

God level 1911

Chapter 1911

On the other side, Qian Xing followed Mr. Zhou Zhou

"Fourth Young Master, the little monkey next to Fourth Young Mistress, I haven't seen anything special about it before, but today I saw it was really weird."

Hearing this, Master Zhou calmed down a little, thought for a moment and said

"You are right. I want to snatch the gold box from it today, but the monkey is very sensitive and I can't get it at all. From the looks of it, this monkey is at least a second-level ferocious beast."

"I couldn't tell that Lin Yue was capable of this, so I wondered if she was the one who instigated this? Money punishment, what do you think?"

Cold sweat broke out on Qian Xing's forehead. He didn't dare to draw random conclusions about such a matter. He hesitated for a while and then said

"Fourth Young Master, maybe you have misunderstood Fourth Young Madam. If she wanted to give instructions, she would have done it long ago, and she didn't have to wait until today"

"Besides, you are husband and wife, and it will not do her any good if Fourth Young Mistress treats you like this! Therefore, the subordinate believed that it should be the behavior of the little monkey himself. It is not uncommon for pets to betray their owners."

"snort!"

Zhu Shao sneered.

"No matter how many there are, we must catch that wild monkey. It's just that I'm a little strange. How did this wild monkey bite through my secret cabinet?"

.....

But Qin Chuan, in the name of searching for the Monkey King, went directly out of the inner courtyard, found a remote corner in the outer courtyard, and started practicing.

He didn't want to waste time on a pointless search.

Of course, he is the only one who knows the truth about the whole thing.

Unknowingly, Qin Chuan practiced all night and made some progress in his cultivation.

After dawn, Qin Chuan returned to the inner courtyard to report to Master Zhou.

Naturally, everyone gained nothing this night

"how? Haven't found it yet?"

Master Zhou looked haggard. Losing the Skyfire Liquid was a huge blow to him.

"The fourth young master has not been found yet!"

"waste! It's all rubbish!"

Master Zhou's voice was hoarse, and his eyes were bloodshot. In order to find the Monkey King last night, he didn't close his eyes all night.

"try to find! You guys keep looking for me, you must find it for me in the next few days! Expand your search scope!"

"It's the fourth young master!"

In the next two days, everyone still found nothing, and Young Master Zhou finally gave up.

Perhaps because he lost the Sky Fire Liquid, Young Master Zhou was in a very bad mood. He had no time to pay attention to Qin Chuan and did not arrange specific tasks for him. This On the contrary, Qin Chuan seemed very leisurely and had a lot of time to practice.

On this day, Qin Chuan opened his eyes from practice and went to look at the balls in the space of the God of War Order.

The little guy has been very good these days, except At night, Qin Chuan let it out for some air, and it had some fun with Qin Chuan. The rest of the time, it stayed in the War God Order space.

When it was hungry, it gnawed on the heaven-tempered gold in the space, and slept when it was full..

This little guy is growing up so fast!

Judging from its aura, it has already reached the second level of perfection. According to this growth rate, it is estimated that it will not take long to reach the third level.

Qiuqiu grows fast, Qin Chuan's heart Naturally, he is very happy.

Because the faster Qiuqiu grows, the faster his strength increases. This time Qiuqiu grows much faster than before. Is it the result of eating heaven-tempered gold? It seems that the more Qiuqiu grows, the faster he grows.

Qiuqiu will grow faster after eating the rare golden spiritual object. He will have to prepare more for it in the future."

Seeing that Qiuqiu was still sleeping soundly in the God of War's space, Qin Chuan stopped disturbing him. After leaving the inner courtyard, he went directly to the elixir bureau of the preparatory guard camp to find Yuyao and Xiao Xiang'er..

Chapter 1912

Since the last time Huo came from Tianshui City, Qin Chuan had looked for them once, but unfortunately they were not there.

Later, due to many delays, Qin Chuan never went to see them. In general, he hadn't seen them for almost a year.

When he arrived at the entrance of the Alchemy Bureau, Qin Chuan stepped forward and asked a medicine boy who was drying out medicinal materials.

"Are Miss Yuyao and Xiao Xiang'er here?"

"It turns out to be Brother Qin Chuan. The two ladies are here. I'll take you in right now!"

Qin Chuan was a little surprised. He didn't expect that the little medicine boy in front of him actually knew him. It seemed that he had often been in and out of the elixir bureau and had been known by many medicine boys. In the elixir bureau, Yuyao's study room.

Yuyao was in the middle of the night. Sitting elegantly in front of the desk, looking at a pair of ancient rubbings on the table, a very serious expression appeared on her beautiful face.

Suddenly there was a knock on the door.

Yuyao opened her teeth lightly: "Come in!"

Then a medicine boy came in.

"Miss Yuyao, look who is coming to see you!"

Yu Yao looked up and saw Qin Chuan coming in, looking at her and smiling.

