

God level 1881

Chapter 1881

"Now, God Ama has not come back, but he has sent you, the descendant, back. I hope you, descendant, will once again strengthen the Demon God's seal for the sake of the common people in this world!"

In the view of the high priest, Qin Chuan's sudden appearance from the Holy Land was entirely God's will.

Qin Chuan smiled bitterly and said: "With my current strength, I am no match for the high priest, so how can you help you re-strengthen the seal?"

"Lord Descendants, before Lord Ama left, he said that if he sends his own descendants, let our entire clan listen to Lord Descendants and do everything we can to help Lord Descendants strengthen the seal. Mr. Descendant, if you need anything, just tell me as soon as possible!"

"This..."

Qin Chuan frowned slightly, but he was secretly worried.

What should he do?

If he wants to say that he is not a descendant of the Great God Ama, this old guy will definitely cook him alive, let alone let him go.

If he says that he is a descendant of the Great God Ama and imposes a seal with his current strength, wouldn't that mean he is seeking death? Besides, he doesn't know how to seal it!

By the way, the Great God Ama the High Priest mentioned should be from the Temple of War. Otherwise, the projection of the God of War Order would not show his image.

And these Mokuo people are all physically strong, and it is actually the body-forging method taught to them by the great god Ama.

If this is the case, this great god Ama is likely to He is no longer alive.

Because he once heard the Monkey King say that he wanted to go to the ruins of the Temple of War. Since it has become a ruin, it is estimated that the great god Ama is probably dead!

What should I do? But having said that, if the demon god is really like the great god The priest said it was so cruel, so that the world could be saved from catastrophe, and it should indeed be sealed.

But this sealing technique involves 'rune formations', but I don't know how to do it.

Besides, there are many types of rune formations, I don't know what type of demon seal it is? Maybe I can find a way to strengthen the seal in the ruins of the Temple of War."

Thinking of this, Qin Chuan made a decision in his mind.

At that moment, he said:"High Priest, don't you still have more than a hundred years? Then please give me some more time. My current strength is still too weak. If I want to enter the Holy Land to strengthen the seal, I still can't do anything."

"If I become stronger in my cultivation, I will definitely come back to strengthen the seal so that the demon will never be born again."

Actually, Qin Chuan did not lie. He also planned to find a way to find the ruins of the War Temple after taking back the Blue Dragon Pearl. Then he would naturally look for ways to strengthen the seal from the War Temple.

The high priest nodded. Understand. In fact, he also feels that Qin Chuan's current strength is too weak.

"Lord Descendant, if you want to improve your strength as soon as possible, maybe our clan can help you now."

"Can you help me?"

"Yes! Great God Ama also taught our clan some body-training methods. I think the transformation method used by Descendants is very similar to the transformation methods of our clan. I believe that the techniques practiced by Descendants and our clan are similar. If so, then the following methods can indeed help Mr. Descendants."

"High Priest, what is the solution? Just say it!"

Qin Chuan was very curious.

"I would like to report to you, descendants, that the Great God Ama not only taught us the method of body refining, but also established a 'transformation pool' for our clan."

"Whenever people of our clan reach adulthood, they will enter this 'Transmutation Pond' for baptism. And this pool of transformation will also greatly strengthen the physical bodies of our people. Many people have completed the opening of the first door in the 'pool of transformation'. I think this 'transformation pool' may also be of some help to the descendants."

Hearing this, Qin Chuan was secretly happy.

"Regardless of whether it works or not, you can give it a try!"

"Now that the descendant agrees, please follow me to the clan camp."

At that moment, the high priest took Qin Chuan out of the cave..

Chapter 1882

As soon as they came out of the cave, the high priest summoned the guards and announced something to them, but Qin Chuan couldn't understand it.

After hearing this, the guards all looked excited and looked at Qin Chuan with extremely respectful eyes.

Next, escorted by many guards.

Qin Chuan and the high priest left the valley and entered their Mokuo camp.

The Mokuo tribe's camp was actually established outside the valley.

There are thousands of wooden houses outside the valley, with three floors inside and outside, arranged in a semicircle, surrounding the entrance of the valley.

As a result, unless outsiders break into the Mokuo camp, it will be difficult to discover the existence of the valley entrance, let alone enter the valley and find the entrance to the holy land.

And in the very center of the camp, there is a strange building that resembles both an altar and a pool.

The high priest on the side explained that it was the transformation pool.

When Qinchuan appeared in the camp, the Mokuo people, old and young, outside the valley looked at him, a foreigner, with great surprise.

When they saw that the high priest, who had always been the most noble, was extremely respectful to Qin Chuan, the tribesmen became even more curious about Qin Chuan's identity.

