

God level 2051

Chapter 2051

However, all this did not seem to be over. The purple-horned ice clouded leopard's pain continued to intensify. Soon, it could no longer bear it and began to roar crazily and roll on the ground.

"Roar!"

With a sudden roar, the purple-horned ice clouded leopard stood up and pounced towards Qin Chuan. It seemed to have discovered that its sudden pain was entirely due to the influence of Qin Chuan's flute.

Qin Chuan's figure dodged and escaped. The purple-horned ice clouded leopard also stopped playing the flute with a pounce.

The little prince also immediately stopped the purple-horned ice clouded leopard.

The purple-horned ice clouded leopard stopped attacking, but the pain in its belly remained unabated, still lingering. The ground was rolling and roaring.

Seeing his pet in such miserable condition, the little prince couldn't help but feel distressed and said: "Your Excellency has stopped playing the flute, why is my pet still in such pain?"

Qin Chuan said: "I hope the little prince will forgive me for this!" The magic flute and divine sound below is attacking the brain of the ferocious beast. In fact, its pain is not real pain"

"At this moment, it is trapped in a hallucination, so it feels that it is in pain, as if it is really in pain. And this kind of hallucination will last for a long time, at least one or two hours, before it can wake up from the hallucination and get rid of the pain."

"So this is ah! So, my pet will continue to suffer like this?"

"good!"

"So do you have any way to help it get rid of the hallucination?"

"No! My Phantom Flute and Divine Sound are only attacking, but they are not released."

"oh! It seems that this magical flute sound is indeed very powerful! It is indeed a very rare secret skill to be able to make the ferocious beast continue to fall into hallucinations."

At this moment, the little prince was very envious of Qin Chuan's magical flute music, and he was determined to obtain this magical skill. At the same time, he completely believed what Qin Chuan said.

After all, Qin Chuan performed this skill in person in front of him. A secret skill, and it was performed on his own pet. Obviously, it was impossible for Qin Chuan to collude with his pet to deceive him. It was absolutely impossible.

Therefore, the little prince couldn't help but not believe it.

In fact, Zi The reason why the horned ice clouded leopard is in so much pain is not because it is in any hallucination.

But last night, it ate the fresh meat that Qin Chuan put in. There were nine-tone insect eggs in the fresh meat.

When those nine-tone insect eggs heard Qin Kawabuki Minato's sound control technique naturally hatched in the Purple Horned Ice Clouded Leopard's belly, and then burrowed into the Purple Horned Ice Clouded Leopard's belly, causing great pain to the Purple Horned Ice Clouded Leopard.

This resulted in Qin Chuan It seems that the purple-horned ice clouded leopard will be in pain when the flute is played.

However, although the nine-note insect can hear the sound and hatch, its attack power is limited and will not cause much harm to the purple-horned ice clouded leopard.

And the hatched The life cycle of the nine-note insect is not long, and it usually dies naturally after one or two hours.

Therefore, Qin Chuancai said that the purple-horned ice cloud leopard fell into hallucinations and would last for one or two hours.

"Little prince, what do you think of this secret skill of controlling beasts?"

"good! It is indeed a very good secret skill for animal control, and I like it very much. Well, let's exchange ten Yunxi Dan for this secret skill of yours. What do you think?"

"Ha ha!! Don't worry, little prince. What I just used was just one of the effects of the Phantom Flute and Divine Sound. It also has another, even greater effect. I haven't shown it to the little prince yet?"

Hearing this, the little prince's eyes flashed brightly, and he asked in surprise:"Do you think this magical flute has another more magical effect?"..

Chapter 2052

"Of course! Little Prince, the Phantom Flute and Divine Sound I have is divided into two parts: the Phantom Attack Chapter and the God Control Chapter. What I just performed below is a phantom attack, causing your pet to fall into hallucinatory pain."

"Next, what I will perform on the little prince is the control of gods. In this God Control chapter, you can directly control the mind of the ferocious beast and let it act according to your wishes."

Hearing this, the little prince opened his mouth in surprise, and after a while he said:"Impossible! Is there such a magical secret skill in this world? If there really is such a secret skill, wouldn't it mean that if you see a ferocious beast, you can control it and use it to your advantage?"

"good! This God-Controlling Chapter does have such a miraculous effect. Of course, its effect can only be temporary control, not long-term control. Moreover, the higher the level of the ferocious beast, the harder it is to control.

The little prince nodded slightly and said,"I can understand this." As long as your God Control Chapter can control ferocious beasts of the same level, its value is no less than that of the Phantom Attack Chapter, or even higher. Your Excellency has said so much, why not show it to me now."

