

## God level 1831

### Chapter 1831

"Captain Hao, what's going on here? Why are so many people gathered around?"

Captain Hao smiled and said: "It turns out that the criminal captain is here." There was nothing big going on here, except that the new guard Qin Chuan who had just arrived challenged Vice Captain Wei, and Qin Chuan finally won the challenge."

Hearing this, the criminal captain's expression changed. He quickly looked among the crowd, and soon saw Qin Chuan. A hint of joy flashed in his eyes, and he smiled.

"Qin Chuan, I didn't expect that we would meet again so soon. You are making great progress!"

"The criminal captain deserves a reward! Boy, I have to thank the criminal captain for his love!"

"hehe!!"

The criminal captain laughed dryly, but he was secretly happy in his heart.

He didn't expect this kid to advance to the second level so quickly. I'm afraid Young Master Zhou didn't know about it yet. He went back to inform Young Master Thursday and asked him to implement the plan quickly!

This At this time, Captain Hao asked: "Captain Xing, I don't know why you came to our third escort team? After Captain Hao reminded him, Captain Xing remembered the business and said, "I am following the order of Commander Wei to notify Deputy Wei to see him!"

"What? My eldest brother wants to see me?"

Vice Captain Wei's face showed joy.

"Yes! Vice Captain Wei, let's leave now. Commander Wei is still waiting for us. We'd better get there as soon as possible! Captain Hao, let's take our leave now!"

At that moment, Captain Xing and Deputy Wei left together.

Before leaving, Captain Xing glanced at Qin Chuan with a half-smile.

Captain Hao did not stop them from leaving.

After Captain Xing and others left, , You Hongyu whispered in Qin Chuan's ear

"Judging from the expression on the criminal captain's face just now, he doesn't seem to have any good intentions toward you! You should be careful when you meet him in the future. He is the captain of our Ninth Leader's Fifth Guards, and he is also the confidant of Captain Wei's eldest brother!"

"Um! I see!"

At this moment, Qin Chuan had countless thoughts in his mind. Looking at the direction where the criminal captain disappeared, there was a hint of murderous intent in his eyes.

'Di'Ziying, the ninth leader's mansion.

A middle-aged man in his forties with a dark complexion couldn't help but frown when he looked at Deputy Wei who was coughing in front of him.

"Who injured you like this?"

This middle-aged man is naturally the eldest brother of Vice Captain Wei and the leader of the Ninth Territory, a fourth-level warrior.

Vice Captain Wei coughed violently several times and coughed up some bloodshot eyes.

Seeing these bloodshot eyes, Wei There was a trace of pity in the commander's eyes

"Wei Cheng, what is going on? How did you end up like this?"

Vice Captain Wei hesitated for a while, looking a little embarrassed and said

"Brother, there is a new guard in our third guard team today. The new guard has some talent and is very arrogant. On the first day he entered the camp, he challenged me. As a result, I was no match for him and lost."

Hearing this, Commander Wei showed a look of surprise on his face, and he couldn't believe it.

"You said you were defeated by a new guy? This is unlikely, right? Since you are a newcomer, he has just advanced to the second level. How can he defeat you?"

"The eldest brother doesn't know something. The newcomer is not an ordinary warrior, he is a three-series warrior."

"He turned out to be a three-series warrior, so that's pretty much it. hehe!! These three types of warriors are rare. How is your injury?"

"Brother, my injury doesn't matter. It's just that I failed this time, which is a bit embarrassing for my elder brother."

"snort! Have you embarrassed me enough? What was the name of the new guy who beat you? How old are you?"

Before Deputy Wei could speak, Captain Xing took over the conversation.

"Report to the Commander, I know the newcomer. His name is Qin Chuan, he is about fourteen or fifteen years old. The talent is really high. However, this kid relies on his high talent and often does some arrogant things. When he was preparing the escort camp, he disobeyed Young Master Zhou Zhou."

"How dare he disobey Young Master Si? It seems that this newcomer is really arrogant"

"If I have the opportunity, I will suppress his arrogance and let him know what is the difference between superiors and inferiors and what are the rules. I hope he will not fall into my hands in the future, otherwise I will let him die in an ugly way!"

Hearing the vilification of Qin Chuan by the criminal captain, Commander Wei's impression of Qin Chuan became bad..

Chapter 1832

Vice Captain Wei's eyes also showed joy. He naturally hoped to use his brother's hand to punish Qin Chuan, and he also added jealousy at the moment.

"Brother, the criminal captain is right, that Qin Chuan is indeed very arrogant. As soon as he entered the guard camp, in order to arouse my anger, he verbally abused me, forced himself to sit in my seat, and finally challenged me."

