

## God level 2041

### Chapter 2041

He planned to finish handling the trivial matters here first, and then go to the Fire Lotus Cave to explore before the little prince and others.

By the time he gets the treasure and leaves the Fire Lotus Cave, it will be almost the day when the Zhou family recruits blood guards. At that time, he can also enter the Zhou family's forbidden area.

"However, for now, it's better to get a Yunxi Pill first! This Yunxi Dan is also very important to me!

Thinking of this, Qin Chuan listened carefully again and listened carefully to all the movements in the yard.

In the room, in addition to the little prince and the king commander, there were several second-level guards, and there were also several guards serving as secret sentries in the original corners.

The little prince's pet purple-horned ice clouded leopard lives in the backyard and is eating alone there at the moment.

After roughly grasping the situation in the courtyard, Qin Chuan made a plan in his mind. He then jumped into the courtyard, raised his hands to the room and laughed.

"Ha ha!! Is His Royal Highness the little prince here? I have something to discuss with Wang Tianqi!"

Qin Chuan's appearance was so sudden that several secret guards in the courtyard had not noticed Qin Chuan's aura before.

At this moment, as soon as he appeared, almost the guards rushed forward. When they saw in front of them a man with white hair flying and wearing a hooded face. When he saw the strange man in the mask, his eyes suddenly showed a look of astonishment, and he immediately shouted

"Who are you?!"

At the same time, a black shadow suddenly rushed out of the house, rushing directly towards Qin Chuan like lightning, and a cold light flashed.

The black shadow actually struck Qin Chuan directly.

"Ha ha!! Qin

Chuan burst into laughter, and with a flash of blood on his body, he easily avoided the knife.

"Huh! How can this be?"

The black figure screamed in surprise, with a look of disbelief on his face.

At this moment, the two separated and faced each other.

Only then did Qin Chuan see the appearance of the black figure. He was the fourth-level Great Perfection Commander Zou..

However, at this moment, Commander Zou's eyes were full of horror. He looked at the silver-faced white-haired man in front of him in disbelief. The silver-faced white-haired man in front of him looked like he was only a third-level Dzogchen, but he could easily He dodged his own fatal blow.

His speed was so fast that he couldn't even catch up with me.

How is this possible?

Isn't the guy in front of me a third-level Dzogchen warrior?

How could he be faster than me!

At this time, the guy on the opposite side Qin Chuan spoke, but his voice changed slightly.

"Don't get excited, sir! I came here just because I wanted to see His Highness the little prince, and I didn't mean any harm!"

"snort!"

Commander Zou snorted coldly.

"If you have no ill intentions, why would you hide your face and wear a mask? Why don't you show your true face? And you still choose to do it at night. I think you have some evil intentions, right?"

"Ha ha!! Sir, you are wrong! If Wang really had evil intentions, he could have sneaked in, so why bother shouting like this? As for why I wear a mask, it is because Mr. Wang has his own difficulties, and I hope you will forgive me."

After listening to Qin Chuan's words, Commander Zou was still on full alert, but he was obviously more relaxed than before.

At this time, the little prince also walked out of the house.

"Who are you?"

Qin Chuan smiled slightly when he saw the little prince coming out.

"Your Majesty Wang Tianqi, a person from Dagon Kingdom, has met the little prince first."

"Wang Tianqi? How come this prince hasn't heard of it? However, what do you want to do with this prince?"

The little prince said calmly, but his heart was filled with waves..

Chapter 2042

He clearly saw the previous encounter when Commander Zou attacked Qin Chuan. Even if he faced Commander Zou's attack just now, there was no way he could survive, but the person in front of him easily dodged it.

That only meant that the white-haired masked man in front of him either hid his strength or was too perverted.

No matter what, he couldn't believe that among warriors of the same level, there was someone who could achieve such strength.

"good! Little prince, Mr. Wang doesn't like to beat around the bush, so just tell him the purpose of your visit this time!"

Qin Chuan immediately explained his intention.

"In fact, during the day, the little prince had a battle with Liu Xian. I happened to be there too."

Hearing this, the little prince and Commander Zou were both shocked, with looks of horror on their faces.

"hehe!! It turns out that your Excellency is also present. It seems that your hidden skills are really deep. With your level of cultivation, you should stand out from the crowd, but we didn't even notice it. I wonder what your visit to my prince this time has to do with the battle during the day?"