After that, the little prince looked at the purple-horned ice clouded leopard who was still writhing in pain, and asked: "Can you use one of your god-controlling techniques on my pet? Qin

Chuan shook his head slightly: "Your Highness, your pet is still deeply immersed in hallucinations. It is not suitable to use the God Control Chapter on it at the moment. How about this." Let's go outside the city now and find a wild ferocious beast to try.

The little prince pondered for a while and said: "This is better!"

At that moment, the little prince left his pet that was still writhing in pain, took Commander Zou, and went straight to the outside of Tianshui City with Qin Chuan.

Not long after, Qin Chuan took the two little princes to the morning to release the ball. The mountain forest where Qiuqiu was. As soon as Qin Chuan arrived there, he listened carefully and looked around for Qiuqiu's location.

Soon, he heard a slight snoring sound coming from a bush somewhere.

That snoring sound, Qin Chuan It was extremely familiar. It was coming from Qiuqiu.

Hearing this, Qin Chuan couldn't help cursing secretly: "What the hell is this little guy Qiuqiu doing? I let him stay here and cheat with me, but he was lazy and fell asleep here. No, I have to find a way to wake it up."

Thinking of this, Qin Chuan deliberately said loudly: "Little prince, there are often ferocious beasts in this place. As long as we wait for a while, we may be able to wait until one or two ferocious beasts appear. The little prince nodded and said,"

That's fine!"

But his eyes began to search everywhere. He wanted to see if there were any ferocious beasts.

But at this moment, Qin Chuan was anxious. He deliberately spoke loudly just now, just to wake up Qiuqiu, but the little guy was still sleeping soundly. , as if he didn't hear it at all.

Just when Qin Chuan was anxious to think of a solution, the little prince on the side suddenly pointed in a direction and said

"Look! There is a ferocious beast there. Your Excellency, you should quickly use the God Control Chapter to control it."

Qin Chuan immediately looked in the direction pointed by the little prince, and saw a second-level ferocious beast that suddenly broke into everyone's sight from nowhere.

The second-order ferocious beast was a double-tailed fire fox, with a nimble body and speed. Extremely fast.

When he heard that the little prince asked him to use the God Control Art to control the twin-tailed fire fox, Qin Chuan would certainly not do so, because he could not control the ferocious beast at all. If he did, he would be exposed.

But he said, the little prince Seeing that Qin Chuan hadn't moved for a long time, the prince hurriedly urged:"Why don't you hurry up and use your God Control Art? If he hesitates any longer, the twin-tailed fire fox will run away!"

Hearing this, Qin Chuan smiled slightly, condensed his energy into a sword, struck out a palm in the air, and then shot out a flaming sword, actually splitting the two-tailed fire fox in half with one move..

Chapter 2053

The little prince was very puzzled when he saw that Qin Chuan not only failed to use the God Control Art, but instead killed the two-tailed fire fox on the spot.

"What do you mean by this? Qin

Chuan sneered, pretending to be displeased.

"This twin-tailed fire fox is just a second-level ferocious beast. If you use the God-Controlling Chapter below to control it, then you will be underestimating the God-Controlling Chapter below,

right? The God Controlling Chapter below is for controlling ferocious beasts of the same level and above. How can it be used on such low-level ferocious beasts?"

Hearing this, the little prince suddenly said what he said, and at the same time he was even more happy. The stronger Qin Chuan's magic flute secret skill, the more useful it would be for him, and he was naturally happy.

But he said, Qin Chuan just killed When killing the two-tailed fire fox, he deliberately used the martial arts flame knife.

The flame knife killed the two-tailed fire fox and caused a huge roar, which immediately woke up Qiuqiu who was hiding in the bushes. As soon as Qiuqiu woke up, he immediately stretched out his furry head. The little head looked around.

When it saw Qin Chuan with two strangers, the little guy remembered his mission, screamed a few times, and slipped out of the room. Mu Cong. Qin

Chuan, who was not far away, could naturally hear Qiuqiu's actions clearly. He also breathed a sigh of relief and said to himself: "This little guy is really troublesome! Finally woke up! At this time

, the little prince on the side said: "It may be difficult to encounter ferocious beasts above the third level in this place. Why don't we go deeper into the forest?"

"That's fine!"

Qin Chuan readily agreed.

However, before the three of them could move on, there was a sudden turbulence in the jungle on one side, and a loud roar suddenly came from the sky.

The three of them were all frightened, and then Looking sideways,

I saw a huge figure leaping out from the jungle on one side and blocking the three people.

It was a dragon-headed lion body with two wings on its back and a red line on its forehead. It looked extremely fierce and fierce. Beast.

As soon as this ferocious beast appeared, an astonishing aura and coercion emanated from it.