When the high priest announced the identity of the descendant of the Great God Qinchuan on the spot, countless adoring eyes fell on Qin Chuan, which made Qin Chuan feel a little embarrassed.

Then, the high priest invited Qin Chuan into the largest wooden house. Rest, that wooden house is also the residence of the high priest.

Next, after the high priest finished giving some instructions to his people, he chatted with Qin Chuan.

"Sir Descendants, to open this transmutation pool, you need to collect a large amount of Yin evil fruit and holy pool water, and then sacrifice the holy beads to open the transmutation pool."

"Yin evil fruit? Are they those purple-black fruits grown on that high mountain in the Holy Land?"

"Yes! This Yinsha fruit was taught to us by God Ama back then."

"The reason why this Metamorphosis Pond can strengthen the physical body is also because of the medicinal effect of the Yin Evil Fruit and the effect of the Holy Pond water. However, the baptism of this 'Metamorphosis Pond' can only be performed once in a lifetime by the Mokuo people, because it is the first time to experience it. After baptism, the second time has no effect."

At that moment, the high priest explained to Qin Chuan.

After collecting the Yin Evil Fruits, they must first be mashed into pulp, then soaked in the water of the holy pool, and finally use the holy beads to open the 'transformation pool'.

Each one undergoes the adult ceremony baptism All tribesmen will soak in the pool for seven days. How much progress can be made in these seven days depends entirely on how much the individual absorbs the energy in the pool. Some people with better talents often open the first gate in the coming-of-age ceremony.

Next, Qin Chuan chatted with the high priest about something else.

During the conversation with the high priest, Qin Chuan intentionally asked about their method of forging the body.

The high priest did not hide anything and told them everything.

Qin Chuan discovered that what they knew about the refining method The body-building method is only superficial and incomplete, and cannot be compared with his ancient body-forging method.

Obviously, the great god Ama did not sincerely teach them the real body-building method.

However, Qin Chuan is very A surprising discovery was made soon.

The high priest took out a sacrificial text that had been passed down for many generations. After showing it to Qin Chuan, he found that the sacrificial texts were all ancient texts.

Only then did Qin Chuan know that what the high priest and the others said The language was an ancient language, so he couldn't understand it.

It turned out that the language and characters taught to them by the Great God Ama were all ancient languages. At first

, the entire Mokuo tribe learned the ancient characters. Later, due to the limitations of living conditions, Only priests of the past generations can learn writing.

The priests mastered writing only for writing sacrificial inscriptions during rituals, and in fact it has no big effect.

This is also because the civilization of this tribe has never reached the level of widespread dissemination of writing...

Chapter 1883

Qin Chuan thought to himself, according to the Monkey King, if you want to go to the Temple of War, you need to master ancient texts.

I only know about seventy-eight percent of the ancient writings now, and I am worried that I will never be able to master all the remaining ancient writings. Isn't there a good opportunity now?

Thinking of this, Qin Chuan said to the high priest:"High priest, I know all the words in your sacrificial text.""

At that moment, Qin Chuan translated the sacrificial text in front of the high priest.

The high priest became more surprised and more delighted as he listened. He became more certain in his heart that the red-haired boy in front of him was the descendant of the great god Ama. Because foreigners don't know this kind of writing

"High Priest, although I know these words, I don't know them all, and I don't know their pronunciation. I wonder if the high priest can teach me how to pronounce these words?"

Qin Chuan expressed to the high priest that he wanted to learn their language.

The high priest happily agreed on the spot.

In the next few days, Qin Chuan followed the high priest to learn the pronunciation of these ancient characters.

As for that' In the "Huasheng Pond", a large number of Yin evil fruits have been collected. First, they must be mashed into pulp, and then soaked in holy water for fifteen days to soak out all the medicinal power in them before opening the "Huasheng Pond".

Therefore, Qinchuan If you want to enter the Huasheng Pond, you still need to wait for fifteen days.

Qin Chuan took advantage of these fifteen days to learn the pronunciation of ancient characters with the high priest, and at the same time, he also learned the ancient characters that he did not know yet.

Because Qin Chuan He already had a certain foundation, coupled with his photographic memory and the high priest's careful teaching, he learned very quickly, which made the high priest praise him repeatedly. The high priest secretly marveled in his heart.

Lord Descendants, as expected, He is worthy of being a descendant of God!

With such a learning speed, even the younger members of their clan cannot keep up with one or two percent!

In the blink of an eye, fifteen days have passed.

Qin Chuan studies ancient writing with the high priest every day, and Qiuqiu Apart from messing around with him for a while every day and going to bed, he was quite well-behaved.