Qin Chuan smiled slightly:"It doesn't matter!" During the day today, I saw the little prince taking out the Yunxi Pill, and I realized that this Yunxi Pill can greatly increase a person's mental power in a short period of time. Because of something, I'm looking for items that can increase my mental power."

"The little prince's Yunxi Dan may be just what I need. I think the little prince will definitely not have only one on his body! So I came here today just to make a deal with the little prince. I want to ask the little prince to give me a price. I want to sell a few pills to you first."

"I hope the little prince will help Wang because he is so frank. Wang will also remember the kindness of the little prince!"

After listening to Qin Chuan's words, the little prince understood his purpose, but sneered.

"hehe!! Favor? How ridiculous! Your Excellency does not show his true colors to others. Even if I sell this favor, I don't know who I sold it to."

"However, if you really want Yun Xi Dan, I can sell you one or two. As for this price? hehe!! It depends on how you opened it? Qin

Chuan smiled slightly. He was not surprised by what the little prince said.

"How to make a price? It's up to you, little prince, how many gold coins do you want? Or anything else, as long as it is within a reasonable range, I will consider it."

"good! Since you said that, then I, the prince, should just tell the truth! If you want to trade Yun Xi Dan with this prince, you can, but there is no need to discuss gold coins. Although this prince comes from a small country, he is a descendant of the royal family after all and is not short of money."

"What this prince lacks are various secret skills and martial arts, especially the secret skills in beast control. If you have secret skills in this area, I am willing to spend a few more Yunxi Dan to trade with you."

"It turns out that what the little prince wants is not money, but secret skills and martial arts. I wonder what the price would be like if I exchanged it for martial arts? The little prince smiled and said:"

Your Majesty asked, it seems that he has a lot of martial arts skills!" Let me put it bluntly. I don't need any martial arts skills that are superior or below. You have to exchange martial arts, at least you have to come up with superior martial arts."

"This prince practices water-based martial arts. If you use the superior water-based martial arts, I will exchange ten Yunxi Dan with you."

"If it is superior martial arts from other systems, it can only be halved and traded for five Yun Xi Dan. As for whether you are willing or not, that is your own business. Don't even think about bargaining with me, the price will not change."

After hearing these words, Qin Chuan took a deep breath. This little prince is like a lion. He wants to exchange five Yunxi Dan for a superior martial skill. There is no such a good thing in the world.

He is absolutely impossible. He had to exchange it for superior martial arts. Besides, he only had two superior martial arts and he hadn't learned them yet, so how could he be willing to exchange them?..

Chapter 2043

In fact, the cost price of Yunxi Dan is only a few thousand gold coins.

But an excellent martial art is worth at least one million gold coins.

When the little prince offered such a price, it was indeed a big deal for the lion, and he wanted to take this opportunity to make a profit from Qin Chuan.

At that moment, Qin Chuan smiled and said:"The little prince has such a big appetite! Don't you think this price is not too unreasonable? If I really trade with you, I will suffer too much." The little prince said disapprovingly:" Your Excellency is wrong! I think this price is very reasonable. You should know that this Yunxi Dan can only be refined by our Wan family. Now in the entire Dagon Kingdom, perhaps only this prince has it. Do you want to go somewhere else? Can't even buy it"

"It can be said that apart from this prince, there is no other semicolon in Dagon Kingdom."

"hehe!! Listening to what the little prince said, he really wanted to find a rare thing to live in. Doesn't the little prince really intend to lower the price?"

"feelings? hehe!! This prince does not believe in any feelings, only the immediate interests. If you really want to exchange, then use your superior martial arts. If there are any secret skills, I will consider it."

"If you still want to continue to bargain, I would like to advise you to give up your thoughts as soon as possible and leave here!"

Hearing what the little prince said, Qin Chuan knew that there was no point in continuing to bargain. Even if he could lower the price, it wouldn't be any better.

At the moment, he was thinking

"This little prince has a dark heart! Knowing that I needed Yunxi Dan very much, I took it in one bite. I don't know if this Yunxi Dan will have any effect on me. Why don't I trade one with him first?"

Thinking of this, Qin Chuan said:"Okay! Since the little prince is unwilling to counter-offer, I won't say more. Although I don't have any superior martial arts skills that can be traded, I do have a few good secret skills, one of which is related to beast control."

Hearing this, the little prince's eyes lit up and he asked happily

"Do you really have any secret skills related to animal control? If you really have such a secret skill, I would be willing to spend a few more Yun Xi Dan to trade with you."