As soon as the little prince sensed the aura and coercion, his face changed slightly in fright, and he couldn't help but retreat back.

"Your Highness, be careful!"

Commander Zou on the side even dodged in front of him.

Qin Chuan also pretended to change his face slightly and deliberately took two steps back.

In fact, he had an urge to laugh at this moment.

Because this ferocious beast was not another one. The ferocious beast is none other than Qiuqiu!

"Your Excellency, be careful! This is a third-level Dzogchen beast!"

The little prince on the side couldn't help but remind him.

Qin Chuan pretended to be calm and said: "Don't worry, little prince! It's even better if this ferocious beast reaches the third level of Dzogchen! Now I will show you how to control the gods! Let you know the power of my God Control Chapter!"

After saying that, Qin Chuan stood up with his flute and began to play the tune he had made up at random.

But it was said that Qin Chuan started playing the flute.

Qiuqiu pretended to be angry and stared at Qin Chuan inexplicably.

But behind Qin Chuan The little prince and Commander Zou both looked nervously at the man and the beast in the field. At this moment, they both wanted to know how Qin Chuan could control this powerful beast with the sound of the flute.

Soon, something magical happened..

As Qinchuan's flute played, the mighty ferocious beast gradually restrained its evil spirit, and the ferocious light in its eyes became softer. The two little princes looked at each other with surprise in their eyes.

Next, what surprised the two little princes even more was that as Qin Chuan's flute continued to play, the ferocious beast began to become a little dazzled, stood in the field and began to sway, and then actually twisted and turned in the field. The ground danced a strange dance.

Seeing such a scene, the little prince and Commander Zou both opened their mouths in surprise.

However, the next scene was even more exaggerated.

The ferocious beast suddenly stood up like a human and twisted. A pair of huge buttocks, like humans in the field, danced exaggeratedly.

The little prince and Commander Zou looked at each other and saw the unbelievable look in each other's eyes..

Chapter 2054

After a long while, the little prince praised him

"Tsk tsk!! This God-Controlling Chapter is really amazing. It can actually make a third-level Dzogchen beast make such exaggerated movements. From this, it can be seen that the ability of the God-Controlling Chapter to control the beast's mind is really extraordinary!"

"yes! My subordinates have never seen such a magical secret technique of animal control."

Even Commander Zou, who had been silent all this time, couldn't help but praise.

It was different from the two little princes who were in awe.

At this moment, Qin Chuan was playing the flute. When he saw Qiuqiu's exaggerated performance, cold sweat broke out on his forehead.

He couldn't help but murmur in his heart: "Is this little guy's performance a bit exaggerated? How can any ferocious beast dance like this?"

Before Qin Chuan could finish muttering in his heart, Qiuqiu made another even more exaggerated action.

He grinned, revealing a row of white teeth, making a cute smile.

The two claws were even more tense. He raised his orchid fingers, twisted his fat buttocks, and raised his hips in an exaggerated posture, creating an extremely exaggerated POSE.

Seeing Qiuqiu make such a POSE, Qin Chuan almost wanted to burst out laughing.

And the two little princes behind him, He was even more surprised, and almost dropped his chin to the ground.

At this time, Qin Chuan knew that he could no longer play, and could no longer play.

If he continued to play, he might not know what Qiuqiu would do that would be even more exaggerated. It would be bad if the secrets were revealed.

However, as soon as Qinchuan's flute stopped playing, Qiuqiu immediately stopped dancing in cooperation, pretending that his eyes were confused, as if he had just woken up from a dream, and glanced around blankly, and finally looked at It fell on Qin Chuan.

Suddenly, it seemed to remember something, roared, and flew away with a swish of wings. It wasn't until the ball suddenly flew away that the little prince and Commander Zou woke up from their shock..

The two of them were still immersed in the shocking scene before.

At this moment, the two of them woke up from the shock, but the ball had flown away.

Seeing the ball fly away, Commander Zou couldn't help but sigh with regret.

"The ferocious beast just now is not simple. Judging from the aura it exudes, it is much stronger than your pet, Your Highness."

"yes! This prince can also see this, it is indeed a rare beast. However, no matter how strange this ferocious beast is, it can't resist the divine sound of the phantom flute!"

"Ha ha!! Of course! Wang's Phantom Flute Divine Sound is not an ordinary secret skill for controlling animals. How can other secret skills compare to it? I wonder how the little prince feels about this secret skill?"

"good! It is indeed a very magical secret skill, and I will make a deal with you. Just make a price directly!"

"Thirty Yunxi Pills!"

Hearing this, the little prince showed a look of astonishment on his face and said with some dissatisfaction.