"Brother Qin Chuan!" Yu Yaofang felt inexplicably secretly happy. The boy in front of her grew taller and taller. The childishness on his face gradually receded, and the evil temperament on his body became more and more obvious.

That kind of temperament fascinated the girl.

"Brother Qin Chuan, where have you been during this time?"

It seemed like they were reunited after a long separation. Yuyao looked particularly happy and walked forward slowly.

"Sister Yuyao, a lot of things happened during the mission during this period, so I never had time to return to Shenyang City, nor did I have time to see you. Sister, how are you doing lately? Yuyao pursed her lips and chuckled:"Sister, I'm fine. It's just that sister Xiang'er misses you as a brother every day and says why you never go to see her. You must go and see her this time."

"Um! I came here just to see her. Yuyao smiled and said,"So you're not here to see your sister, but your sister Xiang'er?"

Qin Chuan said:"Sister Yuyao, of course I'm here to see you too.""

"Well, I knew my brother would never forget his sister. Qin

Chuan's face turned slightly red:"Sister, isn't Xiang'er with you?""

"Xiang'er is refining elixirs in the alchemy room now. It is estimated that this is a critical moment for the elixir refining. Let's not disturb her for now. After she finishes refining the elixir, I will take you over to find her! Qin

Chuan nodded slightly, and then glanced at the ancient rubbings on Yuyao's desk, and said,"Sister, are you still studying ancient prose?""

"Um! Recently, like my master, I have become obsessed with ancient alchemy. By the way, brother Qin Chuan, let me show you something interesting. come here!"

Yu Yao waved to him and asked Qin Chuan to look at the rubbings of ancient texts.

"Sister, what is this?"

Qin Chuan walked forward with a smile. When he saw the lines of text on the rubbing book clearly, his eyes showed surprise.

It turned out that the ancient rubbing book recorded the combat skills of a physical cultivator.

"This was discovered by my master at an ancient ruins. After some research by my master, I found that what is recorded here is a special martial skill."

"It turns out that in ancient times, warriors were divided into martial practitioners and Qi warriors. What is recorded here are the martial arts used by body cultivators."

"It's just that the physical cultivator's martial arts requires the essence of energy, which is very different from the five elements of energy that we warriors practice."

"Oh, and there is such a thing, let me also study what the martial arts of this body cultivator will be like?"

Qin Chuan also showed a curious look and stepped forward to check. After looking for a moment, Qin Chuan's eyes became even more joyful.

It turned out that this rubbing book recorded a combat skill called: Blood Shadow Escape Technique...

Chapter 1913

The blood shadow escape method can only be learned after opening the second blood sea gate, which is just suitable for Qin Chuan to learn now.

This blood shadow escape method can increase the user's speed by 30%.

As the speed increases, the warrior's overall strength will also be greatly improved.

Generally speaking, there is not much difference in speed between warriors of the same level, but if one of them masters a speed-based martial skill, his strength will naturally be much stronger than that of warriors of the same level.

Because what affects a warrior's strength the most is strength and speed. The faster the speed, the stronger the strength naturally.

But in fact, speed-type auxiliary martial arts are very rare and very precious, even more precious than superior martial arts.

For warriors below the fifth level, whoever masters a speed-based martial skill can be at ease among warriors of the same level. Most of the same level will not be your opponent.

If he learns this 'Blood Shadow Escape Technique', his overall strength will definitely be greatly improved.

Seemingly seeing that Qinchuan was interested in rubbings of ancient texts, Yuyao

"As you can see, this is a rare speed-based auxiliary martial skill. It's a pity that only physical warriors can learn it, but if my brother is interested, he can use it to study it and return it to me in a few days. Hearing this

, Qin Chuan said happily: "Thank you sister, then I will take it and take a look first."

"Um! Take it!"

At that moment, Qin Chuan put away the rubbing book.

Then, the two chatted for a while.

Yuyao said again: "I think it's time for Sister Xiang'er to finish refining the furnace of elixirs. Let's go find her now.!"

"OK!"

Qin Chuan also wants to see Xiao Xiang'er. He wonders how the little girl is doing now after not seeing him for so long?

In the alchemy room, Xiao Xiang'er is counting the pills with her head down. This time she made it very successfully.

Open After the furnace, the chance of becoming an alchemy reached 90%, and her alchemy skills improved a bit.

According to the master, her talent in alchemy is even higher than that of Yuyao

"Junior sister Xiang'er! Another batch of elixirs was made"

"Um! Senior sister...Hey! Brother Qin Chuan! It's brother Qin Chuan!"

When Xiao Xiang'er raised his head and saw Qin Chuan coming in, a look of surprise appeared on his face. He quickly ran over and grabbed Qin Chuan's arm affectionately. His eyes were a little misty.

"Brother Qin Chuan, didn't you promise Xiao Xiang'er? I often come to see Xiao Xiang'er, but why haven't you come over for so long?"

Xiao Xiang'er pouted with a look of resentment on her face.