I was so angry with that kid that I lost my hand and was defeated by him. Otherwise, that kid might not be able to win me over. His strength is only on par with me."

"snort! You have the nerve to say that you lost to a fourteen-year-old or fifteen-year-old boy. If you don't feel ashamed, I feel ashamed too. Who told you not to practice diligently on weekdays? Who can be blamed for losing face now?"

Hearing this, Vice Captain Wei lowered his head and said nothing, but his eyes were full of dissatisfaction. At this moment, he felt resentful.

What does it mean that he didn't practice more diligently?

Did he deserve to be ridiculed because he was less talented? ?

Seemingly sensing the dissatisfaction of Captain Wei, Commander Wei secretly shook his head and sighed. He knew his brother's temperament better than anyone else.

"Forget it, I came to you this time because I saw that your cultivation level was about to reach a breakthrough, so I wanted to help you again."

"I have a fire jade lotus seed here that I have treasured for many years. This was more than ten years ago. I accidentally got a few of them during a mission."

"Back then, I relied on this Fire Jade Lotus Seed to successfully advance to the third level. Now I only have this last one left."

"However, although this fire jade lotus seed can help you break through the bottleneck, it only has a 5% chance of breaking through, so you should be more cautious, lay a solid foundation first, and then take it when you are confident enough, so that it can take effect. Give it your best and let you make a breakthrough in one fell swoop!"

Commander Wei still took great care of his younger brother and was very protective of his shortcomings. He fulfilled his brother's responsibilities in every aspect.

"Thank you, brother!" Deputy Wei took the Fire Jade Lotus Seeds excitedly, and his face finally showed joy.

The criminal captain on the side also showed envy.

Although the Fire Jade Lotus Seeds are of no use to him, one Fire Jade Lotus Seed is worth at least two Thousands of gold coins, but they are very precious

"Okay, I have given you the things. You go back to the guard team and practice hard, and strive to break through to the third level as soon as possible. Then I will arrange a captain position for you. Stop having boring fights with others and break through now. The bottleneck is the heaviest to you."

Vice Captain Wei stood there without leaving, with a look of doubt on his face.

"how? Do you still have questions?"

"Brother, I don't want to go back to the Third Guard anymore."

Commander Wei was stunned for a moment, then understood something and sneered.

"yes! You were defeated by a newcomer who just entered the camp. You probably don't have the shame to stay in the original escort team. Then you can go to Captain Xing's escort team for the time being. I will send you a transfer order when the time comes."

"Thank you bro! Big brother still understands my thoughts."

It turns out that Vice Captain Wei had a falling out with Captain Hao on the spot. He felt that he was too shameless to hang out in the Third Guards, so he just broke up and scolded Captain Hao before leaving. On normal days, even though he and Captain Hao would Opposing, but not so directly

"snort! If you can give me a little more credit, break through your cultivation level as soon as possible. By the way, as for the Qin Chuan you mentioned, a newcomer is so arrogant. It's time to sharpen his arrogance."

"It just so happens that some weird things have happened in the northwest mine recently, so let us send some guards who have reached the second level of Dzogchen to go there. I think Qin Chuan's strength has met the requirements, so I'll send him to the mine to guard it for a month!"

The northwest mine mainly mines iron ore, which is one of the main industries of the Zhou family. It has long been guarded by several escort teams from the ninth leader of the 'Di' camp. After hearing this, Deputy Wei became curious. Asked:"Brother, what happened to the northwest mine?"

"Recently, northwest mines have been attacked by ferocious beasts for no apparent reason. Many miners and guards have been killed by ferocious beasts."

"Moreover, the number of ferocious beasts attacking mines has become more and more frequent recently, and the level of ferocious beasts that attack mines is getting higher and higher. Recently, third-level ferocious beasts have begun to appear, and the situation is becoming more and more critical."

Chapter 1833

"Brother, why did the ferocious beast suddenly attack the mine? As far as I know, this has never happened before"

"Generally speaking, as long as there are many people in a place, those ferocious beasts will automatically avoid them and will not attack rashly."

"I don't know this right now. I have so many things going on during this time that I don't even have time to investigate them myself. I wanted to send two more escort teams to increase the defensive strength, but each escort team had its own tasks and could not be mobilized at the same time."

"I had no choice but to draw some good hands from each escort team to go and provide support first. After I finish what I'm doing, I will lead a team over there to see what happened there and why it caused the vicious beast to attack?"

"According to Big Brother, the mine is very dangerous now?"

"good! The situation at the mine is really not good now."