"For a secret skill, if you ask this prince for thirty Yunxi Dan, are you going to be too greedy?"

Qin Chuan said disapprovingly: "Little prince, your Yun Xi Dan can only be refined by your Wan family." Let me tell you one thing. This magical flute and divine sound is also a unique secret skill passed down from the next family. Currently, I am afraid that only the next person in this world can master it."

"Otherwise, have you ever heard of this secret skill? You must have never heard of it, right? This is also because I never show this secret skill in front of others, so few people in the world know about it."

"I say all this because I want to tell His Highness the little prince that this secret skill is not only magical, but also very rare."

After hearing these words, the little prince was silent for a while before saying

"Your secret skill is indeed very miraculous, but it requires thirty Yunxiang Pills, which is too expensive, right? How about this? How about I buy this secret skill of yours with twenty-five Yunxi Dan?"

"No matter how much, there is nothing I can do, because the amount of Yun Xi Dan I carry is limited..

Chapter 2055

Qin Chuan pondered for a while and said:"Okay! In that case, twenty-five will be twenty-five. I'll make friends with the little prince and show my favor."

Hearing this, the little prince was overjoyed:"Haha!! Your Excellency is so refreshing! I appreciate your kindness!"

"hehe!!"

Qin Chuan smiled slightly, without comment, took out a prepared manuscript from his arms and handed it to the little prince.

"Little Prince, this is the last Phantom Attack chapter of Phantom Flute and Divine Sound. Do you think there is anything wrong with it?"

The little prince immediately got excited and took the manuscript and looked at it.

There were musical symbols recorded in the manuscript.

The little prince was born in a royal family and was naturally proficient in musical notes. With just a glance, he could see the musical symbols marked on the scroll. It was consistent with the phantom attack chapter played by Qin Chuan before, and he was convinced that this manuscript was authentic.

In fact, this manuscript was not a phantom attack chapter of the phantom flute and divine music at all, but a sound control in the art of repelling insects. Technique is used to encourage the hatching of nine-note insects.

"good! This manuscript must be authentic. And what about the next chapter on controlling gods?"

The little prince was sure it was genuine, so he put away the manuscript.

Qin Chuan looked at him and smiled without saying a word.

The little prince immediately understood, took out three jade bottles from his arms, and handed them to Qin Chuan

"These three bottles contain exactly twenty-five Yunxi Dan. I would like you to take a look at them. Is there anything wrong with them?"

Qin Chuan took the jade bottle and opened it one by one to confirm. He found that they were indeed Yunxi Dan, so he accepted it with confidence, and at the same time he was filled with joy.

According to his prediction, these twenty-five Yunxi Dan , enough for him to separate his second mind body, allowing him to achieve the five functions of distraction and become a warrior of the five elements.

After accepting the elixir, Qin Chuan took out another handwritten scroll and handed it to the little prince

"Your Highness, the little prince, this is the next chapter on the magic of controlling gods. Please take a look at it."

Actually, this second chapter is nothing. The set of music recorded in it was all made up by Qin Chuan himself.

After the little prince accepted the manuscript, he also looked through it carefully and found that the set of music recorded in it was all made up by Qin Chuan himself. The melody was similar to what Qin Chuan had played before, so he was convinced that it was true and put it away happily.

"Ha ha!! This transaction with you is very pleasant!"

"What the little prince said is that I am very happy to complete this deal with the little prince. Now that the transaction is over, I won't be staying for a long time, so I say goodbye!"

"good! Your Excellency, walk slowly! Qin

Chuan was about to leave when he suddenly remembered something and turned around:"By the way, Your Highness, the little prince, I have one more thing to tell you." The Phantom Flute Shen Yin below uses sound waves to attack the brains of ferocious beasts, so it can not only attack single targets, but also attack in groups."

"If the little prince masters this secret skill in the future, he can go find a large group of ferocious beasts and try it out. The effect is guaranteed to be amazing! Hearing this

, the little prince was overjoyed and said secretly:"Yes!" The attack of the sound wave is unlimited. It can attack a single target, and of course it can also attack a group. Why didn't I think of that? It seems that the magical flute sound is even better than I imagined! This transaction was really profitable!"

Thinking of this, the little prince said excitedly:"Thank you very much for telling me!"

"Ha ha!! The little prince is welcome! Farewell! Qin

Chuan laughed loudly, and left the scene in a flash.

After Qin Chuan left, the little prince happily said to Commander Zou:"Haha!! Today's harvest is really not small! This prince is in a great mood now!"

"Congratulations to Your Highness!"

"Ha ha!! Now I can't wait to learn the magical music of the Phantom Flute, especially the God-Controlling Chapter, it's so amazing! I, the prince, will go back and practice this chapter on controlling gods now. Commander Zou, let's go back!"