Qin Chuan touched the little girl's head and said with a bitter smile:"Brother is on a mission during this period and has no time to come over. Didn't I come over to see you? Xiao Xiang'er, I haven't seen you for so long, you've grown so tall! He's almost as tall as me!"

Qin Chuan looked at the little girl in front of him with some surprise.

Now Xiao Xiang'er has begun to grow. She is getting taller and taller, and her figure has begun to have bumps. Her pure face has begun to show the beauty of a girl, but she is so... With such youth, she is like a young and pure beauty waiting to grow up.

"In any case, Xiang'er is very happy that her brother can come to see Xiang'er. However, in the future, Xiang'er will follow her brother wherever he goes. Even to the ends of the world, Xiang'er will follow her brother. My brother is not allowed to leave Xiang'er alone anymore. Hearing this

, Qin Chuan felt warm in his heart and nodded:"Xianger, my brother promises you that if he leaves the Zhou family one day, he will take you with him." However, my brother won't leave now, so you have to wait for a while."

Xiao Xiang'er was originally an orphan. After Qin Chuan planned to take away the Green Dragon Pearl, he took Xiao Xiang'er away from the Zhou family and returned to their Qing family's residence.

Xiao Xiang'er nodded obediently: "Well, Xiang'er listens to his brother. By the way, brother, come here!"

Xiao Xiang'er seemed to remember something, and took Qin Chuan intimately to a medicine shelf in the alchemy room.

Yuyao on the side looked at the two people's closeness, smiling on her face, but she felt inexplicably lost in her heart..

Chapter 1914

Xiao Xiang'er took a dozen small porcelain bottles from the medicine shelf and happily placed them in front of Qin Chuan

"Brother, these are all the elixirs Xiang'er refined for you. Xiang'er knows that her brother is a warrior of the three elements of water, wood and fire, so Xiang'er has refined these three elements of elixirs."

"Yeah?" Qin Chuan casually picked up a bottle of elixir and opened it, with a look of surprise on his face.

"Is this bottle filled with Xuanshui Pill?"

"Um! This bottle is Xuan Shui Dan, with a total of twenty pills in it. Also, these bottles contain Xuan Qing Dan, and these bottles contain Xuan Fire Dan. Xiang'er wanted her brother to improve his cultivation earlier, so he refined better elixirs."

It turns out that Xiao Xiang'er took out low-grade elixirs.

The Xuanqing Dan, Xuanshui Dan and Xuanshui Dan are all of the same level. They are the elixirs used by wood, fire and water warriors, and they are all low-grade elixirs. , one pill is worth a thousand gold coins on the market.

Xiao Xiang'er gave Qinchuan more than a dozen bottles of pills at once, at least more than a hundred pills, all worth more than 100,000 gold coins.

"Xiao Xiang'er, you refined these?"

"Of course!"

Qin Chuan's eyes showed horror.

As far as he knew, ordinary alchemists need to learn alchemy for seven or eight years before they can refine low-grade elixirs.

But Xiao Xiang'er has only been learning alchemy for more than a year and can already refine it. This is a low-grade elixir. It can be seen from this that his talent in alchemy is so high that he can be called a genius.

"Brother Qinchuan, you must not underestimate Junior Sister Xiang'er. Junior Sister Xiang'er was able to refine this next-level elixir half a year ago. Even his master said that Junior Sister Xiang'er's talent in alchemy was the best he had ever seen."

Hearing this, Qin Chuan was even more surprised. He didn't expect that he had underestimated Xiao Xiang'er's talent in alchemy. Xiao Xiang'er was not only a genius in alchemy, he was not comparable to ordinary geniuses.

"Senior sister, you are honored! Master, I may have exaggerated my praise, but I am so powerful!"

Xiao Xiang'er's face turned red for a rare moment, as if she was a little embarrassed. Yuyao chuckled and said, "Little girl, you still know how to be embarrassed today. You don't usually say this. Have you learned to be humble in front of your brother Qin Chuan today?"

"there is? Xiao Xiang'er's face turned even redder,"Senior sister, you are making fun of me again. I will ignore you from now on.""

Yu Yao covered her mouth and smiled softly: "Little girl, when I see your brother Qin Chuan, you can even leave me as a senior sister."

"I don't have any!"

"OK! Senior sister, I won't joke with you anymore."

At this time, Xiao Xiang'er said to Qin Chuan again: "Brother, please accept all these pills!"

"These must be very valuable!"

The elixir in front of me is worth at least hundreds of thousands of gold coins.

Xiao Xiang'er said proudly: "Brother, Xiang'er will tell you a secret. Don't look at the fact that each of these elixirs is sold for one thousand gold coins, but the cost price is not much. To one hundred gold coins!"

Hearing this, Qin Chuan opened his mouth in surprise and was secretly shocked.

"This is too profitable! An elixir that was refined for less than a hundred gold coins actually sold for a thousand gold coins!"