For the little prince, most of his strength depends on his pets. This way of controlling animals is naturally very important to him.

If there are secret skills related to animal control, it is fatally attractive

"Ha ha!! Of course! Qin

Chuan opened his eyes and told lies.

"And it is also a very powerful secret skill of animal control. However, it is impossible for me to take it out now."

"Because I still don't know whether the little prince's Yun Xi Dan is as helpful to me as I speculated. If it really helps, I will naturally take out the secret skill and trade it with the little prince. If it has no effect, then doesn't the transaction have no meaning?"

"hehe!! So how do you prove it?"

"Very simple! Get one from the little prince first, then go back and try it and you will know!"

"Ha ha!! Your Excellency, you are joking. Do you think you can swindle a Yun Xi Dan from this prince with just a few words? This prince is not that stupid yet.

Qin Chuan smiled slightly:"The little prince is too worried!" I didn't say anything, so I took a Yun Xi Dan from the little prince's hand. In fact, I have a secret skill called insect repellent."

"I want to use this deworming technique to trade a Yunxi Dan with the little prince first and try it back. I wonder what the little prince thinks?"

Qin Chuan got this deworming technique from Sun Yan, and he also got several bottles of insect eggs at that time.

But Qin Chuan has been busy practicing and has no time to learn the deworming technique, so he has kept it in the God of War Order space untouched..

Chapter 2044

"Deworming? hehe!! This prince has heard of this insect repellent technique for a long time, and it is not a strange secret technique. Its value is equivalent to that of an inferior martial art, and I can get it if I am willing. However, if you really exchange it for a Yunxi Dan, that's fine!"

Repelling insects is not a rare secret skill. The reason why the little prince agreed was because he had some expectations in his heart for the secret skill of controlling beasts that Qin Chuan mentioned.

"good! Since the little prince agreed, come and exchange with the little prince tomorrow night!"

Hearing this, the little prince's face changed slightly and he said coldly

"Why don't you exchange it now instead of exchanging it tomorrow? Could it be that you are just teasing me when you talk about it now?"

"Ha ha!! The little prince misunderstood. In fact, I have never learned the secret technique of repelling insects, and I only have the original copy in my hands, and I haven't made a copy for myself yet."

"If I trade it to the little prince like this, I won't have the chance to learn this deworming technique again. So I'll go back and make a copy for myself, and I'll trade again tomorrow."

"I see!"

Hearing this, the little prince suddenly understood, and he believed Qin Chuan's words seven to eight percent in his heart.

"alright! Since the little prince agreed, come back tomorrow night!"

After that, Qin Chuan was about to leave, but was stopped by the little prince.

"Your Excellency, please wait a moment. I have a puzzling question that I would like to ask you!"

"Please say!"

"May I ask what kind of cultivation you have? Hearing this

, Qin Chuan smiled slightly:"Third level Dzogchen!"

As soon as he finished speaking, Qin Chuan's figure flashed and disappeared into the hazy night.

"He actually is the third level of Dzogchen!"

In the field, only the little prince and others were left standing there blankly.

"How can this be? Can the third level of Dzogchen reach such speed?"

The little prince had a look of astonishment on his face, and then fell silent for a while. After a long time, he asked Commander Zou on the side.

"Commander Zou, if you take action, can you deal with this Wang Tianqi? Commander Zou frowned slightly and pondered for a while before saying, "If it's a life and death fight, I'm confident

that I can defeat him. If the opponent keeps evading, there's nothing I can do against him." Because he is faster than his subordinates!"

Hearing this, the little prince nodded slightly, and then sighed after a while.

"This prince thinks that his strength is already at the top among his peers. It's okay to meet Liu Xian during the day. I didn't expect to meet Wang Tianqi, who is incredibly powerful at night."

"It seems that this prince really used to sit in a well and look at the sky. This country of Dagon is indeed full of outstanding people, with many talented people! It seems like we really have to keep a low profile in the future. As soon as he finished speaking, Commander Zou said:"From the perspective of my subordinates, that Liu Xian is far worse than this Wang Tianqi!"

Hearing this, the look of astonishment in the little prince's eyes became even stronger, and he pondered for a long time before saying

"How credible do you think the deal Wang Tianqi mentioned is? Zou

Tong thought for a while and said:"Then it depends on whether he comes tomorrow night. If he really comes tomorrow night, then you can believe what he says."