"yes!"

At that moment, the two little princes rushed to the city...

Chapter 2056

After the two little princes left, another figure appeared in the field.

It was Qinchuan who had gone and returned.

As soon as Qin Chuan appeared, he called softly into the forest:"Qiu Qiu!"

A moment later, a small white figure emerged from a bush somewhere and ran towards Qin Chuan. It was That little guy Qiuqiu.

At this moment, it has returned to its previous cute little appearance

"Come over here!"

Qiuqiu ran over happily and jumped into Qin Chuan's arms.

"The little guy did a great job this time!"

"Gujiguji!"

Qiuqiu also nodded proudly, seemingly very satisfied with his previous performance.

Qin Chuan smiled slightly:"Little guy, you are so proud! Let's go back!"

At that moment, Qin Chuan took Qiuqiu and hurried back to the city.

He was now anxious to refine the twenty-five Yunxi Dan earlier so that he could become a five-element warrior earlier.

On the other side, the little prince was also anxious I hurried back to my residence and started practicing the volume on God Control.

Time passed quickly, and two days passed in the blink of an eye.

On this day, a young warrior wearing brocade clothes and holding a jade flute appeared in the Ten Thousand Beasts Forest outside Tianshui City..

This young warrior is the little prince.

Commander Zou is still following the little prince, never leaving.

Today is the day when the little prince masters the God-Controlling Chapter. As soon as he masters the God-Controlling Chapter, he can't wait to think of everything. Find a ferocious beast in the beast mountain forest and try the power of controlling gods.

"We've been walking for a long time, why haven't we encountered a ferocious beast yet?"

At this moment, the little prince was in a very irritable mood. He was eager to find a ferocious beast to test the power of the God-Controlling Chapter, but he couldn't find a ferocious beast.

"Don't be anxious, Your Highness! There are many ferocious beasts in this Ten Thousand Beast Mountain Forest, and sooner or later you will encounter one."

As soon as Commander Zou finished speaking, he heard noisy beast roars and fighting sounds in front of him.

The two immediately looked at each other and rushed over.

When they arrived at the scene, they happened to see a group of low-level warriors being attacked by a group of The silver-horned blood wolves are besieging them.

The silver-horned blood wolves are all first-level ferocious beasts, and one of their leaders is a second-level ferocious beast.

There are very many silver-horned blood wolves in the field, at least thirty or forty.

Among them Under the siege, the situation of that team of low-level warriors was very bad.

Seeing this, the little prince's face showed joy, and he said to Commander Zou on the side: "Commander Zou, don't take action next, just watch this prince of!"

Having said this, the prince laughed, flashed, and rushed into the battlefield.

His laughter was very sudden.

The people and beasts in the field were stunned, and they all stopped attacking and looked at this man inexplicably. The little prince appeared unexpectedly.

Seeing that he had attracted the attention of everyone and the beasts present, the little prince felt very proud.

At that moment, he walked proudly to the front of the group of warriors, and said as if he were a master.

"Everyone! Why bother dealing with dozens of little ferocious beasts? Just look at how I can easily drive away these beasts by myself!"

After saying that, the little prince confidently took out the jade flute and played the God Control Chapter.

In the field, the young warriors saw the little prince walking up to them inexplicably. They said something big and self-righteous, and then took the He started to play the flute.

The flute sound was very unpleasant, a bit like a duck's croaking, without any melodic beauty.

In fact, the set of flute sounds in the God Control Chapter was made up by Qin Chuan at random. Naturally, it has no melodic beauty. It's strange that it is not ugly..

But the group of silver-horned blood wolves saw the little prince suddenly running up to them and playing the flute, and the playing was very unpleasant. They didn't know what the little prince was going to do. They just looked at the little prince as if he were a fool..

Chapter 2057

Moreover, when the little prince saw all the beasts staring blankly at him, he felt a burst of joy in his heart, and said to himself: "This God-Controlling Chapter is indeed useful. These silver-horned blood wolves were all frightened when they heard the sound of this prince's flute. I don't know what I'm doing when I'm standing there."

Just as he turned this thought over in his mind, the wolves in the field began to move. They actually gave up the group of low-level warriors as their target and slowly surrounded the little prince alone.

At this time, the little prince also noticed something was wrong.

Just when he was wondering, the wolf suddenly growled and sent a signal to attack.

The wolves immediately roared and rushed towards the little prince.

The little prince's resentful screams and angry roars suddenly came from the field.

Half a day later, a beggar-like figure with scratches all over his body and ragged clothes appeared in a corner of the Ten Thousand Beasts Forest.