In order to solve the little guy's food ration problem, Qin Chuan asked the high priest for some fruit, but the little guy didn't eat it at all.

This made Qin Chuan Chuan was confused.

This little guy didn't like to eat meat or fruits, so he only ate metallic spiritual fruits.

But there weren't many spiritual fruits on him, which inevitably made him worry about what the little guy would eat in the future.

Except for this Apart from worrying about things, Qin Chuan also has happy things. After these days of study, he has basically mastered the pronunciation of ancient characters, and can do some simple communication with the Mokuo tribe people, but he is not very proficient yet.

As for writing, Qin Chuan has basically learned all the ancient characters that he didn't know before here.

Overall, there is still a lot of gain.

When the fifteenth day comes, Qin Chuan is ready to enter the 'Transformation Pool' that he has been waiting for for a long time..

His physical strength has already reached the second limit of the human body, but it has yet to reach the saturation state. He also practiced hard for three months in the cave of the holy land, but he did not feel that he had reached the saturation state. If this continues, it will not reach the saturation state.

I don't know when the second door will be opened.

I just don't know if entering the Transformation Pond this time can help him break through the second limit of his body?

Thinking of this, Qin Chuan couldn't help but get excited.

In fact, Qin Chuan was still They underestimated the difficulty of breaking through the second limit.

In ancient times, when physical warriors reached the second human body limit, it would be difficult to break through the second bottleneck without thirty or forty years of accumulation.

And Qin Chuan reached this bottleneck It has only been nearly half a year. Although he has a more superior training environment than ancient body cultivators and can spend a large amount of high-level ferocious beast essence and blood to assist training regardless of the cost, it is impossible to break through in half a year...

Chapter 1884

Based on Qin Chuan's current speed, it would probably take him nearly ten years to break through the second limit of the human body.

As for this time, it is hard to say whether Qin Chuan's entry into the 'Transformation Pool' can help him break through this limit.

"Descendants, the medicinal power of the Transformation Pool is ready for soaking. You can enter the Transformation Pool for baptism at any time!"

The high priest respectfully brought Qin Chuan to the Transformation Pond.

Qin Chuan glanced at the purple-red potion in the pond, and he could clearly sense two majestic energies in the pond.

These two majestic energies It is the two qi of yin and yang.

The yin qi naturally comes from the Yin evil fruit.

The yang qi comes from what the Mokuo people call the holy water.

In fact, this holy water is spiritual water that contains a lot of extremely yang qi. It is the Mokuo people's holy water. The tribe obtained it from the holy spring hundreds of miles away.

As for the holy spring, it is guarded by another tribe of the Mokuo tribe, but Qin Chuan has no chance to see it now.

No wonder this transformation pool can strengthen the physical body, so majestic The absorption of yin and yang energy is naturally many times faster than usual practice.

However, if it is just like this, it is not as magical as the high priest said.

Looking at the effect, it should be similar to the level of refining the essence and blood of eighth-level ferocious beasts."

As if he could see what Qin Chuan was thinking, the high priest on the side smiled and said

"Lord Descendant, this transformation pool has not been opened yet, so naturally you don't know its miraculous effects. When I use the Holy Pearl to open this transformation pool, you will naturally know the wonderful use of this transformation pool."

"good! Then I will evolve into a living pool and give it a try!

At that moment, Qin Chuan said to Qiuqiu, who had been lying on his shoulder these days:"Qiuqiu, please follow the high priest these days. He will give you a lot of delicious food.""

"Gujiguji!"The little guy shook his head vigorously, but he just didn't want to come down.

Qin Chuan shook his head helplessly and said:"Okay! Then I will take you down with me. I wonder if you will get some benefits too? But once you get in, it may take several days to get out, so don't starve."

Thinking of this, Qin Chuan fed it two spiritual fruits, which were its last rations.

Fortunately, the little guy's appetite is not big. Eating these two spiritual fruits can keep it from being hungry for several days.

After Qiuqiu was full, Qin Chuan entered the transformation pool.

The potion in the transformation pool was more than half a meter deep. After Qin Chuan sat down cross-legged, the potion was immersed in his chest, and Qiuqiu was still lying down. On his shoulder, a pair of pure eyes looked at everything around him curiously.

At this time, the high priest kindly reminded

"Lord Descendant, you have to remember. During these seven days, you should absorb as much energy as possible in the pool, and absorb as much as you can. The more you absorb, the more it will help you"

"Once seven days have passed, your body will become resistant to the power of the Yin Evil Fruit. At that time, you will no longer be able to absorb the energy in the pool, so you must grasp the plan for these seven days."

"Thank you High Priest for the reminder!"

"Sir Descendants, my servants are going to use the Holy Pearl to open this transmutation pool!"