"Um! This prince thinks so too. Just look at tomorrow night!".

But it was said that after Qin Chuan left the little prince's residence, he quietly returned to his own residence.

The little guy Qiuqiu actually fell asleep in the corner of the bed with his little head in his arms.

"My little guy, you were quite good tonight and didn't cause any trouble for me."

Qin Chuan smiled and touched the fluff on Qiu Qiu's body, and stopped disturbing it.

Then, Qin Chuan lit the candle, took out the long-idle deworming manual from the War God's Order space, and seriously Looked up..

This looks like an all-nighter.

Qin Chuan also briefly read the book on the deworming technique, and he had a slight understanding of it. This deworming technique is mainly divided into insect discourse, deworming chapter, and insect raising chapter.

In particular, Qin Chuan was very interested in the section about raising insects.

"Nine-sound bug, spiritual sound hatching, I didn't expect there to be such a bug among these spiritual bugs. According to the handbook, this nine-note insect can hatch when it hears specific flute sounds. This is quite special. However, this insect has very weak attack power and a short lifespan."

"However, if used properly, it can be of great use. By the way, there is also a kind of scent bug that is also good, which is very suitable for tracking."

Of the spiritual insects recorded in this insect repellent handbook, Qin Chuan is currently most interested in the nine-sound insect and the scent-smelling insect.

Then he dug out the bottles of spiritual insect eggs.

To his surprise, Among these bottles of spirit insect eggs, there is a bottle of scent-smelling insect eggs and a bottle of nine-note insect eggs.

"not bad! This night's hard work was not in vain, and finally there was some small gain."

At this time, it was already bright. Although the early winter morning was cold, it still couldn't resist the warmth of the rising sun.

Gradually, there were more pedestrians on the street, and everything returned to its former vitality.

At this time, Qiuqiu also woke up.

Qin Chuan took out a broken gun and fed the little guy, then took it downstairs, had breakfast, then went shopping in the street, bought a lot of ink paper, and a flute. Back to After leaving the inn, Qin Chuan began copying the insect repellent manual.

He didn't finish copying until the afternoon.

Then he took the flute and learned the sound control technique recorded on his hand.

This sound control technique is to control the nine. The peculiar flute sound made by the hatching of sound bugs.

Qin Chuan studied for a whole afternoon and barely mastered the sound control technique to five or six points.

At night, Qin Chuan left the ball, transformed again, put on a mask, and went to the little prince's residence. Dive away.

Before setting off, Qin Chuan did not forget to tear out the record about the Nine-tone Insect in the insect repellent handbook.

Of course he had his own purpose for doing this.

The night wind in early winter was very cold..Under the moonlight, a figure flashed and appeared in a silent courtyard.

"who?!"

Several secretly guarded guards rushed out from the dark corner of the courtyard.

The bloody light on the blood shadow disappeared, revealing the appearance of white hair and silver face. It was Qin Chuan who was visiting.

"Ha ha!! Wang Tianqi visited His Royal Highness the little prince again. I wonder if the little prince can come out to see him?"

As soon as he finished speaking, the little prince's voice came from the room.

"hehe!! Your Excellency is indeed trustworthy. I have been waiting for you for a long time. I wonder if you have brought your deworming technique?"

"Nature has brought it!"

At this time, the little prince and Commander Zou walked out of the house.

Qin Chuan happily threw the insect repellent handbook to the little prince

"This is the original book. Little Prince, would you like to take a look at it? Is there anything wrong with it?"

The little prince looked through it carefully. The notebook was very old, and the handwriting was not new. The contents were closely related to deworming. After only a brief inspection, the little prince was convinced that this was indeed an deworming technique.

"good! This is supposed to be deworming. It seems that you are also a person of integrity"

"Of course! In dealing with the little prince, if Wang cheated, wouldn't he be asking for trouble?"

"Ha ha!! What you said is interesting! Seeing that you are so happy, I will not be verbose! You should also accept this Yun Xi Dan!"

Then the little prince also threw a purple pill to Qin Chuan..

Chapter 2046

Qin Chuan accepted the elixir and briefly identified it. After confirming that it was Yunxi Dan, he put it away.

Immediately, Qin Chuan smiled again and said:"This transaction is very happy! Little prince, please go back and confirm next time. If this Yunxi Dan is really helpful to me, I will come again tomorrow night and trade the secret technique of gate control beast with the little prince!"