This figure is none other than the little prince who was besieged by a pack of silver-horned blood wolves not long ago.

At this moment, the little prince was in a very embarrassed state, and his eyes were full of incomparable resentment.

Commander Zou also followed behind him silently.

Suddenly, the little prince looked up at the sky and roared loudly in the air: "Wang Tianqi! You bastard! How dare you deceive me! This prince must kill you!!"

.....

But after Qin Chuan got the twenty-five Yunxi Pills, he started refining them day and night.

On the night of the seventh day, in the inn room.

Qin Chuan sat with his eyes closed and slowly opened his eyes. Two substantial rays of light erupted from his eyes. This was a sign that his mind power had reached a very high level.

Afterwards, Qin Chuan's pupils shrank, the light disappeared, and his eyes returned to normal.

But his face was full of joy.

This time he refined twenty-five Yun Xi Dan, allowing Qin Chuan to become a fifth-line warrior ahead of schedule, and also saved him a lot of time.

Finally succeeded!! After refining the twenty-five Yunxi Pills, his mind power increased greatly, and as expected, he separated into the second mind body. He can now use the five powers of distraction.

But to become a true warrior of the five elements, he must first practice the gold element techniques to the first level."

At this moment, in Qinchuan's sea of consciousness, around the big golden droplet, in addition to the small golden droplet spinning around before, there was another small golden droplet.

The second golden droplet The drop is the second part of the mind body that Qin Chuan has just separated using the distraction technique.

After successfully separating the second part of the mind body, Qin Chuan can't wait to take out the previously purchased gold system "Yang Jin Jue" and start Start practicing.

At this moment, he has been able to achieve the five functions of distraction, and of course he can practice with the five elements.

This practice means practicing until dawn.

Qinchuan's other four elements of vitality have made some progress, but only the gold element of vitality is the first master. The acupuncture points have not been opened, and he has not even stepped forward to become a quasi-warrior.

After all, among the five qualifications, his Gold qualification is the worst, and he is still an inferior qualification.

Such a result was also what Qin Chuan had expected.

"It seems that cultivating this metal element energy does not require the assistance of some pills. If you want to practice the first level of elementary level, you don't know how many years and months it will take. According to this progress, I am afraid that you may not be able to cultivate to the first level of elementary level in one or two years.

Thinking of this, Qin Chuan decided to go to the market during the day to buy a series of gold-type elixirs, and also buy some gold-type spiritual objects for Qiuqiu.

In these seven days, Qiuqiu had already finished the remaining iron guns.

However, its cultivation level has also improved, but it is still at the third level of Dzogchen.

If Qin Chuan wants to let it reach the fourth level of cultivation as soon as possible, he must buy some high-level gold spiritual objects for it..

Chapter 2058

After breakfast, Qin Chuan took Qiuqiu to the bank first.

This time, Qin Chuan did not change his clothes and went out in his original appearance.

After arriving at the bank, Qin Chuan exchanged all the silver notes he had on him for gold coins.

At this moment, he already had as many as 260,000 gold coins on his body.

After exchanging the gold coins, Qin Chuan went to Fang Market and purchased a batch of elixirs. There were elixirs from all five series, especially the elixirs from the middle gold series. Qinchuan purchased the most elixirs.

This time, Qin Chuan spent 100,000 gold coins on the purchase of the elixir, which was a huge sum of money. Even an ordinary kid from a wealthy family would not have such a generosity.

But in order to improve his cultivation level as soon as possible, Qin Chuan didn't care at all about coins.

These pills were all stored in the God of War Order space by Qin Chuan.

After purchasing the elixir, Qin Chuan wanted to go to the auction, but was told that the next auction would not open until eight days later.

Qin Chuan asked if there would be any gold-based spiritual objects in the next auction.

The person being questioned was a young teller. He looked at Qin Chuan and saw that he looked only fourteen or fifteen years old, but his cultivation was already a second-level Dzogchen warrior. At that moment, he did not dare to look down upon him. Receive politely

"Young hero, I see that you are not practicing the metal system. Why are you so interested in metal spiritual objects? Qin Chuan said:"

Of course I will be useful!" The young teller suddenly realized in a smart way:"I understand, this young hero wants to collect some gold spiritual objects in order to refine spiritual weapons, right?"

Qin Chuan smiled slightly and was noncommittal.

The young teller continued:"Young man, in fact, there will be a gold spiritual object at the next auction, and that gold spiritual object will be the highlight of the next auction.."

Hearing this, Qin Chuan's eyes immediately showed joy.

The value of gold spiritual objects that can be used as final items is naturally very high.