"whee!! My brother is also surprised, right? Master has said that the richest people in the world are not the businessmen or the children of the family, but us alchemists!"

Hearing this, Qin Chuan suddenly realized that becoming an alchemist is more difficult than becoming a warrior. Not everyone has the talent for alchemy.

"All right! My brother accepted these pills!"

These elixirs are all useful to Qin Chuan, and Qin Chuan will naturally not refuse them.

Seeing Qin Chuan accept his elixirs, Xiao Xiang'er's eyes showed joy, as if he was the happiest. Thing...

Chapter 1915

"Xiao Xiang'er, why do you want to refine so many elixirs for your brother?"

"Brother, Xiang'er said. Xiang'er will only refine elixirs for you, your brother, from now on."

After saying that, Xiao Xiang'er held Qin Chuan's arm in her arms and smiled intimately.

"Little girl! He's so old and still so clingy!"

When she was a child, this little girl liked to hold her arms and follow her wherever she went. Now that she has grown up, she still does that.

"Xiang'er will stick to her brother and follow him all her life. Wherever my brother goes, I will go.

Qin Chuan smiled and said, "Xian'er will grow up and get married one day."

"snort! I don't want to get married. I just follow my brother and help him make elixirs."

"Junior sister, you don't want to marry your brother Qin Chuan when you grow up, do you?"

Yu Yao on the side deliberately teased.

Hearing this, Xiao Xiang'er blushed but said nothing.

Qin Chuan also felt embarrassed and slightly embarrassed.

He felt that Yu Yao was always by his side, and he seemed too close like this. , he wanted to take out his arm, but found that the little girl was hugging her so tightly that she couldn't move at all.

Suddenly, Qin Chuan remembered something and took out the alchemy manual he found in the treasure cave last time.

"Sister Yuyao, Xiao Xiang'er, this is an alchemy manual I got by chance. Take a look and see if it is useful to you?"

"show me!"

Yu Yao curiously took the alchemy manual and opened two pages at random, with a look of surprise on her face.

"Brother Qin Chuan, where did you get this manuscript? This should be the life-long effort of an alchemy master. It contains a lot of experience summarizing alchemy. It is very useful to us alchemists. If you show it to the master, he will definitely be very happy. Qin

Chuan also said happily: "I thought it was useless. Since it is useful to you, I will give it to you. It is useless to keep it in my hands anyway."

"Thank you for that"

"Sister Yuyao is polite. By the way, Xiao Xiang'er, my brother still has two hundred-year-old *Rehmannia glutinosa* plants here. Can you help me refine a few 'Earth Soul Pills'?"

The Earth Soul Pill is useful for earth energy to break through to the third level. With his advanced qualifications in the earth system, without the aid of the pill, he might be like Mr. Zhou. Without the Sky Fire Liquid, he doesn't know how long it will take to break through, so he thought of it. Ask Xiao Xiang'er to help him refine it.

Xiao Xiang'er stuck out her little tongue: "Brother, the Earth Soul Pill is a top-grade elixir. Neither my senior sister nor I can refine it. Only our master can refine it. If brother really needs it, Xiao Xiang'er can ask for it." Master, please help."

Yuyao on the side smiled and said: "Brother Qinchuan, don't worry, the alchemy manual you took out will be of great use to our master. There is no problem if we ask him to help you refine the Earth Soul Pill, but This earth soul pill has two main ingredients, one is It's the hundred-year-old *rehmannia* root, but the other flavor is the hundred-year-old stone milk."

"My master does not have century-old stone milk. If you really want to refine the Earth Soul Pill, get some century-old stone milk. My master will definitely help you refine it. Hearing this

, Qin Chuan said happily: "Then please sister Yuyao, please help me make a request on behalf of your master." "

This Earth Soul Pill is very important to Qin Chuan. With the Earth Soul Pill, there is hope for him to break through to the third level with his earth element qualifications.

"Um! Sister will definitely ask the master to refine it for you. I'm going to find the master now and show him this note, as well as my brother's refining of the Earth Soul Pill. Xiao Xiang'er, please spend more time with your brother Qin Chuan!"

"Senior sister, go ahead!"

After Yuyao left, Xiao Xiang'er said to Qinchuan again

"Brother, if you need money in the future, just ask Xiao Xiang'er. Xiang'er doesn't have much money saved now, but he saves it all for his brother." ..

Chapter 1916

Qin Chuan's forehead was sweating: "You didn't earn it from selling the elixirs, right?"

"Not at all? Every month, the master will give me and my senior sister 100,000 gold coins each, so that we can buy the materials to make elixirs by ourselves. Want it? If you need it, Xiang'er will give it to you."

Seeing that the little girl was so kind to him, Qin Chuan was also a little moved, but shook his head and said

"Brother doesn't need it now. By the way, brother, there are some earth-type spiritual grasses here. Can you take them and see if you can help him refine some elixirs?"

Qin Chuan took out a few spiritual herbs he got from Lao San in Yunwu Valley.