"good! I hope this Yun Xi Dan is useful to you, and I will still be here tomorrow night waiting for your arrival."

The little prince is still very much looking forward to the secret technique of animal control mentioned by Qin Chuan.

"Little prince, it's settled, I'll take my leave now!"

As soon as he finished speaking, Qin Chuan flashed and left the little prince's residence.

Sneaking all the way, Qin Chuan made sure that no one was following him, and then quietly returned to his residence.

After entering the house, Qin Chuan took out That Yunxiang Pill.

As soon as the Yunxiang Pill was taken out, a special fragrance spread out.

Smelling that fragrance, the golden mind body in Qin Chuan's sea of consciousness also trembled.

"How amazing! I didn't expect that there are pills in this world that can increase the power of my mind. I'd better give it a try first to see if it helps me."

Thinking of this, Qin Chuan came to the bed and sat cross-legged, taking the Yunxi Pill. As soon as the Yunxi Pill entered his stomach, within a moment, a stream of purple air rushed straight into his head. Qin Chuan's face changed.

It also changed slightly, and he vaguely heard the screams of various ferocious beasts and people in the purple airflow, which was also mixed with roars. It was a kind of scream from the soul.

This kind of scream made him inexplicable. The ground felt sad and angry.

What on earth happened? Is there something weird about the refining of Yunxi Dan?

Before Qin Chuan could figure out what was going on, the purple air flow rushed directly into Qin Chuan's sea of consciousness. , rushing towards the golden droplet that Qin Chuan's mind power has materialized.

""Boom", Qin Chuan felt a huge roar in his head, and then there was a sharp sting in his head.

This sting made Qin Chuan's face pale slightly.

Then, he was surprised to find that within the sea of consciousness, The golden liquid swelled in a large circle, and his power of thought also increased a lot, and his five senses became more sensitive.

Qin Chuan slowly opened his eyes and shot two cold eyes, with a terrifying pressure..

That gaze was as substantial as anything, and seemed to be able to penetrate everything in front of him.

Such a change could only occur if the mind power was strong to a certain extent.

And after Qin Chuan took the Yunxi Pill, his mind power reached this level. limit.

Then, Qin Chuan closed his eyes again and looked inside the golden droplet in the sea of consciousness.

That golden drop was the main thought body, which was much larger than before, and a small golden droplet was slowly surrounding it. Slowly rotating.

This small droplet is the split mind body.

But at this moment, the main mind body is wrapped in a purple energy.

And the bloody phantoms of ferocious beasts and human remains are coming from the purple energy. It came out elegantly, but it seemed to be bound by something, struggling there constantly.

Seeing this scene, Qin Chuan's heart suddenly suddenly thought of something.

It's hard to imagine that the Yun Xi Dan refined by their Wan family was made by human beings. Refined from the souls of ferocious beasts?

If so, their Wan family is really vicious. They can actually refine such a vicious elixir. Forget about those ferocious beasts, I just don't know how many people they will hurt. Life.

Thinking of this, Qin Chuan couldn't help but feel shameful and angry towards the royal family of the Kingdom of Beasts.

However, Qin Chuan is not a pedantic person. He will not give up this time just because the elixir refining method is weird. An opportunity to become a five-series warrior as soon as possible..

Chapter 2047

About half an hour later, the shadows of the remnant souls dissipated, and the purple energy gradually faded. Finally, only a ray of pure golden energy remained, completely integrated into the main body.

After the afterimage dissipated, Qin Chuan's willpower returned to its original state. However, as the last ray of golden energy merged into Biannian's body, Qin Chuan could feel that his willpower had really increased a lot.

"I didn't expect that this Yunxi Dan would really help increase my mental power, and it was much better than I imagined!"

"Taking one Yunxidan gave me an increase in mental power that was equivalent to my progress in the previous month. If I could get twenty more Yunxidan, I might be able to separate out the first one soon. With the two-part mind body, you can practice the gold-type exercises."

Thinking of this, Qin Chuan suddenly became excited. If he could become a warrior of the fifth line as soon as possible, the temptation for him would naturally be very great.

In fact, this is also because Qin Chuan's mind power has undergone substantial changes, and this Yun Xi Dan is the right one. The increase in his mental power has such a significant improvement effect.

For ordinary people, although it can also increase their mental power, it does not have such a great effect.

However, if you want to get twenty Yunxi Dan from the little prince It's not easy!