As Qiuqiu's cultivation improved, Qin Chuan found that those ordinary gold spiritual objects promoted The growth effect of Qiuqiu is getting smaller and smaller.

Just like last time, Qiuqiu only ate half of the spear and reached the third level of Dzogchen from the peak of the third level.

Later, Qiuqiu ate the remaining half of the spear. Qiuqiu's cultivation level is still stuck at the third level of Great Perfection, and has not even reached the peak of the third level of Great Perfection.

Obviously, as Qiuqiu's cultivation level improves and eats the same food, its growth progress slows down.

Therefore, Qin Chuan speculated that if Qiuqiu is allowed to eat Sky-Tempered Gold now, its growth progress will be limited, and it will definitely not be as fast as the first time it ate Sky-Tempered Gold. If you want Qiuqiu to grow as fast as before, just let it eat A higher-level gold spiritual object.

Therefore, when Qin Chuan heard that there was a gold spiritual object as the finale item, he was naturally pleasantly surprised.

As long as he could get that gold spiritual object, Qiuqiu would be one step ahead. Advance to the fourth level.

According to his estimation, when Qiuqiu reaches the fourth level, his strength should be comparable to that of a fourth-level Dzogchen warrior.

At that time, Qiuqiu will have the same strength as him. Only one person and one beast can truly The value of joining forces.

However, after Qiuqiu reaches the fourth level, subsequent advancements will be more difficult, because it is even more difficult to find higher-level gold spiritual objects.

Thinking of this, Qin Chuan asked curiously : "Excuse me, what is the golden spiritual object as the finale?

The young teller said: "Meteor from the sky!"

"What? Extraterrestrial meteorite? Qin Chuan said in surprise...

Chapter 2059

Seeing Qin Chuan's surprised look, the young teller was very proud. He expected that Qin Chuan would be surprised as long as he said the name of this golden spiritual object.

At this moment, Qin Chuan was really surprised. The meteorite iron could only be found from meteorites.

There are not many meteorites outside the sky, and those rich in meteorite are even rarer.

The most important thing is that this extraterrestrial meteorite iron is often used to refine top-quality spiritual weapons.

The best spiritual weapons are extremely rare, even in the hands of eighth-level warriors, and their value is much higher than ordinary spiritual weapons.

The birth of every top-quality spiritual weapon is an earth-shattering event and will definitely lead to a bloody battle.

And the value of a top-quality spiritual weapon is also extremely expensive. Unlike ordinary spiritual weapons, it is only worth hundreds of thousands of gold coins.

The value of any top-grade spiritual weapon can reach millions of gold coins, and some of the best ones can even reach tens of millions of gold coins.

The reason why top-quality spiritual weapons are so precious is that they can increase a warrior's combat effectiveness by more than 50%. Some of the best of the best spiritual weapons can even reach 60%, and they also come with special effects and even skills.

Ordinary spiritual weapons can only increase the warrior's combat effectiveness, but they have no special effects, and can only increase the combat effectiveness by about 20%.

Precisely because the best spiritual weapons are extremely valuable, the materials that can be used to refine the best spiritual weapons have also become extremely expensive.

Just like this extraterrestrial meteorite is one of them.

However, the texture of this meteorite iron is extremely hard, and its grade is indeed much higher than that of sky-tempered gold.

If you let Qiuqiu eat such a small piece, it will definitely be no problem to advance to the fourth level.

Thinking of this, Qin Chuan's heart suddenly became hot. Of course he wanted to get that piece of meteorite.

At that moment, Qin Chuan tentatively asked, "Brother, do you know how much that piece of meteorite is worth?"

The young teller pondered for a while and said, "According to my many years of experience, that piece of meteorite is worth The meteorite iron is worth about three to four hundred thousand gold coins! Haha!! Such a price is not something ordinary people can afford!"

"yes!"

Qin Chuan also sighed, but secretly thought about it in his heart.

This meteorite iron is not even the main material for refining the best spiritual weapons, but its value is so precious. It seems that the value of the best spiritual weapons is indeed terrifyingly expensive.!

Unfortunately, he just spent 100,000 gold coins, and he only has more than 160,000 gold coins. If he wants to bid for this extraterrestrial meteorite, there is still a long way to go. It seems that he has to find a way to get enough money first.!

Thinking of this, Qin Chuan decided to wipe off the drop of Sky Fire Liquid and the two drops of Thousand Years Ice Heart Liquid on his body.

Although these two things will have a little effect on his future advancement to the fourth level, they have little effect after all.

More importantly, if Qiuqiu can advance to the fourth level, Qin Chuan's strength will be greatly increased, and the trip to the forbidden area will be much safer.