Hearing this, Vice Captain Wei looked happy.

"So, it must be dangerous for Qin Chuan to go there?"

"The field guard mission itself has its own dangers, but they are not as serious as imagined. This commander just wants to take this opportunity to suppress his arrogance. As for whether there will be any danger, it depends on his own destiny. You should go back first. I still have some things to deal with."

At that moment, Vice Captain Wei and Captain Xing resigned to Commander Wei, and they both returned to the camp of the Fifth Guards.

After arriving at the camp, Captain Xing made arrangements for Deputy Wei, and then naturally went straight to the inner courtyard of the Zhou family. He wanted to inform Young Master Zhou about Qin Chuan's advancement to the second level.

In the inner courtyard of the Zhou family, Young

Master Thursday was his residence. After Young Master Thursday and Lin Yue got married, they were reassigned to a large mansion.

At this moment, in the mansion West Courtyard.

Young Master Zhou stood up from his seat in surprise. Standing opposite him was the criminal captain.

"Qin Chuan is back? I heard that he was out on a mission, but there was no news from him for more than seven months. I thought he died outside. Unexpectedly, this little beast was lucky enough to come back alive. Captain Xing, I wonder how that little beast's strength is progressing?"

For Qin Chuan, what Young Master Zhou is most concerned about is his strength. He is most worried that Qin Chuan's strength will develop too fast and exceed his control.

"The fourth young master can rest assured that even though more than seven months have passed, the boy's progress in strength is not very amazing. Only the fire energy has broken through, and the other two systems of energy are still at the first level. The overall strength is only higher than that of the second level Dzogchen peak warrior. Looks a little stronger"

"It's still easy to deal with him."

Hearing this, Zhou Shao breathed a sigh of relief, but he was still a little worried.

"Captain Xing, are you sure that little beast only has this kind of strength?"

"I'm going to make sure, because he had a fight with Vice Captain Wei today. Although the kid won in the end, he also suffered serious internal injuries. I arrived at the end of the fight just in time, and I saw with my own eyes the way the boy was injured."

"Ha ha!! That would be great"

"Captain Xing, we will act according to the long-term plan. In the past two days, I have applied to the clan to transfer Qin Chuan to me as a personal guard. Later, I will find an opportunity to let him leave Fengyan City and come to At that time, I asked the criminal captain to take action personally and help me kill that little beast to relieve the hatred that I had suppressed for so long."

"Fourth Young Master, you're welcome! If he doesn't die, I won't be worried. This time, the captain must remove his head and see if he can be resurrected again."

Speaking of this, the criminal captain showed a sinister look on his face...

## Chapter 1834

The last time Zhou Shao failed to assassinate Qin Chuan, it was a big blow to him and also brought some shadows to him.

The shadow was that he couldn't understand how Qin Chuan was resurrected. This question made him unable to figure it out even if he thought about it too much. Thinking about it too much made him feel like he was going crazy and made him feel uneasy.

It was this uneasiness that made him intuitively feel that there was a crisis. The best way to eliminate this sense of crisis was to kill Qin Chuan and avoid future troubles forever.

"good!! If the criminal captain takes action, I can't see that little beast Qin Chuan jumping around for long!"

"Fourth Young Master, in fact, you don't have to go to the trouble of recruiting Qin Chuan to your side as a personal guard. Now you have a good opportunity to get rid of Qin Chuan!"

"oh? what chance?"Thursday Shao asked curiously

"According to my information, Qin Chuan will be sent to the northwest mine to guard the mine in a few days. The northwest mine is in Broken Ridge Mountain. If he wants to go to the northwest mine, he will definitely leave the city. When the time comes, I can just ambush him outside the city."

"No! Captain Xing, you better not touch him yet."

To Captain Xing's surprise, Young Master Zhou rejected his suggestion.

"Fourth Young Master, why did you give up this good opportunity to deal with him?"Captain Xing was very puzzled.

Young Master Zhou pondered for a while and said:"Captain Xing, actually I want to use Qin Chuan to do something for me, so I can't kill him yet. It won't be too late to kill him after he helps me complete that thing."

The criminal captain glanced at Mr. Zhou Zhou in surprise, and then said

"I understand, then everything should be done according to the previous agreement! I'll take my leave now!"

"good! Captain Xing, I won't give it away!"

After the criminal captain left, Qian Wei, who had been standing behind Young Master Zhou, stepped forward to congratulate him.

"Congratulations to the fourth young master, you finally have a chance to relieve your hatred, and Miss Yuyao will soon become the fourth young master....."