Xiao Xiang'er also looked surprised when he saw those spiritual herbs.

"I didn't expect that my brother still has so many precious spiritual herbs. Don't worry, brother, Xiao Xiang'er will definitely help you refine the elixir you are satisfied with."

"Then it will be troublesome for Xiao Xiang'er."

"Brother, you're welcome!"

Immediately, Qin Chuan chatted with Xiao Xiang'er for a while, and then asked: "Does anyone come to this alchemy room often?"

"No, it's just me and my senior sister. No one else is allowed in without our permission."

"It seems to be quite quiet here, so be it! My brother wants to practice here, so you can make elixirs and help him protect the law! Don't let others interrupt your brother's practice!"

"Um!"

Xiao Xiang'er agreed obediently.

Qin Chuan then took out the bottle of Sky Fire Liquid and prepared to refine it.

He had always wanted to find a quiet place to refine the Sky Fire Liquid, but he had been in Young Master Zhou's Mansion and it was really inconvenient to refine it. Moreover, it takes a long time to refine the Heavenly Fire Liquid and cannot be interrupted easily, otherwise the effect will be very poor.

At this moment, it happens to be using this alchemy room to refine the Heavenly Fire Liquid.

Qin Chuan sat cross-legged and poured out a drop of fiery red from the white jade bottle. He swallowed the liquid of heavenly fire. As soon as the drop of liquid of heavenly fire entered his stomach, Qin Chuan felt a warm current slide from his throat into his stomach. In a moment, it turned into a stream of hot air and flowed all over his body.

The heat quickly penetrated The feeling of being surrounded by heat in every pore of his body was an extremely comfortable feeling.

In an instant, Qin Chuan felt as if his body had evaporated, and his soul had escaped from its shell, as if it had broken free from all restraints, a kind of Freedom and unrestrainedness rippled in my heart, and I began to explore the mysteries between heaven and earth.

What a wonderful feeling, this feeling is very similar to the first time I took Wannian Bingxin Liquid, but this time it was more intense.

Could it be that Wannian Bingxin Liquid and Tianhuo Liquid increase the chance of breakthrough? The fundamental reason is to enhance the soul's induction, so that the soul can sense the heaven and earth, and the spirituality of the elements?

This thought slipped through Qin Chuan's heart involuntarily.

It should be like this!

Thinking of this, Qin Chuan turned his Completely let go of his soul and let himself feel the spirit of fire as much as possible.

Suddenly, Qin Chuan felt a subtle touch, which came from the depths of his soul.

The fire energy between heaven and earth also suddenly changed with this touch. He became violent and rushed around Qinchuan crazily.

At this moment, Qinchuan saw not the fire energy, but the endless sea of fire surrounding him.

But he did not feel the pain of being burned, but felt a kind of closeness , a kind of spirituality coming from fire.

He could feel that those violent flames were not dead things, they were conveying their will to him.

At this moment, Qin Chuan completely let go of his soul and accepted their will, which was the power of fire. Will..

Chapter 1917

A kind of violent force quickly poured into Qin Chuan's body and into the depths of his soul like an enlightenment. That strong will also suddenly penetrated deeply into the depths of Qin Chuan's soul..

At this moment, he suddenly understood what the true will of the flame was, which was a will to burn everything in the world and turn all the filth in the world into nothingness.

Is this your will?

All right! Then I, Qingtian Qi, will accept your will and let us burn all the filth in the world together.

At this moment, Qin Chuan seemed to hear the joyous shouts of these fire elves.

The fire energy between heaven and earth also obeyed his command at this moment, rioting under his will.

The third level of agility is to understand the spirituality of the elements and gain the recognition of the elements.

At this moment, Qin Chuan has realized the spirituality of fire, and has been recognized by the fire element.

The fire energy between heaven and earth also exploded under Qin Chuan's will, rushing into his body at a hundred times speed, and his whole body was burning with ethereal flames, looming.

A huge fire energy cyclone was formed over the entire elixir bureau, with the alchemy room as the center. The fire energy within a radius of two miles seemed to be drained out in an instant, and all the fire energy flowed into the cyclone.

In the alchemy room, Xiao Xiang'er covered her mouth in surprise and looked at Qin Chuan in astonishment.

She was closest to Qin Chuan, so she was naturally the first to sense the changes in Qin Chuan.

"Could it be that my brother is going to break through the third level?"

Thinking of this, Xiao Xiang'er's eyes lit up with joy. As long as it was beneficial to Qin Chuan, she would be happy.

Today, Xiao Xiang'er is also a first-level warrior. Of course, this is mostly due to the elixir.

She has high expectations for the level of warriors. No longer ignorant, he could naturally tell that Qin Chuan's current situation was a sign of breaking through to the third level.

At the same time, everyone in the alchemy bureau looked at the alchemy room in confusion.