After saying that, the high priest took out a blood-red bead.

When he saw the blood-red bead, Qin Chuan's eyes twitched slightly, and he was very surprised.

Because this blood-red bead is the blood soul bead.

This is not Blood beads?

He already has two. He didn't expect that the high priest also has one in his hand.

How many blood beads are there in the world?

Qin Chuan has also experienced the magic of blood beads. In fact, he He was also very curious about this blood bead.

The high priest recited a mantra in the ancient language over the blood bead in his palm.

After hearing this mantra, Qin Chuan's heart moved and he silently wrote it down...

Chapter 1885

As soon as the high priest finished reciting the incantation, the blood-red jade bead suddenly emitted a bright red light and flew directly over the Transformation Pond.

As soon as the Blood Soul Bead flew over the Metamorphosis Pond, the entire medicine pool rippled, and two energies, one black and one white, immediately formed in the medicine pool, which were directly absorbed by the Blood Soul Bead in the air.

These two energies, black and white, are the two qi of yin and yang.

The blood soul bead absorbed the yin and yang energy, and immediately shot out a silver energy beam, pouring directly into Qin Chuan's head.

Qin Chuan was suddenly excited, and then he felt this majestic energy quickly filling his body, and at the same time, he felt an extremely comfortable feeling, like bathing in a hot spring.

Soon, Qin Chuan discovered that this silver energy was very pure essence energy, even purer than the essence energy in his Qi Sea.

This made it effortless for him to absorb.

Unexpectedly, this blood soul bead can directly transform the two qi of yin and yang into the energy of essence, without the need to refine it yourself. In this way, the progress of cultivation will naturally be many times faster.

This discovery surprised Qin Chuan, and he began to absorb this essence energy crazily.

Part of this essence energy was directly integrated into the essence energy mass in Qinchuan Qi Sea, and part was absorbed by his body, constantly strengthening every cell in his body.

As he absorbed these essences, Qin Chuan faintly felt that he was getting closer and closer to breaking through the second gate.

The effect of this transformation pool is indeed very wonderful. It only takes one hour of refining to catch up with his one month of practice.

Unfortunately, it can only be refined for seven days. He must speed up the absorption and try to open the second door within these seven days.

If I miss these seven days, I don't know when I will break through.

Thinking of this, Qin Chuan felt a little anxious.

Now, his most urgent thing is to improve his strength faster, so that he can have one more chance of surviving when he snatches the Blue Dragon Pearl in the future.

Therefore, as long as there is any opportunity to improve his strength, he does not want to give up.

In this way, half a day passed without realizing it.

Qin Chuan found that the essence of the air in the sea of qi was absorbed the fastest, gradually reached saturation, and then began to compress and purify crazily.

And his body is like a bottomless pit, frantically absorbing and storing the essence energy, but it seems that it will never reach a saturated state. This can't help but worry Qin Chuan. If this continues for seven days, he may still not be able to open the second door.

But he said that the high priest was waiting silently.

At this time, a young Mokuo tribesman suddenly came over in a hurry and whispered a few words to the high priest.

The high priest's expression changed slightly, and then he hurried away with the young man.

Although Qin Chuan was concentrating on absorbing these life energy in the transformation pool, he was also listening in all directions. After all, he was in other people's territory, so he had to be more careful.

Just when the young man was looking for the high priest, Qin Chuan also heard what they said.

Fortunately, Qin Chuan has learned the pronunciation of the ancient language in the past few days, so he can understand it.

Unexpectedly, the patriarch and the second priest of the Mokuo tribe came to see the high priest. Looking at the high priest's hurried look, it doesn't seem to be a good thing! He needs to pay attention!

Thinking of this, Qin Chuan listened intently to what they were saying while absorbing the energy of essence.

But he said that the high priest left the transformation pool and walked directly into his residence.

There were already two people inside.

Of these three people, one is a middle-aged man with a majestic appearance, and this middle-aged man is the leader of the Mokuo tribe.

There is also an old man with a gloomy face, who is also the second priest of the Mokuo tribe.

The auras of these two people are not weaker than those of the high priest.

Especially the aura exuded by the middle-aged patriarch is a bit stronger than that of the high priest. Obviously, he is stronger than the high priest..

Chapter 1886

The patriarch and the two priests are stationed in another place all year round, mainly to protect the holy spring.

"High Priest, I heard that you suddenly took in a foreigner? For this foreigner, I used my clan's transformation pool. Could it be that the high priest wanted to join the foreigners?"

As soon as the high priest entered the door, the second priest asked coldly and sinisterly.