"Ha ha!! Qian Wei, you better understand me! There has been no news about that little beast Qin Chuan some time ago. I thought he died outside. I should be happy that he is dead. But once he died, I couldn't think of any way to deal with Yuyao."

"Now that he is back alive, he must be used first. After I get Yuyao, I will kill that little bastard to satisfy the hatred in my heart."

"Fourth Young Master, there is one thing you must not forget. You must not let the Fourth Young Mistress know about your plans for Miss Yuyao, otherwise it will not end well."

The fourth young lady in Qian Wei's mouth naturally refers to Lin Yue.

As soon as Qian Wei mentioned Lin Yue, Young Master Zhou's face showed anger.

"snort! Don't mention that woman in front of me in the future. That woman has been lukewarm towards me since she married me. If it weren't for the fact that marrying her would help me improve my status within the clan, I would have divorced that woman long ago."

Seeing Young Master Zhou Zhou getting angry, Qian Wei couldn't help but sweat broke out on his forehead, and he still said in a nagging voice: "Fourth Young Master, is there any misunderstanding between you and Fourth Young Madam?"

"Misunderstand? snort! That woman didn't know what was good or bad. I spent so many gold coins to buy a drop of Xuanjing jellyfish for her. What would you say to her?"

"She actually said that she didn't care about her affairs at all, and she didn't do what she promised her. snort! I don't know if this woman is forgetful or deliberately angry."

Obviously, Zhou Shao and Lin Yue still haven't discovered that the drop of Xuanjing jellyfish was tampered with by Qin Chuan...

Chapter 1835

"What's even more hateful is that this woman is very weird. She spent the whole day hanging out with that shabby monkey and collecting ancient documents from everywhere. I just don't understand. She is a girl. She doesn't have kittens or puppies, but she has a monkey as a pet. Isn't this too strange?"

"Fourth Young Master, let me tell you, Fourth Young Madam's hobbies are just a little special, Fourth Young Master shouldn't care too much!"

"Don't care? snort! I told you some things, but you didn't understand them. Anyway, don't mention that woman in front of me in the future. I will get upset just by mentioning her!"

Actually, what really bothered Young Master Zhou was not the trivial matters he mentioned. What bothered him was that on the wedding night, he discovered that Lin Yue was not a virgin.

This incident made him extremely angry.

However, in order to protect himself, he Due to his status in the Zhou family and for his own face, he didn't want to ruin this marriage, so he chose to swallow his anger and be willing to be a green-headed turtle. However, his resentment towards Lin Yue was hard to overcome for a while. Resolved.

This resulted in the two of them rarely speaking together. This was also the reason why they had not discovered that the Xuanjing jellyfish had been tampered with by Qin Chuan for so long.

However, it was precisely because of this resentment that Thursday The young master is even more eager to get Yuyao into bed, as if this is the only way to vent his resentment.

At the same time, in another room in the young master's residence on Thursday.

This room is decorated with fragrance, and it looks like a girl at first sight The boudoir.

In fact, it is Lin Yue's room.

After Lin Yue and Zhou Shao got married, their relationship was not close, so they slept separately and rarely had the same room.

At this moment, in Lin Yue's room.

The Monkey King It returned to its original body shape, and then sat cross-legged on the futon like a human being.

But what was surprising was that a blood-red jade bead was floating in front of it.

If Qin Chuan saw the blood-red jade bead, he would definitely You will recognize that the blood red jade bead is the blood soul bead.

Because Qin Chuan has already obtained two blood soul beads, but people did not expect that the monkey king actually has one.

At this moment, the monkey king is observing the blood soul pearl. Pearl, as if he wanted to see what secret was hidden in it.

After a while, he still didn't see anything, so he had no choice but to put away the Blood Soul Pearl.

"how? Haven't you figured out the secret hidden in this Blood Soul Pearl? Lin

Yue on the side asked curiously

"How can it be so easy to understand? My master once told me that there are seven blood beads in total. These seven blood beads are closely related to the God of War. As long as all seven are collected, the secrets can be cracked and the secrets will be obtained. benefit"

"hehe! This was originally your secret, why did you have to let me know it?"

"Since you want to go with me to find the ruins of the Temple of War, in order to express my sincerity, I will naturally let you know some secrets."

Hearing this, Lin Yue just smiled coldly, and it was unclear how much trust she had in the Monkey King's words.

"By the way, how did you check those documents?"

"I've seen it almost 78 times out of 10! However, without the War God's Order, we won't be able to enter even if we find the temple ruins, so we must find the original boy."

"However, this is a bit troublesome. When we were in Wangyue City, we couldn't find any trace of that kid after extensive searches. We didn't know how he got out of Wangyue City."