Yu Yao in the study room was even more confused. With a look of surprise on her face, she naturally sensed the changes in the fire energy between heaven and earth, along with the will to burn everything. This was the sign of breaking through to the third level.

"Who breaks through the third level in the alchemy room? It can't be Xiao Xiang'er. Could it be him?"

Yu Yao's beautiful face showed a look of disbelief. Not long after she left, Qin Chuan broke through in the alchemy shop.

After a moment of pondering, Yu Yao's silhouette flashed and she rushed to the alchemy room.

Dang Yu When Yao came to the alchemy room, she saw Xiao Xiang'er guarding the door and making a silent gesture to her.

Yuyao understood and walked softly into the house.

As soon as she entered the room, she saw the alchemy room. In a corner of the room, Qin Chuan was sitting cross-legged, with a circle of virtual red flames burning around him, and the fire energy from heaven and earth was pouring into his body crazily.

Sure enough, he had a breakthrough!

He is less than ten years old this year. Four years old, right?

To break through to the third level so quickly, such talent and understanding are really terrifying!

Yuyao looked at Qin Chuan's increasingly handsome appearance, with an inexplicable look in her eyes.

After a moment, Qin Chuan opened his eyes. With his eyes closed, his face filled with ecstasy, he quickly looked inside his sea of qi.

In the sea of qi, the original whirlpool of fire element disappeared, replaced by a small drop of fiery red liquid.

This small droplet was exactly the natal fire spirit he had just condensed.

"Ha ha!! Breakthrough! My fire energy finally broke through!"

Qin Chuan cheered from the bottom of his heart. He had always been worried about the delay in the breakthrough of Huo Yuanqi, and he felt even more stressed. It was not only the pressure of personal cultivation breakthrough.

Because he also had a mission behind him, to win back for the family. The mission of the Blue Dragon Pearl.

He was burdened with the expectations and burdens of the entire clan, so he had to break through.

Now, he finally broke through.

The burden that had been suppressed in his heart for a long time was a little lighter.

Now his fire energy has broken through to the third level and entered. There is no problem with the Blood Guard. He just needs to wait for the recruitment of the Blood Guard next year.

However, he still needs to enhance his strength as much as possible during this period so that he can have more ability to protect himself..

Chapter 1918

Qin Chuan opened his eyes happily and saw Yuyao and Xiao Xiang'er looking at him with smiles.

"Congratulations from brother Qin Chuan, you have advanced to the third level. I didn't expect that you are already a third-level warrior when you are not even fourteen years old. You are the youngest third-level warrior that my sister has ever seen."

"certainly! He is my little Xiang'er's Qin Chuan brother! Naturally, others cannot compare!"

Xiao Xiang'er looked proud, as if Qin Chuan's achievements were her own, and her eyes were filled with joy.

Qin Chuan laughed and said, "Sister Yuyao deserves the award, and my brother is just lucky. That's all. Yuyao smiled noncommittally: "Good brother, you are so humble!"

Qin Chuan used the Breath Condensation Technique to hide his cultivation, so Yu Yao didn't know that Qin Chuan's water and wood systems had already broken through to the third level.

If she were to know this, I'm afraid she would be even more shocked.

In fact, Qin Chuan Chuan is also aggrieved that his fire energy has not been broken through until now.

His qualifications for the three elements of water, wood and fire are both genius qualifications. He has already broken through the water and wood elements, but the fire element has not been broken through yet.

And he is in the fire element. The chance is not small, but the breakthrough is slower.

Now, even his earth energy, which is the least qualified, has reached the second level peak, and his fire energy can break through, and this is also thanks to the sky fire he got from Zhou Shao Liquid.

At this time, Qin Chuan remembered something and said to Yuyao and Xiao Xiang'er

"Sister Yuyao, Xiao Xiang'er. Please don't tell anyone about my breakthrough in Huo Yuan Qi, especially Young Master Zhou. Now I am working under him."

A thoughtful look flashed across Yuyao's beautiful eyes, and then she smiled knowingly.

"Since brother Qin Chuan doesn't want others to know, naturally my sister won't tell others. Don't worry, brother!"

Xiao Xiang'er even grabbed Qin Chuan's arm and said happily: "It's whatever my brother says. Xiao Xiang'er only listens to his brother."

Yu Yao on the side just shook her head: "Silly girl, if you listen to your brother so much, be careful that one day you will be betrayed by your brother Qin Chuan."

Xiao Xiang'er pouted and said, "No way!"

Yu Yao smiled slightly. Suddenly, she was a little envious of the little girl in front of her.

Maybe she had too much experience. I don't know when she learned to hide it? Learned to bury her inner feelings?

But in fact, how much she wished she could too It would be nice to be able to relax and be as innocent and ignorant as Xiao Xiang'er

"Sister Yuyao, my brother doesn't have any place to meditate during this period, so I can use your alchemy room to practice, okay?"