The high priest frowned slightly. He and the second priest had always been at odds. This time the second priest suddenly came with the clan leader. I'm afraid things today are not simple.

"Second Priest, what do you mean?"

The second priest sneered: "What do I mean? Can't you understand?" I want to ask the high priest, who asked you to use the transmutation pool, and it was for a foreigner?"

"Patriarch, I feel that the high priest's behavior betrayed our tribe. He is no longer suitable for the position of high priest. I hope the patriarch will punish him!"

Hearing this, the high priest was so angry that his old face turned red: "Cuomo, you....."

"Okay, stop arguing now! The clan leader stopped the two of them and said, "I know that the high priest has always been loyal to our clan and would never commit any treason." Since the high priest is willing to open the transmutation pool for a foreigner, I think there must be a reason for him. I just don't know why the high priest helped an outsider in the clan? The high priest said respectfully: "Patriarch, that young man is not an outsider. He is a descendant of the great god Ama!"

"I heard about this when I came here, so I didn't ask you to stop the operation of the transformation pool immediately. I also want to know whether that boy is a descendant of God? I wonder what the high priest relied on to determine his identity?"

The clan leader asked unhurriedly.

"Patriarch, I see that young man has red hair just like Lord Ama. More importantly, he can also transform the battle body of Great God Ama into madness. The mad transformation of this battle body is higher than the mad transformation of our clan."

"The mad transformation of our clan can only increase the combat effectiveness by about 30%, but the mad transformation of God Ama's battle body can increase the combat effectiveness by 50%. On this point, I think this boy is the descendant of the great god Ama."

As soon as the high priest finished speaking, the two priests next to him sneered.

"Isn't the high priest too hasty? Just relying on the madness of a battle body, do you judge that he is a descendant of the great god Ama?"

"How did I hear that when this young man first came out of the Holy Land, he couldn't even understand the language of my tribe?"

"If he is a descendant of the Great God Ama, how could he not understand the language of our tribe? The languages of our tribe were all taught by the Great God Ama. Besides, if he is a descendant of God, why is he so weak? Not even as good as you and me?"

After being asked such a rhetorical question by the second priest, the high priest found it difficult to refute for a while. In fact, he had already had doubts about these doubts, but he stubbornly believed that Qin Chuan was the descendant of God.

"snort! Second Priest, if you say that young man is not a descendant of God, then how do you explain his transformation into a battle madness?"

"What's so difficult to explain? I now suspect that since this young man came out of the Holy Land, I suspect that he has something to do with the Demon God. With the ability of the Demon God, it is not difficult for him to disguise his fighting body and become berserk."

"snort! If he is really related to the demon god, he should be able to understand our language. Back then, the demon god and our clan spoke the same language."

"This..."

The second priest was stunned for a moment, and then said

"But no matter what, there are many doubts about this young man, and there is no token to prove that he is a descendant of God. Before this, we cannot use the Transformation Pool to baptize him."

"But if you use the metamorphosis pool before you fully understand the identity of the other party, you are acting rashly!"...

Chapter 1887

"Okay, you two, stop arguing!"

The clan leader had no choice but to stop him.

"In fact, what you two said makes sense. There are indeed many doubts about this young man. Whether he is a descendant has yet to be proven, unless he can now produce a token that can prove his identity."

"That's exactly what the patriarch said!"

The two priests also echoed

"However, the leader of this clan believes that even if this young man is not a descendant of a god, he should still have a close relationship with the great god Ama. It's better than this, High Priest, please suspend the operation of the Transformation Pool first and invite him over. After we find out his identity, it won't be too late to open the Transformation Pool for him."

Hearing this, the high priest frowned and said

"Patriarch, you should know this too. There are only seven days for the medicine to take effect after entering the transformation pool. If there is any further delay in this matter, there will be no more seven days, and the effect of the baptism will be greatly reduced. Why not wait until he completes the baptism and then ask?"

The second priest on the side sneered: "Why is the high priest so partial to outsiders?" If he is not a descendant of God, wouldn't everything you have done be in vain to benefit outsiders?

The patriarch also nodded and said, "The second priest is right." High Priest, you'd better stop this transmutation pool first, and then invite the young man over!"

However, Qin Chuan in the transmutation pool, with his abnormal hearing, naturally heard their conversation clearly, and he became anxious at the moment.

He thought he didn't have enough time, but now something like this happened.

Then again, they asked me to take out a token to prove my identity, but I couldn't do it.

By then, let alone using the chemical rebirth pool, I'm afraid it would be difficult to guarantee safety.

Token? That's right!

At this moment, Qin Chuan's heart moved, and he took out the other two blood beads in the War God's Order, and then silently recited the incantation that the high priest had recited before.