Lin Yue was puzzled when she thought about how Qin Chuan left Wangyue City in the first place...

Chapter 1836

"By the way, I have never been clear about the Temple of War you mentioned. What kind of existence is it? Lin

Yue suddenly asked

"I don't know much about the Temple of War. I just heard some things from my master."

"Legend has it that there were three major temples in ancient times: the Wind Temple, the Thunder Temple, and the War Temple. Among them, the War Temple was the strongest."

"Later, I didn't know why. The two major temples of Fengling and Lei joined forces and had a great battle with the War Temple. After the battle, all three major temples disappeared."

"As for the cause of that war, no one knows, but the legend is related to a huge secret, so some people think that as long as the ruins of the three major temples are found, some shocking secrets may be discovered"

"That's why you deliberately went to find the Temple of War? Lin

Yue asked with a chuckle.

"Aren't you unclear about my purpose? Why are you asking so many questions?"

"snort! Stop your delusions now. If you can't find that boy or get the God of War Order, everything is just talk."

"Lin Yue, don't you want to go to the Temple of War? You also know that if you can't go there, you won't live long. You only have twenty years at most."

"snort! You don't need to say this, I know it in my heart!"

"hehe! As long as you know!"

But it was said that Qin Chuan entered the 'di' camp, led the Third Guards in the ninth place, and after defeating the deputy of Captain Wei, he took the position of the deputy of Captain Wei and became one of the deputy captains of the Third Guards.

Captain Hao In accordance with the procedures, Qin Chuan was reported to the team for becoming the team deputy.

Although Qin Chuan is still a newcomer, his strength is obvious to all, and no one has any objection to him becoming the team deputy. Many people still have feelings for him. Awe.

After all, the world of warriors is a world where strength is respected.

At this point, Qin Chuan settled down in the third guard team.

In the room, Qin Chuan simply tidied up, closed the door, and started his training again. Brigade.

Now, Qin Chuan is under great pressure.

Because he knows in his heart that it is very dangerous to sneak into the forbidden area of the Zhou family.

The ancestor of the Zhou family has always been practicing in seclusion in the forbidden area.

The ancestor of the Zhou family is an eight-year-old As a martial artist, with his strength, Qin Chuan would be able to detect any slight movement in the forbidden area.

Therefore, this plan to snatch the Blue Dragon Pearl would definitely be a narrow escape for Qin Chuan.

He wanted to have a chance to survive. Opportunity, the only way is to enhance his own strength more, so Yu Qinchuan is very eager to improve his own strength and does not want to waste a minute. Even so, he still feels that time is too tight and not enough. Use.

After practicing for a while, Qin Chuan opened his eyes, took out the martial arts jade medal of "Fire Element Shield" from the God of War Order, and began to study and study the Fire Element Shield. Unknowingly

, Qin Chuan began to study selflessly. He stayed up all night until it was dawn the next day, and then he stopped.

On the first day in the guard camp, Qin Chuan spent another time practicing.

After a whole night of study, Qin Chuan basically mastered the Fire Element Shield. Mastery.

This Fire Elemental Shield is just a low-level martial skill. It is not difficult to learn. As long as he is given some more time, Qin Chuan believes that he will be able to master it quickly.

"Learning this Fire Elemental Shield has greatly improved my strength! In the future, when facing fourth-level warriors, there will be another way to save one's life."

Qin Chuan is still very satisfied with this Fire Element Shield. It is also the only defensive martial skill he has mastered now.

"Why! It's a pity that I always feel like I don't have enough time!"

Looking at the morning light outside the window, Qin Chuan felt a sense of urgency in his heart.

Then, Qin Chuan hurriedly washed up and rushed to the meeting hall..

Chapter 1837

Looking at the morning light outside the window, Qin Chuan felt another sense of urgency in his heart.

Afterwards, Qin Chuan hurriedly washed up and rushed to the meeting hall.

Unlike the preparatory guard camp, the guard camp must gather for a morning meeting every morning, and some tasks will be arranged during the morning meeting.

There are no such rules in the reserve guard camp.

Because the reserve guard mainly focuses on cultivation, while the duty of the guard is to perform tasks for the Zhou family.

At the morning meeting, Qin Chuan received unexpected news.

The news is that Commander Wei has asked him to go to the northwest mining area to support the security work in the mining area. He will set off today and report to the mining area within the same day.

Qin Chuan was a little surprised when he received this mission. He was given such a mission just the second day after he arrived at the guard camp.