The only top martial arts skills he possesses are the Roar of the Ice Dragon and the Fire Feather Aegis. Even if he exchanges them for them, he can only exchange them for fifteen.

However, that is not cost-effective! Speaking of which, this little prince still has a heart. It's so dark that he dares to ask for a price that's all over the place. He will never let this person get what he wants. It seems that he can only rely on deception!

Thinking of this, Qin Chuan's eyes flashed, and he began to think about how to deceive the Yun Xi Dan.

Qin Chuan didn't have a very good impression of the little prince, so he felt that there was nothing wrong with lying to the little prince, and he would not be without any uneasiness in his heart. After a while, Qin Chuan thought of an idea.

In fact, he had a preliminary plan for this idea when he exchanged the Insect Repelling Technique with the little prince for Yunxi Dan last time, but he didn't think about it in detail.

Now that he had thought about all the details, Qin Chuan showed a smile on his lips and took out the Pingjiuyin insect egg looked at it and began to whisper to himself

"If you want to deceive Yun Xidan, it depends on you and Qiuqiu."

Thinking of this, Qin Chuan called Qiuqiu who was playing beside him and whispered something in his ear.

"Gujiguji!!"

The little guy suddenly flashed his two small eyes and nodded happily.

This also surprised Qin Chuan, and he thought: "This little guy is really spiritual. Can he really understand what I say?"

"Qiuqiu, do you remember everything I told you?"

"Gujiguji!"

Qiuqiu's little head nodded repeatedly, looking very well-behaved.

"very good! Don't make any mistakes then!"

"Gujiguji!!"

"Um!"

Qin Chuan raised his head and looked out the window. It was still early at this moment, and there was still some time before dark.

"I won't go to the little prince to negotiate a deal tonight. Let's do it tomorrow!"

Thinking of this, Qin Chuan went to the street, bought some fresh meat, wrapped it in paper, and kept it in his God of War Token space.

After returning to the inn, Qin Chuan took out his flute and continued to practice the sound control technique..

After practicing until late at night, Qin Chuan finally mastered the sound control technique completely.

Then, he imitated the rhythm of the sound control technique, randomly compiled a set of flute tones by himself, and also made a hand-written music volume.

After doing this, Qin Chuan was relieved and then fell asleep holding Qiuqiu in his arms..

But he said, in the outer courtyard of Tianshui School, in the little prince's room.

The little prince was walking around the room restlessly

"It's so late, why hasn't that Wang Tianqi come yet?"

Commander Zou on the side said:"Your Highness, it's almost midnight now. If Wang Tianqi hasn't come yet, he probably won't come.""

"Why doesn't he come?"

"this? Judging from his subordinates, it was likely that the Yun Xi Dan had no effect on him, so he chose to give up on the subsequent transaction."

Hearing this, the little prince sighed:"If this is really the case, it would be a pity. I really want to know what secret beast-controlling skills he has in his hands. It seems that he has no chance to see it."

"Your Highness, you don't have to feel sorry. It's hard to say whether he has that kind of secret skill. Maybe he just talked about it casually."

"hehe!! It would be great if that were the case, so that I wouldn't have to worry about it all the time. It's not too early, Commander Zou, go back and rest!"

"That subordinate resigned!"

At that moment, Commander Zou resigned, and the little prince also went to rest.

This night, it can be said that he was anxious to wait, but there was no result. He couldn't help but feel a little annoyed and frustrated.

But on the other side, Qin Chuan slept until late at night and didn't wake up. After waking up ,

Qin Chuan disguised himself and quietly walked towards the little prince's residence.

When Qin Chuan arrived at the little prince's residence, he found that the yard was quiet and the people in the house were mostly asleep.

However, he He didn't dare to go into the house to steal the Yun Xi Dan.

After all, there was a fourth-level Dzogchen master beside the little prince, and the little prince's residence was heavily guarded and there were hidden sentries in the yard. He made a little too big a move, It was easy to be discovered.

Qin Chuan did not stay in the front yard for long, and slipped directly into the backyard while the sentinels were not paying attention.

There were no guards in the backyard, only the little prince's pet, the purple-horned ice cloud leopard, guarded the backyard.

Qin Chuan's goal tonight was the purple-horned ice clouded leopard.

Entering the backyard, the purple-horned ice clouded leopard was sleeping soundly.

Qin Chuan took out a few pieces of fresh meat prepared during the day from the War God's Order space and quietly threw them aside. In the food bowl.