As soon as he finished reciting the incantation, the two blood beads in Qin Chuan's hand glowed red. It also flew into the air, and in response to the blood soul bead in the air, it let out a cheerful cry, and the sound spread throughout the tribe.

Then, the three blood soul beads automatically formed the "Heaven, Earth, Man" three-talent formation.

The entire medicine pool also It seemed to be boiling, and dozens of yin and yang qi suddenly rose up. They were absorbed wildly by the Three Talents Formation in the air, and finally transformed into a huge silver energy beam, which directly covered Qin Chuan's entire body, even the one who had been lying on his shoulder. The ball is no exception.

The beam of light is more than ten times thicker than before.

"I didn't expect this to happen!"

Qin Chuan was also greatly surprised. He originally just tried it, thinking that two more blood beads would double the absorption speed, but he didn't want such a change to happen. The light beam was more than ten times thicker than before, with yin and yang. The transformation of the second energy into essence energy was more than ten times faster.

Qin Chuan's absorption speed was naturally more than ten times faster.

This result made Qin Chuan extremely happy.

At this moment, he could clearly feel that his body was rapidly speeding up. It is estimated that the skyrocketing energy will reach saturation and reach the critical point of breakthrough in a short time.

However, the three high priests who were discussing in the house heard the noise outside and quickly came out to check.

When they saw something strange in the sky There was a look of disbelief on their faces

"How could such a phenomenon happen? Hey! Three Holy Beads, how could there be three Holy Beads?"

There was a look of horror on the patriarch's face.

At this time, a guard who had been standing outside said:"Master patriarch, I saw the other two holy beads were released by the descendants."

"Sure enough! It turns out that he is really a descendant! Otherwise, why would he have the Holy Pearl, and two of them!"

The patriarch also began to believe in Qin Chuan's identity.

After hearing this, the high priest's face suddenly showed joy, and he mocked the two priests beside him.

"Second Priest, didn't you say you wanted a token? The holy beads in the sky are tokens. What else do you want to say?"

"this....."

The second priest's face suddenly showed an embarrassed look.

"alright! The leader of this clan believes that there is no need to doubt that this young man is indeed the descendant. High Priest, please arrange for a few people to guard the place so that no one can interfere with the descendant's baptism!"

"Yes, patriarch!"Hey, that's..."

The high priest suddenly looked at Qin Chuan in the Metamorphosis Pool.

He saw another sudden change in the Metamorphosis Pool.

Qin Chuan's whole body suddenly swelled, as if he was going to explode. A circle, and then returned to its original appearance.

After doing this three times, Qin Chuan's body began to spray out blood mist, covering his whole body. The blood mist became thicker and thicker, and finally formed a huge blood cocoon. Qin Chuan finally opened the blood mist in his body

The second gate, 'Blood Sea Gate', begins its second physical evolution..

Chapter 1888

The sun sets and the autumn breeze blows!

The fallen leaves are falling in the forest, and it's late autumn again.

Outside the savage forest, on a big tree, a red-haired boy stood proudly with two swords on his back.

There is also a chubby pet about the size of a cat at the boy's feet.

This young man is naturally Qin Chuan who came out of the Savage Forest.

Today, Qin Chuan has grown two inches taller, his figure has become more slender and straight, and the contours of his face have become more angular. More and more, he has the unique charm of a young man

"It has been more than ten days since we left the Mokuo tribe, and we finally walked out of the savage forest. The new mining area is ahead, Qiuqiu, it's time for me to go back! It's been four months since I left. I wonder how the Zhou family is doing?"

Qin Chuan patted Qiuqiu on the side.

Qiuqiu barked a few times, spit out his pink tongue and licked the back of Qin Chuan's hand.

Qin Chuan smiled and took out a ferocious beast inner elixir.

Qiu Qiu. Qiu Qiu's eyes immediately showed joy, he opened his mouth and swallowed the ferocious beast's inner elixir in one gulp, with a look of anticipation on his face.

Qin Chuan shook his head helplessly

"You have eaten all the ferocious beast inner elixirs along the way. This is the last one, and there is nothing I can do. You little guy is so weird. You don't eat meat or vegetarian. You only eat spiritual fruits and ferocious beast inner elixirs. It's really hard to raise you!"

After breaking through the second gate, Qin Chuan stayed with the Mokuo tribe for a few more days, then said goodbye to the high priest and others on the pretext of finding a way to strengthen the seal, and rushed to the new mining area.

What surprised Qin Chuan was that Savage Lin It was much bigger than he thought.

In addition to being unfamiliar with the environment, it took him thirteen days to walk out of the savage forest.

And during these thirteen days, Qin Chuan also discovered Qiuqiu. Special eating habits.