In the past, new guards would take a period of time to adapt, and would only be assigned some simple guard tasks, but would not be assigned such defensive tasks at important strongholds.

Now that there is such an arrangement, someone is obviously targeting him.

Thinking of this, Qin Chuan couldn't help but sneer in his heart.

Ah! Revenge comes so quickly! He just defeated Deputy Wei yesterday, and today Deputy Wei's brother arranged such a task for him.

He didn't have to think about it to know that he definitely didn't have any good intentions. He had to be more careful when he went to the northwest mine.

"Qin Chuan, pack up and set off. The mission requires you to arrive at the northwest mining area today."

"This northwest mining area is in Duanji Mountain, more than a hundred miles away from Fengyan City. If we don't hurry up, we may delay the mission. If you delay a task, you leave others with a mouth to talk about, and they will inevitably use it against you."

"Thank you very much, captain, for letting me know. I understand clearly."

"Um! As long as you understand in your heart, when you go to the mine, you should be more careful and considerate. Captain Hao kindly reminded him. Naturally, he knew that if Qin Chuan suddenly received such a task, Commander Wei must be trying to embarrass him. This made him worried about Qin Chuan.

After bidding farewell to the guards, Qin Chuan briefly After packing up, he set off to the northwest mine.

Before setting off, Qin Chuan did not forget to reserve some dry food and water in the God of War Order. In the commander's camp of the ninth territory, a guard was reporting to Commander Wei.

The deputy of the Wei team was standing there. At the side of Commander Wei

"Report to the Commander, Qin Chuan has received the mission and set off."

"good! I understand, go down!"

Commander Wei responded casually, seeming to regard this matter as a trivial matter.

"yes! Subordinates resign!"

After the guard withdrew, Commander Wei picked up the freshly brewed hot tea on the table and took a sip.

Deputy Wei on the side pondered for a while and said

"Brother, Qin Chuan has just arrived at the guard camp on his second day, and you arranged such a task for him. I think he will definitely suspect that you want to deal with him, and he will inevitably feel resentful towards you. In this case, brother, why not let that kid do it? More dangerous missions, such as going to Fright Ridge"

"snort!"

Commander Wei snorted coldly and glared at him angrily.

"He didn't make any mistakes, how could I place him in such a dangerous place? In this way, anyone can see that I am favoring you, which will inevitably leave people with bad taste."

"Besides, I arranged for him to guard the mining area this time because the mining area needs people, and he also has that kind of strength. More importantly, Qin Chuan is young and frivolous, and he hopes to take this opportunity to sharpen his spirit. After all, this young man is also a rare talent."

Hearing this, Captain Wei showed a look of dissatisfaction on his face, and said unwillingly

"Brother, you are too indecisive to do this. Do you think Qin Chuan can understand your painstaking efforts? I think he only hates you in his heart!"

"alright! Whether he can understand it or not, I don't care. But if you don't practice cultivation, why do you come to me again?"

"I....."

Deputy Wei was speechless for a long time at this question. He came to see his brother this time just to persuade him to give Qin Chuan a good deal, but he seemed unmoved...

Chapter 1838

"snort! Don't think that I don't know what you are thinking. How many times have I told you? You can't be too narrow-minded as a person. Why bother worrying about small things? You should focus on your cultivation and strive to break through to the third level as soon as possible!"

"But, brother....."

Vice Captain Wei wanted to say something more, but was stopped by Commander Wei.

"You go back! I still have a lot of things to deal with, and I don't have time to waste on these trivial matters with you."

"Why!"

Deputy Wei sighed helplessly and had no choice but to turn around and leave.

Commander Wei still looked down at the case file in his hand without even looking at him.

After Deputy Wei left the door, Commander Wei put down the case file in his hand and looked at The retreating figure of Captain Wei showed disgust and disdain in his eyes.

"Waste is waste. After all these years, there is still no progress. snort!"

Commander Wei glanced disdainfully, and then began to ponder alone.

At this time, Commander Wei was the only one in the hall.

Commander Wei thought for a while, then took out a pen, wrote a secret note, and rolled it up. He got up, then took out a carrier pigeon from the cage on the side, tied the secret message to the pigeon's leg, and let it go.

The direction in which the carrier pigeon flew was exactly the direction of the northwest mine.

Looking at the direction in which the carrier pigeon flew, Wei A sinister smile appeared on the commander's face

"Qin Chuan is the second level of Dzogchen. With his foot power, he should be able to arrive this evening. The flying speed of this homing pigeon should be one step faster than him."

After saying that, Commander Wei picked up a case file on the table and read it. The file suddenly contained information related to Qin Chuan.