Perhaps because of the fierce nature of ferocious beasts, the sleeping purple-horned ice clouded leopard suddenly moved, and it seemed to sense someone passing by it.

After a while, the purple-horned ice clouded leopard sleepily He opened his eyes and glanced around, but found nothing unusual. Everything was still the same as before. Finding nothing unusual, the purple-horned ice clouded leopard was about to close its eyes and prepare to fall asleep again. Suddenly, its nose twitched. Because it asked about the smell of fresh meat.

Following the smell, it was surprised to find that there were a few more pieces of fresh meat in the food bowl next to it.

This made it surprised. It clearly remembered that the meat from the night had already been eaten. He had eaten all the meat, so how come there were a few more pieces now?

Could it be that the little prince felt sorry for himself for guarding at night and gave him extra food?

Seeing those pieces of fresh meat, the Purple-horned Ice Clouded Leopard couldn't help but have an appetite and swallowed a few pieces. The saliva in his mouth was so intense that he couldn't bear it any longer, so he stepped forward and ate heartily.

Qin Chuan, who was hiding in the dark, couldn't help but look happy when he saw the purple-horned ice clouded leopard eating the pieces of fresh meat.

Those pieces of fresh meat were not ordinary fresh meat. Qin Chuan had put those nine-note insect eggs into the meat.

According to his estimation, the purple-horned ice cloud leopard wouldn't be able to digest it in an hour or three after eating it. , as long as he can hold on until tomorrow morning, his plan will come true.

Thinking of this, Qin Chuan knew that the first step of his plan had been successful. He waited until the purple-horned ice cloud leopard finished eating all the fresh meat before Qin Chuan quietly return..

Chapter 2049

After returning to the inn, it didn't take long for the sky to get brighter.

Qin Chuan wakes up Qiuqiu from his deep sleep

"Little one, wake up!"

"Gujiguji!!"

Qiuqiu raised her little mouth and reluctantly opened her sleepy little eyes.

"Little guy, please work hard. Have you forgotten what I told you during the day?"

"Gujiguji!!"

Qiuqiu is holding his head in his paws and wants to stay in bed.

"Little guy, if you don't get up, I'll only give you gold coins from now on!"

As soon as these words came out, the little guy Qiuqiu immediately jumped up, hugged Qin Chuan's hand with a fawning expression, and screamed.

Qin Chuan couldn't help but laugh: "Little guy, you are so good! follow me!"

Immediately, Qin Chuan took Qiuqiu to a mountain forest outside Tianshui City while the sky was hazy and before dawn. In this mountain forest, some low-level ferocious beasts often appeared.

Qin Chuan took Qiuqiu away Put it in the forest, let it lurk there in advance, and give it a few instructions in its ear

"Qiuqiu, you should know everything I told you, right?"

"Gujiguji!!"

Qiuqiu nodded slightly.

"Qiuqiu, you have to behave well in a while! Don't make any mistakes! Remember, you are playing in this area, and when you see someone coming, you hide. You can only show up when I come over, got it?"

"Gujiguji!!"

"good! That's it! I went first!"

Qin Chuan left Qiuqiu behind and gave a few more instructions. Then he put on a mask and transformed into a fighting body, turning into a white-haired and silver-faced person.

"Now it's time to go find the young prince! Whether you can defraud Yunxi Dan from him this time depends on Qiuqiu's performance."

After saying that, Qin Chuan's figure flashed and rushed towards Tianshui City.

By the time Qin Chuan arrived at Tianshui City, the sun was rising, the morning fog had dissipated, and the stores on the street were open.

The outer courtyard of Tianshui School.

At the little prince's residence, several guards on vigil began to alternate positions.

Not long after, the little prince and Commander Zou also got up.

The purple-horned ice clouded leopard was also taken by the little prince, and the group was preparing to go out

"Your Highness, what are you going to do today? Commander Zou asked in a low voice.

The little prince pondered for a while and said, "Just go out for a walk!" Strangely enough, Wang Tianqi didn't even come last night! Does he really not want to make the following transaction with this prince?"

"Your Highness, since he didn't come last night, he probably won't come again."

"Maybe! It's just a pity that he has the secret skill of controlling animals."

The little prince sighed.

But at this moment, a shadow of blood flashed, and suddenly there was a figure in the yard.

This person was naturally the visiting Qin Chuan

"Huh! Wang Tianqi, you are here!"

When he saw Qin Chuan, a hint of joy flashed in the little prince's eyes.