"If Qin Chuan finds it convenient to practice here, feel free to practice here! Xiao

Xiang'er on the side nodded vigorously and said: "Brother, you can rest assured to practice here!" With Xiao Xiang'er here, no one will disturb your practice."

"Little girl!"

Yuyao smiled softly with her teeth exposed.

"I'm going to the master in the next few days to hand over brother Qin Chuan's alchemy manual, as well as his brother's plan to refine the Earth Soul Pill. During this period, it's up to you to take care of brother Qin Chuan!"

"Um! Senior sister, just go ahead with peace of mind!"

"Little girl, do you really hope that your senior sister will leave soon?"

"Not at all!"

"OK! Senior sister, I won't joke with you anymore, I'm leaving. Brother Qin Chuan, you should practice well here!"

"Um! Thank you, Sister Yuyao!"

"Brother, you're welcome!"

Then, Yu Yao turned around and left.

Looking at the leaving figure of this beautiful girl, Qin Chuan couldn't help but think of Feng Qingyan from Tianshui City. The two looked so similar, and he didn't know what the connection was between them. But Qin Chuan can be sure that Yuyao's identity is certainly not simple....

Chapter 1919

After Yuyao left, Xiao Xiang'er started chattering.

"Brother, you are so powerful. You are actually a third-level warrior."

Qin Chuan smiled slightly. If there was no fire liquid this time, he didn't know when he would be able to break through. But this time the breakthrough went very smoothly, beyond his expectation.

Originally, he planned to take two drops in a row to break through the bottleneck. , but didn't want to break through after taking just one drop.

Maybe he had accumulated enough during this period and had reached the critical point of breakthrough, so he broke through very smoothly.

Now, Qin Chuan still has a drop of Sky Fire Liquid left on his body, and Two drops of Ten Thousand Years Ice Heart Liquid.

In fact, Heavenly Fire Liquid and Ten Thousand Years Ice Heart Liquid also have a certain effect on breaking through to the fourth level, but the effect is very limited.

However, it becomes more difficult for a warrior to break through in the later stages. As long as it is an item that can increase the chance of breakthrough, it will be People regard it as a treasure.

At the beginning, Chen Xiangzhu also relied on two drops of ten thousand years of ice heart liquid to break through to the fourth level.

The drop of sky fire liquid and the two drops of ten thousand years of ice heart liquid left behind will still have some effect on Qin Chuan's future breakthrough to the fourth level.

"Huh! What is this little guy doing?"

Qin Chuan was talking to Xiao Xiang'er. Suddenly, his expression changed. He stretched out his hand to grab the space of the God of War Order and grabbed Qiuqiu out.

Qiuqiu was grabbing the ball with his two chubby little paws. A map was covered on his face, and he was playing with it swaying left and right, shouting"Goojigji".

It turned out that when Qin Chuan's fire energy broke through earlier, the energy between heaven and earth changed, and the order of the God of War was The sleeping ball in the space woke up.

The little guy felt bored, so he looked for things to play in his own space.

But he also kept in mind Qin Chuan's words, in addition to the Kuai Xuan Ice Essence and Heavenly Tempered Gold, there are also gold coins that can Except for eating, other things are not allowed to be eaten.

However, Qin Chuan only said that he could not eat, but did not say that he could not play.

However, Qin Chuan said that after Qin Chuan grabbed Qiuqiu out, his legs were suddenly dangling in the air. As soon as his two little paws were loosened, the map grew smaller. The guy's face dropped, and he happened to see Qin Chuan looking at it with a strange look on his face. As soon as the little guy saw Qin Chuan, he immediately beamed, waving his little paws happily, shouting "Guji Guji", wanting Qin Chuan Hug it.

Qin Chuan looked at the map it was playing with. It was the map he got from the treasure cave in Yunwu Valley, and he immediately taught him a lesson.

"Qiuqiu, if you want to play in the future, just use other things to play with. You cannot play with this map. It will be bad if you break it."

"Gujiguji?"

Qiuqiu blinked his little eyes and tilted his head to think for a while before nodding.

This made Qin Chuan secretly marvel.

"Is this guy getting smarter and smarter? However, this guy is growing up really fast! Only a few days have passed, and the little guy has reached level three. Could it be that quenching gold that day can really speed up the growth of the ball?? "

That day, Qiuqiu had already eaten most of the tempered gold.

Although the appearance of Qiuqiu has not changed, its strength has been skyrocketing, and now it has reached the third level of cultivation.

This made Qin Chuan lament the natural advantages of the eighth-level ferocious beast, and its increase in strength was too staggering.

At this rate, it won't take long for Qiuqiu to grow to the fourth level.

At this time, Xiao Xiang'er on the side saw Qiuqiu, and his eyes suddenly lit up.

"it's so cute! Brother, give me a hug!"

Qiuqiu also saw Xiao Xiang'er at this time, and immediately blinked his big eyes curiously, looking at Xiao Xiang'er up and down.

"Qiuqiu, this is my sister, don't you be naughty?"