"hehe!! This kid is only thirteen years old this year, and his fire energy cultivation has already reached the second level. Such talent is truly amazing!"

"In terms of talent alone, he is probably already comparable to the top ten masters of the younger generation in Fengyan City. What's even more surprising is that he is actually a third-line warrior."

Thinking of this, Commander Wei showed a complicated look in his eyes. He slammed one hand on the table, and his fingers penetrated directly through the table.

Originally, he wanted to make friends with Qin Chuan, but his brother and Qin Chuan. There has been a rift between them, and there will be more or less collisions and frictions in the future.

What's more, this Qin Chuan is an arrogant person, and even Young Master Zhou dares to disobey him. It is inevitable that he will not deal with him in the future, or even oppose him.

In this case, it is better to get rid of him before he grows up, so as not to be upset when he sees him in the future.

This trip to the northwest mines should be regarded as the burial place of Qin Chuan!

Thinking of this, Commander Wei There was a trace of ruthlessness and determination on his face. His ability to sit in this leadership position as a foreigner was certainly related to his strength, but more importantly, it was due to his scheming and methods.

He would never allow any threats to him. The existence of people, especially those who may become his strong enemies, he will not hesitate to strangle such people in the cradle.

In the Zhou family, not every guard captain who is promoted to the fourth level can become a leader.

Because the position of commander is very important, the candidates for commander are first given priority to the direct disciples of the Zhou family, and then those disciples with foreign surnames are considered.

Those disciples with foreign surnames who can become commanders are either shrewd and capable, or they are absolutely loyal.

Most of the disciples with foreign surnames who can be promoted to the fourth level have become the third-level worshipers of the worship hall.

The status and treatment of the third-level worshipers are the same as those of the commanders, but they have no real power without soldiers.

But on the other side, Qinchuan gave birth to Feng Yan After entering the city, seeing no one around, he no longer hid his strength and rushed to the northwest mine with all his strength. His speed increased several times.

If he were going at the speed of a second-level warrior, he would not be able to reach this hundred-mile journey until the evening.

But, , Qinchuan arrived at the northwest mine at noon after using his full strength...

Chapter 1839

Northwest mine, inside the guard camp.

The person who received Qin Chuan was a fat middle-aged man in his forties.

This middle-aged fat man is a third-level warrior and Captain Xu, one of the three guard captains guarding the mine.

Captain Xu is one of Commander Wei's most trusted subordinates. He supervises all defense work in the mining area on behalf of Commander Wei. Even the other two captains are under his control.

"My subordinates have met Captain Xu"

"Um! Your name is Qin Chuan?"

Captain Xu glanced at him with disdain. The boy in front of him was too young and his strength was only second level. This made him very disappointed with the people who came to support him.

"Yes! Captain Xu read the mission letter Qin Chuan gave him again, and after confirming it was correct again, he said

"Since Commander Wei has placed you in my escort team, I will arrange your guard duties in the future! You and Lao Wang will carry out the mission to Gangshan in the west tomorrow. Lao Wang, take him down first and make arrangements for him!"

"yes! Qin Chuan, come with me!"

The man named Lao Wang was a guard in his thirties who looked very honest.

At that moment, Qin Chuan followed Lao Wang into the mining area.

After Qin Chuan left, a personal guard next to Captain Xu, stepped forward and said

"Captain, we asked the commander for support. Could it be that the commander arranged such a person for us? I think this guy is not very old! He should be a newly promoted guard. With his appearance, what kind of strength can he have? Even if it is used to recharge, it is not qualified!"

"Forget it, how can you guess what the Lord Commander means? Let's not make any assumptions. Maybe there will be people coming to support later. The commander also said that he will come personally, so we don't have to be anxious."

"Captain, I know you are very loyal to the Commander. It's just that the situation is critical right now. Those ferocious beasts are like crazy, attacking us every now and then. Their strength is getting stronger and their numbers are getting bigger every time. If this continues, I'm afraid we won't be able to defend it!"

Captain Xu was about to say something, but suddenly his expression changed and he looked outside the door.

He saw a white shadow flying in, but it was a carrier pigeon.

This carrier pigeon is one of the commonly used communications methods used by the escort to convey military information. object, so the guard next to him didn't think it was strange when he saw it.

"Could it be that there is a new order from the commander?"

Captain Xu was thinking in his mind as he took off the note from the carrier pigeon's leg and looked at it.

Only halfway through, Captain Xu's eyes twitched slightly, and a strange look flashed across his face.

After he finished reading, He shook his hand and shattered the note, then touched his chin and meditated in the hall.