It likes to eat anything with spiritual energy, whether it is the inner elixir of ferocious beasts or spiritual fruits. It just doesn't like to eat ordinary food.

Generally speaking, the inner elixir of ferocious beasts and ordinary ferocious beasts It is difficult to digest after swallowing.

But after Qiuqiu eats the ferocious beast inner elixir, he doesn't have to worry about being unable to digest it.

Generally speaking, Qiuqiu still prefers to eat metallic inner elixirs and spiritual fruits. After all, it is gold. It is a spirit beast.

Perhaps as a result of eating a lot of ferocious beast inner elixirs and spiritual fruits, Qiuqiu has grown very fast, and now it has grown to the second level.

But its real strength should be stronger than ordinary second-level ferocious beasts..

The ordinary second-level guards of the Zhou family are no longer its opponents, and even those who have reached the second-level perfection may not be able to suppress it.

Of course, these are just the results that Qin Chuan speculated through some detailed observations.

Ball What is the true strength of the ball can only be seen through a real battle.

"Little guy, come up! We're leaving!"

Qiuqiu didn't seem to have eaten enough. He glanced at Qin Chuan resentfully, curled his lips in grievance, and jumped on his shoulder.

Qin Chuan had no choice. He no longer had the evil beast's inner elixir for it to eat, so he could only After he returns to Fengyan City, he can go to the market to purchase some in large quantities.

However, even the inner elixir of a first-level primary ferocious beast costs about a hundred gold coins.

Such an inner elixir would cost Qiuqiu seven dollars a day. Eight.

In other words, this little guy needs to eat at least 700 gold coins a day.

That's more than 20,000 gold coins a month.

Moreover, Qiuqiu's appetite is getting bigger and bigger, and more than 20,000 gold coins a month is definitely not enough.

One Thinking of this, Qin Chuan had a headache.

He only had more than 160,000 gold coins on him, and he had to buy elixirs for himself to practice, and inner elixirs to feed his family. It seemed that he would be under a lot of pressure in the future!

Qin Chuan could only smile bitterly. , the figure flashed, and rushed towards the new mining area. The speed was frightening. Even an ordinary fourth-level warrior may not be able to reach that speed.

Since Qin Chuan opened the second door, his physical power has directly tripled...

Chapter 1889

Now, even if Qin Chuan does not transform, his comprehensive combat power has fully reached the level of a fourth-level warrior, and he is not far away from the peak fourth-level warrior.

However, Qin Chuan only masters pure combat destructive power, and his attacks do not include attribute damage, which is slightly inferior to fourth-level warriors with the same combat power.

But in general, Qin Chuan's strength has fully reached the level of a fourth-level warrior, and he is not weak among fourth-level warriors.

This is still a case of just not transforming.

If he transforms, Qin Chuan's combat effectiveness can reach the level of a fourth-level peak warrior, and most fourth-level warriors are no match for him.

Unless you meet a fourth-level Dzogchen warrior.

In the new mining area, several guards are guarding the entrance of the mining area.

Suddenly, a long-haired boy slowly walked towards the entrance of the mining area.

This long-haired boy is naturally the returning Qin Chuan

"stop! Who is coming? This is the mining area of the Zhou family, and no one can get close to it!"

A guard stopped Qin Chuan immediately.

"This eldest brother, am I also the Zhou family's guard Qin Chuan?"

"Are you Qin Chuan? Didn't you disappear with Captain Xu?"

The guard was very surprised. Although he had never met Qin Chuan, he had obviously heard about Qin Chuan.

"What? Captain Xu is also missing?"

Qin Chuan pretended to be surprised.

"you do not know? We all thought you and Captain Xu disappeared on the same day. We thought you were in danger together.

Qin Chuan said with certainty:"No!" I have always been alone and have never met Captain Xu. By the way, who is responsible for guarding the mining area now? My younger brother, please report your work to him."

"Captain Zhang is now in charge of the mining area. Come with me!"

Inside the mining camp

"Are you Qin Chuan?"

"My subordinate is Qin Chuan!"

The short Captain Zhang squinted his eyes and looked at the young man in front of him carefully. A strange color flashed in his eyes. After a while, he sighed.

"hehe!! It's true that heroes come from young, and little brother Qin Chuan is only fifteen or sixteen years old, right? His cultivation has actually reached the second level of Dzogchen. How amazing! I think it is only a matter of time before I advance to level three."

Since Qin Chuan completed his second physical evolution, in addition to growing taller, his appearance has also become more mature.

This time when he returned to the mining area, Qin Chuan deliberately showed his cultivation to the second level of perfection.

However, even so, Captain Zhang was still shocked when he saw his cultivation level.