Qin Chuan smiled slightly: "I have met the little prince before."

"Wang Tianqi, why did you miss your appointment last night?"

Qin Chuan pretended to sigh softly, and then said after thinking for a moment

"Little prince, please tell me directly. I got a Yunxi Dan from you that day and went back to try it. It did help me a little, but it was not as helpful as I imagined. So last night I was hesitating whether to continue with the transaction below."

"It wasn't until this morning that I made the decision to talk to the little prince again."

After hearing these words, the little prince was silent for a while and said: "Your Excellency, what you mean is that the following transaction will still continue."

"good! But in terms of price, we need to consider it next. If the price offered by the little prince is the same as last time, then I will have to give up. After all, such a transaction will not be worth the loss for me!"..

Chapter 2050

"hehe!! I don't know how credible your words are. You said that the Yunxi Pill did not have as great an effect on you as you imagined. I have not seen it with my own eyes, so how can I only believe your words?"

"Whether the little prince believes it or not, what I said below has come to light. This transaction is a matter of mutual consent. Although the little prince's Yun Xi Dan is good, I still have to get value for money. If I feel that it is not worth it, I will give up on this transaction!"

"Your Excellency has said so much, and I can understand it. Let's not talk about the price issue for now. I'd better ask you to use your secret skill of controlling beasts first. If it is really useful, then I would like to spend a few more Yun Xi Dan to buy your secret skill."

"good! Then let me first show the little prince the secret skill of controlling beasts."

"Before showing it, I would like to explain to the little prince that my secret skill is called: Magic Flute and Divine Sound. It is not like ordinary animal control secret skills, which can only have some effect on your own pets. This secret technique works on both your own pets and ordinary ferocious beasts."

Hearing this, the little prince suddenly became interested.

"hehe! There is also such a secret skill that is effective against ordinary ferocious beasts. So this secret skill is very practical."

"Of course! The effect of this magical flute and divine sound is very great. I will explain it to the little prince one by one later. Regarding the principle of the magic flute and the divine sound, I can also briefly explain it to the little prince here."

"This magical flute sound uses the power of mind to mix the vitality and blow a magical flute sound according to a specific rhythm. This kind of flute sound only affects the ferocious beasts. It mainly attacks the ferocious beasts' brains and causes the ferocious beasts to hallucinate. This illusion will make the beast feel as if it were actually there."

When the little prince heard what Qin Chuan said so clearly, he couldn't help but believe it in his heart. At the same time, he also looked forward to the magical flute sound that Qin Chuan said.

"The magical flute's divine sound actually has an effect on any ferocious beast, and it is produced by sound, which often achieves miraculous effects in battles! Especially when hunting ferocious beasts. If this magical flute sound is really what he said, it is really a rare and good secret skill!"

Thinking of this, the little prince said

"Your Excellency spoke of the resplendent tongue of a lotus flower and the magical sound of the phantom flute, but I have never seen it before. As the saying goes, seeing is believing, I hope you will perform it first so that I, the prince, can see it first!"

"Ha ha!! Of course! If the little prince is not allowed to see it, how can he know whether what I say is true or false?"

After saying that, Qin Chuan looked around, and finally his eyes fell on the little prince's pet, the purple-horned ice cloud leopard.

"Little prince, would you like to try it on your pet first?"

The little prince glanced at him, and then nodded in acquiescence.

Seeing the little prince's agreement, Qin Chuan took out the flute, cupped his hands and said, "I'm sorry!"

After saying that, Qin Chuan held his flute close to his lips and played the sound control technique at the purple-horned ice cloud leopard.

At first, the purple-horned ice cloud leopard looked at Qin Chuan stupidly, not knowing what Qin Chuan was going to do. It didn't take long. , the purple-horned ice clouded leopard began to feel a little uncomfortable, especially in the stomach. It felt vaguely painful, as if it had eaten something unclean last night and started to have a stomachache. The pain was very mild at first, but gradually As Qin Chuan played the flute, the pain became more and more severe. Standing there, the purple-horned ice clouded leopard began to tremble all over, and a look of pain gradually appeared in his eyes. Not long after, he fell to the ground, curled up in pain. Shrinking up.

The little prince and Commander Zou on the side looked surprised when they saw the purple-horned ice cloud leopard's performance. At this moment, everyone could see that the purple-horned ice cloud leopard's painful performance was all because of Influenced by Qinchuan flute music..