Seeing Captain Xu's appearance, the guard on the side carefully tested:"Captain, the commander has given new instructions. ?"

When asked by the guard, Captain Xu woke up from his deep thoughts and hurriedly said

"good! The commander told us not to be impatient, he will lead the team in person soon."

Hearing this, the guard breathed a sigh of relief and said:"If the commander can really come, then we will be saved. Captain Xu nodded slightly, and then asked seemingly unintentionally:"How have you been detecting the traces of ferocious beasts outside the mining area these days?"

"Report to the captain, the investigation is almost done. The ferocious beasts that attacked us all came from the Savage Forest area to the west of Broken Ridge Mountain."

"Um! There are many ferocious beasts in the Savage Forest area, so I guess they must have come from there."

"However, I think the traces of this ferocious beast need to be investigated more carefully. If there are not enough manpower, you can call Lao Wang and the new Qin Chuan back to investigate again this afternoon. This matter will be left to you. Be responsible!"

"yes! I'll go say hello to them now."

"good! Go ahead!"..

Chapter 1840

After the guard left, Captain Xu was the only one left in the hall.

At this time, he lowered his head and said to himself:"Why did this new Qin Chuan offend the commander? The commander actually asked me to kill him personally, and he didn't want outsiders to suspect that I was the one who killed him."

"It's really hard to understand. He is just a new guard. Why does the commander care about him so much? No matter, since it is the commander's will, then I will kill this kid. Why! This boy deserves his misfortune, he dared to offend the commander, it is his fault!"

But on the other side, Qin Chuan, led by Lao Wang, entered the mining area.

Along the way, Lao Wang enthusiastically introduced the situation of the mining area to Qin Chuan.

The mining area is quite large, and there are three guard camps stationed in it. There is also a miners camp.

There are about 120 guards and more than 500 miners.

These miners are ordinary people recruited from the vicinity of Fengyan City, and the mining of those minerals depends on these miners.

However, this northwest The mine is located in the Broken Ridge Mountains, close to the Savage Forest, and is often harassed by some ferocious beasts. When encountering those ferocious beasts, miners who are ordinary people are naturally no match for them. Even first-level ferocious beasts can be dealt with by them..

Therefore, guards must be stationed.

Of course, these guards are not only to defend against the ferocious beasts that come to harass, but also to prevent some local forces from robbing these minerals.

The Zhou family attaches great importance to this mining area, not because of the products produced in this mining area. Ordinary iron ore. And because of the iron concentrate produced under the veins. After ordinary iron ore is refined, only ordinary iron is obtained.

This iron can only be used for civilian use, but it cannot be refined into weapons for warriors.

Because ordinary iron ore Weapons made of iron are difficult to withstand the transportation of vitality by warriors and are easy to burst.

However, the iron essence refined from iron concentrate can withstand the transportation of vitality.

Therefore, the weapons used by warriors will be mixed with iron essence. The quality of a weapon depends on the amount of iron essence mixed in it.

However, iron concentrate is very rare and is not generated in every iron ore vein. It is only generated deep in large iron ore veins. Therefore, iron essence is generally more expensive, and the price is dozens of times that of ordinary iron.

The Zhou family is a big family with many children, so it naturally requires many weapons, so this iron essence is an indispensable item for the Zhou family.

However, what worries the Zhou family the most is that among those few iron concentrates, there will still be a very small number of black iron concentrates produced. The black iron essence extracted from this black iron concentrate is the smelting It is one of the indispensable materials for making most spiritual weapons.

Just like Qinchuan's ice sword and fire sword, there is a small amount of black iron essence mixed with it.

This black iron essence is also very precious. Generally speaking, one kilogram It costs about 10,000 gold coins.

When Qin Chuan arrived at the camp where the guards were stationed, he had a general understanding of the mining area from Lao Wang's words.

"Brother Wang, you said that black iron essence is so precious, how much can this mining area produce in a year?"

Qin Chuan is still very curious about Xuan Tiejing. He also wants to get a few pieces and sell them to spend some money.

"hehe! Brother Qinchuan, this Black Iron Essence is very precious and rare."

"In our large mining area, we can only mine more than 300 kilograms of black iron concentrate a year. From these more than 300 kilograms of black iron concentrate, we can only extract a dozen kilograms. Moreover, the extracted black iron essence is kept in the hands of the three captains, and our ordinary guards have never even seen a shadow."

"You can only get a dozen kilograms a year! This Black Iron Essence is indeed rare! Qin

Chuan sighed, secretly thinking that the Zhou family spends so much manpower and material resources, but they don't get much black iron essence every year..