Qin Chuan's status in his heart also skyrocketed. According to his judgment, the young man in front of him was definitely a genius, even if he was not as good as the top ten young people in Fengyan City. A master, but not far behind. He will definitely be a famous figure among the Zhou family in the future.

At the moment, he was interested in making friends, and he became enthusiastic about calling Qin Chuan.

"Captain Zhang, you are too polite. The boy just got lucky for a moment and achieved his current level of cultivation. Captain Zhang shook his head slightly: "Is there such a thing as luck in this journey of cultivation?" If you don't have good talent, understanding, and hard work, it is impossible to reach the sky in one step. By the way, brother Qinchuan, what happened when you disappeared last time?"

"Report to Captain Zhang, this is what happened. The last time Captain Chen arranged for us to go on a mission to detect the traces of ferocious beasts, it happened to be the first time that my subordinate came to the mining area that day. He was not familiar with the surrounding situation, so he unknowingly got lost in the savage forest, and was eventually killed by the indigenous people there. Caught alive."

Hearing this, Captain Zhang nodded slightly.

It is entirely possible for the new guard to get lost in the savage forest.

"Then how did you come out in the end?"..

Chapter 1890

Qin Chuan continued to lie: "Those natives imprisoned me for four months, taught me their language, and finally released me inexplicably. As for why they did this, my subordinates don't know.

" Captain Zhang certainly doesn't believe this.

"You said they taught you their language, have you learned it?"

"My subordinates are dull and have only learned a little bit."

"Yeah? Come and listen!"

At that moment, Qin Chuan said a few words in the ancient language.

When Captain Zhang heard this, his brows suddenly widened and he began to believe what Qin Chuan said.

Because the words Qin Chuan just said were the common warnings used by the Mokuo people to foreigners.

This captain is stationed in the new mining area all year round, and sometimes goes to the Savage Forest to hunt some ferocious beasts. Naturally, he has heard these warnings. It is impossible for the new guards to hear them. Qin

Chuan can say them, which shows that he What you say is true

"Brother Qinchuan, I will report your matter to the superiors tomorrow. Speaking of which, you are really lucky. In the past, none of the people who accidentally broke into those savage tribes could come back alive. It's a miracle that you can come back."

Qin Chuan laughed dryly without comment.

"By the way, Captain Zhang, I heard that on the day I disappeared, Captain Xu also disappeared. Is there such a thing?"

"Yes! Captain Xu disappeared on the same day as you. I think he might have been captured by another wave of savages. Unfortunately, he was not as lucky as you. I don't know if he can come back."

"So this is ah!"

Qin Chuan pretended to nod and asked tentatively.

"Captain Zhang, should I continue to stay in the mining area this time, or should I return to the original escort team to report. Should this matter be reported to Commander Wei first?"

Qin Chuan deliberately mentioned Commander Wei, just to inquire about the situation after the fight for the pet eggs that day.

Sure enough, when Commander Wei was mentioned, Captain Zhang shook his head and sighed.

"Brother Qinchuan, there is no need to report this matter to Commander Wei. Our ninth territory has a new leader. The new commander has already issued an order. If the missing person returns, he will report directly to the headquarters. There is no need to stay here."

"Captain Zhang, why did my ninth leader change his leader? Where did Commander Wei go?" Qin Chuan continued to inquire.

"This is strange to say. As you know some time ago, you were sent here to support the guards because ferocious beasts frequently attacked our mining area. Later I found out that it was because there was a passage under the mining area and a strange treasure was born in the passage, which caused the ferocious beast to move strangely."

"On that day, Commander Wei, Captain Xing, and Deputy Wei went down to hunt for treasures, but these three people did not come back for a long time after going down."

"Finally, we took people down and discovered that these three people had disappeared a long time ago. When we found two large pits in the underground passage, there were many traces of fighting and blood around them, but there were no bodies at the scene."

"It is speculated that Commander Wei may have led an uprising when he saw Bao, and together with his younger brother, Deputy Wei, killed the execution captain, threw the execution captain into the abyss, and then the two ran away with the treasure. This incident made the superiors very angry, and they have already issued a wanted order for Commander Wei and Deputy Wei."

Hearing this, Qin Chuan breathed a sigh of relief. It seems that the Zhou family didn't know the truth about the fight for the pet eggs, and no one would suspect him. The Wei brothers still took the blame in the end.

"There is such a thing!"

Qin Chuan pretended to sigh and said again

"In this case, I will take my leave now, and I will report back to the headquarters tomorrow!"

"good! Then I will order someone to arrange a place for you."

After that, Captain Zhang arranged for a guard to take Qin Chuan down to rest...