Qin Chuan put down the ball and gave it to Xiao Xiang'er to hold.

The little guy also became surprisingly well-behaved. He snuggled into Xiao Xiang'er's arms and spit out his pink tongue to lick Xiao Xiang'er's hand.

Xiao Xiang'er saw the ball. Qiuqiu looked so cute, and he was filled with joy and wanted to take Qiuqiu aside to play.

At this time, Qin Chuan suddenly said:"Xiao Xiang'er, Qiuqiu is my brother's pet. Don't tell others about this, even if you Senior Sister Yuyao, you'd better not tell him."

Qin Chuan was worried that if Xiao Xiang'er spilled the beans and Master Zhou got wind of it, he would inevitably be blamed for the loss of the Sky Fire Liquid..

Chapter 1920

Qin Chuan was worried that if Xiao Xiang'er spilled the beans and Master Zhou heard about it, he would inevitably be blamed for the loss of the Sky Fire Liquid.

"Um! Xiao Xiang'er knows!"

Perhaps girls are naturally fond of cute little pets. Xiao Xiang'er was already having a great time playing with Qiuqiu.

Qin Chuan smiled slightly and continued to practice.

But after a while, Qiuqiu quietly ran over and gently Qin Chuan tugged at the corners of his clothes, squinted his small eyes, and looked around with a guilty conscience.

Qin Chuan was curious about what this little guy was doing.

But Qiuqiu stretched out his chubby little paws and took out a yellow pill. , but it is a golden elixir

"Gujiguji!!"

Qiuqiu handed the elixir to Qin Chuan and told him to take it quickly, then looked back, for fear that Xiao Xiang'er would see it.

Seeing this, Qin Chuan burst into laughter. It turned out that this little guy had become a thief again, and this time he actually He was going to steal Xiao Xiang'er's elixir.

Qin Chuan deliberately said with a straight face:"Qiuqiu, Xiao Xiang'er is my sister, and you are not allowed to steal anything from her in the future."

At this time, Xiao Xiang'er also saw it and immediately said with a smile

"Qiuqiu is so cute, why are you stealing from me? If you want it, sister can give it to you, but you are not allowed to steal it in the future."

"Gujiguji!!"

Qiuqiu immediately jumped into Xiao Xiang'er's arms, smiled flatteringly at her, then held the pill with a pair of chubby little paws and put it into his mouth.

Qin Chuan could only shake his head and be speechless.

Over the next ten days Here, Qin Chuan, in addition to doing some enlightenment in Xie's Mansion every day, would come out of Xie's Mansion and go to Xiao Xiang'er's place to practice.

In the past ten days, Young Master Zhou had not recovered from his depression, and the Monkey King did not dare to Sneaking back to Zhou's house again.

According to Qin Chuan's estimation, at least during this storm, the Monkey King will not sneak back to Lin Yue for the time being. It will at least wait until this matter subsides.

Without the threat of the Monkey King, Qin Chuan will naturally not be afraid. Lin Yue.

Of course, Qin Chuan is still practicing like usual, day and night, in order to improve his strength as much as possible. During the day, he spends his time in Xiao Xiang'er's alchemy room, releasing the ball to pass through Breathing.

At night, he locked himself in the room and practiced in seclusion.

In the past ten days, Qin Chuan's cultivation of the four elements has improved.

Especially three days ago, Qin Chuan was finally willing to take out the three-hundred-year-old Water Ganoderma, after taking it and refining it, his water energy finally reached the bottleneck of the third level of Dzogchen.

Now, among the four lines of energy in Qinchuan, water energy has the highest cultivation level and is the peak of the third level. Earth energy The weakest is the peak of the second level.

Qinchuan's comprehensive combat power has increased a lot now, and he is not far away from the fourth level of perfection.

However, Qinchuan's other biggest gain is that in the past ten days, he can escape the blood shadow. The law learned.

Although Qin Chuan's combat power after transformation was slightly lower than that of a fourth-level Dzogchen warrior, after using the blood shadow escape method, his speed was actually faster than that of an ordinary fourth-level Dzogchen warrior.

With this Blood Shadow Escape Technique, although Qin Chuan is not as powerful as the fourth-level Dzogchen warrior, his overall strength can compete with the average fourth-level Dzogchen warrior.

But on this day, Zhou Shao finally lost the sky fire. He recovered from the shock of liquid.

In the hall, Young Master Zhou still looked a little haggard.

"Qian Xing, have you collected all the materials I asked you to collect?"

"Fourth Young Master, all your subordinates have been gathered. However, the Seven Spirits Purple Fire Pill is a top-grade pill! Only the third elder in the entire Zhou family can refine it. The fourth young master wants to ask the third elder to help refine the Seven Spirits Purple Fire Pill, but it may be difficult to do so."

The third elder mentioned by Qian Xing is naturally the honorary elder hired by the Zhou family, who is also the master of Xiao Xiang'er and Yuyao...