If this opportunity is missed, can Qiuqiu advance into the forbidden area? No one knows when it reaches the fourth level.

Therefore, Qin Chuan would rather give up the Heavenly Fire Liquid and the Ten Thousand Years Ice Heart Liquid to get the piece of meteorite iron.

With a plan in mind, Qin Chuan left Fangshi with Qiuqiu..

After leaving Fangshi, Qin Chuan coaxed Qiuqiu into the space of the God of War Order, then transformed into Wang Tianqi and returned to Fangshi, sending out the drop of Heavenly Fire Liquid and Wannian Ice Heart Liquid. With the strength of

Wang Tianqi, Qin Chuan taking out these two things for auction would not seem out of the blue, it would be quite normal.

After all, except for warriors of the fifth level and above, he has no fear at all of the warriors below the fourth level, so he is naturally not afraid of being plotted against..

Chapter 2060

According to Qin Chuan's estimation, the value of one drop of Sky Fire Liquid and two drops of Ten Thousand Years Ice Heart Liquid can be auctioned for at least 300,000 gold coins. Adding in

the money on his body, it is close to 500,000 gold coins. He wants to bid for that piece. Meteorites from the sky are also very possible.

After sending the Heavenly Fire Liquid and Ten Thousand Years Ice Heart Liquid, Qin Chuan left Fang City, found a remote place, changed back to his original clothes, and took Qiuqiu to the Tianshui School.

The second thing he has to do now is to go to the Tianshui School's library to look up information on fusion martial arts.

Learning fusion martial arts is also something Qin Chuan is extremely eager to do.

After all, he doesn't have any powerful martial arts now because he is not at a high level to learn superior martial arts.

Therefore, he is currently eager to master a fusion martial arts to improve his combat effectiveness.

This trip to Tianshui School is a must.

After going to the Tianshui School, Qin Chuan went directly to the registration office, handed in the tuition of five hundred gold coins, received the student uniform and dormitory number, and became a student of the Tianshui School's outer college.

Everything went so smoothly that Qin Chuan was a little surprised. It seemed that the outer courtyard of Tianshui School really only recognized money and not people.

However, he didn't really want to be a student. It would be a waste of time. The purpose of joining the Tianshui School was to look up information on how to integrate martial arts.

After asking a student for the address of the library, Qin Chuan took Qiuqiu to the library.

The library is on the west side of the outer courtyard.

After Qin Chuan paid the admission reading fee of one gold coin, he entered the library to search for information.

The materials in this library are open to all students.

The library is very big, divided into four floors.

The bookshelves on each floor are filled with densely packed books.

These books are divided into: fighting skills theory, continental geography notes, characters and strange stories, ancient biographies, five elements theory, various weapons usage skills, vicious beasts, spiritual herbs and treasures, and strange and interesting books. , language and customs, miscellaneous notes, etc.

It can be said to be all-encompassing and has everything you need.

The content is very rich and majestic.

Before entering the library, Qin Chuan did not know that the library was so rich in content. After entering, he realized that he had underestimated the Tianshui School.

At the same time, he also sighed in his heart that these things are very practical. This is a treasure house of knowledge. If he could really read them all, his personal knowledge and vision would be greatly improved.

Although you cannot say that you are rich in knowledge, you can at least become a knowledgeable person.

However, Qin Chuan did not have that much time and energy to browse through all these books, so he could only sigh with disappointment.

Afterwards, Qin Chuan began to look around for information on how to integrate martial arts.

At this moment, Qin Chuan felt like he was looking for a needle in a haystack.

It is too difficult to find information about fusion martial arts among so many documents.

After thinking for a while, Qin Chuan decided to start from the miscellaneous notes category.

Because the information on fusion martial arts is most likely classified into the miscellaneous notes category.

The largest number of miscellaneous books are placed on the fourth floor at the top.

Perhaps because there are too many miscellaneous books and the content of the books is mixed, there are not many people on this fourth floor, only six or seven people.

After getting to the fourth floor, Qin Chuan started to read through the scrolls, while Qiuqiu was bored and playing with himself.

After browsing all morning, Qin Chuan only read a third of the entire miscellaneous books, but unfortunately he still couldn't find what he wanted.

At this moment, Qin Chuan was the only one left on the fourth floor, and the others had gone to have lunch.

Qin Chuan was naturally unwilling to find what he was looking for and continued to rummage there..

Just when he was feeling irritable, a hoarse yet gentle voice suddenly sounded from behind him.

"What are you looking for, little one?"

Hearing this, Qin Chuan was startled and turned around quickly.

He saw an old man with a kind face and gray hair standing behind him, looking at him with a smile.

Seeing this old man, Qin Chuan was very frightened..
