....", Luo Li answered truthfully

"Well, when the time is almost up, I will pick up Qin Feng.", Neptune put down the scissors in his hand leisurely

"Wang Zun, can I go with you? Neptune smiled and joked:"

You girl are very concerned about Qin Feng recently!"

Luo Li's pretty face turned red:"Wang Zun, this subordinate is concerned about Qin Feng's cultivation progress. After all, the competition to enter Longxu this time is more intense than before. ...."

"This is true!"

Neptune put his hands on his back, and there was a trace of worry in his eyes.

Just yesterday, the King of Heaven brought back several powerful men.

Those are the talents that the King of Heaven has secretly cultivated over the years, in preparation for Dragon Ruins.

King of the Sea observed it , a total of seven people, a seven-star big circle, four late stages, two mid-stages, all of them are no more than a hundred years old.

There is also a hard condition for entering the Dragon Ruins, that is, the human beings are less than a hundred years old, and the deep sea clan is less than three hundred years old..

It's not that humans cannot enter if they are over a hundred years old.

It's that the forces want to give such a great opportunity to talents with talent and potential.

On the earth today, there are many people who have reached the Seven-Star Great Perfection.

But within a hundred years, those who can Those who have reached the Seven-Star Great Perfection are rare, and their talent potential is also stronger.

"The King of Heaven is very ambitious. I think I want all five of his places....."

Neptune felt a little worried.

Within a hundred years, Luo Li is the one who can take action among his many subordinates.

Luo Li is at the peak of the mid-seven-star stage.

But Neptune was completely shocked when he saw Heavenly King's men.

Five of that guy's subordinates within a hundred years old have reached the late seven-star level or above, which corresponds to five quotas.

Although each king can only recommend three candidates, their subordinates can challenge the candidates of other kings.

As long as you are good enough, it is normal to steal the spot.

Because of this, after Neptune saw the candidates for the Heavenly King, he gave Luo Li a piece of Imperial Liquid Crystal (water) that he had treasured for many years.

Now, Luo Li has broken through to the late seven-star stage.

Even so, Neptune was still worried that Luo Li wouldn't be able to keep a spot.

After all, Luo Li had just broken through not long ago, so he had no advantage when facing someone of the same level.

Of course, he was more worried about Qin Feng.

Qin Feng's cultivation level is too low.

If it weren't for Qin Feng being a Fire Element Master, his Emperor's Liquid Crystal (Water) would have been given to Qin Feng

"Wang Zun, do you think Qin Feng can successfully break through to the early stage of five stars this time?", Luo Li asked with concern.

She didn't know why, but she was particularly concerned about Qin Feng's affairs, for fear that Qin Feng would miss the great opportunity to enter the Dragon Ruins.

"This...it's hard to say!", Poseidon sighed slightly, "After all, Qin Feng's training time inside was too short, only forty-eight hours...."

Neptune didn't say a word.

Even if Qin Feng can break through to the early five-star stage, he will only have the strength of the early seven-star stage at most.

With such strength, even if Qin Feng has the power of the dragon, I am afraid that His Majesty will not allow Qin Feng to enter the Dragon Ruins.

After all, there are too many outstanding people appearing this time

"We can't rush this. When the time comes, we will go over and see Qin Feng's progress. I hope that boy can surprise me this time....", Neptune is a little worried

"oh.....", Luo Li looked in the direction of the forbidden area with a worried look.

At this moment, she was worried about another problem.

That is, will Qin Feng's poison of love and desire take effect?

If it happens in a forbidden area, that would be... ugh.....

At the same time, in the forbidden area.

In a peculiar bamboo building, Qin Feng looked at the bathtub in front of him in surprise.

This bamboo building is the most powerful one that Qin Feng found.

He finally got through and found only a bathtub and nothing else, which was strange.

But when he got closer, he was shocked.

The bathtub was filled with Imperial Liquid Slurry (gold), and an Imperial Liquid Crystal (gold) was placed at the bottom of the tank.

A star formation is also arranged around the bathtub to prevent the gold energy in the bathtub from being lost.

As a result, the concentration of gold energy in the bathtub was extremely terrifying, almost a thousand times that of the outside world.

"No wonder our Southern Alliance's imperial liquid (gold) is so rare that you can't even buy it if you want. It turns out that it's all been collected here....."

Qin Feng sighed.

He looked at it and saw that the bathtub full of imperial liquid (gold) should be tens of thousands of milliliters, and its value was immeasurable.

Coupled with the Imperial Liquid Crystal (gold), it is even more amazing.

Such a grand gesture can only be accomplished by the Nine-Star Emperor.

Strange!

Why does Jiutian Phoenix Emperor collect so much Emperor Ooze (gold)?

Qin Feng was a little confused.

He looked at the bathtub for a while, swallowed, and was ready to leave.

Taking it without telling you is called stealing!

He didn't even bother to do it.....

At that moment, Qin Feng turned and left.

But as soon as he walked to the door, a wave of heat suddenly rose from his body.....

Boom~!

Qin Feng's whole body was shocked, and his skin suddenly turned red.

Damn it~!

The poison of love and desire broke out at this moment, and it was extremely fierce, more than ten times stronger than the last time.
